Microsoft, Big-Tech Coalition Developing Rockefeller-Funded COVID Passports

BY TYLER DURDEN

FRIDAY, JAN 15, 2021 - 16:55

Authored by Steve Watson via Summit News.

A coalition of big tech companies, including Microsoft is [developing a COVID passport](#), with the expectation that a digital document linked to vaccination status will be required to travel and get access to basic services.

The group is calling itself the [Vaccination Credential Initiative \(VCI\)](#), and includes Microsoft, Salesforce and Oracle.

The US health provider Mayo Clinic is also involved in the project, which is being described as ***"the most significant vaccination effort in the history of the United States."***

VIDEO 2:50

Tech and health firms launch Covid vaccine credential standards

Screenshot: 'CommonPass' outline – click to enlarge

“The goal of the Vaccination Credential Initiative is to empower individuals with digital access to their vaccination records,” said Paul Meyer, CEO of non-profit [The Commons Project](#), also involved in the project.

Meyer said that the document will allow people “to safely return to travel, work, school, and life, while protecting their data privacy.”

Tech giants want to help you prove you’ve been vaccinated for COVID-19, via [@FastCompany](#) <https://t.co/tNNDzC3cux> [#vaccinecredential](#) [#covidvaccine](#) pic.twitter.com/q0Glsjuc06

– The Commons Project (@commons_prjct) [January 14, 2021](#)

Meyer said the coalition is working with several governments, and expects standards to be adopted that will see mandatory negative tests or proof of vaccination, in order to re-engage in society.

“Individuals are going to need to have to produce vaccination records for a lot of aspects of getting back to life as normal,” he added. “We live in a globally connected world. We used to anyway — and we hope to again.”

[The Financial Times reports](#) that The Commons Project has received funding for the project [from the Rockefeller Foundation](#), and that it is being implemented by all three major airline alliances.

The Rockefeller Foundation has [previously touted its plans](#) for a 'Covid-19 data and commons digital platform' as well as a desire to “launch a Covid Community Healthcare Corps for testing and contact tracing.”

“Coordination of such a massive program should be treated as a wartime effort,” the foundation states on its website, adding that there should be “a public/private bipartisan Pandemic Testing Board established to assist and serve as a bridge between local, state, and federal officials with the logistical, investment and political challenges this operation will inevitably face.”

A NATIONAL SYSTEM TO TRACK COVID-19 STATUS MUST BE CREATED

Policy makers and the public must find the balance between privacy concerns and infection control to allow the infection status of most Americans to be accessed and validated in a few required settings and many voluntary ones.

DIGITAL APPS AND PRIVACY-PROTECTED TRACKING SOFTWARE SHOULD BE WIDELY ADOPTED TO ENABLE MORE COMPLETE CONTACT TRACING

Whenever possible, incentives should be used to nudge the voluntary use of these apps rather than require them.

Screenshot: Rockefeller Foundation 'Covid action plan' website

Covid-19 Response Our Commitments Collaborat

Create a Covid-19 Data Commons and Digital Platform

Real-time analyses of resource allocations, disease tracing results and patient medical records will enable policy makers and researchers to make best use of available resources to identify the most promising areas for surges in testing volumes to snuff out Covid-19 recurrent outbreaks and identify the most promising therapeutic treatments and algorithms.

ACTION STEPS:

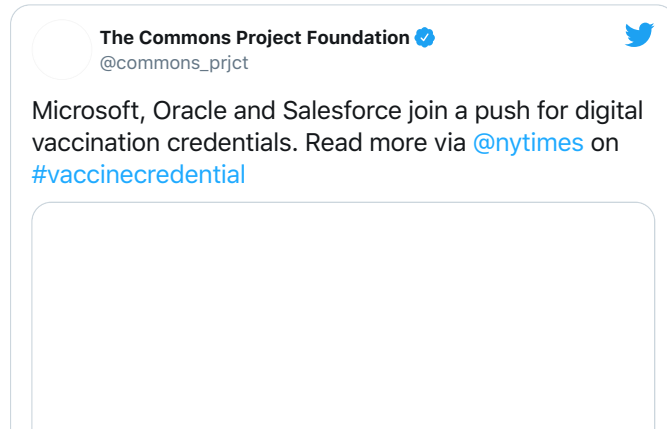

FEDERAL, STATE, AND PRIVATE DATA PLATFORMS MUST BE EXPANDED TO COVER THE FULL RANGE OF REQUIRED COVID-19 DATA

This effort would support recent Department of Health and Human Services Federal and State collaboration with leading edge data technical firms to develop an integrated, real-time data platform so testing levels can be aligned at regional levels with illness burden. This platform can enhance procurement, distribution and deployment of tests as those tests evolve in quantity and function. It should also enable state and local authorities to track testing results and capacities to identify spot shortages. This will help identify any supply and demand constraints so that testing levels can be aligned at regional levels with illness burdens.

INNOVATIVE DIGITAL TECHNOLOGIES CAN IMPROVE WORKFORCE MONITORING AND EARLY DETECTION OF RECURRENT OUTBREAKS

Screenshot: Rockefeller Foundation 'Covid action plan' website

records.”

The coalition of big tech firms is looking to “customize all aspects of the vaccination management lifecycle and integrate closely with other coalition members’ offerings, which will help us all get back to public life,” said Bill Patterson, an executive vice president at Salesforce.

“With a single platform to help deliver safe and continuous operations and deepen trust with customers and employees, this coalition will be crucial to support public health and wellbeing,” Patterson claimed.

Mike Sicilia, executive vice president of [Oracle](#)’s Global Business Units added that “This process needs to be as easy online banking. We are committed to working collectively with the technology and medical communities, as well as global governments.”

Ken Mayer, founder and CEO of [Safe Health](#) also stated that the VCI “will enable application developers to create privacy-preserving health status verification solutions that can be seamlessly integrated into existing ticketing workflows.”

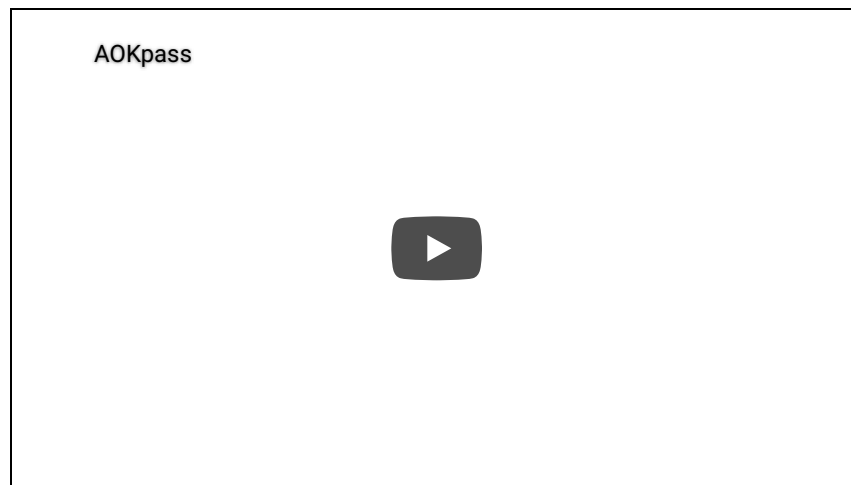

Put more simply, it will “help get concerts and sporting events going again,” Mayer said.

The context seems clear. Those without the COVID passport will not be allowed to travel or engage in social events.

Hundreds of [Tech companies](#) are scrambling over themselves to develop [COVID passport systems](#).

As we [reported last month](#), the IATA, the world’s largest air transport lobby group, expects its COVID travel pass app to be fully rolled out in the first months of 2021.

A further ‘COVID passport’ app [called the AOKpass](#) from travel security firm International SOS is currently undergoing trials between Abu Dhabi and Pakistan.

We have exhaustively documented the privacy and rights concerns associated with the move toward adoption, and more importantly the global standardisation of so called COVID passports.

UK based human rights group [Privacy International](#) has warned that if “immunity” passports are issued by some governments, it could signal a creep toward “**digital identity schemes**” and other mandatory ID schemes.

“Once you have multiple uses (e.g. access to services) in multiple domains (i.e. public sector, private sector), in multiple countries (i.e. travel), then we are approaching a global identity document needed to live your life,” the group warned.

Sweden based human rights group The International Institute for Democracy and Electoral Assistance (IDEA) warned recently that [61 per cent of countries have used COVID restrictions](#) “**that were concerning from a democracy and human rights perspective.**”

Anna Beduschi, an academic from Exeter University, [commented](#) on the potential [move toward vaccine passports by EU](#), noting that it “poses essential questions for the protection of data privacy and human rights.”

Beduschi added that the vaccine passports may “create a new distinction between individuals based on their health status, which can then be used to determine the degree of freedoms and rights they may enjoy.”

The EU’s own data protection chief Wojciech Wiewiórowski recently [labeled the idea of an immunity passport “extreme”](#) and has repeatedly said it is alarming, and ‘disgusting’.

[A report](#) compiled last year by AI research body the Ada Lovelace Institute said so called ‘immunity’ passports “pose extremely high risks in terms of social cohesion, discrimination, exclusion and vulnerability.”

Sam Grant, campaign manager at the civil liberties advocacy group [Liberty](#) [has warned](#) that “any form of immunity passport risks creating a two-tier system in which some of us have access to freedoms and support while others are shut out.”

“These systems could result in people who don’t have immunity potentially being blocked from essential public services, work or housing – with the most marginalised among us hardest hit,” Grant further warned.

“This has wider implications too because any form of immunity passport could pave the way for a full ID system – an idea which has repeatedly been rejected as incompatible with building a rights-respecting society.” Grant further warned.

for people to travel throughout the area, further outlining that "Persons who have been vaccinated should be free to travel."

The request is [set to be debated](#) in the coming days.

Vaccine passports have previously been [touted by the EU](#), with officials suggesting back in April that visa applicants would also be required to be vaccinated.

EU countries including [Spain](#), [Estonia](#), [Iceland](#), and [Belgium](#) have all indicated that they are open to some form of vaccine passports, as well as sharing the data across borders.

[Denmark](#) recently announced that it is rolling out a 'Covid passport', to allow those who have taken the vaccine to engage in society without any restrictions.

[Poland has also announced plans](#) to introduce vaccine passports, which will allow those who have taken the COVID shot greater freedoms than those who have not.

Having left the EU, **Britain** would not be part of any standardised European scheme, however it [has now confirmed](#) that it is rolling out vaccine passports, despite previous denials that it would do so.

Recently, [the government in Ontario, Canada admitted](#) that it is exploring 'immunity passports' in conjunction with restrictions on travel and access to social venues for the unvaccinated.

Last month, [Israel announced](#) that citizens who get the COVID-19 vaccine will be given 'green passports' that will enable them to attend venues and eat at restaurants.

A [litany of other government and travel industry figures](#) in both the US, Britain [and beyond](#) have suggested that '[COVID passports](#)' are coming in order for '[life to get back to normal](#)'.

In addition, [hotels have also](#) indicated they will do the same.

Insurers have also indicated that they will fall in line with any standardisation of vaccination passports, and may demand to see proof of vaccination before covering those wishing to go on holiday.

[The international Travel and Health Insurance Journal reported](#) that "If the EU obliges travellers to vaccinate, travel insurance providers may refuse to cover those who decline to have the vaccination."

EU news website [Schengenvisa.info also reported](#) on the likely move by insurers, pointing out that anti-vaxxers will likely be specifically targeted by the mandates.

"Even if anti-vax travellers find a loophole in the requirement and manage to enter any of the Member States, travel insurance providers may refuse to cover them," the report states.

It continues, "With the high volume of fake news and conspiracy theories that have been going on for months now on the pandemic and vaccination, the real challenge for the EU will not be to purchase the necessary vaccine doses, but rather to convince people to be vaccinated."

The report adds that "Conspiracy theorists, in Europe and further in the world, have targeted Microsoft founder Bill Gates, who is known as a supporter of vaccination, claiming he is responsible for the Coronavirus pandemic."

While [surveys have indicated](#) that around half the people in the world are not willing to take the vaccine at this stage. However, a recent poll has indicated that [74% of Americans say they are willing to get a COVID vaccination passport](#), should they be introduced in the U.S.

#metoo

Zhedgers, they have never ever isolated a 'virus', sequenced a 'virus', characterized a 'virus' or shown that a 'virus' causes disease. Or the sniffles, I mean, I get sniffles every time I shovel the snow, is it a 'virus'? lol

The flu, colds, corona, polio, AIDS, hepatitis, herpes, chicken pox, small pox, shingles etc. are not caused by a 'virus', however it is clearly easy to convince most that they do. There are books on this info, perhaps you can read some rather than masturbating all the time and consuming news/sports and other bs to keep you from knowing truths.

The flu and colds are not caused by a 'virus', which I remind has never been isolated, sequenced or shown to cause disease. You can never catch a 'virus' as they do not exist.

There are many published scientific publications and even a field called 'virology' where they seem to study things that do not exist. They are either mistaken, or lying when they talk about a 'virus'. DNA/RNA sequences are found everywhere, and your cells are constantly releasing them in what are called exosomes. Exosomes are created by cells when stimulated to, stimulation can range from stress, electricity, microwaves, anxiety, toxins, poisons, radiation, starvation, temperature changes, environmental changes and a thousand more unknown things.

Exosomes are agents of information (communicators) released to deal with these issues so humans can adapt. Exosomes are not infectious and do not cause any disease, obviously.

Exosomes are identical to what they call 'viruses', and are always there when there is disease or an issue.

Do you see? They have fooled the world (well, I'd say there are 10k people who know this stuff) that exosomes are 'viruses'! That's it that's the trick to all pandemics and that's how they have so many in

Others) explain how there are no 'viruses' and that the causes of influenza, colds and other diseases are not contagious and not of 'viral' etiology. They explain how they have never isolated any 'virus' etc., and its bc they do not exist.

'Goodbye Germ Theory'

'What Really Makes You Ill'

'Bechamp or Pasteur' - **This friggin amazing book which is 2 books put together, one published in the 1920's and one in 1940's, explains how they knew disease does not come from constant attack from microbes from the research done around 1840s to 1890s. They knew it and covered it up, and gave you the lies of Louis Pasteur/modern medicine. They knew there was no pathogen in 1850!!! Modern medicine is based on Germ Theory, which there is little evidence for! There would be no big pharma if these experiments and their results were brought to light, bc drugs/pills/pharma is based on the lie that we are constantly attacked by 'germs'. That is why hospitals and doctors do not heal, they keep you on their poisons and make you sicker for as long as possible. Follow the money.**

'Virus Mania'

'The Invisible Rainbow'

'The Curse of Louis Pasteur' <http://whale.to/w/appleton1.html>

'The Contagion Myth' by Dr Cowan and Sally Morell, banned on Amazon

https://www.pattoverascienza.com/wp-content/uploads/2020/08/The_Contagion-MITH_W.pdf

<https://www.westonaprice.org/health-topics/notes-from-yesteryear/germ-theory-versus-terrain-the-wrong-side-won-the-day/>

The PCR 'test' is a scam/false:

https://off-guardian.org/2020/06/27/covid19-pcr-tests-are-scientifically-meaningless/?fbclid=IwAR3G6Fuq8C-8XW7szL43scbKOYFx78irg52A6ZQCRdZmPMWiHTqD_2jv4Zo

<https://cormandrostenreview.com/report/>

Perhaps a logical theory:

<https://fitzinfo.net/2020/08/29/growing-evidence-covid-19-symptoms-a-result-of-5g-wireless-exposure/>

Thousands of scientific publications showing electromagnetic radiation from cell towers/WiFi/routers/tablets/iPads/routers etc. causes cancer/tumors in humans and affects cells, insects and animals negatively, to put it mildly.

<https://bioinitiative.org/>

Finally, 2 studies from 1919 showing they know what is going on, and it ain't a contagious 'virus':

https://zenodo.org/record/1505669#.X8_YINhKiU

<https://www.nejm.org/doi/pdf/10.1056/NEJM191912111812401>

Others are giving great links about PCR, Kary Mullis and AIDS, which was faked and is not a 'virus' and how they killed people with the 'cures', as they do with vax's.

Have some fun <http://www.virusmyth.com/aids/award.htm>

" perhaps you can read some rather than masturbating all the time "

Giant 1 day ago

Actually group of Indian scientists evaluated the DNA of the virus when it started to spread. Because their conclusion was, that there is basically no chance Covid-19 is of natural origin, but was instead created in laboratory, the information was suppressed in order to protect large investments of globalists in China. These scientists even pointed out parts of HI-virus(AIDS) DNA which was attached to corona virus with splicing technique.

▲ 9 ▼ 5

Dear Old Hedge 1 day ago

There is no virus, even according to Pfizer:

“...the WHO protocols Pfizer used to produce the mRNA [for the vaccine] do not appear to identify any nucleotide sequences that are unique to the SARS-CoV-2 virus. When investigator Fran Leader questioned Pfizer they confirmed: ‘The DNA template does not come directly from an isolated virus from an infected person’.”

And there we are, right back where I started, some time ago. If you don't have the isolated virus, how can you claim you've sequenced it?

And if you've sequenced it by ASSUMPTION and GUESS, how can you claim the sequence—or the virus—is real?

READ REST: <https://blog.nomorefakenews.com/2021/01/15/covid-vaccine-secret-a-stunner/>

The Rockefeller foundation has literally been at war with humanity since its inception and this has all been proven and documented. The most likely explanation for the "Spanish Flu" death toll was a Rockefeller vaccine, not the flu. But that is just one prong in their war. The rest of it has to do with undermining all European cultures and NWO/globalist agendas. Ultimately they want a handful of plutocrats to rule the whole world as slave masters.

But everyone needs to understand **the point behind all of this is so that you will never be able to organize to use all those guns for their intended purpose. The fear us.**

▲ 23 ▼ Reply ↩

It might not take organization, it might only take but individual citizens being fed up when the knock comes to the door at 3:00 AM.

The vaccine they created is to block the protein spikes that surround ANY coronavirus from attaching to your body's cells. I mean this is what they say anyway. So this means the virus uses these spikes to attach to and then get into your cells. This shot is supposed to stop the proteins spikes on the outside of coronaviruses from being able to attach to your cells and so not being able to infect you. Again - this is what they say - not me.

So .. if it works as they say - the person should not be able to get any coronavirus. No cold, no flu, no covid, nothing - forever. So either this is a lie as everyone says - or it works. If it works - then it makes sense why they are rolling out immunity passports. If there is just .. you know... by total chance etc.... one or more ACTUAL deadly corona based viruses in the future.. then they would need to split up the immune from the

COVID is extremely deadly! It is so deadly it killed all other causes of death.

[On the bright side, the average death rate did not change.](#)

Note that for 2014-2018 death rate increase was more than 1.2% while for 2019-2020 increase was 1.1%. It seems that the increase (a reflection of a declining conditions) has dropped. Go figure...

In any case, if you wear a bag on your head - you are safe!

▲ 12 ▼ Reply ↩

Ironplates 1 day ago

it's in your mind. my daughter "thought she had COVID", tested positive. She hung out with all the college kids and supposedly brought it home. (the mindset) I hung out with her and never had a symptom. as an elite athlete, not a symptom. i pick my nose often, so i should be dead with COVID by now nevertheless. It's a mind thing, poor diet, poor exercise, and sympathy pains. the only virus is the marketing message. Trust the Placebo = Marketing.

▲ 2 ▼ Reply ↩

Telemakhos 1 day ago

Not even relevant. The point isn't the vaccination: it's to make sure that each of us is carrying around a tracking device that can monitor our location and communications on behalf of the government. Requiring a digital QR code implies requiring a cell phone, and that's the real prize.

I own a cell phone. It hasn't left my home office in a week. It does leave the house on occasion: sometimes I take it for a walk around the neighborhood, so that I can listen to music, but it doesn't get in the car with me. I certainly don't carry it with me wherever I go, and that's the point of requiring digital COVID passports.

▲ 9 ▼ Reply ↩

wick7 1 day ago

That's part of the reason, but controlling what's injected into everyone's bodies on an annual basis is certainly a coveted prize.

▲ 3 ▼ Reply ↩

StubbleJumper 1 day ago

Get a blackout bag like the kind Mission Darkness sells or similar. You can take a phone with you if you want and its totally cut off from everything. Even GPS. Until you pull it out of the bag. This way - it can't even track your locations while offline and upload them once it gets a connection. Its totally cut off at all times.

▲ 1 ▼ Reply ↩

Han Cholo 1 day ago

My uncle has failing kidney's, think he only has 25% use left.

Pretty sure he has an enlarged liver w\ cirrhosis as well.

Drinks a lot.

Anyway, he did drink a lot about a month ago and dehydrated himself. He went to the ER (he didn't know at the time he was dehydrated) and they squared him away there and also tested him. He was positive for covid19.

He had no clue. After and IV and some fluids, he was just fine. Still is.

My wifes kids tested positive before Christmas. I hung out with them lots. I either already had it or I did get it from them and didn't know it.

Either way, I'm not afraid of this thing. Of the people I know who have had it, some were in bad physical shape to begin with and pulled through just fine.

F()ck this vaccine. I'm not taking it. Don't care if I can't travel. I have everything I need already.

 That's part of the control they are using. Once they no longer need more "positives" they can reduce the cycles and "poof!" infections are now declining.

▲ 4 ▼ Reply ↩

illegal_username 1 day ago

some people, the virus has little or no effect.

other people, like me, the virus will wreck them, when they get it.

some speculate it's because of factors such as genetics, or which strain of the virus, or what levels of vitamin D in your body you have when you get it.

also, a lot of covid tests result in false positives, so just because a test says you had it, doesn't mean you did.

i'm not taking the vaccine, either.

They're just a staging mechanism to get us used to being permanently identified.

Later, they'll declare if you want to stop dealing with the physical passport, you can do so by submitting to a nano chip injection with your personal ID embedded. Your very own internal wrist tattoo, if you see what I'm saying.

▲ 20 ▼ Reply ↩

No, I don't see that happening. People have submitted, that is clear.

The ones who want to resist just blow some steam online which makes them feel better but accomplishes nothing. As they slowly get psychologically closer to submitting as well.

I figure the way TPTB see it is -- there will always be 10% who fully resist but they'll die eventually so, no matter.

▲ 14 ▼ 1 Reply ↩

Billy the Poet 1 day ago

People have not submitted, that is clear. I rarely see anyone wearing a mask let alone begging for a shot.

▲ 9 ▼ Reply ↩

No_Pretzel_Logic 1 day ago

You are speaking about your tiny microcosm. That does not reflect the country.

Where I live, people don't wear masks outside but in retail establishments of any kind, Doc offices, any offices, etc. --- YES, they do. Those businesses are complying with the idiot Governors dictates.

It's obvious how the vaccine thing is going to roll. Many employers are requiring it and that will get huge compliance, next you won't be able to see a Doc w/o it or go to an event (see Ticketmaster). Finally, there will be intense public pressure on the resisters to submit.

Don't you know their playbook yet, Darren?

▲ 11 ▼ 2

Billy the Poet 1 day ago (Edited)

I do know their playbook. It depends on convincing you that you are the last man standing and must submit.

In PA we are ordered to wear masks at all times outside of our homes and I see little compliance. Some workers wear masks but not all. For example, I haven't seen delivery truck drivers wearing masks for months.

The fact that folks only wear masks when they're compelled to do so but refuse to wear them everywhere else shows that they know the masks are a lie. It's one thing for them to occasionally wear a mask because of a lie but asking them to become lab rats over what they know is a lie would be far more difficult.

▲ 9 ▼

MrBoompi 1 day ago

The willing will submit. Not everyone. Remember that.

And when the globalist forces cross the line they find out who the rest of us are.

▲ 6 ▼ 1 Reply ↩

No_Pretzel_Logic 1 day ago

It will take less than one generation for the globalists to get the vast majority of the world population doing as they want (and identified).

Plenty of those age 60+ right now will die off and the young kids will have been so scared by this **and** the dark, negative media era they grew up in that that they'll submit fairly easily.

Sorry folks, everybody keeps thinking that they'll wake-up one day soon and this will magically all be over. It won't be. You have to be a special kind of naive to think that.

▲ 4 ▼

Billy the Poet 1 day ago (Edited)

NPL,

Your plan to sit back and watch the world collapse is less than compelling. For those who think like you do isn't your best course of action to take the vaccine and become the loudest Karen on the

Autumn 2020, I commented many times, with direct inks provided, *that states are changing their election laws and it will help enable the steal*. What happened in Nov? Btw, what were thousands of DJT supporters doing last Fall?

▲ 2 ▼

Billy the Poet 19 hours ago (Edited)

I disagree with you and I say so.

That's the thing you don't seem to understand about human nature. You expect others to submit but we don't.

Why are you so committed to the idea that no one can ever get ahead in life and what advantage do you see in trying to spread that message?

▲ ▼

GRDguy 1 day ago

The reason it's called "CommonPass" is that 96% of the population is NOT sociopathic. The sociopaths make up 4%, and they're the ones that has lied-to and stolen-from us. We mentally have to defend ourselves against doing business with that type of people, but we're not doing it. A journalist from the past said it best:

"The men the American public admire [and reward] most extravagantly are the most daring liars; the men they detest [and punish] most violently are those who try to tell them the truth."
H. L. Mencken 1880-1956 [updated 2019]

▲ 8 ▼ Reply ↩

liberty2day 1 day ago

For having been right you get kicked in the teeth by family. You told them to prep, get zinc and quercetin, you got them the good masks. Nobody knew what this was, meanwhile others around them, not prepped, got sick, some died.

Now, you try to explain that science has realized this was largely a psyop, that this will lead to depression and suicides, and they mock you while they watch cnn, the same cnn that lied about trump for five years, tell them to panic and never remove those masks.

I can't abide that. So yeah, i am on the outs with family. Such is life

majik 1 day ago

Any restrictions might be deemed reasonable in a time limited fashion i.e. within the next 1 to 2 years. But none of these covid passport proposals outline when the passports would no longer be required. When the world has reached herd immunity against covid sometime in the next 1 to 2 years then there would be no reasonable grounds to continue requiring covid passports.

So what is the covid passport exit strategy? That is the question that needs to be asked of those proposing them. If they have no answer then it's clear it's an unscrupulous long term grab for power, control and government funding. I mean seriously, they're going to require covid passports forever? 20, 30, 40 years into the future?

Name one time in 40 years when authority was rescinded back to the people. It is a historical fact that such moves have to be fought by force to remove once put in place. Bad policy is always simply 'modified', most often expanded.

Does anyone agree these people will end up killing more human beings than covid? It seems the safety and effectiveness of mRNA vaccines doesn't even enter into the thought processes of these people.

The rush for untested vaccines and these types of travel documents also provides clues as to the secret agenda behind the novel coronavirus.

Expensive and largely untested mRNA 'vaccinations' are not required.

NIH has revised frontline treatment guidelines for Covid-19: the use of IVERMECTIN is no longer expressly prohibited.

<https://www.covid19treatmentguidelines.nih.gov/statement-on-ivermectin/>

"Antiviral and Anti-Inflammatory Effects of Ivermectin

Reports from in vitro studies suggest that ivermectin acts by inhibiting the host importin alfa/beta-1 nuclear transport proteins, which are part of a key intracellular transport process that viruses hijack to enhance infection by suppressing the host antiviral response.^{1,2} In addition, ivermectin docking in vitro may interfere with the attachment of the severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) spike protein to the human cell membrane.³

Ivermectin has been shown to inhibit the replication of SARS-CoV-2 in cell culture. However, pharmacokinetic and pharmacodynamic studies suggest that ivermectin doses up to 100-fold higher than those approved for use in humans would be required to achieve the plasma concentrations necessary to duplicate the drug's antiviral efficacy in vitro.^{4,5} Even though ivermectin appears to accumulate in lung tissue, with the doses used in most clinical trials, predicted systemic plasma and lung tissue concentrations are much lower than 2 µM, the half-maximal inhibitory concentration (IC₅₀) against SARS-CoV-2 in vitro.^{6,7}

Ivermectin demonstrates potential anti-inflammatory properties in some in vitro studies,^{8,9} properties which have

Why doesn't everybody see the obvious? Why plan for an ongoing vaccine records for a virus that should be fading out?

The Powers That Be have no intention of letting this pandemic fade out and let life returning to normal.

The vaccine is obviously part of a larger plan and many people are buying into it, despite the disastrous prior vaccination efforts of proponents like Bill Gates.

Just say "No" to vaccines.

It's all total bollax-

1. Some weeks ago, an appeal court in Portugal ruled that the PCR tests are not able to ascertain infection let alone illness, which is exactly what the inventor of the PCR tests, the Nobel Prizewinner Kary Mullis repeatedly emphasised – At issue was the case of four German tourists, one of whom had tested positive, and all of whom the authorities had placed under what the court determined to be a kind of house arrest – similar to the action of German administrative courts who follow blindly German fake science; thereby the appeal court confirmed an earlier finding that the quarantine was unconstitutional.

This judgement is a slap in the face for the German administrative courts, which were forced to concede that PCR tests cannot ascertain the presence of infection but nonetheless – in a case of crass perversion of justice – imagined that they had to follow the instructions of the Robert Koch Institute in its reliance on PCR tests and assumed that the healthcare system was on the brink of being overwhelmed (e.g. Higher Administrative Court Münster) – in this respect the Portuguese judgement demoted the German administrative courts to the status of banana republic. This is the shape of lessons in the rule of law by a Portuguese for a German court (the judgement linked to is in Portuguese so may need professional or machine translation).

Translator's note: this english language report on the Portugal case was not included in the Fuellmich newsletter but has been added here to provide further background on the judgement. <http://cognitive-liberty.online/portuguese-court-rules-pcr-test-as-unreliable/>

2. A judgement pronounced on January 2, 2021, by the Constitutional Court of Ecuador ruled that all anti-Corona measures to date are based on mere conjectures without any basis in fact. After nine months it should finally be possible for the acting politicians to communicate clear, evidence-based assertions and base their measures on these. But since this has not happened, all the measures are unconstitutional. Below is the link to the judgement (we shall publish the judgement itself in the original on the website of the Corona

for 40 minutes of play. So ridiculous. Black Friday at Walmart is fine, but attend a college/pro football/basketball game? Close bars at 10 pm because we all know Rona doesn't get out before then. Today's society is so afraid of their own shadow that they can't even see reality.

Ya know, I'm watching people all around me who should know better. People who were paranoid about this stuff for some pretty piss poor reasons, but against it none the less.

Now, with this obviously behaviorally modeled, crude social virus, their fear and anger is walking toward the light of relief. Safety. Without even any curiosity anymore, just emotional burn out.

Daily, from the beginning, we've watched the goal post recede. Two weeks, end of summer, now 2024, whatever. All Vapor. Pair it with the fear. Wear your mask Johnny, be good and you'll get a treat.

Someone posted on here a couple days ago an appropriate twist "don't feed the hand that bites you." That's better than the original. I was reasonable, even when I knew better. No more.

People are relishing this fear, sharing it, like a shaman plays with entrails. Whatever. I'm living my life, bring it on

BREAKING

23 die in Norway after receiving Pfizer COVID-19 vaccine: official

Twenty-three people died in Norway within days of receiving their first dose of the Pfizer COVID-19 vaccine, with 13 of those deaths — all nursing home patients — apparently related to the side effects of the shots, health officials said.

Common reactions to the vaccine, including fever and nausea, “may have contributed to a fatal outcome in some frail patients,” Sigurd Hortemo, chief physician at the Norwegian Medicines Agency, [said in a Friday statement](#).

Maybe this is a honeypot to see where the resistance is. There are SOP's on all of these psyops. Basic psychology 101. Create rumors years in advance, show small steps and select news articles and preachers to send out to the public slowly. Infiltrate organizations and companies to further your agenda, turn people to be in your side, gain acceptance in your sphere of influence. I can go on and on.

Most people read this article as it's already a done deal. It's not. We are not there yet. This article and its distribution is a stick in the eye to see the reaction.

The message from technocracy Inc. "Risk your health and life with our "perfectly safe" vaccine that has been poorly tested for immediate safety and not tested at all for long term safety, or we won't let you live." Never mind that we KNOW we have at the bare minimum a 98% chance of surviving a COVID infection, but no idea what our chances are of surviving the vaccine.

Isn't it curious how COVID has cured influenza. So much so that the CDC stopped counting deaths from influenza. Tuberculosis has disappeared as well. All COVID all the time. Whatever it takes to control you and acquire what little wealth the 99.9% still have. And to make damn sure you never acquire any again.

▲ 4 ▼ Reply ↩

Fluff The Cat 1 day ago

Covid-19 has the exact same symptoms as influenza, bronchitis, strep throat, sinus infection, etc. because it's nothing but a new label applied to the same illnesses we've always had. Despite decades of research, not a single vaccine has successfully created immunity to the seasonal flu, so the vaccinated crowd will continue to come down with the exact same illnesses as before ...only they'll be at greater risk of serious unwanted side-effects (which big pharma now dubs "health impact events" for cover). PCR tests are purposefully designed to give false-positive readings for perfectly healthy people or even inanimate objects so that they can fudge the statistics for political purposes.

So, we read today that 13 people died in Norway soon after taking one of these mRNA jabs and there's a tonnage of evidence that they're high risk and can cause scary adverse reactions.

All of this is completely ignored by political elites and health organisations and talking heads lined up on MSM who proceed like mindless zombies to advocate vaccine programs. I guess all those who suffer grave adverse reactions are brushed aside as "collateral damage" for the greater good.

That's not enough. We now have the faceless wannabe totalitarian despots preparing to implement "vaccine passports" with total disregard for the risks to peoples' health. Sitting on a flight next to someone who's been jabbed does not mean you are safe because the person who's been jabbed can still contract the virus and transmit it to others. How safe is that?

▲ 3 ▼ Reply ↩

[This might help](#)

1. [HEALTH/](#)
2. [CORONAVIRUS](#)

Claims about the Pfizer Covid-19 vaccine ingredients lack evidence

10 DECEMBER 2020

WHAT WAS CLAIMED

The formation of “non-neutralizing antibodies” can lead to an exaggerated immune reaction, especially when the person is confronted with the real, “wild” virus after vaccination. This so-called antibody-dependent amplification, ADE, has long been known from experiments with corona vaccines in cats.

OUR VERDICT

There's no evidence antibody-dependent amplification is an issue in humans with Covid-19, and the use of plasma therapy suggests that it is not.

[1 of 3 claims](#)

We've been asked to check a [number](#) of [claims](#) about the new Covid-19 vaccine and its ingredients.

Several websites have claimed the Pfizer vaccine contains “PEG” which could cause large numbers of allergic reactions, and also that the vaccine may cause infertility. The sites also claim any Covid-19 vaccine may make the disease worse, and that the studies are too short to check the vaccine is safe. There isn't proper evidence behind any of these claims.

Polyethylene glycol

“The mRNA vaccines from BioNTech/Pfizer contain polyethylene glycol (PEG). 70% of people develop antibodies against this substance – this means that many people can develop allergic, potentially fatal reactions to the vaccination.”

It's true that the BioNTech/Pfizer vaccine does contain [polyethylene glycol](#) (PEG). This substance is used in [some vaccines](#) but is safe in these quantities. It's also safely used at higher concentrations as [a](#)

"The formation of so-called "non-neutralizing antibodies" can lead to an exaggerated immune reaction, especially when the test person is confronted with the real, "wild" virus after vaccination. This so-called antibody-dependent amplification, ADE, has long been known from experiments with corona vaccines in cats, for example. In the course of these studies all cats that initially tolerated the vaccination well died after catching the wild virus."

Put simply, an antibody is made by the body's immune system, and attaches to something on the surface of a virus, usually attacking it or rendering it harmless. Most vaccines work by giving the body a harmless version of a protein on the surface of the virus so it can make these antibodies, which would speed up the body's ability to fight infection if it gets the real disease later. You can get these antibodies from having had the infection, having been vaccinated, or being treated with blood [plasma from people who've had the infection which contain them](#).

"Non-neutralising antibodies" are antibodies that can attach to these proteins on the surface of a virus, but don't actually kill or harm them. It has been found that in some cases [in cats](#), they may actually help the infection take hold.

So we will be FORCED to take a GATES FUNDED VACCINE and if ya dont like it tough shit?

Why is this asshat allowed to roam a free man?

People are dying from the vaccine. 26 died in a nursing home in upstate NY after the vaccine was administered to 198 patients. Authorities DENY its from the vac.

Meanwhile 40,000 Americans have suffered SEVERE adverse events that required emergency medical intervention after the first jab, from heart attacks to strokes to paralysis amd Bells palsy.

And they called those of us calling this out as conspiracy theorists.

"Norway health officials have "adjusted their advice" after 23 elderly people died shortly after receiving [COVID-19 vaccines](#), according to the [Associated Press](#) and other media outlets.

Norway officials told AP they're "not alarmed" by the deaths and will continue to support the country's vaccination program. But they recommended elderly patients consult their doctors before getting the vaccine.

Only 13 of the 23 deaths have been assessed so far by the Norwegian Medicines Agency. All 13 occurred in people 80 or older living in nursing homes, and all were determined to be directly linked to the vaccine, the agency [told Norway Today](#)"

Seems it's happening on other countries too.

https://childrenshealthdefense.org/defender/norway-officials-not-alarmed-deaths-elderly-covid-vaccine/?itm_term=home

Spoiler alert: they're already tracking us. You have this thing called a smartphone on you all the time. The government already knows where you are at any giving moment AND if you've been vaccinated or not. Didn't you put your name and phone number on the form when you got your "free" vaccine? I thought so. This whole thing is moot. We're already chipped. It's just that most don't realize it yet. The need to carry this stupid passport is just a positive reinforcement manipulation technique. It's just another bite of food for Pavlov's dog, but make no mistake: the salivation reflex is already up and running.

NorthernEuropean 1 day ago *(Edited)*

Unfortunately, only in movies. Pedowood made us to believe that there are few good men out there who are fighting for the greater good in their free time. Movie Equalizer is great example.

In fact, to reach the sniper stage, men have to be really desperate with absolutely nothing to lose (or to get paid by someone, like in 1990s Soviet Union, when for hire snipers had huge demand).

We have not reached that stage yet, not too sure if we ever will, not in this lifetime)

▲ 2 ▼ Reply ↩

Tame stuff coming from the Rockefeller considering their sterling work on [Hepatitis B](#), [Zika](#) the entire [Chinese Communist Party medical system](#) and putting Wilhelm Reich in a Straight Jacket for weather manipulation. Surprised its not being implemented by psychic forehead tattoos like Laurence Rockefeller would have insisted upon..

[Justin Rockefeller](#) is involved with [Big Tech and Peter Thiel](#) so it might just be an opportunity to make money on behalf of the stupendously wealthy foundation and use their insider business contacts with [another generation of insane technocrats](#).

Linking digital banking, to the Covid Passport and Palantir smart cities would be enough for a suitable Rockefeller run Mark of the Beast system that controlled everyones meaningless lives down the minutest details.

I'd point out you had to get vaccinated for certain flights in the whole way through the 20th century so it isn't that new. Its more the desire to have to carry I.D to go to the shop that is frightening.

▲ 1 ▼ Reply ↩

Alice-the-dog 6 hours ago

So in order to be allowed to live, we have to risk our life taking a vaccine that has had little testing for immediate safety, none at all for long term safety, which Pharma is claiming 95% efficacy which no other vaccine has ever achieved? We know for a fact that we have at the bare minimum a 98% chance of surviving an infection. We have no idea what our chances are of surviving the vaccine. So lets play Russian Roulette to keep from catching a virus, so we can participate in life. They're all psychopaths.

▲ 1 ▼ Reply ↩

get nothing and like it 1 day ago

Safety First! It's always about Safety when they take away your rights and freedom. Yet another problem that can easily be solved by a free market. As a private company you should be able to impose any rule you want and as a consumer I can choose to do business with you or not. And more importantly competitors will arise to suit the desires of the marketplace. No vaccination airlines, etc .. I would even go so far as to say you can discriminate

ACTION PLAN FOR IMMEDIATE CHANGE to counter the corruption , censorship and surveillance by media/tech/finance giants and politicians:

1)Cancel Cable TV (All channels should be made available individually so consumers don't have to give money to channels they don't want to)

2)Do Not donate money to politicians & consider boycotting companies that give them money or pay them for speeches.

Some might decide to boycott Facebook, Twitter, Apple, Amazon, Microsoft, Google and Netflix for censorship or corruption issues alone.

3)Bank with small local banks & invest with small brokerages & insist your employer/pension fund do the same.

4)Support a pardon for Julian Assange & Edward Snowden and other whistleblowers/truth-tellers

5)Join Pro freedom social networks like MINDS and Gab ,where freedom of speech and truth are respected. Follow Zero Hedge and Project Veritas for pro truth/freedom news.

6)Use web browsers like Dissenter, Tor or Brave rather than Chrome or Safari when you surf the web.

Use search engines like Quant or DuckDuckGo rather than Google or Bing for web searches.

Use an email service like ProtonMail rather than Gmail.

Save important online videos/articles/posts to your PC hard drive or phone.

Post videos to Bitchute and LBRY rather than youtube

Shop online at Overstock and smaller independent retailers rather than Amazon/Wayfair

7)Use Linux operating systems like Linux Mint, Debian or others on your computer rather than Windows, Mac or Chrome OS (Almost any PC can be switched to Linux).

Use a Linux based smartphone like PINEPHONE or a "dumbphone" rather than Google Android or Apple iPhone.

Avoid buying a "smart" TV as it is smarter to buy a "dumb" TV with no operating system pre-installed.

Use a Linux mini PC with wireless keyboard on your TV for web browsing/computing/gaming/video streaming rather than amazon fire tv/roku/google chromecast/apple tv/microsoft xbox/nvidia shield.

8) Do NOT support the phony "War on Drugs" which causes more crime, death, murder, gang violence, incarcerations, enriching criminals while millions of people still use illegal drugs anyway.

9) Support a new foreign policy where We The People worldwide unite behind and promote the principles of truth/freedom/goodwill/integrity/humility/Non-Aggression Principle/Golden Rule and focus on winning hearts and minds.

10) Support a worldwide effort to voluntarily help others in the hope that it will win over more people to these principles.

Please share this plan of action with others via text, email & social media if you agree.

Here is the link to share this message. Thank You <https://www.minds.com/newsfeed/943148464663228416?referrer=truthfreedompeace>

Do stories like this help you decide to take matters into your own hands? You can wipe out colds and flu worldwide and they cannot stop you!

All you need to do is to attach orgonite, crystals and/or jewelry onto record players and turn the player on high. The materials generate frequencies that raise your cells' membrane potential which is your #1 defense against viral and bacterial infections.

The rotation activates the frequencies far beyond what they are when the objects are stationary.

We already have the flu on the run at historically low levels. Covid hospitalizations are also dropping. We need to make viral infections to become almost unheard of to take this overbearing issue away from the monsters who want to 'save us.'

Get in this now and let us nip this in the bud.

▲ 1 ▼ 2 Reply ↩

Indelible Scars 1 day ago

Kelley 1 day ago (Edited)

Are you familiar with the Hoover Dam? Do you know how many homes the Colorado River lit up before the dam was built? If you answered "Not many," you'd be overstating it. If you were standing by that river a hundred years before the dam was built, you'd never imagine it could light up places hundreds of miles away.

Today, you whip out your cell phone and think little of its ability to send your voice and your messages across the country. It's a given. When you were much younger, you might have turned on a radio to hear music or listen to a ball game.

So where are you standing right now? In 1832 or 2021? In 1832, what we now take for granted was impossible. But one person, Nikola Tesla, came along and turned rivers into electricity. Radios use the same materials to send out its electric waves as are found in orgonite.

I use the same principle that Tesla used, namely rotation, to raise the electricity in our bodies. The medical field has known about our electricity for some time now. That's why they are able to use EKGs, EEGs, and nerve conduction tests to diagnose.

We also have VOLTAGE Gated Cell Channels, cilia and microtubules that all rely on voltage. Every atom in our bodies is electrically charged, in fact.

Isn't it interesting that none of the things I've described is hard to understand, especially since we already have lights, radios and cell phones as reference points. Likewise you can do this simply and become one of America's heroes who rescues the world from a calamity not seen since the Dark Ages.

"Once you have multiple uses (e.g. access to services) in multiple domains (i.e. public sector, private sector), in multiple countries (i.e. travel), then we are approaching a **global identity** document needed to live your life,"

Is it just me or does that sound a bit like:

"An adaptation of mobile phone technology, called a GLiD - the Global Identification account - linked the user and their implants to a permanent and watchful internet. Those who did not readily join were gradually seen as an underclass, increasingly excluded from many of the benefits of the new society."

from the synopsis to <https://www.amazon.com/dp/B07N8C3WWS> Hmmm, written in 1999 about the early 2020s.

This has been in people's imaginations for a long time.

▲ 1 ▼ Reply ↩

mrjinx007 1 day ago

While [surveys have indicated](#) that around half the people in the world are not willing to take the vaccine at this stage. However, a recent poll has indicated that [74% of Americans say they are willing to get a COVID vaccination passport](#), should they be introduced in the U.S.

This from the link above:

However, when asked if they trust the vaccination enough to travel to high risk areas, a majority of 56% said no:

So, the question is, getting the vaccine does not prevent you from getting or transmitting the virus. If the concept is to prevention, shouldn't every traveler be tested?

The problem with that logic is that people would have to be tested daily before getting out of the house. I wouldn't doubt if the madness go that far and beyond; we are dealing with insane people at the helm here.

The Putsch Govt and Tech & Media Oligarchs are "Riding the Tiger"

The reason I'm laughing, is because Joe and the deep state are exposing themselves for who they are, a bunch of corrupt government officials who don't have the support of the citizens. Joe is going to have a really hard time unless they institutionalize the election fraud and continue it, which is my biggest fear because it means we've become a corrupt banana republic, and poverty will quickly ensue. Big government brings poverty to the public (and riches to the deep state) while freedom (i.e., small government that just protects our freedoms, rather than socialism that promises to provide for us but instead brings government forcing us to work) brings prosperity to the people.

Kelley 16 hours ago (Edited)

Covid and the flu should be dead in the water as of tonight.

A supporter of my effort to spread the Rotating Orgonite 'Movement' sent me some strong quartz crystals that arrived today. They went on a new record player combined with some other energy materials.

Another friend called to tell me she picked up \$100 worth of various crystals that she was adding to her record players today. She has more record players going than me - more than a dozen!.

The CDC's weekly influenza and Covid reports lag about ten days, so you won't see anything official right away. But you might notice a change in the air and a change in attitude.

The massive plot to control us might have died tonight. I expect to be doing more, but I have limited space here.

Please feel free to join this movement. All you need to do is to secure orgonite, crystals and/or gens on record players and turn them on high and let it run night and day.. **Not only will this rid the world of influenza of all types, it also boosts mood and energy in a very positive way.**

▲ ▼ Reply ↩

Kelley 20 hours ago (Edited)

We need to shut this shit down IMMEDIATELY - and we most certainly can because there is great news...

I'm an inventor, and I've been sharing this invention for free due to the dire need. **Viruses are activated electrically.** They use negative needles to penetrate our cell membranes, but they can only do that if the cell membrane's electrical potential is low. Otherwise they get repelled. That's what we've been doing – raising membrane potentials long distance much like WiFi or a cell phone [works at](#) a distance.

This invention is why the flu has barely existed this season and Covid hospitalizations have started to go down. It's easy to be a part of this.

You secure orgonite, crystals and/or jewelry to any record player and run the player on high. If you're not familiar with orgonite, you can find examples on Etsy or Amazon. They are made of a combination of materials that generate electrical fields when they are spun.

The fields go far and wide. To give you an idea, it has taken just 30 people with maybe 50 record players to have the effect we've had already. With just a little more oomph, viral infections could practically disappear.

The same energies also boost mood, and who couldn't use that these days.

One great advantage of this method is that TPTB would have a very difficult time trying to shut this down (too many people have jewelry, for example.) But we can shut them down.
