I was recently featured on Bulletproof Radio with Dave Asprey, a Silicon Valley

entrepreneur, founder and CEO of bulletproof.com. I've interviewed Dave about [fasting](#) and the role [ketones play in COVID-19](#), but this time we talked about my book, "The Truth About COVID-19," which was released April 29, 2021.

Amazon preordered 100,000 copies of the book, which signals just how popular this information is. Unfortunately, because the book has been so popular and due to printing delays, hard cover versions will not be available until the end of May. However, the Kindle version is now available.

It doesn't take much digging to realize that most of what you see on mainstream media and social media — including Google, Twitter, Facebook and YouTube — is being cleverly manipulated with sophisticated propaganda derived from decades of data stolen from you and the rest of the population by Google.

If you rely only on these mainstream media, you will only hear the official propaganda narrative about the pandemic, because everything else has been censored — everything, 100%. In our interview, you can hear a few of the best tips to not only stay healthy, but to learn the truth about what appears to be a very dark agenda. One of the biggest motivating catalysts behind this engineered pandemic is this transfer of wealth from most everyone to a global tyranny.

In the long term, the goal is to convert us into digital assets that can be controlled and manipulated. It appears their intent is to put us in a virtual world that essentially makes us digital assets that can be traded. Decentralized options are the solution, which is why we need to develop decentralized censorship-resistant internet and social media platforms.

My Favorite Browser for Privacy and Free Speech

One of the first steps to bowing out of the censorship is to seek out a browser that

will give you uncensored content and privacy online. I am convinced that the most secure browser out there is Brave; you can download the extension Swisscows for a default search engine. For encrypted email, sign up with [ProtonMail](#), which is based in Switzerland, and ditch your Gmail address, which is allowing Google to copy and store every character you write.

Between this and your Google web searches, Big Tech knows nearly everything about you. Your privacy is continuously violated, and if that isn't bad enough, they're using this collected information to understand and accurately predict your behavior and the behavior of society, so they not only predict it, but manipulate and control it.

Free-speech alternatives to Facebook and Twitter include Gab, MeWe, Minds and Parler. Uncensored alternatives to YouTube include Bitchute, Rumble, Brighteon, BrandNewTube, Banned.video and Thinkspot.

The Roots of an Engineered Pandemic

We first reported on the idea that [SARS-CoV-2 is a lab-engineered virus](#) in my interview with Francis Boyle over a year ago, which received well over 1 million views. Of course, our coverage was disparaged as fake news and removed from YouTube, but since then even more supportive evidence has emerged.

The National Institutes of Health (NIH) and the National Institute of Allergy and Infectious Diseases (NIAID), led by Dr. Anthony Fauci, have funded gain-of-function research on coronaviruses. Several such grants were given to EcoHealth Alliance, which in turn subcontracted some of that research to the Wuhan Institute of Virology (WIV) in China.

EcoHealth Alliance is led by Peter Daszak, who is on WHO's investigative team that recently [dismissed the lab-accident theory](#). Among the more compelling

“coincidences” that hint at lab-origin are the facts that the WIV has admitted storing and working with bat coronaviruses collected significant distances away from the lab, and that it’s the only biosafety lab in China that studies human coronaviruses.

These viruses include RaTG13,¹ the closest known ancestor to SARS-CoV-2, obtained from miners who fell ill with severe respiratory illness after working in a Mojiang mine in 2012. We're not suggesting in the book that this was an engineered virus that was intentionally released on the population. It could have been, but there's no proof of this that I'm aware of. However, it appears to have been, at a minimum, accidentally released.

The World Health Organization Connection

The World Health Organization is another important player to be aware of, an agency that’s being engineered by Bill Gates, who became the **WHO’s biggest funder** when then-President Trump removed U.S. support in 2020. The entire **response to the global pandemic** was facilitated by the WHO. Their recommendations were followed lock-step by virtually every government on Earth.

According to long-term WHO insider Astrid Stuckelberger, Ph.D., Bill Gates’ vaccine alliance, GAVI, is directing the WHO, which has essentially turned global health security into a dictatorship, where the director general has assumed sole power to make decisions by which member states must abide.

In 2017, Gates asked to be part of the WHO’s executive board — like a member state — because of his funding. While the “**one-man nation-state of Gates**” was not officially voted in, it appears he may have been granted unofficial power of influence.

WHO’s solution to the pandemic is vaccination, and they actively worked to discredit other solutions, including natural therapies like vitamins C and D, and drugs like

hydroxychloroquine. The [fake hydroxychloroquine study in The Lancet](#), which was ultimately retracted after being exposed, is a perfect example.

This study, which was found to be completely fraudulent, was reported as fact, worldwide, by virtually all mainstream media and continues to serve as the basis for the WHO's discrediting of hydroxychloroquine.

The Vaccine Is Experimental Gene Therapy

You cannot have a "vaccine" that does not meet the definition of a vaccine. Up until recently, Merriam-Webster defined a vaccine as "a preparation of killed microorganisms, living attenuated organisms, or living fully virulent organisms that is administered to produce or artificially increase immunity to a particular disease."²

COVID-19 vaccines are not conventional vaccines made with live or attenuated viruses. They're actually gene therapies. The Pfizer and Moderna vaccines are made with lipid nanoparticles that contain polyethylene glycol (PEG)³ and messenger RNA (mRNA). mRNA are snippets of genetic code that carries instructions for cells to produce proteins.

The definition of genetic is "relating to genes" and genes contain instructional code that tell the body what proteins to make. Therapy is the medical treatment of disease, so mRNA vaccines are very clearly gene therapy. In fact, in Moderna's 2018 SEC filing, Moderna states: "Currently, mRNA is considered a gene therapy product by the FDA."⁴

Another problem is related to how long the mRNA remains stable in your system, as it's encased in a nanolipid to prevent it from degrading too rapidly.

The idea behind mRNA vaccines is that by tricking your body into creating the SARS-CoV-2 spike protein, your immune system will produce antibodies in response. But

what happens when you turn your body into a viral protein factory, thus keeping antibody production activated on a continual basis with no ability to shut down?

Decentralized Web, Crypto Assets Are Part of the Solution

As Dave says in the podcast, if this is all starting to sound pretty dark, let's look on the bright side. There are many potential solutions, along with an increasing number of people aware of the need for them. A decentralized, blockchain-based web can provide part of the answer, and I am currently working with some of the brightest minds in the tech space who are committed to preserving your personal freedoms and liberties.

The technology⁵ focuses on maintaining data sovereignty, giving you control over your data and privacy, and undoing the current system of surveillance capitalism where Big Tech profits off your personal data and uses it against you at the same time. In this Web 2.0, tech monopolies also will no longer have the ability to censor.

Moving away from the traditional banking system is also important, as they're going to force a central bank digital currency, which is essentially a smart contract that could limit your personal freedom in nefarious ways. Decentralized cryptocurrencies like bitcoin can get you out of the financial system and provide an alternative source to store your wealth while offering a solution to the impending tyranny and seizure of your finances.

In the meantime, safeguarding your Constitutional rights and civil liberties against unlawful government overreach is essential. Once those freedoms are relinquished, they will be difficult, if not impossible, to get back, so we must refuse to comply with tyrannical proposals such as vaccine passports, while we still can.

It is really important to recall that our founding fathers of the United States warned us

that the price of liberty is eternal vigilance and if you are asleep at the wheel – as many are – that is precisely what will happen.

Covid 2020– a blatant massive extortion racket for big pharma and their criminal doctor and public health friends that is raining misery on hundreds of millions of people worldwide, uncritically accepted by the privileged, nominally educated people who are participating in and actively promoting mass medical experimentation and child abuse. “Honey, come look! I have found alarming evidence that all the so-called ‘top scientists’ advising our murderous government are working for the private interests of a self-proclaimed depopulationist and eugenicist multi-billionaire. ”A real pandemic wouldn’t require a 24/7 marketing campaign.

"Public health" in the U.S. is a political program of crushing dissenting voices that stand in the way of Pharma profits. It has nothing to do with the actual health of the public. Stop believing in a government that has never shown concern for you before and that now wants to “treat” you with a medical system that’s the third leading cause of death. But hey, we are to believe it took viruses 4 billion years, co-evolving with cells, plants, and animals to finally find a mutation that forces an advanced species to always wear masks, permanently socially isolate, and be vaccinated twice a year? I believe that people with immense wealth and power conspire. If you still cannot fathom that people with immense wealth and power conspire, then that doesn’t make me a “conspiracy theorist” – it makes you a coincidence theorist. And an idiot.

"A real pandemic wouldn't require a 24/7 marketing campaign"...and there it is! If people were actually getting sick and "dying in the streets" - I'm pretty sure that I would notice! In other words; there's no real EVIDENCE of a pandemic; so, we need to be constantly told that we are living in a pandemic - or, we just may forget that we're being "ravaged by a killer virus"!

We cannot let mainstream media dictate the words "conspiracy theorist or quacks" - we cannot let them define us. Lets turn the tables & enlighten others using the word Humanist to counteract the dark forces. The word "Conspiracy" has been so highjacked as THE deflective word to all rational thought that we have to change the conversation. Push back against the opposition needs to underline the basic idea that we stand FOR the rights of human beings in their natural state. The Sun, Food, Air, & Water are no longer in a natural state---i.e. Chemtrails, GMO, Pollution & Fluoride. The last frontier is to tinker with & corrupt the genetic composition of the Human Being. We have endured all the corruption to the natural world, but now they want us and our children, quite literally. Therefore, our anthem should represent Human freedom.

A quote from a book I read in the 80s (and still have) called "None Dare Call it Conspiracy":

Everyone knows that Adolph Hitler existed. No one disputes that. The terror and destruction that this madman inflicted upon the world is universally recognized. Hitler came from a poor family which had absolutely no social position. He was a high school drop-out and nobody ever accused him of being cultured. Yet this man tried to conquer the world. We know that. We also know that a man named Vladimir Lenin also existed. Like Hitler, Lenin did not come from a family of social big shots. He spent most of his adult life in poverty and was responsible for the deaths of tens of millions and the enslavement of nearly a billion more. Like Hitler, Lenin schemed how he could conquer the world. We know that too. Is it not theoretically possible that a billionaire could be sitting not in a garret, but in a penthouse in Manhattan, London or Paris and dream the same dream as Hitler and Lenin? And such a man might form an alliance or association with other like-minded men, might he not? These men would be highly educated, command immense social prestige, and be able to pool astonishing amounts of money to carry out their dreams. These are advantages that Hitler and Lenin did not have.

It is difficult for the average individual to fathom such perverted lust for power. Since he has no lust for power, it is difficult for him to imagine that there are others who have. We know that there have been Hitlers and Lenins and Stalins and Caesars throughout history. Why would we assume that there are no such men today with perverted lusts for power? And if these men happen to be billionaires, is it not possible that they would use men like Hitler and Lenin (and OBAMA and BIDEN) as pawns in the game to seize power for themselves?

A conspiracy is a crime which is **PROVABLE** in court. Just because the facts are hidden or not easily discovered, doesn't mean that one can't convict a person of it. This may be not be

informative to this audience, but the CIA invented the new meaning of the term "conspiracy theorist" to defame and neutralize the credibility of those who tried to counter the "official line" (i.e. the Warren Commission). The police haven't yet expressed support for any of the strange "coincidences" (Which I won't mention here for obvious reasons.) which point to TPTB harassing me. They suggest some kind of counseling.

Whoever came up with the idea of mental illness was very evil. One can see in some older TV episodes (early 1960s) how anyone who acted strangely was "committed," or believed that someone would "commit" them. Granted it was fiction, but the idea was either purposely being used as propaganda (i.e. That people on TV were mentally ill so it might happen in real life - even though, of course, TV is typically fiction.) or abnormal/unconventional people back then actually were "arrested" by the police because they were "dangerous" as a means of being "helped" with their "mental illness."

Hello, RJedi. At the beginning of the video that you have listed on rumble, Gates is filmed rocking in his chair in different seating arrangements. I've seen him do this currently as well. It is a symptom of mental illness, but I detest thinking he could employ it as an excuse to disallow bringing him to justice, which is something that needs to be done to protect us worldwide. He should not get away with the horrifying damage he has done thus far. He and his wife and the foundation must be closed down from inflicting further damage.

All people who do not take care of their bodies are mentally unwell. Of all people, Bill Gates can afford to eat better to improve his body. Moreover, he is from a privileged background and despite of that looked unhealthful, deformed and unattractive even as a young man. All his family look unhealthful, what a waste.

The "rocking repetitive motion" exhibited by Gates may be nothing more than extreme RESENTMENT that the US D.O.J. had the nerve to interrogate him, on ANYTHING. At the time, Gates was a cutthroat biz-man, after all. The commenters here labeling the behavior as "mental illness" or "Asperger's" are making an assumption.

Thank you for posting this link. I had seen this video once before, and was struck by the thought that this man seemed quite mentally disturbed in his younger years. Not just the rocking, which could be just a subconscious behavior of comforting oneself, but the seeming inability to process the questions he was being asked.

Update to moebears: Agree on your comment about appearing to be a stall/avoidance tactic. I thought of that, too, the second time I watched it, but his overall affect is so strange to begin with. Possibly a combo of psych disturbance, stall/avoidance, deceit, and CYA.

I don't understand how we can be discussing both "gain of function research" and then "no virus exists." From what I've read, there was extensive gain of function research in Wuhan including getting human ACE-2 receptor genes into mice to experiment with. So just because we may not be able to detect the virus accurately doesn't mean it isn't there. People are getting wiped by something - look at India now. OK - UPDATE - I watched the suggested video and it is showing a picture of a woman lying on the sidewalk stating she's a covid victim, but the picture is actually from a gas leak 11 months earlier. So the media is lying.

Posted On 05/01/2021

JenniferG58

India now? India's main crisis is hunger, due to the covid restrictions. "Case" numbers are up due to a strange ramp up in testing of asymptomatic people. They were doing fine re covid until the vax rollout. The media have been using video footage from last year's gas leak accident for the propaganda. Doctors in Delhi describe an ongoing oxygen shortage that govt has not resolved - not due to an abundance of 'cases'. Daily deaths in India average 2,700. Using numbers out of context is meaningless. The current 'surge' due to the 'vaccines' relates to about 0.002% of the 1.4 billion population.

If you read enough articles, and watch Dr. Mercola's video interviews of Nobel Prize winning Scientists, you see that there is a dichotomy of ideas, going on. That is part of the ruse, and the cover for the rollout of 5G. There definitely is GOF research, and an actual virus hasn't been isolated. It only appears on a computer model. Yet, is it possible that there is a synthetic virus out there? This I have wondered , too. The PCR testing at too many cycles, the changes in definitions of Pandemics and Herd Immunity, all lead to fraudulent science. So this makes it easy to 'mask' what the agenda is, As far as I can tell. People fear the unknown. Don't give up your freedom for it, though.

I am beyond thrilled that the 2 books I ordered (one for me, one for my Son) arrived yesterday safe & sound .Thanks to everyone on this site for helping to keep, & put the truth out there. Here in Scotland today, we have a march in Edinburgh, about this joke plandemic ! Not everyone is blind, & that's so good to know Although there was a very peaceful march last Saturday in London, & the BBC never even mentioned it. Despite the fact there was around half a million there. no upset at all, until the police turned up ! We watched all the evidence on Uk column news ...a BRILLIANT programme ! Catch it if you can. Love to all like minded people out there. Remember, we are strong, because truth is on our side x

I challenge Dr. Mercola and his guests to get hold of the COVID shots, surgical masks and the PCR cotton test swabs for COVID and send them to a reputable laboratory for detailed analyses. Why hasn't anyone done a detailed analysis on the shots and masks showing the strange black filaments? Instead all we get is basement Joe with a light microscope. Every one of his guest speakers can pool their money together to cover the costs. There are a few states headed by GOP governors who have the resources to conduct the analyses. I am sick and tired of average people discovering items in swabs and masks, and then putting it on the Internet when all these doctors warning us have the resources to do the same but through trustworthy laboratories. Enough of this game wherein we are told by these doctors this, that and the other when it is ALL SPECULATION NOT BASED ON SCIENTIFIC EVIDENCE! Show us the evidence through reliable laboratory findings. We look to these doctors for SCIENTIFIC EVIDENCE and all we get is opinions. Enough. Show us the proof. Please listen to this and wake up! Lakhana13 - I sincerely appreciate your valued insights, knowledge, experience, intestinal fortitude & commitment to truth & freedom. I also understand that you communicate with Dr. Judy Mikovits & are in her camp, so to speak, for which, goes for many of us. However, the only issue that concerns me with Dr. Mikovits is with regard to her belief/understanding as to what "isolation" is. You appear to, as does Dr. Mikovits, be at odds with Dr. Kaufman & Dr. Cowan over this issue. Due to your influence on this forum & in your community, I wanted to approach you with this issue due to its critical significance & importance. In weighing both positions & with the understanding

through reviewing numerous scientific white papers & published scientific information, as well as, opinions from other doctors & of what the definition of "isolation" means from both a common dictionary & as per the medical definition prior to that being altered in 1954 by the WHO & greater scientific community, under the influence of the Rockefellers, Dr. Kaufman & Dr. Cowan's explanation resonates as logical, absolute & being correct. Please review the following video & see if the follow-up explanation by Dr. Kaufman & Dr. Cowan makes sense & resonates with you.

odysee.com/@DrAndrewKaufman:f/Judy--Tom-C-1-28-21-edited-compressed1:6

Furthermore, does it make sense to anyone that, as of the morning of May 1, 2021, the main scientific GISAID genome database has 1,334,992 SARS-CoV-2 complete genome sequences, but, yet, not one isolated & purified sample of SARS-CoV-2? <https://gisaid.org> . Of these "in silico" generated genome sequences, there is about 5,600 (& growing) patented SARS-CoV-2 genome sequences. It should be glaringly obvious the deception, fraud & criminality that is occurring.

Lakhana: I think the reason they don't is that this site or anyone who does what you propose would be de-platformed. They have to walk a fine line in getting the truth to us, but not crossing it so much that they get completely censored. They can make more of a difference & support a resistance by maintaining a media presence. Remember the FDA & other powers that be are watching their every move waiting for the excuse to silence their voice.

Xactly, DARPA hydrogel nano assembly antennas, silicone based nano morgellons prob parasites, radioactive material powered nano chip sets, everything they wanted us to inhale from the chemtrails, they discovered would be better applied, more cost effectively, under the false pretense of a medical emergency, caused by the use of weaponized EMF 5G directed energy devices. They want a 24-7 data collecting, transmitting, tracking and targeting nano chip set in every human brain, for full enslavement and push button genocide of the masses at the whim of the psychopaths with one button.

One f u c k up, one bad solar storm, could accidentally wipe out all of the nano-infested slaves, causing a mass human extinction event. Ivermectin destroys the nano weapons, as well as colloidal silver, stock up on both, they're going to be more valuable to preserving your Independence than gold, and more practical than firearms, because your firearms are useless if you're imbedded with DARPA tracking tech, they'll use orbital 5G satellites (Amazon and Tesla) to target you remotely and kill you with weaponized 5G, they won't need the military or the police to kill you, unless... you're free of nanoweapons, don't carry a smart phone(spy sitter), and are employing attenuation armor to block and dissipate 5G and other radio frequency weapon systems. Ivermectin, safe for Guinea pigs, in a world where we're all being used as Guinea pigs!

@Lakhana and everyone else: I listened to the radio podcasts you linked and found them very informative enough to share my own experience. Lately I've been surrounded by the vaccinated boasting about how they are now safe because of their recent jab. Some have literally grabbed me, gotten close to my face and asked-in a concerning way of course, why I haven't gotten mine?! Guess what? I'm now convinced I have it! A few days ago I started having a sore throat, feeling tired and today noticed I can't smell or taste anything. The only people I've been in close proximity with have been vaccinated or had a recent recovery and still have antibodies. One person I remember being at work the same day after her second jab was complaining about feeling sick, yet didn't hesitate to be on top of anyone in her way.

Even more Interesting is at the beginning of the year, many at work came down with Covid (some didn't even realize they had it) yet I didn't catch it despite being in very close proximity and even hugging one. I asked about shedding a long time ago on this thread but got no response. I probably won't get one now either but thought I should post my experience since I'm a real person and actually bought the book by Dr. M. I'm torn about getting tested but plan on quarantining until safe.

The monopoly of data extraction by Google, Apple, Facebook, Amazon and Microsoft has continued too long as a phenomenon unregulated both by governments, market forces and healthy competition from other media platforms. Even the idea of keeping data as the property of the common good would be preferable but the bottom line is that my preferences and personal information have not been handed over voluntarily to big tech who harvest, store and utilise it without my consent. But while almost every large or small business requires membership of at least a closed Facebook group presence, it seems nearly impossible to interact with businesses without social media membership. This applies in particular to natural health websites which often include opportunities for training, discussion of topics or products of interest.

Increasingly there is a feeling that these are not the product - the product is me or my personal data when I sign up. If the internet continues to act as our virtual High Street, alternative platforms are urgently needed along with official regulation in the form of legislation and penalties for infringement. We have the Trades Description Act, Health and Safety and numerous other restrictions to protect shoppers. The Wild West of the internet was not foreseen by its inventor and it's time the cowboys brandishing their weapons were reigned in.

After last Baiden's speech I started to look at all this globally and I don't know why but all this resembles 1938 Germany, when Hitler came to power. The only thing is Baiden is a puppet on the strings.... This is very alarming bc this time war will be very different - now one does not need to go anywhere to conquer, it is possible to destroy from within and that is what Hitler admitted in his last speech

Posted On 05/01/2021

tan2582, Hitler's constant stomach aches finally kept him from implementing his wet dream. Clearly something much bigger than we can imagine is going on right now. America is almost equally divided- isn't that the classic prescription for the start of a double-blind clinical trial? The

relatively sudden level of insanity and irrationality on the Left, compared to the "carrying on as usual" American on the Right suggests some type of experiment being enacted on us. Could it be classic BRAIN ENTRAINMENT? After all, the military had Project Star Gate using this method to change perception. We have to accept that what's going on may be something outside the realm of our understanding. Even crazy ideas like interference by extraterrestrials, I know, I know, it sounds insane. But consider that the Pentagon has been dragging its feet about the UFO report due out by June. Whistleblowers inside the Pentagon have reported that the delay on issuing the report is due to the constant redaction of it. The top Brass are privileged crazies who each has his/her own agenda so what's in that report is the subject of much struggle. When we get to the level of public and private schools issuing letters to parents telling them that the use of the words "mom/mother" and "dad/father" will not be allowed, but rather "folks" will be enforced in the classroom, we are beyond our very limited word of "insanity". Something really big is going on. Maybe someday we will find out what it is.

tan2582 - Such a wise statement. Because of the current state of affairs, I pulled out "Brave New World" for about the 5th time. Once again, I couldn't slog through it. Man does that book drag at the beginning! I can't get 20 pages and just have to quit. I'm not exactly a short attention span person, math degree with honors, love the great Greek philosophers and others like Kant. How do you get through that book? My wife has exactly the same take on it.

But Huxley is right, of course. This is nothing new. People have always followed corrupt and evil leaders, to their tremendous detriment and of their own volition. It's just who they are. This last 250 years has been a highly unlikely happy accident in human history that was always doomed to end right back in the cesspool, as always. There are plenty of quotes from the founders to illustrate how pessimistic they were of their gift lasting. God I hope I'm wrong and we pull out of this!

In India the people have figured out the spike in deaths is from the vaccinations and they are attacking the vaccine and lockdown pushers:

If you do the maths, the deaths in India are not high anyway. They have 1.4 billion people. That means that 250,000,deaths is 0.0017806% of the population. That is less than most Countries. They say (a lie of course) , that we have had over 100,000 deaths in the UK. We only have, 67 million people., a much higher percentage. When we were in India in 1999 the billionth person was born there, so in just over 20 years nearly another half billion there. Over population is the main problem worldwide. Of course we have no idea what has actually happened in China, whatever they say is a lie, but I am sure they will be pleased with population reduction. Jennifer

Markuzick - if that is the case the vaccines in India would be much different than what's going on elsewhere. Here in the U.S. we are much further along vaccinating than India is. There are a lot more ill effects and deaths than we are able to know about, but still people aren't dying like they APPEAR to be in India. Does anyone know what is different about the India vaccines that could cause death so quickly?

Great interview, but when it gets to the point where he's playing devil's advocate and saying if you didn't have a choice, which vaccine would you take? First off, none of them can actually be called 'vaccines' so it's a mute point, unless you're a hostage at a long term care facility or a vaccine injury special needs person without the legal right to advocate for your own health, then the 'not a vaccine' Kinder Action bioweapons are being forced on them, without legal mandate, and in complete violation of local, domestic, national and international laws. There is always a choice, or the action is a criminal war crime by definition regarding medical experimentation, period, end of. He shouldn't have bothered asking that question, 'no, to medical experimentation' is your right, the other path, IS A WAR CRIME, by unanimous agreement, globally! So, we see war crimes being committed on the vulnerable right now, this is your government, ON ZIONISM!

What I did like, was the warning to compromised political classes and their puppet masters, that their careers are over, and possibly their lives, and THAT, is a reasonable suggestion to make, because this is not some village in Africa where Bill can practice 'nazi medicine' behind the forest of the internet memory hole, this is a global attack on humanity using weaponized DARPA nano-parasites in the tests, masks and vaccines, under fraudulent pretenses using weaponized 5G to cause the illnesses worldwide, thus the conspiracy to commit biogenic enslavement and genocide is so blatantly obvious, the perpetrators will be hunted to the ends of the Earth until they are strung up and justice is exacted! This will end in nooses, not mooses! Or in a nuclear winter, should the criminals lose control and put their fingers on the last option for remaining in power, by nuking the survivors of this nano-weapons genocide/enslavement drive.

In trying to understand this vaccine/gene therapy issue my question is how does this gene code in the shot tell the RNA to express covid19 protein spikes? If they have isolated the virus then why didn't they make a traditional vaccine? Also are there different types of antibodies and if so which ones are these shots producing? Unfortunately, under the EAU pandemic, FDA authorized it for emergency use. My question is why would they do that if they knew how dangerous it was before? If you ever listen to David Icke (who I used to think was a crackpot) he is saying that the Mrna shot contains nano-bots that can now be controlled with 5G. OMG - I so hope he is wrong about this! Mercola recommends the Brave browser. I am using the Linux Mint operating system, and Brave does not seem to have a version for Linux. Instead I have installed the Vivaldi browser. Is that a good choice, or are there better options? After trying the fast and simple Linux, I do not want to downgrade to Microsoft Windows.

i am using Brave on IOS and it works great I also invested in Brave's BAT crypto currency. I also have been using Duck Duck Go as a search engine for many years but i hav heard that they use chrome and if that is true I will no longer use it. I do not use google ever. I discovered Protonmail several months ago and love it as it has end to end encryption and they also have an excellent VPN although I use NORD as they had better prices - it too works well and is loaded on all of my devices. Another great project in the works is QORTAL - a block chain alternative to the centralized internet dominated by google, fascist book and twitter. So ironic that when google first started their mantra was "don't be evil" my how things change.

I'm using various versions of Linux, with Firefox. It's easy to install add-ons such as Duck Duck Go and Adblocker. I'm still using microshaft mail; but, I use Thunderbird as the client. I have to assume that most people don't even know about Linux. Let's see...Linux OS is FREE; all, or at least most of the software is FREE - including all the disk utilities one would need (including backup); most distributions are stable; it's much faster than windoze, requiring fewer resources and Linux is infinitely less invasive than windoze. IMHO, that makes the decision process very easy! I'm using Mint 20 (Ulyana) as my main OS; and it's one of the best.

I like a lot of what's in this article, but I'm very troubled by the endorsement of bitcoin and block chain as elements of decentralization and freedom. Anything that's that high-tech is going to be at the mercy

of the industrial system if nothing else. It's totally dependent on the electric power grid and bitcoin, as a cryptocurrency is a huge user of power resources. I don't understand how those things work, but anything that exists only in the cyberworld is at the mercy of those who control the cyberworld, even if the specific applications are independently controlled.

"The National Institutes of Health (NIH) and the National Institute of Allergy and Infectious Diseases (NIAID), led by Dr. Anthony Fauci, have funded gain-of-function research on coronaviruses. Several such grants were given to EcoHealth Alliance, which in turn subcontracted some of that research to the Wuhan Institute of Virology (WIV) in China". Above you see a quote from this article- in other words the

USA funded gain of function research in Wuhan, but no one will directly make this accusation. Dr. Mercola is to be lauded for exposing this.

shannonaz, those who do not believe in conspiracies are ignorant, simply stupid, or are ignoring the truths before them, which may put them in the latter category. It would amaze me that people do not know of well documented, including the public record, government and private conspiracies. For example: * The Cook Circuit Court, of Chicago fame, was declared a RICO enterprise and many of the judges went to prison for their conspiracies. * The U.S. government conspired to have its military personnel watch nuclear explosions, to determine the effect it would have on them. * The U.S. Navy Department, well aware of the dangers of asbestos for years earlier, would have shipyard workers work in areas where asbestos was being removed and without any protection beyond a 8" pipe sucking air out of the room (to refresh the air, including from other areas where asbestos was being tampered with). * Government knew about STD experiments on citizens and did nothing, until pressured. *

Government puts out commercials claiming the magic jabs from four different companies will stop the virus, which has left a bazillion dead in the streets (or not), even as the manufacturers admit they will not stop the recipient of them from getting or giving the viruses. Our local, state and federal court case files contain thousands upon thousands of examples of agents of the people abusing their authority to steal, murder, extort and so on. IN THE END, it is for good reason we have FIFTY-ONE constitutions to bind down our agents (government is incapable of either good or ill, only the agents we allow in government make possible doing anything in the name of government).

Brave is good, but many sites, especially retailers, are lazy/arrogant and stick on loads of extra site

services, so sites can fail to work properly with Brave, even with "Shields Down", so I suggest also using a separate secured Firefox based browser for only these troublesome sites e.g. I'm using "Basilisk" here to cope with use of the _nasty_ Google Catcha service for comments login on this site!

I think that this crisis is a symptom of a sick society, which no longer adequately regulates oligarchs' abilities to abuse lower level classes, so developed unchecked addictions to money, power and even evil vices, thus like some desperate drug addicts they crave and seek ever more stimulus, so have escalated their abuse to blatantly evil censorship and 'medical' terrorism/genocide. Most business have been drawn into this too because of corruption of big business management by excessive pay/benefits, long term Fabian poisoning of education and culture caused the emergence and rise of SJWs (useful idiots) and NPCs (tolerant/compliant idiots) among their employees and customers, then 'medical' hysteria.

The mRNA is sent in to make fragments of the spike protein just like the one on the virus. The spike protein is recognized by our immune system as an invader to be destroyed. The immune system also remembers the signature of the spike protein so as to respond quickly in the event of future exposure. The mRNA is fragile and doesn't last long in the body. Watch Sucharit Bhakdi a microbiologist who lives in German who explains really well the potential long term autoimmune dangers from these 'shots', and the more immediate blood clotting dangers. He is devastated, heartbroken, outraged that humanity is being harmed like this, especially children.

Dr Mercola, Dr Simone Gold, Dr Sheri Tenpenny, Dr Carrie Madej, Dr Rashid Buttar, etc, have all provided valuable information regarding the Jabs. The discussion is over for those who have committed to their

and the principals informed consent and God given Rights. Imo , there's nothing to discuss. We have the information that the jabs are a lab-rat experiment and humans are the rats.. In 1981, I stood at the base of the Georgia GuideStones wondering what the inscription was all about? It took almost 40 years and the message is as plain as day, hidden in Plain Sight. .We are here,

1. Maintain humanity under 500,000,000 in perpetual balance with nature.
2. Guide reproduction wisely – improving fitness and diversity.
3. Unite humanity with a living new language.
4. Rule passion – faith – tradition – and all things with tempered reason.
5. Protect people and nations with fair laws and just courts.
6. Let all nations rule internally resolving external disputes in a world court.
7. Avoid petty laws and useless officials.
8. Balance personal rights with social duties.
9. Prize truth – beauty – love – seeking harmony with the infinite.
10. Be not a cancer on the earth – Leave room for nature – Leave room for nature.

These are links in the chain to control humanity.

Godspeed to us all.

Another great article. All of what Dr M said is correct. I have my own cell biology/virologist in house, who met with Fauci regarding his HVI research in the 1980's. My guy has questioned so much of what the political talking heads have told the public and is alarmed by the reckless speed and blanket distribution of the RNA therapy from the start. Giving it to younger healthy people is not sound science until enough long term data is out. He fears the RNA will not turn off and those folks and their progeny will be forever genetically modified. The therapy could also trigger auto immune type response down the road, especially in certain folks. and then there is Prion disease. Yep, to all the questions docs that have not been bought are saying.

My husband and I saw this coming. We bought 10 acres in a rural area last July 2020. Bought a preowned, clean RV. We have been buying a lot of steel and fasteners. We bought a cistern, a dual fuel generator, a propane tank. We purchased a massive amount of composted horse manure, and a mountain of wood chips for mulch and compost. also beans/rice, bulk seasoning, bulk salt. I've purchased medical supplies, hard copies of first aid books, prepper/homesteading books. This last fall, I created no till gardens utilizing cardboard topped with compost and planted seeds. We had/have a gorgeous garden with lots of greens, bok Choi, spinach, chard, kale, lettuces.

We planted fruit trees, blueberries, strawberries and a grape orchard. Oh! And we have 16 laying hens and a rooster and yesterday we found our broody hen who's been sitting on eggs for weeks, had a newly hatched chick and probably more to come today/tomorrow! We also developed an herb bed for culinary and medicinal herbs. My husband and I are 67 and 59, respectively. It's been a major undertaking and much work, but bc of sites like Mercola, where we've practiced a healthy lifestyle, were up for it! I'm new to vegetable gardening and I literally prayed to God upon planting seeds, that they would produce in abundance. And we had more crops than we could eat! I'm astounded! My husband, as a young man, was a welder. Our \$50K investment into

steel is for a large barn and a small house. We invested in quite a lot of extra steel as barter/trade. We have started on the barn first as it will house our sawmill. We also have literally hundreds of fallen trees we've been collecting for about 4 years. We cut into planks and have sold for live-edge conference tables, counter tops, dining tables, etc...my hubby was doing this as a side income, but now with lumber prices as they are, we are thinking it will be in high demand. Honestly, I don't know if what we have/are doing is a smart approach or not, but it FEELS right!

Posted On 05/01/2021

thinking about that as well, for some months now. Even though ca\$h will soon be gone we will still be able to use it to barter, if push comes to shove. My general thoughts are to set some back in the mattress, just in case. blessings.

diane1961 - What you are doing sounds perfect! We grow all the crops and fruits you listed except grapes and many more as I'm sure you do. We just have a 1 acre suburban lot, but can easily grow more than we can eat with room to spare. No chickens allowed here but we get local eggs and raw milk from farmers. Plenty of hunting and fishing nearby for outside-the-system protein. Your situation is of course much more bulletproof with 10 acres in a rural area with your own chickens.

If there is a decent deer population in your area, it's fun and very satisfying to get a lot of clean protein that way if it interests you. I figure if tshtf though, the deer populations will probably get wiped out pretty fast. But if it's that bad the hordes might invade your 10 acres anyway so there may not be many places to ride things out unmolested. Still seems like you're doing the smartest thing. There are no guarantees in this life and like you said, it feels right.

The media keeps pumping the fear porn. While in plain sight the CDC has admitted that financial incentives contributed to just about every dead body being tested and recorded as a Covid death. This is one of your articles that imo puts you in the controlled opposition camp. Lots a truth but mixed with misinformation. So what is all this drama on this planet REALLY about? To quote the first Lord Rothschild: "Give me the means to control the money of the world, and I will control the world." Yes it IS about control. To quote the latest Lord Rothschild: "It's ok, it's just a drill. We're just preparing for the New World Order. First we spread the virus, put the planet on lockdown, then we'll bankrupt the planet, invoke martial law, then prepare for THE THIRD TEMPLE," Jacob Rothschild, Zionist extremist Jew. The third temple??? What's he on about??? Ohhh-it's really all about the centuries old quarrel over the Temple of the Mount in Jerusalem!!! The first two temples were destroyed in religious quarrels. So why not have a third world war and mass depopulation and finish us all over the third temple?

After all it's been prophesied in the Bible hasn't it? Yes folks all this very very childish nonsense going on is all about a big centuries-old fight over a small piece of land considered extremely sacred by several religious groups, Christian, Jewish, Mohammedan in Jerusalem, Israel. No wonder Israel is the first country to impose mandatory vaccinations. Well, we do have to find some crazy way to bring people together don't we? But let's not forget folks: the Jews are God's chosen people!! So then along

comes dear old slogan shouting Adolf to kill six million of them. After all, the Aryans are really the chosen people aren't they?

Yes, the collective religiously identified extremist mind is insane. All belief systems are insane and have created divisions and conflicts on this planet. Look at the evidence of history :war and conflict over and over again for centuries all because the mind, especially the fanatical religious mind and its identifications, divides people. The only factor that can bring the planet together in oneness is the factor that is already in place waiting for each individual in his/her freedom to discover it: consciousness, awareness. And the way is meditation, the inner journey to find yourself.

Religions may be fanatical as well as governments ! Religions and governments are created by men ! Men have often been extremists and insane ! However not all belief systems are extreme ! Science can sometimes be extreme if, we allow it, to be ! Nuclear energy advocates can be extreme ! Their extreme views are seem as sensible in their brain's . Their "Mind's are a another story all together !

When we say someone has lost their mind ! What are we really saying? The mind and the brain are often seen as one and the same ! why is that ? Why use two different words for the same thing ? Neither word is descriptive of the other ! The brain is physical like a computer ! The mind is not physical ,yet we to think of it ,that way ! At ,least we "Think" of the brain and mind as if, they were one and the same ! We should think of the mind as a programmer like the one that a computer or a brain follows ! So, if, you believe in souls or spirits - not necessarily religion it, makes sense that the mind can be seen as a person's soul or spirit as the programmer ! Spirits or souls can be evil as well as men - due to this connection between brain and mind !

Posted On 05/03/2021

blog.nomorefakenews.com/.../meet-the-medical-cia Yesterday, I presented Dr. Andrew Kaufman's step-by-step refutation of a typical claim that SARS-CoV-2 has been isolated and proven to exist. You find these "isolation" claims in many studies, in the "methods" section, where researchers describe their procedures in detail. It's obvious, however, that the researchers have their own special definition of the word "isolated." For them, it actually means un-isolated. It's as if they've decided that "sunshine" denotes "darkness." These researchers create a soup in a dish in a lab. They put toxic chemicals and drugs in the soup. They put monkey and/or human cells in the soup. There is much other genetic material in the brew—including, supposedly, the virus.

The cells, starved of nutrients, and poisoned, begin to die. The researchers then assert THE VIRUS must be doing the killing. Therefore, the virus IS in the soup and it is deadly. Dr Mercola it has not even been isolated, even Dr Wu from China CDC said it has not been properly isolated yet. But there is no evidence that the un-isolated virus is in the soup, and there is no evidence it is doing the killing. On the back of these absurdities, a declaration is made: there is a pandemic, and the cause is a virus, named SARS-CoV-2.

It has taken me a while, but coming through all the fear-mongering and threats of mandatory vaccines to "keep us safe". I don't believe there is a virus. Great thanks to Dr. Andrew Kaufman and Dr. Mercola who has been a 'life saver (and sanity saver) over the years.

I've followed Dr Mercola long before Covid, but if you're being threatened and censored for providing

information about healthcare and self care, then how can continue to post articles like this one without threats or censorship? It's just such a coincidence, if you believe in them, that you "had" to take the self care/remedies articles down right before your book comes out, thus increasing sales since now only place to get the information is in the book??? Thus being part of the same greedy machine you criticize

don - you claim to be a sympathetic ally to the Mercola agenda and then show your true colors of posting a hostile subversive rubbishing of Dr Mercola's efforts {what are yours??} - and integrity - if you are honest you would have declared your hostility and made your dogmatic assumptions apparent instead of attempting to undermine Dr Mercola's opposition to Lockdowns/ economic destruction/ and political shortsightedness

don3724, here's your answer: (type this in the search bar above)

Why I'm Removing All Articles Related to Vitamin D, C and Zinc and COVID-19

This article is a bit hard to find on this site unless you type it in the search bar, but is still active and will explain why many articles are now missing regarding Covid19 and zinc, Vit. d and Vit c. along with neb. treatment. There is a date of May 3rd on the article. I highly recommend that you hard copy all info you want to save that is still available on this site, before May 3rd. Just a hunch I have.

Also, another poster informed us that buried in a recent appropriations bill that was signed into law, there will be a \$10,000 fine for each occurrence of anyone spreading the misinformation of vitamin or other unapproved treatments for Covid19. I am probably quoting this wrong, but you can

look it up to clarify. Our government has clearly been hijacked. It's happening and the governed are clueless, until after the fact. Thanks, MSM.

UPDATE: So, don3724, I just went back to the article I referenced for you and saw you had already been there and posted on April 28th. I believe Dr. Mercola has added to his statements that he previously had in the article. He is legally protected in his statements, but he is being PERSONALLY THREATENED now, and also there is the issue of the appropriations bill making some of his articles subject to possible fines. Wake up!
