

# How the Plague of Corruption Is Killing Mankind

Analysis by [Dr. Joseph Mercola](#)

✓ Fact Checked

## STORY AT-A-GLANCE

- › The scientific discoveries made by Judy Mikovits and Frank Ruscetti showed the blood supply and vaccines have been tainted with disease-causing retroviruses for more than three decades, and the U.S. government has been hiding it the entire time
- › The leading cause of death among child-bearing women in the world is HIV/AIDS. Chronic fatigue syndrome (CFS), which primarily affects women, is basically AIDS without the HIV but with XMRVs and other co-infections like borrelia, babesia, mycoplasma and mold. It's an acquired endocannabinoid immune dysfunction, and can be traced back to contaminated vaccines, biologicals and blood products that have been used for decades
- › According to Mikovits, SARS-CoV-2 is a cloned virus manufactured in a monkey cell line and it is therefore a monkey virus. It's the result of a bat coronavirus being grown in a Vero monkey kidney cell line known to be contaminated with retroviruses including XMRVs
- › Mikovits believes "long-haul COVID" is the SARS-CoV-2 spike protein activating endogenous HERVW and recombining with XMRVs, — introduced via vaccinations. Similar recombination occurs with monkey SIVS in HIV-infected individuals
- › Those most susceptible to dying from the COVID shots are those who are already coinfecting with XMRV, HIV, Borrelia, Babesia and other pathogens commonly acquired

from contaminated viral vaccines

In this interview, Judy Mikovits, Ph.D., Frank Ruscetti, Ph.D., and Kent Heckenlively, a lawyer and science teacher, discuss “[Ending Plague: A Scholar’s Obligation in an Age of Corruption](#),” which they co-wrote.

This is the third book in a trilogy that began with “[Plague: One Scientist’s Intrepid Search for the Truth About Human Retroviruses and Chronic Fatigue Syndrome \(ME/CFS\), Autism, and Other Diseases](#)” and “[Plague of Corruption: Restoring Faith in the Promise of Science](#).”

The first two were co-written by Mikovits and Heckenlively. The inspiration for the third book came from Ruscetti, who has been Mikovits’ mentor and professional collaborator for 38 years. As indicated in the subtitle, we won’t be able to end these plagues of scientific and academic corruption unless or until scholars and scientists honor their professional obligations and responsibilities.

*“That’s the point of the book, and we wouldn’t have this mess if people like Tony [Anthony] Fauci and Bob [Robert] Gallo didn’t get away with this thin playbook for things like Ebola, Zika and the autism epidemic, all the way back to HIV/AIDS,” Mikovits says.*

## **Selling Out Public Health for Profit**

“Plague” and “Plague of Corruption” detail the scientific discoveries made by Mikovits and Ruscetti, which include the scandalous findings that the blood supply and vaccines are tainted with disease-causing retroviruses, and the U.S. government has been hiding it for decades. The books read like fast-paced thrillers and offer a view

into the halls of scientific inquiry, to which few people ever are privy.

Book No. 3, "Ending Plague," is primarily Ruscetti's story. By 1983, when Ruscetti hired Mikovits as a lab tech at Fort Detrick, he'd recently discovered T cell growth factor, later renamed interleukin 2. He'd also discovered the first disease-causing human retrovirus, called human T-lymphotropic virus (HTLV-1<sup>1</sup>) or human T cell leukemia virus, back in 1980. The book starts with Ruscetti's story and perspective.

*"The motivation for writing the book is not something new," Ruscetti says, "and unless we change the fortunes of every man, it's just going to get worse. [During] the AIDS epidemic, we were at an impasse. What most people don't realize is that it shouldn't have been at an impasse then, because if you look at the rest of the world, the No. 1 cause of death among women of child bearing age is HIV.<sup>2</sup>"*

That's a rather extraordinary statement. The leading cause of death among child-bearing women in the world is HIV/AIDS, but do you ever hear anything about that?<sup>3</sup> If not, why do you think that is? In short, health agencies have done a terrible job over the last several decades, selling out public health for profit. As noted by Heckenlively:

*"Public health has not been serving us well for the past 40 or 50 years. What I think is really extraordinary about Frank's story is he really details how science has gone wrong. We like to think of science as this democracy of experts: top people in their field discussing how the science should move forward. But public health is not like that.*

*Starting in the 1970s with Nixon's war on cancer, which accelerated under Reagan, these 'czars' of science were created. Tony Fauci is one of them. And then they demoted the other scientists to be like serfs. We don't really have that many 'government scientists.' We have a lot of scientists under contract*

*with the federal government, and this has really set up a system where people like Tony Fauci essentially control public health.*

*I think if people understood that the system itself is set up so that relatively few people are in charge, then all of this makes more sense. So, when they talk about in the media 'science is deciding this,' 'science is deciding that,' it's really not.*

*It's just a relatively small handful of people, almost like a holy bureau of science, and that's what we're attacking. What we're trying to do is, we're trying to move science back to its original roots in which everybody who is qualified has a voice and can contribute to the discussion."*

## **Too Much Power in Too Few Hands**

Fauci has been the head of the National Institutes of Allergy and Infectious Diseases (NIAID) since 1984. In the 37 years since, he's been responsible for doling out research funding that amounts to nearly \$1 trillion. Who has received those taxpayer dollars? Primarily those who are aligned with the drug industry. It's become an incestuous relationship that revolves around the creation of profit, while the public receives virtually no benefit.

In fact, in many cases, public health has suffered tremendously, and people have no concept of what has happened, or how their ill health is the outgrowth of corrupted policies and conflicts of interest. Heckenlively says:

*"The comparison I make is that Fauci has been head of National Institute for Allergy and infectious Diseases longer than J. Edgar Hoover was head of the FBI. [Editor's note: Actually, Hoover was head of the FBI for 48 years, from 1924 to 1972<sup>4</sup>] Whether you're right, left or middle, nobody believes that*

*anybody should hold that kind of power for that long.*

*In fact, having that kind of power in and of itself is a really bad idea. I think [Fauci] really is a terrible person because not only has he been in charge of this system, he helped design this system. We need to get rid of Fauci and keep the next Fauci from taking power."*

Importantly, Fauci and Big Pharma not only control the **funding of research**, they also control what gets published and what's buried. Fauci is the reason you've not heard about HIV/AIDS being a leading cause of death among women of childbearing age, worldwide. This statistic is censored, just like facts about COVID-19 treatment and COVID shots are censored.

As explained by Mikovits, chronic fatigue syndrome (CFS), which primarily affects women, is basically AIDS without the HIV. It's an immune dysfunction, and it can be traced back to contaminated vaccines, biologics and blood supply that have been used for decades.

As detailed in "Plague," Fauci was a key figure in covering up the true cause of AIDS, which was incorrectly blamed on homosexuals and drug addicts. By fraudulently changing the definition of the disease and denying the presence of exogenous viruses, so-called xenotropic murine leukemia virus-related viruses or XMRVs, they prevented women from getting correct care. Mikovits explains:

*"The definition was 'Only HIV can cause AIDS,' and we're looking at the same thing right now. There never was a SARS-CoV-2 monkey virus in hundreds of millions of people. They're being transmitted through the [COVID] vaccine, and through recombinants it can happen in only two weeks."*

## **SARS-CoV-2 Is a Cloned Monkey Virus**

**New York-based physician Dr. Andy Kaufman claims the SARS-CoV-2 virus has never been identified. According to Mikovits, he is dead-wrong. SARS-CoV-2 is a cloned monkey virus, manufactured in the Vero monkey kidney cell line and isolated only from that cell line, not from humans with COVID, she says.**

**The original bat coronavirus was grown in a Vero monkey kidney cell line known to be contaminated with retroviruses and coronaviruses that easily recombine every time the vaccines are manufactured in 100-liter productions.**

**Mikovits conducted experiments on bat tissue Ebola cultures in the same line of cells in the mid '90s, trying to understand how these viruses cause disease. What she discovered was that it's not the infection that kills. It's the inflammatory side effects and the dysregulation of the innate immune response that end up being lethal, and the virus causes this in part by shutting down the interferon pathways. Heckenlively explains:**

***“What Judy is saying is that when you mix these viruses in different cultures, you will get genetic sequences from the culture cells. The thing that our books really talk about is how dangerous this common practice is – taking, for example, a human virus that you isolate, and then grow it in animal cultures.***

***What a lot of people don't realize is that viruses are not like other living organisms. They're very promiscuous in their swapping of genetic codes. In April or May of 2020, [people said] ‘This bat virus seems to have some HIV spike proteins and sequence.’ How is it that you got monkey sequences in a bat virus?***

***Our contention is that this common practice of growing viruses in different animal cultures, including human cultures, is creating these Frankenstein***

*viruses which will have genetic sequences from the mediums in which they're grown ...*

*The belief in the '80s was that the HIV virus is hiding out in the T cells, which made absolutely no sense. It is true that as the disease progresses, the T cells would absolutely be taken out. That was an indicator of the infection, but what Judy and Frank were saying is that the HIV virus can't be hiding out in the T cells, especially because you got the development of AIDS dementia, and the T cells, are not [found] in the brain.*

*Judy's seminal work with Frank was finding the actual reservoir in which the HIV virus lived, which was the mono site macrophages. If I understand Andy Kaufman's claims, I think he's throwing out the baby with the bath water. Judy is showing how the virus cause damage and how the establishment is wrong, and how some of these alternative people are missing part of the argument as well."*

## **SARS-CoV-2 Was Spread by Injection**

Mikovits makes a number of shocking assertions in this interview. Among them, that SARS-CoV-2 was spread through the regular use of vaccines that had been contaminated with the SARS-CoV-2 virus because of manufacturing practices.

The monkey kidney cell lines that were used to manufacture many vaccines were contaminated with bat coronavirus and shipped around the world. Those vaccines were then injected into humans, called transfection. Their cells then began replicating what we now understand as the SARS-CoV-2 virus.

*"They absolutely isolated a SARS-CoV-2 virus," Mikovits says. "But there is not definitive-anything showing [that it] satisfies either Koch's postulates or*

*Hill criteria, which we did with the XMRVs, meaning the virus, in my opinion, is still a monkey virus that was spread via injection.”*

In other words, while there is a virus named SARS-CoV-2, no one has proven that this viral isolate actually ever transmitted between humans or causes COVID-19. Her assertion is that SARS-CoV-2 is a monkey virus that is an artifact of culturing a bat coronavirus in Vero monkey kidney cell cultures that, for years, have been contaminated with XMRVs.

To prove SARS-CoV-2 causes COVID-19, you have to extract the virus from a person who has COVID-19, and infect another person with that virus. If the exposed individual gets COVID-19, then the virus would be the causative factor.

We know most individuals have been exposed to people with COVID-19, yet they do not develop COVID-19. This suggests that SARS-Co-V-2 is not the sole causative factor.

## **How the COVID Shots Produce Variants**

Mikovits also believes the COVID jabs add to the pandemic by producing variants through a process called transfection. When a clone of an infectious viral sequence is injected in a synthetic viral particle called a lipid nanoparticle, it is not an infectious transmissible virus particle. Instead, the host cells' machinery starts replicating the inoculated sequences or expressing the spike proteins.

In the case of the COVID jabs, your cells are producing the spike protein of the virus only, which is actually the pathogenic part of the virus. The spike protein is what's causing the disease. Put another way, COVID-19 is not a viral infection. It's caused by a metabolic toxin, namely the spike protein. This viral particle, in and of itself, functions like a synthetic virus.

The spike protein is synthetic because the mRNA injected has been genetically modified. The mRNA is not infectious or transmissible, but when injected, your body starts to make this synthetic spike protein that operates like a virus, and can be transmitted to other people. Heckenlively explains:

*“Virologists say you need a complete virus to do harm. What Judy has [found] is that defective viruses can cause harm as well. If you think of a virus as a code, like a computer program, if you have a couple bad lines of code, that can still cause problems in your computer as well.*

*What Judy is saying is that viruses are dangerous in ways that are not fully appreciated by science. You don't have to have a complete virus in order to do harm. You can do sequences of the virus that they would call defective or garbage pieces, and it can still cause enormous harm, because those parts of the virus, such as the envelope, are affecting the function of your immune system.”*

According to Mikovits, 8% of the human genome consists of endogenous viruses that include retroviral envelopes that are critical to the regulation of our innate immune responses, our critical type 1 interferon. Some perform very important functions, including regulatory roles.

However, you cannot express animal or other human endogenous viruses without risking recombinants and new viruses. Hence, when vaccines are contaminated with animal retroviruses, you risk creating brand new viruses that can cause all sorts of harm.

## **What Is the Hidden Agenda?**

In summary, Mikovits and Ruscetti's work demonstrates an important principle, which

is that viruses do not travel alone. They travel in groups, and while one may affect one part of the immune system, another type will produce other immune responses. The end result is what we diagnose as the acquired immune dysfunction or deficiency.

For example, HIV alone does not cause AIDS. To develop AIDS, you need multiple environmental toxins like glyphosate, aluminum or a coinfection of HIV and XMRVs. Again, XMRVs are found in vaccines that have been grown in animal tissue.

The XMRVs cripple your innate immune system, including your natural killer (NK) cells. This then allows the HIV to take out your adaptive immune system, the T and B cells, resulting in disease progression and if left untreated, death. In CFS, the primary coinfection is that of XMRVs and herpes viruses.

**“ Mikovits believes those who are most susceptible to dying from the COVID shots are those who are already coinfecting with XMRV, HIV, Borrelia, Babesia and other pathogens commonly acquired from contaminated vaccines.”**

Mikovits is convinced that what is now being called “long-haul COVID” is the **SARS-CoV-2 spike protein** activating and recombining with XMRVs – introduced via vaccinations – and the HIV virus. She also believes those who are most susceptible to dying from the COVID shots are those who are already coinfecting with XMRV, HIV, Borrelia, Babesia and other pathogens commonly acquired from contaminated vaccines.

What this all means, then, is that in order to protect yourself against the disease, you cannot focus on protecting yourself against a single virus. The answer is to make

sure your immune system is strong enough to take on whatever it encounters. Absolutely never get another inoculation of any vaccines until all of the appropriate testing is done and the contaminants removed, as they should have been decades ago.

That's why the pandemic measures have been so detrimental. Mask wearing, sheltering indoors and staying in a state of perpetual fear all dampen your immune function. The question is, why did those in charge make sure they did everything to lower our immune defenses?

*“For me personally, it is the best evidence that this was not simply a series of mistakes by those in charge,” Heckenlively says. “There had to be some other agenda. I'm trained as an attorney. I have people lie to me all the time. I'm always questioning people and I look at what's done. Can I prove it? No, but it seems like an amazing pattern of mistakes to just be the result of stupidity or politics.”*

## **Profiling COVID-19**

What do we know about the people who have died from COVID-19? We know they're elderly. We know that they have 2.6 comorbidities. What Mikovits, Ruscetti and Heckenlively are saying is that for the past 60 years, we've been injecting animal viruses into human beings, and the assertion made in “Plague of Corruption” is that this practice has caused many of these chronic diseases in people.

This reality has been covered up, however, which is why many are now hearing about this for the very first time. Along comes SARS-CoV-2, triggering terrible immune system reactions in those who are already infected with these animal viruses.

The coinfections are ultimately what's killing them. Essentially, SARS-CoV-2 is acting

like the executioner of people who are already sick with chronic diseases caused by animal retroviruses, other pathogens and toxins introduced through vaccinations.

Add to this the COVID shots. These injections make your cells produce a synthetic spike protein (a synthetic virus envelope) that has pathological effects. The reason why the SARS-CoV-2 spike protein is so dangerous is because it contains the envelope proteins of three of the most harmful viruses: the HIV family, the XMRV family and the SARS family of viruses.

All of them are now rolled into one, and the instructions to produce this synthetic pathogen are now being injected into hundreds of millions of people. What can go wrong? As explained by Mikovits, the XMRVs and HIV were incorporated by growing the SARS-CoV-2 virus in the Vero E6 cell line.

Related to HIV is the simian immune deficiency virus (SIV), and it too is found in the Vero monkey cell line, part of the endogenous viral genome of monkeys. SIV and HIV have overlapping envelope proteins, so they produce the same inflammatory immune response.

## Ending Plague

“Ending Plague” goes deep into the history of all this and provides a framework for understanding how something so devastating and disruptive could happen now, in 2021. The basis of this has a lot to do with the actions of Fauci and Robert Gallo, Ph.D. Fauci, for example, was responsible for discrediting all AIDS treatments other than AZT – the drug that he sponsored.

He kept insisting that more randomized controlled trials were needed, yet he held the purse strings and refused to fund the very studies he claimed were required to prove these other treatments. AZT meanwhile, cost \$5 to make and was sold for \$10,000

per dose. AZT wound up killing some 330,000 people due to its toxicity.

The very same pattern is playing out today with COVID-19, and Fauci is again playing a lead role. Is that really a coincidence? He's been warning against the use of **hydroxychloroquine** and **ivermectin**, and he's downplayed the importance of vitamin D sufficiency and any number of other things. According to Fauci, the COVID "vaccine" is the only way forward, and now we're seeing thousands of people around the world dying within weeks of their injections.

In "Ending Plague," the three coauthors review how we can reform public health to get us out of this mess, once and for all. "I think that the scholar's obligation in an age of corruption is to tell the truth and make the world a better place," Heckenlively says, adding:

*"These books that I helped Judy, Frank and others put together, these are really stories of defectors from science. In them we see the destruction of the old order and the creation of something new and wonderful.*

*We're not just saying things are terrible. We are talking about how to bring about change. That's why it's so important that people buy these books because, I hate to say it, sales are power for people like Judy, Frank and me, to continue our message."*

## **Vladimira**

Back in 2018 when I started researching vaccines for my daughter there were rumors that the authorities would start going after the adults with mandatory vaccine schedules. Also on this forum here, there was a commenter here a couple of years ago who was posting about nano electrodes implanted in the brains of people to control them. I thought that these people were over the board. Now

I see they were speaking the truth. Never thought vaccine passports were even possible, let alone transhumanism. I knew that there was corruption and evil from before, but never realized the extent and magnitude of this. It is truly mind boggling. All under the guise of "helping" us.

I don't know about the specifics that you reference, Vladimira, but I will say that Many things that sounded non-credible to me, now are finally dawning as actual and real. This is tragic, and awful. Evil is afoot, no doubt about it. I repeat as before, if people had blown whistles on the Nazi concentration camps, wouldn't they have been deemed certifiably insane? Yet they were correct, and they told the truth, all along! When we dismiss things out of hand, outright, we deny the deeply unfortunate reality of evil. Life has light and dark. We have to come to terms with that. Those who deny it, who laugh, ridicule, mock, etc have closed their mind and psyches to the unwanted invasion (so it is perceived) of this reality. They don't want their world turned upside down, or their positive thinking/feeling infected, etc it's understandable. The problem with denial is that it only enables evil to continue and even to triumph. Do we really want to do that?

And we have to be very strategic about how we go about addressing the problem. And in the process, we must always remember that most people do not wish evil on others. Only unethical people accept bribe money and give back to those who bribe them, that's how they climb the political ladder to begin with. So those few happen to be in power. We then develop the illusion that the whole world is infected with evil. This is not true, it's out of perspective. The common, ordinary person wants to do good, even if they are not perfect, but again the desire with most people, is still for good. My two cents. Good day and well wishes.

PS Conspiracy theories? that's just a canned speech. Any canned speech, is by definition, coached. We have to urge people to think about that. Eyes open!

## **sio6474**

It is painful to face the extent of evil in the world, because it means we are swimming in an ocean of 'dark' forces. Yet facing that is a necessary first step before any constructive transformation can occur. It means realizing what is presented at face value by everyone you meet is only the tip of the iceberg and discerning what lies underneath is critical. The discoveries can truly be shocking, bitter medicine though!

Excellent post Mirandola as usual and very true. Except I'm uncomfortable with this: "Only unethical people accept bribe money and give back to those who bribe them.... So those few" ... It's not a few. People are ethical or unethical on a scale. Huge numbers who are far from evil to the core accept bribe money and give back to those who bribe them. Everybody who works for the MSM, pharma, and other corrupt, evil organizations is unethical, accepting bribe money in the form of their paychecks, and giving back via their labor and support for their evil employers. I don't see these people quitting in droves. Some do, but not many. Most people will continue to go to work every day for an evil entity rather than give up the bribe and face the discomfort of disrupting their lives. Sure, some are ignorant (useful idiots?), but it's very hard to miss the true nature of their employers so a great many are knowingly accepting the bribe.

Mirandola, during the cold war, I traveled and worked in 10 countries on 5 continents. As an

engineer in charge of projects, I came in daily contact with "the little guy", the ordinary worker. I tend to be hands on; so we worked side by side on some lines, and when installations were complete, I personally trained operators (often with help from an interpreter). You just stated The Number ONE takeaway I got from my experience: "most people do not wish evil on others". The world leaders were keeping the cold war going. Most of us work to help each other and make life better. Contrast this to those who keep stirring the pot, creating new crisis, and pitting folks against each other. They are evil ones.

I really appreciate the help I get from this site, even tho an evil troll sometimes creeps in. When the dust clears in a few years, those of us who are left will have big work rebuilding for future generations, assuming future generations will actually be possible.

@debgessell, "Conspiracy Theory" was apparently an intelligence agency invented label designed smear inconvenient ideas and concepts. Conspiracies are just two or more people plotting, and observations of, and deductions from these, may at least be partially correct.

There is apparently escalating mischief going on to deliberately confuse valid observation and deduction, with faked observation and deduction; this mischief is was called "Hyper-Reality" e.g. \* deliberate setup and control of opposing political groups, to cause useless division, first in Russia, then around the rest of the World, to divert observation and deduction away from important

matters e.g. various corruption, including increasing financial system corruption. \* the deliberately chaotic Trump election campaign, which include the 1st point. \* the deliberately chaotic Trump presidency, which include the 1st point. \* the manufactured many gender conflict, probably an extension of the manufactured "feminist" conflict. \* the "UFO" distraction and pre-emptive programming, via release of alleged civilian and military observations. \* the deliberate cycles of negative and positive emotional stimulus of the plandemic, which is a psychological manipulation technique I learned about, which is especially effectively at bypassing a female's psychological defences \*, which I'd prefer not to use. This is a more subtle version of MK Ultra mind control techniques. \* This is one reason why women have been a lot more compliant with all the "covid-19" 'protection' nonsense, and I note, have nagged other men and women to comply too!

I thing Virology is fake, because don't think that viruses can be genetic prions, rather that injected foreign tissue and other vaccine content is cumulatively toxic! I am apparently part of the small percentage of people who eventually saw past the the "covid-19" propaganda, and then the concept of "vaccines", so increasingly find and reject more deception, time-permitting.

Corvelva in Italy released shocking new research on the MRC 5 cell line genetic analysis of Priorix Tetra vaccine MMRV produced by GlaxoSmithKline which contained a 99.76% nearly complete

individual genome from a male with abnormal, modified cancer genes. The researchers showed that variants of this human genomic DNA that were found in the Priorix lot for the MMRV vaccine is evidently anomalous, presenting important inconsistencies if compared to a typical human genome, i.e. the one of a healthy human being. The analysis on SNP, InDels, CNV, SV variants on 560 genes chosen because they are involved in different forms of human cancer shows the presence of numerous "original" variants, that's to say that they are not even present in public databases, therefore are not known in the literature...

In other words, important modifications of genes known to be associated with various tumor forms have been identified, for all the 560 verified genes; furthermore, there are variants whose consequences are not known, but which, however, affects genes involved in the induction of human cancer. The contaminating fetal DNA present in all the samples of Priorix Tetra analyzed in variable quantities (therefore not controlled) is up to 300 times higher than the maximum limit of 10 ng, which is based on the theoretical calculation for the possibility of foreign genomic DNA to cause oncogenic mutations (tending to cause the formation of tumors). Still up here [childrenshealthdefense.org/news/new-data-shows-aborted-fetal-cells-in-..](https://childrenshealthdefense.org/news/new-data-shows-aborted-fetal-cells-in-..)

"The removal of this contaminating DNA has proved impossible. The US government in 1986 recommended a weight limit for contaminating DNA of 100 picograms per vaccine dose. But the manufacturers could not meet this safety recommendation, as was explained at this Workshop. Their failure again led the government to relax its standards, applying the 100 picograms limit solely to vaccines produced from cancerous cells, and allowing one hundred times as much contaminating DNA (10 nanograms) in vaccines produced on other types of cells. But the meeting was told that vaccine manufacturers now admitted they could not meet even this lower standard of 'purity.' Thus high levels of hazardous DNA pollution remain in many vaccines. the SARS-CoV-2 spike protein ALONE was enough to induce COVID-19-like symptoms including severe inflammation of the lungs-- EVEN WITHOUT THE PRESENCE OF INTACT VIRUS. The researchers found that the genetically modified mice injected with the spike protein exhibited COVID-19-like symptoms that included severe inflammation, an influx of white blood cells into their lungs and evidence of a cytokine storm—an immune response in which the body starts to attack its own cells and tissues rather than just fighting off the virus. The mice that only received saline remained normal <http://sha.rest/6c5003> Full study:

the National Institutes of Health developed the stabilized version of the spike protein used in the vaccines. Also - We do have some particular stake in the intellectual property” for the Moderna vaccine stated Francis Collins, the director of NIH, in a revelatory recent Economic Club panel discussion. “One of the vaccines– the one that’s furthest along– what started, actually, at the federal government in our own Vaccine Research Center at NIH– then worked with a biotechnology company called Moderna to get to where we are now, with very impressive Phase I results and getting ready to go into a large-scale trial as early as July. That one, of course, we do have some particular stake in the intellectual property. Others, though, come from companies who’ve invested their efforts into getting them to the point where they might now be ready for a trial,” Collins stated.

Newlands - excellent link. Short and to the point, as well. David E Martin is on the money.

Almond - sorry to hear about the hit piece on Dr Mercola. It won't be the first and it won't be the last. Internet read called the Daily Kos just did a terrible hatchet job on Robert F Kennedy, as well. The best we can do is be aware of it at this point. There's a media battle (truth vs evil) going on right now. The waters will get rougher.

Dr. Mercola is under attack once again.

[www.dailymail.co.uk/news/article-9821957/Florida-osteopathic-doctor-em..](http://www.dailymail.co.uk/news/article-9821957/Florida-osteopathic-doctor-em..) We are numerous. We are strong. We must remain confident and stand together. (The Daily Mail reports there are 3.6 million Mercolians?) If you ever wanted an opportunity to change the world, this is your time. This is a battle between good and evil, so you must decide whether you are willing to engage. An attempt is being made to eliminate the truth so lies can prevail. Thanks to info provided by jhill, I can share info. There may soon be a commercially available prophylactic treatment/cure for covid-19. [freeandhealthychildren.org/2021/06/27/safety-and-efficacy-of-coronavir..](http://freeandhealthychildren.org/2021/06/27/safety-and-efficacy-of-coronavir..)

For the rest of you, there would be educational sources online to teach you how to make your own homeopathic remedies. Do a bit more research to discover the source of the original material.

Taking care of yourself (and others) is one more way to contribute to society. Read this. The timeline for vaccine deaths to no longer become possible to ignore is projected to be about 3-4 years out. I suspect, that, initially, strokes will be linked to age as the more vulnerable die first. (However, young people are not so healthy, either.)

[principia-scientific.com/dr-breaks-gag-order-exposes-covid-vax-deadly-..](http://principia-scientific.com/dr-breaks-gag-order-exposes-covid-vax-deadly-..) If a time comes when Dr. Mercola's website is blocked, you will know that TSHTF. Many events could happen suddenly,

Almond, you are wonderful and so helpful as usual. Thank you! I just wanted to say that there are books about herbal medicine making as well, and herbal gardening, for anybody interested.

To all, I want to say keep up hope! Keep looking to the good around us all. We have the flowers, we have bird song, sunrise, silvery stars and most people we meet naturally desire to do good. True?

I agree SteelJ that there are unfortunately many people who accept a paycheck for something that is not to their best ethic. That's true. But what I was saying is that politicians have to accept bribes from the ground up and hence, most of them regrettably, are very unethical people to begin with. That's why the ones who work ethically are few and far between, though thank goodness they do exist.

My point is, let's not allow this to fog our mental lenses. We must look to the good. In so doing, we will stay young in spirit,, resilient, willing and positive. If we focus only on the negative, we will become overloaded by the darkness. And it's out of perspective. Even god forbid if war breaks out, and we surely hope it doesn't, let us remember that most people have good hearts, and stay with the bird song and the flowers, good music...and in ample measure. Wellbeing to all! Dr Mercola, "let the dogs bark, they are barking because you are riding" (your horse). You are doing a hero's work,

and once people catch on then the alleged misinformation will only bring all the more people into your camp. Time for all good things, watch and see! Blessings and prayers.

Yes the research was pioneered by Jose Delgado in the 50's. He was able to completely control primates, a bull, and women using electric from implants. I believe this is the reason for the heavy metal deluge we've been inhaling from geoengineering. I was further convinced when I read researchers in Spain found graphene oxide in vaccines - graphene oxide is used as an antenna. Be assured the elite have weapons we haven't conceived of - a lot has been hidden from the public. They're likely going to use 5G. A family member was a cable house installer and he said the installers who work on 5G said the brass at the cable company doesn't even know what's being installed. I suspect it's run by DARPA. They use sound waves to affect the brains of the people - which is one reason why I'm going to ditch cellphones shortly. I hoped someone on here knew more than I about these entrainment waves and would share how to block them. I did hear playing music might work but am unsure.

Mirandola, this "We must look to the good. In so doing, we will stay young in spirit,, resilient, willing and positive. If we focus only on the negative, we will become overloaded by the darkness. And it's out of perspective" is excellent and wise advice on an individual basis. Surely those who follow it will be happier. I disagree that it's out of perspective to see so much negative and be overloaded by the darkness. While it's not a healthy path, unfortunately as one who tries to be open-minded and see the truth wherever it leads, I see a society plunging to destruction. I'm fortunate to have many pursuits that I love, mostly related to being outside in nature. So from a self-centered perspective, I'll be OK for a while and have a good life. It's sad the younger ones won't have the life

I have had. That's what I expect anyway. I realize I could be wrong, God knows I have been before!  
But I believe the evidence I see, not what I wish I saw. As societies before ours self-destructed, I'm sure many thought it would all turn out ok.

Steelj, I agree that we are headed for destruction. I see dictatorship, possible war, lots of things. That said, I also see a lot of hope, based in truth, that when pain becomes undoable any longer, people wake up. And that is when things turn around. If the Iron Curtain dictatorship gunned people down for their free speech, yet it fell and the masses protested....suddenly....where they simply had not been able to before...why can't we have a similar victory for freedom right here ? I think that the pain/suffering the higherups have caused, will backfire. I think the truth is going to come out and it already is. This gives me hope. I say, regardless, we must stay with what is beautiful and what is good. Living well is the best "Revenge". No matter what, we don't have to allow our spirit to be affected. My two cents. Best....

Mirandola and all... I cannot help but think, when I watch Dr. Mercola in his videos, that his sincerity shines through. I have absolutely nothing against a person making money as long as they do it honestly. I think it would be wonderful if we all made so much money that we paid very little in taxes and took care of ourselves without much need for govt. One good thing will come out of all this negative news coverage about Dr. Mercola. Even more people will be curious about what it is all about. They will start reading his website--and likely get hooked on following up with new postings daily. All this bad press is terrific advertising. It will have the opposite effect of what is intended and will educate even more people. :-)

## Guillermou

A far-reaching report by Dr. Mercola on the synergy of vectors that enhance mortality and disease that connects the manipulations of vaccines with the toxic situation of biodiversity and the pathologies of an unhealthy humanity. Unfortunately, the deaths, diseases of the vaccines and toxic and ineffective treatments will enhance the economic and social crisis, and the poor will celebrate a funeral, while the profits of the corrupt elites will grow. Big Pharma sees in this pandemic the potential alternative to the use of toxic drugs and vaccines with gene therapy and pollutants that create a synergy that, as reported by Dr. Mercola, causes deaths and potentiates chronic and degenerative diseases. Natural resources and protocols with effective medicines that would avoid vaccines are being neglected. Only increasing profits, monopolizing theft and disease that serve the vicious cycle of destruction and the tyranny of corrupt elites, Big Pharma has subdued the institutions of "health" to destroy the vitamin and herbal supplement industry. . Corrupt institutions have become a traitor and an enemy of the people in their criminal efforts to take down the only natural health business that has actually proven to have positive results. Big Pharma has tried to offer the fascist-fueled army of 100,000 FDA Gestapo agents what is healthier and good for people in order to eliminate our choice about our own personal care.

We must stimulate our immune system to defeat the coronavirus. All of Dr. Mercola's

recommendations are necessary as preventive and curative medicine. People's immune system will create antibodies over time, without the need for vaccines that cause dangerous reactions and undesirable immune responses. For the development of an endogenous protective immune response in the incubation and non-severe stages, the host must be in good general health and it is also desirable to stimulate an appropriate genetic background that generates specific antiviral immunity.

One more step forward we have the development of a Strategic Intelligence Platform in disguise that encompasses false definitions of commitment to biodiversity, the environment and food that is to be achieved with the agri-food industries GMO and pesticides, digital identity, 5G, robotics, artificial intelligence . Covid-19 is a great recipe for the vaccine that has also created a great disruptive reset of our global, social, economic and political systems. The loss of civil liberties and rights by the powers due to covid-19. More than 2.6 billion people around the world have been affected by decisions that governments have implemented with the excuse of the pandemic. It is the gaze of a techno-fascism that points out the role of large companies that would not respond to the shareholders or the interests of a nation, but to the "Stakeholders", causing executives who have not been elected and who work with shareholders' money, replace the role of democracy and politics.

The Great Reset, for all its universalist ambitions, is a self-serving model for the globalist elite that aims to run the world at its whims to satisfy its greed and ambitions, Losers, demolition of democracies, adding all who benefit to the corporations of the production and processing of energy and agriculture, artificial intelligence, BigPhama, etc., and ultimately to BigMoney, techno-fascism in its maximum essence.

At this point also underline this information from Dr. Mercola: "In summary, the work of Mikovits and Ruscetti demonstrates the important principle that viruses do not travel alone, they travel in groups. And while one can affect one part of the immune system, another type can produce other immune responses. The end result is what we diagnose as acquired immune dysfunction or deficiency. For example, HIV alone does not cause AIDS. To develop AIDS, multiple environmental toxins such as glyphosate, aluminum, or a co-infection of HIV and XMRV are needed. Again, XMRV is found in vaccines that were grown in animal tissue. "

Yes, it is important to highlight that the planet is facing a deeper and longer-term crisis, rooted in a series of interconnected global challenges. Emerging infectious diseases (NIDs) such as Ebola, bird flu, SARS and now the coronavirus (COVID-19) cause large-scale deaths, illnesses, and economic damage, disrupting business and travel networks. "Humanity's fight against power is the fight of memory against oblivion." It is the phrase of the writer Milan Kundera that is repeated the most by the Indian ecofeminist, philosopher and Ph.D. in Physics Vandana Shiva, a world leader in environmental activism and author of numerous books. She in the end she wonders "Who really feeds the world?" and connects with environmentalism, with the ancestral knowledge that nature keeps.

The manipulation of nature and the creation of spaces where attacks are based using physical and psychological tools, with the creation of real monsters with purposes that include the war against terrorism, but that reach tragic dimensions. The gain of the function, the bioengineering and all the attacks against nature to supposedly fight against diseases and to create vaccines is a step to a destiny of terror, where man leaves his soul to become a product of a technocracy that wants create a new human God. The individuals and agencies, non-profit corporations, that drive the coronavirus fear have a history of unethical behavior, including promoting pandemics to push vaccines, and appear to seek long-term gains through the implementation of a partnership. highly

controlled.

The results of the coronavirus scare have included huge windfall profits for billionaires, financial institutions and corporations. Legislation that is passed in response to COVID-19 is largely beneficial to corporate interests. The results for everyone else have been fear, unemployment, poverty, loss of freedom, serious risks to democracy, and death.

Vaccines are also a patent area of conflict, where we have a serious confrontation. The partisans say that we must get vaccinated out of solidarity and they do not realize the truth of vaccines, of the great empire that feeds the greed of an all-powerful BigPharma that is worth of the media and of the complicity of the institutions and millionaire elites, to present a bleak picture if we do not get vaccinated. The objective is that citizens raise the accusing finger against each other, even becoming a human pack hunting who the oligarchic elites indicate.

With this they try to divert our attention from the cloud of misery and rot that this humanity lives. All these corporations of the deep state have clear objectives, while they teach us an empty hand or while they point out the alleged culprits of their excesses, they rob us with the other, to satisfy their greed, for everything necessary to enhance their present and future luxury. Without any shame they throw the troops to fight each other, cannon fodder. When the casualties reach the limit of what is bearable, they will reach an agreement to share the cake. The big corporations are the big beneficiaries of a techno-fascist state.

"For me personally, it is the best evidence that this was not simply a series of mistakes by those in charge," Heckenlively says. "There had to be some other agenda... it seems like an amazing pattern of mistakes to just be the result of stupidity or politics." There's a hierarchy or sequence of what these criminals will admit to. They would prefer we believe that they are only there to help us. In order to do that, they must first convince us that we need help, and that usually requires that they develop a threat as much as they project competence and compassion. As George Burns said: "Sincerity—if you can fake that, you've got it made." Then, even if they fail, they can still fall back on "good intentions." So incompetence is not as indicting as it perhaps should be. After pretending to help—successfully or

not—come a series of other ignoble foibles that can still be written-off to human nature, such as career ambitions, politics or greed. Beyond that, we enter into to more nefarious areas of the spectrum, such as the plotting for tyrannical control or the deliberate intention to harm or kill.

The interesting thing with covid is that we have people believing scenarios across the spectrum. There are people who still believe fauci is a competent guardian of public health, and those who believe this entire episode represents a deliberate culling of the population. Clearly fauci and gates do not prioritize the actual health and well-being of people; are they even interested in that topic? And since we can see that these are cunning, crafty and ambitious people, clearly they are not stupid. Whatever they do is not by accident, but deliberate, including going down the checklist of what they will admit to. Currently, they're stuck on the story of sincere and competent guardians of world health. Not even close.

Darzoum, I love everything you write and all your perspective and compassion. We are lucky and grateful to have you here on the forum. Respectfully, I completely disagree that Fauci et al are projecting an aura of compassion. Far from it. Considering that ivermectin, plaquenil and vitamin C and all other effective interventions were dissed under his watch (and probably his guidance), Fauci is turning off so many people---and so many doctors---that many are waking up to the fact that he and the government are anything but on our side. So many doctors are disgusted and feel betrayed, and are speaking out. I know for a fact that many others are of the same feeling but they keep silent out of self preservation. I predict that with more time, more and more will have the climate offering them courage to speak up. And they are going to, increasingly, even if slowly and gradually.

I think the fact that the powers that be created pain and suffering for all globally, is a strategic blunder and one which will backfire. There is deeply unfortunately, nothing as effective for waking people up out of their denial. And the pain and suffering created, is deeply regrettably what is going to wake more and more people up. The powers that be have really over reached and abused insanely, under cover of protection. But that is what all dictators effectively do. They pose as protectors, they wrap up "Legal" and very unconstitutional bills in the name of good cause, and that is how they "Sell" the public. It is only a matter of time before the public finally wakes up. I don't think this era is like any others, I think many may remain asleep, but many are also going to wake up and already, many are. My two cents. Well wishes and blessings.

This is behind this became a worldwide event. The 3rd or 4th attempt at calling a worldwide pandemic, this 2019 event had far more advance planning, practice sessions, and funding support - starting sometime after the 2009 swine flu failure. Hi ICONOCLAST, I always get a smile experiencing how you put words together... it's the bonus on top of the valuable message.

Hi Mirandola, yes, of course. My point is that he is still playing a role... he's still called "Doctor" fauci... still heads the NIAID, still goes on TV interviews as the important authority, etc. etc. It's paper thin, but that role involves portraying the care and concern of the country's supreme health authority. That's the part; it's like casting for The Life Story of Shirley Temple and somehow Clint Eastwood gets the lead... it won't work, but he'd just have to try to pull it off as best he could. Fauci's actions are clear for all to see, but if he openly came out and said "I don't give a damn about anyone," then even the people still supporting the fairytale would have to turn on him.

Hi Randy, there's no doubt that so many of them have blood on their hands.

Hi sio6474, yes, that's the point. And they might even admit to a mistake if forced to, as long as they can still sell the idea of being sincere and well-meaning. How many times do people die in hospitals? How many times do doctors fail? And yet people continue to go because they're convinced it's not deliberate and the doctors are doing the best they can. It may or may not be true, but the intention counts for people. I haven't even seen where any of these psychopaths have even taken the first step of admitting a mistake.

Hi Rose, yes, absolutely... then in that case, deeper and wider (and further back) than Agendas 21 & 30; there is deep history behind all of this. I'm convinced that fauci, gates, zuckerberg, et al... and even schwab are mere front men and middle management. But that doesn't mean we can't also call-out the creeps right in front of us.

What I find concerning are the number of people taken in by their lies. What is most lacking among all people - and including believers - is discernment. I tried warning intelligent people about the vaccine - a lawyer in the family - who died of a blood clot - another lawyer friend, and friends from church - including a pastor. And I was viciously attacked! It made me not want to tell anyone else. People love their lies and delusions... I agree with Almond above: Now is the time to stand up. I have walked into stores without a mask - gotten screamed at yet in a store where all the sheep were wearing their masks I removed mine - and I saw a man watching me and he took his off. I printed material and left it on benches at restaurants for people to read. If we don't all do our part we're all going to collectively fall together. There is much we all can do. Believers know how this turns out. We're co-laborers with God.

sai, sharing your concern and more about how misled people are and how they are taking it in, I weigh in here about the strategy re standing firm as you and others say. The problem is that if we take off masks, we will create a knee jerk reaction in those who are less informed than we are. They are missing pieces of information and will freak out. This strategy will only backfire. It will only get people to rise up against us, not to join us. Far better is education, as a strategy. And that

must be very pictorial and visceral, not intellectual. People won't "hear" it when it's intellectual information. they will argue back. Instead, to speak to their gut is the key thing. I think there is nothing better than Dr Ted Noel's youtube in which he made the point, vaping through all kinds of different masks. Seeing is believing. This will turn people around.

sai and all... Guerilla warfare... Printed material must be brief, make an undeniable point and be at a grade school reading level. Print out some short paragraphs, cute cartoons (humor) or a quote from research. Start putting these on bulletin boards, tape them to mirrors and hand driers in public restrooms, vending machines, etc. Where ever you can think of. I travel with a small envelope filled copies and a roll of tape. Include italicized quotes as letterhead or under your signature for your emails and stationary.

If you are an over-the-road trucker, get on your CB radio and spread the message as you drive across states. All you need to do is ask, "Did you see this research?" That will start a conversation. Ask about mandates from the companies they drive for and what they think of them. Etc. Truckers do not realize the power they have to circumvent the lies media tells. Or how many people listen in on the road. As for door-knockers... how many "volunteers" can govt recruit? They couldn't even get census takers to knock on doors when paying them nearly \$20/hr. True believers who volunteer will be easily influenced if they believe such nonsense. That also means their minds can be easily changed once they have been confronted by a number of hostile individuals. We already know that 30% are vax resisters and a few more may already have buyer's remorse. This is not exactly something to look forward to doing on a Sunday afternoon. WHY ARE THEY REALLY GOING DOOR-TO-DOOR? Shouldn't govt already have all of this data recorded in the electronic medical

record system? Why would a person fearful of covid go door-to-door anyway? If the vaccine is 95% effective, they may be exposed at the 5th door (4 people per household). 1:20. A friend told a story about butchering moose when the doorbell rang. Being as careful as he could not to bump walls or smear blood on anything, he held the knife out when opening the front door. That ended the missionary visit promptly.

## Guillermou

Yes, Darzoum we need people to be thoughtful and seek the true channels of knowledge and true science. We also need that they do not degrade our thinking, we need a free nation and a people not subjected to the tyranny of corrupt elites. Interesting report: "THE WAR AGAINST LIBERTY" ... "Because citizen thinking has degraded over decades, and citizens rely on corporate-sponsored sources for basic information, it was possible, for the first time, to create a virtual pandemic, planned by the super-rich, promoted by news sources. that they own, authorized by experts from the institutes and universities they finance, and legitimized by government agencies (and international institutions such as the World Health Organization) that have been radically privatized."

"Those invisible forces now feel free to demand that we, without any responsibility to science, have whatever substance they offer injected into our bodies as a condition for the right to attend school, find employment or receive medical treatment ... The process runs like an invisible dictatorship that controls a distracted, confused and unfocused population, drowned in connectivity." ...

"Nothing will improve until citizens recognize that the cause of this nightmare.... it is the end of the self-sufficient and informed citizen with access. to the writings of experts with a deep commitment to the scientific method and ethical principles."

## Guillermou

Famous phrases that denounce a true WAR AGAINST FREEDOM: "Unless we include medical freedom in the constitution, the time will come when medicine will organize itself in a covert dictatorship." - Dr. Benjamin Rush, founding father and signer of the Declaration of Independence. "Men, it has been said, think in a herd; it will be seen that they also go mad in a herd, while they only regain their senses slowly, and one by one." - Charles Mackay.

Ultimately, we are controlled by hidden systems of power and domination. And they set arbitrary rules that can go against our core values of who we are. And the rules may not be logical and they may not make sense. Systems of power and domination (typically well camouflaged) will even know our thoughts. When positions that go against our moral being are affirmed, that is a real concern. And the rules change. The new rules seem arbitrary and don't make much sense. But if we question the rules, then there are serious consequences. Don't think "they" care about our best interests. "- Alison McDowell (paraphrased)

"We have organized a global civilization in which the most crucial elements depend deeply on science and technology. We have also fixed things so that almost no one understands science and technology. This is a recipe for disaster. We may get away with it for a while, but sooner or later this combustible mixture of ignorance and power is going to explode in our faces. "- Carl Sagan. "The 'science' controlled by companies is not really science, but a smokescreen to pave the way for products that can be harmful or addictive, but what do they care as long as they make a profit? There are many great scientists, but there are also many who are willing to be 'hired' to 'prove' that something is safe, effective, or does not cause cancer. You can't trust the EPA, FDA, CDC or corporate 'science' related to Big Pharma and Big Vaccines. "- anonymous

Trust nothing the government tells you. Trust nothing mass media supports. Trust the doctor within you. To prevent viral infections heighten immunity with ascorbates, melatonin, beta-glucans, raising basal body temperature (saunas, exercise) and increasing quality saturated fats (oil change), and you'll

not only stay healthy but also thrive, pandemic of not. If coming down with a virus, retreat by lowering immunity with large doses of vitamin D (30,000 IU daily), copper (2-3 mg), EGCG/green tea, and XO-inhibitor flavonoids like luteolin and apigenin (also found in sage, sage-herbal tea). And, no "flu" vaccinations or other.

I think Judy Mikovits is a woman of great integrity despite what the medical mafia and their minions say, Dr Mercola is doing mankind a great service publishing his articles disseminating information relatively easily understood by anyone without scientific training. I want to apologise for going off topic with this link of Brendan Kavanagh as the COVID-19 Safety Marshall at St Pancras Station. I particularly liked the girl playing at about 8 mins 44. Think of this as chicken soup for the soul. [www.youtube.com/watch](http://www.youtube.com/watch) Good health and very very long life to everyone. Thanks to all the top posters for giving great links about the big picture and the details deliberately hidden by the presstitutes. Obviously make your mind up about comments from quackwatch but watch out for their duck muck, their doctored dog turd words. Well let's hope for the best, and only of one of the tamer manifestations of Baal, and not Cana Baal. There's a transhumanist works cult goes by the name of Jehovah's witnesses cozying up with the Whore of Babylon with all the rest, but those who know the way, the truth & the life out here; and whose love has not grown cold still take the crap of the da#\$ned trying to warn them in obedience to the Creator of all who would be the savior of all though men serving the lie are loathe to humble themselves & love all truth, abandoning their god complexes & acknowledging their own sin & need in order to receive it.

It's still appointed every man to die, & then the judgement. No Christian wants to see anyone grow so bitter by the evil of this world that they turn from God who has faithfully warned & shown the way to beat it, to trust in self, works & sorcery. Jumping from the frying pan into the fire, from one ditch to the other & clean over the way unto life! But it is written that's what many will do, & we see the return to Babylonian confusion, order & hubris, & much fulfillment of the preserved scripture in these things.

That said, I'm thankful for verifiable truth coming out & science that is observable, repeatable & verifiable. Bought & distributed a number of those books myself. Still would like to hear Meryl Nass's informed opinion on this, & I'm not holding my breath about the 'goodness' of the elite managing good guys waiting on either side of the public stage to do cleanup & steer the narrative, now that they've irreversibly booby-trapped the world's economy & set the stage for their 'new'

whatever that isn't 'new' at all. Praying for the lesser of two evils & many souls to wake up and come out of her in the meantime & before it's too late but God's the one who determines when to pull the plug, and closes doors. And that would be El-o-him, Je-ho-vah, the Godhead: Father, Son & Spirit in whose image men are created w/ body, soul & spirit.

## **fundamentalassumptions**

On what authority ryantisha? I know my authority & have two- and three-fold witnessed faith....not blind faith. What authority are you gambling YOUR eternal soul on? People not in Christ have already missed the ark, & the promise of the bow is mercy for those who receive it with repentance & faith in the Gospel of the Lord Jesus Christ according to the scriptures. That the earth that now is will never again be destroyed by water, that the judgment throne of Christ is encircled by the

mitigating bow covering & protecting them from the unshadowed glory, judgment, & wrath of God.....while the white throne where the dead are judged has no bow between, of their own free will choice, their having rejected it. Genesis 9, 1 Corinthians 3 & Revelation 4&5 versus Revelation 20 KJB.

The next global judgment is by fire, not rain or water, & those who cloak themselves in the six-colored bow, the filthy rags of men's insufficient self-righteousness rather than Christ's, & sharing Lucifer-Satan's pride are among the deceiving & being deceived. It is written that those who refuse to love the truth that they might be saved will be given their desire & great delusion that they should believe lies. 2 Thess 2, Romans 9-11 KJB. To Jew first, then Gentile

Christ is the Door, the strait gate, & he also opens & closes it of his own perfect will & knowledge....not of men's or devils'. Isaiah 64 & 14, Matthew 7:13-14 & Luke 13:24; John 1,3, 8, 10 & 14-17; Revelation 16 KJB. Choose wisely. Few come to the end of themselves, crucifying the flesh to walk in the Spirit, & loving enough to faithfully warn, taking up the cross of offense to follow the Lord Jesus Christ who is the way, the truth & the life on that bloodstained trail. They prefer the Whore's supposedly superior, & easier way of illegitimate craft, her many devices, & partaking of her chalice of imposition & the blood of others as she rides the Beast of State & Empire in fornicating union. She doesn't end well.

Ain't no cure for corruption...And since solid first aid for corona became widely known in early '020 (Vits C/D/B1/zinc/nebulized H2O2-Iodine/ivermec/etc.), but NOW it's appropriate to disseminate a protocol for those remorseful at getting a criminal vaxxxine. Start doubling-down on established first aid..then to deal with spike protein a mixture of proteolytic enzymes like serrapeptase, nattokinase, lumbrokinase, bromelain, papain along with oral and nebulized NAC, with a full metal detox to reduce ionic attachment to vessel linings, sauna, breathwork and mindful fearlessness.....Graphene can be gathered by humic/fulvic acids/zeolites/kaolin clay..Attention to metabolic efficiency a no-brainer since strong voltage/alkaline pH is the basis of healthy biofunction..Dig those ATPs!

I would ask Dr. Mikovits, "What's up with the delta variant, apparently striking unvaxxed of middle age?" "What protocol elements might you suggest?" "What were you thinking when you got involved in this dirty business?" Blowback from The Fauch means you have obviously struck a nerve. Somehow the truth sneaks out. Well if true why were those who chose non injection over the past 50 years with seasonal flu vaccine not called killers and a menace to society too. I mean the data clearly shows the children die more from the flu or are more at risk each year from it than the Wuhan virus. I came back from the Gulf in 89, and immediately had symptoms of what would be diagnosed as multiple sclerosis, while the military medical denied any disease iteration at all. I've been on three gene therapy shot treatments, five years each, anaphylaxis ending each, I've been on tysabre, "mono-clonal anti-bodies" going on 14 years, 157 infusions so far, and "my neurologist won't tell me what is happening with all the others I began treatment with", his contractual obligation to BioGen, is more imposing than his obligation to the patient, me. No one I started with is left, most have transitioned to the newer interferons, some have died, none are still walking, yet no one is curious about me. I've had many relapses, gone blind again, partial paralysis, random muscle spasms, but I walk, ride a bike till it hurts, eye goes gray, I work as a machinist, welder, I make things, and work as hard as possible, to the pain, because a healthy body fights disease better than one not fit. They don't want to tell people to fight for life, to fight disease, they make enormous money, because I'm still alive, but they don't want me healthy.

Regardless of the cause, you need more than standard detox. In your condition, you should have the supervision of an experienced natural practitioner. Avoid those beverage mixes--they will be inadequate. Mostly just trendy stuff, not what you need. You need broad spectrum detox therapies, not standard IV chelation, either. I recommend ramping up on NDF+. No heroics. Stay at the same level for weeks, not ramping up more than 3 drops at a time. Do not overload your emunctories with the products of detox that get eliminated thru the bloodstream. Prob 4-6 weeks on and 2 weeks off as a rest while replenishing minerals lost due to chelation. Listen to your body, do no more than what is tolerable. Be patient even if it takes 6 months or longer. You will likely end up spending \$500, or more on this product, so buy the economy size.

Consider doing a "challenge test" before starting the regimen. You take 5 drops a day of NDF+ a

day so that tightly bound toxins will be released and show up on testing. If you have a starting point using the Doctor's Data Inc tests (hair, kidney/urine, colon/fecal), you can chart your progress and know when you are done. Check costs and shipping schedules so tests arrive in a timely manner. 3 tests because toxins are stored in different parts of the body--they are site-specific according to tissue type.

In my experience, NDF+ has even cleared uranium toxicity. Many troops were exposed to radioactive fallout when the weapons of mass destruction (chemical, biological, radioactive) that really were found and destroyed by burning. The longer this can be denied, the fewer veterans will still be alive to obstruct the coverup and demand benefits. Too many are being told it is all in their head. However, if you consider their symptoms and complaints, many are typical of (radioactive) poisoning. You are wise to work thru the pain. You feel better about a day when you accomplish something. Movement is life. When you quit moving, you start dying.

Though I'm strong enough to work and carry on I'm still affected and restricted by its impact. The thought of possibly having hiv is shocking! We likely all were injected with toxins and/ or bitten by military-infected vectors such as ticks or eaten meat poisoned with Mad Cow disease (I'm vegan) If anyone looks at the Steve Jackson cards you'll see the card on the poisoned food. Plus with Codex Alimentarius all our food - including organic - is irradiated. Little nutrients left. The biggest issue I see is that we need to join forces since this is an obviously well-thought-out multi-pronged attack. The realization over 30 years ago that retroviruses were contaminating vaccines is what prompted me to draw the conclusion that, "the vaccine paradigm was (and still is) the most insidious form of abuse

ever perpetrated on humanity” The following exceptionally well reference article titled, “What Is Coming Through That Needle? The Problem of Pathogenic Vaccine Contamination” by Benjamin McRearden, even though written in 2002, is especially relevant to today. [rense.com/.../thrur.htm](https://www.rense.com/.../thrur.htm)

The article states, “It has taken, for instance, approximately forty years for the scientific community to finally acknowledge that we have a serious problem as a result of the contamination of polio vaccines with simian virus 40 (SV40) in the late 1950s-early 1960s. There has been previous evidence of some human brain and other tumors containing this virus (32, 33), but the medical community has been slow to acknowledge a definitive link between SV40 and cancer in humans. However, two independent research teams have recently found this virus present in 43% of cases of non-Hodgkins lymphoma (34, 35). Another study found it present in 36% of brain tumors, 16% of healthy blood cell samples, and 22% of healthy semen samples (36). And strangely, SV40 has now been found to infect children (37). Considering that children of this era, are not supposed to be receiving the virus via the vaccine contamination route, this would therefore imply that SV40 is being transmitted from one human to another, in ways not previously known”

With respect to his question, “Are these foreign animal genes altering your DNA?” I would suggest that they likely are especially with retroviral contaminants such as SV40 which use the enzyme reverse transcriptase (retro) as a means to genetically link and conceal itself to and within the cell structure of the host. This is not something you want lingering around in your body.

The surgeon was a wonderful person trained in Canada, who decided against chemo or radiation. The tumor is a schwannoma located on the brain stem. This is a healthy person who stopped getting MRIs 25 years ago to monitor the tumor and said what will be will be.

There were about 100 million doses of Salk vaccine that were found to be contaminated with SV40. Were they discarded? No, they were used to inoculate people! When Dr. Bernice Eddy (Wiki lies about her) was instructed by NIH to test the Salk vaccine (supposedly a killed virus) just prior to distribution she inoculated her monkeys and the fell over paralyzed in their cages. To demonstrate that the vaccine was ready, Dr. Alton Ochsner inoculated his own grandchildren with it. His grandson died and is granddaughter contracted polio but survived. Dr. Ochsner stated that SV40 could be transmitted through sex!

From the book "Dr. Mary's Monkey", Edward T. Haslam. - a MUST READ. "How the unsolved murder of a doctor, a secret laboratory in New Orleans and cancer-causing monkey viruses are linked to Lee Harvey Oswald, the JFK assassination and emerging epidemics" (Book cover). This work was carried on in a public building and a house in a residential neighborhood using a 5 MEV linear particle accelerator. So much for BSL safety labs. They could have wiped out the entire city of New Orleans!

From the article you posted 'Simply put, are we in a state of denial that vaccines are ultimately transmitting viruses, DNA, and proteins into humans from foreign animal sources (and possibly unhealthy human sources), and that this may be strongly contributing to the incredible upsurge in

cancers and serious chronic diseases? Are these foreign animal genes altering your DNA? Furthermore, given that viral presence can sometimes take years to manifest actual disease symptoms, and then considering the tendencies of health-related agencies and corporations towards short-term solutions and profits, will we ever truly know the long-term consequences until it is too late?'

Yikes!!! I'm reading that link concerning the use of green monkey kidney, foreskins, bovine diarrhea virus and I wonder how we've survived? How my children survived and now my grandchildren?? We're each contaminated with animal cells and viruses that were never intended to heal or prevent illness but rather to cause sickness, cancer, tumors and all manner of other afflictions. The awakening is painful yet necessary. My family line is forever poisoned but I hope there are others who find the truth, apply it and are able to reproduce a healthy bunch of freedom loving/living children. Vaccination is a toxic poison-

Very frustrating. No, not the DISCOVERY of this perverse evil so much as the lack of comprehension as to whom is so blatantly responsible for this. What "clan" was able to garner CIVIL IMMUNITY for CBC, (Central Bank Clan), controlled pharma in the 80's?

What clan was able to get their "tools" in D.C. to sign into LAW the 7 Noahide Laws in the early 90's - Literally creating a STATE ELIGION, using the same "tricks" used to get the Federal reserve Act passed in '13 which is a DIRECT violation of our constitution regarding WHOM is responsible for printing/distributing our "sovereign currency"? What "clan" was able to garner an EXCEPTION to prosecution for hate crimes THEY were primarily responsible for getting passed in a nation where we're all supposed to be equal under the law? Hint; You'll have to work a bit to make it past "Wikipedia" and the rest of the CBC, controlled media but one can still find third party bits of truth. \*\*\* When asked how they proposed doing this, he said: "At first, by controlling the banking system we were able to control corporation capital. Through this, we acquired total monopoly of the movie industry, the radio networks and the newly developing television media. The printing industry, newspapers, periodicals and technical journals had already fallen into our hands. The richest plum was later to come when we took over the publication of all school materials. Through these vehicles we could mold public opinion to suit our own purposes. The people are only stupid pigs that grunt and squeal the chants we give them, whether they be truth or lies."

It is ludicrous to suggest that we are not being subjected to propaganda. The insane censorship is just one confirming factor. If the supporting evidence was valid, there would be no fear of debate. In Australia, as in most other countries, we are being cajoled, threatened, coerced and shamed into accepting the injections. New South Wales is the most populated state in the country and Sydney is the most populated city in the state. Sydney has been in lockdown for 7 weeks and at least 3 more weeks ahead. "Case" numbers are increasing every day. The "cases" are now appearing in other areas and the lockdown areas increasing. The Newcastle region, where I live, is the most recent area to be locked down. I anticipate the lockdowns to spread to the entire state and this will then facilitate martial law. The army has already been brought in to enforce the lockdown in Sydney. It is just too co-incidental that the most populated cities in the most populated state are experiencing this "outbreak" and that "vaccination" is the only way back.

Bear in mind that daily, reported cases are under 400, in a city of over 4,000,000 and the misery that these people have been subjected to is not warranted by the "case" numbers. It's also worth noting that we are in the middle of our cold and flu season. We had higher, all cause mortality in 2019 than last year and this year is looking much the same, so far. I have written multiple times to federal and state leaders, federal and state health officials and the TGA. (Australia's equivalent to the FDA). If I receive a reply, it is generic and does not address any of the issues I raise. I have been quite blunt in my accusations and even these are not addressed. It is blatantly obvious that we are being manipulated. I am in the process of trying to form a global citizens organisation.

Science is branded. You can pay a scientist to say whatever you like. There is no truth. The truth is now manufactured. You now have to decide who you are going to believe. Look for a number of people, with no hidden agenda, who tend to agree and this will most likely to be the direction to investigate. Don't be satisfied until you have done some research, not using Google, or the media. People will believe whatever they like but it doesn't mean that you need to believe the same thing. Remember that perception is the reality. I believe that we in this community are in the right and that we will prevail, although many people won't. Australia and its citizens have suffered so much in recent history from devastating bushfires to mining the countries resources to selling itself out to foreign investors whilst the politicians stood by and allowed "islands" to be built within the region in order to expand geographical control by economic dictators. It is very sad indeed. Do not expect any answers from your health services. Their legal teams represent their employer, not Australian citizens and they lurk in the shadows out of view, highly paid for their service. State premiers have used the Corona virus opportunistically for political point scoring and setting state citizens against state citizens. Many are aware of this yet they STILL buy in to it. That is a flaw in the human condition.

Sad to state, this is nothing new. Over the decades it has been stated by a myriad of ppl and groups in copious ways (in all or part). Even various metaphysical / spiritual books state similar verbiage that can be interpreted as such. IE: In Genesis 2:17. Youtube is full of S. Hawkins predictions of "a few hundred years left on earth". Pacific garbage patch, Gulf of Mexico having one of the larges dead zones in the oceans. Dumping chemical & nuk waste in the oceans. Production and use of fission technology. Like building a city w/ no bathroom. King Tut drank from leaded dishware. Here we are, centuries later we are still using dishware w/ lead & other toxic chemicals. Deep-water Horizon oil spill - never properly addressed. But humans keep drilling. Japan still dumping nuk waste in the ocean. Everything is safe till the lawsuits kick in mentality of many countries. FDA laws = Only a drug can prevent or cure. Patenting life forms. FCC rule = This device MUST accept interference that may cause undesired operation. < --- This is a law that permits hacking. Fracking w/ proprietary chemicals in the Easterly US states. Ever growing mounds space junk circulating the earth. Objects being sent to other planets powered by some form of nuclear fuel. We are unable to clean up earth? How will we clean up other planets when the containment systems of this. W/ this mentality there is NO planet B. If there was, it would look like earth in no time.

We MUST change or we become our own worst enemy, mostly from corporate & government greed.

Individually speaking we are at odds w/ each other. A planet is only as healthy as it's inhabitant .

EmilyHarbour, you are fortunate that you do not know of people who have suffered from the Covid shot. According to VAERS last week, a totally of 11,400 people have been reported to have died of the 'vaccine'. 600,000 more have symptoms severe enough to report them. According to some sources, 10-50% of the actual cases get reported. Any other vaccine that had 25 to 50 deaths attributed to them was stopped. Why not this one with 200 times more?

Pregnant women are being pushed to get this shot and being told it's safe, when they should not put anything that's not fully tested into their bodies. There are 900 reported miscarriages after taking this shot, but the push continues. Why are babies being risked? There is no balance out there in the world. It's all push, push, push and hide, hide, hide. They need to push as many people as possible to get this shot before the side effects and deaths become so overwhelming it can't be hidden anymore. There are safe treatments that save lives, but they discredit and hide them to cause fear and make people think there is no alternative than this risky shot. How is that balanced?

Yes according to my own perceptions and awareness, this is all right-on. The greed for power, prestige and money corrupts people absolutely. People like Fauci and co. are not intelligent people, they are merely clever and there is a huge difference between real intelligence and mere cleverness. Science is in the hands of the wrong people and is being misused. Science and its applications needs to be put back into the hands of aware, loving and conscious beings. Curiously, if someone that's been injected with one of these "vaccines", will any blood they may donate at a blood bank be also contaminated and would any recipient of this product be adversely effected? In other words, would the donated blood with possibly included 'spike' protein produce problems for someone that's "unvaccinated" or without Covid-19 antibodies?

I think it would be like getting 'vaccinated'. It will probably make these people's bodies start producing the spike protein. If it's years down the road, maybe the vaxxed aren't still creating it. We don't know. And that's a major reason why these 'vaccines' should have stayed in testing longer, preferably animal. I'd even be leery of getting blood from someone who had Covid. Is the spike protein still circulating in their blood?

I find this article difficult to understand. I am a person of normal and good enough intelligence to understand most of the things written in popular press for lay people about science and medicine and other things that have a technical aspect. I follow without much of a problem a lot of what is written on this website about nutrition and medicine. Bu't t I find this article difficult to follow. Some of the sentences I look at and think: What is this sentence doing here following the one I just read or leading

to the one I read next? Some of it I just haven't been able to follow. That makes me uncomfortable. I think the article could be written to be more accessible to a reasonably intelligent lay reader. Then I could assess at least a little bit the credibility of what I'm reading. It's not that I am inclined to particularly doubt what is intended to be communicated here. I am willing to see the evidence and follow an argument. But could the article be written in a way that would make it comprehensible to someone like me? Or is it my problem and I should just read more? I just don't think it is as clear as it could be. But I may just have an incapacity here I'm not aware of.

### **sio6474**

My take away bottom line from the article is :'According to Mikovits, 8% of the human genome

consists of endogenous viruses that include retroviral envelopes that are critical to the regulation of our innate immune responses, our critical type 1 interferon. Some perform very important functions, including regulatory roles. However, you cannot express animal or other human endogenous viruses without risking recombinants and new viruses. Hence, when vaccines are contaminated with animal retroviruses, you risk creating brand new viruses that can cause all sorts of harm.'

The top down hierarchy of these 'Public Health' agencies is a classic example of an economic system described by Mussolini as 'Corporatism'-- that is, government control of the means of production, vs government ownership of the means of production a.k.a. communism. The few at the top can easily control all the others under them by doling out resources at their whim. Since upwards of 73% of white collar employees work paycheck to paycheck, not many will stand up and say 'this is wrong!'. People didn't get COVID initially, because the initial spread only primed the genes (changed/manipulated them).....then there has to be a trigger to activate them....could be 5G, could be something else there are other reasons, too, inc other results/ illnesses/ deaths that are not attributed to the true cause, etc (& over-reported deaths supposedly from COVID, but actually form other reasons).....no energy to get into all that now, but so much is being hidden/covered up/misattributed, etc also many other people DID get sick many years ago - just not with COVID, but thigns like CFS, that have had a HUGE stigma intentionally attached to them, so they could hide the true cause (& many deaths from such illnesses have been misattributed to other causes - intentionally)....very long history just with what has happened re CFS, especially in the US & the UK, but that is (quite literally) a book (& then some)...I say literally because there have been books written about that, too

Judy Mikovits said SARS-COV-2 is a monkey virus that was made more lethal by the addition of a lipid covered spike protein that contained bits of HIV, and XMRV in envelopes. The envelopes surrounding parts of viruses cause a persons' immune systems, to mount a huge inflammatory response, which is responsible for the cytokine storms. It was difficult to put together, I had to rewind back to see her explain it, again. This is the way it seems to me, and one can see why it's considered a bioweapon, by many experts, who are being censored.

From the National Institute of Health. I find it more than a little disturbing that this is not not shared publicly (via the news). If the medical authorities really want to slow or stop 'the virus', how much simpler could it be? [www.ncbi.nlm.nih.gov/.../PMC8026810](https://www.ncbi.nlm.nih.gov/.../PMC8026810) SARS- CoV-2 or novel coronavirus enters in human body through nose and mouth, stays there for a while. Then binds with ACE2 receptor, enters inside cell, multiply there and manifests. Again, Polyvinyl Pyrrolidone or Povidone Iodine (PVP-I) is a strong microbicidal agent having 99.99% virucidal efficacy in its only 0.23% concentration, irrespective of all known viruses, even in SARS- CoV-2 (in vitro). An oro-nasal spray is designed to apply the PVP-I in nose and oral cavity to gain a protective layer or coating over nasal and oral mucosa, so that SARS-CoV-2 can't bind with the ACE-2 receptor and prevent their entry inside. So, it will be effective for prevention of COVID-19. Moreover, as PVP-I has the ability for destruction of SARS-CoV-2, transmission of SARS- CoV-2 from patient will be reduced also. Thus PVP-I oro-nasal spray can act as an effective shield for COVID-19 protection for healthcare workers, for all.

Because there is no such infectious virus, Dr Martin proved without a doubt it's a long known computer generated chimera, and on Friday the CDC stated they are revoking the PCR because they cannot tell the difference between flu and so called sars. Of course they have always known that and said so on their emergency approval report, but I guess after destroying most of the world they thought they better fess up, albeit late on Friday

MarilynSh, If that's true about the CDC and the PCR test then it simply means that they're onto the next phase of the scam. Regarding our tainted blood supply, I've long suspected that particularly with the attraction of money to the homeless who generally don't live healthily. I would prefer to risk near death than accept blood and instead count on my most amazingly healthy body survive to produce more blood quick enough for recovery should blood loss ever be that bad. My blood is special because I am healthy and disease free. I don't know about the system and laws, so I ask if my blood can be made available outside of the system specifically to friends to make sure they don't get something bad with blood? Related is I suspect my blood contains a killer innate immune system that would destroy disease and pathogens in another person. There is one way to find out. That is what science is -- have a hypothesis and then test it. Unfortunately, people are now conditioned to believe that science is truth handed down to us as opinions by authorities not to be questioned and most certainly not compete with alternatives. I'm also a universal donor.

Mercola called Zach Bush a genius in his first interview with him and maybe in the 2nd said he deserved a Nobel Prize for his Restore product. Restore is very expensive and I wish Mercola.com would do an article on it and cheaper next bests like fulvic acid or Zeolite. The only other I heard him call genius was Jerry Brunetti: [www.farmingsecrets.com/.../jerry-brunetti](http://www.farmingsecrets.com/.../jerry-brunetti) Brunetti does not not show results from the Mercola search engine which might be because it was a long time ago) Brunetti was from North Carolina (me too) and we were the same age with him getting his degree in agriculture from NC State in 1975. He pretty much took it as indoctrination and said no thanks to the clown show and took his freedom of mind to develop his own animal feeds in Pennsylvania.

When Fukushima happened 3/11/11 all the various radiations falling on Pacific- immediately killing sensitive phytoplankton (Kevin Blanch says "They killed the luminescence" in the "Pacific genocide"), leaving a deposit of dead life 1/8th inch thick and beginning the starvation of the higher ups on the food chain. Before the arrival of three China-syndrome reactors that saw fueled rods stored in cooling tanks above the reactors blown a mile into the air, the RAD system meant to warn us was shut down and Obomem and some big shots flew to South America to get out harms way. The plum moved easterly and blasting PA on its way to global coverage, landed on the grass the cows ate. I put it 50/50 3/11 killed Brunetti. Brunetti had cancer, injected his blood into a pregnant cow, collected the colostrum, drank it and got better. He had medical celebrity when Andrew Weill & Null were the only ones to pass around and the stuff that made him celebrity would be infant to the stuff behind the celebrity of Zach Bush.

**Anyone see any parallels?**

In the 1930s, Nazi Propaganda Minister Joseph Goebbels led the charge to create a radio cheap enough that even workers could own one. The first Volksempfänger, an affordable and extremely popular radio, was introduced in 1933, the year Adolf Hitler was appointed chancellor of Germany. This was no coincidence. In the 1930s, everyone wanted a radio. The still-new invention brought news, music, dramas, and comedy right into the home. Propaganda Minister Joseph Goebbels saw its potential to transmit Nazi messages into the daily lives of Germans. The only hurdle was producing and disseminating the devices on a mass scale. Under Goebbels's direction the Volksempfänger, or "people's receiver," was born.

**GREAT NEWS!** Blog/Canada Posted Aug 5, 2021 by Martin Armstrong.....Spread the love.... In Alberta, Canada, Patrick King represented himself in court after being fined \$1200 dollars for protesting against the Covid restrictions. He issued a subpoena to the Provincial Health Minister for proof that the Covid-19 Virus exists. The government was UNABLE or UNWILLING to provide that proof and were therefore forced to admit that they had no such evidence. the virus has been isolated for that is how it was argued to have been created in a lab. Since the government did not respond, without proof the government had no legal grounds to impose any such restrictions. Alberta has subsequently rescinded all Covid-Restrictions and now officially treats Covid-19 as nothing more than the mild flu. Alberta's Chief Medical Officer of Health Dr. Deena Hinshaw announced the changes on July 28 as part of the province's move to treat the virus as part of life in Alberta and treat it in the same way Albertans treat other respiratory viruses.

"Mikovits believes those who are most susceptible to dying from the COVID shots are those who are already coinfecting with XMRV, HIV, Borrelia, Babesia and other pathogens commonly acquired from contaminated vaccines." Hence, the reason why Ivermectin and Hydroxychloroquine work. They are anti-parasitics. If one reduces the pathogenic load, the immune system will not be overwhelmed. Interestingly, in the autumn of 2019, the latest, greatest quadrivalent flu vaccine was rolled out in both Italy and China. Vaccines are weapons of mass destruction.

"To prove SARS-CoV-2 causes COVID-19, you have to extract the virus from a person who has COVID-19, and infect another person with that virus. If the exposed individual gets COVID-19, then the virus would be the causative factor." So who has done this? I am waiting for answers. Apparently, one would go to jail for doing this experiment. I have no idea why. If a person can be voluntarily subjected to an experimental treatment, he can volunteer to be infected for the sake of others. Dr. Mercola featured the U.K. "flu camp" where they do just this ([flucamp.com/paid-clinical-research-trials](https://www.flucamp.com/paid-clinical-research-trials) ). And the possibility of getting a disease is low. However, I don't buy the above. Like mainstream medicine it ignores the immune system factor. My understanding is that if the immune system can handle an infection, then a person won't become ill. As such, the germ theory of disease is incorrect. Germs may be necessary, but they aren't sufficient. I came across good information in this regard. Koch's postulates are outdated.

Is HIV-AIDS really the leading cause of death amongst women of childbearing age worldwide? I could not find this statistic anywhere, but I suppose it's possible. Women under 45 would have generally low mortality from all causes, so HIV-AIDS could top the list. According to IHME, HIV-AIDS is the 14th leading cause of death overall worldwide, and accounts for 1.71% of deaths. In the US, it has not been in the top 15 causes of death since 1997, and mortality in most countries has declined steadily thanks to antiviral treatments and public education, both paid for largely by American and European governments. Is someone suggesting we should be spending more than we have on the 14th leading cause of death? Well, who, and how much, and at the expense of what other scourge of mankind? The big test will be "can we put the hammer down and fully prosecute those people behind this horrible pathological nightmare"? Rand Paul had Fauci by the scruff of his neck and failed to put the prosecution of Fauci et al in the proper hands. Is Fauci too well protected by high ranking politicians and others? It's now or never, time is a'wasting and we've got to be aggressive with our adjudications. People pushing the vaccines probably thought they had more lead time to get their thoughts together, but even they now know they are being followed very closely. Stretch a few necks and let's see if the craven cowards come out of hiding. They are already guilty of millions of murders. Let's make haste.

Rand knows he can be JFK'd. He has a family too. No - it's going to likely be won: 1. Spiritually first. How many of us are using the weapons of our warfare? How many are so disturbed they're fasting as they did in ancient times - giving more strength to their prayers. 2. All-out Revolution. I don't know if this will happen - I suspect it. It will be up to us. No man is coming to save us. I was

hoping Chuck Baldwin would lead. Or Steve Bannon.

Just a thought but, from what I have read of the Globalist NWO, A main concern of these ghouls was how to bring down the world's population to a level they can manage in their new world of the future. From what I have read here,these vaccines may be a deliberate part of their agenda,along with free abortion on demand.

## **keepingfit**

Very definitely, the powers-that-be are hell bent on bringing the world's population down.....it's their primary goal. I personally watched a tv program many years ago where Bill Gates was giving a speech and in his dialog he mentioned that the earth had a much too large population, therefore it needed to be a reduced. He immediately went on to say that the reduction could easily be attained through the use of vaccines. This obviously was his desire, and as soon as I heard the words coming from his lips I immediately spat back at the tv set saying...'Huh, and just who do you think you are to make that decision '. To this day that remark coming from his mouth is still in my memory and I'm still angry toward him, especially since he and his cohorts make no bones about their desire to reduce the world's population and feel it's their right.

Maybe someone can answer this for me. So It has been determined that the spike proteins that are produced in your body by taking the vaccine are toxic. Is it possible to test positive for Covid the day

**AFTER** receiving the vaccine from just getting the vaccine alone??? A friend in his 70's with no underlying health conditions that I'm aware of tested positive the day after taking the jab. His symptoms after testing positive became progressively worse over the course of the next week. Was treated with an antibody infusion to know avail. Was later placed in ICU on a ventilator. I was told he developed multiple blood clots. All his organs shut down and he died later after being in ICU 15 days. I will always wonder if the vaccine **ALONE** could have possibly made him test positive and then ultimately caused his death. I am wondering also if someone has side effects after taking the vaccine , would they show positive for Covid if tested?

There is no medical interest in understanding why someone dies from COVID, nor why someone dies from the COVID vaccine. And there is no interest, in our medical bureaucracies, in learning the truth. Why not? Because every death is an anecdote. Each death has specific causes, not statistical causes. Every cure is also an anecdote. There is no official interest in COVID cures. The drift towards total reliance on Evidence Based Medicine (EBM) has moved us away from studies of actual causes and actual cures. Modern medical theories, EBM, has become a set lies, damn lies, and statistics. Wikipedia: " 'Lies, damned lies, and statistics' is a phrase describing the persuasive power of numbers, particularly the use of statistics to bolster weak arguments." When we rely entirely on "(statistical) evidence" (AKA clinical studies) we cannot see the trees for the forest. To your health, tracy

## **lilitu\_adamah**

**Vaccines, Body, and Soul: Disconnecting the Body from the Source (Effects of Vaccines):** "The problem with the vaccine is that it disconnects the body from Source, so the person is no longer perceived as it was before from the point of view of the people around that person, and this happens in a progressive accumulative way. So the body will go collapsing its functions until it ends up working at a minimum, in a state alienated from its soul, so to speak, alienated from the signal from its owner, owner being a fragment of Source and Source itself. The vaccine means a slow progressive disconnection of the body from Source-consciousness-individual. The death of the body."

"So as the vaccine goes developing its real effects throughout a span of time, it begins to limit the amount of connection possible with Source, from 100, to 93, to 78 to 52, to 37, to 19 % and as it gets lower and lower, its connection to Source will be progressively severed, becoming more like automatons. Like Back Drop People. And even later or more after, to work in a decadent state equal to zombies in all the expanse of the meaning of the word Zombies with a capital Z. To the very best of my knowledge that is what will happen in a few months to years, and the process has already begun."

"The problem here is the automaton effect. And this also leads to entity parasitization. That is... the body formerly belonging to someone. Someone kind and real becomes an entry point for dark entities to use to come into the physical world. They are always trying to find a way into the physical, and this is one of the ways they will use and are already using. So that's another agenda that hasn't been mentioned before and it is important. Another reason why they want to vaccinate people. So they become portals for entity possession. And that is terribly real."

I listened with interest to the interview. However, Dr. Makovits' theory that HIV/AIDS has come through defective vaccines, or at least vaccines laced perhaps unwittingly with animal viruses or bacteria, in Africa you'd be hard pressed to find one adult who had been vaccinated at all, and yet AIDS is rife here.

In recent years, children are automatically vaccinated according to the United Kingdom schedule and the younger generation who may wish to study abroad, but the majority of the general population is not vaccinated and, interestingly enough for your readers and viewers, has no intention of getting the COVID Vaccine.

Slightly off topic... While I fully appreciate that Mercola.com has to work around the horrific censorship as best as they can, there has to be a better way to present these videos. As is, they are really clunky and like watching through a mail slot. One has to scroll up and down to see screen elements because there is no way to switch to full screen. I tried 4 different browsers and the presentation doesn't change. tillthen ur welcome ..... read up on the BIG LIE a great example is Hitlers statements about the Big Lie [en.wikipedia.org/.../Big\\_lie](https://en.wikipedia.org/.../Big_lie) The source of the big lie technique is this passage, taken from Chapter 10 of James Murphy's translation of Mein Kampf (the quote is one paragraph in Murphy's translation and in the German original):

"But it remained for the Jews, with their unqualified capacity for falsehood, and their fighting comrades, the Marxists, to impute responsibility for the downfall precisely to the man who alone had shown a superhuman will and energy in his effort to prevent the catastrophe which he had foreseen and to save the nation from that hour of complete overthrow and shame. By placing responsibility for the loss of the world war on the shoulders of Ludendorff they took away the weapon of moral right from the only adversary dangerous enough to be likely to succeed in bringing the betrayers of the Fatherland to Justice.

All this was inspired by the principle – which is quite true within itself – that in the big lie there is always a certain force of credibility; because the broad masses of a nation are always more easily corrupted in the deeper strata of their emotional nature than consciously or voluntarily; and thus in the primitive simplicity of their minds they more readily fall victims to the big lie than the small lie, since they themselves often tell small lies in little matters but would be ashamed to resort to large-scale falsehoods. It would never come into their heads to fabricate colossal untruths, and they would not believe others could have the impudence to distort the truth so infamously. Even though the facts which prove this to be so may be brought clearly to their minds, they will still doubt and waver and will continue to think there may be some other explanation. For the grossly impudent lie always leaves traces behind it, even after it has been nailed down, a fact which is known to all expert liars"

I am a huge fan of yours Dr Mercola and also of Dr Mikovits. But the question of why the most HIV cases are in women depends on where most of these women with HIV reside. If they are in 3rd world countries like Africa or the Middle East, I think the answer is obvious. I don't doubt the science that she is talking about but the assumption that all or most of these HIV cases in these countries are solely from Big Pharma greed (although I am sure it is there) and not from behaviour (especially male) gives opposition reasons to use against the science.

Good article but no mention of luciferase or graphene oxide, both of which show that the covid shots are truly evil in their intent.

I need some info. Does anyone know that if you take an elderly person to the dr, are they giving them the death jab without permission? Could they be sneaking it into a B12 shot?

I am not understanding then how Covid is transmitted to others then, from an infected person to another person - if Judy Mikovits is stating that it is only transferable by injection. And also I don't understand why it's so important that it is a monkey virus and not a human virus. Can you put these answers in layman terms? How is this plague than passed on and on, if it isn't transferrable?

But Mikovits herself said the xmrV theory was dead for good after the Lipkin study she participated in. Right?

I don't understand how the system works in the USA. Why can't Fauci be removed? Why didn't the former president remove him from office?

Because the far Leftists have big money behind them. Evil can get ahead for so long but eventually they will all fall. We the people suffering their tyranny have to live with the reality that THIS IS NOT A MOVIE...it's for real and finding out how long our government has played "monopoly" with the American peoples lives, money, future, and dreams is enough to make you SUPER PIST OFF right? I am, I'm so mad knowing these people have no conscience or morals and Don't lose sleep at night over destroying human beings for their gain. Gag me right?

Its far deeper than we know. We believe the USA is under it's own control, but that is where the rubber hits the road

I have a question for Judy Mikovits: How do the authorities test for the Delta variant or other variants? Are there any tests for variants? How do the authorities know that all these people are infected with these variants?

IT'S UNFORTUNATE THAT MOST OF THIS IS NOT CONSUMABLE OR INTELLIGIBLE FOR COMMON PEOPLE. MERCOLA COMMENTS ABOUT CONFUSION IS HOW THE AUDIENCE FEELS. I CAN'T PASS THIS ON. CLEARLY THE SPEAKERS ARE VERY SMART EXCEPT THEY CAN ONLY TELL THINGS AS A STORY WITHIN A STORY WITHIN A STORY AND THE SKILL OF SIMPLIFICATION IS NOT PRESENT.
