

Media Covers Up Tracking of Unvaccinated People

Analysis by [Dr. Joseph Mercola](#)

✓ Fact Checked

April 18, 2023

STORY AT-A-GLANCE

- › In mid-February 2023, I reported that the U.S. government has secretly been tracking those who didn't get the COVID jab, or are only partially jabbed, through a previously unknown surveillance program
- › Within days, fact checkers tried to debunk the idea that individual people are being tracked, or that these data could be misused by government or third parties
- › COVID "vaccination" status was not considered a private medical matter at all during 2021 and 2022, yet mainstream media now want you to believe that your COVID jab status is protected by medical privacy laws
- › Your medical data are not nearly as private as you think. The Health Insurance Portability and Accountability Act (HIPAA) is rife with exemptions when it comes to your privacy. Federal agencies such as Health and Human Services (HHS) and the Centers for Disease Control and Prevention, for example, are exempt from the privacy clauses and can access identifiable data – especially if there's an outbreak of infectious disease, be it real or fictitious
- › Government agencies and a number of third parties or "covered entities" can also use a number of loopholes to re-identify previously de-identified patient data

In mid-February 2023, I reported that the [U.S. government has secretly been tracking those who didn't get the COVID jab](#), or are only partially jabbed, through a previously

unknown surveillance program designed by the U.S. National Center for Health Statistics (NCHS), a division of the Centers for Disease Control and Prevention.¹

Within days, fact checkers were burning the midnight oil trying to debunk the idea that individual people are being tracked, or that these data could be misused by government or third parties.

Strangely enough, the most egregious "misinformation" example USA Today's fact checker could find was a social media post that "generated nearly 200 likes in less than a month."² Two hundred likes? To most influencers, that's nothing, especially not over the course of 30 days.

Why is USA Today stressing over a post with 200 likes? Seems a bit panicky if you ask me. Reuters also came out with a fact check and, like USA Today, Reuters claimed there was a lack of "context:"³

"New diagnostic codes that describe a patient as under-immunized against COVID-19 were introduced to help doctors identify patients potentially at risk for more-severe COVID and to help health officials track vaccine effectiveness and mortality statistics, among other public health questions, not for U.S. government tracking of unvaccinated individuals, as some are claiming online.

The codes in an individual's medical record, like all personal health information, are protected by U.S. privacy law and could only be analyzed at the group or population level uncoupled from individual identities ..."

Your Medical Records Are Far From Private

As is so often the case, the fact checkers are the ones taking the issue out of context or, rather, not presenting the full picture. The fact is, your medical data are not nearly as private as you think. The Health Insurance Portability and Accountability Act

(HIPAA) is rife with exemptions when it comes to your privacy.

Federal agencies such as Health and Human Services (HHS) and the Centers for Disease Control and Prevention have every right to access identifiable information, as they are exempt from the privacy clauses, and they're particularly justified to access your private vaccination data if there's an outbreak of infectious disease, be it real or fictitious. As noted in the HHS's and CDC's HIPAA guidance:⁴

"Balancing the protection of individual health information with the need to protect public health, the Privacy Rule expressly permits disclosures without individual authorization to public health authorities authorized by law to collect or receive the information for the purpose of preventing or controlling disease, injury, or disability, including but not limited to public health surveillance, investigation, and intervention ...

[T]he Privacy Rule expressly permits PHI [protected health information] to be shared for specified public health purposes. For example, covered entities may disclose PHI, without individual authorization, to a public health authority legally authorized to collect or receive the information for the purpose of preventing or controlling disease, injury, or disability ...

Further, the Privacy Rule permits covered entities to make disclosures that are required by other laws, including laws that require disclosures for public health purposes."

Loopholes Also Allow Re-Identification of Personal Data

Government agencies and a number of third parties or "covered entities" can also use a number of loopholes to re-identify previously de-identified patient data. As explained in a CDC Public Health Law document detailing the lawful sharing of private medical data:⁵

"While HIPAA limits the use and disclosure of health information, it also permits certain secondary use exceptions for public health purposes. HIPAA provides certain circumstances under which patient data can be disclosed to health departments without patient authorization.

Under HIPAA, providers may disclose identifiable patient data (protected health information or PHI) if required by law, allowing states to pass legal exceptions to HIPAA restrictions.

Providers may also disclose PHI to health departments without patient authorization for public health activities, such as communicable disease reporting, or to a public health authority to prevent or control disease, injury, or disability under the public health exemption. A covered entity may access, use, and disclose PHI for clinical research without an individual's authorization if:

- 1) it obtains documentation of waiver of individual's authorization by an institutional review board or privacy board*
- 2) the PHI is necessary for this research*
- 3) the research is using PHI of decedents*

Providers may disclose EHI without patient authorization when the data have been 'de-identified' ... but still permits re-identification by providers or regional health information organizations through randomized patient source codes should a public health alert or case report become necessary.

Finally, providers may disclose a 'limited data set,' including dates and zip codes, without authorization and still re-identify patients if they maintain patient codes derived from certain identifiers."

So, can your vaccination status be accessed by federal health agencies? Yes. Can

that information be identifiable? Absolutely yes. Does that mean that you, as an individual, could be surveilled and/or get caught in a forced vaccination dragnet or end up experiencing negative repercussions in other areas of your life due to your vaccination status? Probably.

U.S. "privacy" laws certainly make allowances for such scenarios, and considering the behavior of government over the past three years, it would be naïve to believe they would never use your vaccination data against you.

Reuters Muddies the Water

Reuters also muddies the water in other ways. For example, the fact check stresses that medical providers have used the general code Z28.3 (which represents "underimmunized") since 2015, and that "these codes are not used with purposes beyond monitoring and reporting diseases and mortality statistics or for insurance billing."

While it's true that the International Classification of Diseases (ICD) code Z28.3 has been around for years, the new subcodes that track COVID jab status were added in mid-September 2021 during a ICD-10 Coordination and Maintenance Committee meeting, and during that meeting, they specified that "there is interest in being able to track people who are not immunized or only partially immunized."

Below is a screenshot of page 194 of the agenda⁶ distributed during that meeting. There's no ambiguity here. The new ICD-10 codes were added for the specific purpose of "tracking people" who are unjabbed or only partially jabbed against COVID-19.

They didn't say they wanted to track "general population data." They specifically said "people" are to be tracked. They also clearly state that this tracking is "of value for public health" — and again, the key words "public health" open the door to federal health agencies accessing identifiable data.

Underimmunization for COVID-19

During the current time of the COVID-19 pandemic, immunizations have provided protection for many people, but there is interest in being able to track people who are not immunized or only partially immunized. At the current time, this is a significant modifiable risk factor for morbidity and mortality, and of interest for clinical reasons, as well as of value for public health.

NCHS is proposing creation of codes for unvaccinated for COVID-19, and for partially vaccinated for COVID-19.

Early implementation is proposed on April 1, 2022, and comments are requested by October 15, 2021.

TABULAR MODIFICATIONS

	Z28	Immunization not carried out and underimmunization status
	Z28.3	Underimmunization status
New sub-subcategory	Z28.31	Underimmunization for COVID-19 status
New code	Z28.310	Unvaccinated for COVID-19
New code	Z28.311	Partially vaccinated for COVID-19
New code	Z28.39	Other underimmunization status

Moreover, additional subcodes specify the "why" a person chose not to get the COVID shot or stopped getting boosters. Those codes are listed in the screenshot below, under Z28.3 Underimmunization Status.⁷

The updated ICD-10-CM tabular instructions now includes the following information:

- Z28.3, underimmunization status
 - Use Additional code, if applicable, to identify:
 - immunization not carried out because of contraindication (Z28.0-)
 - immunization not carried out because of patient decision for other and unspecified reason (Z28.2-)
 - immunization not carried out because of patient decision for reasons of belief or group pressure (Z28.1)
 - immunization not carried out for other reason (Z28.8-)
- Z28.31, underimmunization for COVID-19 status
 - Note: These codes should not be used for individuals who are not eligible for the COVID-19 vaccines, as determined by the healthcare provider.
 - Z28.310, unvaccinated for COVID-19
 - Z28.311, partially vaccinated for COVID-19
- Z28.39, other underimmunization status
 - Delinquent immunization status
 - Lapsed immunization schedule status

The use of "delinquent immunization status" under code Z28.39 also tells us something about where this is all headed. "Delinquent" means being "neglectful of a duty" or being "guilty of an offense." Is refusing boosters a criminal offense? Perhaps not today, but some day, it might be, and these codes lay the foundation for that kind of medical persecution.

All Missed Vaccinations Will Be Tracked

Another tipoff that these codes will become part and parcel of the biosecurity control grid, even if they're not used in this way now, is the fact that code Z28.39 – "Other underimmunization status"⁸ – is to be used "when a patient is not current on other, non-COVID vaccines."⁹

In other words, they have already begun tracking ALL of your vaccinations, not just the COVID shot, and they can use the Z28.3 sub-codes to identify why you refused a given vaccine.

They've also added a billable ICD-10 code for "immunization safety counseling," which explains the codes detailing "why" you refused a vaccine. So, if you didn't get a vaccine due to "personal decision" (code Z28.2), or due to "personal beliefs or group

pressure" (code Z28.1), then your doctor can bill your insurance for regurgitating vaccine propaganda and trying to change your mind.

Codes Could Be Put to Good Use

Giving credit where credit is due, Reuters Fact Check did point out a potentially beneficial purpose for the new ICD-10 codes:¹⁰

"[Eric Burnett, who specializes in hospital and internal medicine at Columbia University] said the ICD-10 codes could also help track data on vaccine efficacy, including comparisons between vaccination statuses of hospital or ICU patients with COVID, or patient mortality data based on vaccination status."

That would be great, but the risk of these data being misused by the government is, I believe, greater than the possibility of them being used to protect the public from dangerous mRNA shots, seeing how overwhelming amounts of data showing harms are already being willfully ignored.

CDC Refuses to Answer Questions About the New Codes

Another red flag is the fact that the CDC has refused to answer questions about how it intends to use the new ICD-10 codes. In mid-February 2023, nine House Republicans sent a letter to the CDC demanding answers to these five questions:¹¹

1. Why did the CDC and National Center for Health Statistics (NCHS) decide to start gathering data on why Americans chose not to take the COVID-19 vaccine?
2. How do the CDC and NCHS intend to use these new COVID-19 vaccination ICD codes?
3. What steps are the CDC and NCHS taking to ensure that Americans' private

health information contained in the ICD system is protected?

4. Will the CDC and NCHS confirm that they have not, will not, and cannot create a database of Americans based on their COVID-19 vaccination status?
5. Can the CDC and NCHS confirm that private companies do not have access to lists of Americans' COVID-19 vaccination status through the ICD system, or any other database overseen by the CDC and NCHS

As reported by The Daily Signal February 28, 2023, the CDC for some reason does not want to answer these questions:¹²

"The Centers for Disease Control and Prevention told The Daily Signal that it 'will not be tracking' the reasons Americans give for refusing to take a COVID-19 vaccine ... Meanwhile, congressional Republicans told The Daily Signal that the CDC failed to respond to their questions by a deadline last week.

'Two weeks ago, we sent a letter to the CDC demanding answers about its new COVID-19 vaccine database,' Rep. Josh Brecheen, R-Okla., told The Daily Signal in a statement ...

'The CDC is stonewalling us and refusing to respond. Why won't the CDC explain why it's gathering data about Americans' personal choices? House Republicans are not afraid to use the budgetary process to keep the CDC accountable to the American people,' Brecheen warned.

House Republicans raised the alarm about the CDC's involvement with the World Health Organization's recently codified International Classification of Disease, or ICD, codes related to COVID-19 vaccination status, which went into effect last April. The codes enable the Centers for Disease Control and Prevention to collect data on the reasons Americans refuse to take one of the vaccines ...

'The ICD codes were implemented in April 2022, however the CDC/NCHS

does not have any data on the codes and will not be tracking this information,' Nick Spinelli, a CDC spokesman, said in an emailed statement. 'The codes are developed and managed by the World Health Organization to enable healthcare providers to track within their practices ...'"

End Goal Is Global Database for the Vaccine Passport System

The mention of the WHO brings me to my next point, which is that all of this information will likely, eventually, be transferred into a global vaccination database. Hence the reason why the WHO develops and manages the ICD-10 codes. It's to allow for the "harmonization" of health care across the world.

Incidentally, the fact that the WHO develops and manages these codes also means that the WHO has approved these new codes that track vaccination status, and we already know that the WHO is working on a global vaccine passport.

“ COVID 'vaccination' status was not considered a private medical matter at all during 2021 and 2022, yet mainstream media now want you to believe that your COVID jab status is protected by medical privacy laws. ”

To work properly, a global vaccine passport system needs a global vaccination database, and there's no telling what privacy measures, if any, such a database might end up with. What we do know is that white papers¹³ and proposed legislation¹⁴ published during the COVID era that discuss health tracking and/or vaccine passports have stressed that privacy concerns must be relaxed or dropped altogether to ensure global biosecurity.

We also saw how COVID "vaccination" status was not considered a private medical

matter at all during 2021 and 2022. In many places, you had to disclose your status and show proof that you'd been jabbed. Yet mainstream media now want you to believe that your COVID jab status is protected by medical privacy laws. What a joke.

As noted by Dr. Robert Malone in a January 25, 2023, Substack article, this vaccine passport system is being put into place right under our noses, and it would be incredibly naïve to think that these new ICD-10 codes are not part of that scheme:¹⁵

"The administrative state is busy building a vaccine passport system that will be active before most Americans are aware of what is being done to them. No one is going to knock on your door asking for your vaccine status because they already know ...

They don't need approval from Congress or the courts because we have given them the information through our health care providers. The CDC is the governmental organization tasked with tracking vaccine status on individuals.

They already have the records, as well as updated booster information. They just need to tweak a definition here and there, or get President Biden to keep the COVID-19 public health emergency in place indefinitely and the vaccine passports will be a fait accompli."

A Data Collection Dragnet

As of January 1, 2014, the U.S. government required public and private health care providers to adopt and use electronic medical records (EMR) if they wanted to qualify for full Medicaid and Medicare reimbursement.

The government also financially incentivized physicians and hospitals to adopt electronic HEALTH records or EHR.¹⁶ The difference between EMR and EHR is that EHR provides a far more comprehensive patient history than EMR, as it contains a

patient's medical history from more than one medical practice.

In essence, EHR is what you get when doctors share your medical data to create one comprehensive file that covers all your interactions with the medical system. While that sounds good in theory, Big Pharma immediately seized the opportunity to misuse it by placing drug ads within the EHR system.

This in turn has driven up medical costs and resulted in poor prescribing decisions that put patients at risk.¹⁷ Patients are also directly targeted with drug marketing through patient portals.

Physicians and hospitals who adopted EHR got paid extra. Between January 1, 2011 and December 31, 2016, the Centers for Medicare & Medicaid Services (CMS) paid out EHR incentive payments to hospitals totaling \$14.6 billion.¹⁸ Meanwhile, those who chose not to capture, share and report clinical data on patients were financially penalized through reduced Medicare reimbursements.^{19,20}

Needless to say, these "sticks" and "carrots" led to the rapid adoption of both EMR and EHR, both of which government requires if it wants the power to control the population through medicine, and we now know that's exactly what government intends to do.

Transhumanism Is Being Implemented Through Food and Medicine

At the end of September 2022, President Biden laid out a "bold goal" to "end hunger and increase healthy eating and physical activity by 2030" through a federally-backed "**Food Is Medicine**" campaign.²¹

Integrating food and nutrition with health care so that food and health policies are under one umbrella will facilitate the creation of new policies, funding and control over both areas. Eventually, food purchases and health records will be linked to your

vaccine passport/digital identity, which also holds your educational records, travel records, work records and bank accounts.

That this "Food Is Medicine" campaign has nothing to do with promoting real nutrition or whole food is obvious, as that same month Biden also signed the "Executive Order on Advancing Biotechnology and Biomanufacturing Innovation for a Sustainable, Safe and Secure American Bioeconomy."²²

This specifies that **biotechnology and genetic engineering be used to transform the food** and medical industries in order to **promote a transhumanist agenda**. It's all about creating fake, synthetic and genetically manipulated foods and tinkering with the human genome.

On a larger scale, this plan is also promoted by the World Health Organization, which is trying to seize power over health care globally through International Health Regulation (IHR) amendments and the Pandemic Treaty. For more information on that, see "**Pandemic Treaty Will Usher In Unelected One World Government**."

The WHO is also seeking to put food, medicine and climate under one umbrella. This would allow it to control the global population in any number of ways, as a climate issue could be positioned as a public health issue, or a food issue, and vice versa. In other words, people could be forced to eat bugs instead of beef because it "benefits the climate." Private vehicle use could be restricted because it helps lower vehicular pollution that endangers public health, and so on.

So, to bring us full circle back to where we started, while media are now trying to lull you to sleep with "promises" that there's nothing nefarious about tracking the unvaccinated or "undervaccinated," think long and hard before you close your eyes to the possibility that this is all part of biosecurity-based totalitarian control grid.

Dear CDC, I am code Z28.310, unvaccinated for any of your depopulation bioweapons. Will admit to one flu shot in 1996. You know where my records are. The VA and Adventist.

Very good Otis, courage and bravery always defeat fear. According to a document posted on the CMS federal government website, the new tracking codes for the unvaccinated and partially vaccinated began to be used in April 2022. An NIH government website further states of the ICD-10-CM diagnosis codes that they "tell the story of each patient encounter, describe the etiologies of the disease process, explain complications of care, provide basis for medical necessity, support coverage for payment purposes, identify disease incidence and support statistical monitoring of health care practices, as well as provide information on disease status in medical practices throughout the process of attention".

"The lesson here is this: stay far, far away from all doctors and hospitals," someone suggested on Twitter about how to avoid being tracked by the government in this way. "These people are criminals and should be prosecuted for this tracing of unvaccinated people," suggested another. "I am so angry now, even more than when my doctor's nurse asked me if I was vaccinated. I suspected this was going to happen and told him he had no right to ask me about it."

otis101

Since I am part of an International SARS-CoV-2 Control group, independent, non governmental and non pharmaceutical, CDC can easily keep tabs on us. 35,000 just in the U.S. in this group and 300,000 plus around the world. We receive an email once a month to update our health and vax status. Join the group, but no ice cream. <https://vaxcontrolgroup.com>

Hi Otis, did you notice there is no code for covid-recovered? No admission of natural immunity in the CMS health care system either? Geeze, no wonder those who had measles and chickenpox when growing up are of no use for medical trials. Most Americans under age 40 have no clue natural immunity even exists!

Thank you Otis, I am going to join. But still, somewhat cautious because their site uses Google tracking. Not a good omen. At 84 and having recovered from covid twice, I no longer fear it... I now have great 25OH Vitamin D test results (around 100), and have a supply of IVM in safe easy access. As long as I can avoid the vax, I am planning to live happily for a few more years, digging in the dirt and helping to feed my neighbors by donating organic veggies to the local food bank.

I am 62. I have not seen a doctor in 20+ years, and, by the grace of Almighty God, will continue to opt out of the medical cabal. Also, God has blessed me with living in a rural, mountainous region in the southeast. We grow most of our food and have a farmer that rotational grazes livestock on 23 of our 27 acres, regenerating the land while providing clean protein. I am learning to hunt deer to supplement and share with others. There is a growing number of Americans joining the American State Nationals, essentially creating a parallel society. I would encourage everyone to move in that direction. God wins, but, in the meantime, we are called to take right action.

Guillermou

We have to realize that the earth creates all our food, purifies and provides nutrients to the water, and performs a great regeneration of our planet. Animals, as entities that are part of planet Earth, enter into this chain of purification, regeneration and food, and can benefit from its properties. We need true science, upright people who project wisdom to promote the health of the planet and the living beings that inhabit it. Our future well-being depends on placing relationships first in our collective interests. When nature is taken care of, we also stay with ourselves. All meaning arises from coordinated action and what we consider real and valuable depends on the well-being that we project, with the effort of local regenerative agriculture.

Relationships with others and with nature must imply respect and an order of priorities that must be supported by preserving it as the birth of the creator's work. From the holistic approach, the global well-being of each one of us will depend on the balance between all aspects of our mind and body. We know that what happens in our physical body directly affects our emotional, mental and spiritual dimensions and that the same thing happens in reverse.

According to the 1947 Nuremberg code, it is illegal to mandate enforcement of vaccines upon penalty of death

Posted On 04/18/2023

kev8395

Trisha. Unfortunately the Nuremberg Code is not worth the paper it is written on. Not a single country has signed up to it to make themselves accountable to it's ethics. In the 1990s a US judge ruled that the code can be used in lawsuits for medical malpractice in the US which is something positive at least. There is no death penalty, this is an online myth based on Nazi doctors being executed in Nuremberg in the post war trials held there. At best it is a guideline, a statement of principles which has been ignored for 70 years. In the US in the 1960s oncologists deliberately murdered 12 children with fatal doses of a chemotherapy drug just so they could find out what the 50 rate is.

The 50 rate is at what point does a drug kill more than half the people in a control group due to its toxicity. All the children were killed. No code invoked, no police interview, no medical board interview....on they went with their careers. Dr Vernon Coleman says that most doctors have a God complex and a psychopathic personality and he advices to keep far, far away from all of them unless we have an injury such as a burn or broken bone.

Yes, despite the fact that the Nuremberg Code of 1947 is the most important legal document in the history of the ethics of medical research. He established 10 fundamental principles of ethical clinical research. The first and foremost principle is unequivocal. "The voluntary consent of the human subject is absolutely essential." governments and globalists are burying the Nuremberg Code, but there have been ethics-based applications of the code; In 2009, the US Court of Appeals for the Second Circuit for the Southern District of New York cited the Nuremberg Code as: "the universally accepted norm in customary international law regarding non-consensual medical experimentation".

The case involved Pfizer, which conducted an unapproved trial of its experimental antibiotic, Trovan, in children in Nigeria. The court found Pfizer guilty. *Rabbi Abdullahi, et al. v. Pfizer, Inc.*, 562 F.3d (2d Cir. 2009). Among the non-consensual experiments that the court cited as the basis for its convictions were drug tests for immunization against malaria, epidemic jaundice, typhus, smallpox and cholera.

Seven of the convicted doctors were sentenced to death and the remaining eight to various prison terms. The US court's conclusion that the action that violated the first principle of the Code constituted a crime against humanity is a lucid indication of the international legal significance of the prohibition on non-consensual medical experimentation."

According to renowned American international law expert Francis Boyle, since the Nuremberg War Crimes Tribunal in 1945, the mere threat of nuclear weapons is “nuclear terrorism” and a “crime against peace and humanity”. In addition, the US-NATO already seems to be preparing for a big war. But it's not just corrupt government officials, unscrupulous billionaire technocrats, or megalomaniac "humanitarians" who need to stop hating: we fathers, mothers, and grandparents, as well as all rational people in the world, have the duty to stop hating and consult the reason. On August 20, 2022, at a commemoration of the 75th anniversary of the introduction of the Nuremberg Code, Holocaust survivor Vera Sharav from the US drew attention to the sinister parallels between the 1930s and the present.

She compared the current political situation to the beginnings of National Socialism, where fundamental rights were also gradually abandoned and groups of people were deliberately vilified and excluded. Literally, she said: "The Holocaust did not start in the gas chambers of Auschwitz and Treblinka." Finally, she prophesied: "If we don't all resist, it will never be like this again!"

Lawyer Thomas Renz said the whole thing is an exercise in fear and manipulation, detailing how the entire system, including government agencies, the mainstream media and Big Pharma, have been lying to the public to push for more tyranny and sell more drugs. Renz calls this effort Nuremberg 2.0 after the first Nuremberg trials that occurred after World War II. "This is all a fraud," Renz says of the pandemic. "Fear, manipulation, and ultimately fraud and death drive it. We have to have independent investigations by people with the authority to prosecute." Attorney Thomas Renz called for a special independent prosecutor to investigate the criminal and civil wrongdoing of Dr. Anthony Fauci, the FDA, CDC, DHHS, and others, such as the mainstream media, who may be guilty of marketing and licensing this deadly injection renz-law.com/.../.----- Now Action Alliance, a group of German activists, is organizing on Saturday, August 20, "75 Years of the Nuremberg Code: No More Forced Medical Procedures", a public lecture to commemorate the 75th anniversary of the Nuremberg Code.

Among its 10 principles, the code highlights the notion that forced medical procedures constitute a crime when performed without prior, voluntary and fully informed consent. Throughout the COVID-19 pandemic, many activists from a variety of organizations have drawn attention to the parallels between human rights abuses during World War II and the global deployment of COVID-19 policies, including public and private mandates for experimental vaccines and the use of vaccine passports, both of which constitute the display of coercion and force in connection with a medical procedure, a practice denounced as unethical in the Nuremberg Code.

MARY HOLLAND: THOSE WHO VIOLATED THE NUREMBERG CODE SHOULD BE PROSECUTED FOR CRIMES AGAINST HUMANITY Over the past two and a half years, tragically, we have witnessed a global assault on the Nuremberg Code, according to Children's Health Defense President Mary Holland . We can restore this foundation of medical ethics, but only if we come together. Governments, medical establishments, universities, and the media have violated the first principle and every other principle of the 10-point code. They have forced people to become human guinea pigs. They have forced people, at the cost of their livelihood, identity, health, friendships, and even family relationships, to take experimental gene-altering injections, experimental tests, and inadequately tested medical devices <https://childrenshealthdefense.org/defender/mary-holland-nuremberg-code-anniversary-speech/> (08/22/22) NUREMBERG CODE 2.0 MEETING - AUGUST 20, 2022 rumble.com/v1gjzxv-nuremburg-code-2.0-meeting-august-20-2022.html

Yes, today is Holocaust Memorial Day. What's happening now is related to the lead-up to the Holocaust, as most readers here may know. I am always touched and inspired to hear from survivor Vera Shavez who draws the parallels in powerful words and images. Gui's pointed to some talks of hers and perhaps others did too. This one is recent and excellent:

[rumble.com/v2htkfq-vera-sharavs-historic-nuremberg-speech-eugenics-the..](https://www.rumble.com/v2htkfq-vera-sharavs-historic-nuremberg-speech-eugenics-the..) And the whole "Never Again is Now Global" series on ChildrensHealthDefense.org, with her at the front, brings our situation home.

Me: Do my free salt water cure as soon as you think you might have caught a nasal infection/cold/flu/coronavirus and that's that - nothing will happen. The sooner you do my free treatment, the quicker it is killed off, most times just one or two nasal washes are enough to get the job done - 3 to 6 minutes of your valuable "the time of your life". Mix one heaped teaspoon of salt (I use shop bought, Iodine based, table salt) in a mug of clean cold or warm water, cup a hand and pour in some solution, sniff or snort the entire contents up your nose, in small doses, spitting out anything which comes down into your mouth.

If a burning sensation, then you have a virus in your nasal passages, behind your eyes, in the escutcheon tubes to your inner ears, brain bulb, brain stem (hence Long Covid) so wait until burning stops (2-3 minutes) then blow out your nose with toilet paper and flush away, washing your hands afterwards. Do my free salt water cure morning, noon, night, or more often if you want for a quicker result, until it feels like you are flushing with water - job done.

May I suggest if you're going to inhale salt water into your sinuses make sure the water is either sterile, RO filtered, or distilled. Brain eating amoeba have been found in drinking water.

Posted On 04/18/2023

caws

Please use NEILMD for this. It is cheap, over the counter & comes with pre-measured sterilized salt packs and make sure your water is distilled or at least boiled & cooled. The large squirt bottle delivers a powerful spray that gets it deep into sinus and I personally lay back on the bed to let it run deeper & longer to get more junk out. As someone who has suffered with terrible sinus infections for a lifetime [5 surgeries and dental issues] ;I can tell you that if you add 7 drops of Lugol's iodine along with 7 drops of 35% FOOD GRADE hydrogen peroxide, it will kill just about any infection if you catch it early on.

Iodine & H2O2 are effective at killing some of the most resistant bacteria like Psudomonas, Gram Negative Coagulase Staph and fungus like Candida Parapsilosis and Aspergillus. Found this out after ENT had me squirting massive doses of antibiotics, & steroids up my nose for months. Not only were they expensive but the steroids damaged my eyes as I started to get cataracts. I have also used this same formula in my nebulizer.

Posted On 04/18/2023

jamNjim

Richard, I'm sure your remedy works because I quit catching colds after I started a daily saline mist routine. Twice a day for more than 18 years I have drenched both sides of my sinuses with saline mist. Can't be a coincidence that I stopped catching colds after starting this regimen. I use the store-bought Arm-N-Hammer pressurized saline mist. It comes in a 3-pack at Sams and Costco.

using povidone iodine or lugols iodine makes a more effective killing nasal rinse. t's important to follow these directions carefully since full-strength Povidone-Iodine (also known as Betadine) is too strong and can be irritating. Dilute 10% Povidone-Iodine by one-tenth so that it is 1% strength. To do this, add 10ml (2 tsp) of the 10% solution to 100ml of water. This will make the solution diluted enough to use as a mouth rinse or gargle. Squirt 1 tsp of the 1% solution into one nostril and sniff this to the back of your throat. Spit it out immediately. Repeat with the other nostril. Use this nasal rinse twice in each nostril.

After performing the nasal rinse, gargle at least 2 tbsp of the diluted solution for at least 30 seconds. **DO NOT SWALLOW THIS RINSE.** If you are iodine allergic or intolerant, or if you cannot find any Betadine, you can substitute hydrogen peroxide. (Hydrogen peroxide should also be diluted. Add 50ml of 3% hydrogen peroxide to 100ml of water to dilute.) You can use Listerine or Scope afterward to freshen your mouth. These products also have some virus-killing effects. Repeat this rinse 2-4 times a day for prevention, or up to 6 times a day with acute infection.

Posted On 04/18/2023

Jhaden

It will also burn if there is too much or not enough salt. I agree that salt rinses are beneficial if one uses clean water and a good salt. However, a burning sensation or lack of a burning sensation does not indicate presence or absence of pathogens. I'll use a nasal salt rinse when I am actively sick and it does not burn because I get the proper ratio of salt (and sometimes essential oils) to water.

No, I no longer go to doctors. Are there really doctors anymore? I don't think so. I work in the system. I see thousands of cases a year. For example, people go to drug rehab literally hundreds of times, and never get one single day of sobriety. They are prescribed so called medications that are themselves drugs of abuse. Insurance companies, are only interested in putting people on dangerous addictive medications that should never have been approved. The medical system is totally broken, stepping into a doctors office is one of the most life threatening actions a person can take.

According to Dr Peter McCullough the CDC figures for the unvaccinated are wrong. The true figure could be around 25% of the population in the USA This could boost Robert F Kennedy Jr's bid to become president. He would surely garner great support from those who are unvaccinated, and will no doubt be dropping some huge truth-bombs about Big Pharma, Big Ag and Govt environmental and medical corruption along the way: twitter.com/.../1648263025055485953

Posted On 04/18/2023

Yes, NW, the United States needs a president who marks a new diamond in defense of health and freedom. In an email sent earlier today by CHD Acting President Laura Bono to CHD members, Kennedy said: "My top priority is to end the corrupt merger between state and corporate power that has ruined our economy, shattered the middle class, polluted our landscapes and waters, poisoned our children and robbed us of our values and freedom." Stating that these goals have always been "central to CHD's mission," Kennedy explained that he founded CHD "after parents concerned about the meteoric rise in childhood chronic diseases approached me time and time again, urging me to look beyond what mainstream media and government health agencies were telling the public about what was causing these increases."

childrenshealthdefense.org/defender/robert-f-kennedy-jr-files-run-us-p.. (06/04/2023) Data manipulation will not be able to hide the truth.

The passage of time is showing that humanity is suffering a premeditated genocide due to deliberate corporate and institutional blindness based on its own weaknesses and fraud. It does not allow dialogue with scientists and doctors opposed to biological weapons against COVID, it does not carry out self-assessment of results, and it continues with actions against ethics.

Freedom of expression and decision is being actively repressed by any form of dissent within its own ranks and the rest of the scientists. The CDC is employing categorical game techniques to hide the dramatic excess mortality from natural causes not related to covid. If these deaths are not vaccine related, as is commonly claimed on authority, credential and ignorance, then there should also be no reason to hide their associated records. However, that is exactly what is happening.

Posted On 04/18/2023

Mathematician Igor Chudov carried out an evaluation of two completely different data sets covering tens or even hundreds of millions of people from which he concluded that the relative risk of death for people who were "vaccinated" against Covid-19 is 40 percent higher than that of the unvaccinated. Throughout the world where Fauci flu shots have been given, Chudov says, excess mortality is through the roof. Chudov addressed this by conducting extensive analysis of numerous data sets to scientifically prove that covid injections are killing many people, despite being billed as the "cure" for Chinese germs.

The more covid jabs a person receives, the greater their chances of dying. Excess mortality increased by 40% worldwide after the launch of "vaccines" against covid. Steve Kirsch of the COVID-19 Early Treatment Fund says none of this surprises him. Given that Chinese virus injections are the deadliest class of "vaccine" in history by a factor of more than 800, it makes sense that people everywhere who take them die en masse. "While the number of deaths from COVID has largely been limited to the elderly it is the young who bear the brunt of vaccine injuries." It is a genocide of young people what is taking place with these injections, in other words.

Not only deaths, but also serious injuries are on the rise due to these injections. Think about things like heart attacks, strokes, blood clots, circulatory diseases. neurological problems and many other fatal diseases over time. "the same vaccine-induced ailments we were warned about by doctors and scientists who have been telling us the truth all along." <https://theethicalskeptic.com/igorchudov.substack.com/p/guesstimating-relative-risk-of-mortality> (2022)

Project Fear continues. The technocrats can only win because we enable them by being as pathetic as they believe us to be. They are so few and we are so many and we do not have the overweening personality disorders, which colour all actions and prevent them from thinking critically. Most of what I'm seeing here now in the media is purposely filtered and 'leaked' 'information', which is meant to reanimate the dying covid narrative because their other narratives have failed to take. We are living through an information Renaissance/Revolution, with a potential to understand everything that didn't make sense before and with everyday more of the 'masses' on the cusp of comprehending their world for what it is.

This is a significant step forward and we will need to relearn to be self-sufficient and that includes in understanding how to take care of our own health. To do this we need to understand what makes us sick...so..once and for all, why can't we have a debate about how we got into this autocratic useless healthcare system in the West and proffer a solution for those in on how to get out? I have a recipe and household management book written in 1865 it has whole chapters on how to care for the sick, at home, fixing fractures,/breaks and trauma, which are the two remaining areas where people still have faith in a health care system. You don't need surveillance if you live in fear and ignorance, that alone is enough.

Yes, the media and tech companies played a "central role" in stifling the COVID-19 policy debate. A groundbreaking scientific paper published Tuesday exposes the suppression and censorship of doctors and medical experts who have opposed and challenged the official COVID-19 narrative. The authors summarized their article by stating that "the emergence of COVID-19...gave rise to numerous controversies about COVID-related knowledge and policy" and a "perceived threat from physicians and scientists challenging the official position of the governmental and intergovernmental health authorities".

Describing this "official position" as "orthodoxy," the authors said supporters of such policies "have moved to censor those who promote dissenting views." "Our findings point to the central role that media organizations, and especially information technology companies, play in attempting to stifle debate over COVID-19 policies and measures," the authors wrote.

The CIA secretly worked to influence American and world opinion through literary and intellectual elites. the most valuable of these partnerships, according to CIA officials, have been with the New York Times, CBS, and Time Inc. The CIA has learned to adapt to changing times, and that's exactly what intelligence agents did: punches statecraft designed around the world, assassinations of foreign leaders, espionage, etc., which have been covered up by the mainstream media, while the general population is insidiously infected through CIA-associated media and culture of the massive electronic screen that has denied the truth and relegated intellectual and literary culture to a tiny minority. Especially since 2001, movies and TV shows have glorified the CIA. Tell-tale books have been written about certain CIA programs, for example, Douglas Valentine's major Phoenix Program on CIA organized crime- www.bitchute.com/.../apnXu80Sjno

Here's the book: "Mrs. Beeton's book of household management : a guide to cookery in all branches: daily duties, menu making, mistress & servant, home doctor, hostess and guest, sick nursing, marketing, the nursery, trussing and carving, home lawyer" I have two physical book versions, one first edition and one from the early 20th Century, which is probably more in line with present day thinking with regards to holistic medicine. However, I do use Archive copies of really old herbals and other medical vade mecum, particularly for my poultry, I just use my own discretion as to their practical application.

As with Mrs Beeton, some of the medications suggested would not be to my 'taste' but I can use this as a jumping off point to further study. Here's a free copy of the 1906 version on line at the Internet Archive which you can download for free too and use for future reference: archive.org/.../2up Her recipes are also brilliant and well suited to basic organic ingredients. If you are not aware of it, the Internet Archive is a superb resource, I use it frequently for research and entertainment it also includes the 'Wayback Machine where you can look for old articles and literature that have vanished from the internet.

For those interested in an alternative theory to why we get sick the Internet Archive also contains this book, which everyone should read: archive.org/.../virus-mania and I found this an interesting jumping off point for the link between illness and poisoning: www.westonaprice.org/health-topics/anthrax-arsenic-and-old-lace/#gsc.t..

It used to be promoted some vaccines, boosters were needed as immunity from the original vac's were said to be fading. What most likely was fading was/is the natural Herd Immunity of an older population due to the numbers passing away. This situation may also point too as those before us passed away and new vac's were installed into the system, we become unexposed to other dis-ease's once outside of the original vacs' regimes and so were denied a broader spectrum of natural immunity. A natural immunity beefed up by exposure to things once not in the vac's money train of Big P-Harma.

As One Size Does Not Fit All and keep pushing evermore vac's on the public, we have become more susceptible to things once not even on the radar to be concerned about. Old vac's rest on the shoulders of Old Science not followed up by Newer Discovery's, and neither do the newer ones. As important as anything, not followed up for Long Term Effects on the oldest on through to the newest. The Jab's are a new beast altogether. None of this bodes well as the Vac's madness is being seen to be expanded into plants, animals, insects and whatever else can be dreamed up.

Yes, Just, si no dejamos funcionar a la inmunidad natural y utilizamos las armas biologicas ARNm estamos debilitando el sistema inmunologico , creando todo tipo de patologias, incluida una creciente ola de canceres. Hasta ANTHONY FAUCI ADMITS IN NEW PAPER THAT VACCINES DO NOT GENERATE IMMUNITY AGAINST COVID, FLU, AND OTHER RESPIRATORY DISEASES “Thank you Dr. Obvious, for quietly admitting in a paper that hardly anyone will see, stating something the so-called “conspiracy theorists” and “anti-vaxxers” have known for a VERY long time. But, as you should remember, there was not a day where these devils were telling us that the vaccination was the only thing that could save us and nothing else, and were the ticket to take off the mask, and get normal freedom and autonomy back.

Of course, that lasted only for a month until the media and health gurus told everyone to put the masks back on because the shots were not working because your “anti-vax” neighbor wants to kill everybody by being selfish, and not walking “Christ-like.””

winepressnews.com/2023/02/08/anthony-fauci-admits-in-new-paper-that-va.. (02/08/2023) In fact, a bombshell paper he co-authored last month suggests ALL vaccines for common respiratory viruses may face intractable hurdles.

And that's not even the worst news. I'm not exaggerating. Three scientists pointed out flu shots barely work and couldn't be approved based on the standards used for vaccines like measles: “After more than 60 years of experience with influenza vaccines, very little improvement in vaccine prevention of infection has been noted our best approved influenza vaccines would be inadequate for licensure for most other vaccine-preventable diseases.”

160 PLUS RESEARCH STUDIES AFFIRM NATURALLY ACQUIRED IMMUNITY TO COVID-19: DOCUMENTED, LINKED, AND QUOTED “Public health officials and the medical establishment with the help of the politicized media are misleading the public with assertions that the COVID-19 shots provide greater protection than natural immunity. CDC Director Rochelle Walensky, for example, was deceptive in her October 2020 published LANCET statement that “there is no evidence for lasting protective immunity to SARS-CoV-2 following natural infection” and that “the consequence of waning immunity would present a risk to vulnerable populations for the indefinite future.” Immunology and virology 101 have taught us over a century that natural immunity confers protection against a respiratory virus’s outer coat proteins, and not just one, e.g. the SARS-CoV-2 spike glycoprotein. There is even strong evidence for the persistence of antibodies. Even the CDC recognizes natural immunity for chicken-pox and measles, mumps, and rubella, but not for COVID-19.” brownstone.org/articles/research-studies-affirm-naturally-acquired-imm..

Posted On 04/18/2023

Great post Gui, it shows how birds like Fauci cover their *** by admitting things in places no one will see. Year following year we have been told the flu shot is not a good match but get your flu shot, it will protect you. If a mechanic says your brakes are only 10% effective but you should keep on trucking, who would be comfortable with that? Also on the traditional vaxxx front, a recent Legacy Article expressing there is an egg shortage, and it will affect vaccine manufacturing. Surprised? After how many chickens were culled for bird flu?

Were they actually culled to create conditions to push their mRNA Jabs? Between chemical potions to grow foods in shortage, Processed Food Factory's burning down, planes hitting them, similar problems with pork, cattle 'mysteriously dying,' Global supply lines disrupted, the Dollar disruption in the States and a push for Digital Currency, Grandma's Garden is a health hazard or even a terrorist act, and, and, and more. SSSShhh, don't repeat any of this as you will be labeled a conspiracy theorist.

Posted On 04/18/2023

what possible benefit to one's health can a toxic concoction of metals and who knows what else be when injected into one's body? God gave us an immune system for a reason and that reason was not for destruction by these purveyors of poison.

Yes Just, everything has a premeditated end. Everything is aimed at control and surveillance to boost injections, destroy wealth instead of building it and generating inequalities and economic and food crises. . It is a move towards total and utter tyranny. NEW INSTANT DIGITAL PAYMENTS SYSTEM ISN'T A CBDC, FEDS SAY – BUT CRITICS SAY IT'S STILL ABOUT CONTROL The Federal Reserve pushed back against claims that its FedNow system is equivalent to a CBDC, but critics say the aim is the same: government control over the financial system. The tweet included a video of Gabbard detailing her concerns about FedNow and CBDCs, in an interview with Tucker Carlson.

Former Congresswoman Tulsi Gabbard last week tweeted: Gabbard said: "It's about them being able to keep track of everything we purchase, whether it is a stick of gum or an automobile or anything in-between. And so if they have all of this information and data, which they will in this system, then where does that lead? "It gives them the power to decide, Okay, well hey, we don't want to allow you to purchase certain things, or we may deem it necessary to freeze your overall account' "[They say] This is for your own good, this is for your convenience, to make it easier for you to conduct transactions,' when in fact they are giving themselves all of the power, taking it away from us." "There is a huge push to continue to make sure to preserve cash, not just in the U.S.

but in Europe because an all-digital system gives, ultimately, the people who control the central banks and the banking system an ability to literally turn on and off your money if you don't do exactly what they say, and exactly what they say includes taxation without representation, healthcare mandates and literally taking away your kids."

MICRORNA DISRUPTED BY SYNTHETIC MRNA INJECTION. By PETER A. MCCULLOUGH, MD, Consequences of COVID-19 Vaccination Go Beyond Spike Protein Stati and colleagues published a review on how mRNA could disrupt the complicated RNA ecosystem in our bodies including microRNA (miRNA). These are small pieces of natural RNA that do not code for proteins, but rather they regulate gene expression and management of larger strands of RNA. They arrived at these conclusions: "The disruption of miRNA biogenesis machinery is responsible for several human pathologies . miRNA dysregulation is associated with the development of clinical complications during COVID-19 infection [40]. It has been demonstrated that the expression level of numerous miRNAs is altered after COVID-19 vaccination.....in the link petermcculloughmd.substack.com/p/microrna-disrupted-by-synthetic-mrna?.. DRUTHERS INTERVIEW DR TROZZI ON HOW PROGRESSIVE DETERIORATION IN MEDICAL EDUCATION PREPARED THE MEDICAL INDUSTRY TO BE USED AS A WEAPON AGAINST INNOCENT PEOPLE. Here is part 3 of the mini video series "Dr Trozzi talks" from Druthers. In these four minutes, I discuss the traditional recognition that the practice of medicine is both an art and a science. I share my insider observations and personal understanding of the progressive deterioration of medical education, which prepared the medical industry to be used as a weapon against innocent people. drtrozzi.org/2023/04/17/druthers-dr-trozzi-talks-part-3-art-science-of.. They also need to know who is unvaccinated so the elites can get pure unadulterated organ and blood "donations" in the future.

Posted On 04/18/2023

remitrom

When I donated plasma and blood for a friend going through health issues, they wanted to sign me up for communications to continue donating once they learned I was unvaccinated. Heck, one of the nurses came right out and said that was the reason. Some medical professionals are seeing the "light" but are still trying not to rock the boat.

Back in 2012 when at Emg room for dislocated shoulder I was asked by admitting guy who looked at me if I had had the flu shot. Recall saying I am good on that and not to worry, as I was not there for that purpose. In filling out the form for treatment and admission I wrote on it that I required to be asked for my approval before they did any type of treatment procedures on each one. The form came back and they had the wrong arm listed as being treated. They marked it out and wrote in the proper arm and I refused to sign until they redid. I read it all. They were not happy. I refused their drugs. Unless I had to move the arm in a certain way it did not hurt so I did not move my arm unless I had to.

They asked if in pain and said only if I move it in a certain way. They were surprised. I was not their typical patient. Also recently I looked at my digital records , and they incorrectly show that I have had flu shot regularly, when I have not. I texted or phoned to have them correct it yet they won't do it. I have false records. Also they sent me a colon kit and requested I come in to an apptment yet I did not order the kit. It is trashed already yet I told my Dr what for about that and not asking me first. Same thing is done for routine other tests I decline as I am healthy. I respond back only to show by my silence it would be agreeing with them.

I had cancer back in march 2022 and only had two months of chemo, that is 4 dates for hodgin lymphoma, then canceled the June chemo , and declined the gold treatment of more chemo, and Dr stopped me and referred me to the radiation Dr , who did the pet xray which showed I was clean of bad cells yet was badgered to take radiation for what she claimed to be invisible cancer cells yet I said no. They then got together and had me go back to the chemo Dr for followup tests. I am still clean. I got the next test for 1.5 years away. My chemo Dr does not believe I am in true remission as I declined th

What COULD go wrong? All the same players in all the same positions. ZERO accountability. In fact, many of these perps who intentionally implemented the great CON and crimes against humanity have received generous pay raises for doing so. Pay raises paid by YOU. Think about that! Not ONE of the individuals responsible for ANY of what has been "allowed" to happen has remotely been concerned of being actually held accountable. Not ONE!

I don't think "they" can fathom the level of push back they'll get if they try to force "vaccinate" the segment of the US population (like me!) who have said, "Hell NO" to not only this recent jab, but even a flu shot! Ain't happening!!!

Posted On 04/18/2023

imaginal110

The situation is almost surely very similar in Canada too, though we're sparser on alternative media reporting. We have less organized pushback, maybe a lot less. One thing we do have is Druthers newspaper, free and about 1/4 million copies/month. druthers.net. The name, which may be a Canadianism I don't know comes from the expression, "If I had my druthers ..." - as in I'd rather. Other countries, including the US, could do something similar. Amazingly effective at sowing seeds of change; it's printed at only .10c copy. A job opp for some enterprising individuals.

Canada has a great defender of the truth: Dr. Trozzi. WEF FASCISM EXPLAINED IN 1 MINUTE
Speaking on Fox News, Ned Ryan explains the WEF and their use of covid, climate change, and other deceptive campaigns to corral us into death and slavery. One may accurately label the WEF as “modern fascists” or “neo-feudalists”. Either way the agenda involves manipulating us through disinformation and fear, into living and dying as slaves, of these self appointed over-lords. In just one minute while conversing with Laura Ingraham, Ned Ryan of the American Majority, makes this very clear.

I fully endorse his statements from him; they are completely accurate.

drtrozzi.org/.../wef-fascism-explained-in-1-minute (04/11/2023) .-----In this video, Dr. Shoemaker provides a concise summary of Fauci's covid crimes, including his role in creating the SAR-COV2 virus and the far more deadly mRNA "vaccine." We also discuss Fauci's role in suppressing safe treatments for covid-19 and orchestrating the promotion and profit of deadly injections. This is a red alert for the police, the military, the US armed forces and anyone else who has a duty to defend the people.

Fauci illegally took US taxpayer dollars and sent them to produce a viral bioweapon. He set up a shelved company that he founded called Moderna (Modern RNA) to produce the far more lethal portion of the bioweapon: genetic injections of mRNA. Fauci was instrumental in blocking treatment for covid infections so it could be used to goad the American people into paying more taxes to poison themselves and his children while he made record profits for Moderna.
drtrozzi.org/2022/11/07/traitors-killers-fauci-justice-dr-shoemaker-tr.. (07/11/2022)

Like a Pit Bull junk yard dog, they'll never release the locked jaw death grip tightened on humanity. This wretched transhumanism experiment has granted them all the data they need to insure this type of de-pop will be a success. Forced mandated mRNA inoculums will be recalibrated and tweaked to perform instructional tasks via lab spike proteins, nano-lipids, and assorted adjuvant carriers from a calendar baseline. The exact same way the schoolchildren are targeted for 15 jabs from birth to 18. (CDC info)

Posted On 04/18/2023

Guillermou

Yes, transhumanism and planned genocide. As Dr. Mercola posted, drugmakers are testing new mRNA vaccines, despite evidence of 'serious danger.' Gene-based COVID-19 injections are a disaster in the making. We will have "vaccines" for all diseases including cancer and food production. Moderna may seek accelerated FDA approval for its personalized cancer vaccine, company president Stephen Hoge said Monday at the 43rd Annual Cowen Healthcare Conference in Boston. www.biospace.com/article/moderna-eyes-accelerated-approval-for-mrna-ca.. (03/07/2023) Now all of a sudden, despite the evidence of serious danger, various mRNA "vaccines" are in the works. Among them is a combination RNA COVID flu vaccine, which is currently being tested in ferrets, and several different mRNA seasonal flu vaccines, which have already entered human trials.

As The Verge reported on July 7: Moderna CEO Stephanie Bancel said the company hopes to create combination vaccines to protect against several different infections at the same time, such as influenza, COVID-19, and other respiratory infections: What we know is that conventional influenza vaccines have the potential to cause viral interference with COVID mRNA injections, which basically makes you more prone to severe COVID-19 if you have received a conventional influenza vaccine. . childrenshealthdefense.org/defender/drugmakers-new-mrna-flu-vaccines-e.. (07/20/2022)

I am an RN. The very worst thing that ever happened was government requiring electronic medical records. Once data goes in, it never goes out. So if you tell Dr you are concerned as a non- diabetic person that your husband used his glucose meter to check your blood sugar and it was high and the doctor then puts in your record a diagnosis related to diabetes BEFORE EVEN EXAMINING YOU OR GETTING LABS DONE- then that diagnosis is yours for life. OR you go to Gyn for yearly checkup and they take your blood pressure and listen to your lungs so they can get reimbursed more- - your normally low Blood pressure is high because you just drove through rush hour traffic, assistant used wrong cuff size and your feet weren't touching floor.

Later you find out Gyn documented HYPERTENSION based on one reading. For all intents and purposes you are now known to be someone with high blood pressure. (These are true stories) Doctors think this is nothing and insignificant and are extremely cavalier about it. HOWEVER- these mistakes of record now impact your ability to get health insurance, life insurance, disability insurance and maybe even a mortgage. Technically you can submit a correction' to be added to your record but a) no one tells you this b) I don't think it ever actually gets added c) no one reads it D) THE INSURANCE UNDERWRITERS DON'T CARE- they go by the diagnosis they find that rejects you or increases premiums

This is horrific of course. All you really need to question is why Canada and the EU and other countries leaders bought 10 doses for each inmate (citizen) while telling them that they could go back to normal after 2 doses. How can anyone accept that? they knew they needed a lot of these chemicals in the bloodstream of their flocks to achieve the end goal and lied to us about the drugs being safe and effective and fully studied. It is so obvious the plan was to load us up with WHAT? A look at Bill Gates and his patents reveals a lot. Proof of work on the blockchain. Electronically monitoring inmates/workers. Sub-cutaneous microdot tattoos. Tracking, papers please, control. 15 minute cities/concentration camps. Worker bees. I could go on. WHY DID THEY ORDER SO MANY DOSES OF A JAB THAT DOES NOT WORK? OBVIOUS.

I live in Ohio. In June of 2021, my wife and I vacationed in Cape Cod. As soon as we entered Massachusetts, I began to get notifications on my phone that I might be entering an area of high COVID infection rates. My wife was not getting these notifications. My wife is vaccinated; I am not. Coincidence?

Posted On 04/18/2023

billstri

My understanding is the current Covid vaccine is mainly to prevent spread of the long ago extinct alpha variant. The Omicron addition to the alpha prevention vaccine has never been tested and it is unknown if it prevents spread of Omicron. But Omicron is about as dangerous and serious as the common cold. If it did work, getting vaccinated with that vaccine is probably less important than getting vaccinated for each and every virus that exists, probably requiring hundreds of vaccines every month. It is all very foolish and costly. It is my understanding that every vaccine does at least a little permanent damage to the immune system in trade for potential protection against what the vaccine is supposed to prevent.

If that is true, many vaccines over a person's lifetime will take a major toll on the destruction of your immune system making you a high risk person for any virus you are not vaccinated against. What I really find disturbing is that it seems by age 5, kids have nowadays already had more vaccines than anyone over the age of 40. That tells me 10 year old kids nowadays might have an immune system that is as compromised as the average person 5 times their age just based on too many vaccines and the toxic chemicals used in those vaccines used to attack the immune system.

Right when COVID started, my family added Artemisin to the list of supplements to take for healthy living. It joined Mercola's Vitamin C, vitamin D3 with K2, Zinc with Quercitin for starters. Add some clean living and staying active and COVID was barely a blip on the radar when my son brought it home and gave it to all of us last summer. We just bumped up a few things and added homemade elderberry syrup (mil grows it) and our strong and hardy garlic and onion soup for a few days. We all have had worse colds than what we went through ... I think our doctors were almost disappointed that nothing "bad" happened to us so they couldn't bully us about the vaccine.

Yes, there is now a whole complex of digital IT corporations that control your personal data. They work hand in hand with the gigantic financial complex which, controlled by BlackRock, Vanguard and StateStreet, has assets worth between 25 and 30 trillion dollars. They have controlling interests in all means of production and all service industries in the Western world. Your data will be stored and, if they wish, used against you until death do you part from this digital tyranny, and probably beyond. Twitter, Instagram, TikTok, WhatsApp, Snapchat, LinkedIn and whatever they are called follow the same principle. Once you are with them, you are their property. It is the Great Reset, and the buildup to it, that steers the human mind towards one-way thinking or One World Order. Most of us will be useless eaters. This is important article. I have known the HIPPA was a joke for years. If you ever read the "exceptions" clauses you would be aware. Go to see about acid reflux and two days later you are getting ads in the mail for medication. I had a dentist tell me that if LE wants your records she just hands them over ;never asks for a warrant! Wonder if she even checks for a badge? The problem is doctors won't treat you unless you sign. I tried to present an alternative document years ago and was thrown out of office . This was not the first time! I figured when everybody did not rush to download the tracking app for Covid they would do something underhanded ; just wish I had read this sooner. Was recently in a specialists office and the nurse came in and asks if I have had my Covid shot. WHY? unfortunately my husband blurted out something derogatory and she went away in a huff. So now I am sure I have a tracking code.

Whatthey never bothered to find out from ME was the FACT that I have the elusive and rare MEDICAL EXEMPTION as my allergy list is too long to fit on their form. Here is another thing to concern yourself with; thses darn electronic records are filled out by low paid assistants who cannot spell and often get things wrong AND when I point them out never get corrected! For instance I was told for 65 years that I was allergic to penicillin; yet every doctor prescribced cepholasporins [derived from penicillins] with no problem. Finally found an allergist brave enough to test me and guess what? It was one of the few things I was NOT allergic to! Good luck getting them to change this on all my records though...

Your experience is a clear example that the HIPAA Privacy Rule and how the HIPAA Privacy Standards guarantee the rights of individuals has not been followed for years. Supermarket giant Albertsons, along with partner companies Safeway, Vons, Shaw's, Jewel-Osco, Acme and Tom Thumb, is launching a new "Sincerely Health" technology platform app for customers to keep a close eye on their grocery purchases and medicines. "Responses are evaluated along with the user's age, gender, lifestyle, and mental health," the report states. Users can then set goals like engaging in meditation five times a week, getting at least seven hours of sleep a night, and taking 10,000 steps a day.

The Sincerely Health platform also connects users with Albertsons' pharmacy division to manage prescriptions, schedule immunization appointments and make telehealth appointments through a partnership with Providence Express Care. Albertsons claims it doesn't sell any of this customer data to third parties, pointing to the Health Insurance Portability and Accountability Act (HIPAA), but is that still true in the post-Covid-19 era? "All it takes is a declaration of a 'public health emergency,' and virtually the entire US Constitution is suspended in the name of 'public health,'" Shilhavy notes of how HIPAA could already be a thing of the past.

. "Your private health decisions are then broadcast to the public to be used against you, like whether or not you choose to wear a face mask or show your proof of vaccination to enter their stores." healthimpactnews.com/2023/no-vaccine-no-food-grocery-industry-merging-..purchases-along-with-food/ (02/15/2023)

fundamentalassumptions

Your medical data & health information is as 'private' as your 'confession' to the original covert intel gathering apparatus in Rome that gets reported back & used as the 'masters' and nicolaitans see fit with neither truth nor Bible (nor the God of the Bible: rather serving the spirit of idolatrous humanist, & the fallen angelic hybrid crafted divinity godman antichrist garbage, 'wisdom' & Craft) having anything to do with any of it. The whole cloaking of selective, hypocritical, relativistic false privacy is to cover & indulge sin, whether it be pedophilia& porn, or the use of the young as easy to manipulate & organize 'activists', soldier/crusaders etc....with the juvenile laws used to cloak rising STD rates amongst the young & cover for crony gangs & gangsters.

Or the amassing of ill-gotten gain, those supposing that gain is godliness & heaping to themselves & all fool enough to follow them many sorrows. Or your own health data with HIPPA and such 'privacy' laws to cloak the steering & management to the best exploitation of your life & property (capital), & the timing of your death by those deceitful, lying, thieving, murderous self-declared & -justified, -exalted 'superiors' & their sold out crony 'managers'.

Whether they call themselves capitalists openly, or cloak it in their socialist Marxist sophistry & devilment. The book of Jeremiah well describes the end of nations who suffer such things, & Revelation the end of that system gone global as its going now. No wonder it says that the things aforesaid were written for our learning, & that we through PATIENCE & comfort of the scriptures might have hope. There sure isn't any in this dark, corruptible, deceptive world or in any of its systems of men & devils, Craft.

Thank you for constantly revealing the evil plans of the BEAST system. As we already know all these efforts have NOTHING to do with health, food or climate. It is the manifest nature of the being in Isaiah 14:15-7. "Yet thou shalt be brought down to hell, to the sides of the pit, They that see thee shall narrowly look upon thee, and consider thee, saying, Is this the man that made the earth to tremble, that did shake the kingdoms; That made the world as a wilderness, and destroyed the cities thereof; THAT OPENED NOT THE HOUSE OF HIS PRISONERS? yet Y Y

Doctors can only "track" your unvaccinated status if you go to doctors within the insurance medical industry. They are the ones who classify customers by codes. Different codes, different profit potential. Prescribed treatment by a doctor if counted accurately is the leading cause of death in America.

Your exactly right "mis-diagnosis"

Posted On 04/19/2023

avk1974

Note, they are already doing this at Drs office now. I went to the dermatologist and the question not on intake papers but asked by the nurse when you get to the room is basically describe why you are there, I think she said what is your birth date and quick as anything what is your COVID vaccination status (what? don't other v status matter?). I was so surprised I said I didn't prefer to answer. I can only imagine what they marked me down as. I think the answer should have been "I have seen my unvaccinated friends get profiled and subjected to discrimination and inequity over the last couple years and in solidarity to them, I am not participating in providing any statistics which may help unjustly profile them further.

They already have the database; your EHR. Obama's 2009, 2700 page American Recovery and Reinvestment Act had a provision in it to develop electronic health records called the HITECH Act. Initially they were discussing the development of electronic MEDICAL records but the name was changed to include social determinants of "health". The HITECH Act provided incentives for physicians and hospitals that accept Medicare and Medicaid to develop EHRs. There were very specific requirements including "real time" data, "whenever and wherever", "interoperable" across all systems and platforms as well as the ability of public health to monitor for emerging diseases and potential medical trial participants. HIPPA makes it possible for these "interested parties" to access EHRs. The first benchmark was in 2011 and the completion was, ironically, 2019. The only thing lacking was the individual patient identifier which congress funded in March of 2022

"New diagnostic codes that describe a patient as under-immunized against COVID-19 were introduced to help doctors identify patients potentially at risk for more-severe COVID and to help health officials track vaccine effectiveness and mortality statistics, among other public health questions, not for U.S. government tracking of unvaccinated individuals, as some are claiming online. In other words: they're tracking us. And this new ad making the rounds on the internet...The new blockbuster treatment that has even Sam Smith dropping pounds by the day.

"Screwitall" has entered the market to gasps of amazement by the experts at CDC, NIH et al for its unprecedented effectiveness in causing even the most stubborn fat to literally fall off your body. In addition Screwitall' can lower blood pressure to a staggering 20/10 mm Hg within hours. And if that were no enough Screwitall' has reduced blood sugar ranges in some cases to as low as 3 mg/ Dl. The news of this new treatment is spreading like wildfire, so order now before supplies run out. Go to : Decompositionmakesuthyn.com to order your 90 day supply before it's too late!

In the country of the blind, a one-eyed person is king! The idea being that the world is run by people keeping their crimes secret from the rest of humanity. The fictional book the Godfather used this technique to control people in various positions of authority. Who is to say it was not used in fact as well as fiction? The one-eyed person referred to was a mind reader. In the Bible, in the New Testament, it specifically says no one except Jesus is without sin. I can believe that. Well open your eyes people. All of these government people have sinned, are sinning, and will continue to do so in the near future.

And we are talking major sins. Like killing off people when it becomes convenient to do so. And not one of them is in jail for those sins. I was in an Emergency Room to get some tests done. 26 people in close proximate distance to one another with numerous illnesses for hours at a time. That is doctors generating patients! The pharmacy business is well aware of those sins. And they are also well aware of taking advantage of those sins for their own profit. Until those sins are exposed? Nothing will change.

Canadian gov't response - what?? - the big world doesn't really consult us unless they want money and we just obey without question. Bigger problems to solve - how to get our PM out of trouble for shady dealings. Unless those stories can be "curated" we may lose our liberal gov't. Anyway the US makes all decisions and sends us copies of instructions and we make 13 copies - send them to the provinces and no further though required.

Sadly I had to go to ER in February of this year. I was asked if I was "up to date" with immunizations. My response was "What does this have to do with the reason I'm here?" No one said anything, next thing I know they're shoving a stick up my nose without an explanation, the gal did it so fast I didn't know what was going on. Apparently it was a "covid" test. My records reflect my "no covid" jab. Can anyone tell me how to heal a hiatal hernia so to keep me from having surgery? The last place I want to go is a dr or hospital. Thank you.

Posted On 04/18/2023

mammywitch

This site advises to have surgery to repair a hernia because it is an opening through which another body part slides...but there are some good options on this site for helping with relief for the misery of a hiatal hernia...hope this helps you!

www.pristyncare.com/blog/natural-remedies-to-cure-hiatal-hernia-pc0135..

Posted On 04/18/2023

wendyb.

Thank you, Mammywitch, for the link to ways dealing with hiatal hernia. I noted in the first suggestion about the downward massage, it says to lie down flat. I've had a few start-up hiatal hernias and instinctively did the massage but, I did NOT lie flat. I sat half-way up with my back straight, propped and relaxed and it allowed the help from gravity with downward massage to take it down.

NanoGrafi Company (check them out on Google) developed an intranasal Covid vaccine and PCR Tests with nanoparticles which make graphene nanotubes. At 5G frequencies of 42.6 Hz per second, the 1.2mm nanotubes injected into the vaccines resonate and propagate a high energy signal at the average speed of human thought., the precise nanotube length of 1.2 nanometers of 1.210.9m Since the writer already knew the 5G microwave frequency in the 10 to 300Hz range, she noticed the curious coincidence of how it cancelled out those precise powers of 10 in the well known wave mechanics formula which presumably, anyone with an engineering background would understand (beyond me however) The average neuron sends signals at about 180 km/h When combined, these factors would increase the speed to 432 km/h Some humans think faster than others so there is a lot of variation.

So with the average thought speed of 180 km/h that is, 180,000 meters over 3,600 seconds: 50 meters per second. This wave speed of the human brain is achievable for ordinary nanotubes and frequencies radiated by 5G antennas this is not speculation but science and combined techniques and fits a precise physical formula which is incontestable. These graphene nanotubes are injected with the vaccines and act on the microwaves emitted by a 5G antenna at the same frequency that human beings think, so through these nano particles, 5G antennas can modify the thoughts of those vaccinated. Like Robots or Zombies, controlled by 5G Transmissions And if the above is true why was this deliberately done by your government and mine?

Richard Noakes , I am somewhat baffled why very few who seem to be aware something nefarious is going on with Covid' have shown little to no interest in the role Charles Lieber's arrest and his collaboration with the Wuhan Lab has played and also his study and patents with graphene oxide. Lieber holds numerous patents with nanotechnology involving graphene oxide and merging it with human cells. In one such patented experiment in 2012 Lieber and a host of what were likely CCP scientists combined human cells with graphene nanowires in vitro. Lieber was arrested in Jan of 2020 with suitcases stuffed with cash along with 2 Chinese Nationals who were likely CCP .

I think Lieber is probably a Marxist and because of this he wanted the CCP to gain the upper hand with the use of nanotech over western countries. Lieber has collaborated with the WIV for well over a decade and Fauci has been in the middle of this for about as long. I literally have hundreds of article links regarding Graphene Oxide and it's applications in technological/biological-(trans humanism) I found it very strange when 30.1 million masks were recalled in the Quebec Canada are as they were found to contain microscopic graphene oxide particles'.

ejbnews.com/masks-contain-deadly-graphene-oxide-nanoparticles-indicted.. so is/was the CCP who likely oversee the production of all medical products in China trying to get graphene oxide into peoples bodies by any means possible. Liebers arrest—

On March 10, 2010 the National Insititute of Health published a report titled, "Graphene and Nanowire Transistors for Cellular Interfaces and Electrical Recording." Lieber's team included Israeli Tzahi Cohen-Karni and Communist Chinese researchers Quan Qing, Qiang Li, Ying Fang The next year Harvard was licensing the graphene oxide nanoparticle's DNA sequencing the Lieber team studied in 2010. Like ghouls they wanted to listen to the reaction of a chicken embryo heart after it was injected with the DNA binding graphene oxide nanoparticle. Researchers listened to the electrical signals the single atom graphene oxide transmitted from the embryo's heart.

I'm researching 'official' vaccination numbers per country at the moment. Countries could only do this by keeping some degree of information on who in their population has taken and who hasn't taken them. So I this isn't breaking news. But it's ominous. Apparently, Macau, Brunei, the U.A.E. and Qatar are at over 99% "fully-vaccinated", which in this case must mean two jabs, not that ridiculous "at least three to be fully vaxxed now" b.s. That's the whole population, so that includes children... Remember that they're fearful. Despite all that propaganda, all the threats, all the pressure, you have anywhere near to a fifth up to a third of people in most developed countries having not taken a single shot, and that inverts to being majorities of populations in most less developed countries.

I strongly recommend anyone reading this to check out Otis' link. It allows us to officially be part of a control group of unvaxxed for research purposes. This is exactly what we need and could be very useful to us. You don't only have to tell people who badger or question you about your vaxx status that you refuse, or however you want to word it. You can tell them that you're taking part in a scientific study. Will throw many people off. Doctors: "research suggests..." You: "I'm helping with research"
