### Video Game of the Month (April)

## Watch Dogs: Legion

This months video game is: Watch Dogs: Legion. Watch Dogs: Legion is an action-adventure game played from a third-person perspective, and taking place within an open world setting based upon London, which can be explored either on foot -- utilizing parkour moves -- vehicles, or fast-travelling via the city's Underground stations.

Eight of London's Boroughs are represented in game: Westminster, Wandsworth, Lambeth, Southwark, Camden, Islington, Hackney and Tower Hamlets, in addition to the City of London.

The game is composed of several missions, including those that progress the main story, liberation missions aimed at freeing the city's boroughs featured in the setting, recruitment missions for new playable characters, and various side-activities, with players able to freely pursue a mission or activity, or explore the city for secrets and collectibles.
