

Be at peace...

We have tried decades of war and violence. Governments have been bombing THEIR 'enemies' in to submission forever. It has not resulted in bringing a lasting peace to the world! If anything, bombing 'so called' enemies into peace seems to be working for no one else but for the Military Industrial Complex and the International Banking Cartel.

KIEA founders believe the only way forward for humanity is for everyone to move to peace with the world and each other. Hopefully those in the de-facto governments of the world will end up following the lead of We the People.

For reasons that will become apparent to you as you unlearn and re-educate - we fly the International Flag of Peace to signify that we are at peace with The Powers that Be (TPTB). For those of you who do not know, TPTB made the people of America an Enemy of the State. This was re-inforced when the International Banking Cabal bankrupted their UNITED STATES Corp 1871 in 1933 [[Look up HJR 192 and Public Law 73-10](#)]. Consequently the American people, have been unknowingly identified as enemies of the state, enemies of the Crown, and subject to Letters of Marque and Reprisal issued as B.A.R. Association membership cards.

Some say the above flag is a flag of surrender but, think back to all of the war movies when the two warring armies meet, each sitting on the summit and the leaders ride to the center of the battle field, white flags in hand, one last chance to negotiate peace. Neither side surrendered, but came in peace in an attempt to avoid war and forge a lasting peace.

Any attack against a peaceful entity is an act of war. Today the commercial civil de-facto governments of the world are operating under Letters of Marque and Reprisal from the Crown which authorize them to seize all vessels of the enemy, magically turning pirates into privateers.

One of the elements required to stay safe from pirates and privateers is to be at peace with TPTB. Additional steps are also required to safeguard yourselves which concerns your status, standing and capacity. This will be explained in the educational section of this website at a later time. Going forward - consider flying the International Flag of Peace over a War Power Flag!

More on the Flag of Peace

The white flag is an internationally recognized [protective sign](#) of [truce](#) or [ceasefire](#), and request for

negotiation. It is also used to symbolize [surrender](#), since it is often the weaker military party which requests negotiation. A white flag signifies to all that an approaching negotiator is unarmed, with an intent to surrender or a desire to communicate. Persons carrying or waving a white flag are not to be fired upon, nor are they allowed to open fire. The use of the flag to surrender is included in the [Hague Convention](#)

The improper use of a white flag is forbidden by the [rules of war](#) and constitutes a [war crime](#) of [perfidy](#). There have been numerous reported cases of such behavior in conflicts, such as fighters using white flags as a ruse to approach and attack enemies, or killings of fighters attempting to surrender by carrying white flags.

Origin The first mention of the usage of white flags to surrender is made during the [Eastern Han](#) dynasty (A.D 25–220). In the [Roman Empire](#), the historian [Cornelius Tacitus](#) mentions a white flag of surrender in A.D. 109. Before that time, Roman armies would surrender by holding their shields above their heads.[1] The white flag was widely used in the Middle Ages in Western Europe to indicate an intent to surrender. The color white was used generally to indicate a person was exempt from combat; heralds bore white wands, prisoners or hostages captured in battle would attach a piece of white paper to their hat or helmet, and garrisons that had surrendered and been promised safe passage would carry white batons.[2]

Its use may have expanded across continents, e.g. Portuguese chronicler [Gaspar Correia](#) (writing in the 1550s), claims that in 1502, an Indian prince, the [Zamorin](#) of [Calicut](#), dispatched negotiators bearing a "white cloth tied to a stick", "as a sign of peace", to his enemy [Vasco da Gama](#).[3] In 1625, [Hugo Grotius](#) in [De jure belli ac pacis](#) (On the Law of War and Peace), one of the foundational texts in international law, recognized the white flag as a "sign, to which use has given a signification;" it was "a tacit sign of demanding a parley, and shall be as obligatory, as if expressed by words."
