

New Delta Virus Variant Escalates Lockdowns

Analysis by [Dr. Joseph Mercola](#)

✓ Fact Checked

STORY AT-A-GLANCE

- > The emergence of a new SARS-CoV-2 variant from India, called “Delta,” may result in a new round of lockdowns around the world, including the U.K. and Chile
- > Chile has one of the highest COVID-jab rates in the world; 58% of the population have received two doses and 75% have received their first dose. Santiago locked down as of June 10, 2021, after the capital reported the highest COVID-19 case numbers since the beginning of the pandemic
- > Research by Public Health England (PHE) suggests two doses of Pfizer’s mRNA COVID shot is 88% effective against the Delta variant, while AstraZeneca’s DNA injection appears to be 60% effective. After a single dose, either of the shots was only 33% protective against symptomatic illness
- > PHE claims the Delta variant is 64% more likely to transmit within households than the Kent (Alpha) variant that had previously dominated, and that it’s 40% more transmissible outdoors and more likely to affect younger people
- > Variants are unlikely to pose significantly differing risk to people with natural immunity compared to the original, as resistance is primarily based on your T cells, which have been shown to recognize and attack variants that are up to 80% dissimilar. SARS-CoV-2 variants are at most 0.3% dissimilar from the original, which means T cell immunity will easily recognize and protect against them

According to the regional director of the European office of the World Health Organization, Hans Henri Kluge, a new coronavirus variant called “Delta” (its scientific name being B.1.617.2 and originating in India) is “poised to take hold” in Europe, which may necessitate renewed lockdowns.¹

In a June 10, 2021, article, The Hill reported that the SARS-CoV-2 Delta variant “can spread quickly and infect those who have received one of two vaccine doses at higher rates than the fully vaccinated.”²

According to Kluge, Europe is facing the same situation as they did back in the winter of 2020, when cases rapidly rose, resulting in “a devastating resurgence, lockdowns and loss of life.” “Let’s not make that mistake again,” Kluge said during the press conference.

Indian Variant Refuels Fear

The Delta variant is now the dominant strain in the U.K., where a surge in cases, supposedly, has occurred predominantly among younger people between the ages of 12 and 20.³

Research by Public Health England (PHE) suggests two doses of [Pfizer’s mRNA COVID shot](#) is 88% effective against the Delta variant, while [AstraZeneca’s DNA injection](#) is “supposedly” 60% effective. After a single dose, either of the shots was only 33% protective against symptomatic illness.^{4,5}

However, while single-dose recipients are said to be at greater risk than those having received two doses, more fully “vaccinated” people have actually died from this variant. According to the PHE, of the 42 Britons who had died with the Delta variant as

of mid-June 2021, 12 had received two doses of gene therapy, compared to just seven single-dose recipients.⁶

More importantly, a June 11, 2021, PHE report⁷ shows that as a hospital patient, you are six times more likely to die of the COVID Delta variant if you are fully vaccinated, than if you are not vaccinated at all.

The information shows up in Table 6 of the 77-page document, which are labeled as the attendance to emergency care and deaths by vaccination status and confirmed Delta cases from February 1, 2021, to June 7, 2021.

Of 33,206 Delta variant cases admitted to the hospital, 19,573 were not vaccinated. Of those, 23 (or 0.1175%) died. But, of the 13,633 patients who were vaccinated with either one or two doses, 19 (or 0.1393%) died, which is an 18.6% higher death rate than for the unvaccinated patients. Seven of the 5,393 patients who were partially vaccine with one dose died, or 0.1297%.

Of the 1,785 patients who had both vaccine doses 14 days or more before admission, 12 (or 0.6722%) died. This death rate is 5.72 times higher than that for unvaccinated patients. Put another way, if all 33,206 patients had been fully vaccinated, there would have been 223 deaths.

The PHE also claims the Delta variant is 64% more likely to transmit within households than the Kent (Alpha) variant that had previously dominated, and that it's 40% more transmissible outdoors.⁸

Knowing what we now know about how science and statistics are being manipulated to give the appearance of a serious problem where there is none, I take these statements and data with a grain of salt. World leaders, however, are using the data to impose yet more restrictions. British Prime Minister Boris Johnson is now

considering keeping lockdown rules in place until spring of 2022.⁹

Similarly, Chile, which has one of the highest COVID-jab rates in the world, with 58% of the population having received two doses and 75% having received their first dose, authorities announced a blanket lockdown across the capital of Santiago, June 10, 2021. The lockdown came in response to the highest COVID-19 case numbers since the beginning of the pandemic.¹⁰

Why Was a Disgraced Disease Modeler Relied on Yet Again?

In the U.S., Delta accounts for about 10% of cases and is doubling every two weeks, according to the former Food and Drug Administration commissioner Dr. Scott Gottlieb, who spoke about the variant on a “Face the Nation” broadcast June 13, 2021.^{11,12}

According to Gottlieb, Delta is likely to “spike a new epidemic heading into the fall.”¹³ Showing just how crazy a repeat this is, Gottlieb is again citing data from Neil Ferguson. Yahoo! News calls Ferguson a “prominent British epidemiologist” but in fact, the man is beyond untrustworthy and has been thoroughly — and publicly — disgraced.

His only prominence is that of a failed statistician whose models have been repeatedly proven faulty to a ridiculous degree. The fact that Gottlieb is again using Ferguson’s models ought to set off warning bells that this is fear propaganda to justify even further COVID jabs and nothing else.

It was Ferguson’s Imperial College model¹⁴ that predicted the death of 2 million Americans and 500,000 Britons unless draconian lockdown and social distancing measures were implemented. A major flaw in his model was that he didn’t account for the fact that the susceptible population is only ever a small portion of people, never

100%.¹⁵

Ferguson was also the source of the December 2020 prediction that the Alpha variant B117 — the so-called “Kent” strain that became the predominant strain before Delta — would be 50% to 70% more contagious than previous variants circulating in the U.K., and would infect children and teens to a greater extent than previous variants.¹⁶

Well, what happened? PHE data reveal the rolling average of infections (i.e., positive tests, which may be symptomatic or asymptomatic) sharply declined starting in January 2021, from a high of 68,053 cases in early January to a low of 1,649 cases in early May 2021.¹⁷

Daily hospitalizations also dropped, as did the number of daily deaths, which plunged from a high of 1,610 in January 2021 to a low of eight on June 13, 2021.¹⁸ Apparently, the much-feared and “far more infectious” B117 strain didn’t unleash a mass-death cascade after all.

“ In the U.S., CDC data show a total of 204 teens — aged 12 to 17 — were admitted to hospital for COVID assessment between January and March 2021. These are hardly catastrophic numbers. Fewer than one-third required intensive care and none died.

Meanwhile, there are at least four reported deaths among 12- to 17-year-olds following COVID “vaccination,” along with several hundred adverse effect reports, including dozens of cases of heart

inflammation.”

What's more, the fact that mainstream media and health authorities have not highlighted the number of children infected or hospitalized is a clear hint that children really weren't at great risk from B117 either. They just wanted you to fear the possibility of it being so.

In the U.S., Centers for Disease Control and Prevention data¹⁹ show adolescent hospitalizations for COVID-19 peaked at a rate of 2.1 per 100,000 hospital admissions in early January 2021. By mid-March, that had declined to 0.6 per 100,000. In April, it rose a little again, to 1.3 per 100,000. In actual numbers, we're talking about a total of 204 teens — aged 12 to 17 — being admitted to hospital for assessment between January 2021 and March 2021.

These statistics are indeed quite far from catastrophic. Fewer than one-third required intensive care and none died. Meanwhile, there are at least four reported deaths among 12- to 17-year-olds following COVID “vaccination,” along with several hundred adverse effect reports, including dozens of cases of heart inflammation.²⁰

As Ferguson's calamitous predictions for Alpha variant B117 having failed to come to fruition, it appears the same fearmongering narrative has now simply shifted over to the Delta variant.

Clearly, they want us to fear for our children, as this will improve compliance with freedom-robbing measures and boost vaccine uptake. Right now, they're having a really hard time explaining why children, whose risk of serious complications or death from COVID-19, and who aren't a primary disease vector, would need to participate in an uncontrolled gene therapy experiment.

COVID Measures Did Not Work and Should Never Be Repeated

After a year and a half of lies and disinformation, it seems clear the technocrats pushing for a Great Reset are more than willing to make things up as they go, simply to keep the pandemic going. According to Kluge, the way out of this new phase of the pandemic is “a combination of public health measures and vaccination, not one or the other.”²¹

This despite the fact that we already know that none of these strategies actually work. As noted by pathologist Dr. Roger Hodkinson²² in a May 27, 2021, Last American Vagabond interview,²³ masks, social distancing and lockdowns did not work and never will, and the COVID jabs are too dangerous to pursue.

In the interview above, Hodkinson reviews the very real concerns surrounding vaccine-induced spike proteins and their potentially devastating effects on health and human reproduction,²⁴ seeing how Pfizer’s own research demonstrates free spike proteins are disseminated throughout your body within hours of injection.^{25,26,27}

I detailed this research in “[Researcher: 'We Made a Big Mistake' on COVID-19 Vaccine](#),” which featured an interview with Canadian immunologist and vaccine researcher Byram Bridle, Ph.D. I’ve also explained the mechanics of why the [SARS-CoV-2 spike protein](#) is so dangerous and toxic in “[The Many Ways in Which COVID Vaccines May Harm Your Health](#).”

Anti-Vax Hater Predicts Nightmare Summer

In a June 11, 2021, Daily Beast article,²⁸ Dr. Peter Hotez — a rabid anti-vax hater — is now saying that children living in conservative “red” states, where COVID jab refusal tends to be higher, face a dangerous “nightmare summer.”

Hotez, dean of the National School of Tropical Medicine at Baylor College of Medicine, has in the past called for **violent suppression of vaccine safety information**, bullying parents of vaccine-injured children²⁹ by calling them “anti-vaxxers” even though they’re discussing their children’s injuries that occurred as a result of vaccination, not because they didn’t vaccinate them.

In 2018, Hotez classified vaccine safety and pro-informed consent advocacy groups such as the National Vaccine Information Center as “hate groups” that “hate children,”³⁰ and said we must “snuff out” (a term typically reserved for gangster style murder) the “anti-vaccine” movement.^{31,32} He’s also stated that vaccination “is not a choice; it’s a responsibility.”³³ Not surprisingly, Hotez has very strong ties to the vaccine industry.

During a March 23, 2019, appearance on the Joe Rogan show, Hotez suggested Amazon, Facebook, Twitter, Google, Reddit, Instagram and other online platforms should hire chief scientific officers to manage, filter and regulate content.³⁴ Hotez has also called for the use of **cyberwarfare tactics** against people who dare discuss potential vaccine problems, including yours truly.

No doubt, he’s loving the current Dark Age of online censorship that arose with the COVID pandemic.

“The only way to prevent these variants from gaining a foothold is to step up the pace of vaccinating everyone over the age 12 (and hopefully children younger than that by the fall),” Hotez writes in his Daily Beast article.³⁵

“But in these robust pockets of vaccine resistance, it’s hard to imagine getting anywhere close to full coverage of young people. For example, more than 50 percent of 12- to 17-year-olds are vaccinated (received at least one dose of vaccine) in Massachusetts and Vermont, whereas less than 10

percent of those in this same age group have been vaccinated in Alabama, Louisiana, and Mississippi.

Here's what might happen if we don't fully vaccinate the South. First, the number of cases could accelerate in July and August, just as they did last year ... In addition, we might see the new variants rise in frequency and disproportionately affect children, adolescents, and young adults, possibly including a multisystem inflammatory syndrome of children or MIS-C.

Some children's hospitals in the region may already be seeing an acceleration in hospitalizations and ICU admissions. In fact, the CDC just reported on rising hospitalization rates among adolescents this spring."

Hotez Overstates Risk to Children and Teens

Here, Hotez cites the CDC data³⁶ I discussed earlier, and the way he does it ends up misrepresenting the trend. To repeat, no teenagers have died from COVID-19. And the uptick in hospitalization he's talking about is an uptick from the mid-March low. But the April 2021 hospitalization rate for teens is still only about half the January 2021 rate (1.3 per 100,000 hospitalizations compared to 2.1 per 100,000). We are not looking at a doomsday trend here.

"The nation has to be fully and evenly vaccinated if we are to have any hope of navigating our way out of this epidemic. It's also the surest way to protect young people in this region," Hotez writes.³⁷

I disagree. Already last year, in 2020, data suggested the vast majority of the global population already had full or partial natural immunity. Initially, experts estimated that 70% of the population or more would need to be exposed and develop immunity before natural herd immunity would be achieved.³⁸

By mid-October 2020, more than a dozen scientists claimed the herd immunity threshold is actually somewhere between 43% and 9%, which means a vast majority of the global population – by then – were already at very low risk of serious illness.^{39,40,41,42,43} Data from Stockholm, Sweden, which didn't shut down during 2020, showed a herd immunity threshold of 17%.⁴⁴

Contrast that to the COVID jabs, which do NOT actually make you immune. You can still contract the illness and spread the virus. The vaccine makers admit the design of the shots mean they will only lessen your symptoms if or when you get infected. Theoretically, this will prevent or lower your risk of hospitalization and death.

However, on the flipside, scientists have fervently warned that the COVID shots may trigger antibody-dependent enhancement (ADE), making vaccinated individuals far more prone to serious complications and death when encountering the wild virus.

Children and teens also are not dying from COVID-19 in droves. In fact, they're not dying from it at all, so the idea that they are in dire need of gene therapy is simply not true.

No Need to Fear Mutations

Is there cause to be concerned about the new Delta variant? Or any other variant for that matter? According to Michael Yeadon, Ph.D., a life science researcher and former vice-president and chief scientist of allergy and respiratory research at Pfizer, the answer is a firm "no." In the interview above, which is part of the full-length documentary "Planet Lockdown,"⁴⁵ Yeadon explains why.

"Basically, everything your government has told you about this virus, everything you need to do to stay safe, is a lie," Yeadon says. "Every part of it ... None of the key themes that you hear talked about – from asymptomatic

transmission to top-up vaccines [i.e., booster shots] – not one of those things is supported by the science.

Every piece is cleverly chosen adjacently to something that probably is true, but is itself a lie, and has led people to where we are right now.”

When it comes to your susceptibility to variants, mutated versions of SARS-CoV-2, your resilience is not dependent on antibodies as much as it's dependent on your T-cell immunity, also known as cellular immunity. Yeadon explains:

“You've got four or five different arms of the immune system: innate immunity, mucosal, antibody, T-cells and compliment[ary systems]. There are all of these different wonderful systems that have integrated, one with another, because it needs to defend you against all sorts of different threats in the environment.

What I'm telling you is that the emphasis on antibodies in respect of respiratory viral infections is wrong, and you can establish that quite easily by doing some searching ...

I'm not saying antibodies have no role, but they're really not very important. This has been proven. There are some people in whom a natural experiment has occurred. They have a defect and they actually don't make antibodies, but they're able to fight off COVID-19, the virus SARS-CoV-2, quite well.

The way they do that is, they have T-cell immunity, cellular immunity. [T-cells] are cells that are trained to detect virus-infected cells and to kill those cells.

That's how you defend yourself against a virus. So, all of these mentions of antibody levels, it's just bunk. It is not a good measure of whether or not you're immune. It does give evidence that you've been infected, but their

persistence is not important as to whether you've got immunity ...

We've known this for decades. We've known about T-cells for decades. They were clearly in my undergraduate textbooks. And we've known about their importance in defending you against respiratory viruses since probably the 1970s, certainly the 1980s ...

It's quite normal for RNA viruses like SARS-CoV-2, when it replicates, to make typographical errors. It's got a very good error detection, error correction system so it doesn't make too many typos, but it does make some, and those are called 'variants.'

It's really important to know that if you find the variant that's most different from the sequence identified in Wuhan, that variance ... is only 0.3% different from the original sequence.

I'll say it another way. If you find the most different variance, it's 99.7% identical to the original one, and I can assure you ... that amount of difference is absolutely NOT possibly able to represent itself to you as a different virus. [So] when your government scientists tell you that a variant that's 0.3% different from SARS-CoV-2 could masquerade as a new virus and be a threat to your health, you should know, and I'm telling you, they are lying."

To recap, what Yeadon is saying is that a virus cannot mutate into a version that is so dissimilar from the original that your body cannot identify it. If you have T cell immunity, your immune system will recognize the mutated virus and take care of it, just as it would with the original version of the virus.

He explains how, earlier in the pandemic, scientists obtained blood from patients who had been sickened with the SARS virus 17 or 18 years ago. SARS-CoV-1, responsible

for that SARS outbreak, is only 80% similar to SARS-CoV-2. They wanted to know if the immune systems of these patients would be able to recognize SARS-CoV-2 — which they did. They still had memory T-cells against SARS-CoV-1, and those cells also recognized SARS-CoV-2, despite being only 80% similar.

Now, if a 20% difference was not enough to circumvent the immune system of these patients, why should you be concerned with a variant that is at most 0.3% different from the original SARS-CoV-2? And why would we need booster shots for these near-identical variants?

Booster Shots, a Trojan Horse?

Yeadon is extremely suspicious of the intentions behind booster shots for different variants, saying:

“You should be terrified at this point, as I am, because there's absolutely no possible justification for their manufacture. There's no possible benign interpretation of this. I believe they [the booster shots] are going to be used to damage your health and possibly kill you. Seriously. I can see no sensible interpretation other than a serious attempt at mass depopulation.

This will provide the tools to do it, and plausible deniability. They'll create another story about some sort of biological threat and you'll line up and get your top-up vaccines, and a few months or a year or so later, you'll die of some peculiar inexplicable syndrome. And they won't be able to associate it with the vaccines.

That's my belief — that they're lying to you about variants so they can make damaging top-up vaccines that you don't need at all. I think they will be used for malign purposes ...”

Reject the 'New Normal' and Reclaim Your Life

Until or unless someone in the know steps up to the plate with a confession, we have no way of knowing whether depopulation is actually an intended outcome of these shots. Still, even if there's no ill intent behind them, the real-world outcome may still be a mass-casualty event.

What seems clearer is that world leaders are sowing fear that is wildly disproportionate to the actual health threat of this virus and its variants, and the most logical reason for this is because they need this pandemic to continue in order to usher in [the Great Reset](#).

The Great Reset, in turn, is part of a parallel agenda built around [transhumanist ideologies](#), ideas and ideals, where man is merged with machine and biologically controlled through the use of nanotechnology and [digital surveillance](#).

If I'm correct, then the COVID pandemic narrative will continue to be spun, not for the next several months but years. The [fearmongering](#) will persist until permanent tracking has been implemented, getting regular gene therapy injections have become the norm and no one does anything unless government says it's OK. In other words, until life has been permanently turned into a hell fit for robots alone.

In the video below, talkRADIO host Julia Hartley-Brewer shares her opinion on the matter, saying that if the U.K. does not open on "Freedom Day," June 21, 2021, as planned, then lockdowns are likely to continue forever.

She points out that the "vaccines" are working better than anyone dared hope, and a far larger portion of the population than expected have willingly taken them. People are as safe as they're ever going to get, yet government is still vacillating, saying it's not enough. It's time to go back to the old normal where people are free to live their

own lives, Hartley-Brewer says, and she's absolutely right.

WTH is going on with Jill Biden gallivanting around the country promoting the non-vaccine? Truly, if I were undecided, this would make my mind up in a hurry not to get vaxxed. There is something sinister about all this coercion. And an outright threat from bumbling Joe telling us there will be consequences for those who are unvaccinated. It certainly looks like 30% of the population is adamantly opposed to getting the jab. Then, when will this all end? How many boosters? How many identity cards, passports, implants, lost freedoms, travel restrictions, limited access and mandates? Historical records indicate that Dr. Edward Jenner, renowned as "The Father of Vaccination", killed his own son by giving too many shots.

I am disgusted. More angry than afraid. I am sick and tired of being lied to by people who have no credibility or integrity. I just want to be left alone to live and run my life in peace. Too many are determined to prevent that. I predict that this meddling in people's private affairs will not end well. I keep wondering which will be the straw that breaks the camels back... My conjecture is that, if (?) this is a synthetic lab-engineered organism, the odds are great that it will be unstable and break down over time. I expect more virulent mutations to be much less likely.

Like the little boy who cried "wolf!" once too often, many people are now ignoring what govt spokesmen say. That means either harsh penalties will need to be imposed to control the noncompliant or a new threat will need to be devised to frighten people into submission. We realize we are being led by idiots who would frighten us with tales of boogymen instead of educating the public in self-reliance and prophylaxis. That is, optimize serum vitamin D/zinc. Put some ivermectin on your shelf, wash your hands and get on with your life. How many people even remember that life is for living?

You might want to check out the benefits of 'pine needle tea' or maybe you already know. I think it's supposed to give ivermectin-like protection. I make it now and it's quite pleasant - after I add a bit of stevia or my kombucha - or both.

The Sky Is Falling! ... and whatever else will scare Sheeple into compliance and even aggressive shaming, exclusionary business practices and retribution for killing their neighbors and not caring. Just tonight, I bought a Porsche Cayenne Turbo S. Does that seem like a radical subject change? It's not. I won't put up with the restrictions of airline travel. Well, that is no change, I bypass the airlines with comfortable high performance driving rather than shoes off, grope and tyrannical showing us who's boss in a conditioning of the masses. Now it's worse. Did they know back then that they first needed to condition us into complacency? If it serves no other purpose, then there is a purpose. I'm very much into preparedness and lately reevaluating preparedness scenarios. Population will be much less in the harsh times to come and critical thinkers won't be as diluted within what would be the more desperate and more hostile demanding you give them "their fair share" of your preparedness supplies likely after laughing at you and calling you paranoid in these remaining days that will become known as the good times when preparedness was still possible.

Ronald, were you able to get your Cayenne with a manual transmission? I'm getting close to needing a new vehicle, and I refuse to drive anything automatic. But these damnable technocrats don't want us to think for ourselves or learn to control the machinery in our lives, rather they want us to get used to our machines doing all the work for us, controlling us. So it's becoming insanely difficult to find a new car with a manual transmission. I may have to buy something gently pre-owned.

"There will be consequences" - woooo! Like I won't be able to go to the ballgame? Sod it, the tickets and concessions are overpriced anyway. They'll see how it goes if 1/3 of their business is lost. I'll take the consequences of my decision to remain healthy over their consequences any day and every day, and I think at least 1/3 are with me. Remember, if the aim is indeed want to weed out about 90% of the population, they can't make it too easy to run the gauntlet and emerge with health intact. But they might have overlooked the consideration that poisoning the believers is a rather unsustainable approach.

Spot on! I had COVID in 2/2020 after a cruise. A very mild case. I take significant Vit D and C in the winter along with lysine, NAC and zinc. My family and neighbors I infected were not quite as mild. I go on cruises for all the cut up veggies and fruit I can eat in a week or two and the winter sunshine! I never gain weight. Road trips south last winter to get sunshine. I read recently the hardest people for a government to control are the ones who turn off the news.

You are not alone in your thinking. So many of us feel the same way -- sick and tired. It's heartbreaking how this has ruined and destroyed many lives, and keeps the rest of us in a nightmarish limbo waiting for this circus of deception to end. It is very frustrating to be ruled over by an incompetent government who does not want the best for its people. The sheeple are the

ones who obediently wear their masks, get their vaccines and help to promote the lunacy. The only thing we can do is pray. Not only for the deception to come to light but to help those of us who see things for what they are to stay strong. To trust God in the light is nothing, but to trust Him in the dark, that is faith. -C.H. Spurgeon

Almond - Thought you might appreciate this quote from R. B. Pearsons - Pasteur: Plagiarist, Imposter - The Germ Theory Exploded (1943). In chapter 8 he talks about how research shows that when vaccines are injected into various test subjects, be they animal or human, alterations or mutations occur. Of course we now know this as a newish field of research, referred to as gain-of-function research.

"Now that this has been proven so overwhelmingly, we can see how a vaccine for any one disease could start some other disease through these mutated forms. We shall then need more serums (vaccines) for the new diseases, and so on, ad infinitum." (Parenthesis mine) If one is in the business of making vaccines, could there be any better business model? Pearsons goes on to blame the 1918 flu pandemic on the tuberculosis vaccine. He saw the hand writing on the wall all the way back in 1943 and called it out then. Seems we could all use some basic education about vaccines. secularheretic.substack.com/.../death-by-covid-vaccine-update-9

balhawk... As to Biden's consequences for the unvaxxed... Do I really want to wear a mask to eat in a restaurant? That seems sort of unsanitary if you think about it--sort of like wearing your napkin over your mouth without changing it. Not exactly intelligent behavior. A young fellow was jus telling me that even fast food has gotten expensive--out of his budget. Even if you can afford to eat out, the quality is falling so low that I would rather eat at home. So, I cannot go to a movie? First there would have to be a movie I actually wanted to see. Why pay money for trash and mind pollution? I will spare myself the unpleasantness of getting groped and jabbed to get on an airplane and travel to another country that is not as comfortable as my home. As for sporting events, I do not consider it entertainment to watch someone take a knee, skip the national anthem or strut around in rainbow-colored gear. Just like so much of classroom time taken up with stuff other than the 3Rs, now sports time has also been co-opted to send a PC message. At least when I go to a rodeo, they still fly the American flag--quite a few of them! In time, we will see what the

CONSEQUENCES are for Biden and company...

lin... At what point do the oppressed fight back and try to abolish their oppressors? There are some free-thinking individuals who can come up with some very creative solutions. A technocracy must be maintained and is vulnerable to sabotage. (Many hackers, for example, are hard-wired just to do such things for the fun of it to see what they can get away with.) Joe "Gray Man", sitting out in his humble home on his 5 acres out in the middle of no where far past the city limits is unlikely to draw much attention. I see events coming together in such a way that the goal of dividing Americans will be thwarted and, instead, serve only to unite people against the illegitimate

power claimed by govt. Perhaps I am just an optimist. However, history does repeat itself and I believe liberty is enshrined in the American DNA. In times of crisis, people amaze themselves at what they are capable of. However, the sleeping bear is slow to awaken and anger. The time will come even if it takes a long time. Meanwhile, the wise will prepare for a prolonged seige.

krofter... In my opinion, diseases will eventually burn themselves out in about 98% of cases. The area of concern is those 2% of cases where they take a turn for the worse and become more virulent. This prob happens abut once a century? However, events such as vaccination have cumulative effects that linger after a pandemic has run it's course. There are cumulative and compounded downstream repercussions that continue to affect overall health. The more vaccines you have, the less likely you are to enjoy vital good health. There is a limit to how many times you can alter and reengineer the immune system and still expect the biome to function optimally.

IMO, "COVID deaths" began when annual hospital admissions and deaths from influenza, pneumonia, polluted lungs, smokers lungs, pulmonary complications, obesity or combinations of these and other illnesses were suddenly and deliberately mislabeled "COVID 19 deaths" at the beginning of this faux "pandemic" in order to generate a "body count boogeyman" the perpetrators could point to, and from which they could lay the ground work for, ". . . the necessity of a global "vaccine" to "save people" from a dreaded "COVID virus" " that didn't exist. Miraculously, flu, pneumonia, etc. deaths dropped to almost nil. That and the deliberately high false positive swab to ". . . show the people how many were going to need THE SHOT"—their end game being the injection of an experimental substance into humanity for which *** were hung and the Nuremberg Code was established.

The reason for calling it a vaccine? Congress indemnified the pharmaceutical industry from lawsuits for anyone killed or injured by their "vaccines" in 1986. A government account called VAERS was set up to pay for the carnage. The CDC was to gather reports of vaccine deaths and injuries. But only an estimated 1-3% are ever reported to VAERS. Because it's voluntary for doctors

and medical people to do this. To date, VAERS has paid out more than \$4 billion, mostly for deaths and injuries of children and young adults, leaving some 95%+ families with no recourse and a lifetime of financial and emotional struggle.

"COVID body counts" grew when hospitals were okayed to bill Medicare (rough estimates here) \$4,000 for every "COVID patient admitted, \$39,000 for every day a "COVID patient" was in ICU, and \$59,000 a day for everyday a "COVID patient" was on a ventilator when he/she died. "COVID deaths" soared. Some even from motorcycle and vehicle accidents. The unproven "COVID shot" is not a vaccine, but rather an experimental drug that appears to be a genocidal shot that's also sterilizes. . . . continued . . .

You are absolutely right, but first, Legacy Media this morning, * 96 to 97% of doctors have had the jab. * Be afraid, be very afraid. If the after affects of this potion are remotely as bad as they are expected to be, how many doctors will there be left in the aftermath? The talking heads are bemoaning how many nurses and staff are refusing the JAB'S while giving superficial coverage as to why they may be "anti-vaxxer's." The untrustworthy institutions show who they are by resorting to bribes and when they offer free weed on one hand yet wring their hands as to how dangerous weed is shows how used they have become to speaking with a forked tongue. Too many don't even notice. The push is on to bypass using the government as a shield and scapegoat to use direct monopoly corporate dictates to force an ever growing segment of the population to submit to the JAB'S.

Here they are resorting to harassing on the phone and knocking on doors to "do the right thing." All these and more just keeps adding to Doc's many accurate predictions. Hunker down and search out those things keeping you, me, us, independent. It's not time to panic, and don't take on too much as to be ineffective in your efforts. If you can find like minds, disconnect from the Digital Peeping Toms & their ever increasing Empires of Madness.

mihail - my two words: 'Remain vigilant' or 'Stay focused' Yours?

Steve - as you say, finding like minds is important. Eric Clapton somewhat alluded to that in yesterday's interview. Funny, weed was illegal a few years ago (still is in some states). Now it's used as bait in a trap. They skipped the animal trials. Now the weed is the cheese in the mouse trap. And humanity has become the mice, or lab rats as some say.

debgessell - it's so illegal that Stevie Wonder could see it.

real jones - in the 50's inner city blacks had a game referred to as "policy". It was basically the same thing as the lotto. People would pick numbers for the day. If they got the right ones, a cash reward was waiting for them. The guys who ran these policy games had to fly under the radar, because gambling was illegal. When the government saw it was a money maker (just like weed) they legalized it. Poison, in the form of a jab, is the prize that everybody wins.

jamNjim - Good point! They won't be around to enjoy the scholarship. Your comment is a good addendum to jones's reply above.

We need to stand fast against propaganda. If you need assistance in furthering your critical thinking skills, you may want to tune into City Spotlight - Special Edition on Friday, June 25, 2021 at 6:05 p.m. Eastern Time and listen to the interview co-host R.J. Malloy (a retired attorney and former law clerk to a US District Court Judge) and I conducted with Mark Crispin Miller on what he teaches his students at NYU and why critical thinking is so important in this day and age, especially with all of the efforts by Big Tech, Big Pharma and the various governments and WHO to depopulate the world. Does that sound too far-fetched? Tune in on Friday evening and decide for yourself! (The program repeats on the following Monday at 2:05 p.m.)

The vaccine IS the "kill switch". The spike protein IS the toxin. The vaccine IS NOT a vaccine ... it's a human experiment similar to what Dr. Josef Mengele conducted on the Jews in the concentration camps in WWII. Dr. Anthony Fauci is our modern day Mengele. He is the ass-hat figurehead for which totalitarian control is slowly creeping into our lives. He deserves no less than a Nuremberg-style trial, along with his CDC and EcoHealth Alliance cronies. I wish this was nothing more than a very dangerous nightmare, but I have lost friends and acquaintances to the jab. We must stand fast against these tyrants and resist them at every turn.

its ALL PROPOGANDA! And it has been for years. The US population has rising health costs from decreased to poor industrialized food quality, polluted water, lousy air, AG chemicals drenching outdoor environments, combined factors creating known cancer zones. Now obesity (from missing nutrients) and diabetes are running rampant. High BP and CVD starting earlier, now also prevalent in younger generations. Doubt this was by default, rather by plan. Henry Kissinger had picked up the eugenics concept back in mid-70's, and no one seems to have been paying close attention. Loads of time for converts to slowly and systematically destroy human health while profiting, especially vaccine makers working with zero liability. Considered reasons why GMO food is not being labelled? if we die earlier, then overriding de-pop campaign will succeed faster.

Therefore most comparisons to vaxxed vs unvaxxed are fairly useless. Its individual health status and whether or not these people have recovered from covid! NEVER hear that from mainstream. Some hospital covid wards reportedly may now house mostly vaccinated people, as these shots don't particularly work. Entire episode shows a lack of common sense beyond belief, adding fear on top of poor health status that already rules the majority of Americans.

We MUST stop following theirs, commenting on their every stupidity. That is neither helpful nor productive. We must focus on the agenda of resistance, how we can disrupt them. How we can stop them. They, none of them, will ever see the inside of a courtroom never mind a jail but that does not matter. What matters is, we win. And we can only do that by focusing on our agenda. Hello Almond from Switzerland, No worries Almond, we Mama Bears are out there, thriving and not believing a word of the lies and hogwash the Mass Media continue to spew out each and every day! My two adult children are on the same page as I; we are all against the shots, and my daughter and I have not worn masks anywhere since February of 2021. We sure stick out, but I raised my two kids to always question authority and to think rationally. At the moment, we are all baffled at the sheer number of sheeple around us, friend and family alike! It is truly frightening in a way, but we try not to let the news upset us or get in the way of us living our best life...my kids were raised without a TV, so perhaps that is one of the reasons they think for themselves. They have no time for such drive!

Common sense is what both of my children have in spades and I feel so lucky...my immediate family in Canada though are all lost causes (some of them are doctors) when it comes to speaking

against the common narrative. It is sad really and intriguing, as we are from the same household and parents...I continue to be baffled in some way every day. I stopped reading the news online years ago and still don't own a TV ..I am certain I haven't missed much! The BBC makes me want to vomit..it used to be a respectful place to get some information, but now only shells out garbage! The sheer volume is breathtaking! Thanks to all who comment on Dr. Mercola's' articles..it is so heartwarming to know that there are others out there who feel the same as my family does. Thank goodness for all of you!

My father in law who was a fighter pilot in Vietnam and a guy who I always thought "Got It" has fully succumbed to the covid propaganda. As someone who spent his youth fighting communists I thought that he of all persons would see what we are up against. I always thought age brought wisdom. I'm not sure what happened here. The people on the television have overcome rational thinking. If Biden keeps him it will only discredit the Executive branch more. Biden's calls for a "Green" Lockdown recently have not made us more agreeable or frightened. We're angry, but also amused at how stupid our domestic enemies (the parasites supposedly running our country) display themselves to be. Organize locally. Block the stupid at the state and local level. If that won't work, move. America is no more. Not the country I grew up in. I keep reading the articles

about the "waves of death" but no one believes the Ministry of Truth anymore. Our real fear should be the "vaccinated" dying between September and Christmas this year. Any real variant should be called the Vax Variant. Not Delta or Indian.

Could not have said it better. That will be the real killer, the slow kill shot that IS the gene therapy they're calling a vaccine. Interestingly, Pfizer filed their product with the SEC as gene therapy so will sometime explain why everyone is calling this a vaccine? It is NOT a vaccine. Vaccines take a weakened piece of a virus, introduce it to your innate immune system which then builds a defense. This gene therapy creates the spike protein, that is, instructs your DNA to do so, with no OFF switch. Just the idea of that level of arrogance is astounding! This is all about population control and the blame will be on the fake virus that is not a virus, given its never been isolated, and the inducement of fear is the classical pit one group against another: vaccinated vs unvaccinated, all the while, the most so called Covid-19 cases are now coming from those getting the kill shots. Sickening.

It's completely evil and they won't get away with it forever. The people that are so happy to get the death jab will happily take the mark of the beast too.

It has nothing to do with Satan. I am afraid human beings are orchestrating this. Humans can reach the sublime or the opposite, the depths of evil all by themselves. Greed is a form of fear, the fear of never having enough or being enough. All the deadly sins are just forms of fear. Kill Gates is afraid, very afraid and therefore he wants total control. Little Fauci is afraid of being found out for the fraud he has been all his life, and this keeps him evil as he never wants to be found out. It is

the same for all the others who are perpetuating this fraud. Some are in on it, and some are just puppets, but their fear keeps them mongering more fear on the people.

The delta 'variant' has 3 mutations, 2 of which are in the ACE2 receptor binding domain, which is the first step of 'infection'. The mutation E484Q loses one negative charge, the L452R adds one positive charge, thus the net charge difference between the old covid and 'delta covid' is zero. That makes NOTHING to any 'great changes' in 'efficiency' of infection. All is a total crap which should be PROSECUTED NOW! What is going on with Fauci?? Are the letters not enough to prosecute???

Hi Chris, I heard this statement the other day: "You have a better chance of escaping a prison sentence if you are rich and guilty, than if you are poor and innocent". Perhaps that's why Fauci hasn't been touched so far. He's a front man for Pharma and the globalists. Another reason he's not prosecuted is probably the same reason Clinton, the phony prince, Ghislaine Maxwell, Gates, and other big wheel\$ have not been prosecuted in the Epstein Case (yet to be opened). They can stall until the cows come home on these investigations. But as far as the vaccines go, you better get it by yesterday. At least that's the tone being set by the MSM.

They're just not hiding their criminality anymore as the sheeple population is so asleep, it doesn't make a lick of difference. And to those who are awake, they flaunt their power.

Covid 19 is BS and hogwash. The only things that are different between this year and 2018 are the "vaccines" and the people stupid enough to take them and children lured by free donuts and ice cream to the "vaccines". There is no deadly pandemic, and I heard in some places that population last year either stayed the same as in 2019 or increased. There is no natural phenomenon killing us in great numbers, just the experimental gene therapy "vaccines."

Right on, Ronald! Thanks for taking this step to return the discussion to prevention, the main job of the immune system. Dr. Mercola is always good at emphasizing our immune systems. Of course if the CDC and WHO had been talking immune system importance from the beginning this whole Panic would have disappeared in a few months as people could have been working on fortifying their health with better natural immunity from 16 months ago. But now the entire world population has been embroiled in discussions of virus variants and other threats, to the total ignorance of native immunity. I commend you for being one of those who knows what's really important and brings us back to what is really all that we need to focus on. Thank you!

This article states, “More importantly, a June 11, 2021, PHE report⁷ shows that as a hospital patient, you are six times more likely to die of the COVID Delta variant if you are fully vaccinated, than if you are not vaccinated at all.”. I finally found the #7 reference and it seems to show that of 42 deaths from Delta, 23 were unvaccinated and 17 were vaccinated. That’s on page 15. That seems to suggest that more died who were unvaccinated. Did I miss or misunderstand something?

Posted On 06/23/2021

That’s a good question, but I think the answer is in what qualifies as “vaccinated, or rather “received experimental gene therapy.” Among the unvaccinated I believe they were including those who had received one dose. I’m sorry you got downvoted for asking a question; I wish both sides of this debate would listen to each other rather than just attacking all the time—it would give more credibility to the critical thinkers/questioners.

Wendyb., if you will read the three short paragraphs below the statement you quoted, the basis for the statement is explained. Look at percentages rather than number of patients. I would like to toss a question out to the community. Please excuse my ignorance. Are these so-called variants simply versions of the original circulating SARS-CoV-2, or are they carrying versions of "shed and spread" vax spike protein which research shows is manipulated and far more dangerous? I suspect the latter because young people who can so easily shake off SARS-CoV-2 are being seriously sickened by the so-called variants.

Quite possibly SARS-CoV-2 would fade into the background, become less and less virulent, and become a typical low-mortality seasonal virus, if the vaccination program was not keeping it alive. We have no idea for how long a vaccinated person will continue to produce (and shed!) the manipulated spike protein. And if Big Pharma is allowed to push booster shots at everyone ad infinitum (at no charge, right? because they are philanthropists and saviors, right?), we may never escape the "pandemic". In a sane, pre-COVID world, SARS-CoV-2 would have had its season and it would have been allowed to subside into the tapestry of the earth's virome, no more harmful than seasonal flu.

Hi Wendy, my understanding of the figures in this article is that the numbers of deaths in the 19,573 hospitalized unvaccinated patients was 23, whilst the number of deaths in the 13,633 hospitalized vaccinated was 19. Whilst just looking at the numbers as a whole in actual deaths, it does logically appear that more non vaccinated died than unvaccinated, but when you look at the percentage of deaths in relation to the number of people:- 19,573 unvaccinated compared to 13,633 vaccinated, then, percentage wise, those vaccinated did have a higher proportion of deaths, if you get what I mean!! I may not have explained myself very well, and may have misunderstood it myself, and I'm sure there are some much cleverer people than me on here who could do a better job, but hope my efforts help.

Posted On 06/23/2021

wendyb you are correct with the base number but you also have to take into consideration the total quantity that is used to base these numbers off of. so according to the report it was based off of 33206 count in which 19573 were un-'vaccinated' and having a count of 23 deaths.

per page 15 - 19573 total counted to have delta - with 23 ($23/19573 = .001175$ or .1175%)

now we deduct the 'unvaccinated' from the partial/fully vaccinated and come up with a quantity value of 13633 and get:

$33206 - 19573 = 13633$ - with 19 ($19/13633 = .001393$ or .1393%)

So per the article, if true, the percentage values show a different story where the 'unvaccinated' have a .1175% while vaccinated have .1393%

so you could use this percentage to make 'guesstimates'. So using the population of 19573 ('unvaccinated) times .001175 we get 22.998 and the same applies with the other group. But if we took the .1393% and applied it to a quantity count of 19573 we'd get 27.2651 meaning going based on percentage counts that value that 'could' be expected for vaccinated would be roughly 27 if the count were match the count of the unvaccinated.

but as others have said, this is a way of manipulating data. i'm no statistician and i didn't perform some ANOVA to verify if my implications are correct, but this is a way that you could look at the data and how it shows that the 'vaccinated' do show a higher level of issues compared to unvaccinated.

Posted On 06/23/2021

mushyp3a

I am guessing it is as a percentage of those who were hospitalized that were vaccinated. So a higher percentage of those hospitalized with Covid who had been fully vaccinated died than those hospitalized who had not been vaccinated. I would like to see a few more variables here as chances are those fully vaccinated were older and with health issues than those not vaccinated. That aside, these vaccinations were "sold" on the premise that they would reduce your symptoms and keep you out of hospital, especially for the elderly. This is clearly not happening as this is a very high failure rate.

This entire agenda is driven by fear, so let's keep our courage. Healthy people who know how to deal with viruses have nothing to fear from any variants. I suspect this may even be the worst they can do. After all, smallpox proved a paper tiger when confronted by sanitation and improved nutrition. The

legitimate matter of concern is how governments and the ignorant will twist this, and attempt to arm-twist us. We must keep our faith and courage, and be willing to deal with whatever inconveniences. To me, there is only one viable choice. On the other hand, it also give me hope that enough of the people who get very ill after having gotten the jabs they were assured would protect them come to realize they were conned, and "the science" they heard about from the mainstream media was a load of hogwash. That, and the inherent unsustainability of poisoning one's true believers.

If what we've read is true terrible neurological decline will show in the next year or two plus their children may develop heart disease and severe reproductive decline. Those issues may create the second wave. Or perhaps the above is the third wave bc vaccine injury and death are doing their work now but is kept on the down low by presenting conflicting figures and mixed data.

Cat6071, obviously , no one is looking at the numbers or this would have been pointed out back in January when we had the largest surge of Covid-19 infections and deaths less than 3 weeks after

they started vaccinating everyone. If you recall, it was the ELDERLY they targeted! Anyone who has been in medicine and has any experience under their belt knows that vaccines are basically ineffective for the elderly population. Vaccinating anyone over age 75 with this mRNA vaccine should be classified as attempted murder. What's even more profound is the elderly women who are dying from this. Most of the ones that died had only one underlying condition and that was their AGE! Most of them weren't even taking any medications. I'm looking at the VAERS website when I'm saying this.

I think for myself, and I throw it back at people when the need arises. I live in an EXTREMELY blue state, and the time appears to be approaching when I'll have to stand up and kick some ***. Vaccine is being mandated for work, and though exemptions are allowed, if I file an exemption I may have to continue wearing a mask, which I WILL NOT #^*&\$%!!!! DO. I pity the fool who tells me I'm being selfish and I should just get jabbed, because I'm loaded for bear and ready to go a few rounds. I actually ditched most of my friends on social media, for two reasons. One, I didn't want to risk unloading on them and losing them for good, if at all possible. And two, they were all virtue posting about how they dutifully got jabbed, and I couldn't stand to watch as their health subsequently falls apart. It's just a matter of time.

So if this turns ugly for those vaccinated in the coming months, I am getting this feeling that these people will find some way to blame those not vaccinated. It was an existential decision from the beginning: Do you want to live in a world like this, even if this was the Black Plague? By March, 2020, the hoax was clear. However, the multiple forms of poisoning the population produced symptoms (think of 5G, chemtrails, and military radars for which you cannot even buy an instrument to measure the radiation). When you check SAERS, most of the deceased had "preexisting conditions" by the time of their untimely departure. (Well, lots of entries simply disappear from SAERS, too.) I am wondering how many of these preexisting conditions were due to the general poisoning of the population... If you know what you want and it's greater than mere survival, you cannot be intimidated or confused, because you keep your eyes on the target. I just hope, you mean well...

The CDC, WHO, FDA, etc have turned out to be so untrustworthy over many decades, I don't have trust in much of what they say. FDA approved gives me no peace of mind. Remember the morning sickness pill of the 50's and all the deformed babies. And the list of things like that is never ending. IMO this new "variant" scare is just to try and push more people to take an

As Americans (soldiers and police) cannot really be used against Americans on a large scale, my guess is that the Somalian and other trash "imports" are going to serve in the mercenary armies that take over the job of the police, assisted by superior tech (as the monsters had half of the armed forced "vaccinated," they can remote-control their zombies, which will ultimately nullify the whole group, although the zombies will be better-equipped). The police and, especially the sheriff's department, are going to be eliminated soon. In fact, policemen are already retiring and resigning in droves, because they are criminally charged when they protect the people from the criminals released from prison to serve only one purpose: wreak havoc... Remember, Rittenhouse killed two of his three attackers, but all three were criminals... California released another 32k violent criminals six weeks ago and more are coming...

Klaus Schwab announced it already last year and it seems everything is on schedule. The morons get the Kill Shot and their spike protein and prion shedding poisons the rest of us... In the meanwhile, 5G, chemtrails, disinfectants, the muzzled, and the injected with their death sentence are posing constant lethal threats. There are a few temporary protections, but in the not-very-long run, we are all going to be exterminated like rats or roaches...

If this is all true, and our government officials have conspired with "Big Tech"; the we have a choice. We can either submit to their tyranny and allow them to murder us; or we will have to fight in what will probably prove to be a very bloody revolutionary war. At age 63; I for one have difficulty stomaching either choice. Somehow we have allowed the criminally insane to take over the world! This is beyond scary!

The third way is to simply make a stand for truth and opt out en masse. Less than 60% of Americans have gotten the jabs, despite their ready availability, a massive propaganda campaign,

and even prizes! There are more of us than we realize, and many more who undoubtedly have come to regret getting the jobs, so there may be more of us than there are true believers. They're just a lot louder, and get the press.

So these jabs are 'effective'? A few months ago you said, "COVID-19 "vaccines" do not impart immunity or inhibit transmissibility of the disease. They only are designed to lessen your infection symptoms if or when you get infected." What's the deal? These underhanded, manipulative ads and 'testamonies' to coerce everyone to get it are absolutely obscene.

Today we met 2 girls from London, who left Great Britain in January, and have been in Mexico since, to escape lockdowns. They were young, in their 20's. We got to talking, they don't have a vaccine yet, but are getting one so life can get back to normal, they trust their government explicitly. We kindly explained adverse effects (heart inflammation, death, life span 3-5 years, etc etc.) I said,"..the right to travel, go to events, pubs, breath fresh air, go to grocery store,, etc, is a God given right. Its called FREEDOM. Oh, no said the girl, I disagree, thOSE ARE not human rightS. (??????). ,I told them life expectancy is 3-5 years after the jab, and there will be endless booster jabs, and lockdowns won't be lifted. The girl said, well....then we will go party and go to pubs, clubs every night,, and use our time on this earth...to have a good time., until we die. . They were adamant. So, that is the mentality we r dealing with. WTHell.

There are many ways to fight back against what's happening. The White Rose, a counter-propagandist group from Nazi times, ironically, has now reformed and is on Telegram: t.me/.../jointhewhiterose <http://www.peoplesrights.org> is about bringing like-minded people together in their communities for the purpose of defending their rights when needed. (Ontario, Canada needs so many more!!) Try offline strategies, such as inserting peoplesrights.org business cards into books, and then donating those books to your neighborhood "little libraries". Print out and distribute information pages about the virus, the jab, and where people can look for more information. Get some sidewalk chalk and take to the streets with messages that make people think. Someone recently said that we, those who are awake, must be the media now. It is up to us to come together and get the word out to as many people as possible.

Speaking of that, Canadians are getting quite the wake-up call with this video:

www.cpac.ca/en/programs/covid-19-canada-responds/episodes/66396178/ . I sent this to everyone who I thought would appreciate it. If they each send it to, say, 10 people, then it becomes thousands very quickly. What I love about it is that it comes right from Parliament Hill, right from CPAC, and only

TWO members of the press calling in with questions, because guess what? Yup, this press conference was not published on mainstream media.

Send it out. Let people wonder why this is happening, and from an "official source" to boot. Include the link to Dr. Robert Malone's video, where he describes in detail what happens when you get the shot, and what could happen in the next 2 or 3 years. And don't forget to include the video of Kary Mullis, PCR test inventor, who specifically states that the test was never meant to be used as a diagnostic tool. THEN let them try to deny there is something going on!

Please post if vaccine efficacy is not close to 95%

Posted On 06/23/2021

jamNjim

ramrodd, the world will never know because they never actually did a real efficacy test. They only checked for antibodies after vaccination. Having antibodies to the vaccine does not mean you will have antibodies that will neutralize/kill the virus! This is a fact, not some conspiracy theory. They have been trying to make a coronavirus vaccine since the 1950's!!! From the 50's all the way to the early 2000's all attempts to make a coronavirus vaccine have failed miserably. Sars-Cov-1 of 2003/4 is a perfect example. They had a vaccine for this by 2005. When they tested it on ferrets they had a strong antibody response. When they exposed these ferrets to the live virus they ALL DIED! Another famous example was in the early 1960's. A respiratory infection called RSV was going around and it mostly affect children. If gone untreated it could lead to pneumonia and death. It was very transmittable. If one child in a classroom had it there was a good chance the entire classroom would catch it. So they made a vaccine and SKIPPED the ANIMAL TRIALS! OMG! Over 80% of the children they tested this RSV vaccine on got sick with RSV and many of them died after getting the infection. In both the RSV and SARS vaccines the problem was ADE (antibody dependent enhancement). The antibodies your body created in response to the vaccine attaches to the virus and instead of neutralizing the virus it ENHANCES the virus's ability to enter the cells! This has been the case for EVERY coronavirus vaccine that has ever been created. Guess what? They skipped the animal trials on this vaccine! I believe part of the reason for skipping this critical phase

in testing is they can't isolate the virus. In order to infect your test subjects in a CONTROLLED lab setting you have to isolate the virus and replicate it in cells. That was never done. Here's the scariest part: This Sars-Cov-2 vaccine is a modified copy of the FAILED Sars-Cov-1 vaccine that never got approved/licensed.

Check out Advanced Silver and Sovereign Silver. Read all the sites offer. I've read the science elsewhere that said there is significant microbial destruction with no more than silver being 10 parts per million. It is great stuff. Blessings!

I've all but quit watching the news. I don't watch any MSM. I stay up and watch Steve Hilton on Fox News because he has been the only news anchor actively investigating the origin of the Sars-Cov-2 virus. He began investigating it back in May 2020. He was the only person on TV brave enough, at the time, to question the origin of the virus and call BS on the "Bat-to-Human" jumping. The fastest way to disprove the Bat-to-Human theory is the fact that this virus won't reinfect a bat. In order to jump from bats to humans it has to be able to infect and replicate in both humans and bats. He put his career on the line for this and I respect anyone that will go against the current narrative.

Some details were left out that was covered in previous articles. As the virus mutates it typically becomes more transmittable and LESS deadly. Many on this forum, including Dr. Mercola, concluded that the vaccine has weakened the immune system to the point that these weaker variants, that normally would have little to no symptoms, are now killing people. You'll never hear that from the MSM/Fake News or our CDC or FDA. This just provides them with more reasons to do lockdowns, closures, masks mandates, and vaccines. This effectively will keep this pandemic going forever because the virus will continue mutating.

At the WEF, Walker wrote an article in 2016 entitled "Healthcare in 2030: Goodbye Hospital, Hello Home-spital," in which she discusses how wearable devices, brain-machine interfaces, and injectable/swallowable robotic "medicines" will be the norm by 2030. Years before COVID-19 and the Great Reset–inspired efforts to change health care in just this way, Walker wrote that while the dystopian scenario she was painting "sounds crazy . . . most of these technologies are either almost ready for prime time, or in development." Of course, a lot of those technologies took shape thanks to the patronage of her former bosses, Jeffrey Epstein and Bill Gates. Here is the article on the website of WEF www.weforum.org/agenda/2016/11/healthcare-in-2030-goodbye-hospital-hel.. GOODBYE CRIMINALS!!! I would like to add...

I say this, not in jest, but in all seriousness because I do not see any other "technology" that can be used because those IN a "judicial or congressional or executive" technology are corrupt beyond repair. We have come to the point in which NO attempts at rationale conversation, convincing or otherwise discussions will mend their ways. Those behind the planned events have an agenda they will NEVER give up on and the only remedy is for the world to "detoxify" them from the planet; eliminate them from the bowels of the earth. Lakhana, we must re-do governments. This sounds crazy. But replacing big nation states with small, local ones is the best idea. If 30 states tried to formally secede as a whole--even peacefully--from the USA, we know what would happen. The civil war the bad guys are itching for. Angry as we are, we need to avoid this. It would only facilitate the Great Reset. But...if we had a soft secession of medium sized towns and rural counties just refusing to enforce or comply any mandates issued by President Magoo or his handlers...forming our own economies and trading with other tiny "countries" we might be able to resist. Form our own currencies as the dollar implodes. Our own governments accountable only to those who vote them in. Unless they go full democrat like Athens (where all citizens vote on things without representatives.) The federal governments are set up to fail. The globalists want their puppets to self destruct and lose public trust. They want a crash of the Old System. It's going to happen. BUT if we have a New System of our own things will not go their way. Fight destruction by building. We can't destroy them. But we are much better builders.

mnpearl, exactly what I was thinking! If what Dr. McCullough says is true, and I believe it is, the virus has done it's thing in about 5 days. You get the virus, it enters the cells, it replicates and spreads. That's when your immune system kicks in and kills it. This takes 5 days (give or take a day). By this time you have symptoms (coughing, fever, body aches, etc). The actual Covid-19 infection is caused by the aftermath of DNA fragments and inflammation of the Ace2 receptors. So all that's left of the virus is DNA fragments that the PCR test detects and gives a false positive. So there's no way they are even isolating the virus at this point because they are all dead. All the nasal swab is doing is picking up the fragments your body is eliminating through the mucus membranes. In other words, ALL of the so called "variants" are BS!

He then told me to email him all I had on why the vaccines may not be safe. I have not done that and it has been a month since I last saw him. I have not taken the vaccine and am not planning on it.

I understand that our immunity to Covid19 will help us fight variants, however, I am concerned about the enemy's prediction that the young adults and children, teens will die from it. Their usual thinking is to punish the places that don't go along with their oppression, like red states (like they did with Texas), and in the elite globalist plans like Lockstep, they state their plan if not enough of the population gets "vaccinated", is to release a more lethal bioweapon virus that kills more people, and more young people, children. So they may release a virus in the South/ red states, or maybe those with the "vaccines" may start making these others sick with the spreading of the infection within their bodies that the "vaccine" created (immune escape). (From listening all year and a half to Dr, Mercola and the other virologists/doctors on Infowars investigative news. (An America-loving, Christian news network who show more love for the people of the world and more integrity).

So that's why I am asking for herbal plants that might be protect us against these more lethal bioweapon viruses. Wormwood? Boneset? Elder? Oregano? Olive leaf? Skullcap? Licorice? I think people should stock up on these kinds of things, dried herbs or tinctures to keep ahead of time.

Ultimately, we are in the Creator 's hands. Certainly, according to Holy Scripture, no one will be allowed to die unless He allows it as He certainly has the power to protect an individual where He chooses. His ways are higher than our ways, and His thoughts are higher than our thoughts. I know that He is good and loving. I know that He wants people to turn to Him and do the things that please Him, and to turn away from the things He hates. I know that Scripture teaches that when a country goes too far in evil practices, like killing its children, God withdraws His hand of protection. I see that it looks like He will allow things to get much worse, and I fear for those who have not reconciled themselves to God.

Has it dawned on anyone that it's possible for this virus and all its variants to be scattered around without any of us knowing it's going on. Basically from all I have learned the United States is about as guilty as China with this nightmare we are under. Everything this country was founded on is going under. As a Bible believing Christian I feel we are nearing the end of this earth's history. Even so come Lord Jesus. P.S. Thank you Dr. Mercola for keeping us informed.

Something important to understand is that vitamin D, zinc, B-complex, NAC, etc. are not permitted as medical treatment for COVID, but they can be taken by personal choice, if one desires. Doctors who recommend them as treatment are risking loss of their medical licenses because pharma, medical trade associations and the health insurance industry define what is permissible as treatment (also, the involvement of various government officials in COVID vaccination coercion is a perfect example of "medical fascism"), and most of them have vested interests in the treatments they approve (e.g., government insiders and health insurers may have pharma stocks in their portfolios). There's nothing unusual about this. It's the same situation that restricts treatment methods for cancer, diabetes, heart disease, mental illness, addictions, arthritis and all the other lucrative ailments people go to the doctor for. What matters to the medical-industrial complex is the method of treatment and not whether any treatment actually works for the patients.

"If one has been vaccinated with mRNA, what can he/she do to rid the "toxin" created by the synthetic spike protein?"

We see lots of articles about which supplements to use to prevent or treat COVID, but little or no certain recommendations for expelling the toxic vaccine after it gets injected. If I knew I am going to be coerced into getting the injection, the first thing I'd do is buy a high-value life insurance policy to take care of surviving loved ones in the event of death. There are reports that at least 50,000-100,000 (from VAERS and EudraVigilance statistics) are known to have died after getting the COVID injection, so the chances of death are significant. The number of injuries and deaths happening in developed countries is typical of what happens in third-world countries where vaccines were always mass tested prior to being approved for use in the developed countries. Now, populations in the developed countries are being "third-worldized" to serve as vaccine experimental subjects.

Posted On 06/24/2021

It's not a vaccine. But that's the question that should have been asked long before that jab occurred and until that answer was clear, one shouldn't be taking that "experimental gene therapy" where YOU'RE the experiment, either!!!! These jabs are not synonymous with your continued good health...

A comment from naturalnews.com on buyers remorse regarding covid shot: "You may have seen videos of people with metal objects sticking to them. This is the result of a process called "Magnetofection," which was deliberately added to the injections to make them more powerful to force mRNA into every cell. Dr. Jane Ruby discusses this at [bitchute DOT com/video/OmplL3GdVFyNY/](https://bitchute.com/video/OmplL3GdVFyNY/) And in addition, I have seen videos where non-vaccinated people who have been around those who received the jab are also becoming magnetic. This includes several videos I have seen where metal is sticking to steaks and chicken still in the package. For example, see bitchute.com/.../kybqo6WxAKkN This makes me wonder if they are injecting the living animals with this, or after they have been butchered, deliberately putting it into our food supply! I am going to start carrying a magnet with me when I go to the grocery store, or restaurants. I'm also going to regularly check my pet's food.

Researcher Polly St. George investigates this magnetism as a possible tool for mind control in the near future. See her analysis at [bitchute DOT com/video/GMtUZfHuQNIL/](https://bitchute.com/video/GMtUZfHuQNIL/) It is in times like these that I must remind myself that Jesus is my Healer. I am also praying that God will bring forth solutions that will neutralize these malevolent injections. Pine needle tea is one step in the right direction, but much more is needed."

People .. listen..! PINE NEEDLE INFUSIONS (ie: 'tea') DESTROY the lipid-coated spike protein!!! This is the immediate thing to do if you are exposed to the breath or touch of a 'vaccinated' person You will 'feel' the spike proteins 'pricking' the corneas of your eyes, if you are exposed to them in the air around you .. i know this from personal experience when a man full of CV-19 blew in my face during late December 2019 ..and four days later i came down with the virus Please, obtain for yourselves some seedling pine trees so that you can grow them in pots at home if need be Or try to obtain a supply of pine needle tea from a herbal tea shop, while you still can Other than that you can go into a forest and collect bunches of pine needles God bless you all .. :)

She has been told that this is not an uncommon outcome and the swelling and discomfort will only last a few days. However, there is no sign of this happening and my wife has been self-medicating with DMSO which has brought some relief. Trying to arrange a visit to our GP is a nightmare, as nobody seems to be answering the telephone. If there is no improvement by tomorrow, I shall be taking her back to the hospital. more fully "vaccinated" people have actually died from this variant. According to the PHE, of the 42 Britons who had died with the Delta variant as of mid-June 2021, 12 had received two doses of gene therapy, compared to just seven single-dose recipients. More importantly, a June 11, 2021, PHE report⁷ shows that as a hospital patient, you are six times more likely to die of the COVID Delta variant if you are fully vaccinated, than if you are not vaccinated at all! Can you please tell me where this is proven as I went to the reference section and 77 papers later?? I couldn't find it as the above quote.

Okay, now that the past year of hysterical B.S. is closing down it's time for ROUND 2. Yes, many people died but a minuscule number compared to what the British protagonist Neal Ferguson predicted with his all too infamous scientific models that have failed miserably despite being exponentially disseminated by our MSM propaganda arm of the democrAT communist party. We all knew this had to happen. Our "expert" in theatrics, Phony Tony Fauci almost guaranteed it months ago when he predicted a "SURGE" whenever The Party needed to spread more fear. Ivermectin and Hydroxychloroquine used as a prophylactic have proven to be extremely effective, of course now that Big Pharma got the "health emergency" directorate they were after to create totally untested mRNA drugs on the global population in the direct line of fire. The FDA needs to be fully investigated and either reformed or eliminated based on it's past 20 years of fraudulent activity as our health watchdog agency owned by Big Pharma. It is time to demand that the FDA and CDC both be put under a microscope to ferret out the absolute corruption that fills it's cubicles. This global disaster should never have happened and now that it has the people responsible in the FDA and CDC which we fund need to be punished. This was far more than dereliction of duty. You know what it needs to be called. If enough hell is raised with Congress and their campaign money supply threatened we might get some action. I get a lot of emails from politicians I have no use for so I have been "unsubing" them whenever I can.

Of course, FAKE in silico "new variants" are part of the strategy to keep the fear level in rabid mode, keep creating mass confusion & cover for past

transgressions. The FAKE "Delta variant", & others, is the cover for the illness, maiming & murders that are coming from the lethal injections & subsequently, more tyrannical lockdown measures, & establishes the false premise for more "lethal agents" to be coerced into our bodies! We ain't seen nothing yet! A lie always has to be followed by an even bigger lie to perpetuate the scam.

Dr. M & everyone else, has to get fully on the side of absolute truth regarding the blatant fraudulent lies that SARS-CoV-2, SARS, MERS, Ebola, Zika, HIV, & Flus have been appropriately characterized, proven to exist & cause disease. To this day, there is NO, NONE, ZERO, ZILCH, verifiable proof or empirical evidence, using gold standard scientific principles, protocols & ethics, that quantitatively confirms this to be true. This is the foundational lie that perpetuates this entire fraud! STOP acquiescing for your own ENSLAVEMENT! Here's all anyone needs to know: 1) governments, corporations, institutions, NGO's, "experts", et al, CANNOT be trusted at all. 2) germ theory, pathogenic viruses, vaccines, big pharma, GMO's, et al, are one big fraud. 3) testing using tests not testing for "the virus" is insanely fraudulent. 4) asymptomatic carriers & spread has never been proven. 5) lockdowns, masking, distancing is the absolute worst thing that can be done....continued...

are being relatively easy to subjugate. 11) Hope for the best, stand for truth, & prepare for the worst, while we still can. Get prepared for a brutal Hunger Games Society scenario.

Governments fully embrace eugenics in all of its forms such as war, poisoning, drugs, abortion, euthanasia, EMF's, false flag events, psyop programs, "pandemics", "vaccines", etc. International banking cartels, British Royalty, Dutch Royalty, the Vatican, & satanic cults currently control the world due to a horrific trespass that takes place when you're born. While it is certainly concerning that the hospitalized with the Delta variant and fully vaccinated folks have a 6 times higher death rate than the vaccinated, keep in mind a potential significant confounding factor: Aren't the folks fully vaccinated most likely also older and more fragile, with more comorbidity? So, just like before the vaccine, they would be expected to die at a much higher rate. Here in the USA, the older populations got the jab much earlier than the younger did, and I also suspect that a much higher % of the elderly got the vaccine compared to younger folks. So that could- maybe - contribute to the much higher death rate.

The issue here is whether or not you want to suffer the effects of the virus. Your boss was very lucky and has survived, whereas many have not. Living with the after-effects to include dementia of the virus are significant and not to be minimized - whether you agree with vaccines or not facing the reality of the disease is the reality.

Posted On 06/23/2021

Learning5, it is very baffling to see these people that got sick with Covid-19 and they still get the jab. The best vaccine on the planet is getting sick with the virus. You're IMMUNE FOR LIFE! Why in

the hell would anyone risk getting vaccinated if they already got sick? It just blows my mind. My boss did the same thing. Mind blowing! He knows better. I tried to talk him out of it and he said he KNOWS he is immune for life, but he got the jab anyway. When they came out with the Chickenpox vaccine around 1995 they WARNED people that had already got Chickenpox NOT to get vaccinated for it! If anyone looked at the CDC's VAERS website and saw the number of people that have died the same day they were vaccinated there's no way anyone would get vaccinated. Over 6,000 reported deaths so far. The statistics suggest that only between 1% and 10% of adverse reactions are reported on VAERS. If it is 10% then 60,000 people have died from the vaccine since Jan 2021. Dead people can't report that they died after vaccination. How many doctors are reporting that their patients died 24 hours after getting the jab? Probably ZERO! So that 60,000 estimate is probably very underestimated.

Posted On 06/23/2021

Hello everyone! I always enjoy reading your comments. Can someone please tell me the right amount of zinc that I should be taking? And I also have three kids age 12,9 and 6 and was also wondering if I should give it to them and how much. Thank you

Good question! It would be nice to know. I never took any supplements until 2020. I'm taking Zinc and Magnesium. I tried taking vit-c and vit-b but it seams too much for me. I recently added COQ10 to the regimen just in case I get sick with Covid. It supposedly helps reduce the risk of heart damage. WHO KNOWS?

As an immune trace mineral, and for the fact most people are zinc deficient, a good adult dose will be between 20 - 60 mg per day. But for roughly every 18 mg of zinc one needs about 1 mg of copper. They complement each other. Magnesium should be between 300 - 600 mg per day. Both are best absorbed when taken in between meals. Zinc is also adversely affected by phytic acid found in grains and beans so be sure to monitor these foods. For children zinc will be about 5 - 20 mg per day and again must be balanced with copper. Magnesium will be between 150 - 300 mg for children.

If they manufactured the covid19 by splicing 5 viruses together, how can they suddenly have "variants"? How many of those coming down with the delta variant have be given the shot?

Quote: "Chile, which has one of the highest COVID-jab rates in the world, with 58% of the population having received two doses and 75% having received their first dose, authorities announced a blanket lockdown across the capital of Santiago, June 10, 2021. The lockdown came in response to the highest

COVID-19 case numbers since the beginning of the pandemic."

This is the case all around the world. The only country that has not had a surge in cases after starting a massive vaccination campaign is Australia. That's because the pandemic was over in Australia about 4 months prior to vaccinations. They practically have had no infections since Sep 2020. Anyone who decides to give in to the pressure and get vaccinated for Covid-19 should consider taking at least 2 weeks of vacation and STAY HOME ALONE!

No surge in America due to us not all getting jabbed at once. Our "vaccine hesistancy" makes the oligarchy mad as heck. No surge for them. All the open states where folks aren't dropping like flies must make them sick too. Lol

rensmith, look again! We started vaccinating in mid-Dec 2020. By the 2nd week of Jan 2021 we saw our largest surge of the entire pandemic. Go look it up. There was one day over 4500 people died. That was around the 3rd week of Jan. We didn't drop back down to our PRE-Vaccination daily covid-19 infection levels until March.

The so called emerging mutations are to keep the fearmongering alive. Also mutations get weaker and weaker. The Delta variant symptoms are laughable. They actually resemble an allergic cold with sneezing, sore throat and a headache. As The Guardian says, "It resembles a bad cold." That being said , those that have taken the shot or 2 have their immune system compromised, which would make even a simple cold deadly.

"Indian Variant Refuels Fear" should read "Indian Variant Refuels Fear Porn". Also, in addition to the natural immune system recognizing variants in those who've survived COVID, the therapeutics known to work on the original don't discriminate either.

The "Delta Variant", which simply is the "Indian Variant" renamed, is just another means to control the world through FEAR. "They" can do this forever. Spread more fear by claiming, "Oh NO! A NEW VARIANT! Now you have get take another booster shot.....ad infinitum....." Coerced Cowardice - www.youtube.com/watch

On a somewhat different note, why suddenly has the Marxist/democrat party changed their stance on voter ID laws? Could it be this is a way to induce non-vaxxers into getting the shot? No shot; no vote. "Please mam, can you show me your COVID-VAX/Voter ID card?" And for the fools who believed DeSantis was a "good-guy", guess what, you've been fooled again by another Republican. Forget BOTH parties. There is NO DIFFERENCE between the 2. NONE. One side is loud, obnoxious and has been telling us EXACTLY what their trying to do while the other side are weak, pathetic, gutless cowards who don't even have the balls to openly reveal themselves. "Law Signed by DeSantis Will Allow for Forced Vaccinations" - beforeitsnews.com/opinion-conservative/2021/06/law-signed-by-desantis-..

And people will just go along with it despite it being Unconstitutional AND Illegal per the following: See the federal regulations at 45 CFR 46.116a and b; 21 CFR 50.20. States may NOT mandate EUA vaccines – experimental and investigational – 21 USCS § 360bbb-3. EUA products MUST be subject to consent or refusal. States cannot mandate EUA vaccines SCOTUS Precedent – Doe #1 v Rumsfeld – 6 soldiers sued DOD, claiming they could not be required to submit to EUA anthrax vaccines without a Presidential waiver. They won.

LOL. See below headlines just out in Australia. WORLD NEWS: India concerned over Delta Plus Health authorities in India say they have classified a new variant of the existing Delta COVID-19 strain, and say it is prompting renewed concern. Studies have shown that 'Delta Plus' is more transmissible and attaches to lung cells easily. Around 40 cases of the new variant have been recorded so far across three Indian states. How strangely timed with this article. Thanks Dr M for being a beacon of light and truth in these dark times.

I read/saw yesterday, the "new" variant is much more "contagious" but is NOT more "lethal". Right.....because of the constant fear mongering of the media, government agencies and TV doctors for the past 1 1/2 years, the public ONLY see/hear the word "contagious" and not the fact it isn't "lethal" (if in fact, it actually exists, which I do not believe). The unconscious word association will drive them into getting booster shots, more lock downs and mask wearing.

Thank you, LisaLis. I checked back at the graph on page 15 of #7 for Delta and it says 19 died of vaccinated people compared to 23 died of the unvaccinated. And, although I refuse to be coerced into getting the jab, my hubby has now got his second one.

wendyb, you may have missed this reply by mrsb1959 - I have copied it as I couldn't say it better!

“Hi Wendy, my understanding of the figures in this article is that the numbers of deaths in the 19,573 hospitalized unvaccinated patients was 23, whilst the number of deaths in the 13,633 hospitalized vaccinated was 19. Whilst just looking at the numbers as a whole in actual deaths, it does logically appear that more non vaccinated died than unvaccinated, but when you look at the percentage of deaths in relation to the number of people:- 19,573 unvaccinated compared to 13,633 vaccinated, then, percentage wise, those vaccinated did have a higher proportion of deaths, if you get what I mean!! I may not have explained myself very well, and may have misunderstood it myself, and I'm sure there are some much cleverer people than me on here who could do a better job, but hope my efforts help.”

Why would you use sound bites from someone commenting on the "vaccines" working better than hoped for? Whether she intends it or not, Julia Hartley-Brewer is playing into the hands of the pharmaceutical industry. I don't care to hear that her opinion is the "vaccines" work, considering they are deadly, however the pharmaceutical industrial complex will shout from the roof tops every time someone agrees with the mis-statement that these poisons work, and you know it Dr. Mercola. Please quit giving ammunition to the people that would utilize this information, no matter how incorrect it may be, to some way people by quoting those who have spoken out against the covid narrative that now has something agreeable to contribute even if it is sarcasm. The statements will not be portrayed as sarcasm, but as an agreement that aligns with the "vaccination" narrative. Please quit doing this! I see it in many of your writings.

DELTA MY ASS... NEXT STRAIN WILL BE UNITED OR SOUTHWEST? Ye, like to put all these SOB's on a one-way DELTA flight to Hell (oh I forgot they are already there). Evil is what this is - but the truth is this - I say most people have already chosen a side. Either they have a brain, do their own independent research and have REJECTED the gene-therapy depopulation jab...OR....they are one of the masses (aka dumb sheep) and have chosen to jump like lemmings off a cliff to take the jab or wear the self-suffocation device - or rat out neighbors/family/friends to be the new gestapo. I would not think there are many 'still on the fence' at this point. In any event, you can't save those that drank the kool-aid - they are already zombies in a trance and truly are transhuman. WE SANE INDIVIDUALS who have rejected the depopulation agenda need to ORGANIZE and come together to stand UNITED against the Globalist evil agenda that is ripping every last freedom away from us. Someone has to do something soon....not sure how this can be done, but feedback would be great.

I understand and respect Mercola's position but i also have to think about reality. Delta exists and there is no doubt of its presence in India. The reality is that sooner or later it will spread globally. Regardless of where or how the original strain came, the reality is that there has been a Pandemic. If we choose to ignore reality, then we are faced with more of a problem. Example is the regular flu that arrives each year under different strains. If we chose to ignore that millions die from the flu, then we have a Pandemic. If we had not vaccinated folk against small pox, and other diseases, the toll on human life would be huge. There are indeed other ways of protecting ourselves but when it comes to the very worst of diseases, perhaps not.

So tired of all the mind blowing individual contradictions on covid that I am starting to ignore them. No mention of how many and percentage died of heart disease, cancer, TB, Aids etc. All my relations in the UK, up to 90 years old are all ok after the jab, including me. I will take all precautions, If covid gets me so be it.
