I’ve been warning you about the seeming inevitability of mandatory COVID-19

vaccinations for several months now, and have discussed the ever-tightening grip of media and online censorship even longer. As an independent source of health news, Mercola.com has been in the crosshairs of globalist interests for years, and the attacks are intensifying with each passing day.

While, on the surface, health recommendations and geopolitics may appear to have nothing in common, they are in fact intertwined.

As more and more information about the [Great Reset and the 4th Industrial Revolution](#) is starting to surface, we can clearly see that eliminating medical freedom is a central part of the plot, and mandatory vaccination will be used as a tool to usher in biometrical surveillance and enslavement through a centrally-controlled all-digital finance and identification system.

Intelligence Collective Unleashes Cyberwarfare on Public

While censorship has reached new heights this year, that's likely only the tip of the iceberg. According to recent media reports,^{1,2,3} intelligence agencies are now collaborating to eliminate "anti-vaccine propaganda" from public discussion using sophisticated cyberwarfare tools.

As reported by independent [investigative journalist Whitney Webb](#) in an article for [Unlimited Hangout](#):⁴

"British and American state intelligence agencies are 'weaponizing truth' to quash vaccine hesitancy as both nations prepare for mass inoculations, in a recently announced 'cyber war' to be commanded by AI-powered arbiters of truth against information sources that challenge official narratives ...

Cyber tools and online tactics previously designed for use in the post-9/11

'war on terror' are now being repurposed for use against information sources promoting 'vaccine hesitancy' and information related to COVID-19 that runs counter to their state narratives ...

The UK's GCHQ [Government Communications Headquarters⁵] 'has begun an offensive cyber-operation to disrupt anti-vaccine propaganda being spread by hostile states' and 'is using a toolkit developed to tackle disinformation and recruitment material peddled by Islamic State' to do so.⁶

In addition, the UK government has ordered the British military's 77th Brigade, which specializes in 'information warfare,' to launch an online campaign to counter 'deceptive narratives' about COVID-19 vaccine candidates.

The newly announced GCHQ 'cyber war' will not only take down 'anti-vaccine propaganda' but will also seek to 'disrupt the operations of the cyberactors responsible for it, including encrypting their data so they cannot access it and blocking their communications with each other.'

The effort will also involve GCHQ reaching out to other countries in the 'Five Eyes' alliance (U.S., Australia, New Zealand and Canada) to alert their partner agencies in those countries to target such 'propaganda' sites hosted within their borders."

Vaccine Discussion – A National Security Risk?

According to a November 9, 2020, report in The Times,⁷ the British "government regards tackling false information about inoculation as a rising priority as the prospect of a reliable vaccine against the coronavirus draws closer."

In July 2020, chief executive of the Centre for Countering Digital Hate, Imran Ahmed, told *The Independent*⁸ he considers anti-vaxxers “an extremist group that pose a national security risk,” because “once someone has been exposed to one type of conspiracy it’s easy to lead them down a path where they embrace more radical world views that can lead to violent extremism.”

In other words, Ahmed implies that people who question the safety and necessity of a COVID-19 vaccine might be prone to violent extremism. His statement is no small matter, considering Ahmed is also a member of the Steering Committee on Countering Extremism Pilot Task Force under the British government’s Commission for Countering Extremism.

“It seems that, from the perspective of the UK national-security state, those who question corruption in the pharmaceutical industry and its possible impact on the leading experimental COVID-19 vaccine candidates (all of which use experimental vaccine technologies that have never before been approved for human use) should be targeted with tools originally designed to combat terrorist propaganda,” Webb writes.⁹

Government With Help of Big Tech Is Seizing Online Domains

U.S. intelligence is also part of this campaign. According to Webb, the U.S. government will help the GCHQ determine whether a website is part of a foreign disinformation operation or not. While the GCHQ claims that only foreign state actors will be targeted, and not “ordinary citizens,” there’s little evidence to suggest citizens won’t be swept up in this information blackout operation.

For example, November 4, 2020, the U.S. Department of Justice (DOJ) announced it had seized 27 online domains — including that of the American Herald Tribune —

suspected of being founded by Iranian interests.^{10,11} The domain seizures are said to be part of the U.S. enforcement of sanctions against Iran.

In early September 2020, 92 online domains suspected of belonging to Iraqi government-backed militia were similarly seized.¹² All of these DOJ seizures were done in collaboration with the FBI, Google, Facebook and Twitter.¹³ As reported by Webb:¹⁴

"The U.S. government made this claim about the American Herald Tribune after the cybersecurity firm FireEye, a U.S. government contractor, stated that it had 'moderate confidence' that the site had been 'founded in Iran' ...

It is certainly plausible that GCHQ could take the word of either an allied government, a government contractor, or perhaps even an allied media organization such as Bellingcat or the Atlantic Council's DFRLab that a given site is 'foreign propaganda' in order to launch a cyber offensive against it.

Such concerns are only amplified when one of the main government sources ... bluntly stated that 'GCHQ has been told to take out antivaxers [sic] online and on social media. There are ways they have used to monitor and disrupt terrorist propaganda,' which suggests that the targets of GCHQ's new cyber war will, in fact, be determined by the content itself rather than their suspected 'foreign' origin.

The 'foreign' aspect instead appears to be a means of evading the prohibition in GCHQ's operational mandate on targeting the speech or websites of ordinary citizens."

Clues that U.S. intelligence supports this cyberwar against the public can also be found in a white paper¹⁵ published in the InfraGard Journal in June 2019. InfraGard,

founded in 1996, is a nonprofit national security group affiliated with the FBI.¹⁶ They collaborate on a variety of educational and information-sharing initiatives “that help mitigate threats.”¹⁷

The InfraGard paper¹⁸ claims the American anti-vaccine movement is being orchestrated by Russian government-aligned organizations seeking to “sow discontent and distrust in topics and initiatives that serve U.S. interests,”¹⁹ and that “The biggest threat in controlling an outbreak comes from those who categorically reject vaccination.”²⁰

Does InfraGard speak for the FBI? Not directly, but considering it serves as “a public-private partnership among U.S. businesses, individuals, and the FBI,” according to an FBI spokesperson,²¹ it’s bound to have some degree of influence.

According to The Guardian, the unnamed FBI spokesperson noted that “It is important to distinguish among the statements, views and comments made by official FBI representatives and InfraGard Members.” He or she declined to comment on or clarify the FBI’s stance on whether vaccine safety advocates might be classified as a national security threat.

This Site Identified as a Cyberwar Target

Five sites specifically targeted by the Centre for Countering Digital Hate as promoting extremism that poses a national security risk to the U.K. are:

- Mercola.com
- Children’s Health Defense (run by Robert F. Kennedy Jr.)
- The Informed Consent Action Network
- The Organic Consumers Association

- **The National Vaccine Information Center (NVIC)**

In fact, the organization specifically named yours truly as being one of just two people responsible for funding the “anti-vaxx nonprofits” that have the greatest reach. Financier Bernard Selz is the other. Selz allegedly finances The HighWire and Physicians for Informed Consent, as well as “some of the tech giants that make the modern anti-vaxx movement possible.”²²

It was really entertaining to read what the Centre for Countering Digital Hate wrote about me in their report, as I consider their disparagement a badge of honor. I encourage you to read it.²³ For example, they commented that we have a decreasing Facebook following. Well that isn't surprising at all as we haven't posted for 18 months as a part of our “Forget Facebook” campaign. As noted by Webb in her article:²⁴

“It is worth pointing out that many so-called ‘anti-vaxxers’ are actually critics of the pharmaceutical industry and are not necessarily opposed to vaccines in and of themselves, making the labels ‘anti-vaxxer’ and ‘anti-vaccine’ misleading.

Given that many pharmaceutical giants involved in making COVID-19 vaccines donate heavily to politicians in both countries and have been involved in numerous safety scandals, using state intelligence agencies to wage cyber war against sites that investigate such concerns is not only troubling for the future of journalism but it suggests that the UK is taking a dangerous leap toward becoming a country that uses its state powers to treat the enemies of corporations as enemies of the state.”

Intelligence Apparatus Weaponizes ‘Truth’

Indeed, it certainly appears as though the U.K. and U.S. are now lumping enemies of the state and enemies of private companies into the same category. If you criticize one you criticize the other. In short, if you impede or endanger the profitability of private companies, you are now viewed as a national security threat.

“Primer’s ultimate goal is to use their AI to entirely automate the shaping of public perceptions and become the arbiter of ‘truth,’ as defined by the state.”

Importantly, the right and freedom to critique one’s government is a hallmark of democracy, so this state-sponsored war against truthful information is in turn evidence of a radical detour from democratic rule. Technocratic totalitarianism is quite literally banging at our front door. As reported by Webb:²⁵

“Similar efforts are underway in the United States, with the U.S. military recently funding a CIA-backed firm – stuffed with former counterterrorism officials who were behind the occupation of Iraq and the rise of the so-called Islamic State – to develop an AI algorithm aimed specifically at new websites promoting ‘suspected’ disinformation related to the COVID-19 crisis and the U.S. military-led COVID-19 vaccination effort known as Operation Warp Speed ...

In early October, the U.S. Air Force and U.S. Special Operations Command announced that they had awarded a multimillion-dollar contract to the U.S.-based ‘machine intelligence’ company Primer. Per the press release,²⁶ ‘Primer will develop the first-ever machine learning platform to automatically identify and assess suspected disinformation ...

Primer's ultimate goal is to use their AI to entirely automate the shaping of public perceptions and become the arbiter of 'truth,' as defined by the state ...

According to Primer's director of science, John Bohannon, 'Primer will be integrating bot detection, synthetic text detection and unstructured textual claims analysis capabilities into our existing artificial intelligence platform currently in use with DOD ... This will create the first unified mission-ready platform to effectively counter COVID-19-related disinformation in near-real time ...

Given that the Covid-19 vaccine candidate produced by Pfizer is expected to be approved by the end of November, it appears that the U.S. national-security state, which is essentially running Operation Warp Speed, along with 'trusted messengers' in mass media, is preparing to enter the second phase of its communications strategy, one in which news organizations and journalists who raise legitimate concerns about Warp Speed will be de-platformed to make way for the 'required' saturation of pro-vaccine messaging across the English-speaking media landscape."

Protect Your Human Rights

As mentioned at the beginning, health and geopolitics are far from separate issues. One is feeding into the other, as mass vaccination is being used as a way to implement a whole host of "new world order" directives, including the introduction of an all-digital centralized currency model tied to digital IDs and a social credit system.

Together, all of these bits and pieces will allow an unelected technocratic elite to dictate every facet of your life, from where you live to what you own (which **according to the World Economic Forum will be nothing**). For an introduction to this globalist

takeover, which is now being rolled out at a rapid clip, see James Corbett's report featured in "[What You Need to Know About the Great Reset.](#)"

As for the sharing of information, it seems inevitable that the attacks on Mercola.com will intensify. Already, Google, Facebook, Twitter and YouTube have either throttled down or banned our online presence, making it very difficult to find and share our content.

So, if you find value in these articles, be sure to subscribe, encourage your friends and family to subscribe, and share articles via email. At the bottom of each page, you'll find an "Email Article" button that makes it easy to share. Also consider eliminating Facebook and all Google-based services from your life to cut down on their data mining of your personal information.

Remember, your personal data is being used against you. It's fed into machine learning programs that train artificial intelligence, which is then used to manipulate you and shape your perception of the world. This technology is so sophisticated, most don't even realize it's happening in general, let alone that it's happening to them specifically.

To say that we're living in extraordinarily dangerous times would be an understatement, but if we keep our wits about us and continue to share the facts and coordinate our resistance, we still have a chance to turn away from the dystopian future that has been planned for us. For some encouragement, listen to Kennedy Jr.'s speech in "[Hope Despite Censorship.](#)"

Dr. Steven

There is a huge difference between truly dangerous, "hate" promoting , fraudulent websites and this excellent site offering fact-checked articles that often challenge conventional, Big-Pharma influenced views on health. Millions of people are seeking and finding alternative information in response to the biased corporate media reporting on vaccine safety and, since March, biased, fear-inducing hyperbolic reporting on Covid-19--fear which serves attempts at manipulating the public to submit to social control, and frighteningly, possible "mandates" for Covid-19 vaccines.

I stand with Dr. Mercola and my fellow "Mercolians" as we seek to share information and our views with a common goal: promoting holistic health and freedom to make decisions about our health. The trends outlined in this and other article are truly troubling, for if these plans take shape and effectively eliminate alternative views under the false charge of "extremism," we will witness the eventual dissolution of the freedoms and liberties enshrined in our US Constitution and are considered normative in most Western countries. This plays into the hands of the "Great Reset" crowd. The increasing protests against lockdowns and other social controls is a positive sign that when pushed, people will fight for freedom. God Bless you, Dr. Mercola. Many of us will stand by and support you and fight for health freedom.

Yes, Dr. Steve, we need the path that leads to health, we need doctors of alternative medicine advocates of applying preventive and curative methods without damaging the immune system of people. Politicians in a large majority corrupt, allies of an extreme technological advance that observes us that directs us, who only look after the interests of power and profit and the support of the monopolies of great fortunes, are largely responsible for the dehumanization in which the world lives on all fronts of our existence.

The importance of immune health and the defense of true medicine. We do not want philanthropy of guaranteed refund multiplied in corrupt profits. "Scientific" journals like the New England Journal of Medicine are financially surviving in large part due to pharmaceutical advertisements and donations from sources like the Gates Foundation, so perhaps Bill Gates appears to have received a free license to publish in the New England Journal of Medicine, even though he is not a

physician, epidemiologist, public health expert, or academically qualified to write for our most revered medical journal.

The exceptional world situation requires us to be wise, to distinguish between truth and lies and act accordingly. Academic circles and the media are also not up to their responsibility, they are proving to serve the great monopoly of money and power. Let's look for a horizon of hope. The false PCR tests, the danger of masks, the origin of the virus are being denounced. This spirit of denunciation must be enhanced because these strategies that are used by our governments as the exclusive argument to apply and justify their policy of severity, austerity, isolation and aggression against our freedoms, with the impossibility of traveling, meeting, living normally, to impose a vaccine that is against the personal decision to preserve health. Yes, blessings to Dr. Mercola and wishes that he continues to enlighten the minds of people who love health and freedom.

Agree 100%. Truth is beginning to have no meaning unless it is what the government tells us. When does the war against our politicians start? We outnumber them big time.

Robert F. Kennedy, Jr., sent a message to people around the world who realize that they are seeing their freedoms taken away. In solidarity with the citizens who participated in demonstrations in at least 15 countries to protest against the global movement towards totalitarianism. In the speech he said:

“They need to clamp down censorship because censorship is the most important right in our country. We put it number one – the first amendment of the Constitution – because all the other rights depend on it. If a government can hide what it’s doing it can get away with anything it wants. If a corporation can lie to you and conceal information, if there’s no transparency in a democracy, you do not have a democracy. So, if you want to get rid of all the other rights like freedom of assembly – which you are exercising today, some of you are exercising at great threats. Some of you will suffer. Some of you will be jailed. Some of you will suffer injuries. But that is a basic right: the right to freedom of expression, the right to jury trial, the right to freedom of religion, the right to privacy, the right to have governments that don’t spy on you and keep your information. All of those other rights can only be subverted if they begin by imposing censorship – by being able to silence people who want to speak”. <https://youtu.be/NpMWDCX1yMI>

Also a quote from his father : “Few will have the greatness to bend history itself, but each of us can work to change a small portion of events. It is from numberless diverse acts of courage and belief that human history is shaped. Each time a man stands up for an ideal, or acts to improve the lot of others, or strikes out against injustice, he sends forth a tiny ripple of hope, and crossing each other from a million different centers of energy and daring those ripples build a current which can sweep down the mightiest walls of oppression and resistance.”— Robert F. Kennedy

At LEAST \$18 Billion USD has gone into R&D for these new vaccines, that amount does not include additional billions needed for transport, storage and distribution, You may as well call this a reset of monetary policy, where the warped Bill & Melinda Gates Foundation ideology that stands for weakening individual immune systems,(and has routinely been killing and maiming malnourished children in Africa, India and elsewhere under the guise of philanthropy), is placing their interests above all others. This is only 1 virus out of a thousand possibilities. Blown completely out of proportion, health care is now killing and maiming more, due to fear, neglect and misdiagnosis. Mainstream corporate media's daily reporting of so-called facts is so skewed to be intentionally destructive...fearmongering with masks and social distancing. Scott Atlas just quit the White House task force. Something's gotta crack this intense racketeering open for all to see.

Yes, the increasing protests are indeed signs people are getting wise on a massive scale. We must remain calm, firm, and reasonable and let the defenders of the lies hoist themselves with their own hysterical petards, like the absurd attempts to restrict Thanksgiving holiday gatherings in the US, which even people on the staffs of the misguided governors openly defied.

But generations of brainwashing can have lingering effects that are hard to get rid of. Even in the excellent book Stan cites, *Dissolving Illusions*, Dr. Humphries hasn't fully shaken the notion that the polio virus has some impact on poliomyelitis when all the evidence in the book itself points to the condition being absolutely due to poisoning, its US peak incidence having followed peak use of paralytic pesticides such as DDT and more importantly BHC (benzene hexachloride, to which Humphries gives little attention, but the original sources indicate was the greater culprit) in the mid 20th century. Yet in the book, in spite of all that evidence that poliomyelitis is strictly of toxic origin and the polio virus a harmless enterovirus that had just come along for the ride in many cases; she still implies that the vaccine transmits the virus, causing poliomyelitis, when the evidence is more consistent with the poisons in the polio vaccine itself causing paralytic disease, as they do from other vaccines as well, most notably the tragically injurious and ineffective HPV vaccine.

As alarming as these developments are, they are indicators of desperation: a desperate recognition that the truth cannot be bought or sold. And the greater extremes to which these forces of genuine misinformation go, the more people shake their heads and say "no".

Not sure how long this charade can continue...Break a law>>go to jail...Shred the 1st Amendment >>get rich??? All I hear from the consolidated standardized media is PRESSURE! How arrogant to presume to tell me what to think! About EVERYTHING! So I salute all these overeducated idiots and professional propagandists who are always wrong... with my middle digit.....A local university professor was tapped with the task of overcoming "vaccine hesitancy" and quickly decided to use celebrity endorsements..couldn't stop laughing...How bout some balanced and unvarnished facts instead of a seductive sales job? I get the Yiddish translation of "trust me."

I agree - learning important info as to what works to build immunity for this virus and any future

virus including the flu! (given some of our poor immune responses) - to minimize contracting this virus should we get near it, and how to respond if we do. The death rate remains nearly unchanged last year to this year! How much longer can they keep up the hoax? As long as Dr Fauci and Dr Birx keep hounding everyone with fear and loathing??? Many younger Americans ignoring their warning repeated too many times, along the lines of the boy who cried "Wolf", and felt it was more important to visit family over the holidays...only time will tell.

When it involves lost of money and power, times have changed, but nothing has changed. When it came to the signing of the Declaration of Independence, which was originally written by Thomas Payne, and later rewritten by his friend Thomas Jefferson; most of the Continental Congress were afraid to sign it for fear of being put on a English hit list. It was only completely signed after the war. Payne was already on the English hit list for his writing of Common Sense. Today they hide in the shadows and create fear and since it deals with the economy the government won't protect you. So much for the freedom so many fraught and died for.

The U.K. Daily Mail had an article about the ten untrustworthy sites for medical advice. Mercola was listed near the top. I wrote in the comments section that I found Mercola trustworthy. My comment was taken out by the moderators. I wrote a second comment saying 'Wow the Daily Mail is censoring free speech.' That was also taken out and they sent an email direct to me, stating that they have had complaints. Well, there wasn't time for a complaint. It came directly after my second email. I deeply suspect that they have an agreement with big Pharma. We will advertise with you if you moderate criticisms.

What is the point of a reviews page, if it is going to be censored? This has to somehow stop everywhere. For example, Google Reviews for healthcare providers are censored too. If you leave a negative review it often "disappears." Disgusting.

I post in the UK Daily Mail to give a window to North America and criticize the fraudulent reporting when it is totally horrendous. I'm quite persistent and I do get quite a few comments printed with valuable information. I'm sure that I've posted Dr. Mercola, Osteopathic doctor at least six times, if not more. I cite that his information about Covid is very useful and he tells you things like using a nebulizer that you can purchase on Amazon and lets you know what to put in it. I also write that Dr. Mercola has no hidden agenda and his interests are in the wellbeing of humanity. Sometimes I put Jon Rappoport's credentials in the comments and recommend reading his work as an investigative reporter for well over 30 years. (Think Jon's in his 80's now).

What's happening in the UK is truly shocking. The lockdowns are bizarre and often make no sense. Lots of people like me point out that the death rate is no different than it usually is. If I'm really

annoyed I write stuff like, what do you think, with the huge number of seniors, born at the end of WWII reaching their elderly years, isn't there bound to be an increase of deaths anyway??! I've also written that it is an abuse of Human Rights to make vaccine mandatory. -And loads of people feel the same way as I do about this.

I'd say that the ratio of those understanding that there could be danger in the vaccine(s) now outnumber the idiotic comments from those who are so frightened they apparently want to be first in line. Some of them I'm very nice to and say I understand how you feel, but please consider this - in my research the vaccine that has to be stored in dry ice is the one that could contain a micro chip so I'd certainly be very careful about that. Freedom of speech is important and the only way to fight this "takeover" of what used to be a sane world, is to speak out about the truth. The UK Daily Mail is the worst rag I've ever read. It should really be sued for libel.

Yes, Daily Mail is part of the great power that defends lies. We have the right to express our opinion and propagate true science, as strongly advocated by Dr. Mercola and other independent doctors and media. Social media could make an important contribution to educating and empowering people, but their work is the complete opposite of misinformation and lies. In 1883, John Swinton, former veteran of the New York Press Corps, delivered a speech to fellow journalists on the occasion of his retirement. This honest and sharp reckoning with his own guild is highly topical and not only concerns the United States:

"There is no such thing as an independent press in America, (...) You are all slaves. You know it and I know it. Not one of you dares to express an honest opinion. If you expressed it, you would know in advance that it would never appear in print. (...) The journalist's business in New York is to twist the truth, to lie bluntly, to pervert, to revile, to grovel at the feet of mammon, and to sell his own country and people for his daily bread, or, which is the same thing, for his salary. (...) We are tools and servants of rich men backstage. We are jumping jacks. They pull the strings and we dance. Our time, our skills, our life, our possibilities are all the property of other people. We are intellectual prostitutes. "

We are in a learned behavior driven by a large array of media that serve the corrupt oligarchies. Esyo causes the subject to behave in a passive way, with the subjective feeling of not being able to do anything to change a certain situation. They are robbing us of responsibility because they are robbing us of the will to be free. Let us hope that the light enters the people of good will and the fight against corruption that Dr. Mercola shows us in his excellent reports, is a hope for a humanity sick from the loss of freedoms.

A generation ago it would have been incomprehensible for the media in so-called republics and democracies to be just as propagandists as the Soviet era Pravda. Yet it has become so. It would be a good idea to send another last email saying you have found Mercola's information very useful for your health, so you can no longer take the Daily Mail seriously for health advice, and most of your friends agree.

Oh the DM is just another Govt and Industry mouthpiece. The comments sections are filled with Paid Schills. You can usually spot them taking the first line of defence: name-calling, ridicule, abuse. Sometimes they have a go at sounding like "normal" people - "well done the Scientists". And you get the same ones relentlessly (I mean that) commenting on each new comment. One called Katie from Birmingham actually said last week that before the polio, etc vaccines, "most people died before adulthood". So, in the 1950s, most children died before reaching the age of 18!!! You only have to see how the DM describes Andrew Wakefield in headlines . . . "disgraced doctor A....." It's always good to read and comment on the Paid Schills offerings because it might mean you get another person realising how ridiculous their comments are.

Hi there Roger, I too have posted on the Daily Mail websites, & had the comments removed. The paper is so full of hatred, lies, & stirs up such divisions. it is frightening what's happening here, but I won't give up. I'm 77 years old, & was told by my Dr, that me & my Husband, were the only people she knew who didn't take any drugs. I'm sick of being told I'm against Vaccines, just because I refuse to have one. There are very good reasons for my refusal (along with my Husband) I was given Thalidomide , after being told it was totally safe, & my baby Daughter died. I was given another " safe " drug, (Opren) and my eyesight became really bad. THEN the Dr told me to stop taking them, as 83 people had died, & they were being removed from the market. I'm old enough to know of many many so called " safe " drugs that have been taken off sale. Why would I want to risk going through the hell of side effects, to take this drug, that's been around for all of 5 minutes.

i ask myself, why can't these companies be sued if there are any problems with the vaccines. If they don't have faith in them, why would I pump this stuff into my body. WHY are they saying it's going to be given to the elderly first...is it so that if we die, they can cover it by saying " Oh well, they were old anyway " & write covid on the death certificate. I shall continue to live quietly here on the stunning west Coast of Scotland...with no neighbours, no other houses in sight, !0 miles from the nearest stores, & just eat my organic food, take my Vitamin d3 + k2 Vitamin c,etc ! & sing & be happy ! I feel so much better after that rant...& Retsbew, I agree with all your comments as well. I'll take a deep breath now guys, & go out into the garden, to get some spinach & carrots for the soup we're having for tea ! All the best out there, & remember...our bodies belong to US & are not there to be used by anyone else. in any way they think fit. we'll get through this if we stick to our guns, x

That you have been targeted and named is very disturbing. In years of reading your articles, and buying your excellent supplements, I have learned much about the facts about vaccinations, but would hardly label you an 'anti-vaxxer'. As I understand it, you a) present the facts, and b) advise caution where appropriate. But then, the US government is apparently not interested in facts, only in helping ensure its corporate sponsors are happy.. So much for freedom of speech - as you say democracy is crumbling and being replaced by technocratic totalitarianism. Some might even say that there is no effective democracy left. Human and civil rights are fast disappearing everywhere in the world. Censorship is being normalized. I really hope you can take some technological counter-measures to protect yourself and website from government attack.

The reality is, he would be fighting a losing battle, because for it to be effective, would require the use of the very medium referred to. Remember a few years ago, the number of alt medical practitioners who "disappeared" in the Florida area? Erin Elizabeth was trying to get to the bottom of it at the time. I was hoping she would desist. I've mentioned a number of times here that we are going through an inevitable, and predictable cycle, and those who think they are responsible for such events, are just catalysts for those shifts.

Yes, we are with Dr. Mercola who provides us with valuable information, with great value and dedication for the defense of the rights and freedoms of people. We must fight irrational fears as a means of discipline and domination. BigPharma, BigData, and all major corporations, institutions, and philanthropists are openly censoring dissenting views on the virus, particularly its origin and treatment. Even praised doctors and scientists have been censored and fired for speaking out against the desired narrative dictated by BigPharma, the WHO, and their powerful allies. They are the modern dictators or so-called "philanthropists" who deliberately feed this fear to satisfy their lust for power and discipline and to dominate the people. It is the work of the devil and not the work of Creation, which wants a true democracy that defends its citizens.

When citizens control their fears and panic, they see through the lies of the oligarchies with their technological display and diabolical plans. This is why the media constantly feed people's natural fears of illness and death. This leads to a flood of reality and a high level of aggressive emotionality that blocks the spirit of truth and the need for denunciation. Let's fight to defend our freedoms !!

From James Corbett (CorbettReport.com), WHEN FALSE FLAGS GO VIRTUAL

www.minds.com/CorbettReport/blog/when-false-flags-go-virtual-117996908.. [E]xactly as the Patriot Act was already ready and waiting in the wings pre-9/11, so, too, is an "iPatriot Act" ready and waiting in the wings for a "cyber 9/11" to come along and justify its enactment. So what kinds of things might be contained in such an iPatriot Act? Once again, we don't have to speculate. Various government officials have talked about their wish list for an internet clampdown in recent years. • In March of 2009, Senator Jay Rockefeller opined during a subcommittee hearing that the internet is proving to be such a threat to America's national security that it would have been better if it had never existed.

• In June of 2010, Senator Joe Lieberman stated that he believed the US needed the same ability to shut down the internet as China currently has. • Also in 2010, Microsoft Senior Advisor and Bilderberg attendee Craig Mundie called for the creation of a "World Health Organization for the internet" and suggested creating government-issued licenses to authorize internet usage. • In 2011, Bill Clinton advocated the idea that the US government create an agency for "fact-checking" websites on the internet. • In 2015, the National Institute of Standards and Technology (yes, that NIST) unveiled the "Trusted Identities Group," part of a national strategy for standardizing online identification systems.

Yes.. all planned out, and was predictable long before the current " players" came about, including the ones you listed. Much of the world is in a predictable mess, and many different cultures, religious and philosophical have their own interpretations of what is happening , from Armageddon to the dystopian New World Order. I've got news for you folks. Those interpretations of our future are based on past beliefs and experiences. We are FAR greater than the sum of those obsolete parts. Even those who arrogantly believe they are the architects of current events are merely" players " in the drama. Shakespeare was totally correct with that statement. The play has already been written (DNA is a clue here), and this is just one more " act"

Yes, David, false flags are being waved against those who defend true science, independent journalists, the internet, the doctors who oppose the blocking measures, in short, about the truth. A big recognition of the excellent work of Dr. Mercola for the defense of justice, liberties and health. In return we have cyberterrorism and statements to promote fear Bill Gates: "We can't predict when, but given the continual emergence of new pathogens, the increasing risk of a bioterror attack, and the ever-increasing connectedness of our world, there is a significant probability that a large and lethal modern- day pandemic will occur in our lifetime. "

Large corporations, especially chaired by BigPharma and BigData are waving their flags, the lies about the deaths by Covid that promote the advertising of drugs and vaccines, is in the war of gold that has become an important source of income for companies In the media, reports on health and medicine again wave the flags of corrupt power. All social media platforms are openly censoring dissenting views on the virus, in particular its origin and treatment. Even praised doctors and scientists have been censored and fired for speaking out against the desired narrative dictated by BigPharma, the WHO, and their powerful allies. The pharmaceutical industry also controls fact-finding organizations like NewsGuard, with the support of BigPharma. The main media continue to report a number of deaths from Covid that does not adjust to reality, which increases fear, facilitates the propaganda of vaccines and implement strategies to limit our personal freedoms and rights.

The general conclusion of a new study published by Dr. Genevieve Briand is that Covid-19, declares the deadly disease that is currently touted. "These data analyzes suggest that in contrast to most people's assumptions, the number of deaths by COVID-19 is not alarming. In fact, it has relatively no effect on deaths in the United States. " "This suggests, according to Briand, that the COVID-19 death toll is misleading. Briand believes that deaths due to heart diseases, respiratory diseases, influenza and pneumonia may instead be recategorized as being due to COVID-19. " Furthermore,

Briand's research notes that the percentage of death has remained relatively constant through all age groups. Covid death statistics seem to mirror the normal distribution of death amongst age groups, further lending credence to the argument that many Covid deaths are recategorized deaths. www.globalresearch.ca/new-study-highlights-alleged-accounting-error-re.. Big Fletch, rather fatalistic and Skinnerian the way you offer it up. Life may be a stage with us as the actors as per Bill Shakespeare but the strength of BS's plays is that the protagonist's fate was largely tied to a personal character flaw. Whereas DNA (tell me more about the "clue") plays a significant influence on the actors it does not set them on an inevitable train track. With minimal imposition of censorship in a free and open society we also have latitude and freewill.

David; we are definitely on the precipice here. The "Great Reset" is accelerating. In an article that I posted way down this page, it looks as if our "leaders" are still working with Wuhan, China and I'm quite sure that there will be vaccines coming out of China, or at the very least, many vaccine "ingredients" will come from there. "For BetterLife, a study in February led by Canadian researcher Eleanor Fish in Wuhan, China, that showed promise for interferons in treating COVID-19 emboldened Daroudian's team, who went full-speed at reformulating its discovery, with an incredible level of co-operation wherever they turned." That sounds to me, as if all the governments are working together to bring down humanity!

A new humanity governed by democratic principles The changes will not take place without political will and decision, managed by powerful corporations, we need to amplify our voice, until it becomes deafening. Dr. Mercola is a great leader who broadens our voices and makes us participate in the awareness of the injustice of the system in which we live, we need another society where dignity and the common good are the basis of a true democracy.

“Each time a man stands up for an ideal, or acts to improve the lot of others, or strikes out against injustice, he sends forth a tiny ripple of hope, and crossing each other from a million different centers of energy and daring those ripples build a current which can sweep down the mightiest walls of oppression and resistance.”

The reset is internal -- Christ as your Savior, and applying the Truth of God's Word to your thoughts and actions. Would it be that everyone would have that "Great Reset" as what happens when you let Him be the Lord of your life. But alas, His Word also says that in the end many would be lovers of self, and accept evil as good and good as evil. It does not say that His people need to follow that -- but the Word also says that even some of the elect (those who've claimed Christ as Lord) would be deceived. I see that in my own circle of believing friends! We must pray for Dr. Mercola! Oh God, we lift the courageous Dr. M to your loving embrace, give him Your wisdom and Your courage, to speak the truth about our health and the lies we're being fed by the main media. Jesus protect him and guide him as he writes and speaks and thank you for providing this source of information through Dr. M., may we internalise the information and apply it along with the Truth of Your Word. In the matchless name of Jesus Christ the Messiah and Coming King, Amen.

social norms that are totalitarian in their push for regulation of behavior ~ these retards and half wits want to control the social discourse so that there are no CRITICAL voices ~ only "yes men" and Yes women" are the NEW BREED of CONFORMISM that these Grundy types will countenance ~ they attack anyone that differs in opinion to their acceptance of the PROPAGANDA NARRATIVE ~ from what I can gather through a quick research these agents of social repression are mentally challenged half wits that like the three monkeys wish to see/ hear/ speak NO EVIL but on the contrary demand that society be shaped by their blinkered and dogmatic standards ~ this is all very well for the return to the Dark Ages of superstition and obedience ~ these people know nothing and wish to proudly proclaim their IGNORANCE by subjecting others to their hollow lives ~

Dr Mercola I am starting a Center for Advanced Human Beings and I would like to select you to our Modern Day Heroes ~ this makes more sense than acknowledging this Hate Platform that wishes to disguise its intent by claiming that it has the sole rights to Moral Rectitude and MORAL Behavior ~ these Orwellian impostors should be ridiculed or even better dismissed as emotional cripples who have nothing better to do than SUPPRESS the TRUTH

Well expressed Stan, Dr. Mercola is recognized around the world for his courage, honesty, and advocacy for health and freedom. In today's culture of hatred and misinformation, it marks the individual's path of submission to lies and inevitably falls under the influence of the desire for power and domination. The illusion of helplessness takes hold of the soul of the individual at a time when he has neither a conscious vision nor a developed sense of justice. Our task for the future is, therefore, above all to nurture and strengthen feelings of solidarity and the struggle for rights and freedoms.

Humanity is subject to constant change with great influences and interests from different "power groups", with objectives of a marked economic and political nature, which push us to remain passive, to depend on their control, to take control of our thoughts, to know what what we do, where we buy and what we buy for. The dehumanization of people is governed by extreme technological advances that hypnotize us, make us addicted and obscure our vision of reality.

Politicians fall prey to the leaders of large corporations imposing a domination strategy based on personal interests and the corporations they serve. They are allies of an extreme technological advance that observes us that directs us, that only look after the interests of power and profit and the support of the monopolies of great fortunes, they are largely responsible for the dehumanization in which the world lives on all fronts of our existence.

The civilization of wealth and power marginalizes, undervalues and excludes true thought of struggle against freedom. This culture makes people fail and what is worse, they feel like a failure, it makes them feel helpless, that they cannot control the situation and reach a state of helplessness. We are in a civilization of intolerance that has a lot to do with dogmatism, with authoritarianism and with force and imposition. Let's fight to defend health and freedom.

Exactly, Stan, and hysterics such as the "bans on Thanksgiving" are indeed being met with ridicule! And Christmas is coming. They keep up the absurdity and Christmas may indeed be coming for lovers of liberty as these fools are hoist with their own ridiculous petards. We may be Davids against Goliaths, but there are at least hundreds of millions, if not billions, of us highly motivated Davids, and their efforts to recruit ill-informed Davids of their own are increasingly backfiring, as our numbers and more importantly motivation and steadfastness rapidly increase. Their hysterics

betray their loss of control, as they have turned up the heat too quickly, the frogs they wish to boil are leaping out en masse, and do so ever faster as they turn up the heat all the more.

When approaching a Confederate camp the great general Grant said he had a lump in his throat that kept rising, and upon reaching the camp found it abandoned. He said then his throat resumed its place, as it dawned upon him that they were just as afraid of him as he was of them. It was a point of view he had not considered before, but never forgot since. These desperate measures to cover up the truth are as foolish as trying to cap a volcano that is about to blow. They are signs the truth is coming out and the propagandists are really getting desperate. Do keep us informed of your Center for Advanced Human Beings, Stan.

It is a Badge of Honour that Dr Mercola has been targeted by Big Pharma and Big Tech who would use money, influence and power to destroy the health and well-being of others. While they use propaganda to brain-wash the public there is one vital element that is missing. And that is a proper DEBATE, on vaccines. The fact is, these companies are frightened of a public debate. They know they will lose. And when top lawyer Lin Lincoln Wood accuses Bill Gates of experimenting on children in India, Gates doesn't take him to court. Because the truth would come out.

Again, like Dr Mercola, Robert F Kennedy Jnr has exposed so much of what is going on behind the scenes, and again no-one dare take him to court, or debate with him. They are frightened. Because when the sun comes out the shadows scuttle away. If you can't win a debate - you close it down. And that is what Big Pharma and Big Tech are doing at every opportunity. But it is also their weak link, their Achilles heel. So how do we get a debate? Perhaps a huge multi-media concerted publicity campaign that reaches everyone challenging these people to a real conversation on vaccines. Call them out for what they are doing. So either they have to respond in court, or on main stream media. If they do NOT respond - then the accusation can be made that they have something to hide.

A lot of people are undecided about vaccines and I am sure support would come from the many people who want to know the truth about their side effects. Any failure of the Big Pharma opposition to accept the challenge of an open debate would surely add suspicion in the public's mind and open the way for

further revelations. What we need is the vehicle to take the attack to the enemy. That's the only way I can think of to break through the Tsunami of lies we are facing. There are a number of top people who are opposed to vaccines across the world, and to fight together under one banner could be the difference between defeat and victory.

Yes, NW, a great recognition to Dr. Mercola for his great qualities in defending the rights and freedoms of people. True science is being fought, the one that tells the truth as Dr. Mercola and Robert F. Kennedy, Jr. All in exchange for obtaining political and economic benefits for the large corporations that only contemplate a diabolical plan to accumulate more power and money, taking away civil liberties and rights from citizens.

The pandemic has revealed how the medical-political complex can be manipulated in an emergency, a time when it is even more important to safeguard science. The response to the pandemic depends on the technocratic power of bogus scientific scientists and other government-appointed individuals with troubling competing interests, including revolving door holdings in companies that make COVID-19 diagnostic tests, treatments, and vaccines.

Science is suppressed, whether by delaying publication, selecting favorable research, or muzzling scientists, it is a danger to public health, causing death and suffering, misery and hunger. We cannot allow the true champions of freedom to be censored.

Posted On 12/01/2020

Robert F. Kennedy, Jr., sent a message to people around the world who realize that they are seeing their freedoms taken away. In solidarity with the citizens who participated in demonstrations in at least 15 countries to protest against the global movement towards totalitarianism. In the speech

he said:

“They need to clamp down censorship because censorship is the most important right in our country. We put it number one – the first amendment of the Constitution – because all the other rights depend on it. If a government can hide what it’s doing it can get away with anything it wants. If a corporation can lie to you and conceal information, if there’s no transparency in a democracy, you do not have a democracy. So, if you want to get rid of all the other rights like freedom of assembly – which you are exercising today, some of you are exercising at great threats. Some of you will suffer. Some of you will be jailed. Some of you will suffer injuries. But that is a basic right: the right to freedom of expression, the right to jury trial, the right to freedom of religion, the right to privacy, the right to have governments that don’t spy on you and keep your information. All of those other rights can only be subverted if they begin by imposing censorship – by being able to silence people who want to speak”. <https://youtu.be/NpMWDCX1yMI>

Thanks Gui - right on target as usual. Today in the UK, Politicians are soon to vote on whether to continue with the diabolical lock-downs or continue with what is called a Tier System. Both are the work of the devil!! I have emailed my Member of Parliament to say: ""If you vote for more lock-downs you will be personally complicit in a crime against Humanity. I'm afraid our people have been crushed by lies, propaganda, and undoubted evil from elements in the Government or their advisors. And those who have woken up to the corruption and deliberate fear-mongering under the smoke-screen of "Covid" are being brutalized by Stasi-like state police simply for peacefully protesting. This is made worse by censorship and by omission of truthful reporting. It is truly beyond despicable in a country which prides itself on Democracy and Free Speech."" And so Gui - your second excellent post with an uplifting quote from Robert F Kennedy Jnr is a perfect antidote to the poisonous web that is being spun by Big Pharma, Bill Gates and Big Tech. I very much appreciate your discussions and interviews with researchers looking into alternative treatments and mechanisms of action. As I see it, the technocrats use of artificial intelligence seems to be regarded as having the power of God, which it doesn't.. Anything unnatural or artificial like AI, or vaxxes, or plastic flowers, are cheap knockoffs made by "ego-conscious-matrix mind", and can be trumped by the "God-Christ-Truth mind" (GCT mind). How we effectively oppose the technocratic tyranny is to align and resonate with the GCT mind which operates on a whole different "system" / frequency. By realizing that the ego is the liar within, and by not listening to its programmed fears and arrogant snivelling and believing in the truth of God, you can rise above all the increasing dehumanization of the artificial world.

.. What is happening to our beloved Dr.M, as a symbol of the unnatural silencing of all, is unacceptable - and I pray that God sees his love of truth and health for humanity - and we all, as a loving health community have our voices protected. God bless ..

Dear Luvvy your words are being enlightened by the Creator's force "Every one of us needs to channel our supernatural inner strength and get noisy and spread what's right to others, remembering the truth of the heart's resonance. Yes, we have Dr. Mercola in our favor who projects the truth to us, who pursues a world where humanity can live with dignity, with democratic values, with freedom. We cannot allow our ideals to be denied because oligarchies mark the course of a

nation, with politicians fighting for power sustained by technocratic forces. The ego and narcissism grow with power like a contagious disease that spreads in an environment where wealth determines the breadth of the field of action, where lies and manipulation of the passive masses will reign.

As Dr. Mercola pointed out, and we all feel it, we live in an economic system that works to favor 1% of the world's population with a power that is being used to manipulate the system and thus further widen the gap between rich and poor. It is a virus that affects humanity, it is the true pandemic of a decaying civilization. This humanity is being deceived, techno-fascist manipulation and a direction to transhumanism devoid of soul and ideology, which renounces the word of God. Let's keep an eye on hope because great corruptions unleash passions and rebellion to achieve a better world. A new world order cannot be created by the nations without the support of the people, a democratic attitude is needed, away from the corporatocracy and techno-fascist currents and that needs to be grounded by a world ethic that is supported and lived by people of all ages. cultures based on human values.

You are quite right Luvvy. The artificial and the mechanistic approach does not resonate with the human soul. No-one's ego can bring to life compassion, love, inspiration, Grace, intuition, or any of the virtues of the Spirit. I recall a picture of a ravenous angry beast chasing a bird, unaware that a cliff edge is just ahead. The bird flies off into space followed by the beast, and below is a four hundred metre drop. And the words beneath the picture were: ""Choices made in anger, cannot be undone!" And so with this battle against those who would trap us in their tyrannical new world order.. It is best to protect ourselves with prayers and trust in God so we can do battle with the protective shield of a higher vibration in our hearts.

Thank you, very well said NewlandsW. You are right about the ego world's inability to house the riches of the Spirit. With it's heartless personal master, it is more of a trap of humanity's negative animal impulses and vibrations. The illusion of this world is incredibly believable due to it's lower density and constant reinforcement. As we can now see, it is expanding and building a community of trapped souls, in its artificially created freedomless super-5G-matrix! And this is why we all need to intentionally shift and lift our god-given powers of focus upwards to higher frequencies. It is as you say, "with prayers and trust in God - we can do battle with the protective shield of a higher vibration in our hearts."

If you really want content to be "Safe and Secure" (for real!), copy all of it to an external hard drive and do NOT leave that drive plugged into your computer - at least, not while you're online. Whatever is connected to your computer, can be accessed. Never; ever, upload your personal data to any "cloud service".

Jesus said, I am the Way, the Truth and the Life. That stands as true today as it has done for the last 2000 years. God permits this because a greater good will come out of it. Man not only déifiés himself but aligns himself with the Father of Lies. We need to chose Christ or Mammon, Satan. It is prophesied that nations will rise up against this evil, but we are entering the great Tribulation that Christ spoke about in Matthew's Gospel. We must be prepared to die for Truth, in order to gain everlasting life in paradise.

There is a battle going on between good and evil ... and we are nearing a confrontation whether we like it or not. In particular since WWII the expansion of the evil satanic forces spread underground and people who were awake and wanted to warn the public were ridiculed with the term conspiratist. Think about JFK. The fact that evil forces managed to infiltrate in the top layers of our banking system, NGO's, pharma industry, weapon industry and governments, was something that we know of since long, but too long the good people have been sitting idle trusting that the "inflammation" would heal by itself.

The thing that we are not talking about inflammation but more of a cancer. And cancers can be cured if you pay attention to the total body that can cure the cancer. The best way to disarm the evil forces is to shine light on them ... and internet is a perfect means to spread info so that people can inform themselves. Do not keep silent but speak out to friends, family, neighbors and governments. We are all together with Dr Mercola in this mess and together we are much and much stronger than the evil forces. Alone we are weak, but together we are strong. We are with you Dr Mercola. Greetings from

Becky - Indeed! The US military has a standing \$9 Billion dollar contract with Moderna for their new barely tested mRNA vaccine. Due to the extreme rush in testing, this could possibly backfire, in a similar but different manner to their 17 years of vaccinations, causing something like 1 million service people injured or damaged over that timeframe from their proprietary, poorly designed anthrax vaccine. The questions are 1. "Is the FDA intensely doing their oversight?" (or are they basically being bought off, and rubber stamping their approval) 2. "Will history repeat?" - these mRNA vaccines change human DNA, and can never be detoxed out of the human body. If this program fails for any reason, even more chaos may ensue.

Can only assume Dr. Mercola's among others, are being used as scapegoats, suppressed to keep key historical vaccine information from being spread across the internet prior to this proposed and scary vaccine roll-out. We are not being told what standards the US FDA is using; given no idea the depth of information is used from manufacturers to actually approved these drugs for emergency use...again, if Dr. Scott Gottlieb, the former FDA commissioner now sitting on Pfizer's Board of Directors, continues to get more news coverage than Drs. Tony Fauci or Deborah Brix, we can assume Pfizer's influence is at the root of FDA decision-making. History is on the edge, may easily repeat from 2007-08 and again 2015-16 H1N1 swine flu vaccine failures. Watch US media reporting like a hawk.

I'm right with you, BCJ777. Though I personally think vaccines are more likely to cause than prevent long-term ill health or death for most people, and the evidence overwhelmingly indicates some, such as the polio and HPV vaccines, are utterly useless and strictly harmful, the conditions they are supposed to protect against not being infectious; I likewise nonetheless support people's right to have any medical treatment they wish, the individual being the best arbiter of what is good for their health or the health of their dependents who are incapable of making such choices. Even the vaccine inserts themselves list a slew of very dangerous side-effects, including conditions vaccine propaganda denies are caused by the vaccines! 2 signs I read at a health freedom demonstration said all we need to point out: "Is it a 'conspiracy theory' if it's printed on the vaccine insert itself?" "Where there is risk, there must be choice."

BJC..."I believe in informed consent. Nobody has my consent to inject me with any poisons." I agree with you on this. I see all of the gleeful Big Pharma Media Readers (News Anchors) grinning and smiling and seem so happy that Pfizer and Moderna are rolling out their vaccines, preparing airplanes and other transportation to get the vaccines to the public just in time for Christmas. My answer to them is simple.....just take 5 minutes of your time to explain to the public how this mRNA vaccine will work to change your DNA to make your body make viruses for the rest of your life could affect you. But NO. They just want the gullible public to just line up and get injected with an untested, life altering poison that could maim and kill them, sooner rather than later. Because if you want me to "consent" shouldn't I be "informed"...totally? What is so radical about that?

I had an alert on the weather app while in CA so I went on to see if it was about the coming Santa Ana winds. It was & it led me to clicking on a safety & preparedness article. Something very funny & amazing happened...the discussion was about the fire causing pollutants that are harmful, especially to young children, the elderly, those with respiratory illnesses & the fact that this smoke can travel for miles & blanket an area. Here's verbatim what was stated to stave off the harmful effects besides staying indoors & using air filters as recommended by THE CDC: "If you must go outside, **DO NOT RELY ON DUST MASKS AS THEY ONLY PROTECT YOU FROM LARGE PARTICLES LIKE SAWDUST.** An N95 mask that's worn correctly is the best defense against fire smoke." I added the emphasis! The N95 mask doesn't protect you completely...only 95% effective. Here it is written by the CDC; hence, a cloth mask will **ALSO** not protect you from a virus such as SARS-CoV-2! This is all an exercise in shutting-up & doing what you are told. And the greater extremes to which these forces of hatred go, the more people come to realize just WHO are spreading propaganda and disinformation. The truth is outing and we are on the right side of history. In the mean time, we must be sure to use platforms that respect and protect free speech and back everything up several times in several places, so a backup can be switched on instantly. We need to be the chess masters and stay ahead of every one of their moves.

They are handicapped by having to cover up the truth and continually convince people not to trust their own observations, so they have a hand and a leg tied behind their back, and they know it. There is nothing more difficult than to cover up a web of lies, especially as the truth spreads and gains momentum. These ridiculous measures betray the precariousness of their position. Persevere and

we SHALL prevail. Once people know the truth no amount of propaganda can bring them back, and will only serve to further alienate them. Yes, balhawk, we are with Dr. Mercola who provides us with valuable information and defends the rights and freedoms of people. Scientific psychology tells us that man is a naturally social being, and can endeavor to develop a critical spirit to find the path of truth, our goal a natural inclination towards the good and solidarity with our fellow men. We need to spread the truth. The "natural law" says that there is something that is correct by nature. Man has the right to preserve his health, strategies of fear cannot be imposed on him. With fear, minds become passive and lose their critical spirit, with fear accompanied by the deprivation of freedom destroys the human immune system and can cause a variety of diseases much worse than covid-19, including cancer, coronary heart disease , diabetes, With these diseases you die with COVID-19 and also die from the flu, however the most profound deception that accompanies PCR tests are the deaths attributed to COVID-19.

Knowing what is just by nature allows you to face totalitarian ideologies and dictatorships from a firm human point of view and feel a feeling of indignation against injustice and inhumanity. The desire for peace and freedom must be in our minds and our hearts. All people want to be free and live in peace and feel that they are not being deceived. We want the truth, but the reality is different. If the people remain silent, this democracy is nothing more than a "silent dictatorship."

Is this truly the land of the free, or is the illusion of such freedoms afforded us by the U.S. Constitution becoming a foundation of quicksand on which we may no longer be able to stand? That Mercola.com is considered a target for cyberwarfare due to exposing the web of deceit and lies surrounding Big Pharma, COVID, the Great Reset, and so on, is also beyond unsettling. Years ago, before the Internet was available to me, I already knew about the poisons of vaccines and Big Pharma. I had paid subscriptions to paper newsletters from several alternative/holistic doctors that were delivered to my home. Has the Internet made things easier and faster? Sure. Is it necessary? No. I encourage Dr. Mercola to have such a paid subscription service ready to go as a back-up to domain seizure. All of the organizations listed in today's newsletter should have back-up paper subscriptions ready to go.

I am not even remotely well-off financially, but I would pay for all of them, just like I used to before the Internet came along. It is all just a matter of choice. As the poster "Almond" always emphasizes, there

is a tremendous waste of money in today's society. I seem to have a lot more money than my contemporaries because I do not spend a dime on coffee drinks, manicures/pedicures, cellphones, clothing/makeup that I replace ("donate") every 6 months, and useless streaming services so that I can "binge-watch" Hollywood propaganda that rots the brain and the character. And regarding that last one. I also have way more time on my hands for worthwhile pursuits.

Finally, word of mouth is powerful. After all of the social distancing "laws" began, I have made a point of talking to as many people as I can in every store I go to. I simply ask people, "Do you want to talk"? You would be surprised at how many are dying to talk. I have stepped outside of stores with so many people and spoke face to face, no distance, mask off about what is going on. I have never done anything like it before, as I am naturally very reserved. Desperate times call for all of us to get out of our safe zone and spread the truth. I feel so exhilarated every time I return home and have managed to talk with over 10 people (that is my goal). Don't be scared. Find like-minded people and let them know they are many of us. Spread love and fortify others.

This is not only an attack on our first amendment rights, but an attack on science if questioning the validity of a vaccine is suspect. It is not just Dr. Mercola who is targeted, but each and every one of us. No doubt an effort has already been made to identify the main commenters. I have long had reason to suspect this anyway. Perhaps, that makes it even more important than ever to continue to speak out. If we are considered a threat, it indicates our words have become a powerful influence. It means we are succeeding. Ultimately, there may come a time when the only possible reply is, "I will not comply."

Meanwhile, it is a race against time, with hope to hold the land. If you can hold the land, manage to pay low taxes, have water, heat and food, you are the kind of person that it is difficult "to starve out." We are at an advantage to help others if our own situation is secure. I have been in a position to feed many households this year and provide them with firewood. This networking creates a community of interdependent people who help and respect each other. Incidents like this--and there are an increasing number, only lead people to distrust government. I keep noticing shortages--at east what is available locally on store shelves without needing to mail order and pay exorbitant shipping charges. Today, it was butcher paper waiting to be restocked.

There are still no canning lids--I hope they will become available over the winter. If not, we will need to preserve food much as our ancestors did. The next thing to be aware of is heirloom seed. We are already seeing higher prices on sugar, salt, grains/flour/oatmeal which are all shelf-stable pantry staples. (market indicators) If you have perennials and forage, you are ahead. The things in short supply indicate a return to self-reliance. Peaceful people are best left alone rather than risking to rouse them as they will only attract and rouse others. Historical examples teach us that this leads to revolution

islander... The problems with canning lids are these. The Ball and Kerr lids for sale are very much overpriced making canning an unaffordable option for many foods. Then, too, even more cost if you also must pay shipping. Someone gave me some of these unbranded lids. I found that they do not work well. I lost food, esp. not well-suited for pressure canning. Some got bent and did not seal well, others did not seal at all. Due to metric conversion, some of these foreign-made lids are a fraction off on measurements. I do not trust them on my American-made canning jars. They also appear to be much lighter in weight--not sure if that would affect outcome. Perhaps (?) they also require a slightly different tightening technique?

pie2634, You are absolutely right. But it is actually worse than China, USSR and Germany because at least half the populace here cheers the Democrat Socialist party on, and defends and champions their actions. In fact we now have a generation of young people so thoroughly brainwashed and lusting for violence that they are calling for the elimination of conservative/alternative thinkers. I mean actual murder. I'm sure you have heard of the Trump Accountability Initiative that is gathering steam as we speak. And a number of politicians and media stars are calling for punishment of Trump supporters. This truly is a demonic turn of events, and it will destroy the greatest social experiment in the history of the world, otherwise known as America. Most of us here realize the Democrat party is a criminal operation. We know that the mathematic/algorithmic possibility that Biden won the election is zero. Vaccine-nation: Poisoning the Population, One Shot at a Time, – March 1, 2011; - Andreas Moritz. "In Vaccine-nation, Moritz unravels the mother of all vaccine lies - that vaccines are safe and they prevent disease. Furthermore, he reveals undeniable scientific proof that vaccines are actually implicated in most common diseases today. This book reveals: • Statistical evidence that vaccines never actually eradicated infectious diseases, including polio. • How childhood vaccines, flu shots and other kinds of inoculations systemically destroy the body's immune system. •

The massive increase of allergies, Eczema, Arthritis, Asthma, Autism, Acid reflux, Cancer, Diabetes (infant and childhood), Kidney disease, Miscarriages, many Neurological and Autoimmune diseases, and Sudden Infant Death Syndrome (SIDS) is largely due to vaccines. • Why vaccinated children have 120% more Asthma, 317% more ADHD, 185% more Neurologic disorders, and 146% more Autism than those not vaccinated. • The shocking fact that most outbreaks of infectious diseases occur largely among those who are fully vaccinated. • Vaccines lack long-term safety testing and most vaccine side-effects are never reported to protect vaccine-makers from liability suits. For many decades we have all been led to believe that vaccines have eradicated the most dreaded infectious diseases,

including polio, although to this day there is no scientific evidence to support this theory.

On the other hand, indisputable scientific data reveal that childhood vaccines, flu shots and other kinds of inoculations are responsible for the dramatic decline of natural immunity among millions of children, adults, and members of the older population. With each new shot received, the immune system becomes weaker and permanently damaged, thereby laying the ground for potentially debilitating illnesses to develop in the future."

We needn't shout, so much as whisper in people's ears. Keep the respectful and impersonal point of view, gently pointing out inconsistencies in the narratives, simply sticking to the facts and

handing them out in easily digestible tidbits, so they can come to see the truth for themselves and be the smart ones. THAT is how to spread the truth to those who haven't already been hit upside the head with it. As for the fascists, let their own excessive actions prove our point, as Gandhi did in India, and like the current silly attempts to "cancel the Thanksgiving holiday" in the US, which have so spectacularly blown back in their faces. With the truth, WE have the easy job, let us keep that in mind.

balhawk, I was using the term "shout out" in the modern idiom. Of course, most is very silent in this medium. lol You refer to truth hitting ones head. The most "live" publicized tragic event in history, of course, was 9 11. Did you question the fact how the towers (all three), actually disintegrated, leaving a low mound of rubble when the dust died down? Approx 1/2 a km high each (picture that), the two constructed with 200 000 tons of very heavy duty structural steel?. enough to fill 7 of the worlds largest super tankers. This is the level of "truth" I'm referring to. Its not about honesty, but all about the level of cognitive dissonance. Whisper that in people ears, and even decent honest people will think you are a "conspiracy theorist" This outcome was a fact, and even people I get on well with here, think that's a sign of naivete....ehh Stan lol....

I question everything, but only pass along what I think people can handle, often in the form of questions. For example: "Why is the the HPV vaccine still in use when cervical cancer rates have increased in the first generation of people who have gotten the shot? Anything else so ineffective would be pulled immediately (including reference from scientific journal). Maybe HPV has nothing to do with cervical cancer after all." Then just let that sit.

I've been following Dr. Mercola for 25 years and, because of all the good, free information he provides, and the clean, pure supplements he gives us access to, I am enjoying a very vital and healthy old age while most folks I know within my age group (Baby Boomers) are either dead already or suffering from chronic illnesses. Many left alive have lost, or are in the process of losing, all the savings and equities acquired during their working lives to pay for their loss of good health and the care they now require from others. Many are leaving this world so slowly that nothing they have acquired in their lifetimes will ever be passed down to future generations due to the high cost of the care they require due to ill health.

Alternative physicians have been smeared in this country for as long as I have been studying them, yet they consistently provide good advice and absolutely outstanding medicines and supplements, none of which are publicly funded. They are warriors, champions of human health, and they carry on without support because they believe what they do is right. I believe this too and have long held hope that these soldiers of health care would be recognized and integrated into our medical system, honored by insurance carriers, and brought into the light to be partnered with Western medicine to give optimal health care to all. I think that many physicians of Western medicine in this country feel the same way and resent the power that Big Pharma holds over them, from their educational curriculum to their choices of medications and treatments. We seem to have left our health care in the hands of large corporate interests instead of in the hands of our highly trained and committed health care providers, Western and Naturopathic.

Read my post just under yours. Just telling them you don't have insurance throws them for a loop. It's hilarious!

If the masses could only see what evil and dangerous times we are "living" in. Sadly; they can not. The media talks about OWS, as it applies to the rollout of the vaccines. Well; there's another area where Warp Speed applies and that is the evil and criminality that's attacking us on all fronts, in order to take us all into the Trans-humanistic future where we will all be nothing but slaves to the system - much more than we are now! These evil minions are no longer pulling any punches. Anyone who even questions the "official narrative" is demonized and labelled a "Conspiracy Theorist". You can bet your life that google's quantum computer (probably IBM's, also) is being used by Big Tech and the defence agencies; all working against us, in order to remove all opposition to their "plans".

Two mainstream articles from this morning that you should look at. In the first one, I see two things. The first is "mask shaming"; telling people that if they choose to think for themselves and take control of their own health; then they must stay at home and keep away from all the people who "choose" to muzzle themselves. This also ties in directly with the accelerated push for digital currency (cashless society). "The provincial health officer has asked anti-maskers to start shopping online to avoid an increase in confrontations in B.C. retail outlets."

"If you are somebody who does not believe in masks, don't go to those stores and don't put other people at risk," said Henry, as she reported a record 46 COVID-19 deaths between noon Friday and noon Monday." theprovince.com/news/local-news/covid-19-b-c-posts-record-46-deaths-ov.. The next link makes it clear that this is all about Big Pharma...pure propaganda!

We have developed a broad IP portfolio focussed on the use of LNP technology for nucleic acid therapeutics. When I first started reading Dr Mercola's articles, he spoke very favorably of most governments, the US as well. I was at the point of unsubscribing because he did not seem aware of the REAL AGENDA that has been going on for years. Like so many people around the world, telling themselves, 'ahhh, that's a 'conspiracy theory', that's not really going on.....Well, 'conspiracy theory' is a term created by the CIA after Kennedy was murdered, remember, the CIA said in a public statement years ago, "we know we have succeeded when everyone believes our lies"...Point being, Thank you Dr. Mercola, for 'waking up' to the fact, the governments of the world are working hard to enslave us all, moreover, reduce the world population to 500 million!!....Ted Turner's 'Georgia Guidestones', also funded by Gates and probably Klaus Schwab, Soros, Clinton's etc....

Hi Chris, I absolutely agree with you 100% and why I spend time everyday on the UK Daily Mail. A lot of the comments are obviously bots and I label them that with a nicely sarcastic remark. I suspect this rubbish is being forwarded in the UK because you've got a dense population that has co-existed peacefully for generations. The majority of British people are very polite. You're brought up to be polite and obedient. But the Brits have been trodden on and disillusioned with this Tory government. Bojo shows no real sign of Brexit coming to fruition, plus the violence over there is shocking now, along with unwelcome visitors punting across the channel consistently, the population is starting to see through the scam. Their taxes are paying for a service in the channel to rescue illegal immigrants. My cousin in Kent says she wonders every day if she's going to wake up to a group of migrants on her front lawn. Actually for the first time in my life I wouldn't go there if you gave me a free ticket and accommodation. But I do have faith that they won't take it lying down.

We seem to be entering right now at 'warp-speed' a type of mass media and luciferian fabian socialist driven reborn 'Global Third Reich' centered around 'global healthcare and a prescribed medical vaccine' to counter a mass psychological program 'killer virus' unleashed upon the Earth with deliberate intent. The vaccine is a graphene hydrogel based mind control measure via 5G millimeter wave radiation activation. Without a person accepting this 'vaccine' into their body, participating in the new global economic system aka the 'great global reset' will be problematic to the point of death eventually.

Apparently the planners of this system have built 900 concentration (aka FEMA) camps in the USA with a total of 256,000 Chinese 'smart guillotines' equipped with Mexican-made blades. The plan is to reduce the global human population from 7.8 billion to a mere 500 million. The UN 2030 Agenda is to 'reduce the footprint' of carbon-based life and activity on Earth to this new level by this time. It is a planned terror of the most ultimate evil that we must resist with all our collective strength before it is too late . .

You are not the conspiracy, they are! They are conspiring against us to take away all of our freedoms and the constitutional rights this country was based on. As this evil is exposed there are and will be more new platforms to share the truths we need to know. Google, Wikipedia, facebook, instagram are not the only platforms. These last two times I told Wikipedia exactly why I would no longer donate to them...because of their falsehoods about Mercola.com and other holistic providers. I AM an antivaxxer and will do everything in my power to stop anyone from forcing such an evil thing into me. This is my body, my right and my life. As I read the article today about the targeting taking place, I was thankful for another voice saying the same thing. We recently began listening to another voice in the wilderness who is saying the same exact things about The Great Reset, (JDFarag.org). The confirmation has been frightening, but also comforting. It's very disturbing to witness vested interests with deep pockets manipulating society to protect or increase their own fortunes at the expense of their citizens welfare. George Orwell apparently based his most famous novel on observations he made when he was an employee of the BBC. I really enjoyed reading this thread and the links to counter narratives to the media propaganda we're all being subjected to! Unfortunately, whenever I try to have a good conversation about any of this, I get blank stares. Many peoples' brains have been so conditioned to believe what they read or see on TV, the conditioning is hard to break through. consider him as someone to distrust. Those who have seen a vaccine reaction appreciate shared knowledge about the subject, so denial of findings would only add to concerns and lack of trust..

To All Big Pharma Media Readers (News Anchors) I challenge you all to explain something about the vaccines that you are "gleefully" pushing for the public to "gleefully" get injected into their veins. Nora O'Donnell CBS, David Muir ABC, Lester Holt NBC, CNN, Fox, MSNBC, PBS and etc. You could do a 3-5 min. segment about this: "So why are Moderna and Pfizer using mRNA (messenger RNA) in a vaccine? They want to reprogram human DNA as an experiment and see what happens to our progeny. Critics in the UK say a side effect is sterilization which is good for the Powers That Ought Not To Be because they want to rid the earth of 6 billion plus commoners. These new vaccines are in an entirely new class all by themselves. They are known as "messenger RNA" (mRNA) vaccines, and they work by hijacking the protein-making machinery in your cells...[science.news/2020-05-25-mrna-vaccines-how-they-work-coronavirus.html](https://www.sciencenews.org/article/mrna-vaccines-how-they-work-coronavirus)

– Because mRNA fragments code instructions for protein synthesis in the body, mRNA vaccines could be used to inject the body with "Trojan Horse" payloads of other proteins that are intended to carry out a long list of nefarious ill effects in human hosts, including infertility."

Posted On 12/01/2020

epa1375

Or News Anchors you could pass this info along to your audiences: "Dear patients, after an unprecedented mRNA vaccine, you will no longer be able to treat the vaccine symptoms in a complementary way. They will have to live with the consequences, because they can no longer be cured simply by removing toxins from the human body, just as a person with a genetic defect like Down syndrome, Klinefelter syndrome, Turner syndrome, genetic cardiac arrest, hemophilia, cystic

fibrosis, Rett syndrome, etc.), because the genetic defect is forever!"

"This means clearly: if a vaccination symptom develops after an mRNA vaccination, neither I nor any other therapist can help you, because the damage caused by the vaccination will be genetically irreversible. In my opinion, these new vaccines represent a crime against humanity that has never been committed in such a big way in history. As Dr. Wolfgang Wodarg, an experienced doctor, said: In fact, this "promising vaccine" for the vast majority of people should be FORBIDDEN, because it is genetic manipulation! " The vaccine, developed and endorsed by Anthony Fauci and funded by Bill Gates, uses experimental mRNA technology. Three of the 15 human guinea pigs (20%) experienced a "serious adverse event". To insure rapid delivery, govt. leaders estimated what they need to immediately cover their armies, police and essential workers; they chose local suppliers over those competed for by other countries. Greetings, In response to a couple of points you bring out. As some other "carer's" have made. We are in the problems we are, basically because citizen's have lost their freedom of speech. It can be gained back on the local level. In getting it back, the citizen's need to elect "sheriffs" that are willing to work to get them their "free speech" back. IOW's we elect them to fulfill our wishes on a specific subject. Like: We want you to begin to put an end to illegal drug manufacturers and distributors in within our county boundaries. Add enough "county sheriffs", with the same message, and soon we have a "state" that hears the citizens. Or, we quickly "vote them out". But, the wishes we have, need to be what is best for all or the great majority of citizens. Not selfish wishes. Ray

It never fails to puzzle me that ZERO ATTENTION is (seemingly) paid to the fact that the very first recipients of these "miracle vaccines" are intended to be FIRST RESPONDERS along with FRONT-LINE HEALTH CARE PROVIDERS. Hmmm. Vaccines created using "new technology" never before used on human beings. Hmmm. Developed within mere months, and absent (previously requisite) rigorous "clinical trials" that conclusively prove scientifically both broad and high efficacy along with (especially long-term) safety. Hmmm. WHAT COULD POSSIBLY GO WRONG? . . .

Well, start with pondering the consequences of EVERY First Responder and Front-Line Health Care Provider being the "human guinea pigs" of these vaccines. What might likely happen in the event that "reactions" and "outcomes" don't quite manage to meet the "expectations" generated by the producers? I'd hazard to say that the entire health care "system" would totally collapse all across the

country – as would “law enforcement” and “fire protection” and every manner of “emergency medical services” along with “elder care” (facilities and services.) And, consequently, any semblance of “public trust” in established government institutions (particularly Federal, and also those associated or affiliated with the United Nations.)

I am in complete agreement with the idea that the FIRST RECIPIENTS of these “miracle vaccines” be the living bodies of the corporate, political, scientific, economic, financial and MainStreamMedia CHEERLEADERS of this doublegoodrightthinking hopium vaccine-mania, instead. One last wonderment that piques my curiosity: The Russian Federation officially announced its development of a CoVid-19 vaccine back on/around 8 August 2020, but I have yet to read/hear ONE WORD about its efficacy/safety anywhere in the score+ “alternative news/information” sources I peruse on a weekly basis. Hmmm ... [Oh. I'm doing my own "home version" of immune system reinforcement via Vits A & D plus Zinc daily.]

In the short run it's damn near impossible to sort out who's who without having the benefit of time to gradually sort out the accumulating evidence. Humans tend to be unsophisticated about analyzing their own decisions, preferring polarities of thought: either/or, black or white, entirely for or against. In the political realm there is perhaps no better example of love him or hate him than Donald Trump. For all his numerous flaws he has a redeeming quality. He and his cohorts are currently attempting to present evidence in the courts sufficient to delegitimize the recent election due to alleged massive

fraud in the electoral process. Many of his supporters are convinced that nothing less than the fate of our constitutional republic under siege from the NWO Globalists is at stake. It's noteworthy that all the agencies and corporations (DOJ, FBI, Google, Twitter, Facebook) listed in today's essay are antagonistic to the Trump administration.

And here I thought Dr. Mercola was a Dr., but apparently he's just an "anti-vaxx entrepreneur", according to the propaganda piece by the CCDH. What a piece of garbage that "analysis" is and it's interesting how far some will go to silence any opposition to another point of view, but I guess that's where we are

now with pretty much everything.

Try this the next time you get tested for Covid-19 or they offer you a vaccine. I've done this 4 times since 2018 and they (medical staff) are at a loss as to what they need to do to process you. When they ask for your health insurance tell them you don't have any. Just this year I've done it twice! The first time was at Kroger Little Clinic for a \$60 biometric screening. The nurse/receptionist had no options on her touch screen to process a cash payment with no doctor's referral and no insurance. After several phone calls to higher-ups they finally just decided to take my money and do my biometric screening WITHOUT processing the paperwork!! I tried this trick on my last Covid-19 test with similar results. Rather than mail my mucus samples to a CDC lab they just did the 5min Abbott test and handed me my NEGATIVE test results without any further questioning!! So, like I always say, just walk away from the medical system.

I totally believe in and support Dr Mercola in his opposition to vaccines. I understand and agree with the idea to disconnect from Facebook and Google, as difficult as it is. That being said, if one should

disconnect from Facebook and Google, why does Dr Mercola post links to Facebook and Google YouTube on this very page? For videos, I am trying to switch from YouTube to BitChute. Dr Mercola has a BitChute channel, but it's promoted right along side Facebook and YouTube at the bottom of this page. Dr Mercola is the greatest source for health news on the Internet. I'm just trying to understand why Dr Mercola asks people to disconnect from Facebook & Google on one hand and promotes them on the other hand.

On this site there seems to be a division between those who call for active, demonstrable Resistance to what's going on, and those who believe that simply changing one's own habits and actions will facilitate that Resistance. I wish I believed in the latter, but I inevitably fall to the former. Those of us who are warriors by birth feel driven to take organized action of some sort. What that action looks like right now seems to be protests and demonstrations, as are apparently happening in 15 countries as we speak. But on the spiritual plane, I am very disturbed by the present and growing feeling that we are about to answer for our crimes. (Yes, crimes). Didn't God put us in charge of the animals of this earth? I feel strongly that this is the paramount "crime" for which we will suffer, and rightly so.

When I think of the suffering we as a species have caused to animals, I can barely hold onto my composure. In fact I am in such an odd, hyper state of awareness that to think of this immediately brings me to tears. I look at my tiny dog and revere him as a Higher Life Form. Surely he, and his species, are. We have never learned the lessons that they were born with- patience, tolerance, abiding

love, loyalty, forgiveness. We just never learn. So are we about to pay for this? If we have allowed our species to simply recycle the horrors of mankind, century after century, then maybe its time for us to fade away, and leave the planet to those who live kindly with it.

Hmm, I never owned a domestic animal like a dog or cat for my own personal satisfaction. It just seems selfish to keep any animal captive. I have saved animals that were suffering, but I never kept them long term. One time when I was in the military I witnessed a snake being ran over by a car. He was severely injured. I put him in my ice chest (no Ice) and went to Walgreens to gather some supplies. The snake's back/spine wasn't broken so I decided to attempt to save him. With iodine, needle, and thread I sewed the snake back together (stomach/guts were ripped open and exposed).

I force fed him minnows and crickets by shoving a small funnel down his neck/throat and pushing

them down his throat 2 or 3 at a time every 2 or 3 days. This snake was staying in an ARMY ammo crate in my barracks room closet. Had I been caught I would have been in BIG TROUBLE!! Within 3 months the snake's wounds had healed and he was at least at 90% compacity/mobility. He could eat, drink, pass his/her bowels, and crawl. So I turned him loose back into the wild. While he was in my possession we were given time off (4 day weekends). I would have to take him home to show my family and friends. They all had dogs and cats and they were amazed that I stopped to save an injured snake's life and SUCCEDED!

Living through this farce of a pandemic has been eye opening and feels like a night mare we cannot

wake up from. Learning about exosomes and germ theory vs terrain theory is just mind blowing. There are very few physicians willing to speak about the fact that we have pretty much everything backwards. Modern medicine kills more than it will ever save. That is a fact backed up by studies. We have created the sickest generation to have ever been born with no end in sight. We are now finding ways to kill old people faster. All for a germ theory that has not been proved with proper science known as Koch's postulates. From the start of this outdated theory it was all about making money. It still is. Human health is in great decline. If we don't turn this around we may only have a decade or two left. That is fact. Climate change has nothing on the Government agencies that turn a blind eye to the corruption and flat out murders of big industry. At least when the tobacco industry was exposed they were forced to admit what they did and put a warning on the product. Round up is still sold everywhere with no warnings that I have seen. We are living in a post Constitution era in America. Very dangerous times. Save the soil. Come Jesus.

Day by day our freedoms are being decimated. The media is all fluff and no substance, all bias and no truth. We are at war NOW. What is baffling is the depth of stupidity in blindly accepting current "journalism" as fact, yet the majority does. Mercola is REAL, TRUTHFUL info and clearly gov idiots see it as a threat because truth is a threat. The Doc has emboldened me to live without fear of Covid-Whatever through his guidance on the effectiveness of simple low-cost supplements, so helpful to the average like me who fully believes in him, and as I have said before, I refer to him as "my doctor". I follow his recommendations daily and religiously. Once upon a time I called on the government in one of its regional cities for a living. Depressing and awakening it was to the fundamental truth that the government is consistently incompetent throughout. The waste is galactic. This site is a refuge for my sanity as well as my health.

I agree - I am in the UK and Dr Mercola is 'my' doctor too 🤔. I have taken control of my health having been told I had leukaemia and then myeloma ... both were false diagnoses in 2015. (I have MGUS which I don't consider serious and apparently the percentages are coming down year on year ... whatever that means 🙌😂) I have improved my health enormously by taking note and making incremental changes in my life. My husband and I are 72 years young... With new found knowledge from Dr M I persuaded him to come off all meds - also in 2015 and he has never felt better. I am living proof that his advice is priceless. However the NHS thinks I am in the 'very vulnerable /high risk group and keep sending me endless letters of warning to stay home etc etc. Needless to state - we will not be taking the shot but I think we all need something to take for the stress of getting through this current nightmare. 😞 My wonderful family are the go to antidote and we are good at supporting one another. It is good to be part of the Mercola family too - I enjoy sharing your knowledge - thank you so much

I predicted a big Pharma Holocaust on hydroxychloroquine. Now I predicted a big Pharma attack on vitamin D, as it's just so successful at preventing deaths (97% patients average age 60, didn't go on a ventilator, 100% survived with 34ng/ml D3 in their blood). These are fantastic results. Big Pharma stands to make billions from their COVID-19 vaccines. So they CANNOT let vitamin D3 stand as a protection /cure. LET THE ATTACKS BEGIN, HERS THE FIRST OF MANY. Note they use the same tricks. Stupid high dose etc. www.dailymail.co.uk/health/article-9003243/High-dose-infusion-vitamin-..

Giving hospitalized COVID-19 patients an infusion of vitamin D that is hundreds of times stronger than supplement capsules does NOT help them recover or survive, study finds Brazilian researchers did the world's first 'gold standard' trial to test whether vitamin D can treat coronavirus They gave half of a group of 240 severely ill COVID-19 patients single 200,000 IU IV dose of vitamin D Vitamin D levels rose, but the treated group was no less likely to survive, stay in the hospital fewer days, or need to be put on ventilators However, the trial did not test whether being on vitamin D could prevent coronavirus infection or if the supplements could treat milder cases

Of course Dr. Mercola you would be a target since you speak the truth and are willing to expose it. People don't realize that we are in WW III at the moment and the FIRST CASUALTY OF WAR IS TRUTH. If the majority of the masses, those who don't look at this website, don't wake up soon and understand the mass hypnosis that they are under, we will be doomed. Yes there are pockets of great information and movement out there but the momentum is not very strong. By the way I was looking at the word "COVID" last night and realized that if you turn the "V" to the side it looks like "L". And if you merge "I" into the "D" it spells COLD!! So COVID = COLD!!! All the information we need to fight this, false PCR test results, manipulated death certificates, faulty vaccine trial results, the not so "great reset" are SO plain and right there in the open for everyone to see. All we need to do is wake up and just demand, "we are not having this!!"

Its funny how the details of the Chinese virus were detailed early and often on your website through many doctors and researchers, etc and still many people today throw their hands in the air and say things like we don't know how this came about yet, or we don't know how to protect ourselves. Many people are like sheep and just downright ignorant because they are lazy to learn and do. As a Christian, I believe its the same with those who live outside of the truth of Jesus Christ. I guess I need to find another website to read. The trouble with constantly denying the seriousness of COVID is that more people are going to decide that it's not a big deal because Dr. Mercola said so, and more people will die as a result. Look at what is happening in South Dakota because the governor is following the Trump narrative. When you are a conspiracy theorist, you are in the same company as the delusional Trump lawyers who say that the election was stolen and that truth-tellers like Christopher Krebs should be (in Trump's lawyer's words) "hanged, drawn, and quartered" for failing to humor their naked Emperor.

jamesmom, I realize when one has been personally affected through death or injury of a loved one, the threat from corona moves to the forefront. Then the recent Danish mask study, a consideration pf preexisting conditions, the data demonstrating this flu season all cause mortality being not greater than any other this last decade, the bogus gravely flawed PCR test, all of that ceases to matter. I wish you well as I believe, unlike some of the trolls here, you're sincere is your interpretation of things.

You are either a conspiracy theorist or a coincidence theorist. Take your pick. Some people think everything is random and nobody has plans. Covid is a hoax 100% to genocide the planet through vaccines. I wish it weren't true but it's all in writing, you just have to open your eyes. The evil doers lose in the end. They think they control everything but they are mortal and will suffer for eternity.

We all 'get' the connection to the big industrial complexes that can if we allow, influence how we live. I choose to follow my personal instincts. I also choose to see more joy in nature with an appreciation on how humans no matter their background tend to screw up everything, even when they think they're doing the 'right thing'. By taking a pro active role in keeping my body healthy and staying active in constructive endeavors, this pandemic has been easy to maneuver and I'm grateful for my years of loving the 'journey', not any authority.

Extremism in general is dangerous. Vaccines can be lifesaving. To some, they have proven dangerous. For these reasons, a well informed individual choice seems wisest. Certainly, the government should not be permitted to eliminate this individual choice. Nor should it be allowed to shut down diverse viewpoints. Communication and publication of all perspectives is most likely to lead to more intelligent and informed decisions.

Posted On 12/01/2020

If everyone was properly informed, most people wouldn't get the Flu, Corona, or Chickenpox vaccines. The reason is that people under the age of 20 don't die from either 3. The other reason is the vaccine only uses a small fragmented section of the actual virus. If a viral mutation happens your body most likely won't recognize the virus and will become ill. When you get infected by a LIVE virus your body recognizes it for life. Even if the virus mutates slightly your body will still recognize it, but you might have mild symptoms. So no one under 20 and most people under 30 shouldn't be getting vaccinated for cold/flu/corona viruses. Anyone with underlying conditions and/or over 60 probably probably should get vaccinated.
