Description

Blood Flow Support **Delayed Release** **Brain & Cognitive Function**

Did you know that of the tens of thousands of different enzymes in your body, 99.99% of them have *nothing* to do with digestion? Enzymes known as proteolytic or fibrinolytic enzymes are designed to break down proteins, *but not just the proteins in your food*.

When you take enzymes with food, they stay in your intestinal tract to digest food. However, when you take fibrinolytic enzymes *between meals* or when food isn't in your stomach, they help clean up your blood and make their way to your tissues and organs to help get rid of unwanted proteins.

So, why is it important to help your body remove unwanted proteins? Proteins that don't serve you can prevent you from enjoying:

- Optimal heart health and blood flow throughout your body.
- Maximum comfort during activity and when resting.
- Feeling energetic and 'recharged' every day, even with plenty of rest.
- A healthy nutritional profile without mineral deficiencies.

Sourced from the *Eisenia foetida* and *Eisenia japonica* earthworms, **Lumbrokinase Enzymes** are a blend of fibrinolytic enzymes that assist your body in clearing away fibrin and other unwanted proteins.*

Delivered in a **delayed release capsule** to ensure its contents reach your intestines for proper absorption, **Lumbrokinase Enzymes** provides not only Lumbrokinase enzymes but also Protease for extra protein-digesting power and to enhance lumbrokinase's actions.

Take action now for a healthy heart, brain, muscles and more,* and order **Lumbrokinase Enzymes** today.

chris k. Verified Buyer 11/28/2022

potential benefits look great

not sure if working but no side effects...like the possibility of lumbrokinase benefits in NIH.gov article

Was this review helpful? Yes - 2 No - 0

kazuko m. Verified Buyer 06/13/2022

I feel the difference

I tried all 3 enzymes of this kind. I found Lumbrokinase works best for me. I also appreciated that Dr. Mercola's Lumbrokinase has a very reasonable price.

Marie F. Verified Buyer 12/11/2020

Great product

Seems to be holding true to claims of a much higher potency than the other product I was using. Only been using a short time but already seeing a difference.
