9/11 has been one of the biggest events in recent history to spark a mass awakening across the world. There has been much debate over how it happened, who is responsible, and why they did it. To this day, about one third of Americans do not believe the official story. In other parts of the world, the number of skeptics reaches upwards of 90% of the population.

Here is a list of 24 facts that cannot be debunked about 9/11.

- 1) Nano Thermite was found in the dust at Ground Zero. Peer reviewed in the *Bentham Open Chemical Physics Journal*. 'Niels Harrit', 'Thermite Bentham', "The great thermate debate" Jon Cole, 'Iron rich spheres' Steven Jones, 'Limited Metallurgical Examination (FEMA C-13, Appendix C-6)'. 'Nano Tubes'
- 2) 1700+ Engineers and Architects support a real independent 9/11 investigation. Richard Gage, Founder. 'Explosive Evidence', 'Blueprint for Truth', 'AE911', 'Toronto Hearings', 'Kevin Ryan'.
- 3) The total collapse of WTC 7 in 6.5 seconds at free fall acceleration (NIST admits 2.25 seconds). Larry Silverstein used the term "Pull it". Steel framed high rise buildings have NEVER totally collapsed from fire or structural damage. Building 7 was not hit by a plane. 'Building 7', 'WTC 7'.

Building 7 was a 47-story skyscraper and was part of the World Trade Center complex. Built in 1984, it would have been the tallest high-rise in 33 states in the United States. It collapsed at 5:20 pm on September 11, 2001 in 6.5 Seconds at free fall acceleration. It was not hit by an airplane and suffered minimal damage compared to other buildings much closer to the Twin Towers.

I created this original list of 24. I condensed it into 15. \$1000 reward to the first person that debunks it.

Curious as to how you define some of these as hard facts. AE911 are people who have an opinion, they are not a hard fact about 9/11.

Hijackers are still alive has been debunked for over a decade, BBC retracted and everything ... but what the hell, it sounds good on a bumpersticker

Sam Haschets "Bumpersticker" I like that - may I use it? I sure hope you're not an English major....

BTW, the BBC is part of the propaganda ministry along with CNN (can't trust ANY 3-letter acronym-titled organization, not even the BBB, and CERTAINLY NOT the FBI, CIA, MI6, ETC.), and not only did sources inside it have inside knowledge of 9/11, they also effed-up the Boston Bombing Boondoggle, Sandy Hoax, and any other SNAFU hosted by the Power-Greed Cabal. Here is some data for you to choke on:

But hey, who needs facts when the lies work as well on the morons?

Scott Palmer nano thermite, dude!...not sure how you can debunk it...you can spread disinformation but not debunk...was not hard to find. NIST admits that they did not look for it what's to debunk and why would several men lose tenure at the universities where they were

...I realize that they did not look for it...what's to be said and why would several men lose tenure at the universities where they were professors? For fun? No, for integrity and honesty! cause the world is in deep shit if people like you continue to not do any research, and parrot government propaganda.

I find that it is clear that 9/11 was a job by foreign government but supported by the government here. Who ever did 9/11 control the news and the government here, I no longer debate if it was an inside job because to me that is a fact based on all my research I dont care about arguing if it was a controlled demolition. I am more interested in finding the motive and bring those who did it to justice

You might want to check out the "death to America" crowd. If you knew ANYTHING about controlled demolitions, you would know that it takes a MASSIVE and precise construction effort. That's just to PREPARE for the MANY hundreds of explosive charges are carefully placed. Then sequentially detonated.

Something that would take weeks to accomplish. And in this case, by invisible men, since no one saw ANYTHING of the sort.

OF COURSE you no longer debate "whether" it was an inside job. No one likes to look like a TOTAL idiot with a strong streak of lunacy.

Even if you don't believe in these conspiracy theories, don't be so naive. Think with your own brain cells, see the bigger picture. Think about what does all this add to the overall power of these people. If you had a farm you would see it as it is.
