STORY AT-A-GLANCE

- Data suggest 1 in 317 boys aged 16 to 17 will get myocarditis from the COVID shots, and after a third booster, that number may be even higher
- VAERS reporting is likely underreported by a factor of 41. Since there are over 8,000 domestic deaths reported to VAERS, and 98% of those deaths are "excess deaths," this suggests that as many as 300,000 Americans may have died from the COVID shots thus far
- Calculations based on government data from 35% of the world's population suggest we're killing approximately 411 people per million doses on average. Moderna and Pfizer are both two-dose regimens, which pushes this to 822 deaths per million fully vaccinated. And that's just the short-term mortality. We still have no concept of how these shots might impact mortality and morbidity in the longer term
- An Italian investigation found that if the COVID mortality definition were changed to only include those cases where there were no preexisting comorbidities, the mortality from COVID comes out to just 2.9% of the overall reported number. This suggests that if a COVID death was redefined to being a death actually "from" COVID rather than "with" COVID, the death count could be substantially smaller than 760,000 deaths and may be smaller than the number killed by the vaccines
- The deadliest vaccine ever made is the smallpox vaccine, which killed 1 in 1 million vaccinated people. The COVID shots kills 822 per million fully vaccinated, making it more than 800 times deadlier than the deadliest vaccine in human history

In this interview, Steve Kirsch, executive director of the COVID-19 Early Treatment Fund, reviews some of the COVID jab data he's presented to the U.S. Food and Drug Administration and the Centers for Disease Control and Prevention during various meetings.

For example, during the September 17, 2021, FDA VRBPAC (Vaccines and Related Biological

Products Advisory Committee) meeting,[1] Kirsch cited data suggesting 1 in 317 boys aged 16 to 17 will get myocarditis from the shots, and after a third booster, that number may be even higher. He also cited data showing the Pfizer shot kills far more people than it saves. I'll provide more details about that below.

Kirsch didn't come into this due to some preconceived opinion about vaccines. He and his family have all received two doses of the COVID jab. It wasn't until after the fact that he started hearing about problems from others that he started taking deep dives into the data. He explains:

> *"After I got vaccinated, a woman asked me, 'Should I get vaccinated?' And I said, 'Of course, you should. This is the safest thing ever. Nobody's died and there are no side effects. You've got to get this modern technology.' I'm singing from the hymn book.*
>
> *And then she said something that threw me off course because I said, 'Why are you asking such a stupid question?' And she said, 'Well, three of my relatives got the vaccine and they died within a week.' I said, 'No, no, that can't be true. There's no way that can happen.'*
>
> *I'm trying to convince her that she's mistaken, that it must have been something else. I wrote her saying, 'Statistically, you can't have three people dying from the vaccine, which doesn't kill anyone.' And she wrote back and she said, 'Yeah, but they're dead.'*
>
> *That was a game-changing moment for me ... but I was still in denial ... I was operating [from the position] that the FDA is still operating the same [conservative] way [they used to before], but they're not ... nor did I understand that the U.S. Centers for Disease Control and Prevention is now mission driven, and the mission is to get a needle in every arm. My trust was in the agencies.*
>
> *The next incident involved my carpet cleaner, Tim Damroth. He showed up wearing a mask. And I'm saying, 'Hey, you should all get vaccinated. Once you get vaccinated you don't have to wear a mask.' And he said, 'Well, I did get vaccinated, but I had an extreme reaction. I had a heart attack two minutes after I got injected.' He also described that his wife had [developed] Parkinson's-like symptoms. Her left hand was shaking uncontrollably."*

The Price Truth-Tellers Pay

The data are ultimately what convinced him that people must be told the truth about these shots because, without that, they cannot give informed consent. He's sacrificed a lot to do just that, including professional relationships and millions of dollars in lost income.

> *"I basically put my life on hold and started looking in the various databases and talking to people to understand what was going on,"* Kirsch says. *"And every place I looked, [the truth] became more clear to me. And so, on May 25, 2021, I wrote this 250-page article for TrialSiteNews. It may be the longest article for TrialSiteNews ever published.*
>
> *When I wrote that article, within a week, every member of my [COVID-19 Early Treatment Fund's] scientific advisory board quit — there were 14 scientists from all over the United States and in different fields with different expertise. They said I was 'an evil person' and that they never wanted to talk to me again in their life.*
>
> *I pleaded with them, saying, 'Look, if I've got the analysis wrong, then tell why can't you tell me where I got it wrong.' And they wouldn't say anything. They just said, the vaccines are safe and I should be ashamed of myself."*

Kirsch also created and submitted a 177-page PDF slideshow to the October 26, 2021, VRBPAC hearing, titled, "**Questions About the COVID Vaccine**."[2] It's an absolute treasure trove of information and I would encourage you to review this great resource that he is updating in real time.

VAERS Data Likely Off by Factor of 41

In his video, "Vaccine Secrets: COVID Crisis,"[3] the first episode of "The False Narrative Takedown Series," Kirsch explains how to estimate COVID jab mortality, which he and a team of statisticians have done based on a variety of sources, including but not limited to the U.S. Vaccine Adverse Events Reporting System (VAERS).

Kirsch estimates VAERS reporting is off by a factor of 41, and that anywhere from 150,000 to 300,000 Americans have died from the COVID shots.

> *"We looked at eight different ways and VAERS is just one of the ways. So, when people say, 'You can't use VAERS for this, you can't [calculate] causality [based on VAERS data], I'm saying, 'Fine. We got the same answer using seven other ways.*
>
> *In the VAERS analysis, we determined that VAERS was under-reported by a factor of 41, which is quite reasonable ... Ten years ago we had a system where we could actually discover all the unreported things in VAERS, and they discovered VAERS was severely underreported by as much as 95 times. Vaccines that we thought were safe, they're not safe at all. So, what did they do? They killed the project.*
>
> *So, the reason that we have such a bad system today is that it is intentional. If we had a good system, it would show all the flaws for all of these vaccines that we've been giving people."*

The system is clearly intentionally designed from a technical standpoint to radically decrease the number of cases entered. It takes more than 30 minutes to complete a single report and you can't save it until completed, so if you walk away and get timed-out, you have to start all over.

Kirsch knows a neurologist in California who claims to have 2,000 COVID jab-injured patients (out of a client base of 20,000), but she's only filed two reports to VAERS. She doesn't have time for the rest. So, she's under-reporting by a factor of 1,000. Also, while doctors are required by law to file adverse event reports, there's no enforcement, and no punishment for not filing.

It is also important to note that no one is paid to enter this data. That could be a part time job for most clinicians, were they to responsibly report all the side effects and deaths.

COVID Shots Are Far Deadlier Than the Infection

Overall, his team's calculations suggest we're killing 411 people per million doses (and remember Moderna and Pfizer are both two-dose regimens), worldwide. And that's just the short-term mortality. We still have no concept of how these shots might impact mortality in the longer term.

To put things into further perspective, October 21, 2021, an Italian investigation found that by changing the COVID mortality definition to only include cases where COVID-19 was the primary cause of death and there were no comorbidities decreased the death toll by 97%, from 130,000 to fewer than 4,000.

Kirsch believes the real death tally from COVID-19 in the U.S. may be about 50% of the reported number. This means about 380,000 Americans died from COVID-19 (rather than with COVID), whereas the COVID "vaccine" has killed as many as 300,000. In other words, it's possible that the cure may be worse than the disease.

COVID Shot Is the Deadliest 'Vaccine' Ever Created

It gets even worse though. In Pfizer's children's trial, one of the participants, 12-year-old Maddie De Garay, suffered a number of devastating events, including paralysis. This side effect was misreported, however, and put down as "abdominal pain." Neither the FDA nor the CDC has investigated the case, despite promising to do so. Pfizer has refused to investigate it as well.

> **“These COVID vaccines are over 800 times deadlier than the deadliest vaccine in human history. So, this isn't a close call. These vaccines are the deadliest vaccines ever created by man. And they're promoted as safe and effective. ~ Steve Kirsch”**

In the youth trial, 1 out of 1,131 children was paralyzed. Meanwhile, Pfizer’s adult trial shows that the shot saves one COVID death for every 22,000 fully-vaccinated people. But for children, it’s estimated we need to fully vaccinate over 630,000 kids to save one life. That means we may permanently disable as many as 557 kids per life saved. Meanwhile, there’s not a single report of a healthy child dying from SARS-CoV-2 infection anywhere in the world.

This means the number needed to vaccinate to save one otherwise healthy child from COVID death is actually infinite, as they’re not dying from COVID to begin with. There simply is no doubt that in children, the COVID shot is no benefit and all risk. Kirsch notes:

> *“Dr. Paul Offit was interviewed 20 years ago on ‘CBS 60 Minutes,’ and he said the smallpox vaccine is so dangerous that we would never consider doing that in modern times. It's the most dangerous vaccine ever invented ... and the smallpox vaccines only kills one person per every million-people vaccinated, which is a lot.*
>
> *You vaccinate 300 million people, you're going to kill 300 people. That is unacceptable according to Offit, but he just voted for a vaccine that kills 822 people per million fully vaccinated [assuming a two-dose regimen].*
>
> *That means these COVID vaccines are over 800 times deadlier than the deadliest vaccine in human history. So, this isn't a close call. These vaccines are the deadliest vaccines ever created by man. And they're promoted as safe and effective.”*

COVID Shot Gets Deadlier the Younger You Are

Based on a request from Dr. Peter McCullough, Kirsch also analyzed COVID jab mortality based on age using the VAERS data. For 80-year-olds, he found we kill two people to save one. For 20-year-olds, we kill six to save one.

The younger you are, the greater the risk. The Kostoff analysis[4] found this general pattern as well. Ronald N. Kostoff is a research affiliate in Gainesville, Virginia, who in 2016 wrote an expert review on under-reporting of adverse events in the biomedical literature.[5]

In a review published in October 2021, Kostoff found five elderly are killed by the shots for each elderly person saved, and the ratios get worse as you go down in age. That said, “the vaccines don't make sense for any age group, which is exactly the same thing I found independently,” Kirsch says.

> *“Nobody should get these vaccines. There is no cost-benefit analysis that I have seen that shows it is beneficial ... I mean, you're not going to take an intervention that is just as likely to kill you as to save you.*
>
> *You want to take an intervention which is at least 10 times more likely to save you than to kill you, because it's an optional intervention. What kind of business do you have taking an intervention which has a marginal benefit for a completely unknown short- and long-term risk profile?*
>
> *The other thing I want to say is that, the societal benefit argument, people are saying, ‘You're selfish because you didn't get vaccinated.’ Well, that's irrational.*

Have you ever seen a CDC analysis showing you the societal benefit of being vaccinated? It doesn't exist. And there's a reason it doesn't exist, because the societal benefit would be so tiny that it's ludicrous. Today, we know the vaccinated are as likely to spread the virus as the unvaccinated. So where is the societal benefit?

If there are no downsides [to the shot], then people would say, sure, maybe there's some societal benefit. I'll do that. But here your life is at stake and the data show that roughly 1 in 1,000 will get killed by these vaccines. So, if I say, hey, suppose sacrificing your life could save 100 person years (e.g., 10 people given another 10 years of life).

When I asked this live in a clubhouse room with a few hundred people, nobody raised their hand to volunteer to do that — to sacrifice their life to save 100 person years. And I said, 'OK, what about 1,000 person years? If you could sacrifice your life to save people 1,000 person years, would you do it? Nobody would do that. It's nonsensical.

We have a constitutional right to life ... And I don't think you're being selfish about it. You have a family, you have friends, you have loved ones, you have people you interact with ... Why would I ask you to sacrifice your life? To save people you don't know?

Everybody has their own special way that they contribute to society. Why would we ever ask somebody to [sacrifice their life for a potential social benefit]? Maybe we should ask Joe Biden, 'Joe, if you could give up your life to save 1,000 person-years, would you do that?' It would be very interesting to see what he says."

CDC Performs Statistical Magic, Again

Countering all of this data we have a recent CDC analysis,[6] which concluded that people who get the COVID shot are two-thirds less likely to die of any cause.

"I sent Janet Woodcock my deck of 180 questions. I said, 'Janet, I bet you can't answer any of these 180 questions. Doesn't this concern you?' She sends back an email saying, 'Look at the CDC analysis, showing that after you get the jab, there's this two-thirds drop in mortality.'

My friends and I, when we saw in that paper, we were laughing our heads off over here. The stats on 18- to 44-year-olds [show] 35% die from accidents. The rest die from disease — cancer, heart disease, whatever.

The only way to get a two-thirds reduction [in all-cause mortality] is if nobody dies from anything anymore — any disease — and we also reduce the number of accidents that they have ... This is the immortality drug. All kidding aside, there's no mechanism of action that could possibly justify that people are going to be better off from a health perspective after getting these vaccinations. Zero.

Nothing is improved. You are not immortal. You are just the opposite; your immune system is compromised. You're also more likely to get COVID. In the U.K., the government numbers show that 40-year-olds, after the honeymoon period is over, were more than twice as likely to get infected if they were vaccinated.

In the U.S., you have hospitals where you have a 50% community vaccination rate and the hospital admissions are 90% vaccinated people. You can't make these statistics up.

In fact, the CDC was confronted by these statistics by Aaron Siri, who wrote about it on his substack, and they just ignored them. So, they make up stuff [and] this paper shows the CDC can put out anything and as long as it has that little CDC logo on it, people are going to believe it no matter how ridiculous it is.

And nobody in the medical community criticized it. I wrote a very popular article about it on my substack entitled, 'FDA Discovers Fountain of Youth.'"

Biggest Fraud in History

All things considered, the COVID vaccination campaign is the biggest medical fraud in modern history. As Kirsch says, it's a house of cards, held together by belief in data that aren't there and avoidance of confronting the safety signals in the VAERS system and other studies that don't comport with the narrative.

They even avoided the determination of one of the world's top pathologists (Peter Schirmacher) that at least 30% to 40% of the deaths two weeks post-vaccine were caused by the vaccine. The still claim there are no deaths that have been attributed to the Pfizer or Moderna vaccines. That's ridiculous.

> *"I've never seen anything like this, and I've never heard of anything like this because the conspirators who are telling this false narrative are all the three-letter agencies under the Department of Health and Human Services — the FDA, CDC and NIH.*
>
> *They're all in on it, Congress is all in on it, mainstream media's all in on it, and the medical community is all in on it. They can't afford to back down now because they are in it too deep. It would be too embarrassing to them.*
>
> *We have been saying for months, 'You guys have to look at the VAERS data,' and they have been ignoring and censoring us rather than engaging us with dialogue — and none of these people will engage us in dialogue.*
>
> *We tell the so-called 'fact checkers' where to look and what questions to ask the CDC to verify our stories and they never follow up. The 'fact checkers' all refuse to get on a recorded phone or Zoom call since they don't want to be exposed as being biased.*
>
> *One strategy for changing this is that we're going to run a series of ads. Each of the ads will feature a unique personality, like a Dr. Peter McCullough, a sports figure, doctors, victims and so on. They'll relate their personal anecdotes for what's happened to them. And they will say, 'Look, before you get vaccinated, check the facts. Listen to the other side of the story.'*
>
> *It's a reasonable ask. And we'll direct them where to go to hear the side of the story that the mainstream media aren't allowing them to hear. And then we let them make up their own mind. People aren't hearing the other side of the story, and the White House is helping suppress it. When the White House has a hit list of censorship, it's very clear what is going on. When in history have we done that?*
>
> *Do you ever see McCullough on CNN? No, because they want to give you only one side and they're deliberately giving you only one side of it, and they know it. If they want to give the impression they are balanced, they'll pick someone who isn't an expert and interview them. Robert Malone is never going to be on CNN. Malone invented the mRNA vaccine and yet he doesn't qualify to talk about it on CNN?*
>
> *America used to be a country that embraced a diversity of views, and you had freedom of speech, you had freedom to express your opinion. You had the freedom to tell the truth. No more. That freedom has been taken away.*

more. That freedom has been taken away.

If you don't agree with the mainstream narrative, you're silenced. And so, what we're going to do is run the series of ads, and we'll only be able to run it on alternate media because the mainstream media won't run our ads because the ads encourage people to hear the other side of the issue."

More Information

Again, you can download Kirsch's 177-page PDF, jam-packed with questions and data on the COVID "vaccine." I also urge you to review his "False Narrative Takedown" (TFNT) series, which you can find on his Rumble channel.

You can also peruse his website, skirsch.io, or follow him on his social media accounts, which include Twitter, Gab, Telegram and LinkedIn. To keep on top of his latest investigations, you can subscribe to his Substack channel. If you can afford it, consider signing up for a paid subscription. Select articles can also be found on TrialSiteNews.

"Substack is really important because they don't censor people who tell the truth," Kirsch says. *"So, I really encourage people to support platforms like Substack. I also get a portion of that, and any money I get, I will donate 100% to funding ads and to fighting this. If we can get 100,000 subscribers at $5 a month, that's $500,000 a month we can spend to combat false narrative. That's serious fire power.*

People ask me, why am I doing this? I'm not making any money off of this. I have no conflicts of interest. I have no history as a conspiracy theorist or spreader of misinformation. We've lost all our friends. I was forced out of my job because I wanted to speak out against the vaccines.

I'm losing money on this because I'm funding a lot of the things out of my personal pocketbook. The donors that donated to the early treatment fund, none of them, not a single one, is supporting the effort to get the truth out about how dangerous these vaccines are and how wrong the mandates are.

My motivation is a 100% on saving lives. That's my reward in life. If I can save one life, my life was worth living. If I can save 100 lives, even better. If I can save 100,000 lives, that is more meaningful than anything I've ever done or will do."

#1 Best Seller In Books

"The Truth About COVID-19" exposes the hidden agenda behind the pandemic, showing the countermeasures have nothing to do with public health and everything to do with ushering in a new social and economic system based on totalitarian, technocracy-led control. So, it's not misinformation they fear. It's the truth they want to prevent from spreading. Pick up a copy of this best-selling book today before it's too late.

These articles - they're pushing the truth, but they need to be pushed into MSM - how can we get it pushed into MSM? Joe Rogan is my hero #1... we need more awesomeness like that to speak out!

Yes, Tracy, we need the independent media to spread the truth. Podcast goliath Joe Rogan has accused Google of covering up information about vaccine-related deaths, saying he could only find legitimate articles on the subject when he used other search engines. Speaking to journalist Alex Berenson, who has been attacked by the left-wing media for simply asking questions about the efficacy of COVID vaccines. "And I'm like,' Okay, this is crazy. 'Like, you guys are hiding information. I'm looking for very specific people and very specific cases, and I'm getting CDC websites, and I'm getting articles on the disinformation attached to vaccines, and vaccines being safe and effective, which for the most part they are, just like peanuts are safe and effective for the most part. summit.news/2021/10/19/video-joe-rogan-accuses-google-of-hiding-inform..

Yes, Stan, the donkey is following the carrot that represents the "vaccines" promoted by misinformation. Now the carrot is being promoted to uninformed parents, but we have positive reactions: A coalition of concerned parents, business leaders, teachers and other professionals throughout California have founded The Unity Project in opposition to California Gov. I am a victim of medical apartheid because I refuse to be a victim of forced medication. I did nothing. I am not alone. I have many friends in similar circumstances. Even many innocent children are being victimized. Sometimes I feel like an abused child. I live in a country where I cannot legally go to a restaurant or cafe with my wife lest I am fined - and the cafe owner is also subject to fines and even closure. I have many friends in the arts, but I cannot legally attend their showings or performances. I cannot travel on public transportation. I cannot attend public sports events nor any indoor public celebration. Although I am, at present, allowed to attend church services, even church leaders are required to enforce rules on capacity and behavior, irregardless of religion.

Many of my friends have chosen to submit to round after round of medical abuse and oppression at steadily shrinking intervals, with no end in sight. Some have become so conditioned and confused that they are joining the oppressive forces that reject and oppress perfectly natural and innate behaviors in myself and others like me. Others are beginning to recognize the nonsense and the danger and waking up, saying they will not submit, and will not oppress, even as they unconsciously verbalize support for those who oppress in statements like, "They are only doing their job." There appears to be no escape. Country after country around the world is being victimized, is victimizing their citizens without even a hint of legal process. There appear to be no leaders, as if this oppression has come down from the heavens. But all of the rules are made and enforced by humans.

Gui, while mainstream media still has it's thumb on the scale pushing one size fits all & the many front line caretakers & 'essential' workers have been hesitant to even raise an eyebrow towards the full story or truth, the cracks are growing. Here the general public though often in hushed tones are picking up and sharing the truth, the so called cures are causing the negatives. By so many metrics our Modern World has been on a many decades long death march. The Jab/s are the distraction to fog the reality's of not only the Jab/s but fifty years of ever growing destruction, dis-ease, disabilities, & death, much if not most directed by would be Napolean's, Fraudci & Gates, who most likely backed by Vanguard, Blackrock with no doubt others yet to be discovered.

And,, these methods do not stop at the door of Big Pharma, Legacy Media, all the Too Big's, similar or same methods paper over reality's so many are dealing with just getting through the day have little time to chase down the truth. The most affected most likely rarely see Legacy Media & just get repeated word of mouth official misinformation promoted as the one & only official truth. Yesterdays article about resetting the banking system is just one of many oh no we would never do that, Trust Us, is just one more truth uncovered by Doc.

Thank you for all you do Guillermou! I always look forward to your awesome knowledge and links that you share, and take the time to share with our community. It just amazes me how many people are so brainwashed about the whole covid scam. I saw a video yesterday that proves this whole thing was planned out years ago. The poster had a box that a shot came in that clearly showed the manufacture date of 2017! The box clearly had "covid 19 vaccine" printed on it. It is getting to get to a point where it could go kinetic worldwide. People are waking up to the death and destruction these poison jabs are causing.

Yes, Tracy, even hospitals are losing a large chunk of their medical staff who resign or are fired for refusing the vaccine. These are the nurses who have seen what the vaccine does to patients. Being closely informed, they prefer unemployment to vaccination. They lie that children are in such danger from Covid that they need to be forcibly vaccinated. They lie that unvaccinated people and people who have recovered from Covid and have natural immunity are dangerous to everyone else and should be excluded from school, work, restaurants, sporting events, concerts, public transportation. , travel to other countries, all to be applied for Covid Passports. The passport itself is a crazy idea considering the 8 months of protection that Dr. Fauci assigns to the "vaccine." A passport that must be renewed every 8 months is a bureaucratic nightmare.

We are nodding to tyrannical governments. Demonstrations and riots across Europe against lockdowns and the covid passport. In the last hours there have been significant concentrations in Austria, Denmark or Croatia, while the Netherlands has experienced its second night of riots The worst encounter is an authoritarian government that violates civil and constitutional rights to impose its will, and does not count on the people. Democracy inevitably goes through the phases of demagoguery and dictatorship, since there is almost nonexistent democratic participation where there is only room for the exercise of citizenship in the elections, although these are decided by the media powers of the oligarchies.

Yes, Just, with submission to tyranny, freedoms diminish with each passing day. The masters of the world try to make people feel good and responsible when they do their bidding, and in recent decades they have become increasingly obedient and submissive. The chimera called Covid-19 has fostered and promoted the path of domination over the obedient masses, who contemplate their destiny with resignation, highlighting the criminal spirit of the planet's leaders

We have the right to freedom of expression, the right to protest, the right to challenge government irregularities, the right to self-defense, accountability and transparency in government, privacy, the media, bodily integrity, a government representative of the American people. The American people are being spied on, subjected to all kinds of intrusions, misinformed, hypnotized due to the Covid process and the path to the Great Reset. The media are a large part of this serious problem.

Vanguard, and BlackRock are the primary owners of four of the six largest media companies that control 90 percent of mass messages on television, in newspapers, on social media platforms, and run the major sites. web of "news" and "Covid". find it when you google or go to YouTube for information. These moguls own 1,600 US companies and are the ones who inform the world about the "safety and efficacy" of the bogus "vaccine."

It was a research team lead by Dr. Barney Graham from the Vaccine Research Center at the NIH National Institute of Allergy and Infectious Diseases who created an engineered form of the spike protein that was said to be unable to make the shape change required to effectively bind to cells like ACE2 making the spike protein "safe" for vaccination, however new research is showing that the spike protein ALONE, without the presence of infectious virus, can cause the heart inflammation and also interaction with endothelial cells through a non-infective mechanism involving activation of CD147 receptor signalling... even without any direct infection of the cells themselves!

The CD147 receptor also is involved with the other known main reported negative effects such as blood clotting, involved with cancer and a tumor's malignant progression, invasiveness, and metastasis, and the changes of women's cycle. Its also involved with reduction in the mRNA expression of ACE2 and type I interferons, can make the blood brain barrier leaky, and wreaking havoc in the DNA repair mechanism of cells, suppressing DNA repair among some of the many research papers. We appear to be dealing with a pathogenic spike protein in which delivery is being done through vaccination, and the spike protein (along with the Lipid Nanoparticles which are also highly inflammatory) are what is causing the covid-19 symptoms and subsequent new diagnosed cases of covid-19 according to the research, as well as able to be causing the heart issues, blood clotting etc shortly after being vaccinated. So the spike protein is showing to be PRODUCING all the exact same symptoms of the very illness it is supposed to be protecting the people from, including the cytokine storm. This spike is not just in use in Moderna's COVID-19 vaccine, but also in the COVID-19 vaccines by Johnson & Johnson, Novavax, Pfizer/BioNTech, and CureVac. The S1 spike protein has also been found in CD16+ monocytes even 15 months later to consider

Gui...we can only imagine how high the death toll will go, once ADE/Pathogenic Priming kicks in! The idea that "they" can't reverse their stance now; because it's gone too far, is right on the money! P.S. We're all being "punished" for choosing to take care of our own health. How did we get to this point?

Thanks Big, yes, event 201 happened 10 weeks before the coronavirus pandemic actually started near Anthony Fauci's NIAID-funded high-security virology lab in Wuhan, China. Participants with conflicts of interest, whose agenda was discussed ad nauseam by all the media. It was the first step towards building a false consensus on the possible spread of the disease that began on January 30, 2020 with the decision of the WHO to declare a Public Health Emergency of International Importance (ESPII). The call for an ESPII was a fraudulent decision by the Director General of the WHO, Dr. Tedros because on January 30, 2020 there were 83 positive cases of Covid outside of China for a population of 6.4 billion people.

What can be seen in the link diagram is that the registered Covid positive cases were extremely low. There was absolutely no justification for initiating the shutdown as a means to combat a non-existent "pandemic." Starting on March 11, 2020, after the lockdown, national governments were urged to implement the PCR-RT test on a massive scale, with a view to increasing the number of positive covid cases worldwide. This link does a detailed analysis of a pandemic that does not exist. www.globalresearch.ca/the-covid-19-pandemic-does-not-exist/5760903 (10 November 2021)

Thanks DATA, you always contribute interesting studies. Yes, "the spike protein is PRODUCING the exact same symptoms of the same disease that it is supposed to protect people from, including the cytokine storm." Showing more damage from "vaccines": While normal, healthy people can repair DNA damage caused by low levels of exposure to ionizing radiation, vaccinated people can barely make the repairs. “NHEJ repair and homologous recombination (HR) repair are two major DNA repair pathways that not only continuously monitor and ensure genome integrity but are also vital for adaptive immune cell functions,” the study explains about one such DNA repair component that is negatively impacted by the presence of spike proteins.

Cancer rates will skyrocket among those vaccinated, and when they die, deaths can be attributed to cancer rather than

vaccines. It is highly unlikely that vaccinated people who do not die from cancers will be able to produce viable offspring due to DNA damage in sperm and eggs. We are facing a new generation of young people with cancer and childhood diseases. We are in the degeneration of the human race. www.brighteon.com/fef16093-6fd9-43a1-a5cb-cdecb4c63e64 (Nov 19, 2021) www.mdpi.com/.../htm

Great links, Guillermou! Is it possible that the Catholic Church has invested in the vaccines? They have gone against any "moral decency" they had left and supported vaccination even though it is common knowledge that the vaccines were either tested, or produced, using human cell lines from aborted fetuses... Is there anything else you can think of why the Catholic Church is pushing for vaccination?

Thanks Randy, let's hope that in the end the children are not sacrificed with the genetic weapons when the parents are well informed. Children's Health Defense (CDH) and the Parental Rights Foundation resubmitted a lawsuit on behalf of four parents on Monday challenging the DC Minor Consent Act as unconstitutional. The law contains multiple provisions designed to mislead parents and hide the fact that children have been vaccinated, even against the parents' written religious exemption. childrenshealthdefense.org/defender/chd-parental-rights-foundation-law.. Versatile, I feel so sorry for you. It's nothing like that where I live in the midwest of the USA. So far at least. It seems the momentum is shifting a bit in our favor for now, so I hope things get better for you. Unfortunately, I fear the only thing that will fix what's so badly broken is mass fatalities and crippling, way beyond the levels we've seen so far. "There appear to be no leaders, as if this oppression has come down from the heavens." It does seem that way doesn't it? I've never been religious, but it's impossible to miss how there seems to be an other-worldly, Luciferian force at work. Every institution in Western civilization is so controlled by dark, evil forces that can only destroy all that's good, it's hard to completely explain this phenomenon otherwise.

I am surprised to read this.. as here in Australia the Cairns Bishop was quoted saying tht he “condemns 'ignorant, divisive' parishioners peddling anti-vaccine myth’ Also it is reported that the group of the “ global elite” behind this fraud on humanity and genocide includes the Pope… I read of only One Anglican Priest here who has publicly stated that he will NOT get the shot but only because it contains aborted fetal matter..

There are thousands of Doctors and epidemiologist grouping together, equal number of Law professionals… they say this is nothing but Genocide, and to hold the line and they are prosecuting …here in Australia we have had a “fabulous “ weekend with hundreds of thousands of people joining to say NO to this mandatory non vax and demanding our Freedoms back… at least NO arrests this time around… but the demonstrations in some states are NOT reported on at all… and people still under threat of losing their jobs, especially in Education, Health care where we have virtually thousands in various states, again this number is NOT reported by the media… that are on the side line all DO NOT CONSENT and are disappointed as they want to get back to the job they are passionate about>>

A South Australian senior nurse was on video telling the present reporters why are you not reported the true numbers… the people in ICU are 90% double vaxxed, the healthcare workers opposing this mandatory jab are in the thousands not 100… so the fight goes on. And we must NOT consent, NOT check in every step of where we are going about our life….As we see in this article the number of future sick people must be of real concern to those that were thinking they are doing the right thing… and now… may be one more repeat MD visitor. We do not have a health system but a very healthy "sickness industry" get them sick and keep them managed", starts at birth and continues till the end…. Disgusting that any University degree for Medicine do NOT contain natural health

it is YOUR life and YOUR responsibility to be informed - if something is labelled as a POISON and a danger symbol like a skull and cross bone placed on the label for those that are so illiterate that they cannot comprehend what the word POISON means then these people are vulnerable to allowing themselves to be administered with POISON -

Dr Mercola has indicated umpteen times that these injected VENOMOUS potions also known as MRNA vaccines are poisonous - is the word "POISON" incomprehensible to YOU!! - some people display a DEATH WISH that is SUICIDAL in its application - if Dr Mercola is wrong why are so many dying or being mortally injured - adults should protect and guide their children from the iniquities of life threatening PROPAGANDA - propaganda is a form of UNTRUTH - untruth is another word for LYING - where is the controversy in all this - know you are being LIED to then act as if this has some meaning - only BRAIN DEAD ZOMBIES deny the truth - switch off the TV and rather go for a walk - stop eating the Junk and rather go for a walk - stop believing nonsense and develop your ability to THINK - it is YOUR obligation to save your soul not Pharma's

" These vaccines are the deadliest vaccines ever created by man. And they're promoted as safe and effective" And to add to your recommendations, Stan, how about a large glass of cognitive dissonance for Christmas? Merry Christmas if you live in Gibralter (part of the UK although located in Southern end of the Spanish peninsula). Christmas is banned after a massive rise in Covid-19 "Cases". Depends of course what test was used to determine "cases" and what exactly the population is suffering from. The editors of the article cast doubt about the existence of the condition known as "Covid-19" which they think could be a form of influenza. Warnings were issued previously about high levels of injection with the mRNA “vaccine” in the population without natural immunity development could result in further spread of infection. Cheers!

Unfortunately, the skull & cross bones would be on real food the way things are going . It's already illegal to sell raw / whole milk in may parts of the USA. THINK ??? The populations are already a few steps from the movie Idiocracy. Society is so chemical-ized and drugged up that thinking is a minority these days. There are so many ppl we encounter that say " I'M SAFE, I got the shots". Many ppl think the mRNA is a gift from the gods, another instant cure, a shield. AND it was FREEEEEEEEEE. FREE is good. Watch the Lewinski trials. She made a comment in one. something to the effect "I can believe what is going on in this country (USA)". No different 2day... Lets hope the Mercola of the world can wake up these programmed lemmings looking for the next freebie.

Dramatic testimony about the poison of genetic weapons falsely called "vaccines". Michael, a former Gilroy resident, passed away on November 1, 2021. I have never met a kinder and gentler man than my husband, Michael. Mike insisted that people know what happened to him and caused his untimely and unexpected death. Mike's Message: “Many nurses and non-nursing staff begged my wife and I to tell the public the truth about Covid-19 vaccines because the truth of vaccine deaths was hidden within the medical profession. I promised I would get the message across. So here's my message: I was scared to get the vaccine for fear of dying. At the insistence of my doctor, I gave in to the pressure to get vaccinated. On August 17, I received the Moderna vaccine and began to feel ill three days later.

I never recovered, but I kept getting worse. I developed multi-system inflammation and multi-system failure that medical professionals were unable to stop. My muscles disappeared as if to disintegrate. I was in the ICU for several weeks and I was stabbed with needles up to 24 times a day during those weeks, while receiving 6 or 7 IVs at the same time (continuously). It was a constant torture that I cannot describe. They no longer treated me like a human being with feelings and a life. I was nothing more than a human guinea pig from the covid vaccine and the doctors were excited to participate in my fascinating progression to death. If you want to know more, ask my wife. I wish I had never been vaccinated. If you are not vaccinated, do not do it unless you are ready to suffer and die. www.legacy.com/obituaries/name/michael-granata-obituary?pid=200579350&..

Hi Stanley, I truly share your frustrations. Perhaps the reason people are so susceptible to propaganda is that unlike a simple lie, propaganda is so bold that it totally shuts down the normal "BS" detectors. It is so grand and so preposterous that it must be true... but it is always the opposite of the truth. That has made it the weapon of choice for all dictatorships throughout history. It is going to take a lot to recover from this assault by the spoiled, narcissistic, elite 'ruling class', but I think one key ingredient will involve some serious deprogramming. The people around me are no longer just sheep, rather they are full fledged card carrying members of the covidian death cult. Fear has reduced their brain function to that of a reptile and thus they can no longer respond to logic or reason, thus arguments and debates are useless. Worse, they have lost the ability to access their higher emotions and spiritual centers, so they are perfectly OK seeing their fellow humans put into boxcars and taken away to concentration camps. Things are getting real bad real fast.

Stanley - they do not know any better, can only refer to the directives coming down to them. So sad when more than a handful of world-class epidemiologists may be willing to help these countries climb out. Giant gulf between govt-sponsored health care and the top researchers, critical information CANNOT filter down. Blocked by the WHO along w other lockstep participants.

Singing the blues this morning? Thanks for the links Stanley. Repeat of sentences from RFK Jr's new book - "Lamentably, Dr. Fauci's failures to achieve public health goals during the COVID pandemic are not anomalous errors, but consistent with a recurrent pattern of sacrificing public health and safety on the altar of pharmaceutical profits and self-interest. He consistently prioritized pharmaceutical industry profits over public health." Add'l - However Japan was able to denounce the Pharma bullying, by returning contaminated vials (entire shipments) to Moderna, going back to ivermectin they reportedly knocked out the virus in about 3 months, yes? So its got to be in the govt. contracts with Pharma that they cannot pull out - unless several more smart researchers put the vial contents under microscopes and confirm hairs and other contaminants that Dr. Richard Fleming has been talking about, and starts shipping these back to the manufacturer.

rose, the use of asymptomatic CASES in Germany and Holland and Austria based on a derisory test that has been universally discredited is depressing - the variants that have been decisively shown to be a result of the spike protein being administered by the vaccination as a disease vector is being ignored by Pharma bribery and corruption - the politicians are all ON THE TAKE - this is how I intepret the oppression of Germany/ Austria/ Netherlands - as to the Japs fighting back - Hiroshima is still visible so that the Japs have a lower credulity factor - glad you enjoyed the music

robb - I read Franz Fanon the French black psychiatrist's book "Black skins, White masks" about 55 years ago - what struck me then was that Fanon disputed the fact that Marco Polo discovered China - this was my first realization of White Man's History - nothing you have said is surprising in that context - history is constantly revised - the key is human ignorance which accepts absurd premises that history is written by the victors and is the consciousness of White Men - everything you have said is a consequence of White Man's History

Never try to tell the deluded, religious or addicted that their delusions suck. Wisdom and discernment are as variable as the colours, shapes and I.Q.'s of the zombies. The vaxxed horses are already out of the barn... and it's OK. The lockdown [isolation] of the prepared unvaxxed remnants and the "returned privileges" for the vaxxed [shedding] oblivious wanting to attend large crowds, venues, and airports "to be able to travel" and take their "boosters" are well within in the rancher's plans... and maintaining a low profile while the globalist's eugenical weapons work their magic has also been "our" plan. Hello, darkness, my old friend I've come to talk with you again Because a vision softly creeping Left its seeds while I was sleeping And the vision that was planted in my brain Still remains Within the sound of silence In restless dreams I walked alone Narrow streets of cobblestone 'Neath the halo of a streetlamp I turned my collar to the cold and damp When my eyes were stabbed by the flash of a neon light That split the night And touched the sound of silence And in the naked light I saw Ten thousand people, maybe more People talking without speaking People hearing without listening People writing songs that voices never share No one dared Disturb the sound of silence.... "Fools," said I, You do not know Silence like a cancer grows Hear my words that I might teach you Take my arms that I might reach you. But my words like silent raindrops fell... And echoed in the wells... of silence www.youtube.com/watch

Great comments everybody; but I am thinking that the time is over for stats, it's time for action. US$500,000 is not going to get us very far, though of course, it helps. Can we find a famous person/celebrity who will testify to damage? If so, if we can persuade them in the interests of humanity to put up a video on whatever channel or even Instagram, we can raise awareness even if the content is taken down within the hour. Why? Because, even when, and especially, when their content is taken down, the message goes viral. We have all educated ourselves, and my husband, bless him, is trusting me on this and has not been jabbed. All the rest of our family have, on both sides. (I have a bit of a reputation as an animal healer.)

We have a duty to humanity to get this message out there, and even more important, as GUI, I think also pointed out - to pray and raise our vibrations for the highest good. This will be the highest calling of our lives. Mike Adams reckons this is going to go on for 7 years. I mentioned in an earlier post the Mayan and North American Indian prophecies, to say nothing of the Indians, all tell of a golden age after deep trouble. Well, the time is nigh. We are looking at World War, but on two fronts, China/Russia/America Axis and COVID. We must hold the trust and faith that we can come out the other side, better, stronger and healthier. Do not let the lights go out all over the world. Namaste

Yes, pipblanc, it is a good strategy that celebrities could help shed light on the real damage that these poisonous hits are causing. Celebrities have greater contact with the media and television. This is a good field of action to convince people of the serious risks they face with the Covid vaccine. Of course, the brainwashing that is taking place with the misinformation of covid vaccines, and the defamation of scientists and doctors who transmit the true science of health, like Dr. Mercola, is the motive and the needs of the fight in all. possible fronts.

The diabolical history of vaccines is manifesting itself every day, it is necessary for the independent media to manifest it. Bob Sisson, popularly known as Bob The Plumber, and his guest Marien Barrientos spoke about the increasing number of celebrities who are hospitalized or die from vaccines against the Wuhan coronavirus (COVID-19) during the episode of the 11 of September. November the first. Brighteon.TV program "CLO2TV". www.brighteon.com/a70919b9-b9c9-4d9f-a057-63a6db238bf2 We are facing real damages against people who are suffering and will suffer the serious consequences of the Spike protein, with loss of immunity, hyperinflammation and DNA damage. The Testimonials Project was created to provide a platform for all those who were affected after receiving the covid-19 vaccines, and to ensure that their voices are heard as they are not heard in the Israeli media. www.vaxtestimonies.org/en

Pipblanc, you are right, to have celebrities speaking out is important and wise strategy. Thank you for that and for emphasizing to focus on the light and stay light, ourselves."These are the times that try men's souls" (and womens', and childrens'...) Daily soul nourishment is key! Yes there is food for the body, and there is food for the soul! we must have daily soul food! Also I think it is time to protest right at the doorsteps of BigPharma's own buildings, with cell phone camera footage posted to Bitchute. Bring backup digital video cameras in case cell phones have tech problems.

Please also see what I posted today about lawyers having broken through so called "legal" immunity. And consider that Monsanto was "legally" immune when DeWayne Lee Johnson sued. Look at the result! Dominos falling. We can do the same for BigPharma and their f'ing mandates for taking a genetic modification injection *Dubbed* vaccine, which actually kills and medically maims. Break through the abused "immunity", sue BigPharma! An idea whose time has come ? I know many genuinely discouraged people on this forum, and some who may even be masquerading health advocates paid to come up against such things, might strenuously object....the latter group really just don't want to see this happen, do they?

I don't know about a golden age but "night of the red sky prophecies" comes to mind. Four prophecies given to chief stalking wolf as told by a man named Tom. Can be googled. I hope there is a golden age and I hope all of our collective works will be rewarded in the form of peace and freedom.

Agreed, Pip. Agreed! It's time for love and light ... we can't let them quash our creativity, our imagination, our unity! They can try and control us and implement all they want, but we're not going to take it. We have to find the strength to keep pushing this tsunami back out to sea.

Hi pipblanc, I appreciate the call to action. I'd love to see celebrities at it but for me, the more exciting revolution is when we dare to raise our own voices in the communities we inhabit. Rather than outsourcing to professional voices. As Peter Block has said, neighborhood is the new wilderness. The real life connections we have with people around us, approached with our own unique voice and our own listening ears, that's what changes people. I think it's what changes us! Data not so much. Analysis is interesting but not inherently transformative. Deep connection helps move us toward participation. (I"m hosting an experiential call in this area this Thursday at 11am Eastern. www.eventbrite.co.uk/e/sowing-seeds-of-the-future-tickets-210530371007 . Feel free to take a chance and come along.) Musicians ARE speaking - singing out - (i.e. Eric Clapton, Van Morrison, Blind Joe), but we need MORE! Music and musicians have ALWAYS been a stone in the "establishments" shoe! Woodie Guthrie (an Arlo of course - "Alice's Restaurant Massacree in three part harmony), Pete Seeger, John Lennon, Curt Cobain.... on and on.... - IF you are a musician, get off your butt, grab your axe, turn your amp up to 11+, or beat your drum set like ANIMAL! Thrash, bash, SCREAM, or do an acoustic ballad (it has to have teeth) I don't care if its rap, hip-hop, Indie, GRUNGE (yes GRUNGE and punk are STILL alive!) country, metal, death metal, pop, YODELING! --- Do IT!!!! Yeah, I know, Spotify and sh*t don't pay jack, but this isn't about money. Right now, I'm writing a song called 'Bull Shot" (I'm ASCAP/NARAS). But - don't do a video and upload to SkrewTube - they will just blot it out....like they did to Blind Joe ("I Will Not Comply" - You can see Joe and listen on Bit Chute). So If you are an artist of any sort, (In any medium)what are YOU doing to spread the word. To me its all "BULL SHOT! " Peace

When people of a country are getting bullied and treated badly and threatened by their government the United Nations sent in their troops in places like Afghanistan when the Taliban started that, isnt it time the UN interviened in what is happening in Australia for a start? Then in the rest of the countries that are being threatened - of course not! - Its all a farce The UN is part of the problem as are the CDC NIH GAVI etc. The Who is funded by Bill Gates. The MS Media is paid / bribed with millions by Bill Gates. The journalists educational training is funded by Bill Gates. Bill Gates has heavily invested in all Big Pharmas. Bill Gates owns most of the farmland in the US now. Bill Gates is involved with so called meatless plant based products like Beyond and Impossible foods but most dont say suitable for vegetarians or vegans, strange that. Bill Gates millions and billions are everywhere and during this Plandemic he grew richer as did 7 other billionaires. Rest assured they are not vaccinated nor threatened in any way to take it. They are above the law, nothing will touch them. They are the investors in Blackrock and Vanguard. They own everything. Its a true saying the rich get richer, and the poor are expected to do the bidding of the 1% elites. It time for the sheeple to wake up and all stand together regardless of colour religion culture or anything else that divides people.

Pipblanc, my suggestions for personalities speaking out: Novak Jokovic and Vandana Shiva. But they would need to appear on mainstream media to wake up the sheople and that would never be allowed, as Gates has already bought off e.g. the BBC and ITV and no doubt dozens of others. I am beginning to think that the globalist conspirators are right about one thing at least. After a day out in town today, just listening and observing, I saw droves of masked up, compliant herds interested only in shopping, eating grossly unhealthy overpriced “food”, buying tat and dross at early Christmas markets or indulging in misplaced fun fairs erected by our local council all along one of the most beautiful main streets in the world, interminable conversations about second shots, as if these were some kind of badge of honour. etc. Cannot help feeling the war is lost already, although your idea is a good one, how would it be put into practice? To influence mainstream media followers successfully, you must use mainstream media. Just asking.

There is a reason you never here anything about alternative or natural treatments for Covid on news networks. The drug companies advertising budget for TV stations is in the billions. Every station has dozens of commercials selling their drugs 24/7. Would any news anchor or reporter say anything positive about say Ivermectin or have stories from real people about side effects and deaths? Most stories show pictures of horse paste not the one used for humans. Even if they wanted to they could not risk losing the advertising revenue. Are there any disclaimers about the vaccines possible side effects from local health organizations like there are for drugs they advertise www.lewrockwell.com/2021/10/no_author/big-pharma-owns-the-world/

Thanks fvtomasch, a great article. Yes, BigPharma equals high-level corruption. A researcher named Albert Benavides conducted an analysis of data on the Vaccine Adverse Event Reporting System (VAERS), which is maintained by the CDC and the FDA. What he found is that there are hundreds of serious adverse events associated with the Wuhan coronavirus vaccines that these two federal agencies hide from the public. As Dr. Mercola reports, COVID “vaccines” are the most dangerous vaccines in human history. The "vaccines" against the Chinese virus are 800 times more deadly than the smallpox vaccine, which held the previous record. Fauci Flu's blows have already killed thousands of Americans and permanently disabled many more. It is a great truth; WE KILL 15 PEOPLE TO MAYBE SAVE 1. ARE WE NUTS?

We have minimal TV advertising for Big Pharma drugs in Australia, yet our media is also silent on the truth. Seems the networks are receiving money just to stay silent and/or debunk the truth.

What's crazy is that, being required to advertize the so called "Side effects", people think nothing of that, but natural medicine is called "quackery". Those who respond in such a way, are fooling nobody but themselves. There needs to be mass education about the chemistry, pharmacology and double blind studies in natural medicine. If people knew this, things would change. And people just don't know. And that is also why BigPharma has infiltrated and finally, masterminded medical schools. Why can't natural medicine break in there too? It's about beyond high time.

Well, good for Dr. Kirsch for having a "light bulb" moment. Hopefully more doctors wake up and see what is happening. In my opinion, any doctor who thought we could make a coronavirus vaccine in 6 months that would be safe and effective and they didn't investigate the clinical trial data should lose their license. They have been trying to make a coronavirus vaccine since the 1950's. Not one single vaccine got FDA approval. They have been trying to make an mRNA Coronavirus vaccine for at least the past 7 years for MERS and SARS and not one single one got FDA approval. All failed due to major side effects and even ADE (antibody-dependent enhancement). Any medical professional who isn't aware of these FACTS and think that we somehow MAGICALLY overcame all of the challenges of making a coronavirus vaccine should be FIRED!

READ this excerpt from DW news in Germany today: NOTE only to those who are either vaccinated or have recovered from COVID." What is the current COVID situation in Germany? In the past two weeks, the number of new cases has jumped by more than 60%. On Friday, Germany recorded 52,970 daily new infections, a day after registering over 65,000 daily cases, a record since the start of the pandemic. Health officials are warning that the number is likely to at least double in the coming days.

Uwe Janssens, secretary-general of the German Society for Internal Intensive Care, told DW the numbers were "absolutely worrying." He pointed out that patients who suffer severe disease after getting infected with the virus end up in the intensive care unit much later, "with a delay of up to 15 days."

"Currently, around 0.8% of infected people will have to be treated further in an intensive care unit during the course of an infection," he said. And if there are 50,000-60,000 new infections a day, "you can count how many people will reach the intensive care units in 7 to 10 to 12 days." The situation is becoming "too much to handle," he stressed. What are the new rules? As per the new rules, the so-called hospitalization incidence will be the new benchmark for introducing tougher COVID regulations in the country. According to that metric, if more than three inhabitants per 100,000 in a region are hospitalized with COVID, the "2G" rule will apply for all public leisure activities in a given state — referring to the shorthand in Germany for a rule that allows freedoms like access to restaurants and hotels only to those who are either vaccinated or have recovered from COVID.

The "2G+" rule will kick in when the hospitalization incidence hits a value of six per 100,000, meaning even the vaccinated and recovered people will be required to produce an additional negative COVID test result. From a value of nine, further measures such as contact restrictions are to be implemented.

APPARENTLY Germany recognizes natural immunity in the COVID recovered, in this sentence: "only to those who are either vaccinated or have recovered from COVID." WHEREAS in the US these bozos are so backwards, they cannot imagine the COVID recovered have ever increasing antibodies for quite some time, way better protected than those that took the shot, with ever declining antibodies over just 6 months. Maybe some critical thinking left in the world?

Great interview- however Kennedy misses the mark inexplicably as he cites the previous fraudulent and wholly manufactured "pandemics" and in the next breathe says, "I'm not saying Covid is fake, it isn't." He follows that up with the discussion on AIDS and speaks to that fake "pandemic" as the template for what is happening with Covid. So I'm not sure how he can believe that Covid is an authentic medical emergency when he knows very well the playbook for what these ghouls have done through the years. The Pharma/Medical cartel again killed tens of thousands (more actually) by using mandated protocols that destroyed their bodies and then this destruction was named "Covid" and that's how they got their body count to manufacture the hysteria and "legitimize" the need for these toxic mRNA injections. How does Kennedy overlook this?

Unbelievably, those protesting against vaccine passports in Germany are being called 'Nxzxs' and 'the extreme right'. How on earth does that work? There are calls for protests to be outlawed and many on social media seem to be very happy for protesters to be denied medical care and access to society. Most people I meet seem to have been well and truly brainwashed – even in the face of compelling evidence that Pfizer has manipulated the trial data, they simply do not want to know.

Such name calling is bullying and a form of violence. People should be told, right on the spot, to be ashamed of themselves. IT also should be pointed out to them that they are basically being recruited to join a gang...to gang up against the unvaccinated...who may be doing nothing more than protecting themselves from side effects! For the rest, I would suggest taking out the educational "pen". Just keep posting articles to blogs and educate, educate and edcuate some more. And wherever there is censorship, find ways to break through. Are there non-censoring blogs in Germany? What about emails? (That can lose friendships, I know). I think the thing to do is to contact those of outreach and influence. Think of retired doctors, retired lawyers, the grassroots et al. WHere there is a will there is a way! Sch**ss HITLER! Sch**ss FAUCI!

The old saying "fool me once, your fault, fool me twice, my fault" has never exposed corruption & lack of personal responsibility more than in the last 2 years. This has been occurring for millennia, for which, is greatly accelerated with increases in government/NGO/corporate overreach/control, & even more so, with invasive technology. What we are witnessing during this "pandemic" is the exposure of existing problematic psychological afflictions & the development & increased pervasiveness of these phobias, syndromes & disorders. Most of today's positions of power/experts/authoritarians are nihilistic, satanic psychopaths. The complicit general public have one or more concurrently:

1) Psychosis - difficulty is determining what is real & what is not. 2) Agoraphobia - mental/behavioral fear that one's environment is unsafe & difficult to escape. 3) Hypochondria - lack of knowledge/excessive fear about having a serious illness & always seeking testing/"magic pill/shots". 4) Stockholm Syndrome - a condition when the governed/captive/oppressed bond/join with one's rulers/captors/oppressors. 5) Munchausen Syndrome - feigning illness to attract attention. 6) Factitious Disorder - intentionally fake/exaggerate symptoms of illness. 7) Somatic Symptom Disorder - preoccupation with physical symptoms (everything now is covid).

8) Delirium Disorder - an acute confused state characterized by disturbances in attention, awareness & cognition. 9) Anti-social Personality Disorder - disregard for social norms & rights of others. 10) Dependent Personality Disorder - fear based excessive need to be taken care of. 11) Paranoid Personality Disorder - a distrust of others, especially, of those closest to them/best intentioned. 12) Schizotypal Personality Disorder - experiencing/acting out of odd beliefs & "magical thinking". 13) Schizophrenia - chronic irrational thoughts/feelings/behaviors. 14) Obsessive Compulsive Disorder - persistent thoughts/impulses & compulsive excessive behaviors.

Furthermore, when one looks deeper at the list above of the psychological afflictions, one will then be able to recognize that all of these "afflictions" are constructs of the circuitous entrapment depravity system we live in, of the diabolical system created by the very same destructive forces that have created the alleged "pandemic". This has occurred over great expanses of time in all aspects of life, & being generational, it remains veiled & unrecognizable for what it really is, but, yet, is operational, directly in plain view. With the re-discovery of the Self & higher levels of consciousness, all of these conditions, afflictions & subsequent problems are resolved as a condition of universal truth & greater awareness. The recognition of the constructs of the ego & subsequent dissolving of the ego-mind, as well as, the letting go of positionalities, brings forth truth, energy, creativity, integrity, virtue, freedom, liberty, love & peace.

If I knew people that died after taking the jab you can rest assured I wouldn't be asking anyone if I should take the jab, I would NOT be taking it. I'm not taking it anyways knowing the truth about it but if I didn't know what I know now but did know people that died from it I wouldn't need to ask anyone to know I shouldn't take the jab!!

No one had to tell me to not take the jab as I have not trusted the allopathic medicare world since the 1990s anyways. Plus the fact that i know someone who got a blood clot after he took the jab; and i know someone who died most likely from getting the jab.

This is precisely what a bioweapon is supposed to do. The ancestors of our new Chinese rulers killed Europeans by catapulting plague corpses into besieged cities. British blankets contamined with smallpox killed Indians during the French and Indian wars. Germans and perhaps the French as well used glanders, anthrax and mustard gas on their enemies in World War I. Zyklon B killed Jews for Hitler and all kinds of poisons and weapons were used by the Japanese. The Obammunist bete noire before their present one, George W. Bush, was right about Iraqi nerve gas even though the United Nations covered up for them. The ineffective jab is intended to kill westerners, especially Americans and in particular European-Americans, so that the collapse engendered by the plandemic can be continued, a marxist dictatorship imposed by the Great Reset and a homogeneous brown Third World population implanted by the Great Replacement (Coudenhove-Kalergi Plan) to transform the United States of America into the Peoples Republic of Amafrica.

There is nothing even remotely Marxist about the Neoliberal, 'Great Reset', and it is dis-informative to state such. As to a "Peoples Republic", we have travelled so far down the vile, authoritarian path of Neoliberalism that only a mass, people's revolution can save us. A mandatory 'vaccine passport' is the beginning of the end.

Robert Kennedy Jr's words' " this is the Hill to die on", has completely stuck in my head ever since reading those words. I cannot agree more. The threat of vaccinating healthy children is almost too much for me to comprehend. In this article, it is clearly stated that no healthy child has died from the engineered virus, but they are being damaged for life from this fake profit center vaccine. How can any parent or grandparent consider this as safe protocol by our medical community. Where are these Drs hiding? Why are these Drs hiding? Is the whole medical community bought and paid for except for the few outspoken ones like Dr.M who actually have ethical backbones? To all the criminal politicians and criminal government agency heads like Falci and Collins: This Hill Will be Defended! To all the parents and grandparents sitting idly , hoping someone else will do something; Get up and speak you mind; quit be silent!

Hi chiaromc, Here's a link to a new James Corbett report with an RFK Jr interview you may want to listen to re questionable pediatricians and Agencies as profit centers: seems American tax money is insufficient for captured agencies, their greed goes

to the highest levels. Add in corporate greed from these public/private partnerships, it knows no limits! THE CORBETT REPORT - THE REAL ANTHONY FAUCI WITH ROBERT F. KENNEDY, JR. -www.bitchute.com/.../mwOBO4QbKOzQ - see what you think. Again, each interview covers different aspects of his new book.

it's good to see that somebody who's been brainwashed for more than 30 years CAN once in a while snap out of it. He's half way there. He still wants to give a dangerous jab to kids who are thought to have a high risk of covid. Why doesn't he see that those kids should be getting supplements?

Re: My motivation is a 100% on saving lives. Me too: Covid Crusher: Mix one heaped teaspoon of Iodine table or sea salt in a mug of warm clean water, cup a hand and sniff or snort the entire mugful up your nose, spitting out anything which comes down into your mouth. If sore, then you have a virus, so continue morning noon and night, or more often if you want, until the soreness goes away (2-3 minutes) then blow out your nose and flush away, washing your hands afterwards, until when you do this simple cure, you don't have any soreness at all, when you flush - job done. Also swallow a couple of mouthfuls of salt water and if you have burning in your lungs, salt killing virus and pneumonia there too. This simple salt water cure, kills all Coronaviruses and viruses, as soon as you think you have an infection, or while self isolating, before the viruses mutate into the disease in your head and body, for which there is no cure. Could the vaccine, which I presume is the Moderna mRNA type, be interacting with another infection that is also active? The ages mentioned are also the age at which Epstein Barr Virus infection is significant. EBV may be active but sub clinical without the symptoms of infectious mononucleosis/glandular fever. Also EBV does not ever leave the body, instead remains in a latent state and can be reactivated, again sub clinically. 50% of 5 year olds are already infected and 90%+ of all adults. Reactivation appears to depend on the presence of different cytokines, has anyone examined the possible effects on cytokine production by any of the vaccines? They appear to have concentrated on the production of antibodies, but that requires the production of various cytokines to happen. There appears to be a fine dynamic equilibrium between the different types.

Yes, john.collis, most likely. All the toxins that accumulate in the body are vehicles to promote inflammation and weaken immunity. Especially electromagnetic fields and mRNA "vaccines" damage DNA and are potentially disease and cancer promoters. The rigorous vaccination schedule that children have undergone in recent years is also considered in this cancer pandemic. And now especially genetics are increasing cancer by more than 20%.

Sadly, pediatric cancer diagnoses are on the rise, with approximately 15,300 children being diagnosed with some form of cancer each year. One in eight of these children will not survive. 60 percent of survivors will experience problems related to treatment, such as infertility, heart failure, and secondary cancers. And despite medical advances, the actual number of children diagnosed with cancer each year continues to rise. Even the FDA admits that there is a clear possibility that certain vaccines can cause cancer. www.fda.gov/vaccines-blood-biologics/biologics-research-projects/inves.. .------ www.naturalhealth365.com/pediatric-cancer-vaccines-2760.html .----- curesearch.org/childhood-cancer-statistics

John.Collins the more time goes on and the more I read about natural health, the more I come to believe that medicine is *always* interactive. I am not a doctor, but this is what I have put together. And also people are right in pointing out that 5G rolled out synchronistically with COVID. A scientist showed me a study of 70+ year old women who had normal and healthy blood, but which clotted after 5G exposure. So what gives? Frankly I have a hard time believing that a virus causes the blood to clump, but Succharidt Bhakdi did explain (and it made a lot of sense) that where the spike protein cuts into vessels, then the blood clumps to that area to form the equivalent of (he did not call it this) a scab which splints the area. He said this in connection to the post-vaccine symptoms, not the virus itself.

John, what I read was because these shots suppress the immune system, prior viral infections that were under control by the acquired immune system can resurface, the formal name is viral reactivation - so shingles, herpes, and others including cancers (some may belong under autoimmune conditions) can reappear. Also people can find their autoimmune conditions are stimulated, and can flare up after years of being arrested or under control. This was most likely why anyone with an autoimmune condition was not allowed in any of the Phase 1 or 2 trials, yet somehow pushed or forced into getting these clot/kill shots. Yet the CDC is well aware that at least 50 million Americans fall under the autoimmune category, add in cancers you may be up to 80 million!! You will never hear this info crossing the lips of Teflon Tony either. What's not to like about "safe and effective" - at what? Marketing Lies and Selling more shots.

I don't think Fauci dares to debate with anyone, because his only arguments are lies. The Sen. Rand Paul would be a good option to discredit Fauci. Sen. Rand Paul took to the podium on Capitol Hill to criticize the media and Dr. Anthony Fauci for spreading mistruths about COVID, and for their role in causing unnecessary deaths by politicizing the science around COVID vaccines and treatments. “We’ve got Dr. Fauci spreading mistruths across the country, saying we’ve got to forcibly vaccinate the kids,” Paul said. "There’s no science behind any of that." childrenshealthdefense.org/defender/rand-paul-fauci-mistruths-covid-de.. (10/13/21)

You can get the vaccine to get the passport but disable its harmful effects as below. Copy and share it to everyone. Underground Students at Stanford University devised 4 ways to disable FORCED/UNWANTED vaccinations. 1) D.I.Y Low voltage method. Use 2 wet sponges attached to a 6 volt battery for at least 30 to 60 mins with injection site between the wet sponges. Do it immediately after injection as soon as possible. See how to make this with pictures in 5 minutes at:- https://groups.io/g/germkiller 2) Use medium volt method by using a tens device/muscle massager on continuous pulses at injection site for at at least 30 to 60 minutes. See video. https://www.youtube.com/watch?v=7Sd1HOw_-SE&t=?v=C1nOR8RWVVA

3) Use a higher voltage method. Use a mosquito bite zapper at injection site immediately for at least 3 minutes Apply immediately to injection site and apply at least 3 dozen clicks. See video:- www.youtube.com/watch This last method is loosely based on this method per this website which discusses insect and snake bites and neutralizing toxins. http://venomshock.wikidot.com/ It is theorized that electric current causes micro electrolysis in the body fluids and free radical/ions can combine with the vaccine and reduce it's potential to cause harm. It is theorized that high voltages denatures the spike proteins in the vaccine. You can buy the butterfly tens device/massager and mosquito insect zapper on Amazon/Ebay for around $5. Use out of sight of the MEDICAL MAFIA so you can get your vaccine passport. USE ANY OR ALL AT YOUR OWN RISK. THIS POST IS FOR INFORMATION ONLY. USE YOUR BRAIN.

MSM is still saying five in a million die from the shot. As if any death is acceptable - MSM is also saying two million would have died if the shots didn't come out. Lovely, eh? With that kind of brainwashing... Even though we are seeing lots of strokes and paralysis here, the athletes dying around the world should knock folks on their behinds. I worry now that my son is doing intense labor and has had both shots. My non-vaccinated son, 2 shots of this experiment on humanity. Ugh.

Yes, Tracy, we have that young and healthy athletes around the world are suddenly beginning to suffer from heart conditions, breathing difficulties, nervous system disorders, among other serious chronic diseases. Some athletes are collapsing on the field of play, never to wake up again. German newspaper Berliner Zeitung has published a report seeking to answer why an "unusually large number of professional and amateur soccer players have collapsed recently." Headlined 'Puzzling heart diseases in football,' the report begins by highlighting the case of FC Barcelona's Sergio Agüero, the 33-year-old striker who recently had to be withdrawn from a match after 41 minutes suffering from dizziness and breathing difficulties. The article lists a large number of recent cases of footballers who have had heart problems or collapsed on the field, in some cases leading to death.That list is republished here: www.blacklistednews.com/article/81156/german-newspaper-highlights-unus..

Lovestosing, people need to have it pointed out that MSM is Microsoft's entity. Which is Bill Gates's entity! They need to put 2+2 together! The power of conflict of interest knows no bottom. Further, they need to be shown the VAERS database, then see the CDCs own statement that only 1% of side effects and deaths are reported in, and conservatively speaking the FDA says it's 1-10%. Fine, give them that too. Then let them put 2+2 together and tell them it is a matter of utmost urgency and utmost responsibility to THINK. If we don't, in this situation we are truly doomed. And tell them that too. It's time for the people to WAKE UP!

Yes, CMT, media outlets like CNN, and Big Tech have sought to control the COVID narrative from the beginning. This has led to unaware that volumes of contrary information about COVID, including valuable information on available therapies such as ivermectin and HCQ, have been suppressed and turn to the poisonous "vaccines" whose effectiveness Fauci knew. Dr. Mercola and Robert F. Kennedy, Jr., are among the group who have exposed the true science. There are many, many others: physicians, virologists, epidemiologists, biologists, pathologists, et al. who have opposed the CDC and WHO narratives from the beginning.

They are all routinely banned from social media, their columns suppressed, their videos disappeared in the never-never land of the internet. The entire left-wing media mocks them and intends to permanently discredit them, all of them. The people who run this country, including the social media barons and their media cohorts, many of them committed by the CCP, are deciding for themselves what information we can see and read. "If liberty means anything at all, it means the right to tell people what they do not want to hear." - George Orwell www.americanthinker.com/blog/2021/08/vaccines_what_if_all_the_silenced..

Stan, are we talking about the same "American Thinker" article linked by Gui? Here is one paragraph from the article in which Dr. Mercola is mentioned. "There are those the administration has called the "dirty dozen," who, they say, are guilty of misinformation and so must be silenced, but there are many others who have been writing, have given interviews, and have posted videos in their attempts to apprise the citizenry of the facts they've been denied via the mainstream media. Robert F. Kennedy, Jr., a longtime anti-vaxxer, is among that group, as is Joseph Mercola, who has for years had a massive following."

I have read true law case stories about clever lawyers who broke through the so-called "legal" immunity of certain entities. They filed in court, "it is not their distinct function to..." and the "legal" immunity was knocked down! There has got to be a way---and even multiples of ways----to knock down BigPharma's so-called "legal" immunity, which is nothing more than a gag order saying "Don't speak, don't sue, don't complain". OH YEAH???? www.bitchute.com/.../G4clrGsuKW4e With deaths, side effects like heart inflammation and acutely suffering humans being swept under the rug, I say it is beyond high time to sue BigPharma. And sue the doctors who push these deadly "vaccines". Sue the phlebotomist, or anybody else administering the "vaccine".

It's time for people to be held accountable, from the top to the bottom of the chain of command. And a "command" it really is. And this is against Nuremberg code law, informed consent, against the 14th amendment, the President has NO unilateral dictatorial power to demand and command that we all "Submit or else!".....and so much more. Virtual gunpointing and threats to livelihood, house, home and food affordability are violent crimes against people, as is demanding acceptance of a vaccine (virtual gunpointing once again)...at all...let alone when it harms and kills so many people, according to VAERSs own statistics!

BigPharma knows that animals died from over-immune activity directly related to their "vaccines" ! vaxinsider.com/the-covid-vaccines---part-2 Violent crime is afoot, masquerading as savior. Consider this too. Two decades ago the ACLU wrote about cloned human GMO babies and how their patented genes were owned by the government. Did it ever occur to the "vaxxed" that their genetically modified immune system could now become government property? WAKE UP!

Yes, Mirandola, we need the lawsuits against the "vaccines" to be attributable, because the damages of the "vaccines" will be terrible and it needs to be avoided. While normal, healthy people can repair DNA damage caused by low levels of exposure to ionizing radiation, vaccinated people can barely make the repairs. “NHEJ repair and homologous recombination (HR) repair are two major DNA repair pathways that not only continuously monitor and ensure genome integrity but are also vital for adaptive immune cell functions,” the study explains about one such DNA repair component that is negatively impacted by the presence of spike proteins.

Cancer rates will skyrocket among those vaccinated, and when they die, deaths can be attributed to cancer rather than vaccines. It is highly unlikely that vaccinated people who do not die from cancers will be able to produce viable offspring due to DNA damage in sperm and eggs. We are facing a new generation of young people with cancer and childhood diseases. We are in the degeneration of the human race. www.brighteon.com/fef16093-6fd9-43a1-a5cb-cdecb4c63e64 (Nov 19, 2021) www.mdpi.com/.../htm

Thank you Gui, our messages crossed in the air. Your thoughts here are appreciated. My air-crossed message to others ,is below. PS to various individuals who have consistently come up against lawsuit ideas here: I reject the very agenda at issue. Some paid people posing as concerned health advocates really just don't want to see lawsuits happen, eh? It would seem apparent. A few of you may be discouraged individuals and understandably so. But I also just don't want to hear about it. WOrld dictatorship is at stake, deaths and lives are at stake and medical maiming. Should we remain silent? Our silence is our complicity. Is this what all of you want? I reject that. Please do Not post here. Thank you for taking note. And when people don't do something as legal and peaceable as suing wherever there is just cause, they will fight instead. Which do you prefer? Please do not respond, I am not interested. I want to hear from people who have proactive thoughts, and those thoughts are very welcomed here. Thank you.

Mirandola, you are right, we were talking about this yesterday. To "vaccinate" or rather jab, children under 16, with an unknown quantity surely breaks the Nuremberg Code. It certainly breaks the Hippocratic Oath. What beggars belief is the blind subscription of the CDC, AMA, NHS, GPs etc. to this policy when the long-term outcome is more than unclear, it is positively murky. The only thing I can conclude, and this is from my own experience with GPs, is they are in cahoots with Big Pharma, Big Business, Big Agriculture et al. Even if we cannot protect our own health, we have a moral obligation to protect the young. (Sadly, my 25 year old daughter knows better than me and had the first week in the first week!)

This whole narrative reminds me of so many apocalyptic stories, Brave New World, 1984, but few more so than The Children of Men by PD James which explores the theme of mass infertility which is surely the issue we are now facing. It is clear that many of us saw this coming, and now we have to rise to the challenge. I actually do not necessarily agree with picketing as I saw in the 1970s how it backfired badly. But petition, yes; Change.org, yes; disseminating to the press and media; challenging the information status quo; enlisting the help of those with more visibility than us: the sportspeople, the actors, the journalists and so on. Non-violence is not passive, it is active in every sense of the word as it comes from the highest intention. Namaste.

Agreed! There is NO one size fits all. After my daughter's babyhood vaccine injury, I found tons of articles on ways to tell if your baby would be subject to reactions - in Japan, they often talked about the sugar bug vein - three of my children had the sugar bug vein, this included my vax inj'd. I haven't had the measles antibodies since I gave birth to my son and they tried to get me to take it. That was 21 years ago. Um - hmmm ... makes you wonder how many adults are running around without the measles antibodies and NOT getting measles.

I was at Disneyland (not during the measles outbreak) but between Dland, Knotts, and Universal - for a year we had passes and were homeschooling, studying the maps and parks and psychology of amusement parks - it was the most fun curriculum I could come up with after my youngest son's passing - we all needed some fun. Anyways - you know, during that time, none of us caught one cold, not flu, nothing. Thousands of hands touching railings, germs everywhere, foreigners from all over the world - and not one cold. It really makes me wonder - and our immune systems - they are a wonderful thing! Did you see the video on the amount of loss of white blood cell count after the initial dizzying amount of white blood cells are released? Pfft -

after the booster, I think they said you had maybe 25% - if you were lucky. What is that going to do????

'Such a good piece, again. I love the relentlessly exact and impassioned delivery of hard, compelling facts that Steve Kirsch delivers, and Dr. Mercola is an ideal furtherance as interviewer. This latest post of mine speaks from the voice of children who are now suffering from the FDA/CDC approval of trillions spike-proteins into their bodies. It comes to the returning tag-team of Fauci and Gates, monstrous liars, mad-men, and murderers, in their November 2021 guises, at its end. www.ur1light.com/the-children-ask

Why is everyone sticking to the narrative that this event occurred in 2020; traces of Covid were found in Paris and Barcelona in March 2019. In England we had it October/November 2019. I had it from November 2019, terrible hives which covered me head to toe, day in, day out for 8 months, fatigue and lethargy like no other, depression of the most crushing kind. I thought I would never get well againl. I am not well yet, but I am better. My other symptoms included nosebleeds, vertigo, falls, insomnia, ear problems, tinnitus and so on..... This was released well before 2020 or even December 2019. And Fauci is hiding behind the narrative that many of you seem to be committed to. Round here in the West of England, many people died of a mysterious flu in November 2019. Namaste.

Why is nobody addressing the fact that there are idiots giving IM/SQ shots incorrectly. They are supposed to back the plunger out a little to make sure no blood goes in the hub. This insures that the vaccine (ANY) stays in the muscle and doesn't enter the circulatory system. Even Joe Biden had his shot administered incorrectly.

Can anyone address the possibility of reoccurring COVID breakthrough infections among the jabbed with the introduction of subsequent variants? From what I have read the immune system, post jab, is permanently compromised in combating the SARS-COV-2 virus. However, I have not read anything on this topic specifically. A little help as this is a critical discussion point.

"honeymoon period" - I haven't seen that used before to refer to the short period when the jabs MAY show their advertised efficacy, or at least some efficacy. It's so perfectly apt surely others have used it but credit to Kirsch either way. This is a term that resonates with people and needs to catch on in a big way. It really drives home the point these "vaccines" have a fleeting benefit, if any.

Nice article. I wonder why on earth he said this though: "Maybe we should ask Joe Biden, 'Joe, if you could give up your life to save 1,000 person-years, would you do that?' It would be very interesting to see what he says." It wouldn't be interesting at all. Completely meaningless. Nobody with any sense should care in the least what he would say. I was just reading some stuff by Vasko Kohlmayer. Everything of his I've read is rock solid, which is so hard to find. Mercola gets a pass from me for writing something a bit off on occasion - 2 articles a day 24/7? No human can do that close to perfectly, he comes amazingly close, although I'm sure he has a lot of help, and some of his articles have different bylines. Still - incredible job.

All of the deaths and other adverse reactions, not to mention the destruction of global economies, the family/friend's social suffering, pain and loss; for something that isn't effective in a positive sense...just negative everything. It does nothing but kill, maim and destroy. The fruit of the most evil of minds.

Yes, the fruit of evil minds. What's more distressing is the power society cedes to such evil. The evil ones will always walk among us, that's a given. How the rest of us deal with these monsters determines our destiny. Mostly throughout history, same as now, we have come up short, in a big way.

I'm just wondering here... but wouldn't the shot be deadly for people on blood thinning medications, or could being on the thinners actually save someone from a deadly clot? I know people, some younger who take blood thinners..none have gotten the shot and none have gotten covid.

I can't wrap my head around that one. I've wondered myself. I have thin blood by chose (diet induced) and fear having to get the jab. However, these jabs. However, blood clotting is a major side effect of these jabs. SO, in theory, being on a blood thinner should help prevent the life threatening blood clots that occur after the jab. Dr McCullough even recommends aspirin to lessen the blood clotting side effects of these jabs. I think just avoiding these jabs at all cost is the best thing.

jamNjim, yep, not taking the jab is the best choice!...I just have to wonder how many of the original seniors who died in the nursing homes in NY and NJ, were on blood thinners (I'll bet most) when they got jabbed, and how that shot might have affected their clotting. I doubt if autopsies were ever done on these people, so that question may never be answered. That's too bad cause millions are on blood thinners, and that information could be pretty helpful.

njlady, helpful information is not allowed. So no autopsies, no investigations, that is all SOP, and to be expected. Public sentiment seems to be shifting a bit in our favor, thank God. But the practices of the medical establishment won't change, and obfuscation will continue, probably for our lifetimes at least. They have all the money. Money buys compliance. As to the bigger picture, so long as the corrupt medical establishment, including pharma, corporations, government, players like Gates, Soros, et.al. have the lion's share of the economic power, they will continue to rule. Somehow their wealth must be stripped from them. I have no suggestions on how that can be done though. Seems awfully difficult.

The media is corrupt because it is actually owned by the evil ones, they give the marching orders. Politicians, universities, virtually all power players are beholden to these evil sources for their financing. How long before they buy Fox News, for example, and it becomes another CNN/NBC/PBS/MSNBC/AP/USATODAY..... How long before they are able to totally control online content and Mercola and those like him are silenced? They are working on it. Why would they not?

That's the question, isn't it HG? Some say depopulation through mass death, some say depopulation through mass sterilization, some say destruction of democracy and onset of tyranny by those behind this, some say the great reset, accompanied by digital records for everyone that dictates what we can have and can do. Just a partial list. Who knows for sure? I agree, there seems to be more. Exactly what, I wish I knew. It's evil, but certainly fascinating to watch unfold. I'm 70, hope I live long enough to see where this goes. It's moving pretty fast right now, but it could slow down again for an extended period as they consolidate their gains. I just hope to see what happens. Whatever it is, the public has only themselves to blame. You don't have to succumb to obviously evil tyrants, you can choose freedom and dignity. Unfortunately, that doesn't seem to be the default human stance.

I'm not seeing high numbers of vaxx injuries among the people I work with and many are vaxxed. I'm glad they aren't being injured. Yet, the alarmist articles written on vaxx injury are many, however I'm not seeing it. Are the readers seeing vaxx injured ppl personally, as in it's yourself or a direct first hand account from a friend or family member? Thanks-

Maybe they got saline solutions and/or delayed reaction jabs. It would look very suspicious if EVERYONE died and or got an injury after getting the jab. Think about it.

Kat, according to research by exposeUK into the VAERS reports 5% of pfizer and moderna lots account for 100% of deaths. And those lots account for the majority of adverse events. Also the deadly lots were distributed to certain states. Watch the interview of Dr. Jane Ruby by Stew Peters which details these reports.

My wife still hasn't recovered from her 2nd Pfizer jab and she's up for her booster. She says she's not getting it. They will fire her. My boss missed a week of work after the 2nd jab and then got covid-19 4 months later. He just returned to work after missing 4 weeks. That's a total of 5 weeks. My best friend just lost both of his first cousins to covid-19. They were both fully vaccinated. Now you are probably thinking that these aren't necessary vaccine injuries. If you missed work because of vaccine side effects that's an injury. These covid-19 deaths of the vaccinated are due to ADE (antibody-dependent enhancement). The vaccines were designed for the Alpha strain. They were about 70% effective against Beta strain. Now we have Delta strain and it appears to be close to zero percent effective.

Delta is the least deadly of the current strains. No one should be dying from it, much less anyone that's fully vaccinated. However, ADE changes all of that. With ADE, your body still has an immune response and produces antibodies. The Delta variant's mutation is at the spike protein itself and that's the only part of the virus these mRNA vaccines focus on. That's just one protein out of 23 the virus has. This not only makes it easy for the virus to mutate and be able to dodge your immune response, it guarantees it will happen. That's why you are not supposed to vaccinate in the middle of a pandemic. That rule was made WAY back when we had real vaccines that attacked 90% of the proteins on a virus, not 1 protein. So, anyone who got the mRNA jab has to deal with the fact that they are now primed to get Delta variant and have a more severe outcome. That's not the worst of it. Moderna had been trying for nearly a decade to develop a nanoparticle delivery system for its mRNA vaccine technology. The problem was the immune system would attack that delivery system and neutralize the synthetic mRNA before it could get into the cell to program its instructions. Continued.....

The part of the immune system that was destroying their mRNA was the "innate" immune system, specifically KILLER T-cells TLR3, 7, & 8. So they added another mRNA code to turn off these Killer-T's to allow the mRNA that programs your cells to produce spike protein into the cells. The problem with that is you are now more vulnerable to Colds, Flu, Pneumonia, food poisoning, bronchitis, staph infections, mold/fungi infections, etc. We are already seeing this. A University in Michigan is already seeing this. They mandated everyone had to be fully vaccinated for covid-19 by July 2021.

Now they are in the middle of the largest flu outbreak they have ever had in the history of the school. If people knew why they could claim "vaccine injury", but most people are clueless as to why any of this is happening. Last, but no least is the Amish. They have not done anything concerning covid. They reached heard immunity as of May 2020 with little or no drama. Of course, in my mind it is simple to explain. They don't have health insurance so they do see doctors, don't go to emergency rooms, and therefore never got vaccinated, never got put on a ventilator, and never got pumped full of kidney-killing Remdesivir. So nearly no one in the Amish community died. They all now have immunity for life with no concerns over BOOSTER shots!

Last but not least, somehow Fauci knew there would be an increase in resperitory infections from Oct 2021 to March 2022 WAY back in Aug 2020. They sent memos out to hospitals warning of the upcoming flu 2021/22 flu season. It turns out that these vaccines turn off the life-long immunity all adults have to the RSV virus. RSV infection is a childhood respiratory infection that you get once and you are immune for life. No need for a vaccine. Guess what is in 3rd phase clinical trials as we speak?? Fauci and team have an mRNA based RSV vaccine lined up for the masses in anticipation of an RSV outbreak. Only people that got any of the current Covid-19 shots need to worry. All of us unvaccinated are already immune to it.

A man in my church developed Guillane Beri Syndrome. My family members got it and aren't dead yet. But my siblings got horribly ill for days afterward. My BFF was in bed for a week and complained it felt like she had Covid again. This never happened with flu shots. These things can't be good for you. And you need one at least every six months. Though some countries/systems are pushing for 2 months.

janNjim I'll be watching my vaxxed coworkers to see how they fare this winter. I hope I don't catch the flu from them. I'm concerned about the shedding of spike proteins in my work space- yuck! I'm terribly sorry your wife had a reaction. That must

have been difficult to watch her go through the experience. Otis101 I will watch the video after I eat dinner. Just got home from work and my 3 dogs want to eat too lol

Sunflowerjanis I read that 1 million or several million doses of the vaxx were contaminated and dumped due to human error & lack of cleanliness. I love a good conspiracy as much as anyone but I can't imagine they'd give some the vaxx and some saline unless they actually are doing a full scale, undisclosed study. Otherwise what's the point? Happy Thanksgiving to all! God bless you with peace and joy!

My close friend, after her second jab, had full body shakes for hours during the night, vomit, headache, and fatigue. With a zoom visit the next day with the local clinic she was told it was an allergic reaction and not to get a booster if one comes out. This was several months ago, before booster time. She still has feelings of fatigue more often than not. Another friend, in remission from breast cancer, had cancer return which included two spots on her lungs. Her oncologist said it was stage 4 cancer. Another friend died suddenly of a heart attack. Were all of these related to the jab. I would say yes. This is in Northern California.

How important are Kirsche's numbers to the issue and can they be used with authority as it seems to me that numbers are a reductive way to end a debate and modern medicine is said to be a reductive based solution. The fact that no one wants to take him on seems to show a certain amount of fear of what may happen if they do so is this not important?

As a veteran, I am just absolutely appalled that it looks like the military has been compromised! The military has an obligation to take control of the government when all three branched are so corrupted they can not, or refuse to uphold the Constitution until a new government can be installed, as it is clearly stated in the Constitution! I guess the saying "the only cure for 1984 is going to have to be 1776" might be the only answer after all. The evil satin worshiping socialist fascist communist marxist nazi's will not stop until "we the people" of the world stop it. All three branches have been corrupted/dysfunctional for a long time, and the most since November 3rd 2020.

Those hospitalized with covid then intubated and anesthetized drive "covid: deaths: A recent article published in the Deutsches Ärzteblatt, the German Medical Association's official international science journal, shows that after decades of decline, the worldwide death rate during full anesthesia is back on the rise. The number of deaths within a year after a general anesthesia is frighteningly high: one in 20. In the over-65 age group, it's one in 10. According to a study published in the Journal of Healthcare Risk Management, the most frequently reported anesthesia-related injuries were: Teeth damage (20.8 %). Death (18.3 %). Nerve damage (13.5 %). Organ damage (12.7 %). Cardiopulmonary arrest (10.7 %).

Anesthesia-related injuries or death can be caused due to any number of errors, including: Improper intubation Administering anesthesia to a patient with allergies. Failure to properly monitor the patient. Failure to administer oxygen. Anesthesia dosage error. Poor communication among the surgical team. Nearly all deaths "from covid" happens in a hospital settings. Intubation requires sedation. Older adults and those undergoing lengthy procedures are most at risk of negative outcomes. Anesthesia kills thousands and its safety has not improved in decades.

Hospitals are killing people by using fraudchees "remdesivere" , which he gets royalties from. That drug is a bio weapon that causes people that get injected with it to have kidney failure and their lungs fill up with water. 1776 coming.

Bill would nix vaccine mandates Hearing scheduled Tuesday, could be passed Nov. 29 NIKI KELLY | The Journal Gazette INDIANAPOLIS – Republican legislative leaders dropped a surprise bill Saturday – with a hearing scheduled for Tuesday – that significantly guts an employer's ability to mandate vaccines for its workers… The proposed language would do four key things: • Require businesses to grant any exemption requested by employees based on medical or religious reasons. Under current law, businesses can ask questions and determine if the request is legitimate. • Require businesses that mandate vaccines to provide employees with an option to submit to weekly COVID-19 testing at no cost to the employee instead of getting vaccinated. This would also apply to those who receive an exemption.

• Prohibit an employer from mandating a vaccine for anyone who has tested positive for and recovered from COVID-19 for the six-month period following the employee's date of recovery. • Ban an employer from taking an "adverse employment action" against an employee because the employee has requested or used an exemption from an employer's COVID-19 immunization requirement. Rep. Matt Lehman, R-Berne, said the bill is not retroactive and applies only to business decisions made after passage. He said businesses can still mandate vaccines "but if you do, the employee has some rights."…

a good programmer could design a system to deal with the issue of their fraudulant system (VAERS) of reporting. The people could create complete records for each patient which they would save locally and the program could continue to submit that until it was accepted or until they had enough proof of the bad faith of the system to take the gov't to court and win. There's an opportunity there. And all of the clients are people who are making money and pay their bills. And it would be a giant service to them. At the minimum it would provide the people with the legal requirement to file the reports proof that they had made a good faith effort.

They have been working on this for 50 years...and to just wipe out 8 billion people in a war dropping millions of tons of nuclear bombs would destroy everything....and it would take to long to figure out we were in a pointless mess and stop.....but this way...the 'slow steady stealthy' way will kill many who are so 'gullible'...simply because they 'just follow along' like puppies...an easy mindless kill..but this 'Easy and mindless' kill would be the first to 'smell the coffee' if it was a a conventional type of WAR.with bullets and bombs.....but this is NOT a 'conventional' type if WAR.....and this is WorldWar Three...no need for the 'fireworks' or mess with trashed Cities and destroyed infrastructures...when billions are dead and everything is still usable .....

Like I said 2 years ago this is an RF Poisoning WAR....to "cull off humanity" .Not to destroy the infrastructures.....and RFPoisoning is the perfect Culling Tool.....just a few billion rotting bodies to feed the animals and a brain trained military to remove any "problems' that may arise'.....So they involve the brain trained 'medical societies' to falsely "Inform the populations"...its "Covid 19" or some absurd "Mutation" to further the 'Mindless Hysteria'....as a 'Logical Reason' to 'JAB Billions' with and electronic target to make them easy targets.. This is SO easy to see thru this bullsh!t...all ya need is a old computer to check-up on the FACTS that are in "Your Face"....

Yes, mrrobb, electromagnetic fields damage DNA and enhance the damage of “vaccines! MRNA to DNA. Electromagnetic fields have been shown to affect living organisms at levels well below most national and international guidelines. The effects include an increased risk of cancer, cellular stress, increased harmful free radicals, genetic damage, structural and functional changes in the reproductive system, learning and memory deficits, neurological disorders, and negative impacts on the general well-being of humans.

The damage goes far beyond the human race, as there is growing evidence of harmful effects on both plant and animal life. Beatrice Golomb, MD, PhD, professor of medicine at the University of California San Diego School of Medicine, wrote in Neural Computation, says that the symptoms and experiences of a "mysterious illness" afflicting American and Canadian diplomats in Cuba and China largely coincide with the known effects of pulsed radio frequency / microwave electromagnetic radiation (RF / MW) www.sciencedaily.com/.../180829115456.htm

Stanlybecker, the Aussies love it. Some say it's because they have no guns. I say it's because they enjoy house arrest and snitching on their neighbors. A bunch of antisocial misanthropes eager to embrace their new lives as reclusive wards of the state. (I realize not all are that way, but enough are to force it on everyone else down under.)

I wish! I've looked at the chemical formula and they are totally different. I will REFUSE to take them! Any drug made after 1984 is unsafe. Just do as Japan has done. They gave up on the mRNA vaccines in mid-Aug after seeing their largest daily -new-case outbreak since the beginning of the pandemic. They gave everyone Ivermectin and in less than 2 weeks their outbreak was over! Click on this link to Japan's covid-19 statistics: www.worldometers.info/.../japan

Scroll down to the graph of "Daily New Cases". Notice the HUGE jump in daily new cases in August? They were at about 85% fully vaccinated when this happened. Rather that administer "BOOSTERS" they gave out Ivermectin. Now Japan has fewer than 200 new cases a day and no one dying from covid-19. So they went from 26,000 new cases a day to less than 200 cases a day in 2 months by giving everyone Ivermectin. The best thing about Ivermectin is you only have to take it once a week. Some doctors claim once every 2 weeks and some claim once a month at a higher dose works.

Just a suggestion, Dr. Mercola. There are some 7.5 billion people in the world and still around 7000 languages, though that number is dropping thanks to globalization. If your articles were translated to these peoples and expose these important Truths to people, then nobody in their right mind would ever get these vaccines and boosters, nobody in their right mind would buy Bill Gates' Windows programs or use any of his products or programs ever again, and nobody could force them to do the Evil that is pushed on them. If your articles could at least be translated to Spanish, Portuguese, German, Russian, and Chinese -- these Truths would received by more than half of the global population and make a big difference.

I printed articles from Mad In America and the APA Journal itself to show my mom. She still insists she has a chemical imbalance making her unhappy and needs "medicine" to fix her brain disease of Depression. I guess she doesn't like reading medical articles. People like her will act the same way about these. They prefer to trust the doctors, and TV expert shills.

Why can't I read or find this article from the email newsletter? " This Man Sold the Entire Country to Big Pharma Instead of safeguarding public health, he teamed up with Bill Gates to turn the National Institutes of Health into an incubator for pharmaceutical products. He's being handsomely rewarded for his wickedness too - now earning more than the president." All the links in the email link to the article on this page... has the one I want to read already been deleted? Thanks to anyone who can help me figure this out.

Are the non-MRNA/DNA vaccines any safer? Sounds like Novavax might be available in the U.S. soon. Has Dr Mercola said anything about it?

Dr. Peter McCullough has stated that he believes Novavax could be a more safe alternative as it does not contain what Moderna & Pfizer contain. However, there is spike protein in it and so that concerns me. Would love someone to weigh in....Dr. M? Gui???

See my reply at top to Gui. Novavax unfortunately also will be problematic due to the spike protein itself. This vaccine differs from the ones already on the market in that "it contains the spike protein itself — no need to make it, it's already made — along with an adjuvant that enhances the immune system's response, to make the vaccine even more protective." The problem seems to be that the spike protein in its different forms by itself is what is causing the negative effects. The 2P mutation patent, also known as the '070 patent from the research team lead by Dr. Barney Graham from the Vaccine Research Center at the NIH NIAID mentioned in my reply to Gui, is not just in use in Moderna's COVID-19 vaccine, but also in the COVID-19 vaccines produced by Johnson & Johnson, Novavax, Pfizer/BioNTech, and CureVac.

Personally I was never anti vaccine, just always looked through research to weigh benefit/risk analysis of any drug or treatment I would consider taking. For example, originally I was among those who promoted the benefits and potential use of this vaccine as it did not have some of the potential additional concerns many bring up from some of the other vaccines besides the harm being shown just from the spike protein alone which urgently needs to be acknowledged and resolved.

We have been WorldWarIII for a decade.....since before the NYC 911 WTC buildings melting ,from Directed Energy weapons.....and the tamed version is 5G...good for the slow cull of billions...and with bodies running around with Graphene circulating thru out their brains and bodies....that are easy targets, and call me names and laugh..but I well KNOW what Power is in a simple Radio Frequency..depending on the Frequency...and emitted powers and polarity ....Nochola Tesla knew that the higher frequencies were deadly.....and so did the earths Militaries...that why Tesla worked on lower frequencies....

OH yes..than there are the Bible thumpers and the religious fanatics ...praying and yadayadayada...but its not gonna happen..... 5G and 5GI will cull billions and no god or religious thing is gonna save you... BUT Underground shelter will....as will trees and grounded shelters...but underground is the preferred Plan living underground for several months. maybe years.....as when the Great Culling starts Nothing save you..... But ...no one here can hear or understand what I am telling ya..but you might watch the entrances to these 'Authorized Personnel ' shelter opening , which you're not invited to....and when they line up with people.....means you have only a few minutes to kiss your asses ByeBye LOL..... I'm still on MyMountain....still smiling..and the wind is cold and temp is -2 C....but my cave is cuddly warm :) at about 14 degrees C...sometimes I light a woodburner .....just because I can and I do like to cook on the wood burner stove...Banana nut bread is nice with Hot Coffee.....MMMM

What did the CDC state or imply ? Countering all of this data we have a recent CDC analysis,6 which concluded that " people who get the COVID shot are two-thirds less likely to die of any cause ". two thirds less likely to die from anything ? < ---- That almost sounds like them drug commercial. IE; A chance to live longer but the drug may cause death. Here we take the CDC claiming... 2/3's (that is 66%) that may not die of (what some call) "old age"... 2 out of 3 might live for ever? LOL. Of course, thank the Covid shits...
