THE GREAT TAKING [DOCUMENTARY] - DAVID WEBB EXPOSES THE GREATEST CRIME EVER CONTEMPLATED

Posted December 17th, 2023

David Rogers Webb / CHDtv

David Webb exposes the system Central Bankers have in place to take everything from everyone.

Former hedge fund manager David Webb takes the audience step by step through his forensic investigation into the legal, financial and regulatory changes that have set up "the greatest crime ever contemplated ... the planned confiscation of everyone's global securities assets."

BY DAVID ROGERS WEBB

CHD TV

Webb, author of a book by the same title, exposes the "scheme by central bankers to subjugate humanity by taking all securities, bank deposits and property financed with debt."

"Legal certainty has been established that the collateral can be taken immediately and without judicial review, by entities described in court documents as 'the protected class,'" Webb says in the film. "Even sophisticated professional investors, who were assured that their securities are 'segregated,' will not be protected."

President and CEO Mary Holland, Webb said he has been studying global financial systems and warning of a coming "Great Taking" financial collapse for more than 20 years. His decades of hedge fund experience gave him insight into money flows and systemic risks that he believes foreshadow an orchestrated crash.

Webb spent years researching historical precedents like Great Depression-era bank closures and gold confiscation to help him understand the "playbook used by powerful banking interests during times of financial turmoil."

He first noticed that money velocity rates showed how excessive money creation drives unstable economic bubbles. The mainstream news coverage during the 1990s Asian financial crisis aftermath did not fully explain the odd market movements he was seeing.

Digging deeper, Webb realized "the scale of the money creation during this period was very high." He found Federal Reserve Board activity generating over 1% of gross domestic product worth of new money in one week — "an order magnitude bigger" than annual growth rates, he said.

The massive liquidity influx was not going into the real economy, Webb said, but into "destructive things ... wars... various operations that are about control."

Webb compared the state of the economy just before World War I to today's hyper-financialized economy, saying both are about "looting" in the late phase of economic bubbles, just prior to a crash.

Webb also witnessed a decade-long campaign to change commercial banking statutes and ownership definitions, state by state, that set the stage for revoking investor property rights during defaults.

"The underpinning of the entire securities infrastructure in the U.S. is the Depository Trust and Clearing Corporation, and this is the

	And nothing has changed, THEY have actually ramped up money printing again as they will do in the future as in the past. A in Obamas new movie "Leave The World Behind" went like this. A man needed meds for his son, a prepper had that med, af almost a fire fight they struck a deal using "old fashioned barter system", that system was cash. And the Prepper said, "gue would have to establish a barter system and it may as well be cash". Cash that is being stolen by those who have stolen con Obama would seed the idea that we need to use cash paper in the future which would make the cash they stole still worth something, which would lead me to believe we may need to find another way of trade? Just something I was thinking about.	ter ss we trol.

	Satan is behind all of this. To say this is 'unconscious' is an attempt to deny the obvious. This could not possibly be 'uncons Satan's ultimate goal is to destroy all of humanity. Denying his existence, doesn't help us. We need to amend our lives and p Ultimately, this world is only a temporary home for any of us. Since eternity is going to last a whole lot longer, a person woul well advised to focus on how to be prepared for one's life AFTER this one comes to an end.	oray.

	I see what he is doing at the end herenot trying to "offend" "these" people. "They are not particularly capable people"ne they are evil. Evil people are more capable than one thinks. He doesn't want to be suicided so he is taking this angle that no everyone involved can be complicent.

The Banksters are trying to run the market up, so you stay in, and they BAIL by selling the selling to run the market up, so you stay in, and they BAIL by selling to run the market

	I don't think they're going to pull it off. Economies and currencies erupt naturally. People will buy food directly from farmers w	ith
	crypto, precious metals, or spontaneous currencies like weed, booze, cigs. These banksters apparently haven't studied the hi	story
	of countries that attempted this. People adapt, develop black markets, and in the information age the underground economy spread at lightning pace. We may even find we don't need them at all anymore and military personnel will be more loyal to the	
	freinds/family than their corrupt CO's. Look at what happened with the covid lockdowns, jab passports, coerced jabs etc. Peo	ple
	fought back culminating in the Canadian trucker protest that scared them back under their rocks. They're stupid enough to try again with climate lockdowns, but we're ready now.	/ It

	Not one mention of the mark of the beast and the tyranny that will not allow buying and selling. No mention of the synagogue satan , the small hats that love money and run the banking system. The apocalypse is upon us, everybody feels it but try to ig	
	it.	
	Revelation 13:16 And he causeth all, both small and great, rich and poor, free and bond, to receive a mark in their right hand, o	or in

	18 Here is wisdom. Let him that hath understanding count the number of the beast: for it is the number of a man; and his num	ber is
	Six hundred threescore and six.	
	Revelation 2:9 I know thy works, and tribulation, and poverty, (but thou art rich) and I know the blasphemy of them which say are lews, and are not, but are the synagogue of Satan	they
