

# The Many Ways in Which COVID Vaccines May Harm Your Health

Analysis by [Dr. Joseph Mercola](#)

✓ Fact Checked

## STORY AT-A-GLANCE

- › COVID-19 vaccines are capable of causing damage in a number of different ways. Disturbingly, all these different mechanisms of harm have synergistic effects when it comes to dysregulating your innate and adaptive immune systems and activating latent viruses
- › The worst symptoms of COVID-19 are created by the SARS-CoV-2 spike protein, and that is the very thing gene-based COVID vaccines are instructing your body to make
- › While the natural spike protein is bad, the spike protein your body produces in response to the vaccine is even worse, as the synthetic RNA has been manipulated in such a way as to create a very robust and unnatural spike protein
- › The spike protein is toxic in and of itself, and has the ability to induce vascular, heart and neurological damage
- › The COVID-19 vaccine disables the Type I interferon pathway, which explains why vaccinated patients are reporting herpes and shingles infection following COVID-19 vaccination

In this interview, Stephanie Seneff, Ph.D., and Judy Mikovits, Ph.D., a dream-team in terms of deep insights into the scientific details, explain the problems they see with gene-based COVID-19 vaccines. There is a load of highly useful technical information that you can use to defend your opposition to these dangerous vaccines.

However, unless you have deeply studied molecular biology and genetics, it would be wise to view the video two or three times, as with each review, you will learn more and understand just how dangerous these vaccines are. I recently interviewed Seneff about the excellent paper<sup>1</sup> she published on this topic. That interview was featured in [“COVID Vaccines May Bring Avalanche of Neurological Disease.”](#)

In May 2020, I also [interviewed Mikovits](#) about the possibility of these vaccines causing reproductive harm and other health problems. At the time, Mikovits warned that fertility rates may drop thanks to the SARS-CoV-2 spike protein creating antibodies that attack syncytium, and indeed, we’re now starting to see that.

Still, the U.S. Centers for Disease Control and Prevention are recommending pregnant women get these vaccines, as well as children as young as 12, which is unconscionable, considering the potential lifelong risks and impairment of fertility.

## The Spike Protein Is the Bioweapon

As noted by Mikovits, we now know that the worst symptoms of COVID-19 are created by the [SARS-CoV-2 spike protein](#), and that is the very thing these gene-based vaccines are instructing your body to make. But it’s far worse, as the vaccines do not cause your body to make the same spike protein as SARS-CoV-2 but one that has been genetically modified, making it far more toxic. So, it’s no wonder things are going wrong.

*“The SARS-CoV-2 infection never was what they said it was,” Mikovits says.*

*“There was no infection asymptotically. It's a monkey virus coming out of a monkey cell line and that's the problem, but the spike protein is clearly [causing] the disease.*

*So, you just injected the envelope of HIV ... a syncytin gammaretrovirus envelope, and a SARS S2 receptor binding domain. That's not a vaccine. It is the disease-causing agent. It's a bioweapon. So now your cells are all producing that bioweapon and you're going to take out the innate immunity, NK [natural killer] cells and dendritic cells ...*

*You're going to disrupt your white blood cells, your immune response. You're going to turn on an anti-inflammatory cytokine signature in every cell of your body. It exhausts your NK cells' ability to determine infected cells. It's the nightmare we predicted.”*

## **The Spike Protein Produced in Your Body Is Highly Unnatural**

In her paper, **“Worse Than The Disease: Reviewing Some Possible Unintended Consequences of mRNA Vaccines Against COVID-19,”** published in the International Journal of Vaccine Theory, Practice and Research in collaboration with Dr. Greg Nigh,<sup>2</sup> Seneff explains that a significant part of the problem is that while the natural spike protein is bad, the spike protein your body produces in response to the vaccine is even worse.

The reason for this is because the synthetic RNA has been manipulated in such a way as to create a very unnatural spike protein that result in it not collapsing on itself into the cell once it attaches to the ACE2 receptor, as it normally does. Instead it stays open and attached to the ACE2 receptor, disabling it and causing a host of problems leading to heart, lung, and immune impairment. As explained by Seneff:

***“They modified the RNA to make it really sturdy so the enzymes can't break it down ... Normally, enzymes that are in your system would just break down that RNA. RNA is very fragile, but they've made it sturdy by putting in PEG [polyethylene glycol], by adding this lipid membrane, and the lipid is positively charged, which causes the cell to be very upset when that goes into the membrane of the cell.***

***But I think maybe the most disturbing thing is they actually modified the [RNA] code so that it doesn't produce a normal version of the spike protein. It produces a version that has a couple of prolines in it, side by side at the critical place where this spike protein normally would fuse with the cell that it's infecting.***

***So, the spike protein binds to the ACE2 receptor once it's produced by the human cell ... but it's a modified version of the spike protein. It has these two prolines that make it very stiff so that it can't reshape. Normally it would bind to the ACE2 receptor and then it would reshape and go straight into the membrane like a spear.***

***Because of this redesign, it can't do that, so it sits there on the ACE receptor, exposed ... That allows the immune cells to produce antibodies specific to that place where it should be fusing with the cell, the fusion domain. It messes up the fusion domain, keeps the protein open, and prevents the protein from getting in, which means the protein will just stick there on the ACE2 receptor, disabling it.***

***When you disable ACE2 receptors in the heart, you get heart failure. When you disable them in the lungs, you get pulmonary hypertension. When you do it in the brain, you get stroke. Lots of nasty things happen when you disable ACE2 receptors ...***

*The other thing they've done with the RNA is they've stuck in a lot of extra Gs (guanine) and Cs (cytosine), which makes it much better at making proteins. It's turned up the gain on the natural virus 1,000-fold, making the RNA much more willing to make a protein. So, it'll make a lot more spike protein than you would've had from a natural RNA virus."*

## **Reality Is Exponentially Worse Than Predicted**

With the added information provided by Seneff, Mikovits now believes the reality of these vaccines may be exponentially worse than she initially predicted a year ago. Not only is the lipid nanoparticle a serious hazard, as we've seen with Gardasil and some of the newer hepatitis B vaccines, but we now also have the added issue of unnatural mRNA, made more robust so as to evade its natural breakdown.

As explained by Mikovits, free RNA acts as a danger signal inside your body, so now your system is on red alert for however long the RNA remains viable. Now, by manipulating the RNA code to be enriched in G and C, and configured as if it's a human messenger RNA molecule ready to make protein by adding a polyA tail, the spike protein's RNA sequence in the vaccine looks as if it is part bacteria,<sup>3</sup> part human<sup>4</sup> and part viral at the same time.

*"We use poly(I:C) [a toll-like receptor 3 agonist] to signal the cell to turn on the type I interferon pathway," Mikovits explains, "and because this is an unnatural synthetic envelope, you're not seeing poly(I:C), and you're not [activating] the Type I interferon pathway.*

*You've bypassed the plasmacytoid dendritic cell, which combined with IL-10, by talking to the regulatory B cells, decides what subclasses of antibodies to put out. So, you've bypassed the communication between the innate and*

*adaptive immune response. You now miss the signaling of the endocannabinoid receptors ...*

*A large part of Dr. [Francis] Ruscetti's and my work over the last 30 years has been to show you don't need an infectious transmissible virus – just pieces and parts of these viruses are worse, because they also turn on danger signals. They act like danger signals and pathogen-associated molecular patterns.*

*So, it synergistically leaves that inflammatory cytokine signature on that spins your innate immune response out of control. It just cannot keep up with the myelopoiesis [the production of cells in your bone marrow]. Hence you see a skew-away from the mesenchymal stem cell towards TGF-beta regulated hematopoietic stem cells.*

*This means you could see bleeding disorders on both ends. You can't make enough firetrucks to send to the fire. Your innate immune response can't get there, and then you've just got a total train wreck of your immune system."*

With respect to Mikovits' comment that pieces and parts of the virus are actually worse than the whole virus, that is precisely what we have with the COVID vaccines. In last week's interview with Seneff, she explained how the manufacturing process leaves fragmented genetically modified RNA in the vaccine. They are not filtered out and assumed to be harmless, but as Mikovits states, this is not the case. This is being completely missed as one reason why this vaccine is so dangerous.

## **Latent Viruses May Flare if You Receive the COVID Vaccine**

As noted by Seneff, her and Mikovits' findings mesh well to explain many of the problems we're now seeing from these gene-therapies. For example, vaccinated

patients are reporting herpes and shingles infection following COVID-19 vaccination, which you'd expect if your Type I interferon pathway is disabled.

*"Basically, you've got these latent viruses that are not bothering you at all until your immune system gets completely distracted by this crazy thing going on in the spleen with all this messenger RNA and all these spike proteins," Seneff says.*

*"Immune cells are distracted from their other job of keeping these viruses in check. So, you get these other conditions showing up, and there are several. There's Bell's palsy (facial palsy), for example. There are over 1,200 cases of Bell's palsy reported after the vaccine in the Vaccine Adverse Event Reporting System (VAERS).*

*And when you look at the research of what causes that, they really point to the herpes virus and the varicella virus as being the source of Bell's palsy. The Type I interferon system is what you need to keep these guys in check, and so those viruses are getting enabled and they're causing symptoms.*

*That is actually a very bad sign. If a woman who's pregnant has a herpes flare-up during pregnancy, she has a twofold increased risk of producing an autistic son.*

*Also, in a study on 200 Parkinson's patients, compared to 200 age- and gender-matched controls, six of those Parkinson's patients had at least one episode of Bell's palsy in the past, whereas none of the controls had. So, it looks to me like the Bell's palsy is an indicator of a future risk of Parkinson's disease."*

To summarize, it looks as though pregnant women who are getting the COVID-19

vaccine are at increased risk not only for miscarriage but also for future infertility and having an autistic child. So, please, be careful out there and spread the word.

The best way to treat any disease is to prevent it. These vaccines simply are not decreasing COVID-19 but radically decreasing the health of those who receive it, especially pregnant women that the CDC merely a month ago encouraged to get vaccinated without a shred of safety evidence.

## The Importance of Type I Interferon

Mikovits has done a great deal of research on interferon for the last 40 years. Innate immune interferon makes up your entire frontline defense. People with HIV/AIDS have dysregulated Type I interferon, which allows parasites to gain a solid foothold. Interestingly enough, antiparasitic drugs such as [hydroxychloroquine](#) and [ivermectin](#) have been shown to be effective against COVID-19, both prophylactically and in treatment.

**“ COVID-19 vaccines are capable of causing damage in a number of different ways. Disturbingly, all these different mechanisms of harm have synergistic effects when it comes to dysregulating your innate and adaptive immune systems and activating latent viruses.”**

Mikovits cites a research paper<sup>5</sup> titled “War and Peace Between Microbes,” which details how HIV-1 interacts with coinfecting viruses, thereby accelerating the disease. Herpes viruses in particular have been implicated as a cause of AIDS. Human

herpesvirus 6 (HHVS-6) has also been implicated in myalgic encephalomyelitis or chronic fatigue syndrome (ME-CFS).

In short, these diseases, AIDS and ME-CFS, don't appear until viruses from different families partner up and retroviruses take out the Type 1 interferon pathway.

In short, the COVID-19 vaccines are capable of causing damage in a number of different ways. Disturbingly, all these different mechanisms of harm have synergistic effects when it comes to dysregulating your innate and adaptive immune systems and activating latent viruses. "It's just an explosion of a nightmare of crippling every area of your immune response," Mikovits says.

## **SARS-CoV-2 Spike Protein Engineered With HIV**

According to Mikovits, there's evidence showing the SARS-CoV-2 spike protein was engineered by integrating HIV and XMRV proteins. XMRV stands for xenotropic murine leukemia virus-related virus, a human retrovirus that is very similar to endogenous retroviruses also found in other mammals.

XMRV has been linked to ME-CFS. HIV, which can cause AIDS, is another human retrovirus (although as mentioned earlier, HIV does not appear to trigger AIDS all by itself. It needs a coinfection.)

*"Our endogenous gammaretrovirus is called human endogenous retrovirus-W (HERV-W). HERVW is all the way back in genesis in our original endogenous genome. It's a gammaretrovirus that expresses only the envelope, because in retroviruses, the envelope alone is enough to cause the disease. That envelope protein is called syncytin. They're [now] calling it 'spike protein' just to throw us all off," Mikovits says.*

According to Mikovits, the SARS-CoV-2 virus was created by introducing a mutation into a molecular clone. Vero E6 monkey tissues are known to be infected with SIV and other gammaretroviruses, and the SARS-CoV-2 virus has markers suggesting it was grown in a Vero E6 cell line, she says.

*“So syncytin is the gammaretrovirus; it cross-reacts with the mouse and monkey gammaretroviruses. Monkeys, mice all have syncytin. Endogenous viruses express, especially during hormonal cycles. When it's expressed in the wrong place, like in the brain or the spinal cord, it's long been associated with the inflammatory disease and the destruction of the myelin sheath in multiple sclerosis (MS).*

*So, syncytin expressed in the wrong place gives you the paralytic diseases. We know Parkinson's is associated with Type I interferon responses. We're now starting to appreciate that there is low-level expression of our endogenous virome all the time, and that in our innate immune response it's trying to shape and educate our Type I interferon pathways ...*

*The final and biggest problem is these exosomes, because your body's exosomes are like your cells' response to express its regulatory RNAs, small inhibitory RNAs, long-chain non-coding RNA – which Ritchie Shoemaker has long associated with chronic Lyme and ME/CFS – and the TGF-beta I pathway.*

*TGF-beta I, that's the master switch to turn on which Type I interferon, which [is needed for] myelopoiesis. But these exosomes are packaging not only RNA that you're making, but now you've dysregulated the methylation so you've woken up your endogenous virome, and then syncytin is going to be expressed.”*

## How mRNA Can Alter Your DNA

In her paper, Seneff also describes how mRNA can, in fact, alter your DNA, essentially integrating the instructions to make spike proteins into your genome. Typically, mRNA cannot be integrated directly into your genes because you need reverse transcriptase.

Reverse transcriptase converts RNA back into DNA (reverse transcription). However, there's a wide variety of reverse transcriptase systems already embedded in our DNA, which makes this possible. This is an area that Mikovits has studied for decades, so, commenting on Seneff's findings, she says:

*"When you activate latent and defective viruses, you turn on reverse transcriptase; you turn on the virome. But you also need an integrase gene. So how are retroviruses silenced? [Through] DNA methylation. [When] you throw in a lot of GC-rich regions – you've got that synthetic viral particle [i.e., the vaccine-induced spike protein RNA] – now you've woken up your herpes viruses.*

*[Latent viruses] are silenced [through] DNA methylation, but as our soil is depleted in minerals, we have people with methylation defects. This is why I said the first people who are going to die are people with inflammatory conditions and cancer."*

## SARS-CoV-2 Spike Protein May Be a Prion

In her paper, Seneff also discusses evidence suggesting the SARS-CoV-2 spike protein may be a prion, which is yet another piece of really bad news. "It's absolutely terrifying to me," she says, adding:

*"I'm now thinking that may be the worst aspect of these mRNA vaccines,*

*because they're producing this abnormal spike protein that doesn't want to go into the membrane. Prion proteins are known to be membrane proteins. They're alpha-helices in the membrane and then they misfold, becoming beta-sheets in the cytoplasm, and that's what leads to the prion problem.*

*They form a crystal that draws in other proteins and makes this big mess and builds fibrils and Alzheimer's plaque. The main prion protein is PrP, which is in Creutzfeldt-Jakob disease, the human form of mad cow disease. It's a sort of protein-source infection. It's quite wild because there's no DNA involved, no RNA involved, just protein.*

*But the thing is, when you have produced a version of mRNA that knows how to spew out tons of a prion protein, the prion proteins become problematic when there's too many of them and the concentration is too high in the cytoplasm.*

*And the spike proteins that these mRNA vaccines are producing ... isn't able to go into the membrane, which I think is going to encourage it to become a problematic prion protein. Then, when you have inflammation, it upregulates alpha-synuclein [a neuronal protein that regulates synaptic traffic and neurotransmitter release].*

*So, you're going to get alpha-synuclein drawn into misfolded spike proteins, turning into a mess inside the dendritic cells in the germinal centers in the spleen. And they're going to package up all this crud into exosomes and release them. They're then going to travel along the vagus nerve to the brainstem and cause things like Parkinson's disease.*

*So, I think this is a complete setup for Parkinson's disease. What may happen is that because they got this vaccine, they get Parkinson's disease five years*

*earlier than they would have gotten it otherwise. It's going to push forward the date at which someone who has a propensity towards Parkinson's is going to get it.*

*And it's probably going to cause people to get Parkinson's who never would have gotten it in the first place – especially if they keep getting the vaccine every year. Every year you do a booster, you bring the date that you're going to get Parkinson's ever closer.”*

## **Are Viral Vector Vaccines Better or Worse?**

Two of the four COVID-19 vaccines on the market in Europe and the U.S., AstraZeneca and Johnson & Johnson, are using viral vectors and DNA rather than using nanolipid-coated mRNA. Unfortunately, while potentially slightly less dangerous than Moderna's and Pfizer's mRNA versions, they can still cause significant problems through mechanisms of their own. As explained by Mikovits:

*“As mentioned, it's an adenovirus vector expressing the protein. So, the HIV, the XMRV envelope, the syncytin, the HERV-W envelope and the ACE2 are already being expressed in the vector.*

*With respect to the RNA component, it's less dangerous because you're not going to see much of the mechanisms we've been talking about. But these adenovirus vector protein-producing vaccines are grown in an aborted fetal tissue cell line, so now you've got human syncytin [in there]. You've got 8% of the human genome of another human.*

*So, again, looking at the communication that has to regulate your Type I interferon response, it's going to give you autoimmunity. In immunocompromised people, it's going to continue to express and that will*

*give you a live infection, and you already have your firetrucks fighting another [infection]. You can't fight a war on three fronts.*

*I say, 'You only need one shot because it's the most toxic.' It's the most toxic in that sense. We have many mechanisms to degrade RNA, and we can restore methylation machinery. It's a nightmare, but I believe our immune system can break it [the synthetic vaccine mRNA) down."*

## **Can COVID Vaccines 'Shed' or Transmit Infection?**

Disturbingly, it appears the COVID-19 vaccines may also cause trouble for those who decide not to get the shots but spend time in close proximity to people who did. While it cannot be viral shedding, as none of the vaccines use live or even attenuated virus, there appears to be some sort of spike protein transmission going on.

While the spike protein cannot replicate or multiply like a virus, it is toxic in and of itself. In her paper, Seneff details how the spike protein acts as a metabolic poison, capable of triggering pathological damage leading to lung damage and heart and brain diseases:<sup>6</sup>

*"In a series of papers, Yuichiro Suzuki in collaboration with other authors presented a strong argument that the spike protein by itself can cause a signaling response in the vasculature with potentially widespread consequences.*

*These authors observed that, in severe cases of COVID-19, SARS-CoV-2 causes significant morphological changes to the pulmonary vasculature ... Furthermore, they showed that exposure of cultured human pulmonary artery smooth muscle cells to the SARS-CoV-2 spike protein S1 subunit was sufficient to promote cell signaling without the rest of the virus components.*

***Follow-up papers showed that the spike protein S1 subunit suppresses ACE2, causing a condition resembling pulmonary arterial hypertension (PAH), a severe lung disease with very high mortality ...***

***Suzuki et al. (2021) went on to demonstrate experimentally that the S1 component of the SARS-CoV-2 virus, at a low concentration ... activated the MEK/ERK/MAPK signaling pathway to promote cell growth. They speculated that these effects would not be restricted to the lung vasculature.***

***The signaling cascade triggered in the heart vasculature would cause coronary artery disease, and activation in the brain could lead to stroke. Systemic hypertension would also be predicted. They hypothesized that this ability of the spike protein to promote pulmonary arterial hypertension could predispose patients who recover from SARS-CoV-2 to later develop right ventricular heart failure.***

***Furthermore, they suggested that a similar effect could happen in response to the mRNA vaccines, and they warned of potential long-term consequences to both children and adults who received COVID-19 vaccines based on the spike protein.***

***An interesting study by Lei et. al. (2021) found that pseudovirus – spheres decorated with the SARS-CoV-2 S1 protein but lacking any viral DNA in their core – caused inflammation and damage in both the arteries and lungs of mice exposed intratracheally.***

***They then exposed healthy human endothelial cells to the same pseudovirus particles. Binding of these particles to endothelial ACE2 receptors led to mitochondrial damage and fragmentation in those endothelial cells, leading to the characteristic pathological changes in the associated tissue.***

*This study makes it clear that spike protein alone, unassociated with the rest of the viral genome, is sufficient to cause the endothelial damage associated with COVID-19. The implications for vaccines intended to cause cells to manufacture the spike protein are clear and are an obvious cause for concern."*

As explained by Mikovits, the transmission that appears to be occurring from vaccinated individuals to unvaccinated ones is the transmission of exosomes, basically, the spike protein. The problem is these exosomes look like a virus to your immune system, and "If that synthetic nanoparticle is a virus-like particle and they're literally self-assembling, then you've got yourself a synthetic nightmare," she says.

## **Which Vaccine Is Most Dangerous?**

As for which vaccine might be the most dangerous, Mikovits believes the vector-based DNA vaccines (AstraZeneca and Johnson & Johnson) are the most dangerous for those with chronic Lyme disease or any inflammatory disease associated with an abnormal host immune response, such as shingles, viral infections or cancer, women who have already received the Gardasil vaccine (as this may predispose them to problems with the lipid nanoparticle), and those with Parkinson's or Huntington-like diseases.

Seneff, meanwhile, worries that children may be susceptible to either type of COVID vaccine, simply because they've already received so many different vaccines.

Mikovits agrees, but believes the mRNA vaccines may be more harmful in this age group:

*"The most dangerous to the children are the mRNA vaccines because their immune systems are growing, growing, growing, growing. You introduce or*

*you turn on a fire, what happens? All the stem cells that are important for growing that say, 'OK, all is calm in the immune system, go build bone, go build brain cells, go do the pruning with the macrophages.' You can't have your macrophages clearing all the viruses.*

*And yes, reverse transcriptase is 'on,' it's expressed in telomeres. You're growing. That's the whole idea of everything. All the brakes are off. Same thing in pregnancy. That's why we don't do anything in pregnancy because you've got to stay unmethylated in order to respond to your environment, that endogenous genome of the virome. That's your Type I interferon responses.*

*You don't want myelopoiesis, you want embryonic development. We're going to see things like Down syndrome ... Rett syndrome. Rett syndrome, that's inappropriate DNA methylation in little girls. So, for the kids, the worst thing in the world is the RNA vaccines."*

## **What Can We Expect to See More Of?**

While the variety of diseases we may see a rise in as a result of this vaccination campaign are myriad, some general predictions can be made. Seneff believes we'll see a significant rise in cancer, accelerated Parkinson's-like diseases, Huntington's disease, and all types of autoimmune diseases and neurodegenerative disorders.

Mikovits suspects many will die rather rapidly. "We have evidence in the HTLV-1 associated myelopathy that these things go from long latency periods to [putting] you in a wheelchair in six months," she says. "So, with all these other toxins combined hitting you, it's not going to be 'live and suffer forever.' It's going to be suffer five years and die."

She likens the COVID-19 vaccines to a "kill switch" for all who have been previously

injured by vaccines, whether they actually realize it or not. As noted by Mikovits, it's been shown that 6% of the American population are asymptotically infected with XMRVs and gammaretroviruses from contaminated vaccines. The COVID shot will effectively accelerate their death by crippling their immune function. "The kids that are highly vaccinated, they're ticking time bombs," she says.

## What Are the Solutions?

While all of this is highly problematic, there is help. As noted by Mikovits, remedies to the maladies that might develop post-vaccination include:

---

Hydroxychloroquine and ivermectin treatments

---

Low-dose antiretroviral therapy to reeducate your immune system

---

Low-dose interferons such as Paximune, developed by interferon researcher Dr. Joe Cummins, to stimulate your immune system

---

Peptide T (an HIV entry inhibitor derived from the HIV envelope protein gp120; it blocks binding and infection of viruses that use the CCR5 receptor to infect cells)

---

Cannabis, to strengthen Type I interferon pathways

---

Dimethylglycine or betaine (trimethylglycine) to enhance methylation, thereby suppressing latent viruses

---

Silymarin or milk thistle to help cleanse your liver

---

From my perspective, I believe the best thing you can do is to build your innate

immune system. To do that, you need to become metabolically flexible and optimize your diet. You'll also want to make sure your vitamin D level is optimized to between 60 ng/mL and 80 ng/mL (100 nmol/L to 150 nmol/L), ideally through sensible sun exposure. Sunlight also has other benefits besides making vitamin D.

Use time-restricted eating and eat all your meals for the day within a six- to eight-hour window. Avoid all vegetable oils and processed foods. Focus on certified-organic foods to minimize your **glyphosate exposure**, and include plenty of sulfur-rich foods to keep your mitochondria and lysosomes healthy. Both are important for the clearing of cellular debris, including these spike proteins. You can also boost your sulfate by taking Epsom salt baths.

To combat the toxicity of the spike protein, Seneff suggests optimizing **autophagy**, which may help digest and remove the spike proteins. Time-restricted eating will upregulate autophagy, while **sauna therapy**, which upregulates heat shock proteins, will help refold misfolded proteins. They also tag damaged proteins and target them for removal.

It is important that your sauna is hot enough (around 170 degrees Fahrenheit) and does not have high magnetic or electric fields. Last but not least, Mikovits recommends never getting another vaccination.

*"We knew the flu shot would drive the disease," she says. "It's the combinations. That's a ticking time bomb sitting there in every cell. So never get another vaccine and be very careful about drugs that compromise your immune system.*

*The answer is, don't hyper-immune activate. Don't eat GMO. Don't ingest it and don't inject it. And don't put it on your skin. Don't use toxins on your hair. Use essential oils, use antimicrobials ... ozonated balms and creams break*

*apart the lipid particles, cannabis balms and creams normalize skin, [which is part of] your immune system ...*

*Remember, immune dysfunction accelerates every time you add an immune activation event. So, if the entire world never again took another shot, even the most susceptible populations, they could stay well ... We really have to say no more shots because they're the single biggest toxin to anyone, and an immune dysregulator."*

## Darzoum

When I read this article, I can't help but being struck by the awesome complexity and nuance of the human body, and the completely idiotic hubris of those who think they can just go in there and start tinkering with that design. Like any fine instrument, that design's operational integrity is optimized within certain parameters through unimaginably interconnected checks and balances; and that bio-physical system is the vehicle for a unique consciousness whose psychology and mentality redound back upon that biology in innumerable profound ways. By comparison, conventional medicine is often on the level of cavemen with clubs.

Many of us thought the pre-covid vaccine schedule was already a policy of insanity for just this very reason, for its bullish disregard for the natural synergies of our biology's various systems. How much more so, now, with injected, experimental gene treatments, and with an entire array of new such injectable "operating systems" in development? I don't care how brilliant any group of scientists may think they are, they are no match for whatever created that design. The best they can do is assist natural processes to takeover and do the actual healing. Doctors can stitch-together a wound, but if that breach did not somehow—miraculously—knit itself back together, they would be helpless in getting it to do so. In other words, they cannot create life.

They can, however, create death, as we're seeing. If this "vaccination" program is really the administration of injections deliberately intended as bio-weapons, then these comments are moot. But if all of this is really someone's lame idea of a path to health, then it only highlights the superiority and

sanity of non-drug-based lifestyle approaches that work with nature, as promoted by Dr. Mercola and others of a similar mindset.

## Cabochon

“Cavemen with clubs”, indeed, Darzoum. It is my job now to “translate” the transcript of the Mikowitz, Seneff and Mercola discussion into everyday speak - an important skill that health therapists employ to get the message across - distribute it to those who need to know, especially those already injected and include a glossary of scientific terms plus the credentials of scientists whose advice must not be ignored. This will hopefully sow the seed of doubt about the need for injections that risk the health, fertility and that of their children. With our understanding of the true agenda, it is easy for us to accept the science generously provided by mercola.com but what about the sheeple? Not even the fact that a one million protest march that took place in London yesterday went unreported on mainstream media can convince them that something is wrong.

[www.rt.com/.../525169-london-freedom-march-protest](http://www.rt.com/.../525169-london-freedom-march-protest)

Three cases from the immediate family illustrate the difficulties ahead. The first accepts the technology of a “new type of vaccine” because “there is always resistance to anything new” and has, in spite of receiving the gift of a copy of Dr M’s book from me, an unshakeable faith in the medical profession. The second is a wealthy and highly educated family with an autistic child who dutifully question nothing that they hear on mainstream media and dismiss anything that threatens their comfortable, ‘Stepford Wives’ existence in their imaginary universe. The third is a health professional who has with other colleagues appealed through her union to prevent her state employer from mandating staff “vaccination”. Constructive dismissal is on the cards with the inevitable consequences for the family finances. Real life unfortunately does not always conform to the high ideals of us cognoscenti.

## **ymiranthis**

Medical authorities have unleashed HASTILY created gene therapies, and by now they must know that they cannot fully explain, anticipate, control, contain, reverse or even mitigate the many effects of these biologics; that's a big fail. They unleashed these therapies with a purpose; the world is already seeing that the results of their therapies are NOT limited to what was intended.

Organized medicine still doesn't fully understand the pathophysiology of the human body, not because researchers have not worked hard at it, but because the body is unimaginably complex. Considering the path that Medicine is on today, they may never fully understand it; medical school curricula and funding for medical research today are controlled and provided by Big Pharma, and a HUGE portion of that money goes toward studies intended to help sell patented pharmaceutical drugs--not toward integrative medicine studies, not to build understanding of health. To design truly safe gene therapies (safe meaning that they won't harm or kill people) may require a creator-level understanding of the human body--an understanding that Big Pharma does not possess.

## juststeve

Darzoom, how perfectly expressed!!!! While we look at the potential disaster we are most likely facing ahead, so far most of our information of concerns have been human centric. Not necessarily a bad thing, but, as things progress we should also ask what are the potential affects on all the many lifeforms interacting with the Foundations of Life? As has been expressed in some sources many of our diseases are sourced from the animal kingdom are from centuries of a further & further condensation of animals held in one spot allowing disease not only to spread, but to mutate ever faster. Our modern agriculture has taken this trend to the farthest regions of madness. If the vaccinated shed toxin's affecting humans, it is not unreasonable to expected it affects all Life from the microbes & up the ladder of Life Forms.

Just announced the other day the first case of Wasting Disease in a deer in New York in five years, farm raised of course. This being not wild animals, but remember it can spread to the wild, directly points to the madness of feeding cows filth & antibiotics in cattle feed making not only farting cows but cows consuming flesh. Most likely Mad Cow disease is making its way around livestock & dead diseased animals are being ground up 'because it's cheap' & more digital, paper profits can be made. If one considers this & it turns out there is merit to be concerned, just how bad will the destruction be as our Death Eater Overlords push their campaign to rid themselves of the disease of unworthy, reckless breeders, worthless eaters.

Posted On 05/30/2021

---

## stanleybecker

some very pertinent points raised by you steve - we condemn wild mammals for being disease vectors but fail to realize that we are the source of these diseases - Mankind remains stupid - as the saying goes "a little bit of knowledge could be dangerous"

## stevod71

That's a fantastic comment. Feel like sharing it word for word to fakebook. I couldn't agree with you more. I love how complex the human body is, it's utterly fascinating. If more time, money and intellect was spent trying to further understand it instead of trying to outsmart several millennia of adaptations I wonder where we could be certainly not staring down the barrel of a health crisis like none of us have ever seen before or can actually predict.

## Randyfast

Hi, David. You spend a lot of time at the top of the posts. :) Of course, it's well deserved...so many great posters on this site.

I told the woman in the house about a mainstream (Canadian) article yesterday that stated, a number of vials of the covid "substance" reached the expiry date. They are still going to dispense them a month from now! The woman (who insists on getting the shot, so she can travel) merely shrugged it off; as if it were inconsequential! I've tried talking sense to people. It's as if I'm speaking some foreign language, in some lost dialect. The million/billion dollar question is; will they put an end to this madness, after millions die from the shot? Or...will they blame it on covid? What I see coming; is that most of the people will die (or be permanently disabled) after a few months, or even a couple of years; in which case, the talking heads will claim that there's absolutely no connection to the DEATH JABS! Am I wrong?

## Kassie

Cabochon- Many thanks for sharing the link to the massive London protest march that took place yesterday. How it lightens my spirit to see that! One of my adult like- minded children commented to me yesterday that she feels like it's over, like we've already lost. I understand that discouragement, the feeling of being out- numbered and alone. But it's a lie! We are not alone, there are millions of us who are standing against this tidal wave of oppression. The video gave me renewed hope and encouragement, as I know it will my daughter. We may be largely silenced right now, but we are legion, determined, and we are not going away!

Posted On 05/30/2021

---

## Krofter

Here is another link about the London protest. Catch the sign that says "We are the carbon they want to recycle". Note the cover song and the credits for it at the end. What are we hearing about this in the US?....crickets. The BBC said 100 to 200 people marched. See what you think.

[www.youtube.com/watch](http://www.youtube.com/watch)

Posted On 05/30/2021

---

## Kassie

Krofter- Thanks a million for posting that expanded video of the London Protest March! I love the words of the music, too, and the message shared by the people and the signs. The BBC said 100-200 people were there? Thank goodness for videos like this that prove what complete liars these MSM devils are. God bless our righteous brothers and sisters around the world who fearlessly stand with us in truth, freedom, and love for humanity.

## fundamentalassumptions

The complexity of the body of man leaves me with awe for the Creator, Christ, and the awesomeness of the reality it only images. And this is just the visible, not even touching the soul & spirit save what houses & expresses it currently & in a fallen, corruptible state, no less.

Astounding. Then we have the earth & the universe with all the complexities, interactions & so forth ... mind-boggling.

The implications of evil in this actual article must be shared, but I confess, are so dark that they leave me rather speechless as it all sinks in. I'm left to fellowshipping with commenters...for the time being as it's digested.

I say, Kudos, Stanley! and, Two-heads....is that like dialectic & professional agitator creating division & crisis? Possibly AI? Or the type of vanity that thinks it can hold & believe two opposing ideas to both be true?

Posted On 05/30/2021

---

## rrealrose

Darzoum, I don't have an answer yet if comments are moot or not; however, following someone's link I found several recent DW videos yesterday, binge watched a few recent documentaries, on topics of "Pharma control on pricing", outlining new, rare lymph-based cancer therapies - formerly thought to be incurable, using different but not unrelated to these shots; 2. "Silent Summer", the disappearance of a large majority of insects in Germany and work being done to counter massive insect losses. Catch these while you can, the Germans are way ahead in agricultural issues leading to ecological collapse than I have seem coming from other places...cannot help but wonder if this entire "event" was not a media circus, theater on a grand scale to cover over major signals not seriously reported on.

Posted On 05/30/2021

---

## RusticWoody

Beautifully put, Darzoum. I couldn't agree more, and am perplexed by the unquestioning sheep's perspective, that relies on 'propaganda programming' (the 'Biased Brainwashing Corporation' being a government tool to impart such vacuousness) and such naivety among the unthinking, unquestioning public. I think it's true to say that rumours abound about dropping IQ levels seem indeed to be correct, if such HUGE numbers of people have willingly bought into this (all part of depopulation - which a couple of years ago saw the US buying up tens of thousands [millions?] of plastic coffins; again WHY?).

Our bodies are immensely complex, as you rightly point out; and science and doctors seem to think very much in sound-byte like analysis terms, that simply do NOT encompass any macro vision of health and wellbeing as being extraordinarily complex and multi-faceted modalities. Medicine is far too removed from nature now (and dangerously so), and we humans are running a VERY risky game when we attempt to play with (against) nature. Nature will always win, and we cannot ever hope to compete. If we THINK we can (very cavalier, IMO) then we are playing with fire, and nature will deal with us accordingly - be that snuffing us out as a species, or balancing things some other way. But humans have incredible arrogance in this regard, and it will come back to bite, and haunt us, further down the line someday!

---

## steelj

Randyfast, if people start suffering dire effects including huge numbers of deaths, I think no, you

are not wrong. It will be blamed on something else. The same people who see clearly today will know why it's happening, and the same people with blinders on today will believe the lies of the psychopaths.

Darzoum's eloquent explanation of the dangers of overreach in manipulating biology are useful in evaluating Mikovits and Seneff's warnings. Don't get me wrong, I appreciate them both greatly. But Mikovits in particular comes across as speaking with such certainty of the impending disasters it's useful to remember her predictions are within the context of the same complexities the vaccine makers deal with. The human body (not just humans btw - all animals' bodies) is so complex and can be so resilient I think her air of authority is uncalled for. It might unfold just as she says, then again it might not. She's very knowledgeable and I'm thankful she speaks out. She's not omniscient.

She reminds me of people I have known, very successful, decorated even, in technical fields, who have psychological issues that somehow prevent them from properly evaluating ANY issue, professional or personal. Not saying she is that way, but when I hear her or read her words, it's exactly what I've seen before in those people. Which I can't ignore. Dr. Mercola, by contrast, while he does NOT mince words (which I love), comes across as knowing he is a human being and does not have all the answers beyond a shadow of a doubt.

Posted On 05/30/2021

---

**lin3741**

Randy, no yr not wrong (about the blame) bc they are ALREADY doing that! Just like everyone who died at the beginning of covid was a "covid death", now it's the other way around, if you die from the jab it must have been something else! Just depends on which day it is!!!

Posted On 05/30/2021

---

**stanleybecker**

having read the article and given it a critical interpretation - the conclusion concerning the experimental incompletely trialled pseudo vaccinations that are being forced on the public as part of a commercial Campaign that has integrated assistance from the political class and the compliant media on a planetary level - this is a DRUG PUSHING PROGRAM that operates on a global level -

this article features two academically qualified and experienced commentators Mikovits and Seneff {both well known to this site} - what is the outcome of the dialogue between these two eminent scientific investigators ?? - their message is clear and unequivocal - the push by Pharma to inject billions of human beings with either a synthetic RNA that does not readily dissolve in the organism and leads to the unrestrained production of a pathogenic spike protein {Pfizer and Moderna} or the introduction of a monkey virus that triggers an immune reaction and has 8 % fetal syncytium has many of the same dangers {Johnson and Johnson/ AstraZeneca} and the added danger of viral overload - what you have is Hobson's Choice as both pose major threats - Mikovits and Seneff concur that what is being promoted as a panacea for human health is quite the opposite - a nightmarish ticking time bomb of future diseases caused by these LIABILITY FREE coerced fascistic Nazi experimentation - the irresponsibility of the DERANGED human beings that support Pharma in their quest to not only exponentially increase their wealth but also to enslave the human population so that these disease causing pseudo vaccinations are mandated so that Mankind is now forced to not obey the biblical commandment of "go forth and multiply" but now the new edict has become "shrivel up and die painfully" - here Mikovits and Seneff and everyone that has one working brain cell come to the same conclusion - DON'T VACCINATE - IF YOU VALUE YOUR LIFE AND THAT OF YOUR CHILDREN - DON'T VACCINATE - this is the TRUTH - in God's Creation

Posted On 05/30/2021

---

## Cabochon

Thanks, Stan for that and for your reminder re an employer's liability for adverse reactions following a mandated vaccine. I will inform my niece of this fact, should her employer try to enforce the issue. I have already sent her information re the impossibility of informed consent for an experimental medical intervention and that this violates the Nuremberg Agreement. There is also of course the issue of the Hippocratic Oath to first do no harm and she (or her Union representative) could quote statistical information from VAERS or its equivalent in the - UK the

## Yellow Card Scheme.

Personally I think the legal framework is the best way forward and that a lawyer would be the best person to help. There was no mandate re vaccinations when she signed her original contract, therefore how can her employer change the conditions of contract midstream? That sharp legal brain, Reiner Fuellmic, having reviewed the evidence from the best scientific sources has unequivocally warned people not to get the "vaccine". His main UK rep on the international legal committee The UK representative on his tort case initiative is advocate Francis Hoare. Perhaps it would worth contacting him to enquire about legal redress.

## forbiddenhealing

Stan, Funny that Chinese Sinovac vaxx is not a genetic based shot? This Seneff/Mikovits interview is a very complicated exposition which in real practical terms points to a small inexpensive "tool box" of defensive provisions and practices. Sunshine, sweating, breathing and building heat-shock proteins are free!

Posted On 05/30/2021

---

## Randyfast

Hi, Stan. You and I, both know that all of this insanity was pre-planned - decades ago! I saw all of this coming and I know where it's headed. I'm already on record as stating: "It will be hell on earth!". The even scarier part, is that the globalists have access to technology that most of us have never seen. It should be clear and evident by now, that this technology will NOT be utilized for the betterment of humanity!

Posted On 05/30/2021

---

## Marago

Stanleybecker—So eloquently spoken, as is this entire article although some of the science presented is above my pay grade. Perhaps if vaccination passports are required for travel, the airlines will be carriers of dead bodies. Just a horrible, sarcastic thought.

Posted On 05/30/2021

---

## rrealrose

Stanley, you've got it! Zach Bush referred to it as the "Medical, Industrial and Banking Complex" - I think that's how he called it.

Posted On 05/30/2021

---

## lin3741

Exactly....they are essentially (and so far successfully) creating a ZOMBIE planet. While that may sound silly and fictional, it really is not far from the truth. Look at what types of diseases are in the offing.....neurological, so people will be tied down, no quality of life...mental, such as autism, Down's syndrome, etc. so they cannot THINK (or question) ....they want a society that cannot function! And who is going to take care of all these disabled folks? Or will they be institutionalized for even more fffd up mad scientist experiments? Oh, i def think sterilization was always part of this genocidal plan too. No more LIVING life, More like Its going to be ENDURE life then die for most people. I do wonder if the day will come where all of this is utterly exposed or if this absurd perverted genocide will be "allowed" to simply continue. No matter what i post, think or say to others it seems to always boil down to how controlled, owned and paid off the media is. If we can no longer have access to ALL information, honestly, maybe there really is no hope. Seems like

**MSM holds the key. (Sad and pathetic as that is).**

Posted On 05/30/2021

## **SunsetBob**

**Thank you, Stanley!**

**Shannon, I agree with your question, as this is also a huge concern for me. I will start doing some research, and also reach out to some people. As it stands, I'm "afraid" to come into contact with vaccinated people. Heck, the woman that cuts my hair announced she is getting vaccinated so that she "won't have to wear a mask" when she cuts hair. So do I now seek out an unvaccinated**

hair stylist? Oh brother, what a mess! I will report what I find. Will you (and anyone else) please do the same? Thanks, Joseph

This article presents some remedies for vaccinated people.....which I assume are also remedies for unvaccintaed people who have been exposed to Shedding?

Posted On 06/03/2021

---

### **IzzyKitty**

Deb3848 OSHA has ruled here in US if employer requires vaccination they are to be held liable for all damages to the employee. Now whether or not a Dr will admit the damages are caused by the "jab" is doubtful. Please look up OSHA online and you should be able to see this new ruling. At least you could print their ruling and your son can take it to his employer.

Posted On 05/30/2021

---

### **traveler4too**

I believe that OSHA has changed their position. They first said that if an employer mandated the shot, that any adverse reactions had to be reported. Now they say it is not mandated to be reported so it apparently opens up new questions as to liability.

Posted On 05/30/2021

---

### **brodiebrock12**

I thought OSHA back tracked on that statement or was coerced to do so?

Posted On 05/30/2021

---

## IzzyKitty

Check out "DR REINER FUELLMICH" from James Delingpole on Vimeo. <https://vimeo.com/553673924>

Please everyone that hasn't watched this video do so now. It's worth watching because it is about a lawyer who got a group of lawyers and scientist together from all over the world to dig into what and how COVID was started. This same group is now filing lawsuits against the very people who are trying to convince the world the 'jab' is the savior to the plandemic. At first I figured I would watch a few minutes thinking he would talk over my head etc but no I watched the entire interview which is rare for me, it is that good. God bless everyone on this site I've learned more about health here than from any dr. Go figure. Doctors scare me. They helped my brother die young and I recently lost my mother because of below standard care. My entire family is now gone and looking looking back I can see sub standard health care being biggest cause. It's heart wrenching to say the least.

Posted On 05/30/2021

---

## NewlandsWanderer

IzzyKitty - thanks for the link. So sorry to hear about you losing your family to sub standard health care. Bless you!

Posted On 05/30/2021

---

## Retsbew

Dear IzzyKit, you've been through a lot. You found one of the very best interviews with Dr. Reiner Fuellmich. There are others on Bitchute.com, before he went to trial. Thanks to Dr. Mercola for another great video today.

Dr. Fuellmich is currently at trial in Nuremberg. In the link you've posted (and duplicate URL below), at 1:07 he states that in two to three weeks, a couple of major things are going to happen on three different continents. Altheon news: "Interview with Reiner Fuellmich by James Delingpole May 23rd." I'm not familiar with how they date releases, and if he did this interview while he's on trial, he's in pretty good shape. Court takes energy. But he's obviously a healthy guy and mentioned wind surfing that he enjoys sometimes. His statement about "a couple of major things" is extremely significant. Please say a prayer for him to be safe. In this same video he also states they have three major decisions in Portugal, Austria and Germany (Family Law). I think this forms the three precedents he was looking for. <https://vimeo.com/553673924>

FYI this really annoyed me. Lawyer Michael Swinwood's had his first try in Canada dismissed and he needs to get his act together. I get so annoyed at lawyers who don't stay on track. Canada (speaking from Peru) at 4:08:46: "...what you're seeing is an agenda that's the same and you're seeing where they think that they can get away with more stuff, they do it. So like in Canada I say to you that the province of Ontario is complete Jesuit pull; we're under the Jesuit control. People don't know that and if I told them they'd go, Oh well there's something wrong with you." He's an indigenous lawyer and he's got the wrong rhetoric going here. This is about ALL of us. Good Lord luvaduck, I could do a better job... grr

## tallulah3

I know several people that have gotten the jab. They act like it's the best thing since sliced bread. I just don't get it. How can people be so stupid? They really believe in this. I tell them what I think and they

get mad about it. I think it's changed their brain chemistry. They just seem different now. I tell them that I wouldn't do it for a million dollars and they look at me like I'm the crazy one.

Posted On 05/30/2021

---

## **bahmi0**

Your acquaintances are well saturated with denial. I've seen many close friends of mine show the exact same "pride" after getting a shot. After all, they know zero science about the hideous potential consequences of such injections and they want to show that they've really studied the Bill Maher show extensively and Bill wouldn't lie to them. Plus, they've been subjected to enormous levels of propoganda and it's a relief for them to "get it over with by getting a shot". Hell, I've lost friends when I tried, gently so, to upgrade their knowledge of the shots but they get upset and tell me to buzz off. They are obviously not skeptical and questioning. What they hear is what they follow. So now, they are protected and they have no worries. It's an idyllic state, what more to ask?

Posted On 05/30/2021

---

## **jca652041**

Bahmi0, I thought you'd made a mistake about Bill Maher who's always spoken out against vaccines. But a quick search proved you're correct. Unbelievable!

## shannonaz

My dad took the Pfizer. For the first time in my whole life he told me to "shut up" over the phone in a cruel tone. And do you know what I said to deserve that? When talking about summer plans, I mentioned that I hope I won't need a "vaccine passport" & how that didn't make sense because the vaccinated were just as much a risk as the non-vaccinated because they could still catch & transmit the virus.

I have never heard my dad talk to me that way. I did nothing disrespectful & wasn't even disagreeing with him, there wasn't even an argument. I was just saying that I felt it unfair that I might be discriminated.

The last 3 months, my dad & his wife keep inserting into conversations that they got the Covid Vax. I don't know why, even unprompted they do it. Me & my friend stopped by to pick up a desk my dad was giving me & they brought it up & why they did it. I was embarrassed because my friend just stayed quiet (he will never take this Vax), and they just brought it up out of the blue. I notice they complain a lot too whenever they visit family & discover someone who isn't vaccinated.

There is a brain washing & obsessing personality characteristics that I don't quite understand. For example, I don't vaccinate myself or child before Covid came along. Immediate family / friend might know this, I may mention once & it is never discussed again. My life, my right, my choice.

Why o' why do vaccinated people continually feel the need to proclaim their vaccination status & coerce others to do the same? This has to be more than just propaganda, it is almost like they have gotten some kind of programming or OCD? It is zombie like in the sense they can't seem to change the channel---so to speak. They seem oddly overly concerned with other peoples vaccination status & live their own life according to their ability to be injected. Strange & sad times. I am relieved others on this site expressing similar stories, otherwise I would feel overrun by this.

## forbiddenhealing

Since most of us have been exposed to the corona bioweapon and will be drenched in spike proteins from the naive vaxxers, it is only prudent to attend to natural health maintenance and increase focus on raising body voltage/resistance. More antioxidants/polyphenols, cannabinoids, major/minor/trace minerals, sunshine, sauna, exercise, breathwork... Add more nebulized H2O2, iodine, baking soda and NAC (oral too)...Have HCQ or Ivermectin or MMS chlorite on hand.....More mega C to raise macrophage activity, eliminate toxic metals/chemicals, oppose viruses/bacteria/cancers; generally more e-electron voltage, more OXYGEN, more vitality. And of overriding emotional states; ditch the fear over this withering bio-attack, stay parasympathetic and don't kill yerself with sympathetic media-induced dominance. Flip a finger at all the propagandists and compliant peers who have lost their minds. Keep yer powder dry if you can find any ammo for sale..the best/worst is yet to come...Hunt, fish, garden, recreate, repair, replenish and improve your position...Add practical knowledge and necessary provisions; [www.forbiddenhealingforum.com/forum-comments](http://www.forbiddenhealingforum.com/forum-comments)

## rrealrose

Hi Newlands, this is short and sweet, explains why (from a seriously delusional view) so many Americans have rushed out, bragging to get the experimental for emergency use only shots:

[www.bitchute.com/.../dnDnPRf0rljP](http://www.bitchute.com/.../dnDnPRf0rljP) -

sorry my sense of humor goes haywire when confronted with strange, often illogical dualities. People now announcing to me they've had all their shots (as if I am concerned). Never seem to notice am keeping my distance from them for a time. Ha? Its horrible.

Add'l - can you imagine what the kids are going to think about the healthcare system about vaccns if quite a number of them report injuries or even deaths? These vaccns were PROMISED as a ticket out of their social isolation, however, what these deliver is potentially something quite dark and damaging (for life?).

## **arthurrieloutlook.com**

"As explained by Mikovits, the transmission that appears to be occurring from vaccinated individuals to unvaccinated ones is the transmission of exosomes, basically, the spike protein." Exactly HOW are the exosomes (spike proteins) transmitted from a COVID-19-"vaccinated" person to an unvaccinated person ? Through physical contact ? Exhalation ? How ??

Posted On 05/30/2021

---

## **geraldbrennan**

The problem with that theory (which may indeed be true) is that

\* we are presuming that the 'stakeholders' (big pharma, CDC, WHO, Gates Foundation, etc.) baked this nasty bit in so that all would be infected with the 'vaccine' version of the spike protein,

\* but if that were the case, then the stakeholders are vulnerable to the same infection.

The Exosome Transmission theory would only make sense if the shedding were a completely unexpected consequence of the 'vaccine.' THAT is indeed a horrible scenario.

Posted On 05/30/2021

---

## **Kassie**

Dr. Sherri Tenpenny has been speaking about this. In her most recent discussion this week, she is leaning toward direct contact as the mode of transmission. She is advising wearing long sleeves when you will unavoidably be in a situation where you are around people you might rub against who were possibly recently vaccinated, such as on a plane.

Posted On 05/30/2021

---

### **mushyp3a**

I would like to know this too. So you think physical touch is how transmission occurs?

### **NorthW206**

"Never get another shot". I'm wondering what those of us who work in healthcare are supposed to do? We have worked very hard to get to where we are in our careers. Healthcare needs us but they will soon be pushing us out if we dont submit to these vaccines. I have managed to avoid them so far but that will soon be coming to an end. I am already being pressured, harassed, and ostracized by my peers. Not only is my nursing career my livelihood but it is also my life's calling. What are we to do?

Posted On 05/30/2021

### **lin3741**

Above all, don't just give in, it's truly the mark of the beast. 666 IS the devils number, except it's not a number at all... but a seer's warning!!! It was a then non-understood crude depiction of a dna strand!

Posted On 05/30/2021

---

### **michaelrbuley**

You will not be alone. For many, the choice will come, or has come already: take the vaccine, and

keep our lives as they have been, or not. It is changing everything. Like-minded people will band together; we will have to. For food, protection, self defense. I, too, believe it is the mark of the beast -- taken at our eternal peril. Whatever the cost here is, we must not take it. Some of us will survive for awhile, perhaps a good long while. Others among us will not. This world was never meant to be our final destination. To save our eternal souls is far more important -- not easy, and likely very difficult -- than saving our lives here. I hope my words come across with compassion and love.

Posted On 05/31/2021

## **basset7714aol.com**

The Salk Institute also revealed the SARS-CoV2- spike protein is what actually caused vascular damage in COVID patients and COVID vaccine recipients, promoting the strokes, heart attacks, migraines, blood clots and other harmful reactions that already killed thousands of Americans. Critically, all four vaccine brands currently in widespread use either inject patients with the spike protein or, via mRNA technology, instruct the patients own body to manufacture spike proteins and release them into their own blood. This floods the patient's body with the very spike protein that the Salk Institute has no identified as the smoking gun cause of vascular damage and related events (such as clots, which are killing many people who take the vaccines).

Put simply; it means the vaccines were designed to contain the very element that's killing people. The false assumption of the vaccine industry and it propagandists is that the spike protein is "inert" and harmless. The Salk Institute proves this assumption to be dangerously inaccurate. In an article entitled "The novel coronavirus' spike protein plays additional key role in illness", published on April 30, 2021, the Salk Institute warns that, "Salk researchers and collaborators show how the protein damages cells, confirming COVID-19 as primarily vascular disease," Now a major new study shows that the virus spike proteins (which behave differently than those safety encoded by vaccines) also play a key role in the disease itself.

As long as John Roberts is still around, I'm not totally sure we can get adequate justice from these subhuman swine that have decided to play Satan. They've got all the money (likely stolen) they need, now they want to satisfy Satan and have access to lots of blood drinking from absconded children. People have mentioned they were on to these evildoers right from the get-go. Billy the Snake never fooled me, his ghoulish grins gave his intentions away for many years. My only question is this: when are these devil worshipers going to be apprehended and tried in a modern version of Nuremberg trials???? Have they all disappeared to underground catacombs or are they still appearing on lousy TV shows? Surely there must be some hanging judge that is willing to render his/her version of justice on these toxic Amanitas.... Or, will our lawless nation fail to seek justice for the American people? We are aware of bribes and extortion, maybe we no longer have it in us to seek and obtain justice from our well rotted DOJ.

## picturetaker

There are people that are fighting forced vaccinations in their places of employment and other, they are using the defence of that this is a experimental vaccine and goes against the Nuremberg code.

Fighting forced vaccination because it is an experimental vaccine is the wrong way to go, all they have to do is get the FDA and other health authorities of other countries to approve it and it makes that argument null. Fighting it by saying is that is against your religion, all that has to happen is for the leader of the religion to say the vaccine is ok. Fighting it because you have a medical condition like a autoimmune disease or other, they will just say the benefits outweigh the risks and that because of your condition you should get the vaccine. Fighting against it because vaccines are made or tested with aborted fetal tissue, they will tell you it is not a life just a bunch of cells or tissue.

The only way to fight forced vaccination is that it is a violation of your body, mind and soul. The reason you decide not to get the vaccination, whether your reasons are real or not, according to science, should not be over ruled. Vaccinations are there to protect the person taking them and only them, if they happen to create herd immunity if enough people take them then I guess that is an added side affect, but no one should ever be forced to receive a medical procedure that has potential adverse affects, or even if it doesn't, to protect others.

Posted On 05/30/2021

---

## lin3741

**Bravo. Very well said.**

Posted On 05/30/2021

---

## **cakesjean**

The argument of violation of your body, mind and soul does not help those working in healthcare. Many have buckled in to this injection due to pressure from bosses and colleagues. Refusing to be vaccinated because of ANY reason does not hold water in this industry, where vaccinations for Hepatitis A and B, measles, tetanus, annual flu are as good as mandatory. No jab = no job

Posted On 06/01/2021

---

## **Javed**

Picturetaker, that's it! We don't have to use concocted, half-truth reasons to protect ourselves. We are not even supposed to give reasons, because nobody has the right to violate our innate rights to own and decide for our bodies, minds and souls.

Of course, anybody can be forced to do anything, but the violators open themselves to be fought back, without considerations.

Cakesjean, you made me think. I don't want to be cared for by "vaccinated" doctors, nurses and dentists. And surgeons!! I am and will be avoiding them like the plague. Supposedly they are shedding something of the injected poisons around them 2--8(???) weeks. Truth or not, I consider them "unclean" and keep distance.

You can give your bosses something like "notice of liability " lawyer prepared, or notice for suing them for harassment, discrimination, coercion etc.

And, if possible, band with likeminded healthcare professionals to open "clean" (from Covid b.s. "vaccines") clinics. We (I for one) need you and will be sorely needing you in the future.

## **Siriusbe1**

Questions for Joe or anybody else out there:how best to protect ourselves against those who have already been vaccinated if there is the danger of an overflow of spike proteins?Do we take the same measures as one would against covid.? And what to say to beloved friends who have been vaccinated?Do we just avoid any contact?

Posted On 05/30/2021

---

## brodiebrock12

Unless you truly live in an underground bunker for who knows how long the risk will be present. Following the protocols of protection talked about here for years is certainly wise. Have yourself tested for an accurate Vit D blood level. I keep my minimal threshold no less than 60 nanograms/ml as a basic level protection as well as engage in regular HIIT fitness routines and eat cleanly. Other staples for me are Vit C support at times, NAC and ZN. There are many more excellent options for people to stay well and keep their immune systems in a better place to protect!

## Lfod444

Some have suggested pine needle tea (do your research on it).

Posted On 05/30/2021

---

## veritas19

Lfod444, Thank you for mentioning pine needle tea. It contains Suramin which the elites took before all this started to protect from spike protein transmission. Suramin is illegal to purchase in the US. However the tea has Suramin in it's natural state with all the other naturally occurring phytonutrients (not the isolated product). The tea has been used for a long time for many ailments. A couple of articles for reference: [thetruthaboutvaccines.com/pine-needle-tea](https://thetruthaboutvaccines.com/pine-needle-tea) and [principia-scientific.com/an-antidote-to-the-covid-vaccine-contagion/](https://principia-scientific.com/an-antidote-to-the-covid-vaccine-contagion/)

I have heard that Dr. Mikovitz has not recommended the tea and am awaiting more info on the substitute treatment from a friend who is in contact with her. In the meantime, Forbidden's advice is very apropos.

## Javed

Siriusbe1 - Maybe the strenght of the injected poisons diminishes after some time. Tell them to detoxify themselves and not go for more shots in the future. One of these booster jabs can be the last straw for them.

I suppose, many of the injected receive watered down poisons, or pure saline/vitamine water. They are just trained to believe in the shots and line up every time they are prompted. When the time comes, they will get the full blast.

They have to understand that the people in power dont care for and need them. ( Robots and slaves are preferred not wage workers) The only chance to survive for the jabbed is to join us. It's still not too late.

Posted On 06/01/2021

Posted On 05/30/2021

---

## Retsbew

I'm confused - I thought I read a comment by you, chris2244, stating the Dr. Stephanie Seneff was endorsing enforced genetic treatment on all people. I asked for her actual comment representing this statement to please be published. Now all I see is a compliment from you to Dr. Judy Mikovits, who really is an amazing person. Now I'm starting to worry that I was in an elevator with a recently vaccinated person...

Does anyone think it might be a good idea to get T-shirts indicating we'd prefer not to be close to a proudly vaccinated individual? I'm too scared to wear my Hillary for Prison T-shirt in Canada, but after being doggedly obedient for so long, it's about time they respected my point-of-view.

Posted On 05/30/2021

---

## Lotek

Being on "one side" of a proper scientific debate involves acknowledging all the known facts, whether pro or con to your hypothesis, and studiously avoiding fallacies in your arguments. Of course, when you apply this principle, you are no longer on "one side" but are seeking and promoting the truth, wherever it lies. Then most likely you will find that the truth lies somewhere between the two extremes.

Look for lies and fallacies in whatever you read, and seek out opposing opinions. Be more vigilant wherever you find misrepresentations. Keep in mind that omissions can be lies too.

## **Joy8965**

Who can put the STOP to this shot ? Why is this not been halted?

Posted On 05/31/2021

---

## **my\_RNA\_DNA**

Two major questions I have are these. The spike proteins from the injections are not exactly mated to any real virus, but a computer simulated algorithm attempting to estimate what the virus might be. I

wonder if these proteins are really effective against any CoV-2 particles, if they really exist at all?

Secondly, what is going to happen to your immune system when it becomes engorged without multiple billions of spike proteins that might have no real purpose? If there is no shut off switch, a question that needs to be answered honestly by greedy pharma, what are all these proteins going to accomplish? I suspect they will turn deadly or cause your immune system to go haywire trying to eradicate them. From all I have read and listened to, no way will I ever get any injections. There is no solid, truth-filled reason to get them and no evidence that they ARE not long term poisons. My borrowed idea is that there has absolutely never been any disease or sickness caused by the lack of big pharma drugs.

Posted On 05/31/2021

## janka47

the sad part is, that you can avoid the vaccine now, but for how long. They won't let you travel, difficult to find a new job, especially in the medical field, they want you to be vaccinated. And the best part is the vaccine passport, what else can go wrong

Posted On 05/30/2021

---

## AridAce

Many thanks for discussions with such experts. Living in a developing country I could observe the lockstep scenario too well. First action of the health institute was to initiate research in antivirals. Without any reason that was halted, and "vaccines" became the only subject, accompanied by a campaign of fear, blown up (CT>35) cases and house arrest / curfews. Worse, the indications that physicians are well aware of this but unable to act (job loss, withdrawal of license). Unfortunately the ground work for bad health was laid long ago, by introducing monocultures, allowing larger profits (including pesticides) and mechanization. This despite a UN report that small scale farming alone can feed the world's people. From this perspective it might be a good idea to leave the defensive attitude and attack "the great reset" by presenting "a reset everyone loves": abandoning chemically supported

monocultures, disruptive medical procedures, harmful and wasteful technology. Instead, set up society and lifestyle for well-being and good health which also implies "doing the work you love". To send the message, defeat the AI from "social" media by using text in a picture. Randomly break up the letters in differently colored parts: humans can read this perfectly well but the AI (Artificial Idiot), not so.

## **harvelicious**

It's important to discern what is true & what is false, before a person can find a psychological homeostasis & solid foundation for greater understanding that will further enable one's ability to glean through the lies, deceit, coercion, corruption & propaganda in order to develop appropriate survival & life enhancing strategies & responses:

1) SARS-CoV-2 has not been QUANTITATIVELY (scientifically measurable) proven to exist using gold standard scientific protocols & ethics. No verifiable isolated & purified samples are in existence anywhere (except as computer simulations), nor, has anyone yet accomplished this critical & single most important step in identifying a pathogen. Furthermore, this also remains true for SARS, MERS, Ebola, Zika, HIV, Swine Flu, Bird Flu & all other alleged pathogenic viruses. The pseudo-science used to justify the existence of any of these "pandemics" is CONSTRUCTIVE FRAUD & is rampantly pervasive at all levels! In 1954, Koch's Postulates, & even the compromised Rivers Postulates, were abandoned for QUALITATIVE (theoretical, narrative) research only, for which, any narrative, or, alleged disease, can be manufactured & manipulated to suit an agenda.

2) Many real & alleged illness are falsely being classified as "C-19". No such thing as what is commonly referred to as a cold, or, flu anymore. People are sick & dying from a myriad of things,

including the cumulative effects of them, such as stress, poor diets, insufficient exercise, substance abuse, masking, isolation, pharma drugs, vaccines, GMO's, chemicals, toxins, technology, EMF's, numerous psychological problems including Munchausen Syndrome, Factitious disorder, hypochondria, malingering, Stockholm Syndrome, cognitive dissonance, et al. The effects of psychological induced illness is vastly overlooked. The body follows the mind - if the mind is ill, so to will the body be ill. The satanic death cult knows this well & exploits the mind to serve their agenda.

..continued below..

Posted On 05/30/2021

---

## **brodiebrock12**

Such a good point regarding the psychological induced illness effects. How many people have the type of mental/emotional makeup to be far more susceptible to this reality I wonder?

Posted On 05/30/2021

---

## **harvelicious**

brodie - millions of asymptomatic people (healthy) running to and lining up to get tested with a fake test not testing for the alleged virus, should be the clearest most revealing and profound evidence of the severity of the psychological dysfunction and vulnerability that is so prevalent and ripe for exploitation, manipulation and corruption.

Posted On 05/30/2021

---

## **harvelicious**

..continued..

3) Death, causes of death & statistics are intentionally being manipulated, obfuscated, recategorized, & induced to serve the satanic death cult agenda. There is very little data that can be trusted. One must verify, verify, verify. Ask simple logical & common sense questions. Remove/Turn off all sources of propaganda, including radio, TV, social media, news, sports, entertainment, etc., for they are loaded with overt & subliminal messaging.

4) Understand that governments, NGO's, corporations, media, social media, smart device apps, sports, entertainment, most professionals, including doctors & psychologists, & virtually all philanthropies, charities, etc., are not your friend & do not actually care about you in the least. Be extremely vigilant before trusting any of them, for which, many, you do not trust at all, but, may have to transact with.

5) The often referred to Spanish Flu of 1918 (for fear porn exploitation purposes) was a result of a failed vaccination program & wearing of masks, for which, led to many dying from pneumonia, not the promoted narrative of a deadly pathogenic virus.

6) The satanic gene altering death shots ("C-19 vaccines") have been in development for at least 2 or 3 decades, probably much longer. The manufacturers, FDA, CDC, et al, are covering up the catastrophic research tests & studies.

7) What we should fear is VACCINES, satanic gene altering interventions called "VACCINES" & the insidious & sinister "gain-of-function" research being done to create chimeric biological 'weapons' for nefarious purposes. There is much talk of the alleged novel SARS-CoV-2 being real & released either accidentally, or, on purpose, into the wild. Here's what we do KNOW: viruses have not been proven to cross species naturally, therefore, when observing the published SARS-CoV-2 genome pedigree, the manufactured genome shows there are contributing genomes from bats, felines (cats), equine (horse), porcine (swine), Robins, et al.

..continued..

Posted On 05/30/2021

---

## harvelicious

...continued...

7) ...continued... A very important point to be aware of - as a result of gain-of-function research & subsequent chimeric virus creation, these would only be released into the wild as an actual "accident", or, as a 'poisoning of the well' scenario should the death cult lose their leverage, be exposed & further, be made to face the consequences of their nefarious agenda. All of the individuals involved in this fascistic feudalist corporate technocratic transhumanistic eugenics plan are paranoid & would not put themselves at any risk by having a chimeric gain-of-function deadly virus released into the wild for fear of it getting them. Rather they use the fear of the narrative of one in the wild ravaging the globe, al-the-while, concealing the actual deadly weapons - the "TESTS", the "VACCINES" & the "LOCK-DOWNS", for which, they can control. They will also sacrifice their own select operatives along the way to maintain, reinforce, or, enhance the agenda, which keeps the masses in fear.

8) There will be many illnesses, maimed & murdered people following the "C-19 VACCINES" that will be further blamed on the virus, or, another "variant", or, on anything other than the "vaccine", in order to conceal the truth & continue driving the fear & serving up more death by more lethal injections (or other methods).

9) The current run of "C-19 VACCINES" is strategically manufactured to have "hot batches", "cold batches" & varying harmful elements in them to intentionally create inconsistencies in the reaction to the jab to further obfuscate the nefarious agenda. This is why there will be more jabs coming (never ending).

10) The shedding issue of those vaccinated is not one of a viral nature, but, will be, as mentioned in the article, other concerning substances such as synthetic proteins, etc., that the body is working hard to detox.

11) There is absolutely no doubt that Kary Mullis, inventor of the PCR, was murdered just prior to the "plandemic".

..more..

Posted On 05/30/2021

## harvelicious

...continued...

12) All of the initial "hot spots" for "C-19" were in areas where 5G was activated. All man-made EMF's are extremely problematic & contribute to an immense amount of illness. For example, 5G running at 1 Ghz alters the oxygen atom causing the electrons to spin in reverse & at different speeds, rendering them un-absorbable in the lungs (won't attach to iron molecules in red blood cells) creating conditions of "no energy" & "can't breathe".

13) The WHO, et al, has been quietly & conveniently changing the meaning & definition of many words & terms used to describe certain things & events such as "pandemics", "cases", "asymptomatic carriers", "symptoms", "medical cause of death", "vaccines", "isolation", "purification", "gain-of-function", etc. This has been systematically done with the intention of being able to control everything, without empirical evidence, or, verifiable proof, to justify theft/tyranny. For example, since when are common symptoms for a variety of different illnesses now definitively labeled as "C-19". With this alleged global "pandemic", healthy people must be tested & asymptomatic subjects testing positive with a fake test not testing for the virus, are now included as "cases". Prior to "C-19", only symptomatic subjects were considered as "cases". Also, a "pandemic" can now be declared for the common cold based on revised definitions & inferred meaning. The alleged "vaccines" are not vaccines when referenced under the long standing previous description & qualification. Since when can a sample with many different materials in it be confirmed as "isolated" & "purified". No quantitative or definitive cause of death is required for a death certificate. An assumption is now good enough for "C-19".

In conclusion, this all an undeniable colossal FRAUD! Mikovits & Seneff are courageous, credible & trustworthy, except, in the one fact of understanding & acceptance of what integrous virus isolation actually is, as noted by Kaufman & Cowan.

## harvelicious

Missed one very important & absolute point - the satanic death cult are God-less barbaric sadists & they celebrate with euphoric glee when the 'underclass' (deplorables) suffers and dies a hard, slow and painful death as evidenced by the satanic smirk's & excited uncontrollable body language displays of these cruel, ruthless, despotic & heartless, malignant messianic megalomaniacal psychopaths. They are thrilled when they can toy with people (useful idiots and useless eaters) & then dispose of them when the "fun" is over. The oppression, lawlessness, corruption, disrespect, vengefulness, spitefulness, propaganda, "vaccines" & "lock-downs", et al, are all designed to inflict as much pain & suffering as possible while they are killing you.

Going back to item 6), as stated, these "vaccines" (death by lethal injection) have been in the making for a long time, but, could never come close to getting actual approval due to the brutal & atrocious safety, efficacy and research results, therefore, the only way to circumvent "approval" is via emergency use authorization (EUA). Billions of dollars have been invested in gene altering therapies & modification, including from governments & certain high ranking government officials & a lot of time has passed without any ROI (return on investment). A ROI infusion was badly needed as investors were disgruntled & nervous, to put it mildly. This is also a big cash cow for media, doctors, clinics, hospitals, many politicians, et al.

At the same time, many governments were essentially bankrupt & have no way to fund their long-term liabilities. Technology & AI was now developed enough to be the means on which to drive the destruction, theft & takeover. The NWO & the international banking cabal pounced on the opportunity they saw coming that was of their doing. Massive collusion was involved in creating & executing the global medical tyrannical plan for a fascistic feudal corporate technocratic transhumanist global takeover.

---

## nothingsound

As I read the article, I dismay at my lack of knowledge and limited medical vocabulary. Yet, I know what is being stated is not good at all in layman terms. What I would like clarified if someone would, what is the outcome for those exposed to any corona virus who have received the inoculation? And with every article, I am truly thankful that I have not been bullied, coerced, shamed into taking the jab. And also very thankful that it all began with my knowledge that aborted fetal cells were used in the process of for that alone is my stand for refusing.

## SunsetBob

Hello Shannon, I agree with your question, as this is also a huge concern for me. I will start doing some research, and also reach out to some people. As it stands, I'm "afraid" to come into contact with vaccinated people. Heck, the woman that cuts my hair announced she is getting vaccinated so that she "won't have to wear a mask" when she cuts hair. So do I now seek out an unvaccinated hair stylist? Oh brother, what a mess! I will report what I find. Will you (and anyone else) please do the same? Thanks, Joseph

This article presents some remedies for vaccinated people.....which I assume are also remedies for unvaccintaed people who have been exposed to Shedding?

## **Javed**

The robust production of antibodies is not new, it was trumpeted like success in animal trials . The problem is , that these antibodies are a kind of defective, so to say.

They stick to the real wild coronaviruses, but instead of destroying them, they hang on the invaders, hiding them from the immune system and helping them to enter the cells.

The trial animals died after all their robust antibodies production, more likely because of it.

No more animal trials, then, let's jump directly to humans. Stay tuned.

**wxw1748**

Gratitude to you Judy, Stephanie and Joseph for commitment to integrity and truth. What a depth of knowledge and you have, and one feels a growing sense of anger knowing that so many unwell people today, maybe the vast majority of them, do not have to be in that state. When would the average lay person ever get to hear this depth of knowledge and understanding? Who has the time to spend untold hours digging through research papers; presuming the ones we need to see can even be found. Then there is the task of trying to understand very specialised scientific information and being able to gain at least a reasonable understanding. So this type of information, by design we observe is restricted by not being reported and openly discussed. Politicians do not seek out the very best most informed individuals but instead are surrounded and influenced by those profiting from the decisions of politicians who are making decisions based upon the advice given by those profiting; That is a definition of CORRUPTION as I see it.

## **dpr8665**

They (Gates, Fauci, et al) carefully planned and engineered a virus to help subjugate us. They were not particularly sly or careful in the execution of this plan, having left more fingerprints than a drunk at a strip club. I have two questions that will never be answered:

Do they think this virus and the so-called "vaccine" will somehow skip over them?

Are they looking forward to being the lords of the scorched earth they are creating?

The economic damage alone will make The Great Depression look like Mardi Gras.

A third question: How do they plan to explain this to their children... and in the afterlife?

Posted On 05/31/2021

---

## **balhawk**

Good questions, all of which can be answered by solipsism, the tendency to ascribe one's way of thinking to others. Something political party dogmatists tend to have in spades.

## **Ambassador777**

"...the spike protein your body produces in response to the vaccine is even worse, as the synthetic RNA has been manipulated in such a way as to create a very robust and unnatural spike protein." QUESTION: What mechanism in the human system exists to shut down the human production of the spike protein? Is it a car without brakes? What happens when other factors like exposure to radiation suppress the

immune response? Does the spike protein overwhelm the human system. If so, what might the pathological effects be?

## **mmmbeckwithwindstream.ne**

Well, S@7%!!, here I am, sitting with the J & J shot at 76 years of age, because I thought it would be

best. Getting Corvid also has some concerns for my age group, so I stepped into this as a "precaution". No ones knows what can happen with or without the shots, but, sadly, the public has never been informed or given the chance to review the real risk factors of both sides of the decision, to get or not to get a shot. I've already lost a kidney to cancer 4 years ago and, fortunately, have not needed any additional treatments and would go an alternate route, anyway, if needed. So, now it's a rush to try and find an antidote that might help stem the tide of these poisons, great, eh? Well, keep the suggestions flowing everyone and perhaps we can manage to ride some of this out. At least let's hope so. My hope is that the J&J might lose some of it's effect with time, but perhaps this is just my delusion that helps me stay positive. Rock on everyone and keep the ideas flowing, I'll have a cup of milk thistle tea now!

### [kennygrossogmail.com](mailto:kennygrossogmail.com)

I anticipate that in the months and years ahead, science will make many interesting and perhaps useful discoveries in immune system research.. These will quite possibly come in the form of the unintended consequences of great multitudes of healthy persons participating in the current mass inoculations connected with the current covid-19 emergencies. Science will benefit from having such a large population of test subjects, re: those who have received the various experimental vaccines approved for use by our government, in cooperation with the pharmaceutical industry.

The control group will consist of all those persons who, for one reason or another, declined to receive these experimental immune therapy treatments. In the months and years ahead, we should all be the beneficiaries of the information gleaned from these experiments in human health.

The COVID injections aren't the only thing we have to worry about: Nurse speaks out about Ethylene Oxide and the COVID swabs. [ourtube.co.uk/.../xJw3wH8VL9pNVsv](https://www.ourtube.co.uk/.../xJw3wH8VL9pNVsv) Ethylene Oxide-What is ethylene oxide? At room temperature, ethylene oxide is a flammable colorless gas with a sweet odor. It is used primarily to produce other chemicals, including antifreeze. In smaller amounts, ethylene oxide is used as a pesticide and a sterilizing agent. The ability of ethylene oxide to damage DNA makes it an effective sterilizing agent but also accounts for its cancer-causing activity. Which cancers are associated with exposure to ethylene oxide? Lymphoma and leukemia are the cancers most frequently reported to be associated with occupational exposure to ethylene oxide. Stomach and breast cancers may also be associated with ethylene oxide exposure.

quoting forbiddenhealing here bc it makes the most sense to my simple mind: Since most of us have been exposed to the corona bioweapon and will be drenched in spike proteins from the naive vaxxers, it is only prudent to attend to natural health maintenance and increase focus on raising body voltage/resistance. More antioxidants/polyphenols, cannabinoids, major/minor/trace minerals, sunshine, sauna, exercise, breathwork... Add more nebulized H2O2, iodine, baking soda and NAC (oral too)...Have HCQ or Ivermectin or MMS chlorite on hand.....More mega C to raise macrophage activity, eliminate toxic metals/chemicals, oppose viruses/bacteria/cancers; generally more e-electron voltage, more OXYGEN, more vitality. And of overriding emotional states; ditch the fear over this withering bio-attack, stay parasympathetic and don't kill yerself with sympathetic media-induced dominance. Flip a finger at all the propagandists and compliant peers who have lost their minds. Keep yer powder dry if you can find any ammo for sale..the best/worst is yet to come...Hunt, fish, garden, recreate, repair, replenish and improve your position...Add practical knowledge and necessary provisions; [www.forbiddenhealingforum.com/forum-comments](http://www.forbiddenhealingforum.com/forum-comments)

## Behealthy3

I asked a question and now it is gone..... Will hand sanitizer be effective against this synthetic transferring spiked protein after being in public? Or is thorough hand washing the only solution? Also, is it transferred by droplet and/or airborne mechanisms? Thx?

Posted On 05/30/2021

---

## **tinarock**

@Behealthy3, I would not use hand sanitizer for any reason. It does not clean or sanitize your skin, it just spreads dirt around. You are much better off doing thorough hand washing. At this point I have not seen anyone, anywhere, explain exactly how the spike protein is transferred between vaxxed and unvaxxed people. Nobody knows yet. So at this point, I suggest you limit your exposure to vaxxed people. Do not have intimate contact with them. Keep a distance from them. If you are stuck in a roomful of them, get out as soon as you can. And be sure to eat organic, raise your vitamin D level, get plenty of sleep, and Decide to be Happy. Fear will make you sick.

Posted On 05/30/2021

---

## **Behealthy3**

Tinarock: Thank you. I only use hand sanitizer when there is not sink-- like getting into the car after being in a store. Only place I use it actually. Hand washing always best. But, I totally hear what u r saying about alcohol based sanitizers. They do break down cell walls of bacteria and viruses if used with friction and allowed to dry. But, the skin, being a big mouth, and absorbing all is very true. I wonder about ozone cremes that Judy talked about. Hmmm. Not seen such a creme before. Will look around. Again, thank u for your time and thoughts.

Posted On 05/30/2021

---

## **Behealthy3**

I am pretty simple, so can someone help me here? For us non-covid jabbed people, will hand sanitizer breakdown/denature/be effective against this synthetic spike protein since people can transfer it to others? For instance, after being in a store, will hand sanitizer be effective against this protein like it is

against a virus? Or is only thorough hand washing effective now to minimize the circulation of this spiked protein? Also, wondering if it is droplet and/or air borne in transmissability? Thx!

Posted On 05/30/2021

---

### Behealthy3

Marinkos: Will copy and paste what I wrote to another above.

"Thank you. I only use hand sanitizer when there is not sink-- like getting into the car after being in a store. Only place I use it actually. Hand washing always best. But, I totally hear what u r saying about alcohol based sanitizers. They do break down cell walls of bacteria and viruses if used with friction and allowed to dry. But, the skin, being a big mouth, and absorbing all is very true. I wonder about ozone cremes that Judy talked about. Hmmmm. Not seen such a creme before. Will look around. Again, thank u for your time and thoughts. "

And thank you for the extra reminders and thoughts on metals. So do you feel colloidal silver is absolutely bad too, then? And clay? Clay is considered medicinal in some applications. I assume those nutraceuticals are a clean form of clay, to the absorbing it usually does. My very elderly dog is on clay to firm her stools, for instance. Again, thank you for taking the time to respond and your thoughts.

Posted On 05/30/2021

## Horsea

Use essential oils, use antimicrobials ... ozonated balms and creams break apart the lipid particles, cannabis balms and creams normalize skin, [which is part of] your immune system ... ESSENTIAL OIL of LAVENDER However poisonous it is claimed to be, taken in tiny amounts, lavender OIL can be highly useful.

Read Page 41 of Healing with Whole Foods by Paul Pitchford on how to use it safely. I take 4 - 6 drops of the organic essential oil of lavender PER WEEK, only 1 or 2 drops at a time, then stop for maybe 5 or 6 days, then restart. With most medicines, this method works better than constant ingestion. Why do I take this? Here is a portion of what Pitchford says: "Lavender pure essential oil assists in the breakdown of toxic material in the liver, lymph and other viscera that result from poisons in the environment and food and from old residues of hydrogenated trans-fatty acids and synthetic polymers (from margarine, shortening and poor quality deep friend oils)." Essential oil of lavender can be poisonous if taken in excess - but so can water, salt and iodine - substances all needed for health.

I have not had any of the vaccines. But I just developed shingles. I read about how the vaccines can spread, shed on their own. How would I know if that happened to me?

Posted On 05/30/2021

---

## **njlady**

Maybe get an antibody test to see if you had covid

Posted On 05/30/2021

---

## **Bunny3**

I developed shingles even though I never had chicken pox, which they say is impossible. Well, the impossible happens. In fact, I got a severe case that caused stage 6 paralysis and hearing loss. This happened several years ago, and since I never had chickenpox as a child, it really stumped the doctors. Over time, I came to the conclusion that a some sort of pathogen was transmitted to me by a vaccinated person. I developed it immediately after staying in a hotel which both children and seniors frequented. It was right after that I noticed my first shingle appear, which gradually spread all over one side of my head and neck, followed by the paralysis. The paralysis was similar to Bell's Palsey, and lately cases of Bells Palsey have been popping up among the covid vaccine recipients. This is not a coincidence. We really don't know everything that goes into these vaccines, so it's difficult to make a connection, but these occurrences are connected.

If your shingles get worse, try IV C or oral Liposomal Vitamin C, which is the safest course. Also get enough sleep, avoid eating sugar and avoid getting stressed. You would not believe how much these things affect your body. If the natural route doesn't help, try an antiviral. I took an antiviral

and steroids for a week or two. I never take any medication, but nothing else seemed to help. These meds do have significant side effects, so only take them if you really need them.

---

## deb3848

My son is being forced by his employer to get vaccinated. I am urging him to look for another job but they are only giving him 2 weeks to either start the vaccination process or to produce a doctor's note and he is telling me he can't be without a job right now. He is only 36 and is not an essential worker nor does he work with the public. This is so wrong. Is J&J the least damaging of the 3 available if he has to do it?

Posted On 05/30/2021

---

## MaggieMay

WND article Vaccine mandate comes with liabilities for employers 'If you require your employees to be vaccinated any adverse reaction is work-related' By Bob Unruh Published May 15, 2021 at 4:33pm LifeSite article What to do if your employer, school, or parish demands you get the coronavirus vaccine What are your rights in these, and similar, situations? Read expert opinions and available resources. Tue May 18, 2021 - 9:18 am EST

Posted On 05/30/2021

---

## copohmom

OSHA has released a statement that any employer forcing employees to "inoculate" they are held liable for any damages. Personally, as a former safety health and environment manager, and OSHA trainer, I'd recommend written orders from said employer, contact an attorney and keep them on stand by, present statement from OSHA to employer and stay intent. They won't like it but a lot of companies don't realize they will be held liable and some, like Walmart, realize the risks and instead "encourage" (bribe) employees to take the shot of their own free will.

Posted On 05/30/2021

---

## Lizschneider53

From what I understand they are ALL equally damaging!! This article plainly says this!

Posted On 05/30/2021

---

## Robinfinity

I'd say he may be saving himself financially in the short run re keeping the job, but killing himself in the future from the health dangers of these injections. If you read this article, they're all bad! Either get that doctor's note excusing him from it, or could he possibly find another job that doesn't require an injection?

Posted On 05/30/2021

---

## stanleybecker

tell your son to write a letter to his employer stating that because he is being forced to take the injection { which is experimental and has no safety profiles} to comply with his terms of employment then his employer must become legally responsible for any adverse outcomes - then see what sort of response he then gets as to being forced to vaccinate

Posted On 05/30/2021

---

## evedawn

Check out America's Frontline Doctors or The HighWire (Del Bigtree) as both organizations are taking legal steps against employers who mandate vaccines. They are asking people who are

coerced by their employers, to step forward. This is total madness and against the Nuremberg Code: Voluntary consent is essential (when participating in a medical experiment). On a personal level, like other commenters say: the short term (perception of) financial benefits may come with a very high long term price tag (financially, physically, mentally).

Posted On 05/30/2021

---

### **kimhamilton**

He may be able to get legal help here [www.americasfrontlinedoctors.org/legal](http://www.americasfrontlinedoctors.org/legal)

Posted On 05/30/2021

---

## **lindalonia**

His life is worth more than any job. God will help him find other work. He needs to quit.

Posted On 05/30/2021

---

## **Bunny3**

Mikovits said J&J - the one shot vax - is the worst. I don't think they widely use Astra Zenica in the US, but it's similar to J&J. Dr. Mikovits said it also depends on the person, their age, and what types of chronic conditions they have. I think she said (and please correct me if I'm wrong) Pfizer and Moderna are worse for kids because they are in the process of growing, among other

things, and that J&J and Astra Zenica are worse for adults, especially if they have any kind of chronic condition or are health compromised in any way (whether aware of it or not). I hope your son doesn't take it. Once taken, it cannot be reversed.

Posted On 05/30/2021

---

## **sandhill1**

Would any group be planning for the societal changes to be expected? For the people who haven't come to your message? May impact be seen first on the essential workers who were first jabbed? Should other societies be got going like the Vitamin D Society but more for mitigation like the church groups caring for the poor? Whoops I am just remembering that the Red Shield symbol to be connected to Rothschild.

**moderndoc**

Dr. Mercola can you or Drs Seneff and Mikovits advise on how to test our bodies - post- vaccination - to see if we are breaking down the RNA/still producing spike protein? Anything more specific than an antibody test? Thanks.

Posted On 05/30/2021

---

**tbr5847**

The only comment I have is a question. Is it possible to create an antigen to counteract the effects of these gene therapies or as I've been reading; all the people who have received this going to perish due to antibody depend enhancement? I will never inject poisons like this and have educated all my children to steer clear of it no matter what the pressure is. My ex's whole family has received the shot. In educating my young adult daughters about that decision it's hard to tell them what's predicted outcome has no way to reverse what might or will take place once they are exposed to the virus. I pray that someone is able to create a countermeasure to this. Keep up the good fight Dr.mercola. Been listen and following since nearly your launch of Mercola.com. Thank you for standing in the gap. Always praying for Gods protection over you your family and all those who've added to the knowledge base you provide. God Bless you!

Posted On 05/30/2021

**jsarianz1gmail.com**

Dr. Judy Mikovits says that suramin is an antidote and it is in pine needle tea. You might want to research this.

Posted On 05/30/2021

---

## **GDillon**

I regularly read the articles here. This particular information is certainly of great concern. However, what is always missing is a rebuttal or counterargument to the stated presentation. With hundreds of millions of doses administered and plummeting infection rates and mortality...with actually a very very small reported incidence of serious side effects (including deaths), I think it would be worthwhile to defend the case being made against a worthy counterargument. I also listen to sincere and knowledgeable researchers on the pro-vaccine side of this...people who are equally as well educated - and they, themselves have ben vaccinated.

Posted On 05/30/2021

---

## **natholhealthy**

The counter-arguments are all over the mainstream. And if you think we have "plummeting infection rates and mortality" and a "very very small reported incidence of serious side effects," I think you're SEEING that skewed representation.

Posted On 05/30/2021

---

## **Maxwell53**

GDillon I'll address but one of your spurious comments.

The "plummeting infection rates" is a complete myth in all ways. First off there never were "massive infection rates" this was all a carefully crafted construct using PCR tests that artificially created "Covid cases" through inflated cycles counts and manufactured diagnosis.

The "plummeting infection rates" are an artifact of how they are simply dialing down the cycle rates

**for the "vaccinated", for f\*ck's sake they tell you this on page one of the CDC new guidance.**

**If you can't even get this far in your analysis you are either someone with a vested interest or simply hopeless.**

Posted On 05/31/2021

---

## **Nadine17**

**GDillon, "and they, themselves have been vaccinated." And they themselves, unfortunately, will suffer death and destruction to their health by taking the death shot.**
