# Research summary and debunk regarding the existence of "SARS-CoV-2" and "COVID-19"

johnblaid (51) (@johnblaid) in #health (/trending/health) • 4 months ago (edited)

Updated: 2020-10-24

Here is for those who dare to question current events and have an open mind. It's a lot of information and resources presented here that result in the conclusion that there is NO "virus", there never was. This is probably one of the most comprehensive articles on social media regarding current

events and fraud. I don't expect people to go through it all because this has taken me many months to research. I will continue to update my article linked below regarding the inconvenient facts about current events as we move forward.

**Note: I am not saying that nobody have died or fallen ill, what I am saying is that the CAUSE is NOT the "virus".**

Mr James McCumiskey  
By email: [jl\\_mccumiskey@yahoo.ie](mailto:jl_mccumiskey@yahoo.ie)

22 June 2020

**Reference: FOI12\_1\_544 Internal Review**

Dear Mr McCumiskey,

I refer to your application for an internal review under the Freedom of Information Act 2014 of a decision by Ms Debbie Scanlan, dated 22 May 2020, concerning item 1 of your request for access to records of the National Virus Reference Laboratory (NVRL), as follows: *"1) I am looking for a scientific paper, which demonstrates how the Novel Coronavirus was purified? Surely, if the NVRL is able to detect the Novel Coronavirus, it should also be able to demonstrate how it is purified?"*

In the original decision, Ms Scanlan refused part 1 of your request on grounds that the University do not hold records to answer your request (Section 15 (1) (a)).

I have now conducted an internal review in accordance with Section 21 of the Act. I wish to inform you that I affirm the original decision.

The University's position is that matters of academic debate cannot be conducted under FOI and we would not regard academic research material as administrative records of an FOI body that would make them available for release under the legislation. The NVRL have advised that they do not culture live SARS-CoV-2 or purify SARS CoV 2 antigens. They detect SARS-CoV-2 RNA in diagnostic samples, as per the PCR assay that was shared with you previously. As such, there are no relevant records held and no further searches that may be taken for records that would provide an answer to your query. Section 15 (1) (a) of the FOI applies.

The University is committed to its obligations under the Act to provide requesters with access to records held by it and with reasons for its decisions that affect them. In this case, we regret that we cannot assist you further.

Under the Act, the University is required to advise you of your right, following receipt of your internal review decision, to make a further review application by writing to the Information Commissioner, 18 Lower Leeson Street, Dublin 2.

Yours sincerely,

---

**Mr Julian Bostridge**  
Director of Legal Services

## Viral challenge sent to Boris Johnson in the UK

### StandUpX • Science Committee

22<sup>nd</sup> June 2020

Dear Prime Minister,

**CHALLENGE TO PUBLIC HEALTH ENGLAND THAT THEY MUST SHOW PROOF THAT A VIRUS EXISTS WHICH CAUSES COVID-19 OR DECLARE THERE IS NO VIRUS AND END THE VAX AND TRAX PROGRAMMES**

We understand that the World Health Organisation has advised Public Health England not to isolate and purify a 'virus' said to cause the disease 'Covid-19.'

There are major questions over the validity of the testing procedures being used to determine the presence in the UK population of the putative 'Covid19 virus' specifically relating to the throat swab (RT-PCR test) and evidence of previous infection using antibody tests.

The disease-causing effects of any virus are scientifically verified using Koch's Postulates of which four conditions must be met. Currently the virus thought to cause Covid-19 does not meet any of them.

Fulfillment of Koch's Postulates requires that the so-called Covid-19 virus must be isolated and purified. This **has not been done** – therefore the accuracy of the tests authorized by Public Health England is unknown.

In summary, the tests for the Covid-19 virus are of unknown accuracy, scientific procedures for viral isolation and purification have not been followed and neither have any of the Koch methods for determining any disease causing effects.

Therefore, we demand that by July 22<sup>nd</sup> 2020, Public Health England must:

1. Produce independently peer reviewed scientific evidence proving that the Covid-19 virus has been isolated and purified in the reference laboratories run by Public Health England under the leadership of Professor Zambon (Imperial College London/SAGE member) ignoring the instructions not to do so issued by the World Health Organisation.
2. Produce independently peer reviewed scientific evidence proving that Covid-19 virus causes disease using all of the Koch Postulates.

If the United Kingdom Government's own health agency - Public Health England - CANNOT show independent and peer-reviewed proof that a virus exists which causes COVID-19 then the Government must DECLARE THERE IS NO SUCH VIRUS AND CEASE MEASURES AGAINST SOMETHING WHICH DOES NOT EXIST, including producing a vaccine and the Government's Track+Trace policy.

Yours faithfully

**Dr Kevin P. Corbett** BA (Art) University of Reading, Higher Diploma (Fine Art) Slade School of Fine Art University College London, MSc (Nursing) Kings College

London, PGCE (Health Professions) University of Greenwich, PhD (Social Sciences) London South Bank University. 37-years nursing experience. Crowdfunding: "The Coronavirus Act 2020 is Null and Void!"

## Reply

# StandUpX Letter and Mask 'Law' Updates

Update 7

The deadline for a reply from the government or PHE for proof of the existence of so-called 'covid-19' was 22nd July. As predicted, no reply was received to this letter as **they have no proof, as there is no proof!**

Also, a request to the National Research Council (NRC) department of the Canadian government under the Freedom of Information Act, which requested proof of the genuine isolation of SARS-COV-2 [covid-19] was answered as follows:

**"A thorough search of NRC's records has now been completed, and we regret to inform you that no records responsive to your request were identified."**

**IT IS OFFICIAL - GOVERNMENTS CANNOT PROVE THE EXISTENCE OF THE 'COVID 19 VIRUS' THEY ARE USING TO DESTROY OUR LIVES AND ECONOMIES AND ARE FRAUDULENTLY USING THE LAW TO DO SO!**

## More viral challenges sent to places in Canada, New Zealand and Australia

As of today (September 5, 2020), 12 institutions had provided their responses, and every institution had indicated the same: that they searched their records and could locate none describing the isolation of any "COVID-19 virus" directly from a diseased patient. You may access the response from each institution by clicking on the links below.

**Canada:** [Health Canada](#); the [National Research Council of Canada](#); [Vaccine and Infectious Disease Organization-International Vaccine Centre \(VIDO-InterVac\)](#), the [University of Toronto](#), [Mount Sinai Hospital](#) (Toronto), [Sunnybrook Health Sciences Centre](#), the [Region of Peel](#) (Ontario) and [McMaster University](#));

**New Zealand:** [the Ministry of Health and the Institute of Environmental Science and Research](#);

**Australia:** [the Department of Health](#).

## Another viral challenge sent to Australia's Doherty Institute.

29 September 2020

The Peter Doherty Institute  
for Infection and Immunity

792 Elizabeth Street  
Melbourne, Victoria  
Australia  
3000

+61 (0) 3 9035 3555

[doherty.edu.au](http://doherty.edu.au)

I refer to your email dated 12 September 2020 in which you have requested documents under the *Freedom of Information Act 1982* ("**Act**"). Please be advised that at this stage, we do not consider that a valid Freedom of Information (FOI) request has been lodged.

We note that you have requested documents in the possession, custody or control of The Peter Doherty Institute for Infection and Immunity ("**Doherty Institute**"). Please note that the institute is an incorporated joint venture between The University of Melbourne ("**Unimelb**") and Melbourne Health ("**MH**").

As such, the Doherty Institute does not accept FOI applications directly; however, you may wish to refer to the below FOI resource pages for Unimelb and MH should you wish to lodge an application with either of those organisations.

These resources outline the requirements for an FOI request to be considered valid with the relevant agency.

<https://about.unimelb.edu.au/strategy/governance/compliance-obligations/freedom-of-information/how-to-make-an-foi-request>

<https://www.thermh.org.au/patients-visitors/coming-hospital/medical-records>

We have undertaken a preliminary review of your request to determine if it may be appropriate to provide you with documents outside of the Act. Following this review, we can inform you your request relates to a process which is outside the scope of the usual operations of the Doherty Institute and therefore no documentation is available.

On that basis, insofar as your request relates specifically to the Doherty Institute, it is unlikely that any relevant documents would be located if you choose to lodge a formal FOI request.

Thank you for your interest in this matter.

Yours sincerely

A joint venture between The University of Melbourne and The Royal Melbourne Hospital

Here are all of the 21 viral challenges collected by Christine Massey by 2020-10-20 collected in one PDF

<https://www.fluoridefreepeel.ca/wp-content/uploads/2020/10/FOI-responses-re-covid19-virus-isolation-purification-from-21-institutions-Oct-20-2020.pdf>

## Admission by the CDC of lack of virus isolate

The analytical sensitivity of the rRT-PCR assays contained in the CDC 2019 Novel Coronavirus (2019-nCoV) Real-Time RT-PCR Diagnostic Panel were determined in Limit of Detection studies. Since no quantified virus isolates of the 2019-nCoV are currently available, assays designed for detection of the 2019-nCoV RNA were tested with characterized stocks of in vitro transcribed full length RNA (N gene; GenBank accession: MN908947.2) of known titer (RNA copies/ $\mu$ L) spiked into a diluent consisting of a suspension of human A549 cells and viral transport medium (VTM) to mimic clinical specimen. Samples were extracted using the QIAGEN EZ1 Advanced XL instrument and EZ1 DSP Virus Kit (Cat# 62724) and manually with the QIAGEN DSP Viral RNA Mini Kit (Cat# 61904). Real-Time RT-PCR assays were performed using the ThermoFisher Scientific TaqPath™ 1-Step RT-qPCR Master Mix, CG (Cat# A15299) on the Applied Biosystems™ 7500 Fast Dx Real-Time PCR Instrument according to the CDC 2019-nCoV Real-Time RT-PCR Diagnostic Panel instructions for use.

## Another viral challenge made to McGill University in Quebec, Canada

# McGill

Secretariat  
845 Sherbrooke Street West, Room 313  
Montreal, Quebec H3A 0G4  
Tel.: (514) 398-3948 / Fax.: (514) 398-4758

October 23, 2020

Carol Koussaya  
[ckoussaya@yahoo.ca](mailto:ckoussaya@yahoo.ca)

**Sent by email**

**Subject: Access to documents request – Response**

---

Dear Carol Koussaya,

This letter is in response to your request submitted October 5, 2020 under the *Act respecting Access to Documents Held by Public Bodies and the Protection of Personal Information* (the Act), for the following:

**All records in the possession, custody or control of the McGill Secretariat or any other department of McGill University (for example, downloaded to a computer, printed in hard copy etc. describing the isolation of SARS-COV-2 virus, directly from a sample taken from a diseased patient, where the patient sample was NOT first combined with any other source of genetic material (ie monkey kidney cells, aka vero cells, liver cancer cells etc.)**

**Please note that I am using the term "isolation" in the everyday sense of the word; the act of separating a thing from everything else. I am NOT requesting records where "isolation of SARS-COV-2" refers instead only to:**

- the culturing of something and/or
- the performance of an amplification test (RT-PCR test) and/or
- the sequencing of something

**If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that the public may identify and access each record with certainty (ie: title, author, date, journal, where the public may access it).**

Please be advised that McGill University does not hold any documents responsive to your request.

Please be advised that pursuant to article 135 of the Act (appended below) you may ask the Commission d'accès à l'information to review this decision within a period of 30 days from the date of this letter.

Sincerely,

Edyta Rogowska  
Secretary-General

---

Alternative theory of why some, NOT all, are falling ill and die under the false label of "COVID-19" showing symptoms of blood clots and hypoxia. Air pollution is one huge environmental factor which plays a part of the discussion that is currently not being discussed. The reason for that to me is obvious, the "virus" is partly used as the cover story for environmental pollution, this is how big corp get away with it.

Lets start with Wuhan: "In 2015, a documentary about air pollution in China, titled "Under the Dome," received 100 million views by Chinese netizens within 48 hours. In the film, a 6-year-old girl told the interviewer she doesn't know what a white cloud looks like. The film director raised the question of China's development model and was forced to cut that part out for fear of it not passing the censor. Government censors then quickly shut the film down after its popularity proved it touched a nerve of the country."  
<https://thefederalist.com/2019/07/09/communist-china-attempts-hide-yet-another-mass-protest-authoritarian-rule/>

"Air pollution is linked to an increased risk of developing an irregular heartbeat -- a risk factor for stroke -- and blood clots in the lung, finds a large study. The evidence suggests that high levels of certain air pollutants are associated with a higher risk of cardiovascular problems, but exactly how this association works has not been clarified."  
<https://www.sciencedaily.com/releases/2014/06/140604203052.htm>

"Small amounts of cyanide bind to the ferrous ion on the hemoglobin molecule, which does not interfere with oxygen binding. However, cyanosis can occur as a preterminal event if a large amount of cyanide exposure occurs. Hypoxia in the presence of adequate oxygen occurs due to the inability of mitochondria to use oxygen as the terminal electron acceptor in the electron transport chain."
