

# How COVID-19 Is Changing the Future of Vaccines

Analysis by [Dr. Joseph Mercola](#) ✓ Fact Checked

## STORY AT-A-GLANCE

- › By pushing for mandatory COVID-19 vaccination, or imposing social restrictions on those who refuse, the COVID-19 vaccine is paving the way for nonconsensual medical experimentation on the general public
- › Since the beginning of the pandemic, world leaders have warned that social distancing, mask wearing, travel restrictions and other measures will become part of our “new normal.” And, while the vaccine is sold as a way to end the pandemic and return us to normal, it cannot, since it has only been evaluated for its ability to lessen COVID-19 symptoms, not reduce the risk of infection, hospitalization or death
- › While some COVID-19 vaccines have been granted emergency use authorization, they still haven’t even completed Stage 3 clinical trials. Data for some end points won’t even be collected until 24 months after injection. As such, they are still entirely experimental
- › COVID-19 vaccines’ adverse side effects are still relatively unknown. It’s also unknown whether they might affect fertility — a real concern since the vaccine triggers your body to produce antibodies against the SARS-CoV-2 spike protein, and spike proteins in turn contain syncytin-homologous proteins that are essential for the formation of placenta. If a woman’s immune system starts reacting against syncytin-1, then there is a possibility she could become infertile

- > Pfizer's mRNA vaccine contains polyethylene glycol (PEG), and studies have shown 70% of people develop antibodies against this substance. This suggests PEG may trigger fatal allergic reactions in many who receive the vaccine

In his December 24, 2020, video report,<sup>1,2</sup> "The Future of Vaccines," investigative journalist James Corbett reviews how the novel COVID-19 vaccine is paving the way for nonconsensual medical experimentation on the general public.

As noted by Corbett, if the international medical establishment get their way, nothing will get back to "normal" until world health officials have definitively determined there is an effective COVID vaccine in place.

Even then, however, things may not go back to the normal we're accustomed to or expect. Since the beginning of the pandemic, world leaders have warned that **social distancing, mask wearing, travel restrictions** and other measures will become part of our "new normal."<sup>3</sup>

Be that as it may, the refrain we keep hearing from the likes of Bill Gates, Dr. Anthony Fauci and a long list of other world leaders is that any sense of normalcy will remain elusive until or unless the entire **global population gets vaccinated against SARS-CoV-2**.

## **Brave New World of Vaccines**

"The public is being prepared for an unprecedented global vaccination campaign," Corbett says. However, one major problem with this is that the current COVID-19 vaccines are still in the experimental stage. While they've been granted emergency use authorization, they still haven't completed Stage 3 clinical trials. Data for some

end points won't even be collected until 24 months after injection.

Another problem is that the COVID vaccines' adverse side effects are still relatively unknown due to the "fanatical" **warp speed** at which they were developed.

Even if there is only one serious event per 1,000 people, cumulatively that would equate to 100,000 people being harmed by the vaccine for every 100 million vaccinated – a steep price for an infection that has an overall noninstitutionalized infection fatality rate of just 0.26%.<sup>4</sup> Among those under the age of 40, the infection fatality rate is a mere 0.01%, which is lower than that for seasonal influenza.<sup>5</sup>

A third issue that Corbett homes in on in his report is the fact that the COVID-19 vaccines are "unlike any vaccines that have ever been used on the human population before," and "as radically different as these vaccines appear, they represent only the very beginning of a complete transformation of vaccine technology that is currently taking place in research labs across the planet."<sup>6</sup>

**“ The threat of forcing or compelling people to become unwilling guinea pigs in an ongoing medical experiment is immoral on its face. But even the prospect of enforcing such mandates would entail the erection of a surveillance and tracking system that further threatens basic rights and liberties. After all, in order to determine who has been vaccinated ... there will need to be a system for identifying and tracking each vaccine recipient. ~**

James Corbett”

## Are COVID-19 Vaccines Really as Effective as Advertised?

On an important side note, while Pfizer's and Moderna's vaccines have reported very high success rates, their "success" is only measured by their ability to lessen moderate to severe COVID-19 symptoms such as cough and headache. Presumably, this would lower the risk of hospitalization and death for vaccinated individuals.

However, as explained in "[How COVID-19 Vaccine Trials Are Rigged](#)," the vaccines were not evaluated for their ability to actually prevent infection and transmission of the virus. So, since the vaccine cannot reduce infection, hospitalizations or deaths, it cannot create vaccine-acquired herd immunity and end the pandemic, even though this has been the vaccine's primary selling point. Furthermore, as noted by Corbett:<sup>7</sup>

*"The studies are touted as involving tens of thousands of people, but in Pfizer's trial, only 170 of them were reported as being 'diagnosed with COVID-19' during the trial. Of those, 162 were in the placebo group and eight were in the vaccine group.*

*From this, it is inferred that the vaccine prevented 154/162 people from developing the disease, or '95%.' But as even the British Medical Journal points out,<sup>8</sup> 'a relative risk reduction is being reported, not absolute risk reduction, which appears to be less than 1%.'"*

## COVID-19 Ushers in a Whole New Breed of Vaccines

Getting back to the main point of the Corbett report, the COVID-19 vaccines under development are unlike any other vaccine ever released. They're mRNA vaccines, and

do not work like conventional vaccines. In summary, RNA are molecules that encode certain proteins. The RNA used in COVID-19 vaccines encode for the SARS-CoV-2 spike protein.

The idea is that by injecting this RNA, your own cells will start to produce and secrete the SARS-CoV-2 spike protein. Your immune system will then respond to the presence of that viral protein by producing antibodies. It's important to realize that this technology is entirely unproven, and there's no telling how this RNA programming might affect your health in years to come. As explained by Corbett:<sup>9</sup>

*"The term 'vaccination' ... came to refer to the general process of introducing immunogens or attenuated infectious agents into the body in order to stimulate the immune system to fight infections. But this is not how mRNA vaccines function.*

*In contrast to vaccination, which involves introducing an immunogen into the body, mRNA vaccines seek to introduce messenger RNA into the body in order to 'trick' that body's cells into producing immunogens, which then stimulate an immune response ...*

*Despite the straw man argument that opposition to the vaccine comes solely from ignorant members of the public who are worried about being 'injected with microchips,' there are genuine concerns about the long-term safety of these vaccines coming from within the scientific community, and even from whistleblowers from within the ranks of the Big Pharma manufacturers themselves."*

December 1, 2020, two such whistleblowers – Dr. Wolfgang Wodarg, former chair of the Parliamentary Assembly of the Council of Europe Health Committee, and Dr. Michael Yeadon, former vice-president and chief scientific officer at Pfizer Global R&D

– filed a petition<sup>10</sup> calling on the European Medicine Agency to halt Phase 3 clinical trials of the Pfizer mRNA vaccine until they've been restructured to address critical safety concerns.

## Key Safety Concerns

The four key safety concerns specified in the petition<sup>11</sup> to the European Medicine Agency are:

1. The potential for formation of non-neutralizing antibodies that can trigger an exaggerated immune reaction (referred to as paradoxical immune enhancement or antibody-dependent immune amplification) when the individual is exposed to the real "wild" virus post-vaccination.

Antibody-dependent amplification has been repeatedly demonstrated in coronavirus vaccine trials on animals.<sup>12</sup> While the animals initially tolerated the vaccine well and had robust immune responses, they later became severely ill or died when infected with the wild virus. Put plainly, the vaccine increased their susceptibility to the virus and made them more likely to die from the infection.

2. Pfizer's mRNA vaccine contains polyethylene glycol (PEG), and studies have shown 70% of people develop antibodies against this substance. This suggests PEG may trigger fatal allergic reactions in many who receive the vaccine.

Indeed, within days of the vaccine's release, reports started coming in of people having life-threatening anaphylactic reactions,<sup>13</sup> leading to warnings that people with known allergies should not take the Pfizer vaccine.<sup>14</sup> Since then, anaphylactic reactions have been reported by recipients of the Moderna mRNA vaccine as well.<sup>15</sup>

3. The mRNA vaccine triggers your body to produce antibodies against the SARS-CoV-2 spike protein, and spike proteins in turn contain syncytin-homologous proteins that are essential for the formation of placenta. If a woman's immune system starts reacting against syncytin-1, then there is the possibility she could become infertile.

This is an issue that none of the vaccine studies is looking at specifically. Mass vaccinating women of childbearing age against COVID-19 could potentially have the devastating consequence of causing mass infertility if the vaccine triggers an immune reaction against syncytin-1. The petition states that this possibility must be "absolutely ruled out" before mass vaccination takes place.

4. The studies are far too brief in duration to allow a realistic estimation of side effects. Depending on what those effects end up being, millions of people may be exposed to unacceptable risk in return for a very minor benefit.

In an interview — a snippet of which is featured in the Corbett Report — Del Bigtree asked Wodarg how we can ensure we don't end up making the greatest scientific error in history with this vaccine campaign. Wodarg answered:<sup>16</sup>

*"Protect yourself and protect your neighbors and friends so that they don't get this vaccine ... And you have to show up. You have to tell the politicians that you will blame them for what they do with this. I think what's happening ... is a great betrayal. We are betrayed. And people who betray normally are punished, and we won't forget this if they go on doing this with us."*

## **Health Freedom Undermined in the Name of 'Emergency'**

As noted by Corbett, even more fundamental than any particular safety concern is the fact that a vaccination campaign of this magnitude, using an entirely novel

**technology, sets "the most dangerous public health precedent in the history of humanity." By drumming up unnecessary panic, many are now willing to forgo all manner of freedom in the name of responding to a global health emergency.**

*"One of these core freedoms is the ability to refuse an experimental medical procedure, a freedom that was acknowledged in the Nuremberg Code of 1947<sup>17</sup> and enshrined in the International Covenant on Civil and Political Rights, which states that 'no one shall be subjected without his free consent to medical or scientific experimentation,'" Corbett says.<sup>18</sup>*

*"Despite the fact that the clinical trials surrounding these experimental vaccines are ongoing and that the FDA itself admits<sup>19</sup> that there is 'currently insufficient data to make conclusions about the safety of the vaccine in subpopulations such as children less than 16 years of age, pregnant and lactating individuals, and immunocompromised individuals' and 'risk of vaccine-enhanced disease over time, potentially associated with waning immunity, remains unknown,' governments around the world are contemplating making these vaccinations mandatory, or compelling people to take them against their will by restricting their access to public life until they subject themselves to this medical experimentation.*

*The threat of forcing or compelling people to become unwilling guinea pigs in an ongoing medical experiment is immoral on its face. But even the prospect of enforcing such mandates would entail the erection of a surveillance and tracking system that further threatens basic rights and liberties.*

*After all, in order to determine who has been vaccinated – and thus who is allowed to board an airplane or access a stadium or enter a store with a vaccine policy – there will need to be a system for identifying and tracking each vaccine recipient."*

Indeed, I've written several articles detailing how the tracking of vaccination status will usher in a **surveillance apparatus greater than anything we've ever experienced before**. This initial vaccine surveillance system will ultimately be tied into other digital systems, such as all other medical records, biometric ID and an all-digital banking system.

The implementation of a **Google-based social credit system**, similar to that implemented in China in 2018, is highly likely as well. Under a social credit system, points are awarded or subtracted for certain types of behavior. When your score falls below a certain point, punishment is meted out in the form of travel restrictions or the inability to obtain a loan, for example.

*"There are already apps like IBM's Digital Health Pass and CLEAR's Health Pass that envision a world where our biometric ID will be linked via our smartphones to our health data in order to grant or deny access from public spaces and public events," Corbett says.*

*"Once the COVID vaccines are widely distributed, it would simply be a question of linking one's vaccination record to the health pass app to prevent the unvaccinated from accessing any given space ...*

*The COVID vaccine presents governments, intelligence agencies and corporations that have a direct interest in suppressing dissent, monitoring dissidents and controlling their populations with the perfect opportunity to make such systems a permanent fixture of daily life.*

*After the immediate 'threat' of the declared public health crisis subsides, the public is already being warned that these apps will be transitioned seamlessly into general monitoring of the population."*

The precedent being set up right now is one that, in the future, will grant health authorities the "right" to force any number of experimental drugs, vaccines and technologies upon us in the name of public health. If the right to refuse an experimental medical procedure is not upheld now, the entire population of the earth will be available for experimentation without recourse.

## **Novel Medical Technologies Under Development**

While COVID-19 vaccines do not contain tracking-enabled microchips, we are indeed looking at a future where quantum dot tags and hydrogel biosensors will likely be used in vaccine delivery, and they will allow far more than just identifying or tracking your vaccination status.

They'll be able to collect and transmit all sorts of information about what's going on in your body. The ramifications of handing all of this biological data over to some artificial intelligence-driven machine run by a technocratic elite hell-bent on owning all the world's resources is anyone's guess.

Already, there's a study underway to evaluate how an implantable biosensor, which continuously monitors your body chemistry, can be used as an early warning system for disease outbreaks, biological attacks and pandemics by sending a signal when it detects the onset of an infection. Other medical technologies under development include:

- **Edible vaccines**
- **Remote-controlled vaccine delivery systems** — For example, a hydrogel mesh sphere containing a vaccine can be injected under the skin, and when you swallow a particular substance that dissolves the hydrogel, the vaccine is released. Proof of concept for this was demonstrated in 2014

- **Autonomous DNA nanorobots that can carry molecular payloads into your cells**
- **Shape-changing microdevices called "theragrippers" that, when placed into your gastrointestinal tract, extend drug delivery**

As noted by Corbett:

*"Nanobots. Shape-changing bioelectronic devices. Remote-controlled vaccines. This is not the stuff of science fiction but of science fact, and the precedent that is being set during the COVID era to rush experimental and unproven medical technologies into use on the back of a declared crisis is the same precedent that could be used to foist these injectable technologies on the public in the future ...*

*These injectables are part of an elaborate system of biological, economic, and political control that is being bankrolled into existence by powerful special interests."*

## **Indisputable Facts**

While the **technocratic elite** behind the **Great Reset** insist there's nothing nefarious about any of these experimental technologies, mRNA vaccines included, the fact that they will lead us into a future that a vast majority of people would never choose, given the chance, seems inevitable. Corbett notes:<sup>20</sup>

*"Despite the protestations of those like Bill Gates who have a financial interest in these experimental vaccines, and the Big Pharma corporations that are selling these vaccines, and the governments that are being bribed<sup>21</sup> by the international public health cartel to purchase these vaccines and pressure their public to accept them, and the corporate media who relies on*

***these Big Pharma corporations for their advertising dollars, some facts about these novel coronavirus vaccines are indisputable:***

- ***They are the most rushed vaccines ever developed.***
- ***The manufacturers have been given total immunity from liability if their experimental vaccines cause injury.<sup>22</sup>***
- ***The clinical trials testing the safety of these injections are not finished, meaning that every member of the public who takes one is now a human guinea pig in an ongoing medical experiment with the population of the planet.***
- ***The Pfizer and Moderna mRNA vaccines are themselves part of an experimental class of injection that has never before been given to the public;***
- ***These vaccines have not been tested for their ability to prevent infection or spread of SARS-CoV-2 and are not intended to do so.***
- ***And there is absolutely no long-term data about these vaccines to determine what their effects may be on fertility, the potential for pathogenic priming,<sup>23</sup> or any other serious adverse reaction.***

***That this represents the most reckless and brazen experiment in the history of the world is undeniable on its face. Never before have billions of people been pressured to submit to a completely experimental, invasive medical procedure on the basis of a disease with a greater than 99% survival rate ...***

***Surely those who wish to be the test subjects in this ongoing experiment should be free to make themselves into guinea pigs for the Big Pharma manufacturers.***

***But every mandate or compulsion to force the vaccine on an unwilling recipient sets a dangerous precedent, a precedent that will one day lead to a tracked and surveilled population unable to resist the next generation of injectable bioelectronics.***

***This is not a game, this is not a test. Billions of people are being asked to participate in a gigantic experiment, not just an experiment in medical technology, but an experiment in compliance and blind trust.***

***The pressure to say yes and to go along with the crowd in this experiment is enormous. But if we lose the freedom to say "no" to this, then we may lose control over our bodily autonomy – and, ultimately, our humanity – forever."***

## **Almond**

An attempt has been made to con us into believing that this is "a new kind of vaccine". In no sense is it even a vaccine. It does not prevent infection. It has not even been thoroughly tested, so it is premature to make any significant claims about it. It is merely a technology interface.

Posted On 01/12/2021

---

## **stanleybecker**

Almond ~ it is NOT harmless ~ this is made clear by Wakefield and Cahill and Mikovits ~ are you saying they are ignorant??

Posted On 01/12/2021

---

## Almond

No, Stanley, I am saying we there has been an attempt to mislead us if not outright lie to us about the safety and alleged benefits. IMO, the claims cannot be verified until we watch this for at least 10 years. However, early indications are not favorable. <=That is an understatement. There are some things you can deduce even with armchair logic. My solution would be to optimize serum vitamin D levels for everyone. There would be broad health benefits from that, not only protection from respiratory infections. Nosodes would be a reasonable therapy to pursue, too. There are so many different approaches that there is no rational reason to insist a vaccine is the only option. I could continue a harangue about govt needing to dominate our decisions and not recognizing that many of us would prefer solutions that rely on our individual responsibility, but I have spent enough time on my soapbox for one evening.

Posted On 01/12/2021

---

## ChrisColes

Stanley, I think you have misinterpreted Almond, my take is that she was highlighting the con, rather than trying to make out it is harmless.

Posted On 01/12/2021

---

## stanleybecker

Chris ~ what the scientists I list are saying is that once you put the RNA into the genome you have no way of rectifying the transcription of a pathogen that the RNA will now force your code to integrate ~ in essence you are transforming your genome into a pathogenic factory

Posted On 01/12/2021

---

## balhawk

Right, Almond. More properly stated, it is a programmed auto-immune condition. Now what could possibly go wrong with that?

Posted On 01/12/2021

---

## axkershaw

I am with you Almond. I feel you have not delved deep enough to find the root of the problem. Government is not the problem as Reagan claimed. Corporations are the problem. Government is necessary in civilization, but it needs to be government of, for and by the people. Even Lincoln warned of the the power of corporations in his time even before they had extralegally acquired the legal protection of the Constitution as persons. We now have government of, for and by the corporations. A government that defends corporations from the people. That is not to say that people cannot still take back their government or influence corporations. In order to do that well the people need to be better informed. Unfortunately the people are propagandized into eating junk food, believing junk economics, junk science and junk politics. Fortunately healthy food, science, economics and politics are still available but we the people need to diligently look for it. You are leading by example in your life. I support you and cheer you on.

## mirandola

"Ladies and gentlemen, fasten your seatbelts please, this is the computer speaking. Our newest technology has the airplane flying by computer! And we are so proud of how well this technology works, that this is to assure you that nothing can go wrong....go wrong....go wrong....go wrong....." (repeat) the powers that be have NO BUSINESS forking out this "new kind of vaccine" prematurely, as Almond says so well (Thank you Almond) and without as you say Almond, ten years of testing,

as a greater population-wide experiment. Then they go terrorizing the globe into taking it! Shame on them! Further, I think BigPharma knows a thing or two about autoimmune attack and how to induce it. Dear Reader, do you? I think they know just what they are doing, and so does Fauci, so does the WHO and the CDC, the FDA....they all need to be jailed!

## Almond

Hey, axker... I am not perfect. I still like my chocolate. It is not always organic, although I try hard and prefer dark chocolate. ; - ) I was just thinking about our diet. I can improve and simplify. I am sure each of us can, but have not yet needed to. Supper last night was a soup made from a few cans I opened (venison bone broth and canned venison stew meat) with homemade miso from

cooked beans, the water I soaked dried mushrooms in to rehydrate them, veggies from cold storage (carrot, onion), store bought celery and a generous amount of home-brewed wine. I picked a few dark greens that are surviving the winter to combine for a chopped salad with cold storage red cabbage, carrot, onion, etc. dessert was some applesauce I thawed from an organic tree I gleaned. Our beverage was white grape juice from our own grapes.

I could have gotten by without the celery as I have homegrown bay leaf and a few herbs. I still need sugar for brewing. Etc. However, these would not be major issues in a SHTF scenario. I hear people saying--"We have snow and no salad from the garden". It is an unusually warm winter for us. Some years, I plant in fall and cover seedlings with a layer of straw to protect from snow and uncover a couple months later as needed. Soon, I will move on to shredded carrot salads, sowrkrowt salads, fruit/berry salads, bean salads, sprouts and, maybe, microgreens grown indoors. There are already weed salads and more in spring.

I think there many reasons for all of us to do more of our own labor and return to basics. Be more resourceful, less wasteful. We can not only be more self-reliant, but limit our dependency, reduce our need for technology, keep more of what we earn and not enrich corporations and govt to use our dollars against us, to teach our children. We also improve our health thru the quality of food we eat. A full pantry is food security in uncertain times. A human mind filled with knowledge and a heart filled with virtue are powerful.

## Almond

Mirandola... Who benefits if something goes wrong with the vaccine? The pharmaceutical companies will have no liability. However, if you are injured, they can sell you expensive drugs. Of course, the goal will be to keep you alive as long as you are a profit unit. Under a universal medicine system, they may even be reimbursed by govt with your own taxpayer dollars. One more scheme to defraud people? Can anyone see what is wrong with this picture? Where in your own life do you have absolutely no accountability?

Posted On 01/12/2021

---

## **Almond**

realrose... You provided an excellent link below. It is short. I encourage people to watch it.

Posted On 01/12/2021

---

## **axkershaw**

As you wrote: "Who benefits? " is a question that is not asked enough. When the person or corporate representative benefits, whatever they say is questionable and probably self-interested and not true.

Posted On 01/12/2021

---

## **mirandola**

Almond, what you say is absolutely true! But I have read books about case law, in which lawyers found ways to get around the legal immunity invocation. For example, is it their distinctive function to terrorize society and to cause side effects, even death, and to sweep death statistics under the rug? Are these the people alleged to protect society? There must be ways around this so called legal immunity, which is in itself, nothing more than a gag order prohibiting free speech about true cases gone wrong and the protection from it. This is, to repeat, violence. I will not stand for this dynamic, not on my dime!

Here's what we do know: Dr. Mike Yeadon said in one of his Dec or Nov interviews, that no corona virus has a second wave, ever. We have no idea what we are seeing now...nothing is clear, a lot of details is hidden behind out-of-tolerance pcr testing with too high amplification cycle counts. Nobody testing for flu or upper respiratory due to concerns over covid, yet these did not fly over the coop this fall. Healthcare is being played to a large extent, which is why about 50% of heath care workers declined the shot in California...concerned about lack of safety testing, and being disabled or injured.

### **Darzoum**

The future of vaccines is tied-in with the future of existential threats: both can be manufactured. Vaccine makers hoping to experiment on the public cannot practice their dark craft without a perceived threat. For this, magnification plays a key role: the PCR test magnifies viral DNA matter and case numbers, while the media magnifies the threat with nonstop hype and fear mongering. It's a potent combination... even a formula.

What emerges from this formula is the concept of "biosecurity," so defined to achieve new levels of compliance and control from the populous. Is the same magnification formula at play as the concept

of “domestic terrorism” comes into greater relief after the events of January 6th? The two are not unrelated. At this point, how long before vaccine critics and the non-compliant are charged as “domestic terrorists” endangering the biosecurity of the state?

Those who have observed the revolving door between pharma and legislatures for years should not be overly surprised at the corruptions surrounding the “pandemic” response. The pharmaceutical lobby is the largest in Washington; how many of that city’s legislators are owned by pharma? How many are really doing the people’s business? How many think they can serve two masters?

Therefore, the values of our democratic republic cannot really be threatened by invading the Capitol Building; they barely exist there. It is an impressive edifice, but absent sincere, dedicated legislators, it is a garish pretense; a tent in the parking lot somewhere would surpass it in majesty were it to house just and honorable citizens. The magnification machinery of the media and political partisanship cries “insurrection” at its breach, but where has their indignation been when that same building has been defiled by duplicitous alliances with pharma? The future for vaccines is bright... for our basic human rights to opt out of them, not so much.

### Tionico

THEY do indeed percieve the faux virus as a threat. In their maniacal panic response to that "threat" they become a threat.. to me and everyone ese, except them. Fried of mine is a nurse ina large hospital in a major city. SHE tells me that a significant number of her co-workers are not stepping forward with their bare upper arms protruding to receive the needle. She ALSO tells me that fully one fourth of the beds in her hospital are filled.. wit HOMELESS who came in for one thing or another, but nice they do not have a "safe place" to which to return, they, by government policy inflicted upon them, cannot release them. Thus the taxpayers are forced to support their overextended hospital stays,,,

indefinitely.... and are both ignorant and powerless to DO anything about it. One could easily be confused, and end up thinking he is now been transported to some soviet backwater former nation to serve as a serf to the gummit. NOT what we signed up for. Our forbears told the Kind King to take a hike, and bring all his men home with him, and then drive him and his men off our shores. But they had two things we seem to be lacking... one is the courage to pay any price for they and their families. and fellows to live their lives unfettered by that tyrant king.

### Cabochon

"... the revolving door between pharma and legislatures" - exactly. Darzoum. This is the nub of the whole campaign from start to finish - a non existent pandemic, economic blitzkrieg, population control and now enforced identity tracking under the guise of "vaccination". The process of indoctrination has been spectacularly successful. Even this Mercola article unconsciously elevates unelected, self-appointed eugenists and technocrats to a political status they have not

been appointed to by democratic means: “ ... Bill Gates, Dr Anthony Fauci and a long list of other world leaders” - since when are these individuals “world leaders” ? When were they appointed as senators or members of parliament in the democratic process? I asked this rhetorical question in March 2020.

Posted On 01/12/2021

---

## stanleybecker

Cabochon ~ you refer to the "democratic process" ~ there is no "democratic process" as the USA has decided that democracy is for the birds and all elections are noe OPENLY rigged

## Randyfast

Hi, David. "At this point, how long before vaccine critics and the non-compliant are charged as "domestic terrorists" endangering the biosecurity of the state? Not very long; I expect! Anyone who "disagrees" with the "Official Narrative", will be deemed a "Domestic Terrorist". "Vaccine Hesitancy" is already labeling such people as a threat to national security! 2021 will be known as the year that everything changed. Civilization is being torn down and rebuilt to take us into "The Great Reset". There will be many "unwelcome surprises" this year!

## mirandola

Cabochon, I am with you! I asked the same question when Dr Mercola wrote that he had been accused of being "an enemy of the state" by the misnamed Digital Anti- Hate Group, because he has concerns about the safety of vaccines!

[articles.mercola.com/sites/articles/archive/2021/01/08/ccdh-dr-mercola..](https://articles.mercola.com/sites/articles/archive/2021/01/08/ccdh-dr-mercola..) Now, since when are vaccines and their makers, The State? That's first and foremost. Talk about a Government Of/By/For the Corporations!!!! Second question, since when is a person an enemy if they have safety concerns? Third and not least of all, isn't someone who attacks another source due to safety concerns, themselves an enemy? My god, I know I parrot this, but here we go again: Shadow projections are just absolutely, stunningly accurate!! Whew. We need to remember that, look for that dynamic, and throw the mud back in their faces, where it really belongs!! Whew, again.

Randyfast, the ACLU has written that to invoke "national security" and similar matters to avoid public embarrassment, is prohibited under FOIA law. That means, if someone files a FOIA and "national security" or "public safety" are invoked as a reason to withhold the FOIA, this is a violation of the law. So what about using such phrases to demean others who may have something ugly to reveal about the vaccines? I would imagine the law is similar and crosses over into that territory too? Note my question mark. Surely we can sue for character defamation, and we should! In fact, to stop this dynamic, perhaps we must!

## Cabocho

Mirandola, look no further than Orwell for "enemies of the state". To the Na-zis it was Jews and others. Today it is thought criminals - anyone who challenges the official narrative. 'Truth' is as per The Ministry of... In other words, what your friendly totalitarian government decides is the truth. You are missing my point, Stanley, which is that even fairly elected governments, as in last UK parliamentary election, are allowing unelected individuals to dictate government policy through pressure, bribery or membership of elitist organisations. It would have made no difference if the UK had elected a different party in the last election.

The opposition party leader Keir Starmer, for example is a listed member of the Trilateral Commission. No Western government other than Sweden appears to have told the rest of the conspirators where to shove their lockdowns and other fraudulent compliance-priming mandates. It remains to be seen how that country approaches the pseudo-vaccination scam. In short, I agree, Stan, that democracy is dead, the only point worth discussing being exactly when it died.

A fairy tale for our time: when then big bad wolf influenza dressed up in his fancy new clothes, little Red Riding Hood said: "So many people dead, sir, I'm so afraid!" "You'd better hide in your house then, cover your face and not go out" said the wolf. "But I hid in my house, sir and covered my face, and didn't go out and now you say even more people are dead! I'm so afraid!" "Then I'll bite your arm and put in some wolf-wort to keep you safe, so you won't be afraid," said the wolf. "But I don't know this medicine, sir. Will it keep me safe? I'm still afraid!" ..... Does the woodcutter come in time to save Little Red Riding Hood? How will the fairy tale end?

## shannonaz

Darzoum: I agree that currently, the future for vaccines is bright, but that is ONLY contingent of the scam not being uncovered. I am convinced there will be a breaking point when the numbers tilt whereby there are so many vaccine injured that it will be hard to deny. Unfortunately, because long term affects & auto-immune diseases cannot be definitively linked, it may be years before things turn. Surprisingly, what gives me hope are these groups of citizens: Military & Nurses / Hospital Staff / Families with Autism & Vaccine injured / Upper Class:

- 1) I hear from many in the military that their health immediately deteriorated directly after the numerous vaccines the Military puts them through. They might be a more silent group, but many are coming back from their tours understanding this connection & are avoiding vaccines.
- 2) Nurses / Hospital Staff: roughly half have refused to take the Covid Vaccine.
- 3) Families with Autism / Vaccine Injured: Whether by default or just simply in the know, with the high rate of Autism, many families are reading & educating themselves & are making the connection with poor outcome of vaccines. These folks won't go down without a fight if a mandate comes into play as they already know the consequences.
- 4) Lastly, the upper class. As the stats say, those with the most education & money are the least likely to vaccinate. These folks have the funds & lawyers at their disposal if it comes to that & the means to organize resistance / protests.

For these reasons, I have a little optimism left that mandated vaccines can be detoured when push comes to shove. Big Pharma I believe are testing the waters now, but even they must realize there is a limit. Unfortunately, I fear vaccines may become like GMO & non-organic food: Only those in the know & with money can opt out. This will be the great travesty of our times.

Satanists don't care about human rights or humanity, these people kidnap and traffic children for blood sacrifices, they'd have to be human to respect human rights...stop projecting your own humanity onto them thinking it will stick, they know exactly what this scamdemic is for, mass genocide, and they don't care, they'll use frozen sperm and eggs stolen from cold storage to repopulate the planet after erasing humanity and human wisdom by eliminating the knowledge passed down from human to human, book burning internet and print truth, and reprogramming the future population into a complete state of dependence and slavery. And then they'll \*\*\* up again and collapse civilization completely, being responsible for the extinction of humanity. That's the future they're driving off the cliff... now's not the time to recommend a driving course to these psychopaths, or expect them to use a turn signal while changing lanes to run over the last free human on earth...

## Jackaroni

I don't know what can be said that hasn't already been said. To be forced to receive an experimental vaccine that hasn't even be proven to actually prevent Covid, the seriousness of which has been totally over-blown, in order to work, travel, or attend school or public gatherings is nothing short of cruel and evil. And even if you receive the vaccine you will still need to wear masks and to social distance, both of which have been scientifically proven to be totally useless! Total madness.

Posted On 01/12/2021

---

## jamNjim

It's basically no different than a common cold. That's why children have little to no side effects (sniffles) when they catch it. If you lived inside a sterile bubble until you were 75 and someone let you out you would most likely die from the common cold or flu. That's basically what is happening here. This virus is so unique, even though it is a coronavirus, our bodies don't recognize it and we have an adverse reaction to it. So it's like being let out of a sterile bubble for the first time when you catch this virus. Again, virtually no one under 65 has anything to worry about.

Posted On 01/12/2021

---

## ChrisColes

My primary concern is very simple; these EXPERIMENTAL RNA vaccines are going to modify the DNA of every recipient of the vaccine. There has been no research about that. No public debate about the long term possibility of side effects. Of even greater importance, it is what is known as the first world that is receiving them; while the rest of the planet's populations are looking on because our governments can afford to pay for them. We may be about to witness the destruction of what one might describe as western civilisation.

Posted On 01/12/2021

---

### **stanleybecker**

Hi Chris ~ it has nothing to do with "first world economics" as in our bankrupt third world country the International Monetary Fund has pressured our eager politicians to accept a half billion Rand loan that will ultimately be paid out to Pharma ~ so Pharma and the banks are working together for a common goal of commercial aggrandizement for themselves

Posted On 01/12/2021

### **mirandola**

WELL SAID!!!! I will cross post this here because I think it is really important: The point being, that I think that BigPharma, the WHO, the CDC, FDA, Fauci et al, all know a thing or two about how to induce autoimmunity. Dear Reader, of Any Stripe or Color, On Any Side of the Street, Do You?

Posted On 01/12/2021

---

### **bahmi0**

Let's get one thing straight, Pilgrim. Should we have massive die-off of those who accepted the Covid "vaccine", it will not be what one would call an "accident". Friends, we are in mortal danger of getting

depopulated, this is no accident. Genocide is but one aspect of the Great Reset. Preparation for depopulation has already smashed the world economy and we have many governors proffering filthy lies as to why we should/must be vaccinated. 24 senior citizens were recently terminated at an Auburn, NY convalescent home thanks to a "mistake" engendering administration of a Warp Speeded vaccine. Does this make you want to have your institutionalized parents inoculated mach schnell?

## jamNjim

Here are my biggest concerns: 1) No animal testing has been done with these vaccines. 2) They have been attempting to make an mRNA vaccine for Sars-CoV-1 since 2005 with ZERO success. 3) All attempts to make a Sars-CoV-1 vaccine FAILED during phase 3 of the animal trials. The animals had a robust immune response (lots of antibodies) after receiving the vaccine and when they were exposed to the real virus, they all died. 4) Sars-CoV-2 (Covid-19) is a mutation of Sars-CoV-1. If they couldn't make a successful vaccine for #1 then how were they able to pull one off for #2?? That makes absolutely no sense. 5) There's already a major mutation of this virus in S. Africa that they fear the current vaccine will not work on. So, what's the point in getting vaccinated? 6) Mass vaccine campaigns may produce more mutated versions of this virus that are even more deadly. So, if I'm forced to get vaccinated, I will wait for an attenuated or inactivated version of the vaccine to come out. I will NOT get an mRNA vaccine! The immediate side effects of attenuated/inactivated vaccines are less risky and there are few to no long-term side effects.

Posted On 01/12/2021

---

## Kevin131

They make bioweapons, the newest version contains nano particles that assemble into a micro antenna in the spleen, and are tracked and interfaced by 5G systems, which can be used as a targeting system for the 5G directed energy weapons systems, causing autoimmune triggering, blood mutations, clotting, asphyxiation, and death, remotely...hence the BLM moniker, 'I can't breathe', is telecasting what they're plan really is...vaccinating a remote operated kill switch into every human they can, for control and eugenics. It's not enough to 'fire seven thousand employees', when they fire you, they want you dead immediately, that's what this whole thing is to effect... A solar flare could trigger a mass die off by accident, there are no save guards to this tech control, and they don't fucking care, why would they, they want to force this Dune heart plug on everyone...

## harvelicious

The entire fear-mongering medical crisis' and subsequent "lock-downs" & "vaccines", as well as, other fear-mongering agendas such as 'wars', 'terrorism', 'climate change', 'mass migration', 'racism', 'white supremacy', 'feminism', 'equality', et al, are nothing more than colossal brainwashing scams of epic proportions perpetrated by the "power class" & their operatives that is merely a cover for the actual fascistic technocratic transhumanism agenda. It certainly appears that cognitive dissonance & 'Stockholm Syndrome' dominate the public domain. Critical thinking (analysis), common sense & morality have been pushed into the dust bin of human discourse. The scourge of "RELATIVISM" & the deadly virus of "being right" has engulfed & overtaken Western Society. To prove this point, we only have to go as far as these current 'plandemic' verifiable facts:

1) an isolated and purified SARS-CoV-2 sample DOES NOT EXIST anywhere! - based on scientific/medical gold standard protocols & ethics. BUT, there are, at least, 76,047 SARS-CoV-2 genome sequences in the official scientific/medical GenBank & GISAID genetic databases, including patented genomes. Many alleged virus genetic sequences, including Covid are computer generated simulations!

2) all the 'testing' & 'vaccines' are frauds if no pathogen is isolated or purified! A provable test must be "QUANTITATIVE", but, not one is. They are all 'qualitative' meaning theoretical. The tests are designed to suit the agenda. "Positives" are actually "false positive" because it tests positive for human chromosome 8, which, is one of the test primers. 3) Understand medical terminology - "CASES" are not to include asymptomatic subjects, for which, make up, at least, 85% + of the "cases". Also, re-designation of 'cause of death' is fraudulent! 4) Massive censorship of facts & counter-narrative

voices. 5) All media sounding like 'parrots', no verifiable sources, no questioning Remember that science can only verify what already exists!

## **stanleybecker**

"how to avoid toxic effects of the Covid vaccine?" ~ yes, Bernadette AVOID this injection like the PLAGUE

Posted On 01/11/2021

---

## **Almond**

If you feel you cannot avoid being vaccinated, first see a homeopathic physician who is experienced with diseases, nosodes and neutralizing toxins energetically. The problem may be getting a timely appointment scheduled and even finding such a person nowadays As for the following information, those who are knowledgeable will understand what I am trying to communicate. I know there is a computer generated mathematical formula that can be used to duplicate most prescription drugs energetically using a properly constructed Rife-bare machine. What can be done can prob also be reversed. The formula is generated on computer because it would take a brilliant person 3 days, or so, to work thru it with pencil and paper, and this is assuming no errors were made.

Synthetic drugs are simple to duplicate because they usually have a standard chemical formula. The chemistry of the vaccine is much more complex and I would not know how to begin to create a formula to neutralize it. My concern is for any kind of chip, tattoo or tracking/surveillance device. This does not seem to be part of the vaccine at this time. If that happens. there are ways to neutralize the transmission of data electronically. The penetration is not deep, and you would NOT want it in the thin tissue of your body such as a wrist where blood vessels are near the surface. If closer to fatty cells, it would be a simple matter to use a simple traditional escharotic that is not overly painful to remove it.

Better to avoid the vaccine altogether. II Corinthians 6:14.

Posted On 01/12/2021

---

## **R6163164**

"I know there is a computer generated mathematical formula that can be used to duplicate most prescription drugs energetically using a properly constructed Rife-bare machine." Pseudoscientific nonsense. "Better to avoid the vaccine altogether" Strongly agreed.

## **balhawk**

Yeppers. Worst scam in history. Poison people, than make money from the treatment of the effects,

Posted On 01/13/2021

---

## **balhawk**

This is not even a vaccine, in the usual sense, but a programmed auto-immune response. What could possibly go wrong with that? Potentially causing infertility. Now ain't that a surprise, given the population reduction agenda of the technocratic elite?

There has been an alarming incidence of miscarriages among young people I know lately, which is evidently due to their over-vaccination from existing vaccines, which may not even have as great an effect on fertility as this one. I warn all my friends to avoid any vaccines while pregnant, however their docs may push the shots.

Posted On 01/12/2021

---

## **Islander**

In no way is it possible to blame miscarriages among young people on the Covid vaccine. One would have to have been pregnant for several weeks for a miscarriage to take place – and nowhere in the USA have young people yet even been eligible for the vaccine. In fact it may be six months or more before the vaccine becomes available to the general population.

Posted On 01/12/2021

---

### **stanleybecker**

Islander ~ miscarriages have many causes ~ if the protein synctin is attacked after RNA programming the organism will not be able to conceive and hold the child for all three semesters

Posted On 01/12/2021

---

### **Johman0**

Islander, I think balhawk is saying that the last 30 years of massively increasing scheduled vaccines for my children's generation is causing fertility problems already.

Posted On 01/12/2021

---

### **msellington**

YES not a vaccine .....it is called a vaccine ,only as a "legal description" to protect big pharma from liability ,they can not be sued for any damage , caused from damage /death from the "vaccine" ( a legal description)

Posted On 01/12/2021

---

### **ChrisColes**

Islander There are many people who are directly stating that the novelty of creating spikes on human cells within our bodies; matches the very same process that allows the placenta of a woman to attache to the embryo within the woman's womb. Americas Frontline Doctors have

suggested that that will cause a classic case of a failure to reach full term.

Posted On 01/12/2021

---

## mirandola

Islander, please read more about the mechanisms of autoimmune attack. Understanding the mechanism may lead you to a different conclusion.

[www.ei-resource.org/articles/chronic-fatigue-syndrome-articles/balance..](http://www.ei-resource.org/articles/chronic-fatigue-syndrome-articles/balance..) this is only one part of the immune system. Over-activating antibodies will lead to inflammation. This is known in medical circles.

Posted On 01/12/2021

---

## balhawk

I thought it was obvious enough I was referring to existing vaccines contributing to infertility; and this one having the potential to do so to an even greater degree hardly coming as a surprise. Just the same, it is DESIGNED to cause an auto-immune response, and it is the height of folly not to expect adverse consequences. As I've posted many times before, we've had stories like the tale of Dr. Frankenstein for ages, and the message is still not heeded.

Posted On 01/13/2021

## mirandola

ACLU: [www.aclu.org/news/privacy-technology/coronavirus-immunity-passports-ar..](http://www.aclu.org/news/privacy-technology/coronavirus-immunity-passports-ar..) "An immunity passport system is fundamentally different from a regime whereby employers routinely test workers for COVID-19 or screen for symptoms, to ensure that no one with active infection is entering a workplace. In the latter system, only contagious workers are prevented from going to work and only for

the period of time in which they are contagious. Every worker is subject to the same screening rules. But an immunity passport system would divide workers into two classes – the immune and the non-immune – and the latter might never be eligible for a given job short of contracting and surviving COVID-19 if an immune worker is available to take the slot.

"To start, the science does not yet justify the use of immunity passports or certificates. The World Health Organization has stated that we do not yet know the level of protection that COVID-19 antibodies (which show that someone was previously infected with the virus) provide against reinfection, nor do we know how long such protection might last. There are also ongoing questions about the accuracy of various COVID-19 antibody tests, with more than a dozen such tests currently on the market producing inaccurate or inconsistent results.

Even small error rates could make reliance on antibody tests unworkable, or dangerous for those workers who get a false positive for antibodies. Given the lack of scientific support for reliable immunity determinations, no significant policy decisions should currently be made on the basis of presumed immunity". Read more above We already have 50% of frontline medical care workers and firefighters refusing the vaccine

[www.forbes.com/sites/tommybeer/2021/01/02/large-numbers-of-health-care..](http://www.forbes.com/sites/tommybeer/2021/01/02/large-numbers-of-health-care..) My "Take" : I think there may be a push, but it is going to fall. The system will correct itself. My two cents

## mirandola

What people in general don't think about, is that lawmakers can NOT make any law they just conveniently wish. They do NOT have that authority under the law. We have to invoke the laws and hold them to it. ~"The states shall make no laws abridging the immunities and privileges of the citizens of the United States" 14th amendment. ~We have a legal Right to Refusal ~We have an Americans with Disabilities Act ~"The right of the people to be secure in their persons, houses, papers and effects, against unreasonable search and seizure, shall not be violated" 4th amendment. ~It is when we do NOT invoke the law that lawmakers and police run over us roughshod. Can it help us at all to NOT invoke the law? ~So called legal immunity for BigPharma is an unconstitutional gag order.

This has to be over-riden, in a court of law. It also violates the 14th amendment, more.....the lawBREAKERS can not make such laws! If BigPharma under their King George rules, is rendered legally immune, then prosecute the LawBREAKERS who penned such so called "immunity!" Whoever said we can't prosecute BigPharma even if technically,they can not be sued? Is it their distinctive function in society, to cause severe side effects, autoimmunity, anaphylaxis and even in some cases, death? Is it their title and function, to understate and brush such statistics aside? To invoke mass terror? Good lawyers will overcome the gags and will litigate. And we must!

~I am not an attorney. If you have legal questions, ask your attorney. ~I am not anti-vaccine, but am opposed to mandates, coercion, brainwashing and severe toxicity. I question the modalities of administering vaccines, is this low grade sepsis? I think people should , and must, be free to choose. That not only is democracy, it also is just plain medical commonsense. If people are told they have no right to choose and be free from side effects, and wherever side effects occur, this is violence and must be punished as such, in a court of law.

Posted On 01/12/2021

## Randyfast

Where the dumbed down masses see a "deadly pandemic"; I see utter insanity! I can assure you that this society will never be back to "normal". Normal is no more! "Are COVID-19 Vaccines Really as Effective as Advertised?". Yes; as far as sickness and death goes; they will be very effective! "while Pfizer's and Moderna's vaccines have reported very high success rates". Of course they're going to tell us that their vaccines are "safe and effective" and "successful". What else are they going to tell us! This is not about taking care of people's health and it never has been. It is about Money, Power and Control...always has been; always will be!

"millions of people may be exposed to unacceptable risk in return for a very minor benefit." What "benefit"? The only people who are "benefiting", are the one's pushing the vaccines and the one's who have investments in the vaccine industry! This is eugenics at the very least and I for one am 100% against this insanity! Healthy people don't need Big Pharma "pretending" to take care of their health - ever! The entire industry is an abomination to humanity! In the midst of all the hype and propaganda

concerning this "Deadly Virus", I can assure anyone who's reading this post that this virus (whatever it is), is absolutely no "threat" to them. I'm sure that I've repeated this, ad nauseum; if you've gone this long without "becoming sick with covid"; then it's only (un)common sense and rational to assume that you are not going to get sick from this virus that is allegedly "raging" across the planet! Enough of this HOAX!

Posted On 01/12/2021

---

**00**

The hospital workers tell me that the reason they are "overwhelmed" is because they laid off so many people to keep the virus down and then so many have been quarantined. They also agree with me that the virus is a head cold which gets stuck in your throat, either hack it up or die. Older people don't have the strength to hack it up, so they die. I had it, fever for 6 weeks (on and off), much hacking, coughing and sneezing. First sign is hic-cups for an hour or more.

## **jdarnall64**

Not good period.. vaccine created this fast is irresponsible and dangerous. It's definitely proving that out. This virus is not a death threat as many want us to believe. I have had three family members test positive but not got really sick or came close to dying. It is not a virus worthy of all these fear tactics. You keep your immune system healthy and you will never have to worry.

---

## **blarse1**

Don't be so afraid that you're going to die that you're afraid to live.

Posted On 01/12/2021

---

## **balhawk**

Like cat6071 and blarse1 said. This very site has plenty of recommendations on how to maximize one's chances to ward off or minimize the effects of cover, such as keeping up your vitamin D level,

improving glucose tolerance, and getting appropriate exercise. There are also very effective nutritional (e.g., megadose vitamin C) and oxidative (nebulized hydrogen peroxide) treatments that can greatly help speed recovery, especially if begun at the very first sign one may be getting ill. All the more reason to live one's life.

The covid shot has risks, too. The point is that everybody's potential risks are different. For some who do not have PEG antibodies the shot may be the roll of the dice that has better odds, but I think it's really too early to tell. The decision is up to the individual, as far as I'm concerned. What we want above all is the LIBERTY to make informed decisions, and what we get from government and the mainstream media is shilling, rather than balanced information. Somebody needs to say what they cover up. The purpose of this site is to inform people as best possible. Like the banner at the top says, take control of your health.

---

## wallguy

So polyethylene glycol is harmful to fido. Duh? But OK for bipeds? Hmmm? What purpose or function in a VAX?? Is it the sweetness? The very thing fido is attracted to? Maybe cool the hard steel needle as it's forced half an inch beyond the dermis protection layer Whereby inducted pressure of strange non-native liquid is expanding such like any pierce wound quickly reacts to? Even a street junkie knows the pain when they missed the artery! I recall as a child getting a full dose of real penicillin in the rectum region. Of course it hurt like heck They stopped that practice as a result of folks having horrible reactions. With no way of retrieving the fluid once deeply injected you were on your own and hospitalized. What i do recall is Dr. Kelsey writing a prescription for an ice cream cone at the Rexall Drug store below the doctor office. See how big Pharma grooms you for this! Ice cream if you are a good boy!

Posted On 01/13/2021

## grilly111

Thank you for your full in depth analysis. This takes a deep personal commitment to do good for people. It is the comparatively very few professional people such as yourself dear Dr Mercola who have a strong ethical courage to lead a huge majority of untrained but otherwise fully trusting people into a knowledge that much being sought to be done to them as a global population that is pure EVIL, and that we should NOT allow ourselves to be experimented upon, damaged, sterilized, poisoned, and ultimately killed-off. With 5G towers being run in the comparatively near future at very, very high maximum gigahertz of microwave intensity - at the whim of the controllers of these towers -

there is the real physical capacity, location by location, to 'fry' (overheat) fatally the brain stems of people resident in those areas whose bodies have been flooded by repeated 'vaccination' with microwave-radiation attenuating metal nano-particulates, in the name and under the cover of a falsely engineered pandemic. This is the ultimate evil depopulation plan of the Gates family eugenicists, backed-up financially by major MAJOR negative interests seeking to take-over the natural wealth and the infrastructure of the Earth. On a spiritual level there is even much MUCH more to this . .

Posted On 01/13/2021

## **Almond**

The email headline asks, "What is causing the severe covid reactions?" Maybe the correct question is to return to the source and ask, "Who caused covid--and is responsible for the reactions?" "Or, "Qui bono"--who is benefitting?" Keep in mind that for every action, there is an opposite and equal reaction. That is what we are seeing now... an elaborate plot to capture and convict the swamp creatures in a very precise series of attacks that are a race against time. A proper diagnosis is necessary for good treatment, so we need to focus as much on the cause as the outcome. Then, there should be an effort to prevent a recurrence in the future once we better understand what is going on.

This is not about health. Covid is merely a vehicle for the oligarchs to extend their tentacles into every aspect of our lives--education, travel, buying and selling, privacy, religion, freedom of assembly and association, 2A, health care decisions... In other words, to neutralize all your God-given rights under the constitution and bill of rights. If you are paying attention, you will notice that events are occurring very rapidly. There are news blackouts. This is not just poor journalism. Many articles are only a few sentences long and, after reading, you have no idea what they are about. You can observe the movement of troops, national guard and military equipment around the country. People have an intuitive sense of a siege and many store shelves are bare or understocked with a variety of goods. Supermarkets have held food back so long in warehouses to ration it and make sure there is something on shelves that stores are now selling produce with rotten spots and limiting meat purchases. The signs are all around you. Something is up and the pressure is building as events escalate. Stay safe and be prepared.

Posted On 01/12/2021

---

**anonymous123**

@ Almond You said, "Something is up" Yes, something very, very big is up. It's so big that nobody believes it when I tell them Only those who are aficionados of that particular 'conspiracy theory' have no problems Or the government minions who are actively suppressing any discussion on this. Are you prepared to be open minded? Really, really open minded It is the biggest secret of those who control this world The problem with trying to inform people is that this is information that has been very actively suppressed and totally ridiculed for the past 4 decades All these governments know, which is why they obey these orders to impose masks, lockdowns, social distancing etc These people have been promised a golden ticket to safety for themselves and their families provided they obey.

I can provide you with many links and articles to back up what I claim But it's so big, nobody believes this I've just had a nice guy said in his blog that this is tin foil hat stuff but he allowed my post to appear because he believes in freedom of speech I salute his graciousness but it's such a waste of my time and energy trying to warn people I'll skip the details and put it in a nutshell A multi-year period of extinction level events is about to start The top guys who are colluding to vaccinate us know about this The Deagle population forecast is a very realistic estimate The Georgia Guidestones 500 million is achievable, even without the help of vaccinations, nukes etc This is the truth I won't bother to tell you what it is because it puts everyone off ....

I am a blood type A non-secretor. My cells do not clear toxins easily. After having detoxed chemicals, metals, harmful microbes and a litany of trauma sites, I will defend my right to refuse the COVID vaccine that would debauch my hard won clean "house" with polyethylene glycol and a host of polluting excipients. I learned the key to optimal health and well being. The wisest strategy is to relieve the body's endogenous toxic load bio-accumulated since inception and the immune system is free and turbo charged to defend the body from new exogenous threats. At 67 yoa, I am transformed from debilitated by Systemic Candidiasis, heavy metal and chemical toxicity as well as PTSD into fiercely fit after following the guidance of the following master minds of health:

Joe Mercola, Peter D'Adamo, John Parks Trowbridge MD, Lawrence Badgely, Donna Gates, Balch + Balch, Dr Cass ([www.physicaenergetics.com](http://www.physicaenergetics.com)), the Queen of Co-Creative Collaboration with the Microbiome, micro and macro, Michelle Small Wright via flower essences, microbial balancing solutions, et al ([www.perelandra-ltd.com](http://www.perelandra-ltd.com)) and all the gurus and philosophers promoting the benefits of mindfulness meditation, yoga, body work, etc BTW, Mercola's BFRT has been the finishing touch in body sculpting for a blood type A that does not build muscle easily. Needed to know the BFRT trick and the tricks of the aforementioned in my adolescence and young adult years of angst about my weight, depression, auto immune disorder, and general dysbiosis. ## PoodleOwner

One of the most disturbing aspects of this mass vaccination program is that the propaganda lead up has been that people don't get immunity from having had and recovered from the virus. The MSM has sensationalized rare stories of people who allegedly (no proof) got Covid a second time. There is no doubt that there are individuals who have deficient immune systems but it really seemed like these rare cases were used to build mass fear. The second propaganda component was to promote the idea that the only way to get Herd Immunity is vaccination. The third propaganda strategy has been to always lump the 80 to 100 year olds death stats in with the rest of the population. In CA, 50% of deaths today are still from Long Term Care Facilities. That is a huge number. People in their 80's and beyond have reached the sunset time of their lifespan and certainly those elderly in LTCF are super frail. Their risks and death stats from Covid or anything else have nothing to do with the rest of the population. Has the government and media ever, in history, emphasized the death by flu of people in LTCF. I understand that there is a separate issue of hospital crowding with Covid that is really bad but that is an issue of using resources properly. The only fix for that is everyone has to hide inside? Were 90 year olds with DNRs in respiratory distress (any cause) routinely sent to the ICU prior to covid or are they only now overwhelming ICUs because of the contagiousness fear?

The last, major concern I want to mention is that the vaccine program aims to vaccinate everyone and the millions who have already had and recovered from this virus don't need a vaccine now. It may be

that they need a booster every few years but seriously, since vaccines are limited in supply and since some people don't want the vaccine, people who have already recovered should not be pressured into a vaccine. Health care workers, for example should be exempt from required vaccination if they already had co

Posted On 01/12/2021

---

## Jackaroni

I think it is interesting that the "experts" are even saying that the vaccine will offer a stronger immune response than naturally acquired immunity. There is ZERO evidence that this is true. Has never been true with any previous vaccine, and the current covid vaccines are too recent to have any track record. It is criminal to spread such lies!

## mirandola

ngfam, too many high ranking doctors are speaking out about the dangers of autoimmune attack from this vaccine. Please know, there are different parts of the immune system. The way they are tipped is what determines if for one person, cancer is the issue and for another, severe autoimmune attack. Even there it is not that simple. One can overbalance the immune system toward Th2 dominance, which leads to cancer due to deficient Th1. If the Th1 is excessive and Th2 recessive, you still can get autoimmune attack. Tipping the see saw with immunity, never works.

---

## beachguy

"not reduce the risk of infection" Is that really a fair statement? Does any vaccine reduce the risk of a viral infection? The purpose of the vaccine is to prime the production of antibodies, not to prevent or reduce the risk of infection. In other words, you can still become infected with the Sars-cov2 virus, but the vaccine will hopefully either prevent it from becoming full blown Covid-19 or at least reduce the severity. That's one reason they say for a time period, masks are still recommended. Until maximum immunity from the vaccines are reached, you can still get infected and be contagious. There is even the possibility that once vaccinated, you could become infected and for a couple of days be contagious.

Is the Oxford AstraZeneca vaccine the lesser evil (as it is not using mRNA)?

Posted On 01/12/2021

---

## e\_g5680

I am a Scandinavian woman living in Thailand, I'm in my early 70's and the last thing I want is any vaccination. However my family is living in Dubai, Sweden and the USA. If the airlines or the various countries mandate this vaccine in order to be allowed to fly, which of the vaccines would be less harmful to me? I am leaning towards the Astra Zeneca, since it is an old fashioned vaccine. I actually refuse all offers for vaccines, but if I cannot fly in the future I'll have no choice. BTW I have COPD. I would love to hear your educated replies.

Posted On 01/12/2021

---

## jamNjim

The Astra Zeneca would be my choice if I were forced to get vaccinated today. I think it has way fewer risks and it may (should) work as good (if not better) than the mRNA vaccines. Here's a link

to a nice explanation on how the Astra Zeneca vaccine works:

[www.nytimes.com/interactive/2020/health/oxford-astrazeneca-covid-19-va..](http://www.nytimes.com/interactive/2020/health/oxford-astrazeneca-covid-19-va..)

[www.theepochtimes.com/people-with-certain-allergies-shouldnt-get-covid..](http://www.theepochtimes.com/people-with-certain-allergies-shouldnt-get-covid..) "Our conditions for use, is what we call them, specifically states that, if you have an allergy to any component of the Pfizer/BioNTech vaccine, you should not receive it," Dr. Stephen Hahn, commissioner of the Food and Drug Administration (FDA), said on CNN's "State of the Union." "According to a fact sheet (pdf) from the FDA for healthcare providers, no one who has a known history of a severe allergic reaction, or anaphylaxis, to any component of the newly approved vaccine should get injected.

"The components are listed as follows: lipids (0.43 mg (4-hydroxybutyl)azanediyl)bis(hexane-6,1-diyl)bis(2-hexyldecanoate), polyethylene glycol, N,N-ditetradecylacetamide, 1,2-distearoyl-sn-glycero-3-phosphocholine, cholesterol, potassium chloride, sodium chloride, monobasic potassium phosphate, dibasic sodium phosphate dihydrate, and sucrose." Wikipedia says that polyethylene glycol is used to lubricate the pinheads in printers to protect them from ink, that PEG is used in rocket fuel, is made with petroleum, and can cause severe bloody diarrhea as side effect if swallowed, says WebMD. Yet, Wiki and WebMD both say that the FDA insists that PEG is safe, just ludicrously stating that it has a low toxicity profile.

\*\*\*\*Are these the people we are being mandated to trust? Follow the money!\*\*\*\* Add to this that there are a mix of chemicals, put them together and what have you got, bibbity bobbity boo? In fact, a study at UC Berkeley recently determined that interactive chemicals have far more noxious health impacts than one chemical alone. Takes brains to figure that out, doesn't it? Apparently in today's world and in the WHO, FDA, CDC, and in Congress.....

~I am not anti-vaccine, but am opposed to mandates, coercion, brainwashing and severe toxicity. I question the modalities of administering vaccines, is this low grade sepsis? I think people should , and must, be free to choose. That not only is democracy, it also is just plain medical commonsense. ~If people are told they have no right to choose and be free from side effects, and wherever side effects occur, this is violence and must be punished as such, in a court of law. ~I am not a doctor. If you have medical questions, ask your doctor. ~Be aware however, that doctors may be "educated" by pharmaceutical salesmen, such as my late father, who quit the field of pharmaceutical sales after finding out how severely faked the studies were/are. Doctors concerned about vaccines may be under pressure from the CDC and/or WHO. Be very aware as your doctor answers your questions, do your research, think critically and then, decide for yourself what you think or conclude.

## mirandola

Professor Dolores Cahill from Dublin, Ireland, is speaking out warning about severe autoimmune attack from the upcoming vaccines and of deaths thereafter, which may or may not be attributed to the vaccines due to delay in exposure to viruses thereafter. Yet the severe autoimmunity will not have existed until the vaccine was taken, she says.

[principia-scientific.com/professor-dolores-cahill-people-will-start-dy..](http://principia-scientific.com/professor-dolores-cahill-people-will-start-dy..) Professor Cahill was vice chair of the Scientific Committee of the Innovative Medicines Initiative (IMI), a partnership between the European Commission and the drugs industry to promote new drugs.

### stanleybecker

quite so Mirandola ~ Cahill is in good company with Andrew Wakefield and Judy Mikovits ~ these scientists have all agreed that this experiment will end badly for those that agreed to be poisoned by a Pharma COMMERCIAL product ~ voluntary suicide after major coercion/ propaganda exposure allows for huge profits for SNAKE Gates and major infirmity for the SUCKERS that allow the SNAKE to crucify them

Posted On 01/12/2021

---

### R6163164

"Dr Wakefield predicts that the vaccines will be withdrawn within 6 to 12 months," I think he is far too optimistic. The harms will just be covered up. Just as MILLIONS of SEVERE chronic disabilities (including my own very many years of mercury poisoning) have been and still are just pretended away as stupid ideas of tinheads. Cheers.

Posted On 01/12/2021

---

## ICONOCLAST

Excellent link Stanley. I watched the 2 videos. People who claim to be informed would also be able to separate the truth from the lies if they watched this. See what kind of a character Brian Deer is and how Andrew Wakefield was framed. The BBC are repeating slandering about him. Is that anything to do with the millions of £s they receive from Bill Gates? What journalist wants their career to go the same way as Wakefield?

Posted On 01/12/2021

---

### tatyzehl

mky32022. One must not only look at the number of deaths, maybe those that died didn't even get the vaccine! Most of the residents of the Nursing home were already sick with Covid 19 before the vaccinations started on 12/22, and as of today less than half of the residents have actually received a vaccine! More detailed information is needed to conclude that the deaths can be directly linked to the vaccine. It would be necessary to know how many of the vaccinated residents died.

## Raythe4th

And he causeth all, both small and great, rich and poor, free and bond, to receive a mark in their right hand, or in their foreheads: and that no man might buy or sell, save he that had the mark, or the name of the beast, or the number of his name. Here is wisdom. Let him that hath understanding count the number of the beast: for it is the number of a man; and his number is Six hundred threescore and six. And the third angel followed them, saying with a loud voice, If any man worship the beast and his image, and receive his mark in his forehead, or in his hand, the same shall drink of the wine of the

wrath of God, which is poured out without mixture into the cup of his indignation; and he shall be tormented with fire and brimstone in the presence of the holy angels, and in the presence of the Lamb: and the smoke of their torment ascendeth up for ever and ever: and they have no rest day nor night, who worship the beast and his image, and whosoever receiveth the mark of his name. Revelation 13:16-18,14:9-11

## Jet.lag

I have been taking Vitamin D2 & D3 for some time as recommended to improve my immune system. However, I read an article yesterday saying these two "vaccines" - Pfizer and Moderna - do not like meeting healthy immune systems because the person's immune system can attack the vaccines after jabbing and cause it to freak out. That can cause potential damage to the person's body organs and in the worst case, death. I'd appreciate other views on this.

## mirandola

And you don't think that a substance made from petroleum, injected into the veins, is going to cause serious problems? What about detox compromised individuals? What about even those who are not compromised in that way, with a petroleum-derived substance floating around in their veins? Come on, have a think.

What happens is, that if a substance binds to a cell, the immune system no longer recognizes that cell as "self". Instead, it recognizes the foreign substance binding with it, as "nonself". So you get autoimmune attack. There are t-helper cells, subcategorized into T-helper 1 (Th1) and t-helper 2 (th2), each of which originates from Th0, ie born of the T-helper neutral cell. Magically, the cells know how to divide from Th0 to become Th1 and th2! the Th1 cells attack what is inside the cells, debris, toxins, infections, etc (lack of Th1 may lead to cancer). Th2 attacks what is outside the cells (Debris, toxins, infections). The two need to be in balance with each other, the immune system swinging back and forth between them both, as needed. There are T fighter cells and T suppressor cells. The suppressor cells say "okay the fight is over, go home and rest now". But if there is a persistent infection or toxin binding with a cell, then the T helper cells won't stop. Further, depending on where the toxins and infections are (inside or outside the cells) either the Th1 or Th2 system may over-act. And you get autoimmune attack.

[www.ei-resource.org/articles/chronic-fatigue-syndrome-articles/balance..](http://www.ei-resource.org/articles/chronic-fatigue-syndrome-articles/balance..)

I hope this explains why the mRNA vaccine may be only considered useful in cancer (I hardly believe toxins or infections within a cell, help cancer) and why the vaccine may still harm people quite plentifully. It will trigger autoimmunity, you bet. And I think that with this information being basic to immune knowledge, that the WHO, CDC, FDA, Fauci et al, fully know it and are very, very aware of it. I think they know exactly what they are doing.

## ChrisColes

The use of PEG places me in a interesting place; you see, some decades ago, (through one of my companies, which has now been dormant, not trading for many years, and which I believe would be wrong for me to name it on this forum), was asked to carry out research into the use of PEG as an; industrial quenchant, where metal is heated to very high temperature, bright red heat for example and then suddenly cooled by being immersed into an oil; a suitable Lubricant for Industrial refrigeration compressors using various refrigerants; and as a textile lubricant in the textile manufacturing industries;

I can add, successfully. What I learned is that PEG is created from Methane gas using a catalyst,

and as such is entirely free from additives, and thus, I was told by the manufacturer . . . edible. No, I did not try to do that and I have no other evidence about any such use, other than being told as much by the manufacturer. That is not to say that it will not have an effect if injected directly into the blood stream. PEG is widely used to make the likes of lipstick and is now widely used as a vehicle lubricant. PEG is the same thing as synthetic motor oil, for example. In which case I have no knowledge of the possible allergic reactions from PEG being used in vaccinations.

## ngfam

375,250 Americans old and young dead in one year. In WWII over a period of five years, 407,000 soldiers lost their lives. Covid19 deaths will surpass these WWII NUMBERS BY APRIL.

Posted On 01/12/2021

---

## jamNjim

With 2 weeks left in 2020, USA Today reported that 2,835,533 people had died. If you extrapolate that number for 52 weeks you get 2,948,854 total deaths. I'm sure that number will change. The CDC usually has the actual death count and rate updated by April. Using the numbers we have and assuming they are accurate, 2,948,954 people died in the USA. In 2019, 2,854,838 people died. [www.usatoday.com/story/news/factcheck/2021/01/08/fact-check-u-s-more-d..](http://www.usatoday.com/story/news/factcheck/2021/01/08/fact-check-u-s-more-d..) Like I said, those numbers are pending and may or may not be accurate. The population of the USA is 332,013,304.

The U.N. projects the death rates for every year and the predicted death rate for 2020 was 8.880.

[www.macrotrends.net/.../death-rate](http://www.macrotrends.net/.../death-rate)

That death rate is per 1000 people. So for every 1000 people 8.88 people are expected to die. So, you take the population, divide that by 1,000, and multiply that by 8.88 to get the projected total number of deaths for 2020  $(332,013,304)/(1,000) \times (8.88) = 2,948,278$  deaths. Compare the number of people that died (2,948,854) to the UN's projected number of deaths (2,948,278). You can't make this up! So 575 more people died that was projected. In other words, you have bought into the FAKE NEWS MEDIA HOOK LINE AND SINKER!! 575 people is within the margin of error. In other words, NO ONE DIED FROM COVID-19! They died from pre-existing conditions. Had Covid-19 actually killed 375,250 people the death toll for 2020 would be over 3.3 million. I'm sure the CDC will print out some fake death certificates between now and April so they can make this fake pandemic look legitimate.

## **mirandola**

BigPharma is noted for faking its "Studies". I attended a lecture by a prominent physician/researcher, who spoke of a different medication, for osteoporosis, which he said barely even works and yet the FDA looked the other way and approved it. In the studies of that drug, people were lumped into the 'Pre-existing medical conditions" category, said the researcher, when they developed the so-called side effect of painful and difficult swallowing...which really was a hole in the esophagus, known to happen with this drug!!! The physician-researcher said that patients are told don't sit, don't lie down when taking this drug, stand up to swallow it! And the FDA still approved it and the studies looked oh so clean and nicey-nice. That is how BigPharma works. Beware of fraud "science" where profit is at stake!

## harvelicious

ngfam - obviously, in light of the truth, the fear has apparently fogged up your memory to the point of severe cognitive dissonance leading you to becoming a spreader of unproven and unverified pseudo-info. Just do one thing - please show us scientific "QUANTITATIVE" verifiable proof that the virus exists (must be isolated and purified according to scientific gold standard protocols and ethics) before assuming a position of authority. The integrous professionals of the scientific/medical community would sincerely appreciate verifiable proof.

Since there IS NOT an isolated and purified sample of the virus, or any "QUANTITATIVE" test, it would be a responsible act to admit your error and to stop being a complicit shill for the fraudsters of this scam, for whom, use pseudo-science and massive propaganda to fulfill their agenda.

Posted On 01/12/2021

---

## Greg\_\_

You state that the vaccines have not been shown to reduce the spread of the virus. However, if you're reducing clinically significant infections by 90% or more--which the vaccines have been shown to do--then the extrapolation would be that people are shedding less virus for a shorter period of time, so it's nearly certain that getting vaccinated helps reduce spread. It's true that we didn't specifically study that endpoint to find out, but it's almost inconceivable that that would not be the case.

Posted On 01/12/2021

---

## farmercist

If two people in 1000 tests positive for covid (questionable PCR) and after the vaccine only one person in 1000 tests positive you can say that the vaccine is over 90% effective. Be careful of stats.

Posted On 01/12/2021

---

## Greg\_\_

farmercist, do you know that those were the stats they were using? Do know know the numbers they used to determine a 90 percent effectiveness rating? Actually, a reduction from 2 in 1000 to 1 in 1000 sounds pretty effective to me, especially if the test groups contained many thousands of participants. I am not a statistician nor an immunologist, but if you're challenging the 90% figure, you'd need to be specific and quote the numbers they used in the trials. I don't see how they could have used numbers that are statistically insignificant and not be questioned by the medical, immunological, and/or statistical communities.

Posted On 01/12/2021

---

## Randyfast

"However, if you're reducing clinically significant infections by 90% or more--which the vaccines have been shown to do--then the extrapolation would be that people are shedding less virus for a shorter period of time, so it's nearly certain that getting vaccinated helps reduce spread." How's it going in that fantasy world or yours?
