STORY AT-A-GLANCE

- The COVID-19 shots are waking people up to vaccine myths, such as the idea that vaccination always prevents infection and transmission, and is the only way to achieve herd immunity. The truth is that many vaccines don't prevent infection or transmission, and vaccine-acquired immunity is typically temporary. Sometimes you don't get it at all
- Over the past 18 months, the number of people asking questions about vaccine safety has grown significantly. The subscriber base to the National Vaccine Information Center (NVIC)'s The Vaccine Reaction journal newspaper has increased by more than 50%
- After 9/11, Congress and the pharmaceutical industry got together and passed BioShield legislation that expands liability protection for drug companies marketing pandemic drugs and vaccines in the U.S.
- The PREP Act's Countermeasures Injury Compensation Program (CICP) is so inadequate, if you're injured by a drug or vaccine used under a public health emergency declaration, it's nearly impossible to receive compensation
- Health authorities and government officials have proven their incompetence during this pandemic. From the beginning, they neglected and actually prevented safe and effective treatments from being widely used — a decision that has resulted in unnecessary deaths and needless suffering

This week, we celebrate our 12th anniversary of Vaccine Awareness Week. In this video, Barbara Loe Fisher, co-founder and president of the National Vaccine Information Center (NVIC) — which will celebrate its 40th anniversary as an organization in April 2022 — summarizes some of the high and low points we've experienced over the past year.

> *"It's really kind of surreal for me to watch what has unfolded since the winter of 2020,"* Fisher says. *"In the 1990s, I predicted that the day would come when we would not be able to function in society unless we had received every government recommended vaccine.*
>
> *I didn't exactly understand how they would get there. Well, now we know how they got there, and it's like living my worst nightmare, which I thought my children and grandchildren would be grappling with after I was long gone. Instead, I'm here to witness it and it's very disturbing.*
>
> *But within this difficult challenge, we also have opportunity, because I truly think that what they've done has completely changed the public's view of public health officials and of public health policy in general. And I don't think they're going to recover — perhaps ever — but certainly not for a long, long time.*
>
> *The perception is that the public has not been told the whole truth about how this virus came about, and about the way in which they [need to] handle it.*
>
> *Certainly, if you look at it, you see that psychological warfare has been used to create such fear and anxiety in the minds of so many people that they were willing to give up fundamental civil liberties in order to feel safe, [but it's] an illusion of safety … I think they have overreached, because they are zealots in saying that everyone should get all these vaccines in order to keep the public safe."*

Growing Understanding of Vaccine Dangers

According to Fisher, polls show two-thirds of Americans do not want COVID shot mandates.[1] They do not want to be required to show a vaccine passport in order to participate in society, enter a restaurant or a store, hold a job or go to college.[2] "There is definitely not an appetite in this country for mandatory use of this COVID-19 vaccine," Fisher says.

> **“ [People are] starting to understand that vaccines do not prevent infection and transmission. The entire mandatory vaccination system has been built on the myth that if you get vaccinated, you cannot get infected and transmit the infection to other people. The truth is that vaccine-acquired immunity is often very temporary and sometimes you don't get it at all. ~ Barbara Loe Fisher, NVIC”**

An estimated 25% to 30% of health care workers and medical doctors are even refusing the COVID shot.[3] As noted by Fisher, "That's quite significant, considering they're the ones who have been taking care of these [COVID] patients in hospitals." Importantly, over the past 18 months, the number of people asking questions about vaccine safety has grown significantly.

> *"We've been talking about these issues — vaccine ineffectiveness, leaky vaccines, as well as vaccine safety issues — for nearly 40 years,"* Fisher says. *"So, these issues aren't just relevant for COVID. I'm hoping that this conversation is going to widen to taking a critical look at the entire mass vaccination system that is the centerpiece of public health policies around the world."*

In the early 1980s, when the NVIC first started, there was no information at all for the public about vaccine risks. Doctors never discussed it, so parents knew nothing. Of course, doctors were not educated on vaccine risks either, so the ignorance was spread equally among medical professionals and lay people. Awareness about dangers has increased more or less in tandem with the expansion of the childhood vaccination schedule.

> *"When I came into this work, it was seven vaccines we were giving our children," Fisher says. "Tetanus, the DPT shot, measles, mumps and rubella (MMR) and oral polio vaccine. That was it. That's all the children got."*

Today, children receive 72 doses of 16 different vaccines by the age of 18. The catalyst for the explosion of added vaccines in the early 1990s was the partial liability protection Congress gave vaccine manufacturers in 1986 under the National Childhood Vaccine Injury Act.

The National Childhood Vaccine Injury Act

The movie, "1986: The Act," released in 2020 explains how the National Childhood Vaccine Injury Act of 1986 (NCVIA) came about, and the ramifications of it. Fisher, who is featured prominently in the film, explains:

> *"That law was passed in November of 1986. I and other parents of DPT vaccine injured children worked on that law with Congress. They basically told us they were going to protect these companies from liability. We could either come to the table and argue for what we thought the children should get, or not come to the table, but they were going to pass the law.*
>
> *We came to the table and did the best we could. We were just a young group of parents against the pharmaceutical industry, the medical industry and the government, that all wanted to take total liability away from these manufacturers and the doctors.*
>
> *We managed to get that law to not protect the doctors. When that law was passed, the doctors were still liable for medical malpractice when it came to vaccines harming a child. The companies were also still liable for design defect. What they got off on was failure to warn.*
>
> *This is what people just don't understand. They* [the vaccine manufacturers] *were still liable in a civil court of law. And what did* [Congress] *do? In December 1987, in the dead of the night, an amendment was added to an omnibus budget bill … that completely let all the doctors and vaccine providers off the hook in a civil court of law.*
>
> *In hearings in 1987, companies begged Congress to give them full liability protection and Congress wouldn't do it. They only gave the doctors full liability protection.*[4]
>
> *Our unique contribution to that law was the safety provisions: informing, recording, reporting safety provisions. VAERS is the result of what we did in insisting that there be a centralized vaccine adverse event reporting system that parents and the public could report to, as well as the doctors.*
>
> *This is a one-of-a-kind vaccine adverse event reporting system [VAERS], and why we know today that more than half a million COVID vaccine reactions have been reported by the public, by doctors around this country and in other countries that use the Pfizer, Moderna and the Johnson & Johnson vaccines.*
>
> *There've been more than [13,600 deaths following COVID vaccination as of August 20, 2021, and more than 55,820 post-COVID shot hospitalizations*[5]*] reported to that system."*

The Destruction of the NCVIA

The National Childhood Vaccine Injury Act of 1986 also requires doctors to provide parents with written vaccine information before their children are vaccinated. Originally, these information statements were thick booklets full of information. But after the law was passed, the Department of Health and Human Services gutted the vaccine safety provisions, reducing that vaccine information statement down to a single sheet of paper.

> *"They took out a lot of information that should be given to parents,"* Fisher says. *"They gutted the compensation provisions. So, today, almost no child qualifies for compensation under that law. I guess what I'm trying to say is, what the law was when it was passed is not anything like the law we see today."*

Then, in 2011, the U.S. Supreme Court sided with Wyeth in a DTP vaccine injury case (Bruesewitz v Wyeth[6]) in which the prosecutor argued the vaccine injury was the result of a design defect (failure to make a product safer). Wyeth could have made the DPT vaccine safer, and they didn't do it. The Supreme Court majority claimed the legislative history was clear — that Congress intended that vaccine manufacturers should have no liability for FDA licensed and CDC recommended vaccines.

This was in fact the complete opposite of what the legislative history shows. Two of the Supreme Court judges, Justices Ruth Bader Ginsberg and Sonia Sotomayor, wrote a brilliant dissent, stating that the legislative history does not show that Congress wanted to give the companies complete liability protection.[7]

The film, "1986: The Act," dispels the myths surrounding this law, clearing up the many confusions about what the law was initially intended to accomplish. Unfortunately, the misinterpretation and gutting of the NCVIA opened the proverbial flood gates to more vaccines being mandated for children.

> *"There's not been one vaccine that has been created by the pharmaceutical industry and endorsed by government that has not eventually been mandated,"* Fisher says.
>
> *"And what they're trying to do during this pandemic is set the stage for every adult to also be required to get every government-endorsed vaccine. It is a public/private partnership between the pharmaceutical industry and government, and it's dangerous.*
>
> *When I came into this work, there was somewhat of a firewall between the pharmaceutical industry and government. They're now one and the same, and Pharma calls the shots at the FDA, the NIH and the CDC. That's just the plain truth of it."*

The PREP Act

While the U.S. Supreme Court granted vaccine makers blanket immunity for childhood vaccine-related injuries by the Supreme Court in 2011, the Public Readiness and Emergency Preparedness (PREP) Act passed by Congress in December 2005[8] added yet another layer of liability protection for the industry. After 9/11, Congress and the pharmaceutical industry got together and passed BioShield legislation.

This federal legislation was based on the idea that weapons of mass destruction could be used against the United States, necessitating protective legislation to respond to "pandemic or bio-terrorism emergencies." Of course, the weapons of mass destruction were never actually found but, still, Congress in partnership with the pharmaceutical industry passed BioShield legislation. The PREP Act is part of that legislation.

The PREP Act has to do with declared public health emergencies such as pandemics, and includes a separate mechanism for compensation when the injury occurs from a pandemic-related medication or vaccine. The PREP Act compensation mechanism was reconfirmed by Congress in the spring of 2020, and again in March 2021,[9] in regard to COVID-19.

While the 1986 National Childhood Vaccine Act-related compensation mechanism has been fatally compromised with Congressional amendments and federal agency rule making over the years, the Countermeasures Injury Compensation Program (CICP) under the PREP Act is even worse. It's so bad, if you're injured by a vaccine used under a public health emergency declaration, there's virtually no hope of compensation.

Imagine surrendering to all the pressure of losing your job and getting the jab, only to get so sick you generate over $1 million in hospital bills. It sounds outrageous, but this has in fact happened to many. They have zero recourse and in most cases have to declare bankruptcy, while the vaccine companies can continue to ravage the public treasuries without ANY liability or responsibility. It's beyond reprehensibly criminal, but they are getting away with it.

Robert F. Kennedy Jr.'s book, "The Real Tony Fauci," which comes out in November 2021, goes into far greater detail as to just how this BioShield legislation is really nothing more than a gaming of the system, essentially allowing drug companies to capture hundreds of billions of dollars from the federal government, (really you, the taxpayer). It's all a massive money and power grab.

Fauci himself, who is definitely one of the cores of this whole nightmare, is responsible for having allocated probably over $1 trillion in federal funding to researchers, principal investigators that are intimately and ultimately tied to pharma, over the 37 years he's presided as director of the NIAID. His budget for fiscal year 2021 alone is $6.5 billion.[10] The patents they created generates royalties to them. It's a nightmare dystopia of raping the public from the federal treasury.

'Colossal Mismanagement of a Pandemic'

From the beginning, health authorities have been neglectful when it comes to the treatment of COVID-19. They've even actively prevented safe and effective treatments from being used. In the interview, Fisher describes her own experience with COVID-19:

> *"I had COVID in December of 2019. I had a fairly difficult course with it for 10 weeks into the end of February of 2020. Of course, I didn't know what I had, but it was not a fun experience, and I was left with long-COVID that lasted 16 months until a functional medicine doctor who tested me found that the COVID had reactivated a [latent] Epstein-Barr infection.*
>
> *She prescribed a short course of appropriately dosed ivermectin, and I had an amazing reduction in my symptoms, which included cardiac symptoms that had been diagnosed by a cardiologist. So, I had all the classic symptoms of COVID and I had a classic course of long-COVID, yet I didn't know that I could have used ivermectin months ago to help me get through.*
>
> *My energy shot up after that ivermectin and I stopped having to sleep 12 hours a day. My cardiac symptoms were significantly reduced. It was like I got my life back. Yet the government has gone after doctors who have urged people to get vitamin D, vitamin C, zinc, ivermectin[11] and these other licensed drugs that are safe and have been around forever.*
>
> *The government actively discouraged people from doing things that could have helped them recover. This is so wrong on so many levels. It's a colossal mismanagement of an outbreak."*

Of course, there are indications that it wasn't really inadvertent mismanagement but, rather, a strategic and carefully orchestrated plan to implement the Great Reset.

> *"A couple of months ago, I went to the website of the World Economic Forum and what comes up? The Great Reset.[12] I could not believe what I was reading. It's completely transparent, how they want to reset the entire world's economy,"* Fisher says.

The ultimate "public health authority" is of course the World Health Organization, and the No. 1 funder of the WHO is Bill Gates, as he provides funding not only through the Bill & Melinda Gates Foundation but also GAVI.

This financial leverage gives Gates a disproportionate amount of power over public health globally and, of course, we know that his primary goal is to expand the use of vaccines. At the same time,

Gates is also a major Big Tech player, which is the central enforcer of censorship. By censoring one side of the discussion, Big Tech is responsible for making informed consent impossible.

Growing Awareness That Vaccines Don't Prevent Infection

The good news is that the COVID situation is waking people up not only to the potential dangers of these novel mRNA injections, but also to the problems and fallacies associated with all the conventional vaccines. They are starting to recognize these injections are not as harmless or as effective as they have been purported to be. That is one of the silver linings of this entire mess.

> *"[People are] starting to understand that vaccines do not prevent infection and transmission,"* Fisher says. *"The entire mandatory vaccination system in this country has been built on the myth that if you get vaccinated, you cannot get infected and transmit the infection to other people; that you have vaccine-acquired immunity that is robust and contributes to herd immunity.*
>
> *The truth is that vaccine-acquired immunity is often very temporary and sometimes you don't get it at all. And really, herd immunity is more based on natural immunity … So, the term 'immunization' really should never be used anymore.*
>
> *These COVID 'vaccines,' the government has now acknowledged, cannot reliably prevent infection and transmission.*[13] *This is a game-changer, if people will really get their arms around it. And so, I am glad that has come out. I'm also glad that we're seeing people around the world stand up and fight for their freedom."*

The Fight for Medical Autonomy and Freedom

Since the start of the COVID pandemic, the NVIC has encouraged people to work within the system, to go to your state legislators and have personal conversations with them. NVIC created model state legislation at the beginning of this pandemic, because they knew the end game would be mandatory COVID vaccination.

So far, 21 U.S. states have passed legislation that restrict or prevent COVID vaccine mandates or COVID vaccine passports. Several state governors have also issued executive orders to the same effect. These successes show us that we should not lose complete faith in the system just yet. It's broken, yes, but the answer is not to give up but, rather, to get personally involved. We need freedom-loving, rational people to get involved at every level of government, Fisher says:

> *"That means your school board, your county boards, city councils, your state legislatures. At the local level, you can really make a difference. Talk to your neighbors, talk to your community, give them the information that's produced by NVIC and by mercola.com.*
>
> *Give them factual information backed up with references, and try to change the conversation in your community. Also, we have to change bad laws so that we won't have to feel this oppression that we've felt for almost two years …*
>
> *I'll just point out, there's a page on the CDC website that basically talks about quarantine*

camps[14] and being able to detain citizens should they feel that they need to be protected from the rest of society, or the rest of society protected from them. This is a very serious constitutional issue."

As explained by Fisher, the federal government could also invoke its authority over interstate commerce and prohibit unvaccinated people from flying from one state to another that way. There's already legislation introduced in Congress proposing this.[15] So, even though 21 states have enacted laws against the requirement of vaccine passports, we're not out of the woods yet. The freedom to travel can still be stripped from us in a variety of ways, and we must fight to block all of them.

FDA's Approval of the Pfizer COVID Shot

August 23, 2021, the U.S. Food and Drug Administration granted full approval[16] to the COVID-19 mRNA injection developed by Pfizer/BioNTech, sold under the brand name Comirnaty, for use in people aged 16 and older. It's the fastest approval in history,[17] and is based on just six months' worth of data from 44,060 people.[18,19]

Half of them got the shots and half initially received a placebo. However, in the second week of December 2020, Pfizer unblinded the control group and 93% of controls opted to get the real injection[20] rather than remain in the control group for the remainder of the trial, which is slated to continue for another two years. In other words, there's no control group left against which to compare side effects and effectiveness.

The FDA was expected to hold a public meeting of the Vaccines and Related Biological Products Advisory Committee (VRBPAC)[21] and allow for public and expert input before the first COVID-19 vaccine was formally licensed.

For transparency and full public disclosure of vital scientific information, this meeting should have taken place before approval because COVID-19 vaccines are the first to ever have been distributed to the US population under an Emergency Use Authorization (EUA).

In response, Robert F. Kennedy Jr. and the Children's Health Defense (CHD) filed a lawsuit[22] August 31, 2021, against the FDA and its acting director, Dr. Janet Woodcock, for this mess. On its website, CHD says:

> *"CHD argues that the licensure was a classic 'bait and switch,' allowing **Pfizer**, the Biden administration, the U.S. military and employers to exhort people to take 'licensed' vaccines when in fact the vaccines available and being administered continued to be the Pfizer-BioNTech **Emergency Use Authorization** (EUA) vaccines …*
>
> *… the FDA violated federal law when it simultaneously licensed Pfizer's 'Comirnaty' vaccine and extended Pfizer's EUA for its vaccine that has the 'same formulation' and that 'can be used interchangeably …*
>
> *The law (21 U.S. Code § 360bbb-3-(3)) on 'authorization for medical products for use in emergencies' requires the EUA designation be used only when 'there is no adequate, approved and available alternative to the product for diagnosing, preventing or treating such disease or condition.'*
>
> *The lawsuit alleges once the FDA approved and licensed Pfizer's Comirnaty vaccine, there was no further basis for the FDA to preserve the EUA status for the Pfizer-BioNTech vaccine that **Pfizer acknowledges** has the 'same formulation' and is 'interchangeable.'"*

As explained by Fisher, in order to receive Emergency Use Authorization from the FDA, vaccine makers had to show their COVID jabs were more than 50% effective at preventing serious symptoms of COVID-19 disease.[23] They were not required to demonstrate that the shots prevent SARS-CoV-2 infection or that it prevents transmission of the virus.

> *"So the bar was set very low at the very beginning for the Emergency Use Authorization,"*

she says. *"If you look at the rhetoric the CDC uses, you can see they're always talking about prevention of hospitalization and death. This is not what people think happens when you get a vaccine. We have been carefully taught to believe that when we get vaccinated, we will not get infected and we won't transmit that infection to other people."*

Many Vaccines Don't Prevent Infection or Transmission

The problem is, many vaccines don't work the way we've been told. Take the pertussis vaccine, for example. According to Fisher, there's ample evidence that you can be vaccinated against pertussis and still transmit the infection, including asymptomatically.[24,25] The same thing has been shown for measles,[26] mumps,[27] influenza[28] and chickenpox[29] vaccines.

> *"That's why I said that this is an opportunity to educate people about what vaccination really means,"* Fisher says. *"It's also an argument for why [COVID] vaccines should not be mandated.*
>
> *In this case, it's a biological pharmaceutical product that has never been made like this. This is an entirely new technology.[30] It is truly an experiment on the human race, because they did not do the kind of science that they should have done to get Emergency Use Authorization."*

Dr. Peter McCullough, an epidemiologist and cardiologist who is very familiar with medical research protocols, has pointed out that none of the COVID injection trials has data safety monitoring boards. It appears standard safeguards were intentionally eliminated for the rapid rollout of these shots and to eliminate any public outcry because the incriminating data are simply not being collected.

How convenient. Actually, it is a clever strategy to achieve their goals and they are getting away with it, because those in authority do not have the courage and boldness of physician scientists like McCullough and Dr. Robert Malone, who invented the mRNA technology.[31] We need 10 times more of these types of brave souls to stick their necks out, as they have the credibility to actually make a difference. We just need enough of them to take a stand.

Had proper monitoring boards been in place, McCullough believes the vaccination campaign would have been stopped by late January 2021, because of the high number of suspicious deaths that had occurred by then. There's also the possibility of these shots causing antibody dependent enhancement (ADE), which is a big concern for the future.

Watch the NVIC Conference for FREE

As you might expect, this has been an unusual year, and virtually nothing has been routine. This year, NVIC was removed from three of the four major social media platforms (Facebook, Instagram and Twitter)[32] after NVIC held their groundbreaking online **Fifth International Public Conference on Vaccination: Protecting Health and Autonomy in the 2st Century** in late 2020.[33] Fisher says:

> *"This year, so many people have been contacting us. We have a counseling service and we help people, families, who are going through a vaccine reaction or who are asking for information … Our weekly Vaccine Reaction newsletter has seen an almost 50% increase in subscribers, and this shows you that people are thirsty for this information.*
>
> *One of the things we're really excited about is we're going to be launching a brand-new website in 2022 that your donations helped us do. It's a very expensive project, but something that I'm very excited about. We're also going to be launching an updated NVIC portal website.*
>
> *We have been putting an awful lot of our efforts into the states, trying to educate people and train them on how to be effective vaccine choice advocates in their state. This takes a lot of organizing, and it takes a lot of collaboration between other groups that are on the*

front lines in the states.

We wouldn't be here if it hadn't been for the support that you [Dr. Mercola] *have given us over the years. And I feel positive; I feel that the people in this country are going to remember that freedom is something they have to fight for. It's taken us a little bit of time to come out of our shock, because they punched us around pretty good in 2020, but I think people are waking up now and are going to start to really fight back …*

Those who are authoritarian — forced vaccinators — have revealed themselves in the last 18 months. And that reveal has caused people to take a step back and look to see what their real goal is."

Take Action, Support NVIC Today

As in previous years, during Vaccine Awareness Week, I will match your donations to the NVIC, dollar for dollar, so this is a great time to maximize your impact. So, please, consider making a tax-deductible donation to the NVIC today, and be sure to sign up for the NVIC Advocacy Portal to stay abreast of the latest legislative activities in your state.

DONATE TODAY

Help Support Vaccine Awareness Week

The Twelfth Annual Vaccine Awareness Week from September 26 to October 2, 2021, will feature important information about vaccine science, policy and law that you can share with your family and friends.

With every donation you make during Vaccine Awareness Week, you can help support the legal right to make an informed, voluntary decision about vaccinations. During this week, I'll match your donations up to $100,000 to the National Vaccine Information Center (NVIC), a nonprofit charity advocating for vaccine safety and informed consent rights since 1982.

National Vaccine Information Center
Your Health. Your Family. Your Choice.

Donate Today

With aggressive efforts by government working with pharmaceutical corporations and medical trade groups to mandate COVID-19 vaccines and partnering with Silicon Valley and corporate media to censor public conversations about vaccination and health, it is critical for you to act now to protect your legal right to make informed, voluntary vaccine choices.

Thankfully, the nonprofit National Vaccine Information Center (NVIC) provides the public with independent, well-referenced information on vaccines and advocates for the inclusion of vaccine safety and informed consent protections in the public health system.

Last year, NVIC sponsored the ground-breaking Fifth International Public Conference on Vaccination: Protecting Health & Autonomy in the 21st Century.

The conference featured 51 speakers from around the world talking about the coronavirus pandemic and defending liberty in late 2020, just before the government granted vaccine manufacturers an Emergency Use Authorization (EUA) to distribute experimental COVID-19 vaccines in the U.S. You can watch or listen to the conference for free here.

Resources Where You Can Learn More

NVIC Advocacy Portal — Become a registered user of this unique free online communications network that electronically connects you directly with your own legislators and emails you action alerts with talking points so you can be an effective vaccine choice advocate in your state. You can use it to inform your legislators about why it is necessary to protect vaccine exemptions and your legal right to make voluntary vaccine decisions for yourself and your children.
Ask 8 Vaccine Information Kiosk — Download brochures and reports on vaccination and how to recognize vaccine reaction symptoms, as well as posters and web badges that you can share with your family and friends. Access the illustrated and fully referenced "Guide to Reforming Vaccine Policy & Law" to educate your legislator when you advocate for vaccine informed consent rights.
State Law & Vaccine Requirements — You can easily obtain your state's current vaccine policies and laws here.
Vaccine Reaction Reporting — Search for and read descriptions of vaccine reaction reports made to the federal vaccine adverse events reporting system (VAERS). Make a vaccine reaction report to NVIC.
Cry for Vaccine Freedom Wall — Read real life stories from people who have been threatened, bullied and sanctioned for trying to make voluntary decisions about vaccination for themselves or their minor children. Post your own experience.
Guide to Flu & Flu Vaccines — This "Mini Guide to influenza & Flu Vaccines" is a brief summary of facts about influenza and influenza vaccines.

Gratitude to the National Vaccine Information Center (NVIC) and its director Barbara Loe Fisher and the excellent information that Dr. Mercola provides us on the science of truth that leads to freedom and human rights. Barbara Loe Fisher tells us: We shouldn't be surprised. The United States and New Zealand are the only two countries in the world that allow direct advertising of pharmaceutical products to the consumer. In this country. Big Pharma pays US television networks five billion dollars a year to boost the use of drugs and vaccines. Taking a page from the old Big Tobacco book and upping the ante, Big Pharma has become a business partner of the government. The COVID trade deal is perhaps the most important in the history of public health programs. This is a great truth. www.nvic.org/.../covid-spin.aspx

Karen Kingston, Former Pfizer Employee Says The Only Way Globalists Can Get Away With It Is To Kill All Of Us - Or Enough Of Us So There Is A Complete Collapse Of Civilization And No Judges Or Courts Left To Rule Against Him . But if enough of us survive, they will have to face the consequences of launching a global genocide campaign that will make the Nazi Holocaust look like a two-year-old's birthday party. "If you love America, if you love your freedoms, if you love your freedoms, if you believe in the faith of hope in our posterity; our children, our children's children and our children's grandchildren, then they will stand up and speak! She then denounces the abuse of children, one of hers is rejection at school for allegedly having Covid. "We found that children born during the pandemic have significantly reduced overall verbal, motor, and cognitive performance," forbiddenknowledgetv.net/former-pfizer-employee-checkmate-game-over-we.. ~ www.brighteon.com/a08e08ea-dfab-457b-857d-40ae38e17b04

Thank you Gui. It sure would be nice if we could get rid of the ability of drug companies to advertise. If not that then have a mandatory FDA dictated message on every single ad (like they have on packages of cigarettes) declaring that drugs in general are always going to have negative effect on one's health and that is why the viewer is presented with a summary of the contraindications and that the reader / listener should pay careful attention to some of the disastrous possible consequences connected with the drug.

Hi Guillermo, Do you (or does anyone else who reads this) happen to have the documentation for this quote below from a previous Mercola article now removed (I found the reprint on the Defender but it did not include links). I'm trying to find actual numbers (i.e I know from a previous Mercola article that there were 20,000 participants in each group for Pfizer, .2% infections vaccinated, .8% in unvaccinated but I don't see how that leads to 90 something percent relative risk reduction.

I also don't know the actual number of deaths in each group from COVID but saw that there were 20 deaths all cause mortality which was higher than the unvaccinated group and would like to have that specific information) Also, does an absolute risk of around 1% mean the number needed to treat to prevent one case is 100? If not, can you help me absolute risk reduction. Also, do you have a link for the concerned German researchers or doctors who tested the blood of 15 pregnant vaccinated women and found they had antibodies to their placenta proteins? I don't know that it was an official study. Thanks!

Quote:The four available COVID shots in the U.S. provide an absolute risk reduction between just 0.7% and 1.3%.22,23 (Efficacy rates of 67% to 95% all refer to the relative risk reduction.) Meanwhile, the noninstitutionalized infection fatality ratio across age groups is a mere 0.26%. Since the absolute risk that needs to be overcome is lower than the absolute risk reduction these injections can provide, mass vaccination simply cannot have a favorable impact.

Hi lottaviano. Absolute efficacy of vaccines close to 1%. Very serious negative effects of vaccines. As you know, Dr. Mercola published some absolute irrigation data is close to 0%. The relative risk is the quotient between the risk in the group with the exposure factor or risk factor and the risk in the reference group, which does not have the exposure factor. However, the absolute risk is the probability that a subject has of suffering an event over a certain time.

Several biological obstacles continue to challenge mRNA development. vaccines, including "the extremely large mRNA size, burden, intrinsic instability, and high susceptibility to enzyme degradation. The trials were not designed to provide evidence of the efficacy of the vaccine for protection against asymptomatic infections. In addition to bias Reporting of results, information bias may also have affected the COVID-19 vaccine trial results due to a misclassification of SARS-CoV-2 infections as mild adverse effects of vaccines. It is best to read the following Dr. Mercola references:

In the first link there is an example of the percentage of events in the vaccine group, the experimental event rate (EER) or the risk of infection in the vaccine group (1/100 = 1%), and the percentage of events. in the placebo group it is the control event rate (CER) or the risk of infection in the placebo group (2/100 = 2%). The absolute risk reduction (ARR) is the disease risk difference between the placebo and vaccine groups, that is, the CER minus the EER (2% -1% = 1%)

In "Outcome Reporting Bias in COVID-19 mRNA Vaccine Clinical Trials" Ron Brown, Ph.D. calculates the absolute risk reduction for Pfizer's and Moderna's injections, based on their own clinical trial data, so that they can be compared to the relative risk reduction reported by these companies. Here's a summary of his findings: Pfizer/BioNTech vaccine BNT162b2 — Relative risk reduction: 95.1%. Absolute risk reduction: 0.7% Moderna vaccine mRNA-1273 — Relative risk reduction: 94.1%. Absolute risk reduction 1.1%

Outcome Reporting Bias in COVID-19 mRNA Vaccine Clinical Trials (oyetimes.com) www.mdpi.com/.../199

In a July 1, 2021, commentary in The Lancet Microbe, Piero Olliaro, Els Torreele and Michel Vaillant also argue for the use of absolute risk reduction when discussing vaccine efficacy with the public. They too went through the calculations, coming up with the following: • Pfizer/BioNTech — Relative risk reduction: 95%. Absolute risk reduction: 0.84%; • Moderna — Relative risk reduction: 94%. Absolute risk reduction: 1.2%; • Gamaleya (Sputnic V) — Relative risk reduction: 91%. Absolute risk reduction: 0.93%; • Johnson & Johnson — Relative risk reduction: 67%. Absolute risk reduction: 1.2%; • AstraZeneca/Oxford — Relative risk reduction: 67%. Absolute risk reduction: 1.3%. COVID-19 vaccine efficacy and effectiveness—the elephant (not) in the room - The Lancet Microbe www.thelancet.com/journals/lanmic/article/PIIS2666-5247%2821%2900119-1..

* "They took out a lot of information that should be given to parents," Fisher says. "They gutted the compensation provisions. So, today, almost no child qualifies for compensation under that law. I guess what I'm trying to say is, what the law was when it was passed is not anything like the law we see today." * When people go through something personally, they understand it perfectly. Barbara being there from the beginning & has seen how the letter of the law is followed but the spirit of the law becomes ignored, worse just continuedly gutted while on the surface, it all looks like the desired protections are there. You can take this behavior & realized this is what goes on throughout the whole system & it's institutions. Especially since the Digital manipulators took over by stealth, unseen, unrealized by nearly all of us. Environment, labor, civil rights, our local town gov't's, & so on. The façade says one thing, the reality behind it affects those who become 'those people, trouble makers, (fill in the blank.)

Using their numbers, cases - (actually, I saw you & fifty other people last week, so all have to be tested to become cases, who report the fifty they each saw & also become cases,) just shows how much microbiome travels through society & the majority do just fine. Nearly everyone who has thought, I don't get sick, got infected & with a healthy immune system just wouldn't know it. It also shows this natural immunity is what gives the "herd" the most protection. If regular vaccines were to be used at all, it would be a limited population & it wasn't good enough for those with a never ending appetite for $$$. With liability's & what limited accountability once existed was gone, the realization came this is an avenue to grab unprecedented Power & Control. With fully vaxed hanging tight around 52%, using 72% of the seniors fully vaxed to confuse those who don't know how to crunch #'s, with as high as 20, 30% healthcare refusing a Jab is telling.

Stoneharbor, excellent idea and first step: Rid the ability of Pharma to advertise. Gui, thank you for this info: " In this country. Big Pharma pays US television networks five billion dollars a year to boost the use of drugs and vaccines." Vaccine makers have complete shield from liability against adverse effects and/or death. "Vaccines do not prevent infection or transmission. The truth is that vaccine-acquired immunity is often very temporary and sometimes you don't get it at all." Enough said.

Hi, stoneharbor, and Dianna it would be the ideal thing so that this humanity is not living together with drugs, vaccines, environmental pollution, etc ,. BigPharma and Big Food through the omnipresent media are consequently that the world is dominated by menticide, fueling chronic inflammation, which potentiates diseases and deaths from Covid.

The most deceptive marketing gimmicks of Big Food and Big Pharma serve this menticide. After all, repeat a lie enough times, no matter how stupid it sounds, and the masses start to believe it. "Safe and Effective" - The CDC's official seal of approval for every vaccine and flu vaccine that has never been shown in a clinical trial to work, and that comes with a list of adverse events and side effects in the package insert. the vaccine that should include any sane and intelligent humans avoid it at all costs.

Most Americans hardly know the true 110-year history of the FDA, and for good reason, they don't want you to. Regulate everything from food and tobacco to supplements and prescription drugs; From over-the-counter drugs and veterinary products to electromagnetic radiation devices and blood transfusions, the FDA is very busy, not to mention regulating vaccines and biopharmaceuticals. The FDA in 2008, began sending employees to foreign countries, including India, China, and the UK, to name a few. All of this is thanks to Congress. Over the decades, the FDA has tried to destroy all forms of comprehensive care in the United States that compete with drug and vaccine treatments. This link exposes the FDA data and the chronology of the corruption. www.truthwiki.org/fda-food-and-drug-administration

Very well expressed. JUST, people cannot be manipulated by information that serves the power and money of Big Pharma with mRNA vaccines that are being sold at exorbitant prices. Fauci and Biden are BigPharma's allies, they are the kings of hypocrisy and lies and together with government institutions such as CDC and FDA form the block of villains who control the media to promote vaccines and impose a political tyranny. and medica. Yes, biological weapons that cause suffering and death.

People need self-knowledge, a broad perspective of reality and the development of critical thinking. Reliable, well-documented sources of information such as Dr Mercola's excellent reports should be sought. Awakening means that the individual is living life responsibly towards others, but without prejudice to the right to freedom. It means seeing the truth. It is the first step in devising a strategy to face the imposed reality. Not waking up means living in a state of conformity, accepting official statements and orders, following those orders, fitting in, acting normally, adapting, behaving according to stimulus-response. Knowing reality and sharing it with others is the bridge for unity in the fight against deception.

Some good men who want the truth. Two Oregon Senators Sue CDC and FDA for Lying About Covid Deaths. Kim Thatcher and Dennis Linthicum have jointly filed a formal request for a federal grand jury investigation into the two federal agencies, which they have proven with evidence that they are lying about the death toll from the Chinese virus. Included in the official letter are eight exhibits and 20 references to evidential materials showing that a full formal investigation is needed to hold CDC and FDA accountable for willful misconduct during the plandemic.

Countermeasures Injury Compensation Program is very difficult to collect. My neighbor is a pediatric nurse in a local hospital and was required to get a flu shot. They hit her nerve and she was disabled for 4 years, unable to lift patients. Between being unable to work, and sometimes only able to work part time and medical bills, she had to refinance her home to pay her obligations. She hired an attorney and eventually, she received an offer of $26,000, only a fraction of what she had spent from her own pocket, from the compensation program. Her attorney told her she'd probably never see it and she did not. Her one bit of advice was to never get any type of shot in the arm, always the hip/buttocks. The arm has too many vulnerable nerves to hit. Also, there are only two countries in the world who allow Pharma advertisements on TV; New Zealand and the U.S.

Hi fvtomasch. Those who are in favor of vaccines have a serious disease: menticide. When they see reality they will join those who do not wish to be bitten by the poison of the servant. An exemplary conduct in her professional development and now fired: WHY I AM LEAVING MY NURSING JOB. “I am educated with an Associates Degree in Nursing and will complete my Bachelor of Science in Nursing next month. I have bedside experience not only with infectious COVID positive patients, but also post COVID patients or what some have coined the phrase as COVID long haulers. If anyone is educated and informed enough to make a conscious decision of medical treatment, vaccination, or health plan I am 100% qualified to make that decision for myself and my children.

I am a patient and staff advocate. We at the bedside educate each patient, as it is their right, of their care plan and medications. Our patients have a RIGHT to refuse any treatment or medication for whatever reason they choose, and I will stand beside them on their educated decision. If a patient chose to refuse lifesaving treatment and would rather go home to pass peacefully then I support their decision, this is what we do! I do not force treatment on patients against their will because this is against the law, unethical, and immoral. I must also advocate for myself too because no one else obviously will.”

Thank you HAR, terrible situation !!, unfortunately it is happening frequently as Dr. Mercola has reported. A CHD link on it with other frustrating cases. WHY HASN'T FEDERAL VACCINE PROGRAM HELPED THOSE WHOSE LIVES HAVE BEEN ALTERED BY COVID SHOT? It shouldn't matter that a vaccine injury is "rare," said vaccine law expert Katharine Van Tassel — "If you're going to take one for the team, the team has to have your back. That's a moral imperative."

GUILLERMOU, It is really very difficult for me today to find what to say about this point. After all that is known, perhaps it is courteous to dedicate a tribute to a vaccine information center that is concerned, as I understand it from the other end of South America, to advise citizens by bringing them the information that is available there. All this in the United States of America. It is also possible that these reasons could be useful in other districts. Surely they are, because the problem is suffered globally.

Unfortunately I have not been able to see the video or read the pdf transcript ... because I am a Spanish speaker: I do not speak English, and above all, I cannot think in English: I must not. Not to mention versions for the other languages of the world: consideration due to the millions of beings to whom nobody takes care to explain anything, but is required to ... wake up! On the other hand, I echo several claims asking to put white on black about the hierarchy that is or is not being given in the discussions, already at this point in time, to the significance of the contributions of the Fifth column, which seem creepy enough not to continue to ignore them in the plane of the facts. Significance, as a prerequisite for urgent actions to be adopted ...

Thank you very much, Guillermo for the link forbiddenknowledgetv.net/former-pfizer-employee-checkmate-game-over-we.. , which I have read in full, with his comments. The passion and conviction of a person like Karen Kingston is admirable! It is not politics that is going to change the state of affairs. That has already gotten out of hand and out of the capacity of contemporary man, accustomed to handling everything, without having learned to handle his passions or his fear of dying ... being mortal.

Thanks Ana Maria, yes, it is a tribute to the 12th anniversary of Vaccine Awareness Week. In the link of the National Vaccine Information Center (NVIC) - which will celebrate its 40th anniversary it says: "Big Pharma and its business partners have paid a lot of money to Big Tech to eliminate freedom of thought and speech online. Right now the weapon of choice is a social media censorship campaign to de-platform dissenters, including reputable charitable organizations like the National Vaccine Information Center publishing well referenced information. The Internet Thought Police are especially upset when anyone talks about reports of serious vaccine complications and deaths, but reports about COVID-19 disease complications and deaths are allowed without restrictions.

This year, the American taxpayer is also paying for TV and digital advertising to promote the use of the COVID-19 vaccine. On April 1, 2021, the government announced a three billion dollar COVID vaccine ad campaign to get make sure that every American gets vaccinated .....Right now, Pfizer and Moderna, the two U.S. corporations manufacturing experimental messenger

RNA (mRNA) COVID-19 vaccines are leading beneficiaries of the free advertising paid for by tax dollars. The first to secure an Emergency Use Authorization (USA) from the FDA ..... " The report is a great denunciation of the corruption of BigPharma and the political and medical tyranny of Biden and Fauci and all the governmental institutions of the United States.

Gui- Another article vilifying the unvaxxed as the enemy www.yahoo.com/.../one-thing-save-us-suicidal-085618724.html Here is another on how the unvaxxed are portrayed in society. The question is who or what is driving the wedge between all of us. Once thought of as rational human beings are now choosing sides whether it is politics/BLM/vaccines/etc. This is the new Civil War but not North against South but person against person/family members against each other/neighbors vs neighbors/politicians vs constituents/one sided narratives bombarding the airwaves daily and on and on. This seems to be orchestrated by individuals possessed by demons as to bring forth the New World Order. These are turbulent times indeed. www.theburningplatform.com/2021/07/19/the-demonization-of-the-unvaxxed..

fvtomasch, we must give thanks that many people are already learning the truth about vaccines: Detroit's ABC station asked Facebook users to share stories of unvaccinated people who died from COVID-19, only to be inundated with stories of deaths and injuries as a result of the shooting. An overwhelming number of people responded with stories not of death from the unvaccinated, but of death and injury shortly after the COVID-19 injection. "I don't know of anyone who has died of covid, but I do know a 37-year-old man who received the vaccine and died of a brain aneurysm 8 days later," wrote a Facebook user by the name of Maximilien Robespierre . Immediately below, Richard Smother shared: "My co-worker's daughter (12 years old) had to be rushed to the ER after she collapsed an hour after her second injection." More complaints in the link. www.lifesitenews.com/news/tv-station-asks-for-stories-of-unvaxxed-deat..

Around the time they rolled out direct to consumer advertising it was also decided that there was conflict of interest with giving "perks" to prescribing M.D.'s. One of the things they stopped doing was giving out free pens with pharma logos. It's actually hilariously ludicrous when you think of the massive conflict of interest with pharma supporting almost 50% of FDA, NIH/Fauci invested in Moderna and head of Reuters News on the board of Pfizer.....it just goes on and on.

Thanks pjmauigirl, yes, Fauci and Gates Do Have Ties to COVID-19 Vaccine Maker. A page posted in March on the website of the NIAID, which operates under the National Institutes of Health (NIH), announcing the start of a phase one clinical trial for Moderna's COVID-19 vaccine. The website notes that Fauci's NIAID is "funding the trial." Additionally, Moderna's candidate vaccine “was developed by NIAID scientists and their collaborators” at Moderna. The page quotes Fauci as saying the trial was "an important step" toward developing "a safe and effective vaccine to prevent SARS-CoV-2 infection." Similarly, I was immediately able to open a page on Moderna's website listing the Bill & Melinda Gates Foundation as a "strategic partner," and the foundation "signed a global health project framework agreement" in January 2016 "to advance mRNA development projects for various infectious diseases”. www.niaid.nih.gov/news-events/nih-clinical-trial-investigational-vacci..

Hello pjmauigirl: Yes, there is a lot of conflict of interest going on between the medical community and Pharma. The propublica.org website lists doctors who have reported earnings from Pharma by year. The reason I am interested is because there is an esteemed radiologist who consults with the FDA who claims the contrast used for MRIs which contains the toxin gadolinium is safe. It is difficult for me to wrap that around my head. A toxin to humans being safe. While he claims safety and consults this to the FDA, he has received hundreds of thousands of dollars from the very MRI contrast makers he is supposed to be neutral in his findings. Here is the website if you care to look up any particular doctor to potentially see their financial relationship to Pharma: projects.propublica.org/docdollars

Dr. Mercola, please know that I'm so grateful for the work that you do for us, the accuracy you demand and your absolute sincerity. Thanks as well to everyone here who comments. If it wasn't for mercola.com it would be a nightmare to deal with this worldwide deceit and crimes against humanity. Eileen in Switzerland was in a protest in Switzerland against Covid passports with 4 to 5K involved and it's nowhere to be found in MSM. But the protests are growing, even in obedient Ottawa, Canada.

Report on the website of the National Vaccine Information Center (NVIC). Since many governments implemented coronavirus pandemic lockdowns in 2020, people around the world have held largely peaceful protests against unprecedented social distancing restrictions that are devastating global economies and ruining people's lives. World Freedom Day, hundreds of thousands of People of all ages took to the streets in Australia, the UK, France, Italy, Greece and Germany to publicly challenge oppressive public health laws.

The messages on the posters that publicly defend civil liberties (freedom of thought, expression, conscience and assembly) and the human right to informed consent to take medical risks, demonstrate that the spirit of freedom lives in the hearts and minds of people in all parts. In the United States, polls reveal that the nation is highly divided over the COVID-19 vaccine mandates. More than half of employed Americans are against COVID-19 vaccine requirements to have a job, while nearly 70 percent of Americans are opposed to being required to show proof of a COVID-19 vaccine to enter a store or business. More information in the link thevaccinereaction.org/2021/08/covid-vaccine-mandates-strongly-opposed..

Hi bee70578, I don't think the protest you give the URL for on Bitchute was the one Eileen went to because there was no opposition or violence - hoses, etc. But if these two protests were held on same day or this weekend it just shows you the opposition that's growing, quite possibly in leaps and bounds.

Although the CDC always minimizes the harms of Covid vaccines, a significant fact adolescents who received COVID injections have 7.5 times more deaths, 15 times more disabilities, 44 times more hospitalizations than all the vaccines approved by the FDA in 2021. 1,490 fetal deaths have also been recorded after COVID-19 injections in pregnant women. By contrast, the same VAERS database search for stillbirths due to flu shots, and for 2021 so far there are ZEROs. During the past year, 2020, there were 16 fetal deaths after flu shots taken by pregnant women. And yet the CDC continues to recommend that pregnant women receive an injection of COVID-19. nexusnewsfeed.com/article/human-rights/cdc-teens-injected-with-covid-s..

The Japanese have already called foul, rejecting 2 large mRNA shot shipments from Moderna due to visual contamination.

Am re-posting this here, sevinletters posted it yesterday (way down the blog) - Stew Peters had Dr. Jane Ruby share several snippets of this conference of German and Austrian researchers and lawyers discussing pathology reports from deaths some attributed to the shots, one slide in particular shows unbalancing of the innate immune system; the second party they shared their vial ingredient images under microscopes from different research centers. Its long, moved through quickly. What they are suggesting is after the 2 hr mark in their video. English translation by voice-over is provided throughout. Here's the link: odysee.com/.../PK_Tot-durch-Impfung_english:a Is this clear enough now?

The Frontline Doctors lawsuit was nearly immediately kicked out of Federal Court. They are not interested in hearing it. Sorry, if you post old news and its value has already degraded, just like the Pfizer's shot effectiveness against the Delta variant is reportedly around 42%.

ADE??? Dr. Judy Mikcovitz predicted! Much more to come as the season progresses. Those forcing these death jabs are nothing less than murderers, in my opinion.

Laura, the spin doctors are busy with the news of thousands more than usual dying. In the article you link they blame the increased deaths due to people in the UK and Wales not having access to needed medical care for the last 18 months. How twisted can they get? They don't have the integrity to admit people are dying due to the so called vaccine/jab.

I/we truly appreciate your tenacity with this sh*t show guys. It would have been easy for you both to give up what with all the censorship but I believe that your voice is only getting stronger. I'm not a conspiracy theorist but have been warning people of this since around 2009/10. My first step into that rabbit hole from a "normal" life was actually after 9/11 when my spider senses went into overdrive. Years later, I went so far down that rabbit hole and was posting so much on social media warning people back then about the incoming health, financial and climate agenda, they thought I was mad. Last year I was shadow banned by Facebook so stopped posting and even deleted everything from my timeline.

As they say, I'm running out of conspiracies now as they've pretty much all come to fruition. Even my VERY sceptical wife is now on-board. (Unbeknown to me, she booked her jab earlier in the year but backed out last minute without any intervention from me). I started losing my mind with this around 2014 and later (last year) when covid started it is now so good to know that there are so many professionals in their respective and related industries taking up the fight. I haven't given up but feel like a coiled spring waiting for my "call up". Keep up the great work Dr M 👍👊✌️

I traveled down that rabbit hole after I was in line at a pharmacy and chatted with a cop in line who told me 9-11 was done by our own government. He knew something. Then I wondered why so many foreigners were being deposited in our midst and that began a journey that was almost too painful to bear at times. I read a number of places where there is a war on white America and we can see that with all the false claims of racism. In reality it's also a war on every race, although that part remains hidden as the elite are trying to exploit each race to turn against each other. We live near multiple races and there are zero race issues. I encourage everyone to reach out to other races to show them this is a manufactured lie. It's up to US.

I read that is why women have been encouraged to go for a career instead of a family - to drop the birthrate - and it's worked. Taking care of home and family is looked down on. However, these career women reach their 40's and many end up bitter - it's a phenomena psychologists are familiar with. Our entire society has been engineered. One of the worst eye-openers was learning that Disney is completely evil and that Sesame Street was a Tavistock creation. When you watch clips of cartoons marketed to children it shocks the conscience - however it does explain why youth have turned south. I think that God in His mercy only reveals a little truth at a time to us or we would soon be overwhelmed by the widespread evil that we've been born into. "Principles of Propaganda" should be read by everyone to understand just how wide and deep this runs: propagandaprinciples.wordpress.com/2018/08/06/propaganda-principle-1-t..

sai73491 Don't buy into that anti-feminist agenda. Women weren't exactly encouraged to go for a career instead of a family. Women just wanted and deserved a seat at the table...and financial security. In the mid 70s wages started to freeze and then decline. Even before that it took two middle class workers to support a family. The economy was engineered long ago to enslave everyone. Most, if not all, women want a family. However, they don't want the 10-14 children coerced and encouraged by the Catholic church and other religions either.

Sai73491, it's way more complicated than that. A lot of gen x women I know are still virgins. What Victorians called Old Maids. By a lot I mean nearly a third of the women I know as friends or family members. Why? A big reason is most are evangelical Christians and even as teens we outnumbered the boys. Some settle for atheists. Another big reason? Like the hippies my generation embraced lots of no-strings sex. This was wildly popular with the guys. Lots of them preferred to sleep around with the always ready and available "easy girls." Why bother marrying with all the scantily clad bimbos everywhere giving it away for free?

Of course a lot of the aging scarlet women are alone too. Unlike us pathetic dried-up, loser old maids these oversexed bimbos were surprised they couldn't easily land a hubby and start a family after 40. Turns out men don't want them after a certain age either. Though of course using any woman as a prostitute--even fat, worthless, old, fuglies--is acceptable for some lecherous horn dogs. I knew--by age 25--that would never happen. Hopelessly on the shelf and dried up by your mid twenties if you don't look super smoking HOT and master your flirtation skills.

Yeah. My life sucks. I knew it would be joyless and rotten since my twenties. "But R___, you have such a bad attitude!" Well somedays I smile. But it doesn't change my life no matter what I do. The circumstances and situations are beyond positive thinking or any practical steps that can be taken. Which seems to be the way our whole planet is. Maybe being rejected by humanity was not such a bad thing. No progeny to worry or cry about. But I do cry when I see masked kids. Wish their moms would stand up. Most think it's good for their health. I'm just a dried up, crazy old maid after all. So I say nothing.

May I please ask what 'rabbit hole' after 9/11? My brother survived the 87th floor of the second Tower and was able to get below the 83rd fllor before the impact of flight 175. When he speaks of his experience and people ask about his thoughts about conspiracy, his reply is always, "I don't care how it went down, who made it happen or why. I was there and this is what happened to me during the day of September 11th when all I did was simply go to work."

I am absolutely Blown Away by the phenomenal amount of energy that Barbara Fisher and her organization have put into fighting this battle over vaccines. I had no idea it has been such an Endeavor for so many years. Even though it seems like a losing battle at times, I hope we continue to fight the drug industry on this front. But what I also hope develops with equal passion is a group that will do what the CDC claimed they were going to do back in March of 2020. And that is to collect statistics on how we are approaching herd immunity. If we just put some focus on the fact that nattural acquired immunity is not just over a dozen times as powerful as what is gained from a shot, but that we are as a population gaining absolute protection against this virus just like we do for every virus. If people only knew that we are nearly safe just based on how many people now are absolutely protected by acquired immunity, then people would have so much hope. And that hope would give them power to resist vaccines.

Also in the case of each individual, when they realize they have had the Delta variant, they are totally liberated in their mind from any fear that the drug industry is trying to instill in them. I am one of those people, and I am so happy to know that my minimal bout with covid both the original last year and now the delta variant, has given me a great protection and a feeling of freedom. By law all this should be a freedom that I can exercise anywhere at any time without need for a mask or another booster shot. Until we have such a law, and common understanding in the population, I will persist in asking for more data on how much antibody we have now as a total population. I think this strategy, on balance is worthy of a tremendous effort. Why can't there be a similar organization to create it right now that continually updates the public on our degree of immunity? Obviously the CDC was going to renege on its promise to do this.

Full support for natural immunity, which is the only way for humanity to defeat Covid. It is being seen in the statistics that many young people who have not received the vaccine are already immunized. This immunization is probably very long-lasting as seen with previous coronaviruses and 13 times more effective against the delta variant. The latest serology survey conducted by the Indian Council for Medical Research (ICMR) found that at least two out of three people in India have coronavirus (COVID-19) antibodies, or natural immunity, against the disease. Released on Tuesday, July 20, the survey called the seroprevalence study included 36,227 people from 70 districts in 21 Indian states. It found that 62 percent of unvaccinated Indians have antibodies, indicating past exposure to the virus. Overall, 67.6 percent of Indians have antibodies, either acquired in the vaccination campaign or in past infections. www.ft.com/.../2f6c0907-a556-414a-920c-88c8ce482ed1

However, a growing number of governments in Europe are planning or have launched policies that restrict the freedom of their citizens who have not been vaccinated against the Wuhan coronavirus. Many European governments such as France and Italy have chosen outright to prohibit unvaccinated people from fully participating in social life. In these countries, unvaccinated people are prohibited from entering places of hospitality such as bars and restaurants. Anyone who does not get vaccinated will

have to suffer from living more difficult lives. The objective is to coerce people to receive the venom of the snake, even if the mandatory vaccines are not implanted in principle.

Only those who are fully vaccinated, in possession of a negative COVID-19 polymerase chain reaction test, or can demonstrate that they have recovered from a previous coronavirus infection will be able to fully re-enter society. People can prove this by using a health pass or a vaccine passport. This goes against the truth because it is being shown that those vaccinated transmit covid-19 and even the spike protein, in addition to promoting new, more contagious variants, then they should be the first to be discriminated against. www.theguardian.com/world/2021/jul/26/covid-more-eu-states-restrict-ve.. ~ www.wsj.com/articles/covid-19-vaccine-holdouts-face-restrictions-in-eu..

There's hardly anything left on the CDC website regarding their grandiose plan to study the progression toward herd immunity that they touted in the spring of 2020. Obviously they realized that if they were going to promote a vaccine, they didn't want to be the ones informing the public that the public was getting safer and safer by the week. There were already studies Being publicized that had been performed in Massachusetts, New York City, and California, which showed levels of antibodies sufficient for protection in 15 to 20% of the people tested back in April I've 2020. Now here's a selection of what you find about herd immunity in the United States: www.christianitydaily.com/articles/12020/20210529/top-doctor-says-amer..

My first thought after coming out of the Covid19 fog of my August 13 to August 24 infection was that I wasn't afraid anymore! And I noticed that everything in the natural world looked brighter and more interesting to me. My wife and I were sick at the same time. I had an Rx for hydroxychloroquine and she had an Rx for Ivermectin. We had done prior telemedicine consults with brave prescribing physicians found at Front Line Doctors.

We tested positive for the virus with the Binaxnow test at Walgreens. In the email that told us we tested positive, we were instructed to quarantine for 10 days or until our symptoms improved and our temperatures were normal without the aid of any antipyretic (anti fever) pills. We were told that our state's CDC would be contacting us "shortly". We were instructed to contact our PCP and, if we had trouble breathing or if our skin turned blue or if our temperature went over 102F, call 911. We called our PCP (the same practitioner for both of us) and she simply told us to get vaccinated or get the booster 90 days after our recovery. She said to call her if we had any trouble. We were given no advice on the course of the infection or what we should do to during the infection to take care of ourselves and to relieve symptoms.

The CDC DID contact us toward the end of our disease process. They didn't ask anything about tracking our contacts when we were diagnosed. I DID contact people with whom I was in close contact before testing positive. One would think that would have been one of the instructions given to us in the email. Fortunately, when we decided to NOT be vaccinated, we realized that we would likely become infected with C19, so we prepared as well as we could for the sickness. We were sick at the same time and we tended to each other... it was kind of good, bonding experience. Part of my preparation was losing weight. On July 4, 2020, I weighed 188 (on my 5'5" frame). I was obese. Now I weigh 145.

Thank you for your testimony Svelterman! I enjoy so much hearing about each and every win that people have over this virus. When you think about it, there are hundreds of thousands of people across the world every day who are winning this battle, and are arriving at a state of elation, and a realization of Freedom, that they have not had before with respect to covid-19. I always think wouldn't it be wonderful if this was the news that we were presented with everyday. While the NVIC story is impressive, it is also depressing, in that it seems to be getting backed into a corner as it presses forward. So I can't help but try to bring a glimpse of happiness into every discussion that dwells heavily on vaccines. It's better to have some signs of success along with stories of the threat of an expanding vaccination future. So please excuse my seeming attempt to change the subject here. I want people to be happy and feel more freedom every day, as that is also an important part of health.

stoneharbor, If you look closely at the structure of the CDC, at least 2 major conflicts become apparent. 1) they have responsibility to order and distribute about $6 Billion US in vaccines each year across the US; and 2) there is a CDC Foundation, mostly supported and funded by Big Pharma's vaccine manufacturers. You will be looking in the wrong place if you think this agency has not been 110% captured by Big Pharma. This is all big business invading and controlling a govt and pseudo-military agency at an alarming rate, fascism rules! despite illusions being projected to the contrary.

Thank you for pointing this out realrose. I tried to read both sides, including Publications by the AMA, the FDA, and the CDC. It's very interesting what I come up with. In that case I came up with a public written commitment by the CDC to do periodic, comprehensive antibody testing to determine the progression of the effective gaining of immunity by the population with regard to the Corona virus. The fact that this statement of CDC plans to document how quickly we were becoming immune nearly completely disappeared from their website is what is important here.

Apparently they announced that study without considering that they were also going to have a plan to rapidly develop a vaccine that could force emergency use on the country, and that necessary for that they needed to promulgate a story that totally ignored natural gained immunity. The CDC may have originally announced this plan with the consideration that no vaccine would be possible until the virus was almost completely eradicated via natural immunity. It seems, that as plans progressed to rush out a vaccine, or possibly because they discovered if they didn't rush out the vaccine, they were going to have no one willing to accept it's worthless solution, that they had to scrap the whole antibody publication.

What this shows if nothing else is that the quick emergency solution vaccine plan developed and took priority sometime after CDC announced that comprehensive antibody study, in other words in the spring of 2020. Significant here is that in the beginning, the powers-that-be didn't really have a plan to pull out a vaccine from a back pocket and push it on the whole world before we developed immunity. The original plan may have always been to release new variants in a timely manner and push the vaccine to solve those new threats. Of course that plan most likely still exist. The only tweak they made was to rush, and push the vaccine on to us even during, tho at the end of the original variant.

The non-vax group like this need people like Ms Fischer who are Uber-knowledgeable to have meetings with media folks to educate them on all of this. There is no way all of us collectively have that kind of exposure or knowledge to convince them otherwise. Mother Jones, Their article for instance, perpetuates what the masses believe… that we are all crazy anarchists. Fischer, Kennedy, Mercola all have a bully pulpit if they just can reach a few that can turn the tide now. People are weary of this and may listen now more than ever.

Tucker Carlson has a large following, Rand Paul… I don't know who is THE ONE! but there has to be somebody who can wake people up! No one wants to listen to me say just wait and see what's gonna happen to your health or read the bgillion papers written that has convinced me this is bad juju. My Chiro friend told me back In February 2020 this had manmade markers and from that point on I was against whatever came down the pike. But now! Who's going to stop Fauci Gates, Schwab?! I'm scared to death every time I read a Mercola blog! I beg all of you that have this uber-knowledge to get to those who can turn this.

Hell I'd even use Trump at this point as he was extremely successful at fake news quashing campaigns, and just a comment here and there from him can rally people like never before. I just don't think people engage with their representatives anymore so they just let happen what happens. Trump can move the needle politically if he was educated on it I have to believe. That's why he was voted in because he wasn't mainstream politician and people still want that. Has anyone been in contact with him? Kennedy? Most likely as he was nearly an advisor anyway. Just saying…

Stoneharbor - Darth Fauci was busy developing a vaccine through Pfizer and Moderna, starting late 2016 - early 2017. Appears "they" (Fauci had NIAID funds and possibly privately invested in Moderna) had it ready around early summer 2019 - this timeline was from listening closely to David Martin when he calls attention to specific Moderna patent edits made in spring 2019 - the SPARS outline (go look up this response draft from 2012- updated several times) was initially scheduled for 2025. My guess is the Wuhan lab leak August - Sept 2019 or thereabouts, caused a scramble as it occurred earlier than expected. Digging deeper, you eventually learn that sars-cov1, mers, ebola were all traced to lab leaks...and history goes on from here.

Bet65090 - you are asking several good questions. Everyone could be considering where and when the break will come! This farce, the curtain shielding a worldwide kabuki theater show, cannot be kept up for much longer. My guess? Japanese Health Authorities have started by throwing a few stones down a highly unstable hillside (no pun intended).

Stoneharbor - Further, Dr McCullough mentioned that a slew of safety assessment plans were made prior to this shots rollout. He could not find any of these followed through; he should know, as he has been on safety panels before. You may want to listen to this presentation, Dr M posted it several days ago: The Presentation That Is Changing Minds About the COVID 'Vaccines' - www.bitchute.com/.../Vq8xtIuKzrXK - this dates from August 29, 2021.

No accidents here, Note the YouTube link to "Get more information from the CDC about Covid-19" placed directly below this video? According to several sources, Australian aboriginies had a strange practice of ostracizing tribal members by "pointing a stick" at them, forcing them to depart from the tribe. Unwanted people would often die in 2 or 3 days. SAY WHAT?

‘1. "If I get vaccinated, can I stop wearing a mask(s)?" Government: "NO"; 2. "If I get vaccinated will the restaurants, bars, schools, fitness clubs, hair salons, etc. reopen and will people be able to get back to work like normal? Government: "NO"; 3. "If I get vaccinated will I be resistant to Covid?" Government: "Maybe. We don't know exactly, but probably not."; 4. "If I get vaccinated, at least I won't be contagious to others - right?" Government: "NO. The vaccine doesn’t stop transmission."; 5. "If I get vaccinated, how long will the vaccine last?" Government: "No one knows. All Covid "vaccines" are still in the experimental stage."; 6. "If I get vaccinated, can I stop social distancing?" Government: "NO"

7. "If my parents, grandparents and myself all get vaccinated can we hug each other again?" Government: "NO"; 8. "So, what's the benefit of getting vaccinated?" Government: "Hoping that the virus won't kill you."; 9."Are you sure the vaccine won't injure or kill me?" Government: "NO"; 10. "If statistically the virus won't kill me (99.7% survival rate), why should I get vaccinated "Government: "To protect others."; 11. "So, if I get vaccinated, I can protect 100% of people I come in contact with" Government: "NO"; 12. "If I experience a severe adverse reaction, long term effects (still unknown) or die from the vaccine will I (or my family) be compensated from the vaccine manufacturer or the Government" Government: "NO - the government and vaccine manufacturers have 100% zero liability regarding this experimental drug." I found this on a reply to a Microsoft news story yesterday. I am gobsmacked that they were allowed to post it. It just puts everything into plain english and I hope that it wakes a few people up.

Drug ads and "Most trusted network news anchors" work hand in hand to perpetuate drug-only medicine at the expense of common sense prevention...Call em "anchors" cuz they keep you stuck in the corporate narrative! Given all the years of public and higher education, why in bloody hell is prevention not a major subject? Disease does not just strike randomly and for no-reason. Cause and effect can not be denied.

And we think we are the crown of creation while rodents like Fauci, idiot news anchors and the cockroaches in congress have usurped power over us and reality. They openly and tirelessly scheme to control weak minds on behalf of greedy businessmen. Until there is a revolution in logic, these vermin will protect an absurd status quo; endless warfare, friends/enemies, bad food/drugs/chemicals, consolidated information/censorship/secrecy and the wealth of a few monopolies. We have murdered millions in the MidEast, millions w Fauci-virus and more to come from pharma vaxxxing...For what??? So a few sadistic billionaires can enjoy a temporary sense of immortality?

Yes Randall, the gates of hell are opening. Vaccines, drugs, massive industrialization, industrial agriculture and livestock, unhealthy food, environmental pollution, where 5G technology implies a radical increase in the levels of electromagnetic pollution, constitute a promotion of diseases. There are many older people with chronic conditions who suffer greatly and die from this pandemic, inflating the death statistics. The pharmaceutical mafia and the institutional corporations responsible for food, the environment, drugs, etc., are the most to blame for this situation.

Control of people, including health. by computer media is a reality that surpasses fantasy, and the struggles between the candidates to govern a country with lies and deception, is manifested in all elections. Promises that are then mostly not kept. Health is an issue that greatly concerns the population. and the strategies to come to power is to invest in propaganda and dominate social networks and other media. The contracts and dependency are carried out as the elections progress. Health, energy policies, the world of communications, etc., are in the negotiation.

The most deceptive marketing gimmicks of Big Food and Big Pharma serve this menticide. After all, repeat a lie enough times, no matter how stupid it sounds, and the masses start to believe it. "Safe and Effective" - The CDC's official seal of approval for every vaccine and flu vaccine that has never been shown in a clinical trial to work, and that comes with a list of adverse events and side effects in the package insert. the vaccine that should include any sane and intelligent humans avoid it at all costs.

Have you considered that if tv (the FCC) no longer allows drug ads on US tv, an entire (questionable) news outlet and some form of re-hashed formulaic entertainment will disappear, along with cable companies? Already there's massive ad spend supporting these network stations. Do you see this happening in the near future?

It is better to trust in the Lord than to trust in man. It is better to trust in the Lord than to trust in princes. Psalm 118:8&9 We have wonderfully and fearfully designed immune systems. Learn about and nourish your immune system. Thank you, Dr. Mercola et. al. for remaining beacons of sanity in this insane world. I look forward to reading your encouraging web site everyday!

This is an outstanding article - thank you so much for your determination to bring the truth to the world about the vaxx and the unbelievable amount of corruption that's seeking to destroy people's lives and health. 'THEY" are losing so have to watch out for even greater tyranny and cruelty

I've got a 3rd scenario for Gates and Company: Revelation 6:14-17 And the heaven departed as a scroll when it is rolled together; and every mountain and island were moved out of their places. And the kings of the earth, and the great men, and the rich men, and the chief captains, and the mighty men, and every bondman, and every free man, hid themselves in the dens and in the rocks of the mountains; and said to the mountains and rocks, Fall on us, and hide us from the face of him that sitteth on the throne, and from the wrath of the Lamb: for the great day of his wrath is come; and who shall be able to stand?

I hope I live long enough to see Bill Gates die, hopefully after vaccines he constantly promotes; tho' he probably has never had the guts to take any of the sterilising toxic crap he pushes on children in impoverished countries, pretending to be a philanthropist, when in fact, like his father, the scum is a Eugenicist and a friend to Epstein. No wonder his wife ditched him.

I went to sign up for the NVIC newsletter, but when I did it took me to another page where they want my address and phone number. This is unfortunate as I would like to receive this but I will not give them this info just so I can be sent or called with more marketing info. This is a web based newsletter and my address nor phone number is not needed to send me it!! Please remove this stipulation.

I love Dr Mercola's website and how informative his articles are. I'm shocked with all Covid-19 vaccine urge and mandate. As a person I disagree with this mandate and feel that I will loose the battle of this mandate as my workplace mandated for all employee to be vaccinated. I had Covid 9 month ago. I just checked my antibodies and I still have it. I had flu shot once in my life many years ago. Post flu shot reaction was bad. I never received flu shot since then. I barely have cold or flu like symptoms. Taking good care of my health and taking vitamins.

My work place allows people who doesn't want to be vaccinated to submit medical or religious exemptions request. Exemption would be granted on case by case basis. But it is impossible to get letter for medical exemption from the PCP. Also, employers don't recognize natural immunity. The religious exemption is not that easy as I thought it would be. While I submitted religious exemption request and still waiting on the employer response I feel that my options are none but to get an unwanted Covid vaccine if my request would be rejected by employer. I can't loose my job and that means if I wouldn't get exemption my only choice would be to get covid shot that I absolutely against. It's so sad to me, I just feel awful…

We have become a nation of followers rather than independent and discerning thinkers. The new 'god' has been trumpeted: "Trust the science!" One of my favorite articles is "Experts are always right, right? Wrong!" It gave story after story of how so-called 'Experts' were wrong in numerous circumstances and average but thinking people were right. One of the saddest is when CPS removes a child from a loving family with a few issues only to place them in a 'safe' home where they're sexually abused or trafficked. Yeah - the 'experts' were right, weren't they?" Everyone should read Medical Kidnap News. CPS is an industry that receives big government money every time they remove a child from a home, so guess what they do?

My friend's daughter is a high school psychologist whose own family is in tatters yet she is held up as a guru by parents and school staff. Her mother exclaimed "Can't you use what you learned in college to fix your own family!?" But 'trust the science' right??? "If you tell a lie big enough and keep repeating it, people will eventually come to believe it. The lie can be maintained only for such time as the State can shield the people from the political, economic and/or military consequences of the lie. It thus becomes vitally important for the State to use all of its powers to repress dissent, for the truth is the mortal enemy of the lie, and thus by extension, the truth is the greatest enemy of the State." - Joseph Goebbels

"Safe and effective" was what doctors called the cocktail of mind altering drugs that kept me from thinking straight for 20+ years. Supposed to treat the "mental illness" they assumed I had. Why? I was unsure and awkward in my teens. At college I saw a shrink. He gave me an SSRI called Anafranil. It kept me awake for an entire 3 weeks. Of course I hallucinated. The shrink said Anafranil never had that effect on anyone. (He had already told me it was a new drug. Even the list of side effects said it included "insomnia" and "hallucinations.")

But of course it was all my fault. They persuaded me and my family I was "severely mentally ill." A biological "defective" and would never amount to anything because of my bad genes. The nonstop gaslighting they called "adult day treatment" where they told us repeatedly how stupid and crazy we were. How we should lower all hopes for our lives and never, ever question our doctors or think for ourselves. We were stupid crazies. They were medical experts. And the epitome of sanity and normalcy. We shouldn't trust our own delusional, mentally ill thoughts. But defer to the Experts in everything.

Took me awhile, but I left that cult. Went into hiding, and tapered off the crap so I can think and feel like a human again. Now the same kind of creepy doctators are taking over the world. I would rather die than live under such sadistic, scary people. No conscience, empathy, or compassion. Yet the majority are handing us all over to be their slaves forever. I was happy to escape my tormenters. But none of the vaxxholes want to. I don't care what happens to them at this point. They clearly enjoy torture. Impossible to pity them because of it.

The suggestion that more than 600 thousand Americans have died from covid is just put out there to scare us. How many have died from the vaccine I'd like to know. Maybe the next article on this website can tell us that.

Grilles, during the largest injection bio-warfare/crimes against humanity/eugenical culling event in history I might start to research that number by checking the MSM TV news, CDC, NIH, FDA, Hollywood and the VAERS because we know we can trust all the "Three [and Four] Letter Agitprop/Psyop/COINTELPRO/CWNS Agencies and Trans-Clowns" to provide [the exact opposite of the] real data and facts like they always have... or just request an accurate updated supply inventory/count on the body bags still on hand verses what were originally purchased... might need to make an official FOIA Request... I'm sure the gubmint/CWNS will send the real number off to this website almost as soon as it is filed.
www.bitchute.com/search/?query=body%20bags&kind=video&sort=new ~ www.youtube.com/watch ~ www.youtube.com/.../videos

Fast forward again, this time to 2012. Under the Obama Administration Congress reversed the Smith-Mundt protections. They buried the "Smith-Mundt Modernization Act" into the National Defense Authorization Act which passed and was signed by Obama in 2013. "Modernization" meant they dropped the propaganda protections and allowed government agencies and bureaucrats to create media "news" and opinion to feed to the American public. It is written in typical legalese convoluted language, but nonetheless creates a huge loophole for the State Department and the Board of Broadcast Governors to create and disseminate all the propaganda they want toward Americans using taxpayer funding. This is a giant ranch ball and we ain't the ranchers. There's no conspiracy here folks... just get yer dang vaxxine/graphene injection.

"liberals" are showing their TRUE FACE (I voted for Biden) are quickly embracing the post truth era for their personal and party's benefit. Mind boggling that "liberals" when convenient become fascist vaxers, lock-down demagogues and over-reaching mandate dictators. Congress is rotten, the White House should be renamed: LIE HOUSE

Well, here below is an email I received today from my son after his last day at United Airlines after 25-years of faithful service, forced out because he refused to get the "vaccine." Well that was sad. Loading up all my stuff, tool boxes and saying goodbye to everyone. I still need to go by the office tomorrow and turn in my IDs and computer: So I need to get focused on what is next, clean, organize, research, got lots of decisions to make. But I will take my time. I might even take a trip. Don't know. Do I want to stay in aviation or try something different? Of course the world is crazy so keeping an eye on that too to see how that will effect my plans. One day at a time..

"We are endowed by our Creator with certain unalienable right, among which are LIFE..." I am not about to allow some mandate or movement or whatever you wish to call it mess with the LIFE my Lord has given me. My life is not my own, but is on loan to me by God. I will never pollute it with some brand new medicine that 1) doesn't do what it claims to do, and 2) is killing more people that the virus it's supposed to protect us from. Be strong. Stand up and know there are millions standing with you. Be compassionate. If a friend or family member takes this shot be ready to help them with Ivermectin. You can still help. Most of all pray and the Great Physician may take mercy of them and heal them.

My husband and I have not had our covid shots in fear of what the outcome would be. We talked and decided to wait a year or so to see what the out come would be. We take Vit. D and other immune builders, lots of santizers ands he wears masks and I wear a shield(cannot wear mask being a lung cancer survivor and can't breathe in them and SAY OUR PRAYERS..... We are both in our early 70's and pray that this country will wake up and see what is going one and tell your children if this does not change they will be no future for them....

Does it strike any of you as "odd" that the CBC, (Central Bank Clan) controlled pharma ordered their "tools" to grant them immunity from civil acts while at the same time they coo like massing pigeons about vaccine safety? www.sgtreport.com/2019/01/robert-f-kennedy-jr-vaccine-big-pharma-has-t.. As a more frightening mark of their (global) power, they VIOLATE laws they had put in place for their Nuremberg "show" trials which allowed them to execute people for crimes THEY had been committing against humanity decades before their SECOND bankers' world war? www.cirp.org/.../nuremberg Remember Morris Fishbein, never treated a single patient yet was "placed" as head of the AMA to chase cancer treatments out of country?

A supplement manufacturer cannot make any "false" claims about the benefits of their products, but the drug companies can say whatever they want about their products as long as they also give a brief list of potential side effects like death.

The United States Constitution gives you rights to life , religious freedom. This is the law. No mandate , or order can violate the Constitution. Nothing stands above the Constitution. Do not give up your religious right to say no to a vaccine. You do not need to belong to any organized religion to state your case. You do not need a letter from any priest or pastor. State your religious belief only. No vax facts or science discussion or you are out of God's world and into theirs and they can trip you up,

Hi, Sadly I think a lot of people don't care about the Constitution/individual rights. Fighting covid and climate change is for the greater good. I think a lot of people think "unvaccinated" people carry higher levels of virus. I guess that's why they're sick all the time or worse. I ask them at what viral load does your vaccine work? They have no idea. I mean I'm taking vitamin D and zinc. Are they taking it because according to them I need them to take for mine to work. I don't want to work with people that think I'm a threat to them.

The testing is more BS in my opinion. Its just a way to coerce people to take vaccine/isolate them if they test positive. When does this insanity end? When people stop getting sick? stop dying? Never gonna happen. If masks work, we're wearing them forever. I also think there are people that like following rules. It makes them feel like they're being a good citizen and when they encounter others...they're like wait you didn't get the vaccine? you must be selfish. I keep hearing polio small pox measles mumps...I mean they're all one in the same right?

Den6328...For clarification; Every Human Being is endowed the right to Life, Liberty and Freedom by God. We all are born as free moral agents. The constitution is a contract between the govt and We the People. Rights are not rights if they can be taken away; they are merely privileges granted by your master(s). I can't speak for others, only for myself. I do not have ANY human masters.

Let us state the obvious and see what happens. Iron-fisted Covid health policies and messaging go hand in hand with pharmaceutical giant's profits with no end insight for either. Clearly the govt should consider unhitching its wagon from big pharma when the overwhelming consensus arrives at the conclusion that many lives should have been saved using re-purposed drugs if saving lives was the primary concern of govt policy making. If it was not and one needs to just say it for what it is "saving lives was secondary not primary". Stated simply the primary concern unwittingly was therefore to produce a commercially successful vaccine at the cost of people's lives and injury. Should govt policy continue to put vaccines as primary and not as secondary then it must come under scathing and unrelenting scrutiny as to its decision making, blatant failings and obvious unhealthy arrangements with drug companies.

Dr. Mercola wrote a book about treating Covid. On this site he has recommended using hydrogen peroxide to prevent it along with vitamins and zinc. He believes the virus exists. So do all the other doctors I know. The woman interviewed said she had it. A lot of people--including myself--have been very ill with the same symptoms. And gotten better. The risks are minimal. But when I read nonsense like "There is no virus! People are faking it!" I shake my head. Like the Holocaust denying alt right skin head comments on Gab, I'm not sure if the commenters believe their own nonsense. Or--more likely--are trolls who believe the opposite. Trying to make everyone else look stupid by association.

My current doctor who is a rather young woman ended our recent conversation (when I was asked if I wanted to get the vaccine and I declined with a bit of conversation concerning my hesitant feelings and anxiousness) at her office by saying, "I think everyone should just stop talking about all of this and get the vaccine because it's better than dying so we can all stay safe. I go to a health clinic and a revolving sign states a question and an answer. The question was, "Can a vaccinated person get Covid? The answer was, "Absolutely not!" The seating area was covered with signs in every other chair saying not to sit due to covid. Everyone wearing masks. It was as if I stepped into another world. Such fear there.

What is the point of these vaccines. They have been proved ineffective. As people double jabbed can still get the virus and end up in the ICU & even die. Masks don't keep the virus away, & as for take the vaccine to keep others safe, keep the grandparents safe, thats a guilt trip. So if I use sun cream will it keep others safe from being sun burnt. In GLasgow area everywhere I go I see masts for 5G being erected. If they can't get us one way they will get us another. The energy companies in the UK are pushing for smart meters (more EMFs) to be in every home. The BBC news spews out lies & propaganda, as do all the MSM. Its never ending. Thank goodness for the sanity of Dr Mercola's articles and the great comments from you all.

The shots are not experimental. mRNA shots were invented in the Soviet Union in the early 1980s: www.lewrockwell.com/2021/08/no_author/mrna-vaccines-the-silent-weapon/ The objective of the shots is twofold: population control and genocide. "Only" 5-25% of the Kill Shots contain mRNA, but graphene oxide is in all of them, plus in the muzzles (that contain another two carcinogens), in the fraudulent tests, and probably in chemtrails and other things.

I am so sick of the monsters calling 5G damage CV, the genetic manipulation (a bioweapon) in the injections "therapy," or even "vaccines"... Of course, as in Wuhan, air pollution can also create "CV symptoms," releasing the polluters from liability, just like the manufacturers of the shots are exempt (which alone should have been a yuuuge red flag for everyone). The pseudo-medical establishment has been used for inventing illnesses caused by environmental poisons. The "cure" is that is causing the illness. The same people who create the crisis are the one who are supposed to fix it, profiting on both ends. For analogies, consider the War on Drugs and the War on Terror. This time, the goal is control and genocide and it looks like most people swallow the lies (including the existence of a killer virus), hook, line, and sinker.

Hi Legoge47. Dr. Mercola has published several articles on N-acetylcysteine (NAC). NAC is a precursor to glutathione, the deficiency of which can worsen the severity of COVID-19 disease. A high dose of NAC intravenously could help control the chain of events that cause hemolysis of red blood cells in these patients, allowing them to recover from severe COVID-19 illness. NAC also inhibits the expression of pro-inflammatory cytokines, improves T-cell response, improves various lung problems, and inhibits hypercoagulation. Some studies on glutathione and NAC. www.tandfonline.com/.../23744235.2021.1945675 (16 Jun 2021) ~ link.springer.com/.../s00408-021-00465-3 (27 August 2021) The US Food and Drug Administration decided to crack down on NAC, claiming that it cannot be considered a dietary supplement. As a result, Amazon removed all products containing NAC supplements.

Finally got through directions on cleaning nebulizer chamber and sprayer. Mine has a special cycle which I had overlooked. Took an old shot glass 1/2 oz, and 1/8 tsp NAC pwdr. - had to walk away after 2 minutes, started coughing, can feel vapor going where I need it. Hopefully will unlock mucus buildup. Great tip!

BTW- someone posted a video on bitchute on how to make your own distilled water. Please no tap. HOW TO MAKE DISTILLED WATER FROM HOME - www.bitchute.com/.../eYbTelNsWPmr

The PREP Act is probably unconstitutional. It certainly is unjust. It appears to be a culmination in long history of so-called emergency powers. Such "powers" are of doubtful morality and constitutionality. There was a good book written recently about this topic - "Is Administrative Law Unlawful?" According to the book, the answer is "Yes."

However, there may be an argument against this I have discovered an interesting article concerning the Suspension Clause (constitutioncenter.org/interactive-constitution/interpretation/article..). I disagree with the Suspension Clause and doubt that it is just.

There is a good chance that the PREP Act was an intended result of the Mossad perpetrated controlled demolition that was 9-11.

One great worry I have now is how big pharma is steadily worming its way into political decisions, attempting to replace honest conventional/alternative medicine with a lifetime of mandatory vaccinations and big pharma drugs ... without honest interest in our health or well-being, merely as a captive market for enrichment of big pharma and investors, at the expense of our public health. This cannot be allowed!

URGENT URGENT URGENT. Dr Mercola team and community. Jabcinda Ardern invited New Zealanders to lodge their adverse effects on her face book page. As the 1000s of injuries flooded her FB page the serious injuries were deleted within minutes. Screen shots have been taken of lots of deleted posts. Nothing has been reported in any mainstream news in NZ. 4 of our respected probing TV presenters have "retired" without prior warning in the last 6 weeks. Can anyone/everyone spread this genocidal news even to TV stations in Australia. I have 3 kilos of Vitamin C and other needed ingredients to make lipo Vit C. I have 3 nebulizers and Hydrogen Peroxide to help family and friends if needed BUT I'm just a conspiracy theorist, my own family is divided, like 10,000s of others. PLEASE if you can spread the word of our plight

I am concerned about a statement Ms. Fisher made about statewide executive orders not withstanding the next “elected” official “planted” into office! When we failed to address the blatant election fraud perpetrated by the DNC during Sanders’ and Clinton’s primary, we left the door wide open for continued election fraud that is only getting worse when you have the dept of Homeland Security given oversight of election critical infrastructure! If this isn’t the fox guarding the henhouse of American politics, I don’t know what is! When they attempt to turn the entire country “blue” in order to usher in the New World Order, it will make what happened toTrump’s presidential campaign look like kindergarten.

No one is appointed to authority over us without God placing them there. Right now God has intentionally allowed the steal to stand, and certainly not because He favors Biden, but because our nation, which had already turned from God, was looking to Trump to save them. So God removed him that we might call upon Him. He is still waiting. If we as a nation turn to God it doesn't matter what the DNC tries to do because they will be fighting against God and He will place into office whosoever He has chosen. On paper Biden is our president, but Jesus has always been our King and always will be. I appeal to my king, not my president.

Here's my opinion. I don't think Bush Jr won. I think FL miscounted and skewed the vote to get him elected with the BS "hanging chad"! That was total BS! If it's hanging, it means it was punched and the punch was too dull to shear the paper all the way around. So they threw ballots in the trash that had "hanging chad". That led the way to these electronic "Dominion" voting machines. We have not had a fair election since these machines were put in place. Obama didn't win. Trump didn't win. BIDEN DAMN SURE DIDN'T WIN!

If they expect more people to get vaccinated, they need to stop censoring social media and other sources from giving their medical opinions. By censoring, it makes it look like their hiding something, and they are.

Funny. As clever as the brains behind this are they seem to forget certain traits of humanity. Xiden's real plan is to destroy every social and economic structure in America. If it really was to get us to line up obediently to get jabbed he took the worst approach possible. Creepy old man yells threats at America for not getting this needle in every arm which he really wants there. Right. Now. A lot of Americans say he won by fraud. But Xiden threatened to treat everyone who questions election results as a domestic terrorist. So we KNOW he won legitimately.

C'mon man. Joe just wants to needle us all for our own protection. He is so big on saving American lives. Don't look at Afghanistan. And he really wants to protect the vaxxed from the unvaxxed. Since the jab is so effective it seems only the vaxxed can get sick or die, while the unvaxxed stay asymptomatic carriers to spread this deadliest of head colds. Because something something SCIENCE blah blah blah Fauci says something something slow the spread blah blah blah save lives Trekky technobabble muh grandma's haircut

A trait most liars have is that they keep saying the thing over and over to convince you something is good/right. It is so choreographed that most 6 year-old's with half a brain will pick up on it. Then these pathological liars get old and forget their lies. I guess Fauci forgot he told the world in Aug 2005 that Hydroxychloriquine was a miracle cure for Sars-Coronavirus (SARS?Sars-Cov-1). Then he immediately denounces it as an effective treatment for Sars-Cov-2. Both strains of coronavirus use the same pathway to infect you and enter your cells. So if HCQ works for SARS, it works for Covid-19. But NO!!!! He recommends the FAILED EBOLA virus treatment, using Remdesivir, that killed THOUSANDS of people in Africa! We are witnessing people die in the USA from Remdesivir with the exact same kidney and renal failures as those in Africa did.

You enter the hospital tonight TALKING and TEXTING, they put you on a respirator, put you into a medically induced coma, and then pump you full of Remdesivir. Most people die within 48 hours. Had they been left alone to die on their own they probably would still be alive. Most pathological liars are also power mongers. By killing these people that get sick it empowers them. They feed on it. Bill Gates and Fauci are 2 peas in a pod. They should face the death penalty. I'd prefer long term physical pain. Start with shoving bamboo shoots up their finger nails and progressively move up the pain levels. Hydrochloric acid in the eyes is very painful (personally experienced it)

The recovery rate is above 95% for a normal person in decent shape so why the scare of so many? All that is written is how to keep from getting Covid and if you do, how to survive. Several of us just wanted to take a different approach thinking like the old warriors did by wearing our armor only on the front of us so we would be protected moving bravely forward and with no protection on our back so if we turned around and ran scared and retreated we would be killed. Challenge question: Just how could you catch Covid if you really tried? Can some expert tell us or give us the outline or exact procedure to follow to guarantee the catching of Covid?

Testing would include going to all games, sitting close together and jumping up hollering, unmasked, eating in restaurants unmasked, work close to others unmasked, don't take any shots, shop for food, whatever, close and unmasked. Anything people are scared to do or go, you purposely do and go. Open mouth, breath deep close to all people without showing fear. That doesn't seem to work in getting it so give us exactly how? It seems that is what most of us do, unafraid and do not have any trouble with Covid so why be so scared? Its your life not the governments so live it your way and ignore all the BS!!!

More like 99.7% survival rate. 97% of not going to the hospital. Unless you're over 75 and have cancer or heart problems. Then it's 90-95%.

And with their Next "Toy" to get the earth these NWO think is theirs , 'BIBLE VERSE – Matthew 5:5 NLT “Blessed are the meek,for they will inherit the earth.”.....yadayada.....Now the 5G will make SURE the creeps win and keep the maintenance if their newly acquired Earth in their hands....the WorldWide network of 5G-6G towers will remove any of their Unwanted Problems away....kinda like a electric fence keeps cattle in line...or out of some area.... We are now in the 'Final Second" on the Doomsday clock...within 3 years max.....before billions die... YEP....the END is very close.... So I wonder where this "God" thing billions have prayed and PAID to gonna come? hahahahhaha another GotChA....like the 'Jesus thing saves'.....lol.....saved your money in his pockets..... hahahaha.....and the Allah Scam and the dozens more.....ROFLMAO... And I am still on MyMountain....still smilin'.....and occasionally chucklin' over the god scams ...

"Health authorities and government officials have proven their incompetence during this pandemic. From the beginning, they neglected and actually prevented safe and effective treatments from being widely used — a decision that has resulted in unnecessary deaths and needless suffering" I wholeheartedly disagree with this statement. These governments and authorities are evil, not incompetent. This was a planned and organized event, even practiced at "Event 201" before kicking off the real thing. Ever notice all of the war games and practice events surrounding FALSE FLAG EVENTS???

Everything from the Boston Marathon bombing false flag event to 9-11....war games and terrorism (practice) exercises/games were being done. When jets were supposedly being scrambled to intercept the plane that crashed in Pennsylvania, the Air operator can clearly be heard asking if "this were real or part of the exercise" The Government's of this world are EVIL and are uniting together into a Global Beast System that the Bible predicted would be ruling before the return of Christ. Remember the words of George W. Bush Sr.? I'll attach a link below to refresh your memories. No U.S. President has any business talking like this. Just goes to show you where we are at in time. m.youtube.com/watch 21 minute mark he starts talking about New World Order and United Nations nonsense.

If I had the time and space, I would use nothing but the Bible to show everyone what's coming, and what to look for. Sadly few people care, so I'll end my rant now. And leave you with a verse from God's Word: Psalm 33:18-21 Behold, the eye of the Lord is upon them that fear him, upon them that hope in his mercy; to deliver their soul from death, and to keep them alive in famine. Our soul waiteth for the Lord: he is our help and our shield. For our heart shall rejoice in him, because we have trusted in his holy name.

The protest on Saturday the 25th of September was in Uster and all went well...the crowd was wonderful, friendly, and supportive, and all were so happy to be there showing their solidarity for one another. We are against the restrictions and the coercion, more than we are against the injections themselves.. It was a freedom rally and a loud message to our government that we are against the current measures. They are illegal, divisive and have only caused harm and suffering. The press says there were about 3000, I say it was more...between 4-5000. I cannot wait for the next one...we are strong and we are many! Have faith!

I myself, am against the shots because as many of you know, they are all still in trial and those who take them are participating in a massive experiment, one I want no part of. We have all been aware of all the adverse effects and deaths they have caused. Saying that, it still is an individuals choice and should always remain so, in regards to medical interventions. The majority of the people my daughter and I met and spoke to on Saturday were all about freedom and individual choice...we have a very strong history of direct democracy in Switzerland and lately that feels under attack! We have a second referendum close to the end of November where hopefully we will have a majority say "NEIN" to the measures! It is what a large group of us strive to make happen! We need to be over 50%! Thanks always to the wonderful comments on this brilliant site..it keeps me updated and lifts my spirits! www.nau.ch/news/schweiz/coronavirus-massnahmen-gegner-demonstrieren-in..

parasolgirl, you first need to consider that they have been trying to make a coronavirus vaccine and/or a coronavirus-like vaccine (ebola, RSV) since the 1950's. All attempts have failed for the same reason: ADE. It is inherent to coronaviruses to evade the immune responses created by vaccines and actually become MORE INFFECTIOUS! ADE is detrimental! It doesn't go away with time. It gets worse with time. This is why children under the age of 6 (preschool) virtually have no symptoms. As you get older you have more coronavirus infections.

I believe there's about 5 human strains of coronaviruses. By the time we are 75, we have a very strong immune response to these "cold" viruses. This is a BAT coronavirus! If a 5 year old gets it, it is no different than getting infected with one of the 5 human strains circulating. They get the sniffles! If a 75 year old gets it, their antibodies go through the roof and ATTACK!! The antibodies attach to the virus, but they don't neutralize (kill) the virus. So now your cells don't even recognize this virus. All they see is its own antibodies and the virus is allowed to enter the cell were it replicates. That is ADE. We are witnessing it in Israel right now. That doesn't mean there never will be a safe and effective coronavirus vaccine, but it pretty much guaranties there never will be.

The vaccine they made for SARS (Sars-cov-1) never got approved by the FDA and the problem was ADE. The whole reason for mRNA technology was to try and get around this coronavirus/ADE phenomenon. Novavax uses the same FAILED technology of previous attempts to make a coronavirus vaccine. So, it's not NO, but HELL NO! I feel your pressure. I'm 55. However, make an effort to keep my Vit-D, Zinc, and Omega-3 levels as high as I can NATURALLY! The bioavailability of all 3 is questionable from supplements. My wife and I make sure to eat a sushi salad twice a week made from Kale, Seaweed, Raw Salmon, and cooked clams. It covers all 3.

My rant makes it sound like I'm for those over 75 getting the jab. NOT! The problem with the current jab is it is designed for the original Sars-Cov-2 variant. Delta variant is side-stepping the antibodies being produced and causing ADE. That's why we are seeing more vaccinated people being hospitalized than unvaccinated in places like Israel and the UK. They are experiencing ADE. The USA is probably days away from it. I noticed we broke 2,000 deaths per day nearly every day last week. That is just under what we were at when no one was vaccinated and the trend line points up! So we may just have the highest death rate we've had since the beginning of this pandemic in a week or two and most people are now vaccinated.

No one at the FDA, CDC, or NIH is going to say this is ADE because it would result in an immediate halt in these vaccines. They would rather kill millions of innocent people, that had FAITH in them, than admit we are in a wave of ADE, not Delta. Delta is actually less deadly. It's just more infectious. That's how viruses mutate. It's the old "process of selection". It serves viruses no benefits to kill its host. The virus dies when the host dies. So, becoming more infectious and less deadly is the end result. The only reason we are seeing an uptick in deaths due to Delta is ADE.

"Health authorities and government officials have proven their incompetence during this pandemic." Incompetence in some. Intentional malevolent malfeasance in most.

There were actually 8 inoculations given in the early or mid 80's. DPT, MMR, Oral Polio and HIB.

Thanks for the link Gui. I'm so glad that there are still some people that realize the atrocities that are going on and want to stop it.

I don't get how mandates have been allowed to stand this far. Congress makes the laws. There has been no law on vaccines. Why do people keep following mandates as if they're laws? Rhetorically speaking. I live in Illinois and we are under mask mandate. I don't wear it. If they want to kick me out of a biz I'll go somewhere else. I don't argue with stupidity because they know not what they do. 9 out of 10 no one says anything. But I sure get looks. These Covid fearing governors perpetuate this federal tyranny that people follow. People are just dumb! "It's better to fool people than convince them they've been fooled." Mark Twain

ad augusta per angusta

To those who

Have not

You are not alone

You are fine

Strong

Stronger than you know

Time to awake

And fight

For your life

Truth and light

Is your armor

High moral and ethical character

Is the way to silence the fools

Raise your head

Look straight on and hold your line

You will

Be mocked, villainized, belittled, ridiculed, beaten, chastised, bullied

Fight back

You are an American

citizen

You have rights

You are a human

You have rights

As this happens you will grow stronger

Few will wane

There are others like you,

Find solace in that truth

They, like you,

See clearly through the haze of false discourse.

Note well,

You are NOT alone

We are with you

us few

Truth in hand

Strength in heart

At first you will be alone and feel it

Independent

Crossing a field of doubt

Spread all about and confused

Seek

Strength with logic and reason

Old friends

Self check

“Am I right?”

Intention of

Truth, goodness, love, compassion, and do no harm

As you stay on course

Your voice

Truth, logic, reason and compassion

Hold the hand of other friends you know well:

curiosity, hope, passion, courage, independence, self discipline, and

perseverance

You are an explorer

Go inward to see your strong self

Go outward guided by a moral compass

Your map

Truth

And find your voice

Find friends, real friends, not those who are fooled

Stand tall friends

Look to your left

And to your right

Take a deep breath

Look forward

Take the step

You are not alone

I never will have the jab ever. i am awake and seeing the lies and misinformation by pretty much all goverments worldwide i belive covid only exists as a common cold/flu and that it is hyped up to be some killer disease by said goverments and the media which is owned by partys who do not have our best interests at heart the real killer is the vaccine(s) belive it or not but those we once thought were our protetors are really cold hearted killers, having said that i have realised that the covid crises is here meerly to help wake us all up to whats really been going on for thousands of years, the biblical prophecies are here now, but it is not the end of humanity it is the begining.

In New Zealand a truly totalitarian Jezebel Queen holds the infernal evil narrative of LIES so strongly that the people continue to line up and beg and plead for their blood cursing shots of eternal destruction..!

I feel a part of the human race again!i played a show last night! There was only one song that I didn't have the energy to sing 'Girls Just Wanna Have Fun'. I told them how Ivermectin had cured me and not one person had even heard of it! So sad!

Please, don't use the monsters' terminology. "Herd immunity" is a myth; it's based on a logical fallacy. And call the situation what it is: a scamdemic, orchestrated by those, who control the money flow.

Yes, Tracy, America is losing its freedom, it has been conquered by political and medical tyranny. These people defend freedom, they defend health, but they are discriminated against: Hospitals are losing a large chunk of their medical staff who resign or are fired for refusing the vaccine. These are the nurses who have seen what the vaccine does to patients. Being closely informed, they prefer unemployment to vaccination. That should say something to the hospital administrators and the idiotic public, but it doesn't. The media chases away protesting nurses as people who will fail in their duty to protect their patients and the public by getting vaccinated.

The scientists and doctors who are raising the alarm are so well known that it is impossible for the CDC, FDA, NIH, AMA, and hospital and university administrators not to know about them. Not content to ignore the evidence, they intentionally lie to us. They lie that children are in such danger from Covid that they need to be forcibly vaccinated. They lie that unvaccinated people and people who have recovered from Covid and have natural immunity are dangerous to everyone else and should be excluded from school, work, restaurants, sporting events, concerts, public transportation. , travel to other countries, all to be applied for Covid Passports. The passport itself is a crazy idea considering the 8 months of protection that Dr. Fauci assigns to the "vaccine." A passport that must be renewed every 8 months is a bureaucratic nightmare.

Thank you Gui! That's an interesting article - and answers one of my questions: The monoclonal antibodies were used to treat President Trump and cannot be prohibited by hospital protocols. DeSantis can give the OK to Ivermectin and HCQ but apparently HAS YET TO FIND A WAY TO IMPOSE THIS SUCCESSFUL, SAFE TREATMENT ON HOSPITALS WHICH OPERATE ACORDING TO BIG PHARMA'S PROTOCOL WHICH IS BACKED BY CDC, NIH (FAUCI) AND THE FDA... DeSantis is also under attack for not permitting in Florida the mask mandates that are mandatory in Democrat states that have gone totally totalitarian. For now a Federal Court has ruled in DeSantis' favor. But the Democrats who brought the case against Florida's ban against mask mandates are hoping Biden will overrule Florida's laws with a Federal edict or contrived court case.

In other words, the Biden regime is determined and will use every power it can find or invent in order to prevent governors from protecting their state populations from Covid, from the dangerous mRNA vaccine, and from the tyranny of authoritarianism. How much more proof do you need to comprehend that the Biden regime intends to destroy our health and our freedom? Are Americans capable of understanding the situation they are in? At least in Australia, Europe, and England they are in the streets protesting. In America (WE ARE ALSO PROTESTING, but they're right, we're also lining up for the shot, or being bought, bribed, or threatened.)

I received the Pfizer vaccine in feb/March. Since then I seem to have more sleeping problems, going to sleep, staying asleep. I have had some sleep issues prior to the shot. Is this a side affect, of course there is no real list to find on the internet and unfortunately we can't look for past issues on Dr Mercola🙁?

The graphic of Elizabeth Warren that you posted makes me wonder about you and your integrity. I've recommended you to many over the decades. This is not acceptable response from you. No one has posted ugly graphics of you, Dr. Mercola. Take it down!! I suggest you apologize to her and to me.

Hey Peg, That depiction of the illustrious Senator Warren is spot on. She is one of the Senators in my State and she does not give one lick about her constituents. That is why she came in THIRD in the democratic primary in her own State. She cares only about herself and her aspirations. She is a narcissistic sociopath. If you are a fan of hers, I give you my heartfelt condolences but don't rail against Dr. Mercola for seeing her for who she truly is. I don't know about you, Peg, but I do not have the stomach for anyone who wants to censor any point of view, no matter how repugnant it may be. That is what our GREAT Country was built on and, while we deeply are flawed in so many ways, we are still the beacon of hope and freedom and we do not need the likes of Ms. Warren and her ilk. Beauty is skin deep and ugliness is straight to the bone.

When has Warren apologized for suggesting censoring of books? I think as an American that is far more of a lack of integrity to our right as an American than any cartoon caricature could be.

If it offends you, then go elsewhere. She (Warren) doesn't mind slandering the good Doctor. Its more fair and polite than what she has done to Doc and the Good people of America. Notice I didn't say United States?

Fauxcahontas Warren has gone on record condemning corporate monopolies. Knowing about her role in this whole mess, I find that as hypocritical as a certain cute but bubble-headed young Congresswoman's gala dress saying "Tax the Rich." Princess Bubblehead has a history of tax evasion. The lockdown was about destroying everything but certain monopolies who paid hefty sums of bribes (AKA lobbyist campaign contributions.) Crushing the competition and the entire middles class. This was with the understanding that the surviving monopolies owed her and her partners in organized crime--uh politics--certain favors. Bezos will censor books she or others dislike. Zuck and Dorsey will deplatform people who rouse her royal ire. YouTube will ban videos. Remember the end of Animal Farm where the pigs and the farmers form an alliance to crush all the other barnyard animals down even harder? Where we are now. The cartoon ends more hopefully than the book.

Peg, She pushed Amazon to pull Dr. Mercola's book. That's a violation of free speech. Who's side are you on? Is Dr. Mercola supposed to sit on his hands and say "Oh Well, She's Entitled To Her Opinion"?? Entitled is putting it lightly! It appears Democrats like Warren feel they are ENTITLED to do whatever, and say whatever they want to. That's called entitlement. This is the USA, not CHINA!
