

# Government Wants to Dictate Truth

Analysis by [Dr. Joseph Mercola](#)

✓ Fact Checked

## STORY AT-A-GLANCE

- > The U.S. government is seeking to dictate what is truth and what must be censored to protect the public from dangerous information. To that end, Sen. Amy Klobuchar, D-Minn., has introduced a bill that would strip social media platforms of their liability protections if their technologies spread misinformation related to public-health emergencies
- > Dr. Anthony Fauci, who has led the U.S. pandemic response team from the beginning, admitted he lied to the public about the usefulness of masks
- > According to investigative journalist Ben Swann, Fauci has funded gain-of-function research to the tune of at least \$41.7 million, a claim Fauci has denied before Congress
- > Sen. Rand Paul, R-Ky., has sent a letter to the Department of Justice asking for a criminal referral. According to Paul, Fauci lied to Congress, a felony punishable by up to five years in prison
- > According to Hannah Cox, content manager for Foundation for Economic Education, “Fauci’s disastrous track record of misinformation, laid bare throughout his many rounds with Rand Paul, shows why the government has no business trying to be a monolithic source and arbiter of truth”

**“Misinformation is much more destructive when it emanates from a monopolistic ‘Ministry of Truth,’” Hannah Cox, content manager for Foundation for Economic Education, writes in a July 25, 2021, article.<sup>1</sup>**

**“[Anthony] Fauci can’t get his own facts straight, yet the government wants to decide what’s ‘misinformation’ on social media,” she adds, pointing to National Institute of Allergy and Infectious Diseases (NIAID) director Fauci’s testimony during a recent Congressional committee hearing in which Sen. Rand Paul, R-Ky., questioned him about his funding of gain-of-function research on coronaviruses. Cox writes:<sup>2</sup>**

*“In his opening statement, Paul referenced an academic paper<sup>3</sup> that further calls into question the origins of the COVID-19 variant that upended the world.*

*‘We hypothesize that the direct progenitor of SARS-CoV may have originated after sequential recombination events between the precursors of these SARSr-CoVs,’ stated the numerous scientists and doctors who authored the research.*

*The data is the latest in a long line of evidence that has emerged indicating the viability of the theory that the disease not only came from a lab, but that the NIH actually funded the laboratory and research that may have produced it.*

*But in a May hearing, when originally pressed on it by Dr. Paul, Fauci denied that his agency funded gain-of-function research at the Wuhan Institute of Virology (WIV).*

*Those statements were brought into doubt. The NIH did fund research at WIV that analyzed bat specimens collected from caves in China to study their*

*potential for infecting humans. The grant was made in a roundabout way through a nonprofit called EcoHealth.”*

When pressed, Fauci insisted he has never lied before Congress, and would not retract his May 11, 2021, statement in which he claimed the NIH has “never funded gain-of-function research.” According to Fauci, the PLOS Pathogens paper<sup>4</sup> Paul introduced as evidence has been “judged by qualified staff, up and down the chain, as not being gain-of-function.”

*“It appears that instead of arguing the actual data, Fauci is now resorting to semantics around the definition of ‘gain-of-function,’” Cox writes,<sup>5</sup> “but even to a scientific layman it is becoming increasingly clear that Fauci misled the American public for some time on this matter. He knew he authorized the funding and was not forthcoming on that fact – even when asked by a sitting Senator.”*

## **Paul Highlights Verbatim Admission**

Paul appears none too impressed with the semantics defense and has publicly called Fauci out as a liar. In a July 20, 2021, tweet, Paul said,<sup>6</sup> “Yes, Dr. Fauci’s NIH did fund the Wuhan Virology Lab. Here’s the verbatim admission from their chief scientist Dr. Shi Zhengli.”

In a follow-up tweet on that same day, Paul stated:<sup>7</sup>

*“MIT biologist Kevin Esvelt reviewed this paper that was published with financial assistance from Dr. Fauci’s NIH/NIAID and concluded ‘certain techniques that the researchers used seemed to meet the definition of gain-of-function.’”*

July 20, 2021, Paul went on the Hannity program,<sup>8</sup> announcing he “will be sending a letter to Department of Justice asking for a criminal referral because he [Fauci] has lied to Congress,” a felony punishable by up to five years in prison, adding “We have scientists that were lined up by the dozens to say that the research he was funding was gain-of-function.” A month earlier, May 12, 2021, Paul made the same argument, telling Fox News:<sup>9</sup>

*“What Dr. Fauci said yesterday was verifiably false. He said no NIH money went to the Wuhan Institute for gain of function. Well, the main doctor there, the one they call ... the bat woman ... wrote a paper that MIT scientists have looked at that they said was gain of function – meaning juicing up these viruses to make them very potent and infect humans.*

*She wrote this paper and, in the paper, acknowledged her funding came from Dr. Fauci’s group, the NIAID, which is part of NIH. So, he is verifiably telling you something that is not true. In the grant application ... it says it is for gain of function ... So, Dr. Fauci came to Congress yesterday and lied.”*

## **WIV Deleted US Research Partners from Website**

Before March 2021, NIAID collaboration and funding of research at the WIV could easily be verified simply by visiting the WIV’s website where it listed its research partners. However, shortly after Fauci testified in a Senate hearing in March 2021,<sup>10</sup> the WIV suddenly deleted mentions of its collaboration with the NIAID/NIH and several other American research partners.

As of March 21, 2021, the lab’s website listed the following U.S.-based research partners: University of Alabama, University of North Texas, EcoHealth Alliance, Harvard University, the National Institutes of Health (NIH), the United States, and the

**National Wildlife Federation.<sup>11</sup>**

The next day, only two remained: EcoHealth Alliance and the University of Alabama.<sup>12</sup> At the same time, the WIV also deleted studies with hallmark descriptions of gain-of-function research on the SARS virus.<sup>13</sup>

According to investigative journalist Ben Swann,<sup>14</sup> the NIH/NIAID has funded gain-of-function research to the tune of at least \$41.7 million. Up until 2014, this research was conducted by Dr. Ralph Baric at the University of North Carolina (UNC). In 2014, the U.S. government issued a moratorium on federal gain-of-function research funding due to safety, ethical and moral concerns raised within the scientific community.

At that point, NIAID funding for this kind of research started being funneled through the EcoHealth Alliance to the WIV. Swann reviews documents he believes prove that Fauci lied to Congress, including a paper<sup>15</sup> titled “SARS-Like WIV1-CoV Poised for Human Emergence,” submitted to PNAS in 2015 and subsequently published in 2016. In this paper, the authors state that:

*“Overall, the results from these studies highlight the utility of a platform that leverages metagenomics findings and reverse genetics to identify prepandemic threats.*

*For SARS-like WIV1-CoV, the data can inform surveillance programs, improve diagnostic reagents, and facilitate effective treatments to mitigate future emergence events. However, building new and chimeric reagents must be carefully weighed against potential gain-of-function (GoF) concerns.”*

At the end of that paper, the authors thank “Dr. Zhengli-Li Shi of the Wuhan Institute of Virology for access to bat CoV sequences and plasmid of WIV1-CoV spike protein.”

They also specify that the research was supported by the NIAID under the grant awards U19AI109761 and U19AI107810, which together total \$41.7 million.

## **Grant Letter Dispels Semantics Defense**

A letter<sup>16,17</sup> from the Department of Health and Human Services (DHHS) to the director of proposals at UNC Chapel Hill, discussing grant U19AI107810, also puts a kink in Fauci's attempt to change the definition of gain-of-function, and stands in direct challenge to his claim that the NIAID has never funded gain-of-function research, and that Baric's research never involved gain-of-function. The October 21, 2014, letter states, in part:

*"NIAID has determined that the above referenced grant may include Gain of Function (GoF) research that is subject to the recently-announced U.S. Government funding pause ...*

*The following specific aims appear to involve research covered under the pause: Project 1: Role of Uncharacterized Genes in High Pathogenic Human Coronavirus Infect – Ralph S. Baric, PhD – Project Leader. Specific Aim 1. Novel Functions in virus replication in vitro. Specific Aim 3. Novel functions in virus pathogenesis in vivo."*

## **'Fauci Found It Appropriate to Lie'**

*"This would certainly not be the first time Fauci has been caught giving the American people false information," Cox writes.<sup>18</sup> "From the very beginning of the crisis, Fauci found it appropriate to lie to the people and control valuable information around the pandemic."*

She goes on to highlight Fauci's ever-changing opinion about mask wearing. Scientific evidence shows face masks do not prevent viral illnesses.<sup>19</sup> This includes COVID-19-specific research<sup>20,21</sup> from Denmark, which found that mask wearing may either reduce your risk of SARS-CoV-2 infection by as much as 46%, or increase your risk by 23%. Either way, the vast majority – 97.9% of those who didn't wear masks, and 98.2% of those who did – remained infection free.

Among mask wearers, 1.8% ended up testing positive for SARS-CoV-2, compared to 2.1% among controls. When they removed those who did not adhere to the recommendations for use, the results remained the same – 1.8%, which suggests adherence makes no difference. Among those who reported wearing their face mask "exactly as instructed," 2% tested positive for SARS-CoV-2 compared to 2.1% of the controls.

Back in March 2020, Fauci was on the right track, publicly stating that masks cannot prevent viral infection. The video above features one such appearance. At the time, Fauci stated<sup>22</sup> that "people should not be walking around with masks" because "it's not providing the perfect protection that people think that it is." Only symptomatic individuals and health care workers were urged to wear them.

Fauci even pointed out that mask wearing has "unintended consequences" as "people keep fiddling with their mask and they keep touching their face," which may actually increase the risk of contracting and/or spreading the virus.

In February 2020, Surgeon General Jerome Adams also sent out a tweet urging Americans to stop buying masks, saying they are "NOT effective."<sup>23</sup> (He has since deleted that tweet.) Adams also warned that if worn or handled improperly, face masks can increase your risk of infection.<sup>24</sup>

## **Fauci Admits Issuing Intentional Misinformation**

By July 2020, Fauci admitted his initial dismissal of face masks was an intentional fib, as there was a shortage of personal protective equipment (PPE) at the time and he wanted to ensure there would be enough for frontline workers.<sup>25</sup> “If we listen to Fauci’s account, he essentially believed it was alright to prioritize some lives over others and lie to people in the process,” Cox writes.<sup>26</sup>

This is a classic illustration of the use of what Plato calls the Nobel Lie. It is fine to lie as long as it is for the greater good. Fast-forward a few weeks, and by the end of July 2020, Fauci suggested adding goggles and full face shields, in addition to a mask, ostensibly because the mucous membranes of your eyes could potentially serve as entryways for viruses as well.<sup>27</sup>

Interestingly enough, a March 31, 2020, report<sup>28</sup> in JAMA Ophthalmology found SARS-CoV-2-positive conjunctival specimens (i.e., specimens taken from the eye) in just 5.2% of confirmed COVID-19 patients (two out of 28). What’s more, contamination of the eyes is likely primarily the result of touching your eyes with contaminated fingers, and if you wear goggles or a face shield, you may be more prone to touch your eyes to rub away sweat, condensation and/or scratch an itch.

**“ Fauci’s disastrous track record of misinformation, laid bare throughout his many rounds with Rand Paul, shows why the government has no business trying to be a monolithic source and arbiter of truth. ~ Hannah Cox, Foundation for Economic Education ”**

Around December 2020, recommendations for double-masking emerged,<sup>29</sup> gaining momentum through extensive media coverage as we moved into the first weeks of 2021,<sup>30</sup> at which time Fauci agreed that wearing two masks instead of just one was “common sense” as it would likely provide greater protection.<sup>31</sup>

By early May 2021, Fauci introduced the suggestion that we might also start wearing face masks during influenza season after the COVID-19 pandemic recedes “to help avoid spreading or contracting respiratory illnesses like the flu.” Mid-July 2021, Fauci also insisted parents should continue to mask children aged 2 and older, saying:<sup>32</sup>

*“Unvaccinated children of a certain age greater than 2 years old should be wearing masks. No doubt about that. That’s the way to protect them from getting infected, because if they do, they can then spread the infection to someone else.”*

No new scientific evidence to support masking against respiratory viruses has been presented, however. Cox also points out that Fauci recommended nationwide school closures even though published science showed children are largely immune<sup>33,34</sup> to SARS-CoV-2 infection and are not significant vectors for spread.<sup>35</sup> More recent research<sup>36</sup> shows children, when infected, also have a survival rate of 99.995%.

## **Government Nominates Itself as Ministry of Truth**

“To add insult to injury, the government has nominated itself as the sole arbiter of truth when it comes to information on the coronavirus,” Cox writes, adding:<sup>37</sup>

*“The Biden Administration has claimed misinformation on social media platforms is ‘killing people’ and has openly been pressuring Facebook to remove posts that do not align with their narrative ... This is concerning for multiple reasons.*

*First and foremost, it is a violation of free speech and the free market for the government to tell any private business how to run its operations. Plain and simple.*

*Additionally, the government has no business being in a position of determining what the truth is or is not. They've been caught lying more times than we can count and are likely to continue, given how misleading the public often serves to increase their own power.*

*The government's track record of inaccuracy by no means begins with COVID, but has certainly grown with it. This is the last entity we should trust with a monopoly over information.*

*Fauci's disastrous track record of misinformation, laid bare throughout his many rounds with Rand Paul, shows why the government has no business trying to be a monolithic source and arbiter of truth."*

## **Senator Introduces Bill to Force Online Censorship**

July 22, 2021, The Wall Street Journal<sup>38</sup> reported Sen. Amy Klobuchar, D-Minn., has introduced a bill "that would strip online platforms such as Facebook Inc. and Twitter Inc. of their liability protections if their technologies spread misinformation related to public-health emergencies, such as the Covid-19 pandemic."

Section 230 protects internet platforms from lawsuits arising from content generated by users and third parties. Klobuchar's bill would create an exception to this law, the Health and Human Services department (HHS) would be responsible for dictating what health information is true and what is misinformation.

Internet platforms would then be required to censor accordingly or face potential

litigation. Time will tell if this bill will pass and stand up to legal scrutiny.

As noted by Supreme Court Justice Clarence Thomas in an April 5, 2021, ruling<sup>39</sup> in which he weighed in on the ability of social media giants to control free speech, “The government cannot accomplish through threats of adverse government action what the Constitution prohibits it from doing directly.”

## **After Censorship, Will Social Credit System Be Far Behind?**

If government censorship becomes law, will a social credit system based on government narrative adherence be far behind? “We need to act now to block Britain’s social credit system,” columnist Ross Clark writes in a July 24, 2021, Spectator article.<sup>40</sup>

While Clark, just 12 days earlier, had estimated it might take two to five years for a British COVID vaccination passport scheme to transition into a full-blown social credit system like that of China, in reality, it’s already being rolled out.

*“This morning it was reported that the government is planning to introduce a health app in January which will monitor our shopping, our exercise levels, or intake of fruit and vegetables – and reward us with virtue points which we can exchange for discounts, free tickets ... and other goodies,”* Clark writes.<sup>41</sup>

Considering the whole world is acting in lockstep – as described and recommended in the Rockefeller Foundation’s 2010 “Scenarios for the Future of Technology and International Development” report<sup>42</sup> – it’s probably only a matter of time before the same kind of social credit score “carrot” gets dangled in front of our faces here in the United States.

## **First Comes the Carrot, Then the Stick**

Looking back, it's easy to see how the carrot and the stick have been intermittently used to herd the population toward a desired goal. While getting everyone injected with SARS-CoV-2 spike producing mRNA is clearly one goal, it's not the only one.

As indicated by Clark, a social credit system that grants outside agencies complete control over your life is also being introduced, one small step at a time. And, like with the COVID jabs, carrots to get people to voluntarily embrace this social credit system are deployed first. The stick will come out later, as it has with the COVID shots.

ABC News panelist Margaret Hoover recently told George Stephanopoulos she thinks government ought to make life “almost impossible” for people who reject the COVID shot.<sup>43</sup>

To that end, she suggests making COVID injectables a requirement for government-provided health and financial services, such as VA treatment, Medicare, Medicaid and Social Security payments, “because ... we are going to have to take care of you on the back end.”

## **PayPal to Block Certain Financial Transactions**

Those relying on Social Security aren't the only ones who might begin to feel the sting of the stick. More than 150 health care workers were recently fired from Houston Methodist for refusing the experimental COVID jab,<sup>44</sup> and many other professions face the same “job or job” dilemma.

PayPal is also using the stick against the self-employed and small businesses that aren't toeing the desired line. It recently partnered with the Anti-Defamation League's Center on Extremism “to investigate how extremist and hate movements in the United

States take advantage of financial platforms to fund their criminal activities,” Reuters reported, July 26, 2021,<sup>45</sup> with the aim of “disrupting” such transactions.

The headline, “PayPal to Research Transactions That Fund Hate Groups, Extremists,” had originally included the word “Blocking.” Perhaps announcing that PayPal will actually block the financial transactions of those suspected of harboring anti-government sentiments was too great a truth bomb for the average Reuters audience?

Targeted entities include individuals and companies suspected of supporting white supremacy and anti-government narratives, and anyone spreading information and/or profiting from antisemitism, islamophobia, racism, anti-immigrant, anti-Black, anti-Hispanic and anti-Asian bigotry.

The information collected will be shared with other financial institutions, law enforcement and policymakers. It doesn't take a genius to deduce where this might end up, considering intelligence agencies are already deploying sophisticated cyberwarfare tools against civilians.<sup>46,47,48</sup> As reported by independent [investigative journalist Whitney Webb](#) in an article for Unlimited Hangout:<sup>49</sup>

*“British and American state intelligence agencies are ‘weaponizing truth’ ... in a recently announced ‘cyber war’ to be commanded by AI-powered arbiters of truth against information sources that challenge official narratives.”*

While it can cause discomfort, the best defense is a peaceful offense. If you don't like where things are headed, peaceful disobedience is likely to be the most effective way to push back, be it against mask mandates, forced vaccinations, a two-tier society of vaccinated/unvaccinated with unequal rights and privileges, mandatory vaccine passports, a social credit system, or all of the above.

as all of this is so passive aggressive maybe its time to take the gloves off as the court systems a blocked and it will take years to get turned around -In Alberta Canada there was a win = Patriot Patrick King represented himself in court after being fined \$1200 dollars for protesting against the Covid-Hoax, he slew the beast and emerged VICTORIOUS. He issued a subpoena to the Provincial Health Minister for proof that the so-called Covid-19 Virus exists, and they were forced to admit that they had no evidence whatsoever. The virus has never been isolated, and thus the government had no legal grounds to impose any of the punishing restrictions they have inflicted on society. Since this shocking confession came to light, the Province has since rescinded all Covid-Restrictions and now officially treats Covid-19 as nothing more than a mild flu! WE WON King has shown the template to be followed WORLDWIDE. This is what can happen when you are not re-presented by a BAR (British Accredited Registry) Lawyer who's first obligation is to the Corrupted Courts and not their client.

I agree that the courts are corrupt. However, wherever there is strong social pressure, the judges will rule accordingly. With the lockdowns, many in \*Congress\* now firing their mouths at Speaker Pelosi for threatening to arrest those walking the Capitol's halls without a mask, [www.youtube.com/results?search\\_query=lambasting+pelosi+mask+mandates](https://www.youtube.com/results?search_query=lambasting+pelosi+mask+mandates) the breakdown of the economy, suicides and more, it may very well be that some judges will break faith with the ranks and rule on our side. I said may, not a guaranteed "will". I think it depends on the judge. But I bet there will be some on our side. With the Fauci emails come to light, the pressure will be on.

I do think there is a possibility that we can win this one, and the truth will triumph. If it does not now, my prediction is that with time it will. The truth is coming out more and more, and tides are beginning to turn, and in many areas, with many lawsuits and many more truths disclosed and insights awakening almost daily. I think this article today by Dr Mercola is a very important one. We should seed it far and wide on the web. Thank you Dr Mercola! YOU are a brave soul and a peaceful

warrior for truth. BRAVO!!!!!!!

Thanks kbamfield. Yes, a great victory, a great example to follow against the tyranny and oppression of the Fauci dictatorship who has led the US pandemic response team from the beginning. According to investigative journalist Ben Swann, Fauci has funded a profit-of-function investigation to the tune of at least \$ 41.7 million. Now Fauci after claiming for a long time that only 70 percent of Americans needed to "get vaccinated" against the Wuhan coronavirus (Covid-19) to "stop the spread", the fake TV "doctor" Tony Fauci now insists that the real figure is more like 90 percent. All in the way of the obligatory vaccine and the interests of the pharmaceutical multinationals and the creation of the transhuman man whose genes can be patented and led like a robot to the tyranny of the Great Reset.

Linking with Dr. Mercola's information on Senator Rand Paul great freedom fighter: **RAND PAUL: MASK MANDATES AND LOCKDOWNS FROM PETTY TYRANTS? NO, NOT AGAIN. CHOOSE FREEDOM** "President Biden – we will not accept your agencies' mandates or your reported moves toward a lockdown. No one should follow the CDC's anti-science mask mandates. And if you want to shutdown federal agencies again – some of which aren't even back to work fully – I will stop every bill coming through the Senate with an amendment to cut their funding if they don't come to work. Local bureaucrats and union bosses – we will not allow you to do more harm to our children again this year.

Children are not at any more risk from COVID than they are for the seasonal flu. Every adult who works in schools has either had the vaccine or had their chance to. There is no reason for mask mandates, part time schools, or any lockdown measures. Children are falling behind in school, and are being harmed physically and psychologically by the tactics you have used to keep them from the classroom last year. We won't allow it again."

## Retsbew

Hello Kbamfield, I've worked in the Canadian court system for at least 20 years. Part of that time I was a Court Reporter with the office of the Attorney General and as such, an official of the court. The court where Patrick King was a self-rep is in western Canada. Our courts in Canada are based on British law, something which always stands up well under scrutiny and precedents. Patrick has set a beautiful precedent which we know will not be covered in the media. The best we can do is get it into the media via published comments in appropriate places if possible.

Judges here were all lawyers to begin with and there are always good, bad and indifferent in most professions and they are appointed, not elected. I have to say in the lengthy time I was involved in the legal system here, the honesty and professionalism of the judges was something I didn't see fail. Only once did I question what had happened when a judge failed to see that a young child did not understand the difference between right and wrong. A trial involving a little boy accused of exposing himself went ahead as a result and that child's life could have been ruined by such a mistake. That I saw this happen once in 20 years is remarkable and shows the quality of the Canadian justice system.

Lawyers are a mixed bunch and it takes a lot of effort to find one who will do the best job for you and truly earn the too often outrageous fees that are charged. That's why people like Patrick King self-rep and he has an innate sense of justice and is a common sense sort of person. He describes himself as just an oil and gas guy and he's very typical of westerners who are relaxed and friendly. Rather than dismissing any court system as corrupt, bring it to account and make it serve the people; that's its purpose. Dr. Fuellmich is right, we're going to need covid case courts. At the stage we are at now, I think the names of judges on covid cases should be publicized.

Hi Gui,

Am not very organized or contiguous today...That George Mason Univ article on CHD describes a messy system - information shambles. I visited an allergist who was completely unaware of the T-Detect test, approved by the FDA under EUA last March 2021, and appears far more accurate in determining immunity than earlier antibody testing. Reasons? Because it tests for the actual fighter of this China flu; adaptive T-cells stick around a lot longer than antibodies. Here's the link to the FDA report for downloading: [www.fda.gov/.../download](http://www.fda.gov/.../download) - took me a while to look this one up, as Lakhana had mentioned it several times. Easier to read press releases are also online, and YOU DONT NEED A DOCTOR TO ORDER THIS TEST.

If this is possible in Canada and all it takes is to challenge them on the proof for them to fold, with so many lawyers in USA, what is stopping people in US stopping this NOW, by mounting similar challenges. Also, why is Dr Mercola folding up so fast? It is not as if he was lying to people on his website, which was full of great info. What threats were issued to him to start deleting content every 48 hours? Especially when the powers that be are doing the faking it, why is Dr Mercola not challenging them on this? It is not as if, in US they will magically be able to produce the proof of this virus, when as yet not a single medical authority has been able to do so (there was a similar challenge in Holland).

carol - Thanks for including the link to Stew Peters.

Smiller - This is what lawyers do best, muddy the waters with legal jargon. 'If you can't beat 'em, baffle 'em with bullshit.' The point is, the case was not pressed forward. Occam's razor applies here - the obvious answer is usually the right one.

How long until you find out who you really are and what you are capable of? Each of us is unique. In each of our lives, we are given both innate abilities and skills we can develop. Just like snowflakes, none of us are exactly the same. Not using the gifts we are given is like being able to read and not doing it... you might as well be illiterate. Our gifts were given to us for a purpose. They are meant to be used. Each of us leads a life of great promise. Do not trivialize even the small things you do. They matter to someone. They all have a place in the greater consciousness of humanity. Be aware of every good thing you can think or do. Make it your goal to pursue perfection, even knowing that, as human beings we are flawed and imperfect. Whatever you can do, do it as well as you can.

The soul of man is spiritual. There is a higher purpose in our lives than serving the technocracy. We are facing times of great challenges. It will take the efforts of many to shed light in darkness. Hold your candle high and keep it lit. Resist. Be part of the struggle and do not abandon hope. These may be times when it is worthier to be a footnote on a page of history than a tyrant who earned a headline. We will face the turmoil of a storm, but we are waiting for the rainbow that follows.

Nadie dijo que iba a ser fácil... De todas formas, debiéramos terminar de entender que lo que menos le importa al poder es la verdad y lo que sea legal o legítimo. Vivimos una tiranía global, y cuando antes se entienda esto, antes hallaremos los medios para resistir lo que se oponga a nuestra LIBERTAD, porque de eso se trata... Van por el dominio sobre todo lo que hay, y manipularán , mentirán y todo lo que decidan para hacerlo suyo. Yes, AMIS, the false gods of evil want to monopolize the earth's resources at will and create a transhumanism where people lose their spiritual essence, to be dominated by the Great Reset.

Unfortunately we are in the history of Humanity in which an evil group of men can dominate the entire world without moving from an office destroying a desired democracy. A change of the magnitude of which we are living with very serious effects on the lives of people and nature must be responded to by people of good will. We cannot allow this techno-fascist revolution to achieve a massive lobotomization of billions of individuals who dream of a world. We must convince minds lost in ignorance of the coming disaster if we do not fight for freedom.

Thanks ANMAEL Great Avatar of Zen, representing enlightenment, the absolute universe, force and infinity. This world needs these attributes. One of the videos talks about graphene in vaccines, found in a Pfizer vial and that a sample will be taken to court for verification. Consider that Dr. Jane Ruby joins Stew Peters to discuss a scientific report that has just come out of the School of Engineering of the University of Almería in Spain entitled "Detection of graphene oxide in aqueous suspension: observational study in optical microscopy and electronics ", where each Pfizer injection dose was found to" contain 6 ng of RNA and 747 ng of graphene oxide, which is 99.103% of the drug.

This connects with a report by Dr. Mercola on the synergy of vectors that enhance mortality and disease that connects the manipulations of vaccines with the toxic situation of biodiversity and the pathologies of an unhealthy humanity. Unfortunately, the deaths, diseases of the vaccines and toxic and ineffective treatments will enhance the economic and social crisis, and the poor will celebrate a funeral, while the profits of the corrupt elites will grow. Big Pharma sees in this pandemic the potential alternative to the use of toxic drugs and vaccines with gene therapy and pollutants that create a synergy that, as reported by Dr. Mercola, causes deaths and potentiates chronic and degenerative diseases. Natural resources and protocols with effective medicines that would avoid vaccines are being neglected. Only increasing profits, monopolizing theft and disease that serve the vicious cycle of destruction and the tyranny of corrupt elites, Big Pharma has subdued the institutions of "health" to destroy the vitamin and herbal supplement industry. . Corrupt institutions have become a traitor and an enemy of the people in their criminal efforts to take down the only natural health business that has actually shown positive results. Big Pharma has tried to offer the fascist-fueled army of 100,000 FDA Gestapo agents what is healthier and good for people in order to eliminate our choice about our own personal care.

Just switch off. Media Research company Nielsen Media reported that during primetime, CNN (aka the China News Network) lost 65% of its total viewers since January 2021. In the advertising critical 25-54 age demographic, CNN saw 71% of its viewers tune out. In the last week of July they failed to gain 1 million viewers. They had averaged 2.5 million prime-time viewers each night from November 4 2020 through Inauguration Day on January 20.... You can only peddle lies for so long. The vast majority of the nation won't ever forget their lies and won't ever come back. A Politico-Harvard study found 52% of the US population now believes Covid-19 came from the Wuhan lab. Makes you wonder why they don't seem to care about what must be pretty acute losses in advertising revenues. The control of the media by large corporations and philanthropists is overwhelming. The great fortunes, invest in intellectuals, thinking tanks and universities to develop and socialize their reactionary ideas and that these are assumed naturally. All these corporations are united in the same goal, to serve their interests, which have common causes, seeking to deceive and propagandize their agendas. In this way they try to silence the independent voices that defend the truth. Fact-checking within a centralized mechanism powered by journalists that they could easily control is undoubtedly the CIA's dream. If the public's perception is confused about what is real and what is propaganda, then your mission would be complete.

The CIA has long been associated with major news publications. The CIA, have been with the New

York Times, CBS, and Time Inc. The CIA even conducted a training program to teach its agents to be journalists, who were then placed in major news organizations with the help of the CIA. address. In a society marked by techno-fascism we have basic conflicts of freedom and responsibility, marked by an oligarchic system. The loss of internal freedom of thought, of control, of loss of our identity as a person or as a people due to the monopolies of communication, from a globalization imposed from the money market, of the entrepreneurial profit that enslaves the workers and attacks the sense of responsibility and independence of thought that is what gives meaning and security to our existence.

I've posted this two minute video before from Truth-speaker Robert F Kennedy Jr. He calls out Fauci for having investments in vaccines (along with Gates & his profiteering cronies). Kennedy reveals how Fauci, was directly instrumental in demonizing the cheap, early-use, life-saving antiviral Hydroxychloroquine because it was a HUGE threat to the no liability, experimental profiteering vax agenda. Thousands of people who could have been saved with HCQ died as a result Fauci has also deliberately failed to recognise the life-saving merits of Ivermectin, because again, it would interfere with the Big Pharma \$\$ Vaccine Gravy Train: [twitter.com/.../1](https://twitter.com/.../1) I had another short expose of the huge money-for-influence connections between Fauci and Gates but it has been taken down as part of the purge on Truth that Dr Mercola is bravely trying to expose.

If Paypal is "talking" that way I will never patronize them, and I will spread word widely. There is a "reason" (not good one or constitutionally sound) that Paypal and the government are getting away with dubbing people as criminals when they do nothing more than have insights and peaceful disagreement with government agendas. In the 9-11-01 era, the Patriot Act was said by more than a dozen agreeing civil liberties entities of all stripes and colors, from the Red Cross to the NRA, the ACLU, Center for Constitutional Rights, National Lawyers Guild and more, to contain an "over-broad" definition of terrorism. This included advocacy. People who advocated against The Agenda were...remember? "Either with us or against us" and usually, dubbed under the Patriot Act as "against". Hence the "terrorism" label. Those who opposed Iraq war, gave money to a mosque, no matter how peaceful and having Absolutely Nothing to do with criminal activity of any kind, were sometimes even called at their work place by the FBI. Guilt by association. Among those dubbed were the Nobel Peace Prize-winning Quaker entity, the American Friends Service Committee, Greenpeace, People for the Ethical Treatment of Animals, Thomas Merton Peace Center and more, all on the FBI spy list and represented by the ACLU. [www.aclu.org/.../fbi-spy-files-project-aclu-client-list](http://www.aclu.org/.../fbi-spy-files-project-aclu-client-list) See the client list here, which by the way, includes the ACLU itself and the National Lawyers Guild. More [www.aclu.org/other/fbi-jttf-spying?redirect=cpreirect/24011Just](http://www.aclu.org/other/fbi-jttf-spying?redirect=cpreirect/24011Just) don't disagree with the government

and you will, as they say nowadays, "Stay safe" ! Well my god the problem of thought control knows no bounds. Got change?

We can't let Paypal and the government get away with this. A President and Senators, Congresspeople who plug for censorship, are violating the basic Constitutional tenet of a free press, free speech, citizen immunity with rights and privileges protected (14th amendment), and the 4th. IMPEACH!

## Collimator

I suggest using PayPal (and similar) as little as possible. They seem to be 'testing the waters' as to what transactions they can get away with blocking arbitrarily. Example: I recently tried to order various items from a well-known mail order nutritional supplement company in a different state. One item I wanted was a liquid trace-mineral supplement (famous brand). When I tried to pay using PayPal, the (online) order would not complete. The customer service lady divulged that that one item which I wanted to order was on a PayPal-enforced list of "controversial items" which PP would not allow to be purchased by anyone through their system; she said that it was on the "controversial" list because it contained a tiny percentage, almost negligible, of lithium! This was not an order for OTC lithium orotate (which can be used as a mild anti-depressant) which doubtless would also be on PayPal's prohibited list at a higher dose of lithium per pill. Maybe PayPal, buddy-buddy with Pharma, does not want anyone ordering even a smidgen of lithium which in someone's deluded imagination might possibly compete with Pharma's expensive prescription-only lithium pills for depression (regardless of the fact that the trace mineral liquid

could have no noticeable effect for that condition). (The order did go through using a standard credit card.) This is only one ridiculous example of how 'digital money' can be programmed to control what someone could purchase; or what someone could sell to another; or what work someone could get paid for; or what work one could pay someone else for, etc. 'Digital money' could be time-limited, made to expire, made unavailable until a given date, and so much more. CBDC will likely have these properties and hundreds more, which if we are forced into using, will mean slavery ... credit (if any allowed) at the company store, and maybe nowhere else: economic freedom crushed. USE CASH WHENEVER POSSIBLE, FOR AS LONG AS POSSIBLE!

I had the virus in November last year. a fever 1 night followed by loss of taste and smell for 2 weeks. Same for my husband at the same time. I ended up with tinnitus. He did not. An employee of mine and his wife have both been jabbed. They went to NYC. They also went to a bbq shortly after returning from their trip. Several People there came down sick with the virus and are now in quarantine. Not sure where my employee and his wife got it but probably 1 of the 2. I had been-prior to his quarantine-in close direct contact with my employee sitting shoulder to shoulder day after day training him. I never got ill again. Neither did my husband, who also has been in direct close contact with him. This employee is suffering from severe flu symptoms, very bad headaches, vomited, pain between his shoulder blades on the side where he got jabbed. We also have 2 other employees who are currently in quarantine from the big C. Both of us were in daily contact with them. They were not previously jabbed. They've been at super spreader events aka family gatherings. We also see about 40 people a day who could be vectors—and have daily since November. So we are a prima facia case of natural immunity vs the jab. Mine worked. His did not. Put that in your pipe and smoke it Fauci, CDC, et al.

The masks not only do not protect against the contagion of COVID-19, they are also a war against nature, a reason for fear against covid-19 and create the false need for mandatory vaccines. One more step for the creation of transhumanism within the Great Reset. Vaccines and masks are now and in the future a danger to health and biodiversity. TWENTY REASONS MANDATORY FACE MASKS ARE UNSAFE, INEFFECTIVE AND IMMORAL.

[www.globalresearch.ca/twenty-reasons-mandatory-face-masks-are-unsafe-i..](http://www.globalresearch.ca/twenty-reasons-mandatory-face-masks-are-unsafe-i..)

According to Health Canada: "Face masks containing graphene oxide can present health risks." It took Health Canada over a year to recognize that certain anonymous mask brands contain graphene nanoparticles. Health Canada has reviewed the available scientific literature along with data provided by Shandong Shengquan New Materials Co. Ltd., relating to the biomass graphene contained in its four models. The review found that biomass graphene particles are not released from these masks in amounts that are likely to cause adverse effects in the lungs.

[healthycanadians.gc.ca/recall-alert-rappel-avis/hc-sc/2021/75309a-eng... ~](http://healthycanadians.gc.ca/recall-alert-rappel-avis/hc-sc/2021/75309a-eng...)

[www.globalresearch.ca/face-masks-contain-graphene-a-poisonous-substanc..](http://www.globalresearch.ca/face-masks-contain-graphene-a-poisonous-substanc..)

The masks represent a serious growth of environmental pollution, degradation of the oceans, death of animal species, atmospheric and agrarian pollution that is linked to GMOs, pesticides, water fluoridation, etc. aspects that enhance the degeneration of the human race. Disposable masks can be even worse than plastic bottles, Dr. Mercola reported. While about 25% of plastic bottles are recycled, "there is no official guide to recycling masks, which makes it more likely that they will be disposed of as solid waste," the researchers said. "With reports of inappropriate mask disposal increasing, it is urgent to acknowledge this potential environmental threat."

Posted On 08/06/2021

---

## Guillermou

Not only are masks not recycled, but their materials make it likely that they will persist and

accumulate in the environment. Most disposable masks contain three layers: an outer layer of polyester, a middle layer of polypropylene or polystyrene, and an inner layer made of absorbent material such as cotton. Polypropylene is already one of the most problematic plastics, as it is widely produced and responsible for a large accumulation of waste in the environment, as well as being a known asthma trigger. Additionally, the researchers noted: "Once in the environment, the mask is subjected to solar radiation and heat, but the degradation of polypropylene is delayed due to its high hydrophobicity, high molecular weight, lack of active functional group and continuous chain of repeating methylene units. These recalcitrant properties lead to persistence and accumulation in the environment ". [link.springer.com/.../s11783-021-1413-7.pdf](https://link.springer.com/.../s11783-021-1413-7.pdf)

When you wear a mask, tiny microfibers are released, which can cause health problems when inhaled. The risk increases when masks are reused. This hazard was highlighted in a performance study to be published in the June 2021 issue of the Journal of Hazardous Materials.

[www.sciencedirect.com/science/article/abs/pii/S0304389420329460](https://www.sciencedirect.com/science/article/abs/pii/S0304389420329460) In Ocean Asia's 2020 report, Masks on the Beach, researchers developed a formula to provide reasonable estimates of the number of disposable masks entering the environment.

Given an annual production figure of 52 billion disposable masks and a 3% loss rate (the percentage of masks that leak into water management systems), Visual Capitalist's Marcus Lu notes that the team concluded that nearly 1 , 6 billion face masks ended up in our oceans in 2020. This equates to approximately 5,500 tons of plastic pollution. [oceansasia.org/covid-19-facemasks](https://oceansasia.org/covid-19-facemasks)

Wouldn't just be great that we just be happy of being being scared all the time? Play some Andre' Rieu concerts an see how happy are other countries that don't listen to all the bad news like we do. Most don't even know who our president is and how bad is is over here. Notice in the orchestra and audience from other countries how many don't wear masks. We in the USA are being sold a bill of goods. Forget the news and see for your self the truth.

The reason Fauci won't go down is the interconnection & web connected to him. They may 'sacrifice' him in due time, but only in such a way that the web of corruption he's part of is preserved, & the parties in the shadows pulling the strings remain anonymous & disconnected. It's like Cuomo being thrown to the wolves while Biden's still groping at large & untouchable.....for now.

I just read an article where we are going to be coerced into getting jabbed. Whether people choose to get the shot or not, I firmly believe our "choice" should not be taken away. And what about those people who can't take the jab due to certain health issues. I call this Totalitarianism... Articles: Life may be about to get tougher for the unvaccinated -- A rising chorus of states, cities and private sector titans have implemented new vaccine requirements for their employees and patrons. It marks a new, less negotiable phase in the fight against the coronavirus. And; Hospitalizations for COVID are almost entirely confined to those who are not vaccinated, often at the cost of tens or hundreds of thousands of dollars. Insurers, led by government programs, should declare that medically-able, eligible people who choose not to be vaccinated are responsible for the full financial cost of COVID-related hospitalizations.

We read a myriad of DM articles for many years. We also study metaphysics, spiritual energies and how science should go hand in hand w/ it. Not to put words in DM mouth. But, we take most of DM's (and his crews) gift of this hard work in directions standard science may consider non-peer reviewed paths. One thing we get out of all this... 1, Humans are designed to be "PART" of this planet. We are only 1/3 human, all else is some form of symbiotic life / energy. Example; Lets look at Allergies. Do the trees & grasses attack us? No, but the allergy commercials tell us they do. Take this drug to mask the symptoms. We, as a species are so chemicaled & drugged up, most of the symbiotic energies that make us "Human" are being lost. Between earthing, foods, liquids, etc. We are bombarding our bodies w/ so much that is non-native to this planet . We may be extincting ourselves. One reason Steven Hawken's stated is a variety of ways. "We are running out of time & it's our own doing". Most lemmings seem to be content "running to the government" as censorship just fuels the path.
