#Great Vaccination Quotes: | List of Random Quotes

Once believed in Jenner; I once believed in Pasteur. I believed in vaccination. I believed in vivisection. But I changed my views as the result of hard thinking.--Dr. Hadwen

Vaccination Liberation

Vaccination Liberation is part of a national grassroots network dedicated to providing information on vaccinations not often made available to the public so that one can make the only informed choice, complete avoidance and refusal.

Mission Statement:

- To reveal the myth that vaccines are necessary, safe and effective
- To expand our awareness of alternatives in healthcare
- To preserve our right to abstain
- To repeal all compulsory vaccination laws nationwide
