Human life is Divine, not only in terms of its potentiality, but because it is a perfect manifestation of all divine impulses of nature, reflected throughout our human physiology as the universe incarnate...

An artist, Advaita Tantra Teacher and founder of the Flowing Wakefulness Fellowship, for over a decade Igor Kufayev has been serving as a conduit of transmission for awakening towards the new era of heart-centered consciousness.

Speaking from direct realization of Oneness, he inspires all seekers of truth to recognize the fullest potential present in human birth.

Many have been touched by Grace and awakened in his presence, as he continues working towards building a global community to serve as a container for exploring possibilities for alternative, consciousness-based culture.

GNOSIS

The Teaching is the knowledge of the Self, alive and throbbing in the Heart of an awakened being, as wakefulness of his own awareness. The essence of the teaching on the nature of ultimate reality, also spoken of as Unity, Non-duality or Oneness, is in recognition of that Union through direct cognition. The teaching, in order for it to be fruitful, requires a certain approach, a certain discipline, often referred to as *the path*. The timeless beauty of this work lies in its all-embracing nature. This path is universal. It transcends any tradition and cultural belonging. It is open to all wanderers in search of Truth. The ways are many to realize one's essential nature. Yet we share the most essential reality – we all are embodied. We all carry the greatest potential of life deep in our Hearts; the vibrant, throbbing potential of Consciousness to awaken to Itself. The potential to surrender to the power of Grace, to dust the mirror of our Hearts, to reach into the sky of transcendence and bring the sublime nectar of realization into the very vessel of our bodies. This is to manifest the kingdom of Heaven on Earth. This is to behold the Divine in every aspect of human life, from the most elevated states to the very ground beneath our feet.

In-person events with Igor form the heart of this work. As a uniquely skilled guide, Igor nurtures and facilitates spiritual growth using whatever means best suit each individual participant, from energetic transmission to breath work, mantra work, self-inquiry, emotional introspection, and more. It is here in the presence of an adept that spiritual transformation unfolds with speed and safety, opening us to the discovery of our own true nature. The results are life changing.

Immersion days include meditations, discourses, question-and-answer sessions, and free time to rest and reflect. Vegetarian meals are provided. If you are a newcomer to work with Igor Kufayev, we highly recommend that you schedule an **introductory live session** with a Flowing Wakefulness facilitator before enrolling in an immersion.

“Igor speaks the timeless, universal language of the Heart. His Teaching transcends the boundaries of any religion, doctrine, or even perspective. It is for the warrior, the artist, the mother, the lover, the businessman, the child... brought constantly alive through the very hearts of those who tread this path—as that uninterrupted flow within Consciousness, that river beyond time and space. All it takes is a yearning human heart.”

— Daryananda Schneidman

“I believe his voice and presence is really needed in our community. I wish I could put into words the value and importance of what he offers. Working with Igor moved me from the life of a seeker, to Life itself. And beyond my own flowering, I see Igor as part of the rising of the Divine Feminine in our world. I believe he hasn't yet been fully recognized for what is he and what he is doing, because we - collectively - are still very caught up in an outdated mindset that doesn't always allow us to know what we are seeing. We don't yet have the eyes to see or the ears to hear, although that is coming. Igor's is the voice of Shakti, rising within Shiva to enliven our awareness. The path that Igor teaches is one of deep respect for the power of the Feminine, for that infinite life force that is the source of all spiritual practices and traditions. It is a

path of Grace, of beauty, of innocence - sometimes graceful and gentle, sometimes fierce and powerful - like the Mother."

— Bhumi Devi Clinchard

“...Igor is a teacher with tremendous integrity whose strong presence is available to his students, ceaselessly investing in others and bringing light into this world. Here is a teacher who uncompromisingly urges his students to grow up, one who guides them safely through a process of tremendous alchemical changes in Consciousness, and allows suppressed archetypal forces of the Mother to regain their territories. With that, he facilitates the re-establishment of solid foundations for promoting healthy generations to come...
