Infowars and Alex Jones have given a very important presentation on the most critical issue of global climate engineering/geoengineering. More and more in the independent alternative news community are realizing the dire and immediate threat posed by the aerosol spraying crimes. More and more are realizing that if climate engineering is not stopped, soon enough nothing else will matter. Our thanks to Alex Jones and Infowars for

this very helpful presentation.

It is easy to poke fun at Alex Jones because he seems a bit manic and breathless. He is credible, and showing these documents certainly helps his credibility. Thank you, Alex.

We are all conspiracy theorists now it seems. But all this is real and in force. I'm worried for all life in the biosphere, but I remain connected hoping for the awareness level and bravery we need to take hold. Those whose job requires they hide or deny these programs needs to make a moral assessment of themselves and their place in the Universe. These are the people who collectively can bring this out into the light of day.

Kristen Meghan, former USAF hygienist turned whistle blower, needs company.

Thank you always, Dane and others, who work everyday to enlighten and wake up the sleeping masses. Peace and perseverance to All.

I hate what they are doing, to our earth/sky and to us. I suffer from fibromyalgia and I can't help but to look up and wonder if geoengineering plays a part in this "mysterious" illness that has ruined my life. I was disappointed Alex didn't go through the rest of the documents as I was looking forward into looking into them. Does anyone know if there is somewhere I can go to see a list of or links to the other documents, please?

Alex mentioned Paul Crutzen. In 2012 (March 12) Time magazine article called "Nature Is Over", Paul Crutzen says (in highlighted orange color). "It's no longer us against "Nature". Instead, it's we who decide what nature is and what it will be". Here's a quote from the article by environmentalist and futurist "Stewart Brand". "We'll decide whether human beings continue to thrive or flame out, taking the planet down along the way." There is a couple more lines and he ends with this. " We are as Gods, and we have to get good at it.

There are many other parts in this article I'd love to mention but this would be long. I was so mad reading this article I could hardly stand it. Who do they think they are and to say they have to be like Gods?! I looked at several future issues to see what people were saying about this terrible article but I never saw one comment about it. Check it out.

I know that these Chemtrails are backed by the largest of corporations such as big oil and pharmaceuticals and if you follow the money trail you will understand their motives. Blocking the sun will reduce the effectiveness of solar and increase profits for big oil. Breathing heavy metals will make people sick and increase the profits of big pharma.

Chemtrails are MARKET SCHEMES... Solar panels are less effective so gas and oil make more money. people get sick so big pharma makes more money, agriculture and trees don't grow in polluted soil from these sprayed chemicals but Monsanto has seeds that they have developed that are impervious to these chemicals. When they control the weather they create droughts in areas that lower the price of real estate, buy it up and make profit when they return the rains. (HAARP can and is doing this) WAKE UP PEOPLE.

Why does our government do nothing about this? I think it is a combination of ignorance and fear. The large corporations that profit from this have the supreme court behind them 'money is speech and corporations are people' therefore, if politicians speak out they get voted out. Plus most of this is done without their knowledge. 'National Security' keeps the military projects secret... thanks to the Patriot Act and NSA secret agenda.

This is sickening. How long are we allowing these sick, bloody darn psychopathic control freaks, to get away with this & still keep on committing all these crimes against humanity & the planet? It is high time, these lunatics are stopped in their tracks once and for all & are put to justice!! Enough is enough...

Thank you Alex for covering this. Unfortunately many have been brainwashed into ignoring Alex and thinking he's a nut. I know he isn't but to try to convince friends otherwise is exasperating. Same futility felt when I'd try to point out the sprayed skies to people back in late 2005 when our area of L.A. first began getting sprayed heavy on a daily basis.

Lola; Supposedly Congress is funding the HAARP project. Check out dvd "Holes In Heaven" Advances in Nikola Tesla Technology, it's been out for some years. If you contact your Congress

Reps., Senators, they will more than likely tell you what you see as Chemtrails the military says are Contrails but we know better, right? I have not seen this aired by Alex yet, I'll get around to it soon enough. I'm aware of many other issues he's covered, one such example as the "The Bohemian Grove". I think he did "Fall of The Republic", "Endgame", etc... This guy puts his life on the line as Dane and the rest of us for airing our big time concerns, some more no doubt. It seems most reps. are followers and not leaders as we would like to see and are led to believe, especially for the gullible. Chemtrails and HAARP work together no doubt, end of story!

More Than Owning the Weather in 2025

TITLE: "Present and Future Plans of Federal Agencies in Weather-Climate Modification"

Documents from 1966 reveals a network of government agencies in perpetual and secret collaboration, working with the military to Geoengineer the climate.

Created as an agenda of the elitist National Academy of Sciences – decades of an inter-agency culture of secrecy explains why the issue of covert aerosol Geoengineering is a taboo topic to be degraded to the status of "conspiracy theory" by every government agency in this web of complicit bureaucrats at every opportunity. This is why your local TV "meteorologist" will rarely make a helpful comment about an unusual sky filled with persistent jet trails.

The document promises: "weather-modification can provide battlespace dominance to a degree never before imagined. The "never before imagined" comment speaks directly to the HAARP ionospheric heater facility, the Bernard Eastlund patents, and military strategies for global military dominance.

Together we can reach into the realm of all possibilities and 'choose' the kind of future that will arise from chaos of the present. <https://ourgreaterdestiny.wordpress.com/2014/08/16/zero-tolerance-for-the-lie/>

Nicola Tesla discovered this technology. It is now CONTROLLED by the U.S. Military Complex and the Russian's have it, as well. People like Dane Wigington are helping to expose the truth about H.A.A.R.P. and the chemical trails that are being sprayed nearly on a daily basis in almost everywhere around the globe. The Geo-Engineers involved with this project are also telling the press that they cannot "stop" spraying, because then the Earth's climate will spiral out of control. What garbage they are feeding the public. Who voted for this technology to be used to "CONTROL" the weather? I don't even remember having a say in this matter, did our "representatives" forget to tell us about "their" plans for our future?
