

# How COVID-19 'Vaccines' May Destroy the Lives of Millions

Analysis by [Dr. Joseph Mercola](#)

✓ Fact Checked

## STORY AT-A-GLANCE

- › The COVID-19 vaccine really isn't a vaccine in the medical definition of a vaccine. It's more accurately an experimental gene therapy that could prematurely kill large amounts of the population and disable exponentially more
- › Since mRNA normally rapidly degrades, it must be complexed with lipids or polymers. COVID-19 vaccines use PEGylated lipid nanoparticles, and PEG is known to cause anaphylaxis
- › Free mRNA can signal danger to your immune system and drive inflammatory diseases. As such, injecting synthetic thermostable mRNA (mRNA that is resistant to breaking down) is highly problematic as it can fuel chronic, long-term inflammation
- › Many commonly reported side effects from the COVID-19 gene therapy "vaccines" appear to be caused by brain inflammation
- › Anyone with an inflammatory disease such as rheumatoid arthritis, Parkinson's disease or chronic Lyme and those with acquired immune deficiency/dysfunction from any microbial pathogen, brain trauma or environmental toxin are at high risk of dying from COVID-19 mRNA vaccines

In April 2020, I interviewed Judy Mikovits, Ph.D., about the potential role played by human gammaretroviruses in COVID-19. Mikovits is a molecular biologist<sup>1</sup> and researcher, and was the founding research director of the Whittmore Peterson Institute in Nevada.

Her book, "[Plague of Corruption](#)," ended up being a No. 1 best seller on the lists of The New York Times, USA Today and The Wall Street Journal in 2020. Her new book, "[Ending Plague: A Scholar's Obligation in an Age of Corruption](#)," will hopefully do just as well. It's available for preorder on Amazon.

She may be one of the most censored researchers on the planet at this point, thanks in no small part to her participation in the documentary "[Plandemic](#)," which went viral in a big way ([plandemicseries.com](http://plandemicseries.com)).

Case in point: YouTube suspended our account for one week as soon as we uploaded today's interview — even though the video was UNLISTED and not available for public viewing yet. Even worse, Mikovits' third and most recent book, "The Case Against Masks: Ten Reasons Why Mask Use Should Be Limited," is so heavily censored, no one can buy it.

*"I don't even have a copy," she says. "I'm sitting here with two copies of the other books but I can't even buy it. What the book sellers did, like Amazon, is they bought them all up from Skyhorse, the publisher, and now they won't ship them out of the warehouse."*

Clearly, Mikovits is considered a serious threat to the technocratic status quo, and once you hear what she has to say about COVID-19 vaccines — which as you'll see is a complete misnomer — you may start to understand why.

## **COVID-19 Vaccines Aren't Real Vaccines**

The COVID-19 vaccine really isn't a vaccine in the medical definition of a vaccine. It does not improve your immune response to the infection, nor does not limit you from getting the infection. It's really an experimental gene therapy that could prematurely kill large amounts of the population and disable exponentially more.

*"I'm just beside myself with anger over this synthetic gene therapy, this chemical poison, and what they're doing worldwide," Mikovits says. "We're already seeing deaths from this shot. It's illegal. It shouldn't be done. It should be stopped right now. It should have never been allowed to happen, yet we see it being forced on the most vulnerable populations."*

Indeed, news and social media reports suggest recipients are starting to drop like flies. Many die of unknown causes within days, sometimes hours of getting the first or second shot.

Baseball legend Hank Aaron passed away two weeks after receiving the vaccine, yet this was not ever mentioned in his New York Times obituary. Surely, had he tested positive for SARS-CoV-2, he would have been declared a COVID-19 fatality, whether the virus actually had anything to do with it or not.

But when it comes to the vaccine, even eyebrow-raising timing is dismissed as coincidental and irrelevant. Now all of a sudden, old people dying shortly after vaccination are shrugged off with the excuse that they're old and could have died any day anyway. Old people dying with SARS-CoV-2, however, must be stopped at any cost. Funny how that works.

## **The Problem With Synthetic RNA**

The messenger RNA (mRNA) used in many COVID-19 vaccines are not natural. They're synthetic. Since naturally produced mRNA rapidly degrades, it must be

complexed with lipids or polymers to prevent this from happening. COVID-19 vaccines use PEGylated lipid nanoparticles, and PEG is known to cause anaphylaxis.<sup>2</sup> Lipid nanoparticles may also cause other problems.

In 2017, Stat News discussed Moderna's challenges in developing an mRNA-based drug for Crigler-Najjar, a condition that can lead to jaundice, muscle degeneration and brain damage.<sup>3</sup>

*"In order to protect mRNA molecules from the body's natural defenses, drug developers must wrap them in a protective casing. For Moderna, that meant putting its Crigler-Najjar therapy in nanoparticles made of lipids.*

*And for its chemists, those nanoparticles created a daunting challenge: Dose too little, and you don't get enough enzyme to affect the disease; dose too much, and the drug is too toxic for patients.*

*From the start, Moderna's scientists knew that using mRNA to spur protein production would be a tough task, so they scoured the medical literature for diseases that might be treated with just small amounts of additional protein.*

*'And that list of diseases is very, very short,' said the former employee ... Crigler-Najjar was the lowest-hanging fruit. Yet Moderna could not make its therapy work ... The safe dose was too weak, and repeat injections of a dose strong enough to be effective had troubling effects on the liver in animal studies."*

However, if they call their drugs vaccines, they can bypass the safety studies. All of a sudden, they expect us to believe that all of these safety issues have been resolved? Another problem is related to how long the mRNA remains stable in your system. It's encased in nanolipid to prevent it from degrading too rapidly, but what happens if the

## mRNA degrades too slowly, or not at all?

The idea behind mRNA vaccines is that by tricking your body into creating the SARS-CoV-2 spike protein, your immune system will produce antibodies in response. But what happens when you turn your body into a viral protein factory, thus keeping antibody production activated on a continual basis with no ability to shut down?

In addition, your body sees these synthetic particles as non-self and much of the perpetual antibody response will be autoantibodies attacking your own tissues.

Mikovits explains:

*“Normally, messenger RNA is not free in your body because it's a danger signal. As a molecular biologist, the central dogma of molecular biology is that our genetic code, DNA, is transcribed, written, into the messenger RNA. That messenger RNA is translated into protein, or used in a regulatory capacity ... to regulate gene expression in cells.*

*So, taking a synthetic messenger RNA and making it thermostable – making it not break down – [is problematic]. We have lots of enzymes (RNAses and DNAses) that degrade free RNA and DNA because, again, those are danger signals to your immune system. They literally drive inflammatory diseases.*

*Now you've got PEG, PEGylated and polyethylene glycol, and a lipid nanoparticle that will allow it to enter every cell of the body and change the regulation of our own genes with this synthetic RNA, part of which actually is the message for the gene syncytin ...*

*Syncytin is the endogenous gammaretrovirus envelope that's encoded in the human genome ... We know that if syncytin ... is expressed aberrantly in the body, for instance in the brain, which these lipid nanoparticles will go into,*

*then you've got multiple sclerosis.*

*The expression of that gene alone enrages microglia, literally inflames and dysregulates the communication between the brain microglia, which are critical for clearing toxins and pathogens in the brain and the communication with astrocytes.*

*It dysregulates not only the immune system, but also the endocannabinoid system, which is the dimmer switch on inflammation. We've already seen multiple sclerosis as an adverse event in the clinical trials, and we're being lied to: 'Oh, those people had that [already].' No, they didn't.*

*We also see myalgic encephalomyelitis. Inflammation of the brain and the spinal cord, which is [associated with] exogenous gammaretroviruses, the XMRVs."*

## **These High-Risk Groups Should Avoid COVID-19 Vaccine**

According to Mikovits, research shows 4% to 6% of Americans have already been infected with XMRV gammaretroviruses via contaminated vaccines and blood supply for more than three decades, which is driving a number of chronic health conditions. Now, these synthetic gene therapies (the so-called COVID-19 vaccines) will further add to the chronic disease burden by triggering myalgic encephalomyelitis.

**“ Anyone with an inflammatory disease like rheumatoid arthritis, Parkinson's disease, chronic Lyme disease, anybody with an acquired immune deficiency from any pathogens and environmental**

**toxins, those are the people who will be killed, murdered, by this vaccine. ~ Judy A. Mikovits, Ph.D.”**

Making matters worse, the synthetic mRNA also has an HIV envelope expressed in it, which can cause immune dysregulation. “This is a nightmare,” Mikovits says. “I’m angry, as this should never be allowed.”

As we discussed in previous interviews, SARS-CoV-2 has been engineered in the lab with gain-of-function research that included **introducing the HIV envelope into the spike protein.**

Mikovits’ hypothesis is that those who are most susceptible to severe neurological side effects and death from the COVID-19 vaccines are those who have previously been injected with XMRVs, borrelia, babesia, mycoplasma, through contaminated vaccines, resulting in chronic disease. (Her book, “Plague of Corruption,” details the science and history of XMRVs, which is a fascinating read.)

*“Yes, absolutely,” she says. “That’s one of our hypotheses. But also, anyone with an inflammatory disease like rheumatoid arthritis, Parkinson’s disease, chronic Lyme disease, anybody with an acquired immune deficiency from any pathogens and environmental toxins.*

*Those are the people who will be killed, murdered, by this vaccine, and Anthony Fauci knows it ... I can’t even sleep [because of] how evil this is. This is so deadly, I can’t scream it loud enough from the rooftops.”*

The chart below lists 35 diseases associated with XMRV infection. If you have any of these, you may want to think long and hard before you line up for an mRNA COVID-19

**vaccine, as your chances of severe side effects or death are likely far higher than someone who does not have any of these diseases.**

**This is not a complete list. There may be many other conditions that can put you into a high-risk category. One example is idiopathic thrombocytopenia (ITP), a deadly bleeding disorder. According to Mikovits, her work shows 30% of all ITP are associated with XMRVs.**

**Interestingly, one example is the 58-year-old Florida doctor who recently got the COVID-19 vaccine and died from sudden onset of ITP two weeks later. Dr. Jerry L. Spivak, an expert on blood disorders at Johns Hopkins University, told The New York Times “it is a medical certainty” that Pfizer’s COVID-19 vaccine caused the man’s death.<sup>4,5</sup> Pfizer, of course, denies any connection.**

## **Genetic Alterations May Last for Life**

**So, just how long will the synthetic RNA in COVID-19 vaccines be maintained within your body, causing your cells to produce this aberrant protein? Mikovits believes it will escape degradation for months, years, maybe even for life in some cases.**

**All of this is eerily reminiscent of previous attempts to create a coronavirus vaccine, all of which failed due to the vaccines causing paradoxical immune reactions, or antibody-dependent immune enhancement. While the animals appeared to have antibodies against the virus, and should theoretically have been protected, when they were exposed to wild coronavirus, they got severely ill and most died.**

**Such failures may be why so many vaccine makers decided to use mRNA rather than following conventional vaccine development strategies, but the end result is likely going to be the same or worse.**

*"I have a 41-year-old daughter-in-law with a very aggressive colon cancer. We're seeing an explosion of chronic disease and these patients are not being discouraged from getting the vaccine. In fact, they're being scared by physicians into getting it.*

*How do we wake people up? Is it going to take millions of Americans and people worldwide dying? Will Hank Aaron dying help the Black community? ... We know the mechanisms. We know that Blacks and Hispanics can't degrade RNA viruses as rapidly as Caucasians. We know that from studies all the way back to MMR. The MMR vaccine is associated with ITP. It says it right there on the package insert.*

*If you have a single nucleotide polymorphism in one of those RNases called RNase-L, you are more likely to get aggressive breast cancers, prostate cancers and other cancers from an XMRV infection (So why inject mRNA of syncytin, a gamma retrovirus envelope?)."*

## **Breakthrough Genomics Could Save Millions of Lives**

According to Mikovits, one solution is to use functional genomics technologies like Breakthrough Genomics, a company which uses machine learning to look at full genome sequences to determine which single nucleotide polymorphisms in ACE2 receptors, antiviral pathways like RNASEL and Interferons can make a person most susceptible to harm from these gene therapy "vaccines."

*"We have the technology to see who's susceptible to severe effects. It will be a huge part of the population," Mikovits says.*

While one size clearly doesn't fit all in any vaccine strategy, forcing a gene therapy on an entire population when it can be predicted that millions will die and develop deadly

diseases like ITP is simply unconscionable. Yet anyone who dares speak about this, as Mikovits knows, risks having their careers and lives destroyed.

## **Symptoms of COVID-19 Vaccine Damage**

Many of the symptoms now being reported are suggestive of neurological damage. They have severe dyskinesia (impairment of voluntary movement), ataxia (lack of muscle control) and intermittent or chronic seizures. Many cases detailed in personal videos on social media are quite shocking.

Equally shocking is that these videos are quickly removed by the social media platforms, ostensibly for violating some term of service. It's hard to fathom how a personal experience can be considered "false information."

*"What is causing this is the neuroinflammation," Mikovits says. "It's the brain on fire. You're going to see tics, you're going to see Parkinsonian disease, you're going to see ALS, you're going to see things like this developing at extremely rapid rates, and it's inflammation of the brain."*

Side effects are also suggestive of a dysregulated innate immune response and a disrupted endocannabinoid system, which acts as a dimmer switch on your immune system.

*"We see mast cell activation syndromes (MCAS). The clinical symptoms are going to be the inflammatory diseases. We hear everybody calling it 'long haul COVID' – the extreme, profound, crippling fatigue, the inability to produce energy from your mitochondria.*

*It's not long haul COVID. It's exactly what it always was – myalgic encephalomyelitis, inflammation of the brain and the spinal cord. What*

*they're intentionally doing is killing off [certain] populations, which they previously injured."*

Another common side effect from the vaccine we're seeing is allergic reactions, including anaphylactic shock. A likely culprit in this is PEG, which an estimated 70% of Americans are allergic to. "These instantaneous effects are almost certainly the PEG and that lipid nano particle, the toxic particle that's being injected," Mikovits says.

In the longer term, she suspects we'll see a significant uptick in migraines, tics, Parkinson's disease, microvascular disorders, different cancers, including prostate cancer, severe pain syndromes like fibromyalgia and rheumatoid arthritis, bladder problems, kidney disease, psychosis, neurodegenerative diseases such as Lou Gehrig's disease (ALS) and sleep disorders, including narcolepsy. In young children, autism-like symptoms are likely to develop as well, she thinks.

## **We'll End Up Killing the Most Susceptible**

Aside from the chronic diseases listed earlier, others who are at high risk from these COVID-19 gene therapies include those who have gotten seasonal influenza vaccines, Blacks and Hispanics. Blacks and Hispanics are particularly at risk for antibody-dependent immune enhancement, in particular, due to genetics. Tragically, these vaccines are given to the most susceptible under the guise of racial and social justice.

*"Johns Hopkins laid out that plan a few months ago to vaccinate ethnic minorities and the mentally challenged first. If your brain is already on fire, if you already have a neural inflammatory disease, why in the world would you inject this neural inflammatory toxin? You're killing the people who are the most susceptible."*

Women of childbearing age may also be at risk for infertility, as syncytin (the gammaretrovirus envelope encoded in the human genome the expression of which can be dysregulated by the synthetic syncytin RNA in the vaccine) is required for proper fusion of the placenta in the uterus and implantation of the egg. Indeed, the World Health Organization is now saying pregnant women should not get the Moderna or Pfizer vaccines due to reports of late-term miscarriages.<sup>6</sup>

## **What to Do if You Got the Vaccine and Are Having Problems**

The primary reason why I wanted to interview Mikovits was to find out her recommendations for those who chose to get the vaccine and now regret it. Interestingly, what I learned is you use the same strategies that you would use to treat the actual SARS-CoV-2 infection.

I've written many articles over the past year detailing simple strategies to improve your immune system, and with a healthy immune system, you'll get through it without incident even if you end up getting sick. Below, I'll summarize some of the strategies you can use both to prevent COVID-19 and address any side effects you may encounter from the vaccine.

First of all, you'll want to eat a "clean," ideally organic diet. Avoid processed foods of all kinds, as they are loaded with damaging omega-6 linoleic acid that wrecks your mitochondrial function. Also consider nutritional ketosis and time-restricted eating, both of which will help you optimize your metabolic machinery and mitochondrial function. As noted by Mikovits:

*"We have to think about detoxing metal, we have to think about glyphosate ... We have to prevent inflammation in all tissue sites and we have to keep our immune system healthy ... You're going to want to be burning ketones*

*instead [of sugar] for the neuroinflammation, so you're going to want to get into ketosis and take the stress off the mTOR pathway."*

With regard to glyphosate, a simple way to block glyphosate uptake is to take glycine. Approximately 3 grams, about half a teaspoon, a few times a day should be sufficient, along with an organic diet, so that you're not adding more glyphosate with each meal.

To improve detoxification, I recommend activating your natural glutathione production with molecular hydrogen tablets. All of these strategies should help improve your resilience against SARS-CoV-2, and may even help your body detoxify if you've made the mistake of getting this experimental gene therapy.

Another helpful strategy is to maintain a neutral pH. You want your pH to be right around 7, which you can measure with an inexpensive urine strip. The lower your pH, the more acidic you are.

A simple way to raise your pH if it's too acidic (and most people are) is to take one-fourth teaspoon of sodium bicarbonate (baking soda) or potassium bicarbonate in water a few times a day. Improving your pH will improve the resiliency of your immune system and reduce the mineral loss from your bones, thereby reducing your risk of osteoporosis.

## Helpful Supplements

Nutritional supplementation can also be helpful. Among the most important are:

**Vitamin D** – Vitamin D supplements are readily available and one of the least expensive supplements on the market. All things considered, vitamin D optimization is likely the easiest and most beneficial strategy that anyone can do to minimize their risk of COVID-19 and other infections, and can strengthen your

immune system in a matter of a few weeks.

---

**N-acetylcysteine (NAC)** – NAC is a precursor to reduced glutathione, which appears to play a crucial role in COVID-19. According to one literature analysis,<sup>7</sup> glutathione deficiency may actually be associated with COVID-19 severity, leading the author to conclude that NAC may be useful both for its prevention and treatment.

---

**Zinc** – Zinc plays a very important role in your immune system's ability to ward off viral infections. Like vitamin D, zinc helps regulate your immune function<sup>8</sup> – and a combination of zinc with a zinc ionophore, like hydroxychloroquine or quercetin, was in 2010 shown to inhibit SARS coronavirus in vitro. In cell culture, it also blocked viral replication within minutes.<sup>9</sup> Importantly, zinc deficiency has been shown to impair immune function.<sup>10</sup>

---

**Melatonin** – Boosts immune function in a variety of ways and helps quell inflammation. Melatonin may also prevent SARS-CoV-2 infection by recharging glutathione<sup>11</sup> and enhancing vitamin D synthesis, among other things.

---

**Vitamin C** – A number of studies have shown vitamin C can be very helpful in the treatment of viral illnesses, sepsis and ARDS,<sup>12</sup> all of which are applicable to COVID-19. Its basic properties include anti-inflammatory, immunomodulatory, antioxidant, antithrombotic and antiviral activities. At high doses, it actually acts as an antiviral drug, actively inactivating viruses. Vitamin C also works synergistically with quercetin.<sup>13</sup>

---

**Quercetin** – A powerful immune booster and broad-spectrum antiviral, quercetin was initially found to provide broad-spectrum protection against SARS coronavirus in the aftermath of the 2003 SARS epidemic,<sup>14,15,16</sup> and evidence

suggests it may be useful for the prevention and treatment of SARS-CoV-2 as well.

**B vitamins** – B vitamins can also influence several COVID-19-specific disease processes, including<sup>17</sup> viral replication and invasion, cytokine storm induction, adaptive immunity and hypercoagulability.

Mikovits also recommends Type 1 interferons.

*"The type 1 [interferon] – the primary source of interferon, alpha and beta – is the plasmacytoid dendritic cell. We know that's dysregulated in people with HIV, with XMRVs, with aberrant retroviral expression. Those people can't make interferon.*

*Type 1 interferons can be provided in a spray that you can spray directly into your throat, your nose, and that will give you the protection you need so that the virus doesn't [replicate]. It degrades it right away ... Should you feel cough or fever, headache, immediately up your Type 1 interferon. Take a couple of sprays of that per day prophylactically as well, and that will keep the viral load down.*

*We know [SARS-CoV-2] isn't a natural virus, we know this is lab-created, but it'll calm the expression, it'll degrade the RNA for those who can't degrade the RNA, and that's the job of Type 1 interferon – to have your macrophages be these little Pac-Men that simply degrade the viral mRNA."*

## **Nebulized Peroxide – My Favorite Treatment Choice**

My personal choice for the treatment of COVID-19 symptoms is nebulized peroxide. It's a home remedy I recommend everyone familiarize themselves with, as in many

cases it can improve symptoms in mere hours. You can also use it as a preventive strategy if you know you've been exposed to someone who is ill.

Nebulizing hydrogen peroxide into your sinuses, throat and lungs is a simple, straightforward way to augment your body's natural expression of hydrogen peroxide to combat infections and can be used both prophylactically after known exposure to COVID-19 and as a treatment for mild, moderate and even severe illness.

Dr. David Brownstein, who has successfully treated over 100 COVID-19 patients with nebulized peroxide, published a case paper<sup>18</sup> about this treatment in the July 2020 issue of Science, Public Health Policy and The Law. He also reviews its benefits in ["How Nebulized Peroxide Helps Against Respiratory Infections."](#)

Nebulized hydrogen peroxide is extremely safe, and all you need is a desktop nebulizer and food-grade hydrogen peroxide, which you'll need to dilute with saline to 0.1% strength. I recommend buying these items beforehand so that you have everything you need and can begin treatment at home at the first signs of a respiratory infection.

In the video above, I go over the basics of this treatment. Be sure to buy a nebulizer that plugs into an electrical outlet, as battery-driven ones are too low-powered to be truly effective. Also make sure your nebulizer comes with a face mask, not just a mouth piece. If it doesn't come with a face mask, you can pick one up separately. Just search Amazon for "nebulizer face mask for adults."

## More Information

Hopefully, we've provided enough information to make you reconsider the COVID-19 gene therapy "vaccine." At bare minimum, do more research before you make your decision. The simple truth is you don't need it, so it's an unnecessary risk.

To learn more, be sure to preorder a copy of **“Ending Plague: A Scholar’s Obligation in an Age of Corruption.”** We’re in a crisis in far more ways than one, and getting educated – and then educating others – is absolutely crucial. The lives of millions of people are at stake. So please, take the time to digest this information, understand it, and share it with those you love.

## Darzoum

Dr. Mercola uses the phrase “culling the herd” in the interview. It’s well known that Bill Gates comes from a eugenics background. Assuming “culling the herd” is really on the agenda, then by what criteria? Simply reducing the population, or by a eugenics criterion such as intelligence? Clearly the option of taking this experimental gene therapy carries with it a kind of “intelligence test,” since you would have to be out of your mind to take it. And yet, how many supposedly intelligent, educated people are anxious to get their shots? The only thing that can explain that is that they are unaware of the risks of this experimental gene therapy, and overly sold on the dangers of the “pandemic.” The fault of that lies not only with the manufacturers of the experimental gene therapy, but with their controlled agents in government and media suppressing the messages of a long list of qualified people with serious reservations, including Dr. Mikovits.

At some point, the average layperson has to decide where to place their trust. The active suppression of inconvenient science and dissenting scientists by officials, and the ruthless shutting down of open, honest debate are not the actions of the trustworthy. If the dangers are as Dr. Mikovits describes, then criminality is tied up with intention. Are we really to believe that people smart enough to concoct such gene therapies are oblivious to the dangers they present? If that seems unlikely, then we likely have an experimental gene therapy being foisted on a mostly unsuspecting public while prominent actors in government and media are actively suppressing known dangers. How is that not potentially genocidal? Are the people who think they are being saved really being attacked? At the very least, with so much in doubt, a person is well within their rights to opt out, particularly since even the availability of a guaranteed safe therapy does not cancel-out the foundational principle of informed consent.

---

## **Dr.Steven**

Right on, Darzoum: I agree fully. The problem is how can the wider public get enough alternative information, as offered on this site, if they rely on mainstream media for information? Like you, I'm perplexed and disturbed at how many otherwise intelligent people are uncritically falling for the fear narrative and lining up for vaccination. As I keep saying, Big Tech censorship and media bias against alternative views are suppressing free speech and healthy dialogue needed for people to become fully informed and make truly informed decisions. Other than those of us who read these articles and similar information on other alternative sites, most people have no clue to these dangers and to the Covid-19 number fraud (PCR; death counts) used to justify the ongoing social control mandates and keep people scared and apart. We need informed consent, as you note, but without free speech--rapidly suppressed here in America--we cannot be fully informed.

## **Kevin131**

This is how modern witchcraft works... The witches then accuse the innocent as witches, and hunt the speakers of truth under the fraudulent claims that we're the witches... It's a satanic sh it show.

Posted On 01/31/2021

---

## **Almond**

The average person gets their information from soundbites and slogans nowadays. They have been trained not to think or question things. They live in a one-sided world where there are not 2 sides to everything. They do not even want to know about things that would require individual responsibility and decision-making. They are afraid to rock the boat and find their security in

conformity. It is much easier to go along to get along. They would rather be dead than different. They lack the confidence to be individuals. Besides, it is easy to profit from sick and frightened people.

My worry is this. More people are getting "woke" every day, but numbers may not be enough. I fear that once they have vaccinated all the willing people, then those who can be coerced, that they will come for the rest of us. I do not like the fact that my suspicions have often proven true. With other vaccinations, it is nearly impossible for a reasonable person to obtain an exemption. Many states have eliminated personal philosophy and the requirements for a religious belief exemption are so stringent that they no longer apply, even where they exist in law. To get a doctor to sign, it must be a licensed physician within the state. You see, if it was a prominent out-of-state doctor, the in-state licensing board would have no control over him or her--could not threaten them with loss of license for "nonstandard practice".

The good news is that the current administration seems to enjoy fighting among themselves. They are in chaos. The vaccine delivery is slow and no one knows where some shipments ended up. Record keeping is incomplete. Maybe the program will fall apart, yet. Such is my dilemma. I have many valid medical reasons for avoiding this and all vaccines. But control is taken away from doctors and given to bureaucrats. I have even thought of visiting the vaccine sites to see whether any careless elderly people dropped their vaccination cards on the ground on their way out.

## Astonished

I fear for worse for the "intelligent" lot. After all, the death camps are waiting. And the US has never shied away from novel "medical" experiments and innovative torture methods. I'm afraid, the camp-dwellers will get more than just re-education and the forced injection...

Posted On 01/31/2021

---

## Astonished

They are forcing people to poison themselves with the muzzle and people comply. Maybe, humanity doesn't deserve to survive. Even if this was the plague with a 99% mortality rate, I would take my chances and stay human. We all die; the only difference we can make is by how we live...

Posted On 01/31/2021

## boobtube

Maybe I'm naive but I think the agenda is really nothing more than to make as much money as possible by selling their product no matter how damaging it may be. Keeping information about it's potential dangers to a minimum is to their advantage in keeping the company stock price soaring and product demand up. Big pharma has always tried to peddle their products to as many takers as possible for as long as possible, even it means keeping the truth of the product's dangerous after-effects suppressed. Even if the truth eventually comes out, they usually get the FDA to keep the product on the market long enough to cover a sizable profit even with potential lawsuits. With these vaccines, they don't even have to worry about lawsuits. It's all gravy from the moment it leaves the factory. I honestly don't think the CEOs care what happens to the users as long as share price goes up. Probably the scientists know the damage it will cause but, hey, they need the job so they keep their mouths shut.

## mirandola

Darzoum the Alliance for Natural Health recently emailed about our right to informed consent, and this means It must be coercion free! Almond, a doctor/friend told me recently that wherever vaccines are rolled out under emergency declaration, that there is a law forbidding the mandating of them. They can't force us to take it, under the law. IF they are so rogue as to override that, we can invoke "violence" because wherever it is "Submit or else! Side effects be damned" You can bet it is violence. And wherever this is invoked, even if BigPharma slimily denies it, with dripping snake poison out of their mouth, then I almost guarantee that the person doing the vaccinating will back down at the invocation of violence. PS I was looking online for that law. Anybody got any links? If yes please post, thank you so much.

Darzoum et al, to trust or not to trust...that is the....huh? Question?

[vaccineimpact.com/2021/cdc-329-recorded-deaths-so-far-following-experi..](https://vaccineimpact.com/2021/cdc-329-recorded-deaths-so-far-following-experi..) deaths are coming in by the minute, exactly from the vaccines. What craziness that people think that they can risk such a "Side effect" in order to "protect" themselves from the coronavirus! Out of the frying pan into the fire, ahoy! Dynamo, let's go? Oh and further, there is a FOIA in which the CDC Stated they have no comparison studies to prove the difference in health status between vaccinated vs unvaccinated people. I will post the link in a minute.... And Fauci on film saying that the asymptomatic people never did drive the rates of spread forward wherever respiratory infections are involved. Trust? I think it's time for people to have a think.

## mirandola

Sorry I could not post these links to my statement above since the links and contents all got scrambled. Here, separately:

[www.icandecide.org/wp-content/uploads/2020/08/2020\\_08\\_03-20-02002-Fina..](https://www.icandecide.org/wp-content/uploads/2020/08/2020_08_03-20-02002-Fina..) FOIA: The CDC admitted that they have no studies proving the difference between vaccinated vs unvaccinated

peoples' health status. Please note, all credible studies require controls, this is fraud science. [www.theblaze.com/op-ed/ready-horowitz-a-severely-symptomatic-lie-about..](http://www.theblaze.com/op-ed/ready-horowitz-a-severely-symptomatic-lie-about..) An article about what author Daniel Horowitz shrewdly calls a "very symptomatic" matter of lying about the fact that asymptomatic carriers spread disease. Linked in the article, embedded, is another link taking the reader to Fauci's own statement, on film, that asymptomatic carriers never did spread disease. There also is mention of a flip flop from the WHO's own statement about that to later when they suddenly retracted the truth.

**WHAT SEEMS LUDICROUS TO ME:** First they say that there are asymptomatic carriers spreading disease, then they back peddle and deny it. Now they come out with "vaccines" that the CEO of Moderna openly admitted does not prevent the spread, and the CDC has admitted that too about both the Pfizer and Moderna vaccines, if my memory serves me correctly (quoting from memory here). And the "vaccines" are purported...while deaths and paralytic/seizure events roll in....to lessen the symptoms of COVID. Oh, I thought that there is massive ranting about asymptomatic carriers spreading disease? Yet we can't go back to society unless we get these "vaccines" that themselves reduce symptoms? And genetically modify us? Oh? What gives?

I guess they are really worried about the economy, civil liberties and particularly, human and animal wellbeing.....so funny I forgot to laugh. Meet 'em in court, look 'em in the eye, and tell them straight exactly what it is all about! And no fooling around. Society is at stake.

## **pam9582**

Her book and this interview discuss something that's sort of elusive for me, maybe because I'm not conversant with the terms. If I'm understanding it, however, the population and the blood supply are damaged, genetically, because of prior vaccines which have inserted genetic material into us from other species. If this is so, and the Covid mRNA injections capitalize on this prior injury by disabling and killing those so injured then this is premeditated murder. Are they doing this because insurance companies don't want to be on the hook for a disabled population. Perhaps it would bankrupt them; certainly it would cut into their profits. It seems obvious they view us as little more than guinea pigs and have incentives to hide their mistakes or misdeeds with a fake virus and

deadly injections.

Posted On 01/31/2021

---

## rrealrose

pam, yes however, this m-RNA shot is gonna make many more disabled. Doctors will not know how to treat these ailments and disabilities. You may want to go a bit further in your thinking...

## Jackaroni

The problem is that most people get their information from a major media source or from social media that is being censored. If they try to research the subject online most will use google which both censors and controls which articles show up first. Unless one is already aware that something shady is going on, it is not easy to realize that we are being manipulated. If not for that fact that I have been on this website for over a decade, I just might be a sheeple myself. Today it is much more difficult to come across the type of information that Dr. Mercola provides than it was 10 years ago. I refer many people to this site, not sure how many those people actually check it out. I was both surprised and pleased to discover that my very conventional (or so I thought) brother had been reading Dr. Mercola's site.

## Randyfast

David; I've explained to more than one person, how devastating these shots will be; even that the vaccine companies have total immunity from prosecuted and also, the fact that "vaccinated" people are already dying...They still want the vaccine, for their "Protection"! Have you ever

attempted to explain an existential threat to a rock?! P.S.; evidently, the flu shot and covid shot are being pushed together now. Whether people choose to believe it or not - Hell on Earth is upon us! P.P.S.; This article should make it quite clear to any thinking person, where we are headed with this insanity. More "camps"; more virus strains; more "vaccines" and more MEDICAL and TECHNO TYRANNY! ## steelj

Darzoum, I love this: "Assuming "culling the herd" is really on the agenda, then by what criteria? Simply reducing the population, or by a eugenics criterion such as intelligence? Clearly the option of taking this experimental gene therapy carries with it a kind of "intelligence test," since you would have to be out of your mind to take it" Brilliant as usual. I've had the same thought, never expressed it so eloquently. The flip side (probably made by others, I haven't read all the comments) is those who take the vaccine are the compliant ones that our wonderful leaders would want to keep around. Seems more likely they'd want to remove those who think for themselves and resist them.

Or, flipping back, maybe they actually DO want to improve humanity and move it towards rationality? Less likely of all, but not impossible. I must admit to being skeptical of Mikovits. Her dire predictions are so extreme if they don't come true it will discredit opposition to the elite's agenda. I think the vaccines are a terrible idea, but I'll be surprised if they do the damage she predicts. Reminds me of Mike Adams' alarmist rants when Ebola was the rage. None of his predictions, which he assured us WOULD happen, actually happened. It was such a glaring fail I don't know how anybody still takes him seriously. Yet they do. Mikovits will probably get a pass from her faithful for just as bad a miss.

## balhawk

The system is rigged to grievously under-report adverse reactions and deaths. The latest data I saw from the v-safe app showed 70 times the rate of serious events as reported on VAERS - and it would stand to reason those using the v-safe app are mostly young, tech-savvy people and medical professionals, who are among the LEAST susceptible to such serious events. So if those 329 deaths as of January 22 were under-reported by a factor of 70 - which may itself be an underestimate due to different population characteristics -

We could have on the order of 24,000 deaths and 400,000 or more serious adverse events due to the vaccine within just a month - and that does not even include deaths attributed to COVID-19 itself, which have reportedly TRIPLED in UK nursing care homes following rollout of the jabs (as other deaths have also increased in the homes), resulting in about double the death rate. We need to look at the TOTAL death rates since this poisoning pogrom (sic) rolled out. Therein lies the truth. This is the largest scale crime against humanity and cover-up in history, unless one considers the practice of vaccination itself as a whole!

steelj ~ Mikovits is conversant with both virological and immunological fields and applies her knowledge from her experience at the frontier of investigation ~ but you challenge her prognosis on the basis of a "hunch" ~ puleeze

Posted On 01/31/2021

---

## Darzoum

Stanley, I share your admiration of Dr. Mikovits, and the fact that she has paid a tremendous personal cost for sticking to her convictions... clearly she is the "anti-fauci," which can only be taken as a compliment. But in defense of steelj, I have to admit I've gone through much of the same thought-processes as steelj expresses here. If one considers that this really is a herd culling

event, then we have to consider that the presumed “overlords” would want to ensure that it is the compliant who remain, not the defiant. And no matter how brilliant or principled Dr. Mikovits is, we have to consider the possibility that events will not play out as dire as she predicts; the future has yet to play out. That is why I always come around to this being a human rights issue first, and the paramount position of informed consent. If everything hinges on “safe and effective,” then there is a pathway to our losing our basic rights through a successful medical product. My bottom line is that informed consent stands regardless of what pharma does.

## steelj

Stanley - re: "steelj ~ Mikovits is conversant with both virological and immunological fields and applies her knowledge from her experience at the frontier of investigation ~ but you challenge her prognosis on the basis of a "hunch" ~ puleeeze" There are plenty who are conversant with virological and immunological fields who don't share her alarmism about the vaccines. If you agree with Mikovits you are challenging their prognosis, based on - What? Your own hunch? So "puleeeze" back atcha. Your "puleeeze" makes no sense. Every Mercola reader is constantly challenging those touted as authorities. They are usually self-serving and objective truth is not on their radar. You've been posting here maybe as long as I have. Have you forgotten all these health-related issues have "experts" whose opinions are all over the place? All we can do is read all sides, and come to the best conclusions we can.

It's nauseating to read the MSM, but we should try to do it some. Nut jobs, psychopaths, and fools aren't only found over on the dark side. We have them on our side too. Not saying Mikovits is any of those, but I do suspect she is self-serving by overhyping the dangers to get attention. I don't know that for sure of course. She could also believe her hype and be wrong. Or be dead right.

Time will tell. If it's going to be as bad as she says, they won't be able to hide the damage, even with their lies. Personally, I expect the damage to be much, much less. Bad enough only a fool would take the vaccine for such a minor threat, of course. We can agree on that. I admire her for being a courageous voice. I hope she's not sticking her foot in her mouth.

## **Linda N**

"Clearly the option of taking this experimental gene therapy carries with it a kind of "intelligence test," since you would have to be out of your mind to take it." ROFL! But soooo True!

Posted On 01/31/2021

---

## **idruid**

It looks more like targeting races, rather than intelligence; or lack thereof. Intelligence has more to do with education, rather than some genetic factor. Though, malnutrition and other physical, and mental, damage can also have negative effects. Pain, drugs and hypnosis are known mind control tools. Give someone who can't read an IQ test and they will surely fail. Teach that person to read and write and then do the test and a score will appear. Teach that person mathematics and the score will rise higher. Teach that person art (old school techniques) and observational and differentiatinal skills will increase - raising the scores even more. And so on. Drop a physics professor into the heart of the Australian desert and he will most likely be dead within a few days.

An Australian aboriginal person raised and educated in that environment will thrive and flourish. The latest science I read said that the mind is definitely not in the brain. They don't know where it is, but certainly not there. Therefore not part of the body, so not dependent on genetics. So why are they targeting those races of people? I read somewhere that insanity is a lack of logic; so I

suspect that we are looking for logic where none exists. Looking at it from a culling point of view - they have a long history of it - perhaps they consider that deaths among those races will enable them to get away with a minimal degree of backlash in the western media - which they now almost fully control. Just a thought; they're very experienced in damage control.

## mirandola

Darzoum, SteelJ, Stanleybecker et al, here is why I tend to believe the very hard predictions of Dr Milkovitz, as echoed by Sherry Tenpenny MD, and said to be "potential" occurrences by Dr Simone Gold (Stanford ER physician), and immunologist/prof. Dolores Cahill...all joined by Succharidt Bhakdi from Germany saying that this vaccine is "Downright dangerous". Here is my qualified, best layperson's understanding why:

Medical books for laypeople and doctors both alike, regarding immunity, say that when the immune system recognizes a cell as "Self", it leaves it alone. But when the immune system recognizes something as "non-self", then it attacks it. This can be tissue wide (brain tissue, organ tissue, who knows what else). So when a foreign substance, like a virus which literally enters cells (the reason why antibiotics can't reach them readily), or heavy metals, synthetic RNA, toxins, etc...bind with a cell, then that cell is recognized by the immune system as "non-self" and attacks it.

How doctors interpret and weigh the materials in the balance, is surely a very individualized process. It depends very much on their medical school of thought, training and may I say, frankly insightful intelligence. It is based on pure physiology itself, that I tend to believe these hard core predictions. It doesn't make any sense to me any other way. When you get mass inoculations of synthetic RNA binding with our own cells, it Has To create autoimmune attack! No two ways about it. But wait, this is where the plot thickens. I read on the CDC or FDA's website (can't remember which one now) that these vaccines have added polyethylene glycol as lipids, to mask the invaders from the immune system. The problem is that PGE itself is (google the MERCK material safety datasheet) explosive, combustible, degrades to CO2 and causes lung damage, is a skin irritant...and being injected into our veins. Circulating to all tissues. Anaphylaxis, autoimmunity? No brainer. DUH! Why is this allowed?

## Eevee

That question of trust is easy. Personally I place my trust in Dr Mercola with regards to health, I found his website and signed up to his newsletter years and years ago, I had a few health problems, gradually started to feel better and better, over the months learning from Dr. M. less brain fog, more energy, better digestion, less severe hayfever etc... My life would have been so different had I not found Dr. M's website, mainly continuous extremely painful sinus (they removed my adenoids and tonsils when I was six years old, my parents were told they weren't necessary, obviously they know now they are an important part of the immune system) some gut issues, amalgams, 16 in my mouth at one point, when I was a kid, every molar and premolar drilled out and stuffed with them, I didn't need half of them, it was so the dentist could claim money, I was a kid, sent to the dentist alone, my Mum didn't attend with me. (My hubby is so shocked by this, his Mum questioned everything before she let them do anything to him, he has good robust health). I also trust Dr. M. because he is not afraid and honest enough to say when new research is out ...he will say previous advice he gave is now wrong, stop doing this, this is better, or hold on till we know more about it. You wont find many who will do that and come clean with everything. Dr M. and the people he interviews who speak against main stream big pharma, poison and one fits all approach, are saints for helping us without trying to poison us. Thank you Dr. M, you have made a huge difference to my health.

## elfmom55

A Future Vaccine to Prevent Knowledge of Soul and Spirit From The Fall of the Spirits of Darkness (Bristol: Rudolf Steiner Press, 1993; GA 177), p. 85. October 7, 1917 85 – “The time will come – and it may not be far off – when quite different tendencies will come up at a congress like the one held in 1912 and people will say: It is pathological for people to even think in terms of spirit and soul. ‘Sound’ people will speak of nothing but the body. It will be considered a sign of illness for anyone to arrive at the idea of any such thing as a spirit or a soul.

People who think like that will be considered to be sick and – you can be quite sure of it – a medicine will be found for this. . . . The soul will be made non-existent with the aid of a drug. Taking a 'sound point of view,' people will invent a vaccine to influence the organism as early as possible, preferably as soon as it is born, so that this human body never even gets the idea that there is a soul and spirit. “. . . the heirs of modern materialism will look for the vaccine to make the body 'healthy,' that is, make its constitution such that this body no longer talks of such rubbish as soul and spirit, but takes a 'sound' view of the forces which live in engines and in chemistry and let planets and suns arise from nebulae in the cosmos.

Materialistic physicians will be asked to drive the souls out of humanity." "Funvax" from the Pentagon. They told us yrs ago these vaccines will remove any and all freewill we have including the ability to cry out to God and repent.

<https://www.youtube.com/watch?v=oJtFMcscvps?v=XH6b6hKtFCU&list=FLz..> Anthony Patch further describes how these vaccines work.

[www.youtube.com/watch?v=2iT\\_rcTil5o&list=FLzti9N1JBbVDnQzPh03XiVw&..](http://www.youtube.com/watch?v=2iT_rcTil5o&list=FLzti9N1JBbVDnQzPh03XiVw&..)

## Sue12Cross

This is just a game of chess and there are two things you can do: 1 You can accept the government handout, sit at home, buy stuff on amazon and watch netflixes and eat buckets of junk food, drink and fill your mind with corporate/government propaganda. All this will stop you worrying about where the money to pay you is coming from and how your country is being bankrupted and that you are not just allowing it to happen you are making it happen. 2 You decide to play chess on your own terms, you work out how you stand legally on every point and you research it yourself from independent sources. You lose everything in your life that feeds the other player, you take control of your own health, power and food sources and you create a barter system with your friends and contacts. You educate your children at home and if you are locked down/up/curfew-ed whatever, you use that time to get your act together and plan your future strategy. [www.bitchute.com/.../P22i7fAB7jmY](http://www.bitchute.com/.../P22i7fAB7jmY)

## Lakhana13

Much easier said than done. I suspect the formation of "Black Markets" soon if not already.

Posted On 01/31/2021

---

## Astonished

I am expecting a lot of violence, even in rural areas.

Posted On 01/31/2021

---

## Sue12Cross

The Black Economy has been running since the beginning of money, so that is already in place, the only thing that may change is the currency because if the cashless society is enacted then there will have to be a skill substitution for cash, which will throw everything into confusion, as my guess is those at the top have no saleable skills. I don't expect any violence unless from agent provocateurs. Those in the (1) category are too comfortable and those in (2) category are too savvy. The latter know that violence is exactly what the governments want, they can then evoke Martial Law.

This is why you see all protestors, except those who belong to the various government factions, either not engaging with the police/military or running rings around them with their knowledge of Common Law or the Constitution or a basic understanding of how to deal with those who presume power over them. People will only get violent if they are trapped and they are now using their brains after months of fear-induced apathy. They were trapped by their own ignorance in their individual countries in re., 'institutions', including what constitutes and who runs health care, who runs their mainstream media, who runs their government, what is mathematical modelling, what is Germ Theory. They now understand the difference between freedom and serfdom.

There are huge law suits preparing, mainly from Germany in conjunction with the USA and the UK - although their reach is worldwide with a growing network of experienced tort lawyers, judges, academics, scientists and doctors... all sharing info - that's a first!. All this is out there to peruse for yourself, it helps if you have more languages than English. The most positive result for me, is that people have began to question what is a 'health service', Dr Mercola's site should be doing better than ever because he offers logic and self-help and not slash/burn/drug dependence. And how/why were vaccines bought and paid for before 'approval'?

Posted On 01/31/2021

## axkershaw

Sue: You are perspicacious as usual. If one of the side effects is disruption of the endocannabinoid system, does that mean weed won't work anymore? That would be a disaster on a global scale!! I have informed my family. With weed not working, Thanksgiving and Christmas would be chaotic. We would all have to drink more.

Catherine Austin Fitts lays out the Covid crisis from the perspective of a former Wall Street financier and former Asst. Secretary of HUD under Bush the Elder. Like Mikovitz, her career was ended because she too conscientiously did her job. She describes the locations and damage done by the recent "riots", combined with recent "socially beneficial" legislation that encourages tax free investment in "opportunity zones" as a real estate acquisition plan. View the video on her site Solari.com for the film "Planet Lockdown". As an activist in the 60s I witnessed in person and at a distance many instances of the work of "agents provocateurs".

When it is someone associated with SNCC, Student Nonviolent Coordinating Committee, advocating violence it is pretty obvious. The deep state has gotten better since then and there are plenty of mercenaries out there willing to do the work. As Jay Gould notoriously said: "I can hire half the working class to kill the other half." The .00001% do not speak their mind in public like they used to. <https://home.solari.com> Spend some time there. You will find it illuminating. She takes the long perspective that even if there is little we can do to avoid the probable imminent disaster, with a good library of knowledge we can maybe help the survivors avoid making the same mistakes The door to the trap has not closed yet and with enough people conscious the 99% may be able to escape servitude.

## Sue12Cross

Darzoum thanks for the link, I knew about it but haven't had time to watch it yet but it would be great if Dr Mercola is involved. The thing that has really sickened me is seeing all this fake greenery pushed forward by people who no nothing of and care even less about the natural world, including the stunt Prince Charles, who for some reason has given up organic farming and obviously the roast beef of old England and is pushing fake lab meat. If he is the genuine article then what happened to his humanity and brain to get him to advocate for this band of robots?

Hi Stan, given that they couldn't even get all of Europe to join the Euro and even many of the countries who had it were still dealing surreptitiously in their original currencies, or continued to print it albeit not use it, no I don't see it either.

Axkershaw Hi there and thanks for the link I will watch it - I know of Catherine Austin Fitts and Planet Lockdown. So many people have lost their careers over speaking out and we need to remember who they are - I saw a Nurse Sirotek interview recently, she was the first front-line nurse to report on what was going on in hospitals - she has been threatened and actually regrets what she did because of the effect on her children but she did it, she spoke out and after all this is over she should be given a hospital to run because she really is a true carer. At the moment I just see us living in one of those Pirates of the Caribbean movies that strangely I always thought had the script for what was to come, including the revival of the East India Company, a time when 'grocers' had their own armies and changed the face of the globe-maybe time to hoist the colours or splice the mainbrace.

**pie2634**

USA is today like Germany in the 30s. We are truly dealing with criminals against humanity like HITLER. No I am not exaggerating. People should read or rent a film about the NURENBURG TRIALS. They still do not get it. Now I am not for banning vaccines. If people want it, they can take it. But trying to abolish free consent and informed consent is truly 100% FASCISM !!!!!!!!!!! People like Gates and Fauci deserve to be arrested, put on trial like the German Naazis were in Nurenburg. By the way the Nurenburg Code is quite specific on these acts of biological fascism. Use it and go against these fascist politicians and big pharma fascists !!!!!!!

Posted On 01/31/2021

---

**Dr.Steven**

Yes, pie: this fear-induced assault on freewill, free speech, and personal choice is frightening and worse, the gullibility of so many people to uncritically accept the propaganda narratives rolling out to support these supposedly "safe and effective" vaccines against a "deadly" virus with a 99.5 percent recovery rate does not bode well. Add to this, Big Tech censorship and our hopelessly biased, corrupt "mainstream" media, and our globalist-"infected" government, and we have our work cut out for us in resisting this unwarranted assault.

Posted On 01/31/2021

---

## rrealrose

Yes, Gen'l/President Eisenhower was correct and prescient - this outward show of the US military/industrial/banking complex is appalling. Fascism shows its ugly face at nearly every crossroad and corner.

Posted On 01/31/2021

---

## Jackaroni

Agreed. EVERYONE who gets a vaccine of any kind should be provided with information on that vaccine including odds of getting the disease that vaccine is designed to provide immunity from, how serious that disease is, how effective the vaccine is, possible side effects from the disease and the odds of suffering from those side effects. And finally, what to do should a permanent disability or death occur and what compensation would be provided and the steps (and time) it takes put in a claim for disability and the percent of claims that are successful. The patient or guardian should be required to actually read that information BEFORE receiving the vaccine.

Posted On 01/31/2021

---

## **forbiddenhealing**

Hey, It's the answer to overpopulation...Getting rid of Kissinger's "useless eaters"..culling pre-sickend Ag/pharma failures..the unwashed deplorables..a modern smallpox blanket.. a suicidal Hoola-Hoop..Fauci/Birx or Marshall Applewhite?

Posted On 01/31/2021

---

## **rrealrose**

And about half of US school age children with their booster shots and allergies, asthma or autoimmune conditions? Are WE correct and troubled or are THEY - the collective FDA, NIH and CDC - highly paid incompetents? The theories about priming the body with Gardasil or the flu shot adjuvants, then coming in with the m-RNA jab are highly plausible to damage already being reported.

Posted On 01/31/2021

---

## **forbiddenhealing**

Rrrreal...Incompetent? I think not.....And why would media be absolutely certain of the new vaxxes? Why would they do all these whinny bits of scared people craving a shot? Lost grandma cuz she couldn't get it...kids in grief...system to blame....Yet not one whisper of rational debate..only couched opinion by "experts" like we believe or it seems or as far as we know...don't question the "news." Everybody's doin it, gotta have it...And every liability that is erased means more cash for fat bureauc-rats.

Posted On 01/31/2021

Posted On 01/31/2021

---

## Sue12Cross

realrose Michael O'Bernicia is an interesting person, a film-maker, poet, historian and activist. Like Dr Reiner F, the mention of whose name is enough to get a YT video banned, he's a consummate professional and has been fighting this since the beginning or rather long before, as far as the economic side of things are concerned. There have been I believe over 5,500 law suits in the US alone over covid but they've all failed because they didn't address the major pitfall that a judge would always claim 'state of emergency'. These two guys have already won huge suits against Banks and global corporations - so they are old hands at this game and also very human.

Forbiddenhealing - the MSM are desperate - I saw a demo against New Police Powers in Paris yesterday described by one MSM lackey as being a protest about the slow roll-out of vaccines. Interestingly enough The Bernician's law suit offers clemency to journalists if they change sides, something I actually would see as very generous but I'm guessing it is because they have a lot to spill. I'm noticing MSM are beginning to report a few of the adverse effects and a few 'polls' showing how actually not everyone is 'happy that they'll have nothing'. I have a question - do you believe these vaccines were meant to be given out, because the companies had their wads of sweaty cash before they'd even been approved. I also see a lot of the people who are administering them are beginning to get worried because although the companies may have immunity from

prosecution, what about the 'celebrities', politicians, media outlets, doctors, nurses, soldiers who are pushing them in both literally and metaphorically - where do they stand in law? Is that clear to anyone because it isn't to me.

## **epi-cure**

Hello Sue12Cross. Regarding those 5500 lawsuits, I realize there's an ocean between us and what may work here may not there however . . . . so far, this organization has managed to curtail the further ambitions of the governor of Ohio. New Mexico has followed their lead to become the second state and others will ASAP explode on the scene like dandelions. The lawsuit places the burden of proof on defendants declaring states of emergency thereby nullifying the vaccines, lockdowns and masks tyranny. ## **Almond**

If all the people who should be exempted actually get exemptions, it will not be possible to acquire herd immunity. That means, either people will be coerced into getting the jab, and many die or be disabled as a result, or that "vaccinations" with a goal of herd immunity are pointless. The numbers just are not there. A significant number of people also have immune systems that do not respond to vaccination, further lowering the herd immunity numbers. This is a huge scam and a farce.

How many people remember when there was the anthrax scare. We were all going to get vaccinated to protect us from a terrorist attack. The military started vaccinating troops, but the soldiers started dying. Then, it was all hushed up and you never heard another word about it. Is this what will eventually happen with the covid vaccines? Will all the deaths and injuries be denied and swept under the rug? The media keeps repeating that we must get vaccinated for our own protection and that of society to prevent the spread of covid. Yet, none of these experimental vaccines prevent disease or the transmission. It's just propaganda

## **R6163164**

"If all the people who should be exempted actually get exemptions," EVERYONE should be exempt from this pseudoscience!

Posted On 01/31/2021

---

## **Dr.Steven**

**Almond: exactly. This propaganda is abetted by the media's continued promotion of the fear narrative, using "Johns Hopkins" statistics while ignoring critical information, discussed here and on other alternative sites, about PCR test false positives and inflated death counts. I'm exasperated at how so many people are willingly buying the propaganda and lining up for their shots, naively thinking these vaccines will help return life to "normal," apparently unaware of the plans of Klaus Schwab and friends. The natural health alternatives presented here, including diet, lifestyle, and supplements, will do much more than any toxic jab to build immunity and protect the public. But, where's the profit and chance to control humanity in that? This is about power, control, profit and NOT about public health. As you say, it's "a huge scam" and propaganda.**

## tireguy

This post is in response to that by mirandola asking what law forbids the mandatory vaccination of experimental vaccines given emergency use authorization. Searching through my records I found a note to this on a consent form I received last year referring to Title 21 of the Code of Federal Regulations 50.25(a)(8). The rushed to market COVID19 vaccines are all experimental vaccines, biologics, or biogenetics and are covered under Title 21 of the Code of Federal Regulations 50.25(a)(8) for human clinical trials, in which all participants must be given the right to informed consent and the right to withdraw or refuse participation in the clinical trials. Also I received this from the Informed Consent Action Network last Monday, January 25:

"ICAN's legal team, led by Aaron Siri, has taken legal action to challenge employers/schools that require their employees/students to receive a COVID-19 vaccine. Employers and schools that previously required the COVID-19 vaccine have dropped those requirements! This includes an

employer that did so on the heels of ICAN's legal team challenging the mandate in court." "If you or anyone you know is being required by an employer or school to receive a COVID-19 vaccine, ICAN is pleased to offer to support legal action on your behalf to challenge the requirement. In order to obtain this potential assistance, please email us at [freedom@icandecide.org](mailto:freedom@icandecide.org) and provide a copy of the written notice from your school or employer stating that the COVID-19 vaccine is required." I hope this helps.

## **SoozeQ**

In all my life I never thought that I would live to see the day where Americans are killed with intent and too stupid to open their eyes. This virus does not make you blind, it does not make you impotent, it does NOT kill you....not the way the media NEEDS you to believe to fulfill snakes agenda. Never in my life did I think people so quickly would give up ALL constitutional rights and live in fear. I just want to slap people to wake them up when I see them with five masks on and the fear of god their eyes as they continue to smoke, eat the standard American diet and be fat. But the virus, the virus will be what kills ya.I am way over being PC.

If the masses soon don't wake up and stop worrying about covid, non existent racism, and people who want to cut off their sex organs....then they deserved to die from this vaccine. Don't bother to educate yourself about terrain theory and taking control. Wait for the demoncrats to save you. They deserve to be slaves because they are willingly walking to the gas chamber. Yesterday, at the hair salon a morbidly obese woman with two masks, and a shield was saying that guests may not attend her wedding without a vaccine. Um. No. She should just be glad someone wants to marry her fat, loud, obnoxious bully ass. Don't understand. Different talk. The 10 phases of genocide are here.

The conservatives and people who refuse the snakes death shot will be put in camps within the next year. As more time goes by the restrictions are becoming worse not better. But that's what you get when Chicoms are running our country. But hey, live in pajamas , watch kiddie porn(cuties...a dam sin ) on Netflix, eat an abysmal diet while you wait to be saved. As you stare at your peloton that everyone has but no one uses. Only the strong will survive this. But first we need civil war to get rid of Chicoms and ANY foreigners who do not want to uphold the constitution of the United States of America. The most important having body sovereignty.

## Astonished

The other day, I checked 5G coverage in my extremely rural area. It's nearly fully covered by AT&T (Cricketwireless is also owned by AT&T).

Posted On 01/31/2021

---

## RemingtonL

You are spot on! Also, regarding 5G being in rural areas, it is in the long range as AT&T, TMobile & now Verizon have added new spectrums (mostly in the 600MHz range) to 4G towers. Those frequencies go up to 10 miles, used to be that living several miles from towers was safe but now it's like everyone is being hit in all directions. Interesting is how these upgrades went up in most areas just over a years ago and even the smallest towns/rural areas had them by last Spring. Also the Starlink satellites going up increasingly over the past year likely adds to similar effects, especially for those with comprised immune systems. I've heard that many who have been effected by EMF's and sensitive to RF have had symptoms of the CV and most don't even go out, also their family members didn't "catch" anything. Hmmm

Posted On 02/01/2021

Posted On 01/31/2021

---

## **Dr. Steven**

Thank you Dr. Mercola for more in-depth information needed to assess the risks of these experimental, rushed "vaccines" as the mainstream media, Big Tech, and sadly the government and even corporations and business join the bandwagon for mass vaccinations. The problem remains: Big tech censorship of alternative, science-based views and natural health responses to Covid-19. In addition, Big Pharma, mainstream media, and governmental collude to promote the "safe and effective" narrative to encourage more people to accept these vaccines.

There is a lot to digest here, but along with other recent, fact-checked articles on the dangers of these vaccines, there is solid evidence here to at least call for an objective investigation of Dr. Mikovitz' claims and a debate between experts who advocate and those raising alarms about these vaccines. In a normal situation, in which we still respected free speech, this debate would be occurring and openly.

My wife and I will absolutely refuse to accept these vaccines, regardless of the personal costs if this becomes "mandatory." Life is sacred. All of our efforts to protect our health could be for naught with one "jab" of these toxic poisons. What continues to be lost and ignored in these ongoing debates over "Covid-19" (the disease with a 99.5 percent recovery rate that somehow warrants mass vaccinations!!) is the essentials of natural health, including nutrition, lifestyle, and supplements, as Dr. Mercola notes towards the conclusion of this article. We must continue to fight for our freedoms. This is not going away. Too many otherwise intelligent people naively think these vaccines will "end" this "pandemic" and allow a return to "normal"; sadly, most know nothing about the Great Reset agenda. Fight: speak up; make contacts; make your voice heard before it is too late and this garbage becomes mandatory.

Posted On 01/31/2021

---

## **Kevin131**

Is it even a disease, or is it the immune system fighting 5G radiation poisoning?

Posted On 01/31/2021

## Astonished

Kevin: I am wondering how the self-proclaimed "elite" are protecting themselves from 5G. Unless they go underground like the Morlocks, there must be a trick...

Chances are they are already on their private islands new New Zealand with no 5G and their appearances are deepfakes.

Posted On 01/31/2021

---

## mirandola

Dr Steven, I think part of the solution re the censorship is for new, non-censoring platforms to be created by proactive people who are techies. We must be the change we want to create ,as Ghandi said! Good man. As for the backup facts to the predictions of mass deaths, which Judy Mikovitz is far from alone in predicting, below are some links. (Dr Sherry Tenpenny MD, Prof Dolores Cahill immunologist working alongside the EU developing pharmaceutical drugs, Succharidt Bhakdi MD top level microbiologist in Germany, and others are all predicting TENS OF MILLIONS of deaths from these vaccines due to autoimmune attack and thereafter, being exposed to a live virus, the autoimmunity goes crazy and will kill many people.

Dr SImone Gold did not make a definitive statement, but did ask "what if" 30 million people drop? The state of affairs is very deeply serious!! People need to be imprisoned for crimes against humanity). [vaccineimpact.com/2021/cdc-329-recorded-deaths-so-far-following-experi..](https://vaccineimpact.com/2021/cdc-329-recorded-deaths-so-far-following-experi..) 329

deaths from coronavirus vaccines after only a few days, according to the VAERS database. They say that the reported deaths from vaccines reflect merely 1% of the true figures.

[www.bitchute.com/search](http://www.bitchute.com/search) having convulsions after vaccine&kind=video woman convulsing and paralyzed post vaccine, caution, this is not for the faint of heart

[www.anhinternational.org/news/anh-feature-searching-for-answers-in-the..](http://www.anhinternational.org/news/anh-feature-searching-for-answers-in-the..) the Alliance for Natural Health says that based on the percentages of deaths in these so called "Vaccine" Studies, that the deaths now being reported, reflect 1% of the true figures. What a sad, and awful, state of affairs. I worry for my loved ones now more than ever before, and far more than from the coronavirus. My hope is in the fact that eventually the truth comes out. Can we prevent all pain, death and suffering? Probably not. But with truth will come legal consequence

Posted On 01/31/2021

---

## Chopwi

Outstanding interview with Dr. Mikovits. I decided a long time ago NOT to get this vaccine.

Information is available if people would just do a little research. Virus mutate too quickly for any vaccine to be effective.

[www.ncbi.nlm.nih.gov/pmc/articles/PMC3335060/?fbclid=IwAR3BzVZAIx3woGL..](http://www.ncbi.nlm.nih.gov/pmc/articles/PMC3335060/?fbclid=IwAR3BzVZAIx3woGL..)

Posted On 01/31/2021

---

## rrealrose

Yes, that was published in 2012. We are seeing mutations occurring faster pace, usually a sign the virus is running out of victims and perhaps trying new ways to bypass vaccines...and it also may mean the virus is on its last gasp for new hosts, and may be out of here by the end of summer or thereabouts.

Posted On 01/31/2021

---

## **JGB123**

That is the truly scary part of this...people are blindly trusting these pigs. I have a friend that is an RN, had covid (was like regular flu) so now has antibodies. She got the injections! "Thought I should cause I'm a nurse" was her blind faith statement. I could just cry...if these injections cause half the problems everyone here is saying, I will lose most of my family.

Posted On 01/31/2021

---

## **britcarguy**

Thank you, Dr. Mercola for educating us.

Posted On 01/31/2021

---

## **scottevani**

I'm just wondering when the health problems arise from these "vaccines", that they won't blame it on something else like a different strain of who-knows-what and then double-down saying stronger or more vaccines are needed. That seems to be the logic they work from.

Posted On 01/31/2021

---

## **Randyfast**

It looks as if you understand the 'game'. The last thing that they'll admit to, is that their poison jabs

are harming anyone. At the present time, it's easy for them - just blame it on covid! I just heard of more than half the people in a "care" home dying...They say, from covid. They are the ones who got the "vaccine" first. I would bet my last dollar that the mRNA garbage killed them! Don't forget that the flu shots are also being distributed...Double Whammy!

Posted On 01/31/2021

---

### nan2670

StanleyBecker~ Yes the Lord did address the serpent in Genesis 3:14 & 15 "And the Lord God said unto the serpent, Because thou hast done this, thou art cursed above all cattle, and above every beast of the field; upon thy belly shalt thou go, and dust shalt thou eat all the days of thy life:" Genesis 3:14 "And I will put enmity between thee and the woman, and between thy seed and her seed; it shall bruise thy head, and thou shalt bruise his heel." 3:15

Posted On 02/06/2021

---

### stanleybecker

nan - the Lord cursed the Snake as an aspect of anthropomorphism ~ remember the Snake in the Garden had human qualities and could talk to Eve - this has a symbolic quality and equates human behavior with snake like behavior - in ancient times the snake was considered a great danger far worse than today - the snake also was believed to have eternal life because it sloughed its skin - there are many reasons that the snake was used to symbolize "evil behavior" and applied to the Fall of Man but the purpose of the snake was to illustrate "evil behavior" as God did not suggest that the snake could ever be transformed and progress to a higher plain on the contrary God reified the snake as condemned to "crawl on its belly and eat dust" which was what the zoological snake did anyway

## rrealrose

If you noticed, its the over 65 crowd that are rushing off to be vaccinated, those who watch tv news. Yet there is no safety trials run, and no phase 1 or 2 trials run on that older age group. Have the boomers turned into a bunch of lemmings?

Posted On 01/31/2021

---

## mirandola

gardenmad, I laughed out loud at the mention of us all living in an "Insane asylum". Well said! !!! Thank you. (But it's really not funny, and nobody has any permission to quote me out of context! Woof). I will cross post here, since this is important. I say, wherever the statement is "submit or

else! Side effects be damned' this is violence. And to invoke that one magic word, violence, will have the vaccine giver back down....almost guaranteed. Because If anybody thinks they may likely have a side effect, no matter what the official literature says, we have every right to Just Say No. Further, a doctor/friend told me that wherever vaccines are rolled out under emergency declaration, there is a law forbidding mandates of the vaccines. Just Say NO if that is what you want! It is our choice, and if the "law" forbids it, it is time to invoke that magic word, "violence', above and protect yourself. Threaten to sue the vaccine giver, his or her own self.

Gardenmad, you wrote: "Absolutely disgusting that they putting these things out as if they are candy. Very dangerous" This is why I have posted questions for Dr Fauci himself. I saw right through this from the beginning. I think he knows a thing or two about immune physiology, how about all the rest of us? I wrote, and will hereby write again:

Dr Fauci, I have some questions for you. Are you telling us that you do Not know, that wherever a foreign substance binds with a cell, that the cell is treated by the immune system as "non-self" and the immune system attacks it? Are you telling us Dr Fauci, that you are not aware of the fact that polyethylene glycol is an explosive, derived from petroleum, and what the Material Safety Data Sheet says about it, and that it can and does cause anaphylaxis? IF the answer is no ,then please accept our friendly invitation for you to retire with your feet up. Now Dr Fauci, are you telling us that you are fully aware of these things, and that you do not deny knowledge thereof? Then please go to life prison. Dr Fauci, here is a third question. Aware or not, is the nation's wellbeing under your watch? Are you responsible? Then given the rollout of these mass experimental biological agents, falsely and misleadingly called vaccines, then please go to life in prison.

That's it. Please pass word along widely, using your own words and your own name to it. These concerns belong to the public, not to me.

## ScanKat

They cannot mandate this shot in health care or anywhere at this time because it has only Emergent use approve by the FDA (federal death Administration) It will take 2 years at least before they have the data to get the full approval. I pray enough drop that the nightmare of mandated poison never happens. Pray one and all.

Killing the most vulnerable is only the appetizer. The “useless eaters” will be next, and the enforcers, the useful idiots will come last. (Of course, the death camps will be concurrently operating, populated by the non-compliant for the further improvement of medical and torture experiments). Wait until the superbugs coming from antibiotics-overuse, obsessive disinfectants, and muzzle-wearing (at this point, sometimes multiple muzzles!) kick in! That will be the real pandemic, as it was according to Fauci in an article published by the CDC in 2008 about an exhumation determining the causes of deaths in the 1919 “pandemic.” (95% was bacterial pneumonia, probably caused by the omnipresent muzzle at the time).

## Kevin131

Covid19 is the greatest act of witchcraft ever since Babylon, by big pharma, and big tech is on the ticket because EMF radiation is part of the witchcraft. Useless vaccines, to treat diseases caused by EMF poisoning, the vaccines make the problem worse, the media is paid off to kept the lies going. When people realize it's a huge fraud, the real pandemic cause is EMF and electrification of our environment, big tech realizes their whole wifi access business model will be castrated for safety, vaccines will be exposed as useless and harmful, so these global murderers causing the problems, are desperate to scapegoat, so they OCD the antivaxxers, the antiwifiers, and call us innocent objectors, witches, villify us like witches, and hunt us like witches, and just like Matthew Hopkins, they're the ones using witchcraft -lies, fraud and harm of a demonic nature, to accuse the innocent.

The witches have convinced the world, that everyone not wearing a mask...is a witch, everyone refusing a vaccine, is a witch...when big tech, the media and the medical systems ARE THE WITCH CRAFT practicing scumbags. The irony is not lost on the informed and just and your outrage is righteous! Bill Gates, Fauci, Rockefeller, Soros, all witches...in real terms. Not only do they worship the devil, they embody the mentality of practicing and using lies, fraud and poisoning of a demonic nature, and big tech and media, the blasphemous soothsayers, the public relations arms of the witches...corporate witches. And they have the nerve to set up a globalist witch hunt against the good Christians who are innocent and speak the truth. These Satanists don't have enough money to avoid being sent to hell, everything they do will have to be dismantled, and the witches practicing witchcraft and running false witch hunts will burn in hell soon enough.

## Astonished

Not paid off; intimidated and conditioned, which are cheaper and more likely to work. Based on the \$900m bribe offered by the IMF to the President of Belarus (he was the only political leader who rejected it) for starting the hysteria suggests that some politicians have been paid off. The President of Burundi, however, died of a "heart attack" only two weeks after a goat and a papaya tested "positive" and he kicked out the WHO.

Posted On 01/31/2021

---

## Good\_Hands

Kevin, I agree that 5G is causing far more problems than many would like to acknowledge. But see my comment above about witches. Let's find a different analogy than witchcraft, as most practicing Wiccans do not fit the profile that Hollywood has taught us to conjure when imagining how a witch looks and behaves. I know a number of Wiccans, and they would be offended by this analogy.

## CokeCola777

YOU SEEM TO BE HELPING FAUCI, RATHER THAN MULLIS. Gallo and Fauci prescribed a chemotherapy toxic drug as a cure for AIDS. Kary Mullis: "We have not been able to discover any good reasons why most of the people on earth believe that AIDS is a disease caused by a virus called HIV. There is simply no scientific evidence demonstrating that this is true. We have also not been able to discover why doctors prescribe a toxic drug called AZT (Zidovudine) to people who have no other complaint than the presence of antibodies to HIV in their blood. In fact, we cannot understand why humans would take that drug for any reason. We cannot understand how all this madness came about, and having both lived in Berkeley, we've seen some strange things indeed. We know that to err is human, but the HIV/AIDS hypothesis is one hell of a mistake. The ABC's Nightline approached Mullis about participating in a documentary:

The show was superb, and represented a historic turning point, possibly even the end of the seven-year media blackout on the HIV debate. But it still didn't fulfil Mullis ultimate fantasy. "What ABC needs to do," says Mullis, "is talk to [Chairman of the National Institutes of Allergy and Infectious Diseases (NIAID) Dr. Anthony] Fauci and [Dr. Robert] Gallo [one of the discoverers of HIV] and show that they're assholes, which I could do in ten minutes." But, I point out, Gallo will refuse to discuss the HIV debate, just as he's always done. "I know he will,". "But you know what? I would be willing to chase the little \*\*\* from his car to his office and say, 'This is Kary Mullis trying to ask you a goddamn simple question,' and let the cameras follow. But here's a Nobel Prize-winner trying to ask a simple question from those who spent \$22 billion and killed 100,000 people. It has to be on TV. It's a visual thing. I'm not unwilling to do something like that." Celia Farber, Spin July 1994

## **Pete.Smith**

Hi Lakhana13. The advice from the article. Lower the inflammation as much as possible, like: - improve glutathione with for example with taking NAC - block glyphosate uptake by taking glycine, avoid food with glyphosate. - Taking ketones, avoiding junk food, like fried food (oxidized oils like LA) no fructose There are more ways to lower inflammation, google it or see other dr Mercola articles ~ Mikovits also recommends taking Type 1 interferons. I quote: "We know that's dysregulated in people with HIV, with XMRVs, with aberrant retroviral expression. Those people can't make interferon. Type 1 interferons can be provided in a spray that you can spray directly into your throat, your nose, and that will give you the protection you need so that the virus doesn't [replicate]. It degrades it right away ... " (end quote) ~ So I think interferon could be helpful after vaccination. But where can we buy interferon to take orally? Some suggestions please.

## **Perfessor**

If I would be forced to get vaccinated, this is what I would do: I would first pump up on supplements, especially D3 & zinc. Then just before and immediately after the shot, I would take

'MMS', which is chlorine dioxide, 3 activated drops. For this vaccine I would continue using it according to the 'Protocol 1000': three drops activated, every hour, for 8 hours. However, best if one started this before receiving the vaccine, starting slowly with one activated drop per hour, then the next day two activated drops and then on the third day three activated drops per hour. It may be that the chlorine dioxide gives a bad reaction in the beginning, then one has to dial it down for a while, until the body can tolerate it. Since chlorine dioxide works against so many ailments, it cleans out the body, and if someone is toxic or has underlying health conditions, then it will cause a Herxheimer reaction. I am using it daily, three to four activated drops, with no ill effects but I know of a woman who started with three drops activated and she had digestive problems for 5 months. Maybe she had an underlying condition?

---

## rflagg249

This is exactly the kind of information we need to make an informed decision as to whether to get this vaccine. The government's and media's big push is that this vaccine is a miracle that will save us all from nasty deaths. There is absolutely no mainstream coverage of the bad reactions and even deaths resulting from these vaccines. They don't even acknowledge that there could possibly be any downside. They even seemed to be making it political. When the Big T was in office and fast-tracking the vaccine, they were telling us not to rely on it too much because it might not offer immunity for long. Now that we're past January 20, there's no more talk of the limited immunity. The vaccine is so wonderful that it will take care of all variants, while those who built immunity naturally through exposure to the virus won't be safe from variants. Summary: I appreciate Dr. Mercola adding some balance to the vaccine discussion.

## rrealrose

Last night, reading the WashPost free coronavirus update, (not Dr M's favorite editor who is out to get him) they reported about someone worried about her 80 yo father with Parkinsons not having access to the vaccine. Had just finished listening to this interview a second time, as Judy packed in a lot of details. What to think about the ability of the govt. (HHS, FDA, CDC) to communicate the dangers here? Unknowing by omission? or deletion by default? Is this another Hurricane Katrina response, yet worse this time around? All my little gollem has repeatedly said is "if you are allergic to any ingredients in the vaccine, don't get the shot". He said NOTHING about autoimmune conditions, cancers, or any other degenerative disease like MS, Parkinsons, or ALS. Nice huh? Currently estimate that about 1/4 of all Americans may fall under these categories.

Posted On 01/31/2021

---

## ElaineSc

I agree with Dr. Mercola towards the end of the interview with Judy Mikovits, Ph.D. when he told her

that she is an angel. In these trying times, I take comfort in the thought that we have been blessed with many people like Judy Mikovits, Ph.D. and Dr. Mercola who do the work of angels. We need to all get on board and assist with this knowledge that we have by sharing it with our elected representatives and our families and friends.

## **Edystone71**

**What is absolutely fatuous about eugenics supposedly being activated by an intelligent person, is that a 10 to 15% reduction in the world population is both a ludicrous and completely unnecessary project. As the Rev Arthur McCormack puts it: the Malthusian pessimists are in conflict with the real experts. Malthusianism is where Eugenics originates and this whole theory was abandoned during the last century. The experts estimated even then that there are enough resources on our own planet to**

support a population of at least 50 billion and some would say much higher even up to 100 Billion.

To reach 50 billion at the rate of 1 billion every ten years would take another 400 years barring exponential increase because we are on the threshold of a Maunder Minimum (or mini ice age) predicted to last 60 to 80 years and which will reduce the world population by at least 40%. And guess what Maunder Minimums come around every 250 years. Couple that with the antibiotic apocalypse, which has been discussed on Mercola.com before, from the evidence of ancient history 95% of the human race could be wiped out within the next 100 years. Because that has happened before -- several thousand years before the Incas of Peru. And there is a pack of relics giving evidence to that in a USA museum.

Take that a step further and look at the extent of the human race which has been around for the last million years and it is quite evident that population fluctuations of the human race have been a huge characteristic for a very long time. In that last million years there have been five major ice ages two of which were separated by 200,000 years. Now it takes little more than 200 years to get from the horse and cart to the Internet including the discovery of antibiotics. So how many times have we had computers and mobile phones and A.I and so on well before our era? Read "Confessions of an Economic Hit Man" by John Perkins and you may learn a lot more about the "Situation" now.

## Happytraveller

We are so Happy with your website and all the references you are providing. Because now a day here in the Netherlands everybody is rushing to get that "gene therapie" we call it Vaccine and after following you nearly every day from February 2019 we feel so bad about it. Certainly we are going to avoid it but we love cruising and then we can't board without a "Vaccine" probably .We nearly always have to fly in from Amsterdam. Thank you again Dr Mercola for all this pure and honest information. We do feel much obliged.

## Soup1951

I graduated in 1975 from nursing school. I'm a retired RN. I'm puzzled by those who say that this virus is just a normal flu. Then what explains the over-flowing ICUs,full hospital beds, overworked doctors and nurses in 2020. . Did this happen in 2019,2018,.....1975? As a nurse I never saw this much sickness in the past 46 years. Yet some people are saying this is not a severe virus? Then what is it? Go to your local hospital and ask the doctors and nurses if they think this is just a common virus? Some of you , get your head out of your books and look around you. Stop fooling yourself!

## scintilla1

Scientists like Mikovitz and others speaking out are putting themselves in the cross-hairs on behalf of others. Someone mentioned efforts to create independent media and new initiatives to build the society from the ground up. When I checked on the "Greater Reset" site today I noticed, superimposed onto the website's lock icon, a little yellow triangle with a white exclamation point in it. Click on that and you'll see a notice saying that some parts of the site are not secure. Anything that depends on the existence of even a 'secure' website can be targeted for takedown.

Building secure internet freedom is difficult. MeWe was supposed to have free speech but I read that censorship is beginning there too (I think the site was sold). Tim Berners-Lee, copyright holder of the World Wide Web, is working on a new version that will give people secure pods to protect their data. I hope that works, but notice some investors seem to be media companies.... And Dr M has stated that he is going to be setting up a blockchain site. Said not to be removable. (Does that mean that you can't edit anything after posting it?) And then there's OnPassive, which is developing an internet 'ecosystem' as a business – here's hoping that may prove to be strong enough!

## Tempest21

Pet Rock, this is an excellent overview of the mRNA gene therapy (aka "vaccine") theory. 'Dr. Vicky Forster' is being a bit glib in understating the very real dangers in this technology, and if there's a covert attempt to re-engineer the human population, this would definitely be the method to do it. She might have also been paid handsomely to be a big pharma cheerleader, and I question whether she's even a legitimate researcher. Nonetheless, check out this great piece from naturopath Dr. James Odell: [www.biologicalmedicineinstitute.com/post/covid-19-mrna-vaccines](https://www.biologicalmedicineinstitute.com/post/covid-19-mrna-vaccines) A quote from

the article's conclusions:

"Lastly, mRNA vaccines have never been licensed before, and now they are being administered to millions of people with no manufacturer liability. The public has become the testing ground for this new technology. If these coronavirus mRNA vaccines later prove to be harmful to fragile genetic cellular structures, then that cannot be undone. Essentially, we need a much better understanding of their potential side effects, and more evidence of their long-term efficacy. Vaccine development takes time as the vaccines must not only be proven protective but also safe. Unlike other drugs that are delivered into sick patients, vaccines are administered into healthy patients and thus require very high safety margins. There is still a lot of research that should have been done around safety before mRNA vaccines become used on the public. Unfortunately, that is not what is happening now, and consequently this has a potential to turn into a disaster on a massive scale...."

## 7mercola7

Since the PCR tests have shown to produce mass false positives and negatives, deaths have been totally misrepresented, why is there such a push to vaccinate the whole world over a vaccine that has NO long term studies for a virus that really has no bite or at best, is a bad flu season? Isn't it obvious this is a agenda? I really don't need to know the science of the vaccine to know I don't want it altho reading the science of it further confirms, I don't.

---

## Tempest21

I believe that the J&J vaccine, the Russian Sputnik V, the Oxford University/Astra Zeneca vax, and the Chinese Sinovax are all based on traditional immunology with eliciting antibody production using the common cold virus (adenovirus) as its platform. No severe side effects reported in the Russian Sputnik V, for example: [www.rt.com/.../494361-covid19-vaccine-russia-final-stage](http://www.rt.com/.../494361-covid19-vaccine-russia-final-stage) But it still begs the necessity of any vaccine at all, if this virus is really as benign as it seems.... Some key phrases to search: eugenics, genocide, behavior modification, synthetic biology, re-engineering humans....

## WL4816

[www.usatoday.com/story/money/business/2021/01/30/publix-heiress-alex-j..](http://www.usatoday.com/story/money/business/2021/01/30/publix-heiress-alex-j..) The link is to one of many articles reporting that an heiress to the Publix fortune was the major funder of the pro-Trump rally that erupted into a riot in Washington, D.C. A member of America's de facto hereditary nobility, she's the daughter of the founder of Publix and contributed \$300,000 to fund the rally. At least one person was killed in the riot, and the Feds are looking for some of the riot participants but have shown no interest in the perpetrators/funders of the rally.

As for the COVID scam, Publix is a major player in that it has obtained the exclusive right to distribute the COVID vaccine in each of seven southern states. In Florida, for example, Republican Governor Ron de Santis used his authority as head of the state to declare Publix the sole distributor of it there after the heiress "donated" a six-figure sum to him (Publix may have bribed governors and other public officials in the other six states, as well). Consequently, after this became known via social media, there is a call to boycott Publix stores. Publix is outspokenly pro-vaccine and they've published many ads promoting the fact that COVID vaccinations are available at Publix super markets.

[www.newsweek.com/publix-faces-boycott-calls-despite-distancing-itself-..](http://www.newsweek.com/publix-faces-boycott-calls-despite-distancing-itself-..)

Posted On 01/31/2021

## Vladimira

Trump was also a major player in the vaccine scam. He was constantly bragging about the vaccine and funded its development. Trump plays on both sides. If he didn't, he would be killed by now.

Posted On 01/31/2021

---

## WL4816

Trump had to be a major player in the COVID scam because, as head of state, he had the power to stop Dr. Fauci from perpetrating the fraud. But Trump is a sly politician who pretends to be a populist, on the side of the common people. For comparison, when Obama was president, he seems to have kept Fauci under control, but Trump and Dr. Fauci teamed up to serve as "foxes in the henhouse," leaving the public unprotected from the hordes of pharma predators and medical charlatans that we now have to contend with. This is similar to the situation where the George W. Bush presidential administration, serving the FIRE sector, rescinded all regulatory protections against financial fraud and unleashed hordes of financial predators upon the public.

## HealthiestChoices

Hi, DebraC043~ I am sorry to hear you are suffering so much with Tinnitus. Do you take any supplements? I too, have it quite badly 'most' of the time. It started sometime back in the early 80s if I remember and lately, it's become so much more annoying, especially at night when I'm trying to go to sleep and the screeching noise just won't quit. I also am definitely against all vaccines, and take no meds. I'm a senior and have tried to maintain a healthy lifestyle for nearly 45 yrs.

One of my main concerns about the mandated vax. is that being totally against it, I also don't want to end up in a 'non-conforming group facility' that is could no doubt happen. I don't know if Tinnitus will be enough of a complaint to be considered an exemption? And how can you prove it, OR some of the other things mentioned? I haven't seen a Dr. in over 6-7 yrs. and I'm already nervous that I keep receiving ins. co (Medicare) notices wanting me to have a home nurse visit along with other options. I don't have time and don't want a nurse here trying to tell me how to stay healthier. Blah! Lakhana13~ Thank you for the suggestions. I'm aware of a couple and will check out the links as soon as I have a few extra minutes. Bad as it is normally, when I've been exposed to loud noises, it's even worse.

## **epa1375**

"Many die of unknown causes within days, sometimes hours of getting the first or second shot.....Yes, absolutely," she says. "That's one of our hypotheses. But also, anyone with an inflammatory disease like rheumatoid arthritis, Parkinson's disease, chronic Lyme disease, anybody with an acquired immune deficiency from any pathogens and environmental toxins. Those are the people who will be killed, murdered, by this vaccine, and Anthony Fauci knows it ... I can't even sleep [because of] how evil this is. This is so deadly, I can't scream it loud enough from the rooftops.".....All of this is eerily reminiscent of previous attempts to create a coronavirus vaccine, all of which failed due to the vaccines causing paradoxical immune reactions, or antibody-dependent immune enhancement." Dr. Peter Hotez Explains The Dangers of mRNA Covid Vaccines...SAFETY PROBLEMS WITH CORONAVIRUS VACCINES, DR. PETER HOTEZ [www.bitchute.com/.../io37Wag6xpiC](http://www.bitchute.com/.../io37Wag6xpiC) He says "Now the GATES Foundation is taking it up AGAIN!"

Of course Dr. Fauci knows better. He has been entrenched in killing millions of people all over the world since around 1980. He and Gates are eugenicists and are shocked that people are speaking poorly of them: Bill Gates Wants The 'Evil Conspiracy Theories' About Him & Dr Fauci To Go Away. The Microsoft founder said on Wednesday: "Nobody would have predicted that I and Dr. Fauci would be so prominent in really kind of evil theories about – did we create the pandemic, are we trying to profit from it?" He added "I'm very surprised by that....I hope it goes away." .... But he noted that there are "millions of messages out there" targeting him and Fauci, and he hinted that censorship may be needed to combat them".....This is unbelievable. Known eugenicists who have killed millions all over the world, are surprised that people speak ill of them???? [newspunch.com/bill-gates](http://newspunch.com/bill-gates) "censorship"??? Now he wants to take away our freedom of speech. Wow!

Posted On 01/31/2021

---

## Randyfast

There will be many spaces opening up in "care" homes - globally! Once those people get injected, there will be more spaces opening up! That sounds like a solid eugenics plan to me. We have similar reports in Canada...of course, it's all blamed on covid!

Posted On 01/31/2021

---

## evelyne15

I have followed Dr Mercola for many years and his articles on health, building a strong immune system and wellness have helped me and my family over the years.

However, my husband is 53 & has an autoimmune disorder called Myasthenia Gravis & has 1 kidney as he donated 1 to his sister 15 years ago.

He is otherwise healthy, takes his vitamin D - goes to acupuncture, takes Chinese herbs & sees a natural nutritionist & eats organic food where possible

BUT when he gets a flare up which could be once a year every muscles in his body including his speech ' swallowing are affected because of MG & he has to take prednisone - he is also a teacher

If he got COVID not sure what the outcome would be as his muscles in chest would be affected no different if he got the flu but COVID is just more contagious

What is the better of 2 evils for the vulnerable . . To get COVID or get the vaccine ?? as these are the people who will end up on ventilators or dead

We know 99% of people will not die but issue is hospitals being overwhelmed & unable to cope with high number of patients all at once & unable to care with patients with heart attacks, cancer etc etc

COVID & the Vaccine can have long terms affects and do damage to the body . . So my questions to . . which is better for my husband and 1,000's of other people with an autoimmune condition . . . the Vaccine or getting Covid ? ?

Posted On 01/31/2021

---

## holbr148

I heard someone say just say no to the vaccine but that may not be the case if the disease was cancer & it doesn't infect anyone else that is true but in case of an infectious disease there is already some Supreme Court precedent on forced vaccinations. We need to strengthen individual rights to decline. After all if your vaccination is going to prevent the disease for you why are you worried whether or not I receive it.

Posted On 01/31/2021

---

## JGB123

Kevin131, this is the first I've heard you cannot obtain herd immunity against viruses. So the flu injection (sold to the sheeple as "vaccine") is more or less for what? To reduce symptoms? One more question: wouldn't it be called immunity if you have had a virus and developed guardian antibodies? This is confusing to me; my hope has always been development of herd immunity eventually, regardless of big pharma's stepping in.

Posted On 01/31/2021

---

## scintilla1

According to Dr Bhakdi, most humans already have a significant level of immunity toward the general family of 'coronavirus'. He explained how immunity actually works. It's not the antibodies, which once locked in with a particular receptor stay there and don't help again; they are not always circulating either but are produced when needed. The biggest defence is the killer lymphocyte that will destroy a cell infected with the particular target protein, then move on to the next infected cell and destroy that too. [Is that what happened when the previously-healthy doctor in Miami died?

Somehow the platelets in his blood became the target cell type. Infusing more didn't help; they kept on being destroyed in classic auto-immune reaction. He had none of the conditions that could have resulted in platelet loss. My query -- Dr. B. did not reference that particular case.] Bhakdi concluded with the statement (my transcription): "The Dear Lord did not want us injecting foreign genes into

the body because the Dear Lord made these killer lymphocytes to protect you already." I won't post a link here; people should still be able to find interviews by him.

## **wallguy**

Final Report Jan 2021 (Attn reader! This is fictional, made for TV Theater) So what happened? Well, by our accounts, a lot of people just failed to die. Our early projections are proof of reliable science. Our job is to warn the public health authority. We have thousands of highly skilled and trained experts working diligently to fulfill quotas. When leading experts agree the only way to inhibit spread is test every living thing by thrusting a foot long Qtip into the nasal cavity till it touches cranial region, hold for ten seconds and remove for microscope testing. We then determine scientifically nothing absolute. But advocate we shall insist a mandate your returning to be part of the experiment, whereby the current prevention is to jab unproven inoculants into the masses. We do that with reassurance of safety for your health. & While this note is dire and fictional. We all hope and pray for greater divine interventions. As I noted once before. The Titanic was marketed as unsinkable and as safe as Mothers milk. "One person's view of madness," "is another person's reality." (The current situation)

## **glosgal**

I was wondering the same thing. Does this apply to the Oxford vaccine. I have a doctor in the family and he has willingly had the Pfizer one, I'm so worried for my daughter who luckily can't have any while she is pregnant now...but what of the future? So worried.

Posted On 01/31/2021

---

## **hellbent**

glosgal - divert that energy and brain power from worrying to educating yourself and others. Worry and fear weaken your immune system. If only for that reason, stop worrying! Start planning. start implementing.

## **Lakhana13**

Any of the ones using an mRNA technology (synthetic nucleic acid base) will be the same no matter the manufacturer.

Posted On 01/31/2021

---

## **Goldilocks1**

Thanks, Lakhana 13 - it seems that the AstraZeneca shot is a "viral vector vaccine" and uses a different technology, not mRNA. Maybe it is a better option but I'd like to read Dr Mercola's opinion of it.

Posted On 01/31/2021

### **shangrila114**

Goldilocks, the "warning" is specifically for the mRNA vaccines only. And yet, Dr Mikovits' warning applies to all vaccines in general, as she seems to say many of these vaccines are using contaminated cell lines. Moderna and Pfizer-BioNTec are the only mRNA vaccines currently being made available. The Oxford-AstraZeneca does not use mRNA vaccine technology. It uses a viral vector - the chimpanzee Adenovirus. I cannot comment for or against. Nonetheless, all vaccines are yet in the experimental stage. So, you would need to use your discretion. If you are consenting to a vaccine, make sure you are well informed of the pros and cons. You are entitled to "informed consent". I am not taking any vaccine that is yet "experimental".

My understanding is that these vaccines cannot be mandated yet, as they are yet "experimental". Also, none of these vaccines would be able to contain the spread as they have not yet been able to invent a failsafe vaccine technology that will work against respiratory viruses. The manufacturers only say the vaccine will reduce the symptoms of infection. This remains to be seen. The spread will be self-limiting as with all virus spreads. Any mutants may or may not be worse, even relatively harmless ... remains to be seen. Personally, I don't believe vaccines are necessary at all if you make sure your immune function is robust. It is a matter of the perspective you hold, and your own

risk assessment and risk tolerance. Hope this helps.

## nothingsound

Las night read an article stating the Moderna "vaccine" have an operating system within them. The "they" can upload new information into the system. (The Voice of Freedom) '...has actually published on its website that this is true. The mRNA vaccine injects an "operating system" into you body that it calls "The Software of Life." Trying here to do more research on this. But when so much is taken down from sites, it's hard. So if any one else out there has information on this, I would appreciate a direct send to me. Several people I know that are swallowing the whole 'let's get vaccinate' and this is because hardly any one is using their due diligence. Please note I haven't yet research "The Software of Life" as I post this.

## zon9850

As Dr Mercola started to come up with certain 'conspiracy' stories about Covid, like this Dr Mikovits, I must admit I almost dropped out of his website. I'm Dutch, now living Ireland being a retired social cultural antropologist researcher/ scientist. I had to go through Coma's, after a total blood transfusion because of stupid neglect after a standard operation. During the coma's, I was on ventilators twice for 13 days in total, during which I suffered a heartattack, lung decompensation etc. They missed a severe brainbleeding! 3 Years of rehabilitation it took!

An enormous fight, as damaged as I was, with some hospital idiots, to get me off 40 pills a day, not knowing from each other who was describing what and why! But that was only the start.... now leaving me dying of severe Polyneuropathy. As due to later intoxication with corticosteroids (Sheehan effect causing Addisons..but wrong diagnoses again!) caused unknowingly Diabetes, Polyneuropathy, but also developed horrific Cluster Headaches, Trigeminal troubles etc.. Terribly damaged by BigPharma and certain medical psychopath specialists! First I studied Psychopathy (Jan Storms helped me deal and heal) and I decided to quit ALL Big Pharma, even Opiats allowed for the severe nerve damages.

I was given 2,3 years! This was 10 years ago. I live a simple, almost off-grid, healthy permaculture lifestyle in the quiet countryside. Finding my natural way, using methods like Ayurveda, Old Chinese, Russian to native Indian remedies. I meditate, Qigong, sing, breath etc. I love Me and my Life now.. Covid came along, I became suspicious, started researching. Now, after a year Lockdowned, hostaged in beautiful Eire but "governed" by the most dangerous Psychopath Civil Servants and MSM..in contact with the best NOT BigPharma biased, shunned, ridiculed, harassed Scientists. I never heard of Dr Mikovits a year ago. I do not even have to see Plandemic.. Being SelfConscious and Aware-Awake, you Sense, you Smell, you See it All.

**joang18**

Im listening very carefully to everything you are saying and do not plan to get this vaccine. I was just wondering that if the encapsulated mRNA can last in the body for so long, why does it need to be shipped at below freezing conditions to maintain effectiveness?

Posted On 01/31/2021

---

**epa1375**

joang18....."Since mRNA normally rapidly degrades, it must be complexed with lipids or polymers. COVID-19 vaccines use PEGylated lipid nanoparticles"...They just need to keep this nanoparticle together so the fragments won't degrade before it gets into your body. The polymer does that. It must be frozen so it won't melt. Once inside your body the viral protein is released and gets into

your cells where it will began to insert itself into your DNA... The same mechanism used by HIV. In fact it uses a HIV spike to do just that.

## mirandola

Dear Dr Mercola and Judy Mikovitz: I read on the CDC's website that those people with environmental illness and other conditions should all get the vaccine. They are saying that only those with anaphylactic responses to polyethylene glycol and polysorbate 80, and naming conditions with similar symptoms to the side effects from the vaccines, should not get the vaccine. I find this truly short sighted thinking. The mainstream "Doctors" are not thinking about the pure physiology involved in many kinds of conditions. They would seem to merely think about only the symptoms themselves, as being a concern. And they are not generous at all with regard to those in vulnerable groups, being considered vulnerable. [www.cdc.gov/coronavirus/2019-ncov/vaccines/safety/allergic-reaction.ht..](http://www.cdc.gov/coronavirus/2019-ncov/vaccines/safety/allergic-reaction.ht..) What is your response to them and this kind of thinking?

(A message to mainstream doctors, this gives me less and less faith in mainstream medicine. I think doctors have a pure responsibility to their patients, to think). How are people supposed to know that they have an allergic response to polyethylene glycol especially when it is injected? (This strikes me as criminal,, all interested readers see here [www.emdmillipore.com/US/en/product/msds/MDA\\_CHEM-807485?ReferrerURL=ht..](http://www.emdmillipore.com/US/en/product/msds/MDA_CHEM-807485?ReferrerURL=ht..) ). And what would you say, and what do you suggest we say, to people who think that the safety oversights are to be trusted? Thank you for all you have so bravely done and all that you continue to do. We appreciate you.

## **glosgal**

**Hellbent . I am educating myself...that's why I worry, knowledge gives you the insight and the fear of what's to come. I try to tell everyone but they don't believe me, they believe the propaganda. Some can be quite nasty about this. They believe that our government will help them, and save them! God help us.**

Posted On 01/31/2021

---

## **hellbent**

**glosgal - very glad you are educating yourself! I don't know your character, obviously, but try to find an approach that suits your personality. eg treat it as a game? treat it as a puzzle to be worked out? treat it as authority defiance? (probably me!) treat it as something you're going to wriggle out of and get the better of those who want to enforce it? Fact is, once you start learning, you gain all these nuggets of valuable information. Amongst the dire bits that maybe you can't do anything about, there are much more valuable bits, giving you truthful, honest, credible information on what you CAN do to help yourself. You can shape the results of what's to come (whatever that is) by looking after yourself and strengthening your immune system. Hope this helps.**

**Re the propaganda - the Spin from the UK Govt and the BBC is unprecedented. Both sides can deal in spin and persuasion! I often deal in these myself in various matters affecting local communities, all for right because that's what I want. Remember that we too can spin and persuade too.**

**However, there is an art to communicating with people. I often say: comms is not about saying what you want but getting other people to react in the way that you want. It's a fine art and**

powerful if created expertly. Also, your message is best kept short as poss. If it can't hit the spot in, say, 5 seconds, then many people will not have the intellectual stamina to listen to anything longer. Things also need to be kept as simple as possible for those with low or lazy intellect. (invaluable when dealing with Politicians and Beauts in Suits who have an incredibly short attention span and often poor understanding and need to be helped to see things properly!)

## ttwdem

Wait...what? Why is Dr. Mikovits' mask book not available as an e-book? So Amazon bought up all the copies and won't release them? Really? Why is it that such things are not anticipated? Have we learned nothing from the Parler incident? Why doesn't Dr. Mikovits have a website where her book can be downloaded? What does she mean by saying that she doesn't have a copy? She wrote it; she has the manuscript. So, make it available on any website as a download. I recently purchased the book "Dr. Andrew Moulden: Every Vaccine Produces Harm" as an e-book because it is out of print. No way we are going to win this fight if this is how easily we are thwarted from disseminating information.

## **Soup1951**

It has been said that masks don't protect people, according to your statistics. But the proof is in the pudding. Trump preached to his followers not to wear masks. At a political gathering at the White House, many contracted COVID. Biden and followers wore masks and there were no reports of COVID-19. Why doesn't reality match your statistics? Even tho these real life examples prove masks to be effective, you still stick to your facts. Why? I'm puzzled?

## **MichaelRO**

I have not had any vax since I was in the Marine Corps 50 years ago. Are there any vaccines that are safe and legit? Had my dog and cat vaccinated for rabies. Any others?

Posted On 01/31/2021

---

## Lotek

"Are there any vaccines that are safe and legit?" That is a question I have been waiting for years to see addressed here. Also: which ones, for which populations, on what schedule?

I am sick of "All of the anti-vaxxers are wrong, all vaccines are perfectly safe and effective," and "All of the vaxxers are wrong, all vaccines are deadly and useless," which is often combined with, "Diseases aren't really so bad." Diseases and vaccines are a complicated subject affecting life, death and quality of life. Fortunately, science has established procedures to sort out the risks and benefits. Unfortunately, people can muck up anything. We need influencers who are willing to apply the science and avoid scare-mongering on either side. This is a huge opportunity that Dr. Mercola could take up.

One thing we have in abundance today is data. Somewhere there is data on every vaccination given which could be cross-referenced to every death, and every medical intervention. There is also data on every death and injury caused by diseases covered by vaccinations. An objective review of the data could make all the connections and point to the factors that may require change, which could be applied scientifically for the best overall outcome. I think Pharma companies would be unhappy with some of the changes, and true anti-vax conspiracy theorists would not be pleased, but human misery would be reduced.

Posted On 01/31/2021

---

## Alldogsgotoheaven

Unfortunately since vaccine manufacturers are protected from lawsuits no one really knows. Even though you cannot sue them there is a pay out for injuries (I read that for the covid vaccine it is

limited to no more that 200k) but along with that payoff comes a nice little non-disclosure clause. That keeps the world from knowing how many people are really injured.

Posted On 01/31/2021

---

## olepedersen05

I don't understand the big fuss about mRNA. Vegetables we consume in large quantities contain mRNAs. Admittedly, they are not nano encapsulated and also don't get injected directly in the bloodstream. Calling this gene therapy, seems like fearmongering. Also the mRNA from the vaccine quickly degrades, once it is outside -70 degress celcius.

The diet we eat influences our gene expression, but surely no-one would call 'eating an apple' for gene therapy. Articles like these will unfortunately cause many people to deny the vaccine. My impression is that Dr. Mercola's articles are generally causing more harm than good, because they focus entirely on the few side effects and completely deny benefits from the vaccine.

Of course it would be nice, if every person on the planet had the optimal vitamin d level, zinc level, B3 level etc., but that just isn't the case. A huge number of people needs this vaccine, whether Dr. Mercola likes it or not.

Posted On 02/03/2021

---

## btossios

Dr. Mercola why did you edit out what she was about to say about hydrogen peroxide therapy? There is an obvious cut in the video at that point.

Posted On 01/31/2021

---

## lee5855

Baking Soda/ ph Can anyone give e more specifics about using baking soda to raise ph? If using it several times a day as Mercola suggests, are there guidelines for how/ when relative to meals, stomach acid, etc?

Posted On 01/31/2021

---

## organicpaul

None of the recommendations in the pH discussion are backed up with references. Be careful.

Posted On 02/05/2021

---

## sanroque

I have read Dr Mercola for several years now and convinced myself I wasn't having the vaccine, but after talking to my Dr who reassured me that he and his staff had all had it & were all OK (only minor side effects) I reluctantly went. My family & friends are all relieved I finally went. I was a very lone voice.
