STORY AT-A-GLANCE

- Dozens of peer-reviewed studies show that when COVID-19 is treated within the first few days of symptom onset, there's an 85% reduction in hospitalization and death
- With Omicron, we have been gifted a best-case scenario. The highly contagious virus can rip through the population, causing only mild cold symptoms, thus producing herd immunity without the risk of mass casualties
- Two months before the rollout of the COVID shots, the U.S. Food and Drug Administration was aware that they could cause serious problems, including heart attacks, strokes, myocarditis, blood clots, neurological problems and more, yet they pushed them anyway
- Dr. Vladimir Zelenko believes SARS-CoV-2 is a bioweapon. Patents spanning two decades support this view. Those who created the weapon also investigated and identified antidotes, which includes the zinc ionophore hydroxychloroquine
- The antidote to COVID was intentionally suppressed to encourage people to get the COVID jab, which Zelenko believes is a tool to tag people for the New World Order slave system

Dr. Vladimir Zelenko, whom I've interviewed twice previously, was among the first U.S. physicians to develop an early treatment program for the novel SARS-CoV-2 infection. He popularized the use of hydroxychloroquine and zinc, and when hydroxychloroquine became increasingly difficult to obtain, he was also among the first to identify quercetin as a viable alternative.

When the pandemic started, Zelenko was practicing in New York. He has since moved to Florida, where he's been giving interviews for several hours a day, trying to spread the word about early treatment and prevention. As noted by Zelenko:

> *"It's a very treatable infection — or should I say bioweapon? — if done within the first few days, because COVID is two diseases. It's the infectious stage of the virus, and then a week later, you have the pathogenic inflammatory reaction that does all the damage to the lungs and causes blood clots.*
>
> *So, it's all about timing. And the data is very clear. There are dozens of peer-reviewed studies that prove if you treat COVID within the first few days, you have an 85% reduction in hospitalization and death. It's a no-brainer. You could have saved 700,000 people from going to the hospital out of 800,000."*

While licensed to practice medicine in Florida, Zelenko now spends most of his time educating the public and other doctors. He's also available via telemedicine, but his passion has become researching and developing simple, natural approaches to complex health problems — including his own.

The Road Less Traveled

Zelenko has a rare type of cancer called pulmonary artery sarcoma, which is typically fatal. He's also undergone two open-heart surgeries and three years of chemo and radiation, none of which has resolved his problems.

> *"Almost four years ago, I was diagnosed with pulmonary artery sarcoma. There are only 10 cases on average per year, and they're all found at autopsy. In my case, they thought it was a blood clot that didn't respond to blood-thinning medication.*
>
> *So, the decision was made to do an embolectomy, open my chest, go into the pulmonary artery and take out the blood clot. But when they did that, they saw it was a tumor, and it had completely destroyed my right lung. So, I lost my right lung. And they resected a large part of the pulmonary artery and had to reconstruct it because you need that artery to live.*
>
> *Then I was in chemo ... I was pretty good for two years, and then it came back and had spread to my hip as well. And so, I had another open-heart surgery. They had to replace one of my heart valves, pulmonic valve. Then I went for radiation to my hip [followed by] really heavy chemo.*
>
> *After two months on that, I went into congestive heart failure and developed cardiomyopathy ... I recovered from that, and was put on heart failure medication ... A month after that ... I developed COVID pneumonia ... I was pretty sure I was going to leave in a box, yet I recovered.*
>
> *A few months later, I went for another CT scan, and they found, again, the tumor was back in the pulmonary artery, but this time, no doctor wanted to operate on me. A third open-heart procedure is very dangerous. They estimated more than 50% likelihood I would die on the table, which I didn't like. So, I ended up having pretty intense radiation to my mediastinum, where the tumor was.*
>
> *That's when you came into the picture, in terms of advising me about treatment. I ended up having immunotherapy in Europe for two months with checkpoint inhibitors, but also hyperthermia and mistletoe injections, and alpha lipoic acid, high-dose vitamin C [infusions] and different other modalities. And I feel better than ever.*
>
> *I had a CT scan last week, and it showed the tumor shrank by one-third. I spoke to the radiation oncologist who told me that a good result would've been the same size or smaller. It takes years to resolve. So, time will tell, but it's easier for me to walk, and hemodynamically I'm more stable, and I feel good. Amen."*

The Surprising Role of Immunotherapy in Cancer

Overall, the "COVID story has completely changed the way I look at life," Zelenko says. When he saw how natural, effective, over-the-counter solutions for COVID were suppressed, while experimental gene transfer shots were pushed, he realized other treatments might also be suppressed, such as cancer treatments.

> *"Probably, effective approaches were marginalized in lieu of the more expensive pharmaceutical approaches,"* he says. *"I'll give you one example. Dr. [William] Coley was an oncological surgeon who lived around 100 years ago, maybe 120 years ago. He noticed that he would operate on his patients, and the tumor would come back and they would die. And then he observed something very interesting.*
>
> *He had a patient with pancreatic cancer, Stage 4, inoperable. That patient got very sick with an infection and became septic. He almost died, but he recovered and his tumor went away. He noticed that type of phenomenon a few more times, and realized that there must be some immune reaction, immune response to the infection that wakes up the immune system to also attack the tumor.*
>
> *So basically, in my opinion, that was the birth of immunotherapy. Fever seems to play a role. It seems to have antitumor properties, as well as activating certain parts of your immune system. So, it's fascinating. And that information was buried for a good long time — 50, 60 years — until some doctors rediscovered it and started doing research. And I benefited from that in Europe."*

Hyperthermic Treatment for Cancer

We've come a long way since the days of Coley, who used toxins to trigger infection and fever. Today, hyperthermic treatment is used instead. Basically, it's all about raising your body temperature to about 104 degrees Fahrenheit for four to six hours. Zelenko describes the treatment he underwent:

> *"It was quite an experience, having a temperature around 40 Celsius, let's say 104 degrees Fahrenheit, for five hours. You become a little loopy and a little anxious, but I drank a lot of fluids and had a nurse with me all the time. It was a pretty interesting experience.*
>
> *There were whole-body hyperthermia machines and localized hyperthermia. Both are basically a fancy sauna. It was like a spa actually. I did enjoy the treatment in most cases."*

As an aside, I sincerely believe sauna bathing is one of the most powerful biohacks available. I do it four times a week. I get my temperature up to about 102 degrees F. or so, for 20 minutes. I've found it to be a profoundly effective health habit to nip infections in the bud, and may also help put the brakes on any potential malignancies. I am currently using a prototype full-spectrum SaunaSpace sauna that is EMF-free, has eight 250 watt bulbs and will likely be available later this year.

Omicron Is Unstoppable, But Not To Be Feared

Getting back to the issue of COVID, over the past two years, the SARS-CoV-2 infection has gone through a number of changes. Omicron, for example, is far more contagious, but has far less severe symptoms. As noted by Zelenko:

> *"Omicron is unstoppable. It's more infectious than measles. Everyone's going to get it. Sorry, but that's the case. However, it seems to attack only the upper airway in most cases, and there are very few deaths. It's very responsive to treatment as well, so there's no reason to be afraid of it."*

In fact, we appear to have been gifted a best-case scenario, in which a highly contagious virus will rip through the population, causing only mild cold symptoms, thus producing herd immunity without the risk of mass casualties. "When two-thirds of the population gets through it, it essentially shuts down the pandemic," Zelenko says.

Vaccinating During a Pandemic Breeds Variants

In the interview, Zelenko explains how the many variants we've seen have probably been a result of the mass "vaccination" campaign.

Three respected immunologists, Dr. Luc Montagnier (who won the Nobel Prize in 2008 for his discovery of the HIV virus), Dr. Sucharit Bhakdi, the most published immunologist in history, and Dr. Geert Vanden Bossche, a top immunologist in The Netherlands, have all warned that when you mass vaccinate in the middle of an active outbreak, you cause variants to emerge.

> *"You exert evolutionary pressure and breed more varying viruses,"* Zelenko says. *"Now, there are two or three possibilities. One could be that it was unintentional. Good, well-meaning people developed what they thought would help — a vaccine. However, giving it to people during a pandemic has been an absolute failure. 'Oops, we're sorry.' That's one possibility.*
>
> *The other possibility is that whoever has orchestrated this knows exactly what they're doing, and they are doing it on purpose to maintain the new variants and the consequences of that, which is essentially a psyop [to cause] a global psychosis due to fear, lockdowns and wearing a face diaper.*
>
> *There's one more possibility. There's no dispute; everyone who knows the facts and has studied the issue knows that COVID-19 is a weapon made in a laboratory. Gain-of-function research is nothing more than making a weapon of mass destruction and genocide, and there's a patent trail 20 years long that documents the different stages of development of this weapon.*
>
> *And here's my supposition. I have no evidence of this, but I could say the following: If I could make the original virus, I could make variants. It's very easy. You just change a few sequences of the code that goes with the spike protein. You change its three-dimensional shape, and if you do it enough, eliminate existing antibodies.*
>
> *So again, I don't have evidence for that, but I do have evidence that [SARS-CoV-2] is an artificially-made bioweapon. So why wouldn't it be possible to make variants the same way? I think it's kind of a combination, multifactorial cause of variants — the natural God factor, the evolutionary pressure exerted by vaccinating people during an active pandemic, and then just outright making them."*

Antidotes to the Bioweapon Were Developed Beforehand

Zelenko goes on to recount a relatively recent realization. Back in March 2020, he saw a MedCram video, episode 34,[1] in which Dr. Roger Seheult explained some of the principles that he then ended up building his COVID protocol on. Seheult specifically quoted a paper that explained the functioning of zinc ionophores.

That mechanism is what Zelenko relied upon when developing his own protocol. However, he didn't realize until December 2021 that the author of that central paper was Dr. Ralph Baric. Why does that matter? Zelenko explains:

> *"In 1999, Ralph Baric, funded by the U.S. government, at the University of North Carolina at Chapel Hill, figured out how to take an animal virus and have it be able to infect other species, different animals, in other words, cross-species infection.*
>
> *In 2015, the same Dr. Ralph Baric, and Dr. Zhengli [at the Wuhan Institute of Virology in China], funded by the National Institutes of Health, figured out how to make a corona bat virus infect human beings, and augmented its lethality to human lives. That was in 2015. But in 2010, Baric published that paper that I'm referring to.*
>
> *So, the development of the weapon happened in stages, but before it was unleashed onto the human population, or the development of it being able to infect human beings, an antidote was made. Research paid for by the government was published.*
>
> *The same people that made the bomb, let's say, also created the antidote to diffuse the bomb. And then, when the pandemic arrived, doctors like myself, out of necessity, came up with creative solutions, based — in my case, unknowingly — on this work. And immediately, that information was marginalized and suppressed, and doctors were deplatformed for advocating for it.*
>
> *So, the government who made the bomb also knew about the solution. And the reason why is they didn't want to die. The stakeholders here don't want their families to die. But for you and for me, they have a different agenda. So, they had that information.*
>
> *I have knowledge that the Google executives are all taking hydroxychloroquine and ivermectin for prophylaxis, as is half of Congress. And so, the people that have orchestrated this knew the answer, and use it for themselves. Even doctors know the answer for themselves.*
>
> *They prescribe [these drugs] for themselves, or they call me. But when patients come, they say there's no treatment, go home, take Tylenol. So, this is mass murder."*

The COVID Jabs — Another Crime Against Humanity

In addition to killing untold numbers of people by denying and suppressing early treatment options, governments around the world are also killing people with the COVID jabs. A year into the aggressive campaign to inject as many people as possible, it's likely the shots have killed more people than have died from the infection. It's very difficult to tell, unfortunately, because the data are so seriously manipulated.

> **"In 2015, Bill Gates said that the world population needs to be reduced by 15% through the use of vaccines because of global warming. The same Bill Gates in 2020 said 7 billion people must be vaccinated. Why would I take a vaccine for my health from someone who's advocating the use of vaccines to reduce the world population? ~ Dr. Vladimir Zelenko"**

Zelenko estimates somewhere between 500,000 to 1 million Americans have been killed by the shots to date. Disturbingly, the U.S. Food and Drug Administration was aware that the shots could have serious consequences, yet they pushed them anyway. What's more, they refuse to address the mindboggling number of adverse events reported to the Vaccine Adverse Events Reporting System (VAERS). The safety signal couldn't possibly be clearer.

> *"In October, 2020, two months before the vaccine rollout, there was an internal presentation in the FDA to its scientists, and on slide 16 of that presentation, there was a list of side effects: death, heart attack, stroke, blood clots, horrific neurological diseases, myocarditis and many, many more,"* Zelenko says.
>
> *"Now keep in mind, this is two months prior to the rollout. After the vaccines were rolled out, and a few months into it, when the VAERS database started showing the side effects that people were experiencing, there's a 100% correlation with what that slide said would happen, and what actually happened to human beings.*
>
> *That is premeditated mass murder. FDA knew exactly what it was doing. They knew exactly the side effects, and they released it anyway ..."*

What's the Real Agenda?

Why would the FDA behave this way? Why aren't they safeguarding public health from a clearly lethal treatment? And on the other hand, why aren't they allowing doctors to help people with early treatment? Zelenko explains:

> *"In the mid-'90s, it became obvious that the American economy was doomed. The Medicare and Social Security systems would become insolvent, and that would cause a tsunami-like effect nationally and internationally. And it was unstoppable. It was [mathematically inevitable].*
>
> *Medicare, according to Congressional Budget Office, in 2027 will begin the process towards bankruptcy. So, security as of today [will last until] 2034. Now, the major stakeholders in the world economies saw an existential threat. They understood that their power and wealth was in real jeopardy.*
>
> *And so a plan was developed, which was beyond the technology at that time, but the technology was being developed. So, for example, the Human Genome Project was mapped and completed.*
>
> *Then CRISPR technology was developed, which is gene editing or gene splicing in very precise ways. That was sold as a way to cure genetic diseases. There's a defective gene. You can just cut it out and splice in, cut and paste, basically, a healthy gene.*
>
> *That's the upside. The downside is that it creates possibilities to do gene editing for nefarious reasons. In 2015, Bill Gates said that the world population needs to be reduced by 15% through the use of vaccines because of global warming.*
>
> *The same Bill Gates in 2020 said 7 billion people must be vaccinated. So, the obvious rhetorical question is, 'Why would I take a vaccine for my health from someone who's advocating the use of vaccines to reduce the world population?'*
>
> *In 2016, Klaus Schwab, in an interview said something very strange. He said that within 10 years, by 2026, every single human being will be tagged with a digital identifier. What does that mean, and why?*
>
> *Let's go through the sequence of events. A bioweapon is made with an antidote, which is being suppressed and hidden. [The bioweapon] is released. It's extremely easy to treat. However, that information is being suppressed, and access to those medications is being suppressed, and doctors who are advocating for it are being persecuted.*
>
> *Anything that seems to give people hope, lessen anxiety, encourage reintegration with your loved ones seems to be immediately vilified, even early intervention. If you look at the NIH, they recommend, as of today, not to treat COVID unless they're in the hospital with lung damage. Don't do that.*
>
> *And so, I was wondering, what is really going on? And why this incessant push to vaccinate everyone? Why jail doctors for using meds at work? Because it encourages the vaccine hesitancy.*
>
> *Then I realized something. There were two patents that I became aware of. They're separated by a year, but they're linked in the puzzle, in the concept. One was August 31, 2021, that describes ... nanotechnology engineering.[2] It basically describes the following:*
>
> *That there is the capability, the technology, already existing, in these vaccines that allows for the measurement of biometric data, meaning your heart rate, your respiratory rate, temperature, and then the transmission of that data with your location to a third party.*
>
> *That didn't even make sense to me. Like what? But then I realized there's another patent owned by Microsoft. This one I remember by heart. It's an international patent, WO2020060606. You can't make this stuff up. That patent describes linkage of biometric data transmission to cryptocurrency.*
>
> *Then I got it. And by the way, 2026, when everyone's supposed to be tagged with a digital ID, let's call it an internal Auschwitz tattoo, is a year before the beginning of the insolvency of Medicare and the beginning of economic collapse. And so, the real agenda has become obvious to me.*
>
> *It's never been about health. COVID-19 is easy to treat. It was always about using fear and mass psychosis to get 7 billion people to willfully get injected with the technology that would permit them to participate in the new cryptocurrency-based system, the system that the world will use for finance.*
>
> *Fiat currency and all the traditional ways of transactions will be gone. The only way that you actually will be able to participate in transactions, of buying bread, let's say, is having a transmitting sensor of information with your location. It's the mark of the beast, if you really want to know. With that, you can then buy bread for your family ...*
>
> *Gates and Schwab [are] both talking talk about how these vaccines change who you are. What does that mean? They explain it. [With] the gene editing technology, they are making the human better. That's transhumanism. I call it Human 2.0. Human 1.0 is the version made by God. We are imprinted [with God] in our genetic code. We're made in the image of God because we have his code in us.*
>
> *Now, would you give Bill Gates or Klaus Schwab the password to your home security system? Why would we give him access to our genetic code? Human 2.0, in the demented, depraved, deranged minds of these people is the next step up in the evolution of human beings. And I'm saying that if you allow that to happen to yourself, you're no longer made in the image of God. You're made in the image of Bill Gates and Klaus Schwab."*

A Ploy to Tag Us for the NWO's Slave System

So, in summary, Zelenko believes that everything we've experienced so far — the aggressive marketing of the shots, the coercion and threats made to get as many injected as possible — has all been a ploy to "tag" as many people as possible in preparation for the New World Order's cryptocurrency system, which will be managed by a small select group, and used to enslave all of humanity.

As noted by Zelenko, the World Economic Forum has publicly announced that by 2030, the U.S. will no longer be a superpower, and a few countries will be in charge of global governance. Now, how do you destabilize an economic engine like the U.S.?

> *"You create a pandemic,"* Zelenko says. *"You lock down middle class businesses, small businesses ... But you leave Walmart and Home Depot open ... It's a wealth transfer from the middle class to the people in power. It's a robbery, basically.*
>
> *This is one big attempt at enslaving humanity. It's a brilliant plan, by the way. It's evil, but it's brilliant because slavery has always been the most lucrative industry and asset throughout human history. Now is no different. And so, you have a few sociopaths who believe in their immortality and think that they'll transfer their consciousness to some cyborg, enjoying the whole world as their playground."*

Zelenko goes on to discuss the statements inscribed on the Georgia Guidestones, a huge granite monument erected anonymously in a small town in Georgia, which lays out 10 commandments. The first one is that the world population should be reduced to and maintained at 500 million. If the COVID shots continue, it's not inconceivable that the human population might be reduced to that size.

The Why Behind the Genocide

A few months ago, Elon Musk debuted his humanoid robots, saying that since these robots will eliminate 90% of the workforce, we therefore need universal basic income. This too is part of The Great Reset plan, which embraces both technocracy and transhumanism.

> *"Keep in mind that in the minds of these people, we're not made in the divine [image]. We're cockroaches. And they're not going to throw endless universal income resources at cockroaches for too long. They'll do it initially to identify the useless eaters, and then they will be liquidated. This has happened before.*
>
> *Just 80 years ago you had the Nazi ideology based on eugenics, which created three classes of people. You have the ubermensch, what Nietzsche would call Superman. Then the mensch, which is the human, and then the untermensch, which is the subhuman. In the [Nazi] model, the [Nazis were] Supermen, descendants of Aryan gods. That gave them the power to enslave others.*

So, for example, the Anglo-Saxons, basically Europeans, were meant to be slaves to the Aryans. And the subhumans, which I belong to — Jews, gypsies, Slavs, handicapped, political prisoners — we were meant to be vaporized, become dust.

That ideology did not go away. It resurfaced with the nuance that is not antisemitic right now. In a kind of an abstract way, we're all Jews this time, because the hierarchy here is not based on religion or identity, but rather on the deranged belief that they've evolved, the Superman of this generation, into a higher level of consciousness.

They're woke and they understand and are enlightened about the nature of the human condition. They're custodians of the planet, and therefore it's their responsibility to make sure the planet has solvency, that it continues to exist. And therefore, we have to reduce the world population."

Cause for Optimism

While humanity is in a most precarious situation, Zelenko is optimistic about the future.

"I'll tell you what I really think is going on," he says. *"There's what we see, and then there's the, let's call it spiritual physics, at play. Karl Jung, the famous psychoanalyst, wrote, 'The moral degradation of society begins with the degradation of the individual.' From that, we can actually learn that moral improvement of society begins with improvement of the individual.*

We, as a society, over the last 50, 60 years, have made some very bad choices. For example, we've desanctified or defiled gender roles ... Marriage has lost its sanctity. The unborn are being massacred. In the Bible, there are two cities that were destroyed, Sodom and Gomorrah, and there's an analysis why that happened. It wasn't because of the immorality, because the whole world was immoral.

It was because they codified immorality into the law of the land. That's exactly what has happened in [the U.S.] We've devolved ... We worship the God of science, the god of technology, the god of money, god of power. Anything but [the true] God. And we are clearly practicing child sacrifice.

Dr. Michael Yeadon, former VP of Pfizer, told me personally, and then he actually publicized it, that for every one child that dies of COVID, 100 die from the vaccine. The [COVID shot] is 100 times more lethal to children than COVID. What do you call that? That's child sacrifice.

So, I feel that, by way of analogy, we're in the generation of flood. The house is going to get cleaned, and each individual is given a choice to get on the ark or not.

Or, to make it simpler, who do you bow down to? Do you bow down to your creator, who makes you in every instant of time? Do you ask [God] for fortitude, endurance, strength, resolve, the ability to deal with the unknown and fear? Or are you going to give in to the fear and bow down to corrupt sociopaths, oligarchs, corrupt governments, and the false promise of the golden calf of these vaccines?

Because at this point, in this country at least, no one's holding you down and putting a needle into your arm. The majority of people, they want to travel by plane. They don't want to lose their job. They want to go to school. It's all these kinds of quality of life decisions. In other words, in a normal society, the parents sacrifice for the well-being of the children. In pagan societies, we sacrifice the children for the purpose of the adults."

Peaceful Civil Disobedience Is the Answer

So, what's the answer? Can we stop this transhumanist trajectory that threatens the very core of what makes us human? Can we prevent this plan for our enslavement from coming to fruition? Zelenko believes there is a way, as do I.

"The answer is we need organized civil disobedience. Do not comply. They can't imprison everyone. They can't fire everyone. They can't expel everyone. They can't lock down everyone. There's many more of us than them. And actually, let me speak to the military leaders, to the police, to people that are charged to protect society.

You also have children. You also have parents. And we are relying on you to do what's best for the citizens of this country, to protect us from all enemies, foreign and domestic. All we need to do is to coalesce with like-minded people. Take your kids out of school. Homeschool them. You can teach them morality.

The World Health Organization came out with an edict that if your kids go to school, that's implied consent for the vaccine because you could have not sent them. And since you sent them to school, that's implying that you're consenting for them to be vaccinated, even without your knowledge.

Basically, we have to make small pockets, like cities of refuge, in a sense, of like-minded people; create an alternate society; do commerce with ourselves. I know there are forces really working hard to create an alternate cryptocurrency or blockchain system that is decentralized and would allow for people who don't want to be tagged with a digital identifier to transact with each other."

As noted by Zelenko, it's becoming more and more obvious that the pandemic measures were never about protecting us from COVID. It was always about creating a new world order. It was about setting the stage for a Great Reset to "Build Back Better."

But better for whom? The Build Back Better plan is about building "a society run by a few sociopaths and the rest of us enslaved," Zelenko says. The good news is that more and more people are now starting to see this plan, and "once that realization reaches a certain threshold of people, countries are going to change and fall like dominoes," he says.

As for when we might get our freedom back, that depends on us. As noted by Zelenko, "freedom isn't free." We were free (at least up until 2020) because our forefathers had the courage to confront tyranny. If we want our children to be free, we now have to display that same courage.

"Whether or not our children will be free depends on whether or not we are ready to sacrifice," Zelenko says. *"Are we ready, in this generation, to pay the price to ensure that our children thrive in freedom and have the ability to maintain God consciousness?*

It's going to happen. The unknown variable is to body count. I would hope that this interview reaches the consciousness of every single human being. People must choose to say no from this point on."

As Dr. Mercola reports, we are on the agenda of slavery and the loss of the human condition ruled by God. Everything was planned. The Great Reset refers to an Orwellian globalist agenda to redistribute wealth, monitor and control the entire world through digital surveillance, and require everyone to have an electronic ID linked to bank accounts and health records. The so-called COVID-19 pandemic is part of the Masonic plan of the New World Order and is being used as an instrument of the "Great Reset". Vaccines against COVID-19 will serve to control people and solve overpopulation.

The Rockefeller Foundation devised a scenario called the "Lock Step" that appeared in a document titled "Scenarios for the Future of Technology and International Development," with more authoritarian control and leadership during a fictional response to the pandemic to which various nations they emulated the extreme measures taken by the Chinese government. the Rockefeller Foundation, wrote a 77-page book in October 2017 titled "The Spars Pandemic 2025-2028. Bill Gates Bill Gates, who is a eugenicist and advocate of drastic population reduction, promoted global "vaccination" in response to the declared "pandemic. The history and risks of vaccines are described at the link, www.lifesitenews.com/opinion/the-carefully-planned-step-by-step-guide-..

Countries from around the world are represented in the World Economic Forum's latest crop of 112 potential globalist leaders. This class joins luminaries of the radical left such as Bill Gates, Jeff Bezos, Peter Buttigieg, Emmanuel Macron, Gavin Newsom, Angela Merkel, Jacinda Ardern and many others. The Young Global Leaders are made up of "more than 1,400 members and former students of 120 nationalities" trained to be in WEF. The "Fourth Industrial Revolution" "is nothing more than the implementation of transhumanism on a global level", it is the vision of Klaus Schwab to remake the economy and global humanity, so the launch pad is the "Great Reset". The vehicle for the Great Reset, of course, is the coronavirus pandemic. www.lifesitenews.com/news/transhumanism-expert-exposes-liberal-billion.. THE 2020-22 WORLDWIDE CORONA CRISIS: DESTROYING CIVIL SOCIETY, ENGINEERED ECONOMIC DEPRESSION, GLOBAL COUP D'ÉTAT AND THE "GREAT RESET" , This E-book consists of a Preface and Thirteen Chapters. www.globalresearch.ca/the-2020-worldwide-corona-crisis-destroying-civi.. (January 15, 2022) Transhumanists take science as their religion and believe in a philosophy of redefining and reconfiguring nature and the human condition, to be modified or molded to the taste of the globalist elite, rejecting those limits that nature or God have placed on us.

The abandonment of the human soul and slavery to the power of globalist elites. The "vaccinated" people will be marked as candidates for full citizenship in the next New World Order, renamed the Great Reset to give self-serving answers to the range of problems they want to dominate to satisfy their greed. The answer is they need to attribute a monetary value to each human being, based on their age, productivity and other contributions to society including their carbon footprint, making the human being a digital asset for central banks. The only privileged ones will be the globalist elite who travel to Davos and climate change summits in their private jets. The fight against this barbarism must prevail. United We'll overcome. Well said Gui, but why do world leaders go to see Klaus Schwab? How he got so much influence? Schwab is working on this for decades. ~~ Btw. another dr Mercola article today is about fear, but it is a repeat from 1/2/2022. It got 298 comments, but not from you. What you think of it. And talking about fear, this is also in The Polyvagal Theory? Do you know anything about it?

PeteSmith,...there is a plethora of books on polyvagal theory and its interpretation these days. If I wake up with mild or severe hiccups most mornings, what does that mean? The "polyvagists" are telling me there's something going on in one of the two branches of my vagus...so it will become a detective regimen now

Great synopsis, Gui. Anyone who follows my posts, knows that I've been talking about many of the same truths that are contained in this article. People who are not capable of thinking outside the box, will never be able to connect the dots. Why do you think that the DHS bought up over 2 Billion hollow point bullets, a few years ago? I've remained firm on a few points, from the beginning of this Global Psyops: 1. What's going on here, was conceived decades ago. They even referred to it as "The Perfect Storm". Whether a viral attack is real, or imagined; it doesn't matter. It's the fear that will allow the agenda's to be rolled out - unchallenged. 2. This insanity was never about a virus. 3. Covid is a weapon of mass distraction and a means to an end - Transhumanism! 4. They are now changing the "Pandemic" into "Endemic". I stated from the very beginning that the "measures" would not only continue; but they would escalate. What are we seeing right now? Here's the last interview that filmmaker Aaron Russo did...connect the dots! tapnewswire.com/2022/01/aaron-russo-exposes-the-global-elite-central-b..

CMT..."polyvagal" refers to the two chains of the autonomic nervous system...simply a balancing act between sympathetic and parasympathetic branches and associated hormonal response...Sympathetic being the primitive egoic fight/flight reaction to fear where judgement, immune activity and healing shutdown...And parasympathetic as the confidently relaxed loving, healing, meditative state of higher consciousness....Both states can turn on a dime and doubtless had great effect on societal evolution/devolution.

And yes this "satanic" takeover was prophecized, yet Jesus, Mohammad and the Buddha inferred we should seek "god" in the mirror/within/among each-other/not externally in the sky and to be personally responsible for our own lives and others. These prophets were not idols to be worshiped via organized religions but teachers/gurus/rabbis to guide us through the earthly realm. No cavalry will come! They placed the onus "on us."

Dr. Zelenko basically indicted standard medical practice as largely fraudulent "The Science" when he turned to "alternative" healing and survived. The hidden/forbidden redox protocol he apparently found might have shortened much of his journey through the swamp of tech-medicine so he learned surely and indelibly the hard way to higher ground. Nearly two thirds of the country has now called bullshit on this administration, Fauci and Gates; only the rat media continues the charade. Just hope it is not too late and scared senile Brandon, surrounded by intelligence agents and mush heads does nothing rash.

In the end, the only cure for 1984 will be worldwide 1776. There is NO such thing as a peaceful solution to the evil that is taking over our planet. People will eventually have to rise worldwide to end this and make the evil satin worshipers go extinct forever. My God Be with us..

Thanks Pete.Smith, CMT and Randall. I'm a fan of the vagus nerve but the polyvagal theory or the "science of feeling safe" is another key research advance that helps us better understand our challenges. As Randall reports, it is proposed that mammals have evolved not one, but two branches of the vagus nerve, a state he refers to as "polyvagal." The second link discusses this aspect. The oldest vagal systems that humans share with animals operate to process fear, as well as how dominance hierarchies are characterized by fear and intimidation. Humans have newer vagal adaptations for social engagement that suppress fear responses, and that human social life is characterized not only by dominance but also by prestige dynamics and autonomic regulation in the evolution of cooperation.

The neuroscientist Stephen Porges observed that we have evolved in such a way that our perceptions and reactions are channeled through three vagal systems: the first, dorsal-vagal, is shared with other living beings; the second, the sympathetic, fight or flight, with invertebrates; and the third, ventral-vagal, with positive interaction, only with mammals. In our relationships with other beings we go from one to another: from security and empathy to immobility and depression. The good news is that we can reschedule it. In the first link you can download a book. The enemy is the deep state that wants to subject the world population to its whims. This unknown situation causes consequences at all levels: health, economic, political, demographic, but, above all, it causes consequences on a psychological level. But we have the weapons that allow us to fight deception. Faced with the fear carried out by the media, possible responses can be given in human nature, depending on our personality and our knowledge of reality. To manage them, we would have to put a head to the sensation, identify it, become aware of what happens to us in order to relativize it and calm down. We are in the knowledge of true science.

Let's work on our self-esteem, strengthening with these small habits that mental and physical strength that we are going to need so much for when this deception that unfortunately is marked. by an economic crisis where many things will be different. And we must be prepared for what is yet to come. The manipulation of the vagus nerve is an excellent medicine to overcome the stress caused by fear, and to see life with greater clarity and realism, is to embark on greater happiness. We must access the conscious plane to manage fear. Now with covid we are seeing that the manipulation of people with fear is one of the challenges of any ambition for power. This is why the face of the world is always scary and why the question about fear is usually a question about power. Tell me how afraid you are and I'll tell you who you are. Or tell me what fear you need and I'll tell you what you want to use the power for.

Thanks Gui for expanding...Here's a short list of parasympathetic stimulation techniques..Conversely "sympathetic" stimulation is easy, just turn on rat-network news and the alarming cases of omicron or warmongering or inflation. Activating the Parasympathetic Nervous System to Decrease Anxiety Spend time in nature. Get a massage. Practice meditation. Deep abdominal breathing from the diaphragm. Repetitive prayer. Focus on a word that is soothing such as calm or peace. Play with animals or children. Practice yoga, chi kung, or tai chi.

Thanks CMT367, forbiddenhealing, and Gui for your reactions. CMT , I know about the books but I wanted to know what Gui thougt about it or maybe used it. Randall, that is very well expressed. Tallulah3 thats funny remark I agree with it. Gui thanks for the links about the Polyvagal theory. Yes, its about vagus nerve and got to do with stress and fear. It is also connected to the gut and brain. As you know much about the gut I thought you maybe you know more about and found something interesting. ~~ WEF use fear tactics to make us comply, so they can control us. But why those worldleaders visit WEB for years and listen to a lunatic like Klaus Schwab with his sick fantasies, is really a puzzle to me. What power he got over them?

Thanks RANDY, you always correctly and accurately expose, yes, the perfect storm precisely conceived by globalist elites within corrupt capitalism, based on executive bailouts, media manipulation and arbitrary police state intrusions. It is also based on technocracy, creating large monopolies where the workforce is automated. The new power bloc is the amalgamation of big business, the wealthy professional classes, elite-trained technocrats, and mass-mobilizing media.

Interesting video about Rockefeller and the oligarchies, that the institutions receive donations from important foundations such as Rockefeller, Gates, Ford, MacArthur, etc, is compromising the informative truth because they act as controllers of alternative and critical voices that challenge the forces of globalization. It is also part of the domain of covert government agencies, which seek to deceive and further their agendas. The culprits of this situation meet in Davos to continue with the strategies of disinformation and manipulation. All this is part of a psychological strategy to convince people of the goodness of "vaccines" as a preliminary step to mental control of people on their way to the Great Reset.

To you who comment that this was conceived decades ago, a bit of history: In 2010 the Rockefeller Plan was drafted. It is almost enough evidence to show that the government pre-planned the pandemic, with tighter top-down government control. The document argued that more authoritarian leadership is needed: it included quarantines, curfews, lockdowns and forced vaccinations. As of 2015, there is a patent application for the system and method used to test for COVID-19. The patent was granted on October 30 of that same year. Yes Brenda, the look can be enhanced by your evil thoughts, One part of Schwab's vision seems to be his wacky iteration of "synthetic biology," which has been described as "designing and building biological modules, biological systems, and biological machines or redesign existing biological systems for useful purposes". At its core, synthetic biology is an umbrella term that includes a weird fringe obsession with transhumanism, or the "merging of humans with technology." A shocking article published in LifeSite News; Transhumanists take science as their religion and believe in a philosophy of "absolute relativism" that asserts that individuals can change reality at will, and seek to "relativize the human being" and "turn him into a putty that can be modified or molded." for our taste and our desire and rejecting those limits that nature or God have placed on us".

The professor was quoted as explaining that the Fourth Industrial Revolution "is nothing more than the implementation of transhumanism on a global level". In fact, in this clip from 2016, Schwab claims that this "Fourth Industrial Revolution" "will lead to a merger of our physical, digital, and biological identities."

Yes, BIG, "God Be with us...."Interesting report: "THE WAR ON FREEDOM" " Because citizen thinking has been degraded for decades, and citizens rely on corporate-sponsored sources for basic information, it was possible, for the first time, to create a virtual pandemic, planned by the super-rich, promoted by the news sources. they own, authorized by experts from the institutes and universities they finance, and legitimized by government agencies (and international institutions like the World Health Organization) that have been radically privatized."

"Those unseen forces now feel free to demand of us, without any accountability to science, that we have whatever substance they offer injected into our bodies as a condition of the right to attend school, find employment, or receive medical treatment.....That process is executed as an invisible dictatorship that controls a distracted, confused and unfocused population, drowned in connectivity." "Nothing will get better until citizens recognize that the cause of this nightmare.... it is the end of the self-sufficient and informed citizen with access. to the writings of experts with a deep commitment to the scientific method and ethical principles."

Graphene Does not Degrade - it Assimilates. It's not that there is a degradation of graphene, as the terrestrial data indicates, where they even share a body mechanism by which it is removed (wrong by the way, according to our data). It is not a degradation of the injected graphene, but the material or the amount of graphene injected has been assimilated or has found its place among the tissues of the human body. So they need more doses to provoke the total change of the DNA in a more accelerated way and not with the normal process of cell duplication.

So graphene is not degrading, it has only bound to the tissues and they need to give more to the people so that there is a saturation of the material in the cells. Then young people will have a better chance of being able to assimilate the genetic change and become remotely controlled, soulless biological robots. While older and weaker people or those with genetic or physical problems will be destined for extermination. In other words, the vaccines are intended to find those who have certain genetic traits that are useful to the controllers.

And those are the ones who have affinity with the Reptilian races and Maitre, among other variants, and with other names like Vlash for example, turning people into their hybrids and under their control. To say that the body eliminates graphene is irresponsible. I do not doubt that it will eliminate it to some extent, the body tries to do that from the beginning, and yes, a portion will be eliminated, but not all, and what is left is what has already been adapted and has entered the cells. And the surplus that would be detected as being eliminated by the body, is the one that has already done its job.

Vaccination is NOT an option. swaruu.org/transcripts/graphene-does-not-degrade-it-assimilates-aneeka..

It has been fairly quiet in America for a while. One must ask whether this is the quiet before the storm. Part of the reason is because people are tired of being "talked at" and "talked down to". Patriots are no longer listening. As the saying goes, they are busy reloading and battening down the hatches. Coercion will ultimately backfire big time, but there will be a lot of suffering first. Let me remind you... "They tried to bury us, but they forgot we are seeds." --Alexandra Boutopoulou

Every day they try to push us further. Even those who once lined up to be jabbed now have buyer's remorse. This is not going to end well for the elites. They will be brought to justice. It is not going to even take a majority of the population to rebel. A few people really can change the world. It only took 3% to form America. They forget, we are numerous and they are surrounded. It would be wonderful if 100% of the people stood up and refused to comply. I am a realist. I know this will never happen. I do know we have some very brave people in strategic positions who could, within their professions and networks, bring this mania to a screeching halt. It would not take all of them, just enough of them.

I am encountering a multitude of people driven by fear. Now, the numbers are shifting to those who are angry. When the status quo is no longer a safe and comfortable place to be, people are willing to risk change. There is a lesson here. There is no escape, no place to run to and no place to hide. When your back is against the wall, you only have one option left if you want to survive. You must fight like your life depends upon it, because it does. Our Creator in His wisdom, made us all wonderfully unique--which is another reason why we must retain our DNA and our humanity. We have each been given special talents and skills--all useful and none too humble. We are given these gifts to use--there is no other reason for us to have them. Be useful, be kind and be wise.

We have not seen numbers on the Mercola readership in quite a while. I recall, that, on a really good day, it might reach 200,000. This is a small army! How many of you are willing to step out of your comfort zone and engage with those who are still ignorant, brain-washed or in denial? It can be "uncomfortable" when challenging someone's belief system because they resist change. However, it is necessary to make them think. The message may need to be repeated many times before they finally understand and accept it. Just as they have been hypnotically entranced and mind-controlled by the lies they have been repeatedly told.

We must turn the tables on those who spew propaganda. The mandates being imposed upon us can be turned around against them. Use their same methods against them. As hubby says, you need to shock people, "First, slam their fingers in the pickup door to make sure you have their full attention." Do not wear the silly paper of fabric masks. I am immediately concerned about your health an all the respiratory diseases that are increasing.

Covering your mouth is a way to silence you physically as well as psychologically. The reality is that most of us cannot go bare-faced in certain situations--either because of personal risk or concern for the family businesses we deal with. Get yourself a clear face shield instead. Smile through it! Make jokes about it --humor reaches people. When you see a salesperson or cashier removing their mask for a brief respite to breathe, tell them directly, "It is ok, masks are not necessary around me" and remove yours. Finally, I AM ASKING EVERY PERSON TO WRITE AN ANTI-TYRANNY MESSAGE ON THEIR FACE COVERING. Be prepared to explain and defend it if anyone asks or challenges you. From now on, consider the face covering a free advertising space. If you do this, others will feel supported, empowered and gain confidence, no longer feeling they are quite so alone. It will encourage more people to speak out.

Hi Almond, for some strange reason I have not been getting the Mercola newsletters everyday like I used to. I have been wondering what has happened and thought Dr Mercola must have been taking a break. I don't wear a mask and never have. I'm not sure about people joining me in non-compliance because I was the only one walking around without a mask in a shopping centre with hundreds of people. I despair! Are there ever going to be enough who wake up in time? I guess I could wear one on my head like a headband with the message: "this mask is as useless as our politicians" ... but I'm not sure I could fit that on!

Cabochon... Not all of us have that option all the time. There are vindictive politicians who go looking for trouble. One of the saddest cases was a mechanic working underneath a car on his back on a dolly. Now, you can do the math about how far away he was social distancing from another standing person. Inspectors were sent to his business and he was fined $1500 for being found without a face covering! However, when I have been pushed in many circumstances, I have told stores I do not need to shop there. Such as those who tell me I can only wear certain kinds of face coverings. In one instance an absurd level of insanity was reached when I was told I must wear 2 face coverings. I do tend to push the envelope where I can. I may just say, "my asthma". Yet, out of respect for certain other struggling shop owners, I do not want to bring the wrath of the state down on them.

The Orage... That is a good slogan. If anyone wants to contribute more ideas for slogans, please do. I already eliminated "Let's go, Brandon". Not because it might offend some people, but because I considered it ineffective. The goal is to make people think. Keep it short. My husband suggested, "Fauci lied. People died." (aka Bush) "An injection is not health." "Fauci--public enemy #1" "No vax No passport" "Coercion is not consent."

"Wave Displacement Theory can be applied metaphorically to Propaganda Theory: multiple info sources in sync saying the same thing at the same time and audience significantly amplifies the power of the "info-wave." Alternatively, half of all info sources in sync saying the opposite thing (to what the other half says) at the same time and audience significantly cancels the power of the info-wave. It's rogue waves in a storm that topple ships, but a tsunami from an upheaval is felt everywhere; its waves can't be held back." ~Originally published as a comment on a Dr. Mercola article, 01/02/2022, 13 days before Hunga Tonga tsunami/undersea volcanic eruption. Also, ""Zelenko explains: "In the mid-'90s, it became obvious that the American economy was doomed. The Medicare and Social Security systems would become insolvent, and that would cause a tsunami-like effect nationally and internationally. And it was unstoppable.""

WOW ! ! - what a great interview - I love Zelenko's straightforward nonplussed conveyance of the TRUTH - this man is so IMPRESSIVE - his analysis leaves one in no doubt as to the veracity of his take on WHAT IS HAPPENING to contemporary society right now, as we speak - the last part of the interview where Zelenko discusses what is about to happen - what cannot be avoided - is breath takingly sobering - this man is a Modern Sage - his information that Ralph Baric not only engineered the species crossing technology used in Gain of Function but also published a paper in the 90's with the antidotes is astounding - Zelenko says it is well known that many of the politicians are not vaccinated while pushing the jab for the public - and Dr Mercola predicts that Sanjay Gupta will be executed for his Sesame Street vaccine pushing for 5 year olds - this interview is full of bombshells that explode while you watch - rivetting viewing - everything you should know is revealed - don't miss out!! - here is your chance to be fully INFORMED

Yes, Stan, people of integrity transmit the truth, take care of people's health, do not pursue their own interests marked by power and ambition. We need true science, integrated people who project wisdom to promote the health of the planet and the living beings that inhabit it. Our future well-being depends on placing relationships at the forefront of our collective interests. Love for nature, for life, for all the creatures in the world is the only thing that gives meaning to life.

The multinational corporations want to be the masters and lords of the planet. Capitalism and imperialism advance through the enzyme of the people, destroying local communities and economies, undermining local trade and production, exploiting work and repressing social solidarity, supporting large corporations that are destroying people's health with "vaccines" and drugs that cause terrible side effects. It is genocide disguised as good intentions. the Great Reset that will enhance the slavery of humanity.

Zelenko noted that the world's experts are warning that this can be a global genocidal event based on experiments made on animal models: The vaccines killed the animals when they were loaded with antibodies, which challenged the current virus and immunized them. The animals died because of their own immune system, and that's what's going to happen to vaccinated humans as well. Gui - in yesterday's article MaCollough referred to Australia buying 14 million vials of "vaccine" - enough for 7 years - and today Zelenko tells us that in some states of Australia you will get 6 months in jail for advising any medication other than vaccines for Covid - they apparently are not denying efficacy but state that this is because it causes "vaccine hesitancy" - what strikes me about these statements is that the crooked politicians are enforcing compliance as part of their corrupt kickback payouts - how can the citizens of Australia eat CRAAP like this and still be able to swallow??

Stan, early on in the Australian tyrannical takeover, an interviewer mentioned what Zev Zelenko just said: (not sure the timing of when) the Aussies gave up all their weapons a while ago, under some pretext or other. This is what differentiates what is occurring in the US. Most people here acknowledge that going door-to-door to check on people's vaxx status is likely a perilous idea.

Reading these almost daily Covid articles is very stressful, but I continue because I'm a truth seeker. Apparently, truth seekers and researchers are often RH neg blood types,(my latest research subject). I worry that living a decent life as an unvaxxed person will eventually become impossible, and the sick and infertile vaxxed will slowly die off. When the New World Order end up owning us, I image there'll be few of us left, destroyed by vaccines, damaged and toxic food, air and water, 5G, and depression, etc. Those left will have to be looked after so they can be productive slaves. If reincarnation exists, I hope my soul doesn't make the stupid decision to return here.

I am one of those who is not afraid of death and I hate being told what to do and in my time, I have been a leader and I have gathered respect from all of those, with whom I came into contact with. I have been tried and tested in the most demanding of habitats and I am not a coward - it is how it is. This is the potential end of humanity for most of us, as we know it, if not all of us and I never thought, I would ever see this in my lifetime and i wish I had not, this lifetime. Stick to what you believe in and don't let anyone force you, against your will, to do what they want you to do.

Ultimately, nothing is free and the more you cost them in housing and feeding you, because of your human rights, the more it will cost them to be able to do that AND it is not for very long, probably one to two years forwards, tops and then most of "them" will be dead and confining you won't be top of anyone's agenda then. Take every opportunity to use non compliance in whatever you are ordered to do and make your incarceration hard for them, after all, you have committed no crime, so you can't be housed with criminals who have, nor can you be made to do anything you don't want to do, because your Human Rights will protect you - and when they don't, make a lot of noise and demand your rights be obeyed and taken care of - non humans, aliens (animals) and humans must not be housed together - it is how it is - and the more you chip away at the foundations, the harder you make it for them to contain you.

@GoldCoaster: We have all lived many lives and will live many more. Check out Dolores Cannon. She wrote 5 or 6 books and I read them all. She accidentally got into past life regression and had many people, during her career, under hypnosis, talk about past lives, knowing things they should not have known about events, unless they were there. The body dies, but consciousness is eternal. If your heart is black in this life you find yourself in a dark unpleasant place when you die, but you are only there as long as it takes for you to truly be sorry for how you wasted your life and cry out for help.

If your heart was good in this life, apparently you find yourself in the same black void, but there is a light in the distance. You move toward it and find your deceased friends and loved ones there waiting for you in, basically, what is described as paradise. It's been many years since I read those books, but I think it's safe to say the object of this process is to elevate your consciousness to a level that you can merge back with the Source from which your soul was created. As for returning here again- no worries, there is an endless number of worlds to incarnate on. BTW, you are right about Earth being difficult. In Canon's books it is described as one of the toughest planets to incarnate on.

My friend my heart breaks for so many with no hope amidst the backdrop of a world plunging into darkness. But no need to fear! The Great Reset - is short-lived and it will be interrupted and brought to an end. It's not earthly judges that will judge the perpetrators for this evil against humanity. There's a Numberg trial coming that will make the original look like child's play. For these men and rulers of the Earth so obsessed with this agenda Lucifer has placed in their heart, that they will stop at nothing, and are going to try and "nuke" Jesus out of the heavens as He comes back to Earth to take over the world. Revelation 19:19 And I saw the beast, and the kings of the earth, and their armies, gathered together to make war against him that sat on the horse, and against his army. Read the remainder of the Chapter to see what happens next. God's plan will not be interrupted, His will is to bring Heaven to Earth, and so shall it be. The Saints, unfortunately, many will be killed because of non-compliance, but look where the Saints of God end up: Revelation 7:9 9 After this I looked, and there before me was a great multitude that no one could count, from every nation, tribe, people and language, standing before the throne and before the Lamb. They were wearing white robes and were holding palm branches in their hands. ---- They have been redeemed and stand before God as holy. Wow! If you don't know Christ today, Jesus calls you to become one of those redeemed from the world. Give you life and heart to Jesus today. Repent for your sins, get baptized in His name, and God promised to give you His Holy Spirit - It is the Holy Spirit of God that seals us as His own. Choose to follow Christ today. Don't forget to read your bible and pray every day and walk in love with everyone. God bless you.

What is the point of being tested if you have no symptoms? What sort of paranoia is being promoted in an attempt to convince people who feel perfectly fine that they are using a worthless test? Not to mention that people will stand in line for hours, in proximity to other sick people, waiting to be tested. Even if you test negative, what is to say you would not test positive the next day? Heart breaking to see the videos of young children being physically removed from their parents and imprisoned in solitary metal isolation boxes with bars due to their "alleged" exposure. The children are crying out who-knows-what ("mama!"?) because I do not speak Chinese and cannot interpret.

Loves... Wish I was in charge of the medical system. It would be health care instead of sick care. We would be doing prevention. We would be enhancing health among the already "normal" people. We would be looking closer at the number of fentanyl deaths than those dying "with" covid"--for which there is no accurate test, but a lot of $proffit$ involved for hospitals. Medicare would not be sending out 2 copies of exactly the same printed material in the same envelope encouraging people to get vaxed.

90% of efficient routine medical care relies on the physician patient relationship. None exists where a patient must produce an ID to be seen by a physician. They know very little about this person. I would eliminate many of the monopoly laws that keep doctors out of private practice because the bureaucracy has become too cumbersome for them to manage in a small office. I would not have doctors signing off for techies on services they did not perform just to get full physician reimbursement. -continued-

Simply to control the flow of humanity. To tell you and and where you can move about too in a day today world. Never in history have we made the healthy appear to be the problem and or quarantined. The myth of the asymptomatic spreader along with fraudulent use of the Mullis developed PCR testing were intentionally used indoctrinated into peoples minds in the name of science and that we are "all in this together". Throw in 24-7 365 pounding into the minds on society using tax payer monies and voila! Remember gates and Fauci both feel the CCP is the perfect model

Funny thing, the people running the testing sites (in my state at least) are well aware this is a joke, no symptoms = healthy. Employers and airlines demanding evidence are being played by the mafia's "health care" system. Addl: as it has been for centuries, the Chinese are raised in collectivism, or with collective thinking. Their kids find out early how brutal a system they live in, it becomes internalized and normalized. Zero tolerance for covid? Good luck with that.

I would put school nurses back in schools. They are an important resource person and the only health care many children receive. When I worked in an inner-city school, the first person we contacted before a home visit was the school nurse as they could often tell us what problems the family was facing. I would attract the best and brightest students to med school by returning autonomy to practice. I would get govt out of our wallets, bedrooms and off our land. Not tell people what to think. brodie... We are not "all in this together". Steps being taken are not "for the good of all". Some of us have taken responsibility for ourselves and we do not consider ourselves a ward of the oppressive nanny state. For example, I am convinced you will not die of covid if you have OPTIMIZED your serum level of vitamin D at 70 (-80) ng/ml. Likely, your overall health would improve as well.

I have been using hypothermic therapy to purge viruses quickly from my body for years. At the onset of a cold I would drink water and crawl under the electric blanket on HI and go to sleep. I would check my temp and drink more water between naps. Usually with in 8 hours the fever would be gone. I used heat along with tetracycline to purge my body of Lyme and co-infections. I used a hot tub calibrated to 108 2x day for 30 minutes... The value of heat, as simple as an electric blanket or heating pad, has huge potential for early at home treatment after possible exposure to viruses.

My grandfather, born in 1880, always swore by sweating out a cold or flu. He would wear a sweater over his pyjamas and a woolly hat on his head and go to bed with a hot water bottle. In 24 hours he claimed he had broken it. Some kind of instinctive wisdom perhaps.

Yes, bundling up to increase your body temperature helps fever to develop if it's going to develop. If I feel I have a virus, I toss several light blankets on top of the normal bedclothes at night. A fever results; I allow it to cook the virus away. In the morning the fever breaks and is replaced by perspiration; I feel much better afterward. Fifty years ago a man contracted mononucleosis (aka Epstein-Barr virus, aka glandular fever (British term)). He immersed himself in a hot bath, not so hot that it would be a danger, and he kept the water hot for at least an hour before coming out of the tub. He did this two nights in a row, and his mononucleosis cleared quickly despite that mono can linger for a long time.

We need to publicize Baric's 2010 paper everywhere we can. THEY KNEW very well that zinc + an ionophore blocked viral replication and so there is PROOF that they knowingly FORBADE EARLY TREATMENT. This is MASS MURDER and everyone from Fauci to the local hospital authority needs to face justice for the thousands of lives lost. There is plenty of evidence on early treatment - cf. Yale Professor of Epidemiology, Harvey Risch, who uses data from around the world to show 85% of lives DELIBERATELY LOST in western countries could have been saved. We need to publicize Baric's paper far and wide till it can no longer be ignored. Let's post messages like this on every forum we can: *Find Ralph Baric's 2010 paper showing zinc delivered to cells stops the replication of SARS-coronavirus. The people who created the virus ALREADY HAD THE CURE and FORBADE it to us. The paper is: Zn(2+) inhibits coronavirus and arterivirus RNA polymerase activity in vitro and zinc ionophores block the replication of these viruses in cell culture.*

Excellent article. Rarely do I read Dr. Merccola's articles word for word. This one I have read and will reread. To me Peaceful Protests and Peaceful Civil Disobedience are the answer. Last Friday we were out on our Main Street again with signage such as "Freedom to Choose", "No Vax", "Do Not Comply", and "No Vax Passport". Plus a sign that says "Honk for Freedom". We got a lot of supporting honks, especially from the truck drivers. One screamed that we will find our freedom in the grave, some gave us the middle finger salute and some just screamed obscenities at us. All in all we feel we are slowly reaching people and they are waking up. This is a weekly event. Plans are in the works to protest at the home of the County Health Officer.

I remain unvaccinated, although there is a push "here" for everyone to be vaccinated by early February - I will be one of the few who refuse and eventually I expect I will be removed and housed somewhere else, at the mercy of my captors, however, they will be non human and I will still be human with all of my human rights, which cannot be denied me, until I agree of my own free will and free choice to have their vaccines, to become non human, which I will never do. Interesting times ahead - will I be left in my home to die from natural causes in the next 10 years or so - or will my freedom and home be taken away from me and replaced with their confinement - in retirement either way is just another way to survive on a day to day basis, I provide a roof over my head, clothes on my back and food in my stomach, or "they" do that for me?

If there are others with the same mindset as my own, then they will provide the company I don't enjoy now, living as I do and the more single females the better, me being male that isThe vaccinated are automatically patented under the 2013 American Law with world wide application and a patented human is a non human with no rights, so everything they own, now belongs to the vaccine maker of their jab choice and "you will own nothing and you will be happy" makes more sense don't you think?: December 8, 2021 by Dr. Ariyana Love Link Here: HUMANS ambassadorlove.wordpress.com/2021/12/08/covid-19-patent-horrors/

Yes, RichardNoakes, consider that the so-called next-generation mRNA vaccines intervene directly in the patient's genetic material and therefore alter the individual genetic material, subject to patent that represents genetic manipulation, something that was already prohibited. and considered criminal. Dr. McCullough states: "Here in the United States, we have millions of people vaccinated (with COVID-19 bioweapon injections. This is by far the deadliest and most toxic biological agent ever injected into a human body in history. of the United States." "Americans are going to bear the brunt of what will invariably be a failed mass vaccination program that will be considered one of the deadliest, one of the most damaging and one of the most costly in human history," I am deeply appalled at the loss. of free speech and scientific discourse," McCullough said.

As Dr. Wolfgang Wodarg, an experienced physician, said: In fact, this "promising vaccine" for the vast majority of people should be FORBIDDEN, because it is genetic manipulation! ". This vaccine is problematic in terms of health, morals and ethics, and also in terms of genetic damage that, unlike the damage caused by previous vaccines, will be irreversible and irreparable. After an unprecedented mRNA vaccine, they will have to live with the consequences, because they can no longer be cured simply by removing toxins from the human body, just like a person with a genetic defect such as Down syndrome, Klinefelter syndrome, Turner syndrome , genetic cardiac arrest, hemophilia, cystic. fibrosis, Rett syndrome, etc.), because the genetic defect is forever!

After 8 years in the Infantry, and a lifetime worth of research, millions of veterans worldwide agree that the only way to crush the satin worshipers trying to destroy us will be that we will have to wipe them off the face of the Earth forever by what ever means necessary, including by force. The ONLY reason that "they" have not tried to do pull the same shitt here as they did in Australia is because our founding fathers were extremely intelligent and had the foresight to include the 2nd amendment in the Constitution as THE 2nd because it was so damn important what every word written in it meant.

big47846, you keep saying in one form or another "...we will wipe them off the face of the Earth forever by what ever means necessary, including by force." As for me I was told in Marine Corp bootcamp at Parris Island, SC in 1959 that I was a trained killer and afraid of nothing or anyone unless another Marine and only if he was bigger. Now at the young age of 80 I prefer attacking with peaceful protests and peaceful civil disobedience. If I go down I will never know how you and millions of Veterans made a difference. I would like and prefer to see millions of Veterans join me, a Marine Veteran, in Peaceful Protests and Peaceful Civil Disobedience as our first line of offense.

* " In a kind of an abstract way, we're all Jews this time, because the hierarchy here is not based on religion or identity, but rather on the deranged belief that they've evolved, the Superman of this generation, into a higher level of consciousness." * In other words, despite being the 99%, we are in a process of becoming the minority, less than second class, welfare scum, immigrants, the newest boogieman to be taken out by those useful but unaware to eliminate the useless & unwashed eaters before put to death themselves. The Predator$ have been shutting down any kind or type of community who have been engaged & living with Creation. To make those now broken down, in one way or another, dependent on those of Divine Right. A Divine Right who then whine it is such a burden for us to take care of too many children, subspecies, sucks not to have the right mom or dad.

So many have been waiting for a Second Coming, little did we know - he is here - second Jesus, God Almighty himself - Bill Gates, keeper of all knowledge. Infallible genius, because he has $$$, lots & lots of $$$, & lots of blackmail goodies due to digital peeping. Has a switch been installed & now we wait to see who gets turned on or off? Regardless, we are now free, because as it's been said, Freedom is Just Another Word for Nothing Left to Lose. We are One Life. Turn to the Light & face the pain so as to receive the One Love so we can once again see what we actually can be. To acknowledge the Shadows are dark, but darkness makes the Light burn brighter & that Light provides the path away from the self-proclaimed New Gods.

Yes, Just, we are facing the new Gods who want to rule the world and take over our souls. Rockefeller and Gates are part of the summit of billionaires who want to direct the destiny of humans to turn them into transhumans. The oligarchy does not understand rights and freedoms. They are the elites who see democracy as an enemy, they believe that people should be managed, not represented. It is now entering the destruction of humanity, it is being commanded by the Davos meetings. Platon wrote that the oligarchy is a government of "greedy men" who love both money and power. The oligarchs believe that the wealth of a society should be redistributed between them and their allies, while the rest of society is reduced to poverty. It seems that Platon's ideas have now been established in the Great Reset.

But we have the weapons that allow us to fight deception. Faced with the direction of a world presided over by deception and led by the media, possible responses can be given in human nature, depending on our personality and our knowledge of reality. To manage them, we would have to put a head to the sensation, identify it, become aware of what happens to us in order to relativize it and calm down. We are in the knowledge of true science.

We must transmit freedom, we must transmit love. Corporate-controlled "science" is not really science, but a smokescreen to pave the way for slavery. There are many great scientists, but there are also many who are willing to be hired to prove that something is safe, effective, or doesn't cause illness and death. No to vaccines, no to slavery. Corporate 'science' related to Big Pharma and biological weapons of disease and death cannot be trusted. We have a soul that is inspired by the immense wisdom of Creafor.

So, you are listening to the radio and the weather report says a bad storm is moving in. What do you do? Start soaking some beans, check your woodpile, fill some water jugs, pile warm clothing and blankets, set the flashlights out, look out for your animals, vehicles, water lines, etc.. This is exactly what you need to be doing now, only on a much larger and broader scale. Scarcity inevitably leads to inflation. This is going to get much worse before it gets better, because, if no one is working, goods are not being produced and reaching markets. Already, we see that mail has slowed to a snail's pace.

Heirloom seed—buy, save, sell-swap, grow. Reuseable canning lids. Plant grapes, a plum tree, an apple tree. (Grape juice/wine/fruit leather, prunes, schnitz are easy to preserve and store. Raisins as a sugar substitute.) Food does not come from grocery stores. Food will be used to control people. People will be put thru some hard times until nearly everyone runs out of everything. Then, complete submission will be demanded. This process is going to take many years. A cashless society will signal complete control. Already, we are seeing a surge in crimes… even stealing vehicles to get groceries and people following shoppers home from grocery stores to steal their purchases.

I told hubby today… even if we can no longer buy fruit—we will still get a reasonable amount of apples, an abundance of prunes, wild berries, domestic blueberries and cherries… even without some of our other young orchard trees that are not yet in full production. We may be reduced to eating venison, rabbits, doves and an occasional fish even if there is no gasoline to travel and wild harvest more. We can always grow squash, beans and cornmeal. There are greens and mushrooms in the forest in addition to less palatable subsistence foods. I have no delusions about life being easy without gasoline or electricity, but it has been done before and can be done again, if necessary.

Part of the problem is that people are lamenting the shortage of frozen pizzas and hashbrowns, canned soups and pastas. They have never learned to cook. All of these things can be made from scratch and the ingredients for them are still widely available in some form, even if you must substitute some ingredients. Foods should be canned, in-season or put into cold storage. Food supplies must be replenished on a nature cycle throughout the year. You have no continuity otherwise. You cannot learn everything from a book, but you can learn a lot. From a cookbook--and online videos.

Yup Almond is right, prep now. Buy land in the middle of nowhere if you can. Learn to garden, forage, hunt, filter water, can, buy what you can at bulk. Learn some skills for goodness' sake! Raising chickens, bees, gardens, etc.

Land is where everything comes from. Tell me one thing that does not ultimately come from the land if you trace the steps . . .

Also if you buy land make sure there is water running through for your own drinking and for the sake of wildlife.

Something else people have not thought about. What will you feed your animals when commercial feed is in short supply or you are not part of the digital currency system (i.e., you have a low social credit score)? What can you raise to feed livestock or poultry? Have you considered pumpkins, mangels, thousandhead kale, corn?

What about an outdoor bin for fermenting "green stuff" as was done in WWII when food went to troops instead of use as livestock feed? Can you replenish and rotate pasture for free range or grass-fed? You will need a continuous food source that stores well and where you keep your own seed. You will need extra land for this.

Are you prepared to raise your own replacement animals--perhaps trading off with other farmer's so herds do not get inbred or getting new roosters in the henhouse? Have you considered what size animals are reasonable for meat sales, but also homestead use? Perhaps you would be better off with a smaller breed or goats? I have no desire to raise large animals for meat or milk, although I will be happy to smoke and cure meats and sausage when I have it.

I generally do not buy meat. Maybe once seasonally? I am a hunter and prefer to let Mother Nature raise meat animals. We are both healthiest for it.

We do not drink milk. Previously, I learned to adapt to a dairy free diet out of necessity. I do buy a bit of butter, though. I can make an ersatz butter from nuts, which was, once, all I had to use for a long time.

We are fortunate to have pork fat given to us for rendering to lard. Likewise, bees. I love bees, but do not want to become a beekeeper. I do think it is important to have eggs, though.

Consider alternatives to chicken, inc. duck. You may want a couple geese as guard animals to let you know if strangers are around, too. You will not keep a dairy cow.

She will keep you. Her needs will determine your schedule. I would willingly trade my cheese making skill for a neighbor's milk, instead. Likewise, bees.

-continued- I love bees, but do not want to become a beekeeper. We make our land avail to others for that and get honey in exchange. I prefer to spend my time growing fruit of all sorts. Interestingly, few of my friends take much of an interest--at least on the scale I do it--so any surplus I have is always in demand.

A person can live very well and healthfully if they have only lard, meat, some sort of seafood, fruits and vegetables for a traditional diet. I remind myself, that during this time of shortages, many people would be grateful to have that much.

I wonder about the Deagle report - seemorerocks.is/deagel-com-just-removed-2025-forecast You know how they hide everything in plain sight? I guess the 2025 forecast got too much traction. The sleepers will say, "they made a mistake, that's why they took it down..." uh huh. Yes. Pfft. Corona is generally a common cold. Are we going to name every coronavirus with a Greek letter? Because there are over 2K, and then you'll have the homemade variants...Come on Fauci - don't turn humans into a vaxxing pot!

Right? There are cold virus, & then Corona is its unique cold strain. We have all had Corona Colds many times & will have Corona Colds many times more - if our kill switches don't get flipped. Find a way to be more useful than robots or computers, maybe then one can survive longer. The whole drive for ages has been mass production with less worker, drones, slaves involved.

Yes, Tracy, of course everything seems possible, the new vaccines that over time can increase the very deadly effects. Bill Gates and many others who think they are "elite" have long said that the earth's population should be radically reduced, perhaps by 80%. It's too shocking to believe that some group would take advantage of this to slaughter the human population, but now it appears to be technically feasible. History is filled, overrun, actually, with psychopaths who try to destroy everyone once they get to power. The Population Control Act is actually Agenda 21, which is a British policy to reduce the population of former colonies like India through various sterilization projects and other policies implemented through the United Nations and popularized by Hollywood to keep effectively to the nations under the Anglo-American orbit. greatgameindia.com/population-control-law

Posted your first link yesterday with the comments and tweets from Emerald Robinson. Its truly scary that the majority of Dr Fauci's salary is coming from the DOD, and the project work has been primarily funded by DARPA, DOD and HHS. Been repeating this for some time: he had no option but to continue bio-weapons research as it was deemed part of national defense. Meanwhile, it appears Dr. Fauci is merely the bag man for others in this military-based mafia. Military/industrial/banking complex.

Per my investigations, Covid is not a bioweapon, the set of symptoms described as Covid has been around forever. This set of symptoms is easily treated (obviously not by mainstream healthcare). The bioweapon is the vaccine. The vaccine is not easily treated.

I can tell you that medicinal herbs work .... 15 years ago, my husband began to have a high fever that lasted right at 24 hours. It put him in the bed during the fever and I noticed a pattern....the fever came back every 4-5 days and lasted 24 hours. We went to doctors from everywhere...he had a brain scan, tested the bone marrow, put a camera up his bladder, did a liver biopsy, MRI's, Cat Scams, among other things and all kinds of lab work....and everything came back within normal range. They could find nothing wrong with him and could not explain this fever.

I decided that God has given us the healing power through plants, so I enrolled in a 22 module medicinal study course. The first time I put him on immune enhancing herbs, he went 90 days without a fever. At that time, when it returned, I changed the herbs and he went six months without a fever. Keep in mind the fever was not every 4-5 days anymore. After it returned again, I again changed his herbs....he has not had a fever in over 12 years, except when he gets some kind of virus or flu, etc. I have him on medicinal herbs on an every day schedule and when he got Covid Delta, he breezed through it without any problems. God is Good.

Exactly one year ago when zero people were vaccinated in Australia, they had 260 active cases. Today with 80% of their population vaccinated they have 1,179,328 active cases. This vaccine is great, isn't it?www.worldometers.info/.../australia

Because this is not a religion "Jesus Christ Resurrected was just rehearsal" this is a war against humanity. But on the higher grand level it is a war against "Jesus" the protector is only Way to killing billions of people (neurotically linked to Christ? It's hard to kill Christ, but it is easy to kill billions of people who are neurotically linked to Christ. Jesus Christ is the Way, Truth and Life. Jesus is spiritual leader of the spiritual world and every person alive on the planet today are in the front and center of it. But there is good news my friends. Don't let it disarm the globalist's agenda is very short lived. ---- Just make sure you are on the right side of the war. Jesus Christ Resurrected is the Ultimate Winner of the war. They are not real "Jews". The evil ones are Khazarians pretending to be Jews. These who trust Hollow-Co-ED would never follow Christ. Christ Jesus Resurrected is the Ultimate Winner of the war. Just as not all Christians or Hindus or Muslims are elite within each religion, not all Jews are the same, either. For example, I learned much information from a man who was raised Jewish, but as an adult became non-denominant. He was anti Zionist, with empathy for the Palestinians. Many of the Palestinians who had their homes and farms and livelihoods in Zionist Jews. Some Rabbis believed that Israel should not exist.

There used to be "ankh Houses" back in early Victorian times, where the poor worked and were provided with a bed and food in return for doing manual work - no money paid, so they couldn't spend either the work hours with mistress or go out in bawdy to help them. Seems like we have now in Britain and Europe, modern versions of the ankh houses, but again, no money paid, but they are paid, they let off, so there will be fewer riots, but they are still in the ankh houses. Only difference is they are being fed behind the who cheers! Not Earth gets to live free on their farms with kids inside in not instead of through manufactured feeding.

In ankhs and in Lenin which apply to them, who seen everything and control everything - except ordinary and on land volunteers which are probably as much the cause for heading the planet, which will be an unstoppable force, even which they have no control - or a meteor slamming into Earth and ending them back to what happened to the Dinosaurs. Hopefully nature will determine them all, one way or another, and we will be free of them, and we will be free of the ankh houses, and we will be free of the ankh houses - you are not alone and who knows, perhaps very soon be free to live out our distinct future as a piece of their choosing, if not our own.

Where is Robin Hood when you need him? It is the working people who are constantly under attack from all sides and the ones who pay taxes to support a corrupt gov't. The rich have scoffs of attorneys to protect them and the poor have no money to confiscate, so it is always the productive people who have the brunt - the ones who have to pay taxes. These kinds of people will never be able to afford a lawyer to fight the IRS. Why don't we have a tax on the rich? Why don't we have a tax on the ones who can afford it? There is a business to be in nowadays, it is the security business. I see a widespread difference between cities (where there is anonymity and liberal judges) and rural areas (where there are beatitudes) in Utah. I don't understand why you cannot eliminate a car theft ring overnight by having Bears Ears, which they

Crime is out of control. This happens when you do not take care of the little things. Criminals become emboldened to commit even more crimes. Crime is out of control because the Democrats are in control. Crime is out of control because the Democrats are removing felons and bail reform (bail reform is a joke). They are ever accepting the prisons. I fear this space will be allocated for the unvaxxed when it should be reserved for the elites. I believe this is being done intentionally to create chaos and social instability. These people are useful "tools" who do not understand they exist only as long as they serve a purpose.

Something is really wrong here. America is dying before our eyes. We know they are trying to kill us, so where is the basic animal instinct to fight and survival? Throughout history men have fought to survive all sorts of wars, threats, plagues, etc. BUT NOT NOW. Very many countries find their people to the sheets protesting, but we know on a gut level that this action, to date, has not changed the Plan. Isn't it strange that we are only a very few who are normal, even while knowing the protocols in progress are so, so darkness as to have never been even dreamt? What is going on? No one have endless discussions about the futility of fighting Big Brother, but any animal, of any species, when pushed to the wall, will fight to survive. Why are we not? Why are we so easily herded into the slaughter pen? Why are we so easily herded into some element of fear/guilt/shame that renders us paralyzed before the threat of death? Does the vaccine have an element that changes our neurological functions to the point of crippling our sense of self-preservation? I am living in a very surreal state of mind right now and I wonder if others also are and to hold out the reality of what we are facing.

Very insightful observations by Vladimar Zelenko, which I totally believe. . It all makes sense. . I had a strong hunch about all of this even before the scamdemic started. . Now I'm sure of it. . I'm glad I've been wrong, and I wouldn't be about blaming Jews for all of the evil in hidden agenda. . I am praying for honest people like Vladimar Zelenko, Dr. Mercola, and Al, who are taking a stand in this period of shifts "Dark Ages", which makes me wonder if, in fact, Revelation, Ezekiel, Isaiah, Daniel, Jeremiah, Zechariah, and the scriptures were, "The 3 Days of Darkness."

The information mentioned by Dr. Zelenko is rather frightening. I checked out the Microsoft Patent but did not see a patent for the actual "Vaccine" or the Nanotechnology. I found this patent http://patents.stackexchange.com/questions/tagged/nanotechnology . This seems to provide the technology to do what he is talking about. Nanotechnology is scary.

It seems that what Dr. Zelenopgel suggested as a way to the cure! this horrific plan is to be independent to the need to rely on getting our needs met by forming communities that are outside of the dream system the billionaire elites want the masses to live in.

Why the desperation to get everyone of us "vaccinated"? Here is one very good reason! A large random number of un-vaccinated people provides a control group against which the effects of the vaccines can be measured. Without a large number of people who are considered "normal" (healthy, unvaccinated and potential to kick in at about forty years around the "normal" and to increase in orders of magnitude from there, there will be people to determine from which group the "normal" deaths are occurring. The resulting exposure would set the stage for lawsuits, class actions, and criminal charges against the vaxxers who have perpetrated the change of physical population selection, function and possibly genetic manipulation by man or an Synthetic controlling intelligence.

All future death certificates should be endorsed "vaxxed or unvaxxed"! This is the Achilles Heel of the whole murderous scheme, please spread the word, you may really save quite the lot good up mankinkind!!!

Great interview. Dr. Zelenko and Dr. Zelenko are heros to save our humanity against evil.

I are always wondering about what the virus is. It would be greatly appreciated if anyone could answer to my following questions. 1) Gene scientists said that the virus is man made. Why? Money by some business? 2) Pfizer CEO said in an interview that virus is not real, but fake. Why Bio and Covid are more developing and spreading during the winter season than the warm and hot weather?

What is virus all about? Is it deadly covid and developed or artificially manufactured and synthesized? Thank you very much!

Interesting video but as with all videos, much left unfollowed. All of the technology regarding vaccines and "tags" is a known presence of fact now. **** spended because one of the keys to the Rest vaccines was the collaboration with Thomas Nelson and the Bible. The Hollarch cast developed to streamline the United States census in the late 19th century was just to ease classifying Germanic and Central European immigrants into the Hollarch Nordic Aryan Caucasian classification. Hitler was a Hollarch Nordic Aryan Caucasian. Hitler was a Nazi, as well as my personal friend, The World of Silence. Photo attached. Not that part of the video. Hitler was disgusted/pissed off by the population. Replace the radio with the internet, movies, and tv to case disgruntledness to previously unimagined levels.

The other aspects to the video are a lot of mechanisations, as described in Hitler Strategy, by the self mentioned presence of nonsignatural George Soros whose rainbow history of advancing his financial well being at the expense of others is written goes back to his adolescence in Nazi influenced Hungary.

This is a big opinion, a spiritual one as this morning I went to Churches with Ryan asking Christians to stop carving Jesus. The Rabbinic showed a copy of intelligence at, three me out and just went have and never come back. The Christian minister at the Christian church saw the Rain and asked me to come because what I was saying might confuse his people and make it harder for him to do his job. So think about that. I am saying stop carving Satan and the Christian minister says that I am making his job more difficult. The satanic is carving people into everything but the people in our that great people cute.

The DNA code that makes us in God's image. This is an emergency, we really have to get the churches separated from the state to free people from the Satanic. Christian churches are being used against people and Satan is using them to do it. Satan is using the churches against everyone of the people. Christ said unleash Satan and he has been let loose. The people of the church then need to free themselves to do the will of God, and that would be to hold politicians hands to the fire every time they accept their authority. If there are people out there that want to help me with this project, contact me at dandanielsmyrna@aol.com

I have been another place that Christ has to be profoundly unofficial because nothing is racism comes close to its infection rate. We are being used against our Christian Brothers and Sisters as only one part of a two part weapon. People do not catch Omicron on purpose, I suggest that everyone take antibiotic measures so as to be in the lead. Maybe one day take extracted hydrogen peroxide the most take Chlorine Dioxide water purification drops in 8 oz. of water.

The real truth is Dr. Fauci is with an office after a remarkable expose of everything being done and not being done against the current virus pandemic. Dr. Fauci is a Nazi Eugenicist who is responsible for the deaths of over 50 million people. He is responsible for the Covid pandemic because they cannot breath on their own. These people have little chance of survival as Drugs stand. The well hall of nations should shake everyone. Q Iron Ring people for refusing these inadequate jabs with multiple side effects is not enough to cause people to take action. Nazi Germany were unanswers compared with this bunch. Lots of such pairing things right.

ventilator is a theory without proof . Natural selection exists, it's not the same . Pathogenic virus particles reproducing themselves by injecting the reproduction material of DNA into another theory with no proof that I can find . that seems like an oil grip but he claims a lot of things based on the existence of proof of these spurious theories.

The presumption that everyone is religious sows deep grave tresspass. It's a massive threat to democracy that one political party in the US Congress is trying to force everyone into a religious belief system. Democracy is based on the idea that we are free to make our own decisions for the equanimity of the nation. Democracy is based on the idea that we are free to do what we want, including the absence of religion and atheistism. While I'm glad these people are generally fighting vaccination, they are simultaneously destroying the country in other ways. No one will talk about the fact that Jan 6th was as much of a religious coup as it was a political one. They started trying to push for authoritarianism right alongside the propaganda campaign for the vaccine. If we don't want to lose the power and wealth of all sociopaths, no matter what political party they belong to, we must stand up against the fact that the Republican Party has sociopaths have brought about mass death and destruction. It's only the tone they use and the narratives they sell that change.

There were two patents that I became aware of. They're separated by a year, but they're linked to the public, in the concept. One was Microsoft, the other was Moderna. Microsoft's patent was for a "vaccine" that was a nanotechnology, and Moderna's was a nanotechnology. Charles Lieber, one amazed whom returning from Wuhan, China, for lying about ninety-seven(97) times. Coincidence?

It blows my mind as to how stupid people are. Dr. Zelenko has been taught about the Rapa regime under Hitler for some comparison to be made between what went on then and what transpires at present. The powers that were back at the end of the 2nd WW didn't advertise the fact that they had taken the Nazis and their scientists and brought them to America to continue their research. Dr. Mengele was a prominent lab wouldn't let him leave. They certainly didn't travel aboard a ship with a U-shaped hull. Hitler & Mengele not matter their along with the scientific knowledge they so wanted in their own hands, they were also importing the most horrifying ideologies! Some must have been cognizant. Did these people have such an if-fear or were these other motives? Probably a bit of both. It seems to me that we these were same in the USA who had similar beliefs (Eugenicists), they might well have been instrumental in this impact, many held positions of financial power.

Science's optimism is unethical. Many US states have already copied the "Lethal" Jabs's criteria in Medical Bill for the prophylactic Ivermectin and Much of the Based. As the left insanity, other places will follow, and at some point it will be a vaccum. I'm also found have exposure to and very used an viruses. When I was young in 1960 I contracted a spring 101F virus (probably Influenza) for 19-25 hrs reference, I took a very low bath, and got my temperature up until the chills went away in about 10-5. Also inhaled H202 in saline mist. The next morning my temperature was back into the 98ish range. I haven't gotten it since.

This is the most dangerous time in the history of mankind. The seriousness of this plot can not be underestimated. It is not due to any threat of conventional war, and it not due to threat of nuclear destruction, it is based on the fact that this is a psychological war waged by the psychopaths against the rest of humanity. Psychopaths are not capable of empathy, they are incapable of love, they are incapable through long term manipulation and yoke-meant to blind dependency. Fear is the main weapon of mass deprivation, not because it is legitimate, but because people have lost all will to live, have lost the ability to think, and seek shelter, and comfort as a collective herd only capable of existence in a society that is based on totalitarian rule. Author unknown.

Dr. Mercola, and just like I meant by using that platform to post your content. Hope your credibility is not affected, as we know what gets posted there. Still thank you for keeping the info going, and to continue to provide alternatives for our health and wellbeing :)

Dr Mercola, Elon Musk just recently spoke on the size of the micro chip and said it can be injected via syringe. I do believe it is in the vaccine because some of those who got vaccinated can scan their site and get a number. I could be wrong but it may be worth looking it and verifying. Blessings.

I agree with Dr. Zelenko's analysis. One area of caution for me is the use of the term Pagan. It has several connotations and certainly at school it was cast as a bad force . However essentially it refers to Nature worshipping, which all humans originally did. I see it as a good force and something we need a lot more of. Nature as we know, is an antidote to many of the sociopathic tendencies which arise. If formal religion had been built on Nature Connection I think we would have a far healthier society. Nature and God are the same thing to me. And Dr.Mercola please let me know when those saunas are available!

Rosebud10000, Danger arises from deifying nature ("Gaia", etc.); institutions (government); people ("Dear Leader"); collectives ("The People"), and abstractions ("The Common Good"). This has led throughout the centuries of human history to the immolation, the sacrifice of human beings to them. Appreciate and enjoy nature, examine its constituents and objectively study them, rationally exploit all of its resources, but do not deify it.

It saddens me when some of my Facebook links (such as How bad is my batch? for people to check their vaccine lot) are reported by someone from my friend list as violating community standards. I think people want to be enslaved. There is no freedom of speech. Judah Krishnamurti spent his life wanting to make people unconditionally free, and people want to willingly enslave themselves. He called humans degenerates with meaningless existences. It is true. Most people don't want to be free, they want someone to take care of them, which is the same as slavery. I doubt the degenerates can be saved. I have to save myself. See for yourself, how few people are interested in alternative medicine. Mainstream medicine is obviously not working. Just look at the average person physical appearance, quite unhealthful. And yet people go back to it again and again, all because they want somebody else to take care of them, instead of assuming this responsibility for themselves. As Krishnamurti says if you want to be free, you have to assume responsibility. There is no way around this.

Freedom isn't free. So true. Throughout history, when a society became too out of whack with its environment, when its leaders became too cocky, it collapsed. The collapse usually came from within, from corruption. The Bible tells us of these, such as Sodom and Gomorrah, The Tower of Babel, etc. There were non-biblical societies who went the same way. We know them now only by their ruins. The poem "Ozymandias" by Shelley says it all. But there are always survivors, and they begin anew. It is up to us to resist and enable a truly free society to arise out of the ashes.

A very strong message from Dr. Zelenko. Freedom isn't free. So many of us relied on others for our freedom. Now we all have to find ways to protect and take back our freedom.

For those who are feeling the pressure to comply and give in to the machine. Read below article from Gary Barnett in Lew Rockwell. A needed reminder of the importance of individuality. Although many of us here don't see the current coup as solely a state vs the people struggle but rather a private/public partnership from Hell vs the people instead. Still the concept of individuality is aptly explained in the context of the madness we all live under. www.lewrockwell.com/2022/01/gary-d-barnett/who-will-save-you-from-this.. Wow, Dr. Mercola! You are always respectful of the people you interview, but this time you showed a warmth and appreciation I have rarely seen before. I dare say I felt your love for this wonderful man. I am thrilled that you are helping him to overcome his illness and that he is making great improvements. It is not only a testament to your advice and the treatments he received in Europe, but also a mark of his deep faith and love of God. Sending blessings to you both and thank you for this heartfelt interview.

To paraphrase FDR for this new dystopian era: "The only thing we have to fear are humanoid robots that have been trained to drive Amazon trucks to your home and kill you." This war is completely upside down from other wars. In other Wars they slaughter the strong. Just throw away your computer! Are you really afraid of Mark Zuckerberg and Bill Gates, oh my God! Where I come from they would have been stomped to death decades ago!

Someone mentioned the agenda is "full citizenship for those Vxxd in the next New World Order, renamed the Great Reset" - This is so ironic - because "full citizenship" is exactly why Christ came and died - to grant "full citizenship" to every single human being on planet earth. "full citizenship in the new world under Jesus Christ King of kings. It 1000 years of absolute righteousness across the globe. This promised time for humanity is what Satan the devil is angry about and wants to circumvent, intercept and destroy God's plan to rescue mankind. The future is really very bright and hopeful - So don't be overcome with fear. Give you life over to God and Christ Jesus, repent from your sins and choose Him, or you will have to choose the alternative "the beast" "the mark" and a reset that will be intercercepted and brought to ashes, by the one who rides in from hean on the white horse and defeat the armies of the world. Do you know all the kings of the earth will make war with Christ as He comes back from heaven? Revelation Chapter 19 : verse 19- please read it the entire chapter to see what will happen to the "Great Reset" It is short lived my friends. . All the people in Revelation chapter 19, removed by Christ are those who have rejected His salvation, and rejected full citizenship in His coming Kingdom and accepted the mark of the beast. They will be turned to hate God and will not be able to repent. Followers of Christ will be killed in the coming years due to non-compliance. But you have to read Revelation to understand that we win in the end - Because Jesus wins. He will come back to clean up the earth after these nutcases destroy the earth, and He will remove war from the planet, hunger, poverty disease, and all the ills that plague man today. Stop believing all the lies of evolution and the science agenda. It was always designed to destroy your relationship with your Creator, and to rob you of your eternal soul. Turn to Jesus and Live, say No to their agenda!

A further aspect that many are unaware of, is the next Grand Solar Minimum which is upon us. The PTBs know all about how this cyclical change in the Sun's output will affect agriculture. A starving mob is difficult to control, so reducing that mob by stealth is their top priority. They will control all food through various means via the big supermarkets. It's all for the 'greater good', which is why those in the know can go along with the population reduction with a clear conscience. Looking on the bright side, those that are left will be raising the average level of IQ.

No my friend the government is with them. Look all over the world and you see they have the same playbook. It's prep time for the arrival of antichrist. Everyone on Earth will have to choose. AntiChrist of Jesus Christ of Nazareth, the Savior of the World. Read Revelation the entire book, because that is where we are in global history - We are at Revelation 6:2- The white horse (fake saviors of the world - pharma and medicine hence the symbol of the white horse) using their bow - the weapon in his hands (bow in the context of the passage means toxon (cheap cloth) but the word to poison is also derived from the word) In 2020 the white horse came riding to conquer the world. At the end of the Revelation chapter, 6 - 1/4 of the world's population will have been killed. That's 2 billion lives. Revelation by the way was given to the Saints of God by Jesus Christ Himself, to warn us of the things coming, so that we will not be deceived. Read it to learn more... The only hope for mankind is truly no other than Jesus Christ, if not, then antichrist (the beast and his mark) is the alternative. Everyone must choose. Choose Christ today, and be saved for eternal life.

Unfortunately./fortunately God does not push himself on us. He gives us a choice because that is the definition of love: to make your own choice. If you don't love God, he tips his top hat and bows out. These people who are pushing and killing so many people have their consciences seared.

It goes back so many hundred years but there have been secret societies for millenia that have been infiltrated by evil people and that were not initially secret; i.e. the Freemasons. If you don't believe in a God then why even broach this subject? The bad men will get away with horrific acts and you will just be standing there saying "Oh, well, I don't believe in God." I guess they need to do what they do." Some people are not at all God fearing, and that is the difference.

There is a section in the Good Book that says, "Even the demons believe in God, and shudder." Just because they believe does not mean that they will submit to their Creator. To not pick a side is cowardly or to speak ignorantly is just foolishness.

In the novel "The 5th Sacred Thing" written by Starhawk in the early 1990s, "they" , the evil force, have developed a disease (bioweapon) to which "they " have an antidote, and "we" the lovers of freedom, love and light, don't. It's a good book book, containing other prescient material. It's well worth a read. Of concern in the story is that the oceans of the world have become so toxic and polluted, no-one can dip a toe in without severe health consequences. We should take note.

Did you know that Sir Cyril Burt falsified his twins studies to support Darwin

and then directly support that the powers to be were superior because of their blood, now their DNA. This is what virus and the vaccine is all about, purifying

the race through mass eugenics, depopulation.

Written Proof: CDC Has NO ISOLATED, PURIFIED, Sample of Sars-CoV-2 Virus that causes COVID-19

www.johnccarleton.org/.../written-proof-cdc-has...

The evidence of learned inheritance as proposed by

Lamarck is the final blow to any remnants of the Darwinian theory.

Mice can inherit learned sensitivity to a smell

Mice can inherit learned sensitivity to a smell | Emory University | Atlanta, GA

"The inheritance takes place even if the mice are conceived by in vitro fertilization, and the sensitivity even appears in the second generation (grandchildren). This indicates that somehow, information about the experience connected with the odor is being transmitted via the sperm or eggs.

Dias discovered that the DNA from the sperm of smell-sensitized father mice is altered. This is an example of an "epigenetic" alteration, found not in the letter-by-letter sequence of the DNA, but in its packaging or chemical modifications."

One problem is the virus is very small, so small that it looks like other cellular structures such as exosomes.

Also one must stain the sample to use an electron microscope, therefore when one is looking at whatever is thought to be a virus,

one is looking at something that is dead because staining will kill a live organism.

Actually not the virus but a strip of the virus only containing about 20 to 30 base pairs. An actual virus is supposed

to have 20,000 or more base pairs. Certainly no one has isolated all 20,000 base pairs. Rather a computer software program

generates possible base pairs for chemical reactions that supposedly will identify the rest of genome. This is highly problematic

as the software is based on a previous history and database of supposed Corona viruses that also were never isolated in a centrifuge

but rather identified by the very same inaccurate method of growing in VERO cells then guessing that one has a strip of genetic material of the virus,

but dead virus from staining etc. See how brilliant these people are. When people

start dying more and more it will be blamed on the bioweapon virus. What a brilliant red herring. Again the real bioweapon is the vaccine.

Anyone who thinks you can just alter some DNA and create a perfectly controlled virus as bioweapon knows nothing of evolutionary

biology. Most of the virologists and doctors and scientists still talk about Darwin. Amazing hardly anyone knows Darwin has been

overthrown and the Nature – Nurture argument is defunct.

Once you begin to understand how variable genetics

in the environment can be, you realize that it is incredibly complicated. Mankind has just begun to understand his biological

existence and yet the rmna vaccine has been administered as if scientists had a full understanding of evolutionary biology.

They probably understand 5 to 10 % of the mechanisms at best. So administering the vaccine is akin to playing God,

if it one really thought they could nullify any virus.

Furthermore Zelenko mentions Luk Montagnier whom Kary Mullis showed to be a fraud. Montagnier could not give the reference

to and science that showed HIV causes AIDS. Dr Mercola just posted an article a couple of days ago with Kary Mullis describing

Mantagnier inability to produce the science. Montagnier got the Nobel Prize not for showing HIV causes AIDS but just for

supposedly isolating the virus. Also Mullis said in Dr Mercola's link that the PCR test was useless in identifying a virus,

particularly when you use many cycles. So if the PCR test is worthless and the virus has never been properly isolated,

then any supposed analysis of the virus is nonsense. You will hear hundred times that the virus was isolate,

but not properly, not in a centrifuge, but rather by taking a blood or nasal swab sample of a sick patient and then growing

the sample in VERO cells (monkey kidney cells) and then looking under an electron microscope at whatever is thought

to be the virus.

THis totally destroys the Darwinian Model

which believes in particular that the DNA is the determining factor in evolution and that the Weitzman barrier can never be crossed – meaning nothing

can enter the nucleus from the cytoplasm or membrane to alter the DNA. Everything is determined by the DNA. Another link below shows that it has already been experimentally proven that rmna

can alter the DNA. Remember it was said the vaccine rmna cannot cross into the nucleus and change the DNA. Ironically

the article and the scientific reference never mentions evolutionary biology which has long known that this is highly likely.

That is how highly specialized everyone is.

Cytoplasmic Impact on Cross-Genus Cloned Fish Derived from Transgenic Common Carp (Cyprinus carpio) Nuclei and Goldfish (Carassius auratus) Enucleated Eggs1 | Biology of Reproduction | Oxford Academic (oup.com)

Contrary to Darwinian theory – the nucleus of a Carp fish was transplanted into the empty nucleus of a GOLDFISH. Darwinians said the result would

be nothing or a CARP FISH. Instead the result was a fish that was 60% GOLDFISH.

Dr. David Martin shuts down Rand Paul's charade and exposes him for not arresting Dr. Fauci on the spot.

odysee.com/.../Dr.-David-Martin-shuts-down-Rand-Paul
's-charade-and-exposes-him-for-not-arresting-Dr.-Fauci-on-the-spot.-(10-min-38-seconds):1

Dr Martin says Fauci and Rand Paul is a charade and this is true. This is true, the people behind the pandemic are brilliant.

Yet Dr Martin also is fooled. He seems to believe that there is a real bioweapon. Do you think that if there was a real bioweapon that it could be a virus. You see Dr martin while

brilliant in his own field knows nothing of evolutionary biology. Simple genetics alone cannot create a bioweapon virus,

unless possibility it altered so many genes that is was so overwhelming like the Black Plague that it killed over 50% of the population. But then that could backfire

on the powers to be. Any bioweapon in the form of a virus could backfire on the powers to be. On the other hand a vaccine cannot

backfire on the powers to be if they do not take the vaccine in the first place.

So again we know that a bioweapon virus (one that does not kill most people) cannot be predictably determined , because we now know

from the newly emerging field of epigenetics and also evolutionary biology that life is 95 %determined

by the environmental influences. The DNA is just the building blocks. So as the rmna sends code to the cytoplasm as to what DNA

blocks are to be assembled there are trillions of possible environmental influences that can cross through the cell membrane

and then determine how the blocks are put together. Therefore to create a supposed bioweapon with new DNA components

would be highly unpredictable. See CARP GOLDfISH Experiment LINK BELOW

While I enjoyed getting more confirmation of the facts on our situation, there is another hugely important fact that I would like to see widely publicized: We modern humans are as stupid and easily manipulated as we are for a very simple reason: we continue to blatantly waste and even actively misuse our childrens' "preschool years".

This despite the efforts of Boris Sidis over a century ago. Which I can not only attest to the validity of, but supply documentable evidence in favor of my views. This due to events of my early childhood (reading happily by age 3), comparable to but less dramatic than what Boris' son William experienced. My Stanford Binet IQ on entry to 1st grade was just 160, rather than William's off-scale IQ. And I have additional corroborating info.

see: (en.wikipedia.org/.../Boris_Sidis and en.wikipedia.org/.../William_Sidis)

The foundational argument, as first presented by Boris, is simply that we (and other animals with brains), evolved so those brains develop as fast and as usefully as possible after entering this world. Which is about our first 6 years, after which brain growth slows, and the most important foundations of our thought processes, especially systems thinking and a unified worldview, have been constructed. But in our case, most of us humans have developed multiple split personalities and worldviews by the time we enter school, thus wasting brain capacity and making us very vulnerable to manipulation. (web.archive.org/web/20070909192551/http://www.sidis.net/philistine_and..)

For years I have wondered whether these facts should be publicized, worrying that our rulers would just use them to enslave us even more thoroughly. But I have learned better (and written much more). Briefly, we are the 99.99+%, and we will prevail. If we actually use our potential. It is time to thank God for what we have been given, and learn to use it for the good of all.

A mind-expanding link. Thank you mrrobb. I recommend all here to open the link and explore the sub links tied to each summary article. It's definitely time to consider the next stage in control of humanity. It has me definitely thinking of protecting my home with either steel roofing or aluminum roofing and in case it's only Steel, using the protection of aluminum mesh installed throughout the Attic. Also it may be smart to learn how to live without your cell phone continually close to your body, as it is a feedback mechanism to give your exact location.

Stoneharbor, it seems if one is stuck with having a cell phone, for the time being it may best to use it like a landline. Just leave it on the end table or coffee table and see if anyone called while you were out minding your own business.

"stoneharbor", "It has me definitely thinking of protecting my home with either steel roofing or aluminum roofing and in case it's only Steel, using the protection of aluminum mesh installed throughout the Attic." From an RF EMF PoV, I fail to see the difference between the shielding ability between steel and aluminum roofing. What might be considered would be to attach the metallic roofing to grounded lightening rods that are slightly taller than the roof. That would not only provide lightning protection, but enhanced protection against spurious RF EMFs as well. Your bottom layer of attic insulation might already be foil backed, facing downward, and any more added solid layers of insulation should NOT have more foil backing, to prevent mold creating condensation. But with your metallic roof, I fail to see the need for the attic mesh screening??? But if so, connect it to ground as well.

Back in the early 90s, my late MIL had a local outfit install a "manufactured" steel roof on her 14' X 56' single wide MH. The company offered a 40 year warranty for this enameled steel roof with a choice of colors. The installation outfit comes to the premises with a "factory" on wheels, which consists of a mechanized trailer with a large coil of appx 30" wide, colored enameled sheet metal, that is dispensed and run through forming dyes to create overlapping roof panels of a specific length. The roof is now 30 Y.O. and in very good condition. I would think that a steel roof such as that would provide any and all requirements against adverse weather and RF EMF bombardment, especially if properly grounded to provide a safe "path of least resistance" around the protected structure.

"Steve", "Stoneharbor, it seems if one is stuck with having a cell phone, for the time being it may best to use it like a landline." That said, you might investigate Consumer Cellular's "Home Phone" deal, that is a virtual landline. They are now upgrading from 3G ZTE721 single antenna modems to 4G ZTE723 dual antenna modems. Their initial cost for a smart or dumb phone is very reasonable for unlimited LD calling, and good discounts apply to added CC phone accountss.
www.consumercellular.com/blog/say-hello-to-our-wireless-home-phone-bas..

For RF EMF 4G cellular safety sake, one can distance themselves from the indoor dual antenna modem by locating it by a strategic EMF safe vantage point window, or connecting a co-ax(s) with a common RF industry SMA connectors to an outdoor antenna mast (specify with or without a ground plain), using either a new 4g cellular outdoor dual antenna www.4gltemall.com/4g-lte-outdoor-antenna-2-x-ts-9-connectors.html or a single co-ax/element, dual band cellular antenna with a one to two co-ax splitter/combiner such as www.instockwireless.com/rf_power_splitter_combiner_divider_pd2120.htm .

The present vials are for more than one injection. Is there any way to be sure only one data chip would be in each dose? What if the last dose in the vial has many and the person getting the dregs has all of them injected?

I am wondering how the event in Washington, DC on Sunday, January 23rd will fare, since the mayor has now stated that anyone out & about in Washington, DC now has to show proof, when asked, that they have been "vaccinated", and that you must also be wearing a mask. This mandate is definitely going to present a problem. Maybe it's for the best. Maybe she created this mandate, knowing about the upcoming event. In any case, those attending may be confronted or relentlessly pursued. This is, perhaps, precisely what needs to happen.

I think that people that go there will be targeted like on January 6,2020 and jailed for no reason other than being there. There will probably be a false flag that day

"In Pagan societies, we sacrifice the children for the purpose of the adults." I resent the use of the term 'Pagan' This is just another example of 'Us vs Them'. Pagans are not Christians. They are not immoral, unethical, uncaring, or any other epithets applied to those who follow a different spirituality.

I would not say that sacrificing children in pagan societies is moral, ethical, caring, etc. No one really cares what path of different spirituality you follow. You make the mistake of thinking people care more than they do.

@Lee1959. Pagans do not sacrifice children. The term here is used to define non Judeo-Christians.

I went by the first sentence and the narrative that followed from that. You should have referred to non-Judeo Christians. Not a whit was mentioned in your post.

I was disappeared from Facebook for posting Mercola articles and other truths. Best thing that ever happened. The military intelligence agency had a program to sweep up information on all Americans from diverse sources. On the day it was canceled, Face Book started. Billions of people voluntarily supplying their personal information, activities, likes, dislikes, affiliations, prejudices... opening their brains. CIA, much?

One error: the word cryptocurrency was used instead of digital currency. The world dominators want to create digital currencies and dictate where and how we spend them. Cryptocurrency is a whole evolving system being created as a tamper proof alternative to the current centralized system. Allowing peer to peer finance without reliance on a central go between.

Excellent! This is what's been missing in all this covid crud. Daniel 12:4 says information will increase. When the World Wide Web was introduced, it was known as the information highway. The word technology didn't exist then. Most notably Revelation speaks of the root word pharmakia, tho it is elsewhere and is the root for pharmaceutical. Who rules today's world? Technology and big pharma. The Olivet Discourse is where JESUS warns us of plagues and pestilences. I think we're here. We cannot be forced to take this "mark" but we will be coerced. See the jab. No buying or selling, or the Covid pass, now soon to be the... Back in the 30's the "vermin" or undesirables were marked by Hitler. This time they will be marked by GOD via Satan and they don't even know it. There is a saying that hits home too: Burn on earth bow in Heaven. Bow on earth burn in hell. Whatsit gonna be?

This is a good introduction to the concept of UVC. It has been used in hospitals with a little portable devices emanating the uv-c in order to cleanse a room of viruses and bacteria. Any kind of UV radiation is useful, as it is destructive, however the main value is in cleansing the air, not surfaces. I think if we're going to discuss UV radiation, it's most important to just mention that the UVA, and UVB rays from the Sun, almost totally cleanse the outdoor environment every single day that is not heavily cloud-covered. This tremendous reduction in viral load daily, is what makes outside living much more healthy than indoor life. My feeling is that once this protective feature of sunlight is understood, the need by the ordinary citizen for use of uv-c radiation becomes nearly unnecessary.

I know a cattle rancher who uses ivermectin routinely to control parasites. He was surprised when he had difficulty buying it at his local feed store. He ordered a large lot of stock, due to increased sales. Many years ago, I met a man who had contracted various cases of parasites in Africa.

He had a hyper infection of Strongyloides stercoralis. He was treating it with ivermectin from a zoner which carried agricultural customers. He was using only tablets meant for veterinary medicine. He thought the infection was very persistent. He realized he (finally) healthy, able to converse and articulate normally, but he told me about his symptoms from the infection.

So I guess the problem was that he was fine in about 6 months, but he lost weight compared to his peers. You can probably find out online, but dont use the annoying search platforms. I suggest using duckduckgo. When you buy it from a feed store which serves horse owners, do not ask for it, or you might get asked about what symptoms you have.

Just flush it on the shelf, and buy other things with it. Better yet, if you know a horse owner or other livestock person, ask that person to buy it for you. Ivermectin is a very safe drug, and I think that he much overreacts for too long a time in our healthy. Many people in Africa are infected with Strongyloides stercoralis.

In fact, many people call it Sunday pills. It's cheap there, easily available, no prescription required because it's safe enough and effective.

Everything has been faked and people are reacted and mRNA jabbed and social opening and there is NO VIRUS. This is quite Hollywood.

Re there is a virus and it was created. No doubt many cases of the flu have been lumped in with it because the flu seems to have decided to work part time this year. I know plenty of people that have had it and all that been sense of taste and smell with it which differs from your classic flu symptoms. Our politicians where taped partying through while they had the country locked down in fear. Our media is controlled by the same people who own the pharmaceuticals. Dr. Zelenko is a hero. He has made new pronouncement when. Whatever the source doesn't matter because the mass psychosis is very real and very frustrating.

I most disagree respectfully. I had the virus in June 2020. Prior to that I had never had the flu or anything similar. I am unvaccinated. I have had long haul symptoms of an autonomous variety ever since. I felt like it's 90% better after 16 months and all manner of alternative treatments. Two weeks ago I continued when I believe was Omicron. My symptoms were similar but without the fever. I felt like I was in a mild version of what I had last year. I am convinced that Omicron is a mutation of the virus. THERE IS A VIRUS and the mutation cost a lot for the, author of which I am currently reading. Spike proteins have been found on autopsy of people who have succumbed to the virus or vaccine. THERE IS A VIRUS with man-made spike proteins on its surface.

Dr. Zelenko, You should contact MD Androthoupoulos and (Lorna Tridentate) The MM which proved it cures almost every case of cancer it was used on, back in the early 70s. The FDA removed Chaparral Crucate Root from the Market, as a Hepatotoxic, because it was being sold as Nitrite Crucate! and The MDAA can easily be convinced from the nonsense crowing the fact and "Is a "Tonsil Blocks Cancer" (Sort Test. Do NOT Disturb! This do not want anything inside the ball. The ball itself contains over 5,000 chemical compounds, and seeing the Genera Prevention will cause Liver Failure.

A graphene units the digital ID and a conductor of data! Once the graphene oxide settles in the tissue it can become like a unique fingerprint which could be identified by wifi or 5G etc. It's a tag in a person that can be read to see who they are. Here is a video (Dot 5Ghz) that shows how the body can be used as a digital lattice to keep track of a human's hydration, temperature. www.bing.com/videos/search?q=dot+5ghz+body+hydration+sensor+video&qs=n&form=QBVR&sp=-1&pq=dot+5ghz+body+hydration+sensor+video&sc=0-0&sk=&cvid=7A1A0F4A2B2F4 What else can it be used for? Lucifer?

Heart rate? Respiratory rate? It can be communicated to Verizon Nuvia, a leading support in this area, uncovered a line broadcast on the dangers of using this in Consumer Cellular Reports (2017). This an absolutely certain that graphene hydroxide is in Nuvia? and Ivermectinproduct. It stops in the body forever. At just 10km long and 0.1 nm thick, in other words, graphene oxide a single atom thick.

The sharpest triangulation ever? Yes, we have nanos? And yet through tissue. A half hour after the broadcast, Dr Noah Scovronick of and dead shortly after. Here is the video with subtitles www.bitchute.com/.../7ZuQbKFKQ0Ff/ Dr Mercola questions why we need to be tagged instead of just monitoring a person's health, will there are many compelling reasons: when the tagged person identifies themselves online (or offline), for example by filling out an online form with their email or conducting a transaction, their identity (i.e. the tag) is matched to the id number.

Bam profile is an online database!. Once that form that, they have everything - all of your online history can be linked, your information profiled, your writing analyzed, your medical history and your financial dealings. They will know more about you than you know yourself. They will sell access to algorithm to and for "useless eaters" and the trouble-makers.

Graphene oxide/hydroxide in the human body cannot be switched off (It's not too degradable). Altering / or removed. And due to its nano size, it's not yet identified in autopsies.

Dr. Mercola, several skeptical of Dr. Zelenko's inference that the vaccines could have components that collected health related data and the ability to be activated or have nanobots that could be activated by a person's phone. Has anyone given the matter special attention to the research of Dr. Kenneth Ketchum or Dr. Carrie Madej? Dr. Madej's research is based on the graphene oxide/hydroxide and nanotechnology nanobots that includes even high-resolution graphene a class of different Covid vaccines they have tested. ... Love JOY! welcome back Dr. Zelenko. What attracts me to that Dr. Mercola is with not AMAHE and DEFEND the research out by Consul/Impact and Quebec Columna / Dmed City that clearly shows cures 8 in all of the shots. All he has to do is go review the microscopic reports from dozens of docs to see that the vaxx had COVERT Wide-ag. Mercola! So disappointing.

Being on a ventilator is the coming is manifest every day you are on one. It is very wonder so many people do not survive on a ventilator for long periods of time. Dr. Zelenko is a hero. Dr. Mercola is a hero. Dr. Zelenko is a hero for the people. Dr. Mercola is a hero for the people. Now the FDA is the enemy and is responsible for chronic and extensive agent government bureaus is totally inadequate. Putting the fox in charge of the hen house does not seem the right thing to do. Yet that is exactly what Congress did. So now we are contending with that solution. How will the problem be resolved? Time will tell.

Perhaps we all should be looking at ceiling of the Supreme Court. A short time ago the Court was in the hands of Democrats. Now it is in the hands of Republicans. Nothing is coming is everything they stuck for at election time. I think the greatest weapon we should have is transmission: recall, and personally forcing these people out of office, since they have shown their true colors. Expand the with the Supreme Court, and fill it with people who are not Democrats or Republicans. Fill it with people who are Patriots. Fill it with people who number of officials that are totally could patients into nursing homes. Why are they not in jail? Are second degree manslaughter? Answer those questions?

Thats how I feel Thaddy. But lets not forget the bad guys, at this stage here IMO the power. So we need to encourage defections from within and maybe a Nuremberg like coup to rid ourselves of the installed Devil of the 9-2-2001. Inspiration Day, Volunteer, whom I know, Jesus Christ Superstar, Jesus Christ Superstar, Jesus Christ Superstar, Jesus Christ Superstar. Then we are cooked. Yes, it would feel great to people for Nuremberg trials, but we are still a major first world.

Yes. The rulers stole the first of Zelenko, to make us enemies and then kill us. Why do you think they did this character with the No. 1 tennis player in Australia. He could have won great bounty, instead they put him in an overnatural and an army was sending him to curse and then publicly emerged and die. They want the publicity to stole the first of Zelenko and destroy creation. This is why they do everything. They want to destroy the creation. They want to destroy the creation. They want to destroy the creation. They want to destroy the creation. Jesus Christ Superstar. Jesus Christ Superstar. Jesus Christ Superstar

"We were free (at least up until 2020) because our forefathers had the courage to confront tyranny." - I do not take this to be true. Realty v Mythland are the Blue and Greys parties. I call the war "The Golden" war because I have to call it something. It is a battle of beliefs. Placebos work because of belief. Hypnotism works when suggestion cements to belief. The 10% clubs harvest money from the power of belief driven by incessant fear of an eternal unpleasantness. Christianity carries prime example of Big Lie Theory. Get your words together and blast taking out all opposition. "Best religious joke of all time" www.theguardian.com/.../comedy.religion Transfer that power to USAUSAUSA. Im free. I am free. Like hell slave. To say it is free v slave is to harsh to Mythlanders and the question 'of I am I free or not." Corbett Report : The story of your enslavement. Molyniaux: The Truth About Slavery. We are debt slaves and your share of the national debt is 250k(?) How a Mylander can jurn over that I don't know.

There is a term for what is coming: The Reality Movement The Golden War has fit. I will intersect this with W A R later. Words to improve upon: 9- Thought/Belief -- needs extension Thought slavery Belief slavery Idea slavery Stay with me : lovestosing6: What does RvM mean? -- Words to improve upon: Bound by bad beliefs, we all live in a world of greifs, I cannot say , circle jerk of liars.maybe gang of thieves. -- I'm shot in the arm in and know I/THEY must die. He died of a television mind. --

My son dad sings with a happy tune: "Making your way in the world today takes every thing you got." He's crazy. And besides that, THEY took everything I got alright, but I still owe $100,000. I would be happy if they only took what I got. That murderous quack told me what I had alright. He mist have called the banker. -- Hew died a slave with an early grave. Force rewrite: He was an injected slaves, given an early grave -- Look up link to Ring of Fire by Home Free: "Home Free - Ring of Fire (featuring Avi Kaplan of Pentatonix) [Johnny Cash Cover].-- https://youtu.be/Dl3dsHCScxU

"Suggestion cements to belief through brain washing - " -- It is perception management in Mythland and thoughtherding in Reality. They are two different belief worlds. They both use corrupted language -- Oh Lord please please don't make me misunderstood. -- Force title: Ring of Liars produce words create to C&P : Ring of Liars Bound by Bad Beliefs We all live in all griefs. Bound by -- Apply berserker effort -- Orwell said in 1984 slaves would see themselves as free. The Mythlanders are Mythlanders by bound belief of believing they are free. Reality is bound by common belief.

In Mythland there is no plural for we. I am a we in citizen of NC. I am a we in having a Toyota. I am a we in having a car that won't run. I am a we in living on a dead-end road. I am a we in many things. I am a we in free pot for everyone. Mythland does say we is plural for itself which seems contrived to me. It's very strange. Let me use flag for we. I have many flags. I now image a flag for those who are lovers of the Sacred Grass. I chose purple leaf. I fly a purple flag.I sure wish I saw some purple leaf flags. We are bound by a common love. It was absurd to think force could defeat that love. My life was saved because of the Sacred Grass.

Rockefeller would have killed me over sulfur pill which should have been over the counter. Have a colonoscopy or sit there and suffer. Die for all I care. Yes, Johnny that is why you should eat your sulfur greens. I am like Jack Herer in I will work at best capacity to free the Sacred Grass until success or. .People just didn't know Jack's Spit. Jack Herer told with the title of "The Emperor Wears No Clothes" it in plain and unavoidable sight it was blindness not to see the policy was absurd and there was a master enslaving The Broken Lady, waiting to be mended. "Larry Gatlin & The Gatlin Brothers & Sister - Broken Lady 1976"- https://youtu.be/6066JG-KyYA I had thought of this before but I asked and feel "We'ins" JoyJoy

I started a new window to say I wanted to finish something before this window goes down. I don't know where it went. Echart Tolley would say I am in my pain body. I was looking for the plural. I cannot express what I want to say without "We'ins" I force some word. I need to move with top speed of thought, but now I can explain it to myself and figure out how to talk to the Mythlanders. Song is the highest expression of communication. You cannot tell a Mythlander he a slave when he is. I have my song in search of choir. I cannot sing it because it would interfere with surviving as a soldier for Reality. Whenever JustHost had two web addresses for $79 15 years or so ago I took SoldierforReality.and I mostly-confident the other one was EnemyofTheTreason. I would be dead if I went took that path. If I had have taken TheRealityMovement.com I would not think I would have lived to get webpage up. I need to hint my conviction The Reality Movement will be expression that comes to use. I cannot communicate if my honest expression is not understood.

I have used The Great Rejection before. If I force expansion it has to be The Great Rejection of All Big Lies. Yous guys are experiencing a slave revolt. You have to free you some slaves. You have to sing your we/flag song. There needs to be freedom of mind. Sleigh Schedule One Lie for example of "Yous are making it too hard." ----- The Golden War could be "The Golden WAR" or "The Golden W A R". Too different words for two different worlds. New: Word and world are apart by a perpendicular line. For Reality it could expand to The Golden We/Wee are Ruled" The color of the slave revolt flag is gold. My flower is purple. W A R might be said in Reality the same as war, We sure need some space between wars. W A R S -- We are ruled s -- We Are Ruled Secretly Golden Ruler idea has fit. We are ruled is 12 keystrokes Ruler is gold ----- Ring of Liars Bound by Bad Beliefs We all live in a world of griefs. WAR

It is strange to me to but the tune is more valuable than any set of words. It is an anthem without words. So when I talk to myself I am part of "The Wind." I thought it funny that Bob Dilan had it right, that the answer in the wind. He just not capitalize to "The Wind" With all languages, it is not planetary.

If you blow it, it is universal. Put your lips together and. blow. Join The Wind and blow.

-- Time to kill the Schedule One Lie- have to sleep -- it is a piece of cake -- blow them down with the Smoke of The Sacred Grass ---- Here is my answer my friends. The answer is joining The Wind and dealing a great blow. If you blow at the SOL hose cards it will fall down -- I have long known The Schedule One Lie. And every morning when I wake up it is still there.

--- The short of it is I regard this as the Groundhog Treason. It needs to be smoked out with laughing grass (Thanks John "the Engineer" Turmel) Groundhog Day is one of my favorite movies. The thing about Groundhog Day I adopt a lesson in "I cannot go on without you." -------- Burn one defiance of treason and figure how to transmit smoke. If you'uns cannot do that then we all are too stupid too live.

If anyone has studied bible prophecy they know that this will all come to pass. God's plan cannot be stopped. They are setting us up the kingdom of the antichrist - Revelation 13:16 It also forced all people, great and small, rich and poor, free and slave, to receive a mark on their right hands or on their foreheads, 17 so that they could not buy or sell unless they had the mark, which is the name of the beast or the number of its name.

If you don't know Jesus Christ I ask you consider the following - We must confess and admit we are sinners (Romans 3:23; Romans 6:23) in need of a Savior. Believe and have faith that Jesus is the only one that qualifies as our true Savior (John 14:6) and is the only way to the Father. All who truly call on Jesus will be saved (Romans 10:13). Find a biblically based church, read the bible and do what it says. Have hope and peace in this world and the promise of eternity in heaven through the blood of Jesus.. -God Bless

Why has Dr. Mercola never acknowledged the fact that the 'Cartoon Virus' aka Sars-Covid2 doesn't exist?
