"Died Suddenly" is all about those "vaccines" killing people; and so the BBC is trying to kill "Died Suddenly"

Some day it will be clear that such hit-pieces on that must-see documentary (the BBC's is not the only one) are nothing more than Holocaust denial

They all "died suddenly" just this past week (February 8-14)

See how many "sudden deaths" have made some news—while "our free press" continues to DENY this Holocaust, and thereby keeps it going

Since millions glimpsed the awful truth last night, this is NOT the time for us to hold our fire (nor will it ever be that time again)

The propoganda chorus that brought on this second Holocaust is now quite desperate to deny it's even happening
