Toxicologist Warns Against COVID Jabs

Analysis by Dr. Joseph Mercola Fact Checked

December 05, 2021

Download Interview Transcript | Download my FREE Podcast

STORY AT-A-GLANCE

- Janci Chunn Lindsay, Ph.D., a molecular biologist and toxicologist, has called for an immediate halt to COVID-19 mRNA and DNA vaccines due to multiple safety concerns
- There's credible concern that the COVID jabs will cross-react with syncytin (a retroviral envelope protein) and reproductive genes in sperm, ova and placenta in ways that may impair fertility and reproductive outcomes
- In the case of the COVID shots, important animal studies that help ascertain toxic and systemic effects were not done. We're now seeing danger signals that are not being heeded. Preliminary safety results of mRNA COVID shots used in pregnant women, published in April 2021, revealed an 82% miscarriage rate when the jab was administered during the first 20 weeks of pregnancy
- CDC data reveal more than 300 children between the ages of 12 and 18 have died from myocarditis, a now-recognized side effect of the COVID jab, yet the shot is now authorized for children as young as 5
- Since the COVID gene therapies do not prevent infection, but only lessen symptoms, they are actually a treatment, not a prevention. And there are far safer and more effective treatment available, including nebulized peroxide, ozone therapy, and hydroxychloroquine and ivermectin regimens

Janci Chunn Lindsay, Ph.D., is a molecular biologist and toxicologist and director of toxicology and molecular biology for Toxicology Support Services LLC. April 23, 2021, she delivered a three-minute public comment to the U.S. Centers for Disease Control and Prevention's Advisory Committee on Immunization Practices (ACIP).

Her expertise is analysis of pharmacological dose-responses, mechanistic biology and complex toxicity dynamics. In her ACIP comment (see video below), Lindsay described how she aided the development of a contraceptive vaccine in the 1990s that ended up causing unintended autoimmune destruction and sterility in animals which, despite careful pre-analysis, had not been predicted. She explains:

> *"We were developing what was meant to be a temporary contraceptive vaccine, which was very attractive because it prevented fertilization rather than preventing implantation — or it should have; that was the idea.*
>
> *Unfortunately, even though quite a bit of analysis was done in different animal models to make sure that it did not have an autoimmune action, it did end up having an autoimmune action and caused complete ovarian destruction.*
>
> *Now it's used in that manner [for permanent sterilization] in dogs, cats and other animals. So, that's a cautionary tale of how animal studies can help us avoid mistakes in humans when they're used properly, and when proper animal studies are done."*

We May Be Sterilizing an Entire Generation

Video may not work on all browsers

At the time, she called for an immediate halt to COVID-19 mRNA and DNA vaccines due to safety concerns on multiple fronts. In particular, she noted there is credible concern that they will cross-react with syncytin (a retroviral envelope protein) and reproductive genes in sperm, ova and placenta in ways that may "impair fertility and reproductive outcomes."

Not a single study has disproven this hypothesis, she noted. Another theory of how these injections might impair fertility can be found in a 2006 study,[1] which showed sperm can take up foreign mRNA, convert it into DNA, and release it as little pellets (plasmids) in the medium around the fertilized egg.

The embryo then takes up these plasmids and carries them (sustains and clones them into many of the daughter cells) throughout its life, even passing them on to future generations. It's possible that the pseudo-exosomes that are the mRNA contents would be perfect for supplying the sperm with mRNA for the spike protein.

So, potentially, a vaccinated woman who gets pregnant with an embryo that can (via the sperms' plasmids) synthesize the spike protein according to the instructions in the vaccine, would have an immune capacity to attack that embryo because of the "foreign" protein it displays on its cells. This then would cause a miscarriage.

"We could potentially be sterilizing an entire generation," Lindsey warned. The fact that there have been live births following COVID-19 vaccination is not proof that these injections do not have a reproductive effect, she said.

Lindsay also pointed out that reports of menstrual irregularities and vaginal hemorrhaging in women who have received the injections number in the thousands,[2,3,4] and this too hints at reproductive effects. In this interview, we dive deeper into these mechanisms.

Something Has Gone Horribly Wrong

When asked how she ended up getting so passionately involved in this controversial topic, Lindsay replies:

> *"I became interested in the issue because science was not making sense anymore. For instance, herd immunity was being redefined. Herd immunity has always been defined by a combination of the natural infection with vaccination practices that work.*
>
> *Suddenly, herd immunity was changed to only being attained through vaccination, and I knew that that was horribly wrong, yet it was being touted everywhere. It was certainly being touted by [Dr. Anthony] Fauci and others who know better.*
>
> *Other things were also happening within the scientific world. Two of our top tier journals, The New England Journal of Medicine and The Lancet, published fraudulent hydroxychloroquine studies.*
>
> *Ostensibly they had gone through peer review, and it should've been easy to catch the errors in these studies — as well as many other studies that allow for the emergency use authorization of these gene therapies — and they weren't caught.*
>
> *Hydroxychloroquine and ivermectin are very safe. They've been used safely in pregnant women and children for decades, and suddenly they were being vilified as if they were not safe. As a toxicologist, I know they are safe.*
>
> *So, these types of things really piqued my attention along with all of the stuff going on in the background with respect to the New World Order and the agenda set by the World Economic Forum, and our joining into this, along with so many other countries, despite their intent, their materials, which claim life will be changed as we know it.*
>
> *We will 'own nothing and be happy [about it]' in just a few years. All of these things converged for me into a sense that something had gone horribly wrong, that our regulatory institutes were captured, and that our scientific journals were not being honest anymore …*
>
> *There's a paper that came out in 2006 called 'Disease Mitigation Measures in the Control of Pandemic Influenza.'[5] This paper is wonderful. It goes through World Health Organization and CDC guidelines on how to react during a pandemic, what works and what doesn't work, and it clearly points out that masks don't work.*
>
> *They knew at that point they don't work. Travel lockdowns don't work. It's a wonderful paper*

to basically go through everything we have done in response to this pandemic, and say that's an inappropriate way to respond, and we have scientific data that proves it. So, I encourage everybody to go back to that paper … to really see how crazy we've gotten in the mandates that make no scientific sense at all."

Massive Danger Signal Is Being Ignored

As noted by Lindsay, in the case of the COVID shots, important animal studies that help ascertain toxic and systemic effects were not done. But we're still seeing danger signals that need to be heeded.

Preliminary safety results of mRNA COVID shots used in pregnant women, based on data from the V-Safe Registry, were published in The New England Journal of Medicine (NEJM) in April 2021.[6]

According to this paper, the miscarriage rate within the first 20 weeks of pregnancy was 12.5%, which is only slightly above the normal average of 10%. (Looking at statistical data, the risk of miscarriage drops from an overall, average risk rate of 21.3% for the duration of the pregnancy as a whole, to just 5% between Weeks 6 and 7, all the way down to 1% between Weeks 14 and 20.[7])

However, there's a distinct problem with this calculation, as highlighted by Drs. Ira Bernstein and Sanja Jovanovic, and Deann McLeod, HBSc, of Toronto. In a May 28, 2021, letter to the editor, they pointed out that:[8]

> *"In table 4, the authors report a rate of spontaneous abortions <20 weeks (SA) of 12.5% (104 abortions/827 completed pregnancies). However, this rate should be based on the number of women who were at risk of an SA due to vaccine receipt and should exclude the 700 women who were vaccinated in their third-trimester (104/127 = 82%)."*

In other words, when you exclude women who got the shot in their third trimester (since the third trimester is AFTER week 20 and therefore should not be counted when determining miscarriage rate among those injected BEFORE week 20), the miscarriage rate is a whopping 82%.

Of those 104 miscarriages, 96 of them occurred before 13 weeks of gestation, which strongly suggests that getting a COVID shot during the first trimester is an absolute recipe for disaster.

> *"They concluded, very fraudulently, in my estimation, that it was safe to vaccinate in the third trimester, and said nothing about the clear safety signal in the first trimester,"* Lindsay says. *"It's just so dishonest, so purposefully manipulative."*

As for the women who get the shot in their third trimester, there's still no telling what the ramifications might be in the long term.

> *"We just don't know, and that's the problem,"* Lindsay says. *"There are all kinds of things that can go wrong with these types of therapies, and have gone wrong in animal models. We don't know what will happen in the future for these women or for their children. This could be passed on.*
>
> *We're seeing now a lot of mention of constitutive expression, whether that's failure of the mRNA to degrade or integration into the genome. That's still being investigated."*

Children Are Dying From COVID Jab-Induced Myocarditis

Lindsay goes on to cite a CDC report that shows more than 300 children between the ages of 12 and 18 have died from myocarditis, a now-recognized side effect of the COVID jab.

We also know, based in part on whistleblower testimony, that more than 50,000 Americans have died within three days of these shots,[9,10] and that's just from one database (the Vaccine Adverse Event Reporting System or VAERS). There are 10 other databases that feed into the CDC that the public does not have access to.

> *"This many deaths, it's appalling and alarming,"* Lindsay says. *"Dr. Peter McCullough says the safety signal for typical vaccines, other than this gene therapy, would've been around 186 total. We're now up to [17,128 reported deaths in VAERS, as of October 15, 2021[11]], but they haven't paused this in children.*
>
> *They have not paused this while they're investigating the myocarditis. Instead, they're pushing it even more. Has this ever happened before? I mean, does this happen in a scenario where the population is at essentially zero risk for the disease? ...*
>
> *The cardiac deaths alone in perfectly healthy kids, and pulmonary embolism deaths in kids, should've stopped this. They are at no risk [from COVID-19]. There is no reason to vaccinate them, absolutely zero reason to give them these gene therapies because they're at no risk [from the infection] …*
>
> *You know [the shot] is causing heart failure, pulmonary emboli, cardiac arrest in healthy teenagers, and you're not pausing to investigate the risk versus reward scenario? Something is horribly wrong.*
>
> *Unfortunately, our regulatory institutions are not going to stop this. They've clearly been captured. It's something that we're going to have to do. Vaccinated and non-vaccinated must stand together to say, 'No, you're not going to experiment on my children' …*
>
> *With the RSV vaccines and the dengue fever vaccines, we had deaths in children that were much fewer in number that stopped those campaigns as well. It's very, very clear — if you don't get anything else out of this interview with me, understand that our regulatory and safety agencies have been captured.*
>
> *They're not doing their job to protect you or your children. You must not trust them, because they are not doing anything according to practices that used to be adhered to. It's*

clear that they've been captured and compromised, and I hate to say that. I really hate to say that, but that's the only logical answer ...

We have all these breakthrough cases too. If you look at Michigan, and I've actually been privy to some other databases of true death numbers in different states [comparing] those who are vaccinated and those who don't, and I can tell you that the media is lying with respect to the unvaccinated making up 99% of hospitalizations. They're absolutely lying."

How the Jab Can Sabotage Fertility

Getting back to the fertility issue, Lindsay cites a Singaporean study that examined the COVID jab's ability to interfere with fertility by triggering anti-syncytin-1. The study included 15 women, two of whom were pregnant. She explains:

"They did something that I had asked to be done a long time ago, which was to measure anti-syncytin antibodies in an ELISA test. The syncytins are conformationally and genetically similar to the [SARS-CoV-2] spike protein, this fusogenic spike protein.

The thought by several experts was that you could have an autoimmune reaction to the syncytins by developing an immune reaction to the spike protein, and then that would prevent successful pregnancy.

But the syncytins are also important in a number of psychological diseases, such as bipolar depression. They're important on autoimmune disease, lupus and multiple sclerosis. They are present in skeletal muscle. There's some association with breast cancer. They're really important ancient retroviral elements.

What this study found was extremely interesting. It found that every single one of these women who had been vaccinated developed autoantibodies to syncytin-1. Now, the authors kind of dismissed this and said, 'Oh, but we don't think that those antibodies were high enough to mean anything.'

But there was a clear difference between the pre-gene therapy sera [blood sample] and the post-therapy sera … What it shows is that there is an antibody response, and the significance of it, we don't really know. But every single one of the women developed an antibody response that was different from the baseline ... and I think that's probably what's causing some of these pregnancy losses."

Are COVID Jabs a Population-Wide Immunocontraceptive?

When asked what she thinks the motive behind this mass injection campaign might be, considering the clear danger signals, she replies:

"I certainly think that to discount that it is a form of population-wide contraceptive would be naïve. There's a paper that came out in 2005. It's called 'Evaluation of Fusogenic Trophoblast Surface Epitopes as Targets for Immune Contraception.'[12]

This paper tried to find contraceptive peptides in persons that had infertility problems already that were isolated to placentation. So, it was taking a backwards approach, getting the sera from people who had fertility problems and trying to see what they had antibodies to that was causing the fertility problems …

This work was sponsored by the WHO and the Rockefeller Foundation [and the National Institutes of Health]. No surprise there. It was then picked up by a company called AplaGen that took it to patent in 2007.

These are 12-mer peptides, and there's a series of eight of them that can be used to induce sterility. When they patented it, they also said that it could be used to ameliorate sterility. Interestingly, it was also associated with all of the things that we know syncytin is associated with, — lupus, skeletal muscle disorders, bipolar depression [and] a number of other things.

Even though they don't name syncytin proteins as the proteins that are targeted, they worked backwards from these peptides, and then said they were a series of other proteins. Sometimes we know that proteins can be called the same thing in different discovery realms. So, that's going to take more research, but it was certainly interesting to me.

What it really points out is that there were efforts to use peptides or immunocontraceptive means at the placental trophoblast interface to cause sterilization … So, it would be naïve to think that this was not on the plate for future use."

How Long Will Effects Last?

An obvious question is, how long might these effects last? Are they lifelong? Of course, any answer we come up with here will be hypothetical only, as the studies simply haven't been done. That said, with her background in molecular biology, Lindsay is at least qualified to theorize.

The mRNA is extremely fragile, which is why a nanolipid with polyethylene glycol delivery system is used. In addition, about 30% of the mRNA has been genetically modified to decrease degradation. As a result, the mRNA being injected is magnitudes sturdier than natural mRNA.

What's more, the nanoliposomes allow for superior penetration into tissues, and we now know it spreads throughout your body. It doesn't stay in your deltoid. How long this modified and stabilized mRNA remains viable is still unknown, however. A corollary question is whether this mRNA might be integrated into your genome to become a permanent fixture.

"The answer is, we don't know for sure," Lindsay says. *"Of course, with the adenoviral vector vaccines [Janssen and AstraZeneca], they're more prone to integration into the*

genome. We know that from animal studies and past experiments.

With the mRNA technology, we've never stabilized something like this in this manner. What we do know is that recent studies have come out — Bruce Patterson's group and another group — both came out with the finding that the spike protein is being expressed, [it's] present on monocytes, as far out as from the time that the people were given the gene therapy.

So, that gives us an indication that it is resistant, for sure, to degradation. The longer it stays around, and is resistant to degradation, the more likely that genomic integration events can occur. But I don't know the answer to whether or not it will become a permanent feature."

Make a Rational Choice

As explained by Lindsay, no coronavirus vaccine has ever been successfully brought to market, despite 20 years of effort. All have failed due to antibody dependent enhancement, where the vaccination facilitates infection rather than protects against it.

> **"If all these gene therapies do is lessen the diseases, then they're not a vaccine, they are a treatment. You have to use your common sense to say, why wouldn't I use a treatment that has been known to be safe over 70 years as opposed to one that is brand-new, that is experimental? ~ Janci Chunn Lindsay, Ph.D."**

Now, we're to believe a safe and effective coronavirus "vaccine" has been developed in mere months. She also makes another important point. Since the COVID gene therapies do not prevent infection, but only lessen symptoms, they are actually a treatment, not a prevention.

And there are far safer and more effective treatments available, including nebulized peroxide, ozone therapy, and hydroxychloroquine and ivermectin regimens.

"If all these gene therapies do is lessen the diseases, then they're not a vaccine, they are a treatment," she says. *"They are a treatment that you don't know the mid- or long-term consequences of, that have already caused a number of adverse events. You have to use your common sense to say, why wouldn't I use a treatment that has been known to be safe over 70 years as opposed to one that is brand-new, that is experimental?"*

Other Safety Signals

Aside from fertility issues, heart inflammation and blood clots, another side effect seen among the fully "vaccinated" is de novo Type 1 diabetes in adults. This makes sense considering Pfizer's biodistribution study showed the spike protein accumulates in the pancreas. The natural SARS-CoV infection can also have this effect.

Type 1 diabetes is a serious problem, as it leaves you metabolically handicapped for the rest of your life, dependent on extremely costly insulin injections. Doctors are also reporting an increase in pancreatic cancer and acute myeloid leukemia.

Where Do We Go From Here?

"Many scientists and physicians feel as I do, and are trying to figure out where we go from here," Lindsay says, "because our typical safety and regulatory agencies have been compromised." She believes we need to continue sharing the data and facts that mainstream media refuse to discuss, and continue urging those who have received the jab to at least protect their children.

"We need to stand together as one people and say we're not going to accept this, especially not for our children, and try to get to the bottom of this and see what's really behind all these efforts. Is it really about a virus, or is it more about other political motivations and campaigns, as it seems to be?"

I'm less optimistic about the idea of breaking through the brainwashing to get people to not sacrifice their children. So many have their minds set in cement with the wrong information. They could have their brother, sister, mother or father get the shot and die with the needle still on their arm, and they'd still go out to get a booster the next day.

I've seen it so many times. My friends, their parents, their siblings and loved ones — there's this barrier that prevents any openness to new information. They've made their decision. Mark Twain said, "It's far easier to fool someone than to convince them they've been fooled." And it's true.

So, while I agree that we must keep trying, and have faith that truth will prevail, I also think it's important to have realistic expectations. We're up against the most effective propaganda campaign in modern history. It's psychological warfare at its best.

From my perspective, being a pragmatic realist, I believe the best strategy is to reinforce and support those who didn't buy into the propaganda narrative to begin with, because they don't struggle with that cognitive dissonance. If we stick together and support each other, so none of us get sucked into the lunacy, then we can at least preserve the control group.

Ultimately, the truth will come out, as long as we can preserve the control group. In a year or two, or three, we will clearly be able to tell how devastating this intervention was simply by comparing the two groups. I suspect those who got the shot will be severely crippled in various ways, and those who didn't get the shot will have far better health in comparison.

> *"I absolutely agree that we have to preserve a control group. We also have to think of ways that we can help those that have been injured. I brought this out in a letter I recently wrote, advocating for Dr. McCullough.*
>
> *People who have gotten this inoculation, if they have mid- to long-term effects, if you deny that any adverse effects are really going on, then the efforts going into those treatments for people who are having side effects are not going to be there. We have to accept that these [side effects] are real in order to help people who have already taken the inoculations, and I believe we have to try."*

#1 Best Seller In Books

"The Truth About COVID-19" exposes the hidden agenda behind the pandemic, showing the countermeasures have nothing to do with public health and everything to do with ushering in a new social and economic system based on totalitarian, technocracy-led control. So, it's not misinformation they fear. It's the truth they want to prevent from spreading. Pick up a copy of this best-selling book today before it's too late.

CRIMES AGAINST HUMANITY AND CRIMES AGAINST CHILDREN. Missouri-based chiropractor Dr. Eric Nepute and his guest Karen Kingston denounced the Wuhan coronavirus vaccines for children. "IT IS NOTHING MORE THAN HARMING CHILDREN, KILLING CHILDREN. There is no scientific or medical argument for vaccinating children. They don't get covid .. .. they don't infect other people " www.brighteon.com/0e034f82-fac8-4e28-a162-8c6c2c6f45b8 Brownstone Institute argues, "If we go ahead with vaccinating our children without proper safety testing, then we will present them with a POTENTIALLY CATASTROPHIC RISK, including death." www.naturalhealth365.com/brownstone-institute-3462.html

WE ARE IN THE SCIENCE OF DECEPTION that is based in a world of political regulation and medical tyranny based on relying on experts paid by BigPharma. Government institutions do not admit any debate and threaten professionals who dare to question government sanctions. CDC has been working with the wealthy private sector, philanthropic organizations, and corporations to address public health despite blatant conflicts of interest. The foundation's donor list is proof of the corruption of government institutions.

ROBERT F. KENNEDY, JR., tells us the truth: CDC became little more than a "vaccine company" as it purchases and distributes vaccines annually through the Vaccines for Children program. Vaccines are liability-free and effectively compulsory to a captive market of 76 million children… The four companies that make virtually all of the recommended vaccines are all convicted felons. Collectively they have paid over $ 35 billion since 2009 for defrauding regulators, lying to and bribing government officials and physicians, falsifying science, and leaving a trail of (incurable chronic illnesses) injuries and deaths from products they knew to be dangerous and still sold under pretense of safety and efficacy. " —Robert F. Kennedy, Jr.

Researcher Steve Kirsch reveals data on the Wuhan coronavirus. CHILDREN'S "VACCINATION" AGAINST THE CHINESE VIRUS IS COMPLETELY FALSE. Kirsch reveals that reports are flooding the internet of children who are seriously injured or die almost immediately after receiving the injections. THE MAINSTREAM MEDIA AND THE GOVERNMENT ARE IGNORING THIS CARNAGE, or blaming "covid," but it is obvious to anyone who does not have Stockholm syndrome that these poisons from Big Pharma are killing the nation's youth and , finally, to the youth of the world as well. The most recent data from VAERS shows a massive increase in serious health conditions among the 15-24 year old demographic, which is the most recent demographic now being injected.

Gui, how tragic, should a real crisis appear why would anyone listen to any of the institutions? How has Fraudci cried wolf for decades imposing disastrous results, & continued to get away with it? Corruption is the negative energy along with a lust for $$$ driving crisis, & corruption doesn't need government to spew its poisons. Corruption will grab onto whatever is available to use as its tool. Gates appears to be outside of most global governments as individual or even combined. Whatever is available for the minds of Rockefeller/Gates/Bezo's all said to be the pinnacle of success have walked all over whatever the institutes are. Schools, religions, media, all the too bigs who instead of feeding the necessary functions of Life & Humanity have become cesspools of corruption who wouldn't recognize truth if it sat on their laps. Instead, as we see with this Corona/cold situation truth is being attacked in no uncertain terms.

Yet here is another layer of truth Doc has been exposing for nearly two years, the Jab/s are implicated in infertility. Who would dream such a thing to come out of Gates who has consistently called for depopulation measures & championed so many ridiculous notions. Farting cows, indeed.

Yes, unfortunately, you are right. CRIMES AGAINST HUMANITY AND OUR CHILDREN!! I personally know one man who just died last month after getting the 2nd death jab from a stroke. His brother, who is a doctor, begged him to not get it. And i know someone who caught a blood clot after getting the Pfizer jab. Thank goodness he caught early enough. Fifty thousand!!! And this is just from the VAERS, which is a very cumbersome, and not user friendly web site. So in reality how many have really been injured and/or died from these death jabs.

The FDA (FATAL DRUGS ALLOWED) is a partner in this crime spree, for allowing these gene therapy jabs to be distributed. It's very maddening that there's still stupid idiots (Yes! Idiots!) who still think that these are OK. I had one lady say to me yesterday that she wishes everyone would get them even after i told her someone died after getting the death jab. As i've said before, some of them must of gotten saline solutions shots or delayed reaction ones because most of these uneducated elderly sheep who live around me have gotten them. Sorry if i sound aggravated, angry over this, but I am.

Africa appears to have the lowest incidence of viral infection - perhaps also because it is the least injected and South Africa did not require more “vaccine” supplies. Pure co-incidence no doubt that suddenly the Omicron variant made its appearance. A good verbal explanation of the whole rotten scam by this doctor on BitChute: www.bitchute.com/.../LukPaRDJHysl

Hi Gui, The entire population is at risk...besides the insanity of young kids being maimed and killed in record time. This is a re-post from late yesterday, impact of this is for entire vaxxed populations - In last Thursday's Highwire show, a recent paper that Dr. Steven Gundry published reports that patient endothelium heart markers routinely tested in his clinics has gone up significantly in pre- and post- shots. It increased from an avg. of 11 to 25! This marker reads several proteins and show the 5-year chance of a new coronary symptom (ACS for Accute Coronary Symptom). This is IN ADDITION TO the cardiomyelitis and periocarditis currently being discussed in young people who took the shots.

This is a similar concern that was discussed by Dr. Asseem Malhotra, a UK cardiologist, in a video clip with a interviewer in the UK, also shown. And Dr. Peter McCullough is on, saying he is in agreement with Dr Malhotra that urgent studies are needed. Starting at about 1 hr - 05 minutes into the show, after the Jaxen report: EPISODE 244: OMG, OMICRON! www.bitchute.com/.../GoFIycb3o9Ih Too bad that was not included in these vaccn trials, or the FDA would have known how seriously flawed their benefactor's products truly are, eh? NO time for politicians to figure out what side of the fence they are on, as they may not even be around long enough to anything about it!

The ZOMBIE APOCALYPSE is here - now! Where did they get that 50,000 number from? "VAERS data released today by the Centers for Disease Control and Prevention included a total of 927,740 reports of adverse events from all age groups following COVID vaccines, including 19,532 deaths and 146,720 serious injuries between Dec. 14, 2020, and Nov. 26, 2021."

For as much profit as the pharmaceutical companies make, they should be able to easily cover any injury claims. Unless... the claims are so numerous and the injuries are so grave that the pharmaceutical companies would be bankrupted, in which case it would become obvious that the vaccines are not safe and Big Pharma would finally be forced to pull the vaccines off the shelf in order to save their business. It is high time that we demand that Big Pharma cover their own liabilities and that an unbiased court hears the claims rather than a bought and paid for "Panel of Experts".

Thank you all for your interesting comments. Yes, we are facing a pandemic of adverse reactions and deaths from genetic weapons called "vaccines". Most of the products and drugs promoted by the media and the government are toxic and especially vaccines. Doctors and nurses across America are being miseducated to pass on false information to their patients that they recklessly risk their lives with injections of gene therapy that kill and cause serious illness. Children will be the most vulnerable when parents must decide on terrible injections.

As reported by Dr. Mercola, Pfizer secretly admits to the FDA that Covid mRNA vaccines can cause "enhanced disease" that intensifies the pandemic. Pfizer executives and scientists knew of the serious adverse reactions caused by their Covid vaccine that were reported in the first few months and did not tell anyone. In an irrefutable proof document, Pfizer confessed to the FDA under the heading "Safety Concerns" that mRNA injections can cause "Vaccine-Associated Enhanced Disease" (VAED), which can also be a respiratory infection / dysfunction. thepulse.one/2021/11/25/pfizer-was-aware-of-over-50k-serious-covid-vac.. phmpt.org/wp-content/uploads/2021/11/5.3.6-postmarketing-experience.pd..

All these adverse effects must be known in a short time, no en 55 años, to judge the criminal deinformation. Some congressmen are acting responsibly. U.S. Rep. Ralph Norman On Thursday introduced legislation to require the(FDA to release, within 100 days, all records of information related to Pfizer COVID vaccines. The FDA had asked to be allowed to take up to 55 years to release the documents. childrenshealthdefense.org/defender/ralph-norman-fda-pfizer-covid-vacc.. (03/12/21)

How will we know and demonstrate the damage caused by "vaccines" to children and young people if the course of time destroys their immune system and causing serious pathologies? "Vaccines" against children is a crime against humanity: Ten red flags in the fda's risk-benefit analysis of pfizer's eua application to inject american children 5 to 11 with its mrna product

tobyrogers.substack.com/p/ten-red-flags-in-the-fdas-risk-benefit (Oct 25, 2021) Child deaths have risen in the UK since they began vaccinating adolescents aged 12 and over against COVID-19, The news is particularly disappointing when you consider that healthy children and adolescents are at such a low risk of becoming ill with coronavirus. The UK Office for National Statistics shows that the number of deaths between week 38 and week 41 of 2021 among children aged 10 to 14 was 62% higher than the five-year average for the number of deaths in this age. group during the same period. Additionally, the surge in deaths began when children began receiving the experimental "vaccine." rairfoundation.com/great-britain-excess-mortality-among-children-after..

In addition, many damages and deaths can never be demonstrated because they act over time and not with pathologies and immediate deaths after the "vaccines". The evidence is showing that we are facing a pandemic of vaccinated people that fill hospitals because between ADE and the weakness of the immune system caused by vaccines, people die. Time will increase the cases of immunodeficiency, associated with cancer that is already increasing. It is not the Covid, it is the vaccines and previous pathologies the result of dietary patterns of the FDA in tune with the junk food agri-food industries that cause obesity and associated diseases. The fact that booster shots are now required every 6 months is a clear recognition that booster shots stop working within a few months.

The real answer behind the booster repeat is that covid vaccines destroy the immune system and leave people absolutely helpless to generate an immune response against pathogens. A person injected with mRNA gene therapy will also have compromised immunity against common strains of the flu. In essence, they have become vaccine-induced "AIDS" patients with collapsed immunity to everything. There is the real depopulation agenda. www.brighteon.com/02ed1877-6dc1-4b6d-8f0f-ad92b54eea19 (Dec 1, 2021) Vaccinated English adults under 60 are dying at twice the rate of unvaccinated people the same age alexberenson.substack.com/.../vaccinated-english-adults-under-60

As reported, Rose, Dr. Steven Gundry, a Nebraska physician and retired cardiac surgeon, presented a study showing this hugely increased risk of heart problems after the injection. The injections greatly increase endothelial inflammatory markers, he explained. "Acute coronary syndrome is a term used to describe a variety of conditions associated with sudden, reduced blood flow to the heart," explains the Mayo Clinic about this classification. Patients had a 1 in 4 risk of serious problems after vaccines, compared with 1 in 9 before. "We conclude that the mRNA [vaccines] dramatically increase inflammation on the endothelium and T cell infiltration of cardiac muscle and may account for the observations of increased thrombosis, cardiomyopathy, and other vascular events following vaccination," he explained. alexberenson.substack.com/.../if-you-like-heart-problems-youll

The effect of restrictions and the "vaccines" themselves are the perfect cocktail for mental disorders. A recently released report suggests that 75,000 people could die from what are called "deaths of despair," including suicide and substance abuse, due to the Wuhan coronavirus. COVID-19 vaccines appear to compound the problem. So far, more than 100,000 cases of hallucinations, anxiety, sleep disorders, psychosis, and suicide have been reported after COVID-19 injections.

The physical symptoms of the novel coronavirus have been well reported for months, but it is a handful of psychological and sociological factors that are beginning to sound the alarms. The combination of physical distancing, financial stress, barriers to mental health treatment, pervasive national anxiety, and an increase in gun sales are creating what JAMA Psychiatry called "a perfect storm" for suicide mortality.

"Suicide is likely to become a more pressing concern as the pandemic spreads and has longer-term effects on the general population, the economy and vulnerable groups," according to David Gunnell, professor of epidemiology at the University of Bristol and director of the Bristol Suicide and Self-Harm Research Group, and its research team, which recently published their findings in The Lancet Psychiatry. www.psycom.net/covid-19-suicide-rates

Sunflowerjanis, re "His brother, who is a doctor, begged him to not get it." I sure would like to know how widespread vaccine fraud is among doctors and nurses. Of course there is no way to know even close to exactly since it would be done furtively. But jeez, how hard would it be for many, if not most, doctors and probably nurses as well, to find a co-worker willing to trade fake jabs with each other? Not having gotten the jab myself, I don't really know the procedure, but can't a licensed pro simple empty the vial into the sink and fill out the paperwork? We don't have big brother watching the jabs as they occur yet.

The same would go for friends and family to some extent, although the possibility of someone talking and the doc/nurse losing his license would cut back on these a bunch. But among coworkers, both have the same to lose so most likely it would remain a secret. Along the same lines, of course those behind this aren't getting the jab. But I sincerely doubt someone like Tom Brady, for example, who is very smart and careful to the extreme in what goes into his body, got a real jab, considering his resources and connections. He's just an obvious example who comes to mind, there are many smart people with the ability to do the same.

Dr. Daniel Nagase exposes the exploding cases of stillbirths in fully vaccinated Canadian women with 86 in 6 months in Waterloo, Ontario, which normally sees 5-6 per year. B.C. saw 13 stillbirths in 24 hours.

Dr. Nagase goes on to discuss the actions Canadians can take to fight the suppression of this public data by govt and public health officials.

I see some encouraging signs that the tide of public opinion is changing. How many private medical practitioners are still in practice in spite of state mandates? Many are simply continuing their practices without being vaxed. I think quite a few will be discovered when it comes time to renew their licenses. Likewise, there will be some kind of pressure on businesses seen as giving employees too many exemptions. It was very refreshing to be in a heavy equipment mechanic shop last week. Not a single employee on the floor in the repair bay or the secretaries or cashiers were wearing masks. I did not need to ask. The whole business consists of resisters. They all looked rational and perfectly healthy to me!

In many states, restaurants are supposed to check vax status. No one in rural areas even mentions it--they are all happy to serve you. I have not been turned away on any occasion. The whole masking farce is still required by some larger chain stores and occasionally I will shop there. I will not wear a mask, so use the face shield when absolutely necessary. I have only been turned away from one store because of it, so they lost me as a customer. I did tell them, "I don't need to shop here". I am not about to asphyxiate myself or contract some horrible lung disease from wearing a damp mask.

Earlier this week, though, I just walked through a store without any kind of face shield and said "asthma". No employees get very enthusiastic about stopping you if you claim any excuse whatsoever. I think Americans have had just about enough of this nonsense. Fauci & Company have cried "wolf" once too often. That is what this new variation is about. They are trying to scare us into submission. It is not working, so now they can be expected to up the ante with some even more terrible threat.

Here are my thoughts... It is always possible a pandemic can turn more virulent. Esp. when the immune system is repeatedly altered due to boosters. It is rare when this occurs. However, left alone, most pandemics, for one reason or another, will, more likely, eventually burn themselves out. We do have that video from a doctor in South Africa (forgot her name) saying she has seen only mild cases of Omicron. I suggest that this is the normal course of events. The synthetic "virus" is unlikely to be stable over the longer term. It is likely to weaken of its own accord. That is not to say much damage cannot be done before then--and much of it will be iatrogenic.

There is a saying... "To err is human, but if you really want to screw things up, get the govt involved." It seems every action taken by govt, politicians and the CDC has only made things worse. We need to abolish the CDC, the FDA and the NIH and quit funding them. We are not getting value for our tax dollars and many people have been harmed. Could not do worse without them. Funding them only gives them power. I understand that, like the Federal Reserve, the CDC is not even part of govt. Does anyone know if the omicron variant provides immunity to itself or to any of the other forms of covid? That would be a blessing.... that is, if you could get a mild disease that offered immunity.

The South African doctor who first raised the alarm about the new variant of Covid, Omicron, has revealed that patients have "unusual" symptoms. Dr. Angelique Coetzee, who runs a private practice in Pretoria, South Africa's administrative capital, said she first noticed earlier this month that Covid patients exhibited a number of strange symptoms. The physician, who has practiced for more than 30 years and chairs the South African Medical Association, said none of Omicron's patients suffered a loss of taste or smell typically associated with Covid, but instead exhibited unusual markers such as severe fatigue and a high pulse rate. "His symptoms from hers were so different and so mild from what she had treated before," Dr. Coetzee told The Telegraph. www.dailymail.co.uk/news/article-10251019/South-African-doctor-says-Om..

The South African Health Minister Joe Phaahla said that new travel restrictions are "unjustified" and stated that he believes these bans represent a "KIND OF KNEE-JERK REACTION" THAT "REALLY DOESN'T MAKE SENSE." According to the president of Botswana, all four of the people from Botswana who were first identified with the Omicron VARIANT WERE FULLY VAXXED. Yet, we continue to see the mainstream media in the U.S. ignore THE FAILURES OF THE CURRENT COVID SHOT CAMPAIGN. BOTTOM LINE: IT'S NOT WORKING! www.naturalhealth365.com/omicron-variant-travel-ban-3459.html (November 29, 2021) The first confirmed case of the so-called "omicron" in the United States fully vaccinated. www.lifesitenews.com/news/first-american-to-contract-omicron-covid-var.. Inside the CORRUPTION OF PFIZER are the booster injections to CONTINUE MURDERING, INCLUDING CHILDREN and not revealing the records of their trials. Omicron is another strategy in this genocide. No sooner had the OMICRON HYSTERIA hit the headlines, politicians, aided by a compliant global lockstep media, started identifying scapegoats and telling the WORLD'S POPULATION TO PREPARE TO ROLL UP THEIR SLEEVES.

- Omicron may be more infective, is likely no more dangerous — but may be more likely to evade injection-induced immunity. - There is no conclusive evidence that Omicron originated in Africa — which happens to have the lowest injection rate and case rate of COVID-19. - Mass injection of first gen injections, followed by re-worked Omicron-specific jabs, could cause disastrous consequences, including accelerating development of further variants and antibody-dependent enhancement (ADE) of disease. - We consider some of the possible political and economic drivers behind the new unscientifically backed policy to up the ante on injections. childrenshealthdefense.org/defender/ralph-norman-fda-pfizer-covid-vacc.. Steve Kirsch, a data-driven analyst with his articles on covid vaccines and their long-term effects on humanity. In this interview he says that omicron appears to be very mild. If a person had to choose which variant to become infected with, he would vastly prefer omicron, as so far it has not killed anyone but causes the body to produce a powerful immune response that confers immunity against all variants of covid. It appears that omicron, despite being widely touted by the corrupt corporate media.

This means that omicron could be the cure for covid. It could end this whole phony pandemic without the need for vaccines, masks, social distancing, or lockdowns. By simply allowing omicron to spread through the human population, producing almost zero deaths, the entire world could become immune to covid and we could put an end to all the global insanity, including the totalitarian "covid concentration camps" that are in the world headlines www.brighteon.com/2b2f3406-092b-4bcd-8d6e-69a908271b32 (Dec 3, 2021)

Almond, a few points here. A) The doctor who discovered Omicron, announced very early (only a few weeks after discovering the variant) that it was mild. She qualified that over time, more could be revealed. The question is how is it bearing out as we watch it, over time? Is the panic and hysteria premature? If it is (I would bet on it) then I would not be surprised. One more tool for BigPharma's profiteering! What's to expect? The answer is, Of course!

It's time for people to wake up and tune out the propaganda machine. Even if serious cases of Omicron develop, it is the same as before: Obviously, with the doctor saying that it so far is only mild, then assuredly Not Every Case of Omicron will develop into an ICU case! Does the equation, virus=ICU/death, sound like a cognitive distortion we have been spoonfed before? Perhaps every two minutes for the past two years, on a worldwide scale? Hmmmm. The things to be suspicious of, lying in plain sight, while gullible fools jump for it without even thinking it through!

B) I believe in caution, but not living in fear. Exercising caution is appropriate, but keep things in perspective. Even the CDCs website has stated that this is usually a mild flu and the elderly and medically vulnerable are most prone to developing serious disease. "Oh but s/he was healthy before becoming really ill" really? What was that person's immune, or autoimmune status? Nutritional status? Mainstream medicine lets many things slide through big holes in its diagnostic sieve. Holistic medicine has a far more fine-toothed diagnostic comb, in my own experience.

C) Last and absolutely not least, I believe it is the fear of death which is the greatest contributor to our collective malaise. It's understandable of course, but it also is causing all the serious problems. The compliance , economic destruction, isolation, division, misery, stress, suicides, unresearched "vaccine" mania/deaths/side effects, everything. Is the "Cure" worse than the disease?

I think Barbara Sreisand sang a very wise message in her song, The Rose. "It's the soul afraid of dying that never learns to live". Surely the isolation and all the rest of is, is living a pure non-life. Is this healthy, happy, joyous and free? Maybe the fear of death is the biggest enemy of all, even while exercising caution, but not fear, as above, is appropriate. And also not least of all, the "Cure" is a non-cure. People need to think about this. This only assures a continued, ongoing epidemic, not the promise of freedom and a "Flattened curve" and "herd immunity" as falsely and misleadingly promised. My two cents.

I have been doing business with a tile shop recently and they have a sign on the front door stating that masks are required. It was a relief to walk inside and see that no one, not even the employees, were wearing masks. I guess the sign was a requirement or something, one that everyone just ignored. Kudos to them!

Great evil has been let loose on the world in the name of health... political actions only make it worse. EXPOSED GRAPHENE VAX RAZORS, now dead: verumetinventa.wordpress.com/2021/11/27/dr-andreas-noack-dead-exposed-.. GERMAN CHEMIST DR ANDREAS NOACK WAS ARRESTED BY AN ARMED POLICE UNIT DURING YOUTUBE LIVE STREAM forbiddenknowledgetv.net/german-chemist-dr-andreas-noack-was-arrested-.. Watch these videos and pass them on. The public needs to be informed. There is also another video by Andreas' pregnant partner telling us he was killed. You can prob still find it online. Yes, the genetic changes and spike proteins are serious. However, it now appears that the immediate toxic effect is not graphene oxide, but graphene hydroxide.

Basically, this sharp-edged molecule slices the endothelium (inner lining) of blood vessels. The research keeps informing us of worse and worse news. None of this can occur by accident. Someone knows what is in the vaxine. This is intentional. We must all do what we can to resist and stop this. Otherwise, history will repeat itself. I listen to news with revulsion when I hear police say, "I am just doing my job"... words all too familiar throughout history. Unless those responsible are brought to justice, I expect to see vigilante action. How long will it take and how much loss will people put up with? It took the death of every eldest Egyptian son for Moses to lead his people out of Egypt... Hold the line and keep the faith.

Thank you, Almond, this needs to be said, and you said it very well! Another so-honest PhD is gone; but, thanks to internet, we still have his teachings. Big Pharma denied putting graphene oxide in their jabs. They could get away with saying that, but they are not innocent, because according to Dr. Noack they used graphene hydroxide.

There have been articles explaining that the clot shot must not be injected into a vein; now we know why. If it is injected intramuscularly, the material in the jab hopefully stays mostly in the arm. If injected IV, the nano-sized graphene razor blades go immediately everywhere in the body including the heart, brain, etc. A Japanese governmental bio-distribution study on the Pfizer jab showed that the lipid nanoparticle/mRNA material goes to the ovaries, adrenals, liver and spleen among many other places; see table on pages 16 and 17 of paper. www.docdroid.net/xq0Z8B0/pfizer-report-japanese-government-pdf#page=16

The drug pushers are pushing this for pregnant women and newborn babies. Today the U.S. VAERS adverse reactions database shows 2,809 dead babies post-maternal jab, and there may be 40 times that number because few reactions are ever reported. alethonews.com/2021/12/04/2809-dead-babies-in-vaers-following-covid-sh..

Yes, Also. The toxic components of the Wuhan coronavirus vaccines have killed many inoculated Americans. One component in particular, graphene oxide, played a huge role in many deaths related to COVID-19 vaccines. However, a new report revealed that this important ingredient in mRNA vaccines was included as part of a broader depopulation agenda. In an article for State of the Nation, Steven Fishman explained how deadly graphene oxide kills vaccinated people. Fishman spoke with his friend Dr. Mylo Canderian about the matter. The Greek-born scientist and medical collaborator of the World Health Organization developed the patent for graphene oxide as a biological weapon in 2015.

Outside of his medical accomplishments, Canderian ardently supported Klaus Schwab and his idea of the Great Reboot. Fishman described his friend as a "genocidal globalist" who believed in the extermination of the "plague" that is humanity. According to Canderian, 95 percent of the world's population are "useless eaters" that must be exterminated as soon as possible. He told Fishman: "There is a maximum 10-year cycle from injection to the end of the cycle. According to Canderian, the percentage of a vaccinated person's blood contaminated with graphene oxide was multiplied by the maximum cycle of a decade to determine the remaining lifespan of person in years Dr. Jane Ruby was recently interviewed by Stew Peters on his podcast and showed examples of what deteriorated blood looks like when exposed to graphene oxide.

Hi Almond (and all!) It is the spike protein that research confirmed is toxic in and of itself, and that needs to be the main focus when sharing information to others. (along with the added effects of Lipid Nanoparticles which are also shown to be highly inflammatory). According to the research, binding to cells like ACE2 is found to not be necessary to cause the harm shown from the spike protein, instead involving activation of CD147 receptor signalling without any direct infection/binding of the cells themselves! HERE, THE SPIKE PROTEIN ALONE CAUSING THE HEART PROBLEMS THROUGH CD147 RECEPTOR SIGNALLING, AND NOT ACE2, including the cytokine storm. doi.org/.../ehab724.3383 It was a research team lead by Dr. Barney Graham from the Vaccine Research Center at the NIH National Institute of Allergy and Infectious Diseases who created an engineered form of the spike protein that was said to be unable to make the shape change required to effectively bind to cells like ACE2 making the spike protein "safe" for vaccination, however that new research is showing that the spike protein ALONE, without the presence of infectious virus, can cause the heart inflammation and also interaction with endothelial cells through a non-infective mechanism involving activation of CD147 receptor signalling... even without any direct infection of the cells themselves!

If the information presented about graphene hydroxide is confirmed, it would be ADDITIVE to the other information, but keep in mind that the information presented on graphene oxide (and some of the sources presenting that information) so far has not seemed to be accurate.

CD147 (also known as Basigin or EMMPRIN) is expressed on many cell types - endothelial cells, leukocytes, keratinocytes, platelets, hematopoietic, and others. The CD147 receptor is involved with the other known main reported negative effects such as blood clotting, involved with cancer and a tumor's malignant progression, invasiveness, ...

and metastasis www.ncbi.nlm.nih.gov/.../PMC4227170 and the changes of women's cycle. The spike protein is also involved with reduction in the mRNA expression of ACE2 and type I interferons www.frontiersin.org/.../full , can make the blood brain barrier leaky pubmed.ncbi.nlm.nih.gov/32191628 , and wreaking havoc in the DNA repair mechanism of cells, suppressing DNA repair among just some of the many research papers I've posted in comments before.

In fact, the S1 subunit of the SARS-CoV-2 Spike protein ALONE was enough to induce the very same COVID-19-like symptoms including severe inflammation of the lungs and cytokine storm-EVEN WITHOUT THE PRESENCE OF INTACT VIRUS - it produces biochemically, immunologically and histologically evident COVID-19 like Acute lung injury (ALI), including the "cytokine storm".
scitechdaily.com/sars-cov-2-spike-protein-alone-may-cause-covid-19-lun.. Full study:
journals.physiology.org/.../ajplung.00223.2021

So the spike protein is showing to be PRODUCING all the exact same symptoms of the very illness it is supposed to be protecting the people from, including the cytokine storm along with capable of causing heart inflammation, blood clotting and other negative effects which can occur due to the spike protein alone (along with the added effects of Lipid Nanoparticles which are also highly inflammatory).

Deborah Conrad as an example started seeing a surprising number of hospital patients WHO HAD RECENTLY RECEIVED A COVID SHOT AND WERE NOW TESTING POSITIVE FOR COVID-19 SHORTLY AFTER VACCINATION. AS THE COVID JABS WERE ROLLED OUT, one of the most surprising problems has been a sudden rise in cancers among vaccinated patients whose cancer had gone into remission before the jab. see 1:19 mentioning covid-19 diagnosis a week after vaccination
thehighwire.com/.../episode-233-the-vaers-scandal

The CD147 receptor also is linked to changes of women's cycle, and may also potentially help to explain any fertility effects as discussed in the article. In the female reproductive tract, the CD147 receptor was found in ovary, uterus, placenta, and fetal membranes. The distribution and expression of CD147 in endometrium have been reported to be associated with the changes of women's cycle. academic.oup.com/.../2661526 www.sciencedirect.com/science/article/abs/pii/S0015028214001459 CD147 is expressed during human embryonic development - CD147 plays various important physiological roles in reproductive tissues including the placenta. CD147 is involved in trophoblast-endometrial cell interaction, trophoblast cell invasion and syncytialization. Some of the research is pointed to, but is technical. www.ncbi.nlm.nih.gov/.../PMC7465902

The full-length S1 subunit of the SARS-CoV-2 spike protein ALONE, without infectious virus, is capable of inducing systemic damage to microendothelial cells in mice with an analogous pattern of complement activation and increased expression of cytokines and concomitant thrombosis / hypercoagulability state (blood clotting). This disease pattern strongly resembles the extrapulmonary manifestations of severe human COVID-19 and suggests that the latter (severe human Covid-19) may not represent systemic infectious virus. (but instead effects of the full-length S1 subunit of the SARS-CoV-2 spike protein ALONE). Therefore, prevention of the CNS disease so common in severe COVID-19 may require neutralization/removal of the circulating pseudovirions (such as S1 spike). www.ncbi.nlm.nih.gov/.../PMC7758180

CD147 is a novel receptor on platelets, which activates platelets. Platelet expressed CD147 leads to NF-κB–dependent cytokine release from monocytes demonstrating a direct link between platelets, CD147, and inflammation. Coincubation of platelets with monocytes induced EMMPRIN (CD147)-mediated nuclear factor kappaB activation in monocytes with increased MMP-9, interleukin-6, and tumor necrosis factor-alpha secretion (according to ELISA) by monocytes. pubmed.ncbi.nlm.nih.gov/18048771

Here we study the effect of isolated SARS-CoV-2 spike protein S1 subunit as potential pro-inflammatory inflammagen sui generis. We investigate the potential of this inflammagen to directly interact with platelets and fibrin(ogen) to cause fibrin(ogen) protein changes and blood hypercoagulation (clotting)... We conclude that the spike protein may have pathological effects directly, without being taken up by cells. www.medrxiv.org/.../2021.03.05.21252960v1.full

Hi Data, Not sure how much time you have, but you may want to listen to the Now dead German chemist, who had identified and was convinced this is graphene hydroxide, not simply graphene oxide, and to a chemist, this makes a big difference. Several links have been posted to one of his last presentations, nearly every day on the blog.

Please, everyone, stop focusing on the "jab" from a medical standpoint. You are not seeing the big picture only a little corner. The endgame is total control and forced conversion to transhuman beings - the Great Reset and 4th Industrial Revolution which includes Stakeholder Capitalism. No one is talking about GAVI and what really goes on behind closed doors. No one outside that institution is allowed inside. See: justice4poland.com/2021/03/09/why-bill-gates-cant-be-arrested-in-switz.. www.globalresearch.ca/does-the-pcr-test-affect-the-pineal-gland-humans.. stateofthenation.co "You're being chipped" www.bitchute.com/.../kEn3iVabHtao Lilian Franck TrustWHO www.youtube.com/watch "Bill Gates Digital ID will control your life"

It's clear that scientists don't create vaccine and other COVID mandates - politicians and bureaucrats create them and cherry pick science to support them. Science does not speak, does not create rules. Scientists disagree - that's how science progresses. Science creates and expands our freedoms. Political bureaucracies are more inclined to limit freedoms and corporate bureaucracies take advantage as freedoms are limited. The goals of governments and of medicine should be to expand our freedoms, to limit mandates not the opposite. Health comes from freedom to choose. Freedom comes from health.

Yes Tracy, science committed to pathogens as the basis of disease is not science and will never embrace freedom. The FIRST commitment of a physician to his practice is to his patient and "do no harm." If vaccines weren't causing extensive harm, drug companies would never have to ask the government to pay for the harm that vaccines have caused and will continue to cause. It manipulates and misinforms the pharmaceutical industry, the academic industry, the entire knowledge base and all the health journalists that exist repeat it ad nauseam the benefit of "vaccines". There is no discussion of alternative points of view to allopathic medicines based in the symptoms and the dogma that the pathogen produces the disease.

There is a massive blind faith in taxpayer-bound allopathic medicine, produced by pharmaceutical companies associated with government institutions, which are raking in hundreds of billions in profit sharing. They are playing to be gods of the medicine of the disease. The support is the pharmaceutical mafia and the corruption of the institutions, linked to Big Pharma. The foundation on which medical health is now based is absent from the logic of boosting the immune system with the support of traditional medicines. We cannot allow technology to dominate the existence of the human being, we are biology and we must respect our immunological integrity in order to defeat diseases and not degenerate the human race. . Man was created to fully respect his humanity.

Vaccine passports and digital IDs for everyone on the planet? That's part of the end game along with machines replacing humanity - nothing to do with viruses, variants nor your health as you say, versatile. As for that convenient but misused term "science" - in the alternative universe, words are used for their effect on the gullible and mean whatever the political narrative chooses them to mean. The Pfizer document recently revealed by order of a federal judge didn't exactly inspire our confidence in that "cherry picking" of science that you mention, which started with Ancel Keys 'Seven Countries Study' (or no doubt long before). Neither does the wretched Pfizer decision to work on a new politically expedient Omicron-specific jab - does not quite gel with the spirit of scientific inquiry to "expand our freedoms" you refer to, versatile).

"Vax Causes Variants & Hospitals Murder CV19 Patients – Dr. Elizabeth Eads" at
rumble.com/vq873s-vax-is-variant-and-hospitals-murder-cv19-patients-dr..

The Greg Hunter interview with Dr. Eads carries good information and some great news. For one, she says Nuremburg 2.0 has started in Germany with Reiner Fuellmich. and a team of 1,000 lawyers and 10,000 scientist, She talks about David Martin doing the patent research and laying out the case for fraud behind the depop shots. Martin is asking state AGs to make arrests and prosecute. One case kills the emergency authorization use. Greg and Dr. Eads talk about the Drs. going out and getting their injections and now they are all sick with no known treatment. The CDC is a private corporation meant to make money on vaxxines. Pharmacists by law have to fill prescriptions and Walmart is breaking it by banning Ivermectin. It is a depop shot and people will be dropping like flies. They did not say dropping like flies, but it is the term out there. The hospitals are murdering people and Eads has to intervene to see people get the care instead of murder. They covered a lot of ground and there will be people cry after that, especially if it is all new to them.

Thanks Preston. Many "health care providers" are in large corporate practices and manager-run clinics that follow protocols passed down by the NIH, CDC, FDA, WHO, and AMA all of which are influenced by Big Pharma. In other words, the approval and application of the medicine has a serious conflict of interest. The protocol for treating Covid has been to deny treatment until the patient becomes life-threateningly ill and is admitted to hospital. Inside the hospital, the protocol is to deny patients safe and effective treatments with HCQ and ivermectin. Many patients end up dead on ventilators.

The Covid protocol demonizes known and safe treatments. Doctors who prescribe these cures are threatened by their medical associations with the loss of medical license. Dr. Noel says that doctors are prey and part of corruption, because they are in the hands of the medical tyranny of BigPharma, government institutions, and the leadership of Biden and Fauci.

www.bitchute.com/.../oVY5Klagn9o9 THIS GUY! When he brought up the syncytin situation, I got quite nervous for our young adults. That he's been so right about so much in here, I'm relistening to see if I missed anything -because some seemed over the top, and as well all know now - it wasn't over the top. He nailed it.

It is something I send to 'the younger' crowd ... if they can wrap their heads around it ... Still am curious who got the saline and who got full blown jab. It's reckless medicine to not constantly be checking places like Pfizer - so well known for bad medicine.

Yes, Tracy, two brave physicians, Dr. Wolfgang Wodarg and Dr. Michael Yeadon, have submitted a motion for administrative and regulatory action to the European Medicines Agency (EMA) regarding the new coronavirus mRNA vaccines developed by Pfizer / BioNTech. They warn that vaccines can attack the cells of the placenta, causing female infertility Most concerning is the vaccine's potential to cause female infertility. The mRNA vaccines are intended to induce an immune response to the SARS-CoV-2 spike proteins, but these spike proteins (transcribed for replication within cellular ribosomes) also contain a homologous form of syncytin-1.

This natural protein (syncytin-1) is created from human endogenous retroviruses and is responsible for the development of the placenta in mammals and humans. This protein is necessary for a successful pregnancy, but after vaccination with COVID-19, a person's immune cells will be trained to attack syncytin-1 (leading to possible miscarriages, birth defects, and infertility). The study designs do not test for mutagenic or reproductive defects, however the science of the mRNA vaccine shows the potential to cause long-term autoimmune destruction of the female reproductive system.

Hi pip, Thanks! found this in the sidebar: www.wsj.com/articles/the-vast-promise-of-mrna-vaccines-covid-19-omicro.. - This is the second or third business article I have seen, Bloomberg News had the first on "What's Next for Moderna", lauding the benefits of mRNA technology. This technology sat in a bin somewhere for years as it was deemed too dangerous. AND if you consider a shot that is consistently losing efficacy, relying on spike proteins that are damaging internal organs for at least 15 months, and only protecting anyone for 4 or 4-1/2 months a great technology to pursue...

Yes, Randall, the big finance associated with the Pharmaceutical Mafia is running this new world order. The main vaccines used are produced by three US pharmaceutical companies - Pfizer, Moderna and Johnson & Johnson - owned and controlled by the three largest investment companies in the United States: BlackRock, the largest in the world, Vanguard and State Street. These three financial firms also own and control the American pharmaceutical company Merck, which first produced the "anti-Covid pill."

BlackRock, headed by Larry Fink, has thousands of companies from all sectors in its portfolio. The capital it manages has grown in the last ten years from 3,500 to 9,500 million dollars (more than 5 times the GDP of Italy) and continues to increase. In this way, BlackRock, Vanguard and State Street have a voice in decision-making on the boards of directors of major multinationals and banks, including central banks. America's largest investment bank, Goldman Sachs, is owned and controlled by the "Big Three" themselves. The same goes for Standard & Poor Global, the rating agency that monitors the world's economies, failing or promoting them. www.globalresearch.ca/behind-great-reset-big-finance-power-consolidati.. (Nov. 25, 2021)

New World Order controllers know that narrative is everything. Controlling information and controlling the way people interpret that information is the absolute power to control perception. This article will take a deeper look at how the official COVID narrative has been able to induce people into a state of fear, disempowerment, compliance, obedience, and mass hypnosis, and how it continues to do so, in a manner identical to brainwashing propaganda. of a cult.

Forbidden - The final chapters of RFK Jr's book describe the crossing over or re-positioning of military bio-weapons research into Dr Fauci's NIAID. It appears DARPA started working on these a long time ago, well before the 2010 outline, the 2012 revision, and the 2016 update. With a history of chemical warfare coming out of WWI and WWII, biological weapon concepts never really went away. According to the historical thread RFK outlines, it appears the push was to to find vaccns to combat potential viral exposure, like Anthrax and similar, however, they needed to produce the pathogen first, in order to develop the shots. The chapter prior, he outlines the string of fake pandemics, starting in 1976, with rushed, dangerous vaccns that had to be stopped or caused a lot of GB and some deaths. Pharma learned that responding to pandemics may be the most lucrative part of their business plans. Dr. Fauci learned how to call and run these faked pandemics. The general public, however, may not have been any the wiser.

The Kindle version of the book is 2.99 on Amazon and you can download the free Kindle app to your computer or read it on Amazon Reader on their website - its sad, disheartening, yet sheds a lot more light on how this 2019 event came about. Bill Gates Foundation funds Gavi, CEPI and the WHO - this represents a near monopoly on vaccn manufacture and distribution. His other "philanthropic projects" like funding mainstream media, closed gaps that were apparent during each prior attempt. Then there's the politics involved...

"They could have their brother, sister, mother or father get the shot and die with the needle still on their arm, and they'd still go out to get a booster the next day." "So, while I agree that we must keep trying, and have faith that truth will prevail, I also think it's important to have realistic expectations." WOW! Is Dr. Mercola the best and smartest or what? A perfect summation of where we are. We are so lucky that Dr. Mercola is doing all that he is. And he is fearless - as one must be to fight this war. As a 71 year-old I'm so grateful to have lived in the good times. Why, oh why, aren't more of the young ones fighting to ensure they have a chance at a good life too? All this misery and loss is self-inflicted, and so plain to see, and yet so unchallenged by most. I agree with Dr. M we must keep trying, but if my 71 years of observation have taught me anything, it is that people are, by and large, pathetic. It appears self-government is not sustainable, as so many of the founders feared. Another thing I've learned is we can be pretty sure of ourselves and be wrong. I sure hope I am.

It really grinds my gears whenever I hear the quacksines uncritically and universally referred to as "gene therapy".....a euphemism to make them seem beneficial and with all the positive and life enhancing characteristics we have been conditioned to associate with "therapy".....soothing and with a jolt of trust and reassurance of a promising outcome. Calling it a "therapy" is a misnomer designed to cover up the toxic nature of this program. Same with "treatment".. which day by day seems more and more like some kind of highly expensive pseudoscientific manipulation delivered to the helplessly trusting patients dependent on the tender ministrations of the

Rockefeller medicine industry for their very "health" and life. There is power in words, in language. The Sapir-Whorf Hypothesis indicated that language programs people to think, perceive and associate in specific ways. IOW If a "treatment" is labeled as "therapy," then we can just safely ignore anything that would contradict that, no matter how strong the evidence. "Science" also is a word that all the kneejerk non critical nonthinkers also have been conditioned to react to without

One basic truth can be used as a foundation for a mountain of lies, and if we dig down deep enough in the mountain of lies, and bring out that truth, to set it on top of the mountain of lies; the entire mountain of lies will crumble under the weight of that one truth, and there is nothing more devastating to a structure of lies than the revelation of the truth upon which the structure of lies was built, because the shock waves of the revelation of the truth reverberate, and continue to reverberate throughout the Earth for generations to follow, awakening even those people who had no desire to be awakened to the truth. the u.s. gov't is providing an excellent service. Naming Dr. Mercola the number one source of disinformation has been a great help. When you understand that the gov't is the private property of the most psychopathic and powerful forces on the planet, you appreciate the u.s. gov't for indirectly telling you where the best information lives. It lives on the sites of the people on the list. Thank you u.s. gov't. Not very important to know that the "elected" president is there because the trillionaires who profit from this have manipulated the "election".

Dr. Christiane Northrup reported early on at the beginning of the mRNA vaccine that her patients were sending her screenshots of massive clotting after being jabbed. They had no prior history of severe clotting. Dr. Northrup was quickly placed on the dirty dozen list. The Portland Press Herald shortly after did a hit piece on her (as she has a residence in Maine) calling her out as a former respected doctor turned quack. It now appears that her warnings were correct, but she will still be vilified for speaking the truth.

Meanwhile, Fauci, et. al is sounding the hysteria alarm for all people to be injected as quickly as possible because of the Omnicron variant. Could it be that "they" are trying to get as many shots in the arms now because the Omnicron variant may actually end this farce as it spreads rapidly and creates herd immunity quickly. Wouldn't that be ironic? "They" did not anticipate the virus would cross with the common cold and thus create a significantly milder version of covid, naturally immunizing the population as they are exposed. One can only pray, sending out intention to the Universe. Pfizer is the "Monsanto" of Big Pharma and their CEO is in bed with Biden.

Yes, pipblanc, we are ante crimes against children, adolescents and pregnant women is another of the maneuvers of the Pharmaceutical Mafia with its insufficient and manipulated trials, its alliance with the CDC and FDA and with the approval of the "great" Doctor Fauci. In June, the New England Journal of Medicine (NEJM) published a bogus study claiming that Wuhan coronavirus (Covid-19) "vaccines" are perfectly "safe and effective" for pregnant women to take. A few months later, the NEJM was forced to issue a correction. The goal, of course, was to convince as many people as possible to read it to accept its false claims without even thinking twice, simply because it was published in the "reputable" NEJM.

Steve Kirsch, founder of the Covid-19 Early Treatment Fund (CETF). "In summary, the CDC has no basis to recommend the vaccine to pregnant women. Will the lack of evidence make a difference to the CDC recommendation? Of course, no. We will experiment with the public, "Kirsh added. The report by Shimabukuro et al. includes safety results for 35,691 v-safe participants 16 to 54 years of age who identified as pregnant and the first 3958 participants who were enrolled in the v-safe pregnancy registry.

"Among 827 registry participants who reported a completed pregnancy, 104 experienced spontaneous abortions and 1 had a stillbirth. A total of 712 pregnancies (86.1%) resulted in a live birth, mostly among participants who received their first vaccination dose in the third trimester. Among live-born infants, the incidences of preterm birth (9.4%), small size for gestational age (3.2%), and congenital anomalies (2.2%) were consistent with those expected on the basis of published literature .. More side effects in the link. www.nejm.org/.../nejme2107070

Immunocontraceptive?????? If the effect of these vaccines is to reduce the world population that fits exactly with the Gates agenda (India). This is really frightening and I don't think I am holding out much hope for grandchildren. The book by PD James "The Children of Men" comes to mind: The Children of Men is a dystopian novel by English writer P. D. James, published in 1992. Set in England in 2021, it centres on the results of mass infertility. James describes a United Kingdom that is steadily depopulating and focuses on a small group of resisters who do not share the disillusionment of the masses. How scary is this? 1992? And I thought I was ahead of the pandemic by writing FEAR in 2003? We must stay strong and true in the face of adversity. If anyone is interested I published a short book yesterday: a poem called "Integrity" which can be found in the usual places. I think of it as a prayer for our times. Philippa White

Pipblanc: I have watched that movie and it was so good! I also know you and I are similar as we have children and as I've discovered they have all took the "counter measure" (I am borrowing that terminology from Dr. David Martin whom I have massive respect for,and I'd like to propagate the use of that term instead of any other terms that start with the letter V) I secretly deep down have horrid fears that my kids may all have difficulties having their own children. I have a family friend who had a pregnant young adult daughter. The child was stillborn :(. Absolutely heartbreaking. Yep counter measures were involved in that.

I agree completely that the drug companies along with their bought off minions want to obliterate the controls. Just like they do with all the other drugs. The more people who take their crap the less likely those who react badly count.

"Ultimately, the truth will come out, as long as we can preserve the control group." I've been thinking the same thing for a long time. First time I've seen it written though, and I read a LOT about the fascinating self-destruction of the best civilization in the history of the world. You can see their desperation to eliminate the control group. They're having trouble now shifting the focus to the unjabbed third world while we still have so many holdouts in the more developed countries. There are some reasons to hope - this is one. Eliminating the control group is a daunting task for them. Another reason to hope is the most harmed people are their enablers.

Brainwashing. The test run for the death jab campaign worked perfectly. It is now considered hate speech to name the sex of a gender dysphoric person, even in a medical context. Do you think doctors (and the Lancet) have been brainwashed to believe that a human can change their biological sex? Try saying the dictionary definition of woman and watch how quickly your Facebook or Twitter account gets shut down. Woman: (noun); Adult human female. Biden has changed all language in Federal agencies to eliminate sex, in favor of gender identity, including Title IX. Boys and men can now compete (and ruin) in the category of women's sports. Boys and men can now invade any formerly single-sex space like bathrooms, showers, locker rooms, rape crisis shelters, etc. The only man who has the courage to speak out on this and challenge the narrative is a black comedian, Dave Chappelle. Step up. Stand up for women and for science. We need the men to speak, because women have been long silenced on this issue

Some people have told me they have noticed personality changes in their relative/friend who has taken the shot. They have gotten nastier, more argumentative. So maybe there is not always an obvious side effect of the vax, apparently it may somehow be effecting the brain chemistry, and only the people closest to them would notice the change.

Yes, Luana, even major mental problems. The effect of restrictions and the "vaccines" themselves are the perfect cocktail for mental disorders. COVID-19 vaccines appear to compound the problem. So far, more than 100,000 cases of hallucinations, anxiety, sleep disorders, psychosis, and suicide have been reported after COVID-19 injections. . The combination of physical distancing, financial stress, barriers to mental health treatment, pervasive national anxiety, and an increase in gun sales are creating what JAMA Psychiatry called "a perfect storm" for suicide mortality. "Suicide is likely to become a more pressing concern as the pandemic spreads and has longer-term effects on the general population, the economy and vulnerable groups," according to David Gunnell, professor of epidemiology at the University of Bristol and director of the Bristol Suicide and Self-Harm Research Group, and its research team, which recently published their findings in The Lancet Psychiatry. www.psycom.net/covid-19-suicide-rates

Hi Gui,

If personality changes are possible, we may see more of an increase in crime . Seems like having a few hundred million people becoming more apathetic and unhappy will brings us even more riots, crime and destruction. I wonder what we will look like in 5 yrs.

This Doc and I are on same page for Depop and the need to keep the control group....but I am a little more direct. Also as I have noted before, their ONLY stated justification for forced worldwide jabs for adults and children is that symptoms are less? Please. Its really too bad that so many people aren so damn stupid to think you can prove a negative. Is this thing on? Why are they killing us

I spend the winter months in a 55+ community. So the jab and booster has been a big topic of conversation. One friend, 79 has been bleeding pretty heavily for two months. Another is dealing with such swollen legs and an enlarged heart. I've heard a few others now with health issues. I just paid to have blood work done. Wanted to see what is going on 90 days after covid hospitalization. Crp is high. TSH at 9 and has never been that high. Rest of the thyroid tests are all good. Thinking tsh is high due to inflammation. Cholesterol tests are all out of whack. Waiting on d dimer and troponin. They said this could happen. Don't want to imagine if I was jabbed

What is a "questionable faith" a good or bad thing? To be able to ask questions or have questions does not make a faith "questionable" but rather a positive as then one is not suspending one's natural means of self protection through common sense and the thinking mind. But where a faith or belief does not permit the asking of questions then an accusation of questionable faith and all its negative connotations is appropriate and one can be accused of committing "blind faith" as a consequence because there is suspension of common sense and the thinking mind through the process of a lack of questioning when questions are warranted. This then moves us into the area of cults. If there exists such a thing as religious cults then why not a medical cult where common sense, questioning and the thinking mind seems to be absent. Accusing people of being part of a vaccine cult is perhaps hitting the nail on the proverbial head as to why they are so resistant to questioning, obvious contrary information and common sense thinking . That to me is an indication of indoctrination into a cult scenario. Perhaps deprogramming people as they do in religious cults is required though it sounds a little too much but may not be too far from the money.

Just this morning I was listening to some nationally syndicated radio show interviewing various "experts" in infectious disease. Some Dr. Gordon was on from the Cleveland clinic who was flat out telling everyone how safe and effective these injections are and how injected immunity is so much better than natural. We all know how important it is that we choose outlet or sources of information wisely these days, and I tell people this constantly, but every so often I am just slapped in the face at how incredibly different these so called "experts" are saying exactly the opposite of the expert's I choose to follow. Its like night and day listening to this Gordon who is the director of infectious diseases at the Cleveland clinic. Does anyone know him and his reputation and or credibility? The dichotomy of different takes on this all since 2020 is just so stark at times still and it's almost 2022 now.

Is the Johnson & Johnson "vaccine" in any way an mRNA shot? I never see any studies about it's affects on people other than the blood clotting issue. Also I've not seen percentages of blood clotting issues after the J&J shot.

The J&J jab is not an mRNA type, rather it is a DNA strand in an adenovirus container. It is my understanding that the adenovirus component contributes to the immune response.

He makes the comment in this article that they're considering running ads that tell the truth about these shots in order to get the truth out to people. That would be great but I doubt that they'll ever find any main-stream media outlets that will publish them.

let us look at the Snake's upbringing - Snake Senior the sperm donor for Snake Junior operated as the High Priest of the Church of Eugenics {now known as the Church of Population Control} - his position as High Priest was confirmed when the Rockefeller's appointed him as Chief Executive Officer of their FRONT organization PLANNED PARENTHOOD - you don't become a High Priest of their population reduction organization if you don't believe in their deranged psychological aspiration to do everything in their power {and they have lots of power} if you are not sincere in your belief that human reproduction should be hindered and impeded or stopped completely -

now his son Snake Junior was subjected from birth to the core Eugenics principle that "THERE ARE TOO MANY PEOPLE ON OUR PLANET" and Snake Junior was CONDITIONED to believe from birth that his task on our planet and the meaning of his existence is the END of human reproduction- Snake Junior, to this end developed the DEVELISH scheme to use any means possible to force the despised humanity to STERILIZE VOLUNTARILY through the medium of vaccination - the perfect medium for universal population retardation - THIS WAS THE PERFECT DELIVERY SYSTEM FOR HIS killing program - the Snake's Death Machine par excellance - in Orwellian speak the Snake has proclaimed his mission is to "SAVE" lives which actually means his mission is to END life itself- the "MORONIC INFERNO that constitutes public awareness takes his forked tongue expressions literally - this is in spite of the fact that Snake Junior has stated publically that his avowed task is to REDUCE HUMAN POPULATION - the Snake's predecessor Adolf Hitler also advocated DEATH as the path to human freedom

Yes, Stan, planned genocide. Big Pharma has more than 170 covid-19 vaccines in development, but Bill Gates and Dr. Anthony Fauci have pioneered experimental RNA technology. This technology is a type of genetic engineering called germline editing. Bill Gates has been driving this technology for more than a decade and has the financial resources to carry out these genetic alterations in populations around the world. Technology forever changes genetics and cellular processes in your body.

It has also been shown to cause side effects in half of the study participants, and its effectiveness decreases within 2 to 3 months. So we are seeing large-scale hospitalizations for the injection, which will falsely be attributed to those who did not receive the vaccine. It is part of the genocide.

In the economic benefits this NIH that owns half of the key patent of the controversial COVID vaccine from Moderna and could collect half of the royalties. Fauci's infusion made Moderna CEO Steve Bancel a billionaire and further enriched Fauci's mentor and co-investor, Bill Gates. childrenshealthdefense.org/news/vaccines/gates-pushes-gene-altering-te..

MRNA can be used to turn off the human immune system and reproductive system with the flick of a switch. Just as the medical-industrial complex creates tiny cameras and nanotechnology to manipulate human function, China's forced fertility program is about to show up in the United States in the most surprising way: through Covid-19 mRNA vaccines. They are already targeting adolescent and *** girls in the United States.

I've posted this before but it needs to be read again. NIH is fully capable of lying to the public. Notice that the Director of NIH is Dr. Francis Collins, who regularly claims to be a Christian. Studies Confirm COVID-19 mRNA Vaccines Safe, Effective for Pregnant Women Posted on June 1st, 2021 by Dr. Francis Collins Clinical trials have shown that COVID-19 vaccines are remarkably effective in protecting those age 12 and up against infection by the coronavirus SARS-CoV-2. The expectation was that they would work just as well to protect pregnant women. But because pregnant women were excluded from the initial clinical trials, hard data on their safety and efficacy in this important group has been limited.

So, I'm pleased to report results from two new studies showing that the two COVID-19 mRNA vaccines now available in the United States appear to be completely safe for pregnant women. The women had good responses to the vaccines, producing needed levels of neutralizing antibodies and immune cells known as memory T cells, which may offer more lasting protection. The research also indicates that the vaccines might offer protection to infants born to vaccinated mothers...directorsblog.nih.gov/2021/06/01/covid-19-vaccines-safe-effective-for-..

Understanding what's driving them is the only way to have any power or traction. Consider a few statistics: Farm resources per MINUTE as of 8/20/2021: Diesel: 502,653 pounds Fertilizer: 745,162 pounds Water: 11.1 billion pounds Electricity: 1.6 billion watt-hours (worldfoodclock) 20,000 plastic bottles produced each SECOND (see source at Guardian article) 237,328 new consumers on earth every DAY accounting for deaths (UN World Population Dashboard, current population x growth rate 1.1 / 100 / 365) 7.3 billion pounds of sewage per DAY. Most importantly, does our planet have infinite room for the continuously expanding farms needed without burning more forests to make room?

Could their view be summed up with the following? Earth is too beautiful to let unrestrained sex drives ruin it. A competent elite class would just be honest, publishing in primetime the statistics about resource limits that are terrifying them and offer cash as token thanks to any vasectomy volunteers for caring about the planet. Is it all about fertility reductions in the jab for a more stable world economy? Note, it doesn't matter what any of us think about population growth, only what elites driving this think. Once we start talking about these things, they'll surely say, oh they're finally onto us, and that will change things the better.

Yep. Researchers in Europe had this vax-fertility issue nailed a year ago. It's cute how they're using mRNA, GHO, and who knows what else to muddy the waters. Plus most batches are failures or harmless by design. For now. On a side conspiracy theory note: Saturday in the upper midwest USA it was a beautiful sunny day with blue skies and literally dozens and dozens of thick, white airplane "exhaust" trails. They stretched across the entire sky, zooming straight past the large international airport. One I was watching left no "exhaust" until it approached this highly populated metro area. Yeah. That's real normal (sarcasm). "Do you think we just didn't notice this when we lived 15 miles north and farther from the airport?" "No, we would have noticed, I think things have changed in recent years." The good news is: if it is some spraying operation, they'll probably fail at that too!" Have a wonderful day!!

My daughter-in-law had a molar pregnancy after having received the Jab in her first trimester. Molar pregnancies are 1 in 1000 in Canada, so under 400 per year in Canada. No one attributed this to the vaccine. I wonder what the rate of live births are in 2021?

"Power corrupts and absolute power corrupts absolutely" (Orwell?). "The most difficult subjects can be explained to the most slow-witted man if he has not formed any idea of them already; but the simplest thing cannot be made clear to the most intelligent man if he is firmly persuaded that he knows already, without a shadow of doubt, what is laid before him." (Tolstoy, giant of Russian literature).

What to do when the world has succumbed to group formation? Use the power of the purse. Stop buying from big corporates - Amazon,

Walmart, etc or anything owned by Blackrock. Support local small independents. Get social media out of your life for good. Their overweening power has gone to their head. We survived before they came along, we can survive without them now. Pay for goods in cash whenever possible. Join your local chapters of Children's Health Defence and Nourishing Traditions. Take off the mask - it tells the world you believe everything you see on mainstream media and cannot think for yourself. Or wear a sign saying "I am a slave and do as I'm told".

We have a plethora of guides and guidelines for treating people infected with SARS-Cov2 and for those seeking preventatives, but we have none for the vaccine injured. We need a "Vaccine Injured Treatment Guide" to parallel the "Covid-19 Treatment Guide". To the best of my knowledge, no one has yet come up with one. I think it is a crying need of the hour. Right this morning, I learnt of someone who has been suffering from vaccine injury. She has been off work, going after one doctor and another, only to be heartlessly dismissed as "a nut case" i.e., her imagination, nothing real. "The vaccines are safe and effective". Yes, now don't we all know that? In the meanwhile, someone out there is left alone in the lurch to find a way to fend off fiends attacking her innards. To me, it all sounded like an autoimmune attack. Breathlessness, exhaustion, loss of energy, can't speak, can't move. Mitochondria under attack, perhaps? Any particular approach to mitigate/resolve this would be much appreciated. Ivermectin is out of the question as doctors here won't touch it. No hydroxychloroquine either.

Zinc for mitochondria with magnesium - electrical charge and water with salt too. Quercetin, D3/K2. These are my go-to supplements after Covid. Also the microbiome is very disturbed by the virus, so presumably by the jabs too, so the GI health is very important for recovery. See my comment today as I think this is the most disturbing article yet.

The same stuff is happening in Germany. I have 3 colleagues who were booster jabbed in September, and have been written off work. 2 very soon after and one just recently. I do not know whether they also had the flu jab which was offered here at work a month after the booster shot but, I think they are gullible enough to have done it. This now entails doctor visits, blood work to find out what the problem is. Another 3 have been written off work due to mental problems, burn out, depression. And yet the boss keeps making my life difficult because I refused the jabs. FFP2 masks and daily testing before work.

In these links, Dr. Mercola presents a guide for the treatment of the vaccinated 1. THE MANY WAYS IN WHICH COVID VACCINES MAY HARM YOUR HEALTH www.lewrockwell.com/2021/05/joseph-mercola/the-many-ways-in-which-covi.. 2. MIGHT COVID INJECTIONS REDUCES LIFESPAN? www.lewrockwell.com/2021/07/joseph-mercola/might-covid-injections-redu..

ProximaC, you are absolutely right. I am watching for articles which make specific recommendations for the jabbed. People can take detox supplements, but unfortunately there doesn't seem to be a way to get rid of the mRNA. Guillermo, thank you for the lewrockwell links! You are the best. God bless you.

Hello Proxima, not sure if you are a regular reader of mercola.com, but someone recently posted (about end of November) what seemed like a useful protocol for what was described as "jab remorse" in the following day's mercola article. I took a copy of it from the comments page on what to do after getting the vax, so hope it helps you:

Protocol re spike protein clearance :- (1) NAC (n-acetyl-cysteine), precursor to glutathione. (2) Dandelion tincture between meals for liver support. (3) Proteolytic enzymes between meals, which are normally taken with meals to help digest dietary proteins but taken on empty stomach may help break down unwanted proteins. (4) A supplement programme similar to protection against viral infection: D3+K2, magnesium threonate, iodine, melatonin, vitamin A, vit C and bioflavonoids, Zinc + ionophore e.g. quercetin, B vitamin complex, lysine to counteract herpes if activated. Herbal remedies including andrographis, licorice and dandelion. (5) Switch off Wi-Fi at night to allow full detox and allow natural, detox enzymes to work properly (6) Optimize sleep especially before midnight. Get early to bed to realize full detox potential. (7) Daylight in the morning, enhances sleep cycle and circadian rhythm. (8) Adequate filtered water intake with clean, fresh, unprocessed diet, low in sugar and refined carbs, high in Sulphur and magnesium sources. Grass fed, outdoor raised meat and poultry, avoiding farmed fish and factory farm produce.

ProximaC, Yes, several doctors are working on describing more natural ways to disarm the spike protein production so it does not continue to cause as much internal damage. As you can imagine, one of them is an MD JD. Please check out the website of Dr. Bryan Ardis - you will need to login to gain access to their video series they are producing. Here's a recent paper from October entitled "Cancelling the Spike Protein" - orthomolecular.org/.../v17n24.shtml - this is more along the lines that Dr Judy talks about in her recent interviews.

Where is the link to the CDC report indicating 300 children have died from myocarditis? The VAERS report that is cited only indicates 148 deaths between the ages of 12-24, which is equally unacceptable and deplorable, but if I am going to forward this article to familiar skeptics, the accurate supporting data needs to be included.

You want accurate data from the CDC??? Please do not make me laugh too hard! Their reporting system has an under-reporting factor estimated between 31 and 41. Take their reported numbers and multiply. Listen to Steve Kirsch on this topic. Here's Dr M's recent interview w Steve Kirsch: articles.mercola.com/sites/articles/archive/2021/12/05/covid-vaccine-s..

But with all these proven problems with this 'vaccine' and unknown thousands dieing..and kids dieing....why are these 'Educated' Boards of Education mandating millions of students get pumped up with this known toxic 'vaccine' ? Maybe the Courts and a pack of blood thirsty Lawyers go after the BOE? I mean the demanded kids get DaJab" ,so they are liable ...make them PAY !!!!! and the Kids should get together and SUE!!!! Ifn I was a kid..i would be 'Razin' Hell'..!!!!! Kids have Human Right too.... Ya might have to start low like the BOE locally....but that would get the 'snowball started'....and go after the governments.....they can be sued...yua just gotta have BigBalls and a lot of cash Of Course,,there are a lot of ways to "skin a cat" ...:)

Yes, mrrobb, the siege that is being carried out against children is terrible. We know that Covid for children is not serious, except for very serious pathologies. We know that vaccinated people transmit Covid like unvaccinated people. So what is the reason for vaccinating children? The same reason to vaccinate the entire population: the economic benefits and the submission to the globalist elites that mark the course of the Great Reset, THE UNITY PROJECT - CONCERNED PARENTS COORDINATE OPPOSITION TO CALIFORNIA'S K-12 COVID VACCINE MANDATE PLAN A coalition of concerned parents, business leaders, teachers and other professionals throughout California have founded The Unity Project in opposition to California Gov. Gavin Newsom's plan to impose a COVID-19 vaccine mandate on the state's K-12 students once the U.S. Food and Drug Administration fully authorizes vaccines for this age group. childrenshealthdefense.org/defender/the-unity-project-california-gavin.. I was curious when she mentioned she had alternate sources for numbers in Michigan. She alluded to the possibility that it is not a pandemic of the unvaccinated. The conversation got sidetracked and they never got back to it. Would anyone know about that?

We have choices, choose the "Pseudo Reality of the Bamboozle" perpetrated by The Powers That Be (Power Elite, Deep State, etc) or choose the "Reality of Common Sense." Common Sense: 1. Patent US 7279327B2 METHODS FOR PRODUCING RECOMBINANT CORONAVIRUS Filed Apr. 19, 2002. That seems like "gain of function" and it's been going on for 20 years and was funded by NIH.

pubchem.ncbi.nlm.nih.gov/.../US-7279327-B2 2. PCR Testing – Inventor and chemistry Nobel laureate Dr. Kary Mullis did not have kind words for Dr. Fauci. Being a non-scientist, I think of PCR as an amplifier. Get enough amplifier gain and transducers (speakers), a pin dropping could sound as loud as a jet engine. But it is still a pin dropping, it depends on the gain how loud it is.

4. Masks. Have you seen the personal protection equipment they employ at Biosafety labs? What good are poor quality masks alone? Better off to avoid indoor, poorly ventilated, and congested spaces. 5. No official prophylaxes or early therapeutic treatments. Does that seem reasonable? 6. Why wasn't the absolute risk reduction (ARR) based on the studies noted to the public. Why just relative risk reduction (RRR)? 7. Where is the "cost/benefit" analysis of lock-downs, mandates, business closures, etc.? 8. Given "one jab fits all", where is the "individual" based risk analysis? 9. What happened to the animal studies? What happened to the fertility studies? 10. Given my limited knowledge, I thought COVID is an RNA virus? Aren't RNA viruses unstable and mutate? How can one develop a vaccine for something that is unstable and mutates? 11. These mRNA jabs are synthetic instructions for an enhanced "Spike" protein. Having "Spike" protein floating around my body, is that a good idea? Per the VAERS, it is scary what happens to people. Glad I follow Dr. Mercola and his community. They have "Common Sense."

Repeat after me...."Safe and Effective", now shut your mouth and comply. Seriously though, anyone who can still think for themselves, isn't buying into any of this nonsense. The real question in my mind is, how many of us will cave once we won't be able to buy/sell without being jabbed? I personally will chose death first, because I know what God's Word says about the Global Beast System forming before the return of Messiah. We are living in those days for those of you who aren't aware. And for all of those Christians who think they will be raptured before the tribulation hits, I got news for you...go read your Bible...you aren't going anywhere. Your religions and "church" buildings have all been infiltrated by the enemy, and they are teaching heresies to those who don't study their Bibles. Think I'm wrong? Go drive around and look at any church building in your city, and take notice of all of the pagan symbolism covering your buildings. You can see the same thing on all of the Bible collages too.

I'm not saying true followers of Jesus cannot be found in these places, I'm merely pointing out what's happening and why the Body of Christ seems powerless against this evil agenda. Listening to preachers tell their flocks that the jab is safe and effective makes me shudder. These men will stand before The Almighty and give account for their betrayal. If our bodies are the Temple of God, and we have defiled them with this abomination, which bears the name of Lucifer...(Luciferase is inside all of these Mrna jabs according to their own documents on their own websites) - no follower of Jesus would inject this into themselves.

If you have ears to hear, time is short...prepare for the coming chaos, and above all, Repent and get your heart right with God. Only the Prince of Peace can fill that void in your life. If you've never known God, or felt His love towards you, Repent, humble yourself, and read His Word and Pray, and then sit back and watch Him reveal himself.

So, Mercola doesn't want her to discuss the whole erasure of sex in favor of gender identity issue? Thanks for proving the point about how women are silenced about this issue. Meanwhile, the same Big Pharma billionaires have been executing this strategy for more than 10 YEARS!!! 13-year old girls are getting their breasts chopped off (paid by insurance) because they don't fit the feminine gender stereotypes. There are now more than 300 gender "clinics" in the US, dispensing puberty blockers, wrong-sex hormones, and mutilating surgeries on boys and girls. Jon Stryker (Arcus Foundation), Penny Pritzker, Martine Rothblatt, George Soros are among the masterminds of this operation. Denton's law firm laid out the strategic plan in 2012. Jennifer Bilek at 11th Hour Blog has all the research.

Speaking anything against the thought-terminating cliche "trans women are women" results in the same punishments you and your guests have only recently experienced since the COVID advertising campaign began. The thought-terminating cliche here is "vaccines are safe and effective". Get some perspective, sir. Dr Mercola, be brave and look at the data on the transgender industry. Speak up and stand up for biology! Note that the California dept of Health has designated female breasts "abnormal growths" so as to facilitate insurance coverage of mutilating our daughters. Note also that the vast majority of the activists in this Transhumanist movement are autogynephilic males, whose paraphilias include children and violence. Note that the vast majority of those with genuine (as opposed to advertising-induced) gender dysphoria and call themselves trans are opposed to the extremism around this issue.

I really appreciate the authoritative individuals being interviewed by Dr. Mercola, but I do take issue with his frequent interruptions. IMHO, the interview takes 2 steps back with each interruption.
