Problem Perpetuation

MICHAEL HERMAN

1 1 Sha

I live in the real world.

Not a world of manufactured excuse.

Not a world of adherence to some narrative.

I view reality, as things truly exist, and speak out.

Now you have to realize, this leads to uncomfortable truths.

Because we live in a world where we are told things are as they are, and theref beyond question. We aren't supposed to acknowledge events, we are supposed ignore. We are told that things have always been this way, or that they've been for quite some time, and you cannot stop, see the injustice, and ask "why"?

Right now the world is facing some serious developments. And yet the averag American cannot question.

We see policies in the world, in our government, in our lives, that exist, they g the grain of all we've been taught, all we've known, and we aren't allowed to q

The "experts" are in control, and absent the proper credentials we aren't allow question. Absent the imprimatur of an official position or standing, making in not possible. Not from the common man.

We are told to accept things as they are at face value, avert our eyes, ignore wh
seen, and align our minds with the nonsensical narrative in place of the harde

Examples abound. This isn't a column, this is a book. In multiple directions.

The official narrative in Ukraine serves as Exhibit "A".

The narrative is that unprovoked, Russia decided to attack Ukraine, and is ber
recreating the Soviet Union, and bringing the old vassal states to heel once ag

What really happened is that America decided to test the statements from Rus
leaders that they would never abide NATO at their "front door", or adjacent to
borders.

So our State Department, Congress, and President decided to have Ukraine jo
with the ability to place missiles into Ukraine, hard on the border of Russia.

And so naturally Putin attacked. After all "The Donbas Region", or Eastern ha
Ukraine, is a Russian speaking area where the people feel more Russian than
Ukrainian. From their perspective they are just reclaiming land that is theirs.

What was really happening, what is really occurring, is that rapacious busines
and greedy politicians needed and wanted a new target where they could creat
money laundering operation, what with the Afghanistan pipeline now closed.
began to send both weaponry, and billions of actual dollars to Ukraine ostensi
them to "fight Russia, and stop the Imperial aggression of Russia and their exp
plans to reconstruct the old Soviet Union".

In reality the NGO's created under the guise of funding Ukraine were all slush
from which campaign donations would flow freely, where politicians families
feed freely, and where our current Congressional members could create a fund

large they could stay in power forever.

They assigned one of their favorite companies, Blackrock, to be selected to reb
Ukraine in the aftermath of this self-created disaster. Which really meant that
Blackrock would now be in place and in charge to just rape the natural resour
Ukraine to their heart's content, and certainly their wallet's benefit. With, of c
the natural flow of back channel dollars into the campaign coffers of politician
PAC's, and super funds meant to enrich the DNC, and RNC. So that those pre
charge, could stay in charge.

The military industrial complex now had an outlet to dispose of all the old sto
requiring the order of all new stock of weapons, enriching everyone involved i
military industrial complex.

How wonderful. Qui Bono?

Who benefits? Uh……*everyone!*

Oh, wait, everyone except the actual Ukrainian people, who have sacrificed all
aged 15-50 in this process. This worthless and unnecessary war. Post war, the
Ukrainian people are goin to wake up to a population devastation that will for
alter their future. A population of all women, women of child bearing age, abs
suitable mates. As most of the men from 15 to 50 have been conscripted into s
and are dying in this war.

Billions flowed, most was stolen, early estimates were that less than 50% of the
weaponry and cash was actually reaching the front lines, and once the actual c
went overseas, it became an untraceable superfund that could be laundered ba
American politicians and favorable business insiders, we call them "donors".

The end result of this war will be a Ukrainian population that can never recov

entire nation whose natural resources will be pilfered through Blackrock, and requiring an endless flow and funding of US dollars that do nothing for the ac Ukrainian people, but where the American politicians in charge of spending t dollars become enriched beyond belief.

You aren't supposed to notice the fraying threads of connection in a story that out early in the war that some of the Ukrainian money approved was earmark to Sam Bankman-Fried's company that went bankrupt, a crypto-currency scan run out of the islands off America's coast. You aren't supposed to notice that S parents are both "bundlers" for the Democratic Party, the "money men and wo who hold the fundraisers, contact the donor class, and who amass the funds fo Democrat Party. Pay no attention to these connections.

Apparently before the flow of dollars from Ukraine could enrich the dying cry the firm went bankrupt. And Sam ended up in jail for fraud. Seems the crypto exchange was but the kind of firm created when you print fiat currency and to of that currency floats around in the same hands. You end up not being able to all legally, and the volume just encourages scams. The same way that the go-g eighties created Bernie Madoff, a market that did nothing but go up can lead t excess in investment, and the promise of even higher returns are too promisin

I've written extensively here before about "ostensible" reasons, and the real re

The "ostensible" bullshit was all about "freedom for the Ukrainian people fron expansion tyranny. The real reason was for special interests to profit into the l of dollars while the male population of Ukraine was decimated beyond recove

The whole thing is one big criminal enterprise. If you didn't know that the firs you heard that "Blackrock has been selected to rebuild Ukraine", there is no h you at all.

Here is how Google frames it all;

The Ukrainian government announced in late December 2022 that it had parti with BlackRock to help coordinate investments for the country's post-war reconstruction, a development widely reported by outlets including CNBC, Th York Times, and the Financial Times. [1, 2, 3, 4]

Key Details of the Arrangement

- **The Agreement:** President Volodymyr Zelenskyy and BlackRock CEO Lar agreed to establish a framework—such as the Ukraine Development Fund coordinate public and private capital for rebuilding the country's economy
- **Advisory Role:** BlackRock's Financial Markets Advisory (FMA) group was with providing pro bono advisory services to structure investment funds r than acting as a general contractor or sole builder of the nation. [1, 2, 3]
- **Subsequent Developments:** BlackRock and JPMorgan Chase assisted in d the investment framework, though BlackRock later paused fundraising fo Ukraine Development Fund amid shifting political and market conditions

Our defense budget balloons to 1.5 Trillion, with a "T", the same cast of chara gets even more wealthy, the American people lose big, the Ukrainian male los bigger, and life goes on for you and I as if none of this is happening at all.

And really, can we be frank? As Joan Rivers used to say, "Can we talk"?

I mean, what part of this gay, ex-actor and ex-comedian President, this Zelens wasn't the real give-away. They can't even find a man, a real man, to be the fac Ukraine through this war. They fronted a flamboyant gay Jew. Good Holy God

I'm no better than you, I'm well aware all of this is true, all of this is going on,

not at the gates in Washington, DC helping my fellow patriots tear the thieves their comfortable lair. I'm going to watch Thursday night football, drink a Gui against all advice from the doctor, and live life as if I do not realize the atrocit taking place.

I'm well aware that for my entire life the Israeli's have been settling the West B doing so illegally, as part of their "Greater Israel Plan", and just this week, wit from Tucker Carlson, we've been treated to Israeli Settlers beating Christians Muslims settled there in the West Bank in their ancestral homes, and burning out of their homes. In land that is not technically "inside Israel".

And please, get an education, we are talking "West Bank" here, not Gaza. Gaz small strip of land to the NorthWest on the water, the West Bank used to be a swath cutting into the middle of Israel as of the 1967 borders, but that is now wholly consumed by Israel. The person on Carlson's tape is actually an Ameri citizen, being beaten with sticks by Israeli settlers, and threatened with his lif doesn't just up and leave the home he owns in the West Bank.

I pointed out the other day that Israel has been complaining for all near seven of my life that everyone around them wants to eliminate them "from the river sea", and yet somehow during all that time what has really happened is that Is expanded their borders dramatically beyond their original 1948 Charter, and w beyond the 1967 borders before the Egyptian war.

Quite a feat. Cry to the world they want to shrink you to "nothing", and all the your own borders grow, and grow, and grow.

The official US narrative is that poor, poor, Israel is besieged on all sides.

The reality is they just took half of Lebanon, have taken almost all the West Ba

are in the process of murdering two million to consume Gaza.

This week Tucker is showing a US citizen living in his home in the West Bank beaten to death, or almost death, a few weeks back it was a Jewish journalist f Washington Post who was beaten by Israeli settlers.

But the official narrative always reads, “those God damned Arabs”. Please don that our media here is wholly owned by Rupert Murdock, Zionist, Larry Elliso Zionist, and the Roberts family, Zionists, and that people of the Jewish persua all of mainstream media in America. Shhhh, don’t say that, it may be complete but it is antisemitic. Or at least they claim. You weren’t supposed to sit throug those credits watching movies as a kid and noticing the names were all Jewish eating the last of the popcorn and get up and go, leave the theater. Pay no atte their grip on Hollywood and the Movie Industry. Celebrate The Warner Broth Louis B. Mayer, Irv Thalberg, and Adolph Zukor with no notion of their ethnic Perfectly natural for 2% of our population to have 100% percent control over a industry in total.

Ever try to buy a diamond?

Yesterday I read and saw where a politician in Los Angeles said something tha send a shudder down everyone’s shoulders.

Becerra is running for Governor of California and under the guise of having e
tax money to fix the roads, bridges, and infrastructure, as if Californians aren'
enough now, they will have to implement a mileage tax. To fund these project

Make no mistake, this isn't about funding roads and bridges. They could diver
twenty-four billion wasted on NGO's in the homeless industrial complex and
all the roads in California to be upgraded.

This is about wealth redistribution.

Democrats like Becerra have decided that we need to redistribute wealth from
wealthy, to their constituency, and in particular our black and brown citizens,
are going to use taxation to level the playing field. They are going to create ne
that force the forfeiture of current assets to pay new taxes.

You see, if you tax property a new way, one that charges current home owners some portion of the "gains" to the state, you can force people out of their hom a large portion of their asset value in the home in taxation, and then fund othe able to purchase that home through state subsidization.

You bought your California home for four hundred thousand dollars thirty yea and now benefit from a three million dollar price tag. So we tax you three hun grand of that "asset increase and worth", an amount you cannot readily pay fr dollars saved, forcing you to liquidate the home to pay the tax. Whereby with t now on the market, the brown and black population, guided by the new subsic the state they qualify for, as you don't, get to purchase that home now on the n a discount rate.

Effectively transferring your wealth to the "deserving". After all, that three mi housing value? You didn't earn that.

I mean, what part of "you didn't build that" didn't you understand when it was by our President Obama. You just take that same theme and run it through a N Democrat program. Just an "adjustment" from the idea that since the Palisade white wealthy community burned down, instead of just allowing those white, people to rebuild, let's force them to accept "affordable housing" inside the zo before they can rebuild.

Sure, let's give poor black and brown people the same standard of living earne years of saving and working hard to rise up and out by the white "privileged" population.

It is all a redistribution. You purchased a home, the neighborhood began to de you moved out and up. That home was in a neighborhood that was in just a bi decline, so you moved again, up again.

And now you find yourself in the 'Pacific Palisades", where it is safe, lovely, an comfortable. Away from the riff-raff, the crime, the degradation. Except. Exce they are installing "affordable housing" inside the community, just down the s Bringing the standard pathologies of the black and brown to your doorstep. A subsidized by your tax dollars. Can't be their tax dollars, they work in menial j pay no income tax, they exist below the taxation line for the Federal governme even some state taxes. If they work at all.

Now, why bother to go through all that subterfuge about "affordable housing" you can just tax the assets of the wealthy. Tax their home value in huge charge Amounts so large they exceed or even equal a life savings. Which force them t pay the tax. Then you can just create a program to allow the black and brown population to purchase the home with a subsidy.

Transferring white wealth, to black and brown wealth.

How…….equitable. when did I last hear that term, equity, hmmm, wasn't that foundational core principle of Diversity, Equity and Inclusion, that whole DEI eliminating "white privilege"?

The white population of California will wake up one day after having voted De far too many times, and find themselves in this condition;

She lost her lifetime investment in a day. When Democrats install new taxes d to seize asset wealth, the whites of California will lose their lifetime of asset accumulation over time, maybe five years of total taxation. Either way, they ar screwed. Because they kept voting in a pattern of suicidal empathy that will ev cost them everything. The end result will be what this woman in France realiz too late.

Now I get it, I get it. You don't like hard truths. They are uncomfortable. At ti reading this column they felt, well, antisemitic. You aren't comfortable with th

I understand.

But that is why they are called "hard truths".

They are difficult to acknowledge. I've just listed a few here. We could go on, a

would take a book.

But to avoid continuing down this path will require that you not only swallow hard truths, but decide we've all had enough.

We aren't there yet.

We need to see the wealthy, white, Californians lose their homes to the blacks browns. A slow motion taxation seizure.

Only pain, real pain, pain felt by Liberals, real pain felt by Liberals, will solve problem.

Which is why I'm not voting in these mid-terms. Losing to these insane Demo will cause the downfall quicker than keeping this Zionist Republican cabal in

If you haven't realize that, and are still supporting Republicans, you are just perpetuating the problem.
