# 44,821 Dead 4,351,483 Injured Following COVID-19 Vaccines in European Database of Adverse Reactions

Print This Post

The European Medicines Agency publishes these data so that the stakeholders, including the general public, can access information that European regulatory authorities use to review the safety of a medicine or active substance. **Transparency** is a key guiding principle of the EMA.

EudraVigilance

by **Brian Shilhavy**
**Editor, Health Impact News**

The European (EU) and non-EEA countries database of suspected drug reaction reports is EudraVigilance, verified by the European Medicines Agency (EMA), and they are now reporting 44,821 fatalities, and 4,351,483 injuries following injections of five experimental COVID-19 vaccines:

- COVID-19 MRNA VACCINE MODERNA (CX-024414)
- COVID-19 MRNA VACCINE PFIZER-BIONTECH
- COVID-19 VACCINE ASTRAZENECA (CHADOX1 NCOV-19)
- COVID-19 VACCINE JANSSEN (ADX26.COV2.S)
- COVID-19 VACCINE NOVAVAX (NVX-COV2373)

From the total of injuries recorded, **almost half of them (1,972,108) are serious injuries**.

> **Seriousness** *provides information on the suspected undesirable effect; it can be classified as 'serious' if it corresponds to a medical occurrence that results in* **death**, *'a life-threatening' requires hospitalisation, results in* **persistent or significant disability or incapacity**, *is a congenital anomaly/birth defect*

It should be noted that the reporting system in Europe ran the reports for each of the four COVID-19 shots we are including here. It is a bit of work to tabulate each reaction with injuries and fatalities, since there is no place on the EudraVigilance system to see a report that tabulates all of the results.

Since we have started publishing this, others from Europe have also calculated the numbers and confirmed the totals.[1]

Here is the summary data through May 21, 2022:

**Total reactions** for the mRNA vaccine **Spikevax/mRNA-1273 (Moderna)**. Commonly from **BioNTech/ Pfizer**: **31,979 deaths** and **2,297,319** injuries to 21/05/2022:

**These totals are estimates based on reports submitted to EudraVigilance. This may be much higher based on studies that show that only 1% of adverse reactions are reported. The total for the US is 1,066,000 based on the country's adverse reaction database, and the U.S. VAERS database and the UK Yellow Card database. The fatalities are grouped by symptoms, and some fatalities may have resulted from multiple symptoms.*

## Rylleigh Jones 8 Years Old

Rylleigh has a slew of upcoming tests to determine which cells are being affected. What she can't eat- and how much damage the spike protein has done to her body. Please consider helping us pay for the upcoming treatments from the functional medicine Dr. They want Rylleigh to do weekly IV infusions with Vitamin C and glutathione and Ozone pharma as well. In addition to the pediatric dose, which is $1500. Please, if you can contribute, please share.

March 23rd, 2021 Rylleigh lost feeling and ability to walk. With the diet change she has begun to walk again but the limbs have no sensation. Rylleigh no longer has any tone she urinates. She is 8 years old. She is a tragedy to her Mom and Dad.

Between the 15th of February and April 20,2022 Rylleigh has been admitted to VCU Health system 11 times and they have been unable to diagnose her properly. They say that Rylleigh has a disorder called Functional Neurological Disorder. We do not believe this to be true as she is only 8 years old and this diagnose would be common of an 18 year old.

Rylleigh has been through extensive medical procedures such as EEG, MRI and a lumbar puncture which have all come back clear.

We still have no diagnosis for our beautiful loving girl. If you've known Rylleigh you know that she's loved life, school, friends, baseball, and dance.

Rylleigh has suffered significant memory loss to the extent some times she doesn't remember her dad and I or her family and believed dog Buddy.

Rylleigh had the COVID Vaccine January 8, 2022 and was diagnosed with COVID on January 12th. During COVID she had a height 40 hour fever and vomiting.

My heart tells me that she has developed something from the COVID vaccine or disease itself. The VCU medical community will not help her with her diagnosis.

On March 24th, we took Rylleigh to Johns Hopkins Hospital where we were quickly shut down because they pulled our record from VCU Health system. Also were unable to truly do an extensive workup on Rylleigh. JHH was not much help to us other than running tests that suggest Rylleigh may have Porphyria and Celiac disease.

To date I have bills upwards of 11,000$ plus we have medications/vitamins that we must pay for to help Rylleigh recover. Rylleigh currently has a functional medicine doctor. We are giving it a try as we have been ridiculed by VCU and now have FTTD to see what they suggest. We never have Doctors and Nurses could be so cruel.

On 4/22/2022 I had Child Protective Services show up at my door accusing me of not treating Rylleigh or giving her medical attention. I had to explain to them that I have been taking her to the hospital every week. I have been told by a few of the best that I have been from VCU, to Johns Hopkins that some of the other doctors opinions that we have received is one thing, but it's another to be unethical and throw other licensed medical professionals under the bus. I have had to fight for my daughter's life and I have been told that I am overprotective of her. I have been found that he had an incident with her mom and has not since it to discredit his work. She then decided to call CPS on us because I didn't agree with her diagnosis of TTD. She told to the CPS worker by stating that I said I would go to any extreme measures to help my daughter. I told her that I would do anything to help my daughter and I stand by my statement. Doctor's have called me crazy for the past 6 months for them not to know. I have the additional burden of CPS on my shoulders it makes it even further distressing to use the medical system. It's a very sad situation, but we will continue to fight to find the appropriate care for our daughter to receive the medications that will assist to remove the spike protein from her body. We have started working with a functional medicine practitioner.

As of 4/25/2022 – Rylleigh has incurred diagnosis because we made significant changes to her diet. Gluten free foods and supplements. We believe that Rylleigh is able to eat all of these. As you can imagine the cost for all of this has been significantly challenging.

We have several upcoming outpatient appointments coming up to further determine what damage has been done to our loving little girl.

Rylleigh's blood work has not been explained to us and there are explanations for the reasons that her SED rate and CRP and other tests are elevated.

VCU has been rude and disrespectful to us. We have been laughed at and told we are crazy for believing our daughter. Rylleigh is the new changed normal and she is learning to set her sights on new goals. Fighting with everything we have to get the proper treatment for our girl.

**Article about CPS being called**

Please consider helping us figure out what is happening with our child. We have accumulated over $13,000 in medical bills and the treatment is ongoing and we may also have to have an attorney in the future.

Thank you and hug your child tight because tomorrow may not be there.

## LeeAnne Barnett: Novavax COVID-19 Vaccine Injuries

Hi my name is LeeAnne and I had the novavax when it became available in February. I waited because I believed this was the better option for me but as I have pre-existing heart condition of bicuspid valve disease and aortic stenosis.

And also an chronic UTI duty for skin cancer.

In February when I had the Jab I felt sick straight away but about 5 days later I started to get a burning not well over the lower part of my body that was soon painful.

I went to the hospital and they dismissed me as they didn't know enough about this jab at the time.

Fast forward 2 months . I now in constant pain. I'm getting bruises. My eyes are sewaging what feels like and and is so painful.

It's causing me extreme depression as I can not enjoy anything anymore. I just want to sleep My only option is to go back to the hospital. I'm in so much pain and uncomfortable and I have to do privately as I have had everything. Every vitamin pill. Probios. Diets. Nothing as helped.

The pain is unbearable. The government won't do anything to help. I just want to be gone.

I look pregnant, I am not.

I'm not skinny by any means but certainly not this big. Stomach was rock hard. Could not sit down with out my legs wide open. It's very uncomfortable.

Then gal admitted to a bigger hospital and told I was renal failure.
