What Readers Say About The Epoch Times

I think your coverage is thoughtful and balanced in a way that I haven't seen elsewhere. And I say this, by the way, as a former senior vice president of CBS News so I know a lot about media and journalism, I would say.

Jeff Ballabon
Former SVP, CBS News

I congratulate you and Epoch Times for the work you are doing especially with regards to **keeping the menace of the communist threat in front of us**; and secondly, really almost single-handedly doing the work of investigating into the corruption for what I call Obamagate of where most of the mainstream media won't.

Dr. Sebastian Gorka
Military and Intelligence Analyst
Former Deputy Assistant to the President

One of the ways I learned about Huawei was reading The Epoch Times. The Epoch Times has led the reporting on so many different verticals. **The Epoch Times continues to report and is indefatigable and won't be turned off and continues to report the truth.**

Steve Bannon
Former White House Chief Strategist

It's our favorite paper. It's the first one we read. And if I don't get a chance in the hustle and bustle of my day, I hop on a plane, I've got it there for me!

Rep. Paul Gosar
Congressman, Arizona

The Epoch Times has documented so well on Spygate: this is rigging a criminal case for political purposes.

Luke Rosiak
Investigative Reporter

I love reading your outlet. I am a big fan, longtime fan, first time caller! I read you almost every day. I do. I guess it would be a cliché at this point to say I don't really trust the mainstream media.

Michael Knowles
Political Commentator
