

# 16 Glaring Parallels Between the 9/11 and COVID-19 Operations

Published 4 months ago on October 21, 2020  
By Makia Freeman

## AT A GLANCE...

---

- **THE STORY:** There are numerous striking 9/11 COVID similarities, ranging from before to after covered up afterwards.
- **THE IMPLICATIONS:** Ops like 9/11 and COVID are psychological in nature. We can do better to become immune to it.

## There are numerous 9/11 COVID similarities

to be seen and understood as the world goes ever deeper into **Operation Coronavirus**. Many nations around the world, including Canada and Australia, are making moves to roll out the next phase of the operation, which involves digital identities, biometrics and digital vaccine certificates (or immunity passports), just as Bill Gates foretold all those months ago. It is imperative that we all understand that this is a far-reaching operation or live exercise designed to fundamentally transform society in alignment with the goals of the New World Order (NWO). By comparing the current COVID op to the 9/11 op, we can discern the patterns and become wiser to the agenda, for there is a certain way that evil hijacks good. Below is a list of 16 different **9/11 COVID similarities** that I have noticed, however there may well be many more.

### 1. MSM and Governments Amp Up the Fear with Incessant Coverage and Propaganda

The MSM (Mainstream Media) has barely focused on anything other than COVID since 9/11, living daylights out of people and render them into docile submission. Many of the initial Gates-owned WHO (World Health Organization) predicted the IFR (Infection Fatality Rate) would be 0.1 – 0.26%; the Gates-funded Imperial College predicted 2 million Americans would die.

(and those official statistics are embarrassingly fake due to COVID death certificate fraud propaganda about how freedom itself was under attack by **radical Islamic terrorism**. People misinformation which disguised the true conspirators, shifted attention to fictitious enemies for increased governmental control). One of the interesting 9/11 COVID similarities is the

NIH funded Chinese virology labs in Wuhan to the tune of \$7.4 million (2 lots of \$3.7 million) **of virus** research. It was also rather coincidental that the US Military, Bill Gates and other scenario years before it happened.

#### **4. Introduction of a Fundamental New Paradigm (War on Terror vs. War on I**

As I covered in my March 2020 article *The New War on Bioterror: Everyone is a Suspected* new paradigm of biosecurity, whereby the authorities hope to advance their agenda of co enemy. In the post-9/11 world, there was the **War on Terror** and the concocted enemy wa there's the **War on Bioterror** and the concocted enemy is an invisible virus. In both cases, and only increased governmental surveillance and control could save us.

#### **5. 9/11 COVID Similarities: False Official Narratives**

In both operations, the official narrative has more holes than a piece of Swiss cheese. In t fly planes into buildings with such skill using maneuvers that even experienced pilots cou as jet fuel magically burnt through concrete and steel, despite the fact that jet fuel doesn't supposed to believe that the virus is literally everywhere, can be transmitted via cash, car transmission when no other known virus has ever done so.

#### **6. Foreknowledge**

Why did BBC report Building 7 had fallen 30 minutes before it actually did? Why did San F calls beforehand telling them not to board planes going to NYC? Why did the Chinese Gov Wuhan Military Games? Why did the US Government run or pass so many simulations, dr

#### **7. Event Preceded by Exercises/Drills that "Went Live" or Eerily Mimicked W**

According to Kevin Ryan, NORAD practiced 28 hijacked events within 2 years of 9/11, 6 of which were the interception of hijacked planes headed for the UN building in New York City. Webster Tarpley was on the day of 9/11! Meanwhile in Operation Coronavirus, in addition to things such as Daesh Contagion (2019), there was the now infamous Event 201 (October 2019) which simulated the US to infect millions (see above link on simulations, drills and laws).

## **8. Insider Trading**

9/11 was marked by massive amounts of insider trading. This study *Initiation of the 9-11* is a good job of exposing the details. Meanwhile before COVID struck the US, there were many political and economic problems, the economy crashed.

## **9. Suspicious Benefits to a Powerful Few**

Isn't it interesting how the big players seem to benefit the most from these catastrophes? Oil and gas companies and others invested in Iraq/Afghanistan to make a killing. During COVID, they've made a whopping 27%. In both cases, the rich and powerful got more rich and powerful.

## **10. Intel Agency Control of Information**

Manufactured crises like 9/11 and COVID open the door for private corporations linked to the government to have of greater access to our data. 9/11 was good business for surveillance companies; Peter Dinkoff by the CDC (in the US) and the NHS (in the UK) that are the basis of COVID decision-making.

## **11. 9/11 COVID Similarities: A Fictitious, All-Powerful and Elusive Enemy**

Think about it for a minute: Al-Qaeda and SARS-CoV-2 can rarely be seen, can't be easily targeted, and are a completely new kind of enemy. We are told that other human coronaviruses behave in a seasonal, highly predictable manner, but

charged bin Laden; meanwhile he looked different in every fake video they released. Bin Laden we were told to just believe that they had killed him and thrown his body away at sea, but he turned up alive elsewhere. Compare these fictitious enemies to a virus that has never been isolated.

## 12. Junk Science

For the most part, science has sadly become a tool for moneyed interests to push their agenda. Intellectual prostitutes in white coats who will find any result they are paid to find. Both on 9/11, there is all the chicanery around the fall of all 3 buildings in NYC including the cover-up of the Alaska Fairbanks study, *A Structural Reevaluation of the Collapse of World Trade Center* that the official 9/11 narrative is not scientifically sound and in defiance of the laws of physics. Science by exploiting people's ignorance of the nature of a virus and the nature of contagion. Rubric of science to scare people, offered financial incentives for doctors and hospitals to test for **with the virus** vs. **from the virus** to obfuscate the real cause of death in millions of people.

## 13. Censorship of Dissent

Another of the 9/11 COVID similarities is that both were marked by censorship or the suppression of dissent. YouTube has been deleting channels left, right and center, with CEO Susan Wojcicki announcing at one point that she was doing so contrary to the Gates-owned WHO! In the 9/11 op, the MSM carefully selected whom they welcomed but brushed aside when they refused to follow the script. Compare George Bush's *concerning the attacks of September the 11th* with the current propaganda that "You're killing them."

## 14. Denunciation of Deniers

The word denier has become something of a weaponized term in the last decade, been used to denounce **climate change denier** or climate denier for those who don't buy the manmade global warming game plan of leaders in any country: "Why of course the people don't want war! ... Naturally, the people of England, nor for that matter in Germany. That is understood ... [but] the people can always be misled."

*do is tell them they are being attacked, and denounce the peace makers for lack of patriotism in their country.” Another of the great 9/11 COVID similarities is the denunciation of deniers, the c narrative. In 9/11, it went something like this (“You’re unpatriotic and un-American if you d something like this (“You’re selfish and you’re endangering the community if you protest, d*

## **15. Introduction of a New Layer of Security State Bureaucracy**

In both cases, a whole new layer of security state bureaucracy was introduced. In the 9/11 just a few years, this federal department quickly grew into one of the largest federal agen since. The term “Homeland” hardly existed in the US before that. The DHS also spawned travelers: radiation or molestation. Meanwhile, the COVID op has yet to spawn a new US f has given governments massive power to penetrate deeply into our lives.

## **16. Psychological and Ritualistic Trauma**

The 9/11 op was very ritualistic; 2 small examples are the numerology (911 is the numbe Freemasonry (the WTC Twin Towers representing the Twin Pillars of Boaz and Joachim). *Initiation Ritual*, the entire length and breadth of Operation Coronavirus is steeped in ritua Rejection (hand-washing), Mask-Wearing (censorship, submission, dehumanization, reinf Distancing (the **New Normal**). The 9/11 COVID similarities are striking, since in both case from customary modes of functioning and break them down so they will accept a new wa

## **Final Thoughts on 9/11 COVID Similarities**

To understand these 2 massive psychological operations is to understand the way the **NV** the darkness/unconsciousness in the way it deceives, betrays, tricks, distracts, obfuscate people into such states of anxiety, stress and fear that they will accept any level of state :

violation of their sovereign, unalienable, inherent, god-given rights. My hope is that article surface to be exposed, so that the deception is no longer effective. The power of these false perception; once an awakened populace sees through it, their power evaporates.

Hat tip to Kevin Ryan.
