They could do it fast but that would not be fun for them too easy so they take their time and make people die slowly.. In communism people starve to death and not a bullet fired.

This lock down and scarcity is man made. virus is a hoax and people should rise up in anger and demand that they be left alone or their be trouble so even cops cannot tell us what to do. if people want to live that is to disobey, not do as they say. its a recipe for suicide for many who are going along with it. the fear of not obeying is what killing people. they are playing with people life and nobody seem to care or question their nonsense.

They go slow because their methods are akin to Morgoth or Sauron from LOTR. Tolkien's villains are a great allegory for the elite. Going quickly there is a chance for failure but when you take your time you can arrange to deal with any contingencies and guarantee success. The slower you go the easier it is to change direction.

Seems you don't understand history. Yes Germany was lied about and the holocaust was a hoax. But Germany and Kazakhstan capital have had power for a long time under EU and UN/U.S. It is now China, Israel, U.S, Saudi Arabia, Jordan, Kazakhstan Russia...etc. they are the ones with the power over all countries.

It's the (((banksters))) that control this puppet show called Earth. They are setting the West up for invasion.

Revelation 20:7: And when the thousand years are expired, Satan shall be loosed out of his prison (ahettos). 8: And shall go

out of his prison (gyrelos), G. And shall go out to deceive the nations which are in the four quarters of the earth, Gog and Magog (Russia, China, etc), to gather them together to battle: the number of whom is as the sand of the sea. 9: And they went up on the breadth of the earth, and compassed the camp of the saints about (the Christian West, Australia, NZ, SA), and the beloved city: and fire came down from God out of heaven, and devoured them.

No dude, just no. Gog and magog are not Russian and China. Gog and Magog are IN!!!! IN the 4 corners of the earth. They are tribal peoples, very barbaric and very, very strong. Numbering in the 100's of billions of people. We have zero chance of beating them. Just like USA and Israel have zero chance of winning against the Muslims.

Even the Arab writers of the previous centuries place Gog and Magog in the Asian steppes. I have studied this topic for decades. There are many sources. I suggest you do some studying instead of spouting off.

The Muslim scriptues don't say where they are, they say who they are! You are the one here who is full of shit. They are primitive people according to Islam. Not Asian, dip shit. The bible states where they are, IN the 4 corners of the earth. Antarctica and the Arctic.

Added all my information so people can be the judge for themselves. And I will add... I am not denying people died. I know people died but they did not die by gas or torture in camp's. Soviet union, British, U.S, Australia killed off Germany. Then brought back the federal reserve with Germany economy and the world economy.... We need to understand this.  But you are not at all alone my Brother. The Anglo-Saxons are slow to awaken and fight, but fight they will. I have a dream, in it, every Jew on this planet, Crypto or otherwise is whining. Great big, massive, turrets of rounds fly, and they shut up. Rothschild Castles are burned. Leftists are pushed in to the Grand Canyon by Teutonic bulldozers, billions. And then, a majestic fighter squadron of B-15's, flown by White Men, make that canyon radioactive for generations. As a warning, a testimony, to the ablation of the Degenerate Gene. Hail Victory Brother, if we fall, we fall as heroes.

Why not make pipe guns? I watched a YT video where a man shows how to build a mac11. There are channels like the slingshot channel, but for steel throwin guns...as well as directionally focusable EMP guns 🤔

If your country already banned those channels get some security for your computer so you can view those channels....certain "guns" dont legally count as guns as well.

Check here first of course...use YT as little as possible...bitchute is working on its search functions and we will be able to navigate better soon so finding those types of videos here will be easier

I'm just thinking in terms of alternate situations - if you're in AU or UK and a shotgun isn't readily available, or keeping low profile has greater value than quick destructive force, then you might prefer a non-firearm. Disabling optics and robots is just as effective as blasting them. For some, you won't be able to disable them at all with buckshot.

9 ^ | v · Reply · Share ·

NotOnYouTube → mandarin11 · 4 days ago

People struggle to wake up because the first thing they need to accept is that hey have been duped. The indoctrinated mind often clings to what it subliminally knows to be nonsense - rather than start thinking for itself. The psychological methods required to wake people up are involved and should ideally be tailored for each individual. We have work to do!

I am sickened and disgusted. We have a 1 year old child, and are asking ourselves what kind of a world we have brought them into. We live in Melbourne and our plans for the future have completely changed because of this. Depending on how this plays out, we are getting out. Not sure where to yet, but not here in the police state thats for sure. We are also pushing back though, we dont wear masks, and we tell others whats going on. We dont care anymore what people think of our opinions, its not about us anymore, its for our children's future.

Why deliberately choose to create a lifetime of hell and misery for the other highly sentient beings, that have feeling and emotions in common with us, that live here with us? Is not God love and compassion?

the root cause of this is this:
"As long as Man continues to be the ruthless destroyer of lower living beings, he will never know health or peace. For as long as men massacre animals, they will kill each other. Indeed, he who sows the seed of murder and pain cannot reap joy and love."
So one half of the solution is that, and the other half is resistance (by whatever means) to the insanity that we have created out of ignorance

people need to get off their butts and on the streets, you need a certain amount but after that amount the polive and the government have to react, there are examples in other countries.

Protesting with a 100 sure wont help anything, but a 6 digit number will do.

We here in germany went to protest in berlin, massmedia reported fake numbers to downplay it and not attract more people, but we were easily 6 digit amount of people. Beside those articles smeared the people going to protest into the denier/rightwing corner like usual here in germany, any opposing opinion is right wing.

Once there are alot, even more will come next one is 29.8.2020, so if any germans read this come along, the

The video is chilling. Note to Max - the German accent is misleading. It is how Jews have programmed us to think of their concept of evil. The accent triggers specific subconscious reactions that are misleading in the mental image created by its use, as well as the real horror it misdirects the mind from understanding.

The German National socialist existed for a mere twelve years of which almost half of it was engaged in war. There never was a planned or attempted, genocidal plan for the Jews - the 'Holocaust' was a lie. Therefore the only large population the died in Germany and the surrounding countries were those murdered by the massive allied fire bombings and terror raids.

By contrast, the Judeocommunist's Soviet system existed for seventy years, resulting in the slaughter of some sixty-six million Soviet citizens, five million starved to death in the Ukraine alone. These are the same Judeocommunist's running the world today with an iron fist. Therefore it would be accurate to use a Russian accent, or better still, a Jewish accent, to accurately reflect what is being dealt with in this situation.

I've wondered if their testing methods are different compared to other states once it hits the lab. The PCR test is a complete joke when used like this but governments make lockdown decisions based on bogus testing. The amplification can vary. The more you amplify the more positives you get. There can be a very fine line between testing positive or negative. It could be up to 80% false positives. Also explains why many have zero symptoms. Most aren't questioning the test. Most aren't questioning anything!

The Philippines National Police forced me and my 5-year-old daughter off of a public beach a couple of days ago for being outside, building sand castles, and not wearing masks. I explained to the officers that whomever in the Philippines government has issued the edict that ALL children under the age of 21 must remain locked in their houses for the past 5 months without coming out is either mentally ill and a malicious child abuser and either way they should not be aiding in the child abuse. I gave them a lot of shit before we finally left because I didn't to lose my child to the state (these demons would take a child away and you'd never see them again). The Philippines used to be a great place - it's now a concentration camp guarded by mind-controlled robots.

I think you'll find they actually have all sorts of accents why not have a spin at some of them and lose this misleading theme of yours that Adolf Hitler has made his comeback from wherever the "nazis" have kept him stored to do a fourth reich job on us. The woman in Melbourne not wearing a mask video is very disturbing because this could just as easily be a black & white film of a Jewish woman in Warsaw in 1941 being stopped by the Gestapo for refusing to wear a yellow star.

Where is our military? Have they lost all their marbles and sense of what they're for! When a tyrannical government takes over the military must come to the defence of its people and the country.

Why is this not happening! Why have they become part of the problem, surely someone must have a little bit of brain matter left in their cranium and think! Hey this ain't right we are fighting against our own people! The people who honor us, support us , pay us, and for some of the elderly left , the ones that actually put their lives on the line so that we may have a life and country to call home!

Wake up boys or the shite is going to hit the fan and you will be on the wrong side of history.

 (v) Last weekend, in Austin, I was shooting the BLM protest and one of their little idiots (BLM) cried to cops to arrest people without masks. SO far, it is not a law, in the US., so nobody was arrested, but i found it quite ironic the the FTP and Fk12 gang was crying for cops to arrest anyone, the little twits.

Last year after a drunken brawl I awoke to five cops in my yard with their guns pointed at me yelling for me to put my hands in the air and get on my knees. I didn't know whether to shit or go blind and spent a month in jail. My point is NEVER EVER EVER UNDER. ANY CIRCUMSTANCES RESIST BEING ARRESTED. You will lose in a big way. Violence against the pigs is considered a whole different level of crime in many places..

Btw, the cops will shout into their recording mouth piece, "STOP RESISTING, STOP RESISTING . . ." even though the individual is following the their orders and doing exactly what they are told to do!!!!!!!! They do this to have evidence that they warned the individual; AND, they will make sure there is no recorded evidence to expose their lies!!!!!!!! (There are NUMEROUS VIDEOS on YouTube where the cops are doing this -- and will threaten anyone who is recording them with an arrest!!!!!!!!)

These creatures have given Humanity a golden oportunity to wake and rise. They never expected that this crime against humanity would empower people all over the world, to give them the time to research and realize the bullshit. Brave doctors and lawyers, business people and others are joining all over the world to make the crime stop. Now there are groups of these brave people in Spain, Italy, Paraguay, Bolivia, México and Argentina, denouncing this treason. And all accomplices to this crime need to remember that Rome doesn't pay traitors. It anhilates them. Presstitutes, doctors, nurses, politicians and apologists WILL be held accountable. I've been talking about these Transformation maps on the WEF website for months, people think I'm nuts when I explain it to them. People think I should be in a lunatic asylum. You can't make this stuff up, it's in black and white , on the net for public viewing. Every country on the planet has its own global reset strategic map including Australia, US, UK, everywhere , it would have taken them months and months to plan and document this. Nothing in Government happens overnight. Nothing. This has been planned for years.

Another BRILLIANT report. Thank you Max!
I had already seen a report including the WEF Intelligence Strategy interactive map some weeks ago elsewhere, but found it very helpful to get a refresher on it, especially on how to access it! Also, of course, this is hugely interesting for anyone else who has not seen this before.
The way these Demons wish us to live in the future just does not make life on Earth desirable anymore and I would once I have passed over do what I can to prevent souls from being forced to incarnate here. I pity all the little children still born here and feel gladness every time I hear of another elderly person having died in a good way. However, it could well be that WE will win, especially with the Creator's help and His Light Beings! I just don't yet see any results yet, but that is just my enormous impatience frustrating me somewhat. And I really would not want to have to die in order to see those results and humanity freed from what is planned before it is too late.

Plan B? I think these Demons with their sophisticated technology would find us wherever we go on this planet. I don't believe that to be the solution. Raising our vibrations is, because then the Demons cannot reach us, only I wish someone knowledgeable would tell us how we can feel this to have happened! Yes, during peaceful moments, and I for one have many of these, because nobody has as yet messed with me, apart from my work having completely disappeared, I feel as I possibly ought to with a raised vibration, but how can one be sure?! I think all of us who are aware of what is going on need to be told what to look for on this.

THE CRIMINAL ELITE ARE AT WAR WITH ALL OF US! You may think to defeat them is hopeless but it's far from it. We can beat them and we have a way to do it. But forget YouTube. WE MUST ALL PARTICIPATE AND THAT INCLUDES YOU by driving people to the most effective freedom advocate channels and their videos on alternative platforms. Help by downloading our latest brochure at <https://wakethehellup.wixsi...> and distributing it. Hundreds of people are doing it already all over the world. But we need to get into the tens of thousands fast. So why don't you read how to do it, get started, and help destroy the elite's agenda!

Looks like american leftist police tactics that tye media used to try and defund every cop in america.....thats what cops in blue counties and states act like in America....its why even when I voted Democrat....i lived in Republican areas...,because

everyone all around is usually more fair and moral....might be
(v)brash but id take that over violence and chaos. Id rather have
no cops and have vigilante justice....but while they are around,
liberal cops are pure tyrants...because they want to be the
police force in a socialist nation....that will put them all but equal
power with politicians...

Chgo PD is not standing by watching looters. The city has used
all of the overtime pay and neighborhood animals are going
wild. It is pure looting in some neighborhoods. This is not BLM
like in previous weeks. This is West Siders 'wilding'.

Don't be an asshole Max by comparing the current situation to
National Socialist Germany -- a nation who had no choice but
to introduce restrictive measures on it's people after Britain and
France declared War for no legitimate reason whatsoever
despite German pleas for peace and negotiation.

You can't wake someone that doesn't want to be woken. The biggest problem the awoken ones have is not the agenda so much, it's the unawakened that will lead us all into damnation. All we can do is keep spreading the information, some will get with it as they too start realizing what is truly going on. The big ticket issue from the agenda is not so much the virus or the people dying, it's what they are doing in the background while we all get our freedom further depressed as the days go by.

Yes, these lines also sound familiar to me. In fact it's from "Didja Get Any Onya?" on the album "Weasels Ripped My Flesh". He was a genius, Frank Zappa. I wouldn't be surprised if he was taken out by the CIA or some Zionist organization. He was getting to dangerous speaking his truth. German Lunch, a Zappa creation seemingly very actual: <https://www.youtube.com/wat...>
