STORY AT-A-GLANCE

- › The 2022 U.S. Vaccine Damage Report revealed a sobering glimpse into the true carnage that occurred at the hands of the COVID-19 shot campaign
- › COVID-19 shots resulted in 300,000 excess deaths, 26.6 million injuries and 1.36 million disabilities
- › Total economic costs due to the shots are estimated at \$147.8 billion, including \$89.9 billion from related injuries, \$52.2 billion from disabilities and \$5.6 billion from excess deaths
- › A preprint systematic review found the mRNA-based COVID shots increased the risk of myocarditis, with a mortality of about 1 to 2 per 200 cases
- › Evidence of serious neurological harms, including Bell's palsy, Guillain-Barré syndrome, myasthenic disorder and stroke, which are likely due to an autoimmune reaction, was also found from the shots

We're beginning to see the fallout from the mass COVID-19 shot campaign, which has been referred to as the "greatest violation of medical ethics in the history of medicine, maybe humanity."¹

Former BlackRock analyst and fund manager Edward Dowd is one of the few trying to get the word out about COVID-19 shot risks, and he's been using data and statistics to prove his point and publicize the undeniable increase in deaths and disability among young, healthy adults that has occurred since the shots' widespread rollout.²

This group — the 148 million employed Americans between the ages of 18 and 64³ — is typically a healthy crowd. This is why private insurance companies love to sell group life insurance policies to large Fortune 500 corporations and mid-sized companies —they hardly ever have to pay out on a claim. But this is changing.

Dowd's 2022 U.S. Vaccine Damage Report⁴ revealed a sobering glimpse into the true carnage that occurred at the hands of the COVID-19 shot campaign, and its results are striking.

300K Excess Deaths, Millions of Injuries, Billions in Costs

Dowd and colleagues published their 2022 Vaccine Damage Project at their website, Phinance Technologies.⁵ It revealed the following estimated human and economic costs:⁶

Human Cost

- 26.6 million injuries
- 1.36 million disabilities
- 300,000 excess deaths

Economic Cost

- Total: \$147.8 billion
- Injuries: \$89.9 billion
- Disabilities: \$52.2 billion
- Excess deaths: \$5.6 billion

To put this into perspective, John Leake writes on Courageous Discourse, "Note that this death count in one year is 5.2 times the number of men killed in 10 years of combat in Vietnam," adding:⁷

"Perhaps the most extraordinary thing about this state of affairs is that most Americans don't know it's happening. Every day, young people are dying from heart attacks, strokes, and seizures caused by COVID-19 vaccines. Most of their families and friends are led to believe that they just died – suddenly and unexpectedly – of acute conditions that were extremely rare in young people prior to 2021."

The report included data from employed individuals between the ages of 16 and 64, and categorized the impact into four broad groups:

1. No effect or asymptomatic
2. Mild to moderate outcome including a temporary or short-term, long-term or permanent injury
3. Severe outcome that leads to a disability
4. Extreme outcome leading to death

While group 1 was the largest, comprising an estimated 82% of the population, the authors pointed out that these groups are dynamic, and individuals in one group could move into another, particularly in the case of progressing from no or minor injury to severe injury, such as we've seen with [elite athletes suddenly dropping dead](#) on the field:⁸

"While these groupings characterize different levels of damage from the inoculations, they are not static and could interact with each other. For instance, there might be individuals who had

no visible effects after vaccination but nonetheless could still be impacted from the inoculations and could therefore be represented in the sub-group of injured individuals.

In a similar way, individuals with mild injuries from the inoculations could, over time, develop severe injuries to the extent of being disabled, or an extreme outcome such as death. The likely path of outcomes would be from injury to disability to death.

We need to consider, however, that to a lesser extent there could be individuals who suffer extreme outcomes when they had previously only experienced mild injuries until then. We can relate this with the anecdotes of otherwise healthy athletes suffering heart attacks during sports competitions at an alarming rate since the 2021 inoculations."

'The Multiplier Effects Are Massive'

The effects in the report are only what can currently be measured, and are likely to also be fluid. In terms of economic effects, for instance, the report notes that mortuary companies are likely to benefit while life insurers will be harmed, leading to a reallocation of resources.

Meanwhile, in terms of economic costs, milder damage is associated with greater cost, since a larger portion of working age individuals are affected. For instance, those with mild to moderate injury made up a sizeable 18% of the population. According to the report:⁹

"We make the assumption that the pool of potentially vaccine-injured individuals is about 18% of the population, which is, the rate of related adverse events reported in the Pfizer clinical trial (minus the baseline rate). These injuries will likely manifest a loss of productivity since, as these individuals are likely to have higher absentee rates and, consequently, higher lost worktime rates, than the pre-2019 baseline.

In fact, we performed an analysis of absence rates and lost worktime rates¹⁰ in full time workers (using data provided by the BLS). We observed a large increase in absence rates starting in 2020, but accelerating in 2022. Absence rates in 2022 were about 28.6% higher than in 2019, representing a 11 standard deviation variation."

Further, many other economic costs are harder to account for, such as a worker who's still at work but not able to work to their full potential. When these types of scenarios are factored in, the damages could be even more massive. Dowd tweeted:¹¹

"Our economic damage estimates are what we can measure. The knock effects such as lost productivity due to a worker being present but working at say 50%-75% of capacity is missed

plus burn out from those picking up slack. Also supply chain delays are not captured etc and etc. The multiplier effects are massive."

Systematic Review Reveals Serious Harms

A preprint systematic review of papers with data on serious adverse events associated with COVID-19 shots again points to significant risks.¹² The review was conducted by Maryanne Demasi, Ph.D., a former medical scientist with the University of Adelaide and former reporter for ABC News in Australia and Professor Peter Gøtzsche, a Danish physician-researcher who co-founded the Cochrane Collaboration in 1993.

It included 18 systematic reviews, 14 randomized trials and 34 other studies, noting that "most studies were of poor quality" and additional randomized trials are needed. Still, their review revealed multiple red flags, including:¹³

- Adenovirus vector vaccines increased the risk of venous thrombosis and thrombocytopenia
- mRNA-based shots increased the risk of myocarditis, with a mortality of about 1 to 2 per 200 cases
- Evidence of serious neurological harms, including Bell's palsy, Guillain-Barré syndrome, myasthenic disorder and stroke, which are likely due to an autoimmune reaction, was found
- Severe harms, defined as those that prevent daily activities, were underreported in the randomized trials
- Severe harms were very common in studies of booster doses after a full round of shots and in a study of vaccination of previously infected people

Further, not only have drug regulators and public health authorities been slow to follow up on safety signals showing serious harms from the shots, Demasi notes, but, "Population-wide recommendations for COVID vaccination and boosters ignore the negative benefit to harm balance in low-risk groups such as children and people who have already recovered from covid-19 (natural immunity)."¹⁴

Australian Safety Report – 24-Fold Increase in Adverse Events

It's can be difficult to parse out adverse effects from COVID-19 shots and those due to COVID-19 infection. The Western Australia Vaccine Safety Surveillance (WAVSS) 2021 Report, however, shows a unique viewpoint that made this possible. At the time, there was virtually no COVID-19 circulating in the community, yet the area had a 90% vaccination rate among those 12 years and over.¹⁵ Umbrella News

reported:¹⁶

"There are few regions in the world where most of the population was vaccinated before the spread of Covid in the community. Sealed off from the rest of Australia, and the world, for 697 days, WA's closed border earned it the moniker of the 'hermit kingdom'.

State Premier Mark McGowan noted WA's unique role in the global vaccination trial, remarking to a press conference in early 2022, You see, Western Australia is an experiment. We basically have had very few Omicron cases, we have very high vaccination levels, and we have a very compliant population."

So, what happened in an area of the world that had very few COVID-19 cases and very high rates of COVID-19 shots? An "exponential increase" in reports of adverse events following immunization (AEFI), such that it necessitated changes to the vaccine safety surveillance program at the department in order to manage them.¹⁷ According to the report:¹⁸

"The number of AEFI reported to WAVSS was significantly higher in 2021 than in previous years (10,726 compared with an average of 276 per year for the 2017-2020 period) due to the introduction of the COVID-19 vaccination program."

As Umbrella News reported, the peak of AEFI reports coincided with the rollout of shot mandates, culminating in a rush of hospitalizations that strained area hospitals:¹⁹

"In 2021, AEFIs for Covid vaccines were reported at almost 24x the rate of AEFIs for all other vaccines combined ... In the latter half of the year, as AEFIs peaked, the media regularly reported that WA hospitals were under strain, despite the lack of Covid cases.

The highest month for AEFI reports was October, the same month that vaccine mandates were announced for most of the workforce, the vaccine eligibility criteria were expanded to people aged 18 and over, and walk-in vaccinations became available."

Other standouts from WA's report include a 35% increase in myocarditis and a 25% increase in pericarditis compared to background rates. "Shockingly," Umbrella News noted, "the risk of pericarditis in the age group in the age group 25 to 29 years old was 53.5 cases per 100,000 doses of Spikevax. It is perhaps unsurprising that chest pain was the fifth most common reported AEFI for COVID vaccines in 2021."²⁰

COVID Shot Efficacy 'Grossly Overestimated'

While the risks of adverse effects have been downplayed, the efficacy of COVID-19 shots has been overstated from the beginning. Writing in the Journal of Evaluation in Clinical Practice, a research team revealed that multiple biases, including background infection rates and cross-overs from unvaccinated to vaccinated in the early days of the campaign, led to an overstatement of COVID-19 shots' effectiveness.²¹

"We conclude that "real-world" studies using methodologies popular in early 2021 overstate vaccine effectiveness," the study notes.²² Board-certified internist and cardiologist Dr. Peter McCullough explained that from the lack of efficacy alone, the shots should be removed from the market. And the case gets even stronger when you factor in the significant number of related disabilities and deaths:²³

"Multiple sources of bias created illusion that vaccines worked as they failed in the real world ... claims that the COVID-19 vaccines worked to reduce spread of infection, hospitalization, and death must be rejected.

The burden of proof has not been met and threats to validity have not been overcome. All of the COVID-19 vaccines should be removed from the market and we should begin the investigative phase into how this massive program failed to stop COVID-19."

Dr. Mercola's report exposes the truth of organized crime against humanity committed by BigPharma and government institutions under the protection of globalists who want depopulation and economic ruin as essential factors in the Great Reset. They will continue with mRNA biological weapons, they will continue against crimes against humanity. Biden Admin tacitly admits that mRNA injections have failed and diverts \$5 billion of taxpayer dollars invested in "next generation" vaccines. dossier.substack.com/p/biden-admin-tacitly-admits-that-mrna?utm_source.. .....THE COVID VACCINES WERE NEVER TESTED FOR SAFETY There were 31% higher deaths in the vax group in the "gold standard" Phase 3 clinical trials.

How do we know that none of those deaths were caused by the vaccine? Because Pfizer didn't think so! There were 31.2% more deaths in Pfizer's "gold standard" phase 3 clinical trials. There is only one way to know whether or not the vaccine caused any of the deaths in the 21 vaccinated patients who died: proper histopathology.

Pfizer never did, and the FDA never asked for it. This was the biggest mistake of the pandemic and no one has acknowledged it or lifted a finger to correct it. If they had done proper testing on all 21 deaths, the vaccine would never have been approved. Pfizer assured that no one died from the vaccine. That's absurd. Today, only Ryan Cole is doing the proper histopathology and in 100% of the cases that he has been asked to examine, he can attribute the deaths to the vaccine.

THE US ATTORNEY IN UTAH HAS GIVEN THE ANTI-VAX MOVEMENT IN AMERICA THE GREATEST GIFT EVER They charged Kirk Moore with a crime. Dr. Moore is allowed discovery to prove his innocence. This means he gets access to Medicare, NDI, and all state death and vaccination records. JACKPOT! A federal court has jurisdiction over all 50 states and can order the CDC and all states to turn over COVID vaccination records and death records. You know, the records that the states and CDC don't want to be made public for some reason. So Dr. Moore is now empowered to do something that nobody else in the world can do: access the secret public health records of every state in the US that will finally show to the entire world what everyone in power wants to hide from the public: the truth.

Gui, and we know just how the whole system has over decades pulled out one safety measure or tracking method after another making it easy for Big P-Harma to rig their system inside the larger rigged system. Add in the military figures before they were purged and make an educated guess and it has been horrendous consequences, and most likely extremely worst to follow. The federal Utah case is looking very promising. Along with this court case we must also expose the smear campaign already in progress against RFKjr and show how he is and has been maligned. We have to be the megaphone the Legacy Media, Big Tech, our own governments won't be, (this is Global,) so those who have been bitten and suffered badly will be those most likely to actually listen this is about Global Monopoly Corporations and High Tech Stalkers have captured and run the very same Institutions who are supposed to keep them in check.

Hi Gui, also on Steve's substack is a thread about a recent Mark Skidmore paper being peer reviewed, published then retracted: "It's time to hold the medical journals accountable - Scientific integrity has been compromised by the medical journals, but they have been getting away with it. This needs to stop now. Here's how you can help hold them accountable with a single email." - - Here's a link to the paper in question: stevekirsch.substack.com/p/its-time-we-hold-these-people-accountable - - "This paper was the #1 most popular paper in the history of the journal." (Springer, BMC Infectious Diseases). Something is fishy here and Steve wants to get to the depositions.

Thank you JUST, ROSE and, bloodguy, If the fight continues with the data that reveals the truth and the preventive and early treatments against C-19. Reduction in mortality with HCQ in early treatment is 72%. With ivermectin, it is 40%. With vitamin D, it is 68%. Doctors using cocktails of multiple medications have a 94.5% reduction in deaths.

c19hcq.org/meta.html .----- Data manipulation will not be able to hide the truth. The passage of time is showing that humanity is suffering a premeditated genocide due to deliberate corporate and institutional blindness based on its own weaknesses and fraud. It does not allow dialogue with scientists and doctors opposed to biological weapons against COVID, it does not carry out self-assessment of results, and it continues with actions against ethics.

Freedom of expression and decision is being actively repressed by any form of dissent within its own ranks and the rest of the scientists. The CDC is employing categorical game techniques to hide the dramatic excess mortality from natural causes not related to covid. If these deaths are not vaccine related, as is commonly claimed on authority, credential and ignorance, then there should also be no reason to hide their associated records. However, that is exactly what is happening.

Mathematician Igor Chudov carried out an evaluation of two completely different data sets covering tens or even hundreds of millions of people from which he concluded that the relative risk of death for people who were "vaccinated" against Covid-19 is 40 percent higher than that of the unvaccinated. Throughout the world where Fauci flu shots have been given, Chudov says, excess mortality is through the roof. It's something many of us have known for a while, but has been borne out by a patchwork of data here and there, not enough to convince some, in other words, that mass depopulation is, in fact, taking place. .

Posted On 04/11/2023

Guillermou

Chudov addressed this by conducting extensive analysis of numerous data sets to scientifically prove that covid injections are killing many people, despite being billed as the "cure" for Chinese germs. The more covid jabs a person receives, the greater their chances of dying. Excess mortality increased by 40% worldwide after the launch of "vaccines" against covid. Steve Kirsch of the COVID-19 Early Treatment Fund says none of this surprises him. Given that Chinese virus injections are the deadliest class of "vaccine" in history by a factor of more than 800, it makes sense that people everywhere who take them die en masse. "While the number of deaths from COVID has largely been limited to the elderly it is the young who bear the brunt of vaccine injuries." It is a genocide of young people what is taking place with these injections, in other words.

Not only deaths, but also serious injuries are on the rise due to these injections. Think about things like heart attacks, strokes, blood clots, circulatory diseases. neurological problems and many other fatal diseases over time. "the same vaccine-induced ailments we were warned about by doctors and scientists who have been telling us the truth all along." <https://theethicalskeptic.com/igorchudov.substack.com/p/guesstimating-relative-risk-of-mortality> (2022) <stevekirsch.substack.com/p/new-study-from-germany-confirms-higher> (2022)

Agreed, Tiwo31. Since the toxic, rolled jab, not only people I know through other individuals, but even ones close to me, are now suffering disastrous effects. A close family member nearly died last week of a massive heart attack. The artery in question was 100% blocked due to a blood clot, not plaque. Sadly, the doctors also discovered that the man has pericarditis; he left the hospital with 10+ medications. The event he suffered should have been fatal, it's a miracle he is alive (had this occurred two years ago, I believe this would have been a very different outcome). Another close family member developed postmenopausal, invasive uterine cancer, she recently had a complete hysterectomy: I pray nothing recurs.

Another relative, an extremely vocal proponent of the shot, who had been rather healthy in the past, has been experiencing skin outbreaks and periodic respiratory problems. When her friend's son died in his sleep of a heart event last year, she asserted to me that it was likely due to his heavy drinking. What? In short, none of the above people choose to admit that perhaps the jab is producing the illnesses they are now battling, I am losing faith that the awakened ones can awake the masses.

300,000 dead seems like a gross underestimation: are they counting the explosion in cancers and other indirect effects of a weakened immune system such as flu/covid deaths? Is that number enough to account for a 3 year drop in life expectancy? It's probably in the millions just for the US alone, and tens of millions worldwide.

Stumbled across the data that each year, 600,000 Americans die from what the CDC is calling flu: influenza is a minor player compared to pneumonia and other upper respiratory illness. This was apparent reasoning behind a universal flu vaccine that Dr Fauci had been working on for years, ever since his HIV vaccine did not pan out in the 1990's. We had no flu reported during the first 2 years (remember? flew the coop?) 300,000 number pertains to excess deaths.

I believe he gets his number from looking at the number of deaths over a few years before 2020, then looking at 2021 and 2022 total deaths. The average per year death for the previous years compared to the average per year deaths in 2021-2. This is all deaths from any cause. And that is 300,000 more average deaths than before.

You're right on track today good Doctor. I'm absolutely convinced that every single disease and sickness we have is caused by vaccines, including obesity. These shots have been mutilating us for decades and most people are too stupid to connect the dots back to when their illnesses started. I've known for 30 years and have been vaccine free, but I wish I would have known before I got sick from them.

I agree with you. The goal is, and has always been, a medicine dependent population. They damage us, then treat the injuries throughout life, finally sucking out the rest of our wealth in their "nursing homes." Chronic disease in children was 7% when Fauci took his position. It is 54% now. Cavities were 5% in the Middle Ages. Now, 95%. Celiac disease, which I have, and which I now believe is caused by vaccines, has risen 500% since the 1950s. When I was 29, I was working out 5-6 days a week, but getting fatter and sicker. Diagnosed myself after my doctor said I didn't have celiac disease, started a gluten-free diet, and my health did a complete 180. Got shredded without even trying.

Strength exploded from 185 bench press to 255. Bald spot grew back, acid reflux gone, IBS gone, sweaty palms gone, anxiety gone. A dozen other symptoms gone. Now, twenty years later at 49, I am still in perfect health on zero medications. I've been to a doctor twice in the last 12 years for sports injuries. People say I look 35, but I think I just look the way people would if they were healthy. Gluten-free, sucrose-free, mostly cow dairy-free, eat eggs every day and beef most days, regularly exercise with weights and cardio. You are 100% right. Vaccines are why everyone is sickly, weak and fat, but nobody believes it and stupid doctors force parents to damage their children.

Instead of prevention and cure, the "health" system prefers to keep people trapped in a system of endless medical dependency. "Health" is never the goal. The real goal is to make the most of the continuing suffering and disease of the general population. The last thing a dictatorial society wants is a well-educated population that can achieve enough knowledge to be able to protest the rising tide of corruption, what they want is to silence minds, kill independent thought. Vaccines, pesticides, pollution, junk food, which are driven by the tyranny of globalist elites, serve the purpose on a platter. Epidemiological and cellular level studies on biochemical changes shed light on the causes of some diseases described as diseases of civilization (dementia, cancers, cardiovascular and respiratory diseases, obesity, psychomotor disorders in children and increased frequency of malformations).

. The factors whose indisputable influence on the increase in the frequency of appearance of various "diseases of civilization" that has been proven with toxic environmental contaminants, those that enter the diet, vaccines, antibiotics, as well as biological manipulations, 5G, pesticides like glyphosate and persistent organic pollutants. and prions, in humans and animals are an attack on health and biodiversity. These toxic substances and pathologies harbor a person will present a greater breeding ground for the aggravation of Covid-19.

I'm 67 same age as Mercola who I've learned from for 20 years along with many others more educated than I. I'm a blue collar very well read Son of Dutch immigrants who ran from Tyranny 75 years ago. We grew up in Ontario CHINADA now a hot bed of the REPTILE BRAIN BOUGHT OFF GLOBALIST WHORES shilling for Klausy and Billy. I come from the Thalidomide Era, born in 1956 and my friend Jimmy had half an arm and a leg that was bent wrong. We were in grade 2-3 so didn't really care about Jimmy's look since he had the best Tonka toys in the sand box. Jimmy was gone after grade 3 and I found out years later he died of that JAB I assume. My Mom was an ANTIVAXXER back then so I've not had more than a few in my life under 5 years old.

That turned out to be a blessing my whole life as I was always in trouble for questioning everything as I still do. Never took a flu shot and always fought with Dr's. I've been threatened many times even before CORONA 1984 and escorted out of DRs offices and my kids schools in the past. I grew up with a best friend who is a Dr and another good friend who was our valedictorian in 1975 high school. They both are not well after they took the CUP CAKE and I still cycle 100 kms weekly when it's warm enough here in CHINADA. They don't talk to me about it. So I send them reminders. God bless.

For those who put the EUA into being and for those who obeyed in order to profit in one way or another the verdict is Murder in the First Degree!! I believe in forgiveness, I believe in redemption, but only if those found guilty ask for forgiveness, admit they were wrong, decide of their own accord to make amends to the best of their ability. BUT these people are still pushing this death shot, want to stab children, babies and pregnant women, therefore there is no forgiveness available under the present status.

These are all good suggestions for Americans, but what about Canadians? What can we do? We don't even have a VAERS system. Our government doesn't seem to keep statistics. We are just told safe and effective'.

I have documented many of these adverse COVID-19 injection effects using broad medical themes in VAERS, including cancer (www.trialsitenews.com/a/are-covid-19-vaccine-induced-cancers-rare-even..), cardiovascular (www.trialsitenews.com/a/are-covid-19-vaccine-induced-adverse-cardiovas..), neurological (www.trialsitenews.com/a/are-covid-19-vaccine-induced-adverse-neurologi..), autoimmune (www.trialsitenews.com/a/are-covid-19-vaccine-induced-adverse-autoimmun..), blood-lymph (www.trialsitenews.com/a/are-covid-19-vaccine-induced-adverse-blood-lym..), endocrine (www.trialsitenews.com/a/are-covid-19-vaccine-induced-adverse-endocrine..), reproductive-pregnancy (www.trialsitenews.com/a/what-is-the-spectrum-of-vaccine-induced-advers..), and gastrointestinal (www.trialsitenews.com/a/are-covid-19-vaccine-induced-adverse-gastroint..).

Additionally, I have posted two OpEds on the topic of biomarkers being used in VAERS

(www.trialsitenews.com/a/are-there-sufficient-early-warning-indicators-..

www.trialsitenews.com/a/early-warning-indicators-in-vaers-update-401cd..). One of the main takeaways for the reader is that there is underreporting in depth (number of cases reported) as well as underreporting in breadth (number of biomarker events per report) to VAERS. The underreporting in breadth may stem from insufficient biomarkers being used for patient diagnosis as well as insufficient reporting of those biomarkers that were actually used. If the underreporting in breadth includes a large number of risk/susceptibility biomarkers, that would eliminate a valuable source of information showing the prospects for future diseases and disorders arising from the injections.

rkostoff, thanks for all the links. How do you get more than one link in a comment? I have to copy a link and submit in a comment. To add a second link I have to go find it, copy, and edit my comment then add the second link and so for each link. Is it a computer thing or maybe a software thing? Could be an age thing. Mine!

"While the deadly side effects of this campaign are still on-going, most Americans, surprisingly, don't even know it's happening." The reason Americans don't even know it's happening is because they don't want to, or have been lied to by this administration. So much for transparency.

Are there any signs that the pediatric medical community is waking up to the truth?! I am married to a pediatrician and I'm tired of being labeled a conspiracy theorist.

You are not paranoid. I am married to someone in pharmacy since 1972, and others on my family together have over 150 years in the industry. My brother passed away from a rare neurological syndrome, but the other three are still blind as a bat when it comes to believing Big Pharma has a LONG history of creating disease and then miraculously having the "treatment" available to treat it. To this day, DH still complies with any and all jabs required by the hospitals where he is employed. And my niece? Jabbing both her small children with any and all "childhood" jabs that are pushed by their pediatrician.

But this last SCAM was/is so apparent to anyone with an ounce of discernment, I am convinced the indoctrination is a factor, as well as an extreme reluctance to admit they were duped. After almost 3 1/2 yrs., I don't see many waking up, but rather digging in and refusing to even entertain this is the ultimate depopulation agenda, as well as total control of the monetary system, and mind control (per Noah Harari).

Is 5G a factor - most likely, and train derailments ALL carrying deadly chemicals almost weekly now. All of this together wreaks of the final push to attain the elite's dream of a one-world-order where they attain the ability to live forever, with just enough "slaves" to keep them satisfied. Let's face it, the medical industry has lost it's way, when many of them can't tell the biological sex of a human. They should refer to Grays Anatomy, chapters 22 and 23, for starters. Another story

Again I need to post this? Americans under 35 years old receive around (72) doses of (16) shots between birth and age 18, each well-baby and back to school doctor's visit involves multiple shots. These kids and their parents/guardians and school boards in every state now consider this accepted, effective medical intervention. its also called brainwashing and has led to the explosion in asthma, allergies, autoimmune conditions and autism (still heading towards a cliff).

Hello rrealrose. All those doses/shots for children over the years is probably in the range of what most veterinarians administer to PETS as well. There are holistic veterinarians out there (with DVM degrees) who refrain from using all those vaccines. They also limit antibiotics and steroids when not needed, which a lot of the time they are not really needed. There are alternatives including homeopathy.

MSM isn't telling these people anything that we've learned about these shots, so they continue to believe what they're told. I have a friend who still thinks I'm crazy for not getting the shot. I caught Covid, and she didn't, so she thinks that's why. She has multiple health issues so was convinced that the shot was the only way to make sure she didn't die from Covid. MSM has to tell her that the shots are killing and maiming people before she'll believe it, and will they? Hardly.

jef9075, Personally, I am very much against vaccination of pets and regular medications/ treatments used on pets are also poison. I bought a puppy from a breeder 25 years ago. The breeder, who was a vet tech insisted on vaccinating my puppy right before leaving for a stressful flight even though I asked him not to. Just about killed my puppy and probably did not do his long term health any good. My grandfather took me for my childhood vaccinations (against my mother's wishes) to attend school and I vomited for 24 hours every few minutes. It should not be too hard for people to figure out how dangerous these shots are. It is very very hard to find a truly holistic vet. In my whole province I knew of only one who was any good/ a true holistic vet and she is now deceased. I practise herbal medicine on myself and my dogs and along with good nutrition, proper hydration and reasonably exercise it works very well.

Now think.....Who cares of the USA NUKED Afghanistan ??

Well; they DID....with Depleted Uranium Bombs called "Bunkerbusters'.....Oh Yeah.....for "Peace&Freedom".....but it did making Mining Lithium Much Easier.....And DU make steel so much harder...bullets made with DU can easily penetrate a Tank...and feet of concrete walls.....Bunkerbuster bombs can penetrate a MILE DEEP....over 5000 feet into rock....Oh and By the Way ,the residue is deadly for a few decades.....Oh No Matter.....So who really cares if a few MILLION FAT lazy sloppy Americans crook off???? Anybody know the stats of orgs such as Jehova's Witnesses and S.D. Adventists ; those that forbid vaccinations in general? Would they have been subject to mandates or would that have been overuled by a religious persecution factor? This would add even further proof of stats of the (designed) fallout. Not intending too much humor, but the J.W's would see this as validation of their delusions, where only they remain. Just a thought

Yes, that would be interesting for someone to do a survey in that community. Maybe Steve Kirsch? If they are not jabbed and they are all absolutely fine that would be very telling. Shedding in their community is also probably not such a confounding factor as in the general population. So looking into their situation might shed light on this issue too.

Look to some of the Amish Community's, many have an aversion to the standard run of the mill actual vaccines, let alone the Grand Ant-Life Experimental Jab/s. (How experimental is it when extreme negative results to use this tech was observed all over 12 to 15 years ago. Just sayn'.) While we are at it, the whole thing about the standard bearer Vaccine being safe and effective - this claim is mostly based on Old Science of the 30's, 40's, 50's and such and the notion there is no need for a follow up with newer insights and knowledge to test is a testament to the power of Big P-Harma to dodge such things and using their coveted NO-Liability Status.

Who needs to test when you can put pretty much what you want in a syringe and poof = Safe and Effective. On to Vaccine Court to have the public pay for damages, but good luck with that as it rarely gets all that far, because, round robin, we all know they are safe and effective. After decades of no follow up testing for long term consequences the No Liability has done it jobs to prevent looking and to take out dissenters - all before the massive C-19 Censorship Dictator Thou Shalt Comply!

Way back at the beginning of the pandemic I was staying on top of the Amish. They reached herd immunity basically by May 2020. Because they all attend church and sing, the aerosolized vapors from just one or two people would infect the entire community in just one Sunday morning. So they all got sick. Of course, they don't go to hospitals. As long as they could get out of bed they did their daily routine for the community. Almost no one died (no more than would normally from flu or pneumonia). After getting infected early on in March/April they were basically immune from there on. I didn't research them on Omicron.

It appears that if you got the Alpha or Beta variant, you were immune to the Delta and Omicron variants. In South Korea, they breezed right through the Alpha and Beta variants with basically zero deaths and one of the lowest infection rates in the world. Then they got the vaccines! In late fall2021/early winter2022 they all got Omicron! It seams that if you were vaccinated for the original strains you were more likely to catch Omicron. They went from like 160th place out of 200 countries for infection rate in Oct of 2021 to 6th place by like April of 2022.

Can verify, living amongst large Amish communities of Ohio, US, that their world went on with hardly a hiccup. They don't meet in church buildings, but do sing in their worship gatherings held in barns or outbuildings of various elders in their particular branch of their greater church association & community. The Mennonite, at least those groups I'm familiar with, do meet in church buildings. Holding separate & special property, receiving government 'perks' & favors is how freedom is lost: witness the 'original' merger of Augustine of Hippo & Eusebius (the Bible-corrupting Origen cheerleaders) w/ the Pontifex Maximus 'rod', Constantine I.....and the 'too big to fail' idolatrous humanist faithlessness 1 Timothy 6 KJB, & the 501c3 trap.

Been a bloody, corrupt Babylonian Romish mess ever since....& worsening since the corruption & fall away from the preserved word of God, the KJB, & its quickening, purifying power back to the Romish Alexandrian corruptions.

The Amish/Mennonite have much to admire, humanly speaking, but the mystical sensuality & experiential spiritism of our day is affecting them very much, & recent events dividing many out from the old mystical & biblically careless & disobedient, effeminate passivism. Many are having their waking up moment & arming themselves as lawlessness & sneaky, deceitful assaults & attacks on the weak & property mount. The tendency of all men is to carnality & corruption, falling to carnality & corruption, mishandling or carelessly handling the word of God even to the denial of evident truth & conscience to absurdity of blind faith idolatries of men & any spirit.

When a nation is under judgment children become their oppressors & women rule over them: like good old Ellen G. White who was up on all the craft of her day, shocking old Pike & co by knowing their 'secrets': same spirit of craft. Ditto all the cults following men & devils, despising & corrupting the word by which men are saved & real prophecy known: flesh perishes.
