

Excess dementia deaths in Australia seems to have only one possible explanation

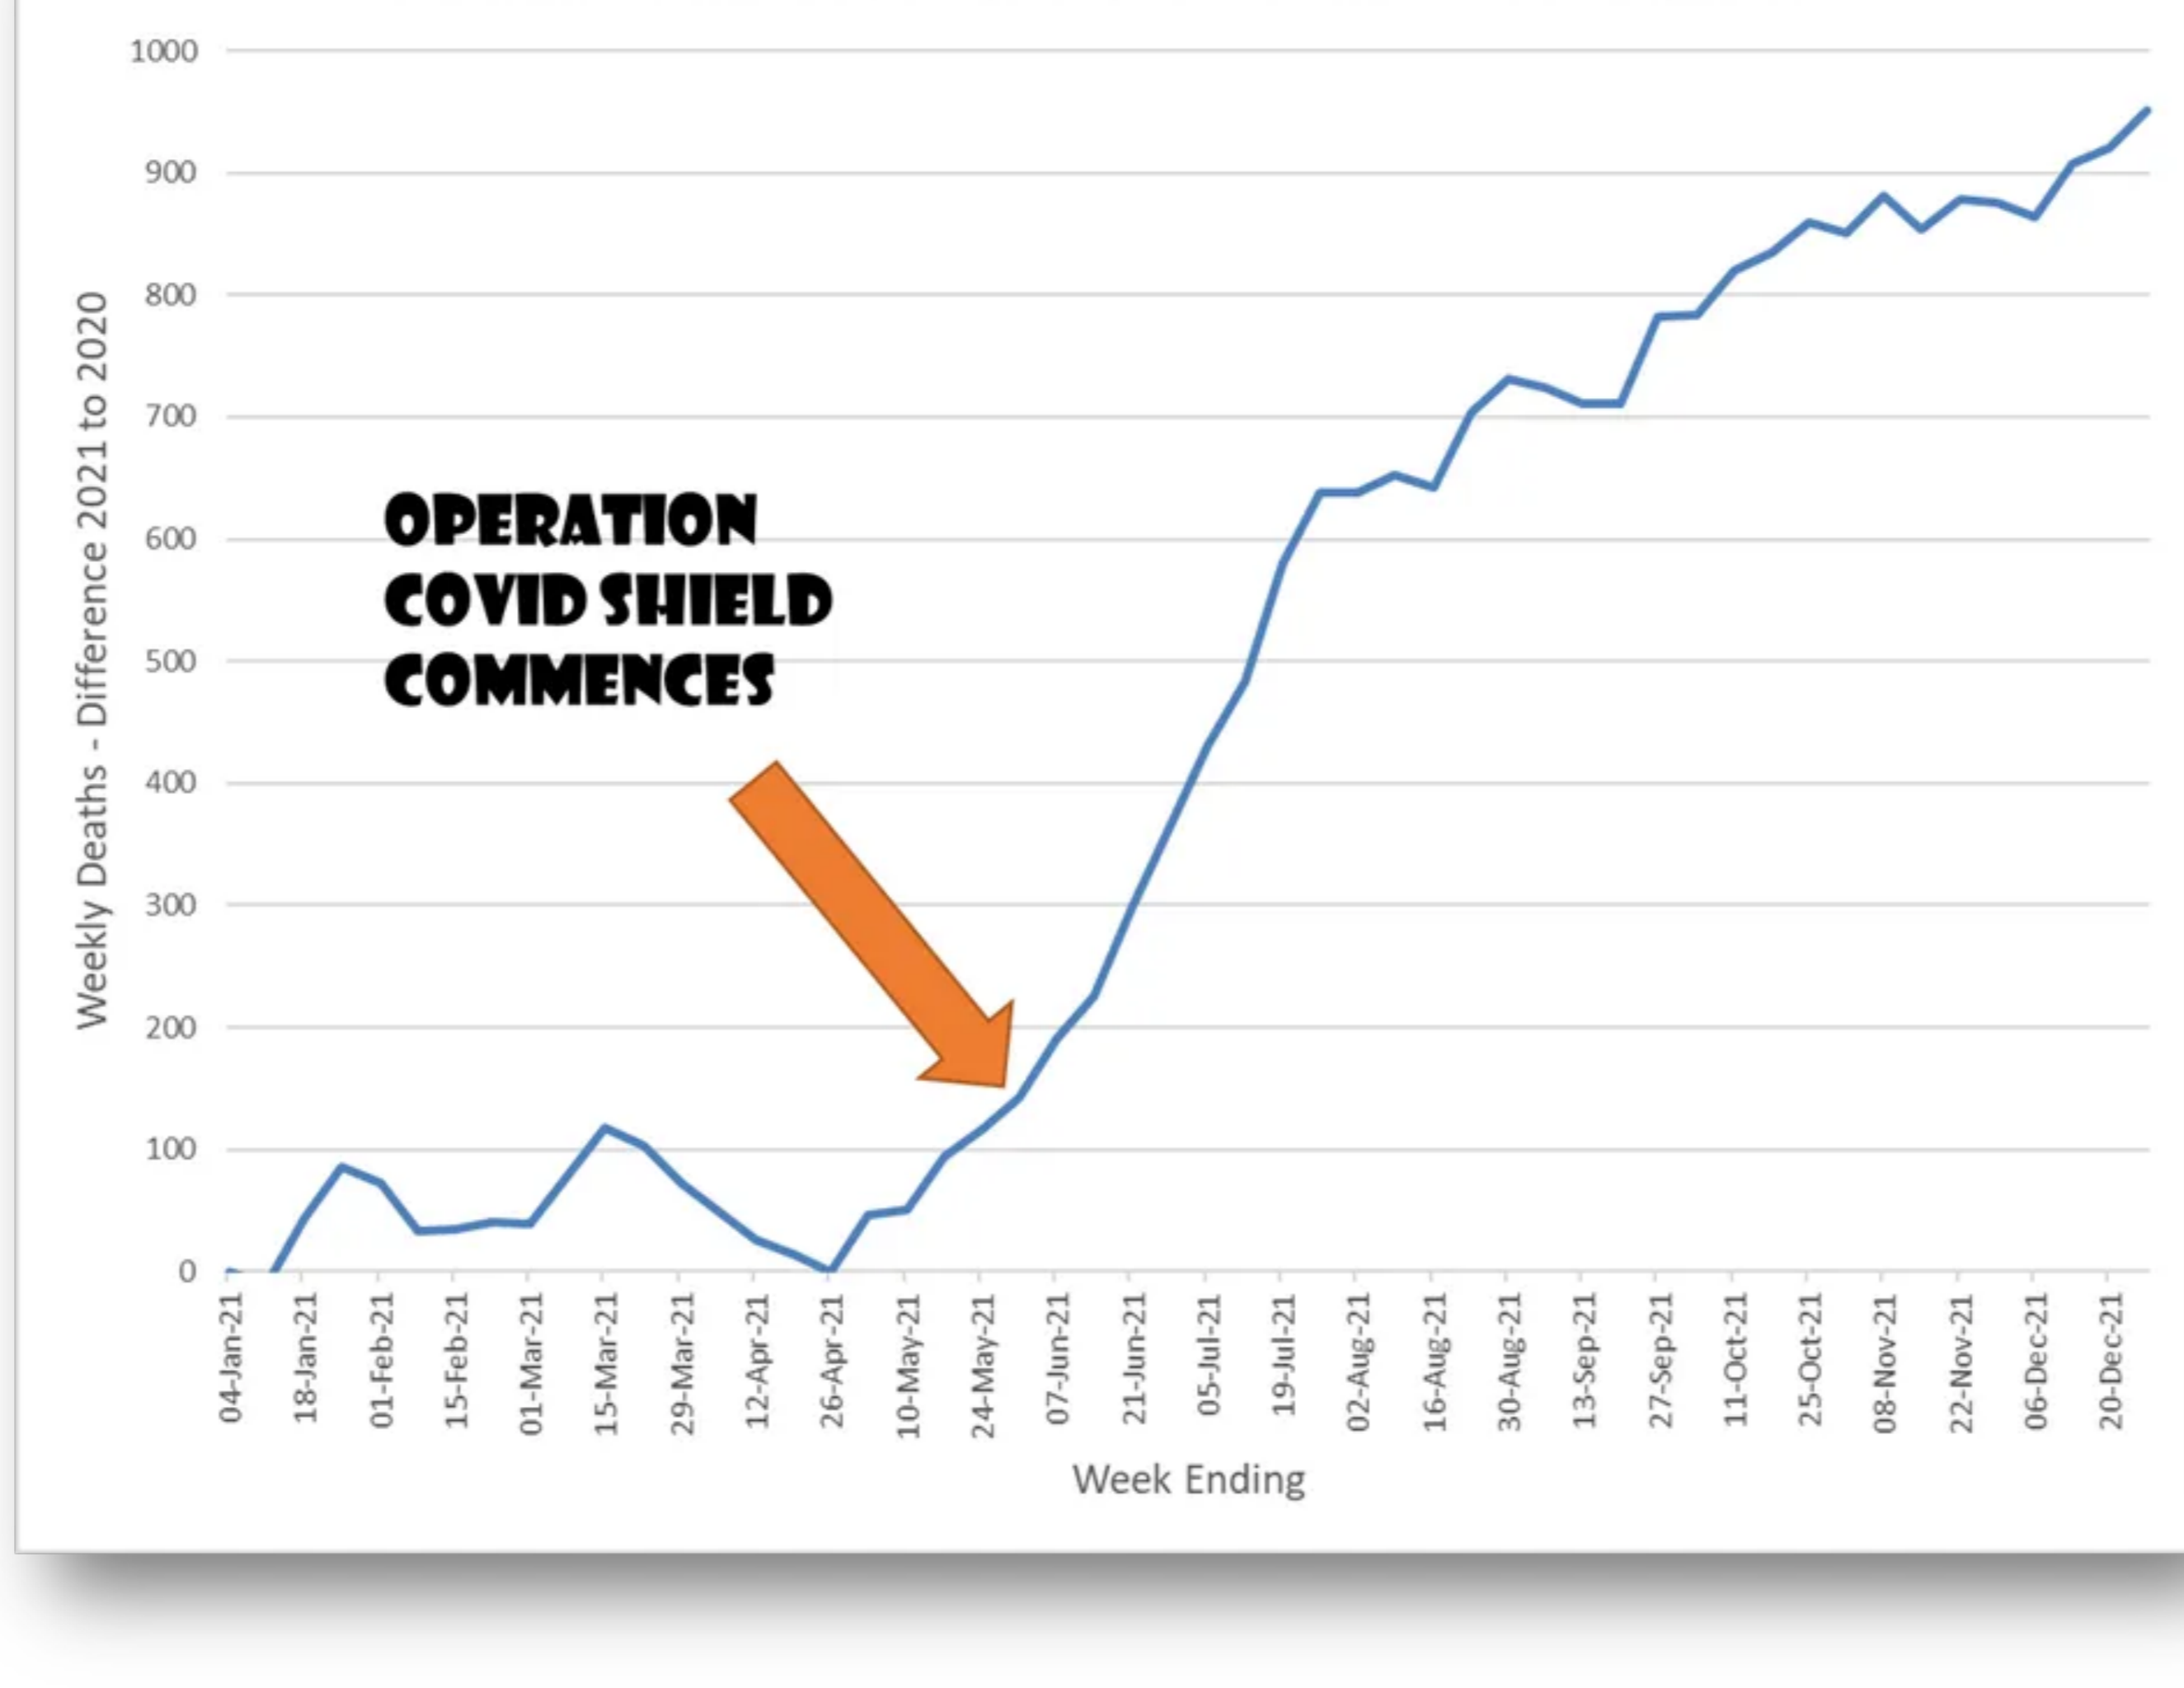

The only way to explain the sudden rise in deaths in June/July 2021 that fits the data is the COVID vaccine, AFAIK.

Executive summary

The chart below is from a Substack by Andrew Madry entitled [Excess Dementia Deaths in Australia](#):

Excess dementia deaths (cumulative - cumulative) rose dramatically in 2021 starting at the time of the vaccine rollout and continued to diverge. If it wasn't the vaccine, what was it?

There are only two causes that have been suggested:

1. the safe and effective vaccine
2. because people in nursing homes were denied hospital treatment.

We can see from the chart that a rapid increase in dementia deaths in June to July exactly coincides with the vax rollout for aged care.

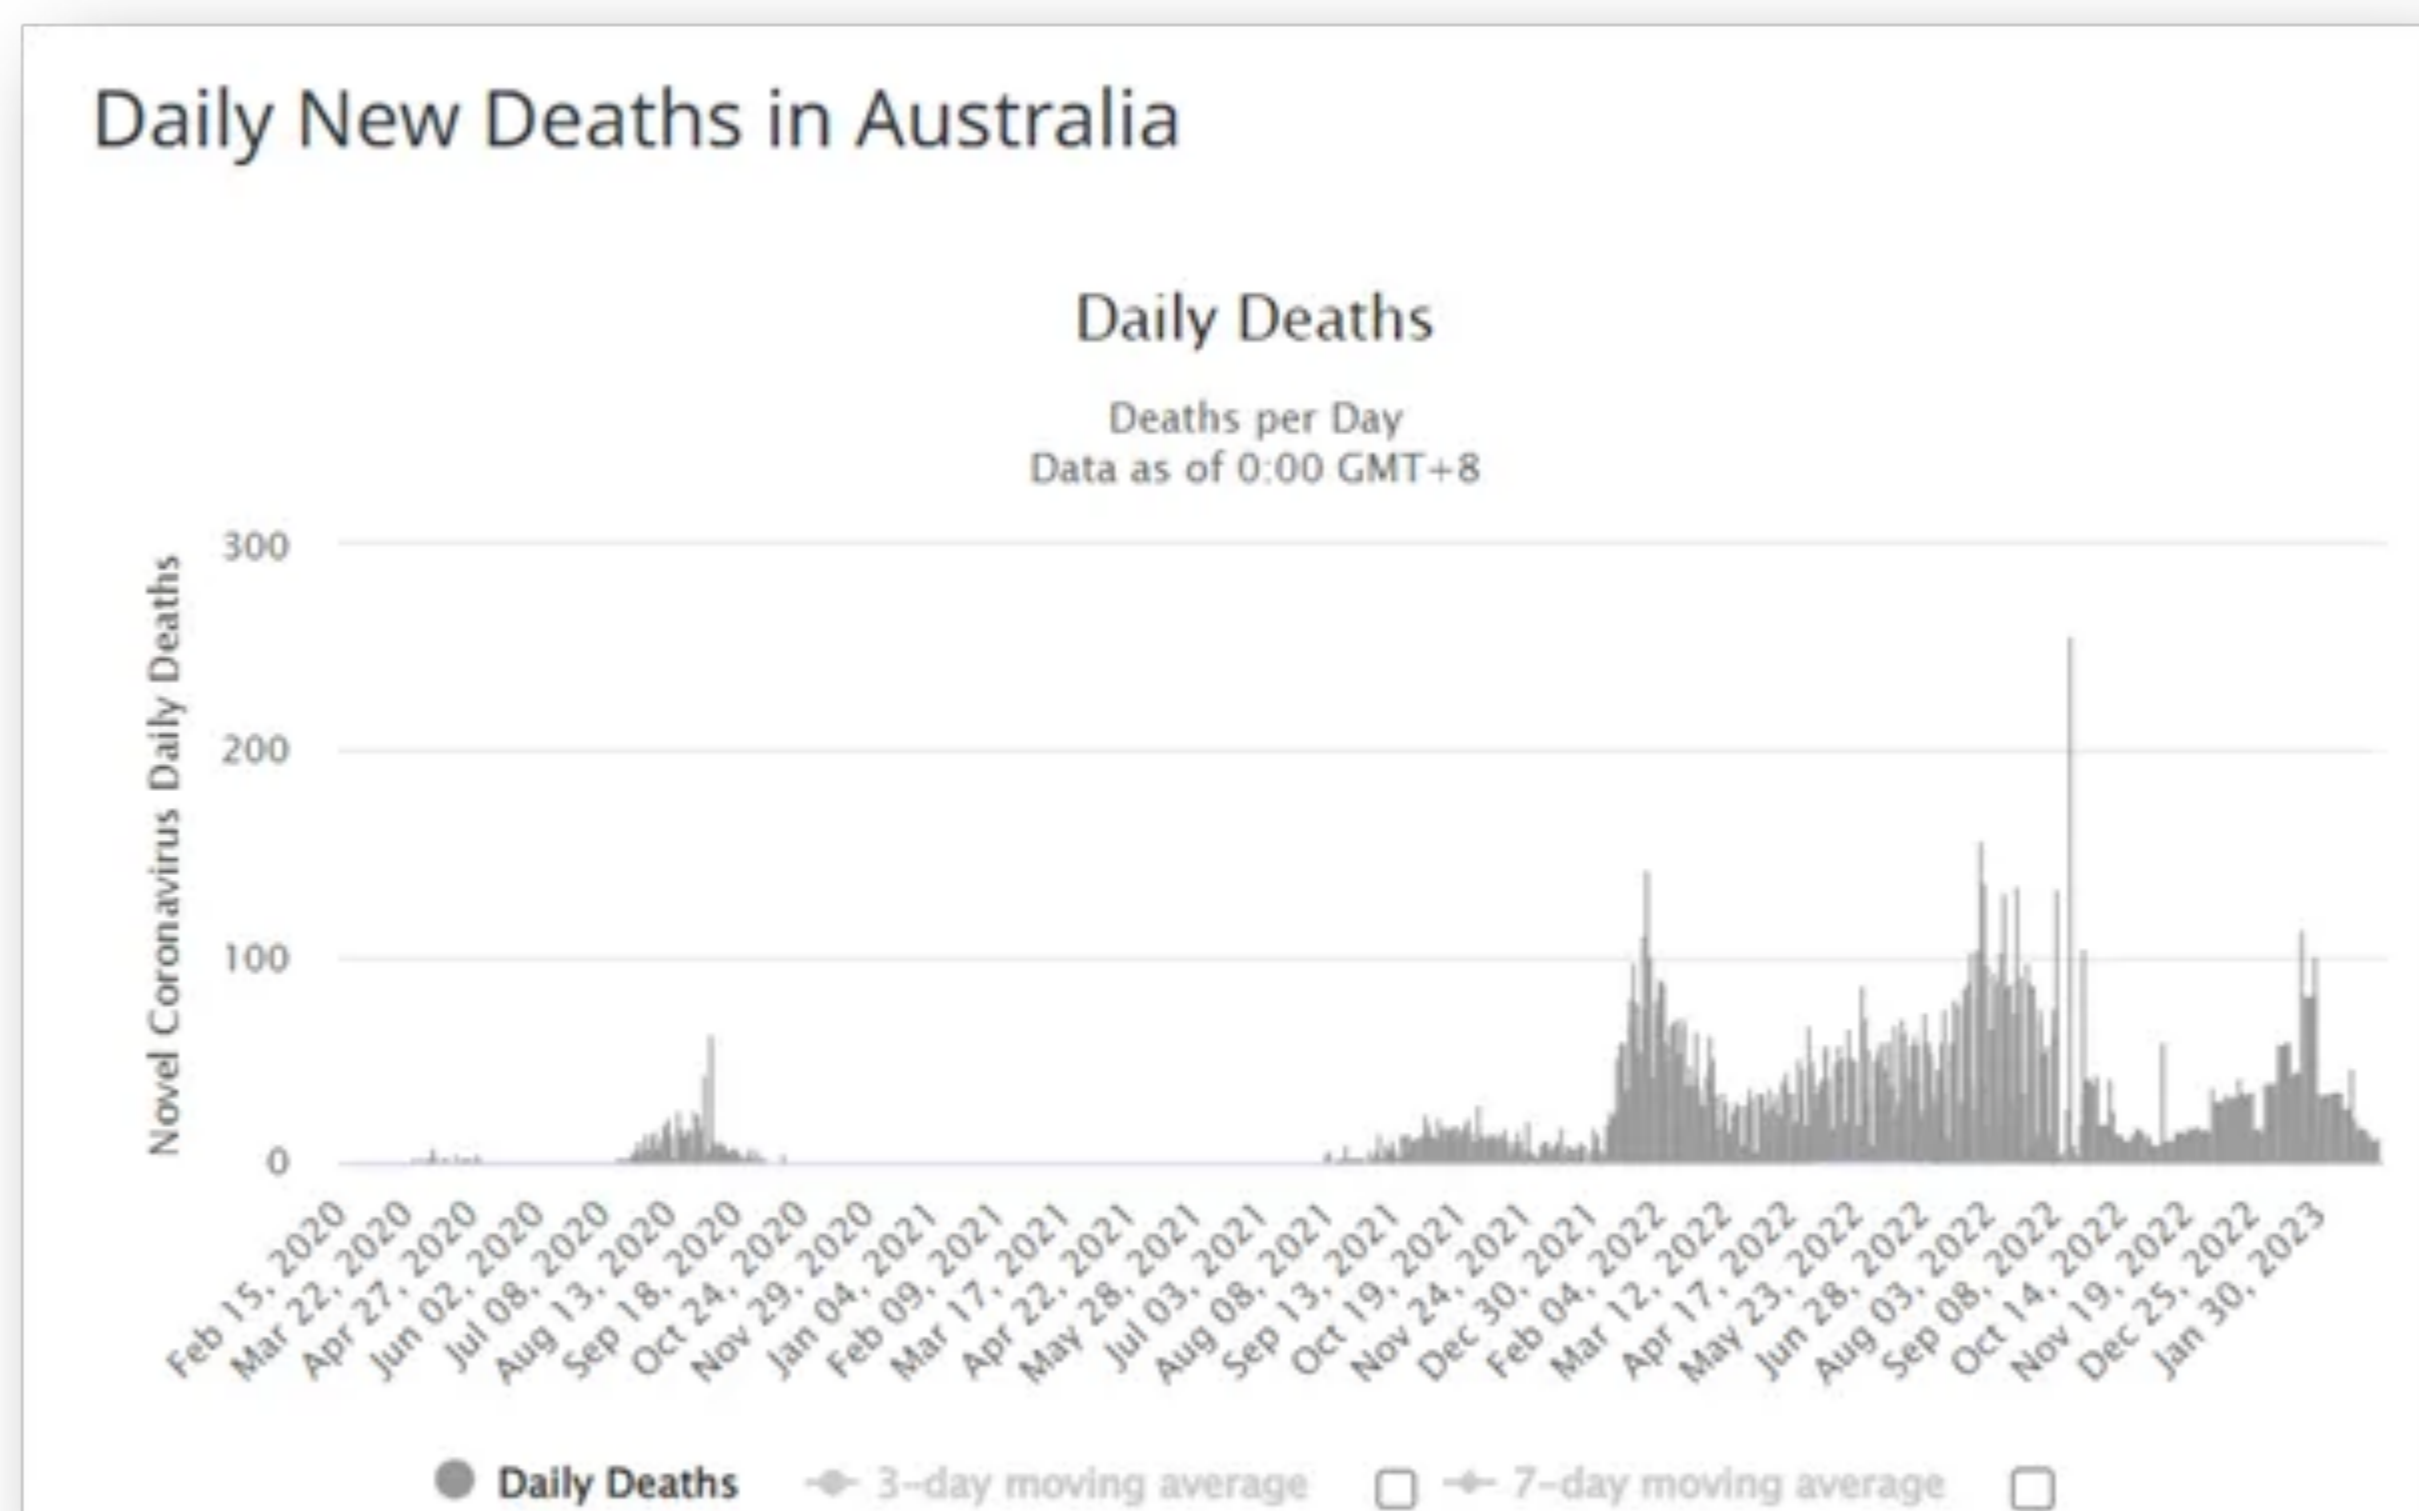

Just a coincidence? Pretty unlikely I think. If you have an alternate hypothesis, it would have to fit the June/July timeframe for the biggest effect.

Evidence for causality

Dementia was listed in [3 of 150 serious adverse event safety signals for 18 and over that the CDC found in the VAERS database](#) and it scored 52X in the [X-factor analysis](#).

If you think it is not caused by the vaccine, I'm all ears because the data fits like a glove.

This wasn't caused by COVID damaging people's brain since there was no COVID in June/July 2021 when the excess dementia deaths rose dramatically:

COVID daily deaths in Australia didn't start until after the vaccines were rolled out. So COVID couldn't be the cause of the dementia deaths since there wasn't anything going on during June/July 2021

Note, that officially, [Australia only recognized 15 deaths from the vaccine in 2021](#). That's preposterous. Whenever I do surveys, I find comparable numbers of people who die from COVID vs. the vaccine. Someone is lying to you. Do your own surveys.

Summary

Nobody can explain these dementia deaths if it wasn't the vaccine. So the health authorities say the cause is "unknown." Simple!

POLL

What is the most likely cause of the excess dementia deaths in 2021 vs. 2020 in Australia?

COVID vaccination program	97%
Lack of access to hospitals	1%
Something else	2%

Insurance Analyst Finds a 7% Increase In Aggregate Mortality for Each C19 Dose Received
 Josh Stirling: "The more doses ... you have in a [US] region ... the bigger increase in mortality ..."
 "If you're over the age of 50, and you took all 5 doses, that'd be a 35% increase."
https://www.thegatewaypundit.com/2023/03/insurance-analyst-the-more-doses-you-have-on-average-in-a-region-the-bigger-increase-in-mortality-that-region-has-had-video/?utm_source=Email&utm_medium=the-gateway-pundit&utm_campaign=dailyam&utm_content=2023-03-09

 I used to think that only Covid and Vaccines are resulting in "Mass Formation." Guess what? Mass formation is alive and well, forming itself around colonoscopies. Don't worry about them despite a recent article in New England Journal of Medicine that reported a very large randomized study where half of the subjects received colonoscopies to diagnose and treat colon cancer--and half did not. The death rate from cancer was identical.
<https://www.cnn.com/2022/10/09/health/colonoscopy-cancer-death-study/index.html>
 The study marks the first time colonoscopies have been compared head-to-head to no cancer screening in a randomized trial. The study found only meager benefits for the group of people invited to get the procedure: an 18% lower risk of getting colorectal cancer, and no significant reduction in the risk of cancer death. It was published Sunday in The New England Journal of Medicine.
 Europe immediately stopped recommending colonoscopies--but U.S. being a more advanced country vowed that it made sense to continue using them. Dr. John McDougall gave a lecture on YouTube presenting information critical of colonoscopies and favoring a less dangerous procedure, sigmoidoscopy. <https://www.youtube.com/watch?v=N0ImWUnXVU&list=TLPOMTlWmZlwMjP6ZP5w4jXJdA&index=2>
 Immediately fierce attacks occurred explaining why
 1) Outcome would have been so much worse if he hadn't had a colonoscopy!
 2) It couldn't possibly be the colonoscopies!
 3) I have a dear friend who died of colon cancer because she postponed her colonoscopy until it was too late to treat. I tried to indicate that she might have died even with a colonoscopy, but, no, I am heartless.
 4) I have another "friend" (she probably will cancel me now) Especially since I sent her a link to an article

The FAA has very quietly tacitly admitted that the EKGs of pilots are no longer normal. We should be concerned. Very concerned.
 After the vaccine rolled out, the FAA secretly widened the EKG parameter range for pilots so they wouldn't be grounded. It looks like the vax gave at...

Will physicians EVER speak out?
 Or will they continue to shrug their shoulders and refuse to look at the data showing that these vaccines are the biggest scandal in medical history?
