Robert F. Kennedy Jr. is the author of two books. "[American Values: Lessons I Learned from My Family](#)," published in 2018, describes the Kennedys' 60-year-long fight with the CIA.

His 2021 book, "[The Real Anthony Fauci](#)," became a runaway best seller, selling over a million copies, despite unprecedented censorship. In this interview, Kennedy, an attorney, reviews some of the lawsuits filed by Children's Health Defense (CHD), founded by Kennedy in 2018 (was World Mercury Project in 2016), and why he believes he can "drain the swamp" and clean up our federal agencies if elected president of the United States.

The Trusted News Initiative Lawsuit

One of the most recent lawsuits is the antitrust lawsuit against the Trusted News Initiative (TNI). I and several other journalists and news organizations that have been censored during the pandemic are also plaintiffs in this lawsuit. As explained by Kennedy:

"The Trusted News Initiative lawsuit applies antitrust laws against this really shocking agreement made at the onset of the pandemic, initiated by the BBC.

The BBC ... is not officially a government agency. It's a government-supported network that is supposed to have walls between itself and the government, but recent scandals in Britain have exposed how closely the BBC works with the British Intelligence Agency, MI5, particularly in censoring information on certain subjects, including public health.

This is now well-established. We don't know how much the British Intelligence Agency had to do with kicking off the TNI, but the BBC approached a dozen top news organizations in the United States, including The New York Times and The Washington Post ... and the social media networks ... proposing they all censor information that did not comport with government proclamations during the pandemic."

Importantly, a memorandum by the BBC states that independent news sites are "existential competitors" and a threat to the mainstream media business model and

must be crushed.

Eliminating "competition" (which we're not) was the entire purpose behind TNI, so the basis for the lawsuit is that TNI is violating the Sherman Antitrust Act. As explained by Kennedy, the BBC is using its market power and illegal collaboration with other leading market actors to crush smaller competitors.

First Amendment Cases

The CHD has also filed a number of First Amendment cases, including one against Facebook, which censored the CHD and many other sites. Now, Facebook, as a private company, has the right to censor anyone it wants, for any reason.

However, they CANNOT do it at the behest of the government. If they become government surrogates for censorship – which is what they've become – then the First Amendment, the right to free speech, is implicated.

"What we've said is that they were taking orders from government officials," Kennedy says. "When we filed the lawsuit, we knew that was happening, but we did not have the positive proof. Now we do. We have internal memos that show Anthony Fauci collaborating on the censorship with Mark Zuckerberg.

And we now know that Twitter had offered a portal to the FBI and CIA to censor people who did not go along with the government narrative, and that they were aggressively using it. We found emails where the White House specifically asks Twitter to censor Robert Kennedy. So, we have a number of those lawsuits out there."

We're Fighting an Uphill Battle

The censorship has caused many of us in independent, alternative media to lose huge

amounts of money as we can no longer reach our audiences. And while Kennedy hopes to be able to recover some of these lost revenues, that alone will not effect change.

While the U.S. government and mainstream media are clearly engaged in illegal activity, there's really no penalty for it unless you sue them, and even if you win, the punitive damages are not going to be severe enough to force a change in behavior. At best, lawsuits bring public attention to the problem and cause embarrassment, which might curtail it somewhat.

Twitter Files Reveal the Breadth of the Illegal Collusion

On the upside, we now know a lot about how they operate because of the Twitter files, released by Elon Musk. As noted by Kennedy, it's far worse than any of us initially suspected. For example, the FBI has a portal into social media that allows it to remove posts and accounts it doesn't like.

"That is scary. That is against everything our country was founded on," Kennedy says. "The single most important premise was that citizens ought to be able to criticize government, which was not true for the American revolutionary generation. You could be punished for criticizing the king.

And they said, we don't want that anymore. We're going to have free speech for all. We're going to make sure that there's a ferment, that there is a million different ideas bouncing around. And 'misinformation,' for better or worse, is constitutionally protected speech.

There are forms of speech that are not constitutionally protected. Inciting violence is not constitutionally protected. Child pornography is not constitutionally protected ... But telling a lie to somebody is. It has to be that way because once you appoint an arbiter to tell what's true and what's not true, you'll end up getting one version of truth, and it ultimately will not be the

true one."

Many Were Paid to Lie

Indeed, if the last three years have taught us anything, it's that self-appointed "arbiters of truth" get it wrong most, if not all, of the time. And, as noted by Kennedy, the crime is not being wrong. The crime is censoring anybody who disagrees, so people never even have the opportunity to discover the error, including themselves (if ignorance is in fact the case).

"In May 2020, I published a post that said the vaccines are going to be DOA, they're dead on arrival, because the monkey studies just came out and they don't prevent transmission," Kennedy says. "This was before the rollout.

I was like, 'We were looking at their own monkey studies and the concentrations of COVID-19 viruses or SARS-CoV-2 viral loading in the nasopharynxes of the macaque monkeys that they had vaccinated was identical to the loading in the unvaccinated monkeys once they were exposed to the disease.'

So, they knew at that time that this vaccine could not prevent transmission. Everybody knew that. And yet they were saying out loud, 'It can prevent transmission.' They had no right, no reason, to say that other than to fool the public.

And then they were censoring people like me who were saying, 'Wait a minute, how's this possible? How can you possibly make this claim? Of course it's not going to prevent transmission.' So, the crime is not being wrong. Anybody can be wrong. The crime is censoring people who were right or who had alternative viewpoints that prevented them from ever getting anything right.

Listen, if I had to predict what's going to happen now, it's very clear, this isn't a speculation. The Biden administration is trying to give the WHO [World Health Organization] these preemptive powers to declare future pandemics based upon no evidence. So, all they have to say is there's a pandemic ...

And when you declare a pandemic, not only does it give the government extraordinary powers, it gives the pharmaceutical industry immunity from liability. It gives doctors immunity from liability, which is accompanied, of course, by impunity and bad judgment. It also loosens up billions of dollars in subsidies and cash to promote the business models of those pharmaceutical companies.

At least now, we have an independent power to say, 'We don't believe WHO and we're not going to go along with this global emergency.' Right now we're about to sign a treaty that will give that power to the WHO. So Jeremy Farrar, who was one of the masterminds of this PSYOP – he was the guy who hid the COVID coverup. He manipulated the Lancet studies. He directed all these virologists who believed that it came from a lab... to say that it didn't.

Because of the control he has over the funding of virology and infectious disease, and biomedical research globally, he was able to marshal these core groups of virologists who just lied to us openly. And then they all got payoffs from Fauci.

Kristian Andersen, Ph.D., got \$9 million after he lied to us. Eddie Holmes got \$9 million to lie. All the guys who participated in the Lancet paper and the Nature Medicine papers – the ones that were then cited by all of the journalists in the world to say it's been proven there's no such thing as a lab leak – we now have their emails.

And all those guys believed it was a lab leak, secretly, privately ... but they were telling the public it wasn't. And they all got payoffs of millions and

millions of dollars."

No Evidence to Support Childhood Vaccination Schedule

As noted by Kennedy, the entire field of virology is basically operating as a criminal enterprise. They never have to prove anything and they're never accountable. For example, they don't have to prove that vaccines actually work, or that it's safe to take multiple vaccines at the same time.

"By 'work,' I mean five years from now, you're more likely to be healthier if you got the vaccine than if you didn't. If you show me that, I'll take all the vaccines in the world," Kennedy says. "But there are no studies that support that, and they're able to escape the standard safety testing, placebo-controlled trials, prelicensure trials that are de rigueur for every other medicine except for vaccines."

Seventy-two doses of 16 vaccines are now recommended for American children by the Centers for Disease Control and Prevention. States have the right to mandate them as they see fit, and in California and New York, all 16 vaccines are mandated. But whether they're mandated or not, there's tremendous pressure to take them all.

In California and New York, you can't even get a medical exemption. Technically, both states allow medical exemptions, but no doctor will write you one because they risk losing their medical license if they do.

"They're mandating these 72 doses of 16 vaccines, and they've never tested a single one ... in a placebo-controlled study. They have no idea what the risk profile is for these medicines and they're mandating them to healthy people ...

You're taking healthy people with functioning immune systems and you're forcing them to take something that you don't know what the outcomes of are. It is criminal," Kennedy says.

Will We See Kennedy in the Presidential Race?

Kennedy recently announced he's considering entering the presidential race if he can garner enough support. Considering two members of the Kennedy family have already been murdered, this requires quite a bit of courage. Clearly, there are risks involved anytime you try to change a corrupt system from within. Kennedy comments:

"I haven't made the decision yet, but I'm leaning towards doing it. It's going to give me an opportunity, as it makes it much more difficult for them to censor me, [to] talk about all these issues for the first time without censorship and connect them.

I've been an environmental attorney and advocate for 40 years, and I saw the impact of agency capture. That's why I was able to recognize it so easily when I saw it in the pharmaceutical industry. All these agencies are captured. The pharmaceutical industry owns the National Institutes of Health ... CDC, FDA. The coal and oil industry and the pesticide industry own the Environmental Protection Agency.

I was on the trial team in the Monsanto case, which ended up with a \$13 billion settlement. We had three trials in a row ... [and] we did a lot of discovery. We were able to find secret EPA papers that showed the head of the EPA pesticide division for a decade was a man who was secretly working for Monsanto.

So Monsanto was actually directing his movements. In one of the emails we found, Monsanto instructed him to kill a study that was being done by another agency, the Agency for Toxic Substance Control, ATSDR. It's a smaller agency that focuses just on toxins that's separate from EPA.

He'd always been able to control the EPA studies and to fix them. But now here's another agency that Monsanto has no control over that's actually going

to do an independent study on the carcinogenicity of Roundup and glyphosate.

They were desperate to kill that study and he said, 'I'm going to kill that study for you, but you need to give me a gold medal when I do that.' So, these were the kind of correspondence he had with his true boss, Monsanto. And this, unfortunately, is true in all the federal agencies."

Democracy Has Been Subverted

As noted by Kennedy, most government agencies have been captured by the industries they're supposed to regulate, and as a result, democracy has been subverted, as they're no longer working for the American people. They're working for big corporations that are constantly putting profit above safety.

"There's now a perfect merger of state and corporate power in this country," Kennedy says, "and the system is rigged against the middle class and the poor. And by the way, among the captured agencies are the CIA and the Pentagon, which have been captured by military contractors, and they don't care how much the Ukraine war costs us.

Nobody cares because they're killing Ukrainians, not American kids. So it's the perfect war for them. And we ship over \$112 billion and who gets that? It bounces. A lot of it goes into Zelenskyy's pocket and then it's bounced back to General Dynamics and all the military contractors. They then hire all the generals when they leave the Pentagon.

Those are the generals you see on CNN every night, gravely saying we need to defend the people of Ukraine. But they're working for General Dynamic, stuffing their pockets with the money we're sending over there. I'm not saying that we shouldn't be helping the Ukrainian people or that Vladimir Putin isn't a thug and a gangster ...

But we need to understand that we have intelligence agencies and military agencies whose job it is ... to destroy American democracy from within. And that those agencies, their job is to provide a constant pipeline of new wars that are going to feed the military industrial complex which owns them.

Look, we gave a \$112 billion to Ukraine already. The entire budget of CDC is \$12 billion. The entire budget of EPA I think is around \$11 billion. And we have a crisis in this country. We have a child health crisis – 54% of our children have chronic disease and we don't know what's causing it.

We have kids going to dilapidated schools. Our infrastructure is falling apart. We have a middle class in this country has been hollowed out and destroyed and we need to start paying attention to these problems here at home and solving them."

DOT – Another Example of a Captured Agency

The toxic train wreck in East Palestine, Ohio, is another example of what happens when regulatory agencies are captured. According to Kennedy, Norfolk Southern Railway has a weekly revenue of \$1.5 billion, and its cap for safety violations is \$225,000. So, there's no incentive for the railway to make sure safety regulations are followed.

Its lackadaisical approach to safety has now contaminated an entire region and destroyed the lives of several hundred residents, yet the penalty is barely a drop in their revenue bucket. And again, the reason they're getting away with this is because the Department of Transportation (DOT) is wholly captured by the big railroad companies.

"I like Pete [Buttigieg], but he's not a guy who looks at that agency and says, 'I know it's a captured agency and I'm going to weed out the people who are corrupt, I'm going to make the trains run on time, I'm going to make sure they

have two engineers and I'm going to make sure they're using electronic controlled brakes and not the brakes they used in the civil war' – which is what was on this train ...

Why is that? Because [the DOT is] a captured agency. The electronic brakes would've cost \$3 billion to put on their entire fleet. That is two weeks of revenue for that company, but they rather spent the money on lobbyists, make sure they didn't have to do that, and then they took the cash and did a stock buyback.

So, they all are getting rich and the people in East Palestine are now drinking poisoned water, their cats are dying, their cows are dying and their children are now exposed to dioxin. A single molecule of dioxin can cause cancer. It is the most toxic molecule that we know of in the universe that's not radioactive. It's horrendously toxic, and it's now spread over the landscape ..."

Why Kennedy Believes He Can Root Out the Corruption

As explained by Kennedy, politicians may start out believing their own campaign promise to end corruption but, in the end, they simply don't know how to fix the problem. They don't know how to clean up these agencies. Even presidents have been powerless in this regard.

"You can't go into an agency with 30,000 or 60,000 employees and fix it overnight unless you know exactly where the problem is," Kennedy says. "So, they appoint a guy to run that agency who's usually from the industry ... And that guy doesn't know how to fix it either. So, he relies on the department heads and the branch heads within that agency, and they're all corrupt and have been there 50 years, like Fauci ...

Some of the politicians are even worse. They just get co-opted. They're taking money from the industry and become slaves to the congressional

committee chairs who are all on the take ... I feel I can fix this problem like nobody else can, because I know how these agencies work.

I know the individuals in these agencies who need to be moved to Nome, Alaska, and the ones who have been doing favors, who are in the tank with the industry. I know the databases that we need to open and make public so that the independent scientists can do their jobs.

I know how to stop the corruption in the universities by telling the universities you're not getting money anymore to do these phony pharmaceutical industry studies, or oil industry studies.

I know how to send my attorney general after the journals like the Lancet and The New England Journal of Medicine and sue them for racketeering, saying, 'You are not telling the truth. You're claiming to tell the truth to people about medicine, but you guys admit it's not the truth. It's pharmaceutical industry propaganda.'

All these agencies have that same kind of structure, and I've spent 40 years suing them. I've spent 20 years suing the United States Department of Agriculture for doing favors for Smithfield Foods, Tyson Food, Bo Pilgrim, Cargill and Monsanto. It's a captive agency ...

I feel like I should do this, and that it will give me a chance to talk to the American people. If people want to hear the truth, I'll win. If they want business as usual, then I won't. But for me it's irrelevant. I'm going to fight as hard as I can to win. But my only real concern is to leave this process with my integrity intact and my family.

If I can protect my family and have my integrity, then I've done what I'm supposed to do. If I didn't do this, I would feel like it was an opportunity that I had missed. I might, if I can win, change things. And I know how to change

things probably better than any politician who has run in the last 20 years ...

A lot of the changes that I could make are changes that I wouldn't need Congress for – how to restructure the agencies, including the intelligence agencies, so that they begin to work for the American people and for actual national security rather than what they've been doing.

My father had a plan for reorganizing the CIA that I think is still relevant today ... The problem is the espionage aspect of the CIA ... [It should be] information gathering and analysis to the president to make better decisions, but that's not what the agency ended up doing ...

It has nothing in its charter that it would allow it to do paramilitary operations to fix elections, assassinate leaders, kidnap, kill people, torture people. None of that was part of its initial mission.

[Allen] Dulles [the founding director of the CIA] snuck that in through generous interpretations of some of the charter provisions. And then what happened, the plans division, which is the dirty tricks division, became the tail that was wagging the espionage dog.

And the espionage function of CIA, it should be oversight of the plans division. They should be antagonistic towards each other ... The problem with the CIA is it has never learned from mistakes. It never does, because there's never any accountability ... Patriotism means a faithfulness to the United States Constitution above all. Above all. And if you don't know that, you shouldn't be in government."

Robert F. Kennedy as President of the United States would be a guarantee for the defense of health and freedom with repercussions throughout the world. We also need Dr. Mercola to be part of his team. The demands presented and the actions carried out by Robert F. Kennedy and Dr. Mercola are a guarantee of a great government for the people with defense of food, agriculture, true medicine and all the factors that affect a dignified life and a defense of nature. The articles and from CHD and from Dr. Mercola's website are a projection of a better future.

RFK Jnr was opposed by many of his family regarding his stance on Jabba... One thing we are vulnerable to is the threat to our family. He would have been able to convince them re the truth; no doubt, and yet they still criticised him. It is far easier today to present such a threat, let alone carry it out. I think it would require some sort of a coalition between him and D.T. with an ENORMOUS turnout at election time.

Great links Gui, it is so frustrating so much of the information, the links you are sharing, have been hidden from the General Public with massive Propaganda, Smears, Censorship Campaigns. RFK's run may be the final drop to fill the bucket to have the ability to pursue sanity.

With all the above said, perhaps RFK Jr. should run as Trump's VP??? That way, Trump would get a lot of good health advice. Oh, and Dr. Mercola would be Trump's Secretary of Health, and with Ronnie Cummins in charge of the USDA. :-)

We can always dream of a utopian society, yet the onus rests on the individual and the people....Hopes of a messiah to lead us by the hand have never materialized, promises never panned out as with 8yrs of "The Brown Jesus" and 4yrs of "Orange Man." Well organized global parasites get their way, one way or tother...The rabble is always fooled, and it takes years for em to get a clue...censored speech and media slant are too powerful to ever expect integrity in leadership...Only corruption rules....Seizing personal sovereignty is a way out of avoiding mass insanity until the "Volcano Blows!" Brandon, Bebe and Boris have all but buried Western civilization. The empire is in collapse..been lying for far too long.

Let's start with a good president who can establish an open dialogue and unite citizens to combat the big military, agri-food and pharmaceutical lobbies, as well as the mandates of the WEF that is building a globalized world to better manage its interests through a self-selected coalition of multinational corporations, governments and civil society organizations, through initiatives such as the Great Reset and the Global Redesign. There are three things the WEF needs to destroy to consolidate its power: national sovereignty, civil rights, and faith in our Creator. Only the first can be destroyed. To ensure a successful global transformation into full-blown tyranny and fascism, the First Amendment to the US Constitution has to go, according to European Commission Vice President Jourov.

At the WEF's annual meeting in Davos, Jourov announced that the United States will "soon" pass laws to criminalize "hate speech," ending free speech once and for all. Sovereignty has been experiencing gradual degradation for decades. Schwab and the WEF have become instruments to carry out the orders of the elite: a visible elite of the usual suspects, the billionaire "philanthropists", who finance and help organize disruptive social movements around the world.

The invisible corporate financial giants, plus the tech titans who literally rule the world from the shadows of their sinister cult edifice, are the ones who run the WEF, the WHO, the entire UN system, the FED, World Bank, IMF, Bank for International Settlement (BIS), as well as Washington itself, the Pentagon, NATO and Brussels - the siege of the European Union. The technocratic and transhumanist elite have ambitions for total domination of humanity, not only physical control, but also psychological control using technological and pharmacological implements to sacrifice and direct humanity.

The globalist elite wants among other actions of the 2030 Agenda: 1) Subject the people to hunger with Energy and Food Crises in the context of a New System for Energy, Climate and Nature. 2) Create bankruptcy with a high inflation, low growth, high debt economy in the context of a new system of investment, trade and infrastructure. 3) Exploit the crisis they created with social vulnerabilities in the context of a new system of work, skills and care. 4) Exploit the war in Ukraine and exploit the crises that it generated by serving the military, pharmaceutical and agri-food lobbies.

HOW RICH EUGENICISTS WEAPONIZED MEDICINE History recap reveals the 100 year path to the covid-crimes-against-humanity Early in the twentieth century, the Rockefellers and the Carnegies were deeply involved in eugenics.

The Carnegies and the Rockefellers worked with Abraham Flexnor to invade human health care. They created a medical monopoly that has persisted since then. Their deception and this monopoly resulted in profound deterioration of what was once a robust and diverse free-market human health care sector. What ensued was more than a century of deception, poison based “health care”, chronic disease, and a high-profit, recurrently-criminal, pharmacologic industry that has filled grave yards and destroyed lives.

In the 2020's this medical-hospital-industrial complex was used to create the atrocities of the covid-genocide and extensive violations of human rights globally. Here in under 10 minutes, Dr Glidden gives a great concise history lesson. This will help us remedy our situation, and not be lured into a similar trap in the future

If only the elections were not already rigged - I feel he could win! Sadly, I'd love to believe it was possible! He'd be a true leader for good. His uncle was killed for his outstanding leadership - and from what I've heard and read, it was our own government that arranged it. I shed so many tears when it happened in 1963 - I was in my first year of college watching TV at a friend's house. I'll never forget it.

Sadly, JFK is the LAST person on earth who the American establishment (either party) would allow to enter the white house. His family's party is the party of big pharma now - so there is no chance in this world. And of course the GOP is just the political nemesis of his family's dynasty. His only chance of running would be as an independent.... But then, just ask Mr Bloomberg: Is one BILLION DOLLARS enough to finance a campaign?

Gui, check out this interview with another vaccine skeptic Dr. Paul Marik "Spike-Related Diseases, Gaslighting of the Vaccine Injured, and the Suppression of Early Treatment"

www.theepochtimes.com/dr-paul-marik-spike-related-diseases-gaslighting.. . Marik mentions the only double blind vaccine study (targeting Bluetongue sheep disease) where they used a neutral saline solution in the placebo injections, as opposed to another toxic concoction, to camouflage the damage, as they normally do. The sheep who got aluminium injected acted more docile and compliant, and eventually showed signs of dementia, became lethargic, and died.

The researchers then observed "an acute phase that affects less than 0.5 % of sheep" and "a chronic phase is seen in a higher proportion of flocks, it can follow the acute phase, and it is triggered by external stimuli, mostly low temperatures. The chronic phase begins with an excitatory phase, followed by weakness, extreme cachexia, tetraplegia and death."

I was in the second grade when President Kennedy was assassinated. It was like my first death in the family. My mother mourned for weeks and months on end. She bought every book and magazine on his assassination and presidency. I did not understand so in the following years I began to read that material. The Secret Service, LBJ and Lady Bird urged Jackie to change her bloodied pink suit after her husband's brains were literally blown out in front of her. Her response was: "Let the people see what "they" have done." George Bush Sr., working for the CIA at the time, does not remember where he was when President Kennedy was assassinated.

Bobby Kennedy is assassinated in his bid for the presidency. Jackie's response to Bobby's assassination was: "My God, "they" are killing Kennedy's". Shortly after she married Aristotle Onnasis and moved to Greece to raise John and Caroline. Senator Ted Kennedy has the "accident" involving the death of a woman dashing any hopes to run for a presidential bid.

Bush Jr. was in office when JFK Jr's plane went down. Jackie Kennedy adamantly did not want JFK Jr. to get his pilot's license. He waited until after her death to get his pilot's license. Caroline Kennedy withdrew her bid for the NY Senate seat. All coincidences or bad luck? I think not. As much as I believe Bobby Kennedy Jr. would make an effective President, the US Military Industrial Complex, the CIA and the Davos Group would never allow him to live to be elected, let alone inaugurated as President of the United States of America.

A great president who firmly rejected the war: PRESIDENT JOHN F. KENNEDY: HIS LIFE AND PUBLIC ASSASSINATION BY THE CIA After going through the Bay of Pigs, Cuban Missile Crisis and many other military cliffhangers, Kennedy underwent a deep metanoia, a spiritual transformation, from Cold Warrior to peacemaker. He came to regard the generals who advised him as devaluing human life and hell-bent on launching nuclear wars. And he was well aware that his growing resistance to war had put him on a dangerous collision course with those generals and the CIA. On numerous occasions, he spoke of the possibility of a military coup d'tat against him. The night before his trip to Dallas, he told his wife, "But, Jackie, if somebody wants to shoot me from a window with a rifle, nobody can stop it, so why worry about it." [xxi] And we know that nobody did try to stop it because they had planned his execution from multiple locations to assure its success. www.globalresearch.ca/president-john-f-kennedy-life-public-assassinati.. This was the beginning of a very strange period of history that may still be ongoing. The death of JFK was followed by Oswald and Ruby. The tall, black-clad nun, who was our principal, entered our classroom and spoke in whispers to our teacher. We were informed that the president had been assassinated in Dallas. I don't think I knew what the word assassinated meant back then. Maybe not even understanding "murder" because reporting on such events was not covered in our local newspaper.

"Killing" was a neutral term and might refer to my aunt chopping off a chicken's head before serving it up for Sunday dinner. We really were that isolated and naive back then. We lived our lives and trusted our government leaders. (Some families may have fought and drank, but we did not see drug overdoses and daily murders.) After the announcement in my classroom, I did not really understand what had happened. Dallas was so far from the city limits of my then rural town that it might as well have been on Mars.

The names of big cities were just meaningless words I heard in school. It was hard to imagine a distance much farther than the 2 nearby bordering states. All I knew from the sad shocked looks on the faces of grown-ups was that something really terrible had just happened that would change our lives forever. I remember seeing JFK on a float that came thru our town for some kind of holiday parade. He was a handsome man of incredible energy. He was speaking naturally and without notes.

Many short sound bites that we now recall. He said, "If you like things the way they are, vote for my opponent. If you want to see change, vote for me." (something like that) In our strongly Catholic town, many people voted for him simply because he was the first Catholic president. In our conservative area, Catholics and "publics" did not socialize with each other. There was no animosity, but each group kept to themselves and believed they were better than the other. That was just the way it was.

In 1963 I was stationed at Quantico, VA USMC, 30 miles south of D.C. & Arlington, VA. I got out in July '63 and moved to Arlington. In November I walked to the Arlington cemetery and stood by the gate as the long line of JFK's funeral passed by. Such a sad day for me and the world.

God bless RFK, Jr. I might vote for him even though I'm a Republican. The only thing that gives me pause is the pro-abortion plank in his platform. How can he be a defender of children and yet ignore the most vulnerable of them?

Both political sides want more wars which kills a lot of innocent people including children and babies. Trump vetoed Stop the War in Yemen Act which has killed how many? Kennedy gives parents the knowledge to do what's best for them when it comes to the jobs but he can't make them. No one makes them have an abortion, either. I am personally against abortion EXCEPT when the life of the mother is at stake but too many go to the extreme being against abortion where doctors have to worry if they will be put in jail if they save the life of a mother. I am NOT a Biden or Trump supporter but I would vote for Kennedy, Jr. I don't believe it's ignoring abortion just because the mother is given the right to choose.

While I 100% respect what RFK Jr has done for children's well-being, his research and ongoing work regarding COVID misrepresentations, I am not sure that this country can take any more Democratic rule. I have followed his work closely, especially over the last three years and he has truly exposed lies and corruption regarding people's health and choices in that respect, however, it has never been more clear that Democratic values and alignments are what America needs to move away from before we completely implode.

Democratic Rule? Republican Rule? When so many on both sides want more wars. Have the same Corporate donors they serve I don't see much difference on some issues. Kennedy, Jr. would be moving away from the Democratic rule as far as the rule they have had with the vaccines and mandates. As a Independent there are issues on both sides some I agree with some I disagree with but I put our freedoms at the top of my list and I do believe Kennedy, Jr. would do that going by his record.

Thanks dr. Mercola for this informative article about the collapse of the USA by corporate corruption. Again we see banks and infrastructure collapsing. The war in Ukraine promotes that collapse also. Blowing up the Nord Stream gas pipeline didn't hurt Russia much, but it did hurt the economies of Europe, because no more cheap gas. So it is an attack on US allies in Europe, which also backfires to the US in several ways. Now China (and India) gets much more gas and oil with 25% discount from Russia so they can better compete with the US and EU.

During a recent visit of president Xi to Russia an agreement was made to double the gas and oil pipelines to China, and more access to other Russian natural resources and China can pay with their own currency the yuan, replacing dollars. Also a defense pact was signed. So pushing for more war in Ukraine, instead of peace-talks, the Biden administration has made China position much, much stronger, and the EU and US weaker. Also Saudi Arabia has turned their back to the USA recently, getting closer to China, Syria and Iran.

RFK jr. is a great guy, but it is an illusion to think that being president he can change the corrupt system. His father couldn't, His uncle JFK couldn't, Donald Trump couldn't drain the swamp, because the dark swamp fights back in dirty ways. The whole US political system and government agencies are corrupt. I think RFK jr. can do more for the USA writing books and exposing the criminals, because as president he would not have time doing that.

Also he doesn't look healthy to me, his red face and white hair is an indication of oxidation/inflammation. His hoarse voice is also a problem to do many speeches and debates. Kennedy suffers from spasmodic dysphonia, a neurological disorder that affects the muscles in the voice box. The muscles inside the folds move involuntarily and spasm, interfering with the vibrations. As a result, the voice sounds strained and shaky, distracting from his important messages.

FNazar

In each country, state or county, we urgently need norms (a presidential decree, federal or state laws, or council norms), which would state, under severe penalty for non-compliance (even to their heirs if that is known after they died), that anyone should disclose if they belong to a secret society, especially those with the requirement to obey secret orders, such as all lodges and freemasonic and luciferian/satanic type of societies. Penalties should be even more severe with all stake holders involved in or with all the 3 branches of government (even suppliers and candidates), finance (especially, banks, funds, listed corporations) and especially, the armed forces, even the police (that's the reason they' didn't protect the country against blatant constitutional violations).

If this law passes, you'd learn that all listed financial and corporate boards are controlled by freemasons, all the Democrats and especially all the Republicans voting for gender ideology were freemasons, all politicians members of the CFR or attending Sun Valley are freemasons, most of the Supreme Court and lesser courts, all dominant media CEOs are freemasons. Only then people will ask for change, for example, a law barring them from all such positions.

There's no deep state just freemasonry. There are no conspiracies, just freemason plots. There's no democracy with freemasonry, only conspiracy. There's no 2030 globalism without freemasonry. Freemasonry is the enemy of the people. Sooner or later, by 2030 freedom communities/puches will be prosecuted as infection pockets to be sent to FEMA concentration camps. So, there's no way out of this dystopian future except full involvement in politics:

In addition to your good points, the thing about him I find most disturbing is his conviction that he can reform agencies that are inherently evil in concept and that should be abolished. He has good intentions, but his belief that he can be a benevolent tyrant, in the unlikely event of his political victory, guarantees disaster. Giving up his good work to enter into politics would be tragic.

We must consider the big lobbies. The lobbies of Big Capital run the world, especially the military, agri-food and pharmaceutical sectors. The corruption of big pharma exposed by whistleblowers in recent years. The endless chain of Big Pharma lawsuits revealing fraud, deception and cover-ups. In 1973, Pfizer and other pharmaceutical companies were richer than most countries in the world and spent much of their astronomical profits on lobbying than any other industry in the United States, with preference given to contributions to the highest-ranking legislators in Congress, you know, who they have to keep in their corner because they have the power to write health care laws. To truly understand the power of Big Pharma, we must understand how the American Legislative Exchange Council (ALEC) works.

ALEC, which was founded in 1973 by conservative activists working on Ronald Reagan's campaign, is a top-secret pay-for-share operation in which corporate lobbyists, including the pharmaceutical industry, hold confidential meetings on "model" bills. A large portion of these bills eventually pass and become law. Over the years, ALEC has promoted many other pro-pharmaceutical bills that would: weaken FDA oversight of new drugs and therapies, limit FDA authority over drug advertising, and oppose regulations on financial incentives for physicians to prescribe specific drugs. childrenshealthdefense.org/defender/system-rigged-big-pharma-political.. (2) important Kim Iverson interviews were posted last week that tell a similar story of what may be ahead for the US and for all those across the ponds. Listen closely as the current fiat-money based economic system is in a slow death spiral, my guess is Martin Armstrong's Socrates system may have the eventual fall dated to 2032 Not a pretty picture for bankers or world economies; then again, opportunities for major governance change may occur that we cannot yet see from here.

Here's Kim Iverson's recent interview with Ed Dowd to start off: "Slow Collapse, Controlled Implosion - It's Gonna Be Whack-a-Mole All the Way Down Ed Dowd" - -

The office of Pres. has become a dangerous theater of the absurd I think. The person who wins the Pres. spot will be selected as a pawn and put into office despite votes, let's face it. Trump, a towering patriot and freedom fighter is of course going to try again, and Robert, beloved, hugely experienced, a brave Kennedy, may. He is also dealing (despite a vac- sourced voice defect) ...with the outrageous and massively grievous takeover and destruction of ...America, for starters. We battle against the betrayal of the people of the world actually.

Our opponent? ... "those who have sold their souls." Pretty accurate altho dispelled these days for use of a "religious," word,... I dare suggest that it is a spiritual answer and not political. In my understanding, there is a war against and suppression of basic goodness, freedom and respect for life; sound like communism to you? In short. But, the Heart and courage of the people if awakened will turn the tide. Because a cosmic war is going on. Not just the "ho hum" squabble of men over men, which is old as dust.

It's over. Scientists even say we are on an extinction cycle. I have not seen that announcement brought up again for a long time, though the suppressed evidence around our wonderful home is neon,... which indicates that those scientists told the Truth. It is in my and many millions of other's view, that above and beyond the merry-go- round of waffle and argument and lies, there is a spiritual Truth that will change things. If not, we are toast.

The whole idea is ridiculous. He's liberal and can only run as a democrat. Democrats thoroughly dislike decent human beings. Tulsi and Yang, politics aside, are decent people. They never broke out of single digits. Psychopathic monsters like Biden, Warren, and Sanders are their heroes. So from a practical standpoint it's a nonstarter. Furthermore, while I'm a big RFK fan, that's because of his work with CHD. He's a liberal. Is he anti-2nd amendment? Is he pro-reparations? Does he think Jan-6 trespassers should rot in jail while BLM and Antifa members loot and burn with impunity? Is he for student loan forgiveness? Is he for bailing out basically anyone with political clout who asks for it? He's great on the jabs. But I don't think so good on a lot else.

Putting politics aside Senator Sanders is a decent person, too! When it comes to politics he's not the worst, either. I don't know of any politician that has done as much for people as he has whether you agree with him on issues or not. Sanders for decades have fought for people's rights, protesting for Civil rights, protesting with union workers, protesting with Native Americans, taking people to Canada to get meds that cost less, going up against Obama's proposed Social Security cuts by helping start a movement against that, voting against The Patriot Act that took some of our freedoms away while some Republicans along with Dems voted for it.

Voting against more Military Budget Increases than most if not all of the rest of them. I could go on. I don't agree with Sanders on everything!! I know he doesn't have the best record on wars but his record on that is better than most Dems or Republicans. I understand criticizing him on something specific you disagree with but he is nothing like Biden or Warren. He said and did the same as Tulsi and Yang did when he supported the Dem nominee.

As for the wealth he got in his later years, at least it didn't come from Big Pharma or Wall Street and he still has less than most politicians. Whether someone agrees with him on issues or not most would not go up against half of what he has for half the time he has. I am not a Yang, Tulsi, Biden, Warren, Trump supporter. I could name more LOL But I would vote for Kennedy, Jr. because at the top of my list when it comes to issues are our freedoms and Kennedy, Jr. has proven he fights for them.

Wow ! I didn't see that one coming. We yearn for someone with integrity in the White House and RFK would be that guy. He says, " I know how to change things better than any politician who's run in the last 20 years". Huh? Who might he be thinking of better or equally qualified to affect change than himself since the guy who met a premature end in 1963 and the other who a similar fate in May 1968? On the one hand he seems inexhaustible but I agree that he doesn't look healthy. EMF weaponry is so sophisticated now that he could be murdered without anyone knowing that happened.

Such an event would deal America a severe blow. We would either be emotionally devastated to incapacitation or all hell would break loose. IMO, our culture continues to live in Hollywood fantasies that a hero will save us. If we citizens don't take responsibility and action at the local and county levels of government then there's nothing RFK can do that couldn't be reversed in short order the day he exited the presidency, unless We The People affect change locally.

* Corruption * Corruption * Corruption. * If a Moses can lead us out of the Wilderness -(Corruption,)- another Moses can lead us back into the Wilderness. Part of this Corruption is the 1% have carefully crafted a foundation to suit their whims and desires by convincing the general public "We" have a two-party winner take all system. Just who are "We?" This construct carefully hides there is a United Party or Front behind it all so no matter who "win's" as far as appearances go on the surface, the general direction is all traffic flows down their "two roads" leading to the same destination.

The largest possible plus in Kennedy running is if he isn't screwed over in the primary's is the possibility to expose all the details in the above interview and more about the degree and the scope of Corruption to the wider public. Exposing a potential path to dismantle the Corruption. To possibly have more freedom and protection in the Primary Process to speak out and be heard. More important than pinning on all hopes on one man, is the needed and necessary coalescence of thousands if not tens of thousands of those people with the ability to address this corruption in cooperation and coordinated efforts.

In a way, we, the 99% have to all be leaders doing our part when and where we can. Most of what he discussed in the interview is not in sight for hardly anyone unless they live next door or had the effects of one of these disasters totally destroy their lives. Others it has been a slow creep over decades as they have tried to stay above water. Now it seems there is the possibility the other Dam is breaking. The one holding back, the facade protecting the 1%'s from all the truth of what they have been doing from the public.

Very well developed, Just, as long as we have the lobbies and the globalist elite govern the world there will be corruption, the crisis will devastate the economies and poverty will grow while the 1% increase their wealth. The rules of the game have not changed much, in fact they have been strengthened: influence so that the information is the one that adjusts to the pharmaceutical lobby and dictate laws that benefit those in power. For this reason, any interest group yearns to hire those who get "results". People who spend their lives seeking political rent represent a huge opportunity cost. The most important lobbies correspond to influential economic sectors.

The big technology companies and the media contribute and drive the advancement of society, with huge amounts of money to invest and handling billions of pieces of data. They cause tremendous damage with their interventions, which most of the time sabotage the market and the competition. The lobbies try to influence politicians to change the laws in their favor, and many times their work consists not so much in pressing directly, but in generating a state of opinion in society that causes the political authorities to be prone to what they they look for. In short, the function of these lobbies, their business, is to remove those below to give the money to those above.

It is clear that the way corporations influence our US government is having a terrible effect on the health of humanity. We have to fight the disaster, the situation has never been so serious and the future of all of us is threatened. People must defend nature and the fruits on which it feeds must be put at their service. The man of spirit feels permanent indignation against injustice and directs his love towards the earth and his fellow men, especially towards his children. In the human community it is necessary to create a home that arises from his participation in the joys and sufferings of his fellow men.

Guillermou

Initiatives should be sought for the participation of community-based organizations, the support of true health science, biodynamic agriculture and environmental conservation, so that together concrete, inclusive and sustainable solutions are achieved to fight against great threat from tyrants who want to dominate bodies and minds. All of this will counter a growing danger of mass civil unrest, famines, pandemics, and war. Humanity may fall prey to seeing revolutions overthrow entire economies and currencies. The globalist elite have taken over governments whose failure can self-destruct them. The house of cards collapses. A house of cards marked by medical and political corruption.

RFK Jr. has fought against the fake pandemic, the bioweapon/vaccines, and censorship, but he is pro green energy, another hoax. Trillions of dollars are spent to sell the public on solar, wind and biomass. Watch Planet of the Humans (www.youtube.com/watch) which debunks truth to green energy. Oil and coal are necessary to do anything green. Mr. Kennedy has several appearances in the movie. He is quoted saying "Obama's energy policies are without a doubt better for the country." The Solyndra scandal cost at least a half-billion public dollars (Obama). When asked what he thought about burning trees for energy (Biomass), his comment "you don't have to pick a favorite." If you burned all the trees in America, you would only get heat for a year.

Then what do you do? Solar panels last up to 10 years, making them unfeasible. Follow the money. Environmentalism is a money maker for the elite. Just look at Al Gore. When Global Warming turns into Climate Change, to follow the actual climate scientists who say the world is getting colder, you can no longer speak about "global warming." The narrative has to change. Watch Climate Hustle 2: Rise of the Climate Monarchy. Green energy is a hoax. It is not sustainable. It is about the elite making money. People are not willing to do without.

I was taught not to waste natural resources - water, electricity, heat. I rented a house to college students, and when I told them that their electricity bill was twice as expensive as my house that was twice as big, the response "ya, but it feels so good not to be told what to do." They didn't care they were wasting their parents money. Entitled, selfish and ignorant? When people are unwilling to go without - blow dryer, iron, washer/dryer, cooking less (stove), traveling less (airplane), etc. to save the planet, it's people, not CO2 that is the problem. In the name of green energy, they will destroy the planet. RFK won't get my vote, unless he fights the climate game too.

If there is any good thing that has come from the covid fiasco, it is the awaking of the American people to the complete corruption of our government and its agencies. "The love of money is the root of all kinds of evil." If we are to survive this mess, it will take true leadership and the God given values that our country was founded upon. Short of this we are destined for failure. "If God is for us who can stand against us?"

It will take the grace and mercy of God and the TRUE gospel, not the watered down version that is preached today in all the apostate churches. Only God can change the hearts of men. God is sovereign and real Christians trust and obey Him.

Good Day Dr Mercola, > Is he the only man who can root out the deep corruption, expose the lies and turn our country around? If he is we are in even deeper trouble than I considered. I met Bobby Kennedy in person at Soil not Oil. Talked with him for about 15 minuets. He is authentic and I would love for him to be president and for vice president have Tulsi Gabbard. Still if he is the only one who can do this (clean the septic tank) then he will get lead poisoning and or other disabling means to take him out of the game. We need a large number of Bobby Kennedy's. My wife and I along with others in our region of California fought hard to pass Prob 37 which only asked that foods containing GMOs are labeled so folks buy food can choose what they want to purchase.

Well you can't fight Corporate Food or Agribusiness. We lost by a few percentage points. That is just one example there are many others. Still I haven't seen the guts and health needed to support Bobby in the population at large. Remember Gandhi. Assassinated, and he was backed by people who love him, a mass of people. Dr. Salvador Allende of Chile assassinated by the CIA, and sadly many many more. No one is going to jail. One of the folks that captures the mood of the times is Lie Cheat and Steal Pompeo. If he is elected as a republican president, he won't be killed.

He is part of the team that has a strangle hold on the US. We are being attacked by 80,000+ chemicals each day in our oceans, seas, air, water, soil and food. Bobby has been diligent to fight. But you can't win as long as the "precautionary principal" is scuttled so that corporate profit and greed are fed. Bobby in my small opinion should remain at the helm of CHD. He can continue to do more good there than turned into a memory. JFK and RFK jr are memories as is Martin Luther King and so many others. Has their deaths changed anything? We need boots on the ground not in the White House. peace,
william

As a private company, Facebook has the right to censor anyone it wants, for any reason - I have heard that said many times so exactly why are bakers and others required to accommodate people they don't want to do business with because of religious principles? - it Facebook offers its services to the public then what is the difference - it's discrimination any way you look at it

It is important to make the point that the original idea for the creation of the BBC, was to allow the presentation to the people, who pay to receive all such broadcasts, radio and TV; accurate information, including the news. Today, the present senior management of the BBC has clearly walked away from any recognition of the need to broadcast accurate reports; instead, they have become a classic religious sect; delivering anything but the truth, and not just in health matters. Others have already published books on the subject, all I can say is, from my viewpoint, the present management structure of the BBC must now be broken up and be re-built from the ground up. Time is of the essence.

We need intelligent and courageous patriots in government like never before. Therefore, I am heartened to think that Bobby Kennedy, Jr. Is seriously considering running. The United States has never had a perfect man or woman in office. But I am surprised to read the many comments by naysayers here. Wow! The world is burning down around us and you finally get someone with even a modicum of patriotic spirit and you fall all over yourselves finding something to criticize. Go back to reading the Three Bears, you Goldilocks-ers!

You are so right. Kennedy, Jr. has a lot of guts to go up against what he has for years now knowing the risks! I am sure I won't agree with him on everything but at the top of our priorities especially after the last 2 or 3 years should be our freedoms. While there are other issues that are important to me without having our freedoms none of the rest matters. He has proven he will fight for our freedoms. You are right, none are perfect. I would really be surprised if there are people that agree with any candidate or politician on everything.

Never get rid of it. It was originally done to let children go to school and come out of school, in the light, summer and winter. Prevented car accidents etc as children are visible. That has not changed.

Agreed, "McGeehee", as I have been writing to my NM State congress people, and just recently Gov. For the sake of our economy, national security, traveling, as well as common sense sanity; instead of bickering over a one hour difference between ST VS DST, we should start over from "scratch", time-wise, and adapt to 2400 Coordinated Universal Time. (UTC or military time) Then all this senseless arguing and bickering over time differences would become moot as this following link explains: en.wikipedia.org/.../Coordinated_Universal_Time I know, I know, some of you forum Mercolans would probably look at this as NWO Time...sigh! :-)

Those are great ideas! Here's one even more urgent: In each country, state or county, we urgently need norms (a presidential decree, federal or state laws, or council norms), which would state, under severe penalty for non-compliance (even to their heirs if that is known after they died), that anyone should disclose if they belong to a secret society, especially those with the requirement to obey secret orders, such as all lodges and freemasonic and luciferian/satanic type of societies. Penalties should be even more severe with all stake holders involved in or with all the 3 branches of government (even suppliers and candidates), finance (especially, banks, funds, listed corporations) and especially, the armed forces, even the police (that's the reason they' didn't protect the country against blatant constitutional violations).

If this law passes, you'd learn that all listed financial and corporate boards are controlled by freemasons, all the Democrats and especially all the Republicans voting for gender ideology were freemasons, all politicians members of the CFR or attending Sun Valley are freemasons, most of the Supreme Court and lesser courts, all dominant media CEOs are freemasons.

Only then people will ask for change, for example, a law barring them from all such positions. There's no deep state just freemasonry. There are no conspiracies, just freemason plots. There's no democracy with freemasonry, only conspiracy. There's no 2030 globalism without freemasonry. Freemasonry is the enemy of the people. Sooner or later, by 2030 freedom communities will be prosecuted as infection pockets to be sent to FEMA concentration camps. So, there's no way out of this dystopian future except full involvement in politics: scientificprogress.substack.com/.../the-plan-revealed

We sure are living in extraordinary times! I am trying to get my head around the fact that Bobby has solid strategies to bring about change and just might succeed in doing so! It feels a bit like a Hollywood movie script but I am behind him all the way. I don't live in the US but this affects us all. I think one of the stumbling blocks in the way of his election is the issue of climate change and people's poor understanding of it. Unfortunately many in the health freedom movement have thrown the baby out with the bathwater. The fact of the matter is that there is a vast difference between environmentalism and anthropogenic effects on the planet as understood by someone like JM or Ronnie Cummins and "Climate Change" as framed by the globalists to suit their agenda. It is essential that Bobby gives a clear explanation of his position from the get-go. Otherwise many will balk at voting for him because he "believes in climate change"

Posted On 03/26/2023

Did it occur to you that the Climate Change "global warming" narrative is in fact a manufactured crisis by Deep State operatives clamoring for World Control ushered in by Covid hysteria? If not it should. Kennedy should stay in his lane. Why is it you believe that Bobby understands this issue just because he was on the right side of the Safe and Effective narrative? He also falsely believed it was Mercury that cause the autistic spectral disorders when the adjuvant Aluminum in this context was 1000x worse. As mentioned he should stay in his lane...

A tsunami is often a shift on the floor of the ocean which creates a wave that builds momentum. A shift in human thinking has already occurred due to the government handling of COVID which needs to be given more water. The shift has led people to question the information given by officials and media and to compare it to reality. The shift must now move across the water to see who else will be a part of the thinking. This is how conversion will occur. To test what people now believe to be so and this will include all hierarchies involved so that we can see what they hold on to stubbornly, if they will continue to lie to self or to those that they care for.

The question each person must ask is "what do I now believe after I have learnt from seeing with my own eyes." To have a belief and then learn that it is not so and still maintain the belief is to stand on the shoreline and hope the tsunami passes you by but it will not and its momentum will determine your fate. The tsunami occurs in people's minds by challenging them as to what they now believe after witnessing and learning from COVID. This challenge causes people to not sit on the fence line, to make a decision given the evidence and to decide the direction that must be taken.

Kennedy would be a great president if our only government induced problem were vaccines for children (and adults). Researchers are finding out that all the vaccines of the past, for children (or adults) were harmful. The problem with Kennedy as President is that vaccines are but one single issue. Being against the New World Order (NWO) globalist criminal cartel on one issue isn't enough. Kennedy's posted comment a few days ago proves that, either knowingly or not, he embraces the catastrophic, man induced, global weather change, and fossil fuel ("carbon"/CO2) causation as true. It is the other big fraud that the NWO cartel is using to take control of world government. Anyone who accepts any of the many NWO frauds should not become POTUS.

If you have to vote for a Democrat candidate for president in 2024, you could do a lot worse than Robt Kennedy, Jr. At least, he is an honest, well-educated, scholar-doer who knows how to confront agency capture, corruption and government lying, of which there is more enough in Washington, D.C., especially among the elites of his party. Kennedy joining the race for the Democratic nomination would expose a lot of the dishonesty and corruption that the mainstream media and U.S. intel agencies have been suppressing or censoring for years. Win or lose, the American public would benefit from RFK, Jr.

in the race. My personal preference is that RFK, Jr. be appointed to a high executive position in a new Republican administration headed by Donald Trump, Rick DeSantis or Mike Pompeo, all proven leaders with a track record of improving conditions for Americans and without the baggage of the miserably failed Biden administration and his corrupt Democrat allies in Congress. RFK Jr. would be most effective in leading and cleaning up several of the major federal agencies, for example, HHS, DOJ, FBI, CIA, DOD, DOA, EPA and FCC.

And Dear Kennedy, please do not run for president...you do more good the way you work now, informing people, so that those who care can also take some responsibility in undoing all the bought public agencies, you make it possible with the wide distribution of your findings to enlighten those working within these industries and hopefully makes them aware of that in which they are involved, and helps them make individual efforts to manifest necessary changes to create a better world for us all. RFK has already been exercising his mental muscles as he has already experienced persecution for his words and his writings and he is still considering a run for the presidency. Don't take his condition for granted. He is more than fit for the job and he is capable of doing it well. I would vote for him and I'm a registered Republican.

Would make an great cabinet member directing and leading in various ways, but not so sure about the role of President. I remember reading some place about the "almost" appointment of Kennedy in some cabinet post with Trump, but then Pfizer swooped in and paid to well not allowing IT to happen with one of their minions appointed instead...was it Gottlieb?

10 out of 10 points in favor of Robert Kennedy for president. As yet, there's only one reason that could make him un-eligible: Being eligible for chancellor in Germany. But if laws can be adapted: running for both countries would even be better ..! Good luck (from Germany, unfortunately)!!!!!!!!!!!!!!

My first thought when I heard he was making a bid to run for President I thought of his father.. then his uncle... both shot to death. Where I was there was an outcry when his father was killed. I can see now more why that happened. Just kicking down the door of that orphanage where Fauci abused/killed some children by using them as living experiments for drugs, vaccines included. Pretty ugly stuff. Good on Bobby Kennedy Sr.! Now his son, another truth teller, is sticking his neck out by even voicing the possibility of running for President. How is it so called Christians lie so easily? And vilify truth. Like I guess they'd kill Jesus if he were alive today. No morals, no vote. God knows it all, so when our lives are over and we meet God face to face, what could these people possibly say to excuse their actions? God knows them to the cellular level. They cannot lie to the Holy Creator of Life. Truth will prevail, the Spirit of God IS alive and seeking truth tellers.

If you knew someone wanted to change you if you are proud whether a person or organization you will resist it even if the change was for the good. Women have a way of changing men without men knowing and then one day they wake up and go "What the heck just happened." Specifics generate resistance but broad friendly terms everybody likes.

Gigantic companies do NOT have the right to censor people if they are "privately owned" any more than they have the right to kill their employees if they feel like. And they will face lawsuits about killing their employees when enuf of those die from mandated "vaccines." Amazon had 80% of the WORLD book trade some years ago. They are a PUBLIC square. So are You Tube, Twitter, Facebook, Instagram. No government has as much power as these companies. We figured out that we could not allow government to do absolutely anything just because they are in a leadership role. And that principle is even stronger for public squares that are even more powerful.

Until the concept of LOBBYING is recognized as what it truthfully is A BRIBE, very few honest and well intentioned people don't stand a chance to stand up to the mega dollars put out as lobby money that is used to bribe the Congressional "money loving whores", who have a good enough gift of gab to woo constituents into continuously voting them into office. And the game rolls on.

Kennedy, Jr has said he is not anti vax! But he is anti forcing them and that should be what we all want. He is against digital currency and for our freedom of speech but because he's not perfect like everyone wants they would risk us losing more of our freedoms SMH. Dr. Ron Paul said about him, "He's developed a name because he was willing to take on the Pharmaceutical Industries and that's a big deal" end of quote and yes that is a REALLY BIG DEAL. He is pro vaccine SAFETY! Trump sold out to Pfizer after he got one MILLION dollars from them. No one else is going to fight for us that is running like Kennedy, Jr. will! I don't care how many jabs people get as long as they are not forced!

He is the only one running that has a long record of trying to protect our freedoms so he is the only one I will vote for! There are people that have died for our freedoms. I hope nothing happens to him!! But he has the guts to go up against them so the least I can do is vote for him. Trump sold out to Pfizer after they gave him one MILLION dollars so I am sure not voting for Trump. Not to mention his veto of the stop the war in Yemen act that has killed how many innocent people?

Posted On 04/09/2023

I hope I don't read any negative comments today about how Dr. Mercola shouldn't be talking about who he supports for president. Our freedoms are at stake. I mean we had already lost some but now ALL of our freedoms are at stake so how can you not think Dr. Mercola should support someone that is willing to go up against those that are taking them away? Robert Kennedy, Jr. has the record for many years to PROVE he walks the walk so please don't join in with the major news media and smear him. If you are actually FOR our freedoms to choose what goes in our bodies, for our freedom of speech, for being against Digital Currency, for being against the WEF, and I could go on and on then if you don't vote for Kennedy, Jr. and we end up losing those freedoms IMO you will be partly the cause. I am not a Biden or Trump supporter. I am not a Dem but Kennedy, Jr. has earned my vote! I don't vote for who has a R or a D beside their name. I vote for the person. I don't get my opinions from the news but rather from their record!

Kennedy, Jr. has lost business deals and political friends for him going up against the establishment. Dr. Ron Paul said about Kennedy, Jr., "He's developed a name because he was willing to take on the Pharmaceutical Industries and that's a big deal." End of quote. YES, it's a really BIG DEAL to have someone fighting for our freedoms. If you don't agree with him on everything (there's never been a candidate I agreed with on everything) if we lose our freedom of speech, if we lose our freedom to choose what goes in our bodies, if we are forced to use a digital currency to buy anything we need, tell me how it will matter what other issues you are for/against? If you don't know Trump was going to get Kennedy, Jr. on some kind of Vaccine safety committee UNTIL Pfizer gave Trump one MILLION dollars and then instead of Kennedy, Jr. Trump got two Pfizer LOBBYISTS instead. Trump also vetoed the stop the war in Yemen Act so he is not as anti war as you might think!

I agree with all you said about Kennedy v Trump, and then you imply that the solution to many of our problems is to V*O*T*E for the better candidate. That is politician worship. Let George do it, George being whoever is elected. How's THAT working out for us?

Posted On 04/09/2023

Esther M. Cook I tried to make sense of what you are saying. After thinking more about what you wrote I came back and deleted my comment to try again LOL And after thinking about it IMO political worship is when you do everything the president or politician says EVEN WHEN you know it's harmful. There are other problems we have in this country that I don't know if Kennedy, Jr. will solve or not but what I am saying is if we don't have our freedoms to choose what goes in our body, freedom of speech, freedom to spend our money the way we want, then the other issues are not important to me without ALSO having those freedoms.

I am talking about freedom not worship! I know it's late at night so maybe I should try again tomorrow LOL But I have really tried to figure out what you are trying to say if it's not what I am responding to in this comment. Of course people encourage others to vote for the person that they think will solve at least the issues that are the most important so I don't think it's political worship to do that. Whatever LOL

"As a private company, Facebook has the right to censor anyone it wants, for any reason. However, they cannot do it at the behest of the government, and we now have ample evidence that this is precisely what they've been doing" This is not correct. In the first case, a private company can't discriminate against a protected class (e.g., religion, race, etc.). In the second case, a private company can only discriminate against unprotected classes (e.g., political party) if it is clearly stated that they will (e.g., "no shirt no shoe no service" sign on the door). Facebook must clearly list its discrimination in its terms of service, but they don't. So by law, they can not discriminate.

"Patriotism means a faithfulness to the United States Constitution above all. Above all. And if you don't know that, you shouldn't be in government." This sounds all well and good and I know he has been fighting the good fight on many fronts, but if he doesn't take a page from the true Constitutionalist Ron Paul, who had to be gotten out of the way in 2012 - sabotaged - then he will just be another politician full of promises, maybe secretly sponsored and owing the banker's globalist cabal!

Also, why keep all the unconstitutional alphabet agencies to begin with (FED, CIA, FBI, IRS, FDA, CDC, NEA, etc.) as NO American can vote for anyone who runs them nor can we vote on what they do, so we have absolutely NO power over what they illegally MANDATE for us; Americans forget we were a nation of the SELF-GOVERNED!!! Also, get rid of the UN and make the United States INDEPENDANT once again and friendly to all, not the Globalist's INTERDEPENDANT (chained to all the other countries) so that if they all go down, so do we!

As for this: "We have a child health crisis — 54% of our children have chronic disease and we don't know what's causing it." I DO and many others do too.....ersatz food, vaccinations and medications! And this: "Seventy-two doses of 16 vaccines are now recommended for American children by the Centers for Disease Control and Prevention. States have the right to mandate them as they see fit, and in California and New York, all 16 vaccines are mandated.

But whether they're mandated or not, there's tremendous pressure to take them all." Freedom-loving Americans do NOT go along with this, whether it's the Federal Government, the States, the Schools, Churches.....NO person or agency has ANY authority to tyrannically force this! There are so many Constitutional issues that need to be adhered to and restored, that if he is willing to fight the good fight, be brave enough to buck the cabal, restoring our freedoms and our once-great America, I'll stand with him!

Two Kennedys assassinated, but how many had women killed? RFKjr killed his ex-wife in my opinion, which would make him easily controlled if in the White House. Not to totally blame him as his mother was an absolute bat by what I've read I wonder why he got the idea to perform all that activity on women and it did occur to me his tutor was a gay man, but maybe he was not to blame and the only saving grace in a bizarre family dynamic.

The Kennedy family has given a lot to this country. RFK JR has already made a great sacrifice and assumed a great risk by standing up to the cabal. Name me another "leader" who has done so? I am an independent-conservative who is usually left with the option of voting Republican. Has Mr. 'Warp Speed' Trump apologized for his "warp speed" program 2 years after the evidence is quite revealing that the Vax is not "Safe and Effective"? DeSantis has stood up to the cabal in Florida but this is not the same as naming names and detailing the crimes of these people, is it? I agree with every post on here saying if you want to see RFK Jr dead, let him run for president. He is not the one who will finish the job that is already started. Why do you think every area of society, media, government, medicine, academia, finance and business is against DJT? Do you think a man who was beloved by Hellywood and most sectors of society until he ran for and succeeded in getting the presidency is so violently hated for no reason other than he ran as a republican? He was specifically chosen to do the job of clean out. Yes, he was innocent, too trusting of many of those who "embraced" him and totally surrounded by many of the very people that needed to be dealt with.

But he's gotten a lot smarter and is in a position now to bring down the enemies of all mankind. And he is not working alone. RFK Jr would find out just how entrenched his enemies are if he went in blindly as his father and uncle did. There will be time for him in the near future. In the meantime, stop buying into the propaganda coming from every sector of society and educate yourself to what has already been accomplished and what is an ongoing work. This battle we are in is bigger than America. It involves the whole world. "They" almost had us. We were the last country to be dealt with. But no more. It may look bad before it's over, but "they" are not going to win.

If Robert F Kennedy Jr had been in the White House in 2020 thousands of people would still be alive today. The very people who are still pushing the no-liability, profiteering, experimental covid-19 vaccines are the same people (Gates/Fauci?Ashish/Big Pharma &tc) deliberately blocking and censoring the truth about early-treatment, life-saving protocols. So they are not only murdering people with the jab - but also by denying life-saving early-treatment: twitter.com/.../1640054492937834497

No way Mr. Kennedy or anyone like him will ever get elected. People do not vote for intelligent people who tell the truth. Look around, from the smallest town council all the way to the presidency, it is horrifying to see who gets elected. I have attended so many local primaries in my state over the past 3 decades, and it always gave me hope to see some of the people in the primaries: good people, intelligent people, honest people...I would be deeply moved and humbled that these people were willing to destroy their lives to do something good for others. Guess what? Those people never win. Never.

I believe that this country is getting ready for the truth that Kennedy puts forth... and the way he puts it forth... which has deep roots in service to "we the people"... and proven courage... served by his high intelligence. And, with each day that passes, I believe more people become ready for the truth he puts forth. Sometimes, it is necessary for human consciousness to struggle in order to expand... and that time is what we have been living through for several years now. Kennedy is a rare example of expanded consciousness working in right relationship with both his mind and his heart. He speaks not just from his obviously high intelligence, but also from his heart.

How very rare that is. How very powerful that is... as we shall see. Too many so called leaders are unfamiliar with truth and the power of the fire, the passion. within the human heart to spread "truth". Those who are blessed with strong passions are carriers of fire. And, that fire cannot (and should not) be put out by reasoning, thinking or high intelligence. That fire is meant to lead... and when it does... intelligence willingly serves it. This is what we see and feel when Kennedy puts forth his truth. I could listen to Kennedy's words all day long... and even if they need to be delivered by someone other than himself, due to his voice injury... I would still listen.

I don't think now is the time for him to be President when we have a Communist takeover underway that needs to be dealt with first. But much good will come out of his Run because the "normies" who believe everything on CNN will start to realize that the American public has been bamboozled as to the necessity and the safety of vaccines and realize also the BigPharma collusion and hence conflict of interest with the US health agencies like the CDC and NIH.

Rainbow Coalition for peace, freedom and decency! 100% focus should be to undermine both parties giant corruption and naughtiness, so a new party must be formed based on Christian values, honesty and character! Level of left or right or green, nor the tax-level, nor the level of welfare, is the issue, but peace, national independence, freedom and decency! My suggestion, if implemented, has good potential to root out the naughtiness and corruption from the USA. Rainbow Coalition for peace, freedom and decency. Obviously, Trump and Biden could apply to be part of it, even if their chances to be accepted would be very slim... However, there are people who have potential, like Tulsi Gabbard and Rand Paul, who, in my opinion. They should be helping Mr Kennedy (and themselves) into office! I am sure Mr Kennedy would not mind any one of them taking the lead, and that he himself would be most happy to support their common cause, against the corruption and the naughtiness.

Donald John Trump is our legitimate president and will remain so for at least another 4 years. I am extremely disappointed, Dr. Mercola, that you would even remotely suggest another candidate for President, after all the slings and arrows he has taken for our country and the world. Kennedy is NOT POTUS caliber. Sorry, but he's no JFK. Trump is. DJT is the only way. Kennedy can certainly contribute in a meaningful way in DJTs administration, but if he had the ability to drain the swamp like Trump has (amd will continue to do so), he would have made far more headway on the vaccine issue, just to name a single accomplishment. Kennedy is only back in the limelight because of the plandemic. That's it. DJT is, and will be, America's next President. Period.

He has the same condition that Katharine Hepburn had, spasmodic dysphonia. It's a neurological condition that affects the voice box. I have prayed for 2+ years, that God would restore his voice. A former coworker just couldn't listen to him, due to his voice. I kept telling her, but you need to hear what he's saying! For what good it will do, I'll keep praying for restoration of his voice, as there's no doubt it would help in this run for office, & thereafter, should he win. I'm not a democrat (I was back before the party was hijacked), but I do love Bobby Kennedy & what he stands for. I think Dr. M is correct, that if DeSantis runs, & Trump as well, then the dem will win. In fact, if both of those run, I'll likely vote for Kennedy, given he's the dem candidate. And he certainly should be!

Robert Kennedy is a great person. To believe that a president of a "democratic" country can clean up the corrupt bodies is something else, is in deed a chimera, under my view, and very dangerous too. That being said, I hope I am wrong May the force be with him.

What a refreshing talk. He is the most qualified candidate I have ever seen! I am a Republican, but would vote for Robert Kennedy, Jr.

Thanks Bobby Jr & Joseph for getting truth out, upon which we can all make informed health & livelihood decisions. However Agency-Capture & the Oligarch fake 'money' (Greek 'mnemosis' = 'memory') coordination of the damaging mRNA Roll-out worldwide must be recognized as a 7000 year old oligarch 'exogenous' (Latin 'other-generated') scam since Babylon. Oligarch Captured 1776 fake US 'revolution' was only a propaganda oligarch ruse in the brutal intensification of continental 1st Nation genocide & resource capture.

INDIGENOUS 'CONSTITUTION' (Haudenosaunee 'Kaianere:kowa' = 'Great-good-way-of-kindness', 'Great-Law-of-Peace') The ~110 nations of Turtle-Island (N. America) organized into ~23 Confederacies with an 'indigenous' (L. 'self-generating') Constitution. The Kaianere:kowa is found in its many similar structures on every continent & islands of the world during the indigenous period. In 2004, I had the pleasure of sharing this knowledge over many hours with Pete Seegar, a Clearwater dear friend of Robert F Kennedy Jr, while at the 2004, Local Currencies in the 21st Century international Conference.

Kaianere:kowa empowers everyone in their diverse multistakeholder contributions to society from the bottom-up through the ~100 (50-150) person 'Multihome-Dwelling-Complex' (eg. 'Longhouse-apartment, Pueblo-townhouse & Kanata-village'). Empowerment comes through: 1) Multihome living in intimate, intergenerational, female-male, interdisciplinary, critical-mass, economies-of-scale proximity, with privacy & sovereignty.

2) Time-based equivalency Accounting on the worldwide String-shell (eg. Wampum on Turtle-Island, Quipu in S. America, Cowrie in indigenous Europe, Asia, Africa, Australia & all islands). 3) Council-Process of Both-sided, Equal-time, Recorded & Published Dialogues as dialectic-rights for all people at every level of society. RFK Jr should be aware of his indigenous heritage.

No one person can expect to join the corrupted political system and change/go against the real world government which is the banking cartel and expect to survive. It's going to take change from the bottom up and unfortunately incorporate violence when necessary to institute change and root out the minions at "the committee level" to infuse power back to individuals in a community based environment. If we can cancel their fiat based money system and go back to constitutional money which is silver and gold and get everyone to accept it, that removes their power and gives humanity a real fighting chance against this satanic jesuit fake jew masonic cabal.

I believe the number of Kennedys murdered is three: JFK Jr (including his wife Carolyn and sister-in-law Lauren Bessette.)

Only 2 Kennedys murdered? Shouldn't that be 3? You missed out the one that had to make way for Hilary for that Senate seat.

Supporting Kennedy simply for his stance on vaccines is somewhat narrow minded. While I support his efforts, I remember that he is a Democrat.--the deep-rooted criminal party that has decided there is NO other party worthy. He'd be just as powerless as any other political puppet against the deep state.

And Trump sold out to Pfizer after he got one MILLION dollars from them. Both parties want war and more wars, more money for more wars and most have the same donors. I don't care if a candidate has a D or R or I beside their name I vote for the person. I am not a Dem but I am voting for Kennedy, Jr. He is the only one running that has a long record of fighting for us. To quote Dr. Ron Paul about him, "He's developed a name because he was willing to take on the Pharmaceutical Industries and that's a big deal" end of quote. He has the guts to go up against them the least I can do is vote for him. If he doesn't win and we lose more of our freedoms I will have done my part voting for someone that wants to protect them.

I would be delighted to see RFK as president of the US. However, many voters fail to understand his deep and abiding understanding of, and views on, the environmental situation. They fail to understand that "climate change" has been hijacked by the globalists who have no love of the Earth. Further that they are largely to blame for it and that their "solutions" are nothing but self serving. This is in contrast to the solutions offered by Kennedy and he is going to have to put much effort into explaining this distinction during his campaign. Perhaps Joe Mercola can do another interview with him dedicated to this subject?

fundamentalassumptions

Only if he's rejoined the club& Rome,& the outcome was planned that way. Otherwise, he knows the score& the way the god of this world works. The real God is gathering the nations& Laodicea, both synagogues of Satan, to judgment. That harlot body of many members still has one doublehead& two main dialectic arms,& a load of Craft idolatrous humanism, philosophy, traditions& doctrines of devils working in the dark, most not even knowing what they serve. No power on earth can stop it,& only the light of the preserved& quickening word of God, inseparable from the Word who gave,preserves& quickens it, sorting perfectly according to Truth& the free will conscientious choices of men, received in true revival marked by repentance& changed lives marked by quietness,sobriety& holiness (not mystical, magical mumbo-jumbo, growing indulged corporate systems merchandising men& sin),w/ a rejection of empire, a will to circumspect living, the promotion of whole truth& real literacy, to hinder the consolidation of power& to tie down Leviathan by law& distributed, balanced powers, can even slow it, bringing a stay of God's judgment w/ blessing.

None of that in sight.

Just voodoo,fulfillment of man's prophesied presumptions of Egypt& Babylon type, the deceiving& being deceived, evil men& seducers waxing worse& worse. More & more inquisition & craft working from either 'side'. Jerusalem above is the mother of all the redeemed,& her people are yet pilgrims& sojourners here, heavenly minded enough to be of earthly good, & all equally bound by the same word, the ground level at the foot of the cross, having the same future hope, walking by faith securely anchored in the transcendent, eternal Godhead& word...but men will not, too proud to tolerate freedom indeed, self-deceived& -justifying in vain, pretending, so that the numbers of the truly redeemed dwindle,& men love corrupt words, doctrine, & 'lords': so they have no king but Caesar& his magisterium.

No power of God:all of men&devils.

I do not agree with the rationale of unblinding studies if the study's data is a scientific requirement and it was a condition of the study in the first place. The ability to generate ongoing data and further examination of safety and side-effects of the trial participants is no longer possible. There may be individual cases that justify unblinding but not all. The purpose of the trial is to publish papers regarding effectiveness and safety and those in it have agreed to be a sample of the population to be tested on. If you use the common good argument then the trial is a requirement or sacrifice we make in order to protect the much larger population. To unblind it goes against the common good argument and undermines the purpose of doing trials in the first place which is to protect the larger population. I would make it a condition that no significant trial is allowed to be unblinded except on a case-by-case bases.

No, he can't because he's on board with climate change controlled opposition. I'd add more strikes against him but, that should suffice. Remember, "they" always do some good while they still advance the underlying agendas. i.e. everyone thinks Putin is against the cabal but, he is Kissingers buddy and advocates 15 minute cities. Only WE can save ourselves from the bottom up period dot!

Our water and soil gets polluted no matter what you want to call it and Kennedy, Jr doesn't have the same agenda as the elites. He has never said he wanted to do away with cattle farming and have us eat fake food and bugs. His record clearly shows that he is not controlled. He is the only one that has the long record fighting for our freedoms. Dr. Ron Paul even said about him, "He's developed a name because he was willing to take on the Pharmaceutical Industries and that's a big deal". If he does not win and we lose more of our freedoms it will be because of people like you that wanted to find some reason to ignore the good he has done. Just because you don't agree with him on everything you would chance more of our freedoms being lost SMH Trump sold out to Pfzier after he got one MILLION dollars from them. But so many in his cult will vote for him regardless of that.

If you tree really feel that he's all that and a bag of chips, vote for him. I'm saying that I've done some deep digs on him and believe he's controlled opposition and a wolf in sheeps clothing. Have a blessed day!

I have done a lot of research, too, and from his years of fighting for the issues that the establishment is against, exposing them is sure not being controlled by them LOL I think he gets smeared enough for his stand against what the establishment is for. He has lost business deals and political friends he wouldn't lose if they were controlling him. His record shows exactly what he's for including the lawsuits he has won. Sheesh. Some people just want to find something wrong with any candidate that has done anything good for us.

By the way, even though I don't agree with Dr. Ron Paul on everything I do think he would be the first to say what you did if it were true but instead among the good things he said about Kennedy, Jr. is "He's developed a name because he was willing to take on the Pharmaceutical Industries and that's a big deal." End of quote. YES that is a big deal and certainly not the record of anyone that is controlled by the establishment. Hope you are having a blessed day, too.

Are you a Trump supporter? Just asking LOL since he sold out to Pfizer. By the way where is your proof of the disgusting accusation you made that Kennedy, Jr. has been to Epstein's island??? His name in a black book? Kennedy, Jr. did a interview with a very good investigative reporter that talked about Epstein and she would had mentioned it if Kennedy, Jr had been there! RFK, Jr. Interviews Investigative Journalist Whitney Webb on the Deliberate Coverup' of Bill Gates and Jeffrey Epstein's Relationship + More....
