## Data Source

All data is sourced from VAERS, a public database of over 700,000 adverse reaction reports for Moderna, Pfizer and Janssen Covid 19 vaccines in the USA.

Our intention is to present the VAERS data in an accessible and unadulterated form, that can be easily verified using the links below

## Share

Please share this page with friends, relatives and colleagues who may be considering taking vaccinations. Please also share it with doctors and nurses and teachers - those who are in advisory positions within your community. They need to know which batches are more risky than others. Please share with legal teams, and with forces personnel.
