

# Media Continue Fake News Campaign Against Mercola

Analysis by [Dr. Joseph Mercola](#)

✓ Fact Checked

## STORY AT-A-GLANCE

- › The Center for Public Integrity is the latest media outlet to publish a hit piece against Mercola.com and others sharing viewpoints that go against the status quo
- › The title of the article – “Spreading Vaccine Fears. And Cashing In.” – and its content, reveal that it’s far from actual journalism and nothing more than biased propaganda
- › In the interest of full disclosure, I published my full response to reporter Liz Essley Whyte, as the majority was excluded from the article
- › NPR and Coda Story have also published false articles recently with misleading and defamatory statements against Mercola.com
- › The media and its “fact checkers” have succeeded in generating fear and in controlling human behavior via the pandemic while attempting to bury and discredit those who are speaking out against COVID propaganda

**Yet another hit piece has been published blasting “anti-vaccine” influencers for sharing viewpoints that go against the status quo. This time, the article was published by The Center for Public Integrity, which claims to use investigative reporting to reveal the “causes and effects of inequality.”<sup>1</sup>**

The title of the article — “Spreading Vaccine Fears. And Cashing In.” — and its content, however, reveal that it’s far from actual journalism and nothing more than biased propaganda.<sup>2</sup>

In the interest of full disclosure, I’m publishing my full response to reporter Liz Essley Whyte below. Whyte contacted Mercola.com in April 2021, stating she was “writing an article about anti-vaccine activists for whom activism is also a way to make money” and asking if I’d be willing to do an interview with her. My team asked for a list of questions and, after repeated follow-ups, those were provided about one month later.

Among them, “What is your response to critics who say your frequent criticism of mainstream medicine, including vaccines, serve to build a customer base and boost your profits?” and “How much does Mercola.com (and/or any other Mercola-branded companies) do in sales and/or profits (in dollar figures) per year? How has that grown over the years? How did the pandemic affect those figures?”

You can see that they’re trying to build a case that websites such as mine — which is solely interested in sharing the truth — are only out to make profits or are exploiting the fear generated by mainstream media to sell supplements. But as I stated previously, the real profiteers in this pandemic are not people selling supplements online but **billions who are only getting richer**.

Meanwhile, in their “investigative” piece, The Center for Public Integrity ignored the majority of my responses to their questions, publishing only this:<sup>3</sup>

*“Disagreeing with big pharma and the federal agencies they’ve captured is a detriment to anyone,” Mercola said in a statement. “Placing yourself in the crosshairs of these coordinated attacks is not financially or personally beneficial.”*

## **My Full Response to The Center for Public Integrity**

If Whyte were truly interested in opening up a conversation about the spreading of fear by mainstream media and its implications to society and COVID-19 vaccinations, it would have been crucial to publish my response – but Whyte did not choose to include it.

For some background, in April 2021, Whyte wrote an article for The Center for Public Integrity titled, “I’m Pregnant. Here’s Why I Decided to Get the Coronavirus Vaccine.”<sup>4</sup> Even her doctor told her that whether or not to get the experimental vaccine while pregnant is “a personal choice,” which she said “wasn’t exactly useful advice.” Ultimately, Whyte wrote, “I concluded the clear benefits of getting vaccinated outweighed unknown and possibly nonexistent risks.”<sup>5</sup>

In my view, giving these vaccines to pregnant women is beyond reprehensible. This experimentation is doubly unforgivable seeing how women of childbearing age have virtually no risk of dying from COVID-19, their fatality risk being a mere 0.01%.<sup>6</sup> Pregnant women simply do not need this vaccine, and therefore any risk is likely excessive.

This does give you some insight into Whyte’s personal beliefs about vaccination, which were evident in her journalism as well. As for my response to Whyte’s questions, you can read it for yourself now, in its entirety:

*“Liz,*

*Unfortunately, disagreeing with big pharma and the federal agencies they’ve captured is a detriment to anyone. Pharmaceutical PR groups, lobbied politicians, and the controlled media groups criticize those who interfere with the plan to vaccinate everyone from cradle to grave, even if they’re*

***compromised. Placing yourself in the crosshairs of these coordinated attacks is not financially or personally beneficial.***

***Medical risk taking is a personal choice, and that choice must be preserved, and that's exactly what we stand for – preserving the health freedoms of our global community while also exposing false health information provided by pharmaceutical public relations campaigns.***

***While you may promote the EUA [Emergency Use Authorization] vaccine to pregnant women based on a 20-week rat study, others find that to be reprehensibly negligent advice. The truth is that COVID vaccination for pregnant women is an experiment, and there is not adequate safety testing for these novel injections – even if the V-Safe program states quite clearly that only preliminary information is available.***

***Unlicensed COVID vaccinations during pregnancy is experimental. To suggest that safety data is 'piling up' is deliberate misinformation.***

***Preliminary Findings of mRNA Covid-19 Vaccine Safety in Pregnant Persons | NEJM.<sup>7</sup>***

***Adverse neonatal outcomes included preterm birth (in 9.4%) and small size for gestational age (in 3.2%). Among 221 pregnancy-related adverse events reported to the VAERS, the most frequently reported event was spontaneous abortion (46 cases).***

***Restrictions to freedom of speech within the big tech monopoly platforms will only accelerate segregation of communities and alternative platforms for nonconformist points of view.***

***Trust in big tech, big pharma, federal agencies and the media is justifiably***

*broken. I was one of the first to widely publicize that this virus leaked from the Wuhan lab and was immediately discredited by mainstream fact checkers and news sources – Please see attached from NewsGuard.*

*Ironically, NewsGuard is owned by Publicis, a big tech and big pharma public relations company.<sup>8,9</sup> Publicis is not just the owner of the fact checkers, they are partners in campaigns against what they consider to be health ‘misinformation.’<sup>10</sup>*

*It turns out the owners of NewsGuard, campaigning against misinformation, were directly responsible for the deadly opioid marketing campaigns that killed hundreds of thousands of Americans.<sup>11</sup> More information is available in my latest book if you wish to learn more.”<sup>12</sup>*

## **Media Are on a Campaign to Spread Lies**

The Center for Public Integrity hit piece is only the latest in a series of media articles aimed at spreading lies about anyone who speaks out against the standard COVID narrative.

As seems to be the pattern, the “expert” source quoted in the article is Imran Ahmed, who runs the [Center for Countering Digital Hate \(CCDH\)](#) – a progressive U.K.-based cancel-culture leader<sup>13</sup> with extensive ties to government and global think tanks that has labeled people questioning the COVID-19 vaccine as “threats to national security.”

Ahmed has gone on record saying he considers [anti-vaxxers](#) “an extremist group that pose a national security risk,”<sup>14</sup> and admits tracking and spying on 425 vaccine-related Facebook, Instagram, YouTube and Twitter accounts.<sup>15</sup> CCDH is also partnered with HealthGuard, which is NewsGuard’s health-related service.<sup>16</sup>

In Whyte's article, Ahmed states, "These are old-fashioned snake-oil salesmen. They are willing to let people suffer death, disease in order to make profits for themselves." He adds, "Anti-vaccine influencers are 'a classic example of bad actors who are proficient in digital spaces, at creating outcomes which are bad for us and society ... They react the way you would expect them to.'"<sup>17</sup>

However, CCDH's partner NewsGuard is in the business of censoring the truth. NewsGuard previously [classified Mercola.com as fake news](#) because we reported the SARS-CoV-2 virus as potentially having been leaked from the [biosafety level 4 \(BSL4\) laboratory](#) in Wuhan City, China, the epicenter of the COVID-19 outbreak. Since then, several members of the U.S. Congress have vowed to [launch their own investigation](#) to explore the lab accident theory.<sup>18</sup>

In May 2021, [NPR also published a hit piece](#) about Mercola.com and other vaccine safety advocates designed to disparage and discredit those who are speaking out against COVID propaganda. Similar to The Center for Public Integrity, the line of questioning sent to Mercola.com for comment was not journalism but, rather, aimed at spreading pharmaceutical propaganda.

It wasn't disclosed in the article, for instance, that NPR has received \$17.5 million in donations from the Bill & Melinda Gates Foundation, which were intended to target coverage of global health and education.<sup>19</sup> This may explain why NPR rarely publishes anything critical of Gates and, when it does, "it can feel scripted."<sup>20</sup>

NPR has also praised Facebook for blatant censorship, with statements such as, "Facebook said it now limits the reach of posts that could discourage people from getting vaccinated, even if the messages don't explicitly break its rules. But the cat-and-mouse game continues."<sup>21</sup> Then if you scroll to the bottom, you'll see the editor's note: "Facebook is among NPR's financial supporters."<sup>22</sup>

## May 2021: More Fake News Against Mercola.com

In a similar vein, Coda Story published a false article on May 7, 2021, with misleading and defamatory statements against Mercola.com,<sup>23</sup> even though it was in possession of an email with my side of the story. As was the case with The Center for Public Integrity and NPR, I published the [full email exchange with Coda Story](#), so you could read my responses, which, again, were not included in the article.

Coda Story claims that it “tells you stories you never heard before, shows you connections you never knew existed, and investigates the nuance and complexity of the world.”<sup>24</sup> Surely, then, its reporters would be eager to dive into the counterpoints provided in our email, in order to explore, investigate and share these connections with the world.

In reality, they revealed their true colors, both with the blatant lies they published and their refusal to explore the truth further, even after it was clearly presented.

Meanwhile, media are largely ignoring news that deserves to be heard – like [NewsGuard’s real disinformation campaign](#) based on censoring COVID-19 truth and manufacturing pro-industry propaganda to serve Big Pharma, Big Tech and the deep state.

The fact that Publicis is being sued for its role in creating Purdue’s deceptive marketing for OxyContin, which is described as the “[crime of the century](#),” is also mostly buried.

The media and its “fact checkers” have succeeded in generating fear and controlling human behavior via the pandemic, and anything that counters its final solution of vaccination is being censored and discredited via biased propaganda disguised as journalism – this is a [clue that shouldn’t be overlooked](#).

If you'd like to get involved in the rally behind legislation that prevents the alteration of laws that safeguard our freedoms, check out the [Five Freedoms Campaign](#), which focuses on creating legislation to preserve key freedoms and prevent emergency laws from infringing on your freedom to assemble, worship, protest and engage in business. Legislation is also being crafted to open schools, remove [mask mandates](#) and eliminate requirements for [vaccine passports](#).

"Never let the truth get in the way of a good story" - Mark Twain. This seems to be the rule now with the government, big pharma and media narratives. It is all about the propaganda, the manipulation and the brainwashing now. Follow the narrative, or else! For the record, as a mercola.com subscriber and customer, I have never been 'sold' anything COVID related that would profit Dr. Mercola or his organization. No drugs, no supplements, nothing. Ever. Only lots of well researched and informative articles.

Same here. I've read lots of Dr Mercola's articles and listened to his podcast. I find a lot of the health information provided very helpful. But I have never bought anything from his company - absolutely nothing. I've just taken on board the info he freely shares and added it to my personal knowledgebase. It's funny how many of these "reporters" seem to rely on ad hominem attacks. Wouldn't survive a high school debate.

Mark Twain also said, "It's easier to fool someone than to convince them they've been fooled." I've been writing comments here for 6 years, long before the advent of covid. I'm here because of the excellent, free health advice. In that I can also buy high quality supplements here has been, and remains, a big bonus. It has nothing to do with covid. Besides, most of us see covid for the ruse it is. The true profiteers are the elites running the big magic show who have doubled their net wealth since the advent of covid. The Center for Public Integrity is yet another shell for those running the

big magic show who seek to take away our freedoms and enslave us even further.

"...I have never been 'sold' anything COVID related that would profit Dr. Mercola or his organization." The larger difference is, no one has ever been forced, pressured, shamed or cajoled into buying Mercola Covid products, as is being done by the governments of the world. Also, what mother in her right mind would allow an experimental drug be given her child? The world has gone mad.

We buy his supplements too, but then we have for years before Covid so nothing new there. And its not like he is flogging potential cures like Ivermectin or nebulizers; he is not. Plus I like the idea of supporting this site, the information provided is helpful and very interesting.

I am now MORE inclined to make purchases from Mercola now that I've seen how valiantly he stands up to the lying liars and their manipulative tactics to get us to accept their tyranny and go like lambs to the slaughter. Besides, now that their stupid lockdowns have forced everybody to shop online, it's a no-brainer to go to Mercola rather than to take your chances on Amazon.

I guess the bottom line is the bottom line.... have Dr. Mercola's products taken a hit? How is the bottom line? I can credit Dr Mercola with saving my eye sight, so I worship him! Honestly, my eyes burned and cried constantly, then I tried his Eye Support and it has worked. I had tried many other brands throughout the years, only this one works. Which makes me wonder if the other supplements he sells would work just as well for other ailments. I think I ruined my eyes by using a very strong cleaning product to clean diesel off walls - I used it for a week.

When was the last time any of us have seen Big Pharma or the Medical Mafia do what Doc does. Doc knows not everyone can afford the highest quality products he offers. Product's coming from the request of readers of his site. He walks like he talks. He list the key components of his products and if we are stuck with what we are stuck with have the information to avoid bad ingredients and/or know how to find products with the most important ingredients we can afford. Unlike Big Pharma & the Medical Mafia he has repeatedly updated his positions on many health

care fronts when new research uncovers new insights as what and how to use products and/or information. Vit D3 over the years has been found to need Mag & K2 to activate and distribute calcium if not other minerals into where they are needed and prevent a host of dis-eases, totally unnecessary for so many to continue to suffer. Suffer because Big Pharma & the Medical Mafia covet \$\$\$, power & control more than the health or individuals or society.

The Center for Public "Integrity" are following the wrong money trail. Dr. Marcola made money BEFORE the scandemic and at the moment as his expenses increasing, likely makes less. If you are looking for \$\$\$\$\$\$\$\$\$\$, tax \$\$\$\$\$\$\$\$\$\$ to be precise, look at Moderna, Pfizer, J&J. one TRILLION in less than a year. For those with math deficiency that is ONE MILLION MILLIONS. Obscene !!!!! The good news is that product liability does NOT cover CRIMINAL liability. Hard to spend a trillion in jail. Gun manufacturers HAVE product liability too. You kill someone with their gun YOU get locked up. Same with the lethal injections hospitals administered.

## fundamentalassumptions

Right....and they don't make money the free & honest way, but the socialist corporatist way: by riding the backs of the people & stealing the fruit & productivity of others. They have no children, so steal those of such as do. They produce no wealth, so steal that of those who work. They cannot get the support & votes of honest working folks, so they steal elections or demoralize & create cloned cronies who will vote them in to their own destruction.... And, so it goes. The eyes of man are never satisfied, but the fight for truth & souls goes on til the long-suffering of God comes to its end & judgment falls. When men won't acknowledge truth or repent....you know the delusion is about complete & that judgment's coming close.

The sock-puppets posing as health experts on TV are saying it's okay to vaccinate kids. Despicable - when good people with far more expertise and human compassion are censored like Prof Sucharit Bhakdi: [twitter.com/.../1398220001744654336](https://twitter.com/.../1398220001744654336)

It would be a sad day in hell if it were discovered that the SARS-COV2 was not only "leaked", but that it was deliberately leaked as part of an effort to depopulate the world. There are those in "high places" (the technocratic elite) with money that believe their "ca-ca" doesn't stink and that the world would be a better place with not so many people in it. This is not the first time a bioweapon has been unleashed into the world and probably won't be the last. To deny that the possibility of a deliberate leak exists or that the spike protein toxins weren't deliberately released into the air as part of a nefarious test to see the viability of it as a biological weapon would be understated as a conspiracy theory. There is enough

evidence pointing to a "control hierarchy", if not several of them, that all seek the same outcomes ... to achieve utopia through reduction in the population by getting rid of the "undesirables". The iatrarchy have made this all about themselves and the power they have the ability to wield. Understanding the truth and using it is the only way to expose this scheme and to effectively deal with it, Nuremberg style.

## ThommyTwoHeads

Actually, I'd take the intended "snake oil salesman of olde" slur as a profound compliment... Many of the most popular (effective) snake oil's were based on THC/CBD which fuels and balances the Organic Endocannabinoid system which is critically involved in every 'healthful' activity, including sparking the Birth Process and playing "important roles in central nervous system (CNS) development, synaptic plasticity, and the response to endogenous and environmental insults." (NIH) As Stanley always rightly says, today we're dealing directly with the Deadliest Gates Snake and its minions, and the deadly oils they ooze and purvey, are the direct cause of virtually every Endogenous & Environmental Insult Known and as yet Unknown in our Seeming Suicidal Rush to Oblivion... and they call it SAFE & Effective...

So true, they are WORSE And I HATE that term - snake oil. It's the same as calling someone a quack (like Dr. Wakefield, who only suggested more research be done - God forbid) - and conspiracy theorist, which is just a person who is trying to figure out if something is a conspiracy... It's so interesting how they use trigger words. I couldn't even get an Uncle of mine to watch one Mikovits video, he researched if first and believed the 'debunkers' ... and now he's fully vaxxed, so we'll see how he does this winter. Another Uncle (fully vaxxed) caught something from his granddaughter and it landed him in the hospital, couldn't breathe, blood transfusion for low hemoglobin, A-Fib, of course all these weaknesses couldn't be related to the vaccine. Ugh. So crazy!

We are being herded down a one-way track into a concentration camp where health, freedom and truth no longer exist. And soon, even life may not be an option. The techno-fascists and godless globalists supported by Big Tech and Big Pharma \$\$ have already instigated their depopulation agenda through medical terrorism. They think they have the right to rule the world, and any freeborn soul that gets in

their way is an enemy to be ruthlessly dealt with. Naturally, any website that is compassionately focused on good health - like Dr Mercola's - is under savage a attack. All truth speakers are censored. This is an agenda, a devil-ridden playbook which is being pushed by satanic psychopaths. Dr Rima Laibow was raising the alarm and warning about this deranged Globalist Genocidal Agenda in 2010: [www.youtube.com/watch](http://www.youtube.com/watch) Some tremendous exposes here from the well named Daily Expose: [dailyexpose.co.uk/2021/06/20/australias-medicine-regulator-has-never-s..](http://dailyexpose.co.uk/2021/06/20/australias-medicine-regulator-has-never-s..)

Nice video - when I have time, was watching Alex Jones (InfoWars) reminiscing about what he knew and when, unearthed as early as 1998 or so, as he was studying conspiracies. Too bad it turns out he was on target!

We now live in a post truth era wherein anyone expressing a counter narrative to the big lie is censored and attacked. This whether its bad medicine, the global warming hoax or the U.N. SDG, aka the 4th IR/ reset with all the psychological warfare manipulation across the board that all leads to the same end goal of agenda =- an anti human Technocracy. Think on this, if it wasn't for the initial courage of people like Doc Mercola and a few others what would the general public's knowledge level be in regards to this beyond callous event of circulating CV 19 and the sequential rollout of the experimental bad medicine injections. Without Mercola.com as a platform for truth as an initial warning mechanism would the numbers of medical scientists we now see expressing their horror at the lies and actions of the captured medical community and its institutions have taken place at the levels we now see? I think not. So three cheers for Doc Mercola and others like him while lending what support we can.

Thank you Dr. Mercola for all that you are doing. I have found your information invaluable over the

years - saved my health and sanity when I was put on statins after a heart attack back in 2006. I am now completely 'drug free' and much better. It seems that many more are beginning to become awakened to this virus/vaccine hoax, and that by their constant bleating of the same lies, MSM is becoming more and more obvious that there is alternative 'agendas' that only 12 months ago, I thought was rubbish. Not any more.

I was listening to a video the other day, can't remember where, but a doctor was talking to the German lawyer, Reiner Fuellmich and said the best way to share this information is in small hard-hitting bites of facts regarding this pandemic. As a Zen practitioner myself, I thought that this was good advice. As a Zen practitioner I have seen the value of short-sharp statements designed to make people think. Certainly just as powerful or maybe even more than the NLP type repetitions that the mainstream authorities are using. Think Zen master with a big stick. Sudden a wack on the shoulder and then.... awakening.. This enlightenment technique goes back many hundreds of years in Japan, if not more.

## [arthurrieloutlook.com](http://arthurrieloutlook.com)

Lawsuits for slander or libel are problematic because no one owns one's reputation, for its source is other people's volitional judgements about a person or his property (e.g. his business). Therefore, one cannot legitimately claim that one suffered a business/monetary loss due to slander/libel because no one has a legitimate right to other people's minds, or business/money in the first place. Everyone has the right to associate with or disassociate from others for any reason whatsoever, including bigoted (e.g. racist) reasons, and reasons based on falsehoods.

Boycott and social ostracism for legitimate or illegitimate reasons are exercises of people's legitimate individual rights to self-ownership, personal liberty, private property rights, and rights to freedom of thought and speech, freedom of association/non-association, and freedom of contract.

Censorship, which is a governmental action, not a civilian action, is a fundamental attack on those rights. People who want to sue others for exercising their freedom of thought and speech and want government to censor people and businesses are contemptuous of those rights. They are advocates of enslavement and dictatorship.

NO •Did Dr Mercola infiltrate all levels of public governance with gauleiters loyal to his corporation who shut down their regions upon his command? NO •Did Dr Mercola then direct his gauleiters to send infected young people into the retirement homes to drive up deaths when the synthetic virus proved less potent than desired? NO •Did Dr Mercola then roll out a gene therapy designed to create mass casualties and death while generating huge profits? Senator Ron Johnson was censored and removed for a period of time from YouTube once again. This time for informing people of the VAERS and the side effects of the vaccine while trying to inform them on the early medicines available. He was on Fox Nation and he spoke clearly and simply on what is

going on the suppression of these inoculations. He's the first politician I've heard taking the situation to the American Public and the first who is truly questioning it. Senator Paul has but only in the case of those who have had covid.

Read the headline: 'How to Tell When the Media Is Lying to You', & thought: whenever they post, publish, or open their mouths....lol! Then I was remembering how after I was convicted of sin& actively looking for truth, I learned to vet articles& 'scientific' claims by looking for citations, reviewing sources& competing claims. Didn't take long to figure out that truth-tellers were rarer than hen's teeth, hypocrisy was rampant,& a person wanting to publish straight truth would need to self-publish outside the system just like the Wycliffites& Lollards of old. Unbelievers& blind leading relativists are one thing, but the insider traitors& Jeconiah's pen-knife of those who claim they can see are also active. Their evasion& chicanery gains them nothing in the end. Jeremiah just wrote down the same prophetic

truth,& God added many such like things to it,so the victory was short-lived, ending at the grave & receiving the burial of an ass. (Who says God has no sense of humor? Remembering Balaam's ass as well? Wiser than the fool of a sorcerer, Balaam, who was serving his flesh& losing his soul? &1 Thess 5 KJB)

An honest man will admit to the need to make a living, as Dr. Mercola & all have the God-given right to do,& to his own limitations falling short of godhood: not playing sanctimonious games like the ancient Babylonian shamanic& priest-craft occulted elites of old or the Augustinian nicolaitans w/ their corruption of the truth& games, placing their heavy burdens upon& riding the backs of the people,& not lifting a finger to help or free them. Too bad so many were so late to the fight,& so selective of which truths they were willing to fight for. I appreciate the truth& resistance to tyranny that I find here, actual science....& not just that science falsely so-called of the self-promoters& deceived little 'gods', but I am not impressed w/ the arrogant bleating of pretenders, big talkers& hypocrites as bad& worse as those they accuse. God is no preferer of persons

The good doctor, apparently, has realized that we are all marked for extermination, so we might as well "be brave," for all it takes... Your response to the plandemic was, or should have been, an existential decision from the beginning: Do you want to live in a world like this, even if this was the Black Plague? By March, 2020, the hoax was clear. However, the multiple forms of poisoning the population produced symptoms (for starters, think of 5G, chemtrails, cryptic "disinfectants," and military radars for which you cannot even buy an instrument to measure the radiation). When you check SAERS, most of the deceased had "preexisting conditions" by the time of their untimely departure. (Well, lots of entries simply disappear from SAERS, too.) If you know what you want and it's greater than mere survival, you cannot be intimidated or confused, because you keep your eyes on the target. I just hope, you mean well...

Yes it takes so much energy to try to survive what is being thrown at the population. You forgot weaponized ticks. Our entire area has been overrun with them and Lyme is endemic. Warning: A family member just ate a burger and broke out in hives. He looked on the box and the ingredient list stated 100% beef. After a bit of sleuthing I learned that our government was importing meat and disallowing American cattle ranchers to sell their beef. I also learned that the government only inspects 1% of all meat for Mad Cow Disease! We'll likely never learn what toxin was in that beef but it was something that shouldn't have been there. I read that China is notorious for adulterating food sold in America. I'm warning everyone to become vegan. God help us.

Dr. Mercola, when a person's life is at stake and those giving the 'vaccine' will not sign anything to take responsibility for any side effects or mistakes...and the government agencies promote the vaccines...there is no need to 'stoke' the fires of fear of the vaccine. Keep on preaching--even though

sometimes it only seems to you that you are "preaching to the choir!" We (the choir) are all listening and maybe in turn we can 'preach' to those who are unlearned about the atrocities being committed in the name of "health" by our governments and officials. :-D

1/10 Vaccine! Vaccine! Vaccine! Come and Get Your Vaccine Here Today! Hiya, people. Would you like to know what I think is funny? Every day since March of last year, I've hundreds of emails have flooded my inbox from various health websites. Having read tons of health information and watched numerous health summits along the way, I can't help but notice all these highly intelligent, university-educated health experts are backing each other against pill-popping and taking the vaccine. Why is that, I wonder? It's like, c'mon, Big Pharma, where are you in all this discussion? Why aren't you defending yourselves against all these big bad natural healthcare practitioners who are attacking you left, right, and center? Where are all your Big Pharma blog posts? Where are all your Big Pharma health email updates? Where are all your Big Pharma health summits that educate the public on all your latest and greatest cutting-edge vaccines and pharmaceuticals? I'm still waiting for all your lifesaving health news, yet crap all. C'mon, pal, there's this deadly virus on the loose, and it's out of control. Where are you in these most desperate times of need? What have you got to hide? What have you got to fear? I thought you were the dominant leaders in world healthcare, working side-by-side with our loving and caring government, and our most trusted, honest-to-God mainstream media, with the best interests of humanity at heart—yet, no word nor whisper from you on how great and effective your vaccines are, or how great and effective your drugs are. All you give me is the vaguest of information via my TV screen, and that makes me sad—so very, very sad indeed.

It still amazes me that many people haven't heard "our healthcare system is the third reason for death in the US". It seems the FDA/AMA/CDC drug cartel is dead set in moving our "healthcare" up to the #2 spot. My guess is most of the recorded "deaths from Covid-19" were merely coverups for the "usual" deaths from MD prescribed, FDA "approved" disease-maintenance drugs, misdiagnosed diseases, medical mistakes, and questionable "complications"-which reportedly kill over 200,000 people a year. (Since there has been a drastic drop of recorded deaths from heart disease, strokes, cancer, COPD, diabetes, accidents, drug overdoses, etc. in the past year.) In the not too distant future, people will look back and wonder how they could have been so gullible. As always, do your own research, learn how to stay healthy, and avoid being another cash cow in the corrupt US "diseasecare" system.

You have NEVER pushed anyone on your site to buy anything from your site. Its great that you have given us the opportunity to purchase high quality products that makes life easier on us when we do want to buy various supplements. What is wrong with wanting to sell products? I guess if you are Big Pharma its ok, but if you are Dr. Mercola its not! OMG these people are seriously insane. Those seeking to depopulate the world and profit hugely from it see you as a threat and an obstacle Dr. Mercola - because they KNOW you are right with the information you have provided your followers. ANYONE with HALF a brain has turned off the Tell-Lie-Vision propaganda box decades ago - and researched for ourselves the truth. I appreciate your constant efforts to provide the diverse material, information, studies and facts that help me make INFORMED decisions. All those behind this evil Globalist Tyrannical Fascist agenda are one day going to be tried for crimes against humanity under the Nuremberg code and can fry in hell (actually that place is too good for them). Anyways Dr. M, keep doing what you are doing and don't let these bastards get you down. WE SUPPORT AND LOVE YOU!!!!

The Center for Public Integrity is just another richly funded, slimy American fascist organization. There are a number of celebrities on its list of donors, including Leonardo DiCaprio and Barbra Streisand. There are also a number of the same foundations that fund NPR and PBS, which, as public broadcasters, are supposed to be funded by all of us via our taxes. Private money ensures that NPR and PBS will broadcast only subject matter that's approved by their biggest private funders. And the CPI also strives to please and to avoid offending its donors, too. Who are these maniacs, so impassioned to perpetuate lies? I can kinda get that there are people who need to keep their jobs and will do as they're told to that end. But nut cases like this Whyte woman, and so many more, seem to have actually bought into the false narrative, they actually believe it. How does this even happen? And more importantly what can we do about it if they willfully and righteously and LOUDLY neglect the truth?

Their hit pieces only serve to make me more inclined to trust Dr. Mercola - which I already did anyway.

You can learn a lot about the state of someone's heart by their writing and I can tell that Dr. Mercola has a compassionate heart. I cannot stand to listen to the mainstream media lies for even seconds because I know they're lying. It's time for Americans to reclaim their freedoms. I just read that Governor DeSantis signed a bill that an individual can be force vaccinated by any means necessary.

There is going to be another civil war in this country because too many Americans are dead set against an experimental vaccine. Remember: Freedom is not free. If you wish to remain free or regain the freedoms you have lost then you need to turn off Netflix and begin connecting with Patriots to brainstorm how to beat this beast government back to where the government rules only by consent of the governed. It's bass-awkward now. Pray. Pray until you touch the throne.

They will silence any truth and "suicide" or "fall from a tall building" anyone who knows too much. Dr. Mercola - I pray for you. May god give you the strength to continue fighting the final battle of evil vs good. We can only hope that society finally gets to see how everything around them is fake.

Dr Mercola is "over the target"...often said when the truth is coming out and the evil perpetrating this great injustice and crime are close to being exposed. His defiance of tyranny reminds me of the defiance American colonists displayed toward the tyranny of George III's "government". Government operators who deploy "all the King's horses and all the King's men" to attack peaceful people operating their business providing goods/services to customers willing to buy them proves that that government is not protective of people's legitimate individual rights, including their rights to self-ownership and personal liberty, but clearly hostile toward those rights. It is a government that must be defied, by force of arms, and eliminated.

Let's not get too wound up that the enemy is shooting back. What did you think they would do? Invite Dr Mercola to tea and discuss the future of a 'Brave New World'? What is important is that we, the resistance, because that is what we are or why are you on this site, must be prepared to hit back. Hit and run, hit and run. Throw their timetable off balance. Time, as I have written before, is our friend but it is their enemy. We must use that. Dr. Mercola is, I am sure, very well aware of that. We hit back by pushing the truth in as many areas as we can locally, nationally, internationally. They can only lose. They are the Fourth Reich, the Phoenix rising out of the ashes of the failed Third Reich. How was the Third Reich beaten? Read your history and repeat the exercise. This is a battle we can win if we do - and not talk.

Dr. Mercola, please know that we are appalled by this persecution of your work and you by control freaks who have rotten lousy agendas with unethical use of scientific and social intelligence. A parallel I see today reminds me of when I was recording evidence at trial in a court room. I saw lawyers be successful because of omission. But they will go so far as to cause a voir dire hearing to request an item be inadmissible or vice versa. (Definition of voir dire: A mini hearing within a trial. (Thomson Reuters, Practical Law: The evidence heard in a voir dire cannot usually form part of the evidence in a

trial until it has been ruled admissible and then put forward in the trial by a party.) So as this Psych-op continues, if we don't come forward to voice our support of Dr. Mercola and our freedom of choice we are contributing to continuation of this rule by omission counterfeit takeover. There are enough of us to turn the tide, keep the faith and get this sorted out. As Nancy said, let's just do it.

Yet, today the ChiCom beholden CDC recommends the EXPERIMENTAL mRNA gene therapy (where all who have been innoculated since the rollout, for next 2 years, are GUINEA PIG LAB RATS as Pfizer et al monitor for SAFETY) for ANYONE 12 and older, including PREGNANT women (trials for kids 12 to 18 have been going on for only a few MONTHS, not years, and now the murderers are in trials with INFANTS! "It was a big 'aha' moment for us," says Holman. "I think people really strongly, deeply underestimate the impact the news can have." It turns out that news coverage is far more than a benign source of facts. From our attitudes to immigrants to the content of our dreams, it can sneak into our subconscious and meddle with our lives in surprising ways. It can lead us to miscalculate certain risks, shape our views of foreign countries, and possibly influence the health of entire economies. It can increase our risk of developing post-traumatic stress, anxiety and depression. Now there's emerging evidence that the emotional fallout of news coverage can even affect our physical health – increasing our chances of having a heart attack or developing health problems years later.

Was just reading up on pet vaccination on Dr. Mercola's vet section with Dr. Karen Becker. This quote from her in 2009 is quite ironic in view of the last 16 months " We overvaccinate our children -- but at least we eventually stop after puberty. But with our pets, we continue vaccine boosters until they are well into their senior years. As adults, we don't assault ourselves with annual boosters, and we certainly wouldn't do this to our elderly family members. So why do we inflict this upon our pets, regardless of their immune status or age, when common sense would tell us those vaccines should last longer than a year? Additionally, there are no adjustments in dose for size or age of your animal. Your five-pound Miniature Pinscher receives the same size vaccine as your 150-pound Rottweiler. Your 10-pound housecat gets the same amount as a 400-pound lion." Actually some years now with the flu, shingles, and pneumonia shot heavily pushed especially towards seniors.

Curious what will happen. I have been reading things from my google feed. Propaganda. But it's like a forecast of the enemy game plan. A bunch of people will die of a new, deadlier variant between September and December, because of people's refusal to all get vaccinated. According to a Newsbreak article. The bad guys running the show know many will die during flu season and are covering their trail. They're also using it to further the political agenda of causing (they hope) a civil war to further weaken us. But many of us in the open places are sharing stories. The jabbed and unjabbed are on good turns and share stories. If a bunch of us get sick we'll be able to tell who is more apt to wind up hospitalized or dead. And none of us trust the media any more. They're afraid of us. And we are more apt to survive than their enablers or sycophants. Including the useful idiots

I guess she doesn't trust the experts nor the science. Browsing through her twitter, I see only a handful of references to being pregnant or babies other than this article, none recently. I'm starting to think she's using her pregnancy from 2020 as cover. i.e. she really isn't pregnant when she got the not vaxx and is lying to the public. Maybe the journalist awards she won should be aware of this.

It would be funny if it wasn't so very sad...of all that has occurred and the agendas that has been rolled out; planned before we all were born. The dismal state of the once free press/MSM that use to be a check in the check and balance system this country was founded on...long gone. Our Founding Fathers

must be rolling in their grave over the evil of this country and the world at large; that greed/ pride/power has spawned. A look at how this all happened can be garnered by looking at the history of John D Rockefeller and his Foundation, along with the other robber barons of the times and abroad to capture and control every aspect of society. He created the allopathic medical system we have today to sell coal tar and other oil/ chemical derivatives as health. Don't even have to imagine how the medical professionals of that time felt to be ostracized and demonized as Dr Mercola and us all are today....we're living it. The past is definitely prologue my friends...

Competition is a Sin was John D's mantra and he learned well from his father...a documented Snake oil salesman and charlatan...a man of low character. How ironic that his son and big oil/ big money took over the world and everything in it with his PR firms leading the way. He's the poster child for all the Gates of the world... following his modus operandi to the letter... Quite the challenge for us red pillers to overcome eh? One must not be swept away from the enormity of this crime against humanity by forgetting to take care of one's self and one's personal growth...Doing the exact opposite of what the They's have all professed has done wonders for me over the last 10 years, lol. Also, more than ever, I need to search out more likeminded people in the community to come together for the tough times ahead per their agenda...they can't beat you as long as you don't compromise yourself to them...definitely a tall order but even the smallest victory stalls their plans and is truly gratifying.

Government politicians are public servants who take an oath and are supposed to work for the people same a police. Its our tax money they take, but it seems its not enough, so Gates and Big Pharma have bought them. So hence they are lying to the people and stuffing their \$\$\$/€€€/£££ in their pockets.

Once again, Thank you Dr. Mercola. I have followed you for many years and really love seeing when you are finally shown to be "right on" after too many years. I trust your findings, experience and pass it on to my family. The truth does prevail and always comes to light.

I have full faith in Dr Mercola and many other related sites based on basic foods. I compare societies removed from western dietary influences, to compare and contrast health, quality and longevity. Like chalk and cheese comparison. One statement that I not surprising embraced, that placed everything loosely in a nutshell is, " when western diet became readily available in China - so did all the related diseases .. ". A higher state of awareness was manifested. I did some research on antidepressants and how they worked. A few lines was all I needed and from there expanded to other Big Pharma chemical cocktails. Jim Mercola was a foundation site with many more similar as additional and supportive. I am very glad that back in the sixties a few 6 year students were questioning a lot going on like fluoride and few were away from school to dodge what even then a questionable polio and chickenpox vaccines then. Now even more so I look at side effects of many pharma products and the relationship with the toxic slop from supermarkets and fast food chains. I also looked at what the original Greek wording of what Pharma and Pharmacy sourcing. Not surprised. Looked at statins and the ramifications. Toxins and inflammation causes ... I can go on and on. But Dr Mercola is a major site I refer to those who have a spark of interest. The disease and condition reversing can be done with time and commitment. I feel very saddened when a 60 yr old, walking along bent over a walker. If they have the overall view of what is really going on, how their life could be so positively different. Nutritional medicine - raw foods - can be a positive way to go if the will is there. For me, experimental vaccines, over my dead body.

## StarPowerVitD

Interesting paper on antibody dependent enhancement and covid vaccines today (link below) so it looks like there is no ADE occurring in animal models with the mRNA injections. ADE is a mechanism whereby the mRNA vac would prime th immune system to overreact and possibly kill the victim upon subsequent presentation of the virus 'in the wild'. ADE was identified as one of the reasons against the using mRNA experiments. Nice to know that after hundreds of millions have already been injected that ADE doesnt seem to occur. The question is whether to believe the research as Baric, a gain of function terrorist, is an author. It really is a shame that science has become so politicized that an article in Cell has a significant possibility of being fake. I live in South Africa and have never purchased a product, but have read Mercola for years and learnt an amazing amount of medical stuff from him. Never have i been more grateful than for the last year of information. My friends have read dozens of his articles as i email them all over . This journo is just another fool,who will wake up, in the hopefully not toooo distant future to discover she has more than egg on her face. Where they find these manipulated idiots is anyone's guess.

Thank you Dr. Mercola. Please keep up the good fight. We the people must keep pulling the curtain back and exposing the Great Wizard of Oz. Health is never created from taking a vaccine or pill. Now big pharma through big tech is attacking Dr. Mercola and they'll do it ways we will never see. They will pay people to leave poor reviews of his products and attack his products by the thousands. If they can drive down the reviews of his products they can affect his sales and reduce his income thereby affecting his ability to share the truth and expose their lies.

no matter what I post on facebook about the proven dangers of the covid vaccine, they (facebook) put a disclaimer up and say it isn't true :-( I wonder why they don't do the same with religions? Like when people post about Jesus walking on water etc.. just sayin...

Good point springy! But as you know, or at least I hope you do, this entire Covid scam is not about truth, or health or safety. It's about eugenics, control and decimation of the non-rich human population. Premeditated murder. Plain and simple.

2/10 Lately, all I've been hearing on the worldwide breaking fearmongering news is nothing but vaccine, vaccine, vaccine. Hurry up and get our Big Pharma-sponsored vaccine here today. Don't worry about that unpatentable health and nutrition nonsense. Don't worry about using vitamin C or zinc to strengthen your immune system. Don't worry about quality sleep, sunshine, or exercising during this extended lockdown. And, most importantly of all, don't worry about empowering yourself that you may be able to help yourself; we're with you every step of the way, okay? Haven't you heard? Fear, panic, and pandemonium have always been our friends—and friends in need are our friends indeed. Sorry, but the cold hard truth is, we tell-lie-vision media infomercial, Big Pharma snake-oil salesmen don't have a vested interest in arming you with natural solutions or positive outcomes. Why the hell would we fake-news pundits wanna talk about that? That doesn't line our money-grubby deep pockets, now does it? So forget it! We're not talking about it, okay?! That can't help you, okay?! But over here—well, well, well! What have we got here for you today? Yep! You guessed it, we can sell, sell, sell you our finest rushed-to-market GMO Frankenstein lab creations instead. Symptoms include Bell's Palsy, anaphylaxis, blood clot, coma, then death.

3/10 With Big pHARMA's new CIA-certified synthetic, patented vaccine gene therapy of weaponized genetic mRNA mutations, eugenics never looked so good. But unfortunately, as of June 11, 2021, our hard-sell marketing pitch to the well-fluoridated, dumbed-down Ding-Dong generation of iPhone zombified covidiot has only killed 5,993 sheeple and seriously injured 29,871 which is a far cry from what our bought-and-paid-for psychopathic government had hoped for, I'm sure. And while the death rates continue to soar (mainly in nursing homes, where they're forcibly injected with a Snake Gates

magic bullet cocktail of mercury, aluminum, formaldehyde, polyethylene glycol, and mutated viruses with a bit of viral shedding on the side to help Alzheimer's patients spread the love all around before laying them down to sleep)—but sorry, we're not allowed to talk about that on our prime-time murder TV, when it's illegal. And if you do happen to get seriously injured or made dead after we've rammed it into your head again and again, and time and again with our non-stop aggressive marketing campaign to get vacci-poisoned, it's not only illegal to sue us, but it's illegal to sue the quackcine manufacturer. That means if your child were to suddenly hatch from a palsy egg after being injected with God knows what, you'll be unable to seek compensation to look after it for the rest of its newborn vegetable life. Oh well, no matter. You'd only be playing Russian Roulette with your life and the lives of your loved ones. It's no biggie, really.

## Lokio.

4/10 Now, over here, while we continue to dispense our Big Pharma friend's tobacco science and use it to round up the cattle ready for herd immunity due to there being this deadly viral outbreak—a virus that's so virulent and aggressive, that spreads like wildfire and drops people dead in the street left, right and center, come the Resident Evil Apocalypse—you'll still need to take this fraudulent and inaccurate PCR test to see if you've got it. But don't worry, it's already been proven effective at testing positive for coronavirus in papaya, motor oil, and goats. It's most unfortunate that 99.95% of people survive a coronavirus infection, and because no hospital is overrun with people lining up outside on the street, and because we motormouthed main-sewer media foolishly and tooted our horn a bit too loud, and blew things out of proportion with our corona Kabuki theatre, making it obvious even to the village idiot that something wasn't quite right, it left our cheesed-off, embarrassed governments no other choice but to dangle large wads of cash in front of these hospital CEOs if they can help falsify their records and exaggerate the death count. In other words, if you have the flu, it's the coronavirus. If you die of a heart attack, it's the coronavirus. If you die in a car accident, sorry, but it was most definitely the coronavirus.

## Lokio.

5-6/10 While the government is only too eager to call death by shotgun blast to the head a very bad case of the coronavirus blues, over here whenever somebody drops dead within days or hours after receiving a vaccine, their leading team of forensic investigators (who obviously couldn't find a whore in a whore house) take one good look at the coroner's report, then say, "Nup, sorry, there's no cause for investigation over here, they all died of natural causes. It wasn't the vaccine that killed them. Oh no! It wasn't the vaccine! It couldn't have been the vaccine! The vaccine is never to blame! Now, please understand, there was nothing at all suspicious about the death of that fit and healthy 21-year-old Cincinnati university student, 24 hours after receiving the J&J vaccine. And there was absolutely nothing suspicious about that fit and healthy 39-year-old mother who died of multiple organ failure just four days after receiving her second dose of the Moderna vaccine. And last but not least, there was certainly nothing at all suspicious about the sudden death and hospitalization of those nuns in that isolated Kentucky convent shortly after receiving their gov-mental blessing from God.He-he-he-he. Shh. If we admit on our fear-porn hellelevision that it was the vaccine that killed all them brainwashed sheeple, then crikey! There goes our cash cow up in smoke, and our eugenics program down the drain, hey? Now, let's just hurry up and sweep this up under the carpet along with the many thousands of other unreported suspicious deaths, shall we? Then we can get straight back to reminding the public that the coronavirus has, and will always be, our Public Enemy Number 1. Don't worry about death by vaccine. Don't worry about death by 5G. Don't worry about death by state-sponsored terrorism, when over here, we now bring you this deadly coronavirus boogeyman that's to be forever feared until we say so, or until we move on to the next plannedemic chapter of your lives, got it?!

7/10 So, yeah, while we fearstream media mafia are in bed with our technofascist government and big business, and have made it our business to stick our noses into your business by censoring our anti-vaccine critics all over the internet via our Nazi virtual book-burning efforts—and obviously have nothing to hide while we continue to suppress lifesaving alternative therapies, and seek to erode your

natural medicine and health freedoms before your very eyes in favor of Big Pharma wholesale—over here, we've enlisted the technocratic support of our friends from The Centre For Cancel Culture And Digital Hate to publicly name, shame, and defame all crackpot conspiracy theorists, beginning with Mercola and his Dark Knights. We have reason to believe this radical extremist fringe group are terrorists, and pose a serious threat to national security and our bottom dollar. Because these naughty freethinking political dissidents can see right through our fear projections, and can accurately predict all our hidden agendas, it's imperative that we go to DEFCON 4, and that they be placed on the FBI's 10 most-wanted hit-list as enemies of the state, when they are armed to the teeth with God's honest truth, and dangerous to the max with their anti-vax disinformation.

8/10 Because these thought leaders refuse to bow down to our billion-dollar megalomaniac, control-freakish, psychopathic Luciferian globalist masters, and join up with Dr. Fauci Mengele's Medical-Fascist-Covidian-Death-Cult-School-of-Experimental-Medicine along with the other well-fluoridated walking dead covidiot cult-pod people, and because they refuse to diaper up and wear our ritualistic Masonic slave mask, and receive our Frankenstein elixir, they'll be tried for heresy and burnt at the stake. Please raise the alarm if you ever come across these bad, bad people. You'll know what they look like: they ride into town, clad in shiny breastplates of righteousness, wearing helmets of salvation, holding swords of the spirit and shields of faith, and have the fullest backing of our Lord Jesus Christ beside them.

## Lokio.

10/10 So, yeah, with that in mind, we quietly continue supporting the poisoning of humanity, keeping quiet about our environmental terrorist government, which has taken it upon itself to forcibly mass-medicate the population by dumping industrialized fluoridated toxic sludge into the local water

supply. And while we keep quiet about the billion-dollar Monsanto GMO industry who line our deep pockets, and supermarket shelves chock-a-block full of nutrient-depleted, glyphosate-enriched, genetically mutated, cancer-causing fake food, we're also in the habit of keeping super-duper quiet about the genotoxic Wi-Frying dangers of cell tower electromagnetic radiation while we continue raking in more big bickies from our glorious telco sponsors, and make an absolute freaking killing, marketing Telstra's latest and greatest 5G technology as something we cannot live without, while they happily fill the air with the voltage of cancer at the cost of doing business, and at the expense of everybody's pain and suffering, no doubt.

Whatever. With all that aside, you just make sure that you take our word for it that everything will be just fine and dandy, and blindly accept our experimental vaccines of death. Because we care about you. We only want what's best for you. Trust us! Do you ever see us touch our many revolving narcissistic faces of Janus, or rub our Pinocchio noses on national TV to indicate we're full of crap? Of course not! We've been well-trained to speak the truth. Now please, listen to our fake news, fake TV, fake everything—and buy, buy, buy into everything that we're selling, come our next big worldwide breaking fearmongering news story or commercial break. We promise you, you'll not regret it. Pfft!

9/10 Everyday, while we smoke-and-mirrors, sleight-of-hand, black-magician, psychological-warfare tacticians grow increasingly fearful and paranoid of more and more sheeple waking up to our lies and deceptions, and have no choice but upgrade the poison, fear, terrorism, Centrelink crackdowns, and serial killer TV, hoping to transform seven billion people into dumbed-down raving lunatics and fully-fledged psychopaths as a subtle way to snuff out their love and light, and get them hating and fighting among themselves in order to distract them, it also allows us puppet-polly-parrot narcissists to get our fugly, ugly faces plastered all over the front page news while we happily rake in more cash and get quality air time after they've committed high crimes we subconsciously helped them to commit. Shh. He-he-he-he.

In the meantime, while we eagerly await our next real or CIA-staged Mockingbird news story, our Ministry of Truth will continue to wage our silent spiritual war on consciousness, and in our battle to

win over the hearts and minds of the couch potato sleeping masses by offering them one big fat juicy and delicious glyphosate-enriched Krispy Kreme Donut of irresistibly mouth-watering GMO goodness in our efforts to guide them over the cliff toward the Snake Gates of Hell, and into the vipers' pit of needles, vaccine lovers everywhere will soon rejoice, spoilt for choice once we introduce them to our four most trusted quackcine manufacturer bed buddies in crime, beginning with Johnson & Johnson: recently caught with their pants down, dumping asbestos in baby talcum powder. Then we have Pfizer, which had to pay 2.3 billion dollars in criminal convictions. And if AstraZeneca's co-developer has long-standing ties to the British eugenics movement, then so too does Moderna over here have a nice circle of known eugenicist friends.

## Raythe4th

I love to see articles exposing these wicked people and the organizations they work for. Maybe their censorship and propaganda work on the majority of halfwits out there, but not on people who can 🤔 for themselves and who value Freedom. I wonder if these people realize that they are evil and vile. Their actions are akin to lying and everyone knows that ALL LIARS WILL HAVE THEIR PART IN THE LAKE OF FIRE!!! This lawless age that we find ourselves in today will surely see the Wrath of God fall down upon it soon. Repent before it's too late...Jesus still Saves...so are you in need of a Savior? There is a way which seemeth right unto a man, but the end thereof are the ways of death. A wise man feareth, and departeth from evil: but the fool rageth, and is confident. Proverbs 14:12,16 Do they not err that devise evil? but mercy and truth shall be to them that devise good. The fear of the Lord is a fountain of life, to depart from the snares of death. Proverbs 14:22,27 Righteousness exalteth a nation: but sin is a reproach to any people. Proverbs 14:34 Therefore let all the house of Israel know assuredly, that God hath made that same Jesus, whom ye have crucified, both Lord and Christ. Now when they heard this, they were pricked in their heart, and said unto Peter and to the rest of the apostles, Men and brethren, what shall we do? Then Peter said unto them, Repent, and be baptized every one of you in the name of Jesus Christ for the remission of sins, and ye shall receive the gift of the Holy Ghost.

How much self-defeating folly can one person put into an almost sentence? The fool has said in his heart there is no God, and uses the light & truth God has mercifully condescended to preserve & provide for them to deny it & life. Those who turn from the truth end in Hell which ends in the Lake of Fire at the dissolution & judgment of this earth & heavens when the new shall come...with all corruption. The only 'saints' in Hell are those of Rome and every shamanic system of 'gods' creation & definition....and some of the true saints whose tombs Rome & the self-righteous garnish as they defile & revise their histories will watch as those defilers meet the just reward for their actions with no covering mercy of God because they refused to love the truth, sighted faith and ended with the blind, deceiving & being deceived whom they followed into the ditch. What a 'victory' for the 'smart' 'survivors'.

I have a question. Please see [forbiddenknowledgetv.net/magnet-meat](https://forbiddenknowledgetv.net/magnet-meat) Does anybody know anything about this? Is this a recent phenomenon or it has always been like this? I tested some uncooked chicken from Aldi and it is indeed magnetic. There are some rumors that they give Covid vaccines to commercial animals and the meat becomes magnetic. Any truth to this? Another video:
