

# Portuguese Court Rules PCR Tests "Unreliable" & Quarantines "Unlawful"

by Tyler Durden  
Sun, 11/22/2020 - 09:20

*Via Off-Guardian.org,*

An appeals court in Portugal has ruled that the PCR process is not a reliable test for Sars-Cov-2, and therefore any *enforced quarantine based on those test results is unlawful.*

Further, the ruling suggested that any forced quarantine applied to healthy people could be a violation of their fundamental right to liberty.

Most importantly, the judges ruled that a *single positive PCR test cannot be used as an effective diagnosis of infection.*

The specifics of the case concern four tourists entering the country from Germany - all of whom are anonymous in the transcript of the case - who were quarantined by the regional health authority. Of the four, only one had tested positive for the virus, whilst the other three were deemed simply of "high infection risk" based on proximity to the positive individual. All four had, in the previous 72 hours, tested negative for the virus before departing from Germany.

In their ruling, judges Margarida Ramos de Almeida and Ana Paramés referred to several scientific studies.

Most notably [this study by Jaafar et al.](#), which found that - when running PCR tests with 35 cycles or more - the accuracy dropped to 3%, meaning up to 97% of positive results could be false positives.

*The ruling goes on to conclude that, based on the science they read, any PCR test using over 25 cycles is totally unreliable.*

Governments and private labs have been very tight-lipped about the exact number of cycles they run when PCR testing, but it is known to sometimes be as high as 45. Even fearmonger-in-chief Anthony Fauci has publicly stated anything over 35 is *totally unusable*.

*You can read the complete ruling in the original Portuguese [here](#), and translated into English [here](#). There's also a good write up on it on [Great Game India](#), plus a Portuguese professor sent a long email about the case to [Lockdown Sceptics](#).*

\* \* \*

The media reaction to this case has been entirely predictable - they have not mentioned it. At all. Anywhere. Ever.

The ruling was published on November 11th, and has been referenced by many alt-news sites since...but the mainstream outlets are maintaining a complete blackout on it.

The reddit Covid19 board actually [removed the post](#), because it was "not a reliable source", despite relying on the official court documents:

My working theory is that TPTB knew the US -- which still has a significant population of people that do not want to be led by authoritarians -- would require special treatment to get the majority to go along with lockdowns etc. So they told from early on that we had the worst outbreak of anywhere on earth, when that makes zero sense given that other countries have much higher population density and no economic ability to keep people in masks, at home, and otherwise "social distanced." The added bonus was that it would make Trump look bad.

The ratio of positive tests is directly proportional to the prominence of the Medical Industrial Complex in any country.

No money to buy and administer tests = no cases = no deaths.

My sense is that the Medi-tech industry in the USA knows full socialized medicine is coming and it is their intention to make up on volume (government mandated procedures) what they will lose in profit margin.

It is not the dominant conspiracy theory, just a pragmatic one.

When the populist / Trump / Brexit / nationalist / cultural protectionist impulse responses to globalism, forced cultural disintegration, globalist bureaucratic tyranny manifest it was just the trigger mechanism for implementing the next phase of social engineering/domination: bio-terrorism.

The serious fraud is going to be ramped up to infinity. Just reverse the methodology and see where this is going. 3% accuracy means 97% percent effective vaccine...because it's the ANTI WuFlu test. They literally could be giving you a placebo as a vaccine and cut off testing at 30 cycles FOR THE VACCINE instead of 35,36, or even up to 43 like they have been doing for the WuFlu test, and "prove" the vaccine is 97% effective. This is nothing but a scamdemic.

I live in Portugal, let me tell you that currently the country is under the dictatorship of a Left Wing Junta. Recently they announced a new lockdown, with even more draconian rules. These new rules forbid business from open during weekends, reinstates mandatory usage of masks in the streets and forbids Christian families from gathering together during Christmas. At the moment, all anti-covid movements are being silenced by the Juntas media, so any discourse against the scandemic is not allowed nor tolerated. Our democracy has been hijacked by the Covid cult under direct oversight of EU and Davos.

 I was a research and development scientist in the 1980s at Quidel Corp., a biotech startup in San Diego in the blood chemistry lab. Kary Mullis devised this PCR technique then but we weren't using it at all since we were developing blood tests for hospital labs. When these tests were first being reported as giving "positive results" way back earlier this year, I wondered what the hell they meant since PCR doesn't do that and wasn't devised for that. Among other curious b.s., early on I knew something didn't add up. Soon, I understood this is all lies and b.s. Rather disquieting to one's spirit this being the case, I must say.

The blow up is coming harder, and faster than anyone can imagine. The first step will be undoing this election sham, and once the evidence drops it will be like a hammer to the entire fake facade the media has built up. In one of Trumps rally's he said it himself, the entire thing is a sham, and after he is elected it will all go away (part of the reason he was removed by the globalist election fraud) The violence over this election fraud will be coming by Christmas, and especially after NY. The media will be held to account for what they have done to a free society. These globalists are on the precipice of destroying civilization as we know it, and that can not be allowed to happen under any circumstance.

the intelligent know this but for our liberal mental defectives..

"Classically speaking, a "case" of a disease is someone who displays symptoms. There is a huge difference between being infected, and being a "case". That's why infection fatality rate (IFR) and case fatality rate (CFR) [are two different numbers](#).

However for COVID19 they have abandoned this distinction, referring to every [single positive test as a "case"](#), despite the fact the [vast majority never exhibit any symptoms](#)."

Political elites in the US/UK/Europe and just about everywhere else must explain why they continue to use the PCR to test for Covid-19 when it was never designed for that purpose, as per its creator Kary Mullis.

**PCR cannot detect ANY viral infection let alone Covid-19.**

All PCR does at best is detect fragments of any old coronavirus (colds/flu etc) that the human body may have had weeks/months/years earlier and which still float harmlessly around the body.

That is how the human body works.

PCR does not and cannot determine whether any fragments it detects are dead or alive.

Any tiny fragments are then "amplified" a (secretive) number of times by the testing lab and if any frags exist, the patient is then determined to be a "new case" of Covid-19. MSM running dogs then report it as a "new infection".

We go from a meaningless "positive PCR" test result to a "new infection" like greased lightning.

Anybody who has no symptoms is declared to be "asymptomatic". In truth, they do not have the virus.

This whole process is flat out fraud being committed by governments and the medical fraternity.

Here's one good expose of "[the PCR testing process from the Mercola site](#)".

There have been many others over the past 6 months or so, yet .govs continue to stonewall.

There is no rational explanation for this deliberate political ignorance of fake PCR test results.

They are being used to manipulate and Manage FEAR of populations. To ratchet fear up & down as it suits them, to the point where people are subordinated and obedient and virtually begging for a vaccination.

But that is when the problems will begin. We all know that Gates-From-Hell and his fellow followers in .gov want to inject us all with the Mark of The Beast so we can be herded and managed like cattle.

We are witnessing the greatest crime ever against humanity.

Excellent assessment. It is worth recalling that Kary Mullis was one of the few to stand up to the AIDS charade in the 1980s all the way to his death, by noting that "AIDS" was never actually isolated, as per the scientific method. Nevertheless, Robert Gallo, viciously protected by his lieutenant, one Anthony Fauci – pressed ahead to self-glorification by de-funding anyone who would dare to disagree. From Ansel Keyes, to Gallo, to Fauci, to Brix and onto Tedros the witch-doctor.....government employees are allowed to run over the true academics and practicing physicians. The Mandarins are never true people of science.

Yes, there's long been a mysterious doubt about whether HIV was a true contagious virus or not, given

that it's never been isolated and ataiak was first spotted in Africa (was it planted there as a test run?).

Yet in both cases, there is obviously "something" going around. In the case of Covid-19, I am leaning towards the view it's a man-made bastardised version of our old friend "flu" (which as we know mutates all the time anyway), but it's being hyped up beyond belief for political motives.

*The Lancet*, a respected UK medical journal agrees.

*False-positive COVID-19 results: hidden problems and costs* 9/29/20  
[https://www.thelancet.com/journals/lanres/article/PIIS2213-2600\(20\)30453-7/fulltext](https://www.thelancet.com/journals/lanres/article/PIIS2213-2600(20)30453-7/fulltext)

"The current rate of operational false-positive swab tests in the UK is unknown; preliminary estimates show it could be **somewhere between 0·8% and 4·0%**. This rate could translate into a significant proportion of false-positive results daily **due to the current low prevalence of the virus in the UK population**, adversely affecting the positive predictive value of the test. Considering that the UK National Health Service employs 1·1 million health-care workers, many of whom have been exposed to COVID-19 at the peak of the first wave, the potential disruption to health and social services due to false positives could be considerable."

**"Potential consequences of false-positive COVID-19 swab test results**

*Financial*

- • Misspent funding (often originating from taxpayers) and human resources for test and trace
- • Unnecessary testing
- • **Funding replacements in the workplace**
- • Various business losses

*Epidemiological and diagnostic performance*

- • **Overestimating COVID-19 incidence** and the extent of asymptomatic infection
- • Misleading diagnostic performance, potentially leading to mistaken purchasing or investment decisions if a new test shows high performance by identification of negative reference samples as positive (ie, is it a false positive or does the test show higher sensitivity than the other comparator tests used to establish the negativity of the test sample?)

*Societal*

- • **Misdirection of policies regarding lockdowns and school closures**
- • Increased depression and domestic violence (eg, due to lockdown, isolation, and *loss of earnings after a positive test*) "

loss of earnings after a positive test).

There is no standardization on the number of cycles run. Anything north of 35, will create even more. Anything more than 40 would create a positive in nearly everyone because everyone carries some of the genome being amplified.

Let's be clear. The PCR test is not unreliable it is designed, as all quick tests are, to return positive more easily. These tests should not be used for any regulations or counted or anything like that.

From a statistics point of view:

There are 2 correct results: Positive when the person is infected and negative when the person is not infected.

There are 2 incorrect results possible: Positive when the person is not infected and negative when a person is infected.

The test never wants to return a negative for an infected person as that would be dangerous.

Only the follow up test is designed to be accurate and even those tests are designed to return a positive for borderline cases.

THIS IS HOW ALL MEDICAL TESTING WORKS.

don't want to cause alarm..one of vaccines due for release uses monkey virus..a little heads up

from Lancet..

"In *The Virus and the Vaccine: The True Story of a Cancer-Causing Monkey Virus, Contaminated Polio Vaccine, and the Millions of Americans Exposed*, Debbie Bookchin and Jim Schumacher report that in 1960, when Eddy presented her results to her boss, a polio vaccine champion named Joe Smadel, he was livid and disbelieving: "Its implications—that something in the polio vaccine could cause cancer—was an affront to his career." Her discovery also threatened one of the USA's most important public-health programmes. "By 1960, tens of millions of Americans had been vaccinated against polio, and it was federal health policy that everyone should be vaccinated and continue to receive Salk booster shots."

Eddy tried to get word out to colleagues but was muzzled and stripped of her vaccine regulatory duties and her laboratory. However, two Merck researchers, Ben Sweet and Maurice Hilleman, soon identified the rhesus virus later named SV40—the carcinogenic

agent that had eluded Eddy. In 1963, US authorities decided to switch to African green monkeys, which are not natural hosts of SV40, to produce polio vaccine. In the mid-1970s, after limited epidemiological studies, authorities concluded that although SV40 caused cancer in hamsters, it didn't seem to do so in people."

Good questions all, Friend Freeman of the City. :-)

1) Not so much that as in reference to Yours Truly's own character and constitution. Because it just plain fits; all concerned do agree. :-)

But yes, the continent is known as "Turtle Island" far and wide among powwow attendees. :-)

2) Simply don't know. Insufficient lore at the moment. It'll turn up sooner or later, though... YT's still walkin'. :-)

3) Um, yes, if by "this understanding" you refer to YT's Native naming. Long one. Many successive levels of Light. Many years in duration. Massive downloads (so best to call 'em) at times. :-)

Details of said journey are really not so very suitable imvho for further public elaboration herein, with respect. Being half-Injun plus half-Jewish by birth and thus blood makes for LOTS of Homework, as one might imagine. Got much more Yiddish lingo than Native language of any nation under me belt, really; ergo am *presuming* your final words are a (merely personally) non-intelligible benediction and that's all YT can make of them. (Would love to know.) :-)

Oh well; that's 'Arf-Breed Life for you. :-\

Nonetheless, YT knows who and what they really are in this notably everlasting Heaven-sponsored life. So thanks for the ask! Your turn again now, if y'like. And that is all. O{:~}o[

**Wakan Tanka** is the term for the sacred or the divine. **Mitakuye Oyasin** in Lakota Sioux expresses the Spiritual or Universal Principle for "**All are One...**"

May'Na Ta TaHea-hO is the name given to me by a Cherokee Elder...

Yep... Balancing the two aspects yields great benefit as YT finds it. It was a most rough start indeed from toddlerhood forward, but well settled into coherent perspective by now. ("Coincidence" seems to be most often cited by those who are scared of Life, it seems, imvho. *Synchronicity*, now, there we *got* something, ayup.) :-)

So if one may ask: The import of your own as-given Cherokee naming, pray tell? Can go with chat if you're not so comfortable out in the open with it... Channel's open now. And that is all. O{:~}o[

I'm working with the German Corona Investigation Committee to indict Fauci for Crimes Against Humanity. This committee was formed in July for this reason: deal legally with those who've created and propagated this worldwide crime. Watch their presentation here. I sent them the story of Fauci's creation of this covid beginning in 2018 here in the USA in collaboration with Gates to make a new disease by Fauci, and then a cure for it by Gates and then they'd make \$billions by scaring everyone to death and begging for a cure.

Watch the first online presentation of CIC. I've joined them and their ally which is Robert F. Kennedy Jr.'s Children's Health Defense:

<https://articles.mercola.com/sites/articles/archive/2020/10/17/coronavirus-fraud-biggest-crime-against-humanity.aspx>.

Here are details of their filing indictments for those who created and enforce Lock Downs:

<https://theduran.com/massive-lawsuit-launches-against-the-lockdowns/>.

Several online presentations have been made by Reiner Fuellmich since his first one in the first link above. All are very informative and hopeful. These folks have the backing and support of the most powerful, knowledgeable and experienced medical and legal firms worldwide. This group of 4 German attorneys who run the operation for indictments started last week have handled the previous largest Class Action Lawsuits against Deutsch Bank and VW and won both of them. They know what they are doing. If you watch their presentations, you'll learn good stuff.

Here is the detailed story of how Fauci began creating covid here in the USA in 2018, then moved his work to Wuhan China's bio-weapons lab later when his funding was cut off here. The Wuhan lab has a decades long collaboration agreement with the USA bio-weapons scientist so Fauci moving his work to that lab was fairly routine. He is the prime creator of this crime. Having sent this story of Fauci's crime to the German committee was done to ensure he is indicted for Crimes Against Humanity by them as well as quite a few others discussed in his online interviews and presentations.

Here is Fauci's history of plandemic creation with Gates, so Fauci created a disease and then Gates will cure it with vaccines. That is their plan to make \$billions on their financial scam. Let's get them before they do that:

<https://theduran.com/the-link-between-fear-appeal-and-covid-19-perception-interview-with-dr-peter-breggin/>.

If you read it, you'll see that 4 bio-weapons labs in Texas were also involved with this scam besides Ft. Detrick and Wuhan.

But, does a case this large have a chance to succeed?

Cases like this could bankrupt a nation, yes?

If you are not familiar, Reiner stated they wanted to open the class action to the entire WORLD. That is not fesable for 5 billion to join a suit. They are currently only handling the German Class Action. What is the population of Germany?

They are offering an informational package for attorneys in other countries. The entire world was affected by this, giving nearly everyone on the planet a claim to the suit.

Bankrupt every nation at once and you have laid the groundwork for The Great Reset. Just a thought or 2.

IF this CIC ever makes it to the MSM with information, then it has already made a significant difference, such is the power of the press as we well know. Even without any press, if this gets indictments and court cases, then it'll have to be reported somewhere that folks will begin to understand what's happening, overall with Fauci and Gates and everything else about covid. Pray for press, at some point it'll happen if indictments go thru.

Here are 2 more online presentations by Reiner Fuellmich I've watched and read. The one is contact info I used to associate with them. I worked for Bayer AG out of Leverkusen, Germany for 5 years 1976 -81 = 2 years as Blood Chemistry R&D on Cholesterol and LDH lab tests; then International Project Manager for all of their Blood Chemistry R&D projects ongoing throughout the UK, Europe and Israel, much of that work conducted in German, even those big project teams which included Marketing, Stability Lab, Quality Assurance, Research scientists doing the work.

This is one reason I contacted them and offered to work for them here in the USA. I've sent them a couple of items since then that are useful for indicting Fauci, maybe Gates too. They already have main criminals ready for indictments in Germany. Fuellmich owns property in CA and is licensed here as well as Germany. So they can file against Fauci / Gates / etc. right here just fine for their crimes.

Here are important links: another good interview; and contact info.

This is the place for contacting the CIC, which is where I started with my association with them:

[https://www.algora.com/Algora\\_blog/2020/10/04/german-corona-investigative-committee](https://www.algora.com/Algora_blog/2020/10/04/german-corona-investigative-committee).

Great recent interview in the Netherlands of Reiner Fuellmich:

<https://theduran.com/crimes-against-humanity-fraudulent-pcr-tests-taken-to-court-interview-with-lawyer-reiner-fullmich/>.

Note that Robert F. Kennedy Jr.'s Children's Health Defense has just partnered with the CIC in this effort to file for Crimes Against Humanity. I was connected to them and on their mailing list for a few months and was elated to see these 2 hopeful professional groups connect, knowing the ongoing work of Kennedy's group is similar. Kennedy's group has previously published a number of very significant articles online.

I joined Children's Health Defense when I learned Kennedy had sued Gates for his Crimes Against Humanity in Africa with his poisonous vaccines. When I read the fine details in the appendix just what damages were caused to 1000s of innocent victims, I was horrified. These are not your grandma's chickenpox or even measles. These are damages that are permanent and often turn victims into vegetables for life thereby costing their families everything to keep their loved ones alive and dressed / fed / etc. It could happen to you and me.

He recently published this nightmare that killed a volunteer in the ongoing Astra-Zeneca vaccine trials in the UK. She died from Transverse Myelitis, sort of typical of the nightmares that Gates' vaccines cause too as this is a rare "disease", actually permanent spinal cord damage in most cases, and crops up frequently in vaccine trials so those honest trials don't approve the vaccine in many cases.

Read about how horrible Transverse Myelitis is here, published by Childen's Health Defense:

[https://childrenshealthdefense.org/news/transverse-myelitis-gardasil-vaccine-video/?utm\\_source=salsa&eType=EmailBlastContent&eld=ab943065-0a9c-4b18-a4b4-2ede483f742e](https://childrenshealthdefense.org/news/transverse-myelitis-gardasil-vaccine-video/?utm_source=salsa&eType=EmailBlastContent&eld=ab943065-0a9c-4b18-a4b4-2ede483f742e).

Kennedy works for us along with the Corona Investigation Committee. They are both significant powers and hope for us, considering these are powerful people who are also good people, rare it seems anymore.

India has sued Gates for his Crimes Against Humanity for paralyzing 450,000 babies and children with "Non-Polio Acute Flaccid Paralysis". India, Russia and China have barred Gates for life due to his vaccine crimes worldwide. Here is the India medical report on this Gates atrocity: <https://www.ncbi.nlm.nih.gov/pmc/articles/PMC6121585/pdf/ijerph-15-01755.pdf>.

Thats a very inaccurate interpretation.

The contention is NOT that the RT-PCR test generates a high % of false positives. Rather, the contention is that an individual is not INFECTIOUS if the RT-PCR must include x+ cycles to elicit a positive result.

The RT-PCR test is not intended to measure infectiousness – it never was. It only ever indicates the presence of virus. Using the tests at multiple cycles is only a very rough application of the test to attempt to assess a level of infectiousness, BUT THE TEST IS NOT DESIGNED FOR THIS PURPOSE.

What many people also do not recognise is the false negatives. Someone with a very low viral load (eg: early stage of infection) will likely test negative. This may also be true (not proven) if the virus can be present but is in some form of stasis.

It should also be remembered that a test only only indicates an infection state at a point of time. If you are tested, and then are infected 5 minutes later, the test will be negative.

As at this moment RT-PCR remains the most reliable test we have available, but it has limitations. It should be used, and its results interpreted, with due regard to those limitations.

***What we don't know*** and must answer: *who is killing people, what is killing people, how and why are they killing people.*

- 1) Who: A certain destructive faction of each national and/or local government. (Call 'em "Globalistas" if y'like.)
- 2) What: Something like the common flu but with slightly different characteristics because lab-created or -modified, SO FAR. This observer postulates that the present action is a mere "softening up" exercise in preparation for Something Much Worse. Smallpox seems likely; YT has learned [variolation](#) as an emergency countermeasure. (Need to acquire a few smallpox scabs packaged in a small airtight sealed bottle now.)
- 3) How: Direct application of mass-produced infectious materials to the populace. Door handles and knobs are sprayed or wiped in the middle of the night. Misty misty spray applied from low-flying airplanes and/or drones to select regions too.  
Duly observed and noted among the Aware Ones of the region. Two weeks (more/less) later we have an *outstanding* "Red Zone". Specific public housing towers inhabited by what some call "Welfare Bums" appear to be a favorite target. (Noisy non-civil "socially dissident" individual households seem to be favored as well.)  
The aerial misting/spraying helps provide a generalized level of distributed pathogenicity, thus somewhat blending with and covering for the sudden inexplicable rise in infections within the aforementioned Poverty Towers and selected individual households. (Fuzzy boundaries = "NO EVIDENCE!".) >:-(  
4) Why: Population reduction. Cash conservation. Debt control. Obedience to the Invisible Enemy, aka "The Higher Powers". Temporal power, secret glory and likely-YUUUGE mammon/pelf.

MANY semi-disparate though administratively allied top-down agendas are thus served. This is STEALTHY MEDICALIZED MASS MURDER. Local and regional Health Departments are strongly implicated fwiw. YMMV depending on regional priorities and some few differing modes of procedure on the murderers' parts.

But yes, this is NO DRILL. More like a softening-up for What Comes Next. At least, let's STUDY [variolation](#), please? Just to have the know-what and -how handy at hand for the sake of all placed at risk and directly affected too. And that is all. 0{:-|o[
