## STORY AT-A-GLANCE

- › Around the world, reports are pouring in of people dying shortly after receiving the COVID-19 vaccine. In many cases, they die suddenly within hours of getting the shot. In others, death occurs within the span of a couple of weeks
- › Ironically, when seniors die before vaccination, it's due to COVID-19 and something must be done to prevent it, but when they die after vaccination, they die of natural causes and no preventive action is necessary
- › Several areas have reported that deaths are rapidly increasing after vaccination programs are implemented, including in Gibraltar, which prior to a vaccine had recorded a total of 10 deaths due to COVID-19. Eight days into the vaccination program, the death toll had risen to 45
- › Norway has recorded 29 senior citizen deaths in the wake of their vaccination push. Most were over the age of 75
- › Aside from sudden death, examples of side effects include persistent malaise and extreme exhaustion, severe allergic, including anaphylactic reactions, multisystem inflammatory syndrome, psychological disturbances, seizures, convulsions and paralysis, including Bell's Palsy

Around the world, reports are pouring in of people dying shortly after receiving the COVID-19 vaccine. In many cases, they die suddenly within hours of getting the shot. In others, death occurs within the span of a couple of weeks.

One notable case is baseball legend Hank Aaron, 86, who died January 22, 2021, 17 days after publicly getting vaccinated for COVID-19.<sup>1,2</sup> He said at the time that he hoped other Blacks would follow his lead and get their vaccines too.

According to news reports, he died “peacefully in his sleep” and no cause of death had been announced. Aaron was famous for being the home-run king of baseball, and broke Babe Ruth’s record when he hit homerun No. 715; he had hit 755 by the time he retired from the sport.

## 29 Dead in Norway

In related news, Norway has recorded 29 senior citizen deaths in the wake of their vaccination push.<sup>3</sup> Most were over the age of 75. A total of 42,000 Norwegians had by that time received the vaccine.

While health officials initially downplayed any connection to the vaccine, a report in Bloomberg suggests the Norwegian Medicines Agency are now reconsidering. At the time of the deaths, the **Pfizer vaccine** was the only COVID-19 vaccine available in Norway, so “all deaths are thus linked to this vaccine,” the agency told Bloomberg.<sup>4</sup>

*“There are 13 deaths that have been assessed, and we are aware of another 16 deaths that are currently being assessed,’ the agency said. All the reported deaths related to ‘elderly people with serious basic disorders,’ it said.*

*‘Most people have experienced the expected side effects of the vaccine, such as nausea and vomiting, fever, local reactions at the injection site, and*

*worsening of their underlying condition' ...*

*The findings have prompted Norway to suggest that COVID-19 vaccines may be too risky for the very old and terminally ill, the most cautious statement yet from a European health authority.*

*The Norwegian Institute of Public Health judges that 'for those with the most severe frailty, even relatively mild vaccine side effects can have serious consequences. For those who have a very short remaining life span anyway, the benefit of the vaccine may be marginal or irrelevant.'"*

Dr. Anthony Fauci, director of the National Institute of Allergy and Infectious Diseases, commented that the deaths have to be "put into context with the population they occurred in."<sup>5</sup>

In other words, they were old and old people die. It's hypocrisy at its finest. When seniors die before vaccination, it's due to COVID-19 and something must be done to prevent it, but when they die after vaccination, they die of natural causes and no preventive action is necessary.

The World Health Organization added that since there was "no certain connection" of the vaccines to Norway's deaths, there is no reason to discontinue giving it to senior citizens.

## **Questionable Coincidences**

Interestingly, several areas have reported that deaths are rapidly increasing AFTER vaccination programs are implemented. The news stories don't actually say it straight out, but if you look at dates given, it raises questions. One such example is what's happening in Gibraltar at the southern tip of Spain, which has a population of 34,000.

The area rolled out its vaccination program on January 9, 2021, using the Pfizer mRNA vaccine. By January 17, 2021, 5,847 doses had been administered (about 17% of the population), according to a report by MedicalXpress.<sup>6</sup>

The curious thing about it is that the area's first recorded death from COVID-19 didn't occur until mid-November 2020. By January 6, three days before the vaccination program began, the total COVID-19-related death toll reportedly stood at 10.

Then, by January 17, the total death toll had suddenly skyrocketed to 45. In other words, 35 people died in the first eight days of the vaccination program. Most were in their 80s and 90s.

Chief Minister Fabian Picardo said, "This is now the worst loss of life of Gibraltarians in over 100 years. Even in war, we have never lost so many in such a short time."<sup>7</sup> None of the deaths are being blamed on the vaccine, however. Instead, they're loosely blaming them on the new variant of SARS-CoV-2.

## **Vaccine Rollout Coincides With Outbreak**

Other areas are also reporting "outbreaks" of COVID-19, resulting in increased death tolls, after the rollout of vaccinations. Case in point: In Auburn, New York, a COVID-19 outbreak began December 21, 2020, in a Cayuga County nursing home.<sup>8,9</sup> Before this outbreak, no one in the nursing home had died from COVID-19.

The next day, December 22, they started vaccinating residents and staff. The first death was reported December 29, 2020. Between December 22, 2020, and January 9, 2021, 193 residents (80%) received the vaccine, as did 113 staff members.

As of January 9, 2021, 137 residents had been infected and 24 had died. Forty-seven staff members had also tested positive for SARS-CoV-2 and one was on life-support.

Considering we're also seeing cases in which healthy young and middle-aged individuals die within days of receiving the vaccine, it's not inconceivable that the vaccine might have something to do with these dramatic rises in deaths among the elderly in various parts of the world. In fact, I'd expect it.

You can rest assured, however, that the public health authorities and media will not report these observations. Anything that conflicts with vaccine safety and effectiveness will be intentionally and universally buried. This is precisely their modus operandi of the past three decades, so it's really up to each individual to do their own research.

## Massive Amounts of Serious Side Effects Emerging

While the [global vaccine campaign](#) is less than a month old in most places, reports of [serious side effects](#) have already started pouring in. Many are sharing their personal experiences on social media networks. Disturbingly, many are having their stories censored as misleading or false. Videos, in particular, tend to be taken down.

Aside from sudden death within hours or days,<sup>10,11,12,13,14</sup> examples of side effects among survivors of the Pfizer and Moderna mRNA vaccines include:

- Persistent malaise<sup>15,16</sup> and extreme exhaustion<sup>17</sup>
- Severe allergic, including anaphylactic reactions<sup>18,19,20</sup>
- Multisystem inflammatory syndrome<sup>21</sup>
- Chronic seizures and convulsions<sup>22,23</sup>
- Paralysis,<sup>24</sup> including Bell's Palsy<sup>25</sup>

To get a feel for what's really happening, check out [prezi.com](https://prezi.com), where someone has

started collecting stories from various social media posts. It's a rather shocking compilation that is well worth sharing with family and friends who are still on the fence about getting the vaccine.

Many say they "feel weird" and that they "don't feel like myself." Dizziness, racing heart and extreme high blood pressure seem to be a common complaint, as is severe, chronic seemingly "unbreakable" headache that does not respond to medication. Many describe the pain they feel in their body as "being run over by a bus" or "being beaten with a bat."

Some report swollen and painful lymph nodes, severe muscle pain and gastrointestinal issues. Symptoms mimicking stroke are being reported, even though CT scans show nothing of concern. One such report is from a 19-year-old girl. Several report lethal heart attacks claiming the lives of someone they love.

Psychological effects are also starting to creep in. One woman who is on chemotherapy reports "mood changes with intermittent periods of elation and mild euphoria." Bouts of anxiety, depression, brain fog, confusion and dissociation are also being reported, as is an inability to sleep.

One person reports having lost "the voice in my head," which I suspect is the ability to hear yourself think. Another reports losing the ability to formulate words about half an hour after getting the first dose of vaccine, and a third reports "struggling for lost words." Loss of taste and/or smell are also being reported, as well as taste alterations. Several say they have developed a metallic taste since their vaccination.

One pregnant woman reported spontaneous rupture of the amniotic sac resulting in premature delivery. Another woman's baby was found to have no heartbeat two days after her vaccination and was delivered stillborn. Several describe effects suggesting vascular problems, such as skin blotchiness and fingers turning blue.

**“ We see mass cell activation syndromes. The clinical symptoms are going to be the inflammatory diseases. We hear everybody calling it ‘long haul COVID’ – the extreme, profound, crippling fatigue, the inability to produce energy from your mitochondria. It’s not long haul COVID. It’s exactly what it always was – myalgic encephalomyelitis, inflammation of the brain and the spinal cord. ~ Judy Mikovits Ph.D.”**

While people are hoping and praying their side effects will be temporary, a significant portion say they’re still struggling with the effects one or two weeks after their shot. Time will tell whether they turn out to be permanent, but considering the fact that the mRNA vaccines reprogram your DNA, there’s certainly the possibility that they might be long-lasting.

## **Side Effects Were Predictable**

I recently [interviewed cellular and molecular biologist Judy Mikovits](#), Ph.D., about the mechanics of COVID-19 mRNA vaccines, which are in actuality gene therapy. They’re not conventional vaccines. Compare the summary of reported side effects in the section above to the longer-term side effects she suspects will become commonplace, based on the mechanics and biological effects of these gene therapy “vaccines”:

**Migraines**

---

**Involuntary muscle movements, tics and spasms**

---

**Parkinson's disease**

---

**Microvascular disorders**

---

**Cancers**

---

**Severe pain syndromes**

---

**Bladder problems**

---

**Kidney disease**

---

**Psychological disorders such as psychosis and autism spectrum**

---

**Neurodegenerative diseases**

---

**Sleep disorders**

---

**Infertility and other reproductive problems**

---

The underlying causes, according to Mikovits, are neuroinflammation and dysregulation of the immune system and endocannabinoid system.

*"It's the brain on fire," she says. "You're going to see ticks, you're going to see Parkinsonian disease, you're going to see ALS, you're going to see things like this developing at extremely rapid rates, and it's inflammation of the brain.*

*We see mass cell activation syndromes. The clinical symptoms are going to be the inflammatory diseases. We hear everybody calling it 'long haul COVID'*

*– the extreme, profound, crippling fatigue, the inability to produce energy from your mitochondria.*

*It's not long haul COVID. It's exactly what it always was – myalgic encephalomyelitis, inflammation of the brain and the spinal cord. What they're intentionally doing is killing off [certain] populations.”*

## **Discrepancies in Moderna's FDA Report**

According to a recent report by The Defender,<sup>26</sup> there are significant discrepancies in the data Moderna submitted to the U.S. Food and Drug Administration:

*“Moderna's reported death rate for its COVID vaccine, based on clinical trials, is 5.41 times greater than Pfizer's. Yet neither are representative of national death rates – that's a red flag ...*

*The Moderna vaccine arm death rate of 0.36 deaths/100K/day) is 5.14 times higher than Pfizer's (0.07 deaths/100K/day). This large discrepancy deserves notice and requires explanation.*

*If Moderna's on-vaccine death rate is so far below the national death rate and also simultaneously more than five times greater than Pfizer's on-vaccine death rate, then Pfizer's study sample appears even less representative of the entire population. This, too, requires due consideration ...*

*When comparing [Moderna's] study-wide number of deaths per day per 100K for the study to that of the entire U.S. population from 2019, I was shocked: the national number of deaths per day per 100K is 2.44.*

*Moderna's screening process and exclusion criteria in the trial led to*

*evidence that the general population is dying at a rate 6.3 times greater than the death rate in the Moderna trial – which means the Moderna study, including its estimated efficacy rate and the vaccine’s alleged safety profile – cannot possibly be relevant to most of the U.S. population.*

*The super-healthy cohorts studied by Moderna are in no way representative of the U.S. population. Most deaths from COVID-19 involve pre-existing health conditions of the types excluded from both Pfizer and Moderna trials*

...

*Those enrolling in the post-market surveillance studies deserve to know the abject absence of any relevant information on efficacy and risk for them. In their zeal to help humanity, or to help themselves, these people may very well be walking into a situation that will cause autoimmunity due to pathogenic priming, potentially leading to disease enhancement should they become infected following vaccination.”*

## **Why Is Moderna’s Gene Therapy Deadlier Than Pfizer’s?**

What might account for Moderna’s gene therapy “vaccine” causing more than five times more deaths than Pfizer’s? One possibility raised in The Defender’s article is that they failed to “screen out unsafe epitopes to reduce autoimmunity due to homology between parts of the viral protein and the human proteome.”

According to a 2020 paper<sup>27</sup> in the Journal of Translational Autoimmunity, “Pathogenic priming likely contributes to serious and critical illness and mortality in COVID-19 via autoimmunity,” noting that the same may apply post-vaccination.

As explained in this paper, all but one of SARS-CoV-2 immunogenic epitopes are similar to human proteins. Epitopes<sup>28</sup> are sites on the virus that allow antibodies or

cell receptors in your immune system to recognize it.

This is why epitopes are also referred to as “antigenic determinants,” as they are the parts that are recognized by an antibody, B-cell receptor or T-cell receptor. Most antigens – substances that bind specifically to an antibody or a T-cell receptor – have several different epitopes, which allow it to be recognized by several different antibodies.

According to the author, some epitopes can cause “autoimmunological pathogenic priming due to prior infection or following exposure to SARS-CoV-2 ... following vaccination.”

In other words, if you’ve had the infection once, and get reinfected (either by SARS-CoV-2 or a sufficiently similar coronavirus), the second bout has a great potential to be more severe than the first. Similarly, if you get vaccinated and are then infected with SARS-CoV-2, your infection may be more severe than had you not been vaccinated.

For this reason, “these epitopes should be excluded from vaccines under development to minimize autoimmunity due to risk of pathogenic priming,” the paper warns. The abstract lays out the basics of the pathogenic priming process.<sup>29</sup> As noted in *The Defender*:<sup>30</sup>

*“Thus, concern over vaccine-induced pathogenic priming is not zero, but it may be less than COVID-19 vaccines that use more than one SARS-CoV-2 protein. However, the hyper-focused IgG response to the fewer antigens could cause hyperimmunization, a condition considered ripe for off-target autoimmunity attacks.”*

## **Are Lethal Effects Being Hidden?**

The Defender points out that vaccine trials never use inert placebos. Instead, many use another vaccine. By doing so, they effectively hide side effects. In the case of Moderna, a total of 13 people died in the trial, seven in the vaccine group and eight in the placebo group. One severe adverse event in the placebo group, however, was relabeled as a death, and one death in the vaccine group was relabeled as a severe adverse event.

In the vaccine group, deaths were listed as cardio-respiratory arrest, heart attack, multisystem organ failure, head injury and suicide. None of the deaths were linked to the vaccine.

However, as noted in The Defender, heart attacks can involve autoimmunity and have been seen in post-vaccinations before. Multisystem organ failure is also “consistent with autoimmunity against ubiquitously expressed proteins as a result of vaccination.”

“The suicide cannot be ruled out as not due the vaccine, either,” The Defender writes, noting it could be related to “autoimmunity against oxytocin or serotonin receptors,” which might result in “devastating depression.”

Indeed, [prezi.com](https://prezi.com) includes a number of reports of people saying they’ve experienced anxiety and depression following their vaccination. Depression is also a possible outcome of neuroinflammation, as noted by Mikovits.

## **Do a Risk-Benefit Analysis Before Making Up Your Mind**

While both Pfizer and Moderna report low rates of side effects — Moderna’s being just 0.5% — the rates of side effects in the real world appear to be extraordinarily high. Data are still hard to come by, but if we go by initial data reported by the U.S. Centers for Disease Control and Prevention,<sup>31</sup> we end up with a side effect rate in the real world of 2.79%.

**By December 18, 2020, 112,807 Americans had received their first dose of COVID-19 vaccine. Of those, 3,150 suffered one or more “health impact events,” defined as being “unable to perform normal daily activities, unable to work, required care from doctor or health care professional.” If you divide the number of reported side effects with the number that received the vaccine, you get a side effect rate of 2.79%.**

**If you then extrapolate that to the total U.S. population of 328.2 million, we may be looking at 9,156,780 Americans suffering vaccine injuries if everyone gets vaccinated.**

**To avoid becoming a sad statistic, I urge you to review the science very carefully before making up your mind about this experimental gene therapy. Also remember that the lethality of COVID-19 is actually surprisingly low. It’s lower than the flu for those under the age of 60.<sup>32</sup>**

**If you’re under the age of 40, your risk of dying from COVID-19 is just 0.01%, meaning you have a 99.99% chance of surviving the infection. And you could improve that to 99.999% if you’re metabolically flexible, insulin sensitive, and vitamin D replete.**

**So, really, what are we protecting against with a COVID-19 vaccine? These mRNA vaccines aren’t even designed to prevent infection, only reduce the severity of symptoms. Meanwhile, they could potentially make you sicker once you’re exposed to the virus, and/or cause persistent serious side effects such as those reviewed above.**

**While I won’t tell anyone to do, I would urge you to take the time to review the science and weigh the potential risks and benefits based on your individual situation before you make a decision that you may regret for the rest of your life, which can actually be shortened with this vaccine.**

## Alldogsgotoheaven

You are right Dr. Mercola. It is a fight to stand up in the midst of this. My own family thinks that I am nuts while I have to watch them make such unwise decisions. It is shocking to see people just follow like sheep to slaughter. It is shocking to see all the people who just believe what they are told---even doctors. We have to fight the coming (I believe) mandate for vaccinations like our lives depend on it because it does.

One can only stand up for themselves. Fighting the Branch Covidians is a futile and dangerous enterprise... They will snitch on you, confront you, and ultimately might do more, because their common sense is gone, they are imprisoned in their cocoons, Stockholm syndrome is guiding

them, and have invested too much into their stupidity to be open for smartening up. They are the ones who voluntarily silence and suffocate themselves until, eventually, they choke on their own snot...

Information warfare has brainwashed most Americans which could end up causing their own demise. Last week I sent the Dr. Simone Gold video to everyone, including those who are VERY liberal. As expected, they spewed their vitriol back at me automatically discounting & even sending disparaging info to counter the message. One cousin, after belittling the message AND the messenger (me) proposed that we get together since she "still has a Christmas card w/my name on it," further stating, "would love to give it to you in person if we could agree to not talk politics." Since I try to avoid toxicity at all levels, why would I agree to get together w/such a toxic person? No thanks!!!

I am in the same situation. How do you get through to people ? Elders in my family have had the shot, there was no telling them, I managed to sort of get my Mum to understand, she got the Oxford which I suppose is better than an RNA one, thank god. Think it was by chance though the drs. had that one in when they called her over.

I have just had a phone call with a sister who is not getting the jab. She has understood all of the Mercola info I've sent her, even though she left education at 16yo. She told me that she had a phone call with my other sister. This other sister has worked for the UK NHS all her life as a Nurse. She was really pleased because she's been jabbed. This sister said to my poorly educated sister that everyone who refuses the "vaccine" is a scumbag. So, my well-educated nursing background sister would refer to me as a scumbag. I'm beginning to understand people who've already commented on how families and friends are being split apart by this issue.

Here we are, some thirteen months after Sars/Cov-2 was unleashed on the world. We can't be certain how many people have died from the virus, as figures have been manipulated. The population of the world has been subjected to all manner of controls and tracking. Information is censored and individuals are threatened and abused for daring to speak out. The so called news platforms are merely regurgitating press releases from governments and health officials. Businesses have closed, people are anxious, confused, angry, depressed and many have taken their own lives. Still others are bankrupt and some starving. Despite assurances that the control measures would result in a return to "normal", nothing could be further from the truth.

Treatment protocols have been ignored and discounted. Money has been poured into vaccine research and not treatment. The so called vaccines have been foisted onto the unsuspecting public and most of these individuals are acting on blind faith when they offer their arms for injection. Now we are to face ridicule for suggesting that adverse reactions and deaths may be associated with these "vaccines" and expected to accept that these deaths are to be expected. It is the responsibility of the health officials and the WHO and the pharmaceutical companies to prove that the deaths are not the result of the "vaccines. Write to your politicians and health officials and demand answers and accountability.

Politicians are either complicit or are afraid. The result is the same. Even Rand Paul (I consider him the Court Jester in the Senate, because he is "allowed" a number of things no one else is...) went along with the "vaccine" propaganda a few weeks ago, "in order to go back to 'normal'", which is obviously false, because you are supposed to stay muzzled and alienated even after the kill shot.

Politicians can not know more than the virologists and other researchers. Saying nothing is best when you do not know the answer or solutions. When genetics are manipulated the long term consequences may be anticipated but are not known. I am very uncomfortable with an RNA vax that causes a genetic change in the human body. My understanding is other vaxs are almost ready that are of the traditional type.

Nope, nyet, nein...unless you have a lot of details garnered over the years, like Del BigTree, Dr. Suzanne Humphries and others and you are invited in to speak with state or govt. representatives,

you will never survive their stupidity and deceptive marketing information, as taught by Big Pharma. It friggin over-the-top lies, YOU ARE FIGHTING A \$69 BILLION per year worldwide industry, only beholden to their shareholders. And they are working hard to deny or normalize these deaths after these shots or jabs.

Consider supporting existing orgs like CHD or NVIC or ICAN and others out there. Just look at how difficult a time Dr Reisch at Yale who has worked tirelessly to get the attention of the US Congress to free up HCQ IN THEIR WAREHOUSES - and what's happened? Dr Pierre Kory was nearly out of his mind speaking at a Congressional Hearing asking to offically test Ivermectin - to what end? Again and again, Dr M has repeated shown that most, if not ALL your politicians, so-called representatives, are bought!

People have lost the thread, many dropped off this site 'cause they could not connect the dots, between your health, your rights and our ruling class in govt.

Nat, I have planned to do that and not only to our politicians but Airline companies and Cruise lines. I want to travel and If I have to have a vaccine injected into me I will not be traveling. But, if they make you have one for travel then what will be next. Can't get an operation or even go to the doctor's office. There is no end what these evil people can do to the ones that have to go underground to be heard. HI Nat, how well written and articulated! Thank you, thank you for your ethical concerns and for putting it out there in public!

I can't advise anybody, people Must make their own informed decision.

I think it is perfectly easy to go up against the narrative of ridicule re concerns about vaccine deaths. See Moderna vaccine ingredients, here, Polyethylene glycol among them [www.modernatx.com/covid19vaccine-eua/eua-fact-sheet-recipients.pdf](http://www.modernatx.com/covid19vaccine-eua/eua-fact-sheet-recipients.pdf) Material safety data sheet (MSDS) for polyethylene glycol [www.emdmillipore.com/US/en/product/msds/MDA\\_CHEM-807485?ReferrerURL=ht..](http://www.emdmillipore.com/US/en/product/msds/MDA_CHEM-807485?ReferrerURL=ht..)

Please note that it implies without saying it, that this material is flammable and combustible. It names ways for firemen to put out a fire if PEG is involved. Note the statement that this must not be poured down the drain. It says, throw off clothes if exposed and shower (Fifteen minutes, says a different MSDS version for PEG). Wear protective clothing, it will wear through rubber in 8 hours, and don't allow dust exposure (another version says it degrades to CO2 and causes lung damage). It's known to cause anaphylaxis. This is the stuff they want injected into our veins. If this does not invite disaster, I don't know what does.

Further, it makes sense that a substance used (according to Wikipedia) to grease pinheads in computer printers, preventing the toner from sticking to them, and made out of petroleum, can only do harm to blood platelet coagulation, true? Won't the platelets slide around uncontrollably, coated with this substance? Oh I forgot, such small amounts. Yeah but a small amount is all it takes? Would it get stuck in the liver and coat blood passing through it? Never mind that medical school textbooks, books written for laypeople about the immune system, offer information that the immune system recognizes innate cells as "Self", leaving them alone. But when a foreign substance binds to them, they are deemed "non-self" and attacked

Continuing So I ask the question: Why is this allowed? Don't Fauci, BigPharma, and others know full well, that shooting foreign substances into our veins, particularly synthetic RNA binding with our own RNA, will automatically invite autoimmune attack? They know that. This is why they coated the RNA with lipids, including cholesterol (See vaccine ingredients) and guess what, the

petroleum-derived PEG. The intent as best I understand from having read up, was to mask the foreign substances from being recognized by the immune system. Ah, but is it working?

What about death and serious adverse events? This is not a joke. the Alliance for Natural Health, basing their figures and assessment on the VAERS (Vaccine Adverse Event Reporting System) sent a newsletter re. the right to informed consent, \*which must be free of coercion and deceit\*. They listed the numbers of deaths and adverse events \*REPORTED\* to the VAERS, stating that what is being reported currently, reflects a mere 1/100th of the adverse events percentages seen in clinical trials. The only broadcast worth watching in England is NOT the BBC, or any of the mainstream media, but UK Column news which yesterday underscored Dr Mercola's article about vaccine deaths - and then some!! It is on for an hour on Monday Wednesday and Friday - and puts the hood-winking Brainwashing Broadcasting Company to shame:

Yes, I did watch last night, its a good session, somehow there's just too much coming out...(yawn, another snow day here)

here's the thing, if you listen to Prof Delores Cahill, the deaths are just starting. (The elderly appear primed by the flu shot, as if we did not already guess that could happen, and their immune systems may be suppressed for a week, 7 days after getting the shot) But Delores is saying in 2 or 3 months after the m-RNA shot or jab, depending on where you are it may not be until next year, if you are exposed to the wild virus again, your body may over-react, as it has an immune system now targeting that virus or who knows how many other virus'. She has made this case several times in January, on interviews in various languages and locations. How hard does she need to yell before someone in high places can hear her wisdom speaking? Here's a recent discussion:

Hi Newlands I gave your post a "thumbs up" to send it up, this is important information! thank you for posting it. :-) What's pretty sick is how the media is targeting the impoverished and colored communities as the ones who are deprived, under served, and now "rescued" by the "saviors" who

are bringing the falsely and misleadingly named "vaccines", better known as genetic modification shots as a great experiment, to their areas. It would seem these cross sectors are the ones they want to "Study"?

Dr Mercola is actually doing great journalism when giving us INFORMATION, when telling us what the MSM is deliberately hiding from us: the truth. We do NOT need opinions; we need INFORMATION we can trust so we can make OUR OWN informed decisions. Thank you, Dr Mercola!

In the first 9 months of the "pandemic," Maine had a total of 220ish "deaths from COVID." Many attributed the low death count to the "outstanding job" of the governor. Most of those deaths occurred in the southern part of the state where it is most congested. Other than the southern part of Maine, the fact of the matter is, Mainers naturally social distance because they do not live on top of each other and they are a hardy bunch of people who spend a lot of time outdoors. Fast forward to December, when vaccination began, the number of deaths has triple to just under 600 deaths as of yesterday. There's nothing "scientific" about what is happening but one cannot ignore the coincidence.

The vast majority of deaths are in the elderly, which would be the norm, but why such a sudden alarming spike? Some claim it's because families got together for the holidays but, really, we are way past family gatherings at this point. Common sense tells us to look at what's right in front of us. Maine has one of the oldest demographics in the country. All these elderly people survived during the height of the pandemic when the lockdowns were not as strict, only to die once the vaccine rollout began. These vaccines were never tested on the elderly population, only on a younger healthier population, and it shows. This is shameful!

### **balhawk**

Exactly. Everywhere the toxic jabs have rolled out the death rates have soared. Belief in the efficacy of these poisons has to be the greatest instance of mass-hypnosis and brainwashing ever, which dwarfs the spell Hitler had on the German citizenry.

### **rrealrose**

You bet, these are untested experimental vaccines, and the elderly and children are the most susceptible, neither group has been tested and presumably, vaxxing kids is a waste, most have way fewer ace receptors expressed as any adult, and if they ever get this thing, hardly have any symptoms. On the other hand, we get to witness what's happening with the elderly...and not pretty to participate in this country wide nursing home clinical trial.

I'm in Maine. Everyday the news has its daily sensationalized headline "534 people confirmed Covid positive. 2 people DEAD". And then you go to see who died and its elderly people and those in nursing homes. The numbers for flu deaths seemed much higher in prior years yet these covid numbers are being presented like we are in a serious plague. The numbers seem about the same everyday, 500 or less cases and 5 to 0 deaths, yet the lock-down laws are finally being lifted. They say it's because cases are starting to go down but I think it's because Governor Mills knows she can't keep this lockdown going any longer or the suicides will surpass the covid deaths. My town has suffered greatly. Main St. looks like a ghost town with shops closed and restaurants empty. It is heartbreaking. And then she said she wanted to tax already devastated businesses on their PPE loans. She seems to be backing down from that cruel idea. All we are going to be left with are Mcdonald's and Walmarts. I'm not denying covid exists- my husband, mother and friend have had it and though it was severe, they have recovered. If we didn't go into lockdown every year because of flu deaths (yes, I know covid is not just another type of flu, but it is still logical to use it as a comparison), how is it not a major red flag that we've gone into lockdown over this? So many people, my husband included, are completely brainwashed by the news and cannot wait til they can get their shots. I see people walking alone on my street, no one else around, and they have masks on. It's just lunacy.

The Flu always spikes in the winter, which just happens to be around the Holidays. Is it the cold

weather or the family get together? Personally I think that it is a combination. The flu spikes in the winter time, even in the southern hemisphere where the seasons are the opposite of the northern hemisphere, although it would make sense that large family gatherings could contribute to the spike. But there are also large family gatherings for Easter, so why no spikes in the spring?

I heard somewhere (and did not trap this) that its entirely possible the covid-19 reports are seriously flawed, the rt-pcr test may have too high a ct or cycle threshold, but also it may be picking up influenza A or B, instead of covid, but due to the dire times, the fear, these are being all attributed to covid19. Just a hunch, look for more on this to emerge, as there is no way for the flu season to disappear entirely. And several top immunologists have remarked that virus' like covid-19 or sars-cov1 have no second wave. Truly, we do not know what we are hearing or looking at.

My husband's 87 year old grandfather received the Covid vaccine this past Friday. He was in pretty great health for being 87 - he had lived by himself in his own home up until 3months ago. 24 hours after receiving the covid vaccine, he was taken to the hospital, and we just got word that he passed away early Wednesday morning. So he goes from being relatively healthy to dying in five days after receiving the first dose of the vaccine. And of course, his death will not be counted or even considered as an adverse reaction to the vaccine. It makes me sad and sick.

One of our local nurses took the second vaccine and 3 days later died at only 35 years of age and was in perfect health before the second vaccination. Like Dr. Fauci said on January 14, 2021; "the vaccination will not protect you from the Coronavirus and you may have complications." He also stated that the vaccination "may only work and be effective 70-75% of the time and people should consider this before getting vaccinated." Last week Merck Pharmaceuticals who along with Pfizer, received a \$3 Billion dollar grant from Trump and said it has stopped making the Covid-19 serum and will no longer release it as "it's better to have the Corona Virus that to get vaccinated."

This is exactly the same scenario as in WW1 and if it is allowed to go on then it will be repeated over and over. No one in power (real power) has ever been held responsible for anything. For centuries wars have been started on false flags and people have been subjected to all kinds of toxins in foods, in their environment, in the air and instead of any actual investigation, the resultant deaths have been labelled as 'viruses' or 'bacteria'. Then there has been a mass medication of some sort and behind the scenes the toxin has been removed and hey presto - the plague is eradicated. I don't know about you but I don't wonder at all about those in command, they don't reckon us worthy to live but all those people who enable this to happen, from the scientist who 'invents' this \*\*\*\* (sorry but that's what it is) down to the

'carer' who administers it.

What is going on in their head? What about the judge who just overruled the judgement of a son of a mother in a care home who has dementia and schizophrenia and didn't want to have his mother vaccinated. The judge ruled that it was 'in her interest'

[www.expressandstar.com/news/uk-news/2021/01/20/care-home-resident-must..](http://www.expressandstar.com/news/uk-news/2021/01/20/care-home-resident-must..) This is just one there are other such cases. Here's an interesting read: [archive.org/.../2up](http://archive.org/.../2up) and it's free. What they are banking on is that we are all too lazy or apathetic to either care or bother to find out..and so far as history has shown, they are right. We are all to blame. Hi epi-cure, thanks for the repost! That is really great news! Our law suits over here are taking longer because they are huge. Blueprints to this never happening again, they are aimed at the whole foundation of the covid scenario and everything it stands on/for globally. This includes, interestingly enough a really important strategy identifying, 'the weakest link', a defamation suit

against the 'fact checkers'. This might initially seem a very specific case, aimed at those who attacked Dr. Wolfgang Wodarg, 'who 12 years ago exposed the fraud behind the "Swine Flu." He was a member of the German Parliament at the time, as well as a member of the Council of Europe'. This suit puts the burden of proof on fact checkers:- ' to prove that the PCR test is accurate, and this lawsuit can then be used as a template for similar lawsuits in other countries around the world.'

In the meantime people all over are becoming more creative in their pushbacks - from the Canadian Hair Salon that has brought in studio lights, cameras and microphones and is filming their hairdressing in preparation for producing a film. Film set and TV station beauty and hairdressing professionals are exempt from the lockdown. To the the legal/medical/academic committee who are gathering expert witness statements for their law suits in Berlin. They have declared themselves a new Political Party 'The Freedom Party' (nascent Political Parties are exempt from covid 'gatherings' rules). This has already been tested, they were at 'Scotch and Sofa' a Berlin Bar when the Police raided to arrest them but they walked free because of that rule. This is chess, or any other game of strategy and creativity. These covid rules have always given a free pass to cronyism but what is sauce for the goose (or maybe the wolf) is sauce for the gander (so-called sheep).

That was a horrible ruling, which according to the UK's own statistics increased the woman's odds of further deterioration and death. Imperilment and possibly homicide by ignorance, in the case of

that judge. I hope the plaintiff can get an injunction and appeal the ruling before the poor woman is poisoned and gets worse. Even mainstream sources have acknowledged the sharp increase in deaths, though they make no mention of the jabs in light of such information, and some are trying to blame a "mutation" or blame "easing of lockdowns, though a vast majority of the deaths were in care homes following most of the residents getting the toxic and counter-productive jabs.

Predictable. [uk.news.yahoo.com/care-home-residents-almost-third-150022723.html?gucc..](https://uk.news.yahoo.com/care-home-residents-almost-third-150022723.html?gucc..)

[www.mirror.co.uk/news/uk-news/breaking-uk-coronavirus-hospital-deaths-..](https://www.mirror.co.uk/news/uk-news/breaking-uk-coronavirus-hospital-deaths-..) Courts have, for the most part, made better rulings, when evidence is presented that properly supports the case. Informed Consent Action Network (ICAN) and the Children's Health Defense team have won many cases, the typical result being the capitulation of the other side prior to a hearing, so as to maintain the cover-up and protect the erroneous mass belief. One's case is only as good as the evidence they present. Had the son showed statistics on the sharp increase of the death rate in care homes following the rollout of the toxic jabs, the ruling may have come out much differently.

The Branch Covidians are good soldiers, they do what their leaders tell them to, without question. They feel that they are being good citizens and that everything that their leaders are instructing them to do is for the better good, after all, the leaders are wise and smarter than all the rest. The only thing that the Branch Covidians have right is that their leaders are smarter than they are, however those leaders are morally corrupt and are using those smarts to manipulate the masses. In order for a democracy to work the people must keep an eye on their leaders and question anything suspicious and hold them accountable for their actions. Just look at WW2, most of the Germans did not agree with the Nazi agenda once they saw what it was really about, but they had put Hitler in power because they didn't question him, and we all know how that worked out.

An emotionally detached view would see overpopulation along with environmental destruction as game enders too. While genocide by medicine would not be my choice, there are many many vile, greedy and ignorant jerks who walk among us..we could do without. Just look around and see what they have done to our once pristine planet. Psychics and prophets have predicted great depopulations during these decades. Some have thought this a tipping point in human evolution, a natural selection event. Others will scramble for the last lifeboat kicking children in the drink, grab the gold and escape dark death. Some, like me, only vaguely remember this reference from Somerset Maugham, right?

"A merchant in Baghdad sends his servant to the marketplace for provisions. Soon afterwards, the servant comes home white and trembling and tells him that in the marketplace, he was jostled by a woman, whom he recognized as Death, who made a threatening gesture. Borrowing the merchant's horse, he flees at great speed to Samarra, a distance of about 75 miles (125 km), where he believes Death will not find him. The merchant then goes to the marketplace and finds Death, and asks why she made the threatening gesture to his servant. She replies, "That was not a threatening gesture, it was only a start of surprise. I was astonished to see him in Baghdad, for I have an appointment with him tonight in Samarra."

**The first thing everyone should do is find out what a virus is and moreover what is its function because as with all things it certainly has one. As far as I have been able to find out, no one has ever proved that it comes from outside the body, no one has ever proved it can replicate on its own, no one has ever proved that it can pass on any form of disease. My understanding is that a virus is created within the body for a specific purpose .ie. when the body is so toxic it can not cope with the overload. The virus replicates by means of the body's own cells, it then dissolves the toxin within itself, wherein it is captured and the virus plus the toxin is safely and finally excreted, whether**

through the skin (i.e. measles) respiratory tract (i.e.coryza) etc..

However, detoxing is incredibly stressful to the body, if your health is already compromised then you run the risk of dying from the body's own cure. My understanding of vaccines, at least the ordinary old fashioned sort, is that their function is to cover the symptoms or rather to stop the body from detoxing, so the body remains poisoned but at least you can go back to work..... If you look at the experiments done in WW1 to try and pass on the 'Spanish Flu' from a patient to a healthy individual, including hugging each other, directly passing on mucous and saliva.... it was all unsuccessful.

However, if you look at the Spanish flu from a toxicity angle it all makes sense, - a huge pre and post war vaccination campaign, poor quality adulterated food, terrible standards of hygiene and sanitation, incredible levels of stress, toxic chemicals associated with warfare, including mercury paste used in cleaning firearms (which is presumed to be the reason for 'shellshock' ), the list of poisoning goes on and on... There has long been a correlation between 'disease' and toxins. I'm not defending the vaccine makers in any shape or form. What bothers me is that we have pregnant women, teenagers, and people on chemo getting vaccinated. Any doctor, nurse, or medical facility that would vaccinate a pregnant woman, cancer patient, or child should be sued for malpractice. It was made very clear that these vaccines were not recommended for children or pregnant women! That alone should be a warning sign. **I am thinking that the COVID "Vaccine" numbers will pretty much follow the flu vaccine percentages. In the flu season 2018-2019, 49.2% of the USA population received flu shots. This included children 6 months and older. Since children are not to receive the COVID vaccine, the numbers should be less than 49.2%. 74.2 million Americans are under age 18 who receive the flu vaccine at a 58% rate. This should shave around 13.1% off of the 49.2%. This gives us an estimate of 36.1% that will submit to the COVID "vaccine" if the numbers pretty much follow the percentages that obtain the flu shot. I estimate 118.5 million Americans will obtain the COVID vaccine. This will cause so many deaths and problems among the segment of the population that receive the COVID vaccine it will incapacitate a large segment of American society. A lot of Americans are about to experience a lot of pain, suffering and death.**

So, what can one do against the 5G satellites? I am sure, the global criminals are safe on their islands near New Zealand. No 5G coverage there. When they go somewhere, I'm sure there will be "disruption" in the service. Check out AT&T's coverage in the continental US. Even hills and forests are covered. And, of course, schools, with all the muzzled children...

Dr. Fauci said: "You need to get vaccinated when it becomes available as quickly and as expeditiously

as possible," "And the reason for that is ... viruses cannot mutate if they don't replicate. And if you stop their replication by vaccinating widely and not giving the virus an open playing field to continue to respond to the pressures that you put on it, you will not get mutations.

These variants were made up to scare more people into taking the vaccines. All this was in a Rockefeller Foundation document written in 2010. Deborah Tavares from stopthecrime.net has a copy of that document in one of her videos. It said that if people are still resisting then a third and worse phase would be necessary during the winter to scare more people into taking the vaccine. If a few are still resisting after that, it will be no problem, because the masses will force the resisters to comply. All this was planned.

Fauci is also saying you have to vaccinate right away to protect others from the variant. They are going to label the anti-vaxers as a terrorist threat to America. The propaganda in the news will be overwhelming. So you can only imagine how dangerous it is going to get for those who resist. People will more than likely turn on their own family members.

We want to believe that most people in the world are good people, but that isn't really true. History has proven that fear and propaganda has caused people to do horrible things to their fellow man. This is when the true nature of many humans comes out. There have been and still are many good people in the world who would sacrifice and put themselves in harms way for the sake of others. Who truly care about their fellow man and practice love of neighbor. Unfortunately, they are way outnumbered.

I must question the validity of this, can enough vaccine actually be administered this way? And how is profit being generated from a vaccine like this? Not saying it is false, it just seems unlikely to me.

Posted On 02/02/2021

## **dude01**

Jackaroni, my suspicions suggest the profits were quite probably made on the front end. How can the US Pentagon have an endlessly increasing war budget? When Obama was running for President, he kept claiming that the US couldn't afford to borrow money from China to engage in another war. Yet we all know the wars continued, and that the Pentagon's budget continued to grow. The Big Boys somehow get their money. Soon, many Americans will be paying their Federal Income Taxes (that's one source of \$\$\$ for the government). Another source is to just crank up the money machines and give out more greenbacks. This latter solution devaluates the dollar, yet it's done all the time. Crazy - but that's what's going on in the world of finance.

They seemingly have free reign to alter narrative as they see fit and we all just talk talk talk about what they are doing to us. Are we just delusional and get some serotonin rush for venting here? I've been trying to follow the deaths from the vaccine. I saw a report of 33 in Norway - a Bloomberg report. I also looked at the VAERS spreadsheet. In comparing 2020 to just the first three weeks of 2021, we see that there were 42894 adverse reactions and 167 deaths in all 52 weeks of 2020. Compare this to 2161 adverse reactions and 287 deaths reported in the first 3 weeks of 2021. This is about 825 reactions and 3 deaths per week in all of 2020 vs 720 reactions and 96 deaths per week in the beginning of 2021. The number of reactions does not seem unusual, the deaths however show a 3200% increase.

Posted On 02/02/2021

---

## balhawk

And those are in all likelihood under-reported by about 2 orders of magnitude (roughly 100), 99% having been dismissed as "coincidental", and not reported to VAERS. Very few medical practitioners make such reports (I read an article by one ER nurse who had NEVER seen anyone else among the hundreds on staff make one), and most citizens aren't even aware of the system. So the death toll is more likely on the order of 30,000.

To be honest, I don't know what to believe about this. I personally am not getting the vaccine because I don't do well with any medication. But many of my family and friends are getting it. So Dr Mercola, could you maybe give some ideas on what to do to protect your loved ones if they insist on getting the vaccine. Someone said take an ice bag and put it on the injection site right after and for the first day. Are there anymore ideas that can help. I don't want a lecture or to hear about Satan or mind control etc. I just want some practical help... thank you....

## **shangrila114**

If it is a mRNA vaccine (Pfizer, Moderna) and they insist on getting it despite all the expert evidence available, then ice bags may well be the only thing that may help. And yet, this would be the least of your concerns should you give credence to expert opinion. Check out Prof Cahill's

testimony before Corona Committee [www.bitchute.com/.../RW3xrE96Amo9](http://www.bitchute.com/.../RW3xrE96Amo9) starting 35:30 and again at 1:01:30). It would be like Russian Roulette. For an shorter alternative, [coronaneews123.wordpress.com/2021/01/18/professor-dolores-cahill-why-pe..](http://coronaneews123.wordpress.com/2021/01/18/professor-dolores-cahill-why-pe..) . So, the best practical advice is to avoid it. It may help to have them read/watch Prof Delores Cahill's testimony.

If the vaccine is not a mRNA but uses instead a viral vector (AstraZeneca and others), then your best hope is that you would be able to avoid an extreme adverse reaction. This in turn depends on (1) the state of the respective genes for detoxification, inflammation and methylation; and (2) lifestyles habits.

I am not taking the vaccine since I have obtained a report on genetic vulnerabilities for all three of these vulnerable parts of the genome. They can be mitigated if you have pursued and are pursuing a healthy lifestyle. So, the first step is to get a gene report done. Then, based on this, assess your risk for an adverse reaction. If you genes are weak for the three vulnerable areas, then you are more likely to be more adversely exposed unless your lifestyle has been very healthy, in which event, you are less likely. If your genes in these areas are good, then you should be "alright" unless your lifestyle has been relatively unhealthy, in which case you are less likely to be "alright". The proportion of the population who would perhaps score well on both genetics and environment (lifestyle) is likely to be no more than 10%.

So, the icebag may help. And yet, avoid missing the forest for the trees.

Vaccines cause problems for some people the same way covid causes problems for some people. You just don't know what will happen in any given case. Most people won't die of covid or the vaccine. Many people will experience pain and discomfort with covid and the vaccine. I work in psychiatry with long haulers who are a year in trying to resolve their long term covid effects. Some have experienced blindness, paralysis, trembling, anxiety to name a few common symptoms. These people are not all old. I got the vaccines. I took a day off due to some fatigue and a temp of 100 with the second dose. Maybe I'll die suddenly in two weeks. Maybe I'll get covid and die in two weeks. Life is a gamble. Make the choice as best you can and hope for the best.

The system has a really big problem. It has promised way too much to too many older folks. If the system can cause a big kill off via the COVID vaccine and then blame it on a new, more virulent strain of COVID, then a lot of older folks will be gone saving the system trillions every year. This is the plan of the elite. When, it is all over, a whole lot of really stupid older folks will be gone. A lot of younger folks will have also have lost years and possibly decades of life and not even know it. The evil system will keep them in the dark. "The love of money is the root of all evil". ## WL4816

"Around the world, reports are pouring in of people dying shortly after receiving the COVID-19 vaccine." Vaccine-related tragedies are happening because there is no effective government regulation of the vaccine industry. In the U.S., for example, the FDA's regulatory power has been undermined by turning the agency into a "public/private partnership" whereby the FDA receives its funding from the companies whose drugs it is supposed to regulate. The pharma companies pay fees to obtain FDA

approval, which is then used, like the Good Housekeeping Seal of Approval, as a powerful endorsement of the companies' products. The FDA doesn't test pharma products; instead, it grants fee-based approvals based on test data submitted by the drug makers. Many FDA-approved drugs and other medical products have been found to be dangerous or defective after FDA approval.

So, reported Jan 30/2021.. these are just the reported cases, my best guest is to double the reported number. Some people and hospitals just do not want to report reactions (one nurse said she has never filed a vaccine injury report, and she has seen many injuries from vaccines), and others are probably listed as other deaths or other reactions that has nothing to do with the vaccines. "In addition to the 329 deaths out of 9,845 cases of COVID mRNA injuries filed, there were also 722 hospitalizations, over 2000 visits to emergency room doctors, 104 permanent disabilities, and 11 birth defects."

[humansarefree.com/2021/01/cdc-329-recorded-deaths-following-covid-mrna..](https://humansarefree.com/2021/01/cdc-329-recorded-deaths-following-covid-mrna..)

It seems, Dr. Mercola that deaths: "Seniors Dying After COVID Vaccine Labeled as Natural Causes" ....or no other death will be attributed to the deadly vaccine. In other words THE COVID VACCINES DEATHS WILL NOT BE TELEVISED. The only things that will be televised, are people rushing in to take the vaccines, the ever increasing covid deaths, vaccines are in short supply so hurry and get yours, vaccines will help blacks and hispanics, old people need to get the vaccines, frontline workers need to get the vaccines, Fauci is a hero, the vaccines will stop the spread (even though the WHO said it won't) Biden wants to get 150 million doses in the ARMS of America, yada, yada, yada, and so on and so forth.

Yet, this is the first time I am questioning your logic with regard to your response to covid and the deaths that continue to follow. Having seen people on my block who follow your sentiments die from covid because they felt CDC guidelines were unnecessary is beyond sad and frustrating. Also, in our community which has a larger senior population than the rest of our population, there have been no reported side effects like you mention from the vaccine. Darwinism will help determine in the end, who lives and dies when a pandemic exposes nations response and those who live/die. Survival of the fittest will rear its head like it always does through the ages.

You are preaching to the choir. We already know there is a cure naturally. This is a war on the people. The criminals are not looking for a cure. This is planned. Most of us know how to beat this virus. That isn't the problem. The question is how are we literally going to defend ourselves because I for one, will never take this vax. So I know my days are numbered. I just wonder, will I run into a forest, will I have to shoot back, will I starve to death while on the run, etc. But no, I will not comply. Freedom over tyranny. "Give me liberty or give me death." But I'll put up a good fight, just like our forefathers! They died for our freedom. What will we do for the future of the children?

My guess is the mRNAs will cause way too much damage, and their emergency use may be rescinded by the FDA in favor of the more standard vaccines. However, they most likely are using PEG as well, so they will have some issues of their own.

Global genocide ! People like Bill gates consider it their 'cause in life' to take up the authority to donate to the preservation of the greater good. While considering themselves the greater good. A power the US Constitution was written to avoid. That those who 'have' should have authority over the 'have not's'. Ironically the Constitution, for the most part, was written by those that were considered the 'haves'.

Wouldn't it be nice to live in a Mercola community village -dreaming, dreaming! A bunch of intelligent, decent people brought together could be a powerful force to fight injustice, demanding transparency and accountability, interrogating and publicizing one corrupted organization after another. One of the first would be papers and TV, even a private enterprise must tell the truth, and give pages to both sides of the topic for balance. Another person ( do not remember who, sorry) mentions it is worth to establish the practice of televised national (international) debates on key subjects like vaccines".

From the article: "The World Health Organization added that since there was "no certain connection" of the vaccines to Norway's deaths, there is no reason to discontinue giving it to senior citizens." Hm-m, shouldn't be the way around - WHO are uncertain, meaning the two events CAN be connected, meaning stop immediately (precautionary principle!) until you are 100% sure there's NO connection! I would like to know who are those people in WHO making decisions, how they make them, based on what? Let us watch televised meetings, who said what, then in future we will hold them responsible.

It is so corrupt and at this point, murderous. I could die for all this evil!!! SteelJ, the only reason why it never happens is because guess what? Nobody holds them responsible. Nobody speaks up. Everybody steps on eggshells ,while fearing stepping on toes. Isn't it about time? I second TTN's motion. The truth does not like to see the light of day, is mightier than the sword, and it is time for lawsuits from every corner of the world, and prison terms for those guilty of crimes against humanity of a highest level. It's called murder. Only those of criminal mentality, lacking in conscience or remorse, are capable of stating such things as "there is not any clear connection"....yeah right. Mirandola, you are right that a big part of the reason they aren't held accountable is people don't speak up nearly enough. But in my opinion the biggest reason is the bad side has done a tremendous job of taking control of the narrative. They have the megaphones. When we speak up, only those within earshot hear us, or the like-minded on sites like this.

They know they can get away with anything when they have a fawning media and any criticism is silenced. Their control of the media, academia, entertainment, virtually all communication that

extends beyond earshot, is what must be changed. That's very difficult because human nature is dead set against it. What type person goes into journalism, education, and the performing arts? Those fields will always be dominated by flaming liberals with minimal critical thinking ability. It wouldn't be too bad if today's so-called "liberals" were actual liberals. There's a lot of good in true liberalism. What passes for liberalism today is something different and sinister.

My husband and I are still making up our mind about getting the vaccine. We can understand the concerns about being on chemo for cancer and the reduced white blood cells and low immune system but what about Keytruda? My husband has been on Keytruda for 3 yrs and his last infusion was Nov. 2020....fortunately that eliminated his metastatic melanoma stage IV,3 brain tumors(radiation) 3 tumors in the right lung and large malignant tumor on right shoulder....Nov 3, 2017 he was given 2-3 yrs to live. Keytruda makes your immune system fight the cancer and increases your white blood cells, but I'm still worried about letting him get the vaccine. I really feel we should just do as we have been doing by staying home. We've both been on vit. D3,K2 for years, zinc, vit. C, astaxathin and more. We're 71 and 73 yrs young and have been very healthy most of our lives. I'd hate to think in the future we would have to deal with a "reaction" to the vaccine. Thank you in advance for any input.

The nurse practitioner at my doctor's office, who I have known for over 10 years, was instructed by her doctor to receive Moderna vaccine. She is 46 years old, had been treated for a year for MRSA infection after removal of infected breasts implants. At one point she was wearing a pump with antibiotics in it because her infection was so serious. She almost died. She complied and got vaccine. Shortly after she knew something was wrong and went to ER. Because she knew what was happening she's alive today. She was paralyzed from vaccine and almost stopped breathing.

After weeks in hospital she is slowly regaining her strength but still can't walk. Diagnosed with Guillain Barre syndrome from vaccination. She is sorry she listened to the doctor. Please consider all aspects before you make decision to vaccinate. You just don't know who will react adversely at this point.

campaign centers on the SNAKE because he has the most egregious contempt of all the plutocrats ~ the SNAKE encapsulates every aspect of the NIGHTMARE AGENDA that your Harari address in Davos makes clear and more so ~

the SNAKE is more extreme and bloodthirsty {at least openly} than all these supposed elites and their Masteras of the Universe fantasies ~ the SNAKE is VISIBLE and not some behind the scenes Strangelovian Controller ~ the SNAKE is the FRONT MAN for this megalomania ~ this is why I assert that fragmenting and diluting the focus by calling for a reckoning with all the 0.1% is not intensifying the resistance but actually weakening it by not forcing any of these villains to be especially PERSONALLY threatened ~ the SNAKE is the "man of action" that dares to state publically that which Davos keeps to itself ~ as a figurehead of EVIL BEHAVIOR the SNAKE must be called out and made to understand that the public is not ready to climb on board the next cattle truck to Auschwitz ~ the other elites see the SNAKE as their litmus test of how far they can go ~ the SNAKE is showing the elites "how" to create a totalitarian DEATH CULT that the public will accept ~ thank you for the link

A Future Vaccine to Prevent Knowledge of Soul and Spirit From The Fall of the Spirits of Darkness (Bristol: Rudolf Steiner Press, 1993; GA 177), p. 85. October 7, 1917 85 – “The time will come – and it may not be far off – when quite different tendencies will come up at a congress like the one held in 1912 and people will say: It is pathological for people to even think in terms of spirit and soul. ‘Sound’ people will speak of nothing but the body. It will be considered a sign of illness for anyone to arrive at the idea of any such thing as a spirit or a soul. People who think like that will be considered to be sick and – you can be quite sure of it – a medicine will be found for this. . . . The soul will be made non-existent with the aid of a drug. Taking a ‘sound point of view,’ people will invent a vaccine to influence the organism as early as possible, preferably as soon as it is born, so that this human body never even gets the idea that there is a soul and spirit. “. . . the heirs of modern materialism will look

for the vaccine to make the body 'healthy,' that is, make its constitution such that this body no longer talks of such rubbish as soul and spirit, but takes a 'sound' view of the forces which live in engines and in chemistry and let planets and suns arise from nebulae in the cosmos. Materialistic physicians will be asked to drive the souls out of humanity."

I am astounded by the level of misinformation in this article, and shocked that you Dr Mercola would put your name to it. I expect you to keep to facts and science. For example (and there are also several other examples) you state "Vaccine Rollout Coincides With Outbreak" and then go on to suggest that the vaccine is the cause of the outbreak and/or deaths in an old peoples home. You shouldn't be stating wild accusations like that unless you have facts and science to back you up. But you don't. Otherwise you are just a conspiracy theorist, a scaremonger and a quack.

I like your health articles that are backed by research and science. I would recommend your site to my friends other than I don't want them to also see the many articles that are basically lies and conspiracy theories. And in many of those articles you extensively quote people who have no medical or scientific training, and who have been shown to be spreaders of misinformation and conspiracy theorists for many years. You quote these people as if they are experts when they are often just idiots looking for the limelight. A quick search of their names on the internet shows how unqualified they are and how they have been discredited. Yet you quote them as if they are experts. Please take your conspiracy theories, negativity and your discredited "experts" to another website, because displaying them here harms the good work you have done on improving health and exercise.

The evidence is clear IF you care to look ...but of course like American courts choose simply not to look when it suits a purpose! Here in UK just two days after lockdowns were lifted the vaccine rollout began ... and suddenly it all became very much worse resulting in another complete longer term lockdown that isn't likely to be lifted until March !Its January of course and in UK that means every year the hospitals are swamped with sickness and Flu ... this year is no exception but is painted as being not flu ( flu is 95% fewer cases) but covid ...everything is covid ! Now in Portugal 4 german tourists were caught up in the system when they were tested and found to be positive with a test that is well known to throw up huge numbers of false positives ! Those 4 took the government to court ... and government was required to present proof of the efficacy of that test ... every knew that couldn't happen ...and so government lost and had to cease testing that way! Beware the new swab testing ... there is some evidence they are using impregnated swabs ...designed to vaccinate without your knowledge!

Here's the original story (NOT written by Dr. Mercola) concerning the New York nursing home deaths. It was written 3 weeks ago!!!

[www.syracuse.com/coronavirus/2021/01/covid-19-outbreak-at-auburn-nursi..](http://www.syracuse.com/coronavirus/2021/01/covid-19-outbreak-at-auburn-nursi..) I'm sure more have died since then, but no one is reporting on it because they are being CENSORED! Per New York governor Cuomo, nursing home residents that die in the hospital are not counted as nursing home deaths. It's hard to get the actual death count at this nursing home since vaccinations took place, but it appears to be over 40 deaths now. Hospice as a lower death rate than this.

A "quick search" leading you to which reliable sources? Snopes? Politico? Yeah. Right. So Dr Judy Mikowits is unqualified? Dr Andrew Kauffman? I have over 1,000 clinical studies from PEER REVIEWED medical journals on COVID and everything related to it. I am in contact with doctors in S Korea and Shangahi and all over the country who are treating COVID patients. I could go on but I have more important things to do than try and convince someone with their head in the sand..... and that's putting it nicely.

shaun6 - please take yourself to another website. You will be much more at home elsewhere. I'm laughing at your comment "a quick search of [Mercola's experts] on the internet shows how unqualified they are and how they have been discredited". If you don't know why I'm laughing at you, try peeling back your eyelids and stop being so intellectually lazy. Actually what sums up your comment so clearly is your "a quick search of the internet" - what a thing to rely upon for truth and honesty!

Why don't you spend all your time on government sites, where they will tell you exactly what you want to hear. What you "choose" to believe, is the opposite of TRUTH! BTW: Apart from the oligarchs and their tyranny, people such as yourself are the biggest problem here and the very reason that this insanity is going to go on and on and on and...Be sure to get all of your "vaccines"! Are you sure your name isn't "Gates"?

shaun6... said to Dr. Mercola."Please take your conspiracy theories, negativity and your discredited "experts" to another website," ....This has to be the most idiotic thing I have seen all YEAR. Dr. Mercola I am sure you are letting this post stay up to give us some good bellyaching laughs. This person came on your website to tell you to take your articles to ANOTHER WEBSITE???

HAHAHA....I am dedicating my favorite Pop Song to you saun6: Bye, Bye, Bye!
