Pizzagate: The Totality of the Evidence

With CNN's John Griffin starting his own child sex trafficking ring with mothers and children, I thought it would be a good time to put this all in a recent IG report around the Epstein/Maxwell trial. It is worth revisiting Pizzagate.

https://www.huffpost.com/entry/cnn-journalist-employees-arrested-child-sex-trafficking_n_5f1c1ca5c5b6a0ad1f0ec4ae

The reason that Pizzagate has been suppressed so heavily, is because of the Mockingbird Apparatus and the Great Shit Machine.

https://archive.md/RNIOI

The most damning piece of evidence is that Alice Walters contacted Comey on his personal email, asking for help in covering up the issue, which he stopped for 2 years.

Why has James Alefantis never bothered to explain the bizarre parties he video records, then rebroadcasts? https://ark.ic.ucf.edu/ark:/13960/t2wb4gg9w

Many know James Alefantis' family spoke out for convicted pedophile, Christopher Hasson, and that he was a frequent guest at Alefantis' parties. But, there was also a letter asking for leniency for the same pedophile in the same case...

http://archive.fo/cgCfx

[More than 90 people, including former ABC News anchor Charlie Gibson and Kim Wehle, a former assistant United States attorney who is now a professor at the Ohio Northern University, wrote letters on Hasson's behalf.

"It is a case almost Dostoyevskian," Gibson wrote. "Chris has carried this guilt with him for years, and I cannot imagine how the knowledge that it would some day come out, as it inevitably would, must have eaten at his soul."

Anyone remember when Dave Brock and James Alefantis were blackmailed? Twice? The first time they paid up, the second time they needed help from friends, the DC Metro police.

https://www.washingtonpost.com/archive/lifestyle/1997/08/31/dcnxt/

Chris Rawnsley, Chief of Police for Washington D.C., who also publicly supports Comet Ping Pong owners, James Alefantis, allowed an 11-year-old girl to be charged with "false report of rape" despite medical accounts of her sexual injuries and findings of multiple samples of semen on her underwear.

https://archive.md/3Vbgh

Genesis P. Orridge used a familiar excuse (the same as James Alefantis) when they were chased out of UK in the 1980's. Said the charges are ridiculous because "we have no basement" in the Psychic TV house.

But, in fact, had a studio they called... "The Death Factory"

Your President sexually assaults young girls on camera. Numerous occasions, Joe Biden shows that he has no problem invading boundaries of children who he is no stranger to. He pinched a little girl's nipple on camera. It is bold. But not as bold as rubbing a little girl's hand on his crotch.

Solving the problem of organized pedophilia rings solves the problem of widespread government corruption. These people need trials and the harshest possible sentencing.

Imagine the scumbag autocrafters that think it's okay to help cover this stuff up. It is called obstruction of justice and they should be tried for their participation in RICO, as well.

The only thing you need to know to understand the Pizza Purges is that they started at the same time that the previous administration's connections to Epstein were coming to light. It was the same time even bigger Qanon psyops

- Why was Bannon sent to personally meet with Epstein a year to the day before he "killed himself"?

https://qanon.com/2018/08/11/steve-bannon-trying-to-get-an-ahgrand-jeffrey-epstein-grand-jube/

- Why was the guy who personally let Epstein go in 2008 made into a cabinet secretary?

https://abcnews.go.com/Politics/attorney-alex-acosta-showed-poor-judgment-epstein-plea/story?id=57435629

- Why did White House hire an impeachment attorney who said Epstein was so close he compared him to family?

https://www.semafor.com/news/2020/03/27/jeffrey-epstein-/30/03

- Why did Epstein say he introduced the President to Melania?

https://www.insider.com/jeffrey-epstein-reportedly-bragged-he-introduced-trump-to-melania-2019-7

And this is only the beginning...

Yes, I'm aware of Pizzagate. This stuff is obviously real. Whatever pizzagate was at the end of the day, they knocked this subject being taken seriously. I understand wanting to help the helpless. But I don't understand how people can subject themselves to this amount of darkness. It's not healthy. It's not safe. It will only take a step back and assess your own emotional capabilities. This is a subject people scream at full volume about and typically get excluded. Not just on reddit, but in real

There is way way way too much of this. In the same week you have Octavian's case and you have the Duggar douche-and-turn with the cop that "helped" him at a teen is now in jail for child porn.

Like who isn't a pedophile? They are cops, teachers, priests, rabbis, your neighbor? Our world is sick. We have no escape anymore.

Who is Alice Walters and where in her email to James Comey is the asking him to cover up pizzagate or anything related? Her email appears to be dated March 2017, which is many months after the pizzagate thing blew up (October/November 2016).

Nicely done. OP, it's obvious that you put a lot of time and research into this. Your efforts are very much appreciated.

So many people still deny that something is seriously wrong, despite the fact that, as proven in this thread, there is tons of evidence showing that this is real and it's probably worse than most people think, so included. I understand that people don't want to acknowledge or think about it, because, yeah, these actions are absolutely abhorrent. No one wants to think about innocent children being victims of abuse. But, it's happening, and claiming that it's just "fake news" does nothing but to allow the abuse to continue and to ensure that these sick bastards will continue to get away with it.

We're at the summit. I agreed last people standing we call nothing like this out. I wish that, for once, more was right and that this whole thing was complete bullshit. But it's not, and the longer that people dismiss it, the longer the list of victims will become.

Just spent the past hour scrolling through this and there is some really interesting stuff. Crazy thing is that I've been aware of this for a few months but somehow hadn't come to the final realization of how bad it could be. Seeing it all in one post is pretty damning. This could be authenticated then surely that would be enough of a smoking gun to blow this whole thing up.

Next was the claims of the Huma Abiden and Hillary stuff film in which they allegdgy removed the face of a child and wove it in front of them. The author of this little powerpoint claims that the NYPD chief has personally seen this video himself. If this where true why has no one attempted to contact him for an interview? Surely that would be HUGE news. Why has no one attempted to do it? And if someone could get the NYPD chief on camera to admitted to have some this video that would turn the world upside down no?

"At the time, the monger's fellow pentagon contractors were being investigated for keeping Eastern European sex slaves in their residences in the Bosnian capital. Their comrades-in-arms, UN peacekeepers, had a particularly nasty reputation that was not limited to Sarajevo. Blue helmets pressed girls into slavery in the Congo, Cambodia and Somalia, and Eastern Europe became known "sex for peace" destination. Even the Pentagon's own Defense Science Board called it the biggest in the world." Miller told me. "It demand you quote me on that." Benjamin Schreier, A Crime So Monstrous: Face-to-Face with Modern-Day Slavery, pg. 150, Free Press, New York, NY, 2008

Irony of ironies, one of the newsmen of this book is...Bill Clinton.

My interpretation: pedophiles play both sides of the ledger. They write books on the subject to "raise awareness" and condemn the practice publicly, but also participate in the perpetrators themselves. It may be that they all suffer from dissociative identity disorder. The part which writes books or comments for on such books (Clinton) are dissociatively related to the parts which engage in the activity. In other words, in a traditional shamanic poly-psychical belief system, the compassion felt for the victim is felt by the "good" personality, but the "bad" personality is the one which does all that pleasure-seeking shadow work (the perpetrator). The perpetrator is also strongly constituted by the other state (pedon). The unfortunate reality is that the "good" personality is the one which is "weak" and "bad" is the one which is "strong" in their intelligence and awareness is reflexively organized by the potency of their egoic consciousness. In other words, I think these people both a) experience a great deal of pleasure sexually abusing children because they themselves were probably subject to such abuse(and or have suffered abuse themselves) and b) hate that they do it, and so they write books, make public statements, and so on. Writing these books, founding organizations, etc. In other words, DID is an amnesiac disorder, which doesn't necessarily imply total lack of awareness. It just means a tendency to become so potently involved in a self-state that you lose awareness of everything else you know.

Isn't that the guy Trump supported?

Oh, and then there's Matt Gaetz too, who's friend just got convicted of sex trafficking.

Weird how everyone's focused on pizzagate and completely ignoring the actual child sex predators out there. Wonder who that benefits?

Roy Moore is possibly innocent. Just because the news says so, doesn't make it true. I'm open to reviewing the evidence.

Same with Matt Gaetz. Someone else hyped sex with a minor and he is getting blamed.

But... again... I'm open to reviewing the evidence.

Trump is repeatedly accused by victims who also claim they were abused by Epstein. The problem is they can describe Epstein's legs shaped penis, but have no such details on Trump.

Either party: if they are guilty... hang them. Death penalty for confirmed pedos... people actually raping kids... would end this problem very fast.

If Roy Moore is guilt then put him with the rest.

Or Gaetz.

But the evidence is thin, yes?

The only publicized part of Pizzagate was the lone gunman who went into Comet Ping Pong trying "save the children that were held captive in the basement"

Media was like "Wow he's so stupid that building doesn't even have a basement LOL"

That gunman was most likely stalled by the owner to discredit investigation. He fired his gun and left without even searching the place. The owner of the place then called a computer and destroyed it. He then surrendered peacefully to the police.

This one attack successfully shut down the whole conspiracy theory and made Defords appear as a victim.

Twitter, Facebook, Instagram and many websites that are considered garbage like Twitter, Wikipedia and other social media sites. I don't want to piss on those cunt docs' good job. I am not impressed with how you missed the mention of Isaac Kappy. He met with Brock, he has entire videos about pizzagate that were ignored here. He also linked Ransom with Epstein in his famous music video Epstein island. Kappy might have been not great with exposing his evidence or his sources and he could have been a Fuqqy himself but he did connect a lot of dots and could have together, just disappointed that he was mixed emotions.

And what about voodoo donuts ? What about organ Mikey and that connection? What about the Podesta emails and pizza? What about Tony Hsieh's mysterious occult research into robots and into voodoo donuts ?

And why not tell us what spirit cooking is? I mean I know that it's an occult ritual that is a cute mask of sexual fluids but does your audience know that ? Do they know where spirit cooking comes from? Why not link the spirit cooking parties here with the cakes designed to look like humans ? Sons of Anarchy reference anyone? There has to be more occult information included here. That is what this subreddit is missing.

Not mentioned.

Alex Acosta, who gave Epstein his and Ghislaine a slap on the wrist:

[Acosta, then the U.S. Attorney for the Southern District of Florida, **agreed to a plea deal, to grant immunity from all federal criminal charges to Epstein, along with four named co-conspirators and any unnamed "potential co-conspirators"**. That agreement "essentially shut down an ongoing FBI probe into Epstein's sex trafficking operation, which had identified more victims and co-conspirators," the Herald reported. At the time, this halted the investigation and sealed the indictment.

The same Acosta who Trump later hired as Labor Secretary.

Also not mentioned that Epstein died under Trump and Barr's watch. Ah,all that Barr's father gave a young Epstein a job at an elite prep school as a math teacher). Also not mentioned is Trump's connection to Epstein.

Wonder why DP omits very relevant info like this?

Reply Share Report Save Follow

Hoyle · 1d ago

In 2008 Re director Robert mueller gave Epstein protection and made him an informant. Epstein was a blackmailer and he had evidence on everything in one he would've used it to remove him from office.

They couldn't remove him and trump was able to pass 2 executive orders targeting human sex trafficking and Epstein was finally arrested in 2019. We don't know what Epstein knew, maybe and the people above mueller had because Epstein died.

Reply Share Report Save Follow

Aberlaxer · 1d ago

Well, to flesh out the conspiracy theory, Acosta has said the reason he allowed Epstein a plea deal was because he was being pressured from above and from US intelligence telling Acosta that Epstein was a intelligence asset and that Acosta better leave things alone

Acosta has also said he was being pressured by his prosecutors to accept the deal, and Jeffrey Epstein has come out as a supporter of the plea deal. I don't believe Epstein would be a supporter of a deal that he was receiving pressure from and threatened under him to accept the plea deal

Alex Acosta deserves prison for protecting pedos. It's that simple.

Yes, he was pressured. But it only takes one person to speak up.

Get a fucking hobby and stop falling for this crap, you're making our country the laughingstock of the world believe this shit.

Stop calling it "PizzaGate", this was almost certainly a manufactured conspiracy theory used to discredit ACTUAL CONSPIRACY - the fact there's rampant child trafficking by extremely wealthy, powerful, famous people are heavily involved as both operators and clientele.
All of what you said may be true, which backs up the fact there are enormous rings used to traffic children.
But when you call this shit "PizzaGate"? You've automatically turned off a huge number of people who will never even consider your evidence.
THERE. IS. NO. PIZZAGATE.
We have a huge problem with wealthy, powerful people trafficking women and children for sex and other depravity. This is fact, it's been proven through many different instances, with The Franklin Cover Up being one of the most startling instances where law enforcement uncovered literal evidence proving this is happening all over the country, at every level of Government, operated and used by the intelligence community.
But you're simply discrediting what is truth by lumping it all under some manufactured umbrella of conspiracy theory because you call it all "PizzaGate".
