A poignant requiem for a failed nation. I'd say that storable food and lead are only 20% of solution. The indebtedness, fraud, dependency, cultural rot, foreign usurpation, anti-intel and atheism, among many other ills, will be very hard to overcome. Are you channeling Pat Buchanan? Buchanan was supposed to be a "paleo"-con. But was he a Dominionist-Israelite too? Thank you for your words and Godspeed.

You pack quite a bit into a succinct paragraph. Difficult to respond.

I'd consider myself the very definition of a paleo-con.

I never saw Buchanan as Israeli first. He was rather anti-Israel influence in the US.

Odd how they took God out of public schools and the bottom did indeed fall out.

We need a reversion to principles and standards.
