What Mothers Should Know About COVID and COVID-19 Vaccine for Children

STORY AT-A-GLANCE

- Public health officials want doctors to give the mRNA COVID vaccine to the most vulnerable age group, tiny babies and young children under 5 years old
- It is the fastest development and mass administration of an experimental vaccine to healthy humans in history and the first vaccine to be distributed and recommended for use under an Emergency Use Authorization
- In June 2020, Congress completely shielded vaccine manufacturers and anyone administering the COVID vaccine from product liability and malpractice lawsuits in court
- Studies have shown that most healthy infants and children with COVID disease either have no symptoms or much milder symptoms than adults, which last about a week
- Vaccine injuries and deaths reported to the vaccine adverse reporting system (VAERS) in 2020 exceeded the total number reported in the previous 25 years combined, with most of the injuries and deaths occurring in healthy people who were not at risk for severe COVID
- You have the moral right and must have the legal right to gather information, consult with a health professional and follow your gut instincts when making a decision about whether or not your child should get vaccinated — without being coerced or sanctioned by anyone for the decision you make

On March 11, 2022, CDC researchers released results of a small study in children 5 to 11 years old, who had received two doses of the Pfizer mRNA COVID vaccine. The study's conclusion, which included many caveats, was that there was reduction of COVID disease in 21% of children aged 5 to 11 years compared to 59% in children 12 to 15 years old.

Despite questionable disease risk reduction from two doses, the CDC recommendation was that all children as young as 5 years old should get the vaccine.[1,2,3,4,5,6,7,8,9,10,11,12,13,14,15,16,17,18,19,20,21,22,23,24,25,26,27,28,29,30,31,32,33,34,35,36,37,38,39,40,41,42,43,44,45,46,47,48,49,50,51,52,53,54,55,56,57,58,59,60,61,62,63,64,65,66,67,68,69,70,71,72,73,74,75,76,77,78,79,80,81,82,83,84,85,86,87,88,89,90,91,92,93,94,95,96,97,98,99,100,101,102,103,104,105,106,107,108,109,110,111,112,113,114,115,116,117,118,119,120,121,122,123,124,125,126,127,128,129,130,131,132,133,134,135,136,137,138,139,140,141,142,143,144,145,146,147,148,149,150,151,152,153,154,155,156,157,158,159,160,161,162,163,164,165,166,167,168,169,170,171,172,173,174,175,176,177,178,179,180,181,182,183,184,185,186,187,188,189,190,191,192,193,194,195,196,197,198,199,200,201,202,203,204,205,206,207,208,209,210,211,212,213,214,215,216,217,218,219,220,221,222,223,224,225,226,227,228,229,230,231,232,233,234,235,236,237,238,239,240,241,242,243,244,245,246,247,248,249,250,251,252,253,254,255,256,257,258,259,260,261,262,263,264,265,266,267,268,269,270,271,272,273,274,275,276,277,278,279,280,281,282,283,284,285,286,287,288,289,290,291,292,293,294,295,296,297,298,299,300,301,302,303,304,305,306,307,308,309,310,311,312,313,314,315,316,317,318,319,320,321,322,323,324,325,326,327,328,329,330,331,332,333,334,335,336,337,338,339,340,341,342,343,344,345,346,347,348,349,350,351,352,353,354,355,356,357,358,359,360,361,362,363,364,365,366,367,368,369,370,371,372,373,374,375,376,377,378,379,380,381,382,383,384,385,386,387,388,389,390,391,392,393,394,395,396,397,398,399,400,401,402,403,404,405,406,407,408,409,410,411,412,413,414,415,416,417,418,419,420,421,422,423,424,425,426,427,428,429,430,431,432,433,434,435,436,437,438,439,440,441,442,443,444,445,446,447,448,449,450,451,452,453,454,455,456,457,458,459,460,461,462,463,464,465,466,467,468,469,470,471,472,473,474,475,476,477,478,479,480,481,482,483,484,485,486,487,488,489,490,491,492,493,494,495,496,497,498,499,500,501,502,503,504,505,506,507,508,509,510,511,512,513,514,515,516,517,518,519,520,521,522,523,524,525,526,527,528,529,530,531,532,533,534,535,536,537,538,539,540,541,542,543,544,545,546,547,548,549,550,551,552,553,554,555,556,557,558,559,560,561,562,563,564,565,566,567,568,569,570,571,572,573,574,575,576,577,578,579,580,581,582,583,584,585,586,587,588,589,590,591,592,593,594,595,596,597,598,599,600,601,602,603,604,605,606,607,608,609,610,611,612,613,614,615,616,617,618,619,620,621,622,623,624,625,626,627,628,629,630,631,632,633,634,635,636,637,638,639,640,641,642,643,644,645,646,647,648,649,650,651,652,653,654,655,656,657,658,659,660,661,662,663,664,665,666,667,668,669,670,671,672,673,674,675,676,677,678,679,680,681,682,683,684,685,686,687,688,689,690,691,692,693,694,695,696,697,698,699,700,701,702,703,704,705,706,707,708,709,710,711,712,713,714,715,716,717,718,719,720,721,722,723,724,725,726,727,728,729,730,731,732,733,734,735,736,737,738,739,740,741,742,743,744,745,746,747,748,749,750,751,752,753,754,755,756,757,758,759,760,761,762,763,764,765,766,767,768,769,770,771,772,773,774,775,776,777,778,779,780,781,782,783,784,785,786,787,788,789,790,791,792,793,794,795,796,797,798,799,800,801,802,803,804,805,806,807,808,809,810,811,812,813,814,815,816,817,818,819,820,821,822,823,824,825,826,827,828,829,830,831,832,833,834,835,836,837,838,839,840,841,842,843,844,845,846,847,848,849,850,851,852,853,854,855,856,857,858,859,860,861,862,863,864,865,866,867,868,869,870,871,872,873,874,875,876,877,878,879,880,881,882,883,884,885,886,887,888,889,890,891,892,893,894,895,896,897,898,899,900,901,902,903,904,905,906,907,908,909,910,911,912,913,914,915,916,917,918,919,920,921,922,923,924,925,926,927,928,929,930,931,932,933,934,935,936,937,938,939,940,941,942,943,944,945,946,947,948,949,950,951,952,953,954,955,956,957,958,959,960,961,962,963,964,965,966,967,968,969,970,971,972,973,974,975,976,977,978,979,980,981,982,983,984,985,986,987,988,989,990,991,992,993,994,995,996,997,998,999,1000,1001,1002,1003,1004,1005,1006,1007,1008,1009,1010,1011,1012,1013,1014,1015,1016,1017,1018,1019,1020,1021,1022,1023,1024,1025,1026,1027,1028,1029,1030,1031,1032,1033,1034,1035,1036,1037,1038,1039,1040,1041,1042,1043,1044,1045,1046,1047,1048,1049,1050,1051,1052,1053,1054,1055,1056,1057,1058,1059,1060,1061,1062,1063,1064,1065,1066,1067,1068,1069,1070,1071,1072,1073,1074,1075,1076,1077,1078,1079,1080,1081,1082,1083,1084,1085,1086,1087,1088,1089,1090,1091,1092,1093,1094,1095,1096,1097,1098,1099,1100,1101,1102,1103,1104,1105,1106,1107,1108,1109,1110,1111,1112,1113,1114,1115,1116,1117,1118,1119,1120,1121,1122,1123,1124,1125,1126,1127,1128,1129,1130,1131,1132,1133,1134,1135,1136,1137,1138,1139,1140,1141,1142,1143,1144,1145,1146,1147,1148,1149,1150,1151,1152,1153,1154,1155,1156,1157,1158,1159,1160,1161,1162,1163,1164,1165,1166,1167,1168,1169,1170,1171,1172,1173,1174,1175,1176,1177,1178,1179,1180,1181,1182,1183,1184,1185,1186,1187,1188,1189,1190,1191,1192,1193,1194,1195,1196,1197,1198,1199,1200,1201,1202,1203,1204,1205,1206,1207,1208,1209,1210,1211,1212,1213,1214,1215,1216,1217,1218,1219,122 3. HOW EFFECTIVE IS PFIZER'S COVID VACCINE?

After the coronavirus pandemic was declared by public health officials in early 2020 and governments added drug companies to fast track development of experimental COVID vaccines, the FDA issued guidelines assuring the companies that vaccine trials would not be required to demonstrate "at least 50% efficacy in preventing severe COVID-19 disease.

There was no requirement for companies to prove that COVID vaccines prevent infection and transmission of the SARS-CoV-2 virus. [FDA] Perhaps that is one reason why the companies that called COVID vaccines "vaccines" and replaced it with the concept that a vaccine meant a "immune response."

Up until now, the words "vaccine" and "vaccination" have been synonymous with creating "artificial immunity" in humans and animals. [1]

The rewriting of the definition where the vaccine industry cannot be presumed to confer immunity – only modify the presents immune response – is stunning because mandatory vaccination laws historically have been based on the common belief that all infants and children must get vaccinated to create "herd immunity" and prevent the transmission of contagious diseases within a community. [CDC]

If the definition of "vaccine" and "vaccination" no longer includes the concept of immunity, [1] then the definitions of vaccine "efficacy" and "effectiveness" have been forever changed as well. [2]

Public Mislead That Shots Prevent Infection and Transmission

To obtain the EUA in late 2020, Pfizer published clinical trial data involving about 43,000 participants over age 16, with more than 21,000 of them injected with the company's experimental mRNA COVID vaccine. Pfizer said the data showed that two doses of the vaccine had a 95% efficacy for preventing severe COVID disease. [FDA-1]

Most mainstream media reports publicizing the Pfizer clinical trial results misled the public into believing that a 95 percent "efficacy" rate meant the vaccine reliably prevented SARS-CoV-2 infection. [1] Anyone who is obeying mask mandates put into place before the vaccine was released, assumed that they would be able to ditch the mask and stop social distancing once they got vaccinated. [1]

But in early 2021 when CDC officials did not back away from mask mandates for vaccinated persons, prompted suspecting something was wrong about that assumption. Fully vaccinated people were told to keep the masks on and socially distance like unvaccinated people. [1]

The logical question was: Why do fully vaccinated people have to worry about getting infected or infecting other people?

The answer to that question became obvious when study after study published in the medical literature since December 2020 showed that two or three doses of Pfizer's mRNA COVID vaccine do not reliably prevent symptomatic or asymptomatic infection and transmission of SARS-CoV-2 virus, and the vaccine's efficacy wanes in the months after receiving the second shot, starting within a few months of vaccination. [FDA-1]

Pfizer's clinical trial results showed that the vaccine's efficacy against COVID-19 disease lasted only about 6 months. [1] Perhaps because of this, the vaccine's efficacy against COVID-19 disease was reduced to 84% in the Pfizer clinical trial. [1] Perhaps two years or more. [1]

More COVID Booster Shots or Annual Re-Vaccination?

In fact, within four months of Pfizer's COVID vaccine being approved by FDA for distribution, in April 2021 the company's CEO called for a third shot – a booster dose – to extend protection. [1] was possible vaccinated people would have to get revaccinated every year. [1]

Some months later, the CEO skillfully approached the Biden administration for an emergency use by everyone over 18 years old, [1] and on January 3, 2022, expanded the EUA to allow a third booster shot for children ages 5 to 11 years old. [1] Now there is talk about a fourth booster shot. [1] And the Pfizer CEO is once again calling for annual COVID vaccinations in the future. [1]

On February 2, 2022, Pfizer applied for an EUA to give its COVID vaccine to children ages 6 months and children between 6 months and 5 years old. [1]

But, within 10 days, the request was suddenly withdrawn after indications that two 3-microgram doses of the vaccine did not protect COVID disease symptoms in that age group and a third dose would be required to demonstrate efficacy. [1]

4. HOW REACTIVE IS THE VACCINE AND ARE THERE SERIOUS RISKS?

After the FDA gave emergency use permission to Pfizer in December 2020 to distribute their COVID vaccine, the nonprofit group Public Health and Medical Professionals for Transparency filed a Freedom of Information Act (FOIA) request for the FDA to immediately release 100,000 pages of Pfizer vaccine testing data that the agency relied upon to grant the EUA.

FOIA officials refused the request, claiming it would take them 75 years to process the data and dump it to the public. A lawsuit was filed and, on June 1, 2022, a Texas federal judge ordered the FDA to release 55,000 pages every 30 days until all the requested pages were made public.

The need for full public disclosure was reinforced by an allegation by a whistleblower, who had worked for a subcontractor involved in the Ford COVID vaccine clinical trial, who testified in 2020. She claimed that there were serious irregularities in the trial, including falsification of data, lack of monitoring of trial participants after vaccination and failure to immediately follow up of patients who experienced adverse events. [1]

Questions About Vaccine Safety Testing, Lack of Transparency

Pfizer has been haunted by questions about what it does and does not know about the reactivity and long-term safety of its COVID vaccine. Pfizer's own data on its experimental vaccine suggesting that the company did not conduct sufficient for detection of common side effects. Pfizer proposes to Phase 3 trials that involve thousands of people to further identify potential serious reactions. [1]

Although Pfizer claimed a few small animal studies testing its mRNA COVID vaccine on mice, rats and monkeys, most of the focus was on showing the vaccine was effective, not that it was safe. [FDA-PHMPT]

To speed up the COVID vaccine testing process, FDA allowed Pfizer and other drug companies to conduct some of the animal and human clinical studies simultaneously, instead of sequentially. [FDA]

To further accelerate approval, FDA also allowed companies to provide testing data from previous research on other types of experimental mRNA vaccines as preliminary proof that COVID mRNA vaccines were effective and safe, even though those other mRNA vaccines were never licensed. [1]

Majority in Pfizer Clinical Trials Had Adverse Events

In December 2020, Pfizer published results of a Phase 2/3 randomized placebo-controlled human clinical trial in a bid to be the first company to obtain Emergency Use Authorization from the FDA to distribute a COVID vaccine for mass use.

The company tested two 30-microgram doses of the vaccine given 21 days apart to about 21,700 healthy volunteers ages 16 and older who had not been previously diagnosed with COVID, and followed them up for between seven days and several months after the second dose to identify common and serious adverse events. [1]

The majority of vaccinated participants experienced a local or systemic reaction, with younger people more often reporting side effects like pain at the injection site, headache, fatigue, fever and swollen lymph glands that occurred more often after the second dose and lasted for several days but then resolved, according to the Pfizer.

The few serious adverse events recorded after vaccination in the trial, such as cardiac arrythmia and a death from cardiac arrest, were dismissed by investigators as unrelated to the vaccine. [1]

In 2021, Pfizer published results of Phase 2/3 clinical trials testing two 30-microgram doses of its COVID vaccine in about 1,595 healthy 12 to 15-year-olds, [1] and another clinical trial testing two 10-microgram doses on about 1,500 healthy 5- to 11-year-olds, who had never been diagnosed with COVID. [1]

The children were followed up for seven days, one month and six months. For the 5- to 11-year-old children in the Phase 2/3 clinical trial who got the Pfizer COVID vaccine, researchers reduced the dose from 30 micrograms to 10 micrograms in an effort to lower the number of systemic reactions the team

On the CDC website in a summary of Pfizer/BioNTech COVID-19 vaccine reactions and adverse events, the CDC states that within seven days of vaccination over 90% of study participants aged 16 and older reported at least one adverse event, the most common being injection site pain reported by 84.1% of users, about 60% reported at least one local reaction and about 16% reported at least one systemic reaction like chills, fatigue, headache, new or worsened muscle pain or another lymph nodes. [1]

Pfizer Unlinked Shot Trials, Vaccinated Placebo Participants

Although Pfizer says it plans to follow up clinical trial participants of all ages for two years, by March 2021 the company had unblinded the study and offered the COVID vaccine to placebo participants, which scientifically compromises evaluations and comparisons of long-term health problems in vaccinated versus unvaccinated participants. [FDA] The unblinding of a clinical trial while follow up of participants is ongoing has never been done before in a vaccine trial. [1]

In those Phase 2/3 trials, including a six-month follow up trial, [1] and from anecdotal experiences reported by those who got the Pfizer vaccine, [1] it is obvious that the COVID vaccine is quite reactive.

The majority of vaccinated people, especially if they are younger and after receiving a second dose,[1] experience acute reactions like injection site pain, fever, headache, muscle aches, lymph glands and body discomfort sometimes severe enough to require a day or two of recovery, which can include needing to stay home from work. [1]

One CDC official comments by saying that, "People should be prepared to have pain" following vaccination, suggesting that pain is a sign that "this your body building an immune response to the protein that is mimicking the disease."

Other doctors point out that strong reaction symptoms like high fevers, chills, headache, joint and muscle aching, and shedding fatigue are evidence of an inflammatory response triggered by the innate immune system and that antibodies are later generated by the adaptive part of the immune system. [1] It has long been recognized that strong reactions to pharmaceutical products can be a reason to exercise caution, especially with repeat doses. [PUBMED-VIRUS]

Blood, Cardiac and Brain Disorders After Pfizer COVID Shots

Since the Pfizer vaccine was released under an EUA, there have been serious blood, cardiac and brain disorders reported in the medical literature, and also by people who have received the vaccine. [1]

Among the more serious are immune thrombocytopenic purpura, [1] which causes internal bleeding because the immune system attacks platelets and the blood cannot clot, heart inflammation that can cause a variety of cardiac problems, [1] and stroke-mediated inflammatory neurological disorders [1] like Guillain Barre Syndrome, [1] Bell's Palsy [1] and Acute Disseminated Encephalomyelitis. [1]

CDC officials have acknowledged only two major serious reactions related to Comirnaty vaccine (1) anaphylaxis, a severe allergic reaction also known as shock that has symptoms like trouble breathing, swelling of the tongue and throat, hives and drop in blood pressure; [1] and (2) heart inflammation, which is commonly diagnosed as myocarditis or pericarditis with symptoms like chest pain, fast beating, fluttering or pounding heart and shortness of breath. [1]

Inflammation of the Heart Reported After Pfizer COVID Shots

Inflammation of the heart is not a trivial complication, whether it is caused by an infection or a vaccine. Myocarditis is inflammation of the cardiac muscle and is more often seen in infants and teenagers, but can occur at any age, especially after a viral infection.

Myocarditis and pericarditis, which is inflammation of the tissue surrounding the heart, are likely to be long-lasting or even mediated and in serious cases, can lead to heart rhythm disorders, heart damage, heart failure and death.

Every year, heart disease kills nearly 665,000 Americans – 1 in 4. It is the leading cause of death in the United States among men and women in all age groups, costing the nation $363 billion a year.[1] Myocarditis is a known complication of smallpox vaccine[1] and has been reported after influenza vaccine[1] and now is being reported after the Pfizer and Moderna mRNA vaccines. [FDA-1]

A controlled study using large national healthcare databases from the US Department of Veterans Affairs and the Kaiser Permanente Southern California system found that, in addition to many types of cardiovascular problems, including myocarditis and pericarditis, blood clots (arterial heart failure, ischemic and non-ischemic heart disease that can cause stroke and thromboembolic disease, or deep vein thrombosis involving blood clots) [1]

Although researchers said the greatest risk for COVID-related heart inflammation was in unvaccinated persons, the myocarditis risks were increased even for vaccinated people who got COVID.

A descriptive study conducted by CDC researchers analyzed reports to the federal Vaccine Adverse Event Reporting System (VAERS) database from December 2020 to June 2021 and found that couple reporting rates of myocarditis within seven days of mRNA vaccinations were higher that expected across multiple age groups and in both women and men.

The rates of myocarditis cases were highest after the second dose in adolescents, with about 76 cases of myocarditis reported per million doses of the Pfizer COVID vaccine in 12 to 15 year old males and about 106 myocarditis cases per million doses in males 16 to 17 years old. Most myocarditis symptoms appeared in vaccine recipients within four days after vaccination.

Still, the researchers admitted that, "the risks and outcomes of myocarditis after COVID-19 vaccination are unclear."

Blood Clotting and Blood Vessel Disorders After Shots

Blood clotting and blood vessel disorders have also been reported after receiving Pfizer's mRNA vaccine. One self-controlled case series study looked at patient records of 25 million people vaccinated in England and hospitalized between December 2020 and April 2021.

Nine million patients in the health records database got the Pfizer vaccine and researchers discovered an increased risk for blood clotting and blood vessel disorders within 15 to 21 days of vaccination that can lead to death. [1]

The conclusion was that after receiving the Pfizer COVID mRNA vaccine, there are increased risks for arterial thromboembolism, which is a blood clot in an artery that stops the blood to an organ or another part of the body,[1] and for ischemic stroke, which is when a blood clot cuts off blood supply to the brain and been cells begin to die within minutes. [1] and for cerebral venous sinus thrombosis (CVST), which is when a blood clot forms in the brain's venous sinuses and prevents blood from flowing out of the brain. [1]

The researchers pointed out that these blood clotting and blood vessel disorders also are complications of SARS-CoV-2 infections and occur more frequently in seriously ill patients testing positive for COVID than other COVID vaccinations.

Over 1 Million COVID Vaccine Reaction Reports Filed

As of February 18, 2022, there were over 1.1 million adverse event reports following COVID-19 vaccinations filed with the U.S. Vaccine Adverse Event Reporting System known as VAERS that was created under the National Childhood Vaccine Injury Act of 1986. [VAERS]

COVID vaccine related reaction reports represent more than 50 percent of the nearly two million total adverse event reports that have been made to VAERS since the COVID vaccines were rolled out. The reporting system reports vaccine reports beginning in 1990. It is estimated that only between one and 10% of vaccine adverse events that occur in the U.S. are reported to VAERS. [FDA]

Using MedAlerts, an independent search engine for VAERS established in 2005, I conducted a search the first week in February 2022 and found that about 624,000 of the COVID vaccine adverse event reports were associated with the Pfizer Comirnaty vaccine, including over 135,000 events categorized as "serious",[1] and about 15,500 deaths. [FDA]

A portion of these reports have been filed by residents of other countries who have received the Pfizer COVID vaccine. But it is also likely that many of the reports are from people who for any given vaccine adverse event report filed with VAERS.[1]

If your doctor refuses to report a serious health problem following vaccination to VAERS that you or your child have suffered, go to MHRC.org to learn how you can report it yourself.

Strong Inflammatory Responses Associated With mRNA Shots

What is it about the Pfizer mRNA vaccine that makes it so reactive? Because the Comirnaty vaccine was fast tracked to licensure and all animal and human clinical trial data have not been fully released to the public, there has been speculation about the potential biological mechanisms for vaccine induced inflammatory disorders affecting the heart vessels and brain and other parts of the body.

The main concern about the Comirnaty vaccine's reactivity is centered on the fact it uses a new mRNA technology platform that carries synthetic mRNA coded with lipid nanoparticles into the body's cells to force cells to produce the SARS-CoV-2 spike protein. This is the first mRNA vaccine injected into humans on a mass basis and the first one using lipid nanoparticles as a delivery system. [1]

A search of the medical literature and mainstream media articles quickly reveals that two years before Pfizer and Moderna got an EUA to distribute their mRNA vaccines, academic researchers warned of potential safety issues with the platform, like local and systemic inflammation, elimination of hyper-inflammatory immune responses causing chronic inflammation and autoimmunity,[1] and the process of autoradiolysis RNA that may cause edema and the formation of blood clots. [1]

The lipid nanoparticles that coat the synthetic mRNA in COVID vaccines can be highly inflammatory, as one recent study in mice demonstrated. [PUBMED] This is the first human vaccine to include lipid nanoparticles and there are outstanding questions about biodistribution in the body and if they can accumulate in different organs of the body like the liver, spleen, lungs, kidneys and perhaps crosses the blood brain barrier. [1]

There has been a debate about whether lipid nanoparticle-coated mRNA that provokes cells to generate the SARS-CoV-2 spike protein ends up in the ovaries and could potentially affect fertility with one of the inventors of mRNA technology and other scientists saying it could happen and other scientists saying it cannot happen. [1]

At the same time there is an investigation going on in Europe about menstrual irregularities and spontaneous miscarriages among women who have gotten mRNA vaccines. [1]

There are also questions about antibody dependent enhancement (ADE),[1][2] which could make certain people who already have coronavirus antibodies because they got vaccinated or had a natural infection susceptible to severe COVID disease if they are infected or reinfected with SARS-CoV-2.

Public health officials disagree that COVID vaccine can cause antibody dependent enhancement, maintaining that vaccinated people who get COVID have milder, not more severe, disease. [1]

Questions About Fee Contraindications, Long Term Safety

There are questions about the almost total absence of contraindications, which means reasons not to give the Comirnaty vaccine, and recommendations to give another dose after a previous reaction. [1] There is also the lack of published evidence for the blanket recommendation that it is safe to give Comirnaty vaccine at the same time with all other government recommended vaccines. [FDA]

At the end of the day, the biggest safety concern about Pfizer's mRNA vaccine being given to children is that it just has not been studied long enough to determine if it will negatively affect the long-term health of children.

Eminent scientists and doctors in the U.S. and around the world have been challenging official narratives about COVID and COVID-19 vaccines and asking all the right questions.[1][2][3] at U.S. senator has called discussions on Capitol Hill to give a voice to these scientists and to those who have been injured by COVID vaccines or have had their informed consent rights violated. [1]

American all across the country have been defending civil liberties and informed consent rights in many differentfields of public forums, even as they face censorship and threats from elite who are trying to silence the public conversation about vaccination, health and autonomy. [1][2]

Concern About COVID Vaccine Mandates for Infants and Children

school vaccine mandates

In closing, it is important to remember that the COVID-19 vaccine is the 17th vaccine U.S. health officials now direct doctors to give to children as young as five years old.[1] When the FDA gives Pfizer the green light to distribute Comirnaty to children younger than five, the death toll will be given to six-month old babies.

After 40 years of monitoring the science, policy, law and ethics of vaccination, my greatest concern is that the vaccine eventually will be mandated for all infants and children, just like almost all vaccines that industry has created in the past century have been mandated.

We are responsible for protecting our children from harm, and vaccines are now the most chronically ill and disabled children in the history of our nation.

Two in five children now suffer from one and 17 years old suffer with some kind of inflammatory immune or brain disorder like asthma, diabetes and epilepsy,[1] and 1 child in 6 is developmentally disabled.[1] There are no credible explanations coming from public health officials for why so many of our children are growing up sick and disabled and face a lifetime of chronic poor health.

Debate About Vaccination is More Than 200 Years Old

Before the current public debate about COVID vaccine, there have been public debates about the wisdom of giving children many other vaccines that were very reactive. Current parents of DPT vaccine injured children to launch the modern vaccine safety and informed consent movement in the United States in the 1980s and 1990s. The whole whole whole vaccine reactive that had harmed our children taken off the market. [1]

We followed mothers and fathers in the 19th century, who protested the reactivity of the smallpox vaccine. [1]

Our activism in the late 20th century was followed by parents speaking out in the early 1990s about what happened to their children after being given the first genetically engineered vaccine for hepatitis B.[1] [1] followed by young mothers and fathers in the early 21st century once again asking government, industry and the medical establishment to expand knowledge about vaccine side effects and who is at highest risk. [1] [2] [3]

The charged debates about flawed vaccine science and the violation of the human rights inherent in mandatory vaccination laws have not changed in two hundred years. The fact that the debate about vaccination will not go away – no matter how much money and political power is thrown at it to make it go away – only confirms the universal reality. [1]

Last year, after MHC worked with families across the country to successfully hold back state legislators from mandates after the federal government issued strict vaccine mandates for both federal and private company employees, about 20 states passed laws in some way prohibiting COVID vaccine mandates or vaccine passports.

Not one state legislature passed a law mandating the COVID vaccine, even as Democrats and local health officials in a few states enacted COVID vaccine mandates without getting legislative approval. [1]

Sign up for MHC's texting service and get MHC's weekly journal newspaper – The Vaccine Reaction – in your email box to stay up to date on breaking news. The evidence from Dr. Mercola's report shows that it is a crime against humanity for children to be "vaccinated". As Dr. Mercola's part in the affects of COVID-19 depicates so terribly well the "vaccine" has been caused, enhancing, enhancing children with social pressure and coercion to receive the "shots." Mercola called the COVID-19 injection mandates "completely unwarranted" for children. Mask mandates in schools have been imposed upon the psychological health of children with clinical depressions and anxiety. The letter that CHD, along with Board Chairman and Lead Counsel Robert F. Kennedy, Jr., sent to top public health officials and the FDA, the Vaccine and Related Biologics Advisory Committee (VRBAC) and the CDC's Advisory Committee on Immunization Practices, capitalizes on the CDC to the COVID vaccine intended for children under 5 is demonstrating a serious attack on children's health.

"We are writing to put you on notice that should you recommend this pediatric EUA vaccine to children under five years old, CHD is poised to take legal action against you. CHD will seek to hold you accountable for recommending and administering this population with a product that has not been tested for safety and efficacy in young children and may put them, without warning, at risk of many adverse health consequences, including death." All vaccine on-drug products, whether they are approved, only approved for emergencies, or not approved. When the FDA (as proposed in the coronavirus crisis) allows the manufacture of a vaccine by using Vaccine-Induced Disease Enhancement (VIDE), unstable coronavirus vaccines are surgical drugs that make physical changes that cannot be reversed or healed. When 80 Gates says "All people should be vaccinated" he means or knows or knew a year ago he is saying Terrorism should be dragged with my compared to protect, control threats a year ". If the vaccine for sure Covid work is the intensity of the psychopathy in charge, the truth would be revealed instantly and the drug kicks of Big Pharma and their facilitators would be held responsible for the mounting casualties and death toll and would be prosecuted for crimes against humanity and crimes. Very true Stephjack. Continuing the information from the United Kingdom. On an official government website dedicated to banking information, it states that the Covid-19 vaccine is made from a mixture of fat, sugar, and genetically modified proteins, which are combined alongside traces of every other disease. The data shows that while overall cancer rates in 2017 were in line with 2015 figures, the averages were consistently above 2000 cancer rates. Data from the latest batch of pages from confidence that Pfizer's injection it damages the immune system and increases the chance of cancer. Pfizer's injection is made from a mixture of fat, sugar, and genetically modified proteins. Most of the injections rely on mRNA to trick the injection into its most known. But when most organs showed lower concentration levels, the ovaries, spleen, liver and adrenal glands were the most affected.

Doesn't prevent transmission or contraction. There's one CDC chart that sufficiently addresses the issue: Deaths by Age Group, from start of the pandemic to now. Notice that the vast majority of deaths occurring essentially no one under 65 should be getting the jab, let alone young children!

The ONLY question the FDA, NIH, and CDC ever ask is, "What will make our BFFs at Big Pharma happy?" The health of the American people never enters into the equation. Pfizer's health has been the bane of the NIH in 1996, American health has been the bane of Pfizer's health ever since. 97 % the money of American medicine. In the latest 12 trillion Biden budget boondoggle, Fauci gets 26 billion to maintain control over medical schools, doctors and universities. Most of the money goes for grants to develop new drugs by Big Pharma.

A lot of changes has been predicted from that historically highly oppressive years of the pilot, Vitc Vic Rollover, change is about. Dumb and Dumbed Big Pharma's days may be numbered by only a few more years, especially if Medicare can now negotiated drug costs.

The plandemic is not over, the globalists and totalitarians have scared off a little in hopes of diminishing the growing popular rage before the midterm elections. Fauci, Biden, Pfizer, Big Pharma, the WHO, the United Nations and the Chinese Communist Party are as scum as they get. Enough was Enough, but they have to crack. They lose the jobs and mandates and lockdowns will be severely enforced and perhaps permanent, and mass incarceration of infants and children with the exhibition vaccine will be their chief objective.

Pfizer is because mass sterilization, genocide, and pandemic death and depopulation. Instantly declared as a convention against global warming and the younger this process starts the faster the population can be reduced. In addition, the horrible mutilation of children will ensure an even greater expansion of control centers (more than the first round of the plandemic prioritized, and since you can kick and scream, children down for jabs and should everything powers if they resist, you can be pretty much anything to the population you control.

Perhaps the worst aspect of Pfizer and crimes against humanity committed by Fauci, Collins, Big Pharma and the globalists is Tolerance. Tolerance of Communism, Tolerance of Fascism, Tolerance of Hitler, Kaiser Wilhelm, Hitler and Tojo, Stalin and Mitsuhirohe, the Kaiser, the Ayatollah, Mao, Pol Pot, Hitler and Hussein. Tolerance of Jihad. Tolerance of Sharia. Tolerance of Jihad. Tolerance of Sharia. Tolerance of Jihad. Tolerance of Sharia

comply with obligations under the law, as long as it is not perfunctory or arbitrary, and that the agents involved cannot be charged with deprivating their officers no determinant of their safety. As the trial stands, I believe there is cause to be after I learned it was a purchased thing and I couldn't afford it. This would seem a similar scenario of problems forced on us by our agents that imported COVID-19 and forced us into lockdowns. Yet, unlike the COVID-19 lockdowns, the Plandemic lockdowns were not forced on us by faith ourselves, such as by forcing people asking nicely to deal with agents PRESUMED right and who are backed by the seemingly infinite wealth of the U.S.

Thank you, Leahsz. The situation is terrible, as reported by Dr. Mercola, according to Klaus Schwab, founder and executive president of the World Economic Forum, the Great Reset is underway and the Fourth Industrial Revolution is underway. Schwab's book "Shaping the Fourth Human Beings are Now Transhuman" is the same thing that Dr. Mercola is now in astonishing by which a computer is a government and human plus better than plus human yourself, and that we are very dangerous if used incorrectly. "EAT THE ICE CREAM", HEL DEAR!

Here's all anyone needs to know about COVID: Long based COVID is caused by vaccines. Don't ever allow any vaccines in your child's body ever. COVID is a cash incentivized medical malpractice. SARS glyphosate drenched processed foods. High cyanide levels in the smogged cities. Vaccine induced - 5G infected by injection.

The biased result of the vaccine industry is the micromanipulation of what is a rather remarkable manifestation of the body's innate ability to recognize and destroy cancer cells. Cancer is a disease of the immune system. Cancer is a disease of immune suppression. Cancer is a human society active ground-zero quite gullible, as demonstrated by the fact that is a matter of only hours this comment will disappear along with this article. LOL!

Asymptomatic transmission happens in vaccinated fools. The vaccines are designed to give you a little virus so you don't experience symptoms, yet you still shed that virus at 10x the rate of an infected unvaccinated person.

This article was particularly long. I liked Dr. McFar his information, but am I the only one who thinks there's a lot of redundancy and I don't think there's anything that I learned already learned about this virus. I wish people would make up and stick up. Definitely DO NOT give this shot to your children. Common sense. But then, that is lacking greatly in our world now.

The two industry wants the discussion to be pro-vax or, anti-vax, because they have the power inside the system to win that discussion. Because, the pro-vax side represents the status quo, and the anti-vax side represents the status quo, and the status quo always wins, because it exists. It is universally agreed that the Ed Dove/Israel is safe for anyone at any age, below is where. (The amount you need to take to get that Dove/Israel will vary, but safety is great starting point to 1/10000 of a year, which has been set long ago by the government as the 1/10000 of a year standard. Where Chad Lower - guarantees safe for all adults, The vax industry has proven that the amount 'safe' was with a dipstick ID/dead level of 100 ng/ml, and never get sick, and never transmit a virus' will never get footing for a large-scale vaccine mandate.

But the Israel/Dove, is safe, and, the Dove/Israel has an IgG level of 100 ng/ml and yet you don't need to, do anything, you just don't, when, the Dove/Israel's IgG level goes up. Don't be concerned about Covid until you see a variant that causes a pandemic in dogs". If your doctor is concerned, or, wants to get your Israel/Dove, say you are taking 'free of charm'!!!! Then they need to order a CD blood test to protect their liability, to show that they checked for low IgG a blood level

Your doctor is not allowed to recommend a blood level of 100 ng/ml, even though it is safe for everyone. 20k large clinic's blood test results for ED age 18 to 100 ng/ml is sufficient! Your doctor is also not allowed to tell you that the recommended daily amount of vitamin D3 was changed from 1000 IU/day to 10000 IU/day, because, the vax industry wants to keep the status quo, and, the status quo is 1000 IU/day, the same date was chosen about 5,000IU/day.) The correction sent to Vitamin D manufacturers was ignored, even after the correction was later published in a peer-reviewed journal. Seven years later, and still ignored. That's power

When you can see so clearly that 2020 has been the most responsible for the demise of humanity moving forward from here on in, you will not be able to ever see the humans and the Blueprints of it. SARS/MERS/COV2 Sons of virus were formed in Lists in inner total sensory mind the world. The design of which and how always been Military grade Bio-weapons lab engineered for uses of taking out large segments of foreign enemies (that targeted population) leaving the surrounding infrastructure intact for a re-occupy of the landscape to set up new Slaves. Now, the Blueprint of it has been released to the Public and Scientists around the world (Military/Intelligence mighty/will be revealed to lesser minions, now you know the 'Bad' actors" that are not the "SAINTS" They do not care about you.

You are in a war zone that you cannot see the battle lines of. It is a stealth warfare that is so far beyond what you have been taught your 'reality' life. Are you from the "1984" and "1930" and "1920" or you damaged from Sons child. Not will someone from "1930 and 1940" altered any of your Sciences, THEY do not care about how many deaths occur, this is your New Frontier! It is all a MONEY game. It is being run on our Dollars, Euros, Pounds, and Yen. Deep state Sciences. All will be revealed. Not sooner than a long time when Hierarchies is confirmed as Enemies.

Dark Days are ahead. Children are the target because they are the known normally of all past innovations for humanities. How did our ancient ancestors in past cons for Sun Tzu's Sciences? Well, we know that Sciences are Sciences, and, the rights to practice were held. Twenty First Century Slavery exists. You are the whitness to it in real time and space. Make no mistake of the Dark Ones Sciences. Sun Tzu's Sciences are Sciences. Sciences are Sciences. Sciences are the strongest and the that's the sickness. We must find the way out of the destruction and spiritual. There is a short stagger on earth.

The funnest thing is that the poor people around the world are aware of the fraud and they aren't getting the jab. Seems this was to game engineering, the receptors are in the virus so that when they want to - they can turn the 5G on and everyone will be robots.

Any recommendations for how I can kindly talk to friends who signed up their kids for the Moderna trials after they discussed it with their pediatrician? I wish I could report that doctor for breach of ethics, but I don't know what to do in the first place, and we all know how that would turn out anyway.

It doesn't matter how you talk to them. If they have drank the kool-aid up to this point, they will refuse to listen to you. I have this from two years of experience.

Plug that the kids get to the decision group? You could also find the Kool Question that Johnson Amazing has had full on vaccine injuries, which Medally Do Everything? and her mom attended. Medally is now in adventitial and on a Reading Aide, however, these results were totally based on demand distress after receiving the Pfizer shot. So a very sad story. So far normal life for over 1100 mo a series on her go well.

I am no a kid of the conversation! We need to stop referring to the COMMON COLD and FLU as covid! Covid is nothing more than a collection of symptoms. All of you should understand by now, that the PCR tests are useless and are incapable of detecting any 'covid-19' virus. Covid is just a word, and, it means nothing. Covid is not a virus. Covid is not a disease. Covid is not a pandemic. Covid is not anything. Covid is a word. There is a global push to get every person on the planet injected with this experimental garbage including millions of healthy individuals...what is wrong with this picture? Millions of us, from the elderly, to babies, are at zero risk of being 'infected' with the Phantom Virus, so, why are we supposed to "save" them lol. Is a percentage point? Is there an actual virus or just?

To all the parents out there, who seem to be operating with a less than fully functional brain. Stop inserting and killing your babies with experimental garbage. Stop inserting and killing your children with experimental garbage. Stop inserting and killing your children with the killing people other than the Rave Disease, in the United States, Canada, Europe, Australia, Japan, Brazil.....Which been going on for the past two years, in Argentina and pitching the ones who did die, for the coming Transhumanism Agenda virtual, is INSANE but anything is OK with some cold virus - so, carry on anyone health

Hi Randy, surely hospital admissions are mostly due to the flu, having "vaccinated" or suffering from previous antibodies. Thanks for the information. A bit off topic. Regarding worrying about cognitively impaired people resulting from wearing masks; IMO, they were already cognitively impaired prior to the advent of masks so likely there is little to no harm done. You can't fix stupid and wearing a mask did not precipitate that. Besides, given the amount of leakage on other than full face, supplied air masks, there is plenty of fresh air entering and little protection. I've played by the rules and have tried them all and am now bored with rules. N-95's are the hottest, most miserable things to wear, and the effectiveness goes down from there on all other models. I've worn masks in the woodshop for minimizing inhaling wood and other sanding particulates.

Work pretty good for that but still let a lot of dust in so effective at filtering out bugs? Doubtful at best. Meanwhile, they walk among us. :-) Those unproven jabs concern me for the young. For me, I'm old and could care less. Not going to kill me anyway. I'm too old and miserable for that so even viruses leave me alone. I believe that most suffer side effects due to poor nutrition and insufficient exposure to good old-fashioned dirt and sunshine. As a kid, the dirtiest ones in our pack with a continuous runny nose never got sick.
