

Pfizer director admits they NEVER TESTED that "vaccine" for prevention of transmission!

So all that blather about "doing it for others," and getting "vaccinated" as "an act of love," was just one more Big Lie. Now, will "our free press" report this, or keep lying?

crazy thing. this was known in early 2021. written up in the BMJ. peter doshi i believe. and i have been telling people since then....for almost 2 years...that pfizer did not study if the vaccine prevented transmission. they didn't study whether it stopped infection or reduced death either. what they studied was if it reduced symptoms. 0 people i told saw this as an issue. why? because vaccines are more like religion than science. people simply know (on faith) they work. whatever science is written is inconsequential.

It was known by "conspiracy theorists" who has eyes to read publicly available docs.

They LIED about everything, while telling the truth in their own documents.
