### **Today's Weather Has Been Artificially Created! Patents Directly Related To Geoengineering (Weather Modification)**

Today's weather has been artificially created!

The California drought has been artificially created and severe rain storms have been created - weather warfare is escalating. The Oroville Dam in northern California is being targeted by various weather and warfare operations.

Listed below are some Patents Directly Related to Geoengineering (Weather Modification Programs). This information is posted on [www.ToxicSky.org](http://www.ToxicSky.org) and we suggest you go to the home page at [www.StopTheCrime.net](http://www.StopTheCrime.net) to learn about the broader reality that we ALL face.

This is a partial list of the patents and descriptions of the chemicals being dumped upon humans through Chemtrails/Geoengineering. It's called Geoengineering because these chemicals literally restructure (reengineer) global weather patterns, the cells of plant, animal, fish, insect and human life.

We suggest that everyone take necessary precautions to prevent direct storm related damages. Where ever possible reduce or remove trees near dwellings and thin branches to reduce "sail" - to catch less wind. Be cautious around creek overflows. Any other suggestions you would like to contribute please do.

This is WEATHER WARFARE. Take action to prevent storm damage and asset stripping with costly repairs and life threatening consequences where ever possible.

Without a spiritual aspect, nothing makes sense today. The Devil is in the details. The purpose of his evil existence is to utterly destroy God's creation.

The California drought was engineered and now the drought is OVER, some say. The water shortage (illusion) has been manipulated - we do not have a water shortage! We have plenty of water. Water is a renewable resource. Go to [www.PrimaryWater.org](http://www.PrimaryWater.org) to learn the water facts . . .

Forward this out to all you know and be safe!

This request is for extension of a current information collection.

Section 6(b) of Public Law 92-205 requires that persons who engage in weather modification activities (e.g., cloud seeding) provide reports prior to and after the activity. They are also required to maintain certain records. The requirements are detailed in 15 CFR part 908. NOAA uses the data for scientific research, historical statistics, international reports and other purposes. <http://www.gpo.gov/fdsys/pkg/FR-2014-05-05/html/2014-10174.htm>

[FIBERS in the BRAIN: The main purpose of chemtrailing is eventual mind control](#)

The main purpose of chemtrail is eventual mind control of world population. Almost 85% of world population already infected with nano-fibers from Chemtrail. These fibers have miniature electrical components that assemble as nanobots and attach to brain neurons and multiply with effect of ELF waves. Even if Chemtrail stops right now, every human beings could be influenced by mind control for political agendas. The best way to get rid of nanobots is to build clinics equipped with strong EMP that destroys these nanobots and body cleansing. US along with China has a major role for bringing one world government which requires mind control and depopulation. In fact China is allowed to take over Federal Reserve and their fascist model is planned to be used in US and worldwide and eventual one world government that could never be materialized.

**Climate Intervention and Geoengineering: Albedo Modification**

Room 220C (San Jose Convention Center)

The 2014 report of the Intergovernmental Panel on Climate Change notes that since the last assessment, collectively, nations have made no progress in reducing total greenhouse gas emissions. Furthermore, the rate of investment in climate change adaptation is estimated to be orders of magnitude below what is needed to address the growing risk of climate change, particularly in the densely populated coastal zone. The topic of this session is albedo modification, which is a form of climate intervention that temporarily offsets the warming effects of carbon dioxide by altering Earth's radiation balance and is a companion to the session "Going Negative: Removing Carbon Dioxide from the Atmosphere." This session will explore the scientific and technical underpinnings of albedo modification, including its risks, governance, and sociopolitical considerations.

### [ADVISORY: Air Quality Agency, Says Agency Outside Chemtrail Story \(Q&A - most important\)](#)

Excerpts from above link: (Open the above link to read the Q&A - shocking)

A jet-lain stripe of white cloud is featured in the contact window of the city/county pollution control bureau website. The image vanished when a CBS Radio news affiliate made inquiries about chemtrail pollution in the county.

Meet Bob Colby, the director of the Chattanooga/Hamilton County Air Pollution Control Bureau whose work is paid for by Chattanooga-area taxpayers but whose mission is to enforce the view of air quality under the dictates of the U.S. government. The local face on the remote and global power sitting in Washington.

Indeed, evidence of at least the edges of stratospheric engineering exists in the record. Aluminium, strontium and barium — said to be the main elements in U.S.-manufactured skies — are regularly present in city and county air, according to Mr. Colby's response to my state records request. Mr. Colby dismisses these numbers as "traces," nothing about which to be worried. Skystripping, sky tattooing, sky hacking, chemtrailing, call it what you will — remains officially a nonstory.

The key elements in the secretive federal program are not part of his duties. Against them, the watchdog barks not

Bob Colby's responses to my questions, like the slivers of metal standing at attention as a magnet passes over, help steer us in our quest for the facts of local economy and its enemies.

As the shavings come into line, my speculations trace the direction along which they point. That the official regulators of air pollution are a necessary distraction, a cover for a possibly dangerous, unregulated, untested aerial cloud-making weather modification program that sprays milky haze into the stratosphere to dim the sun, as you perhaps have noticed in your home city. Meanwhile, micromanagement of ground-produced fumes makes us assume that the U.S. government is just as fussy about other kinds of smoke. No government with a watchdog such as Mr. Colby on the ground could tolerate jet-lain pollution above the clouds as conspiracy theorists suggest. No national power as vigilant with leaf-burning bans and inspecting dry cleaners could conceivably ordain the depositing of millions of tons of aerosolized particles aloft that could be the unsuspected cause of oddities such as bee colony collapse and skyrocketing rates of neurological disorders among the populace.

The following is extremely well researched and documented: Weather Weapons: the Dark World of Environmental Warfare

While Rockefeller's Club of Rome, the so-called 'government' and the private corporation known as NASA are blaming the 'people' for "climate change", the industrial military complex is covertly and intentionally creating climate devastation across the globe. They are using weapons of mass destruction and have been doing so for many years.

The question is not if we are experiencing unusual weather. The question is who or what is causing it?

This is yet one more example that both main stream media and main stream academia are not only censored, they are both given propaganda to disseminate. Operation Mockingbird has been ongoing for decades.

Academics rarely discuss corruption in our government until they retire and even then few are willing to acknowledge it. In fact, they do the opposite. Academics generally give government agencies credibility these agencies don't deserve. Of course, showering them with government grants influences them as well.

Here is an inconvenient fact that is easy to verify:

ALL government agencies are private for-profit corporations listed on Dun and Bradstreet. Their employees do not work for the American population. They work for their private for-profit corporations. This includes the FDA, CDC, UDSA, EPA, FCC, NASA and the rest. They are all listed as businesses (corporations) on Dun and Bradstreet. This fact is not disputable. Its significance is enormous and will take most people awhile to digest. However, it does explain why the EPA hasn't banned toxic petro-chemicals and nuclear waste sites or cleaned up the super-fund toxic dumps. EPA employees are not incompetent bureaucrats! The owners of EPA INC (and all of the agencies) decide what their employees can and cannot do . . . just like everyone else.

I had many discussions about this with Bill Cooper. (FYI - Wm. Cooper was assassinated) The SODALITAS TRUST and story of Jonathan May was the only real threat to the Federal Reserve. It's epicenter was Oklahoma City, Oklahoma. Why do "they" keep focusing on this and bringing destruction? Dr. True Ott

In a readers opinion, the actual target of the Tornadoes mentioned is the massive, only one of its kind Air Material and Air Logistics Center at Tinker AFB in Midwest City. It's a suburb of OKC in the SE portion.

The run-up for a tornado strike on the Base starts West of OKC and the Murray Bldg remains in between.

The Murray Bldg is an "explanation" that most couch potatoes will buy and many activists, too.

The uncomfortable fact is that Haarp installations are in 17 countries and are not all under US control.

Since, they do not want to explain weather warfare, much less other countries possessing the weapons and using them on US mainland military targets, the Murray Bldg will do nicely. Other than that, it is a shrug of the shoulders and saying "It is just the weather." As you know, trying to update 67 years of secret and often compartmentalized military history to brain dead Americans is virtually a hopeless task. Besides that, the Empire doesn't want to.
