The Cancer Society. The name says it all. If they are admitting an 11% increase, imagine what real data would say; their innate conflict of interest is noted, if they said cancer increased would both incriminate themselves further and draw alarm, but I am sure the real number much bigger.

Although I never got vaxxed, I only recently got my first case of covid on a vacation to Mexico. It was bad. I took Hydroxichloroquine while in Mexico but couldn't get Iver at the small town pharmacy. When I got home I suffered extreme fatigue for about a month. Then I took Iver for two weeks at 16mg. and bam - no more fatigue. It was pretty amazing. Wish I had it at the beginning of my illness. Also, when I got back, my dog had a respiratory illness and had lost his bark. We treated him with Iver for two days and he was back to health.

The CDC modified their databases so that more deaths end up in other categories, potentially reducing cancer deaths. Does anyone know if the increase in cancer deaths reported are the old classifications or the new classifications and if so what is the net impact?

I have read that death certificates are listing things that may point away from the true cause of death. My husband's uncle passed away last December. He was 84 and had an untreated UTI that neither we, nor the nursing home knew about. He had a massive stroke which the doctor said was probably caused by the UTI. His death certificate says that the stroke was the cause of death, and the stroke was not mentioned. I am not an expert, but I was surprised that the stroke was not mentioned. He never regained consciousness after the stroke. He had a history of strokes, and as a matter of fact, did have some minor strokes too long before his death (his nursing home wanted to give him a booster right after strokes, and we said NO!).

What a hoax. Get as many persons as possible to participate (get vaxed) by either coercive mandates, 24-7 fear propaganda... then they all are a "part of it". Thereby, making it less likely I will admit the possible horrors of what they agreed to even though (the vaccinations) were mandated or people were terrified from the 24-7 military grade psy-ops. Hence, most people refuse to recognize the underlying pre-meditated evil. Worst of all, accept the same evil and diabolical agenda they want to install, THE GREAT RESET to one global order enslaving humanity and taking away their inherent rights.

Personally, I would think people would want to fight this, but so many seem oblivious and A Psychologist friend told me yesterday how much people have changed. Have become unable to help themselves or stay with therapy like before covid. I asked if they seemed hopeless and that inner drive and motivation, he said yes. I commented to him, I do think it effected people of freedom & hope. Surely, this is not the new normal indefinitely I pondered??

Regarding being without hope, I can surely imagine that more people now hold only a glass of lemonade because they

a) took the jab, don't feel well, but don't connect their current health to the jab, notice inflation and gas prices, maybe lost employment

b) didn't take the jab, are conscious of inflation, CBDC arrival, are focussed on WEF 100, worry about the future of humanity on just a 2-year time-line

How many times each day do I have to say to myself, "Nevertheless, not my will, but done, O Lord"

11% increase.

Do those increases include (jabapalooza'd) people who died, and are dying, due to "undiagnosed" cancers, untreated, no autopsy.

The millions locked up in LTC's, for instance, jabbed to the gills...

Or does it?

Those numbers must only reflect recorded cases within allopathic medical "systems"?

Well, they had to do something. DDT was banned, lead was removed from gasoline, asbestos buildings, the SV40 they put in 1950's & early '60's polio vaccines had killed about all it was to. Same with Planned Parenthood abortions & birth control. And of course, smoking is at low. North Glyphosates on GMO food just wasn't cutting it. Fluoridation of drinking water traditional vaccines that cause autism had dumbed down the population enough to hide even life saving treatments like Ivermectin & Fenbendazole, and had enabled them to pull off 9 a 20 year Middle East war to kill off young men, so why not create a Plandemic to get everyone line up for a bioweapon injection and depopulate themselves?

Bad batches are targeted either by area, by age or disability. It would be too obvious if everyone in your area suddenly got cancer, died, heart injuries, had shingles, skin rashes, digestive tract problems, blood clots to name but a few of the adverse effects that I have experienced in nearly all of my aged friends or strangers I have spoken to in town. The mentioned effects of the above are all on the Pfizer's own list of Adverse Events of Special Interest in their document which Pfizer wished to keep secret for 75yrs.

Have you actually done any research apart from Google or fake books Frank's Diary or Boy in Striped Pyamas? Have you read or watched Da or Nick Kollerstrom? Did you realise most of what you are told is a lie? is started not by leaders who are just puppets but by bankers and indu who set up false flags to go to war. No one landed on the moon, no atc bombs in Japan, most shootings and bombings done by own gov to sc people, get rid of guns from people or to blame another country to inva steal. There are people who were in camps who talked of jobs, theatre, orchestras, sick bay etc. The allies bombed railway lines, stopping food supplies towards end of war. people died of malnutrition and typhus. A died in the hospital in Belsen from typhus. Let's agree that all wars are and we are at war now with lies but people as we know believe the lies Cross visited camps and kept records of people. No mention of mass c Churchill memoirs, and others, no mention of them. Please start resear realise the people who started both world wars, not a nation but global war with every human on this planet through totally owned UN, WHO, governments, media.

So many believe the BS about Hitler it makes me want to puke. He had no part in war and repeatedly requested that the drunk psycho Churchill seek peace. Hitler allowed the English Army to escape Dunkirk, drop flyers over Britain seeking peace, etc.

Look into the true holocaust known as the Holodomor which was perpetrated by the jew bolsheviks. Why don't we ever hear about

For those who still foolishly think we went to the moon read "Wag the Moon Doggie". Nobody died at Sandy Hook, Boston Marathon Bombing, Orlando Pulse night club, etc. 9/11 was our govt, not 19 hijackers and cutters.

There are many genocidal events that have occurred in history far more significant than the "Holocaust", yet we are supposed to consider the "Holocaust" as the worst thing ever because Jews were the victim?

More than ten times the number of people died in the Bolshevik revolution in Russia, yet they are not claiming a special status.
