THIS IS HUGE!

Last night Senator Dr. Scott Jensen from Minnesota went on The Ingraham Report to discuss how the CDC is encouraging American doctors to over-count coronavirus cases in the US.

This was after Dr. Scott Jensen, a Minnesota physician and Republican local station he received a 7-page document coaching him to fill out COVID-19 diagnosis without a lab test to confirm the patient actually

Dr. Jensen also disclosed that hospitals are paid more if they list patient diagnosis.

And hospitals get paid THREE TIMES AS MUCH if the patient then goes on

Senator Dr. Scott Jensen: *Right now Medicare is determining that if you get an admission to the hospital you get \$13,000. If that COVID-19 patient goes on a ventilator you get \$39,000, three times as much. Nobody can tell me after 35 years in the industry sometimes those kinds of things impact on what we do.*

That lying deep state fraud should be fired. He has a multi-million dollar relation to eugenicist Bill Gates which constitutes a serious conflict of interest. He stands with a needle full of poison which is why he's casting doubt on hydroxychloroquine. It seems to work.

@ranchdancer For thousands of years, Doctors operated under Hippocratic

"I will use treatment to help the sick according to my ability and judgment, but I will not do anything that I judge to be wrong-doing."

Now some Doctors operate under the Mighty Dollar Oath. Very disturbing!

Is that like what Trump is receiving since he is pushing Hydroxychloroquine s
\$1,300 invested with one of the makers of that drug. Must be knocking down
pennies a day by now!

By the way, where do you park your brain when you're not using it?
