

# How COVID Vaccines Can Cause Blood Clots and More

Analysis by [Dr. Joseph Mercola](#)

✓ Fact Checked

## STORY AT-A-GLANCE

- › Doctors for COVID Ethics have been warning about the potential for gene-based COVID-19 “vaccines” to cause blood clots, cerebral vein thrombosis and sudden death
- › SARS-CoV-2 spike protein binds to the ACE2 receptor on platelets. The subsequent activation of the platelets can lead to disseminated intravascular coagulation (DIC), i.e., a pathological overstimulation of your coagulation system resulting in abnormal blood clotting, thrombocytopenia (low platelet count) and hemorrhaging
- › Research shows deaths are 14.6 times more frequent during the first 14 days after the first COVID injection among people over the age of 60, compared to those who aren't vaccinated. Other data also show that after COVID-19 vaccines were implemented, overall death rates have, with few exceptions, increased
- › A key problem with all of these gene-based COVID-19 vaccines is that the spike protein itself appears toxic, and your body is now a spike protein-producing factory
- › Its inherent toxicity may be due to it being a prion protein. If so, we can expect these injections to cause all manner of prion diseases, such as Alzheimer's, Parkinson's and Lou Gehrig's disease (ALS)

February 28, 2021, Dr. Sucharit Bhakdi, a retired professor, microbiologist and infectious disease and immunology specialist, along with several other doctors and scientists who have formed Doctors for COVID Ethics, sent a letter<sup>1</sup> to the European Medicines Agency (EMA),

warning about the potential for gene-based COVID-19 “vaccines” to cause blood clots, cerebral vein thrombosis and sudden death.

The signees listed several questions in need of urgent answers, including evidence that gene-based vaccines will not enter the bloodstream and disseminate throughout the body, or that the vaccines will not remain entrapped in circulation and taken up by endothelial cells.

They warned that, barring such evidence, “it must be expected that during expression of the vaccines’ nucleic acids, peptides derived from the spike protein will be presented via the MHC I – pathway at the luminal surface of the cells,” and that many healthy individuals have CD8-lymphocytes that recognize these kinds of peptides – either due to previous COVID-19 infection, or cross-reaction with other coronaviruses responsible for the common cold.

“We must assume that these lymphocytes will mount an attack on the respective cells,” they noted, unless there’s evidence to exclude this probability.

If lymphocytes do mount an attack on cells, “it must be expected that endothelial damage with subsequent triggering of blood coagulation via platelet activation will ensue,” they warned, adding that reduced platelet count and the appearance of D-dimers in the blood is also to be expected, as are “myriad ischemic lesions throughout the body including in the brain, spinal cord and heart,” followed by “profuse bleedings and hemorrhagic stroke.”

## **Post-Vaccination Thrombocytopenia**

Bhakdi and colleagues cite research showing the SARS-CoV-2 spike protein binds to the ACE2 receptor on platelets. The subsequent activation of the platelets can lead to disseminated intravascular coagulation (DIC), i.e., a pathological overstimulation of your coagulation system that can result in abnormal, and life threatening, blood clotting, as well as thrombocytopenia (low platelet count) and hemorrhaging.

Platelets are specialized cells that stop bleeding. As Bhakdi explains, you basically end up with so many blood clots throughout your vascular system that your coagulation system is exhausted, resulting in bleeding (hemorrhaging). Interestingly, thrombocytopenia – low

platelet count —has been reported in severe COVID-19 cases and vaccinated individuals alike, suggesting the spike protein may be a causative agent.

The signees also demand evidence that “an actual emergency existed at the time of the EMA granting Conditional Marketing Authorization to the manufacturers of all three vaccines, to justify their approval for use in humans,” seeing how most hospitals, in most countries, were no longer at capacity when the authorizations were issued.

*“There are serious concerns, including but not confined to those outlined above, that the approval of the COVID-19 vaccines by the EMA was premature and reckless, and that the administration of the vaccines constituted and still does constitute ‘human experimentation,’ which was and still is in violation of the Nuremberg Code,”* the letter states.<sup>2</sup>

## Vaccine Risks Clearly Outweigh Any Potential Benefit

Since that February 28, 2021, letter to the EMA, 15 European countries have suspended use of the AstraZeneca DNA vector-based vaccine due to clotting disorders.<sup>3</sup>

The U.S. temporarily suspended the [Johnson & Johnson vaccine](#), another DNA vector vaccine, for the same reason.<sup>4,5</sup> As of mid-May 2021, the U.S. Centers for Disease Control and Prevention had identified 28 cases of serious blood clots among the 8.7 million Americans who had received the Johnson & Johnson vaccine.<sup>6</sup>

While the CDC admitted there’s evidence to suggest a plausible causal association, the pause was lifted April 23, 2021.<sup>7</sup> However, as Bhakdi explains, the [mRNA vaccines](#) (Moderna and Pfizer) are just as dangerous and can cause the same problems, as the key causative agent appears to be the spike protein.

The EMA held a press conference March 17, 2021, at which they assured the European population that no definitive link could be found between the COVID-19 vaccines and these rare coagulation disorders. They also stated that the World Health Organization “considers that the benefits of the AstraZeneca vaccine outweigh its risks and recommends that

vaccinations continue.”

However, as stated in a follow-up letter to the EMA, Bhakdi and his colleagues point out that “The WHO is not a competent body for formally evaluating drug safety. That is explicitly the role of the [EMA].”

In the interview, Bhakdi notes that in Germany, a total of 52 people without preexisting disease died as a direct result of COVID-19 infection during the first six months of the pandemic.

Extrapolating from the EMA’s own statistics on vaccine-related deaths (which is likely to be an undercount), vaccinating 60 million Germans under the age of 60 would result in the death of 54 people from these two rare blood disorders alone<sup>8</sup> (DIC and cerebral venous thrombosis, i.e., blood clots in the brain resulting in bleeding).

“So, how in God’s name can the benefits outweigh the risks?” Bhakdi says. Indeed, it’s important to realize that the **COVID-19 vaccines** do not confer immunity. You can still contract the infection and spread it to others.

All the vaccines may do is reduce your symptoms, if and when you get infected. Also remember that, unless you are elderly and have more than two underlying chronic conditions, your risk of death from COVID-19 is on par with seasonal influenza.<sup>9,10,11,12,13</sup>

As explained by Bhakdi, the first symptom of a blood clot in your brain is a splitting headache, followed by nausea, vomiting, dizziness, alterations of consciousness, reduced hearing, blurred vision, paralysis and uncontrollable body spasms, just to name a few. Early emergency medical treatment is essential for survival.

Vast numbers of people complain of one or several of these symptoms after getting a COVID-19 shot, and not just the **AstraZeneca vaccine**, and this does not bode well for safety.

## How COVID Vaccines Deregulate Your Vascular Function

In the video above, Bhakdi explains the science behind the blood disorders seen post-vaccination with gene-based COVID-19 “vaccines,” and why, in the long term, these injections

may be causing dangerously overactive immune function in hundreds of millions if not billions of people.

He believes the mRNA or DNA in the vaccines are being taken up by the endothelial cells that line your blood vessels. These cells then start producing the SARS-CoV-2 spike protein in the blood vessel wall.

*“This is a disastrous situation,” Bhakdi says, “because the spike protein itself is now sitting on the surface of the cells, facing the bloodstream. It is known that these spike proteins, the moment they touch platelets, they activate them [the platelets], and that sets the whole clotting system going.*

*The second thing that should happen, according to theory, is that the waste products of this protein that are produced in the cell, are put in front of the ‘door’ of the cell ... and is presented to the immune system.*

*The immune system, especially the lymphocytes, recognize these and will attack the cells, because they don’t want them to make viruses or viral parts. And the viral parts are now being made in locations where viral parts would never, ever reach [naturally], like the vessel wall in your brain ...*

*If that ‘tapestry’ of the wall [i.e., the lining of the blood vessel] is then destroyed, then that is the signal for the clotting system to [activate], and create a blood clot. And this happens with all of these vaccines because the gene [the instruction to make spike protein] is being introduced to the vessel wall.”*

The fact that blood clots can occur anywhere in the body is evident from reports. For example, a 43-year-old healthy man lost a large portion of his small intestine after developing a blood clot following the AstraZeneca vaccine.<sup>14</sup> His symptoms included headache, nausea, fever and vomiting.

A 62-year-old woman suffered blood clots in her lungs a week after the Johnson & Johnson vaccine.<sup>15</sup> The same fate hit an 18-year-old nursing student three weeks after getting the AstraZeneca jab.<sup>16</sup>

## Clear Correlation Between Vaccine and Increased Death Rate

Five months into the vaccination campaign, statistics tell a frightening story. For example, one recent investigation<sup>17</sup> shows deaths are 14.6 times more frequent during the first 14 days after the first COVID injection among people over the age of 60, compared to those who aren't vaccinated.

Another study,<sup>18</sup> reviewed in the video above, shows that after COVID-19 vaccines were implemented, overall death rates, with few exceptions, temporarily increased after they had been dropping in virtually every country.

Interestingly, I recently interviewed [Stephanie Seneff](#), Ph.D., about a paper in which she details some of the harmful mechanics of COVID-19 vaccines, and she noted that countries in which COVID-19 vaccines have not raised mortality rates are also not using [glyphosate](#). This, she believes, may be a central part of the equation, as glyphosate causes a lot of biological damage and lowers your immune function.

April 23, 2021, molecular biologist and toxicologist Janci Chunn Lindsay, Ph.D., provided a public comment during a U.S. Centers for Disease Control and Prevention Advisory Committee on Immunization Practices (ACIP) meeting, in which she noted that:<sup>19</sup>

*"We have enough evidence now to see a clear correlation with increased COVID deaths and the vaccine campaigns. This is not a coincidence. It is an unfortunate unintended effect of the vaccines.*

*We simply must not turn a blind eye and pretend this is not occurring. We must halt all COVID vaccine administration immediately, before we create a true pandemic that we cannot reign in."*

## Other Theories

Another hypothesis has been presented by professor Andreas Greinacher, a German expert on blood. Greinacher and his team at the University of Greifswald believe viral vector vaccines —

**AstraZeneca and Johnson & Johnson – may be causing an immune response resulting in blood clots due to the presence of human-derived proteins and/or the preservative used in the AstraZeneca vaccine. As reported by The Wall Street Journal:<sup>20</sup>**

*“Prof. Greinacher and his team has ... identified more than 1,000 proteins in AstraZeneca’s vaccine derived from human cells, as well as a preservative known as ethylenediaminetetraacetic acid, or EDTA.*

*Their hypothesis is that EDTA, which is common to drugs and other products, helps those proteins stray into the bloodstream, where they bind to a blood component called platelet factor 4, or PF4, forming complexes that activate the production of antibodies.*

*The inflammation caused by the vaccines, combined with the PF4 complexes, could trick the immune system into believing the body had been infected by bacteria, triggering an archaic defense mechanism that then runs out of control and causes clotting and bleeding ...*

*The type of clotting observed is known as vaccine-induced immune thrombotic thrombocytopenia, or VITT. Peer-reviewed studies by Prof. Greinacher’s group, as well as from teams at the University of Oslo and University College London have independently confirmed its existence.”*

Other scientists hypothesize that the adenoviruses used in the DNA vector shots might play a role, as they too have been linked to blood clotting, while a theory suggested by professor Eric van Gorp in The Netherlands is that the intense flu-like symptoms induced by the shots contribute to inflammation that can trigger or exacerbate an autoimmune reaction that in turn results in blood clotting.<sup>21</sup>

## **Toxicity of Spike Protein Is a Major Issue**

As noted in my interview with Seneff, a key problem with all of these gene-based COVID-19 vaccines is that the spike protein itself appears toxic, and your body is now a spike protein-

producing factory.

*“They have done studies where they only expose the [animal] to the spike protein, showing it was toxic in the brain and the blood vessels,” Seneff said, “So, it's causing immune reactions all by itself that is damaging to the tissues.”*

Its inherent toxicity may be due to it being a prion protein. While this has yet to be conclusively determined, there are signs to suggest the SARS-CoV-2 spike protein acts as a prion. If so, we can expect these injections to cause all manner of prion diseases, such as Alzheimer's, Parkinson's and Lou Gehrig's disease (ALS).

**“ COVID-19 vaccines are instruction sets for your body to make a toxic protein that will eventually wind up concentrated in your spleen, from where prion-like protein instructions will be sent out, leading to neurodegenerative diseases.”**

Disturbingly, the spike protein produced by COVID-19 vaccines – due to the modifications made to the synthetic mRNA that delivers the instructions to the cell for what protein to make – may make it more of a prion than the spike protein in the actual virus, and a more effective one.

To summarize a take-home message from that interview, COVID-19 vaccines are instruction sets for your body to make a toxic protein that will eventually wind up concentrated in your spleen, from where prion-like protein instructions will be sent out, leading to neurodegenerative diseases.

## **Vaccine Remedy May Be Worse Than the Disease**

In her recently published paper, Seneff explains how and why the spike protein acts as a metabolic poison. While I recommend reading [Seneff's paper](#) in its entirety, I've extracted key

sections below, starting with how the spike protein can trigger pathological damage leading to lung damage and heart and brain diseases:<sup>22</sup>

*“The picture is now emerging that SARS-CoV-2 has serious effects on the vasculature in multiple organs, including the brain vasculature ... In a series of papers, Yuichiro Suzuki in collaboration with other authors presented a strong argument that the spike protein by itself can cause a signaling response in the vasculature with potentially widespread consequences.*

*These authors observed that, in severe cases of COVID-19, SARS-CoV-2 causes significant morphological changes to the pulmonary vasculature ... Furthermore, they showed that exposure of cultured human pulmonary artery smooth muscle cells to the SARS-CoV-2 spike protein S1 subunit was sufficient to promote cell signaling without the rest of the virus components.*

*Follow-on papers showed that the spike protein S1 subunit suppresses ACE2, causing a condition resembling pulmonary arterial hypertension (PAH), a severe lung disease with very high mortality ... The ‘in vivo studies’ they referred to ... had shown that SARS coronavirus-induced lung injury was primarily due to inhibition of ACE2 by the SARS-CoV-2 spike protein, causing a large increase in angiotensin-II.*

*Suzuki et al. (2021) went on to demonstrate experimentally that the S1 component of the SARS-CoV-2 virus, at a low concentration ... activated the MEK/ERK/MAPK signaling pathway to promote cell growth. They speculated that these effects would not be restricted to the lung vasculature.*

*The signaling cascade triggered in the heart vasculature would cause coronary artery disease, and activation in the brain could lead to stroke. Systemic hypertension would also be predicted. They hypothesized that this ability of the spike protein to promote pulmonary arterial hypertension could predispose patients who recover from SARS-CoV-2 to later develop right ventricular heart failure.*

*Furthermore, they suggested that a similar effect could happen in response to the*

*mRNA vaccines, and they warned of potential long-term consequences to both children and adults who received COVID-19 vaccines based on the spike protein.*

*An interesting study by Lei et. al. (2021) found that pseudovirus – spheres decorated with the SARS-CoV-2 S1 protein but lacking any viral DNA in their core – caused inflammation and damage in both the arteries and lungs of mice exposed intratracheally.*

*They then exposed healthy human endothelial cells to the same pseudovirus particles. Binding of these particles to endothelial ACE2 receptors led to mitochondrial damage and fragmentation in those endothelial cells, leading to the characteristic pathological changes in the associated tissue.*

*This study makes it clear that spike protein alone, unassociated with the rest of the viral genome, is sufficient to cause the endothelial damage associated with COVID-19. The implications for vaccines intended to cause cells to manufacture the spike protein are clear and are an obvious cause for concern.”*

## **Long-Term Neurological Damage Is To Be Expected**

Seneff also describes key characteristics of the SARS-CoV-2 spike protein that suggests it's a prion. As such, the spike protein may induce serious neurological damage resulting in conditions such as such as Alzheimer's, Parkinson's and Lou Gehrig's disease (ALS), just to name a few. She writes:<sup>23</sup>

*“Neurological symptoms associated with COVID-19, such as headache, nausea and dizziness, encephalitis and fatal brain blood clots are all indicators of damaging viral effects on the brain. Buzhdygan et al. (2020) proposed that primary human brain microvascular endothelial cells could cause these symptoms ...*

*In an in vitro study of the blood-brain barrier, the S1 component of the spike protein promoted loss of barrier integrity, suggesting that the spike protein acting alone triggers a pro-inflammatory response in brain endothelial cells, which could explain*

*the neurological consequences of the disease.*

*The implications of this observation are disturbing because the mRNA vaccines induce synthesis of the spike protein, which could theoretically act in a similar way to harm the brain. The spike protein generated endogenously by the vaccine could also negatively impact the male testes, as the ACE2 receptor is highly expressed in Leydig cells in the testes ...*

*Prion diseases are a collection of neurodegenerative diseases that are induced through the misfolding of important bodily proteins, which form toxic oligomers that eventually precipitate out as fibrils causing widespread damage to neurons ...*

*Furthermore, researchers have identified a signature motif linked to susceptibility to misfolding into toxic oligomers, called the glycine zipper motif ... Prion proteins become toxic when the  $\alpha$ -helices misfold as  $\beta$ -sheets, and the protein is then impaired in its ability to enter the membrane.*

*Glycines within the glycine zipper transmembrane motifs in the amyloid- $\beta$  precursor protein (APP) play a central role in the misfolding of amyloid- $\beta$  linked to Alzheimer's disease. APP contains a total of four GxxxG motifs. When considering that the SARS-CoV-2 spike protein is a transmembrane protein, and that it contains five GxxxG motifs in its sequence,<sup>24</sup> it becomes extremely plausible that it could behave as a prion.*

*One of the GxxxG sequences is present within its membrane fusion domain. Recall that the mRNA vaccines are designed with an altered sequence that replaces two adjacent amino acids in the fusion domain with a pair of prolines.*

*This is done intentionally in order to force the protein to remain in its open state and make it harder for it to fuse with the membrane. This seems to us like a dangerous step towards misfolding potentially leading to prion disease ...*

*A paper published by J. Bart Classen (2021) proposed that the spike protein in the mRNA vaccines could cause prion-like diseases, in part through its ability to bind to many known proteins and induce their misfolding into potential prions.*

*Idrees and Kumar (2021) have proposed that the spike protein's S1 component is prone to act as a functional amyloid and form toxic aggregates ... and can ultimately lead to neurodegeneration."*

## **Clear Crimes Against Humanity**

Circling back to where we started, March 23, 2021, the EMA issued a reply<sup>25</sup> to the Doctors for COVID Ethics. In it, they conceded that the gene-based "vaccines" do enter the bloodstream, but they could provide no quantitative data. This lack of data effectively nullifies the remainder of their scientific assessment, which Doctors for COVID Ethics described as "unconvincing and unacceptable."

The following week, April 1, 2021, Doctors for COVID Ethics sent a follow-up letter and rebuttal<sup>26</sup> to the EMA, expressing their dissatisfaction with the EMA's responses:<sup>27</sup>

*"We are dismayed that you chose to respond to our request for crucially important information in a dismissive and unscientific manner. Such a cavalier approach to vaccine safety creates the unwelcome impression that the EMA is serving the interests of the very pharmaceutical companies whose products it is you pledged duty to evaluate.*

*The evidence is clear that there are some serious adverse event risks and that a number of people not at risk from SARS-CoV-2 have died following vaccination ...*

*For the avoidance of doubt, if your regulatory body does not immediately suspend its 'emergency' recommendation of potentially dangerous inadequately tested gene-based 'vaccines,' while the matters which we have highlighted to you are properly investigated, we hereby put the EMA on notice of being complicit in medical experimentation, in violation of the Nuremberg Code, which thereby constituted the commission of crimes against humanity."*

## juststeve

- "So, how in God's name can the benefits outweigh the risks?" Bhakdi says. Indeed, it's important to realize that the COVID-19 vaccines do not confer immunity. You can still contract the infection and spread it to others. All the vaccines may do is reduce your symptoms, if and when you get infected. Also remember that, unless you are elderly and have more than two underlying chronic conditions, your risk of death from COVID-19 is on par with seasonal influenza." - How can the benefits outweigh the risk? Perhaps for the Metabolical Rockefeller/ Gates Mafia the actual benefits are \$\$\$, Power, & control, plus - if all they do is reduce symptoms & one can continue to spread the infection because there is no actual immunity, we finally have "vaccines" in the same category as most so called medicine, dampen symptoms & do little to nothing to actually heal. Its absolutely certain the jabs do nothing to prevent spread.

Yet it is the unvaccinated who are held in contempt & vilified. Most who have had the bug would have actual immunity & wouldn't be spreading it either. Meanwhile authority's pass out lottery's, money's, bribes like an Epstein pedophile to lure unsuspecting victims in for the jab. Perfect fit for a whole system in need of a major overhaul. Hopefully there will be enough of us left to create a living system creating true health, wealth, prevents disease in the first place & repairs or treats what may be left & to actually try to find actual cures instead of ca\$\$\$\$h CowSSS. Just to good not to share; [www.youtube.com/watch](http://www.youtube.com/watch)

## Randyfast

Steve; "Safe and Effective", "the benefits outweigh the risks", blah, blah, blah...they're all reading from the same script! Allow me to translate some of their rhetoric: The oligarchs enjoy all the "benefits", while 'we' assume all the risks! There is absolutely no benefit to being injected; but, there are definitely "benefits" to manufacturing and distributing these death jabs!

Thank you for the video. Vandana is such an amazing woman! Imagine what the world would be like if everyone thought and acted as she does!

## rrealrose

JustSteve, Dr. Bhakdi was aware from the beginning, even before the discussion of vaccinating the world came out. He knew about mRNA technology BionTech was working on. Not sure it was all about the money, although on the face, profits may play a role.

Only vaguely aware of operation paperclip, facing another lousy prospect of reading yet another 600 plus page book, and watching a few of our Congresspeople attempt to get any meaningful information out of Dr Fauci, felt stuck in a mystery. The Chinese have centuries of cultural mores about "saving face"; doubt much clear info will actually come out...we already heard several deceptions about bats and frozen food from them. However, watching Annie Jacobsen presenting her book, on the sidebar of Youtube found this 2015 video link to her book on DARPA - you only need to listen to the first 15 minutes to get a different view that has been missing all along: [www.youtube.com/watch](http://www.youtube.com/watch)

Two questions of late: Why would any lab or company be working on a bio-weapon "gene therapy" in advance, who would know what could possibly be needed a few years in advance? Why would they even be funding this work in China? (as posed recently by Rand Paul). Why would Luc Montagnier say it was crazy to vaccinate people during a pandemic. "Unthinkable" was his wording. Breadcrumbs lead in a different direction...if you do not find enough in this link, go back and listen to Annie's paperclip presentation. Dangerous, like experimenting with atomic energy.

### **Krofter**

js - Seneff's comments reinforce what Dr. Tenpenny and other docs have been saying about the vaxxes causing proteins to misfold and become prions. In the above article its not made clear whether or not Seneff believes that these prions are being shed by the vaxxed and are infecting the nonvaxxed. Dr. Tempenny and others believe this is happening. I believe it as well. About 5 weeks ago I visited one of the local farmers markets. The next day I woke up with a purpura the size of a quarter on the back of my right hand, a type of lesion symptom listed in the article. I've never had that before - I don't even have age spots. I was left with the conclusion that I had picked some prions at the market. I increased my dosage of C and it went away in several days. I'm now avoiding the vaxxed like the plague.

## harvelicious

It is critical to identify & be cognizant of all potential contributing factors to the constructive systematic reduction of optimum health that drives loss of wellbeing, illness & disease, for which, are man-made interventions, & are never studied on the basis of cumulative effects. These must include "vaccines" for alleged pathogenic viruses, big pharma "magic pills" & "shots", GMO's, adulterated & processed foods, a plethora of toxins, EMF's, technology, mass migration, "common core" education, relativism, psychological manipulation, propaganda, fear porn & war, to name a few.

The human body & immune system are incredibly competent, efficient, effective & adaptable, however, the body follows the mind. If the mind is well, so to can the body be well, & vice versa. The majority of humanity is being severely challenged with the cumulative effect of the myriad of assaults from physical warfare, psychological warfare, big pharma warfare, medical warfare, science warfare, biological warfare, chemical warfare, government warfare, media warfare, propaganda warfare, institutional warfare, financial warfare, legal warfare, technological warfare, AI warfare, food warfare, communist/marxist warfare, satanic warfare, class warfare, cultural warfare, race warfare, sex warfare, gender warfare, family warfare, community warfare, behavioral warfare, thought warfare, speech warfare, "expert" warfare, authoritarian warfare, & on & on & on it goes. Does this sound or feel like freedom? (rhetorical question). To the aware, it becomes painfully obvious that this is all about usurpatious

**anti-nature, anti-human, anti-god, anti-life, satanic psychopathic dehumanization, control, power, theft, & eugenics.**

### jamNjim

Hey Real, remember Dr. Mercola doing a report on this like 8 or so years ago? I think he said they took water samples from several hundred city water supplies in all 48 continental states and ALL of them had glyphosate levels higher than the FDA's (or maybe it was the EPA?) standards for safe drinking water. So what did the FDA/EPA do about it??? THEY RAISED THE GLYPHOSATE PPM LIMIT! They more than doubled the acceptable glyphosate levels allowed in drinking water!

### redplanet1

Columbia University's School of Journalism did an expose on Bill Gates and the monies he gives to the media - No one bites the hand that feeds them. Many still think investigative journalism is a thing - not really. The funeral has been held.

A quote: A Columbia Journalism Review expose reveals that, to control global journalism, Bill Gates, has steered over \$250 million to the BBC, NPR,NBC, Al Jazeera, ProPublica, National Journal, The Guardian, The New York Times, Univision, Medium, the Financial Times, The Atlantic, the Texas Tribune, Gannett, Washington Monthly, Le Monde, Center for Investigative Reporting, Pulitzer Center, National Press Foundation, International Center for Journalists, and a host of other groups. To conceal his influence, Gates also funneled unknown sums via subgrants for contracts to other press outlets. His press bribes have paid off. During the pandemic, bought & braindead news outlets have treated Bill Gates as a public health expert

### Cabochon

See post in reply to Maritt, nan6449. Censorship, fear tactics, bribery and corruption of the media - both news and that abominable feature of life in the 21st century known as social media - to use quaintly old fashioned terms - answers your question and explains why real news has gone underground. It's a good sign that you are at least looking for real news - most of the sheeple accept mainstream media as truth without questioning it.

This is because constant daily re-enforcement of lies combined with the well documented psychological

technique of fear mongering as perfected by the Na-zis have indoctrinated and brainwashed even well educated, intelligent members of society into believing it. I see also in my own part of the world, there are street posters in public transport waiting areas which further re-inforce the official narrative so that the public consciousness is manipulated to be constantly stoked up with compliance and obedience.

## **Maritt**

Anything that goes against the lockdowns, vaccinate all, digital passports, compulsory masks is heavily censored. That is why Dr Mercola and other websites are so important to provide (well referenced) information.

It will also help if people can turn off their TV's - only government propaganda and scare stories to keep people scared and allow their rights and liberties to be removed. This is especially true of the BBC in the UK.

Posted On 05/28/2021

---

## **joy894334**

People are scared to see that they have been taken it. They hide their heads in the sand. Most forums remove your posts - NextDoor even does it if your civil and provide proof. It's hard to sway people to the other side. If they believe something, a person doesn't need evidence. A small anecdote will do. If you show them mountains of data, most will still try to cling to their old belief. It's human nature.

## jamNjim

nan6449, Do you not understand how this works? The #1 contributor to all the fake news media outlets is BIG PHARMA! They know exactly what is going on, but they can't report on it because they will LOSE SPONSORS! Big Pharma relies heavily on advertising during the prime time news hour(s). How would it look to run a commercial-add promoting Covid-19 vaccines and then turn around 5 minutes later and report on how many people are getting sick and dying after getting vaccinated? Pfizer would not only pull all their adds they would probably sue the news channel AND WIN because they have the backing of the government! Why is this so hard for everyone to understand? It is called CAPITALISM! The rich didn't get rich by being honest little boy scouts. They use lies and manipulation to sell you snake oil and convince you it is good for you. They do this through the TV, internet, and radio. It is why that for YEARS it was against the law for Big Pharma to advertise their products on TV. The government knew how corrupt Big Pharma was and they couldn't advertise on TV because

it would create conflicts of interest between the news media and the pharmaceuticals. It's going to get MUCH WORSE before it ever gets better. I doubt this conflict of interest will ever get resolved because now you have ex-corporate executives from Big Pharma working as insiders and lobbyist at the government level. They're not going to stop big pharma's influence on the news media or the public. They are only going to promote more propaganda and enable these monopolies, we call pharmaceutical companies, to further their agenda. Just follow the money trail.

This is still so hard for the ordinary person to understand. I'm not having this vaccine but my daughter will when she's had her baby and I can't persuade her not to. If she is offered the Oxford Astra Zeneca one, is this also a gene-based vaccine? Her partner is a doctor who has already had the other type of one which I know is a gene based vaccine sadly. There is not so much discussion on comparing the vaccines?

Posted On 05/28/2021

---

## **Ronald\_H**

Regarding: "so hard for the ordinary person to understand" Communication is the key. Choice of words is often defaulted to allowing the puppet master side to decide, but we each individually have the choice to use the words chosen for us or to make our own word choices.

Let's start with the term "vaccine." A vaccine was wanted and we got an abomination to our Creator as a genetic modifying experiment that has some vaccine mimicking properties yet it doesn't truly fit the definition of vaccine. A trick of the left, communist /socialist dupes for Luciferian global governance, is to simply redefine words when caught in a lie or in this case expanding the definition of vaccine, so let's not use their word choices because calling it a vaccine is accepting their implied premise from the start that it is one and will have similar long-term results yet claims of "listen to the science" on safe and effective is to assume that scientists are psychic and can predict the future which is quite unscientific aside from being absurd.

In sharp contrast, I call the genetic manipulations massive dangerous experiments risking the world population at best except I don't trust the genocidal Gaia worshipping eugenicists behind their so called "vaccine" are altruistic as generally assumed especially with numerous indications that they are also behind the creation of the biological warfare upon the world.

Most people, being good, can't conceive of such evil because it isn't logical, isn't beneficial in the long run, quite destructive and convoluted. But, I caution that those qualities of evil don't mean it doesn't exist. It is very real and for it to be invisible due to our own limitations of seeing, then we make ourselves vulnerable.

The good news of our mistakes is we have the power to correct them. Communicate all that well and YOU can multiply the awareness that is needed to counter evil. My preparedness for the harsh times to come is altered in now expecting a much lower population

Posted On 05/28/2021

---

## Cabochon

Don't suppose it will make any difference to your daughter's rigidly indoctrinated mindset, glosgal, but the publicised "effectiveness" of vaccines depends how the figures are interpreted and rely on public ignorance of how to do this. As per usual, statistical chicanery plays a role: natural medicine leaders and medical statisticians much cleverer than me can explain the difference between relative risk reduction and absolute risk reduction when evaluating the safety of injections currently available against viral infection. This means in terms that we can more readily understand - the AstraZeneca is a risky intervention against what is for the vast majority a mild and controllable infection similar to flu and against which many effective and safe remedies have been used with great success. You could also purchase a copy of Dr Bhakdi's well referenced book "Corona False Alarm" which was published last year.

Here are two sources that might help - from the BMJ and the Lancet, publications with which your son-in-law will be familiar and which analyse the publicised statistics less favourably: "Taking thrombosis as a currently known AstraZeneca vaccine harm, and using its 13 in 100,000 risk, for 1 covid-19 death prevented, nearly 2 (13 x 13,514 / 100,000) of those 13,514 individuals will have a thrombosis event because of the vaccine. Hence, it can be estimated that, for every 2 covid-19 deaths prevented through AstraZeneca vaccination, nearly 4 individuals, who would have survived a covid-19 infection without the vaccine, will get a thrombosis, and, using the MHRA rate of death from thrombosis, 1 of the 4 individuals will die from it. The other 3 of the 4 individuals might end-up with some degree of life-long disabilities." [www.bmj.com/.../rr-0](http://www.bmj.com/.../rr-0)

[www.thelancet.com/.../PIIS2666-5247\(21\)00069-0.pdf](http://www.thelancet.com/.../PIIS2666-5247(21)00069-0.pdf)

### steve49car

Listen to Dr Luc Montagnier ...one of the most respected scientists in the world and deeply involved in the work on finding answers to HIV ... he said .If you have had that injection then you have at best two years left !!! Doctors should be about natural treatments bringing health ... not advanced chemical depopulation! This has damaged the respect that the medical profession once had .... as a medical politics researcher .... the drug industry has committed suicide ! Follow top Lawyer in USA Robert f Kennedy jr who has issued the FDA with a Citizens Petition .... a legal means of putting total responsibility for harm done firmly on those at the FDA ... if they refuse they become legally liable in court for any and every harm done by those injections! The demand is that they immediately CEASE marketing those covid injections ...vaers gives data of around 4201 deaths and 227805 serious 'adverse events' ... remembering that vaers is voluntary and estimates put the reporting at less than 1% ! Hypothetical figures then are 420100 deaths and 2,2780500 adverse events ! Google Childrens Health Defense .... because children need parents who are alive!

## DebbyW

Glosgal, if your daughter plans on breastfeeding, she may pass the prions onto her child. There have been deaths of babies with newly 'vaccinated' mothers. You may be able to have her hold off longer. Maybe until she can be convinced not to take it.

Posted On 05/28/2021

---

## Krofter

glosgal - To answer your question - no, Astra Zeneca is not an mRNA vaxx. It is, however, the worst of the lot for the blood clotting issues highlighted in the article. I would be surprised if your daughter changes her mind. Big pharma spends 20 billion per year advertising its products to doctors - compared to 6 billion in the mass media.

Posted On 05/28/2021

---

## fromseatoshiningsea

The AstraZeneca vaccine is a viral-vector vaccine, not a gene-based one. However, like the others, it carries great risk, especially for clot-related adverse effects. There is no sane reason, on God's green earth, for any of these "vaccines". All they will do is possibly reduce symptoms if or when you become infected with SARS CoV-2. HCQ & Ivermectin will accomplish this without having the "Sword of Damocles" dangling over your head. The antibodies that are generated as a result of spike-protein production, are not even helpful for respiratory infections, according to Dr. Bhakdi, as they reside in the bloodstream, not in the lungs. That is why HCQ & Ivermectin are especially effective, for their mechanism of action are directed at lungs cells. Further, viruses are ph-sensitive & HCQ also works to raise the ph, making the endosome & the lung cells more alkaline, & less "user-friendly" for the virus to enter the cell & hijack its machinery for viral replication. HCQ is also an anti-inflammatory, besides having anti-viral & anti-bacterial properties. Your daughter's partner, as a doctor, should know these things.

Posted On 05/28/2021

---

## Jackieh1965

Glosgal. The Oxford Astra Zeneca is a gene-based vaccine, although I myself was initially unaware that it was, mistakenly thinking it was the normal viral vector vaccine. My daughter has had this one and I fear was taken in, thinking that it was the typical viral vector vaccine. She works for the NHS and works closely with Covid patients, so I think she experienced some panic and distress dealing with patients at the height of it all. I also fear mass hysteria worked on the most sensible of people - my daughter is a physics masters graduate and although very scientific and rationale I think she panicked to be honest and with the 'nudging' should I say of those in charge, she took the vaccine. She won't hear anything bad at all about it - she just won't listen. I am so fearful of what the winter may bring and of what could happen. I have made her promise she won't take another shot and she has promised she won't. I have ordered pine needle tea as I have read this can counteract the effects of these vaccines and I wondered after listening to the video whether there is anything that can be taken by my daughter to help clear out the waste products in the bloodstream to reduce the chances of impacts of the jab. Any advice would be greatly received. I am struggling with so many mixed emotions, anger, frustration, sadness, fear and most of all loneliness as there are so few people who actually get the big picture and see what has been going on. I am waiting with baited breath for news regarding the legal case brought by German lawyers and heart and soul and praying that the whole can of worms is blown open and those that deserve it get their just deserts!

### **mrrobb**

Comparing vaccines? ...kinda like comparing being hit by a bus or a truck... or electrocuted or struck by lightning ....

and If she nurses the baby...will with all the toxin in the mother...yeah.....in a few months YOU will pick up the mess.....

I buried a Son and a Grandson from just MMR vaccinations.....I don't want to be in your shoes ....sorry.....

Posted On 05/28/2021

---

### **balhawk**

The best you can do is show your daughter how little risk the disease poses for young people, even by the CDC's own statistics, which ever her undoubtedly thoroughly indoctrinated partner may not dispute. But they'll

probably rationalize it as "protecting older people" though the stats shown in this very article show clearly it does nothing of the sort. The Johnson & Johnson seems the most conventional, if available where you are, but it certainly has its issues. But perhaps least for her child.

## Maritt

Steve you are so right about the Vitamin C treatment in China: From a verified official statement from Xi'an Jiaotong University Second Hospital (In Chinese: <http://2yuan.xjtu.edu.cn> ) "High dose vitamin C treatment of new coronavirus [COVID-19] pneumonia. "On the afternoon of February 20, 2020, another 4 patients with severe new coronaviral pneumonia recovered from the C10 West Ward of Tongji Hospital In the past 8 patients have been discharged from hospital. . . [H]igh-dose vitamin C achieved good results in clinical applications. We believe that for patients with severe neonatal pneumonia and critically ill patients, vitamin C treatment should be initiated as soon as possible after admission. . . [E]arly application of large doses of vitamin C can have a strong antioxidant effect, reduce inflammatory responses, and improve endothelial function. . . Numerous studies have shown that the dose of vitamin C has a lot to do with the effect of treatment. . . [H]igh-dose vitamin C can not only improve antiviral levels, but more importantly, can prevent and treat acute lung injury (ALI) and acute respiratory distress (ARDS)." China is conducting clinical trials of up to 24,000 mg/day of intravenous vitamin C to treat patients with COVID-19 coronavirus and its severe respiratory complications.

## jamNjim

I can't believe they would be pushing a vaccine for a virus that basically no longer exist in Australia! Australia's Covid-19 infection rate was never high to start with and since Aug 2020 has been near zero. So why in the hell would anyone in Australia even consider taking an UNTESTED/UNLICENSED/UNAPPROVED VACCINE for a virus that's no longer a threat in Australia? If you lived in Brazil or some place like that that's having infectious and death rates higher than anyone in the world currently you might consider the risks of taking the jab. Australia is like the safest country on the planet right now and has been for more than 9 months.

Posted On 05/28/2021

---

### seedsaver37

jamNjim. Australia has stayed safe because we closed borders and had strict quarantine rules. We can't do this forever, we rely on tourism and workers from OS , so need to open up the borders.

I don't intend to get the vaccine, just explaining the reasoning behind it

Posted On 05/29/2021

---

### Lakhana13

steve49car...In March 2020, I was in correspondence with doctors in Shanghai and S Korea who were using high-dose intravenous Vitamin C treating COVID patients with 100% reduction of symptoms and cure ratings. A couple of papers were submitted for publication but I do not think they were published. Maritt, thank you for your link to [www.orthomolecular.org](http://www.orthomolecular.org) as they are the ones who have known for decades how important Vitamin C is. Dr Linus Pauling formed the group decades ago and they have maintained the fight for vitamin C since. In the early 1940's, Dr Frederick Klenner, Dr Claus Jungeblut and a few others were successfully treating/curing polio with high doses of intravenous Vitamin C infusions.

Vitamin C Protects Against Coronavirus - [orthomolecular.activehosted.com/index.php?action=social&chash=9b86..](http://orthomolecular.activehosted.com/index.php?action=social&chash=9b86..)

VITAMIN C AND ITS APPLICATION TO THE TREATMENT OF nCoV CORONAVIRUS -

### mar3040

Ok, so I did get the jab and now regretting it. It's terrifying to know about these side effects. Is there a way to

treat or make it less harmful in the body? If the vaccine is worse than the Corona Virus, would vitamin c help reduce the effects of the vaccine? I'm not a scientist and it may be a stupid question, I'm just a very concerned citizen!

Posted On 05/28/2021

---

### **Lakhana13**

It depends on which jab you took. All proteolytic enzymes (lumbrokinase from earthworms; nattokinase from Japanese mold Natto. serrapeptase from silk worms and any other plant-based enzymes) taken on an empty stomach, dissolve and prevent blood clots. They may even destroy the spike proteins - there has never been any studies on this aspect since these shots are new - but I am betting on them, having been in the professional field for 35 years. Vitamin C, A, D, E and fish oils, fulvic acid from shilijit- a mineral composite from the Himalayan Mountains, NAC for glutathione, nano-particle silver & nano-particle zeolite from Results RNA.....these are what I know to be helpful so far.

Posted On 05/28/2021

---

### **mmmbeckwithwindstream.ne**

Riordan Clinic, Wichita, Ks. also treats many issues with high-dose intravenous Vitamin C. You may already know about them, but just wanted to be sure. Thanks!

## MoMac46

yes Maritt What's that all about? is it a red herring? a ploy to confuse? a distraction? is it to get rid of Boris? as media is reporting an accusation of Boris not locking down soon enough. We didn't need to be locked down at all!!! I don't trust a word the media reports as they are paid to report untruths. These evil so called vaccines need

to be halted, the damage is monstrous.

Posted On 05/28/2021

---

## Cabochon

Not only is Gates an unelected business man and non medical influence on government policy, Maritt, but governments have a lot of explaining to do regarding his huge conflict of interest both in the vaccine industry itself, the media and the WHO. Having bought over the WHO, funded the BBC and countless other tax payer owned organisations, as well as being heavily involved in the World Economic Forum, the Trilateral Commission and other deep state conspiracies with their stated intention to effect a virtual global coup d'etat, he is the least qualified individual to be advising your local garbage disposal facility let alone world policy on measures to combat disease. We will not even mention the possible links with those accused of child trafficking as these are not yet proven. All we know is that when we vote in parliamentary elections, we have never elected Gates & co.

Posted On 05/28/2021

---

## smi7896

Dr., I'm tired of stating, knowing, suspecting, hating, accusing, assuming, ect.. If we know what we're talking about then I want results. Let's watch and see... Half of the American population has been treated.., so let's just wait for the outcome, ya know? I mean, 150 million deaths is gonna be really difficult to hide..?

Posted On 05/28/2021

---

## Lakhana13

The media will (and already has) convinced the sheeple the deaths are from "new variants". In MI, the Half-Wit gov is using this approach to "sell" the agenda of getting more people to take the shots. They won't hide the deaths and adverse reaction events but simply label them to sell more shots and blame it on those who will not take the shot. "Vaccine Hesitancy" is being used just like Hitler used the jews as scapegoats - all propoganda, plain and simple.

Posted On 05/28/2021

---

## **Randyfast**

The lamestream media totally controls the narrative! "Hiding the truth" is not difficult at all, for them. They already have the zombie masses totally brainwashed and conditioned to believe all the lies and deception!

Posted On 05/28/2021

---

## **jamNjim**

What do you all expect from the fake news? Look where they get most of their advertisements from? If they were to do real investigative reporting and REPORT it they would all lose their jobs when their biggest sponsors (BIG PHARMA) pulls the adds they run during prime time. No one is going to cut off the hand that feeds them. The day they made it legal for pharmaceutical companies to advertise on TV is when we went from a fairly descent medical system to one of mostly corruption! Combine that with the revolving doors of top executives and ex-CEO's from Big Pharma working for the FDA, congress, and the senate and vice versa and you have deep seeded corruption from top to bottom. Now there's no incentive for anyone in congress/senate, the FDA, NIH, USDA, or Fake News to take action against the corrupt pharmaceuticals because they are all in bed together. There is one thing you can bet on. If you hear it on the news, IT IS FAKE NEWS!

Posted On 05/28/2021

---

## **balhawk**

The media will do its damndest to spin it, but judging from how desperate their censorship and propaganda efforts have been while half the US population still hasn't gotten the readily available jabs, I don't think they're succeeding to quite the level it appears, and will only continue to lose believers as the pigeons come home to roost.

Posted On 05/28/2021

---

**smi7896**

Dear gentlemen and ladies, if about half of us have vaxxed, including many of our friends and acquaintances, then in time we should be able to personally possess knowledge about serious reactions or death. We don't need the media to explain. This is critical because none of us would maintain our train of thought if we had some personal form of truth about deadly outcome. Let me know what you think.

Posted On 05/28/2021

---

**mahagerm**

The accurate and truthful information about experimental vaccines is out there and with very little effort is easily accessed. To name just a few sources:

- 1) Children's Health Defence "the Defender" with Robert Kennedy Jr.
- 2) America's Frontline Doctors
- 3) LifeSight News
- 4) Vaccine Adverse Event Reporting System - VAERS
- 5) Jeremy Hammond - Independent Journalist
- 6) Epoch Times
- 7) And our very best - Dr. Mercola

No longer do I or my like-minded friends have any sympathies for complacent...."oh my doctor says experimental vaccines are OK" types! Enjoy what you do, believe what mainstream tells you, and choose the path the sheep take. If that is your wish!! Turn back the pages of history and see how Hitler convinced intelligent, highly educated people to participate in the Holocaust, German doctors to perform hideous experiments on the Jewish population. Something similar is happening to thousands of "experimental vaccine victims" in Europe, North and South America and all countries in between. VAERS will shed some light on the US stats.

### **chocopot0613gmail.com**

In view of the facts stated in this article, as well as all of the unanswered questions the article brings up that need to be answered, how in G-d's name can the authorities (CDC, FDA, etc.) continue to allow what is clearly poison to be injected into millions of people, all the while telling them that the poison is actually going to help them? If ever there was a clear cut crime against humanity, this is it.

## stanleybecker

the DEATH SHOT is a gift from the Snake to Mankind - for every STRIKE of his SYRINGE FANGS the Snake INJECTS your arm with a POLLUTANT that creates sickness in your arterial lining and breakdowns in your neurological signalling - and this is just for starters - the list becomes endless when the potential for organic breakdown is assessed - all this has been proven and confirmed by actual events that have taken place after vaccination - and yet the licensed doctors tell their patients that they {the doctors} have nothing to do with this infirmity because vaccinations cannot possibly have anything to do with these sudden illnesses - DOCTORS ARE LIARS - they LIE to their patients in order to confuse them and detract them from the source of their sudden illness which is the DOCTOR him/herself - the doctors are creating death and misery in a world where Hippocrates "DO NO HARM" has been perverted into "MAKE SURE TO DO AS MUCH HARM AS POSSIBLE" - if you want to remain healthy and SAVE your Life - AVOID the Medical Practitioner - this paid client is taking your money in order to SICKEN you - this is MURDER/ FRAUD/ Grievous Bodily Harm - hospitals are even worse - all these institutions are CONTROLLED by Pharma who are in turn CONTROLLED by the Snake Junior - the WHO {World Health Organization} is in the Snake's clutches - politicians are in the Snake's clutches - the Media is Bought and paid for by the Snake - Glyphosate is

pushed and promoted by the Snake - fascist totalitarian restrictions are fed by the Snake's BRIBES - the return to "NORMALITY" will only occur when the Snake has been decapitated - then the poisoning/ toxicating/ polluting will stop

---

## Retsbew

Stanleybecker, I agree with your thoughts re The Snake. I also wrote to steve49car asking him to post his source re any indictment of Fauci. If he was indicted/charged with a crime, it's highly unlikely he wouldn't be taken into custody because he's a prime risk to flee.

Posted On 05/28/2021

---

## stanleybecker

Elleanee - you have been a subscriber for thirteen years and have posted 81 times - I have been a subscriber for 9 years and have posted 13600 times - but you claim that you cannot comprehend my symbolization as you are too thick - switch off the TV and read something other than the news - then your intellect will advance and your lack of BRAIN might become conscious - I have explained my use of this symbolization at length at least twice to you already - and yet you have the gall to attempt to irritate me with your hard core IGNORANCE - I give advice on many levels - I advise people to grow psychically and intellectually - yet you see again and again opportunities to goad me - my focus is on the DISASTER we all are facing - I have told you before if you cannot comprehend my posts than STOP reading them and enjoy your IGNORANCE - Zombie Culture is full of like minded BRAIN DEAD people - they don't know who and what the Snake symbolizes - your IGNORANCE is in sympathy with all the other Zombies out there who willingly and IGNORANTLY believe the Snake is a human

being to be admired - Elleanee, you WASTE my time

hi Retsbew - Dr Falsey would flee where?? - to China ?? - and thank you for your acknowledgement of the persona referred to as "The Snake"

Posted On 05/28/2021

---

## Retsbew

Hi StanleyBecker, risk to flee/flight risk as it's commonly used in court, is applied to people such as Epstein's friend, Ghislaine Maxwell, who states she isn't going anywhere and would wear an ankle bracelet. Anything, just let me go home to my hubby who adores me! Then, next thing you know, whoosh, they've disappeared. At his age Fauci isn't going to want to be sticking around anywhere he doesn't choose. However, he'd fit into a laundry cart easily when you think about it. Better fit him with a beacon he can't remove.

A small note to Elleanee while I'm here. SB's style of writing is close to parody. It was a favourite of mine in college. When I was in journalism I wrote a parody column which made me laugh when I was writing it... then the professor called a meeting of the entire class without me and asked them to vote on whether or not my column should be published. And of course all my friends voted to put it in but the professor took the liberty of writing my name, i.e., so and so is currently undergoing a divorce, under the column. Then a lot of my other teachers who knew what had happened took me to lunch in their dining room. I always thought that was so sweet of them.

## Retsbew

I apologize in advance because I'm approaching 10 in grumpiness. Where I live has a fancy French name, but to my mind we need a renaming ceremony for the sake of accuracy: The Gulag. There are signs everywhere, big X's on the floor and wide strips of tape, even in the laundry room, where a maximum of three at one time are allowed. The laundry room is flipping gigantic. So I'm in the lobby on an elevator and I know there's a guy standing waiting so I invite him onboard; it's such a waste, only one at a time and we're allowed two...

Takes him 10 seconds and he gaily announces, "I just got my shot." And he asks, "Have you had your's?" I politely reply, I will never have the shot because it's not a vaccine, it's a gene therapy. So he says, But we want to go to Jamaica. I want to get out of here. They told us we had to have the shot to go to Jamaica. I answered, But that's coercion. We got to my floor so I said, have a good evening. JEEEEEEEEZ. I got off that elevator feeling I should've explained the word 'coercion.' Zombie, Blank Slate..... does no one think for themselves anymore? Automatically I'd had my hand over my nose and mouth over the mask. However after reading a lot of material about shedding I

am not impressed with being surrounded with these types of people.

## missmonty

Most of my friends except for two have received the jab and this includes my immediate family. It is impossible to speak to them about this as they become very combative. It is as if they are now blind and deaf and do not want to admit it. I believe we must continue to lean on our own immunity. The body is a wonderful machine. We may see many young people with auto immune problems in the future. I have noticed that many 40-50 year olds already have the auto immune problem. And to jab babies with this poison is unbelievable. It IS criminal!!!

Posted On 05/28/2021

---

## Krofter

Yes, those who are completely wrapped up in the material realm refuse to consider the beauty of what Rudolf Steiner called the etheric realm, what some call the spiritual realm, which includes the core of the bodys innate immune system - which Dr Tom Cowan and others believe resides not in the material body but in the etheric (water) body. [secularheretic.substack.com/.../emfs-5g-vaccines-the-real-causes](https://secularheretic.substack.com/.../emfs-5g-vaccines-the-real-causes)

Posted On 05/28/2021

---

## WillCat

I fully understand missmonty I too found myself surrounded by those who believe and are determined that anyone who doesn't get the jab are free-riders and a threat to the old and infirm. My wife and I care for her 92 year old demented and now broken hip recovering mother so the family expectation and pressure became more than I was willing to stand against. I have always had excellent health and have come to believe in the intelligence and sanctity of the body that does not need artificial injections to maintain health. When the soul decides to go nothing will keep you here, we all will die vax or not. Regardless a week ago I got the J&J with little noticeable aftereffect except the home environment is so much more agreeable. Being older I may not have that many years anyway so I will see how this experiment goes.

Posted On 05/30/2021

---

## missmonty

Amazing video. What in God's name is happening to people who stand in line to be Guinea pigs. This is a nightmare. I knew what was going on months ago, but this doctor has explained it so much easier to understand. This is definitely a culling of the world's population so the elites can have their way. Everyone must be on high alert. This is not over. Once you take the jab it does NOT ever leave the body.

Posted On 05/28/2021

---

## Peri1224

There are already remedies to counteract blot-clotting with shikimic acid and fish oil. I'm waiting for the first honest doctors to find ways to neutralize or kick out the spike protein itself. They soon found several simple and cheap ways to treat the veerus. Why should the same not happen with that blasted spike protein, and whatever else the depopulation creeps put in the virus and in the injections. Fauci is a million times worse than Mengele.

Posted On 05/28/2021

---

## live4surf

My husband had tightness in his chest and trouble inhaling deeply after the Johnson & Johnson vaccine. After a few weeks with very little improvement I gave him nattokinase daily. We had forgotten about it, until after 5 days on nattokinase I asked him how his lungs were. He took a deep breath and said, "Fine!". Nattokinase is a proteolytic enzyme that dissolves blood clots. I'm wondering if other enzymes can be helpful here, like serrapeptase to dissolve spike proteins?

Posted On 05/28/2021

---

## Lakhana13

live4surf...ALL proteolytic enzymes, no matter the source dissolve and prevent blood clots. Perhaps one of the

most underrated is lumbrokinase from earthworms which was extensively studied in Japan. See my other post above.

### **clones**

I have become quite intrigued with R B T I (Reams Biological theory of ionization), developed by Dr Carey Reams many years ago, who had to reclaim his health after being involved in an explosion during war, and had come to believe the secrets to health are in the bible, and developed testing (urine/saliva) that anyone can learn, then by following the numbers moving one's healthy back to "perfect." I am aware of first hand accounts of significant healing from dis-ease (all across the board). An incredibly proficient practitioner I'm know is hoping to to neutralize the shot but so far no one is continuing with testing or following suggestions...

Posted On 05/28/2021

### **jadaka**

Many of us have loved ones who have taken the jab. Does anyone know of a way to mitigate the long-term effects?

Trying to offer hope to those who could use it.

Many thanks and may all be blessed with well-being.

Posted On 05/28/2021

---

## Elleanee

As Dr Chris Northrup says, those souls who've taken the needle really can't be helped at this point so they'll probably recycle. Best to not stress about them but figure out how to protect yourself from their transmissions of the spike protein. Many spiritually adept people have said that DNA is our connection to the Creator. Once you've received the kill shot and your DNA altered, you've lost that connection.

Posted On 05/28/2021

## 1715childsgmail.com

all of my patients that i treated who had this virus are doing well. i now have patients who are reacting to the shots. some severely. 4 weeks ago one of my clients ended up in the e.r. within 5 minutes after her 1st pfizer shot in her left arm started feeling numb, tingly and heavy like novocain. within 10 minutes that feeling spread to her lips and tongue and she was light headed. she was transferred to the E.R.. she was shaking and violently trembling uncontrollably. symptoms subsided some and she was sent home driving herself. symptoms returned by nightfall and since then she's gotten worse. she was diagnosed with guillain barre by her g.p. but yesterday a motor neurologist said that's not what's going on but she doesn't know what it is or what to do. she is getting worse each day - can hardly walk and only with a cane, her nerves and muscles are getting weaker and weaker, she has very little appetite and is wasting away. she still has neuropathy and is losing her balance. she does have hashimoto disease. any suggestions as to what to do? has anyone used the chinese herb lei gong teng? i'm using acupuncture, homeopathic remedies and herbs at this point. thank you!

Posted On 05/29/2021

---

## Shasha

EDTA may eat up a clot like Vit K2 as it removes Ca in the clot. Low thyroid/hurt mitochondria may make clots happen. The vaccine maybe poisoning the person and which hurts cells/mitochondria. Women's periods were stronger...sign of low thyroid. Taking Vit K2...higher dose than normal may eat up the clots. Detoxing with milk thistle/dandelion may remove some of the poison. These vaccines are bio-weapons to lower the population/destroy health/make people weak to usher in the political take over and make money off the vaccines.

## 20thCenturyFox

There seems to be something odd about Dr. Bhakdi's figures on mortality in Germany, at least as reported here. It was true that Germany initially had very low mortality early in the pandemic. But 52 is a small fraction of the early toll. According to Worldometers Germany had 9289 COVID deaths in the 6 months ending August 14, 2020 (out of 223,774 cases up to that arbitrary date). The recent death toll was 88,884 out of 3.6 million cases. If Bhakdi is saying only 52 of these early deaths were without "pre-existing disease," (and I don't know the source of that figure, nor what makes the first 6 months more significant than any other period), what makes this select group "without pre-existing disease" comparable to the extrapolated figure of 54 deaths in 60 million vaccinations--presumably including people of varying health conditions? Incidentally, this works out to less than 1 death per million. By comparison, smallpox vaccine was estimated to have a mortality of about 1 death per million. Finally, FWIW, Germany's vaccination program has so far prioritized people over 70 and people with pre-existing conditions--groups in which you might expect higher death rates--so maybe Dr Bhakdi made it clear why he used the under-60 group to make his point. But I can't make it out from Dr. Mercola's summary. Maybe one or more of these vaccines will turn out to be a horrible mistake. As we are now approaching 2 trillion doses worldwide, it should soon be possible to make these arguments calmly and forcefully without having to use hopelessly contorted and cherry-picked statistics.

Posted On 05/29/2021

---

## Watsonandco

Dr. Sucharit Bhakdi gives a very clear picture of what is going on. However, the stumbling, repetitive interviewer really should have done his homework. He is very annoying! However, there is no point in shooting the messenger. The message is the point and it's dramatically clear.

Posted On 05/29/2021

---

## dtsukamoto

If having a thyroid condition, what's the likelihood of a person dying from this vaccine?

Posted On 05/28/2021

---

## Shasha

Low thyroid can be due to antibodies from gluten. The vaccines may lower the thyroid/hurt mitochondria even more which may cause clots.

Posted On 05/29/2021

---

## dtsukamoto

Shasha, so I am thinking that gluten may be causing my thyroid to go underactive. Hmm...that's interesting. Less gluten may be the key for me...knowing that each person will be different. Thanks for answering my question.

Posted On 05/30/2021

---

## Maritt

If you want your thyroid to heal you will have to cut out all gluten. Also read the labels of all packaged foods.

Posted On 06/01/2021

---

## sio6474

'Research shows deaths are 14.6 times more frequent during the first 14 days after the first COVID injection among people over the age of 60, compared to those who aren't vaccinated.' This is truly terrifying, how can it be legal to pressurize people into putting their lives in jeopardy like this? A violation of the highest order.

<https://action4canada.com> "Action4Canada is commencing legal action against the BC government. (British Columbia is a western province). We have retained Rocco Galati, a top constitutional lawyer, who is willing to take on the defence of our Charter Rights and Freedoms in response to the extreme and destructive emergency measures and Bill 19." This is also published by Action4Canada to protect children: Health Officers right across Canada are coming for your children. They have publically announced over the last week that you no longer have any role to play in your children's health decisions! Canadian Youth who Want the CV-19 Vaccine Do Not Need

## Parental Consent.

Bonnie Henry is named below and she's another representative in an official capacity of "health." Bonnie Henry explains how the 310,000 BC youth aged 12-17 can now register and receive the CV-19 "vaccine" without the need for their parent's consent and this was repeated in lockstep in other provinces including Nova Scotia and Ontario. If that wasn't reason enough for you to take action, how about hearing that the government is also bribing children with free ice-cream in exchange for them consenting to the vaccine, or tricking older students into consenting by offering them a chance to win full tuition at Lethbridge University in AB if they do!

Posted On 05/28/2021

---

## Kanadian45

At this point I'm almost ashamed to be Canadian. How can they do this to our children?

Posted On 05/28/2021

Late post - In this study, researchers found that exposure to the SARS-CoV-2 spike protein ALONE was enough to induce COVID-19-like symptoms including severe inflammation of the lungs-- EVEN WITHOUT THE PRESENCE OF INTACT VIRUS using a newly developed mouse model of acute lung injury. The researchers found that the

genetically modified mice injected with the spike protein exhibited COVID-19-like symptoms that included severe inflammation, an influx of white blood cells into their lungs and evidence of a cytokine storm—an immune response in which the body starts to attack its own cells and tissues rather than just fighting off the virus. The mice that only received saline remained normal. [medicalxpress.com/news/2021-04-sars-cov-spike-protein-lung.html](https://www.medicalxpress.com/news/2021-04-sars-cov-spike-protein-lung.html)

This research that just came out this week shows new evidence of the S1 spike protein circulating in the blood after vaccination with the moderna mRNA-1273 vaccine.

[academic.oup.com/cid/advance-article/doi/10.1093/cid/ciab465/6279075](https://academic.oup.com/cid/advance-article/doi/10.1093/cid/ciab465/6279075) The spike protein is the major envelope protein in SARS-CoV-2 and is composed of S1 and S2 subunits. The S1 subunit is further divided into an N-terminal domain (NTD) and a receptor-binding domain (RBD).

The spike proteins that extrude from SARS-CoV-2 promote inflammatory responses on the endothelial cells including those that form the blood-brain barrier and cause the BBB to become leaky. Introduction of the spike protein, particularly a portion designated subunit 1 (S1), produced substantial changes in endothelial barrier function that led to declines in barrier integrity.

## datadragon

Activation of the NLRP3 inflammasome also activates platelets, NLRP3 activation leads to the recruitment of more monocytes, which differentiates into macrophages, and other white blood cells, neutrophils among other things, which releases neutrophils extracellular traps (NETs) composed of DNA associated with histones, and histones H3 and H4 can activate platelets. <http://sha.rest/fux4EV> Furthermore, activated macrophages, neutrophils, and platelets present an active tissue factor, which activates the extrinsic pathway of coagulation by interaction with the factor VIIa, which activates the coagulation factor X, and the active factor X induces the production of thrombin. Interestingly, during an infection the role of the coagulation system is not to prevent bleeding but to trap pathogens and facilitate their destruction in a process called immunothrombosis and prevent them from spreading with the blood, which facilitates the destruction of pathogens and limits the inflammatory response to small loci instead of the whole body.

Another mechanism I proposed the other day in comments <http://sha.rest/DNHekB> human neutrophil peptides (HNPs), most abundantly HNP1, HNP2, and HNP3 (also known as  $\alpha$ -defensins), are released from activated neutrophils. (An IL-1/IL-6 signature increases neutrophils). NLRP3 increases IL-1. The  $\alpha$  and  $\beta$  defensins are small cationic antimicrobial peptides which have the capacity to kill bacteria, fungi, and enveloped viruses by disruption of the microbial membrane. <http://sha.rest/aVnhes> Human neutrophil peptides (HNPs) released

from activated and degranulated neutrophils inhibit proteolytic cleavage of von Willebrand factor (VWF) by the enzyme ADAMTS13 in a concentration-dependent manner. <http://sha.rest/UDPTyT> The ADAMTS13 enzyme normally cuts von Willebrand factor into smaller pieces. By processing von Willebrand factor in this way, the ADAMTS13 enzyme prevents von Willebrand Factor from triggering the formation of unnecessary blood clots.

## datadragon

An Israeli research team discovered what causes many covid-19 patients to become seriously ill and even die. Israeli researchers discovered that the patients who form fatal blood clots have an increased level of alpha defensin protein in their blood. Patients with mild symptoms have a low concentration of alpha defensin (a-defensin). Patients with strong disease symptoms have high levels. The people who die have very high levels. The results show that alpha defensin speeds up blood clot formation. The Israeli team started administering the drug colchicine (which I mentioned inhibits NLRP3 inflammasome) to coronavirus patients and in testing colchicine on mice found that it successfully inhibited the release of alpha defensin. <http://sha.rest/180eBF> The  $\alpha$  defensins degranulate mast cells resulting in the release of histamine. VWF multimeric strings are secreted rapidly in response to histamine stimulation.

Markers of endothelial cell and platelet activation were significantly elevated in ICU patients compared with non-ICU patients, including VWF antigen (mean 565%) in ICU patients vs 278% in non-ICU patients. VWF antigen concentrations were also elevated above the normal range in 16 (80%) of 20 non-ICU patients. We found mortality to be significantly correlated with VWF and soluble thrombomodulin among all patients. <http://sha.rest/yDk00I> Another study showed a massive elevation of VWF, with VWF:activity 520% (normal 42–168%) and VWF:antigen 555% (normal 42–136%) pointing towards massive endothelial stimulation and damage with subsequent release of VWF from Weibel-Palade bodies. Severe COVID-19 infection was associated with endothelial activation [www.ncbi.nlm.nih.gov/.../PMC7156948](http://www.ncbi.nlm.nih.gov/.../PMC7156948)

## skystone

Thank you datadragon for these links showing 1. As early as 1 day after vaccination, the spike protein is in plasma, and 2. The spike protein disrupts the BBB.

I asked some questions at [Covidvaccineanswers.org](https://covidvaccineanswers.org), a site overseen by Dr Paul Offit. The answers I received show the official narrative on these issues.

**Q. Which tissues make the spike protein?**

**A. The spike protein is produced in immune system cells, known as dendritic cells, near the injection site. These cells then put pieces of the protein on their surface and travel via the lymph system to nearby lymph nodes, where other immune system cells are activated.**

**Q. How long is the mRNA translated in the vaccine recipient, and how long is the spike protein present in the recipient's cells?**

**A. The mRNA vaccine is processed over a 1- to 2-week period after vaccination during which time the immune response develops. However, the mRNA only directs protein production in the cell for 1 to 3 days before it breaks down. Once the mRNA breaks down, the cell stops making the spike protein.**

**As mentioned in our previous communication, pieces of the protein are then put on the surface of dendritic cells which travel via the lymph system to nearby lymph nodes, where other immune system cells are activated.**

**Dr Bhakdi agrees that them RNA doesn't last long. Where the spike protein is produced and where it goes is not agreed on, it appears. So it is in blood, and could initiate clot formation. CVA.org doesn't say that. They imply it is limited to the lymph system.**

**From their FAQ page: Does the Covid Vaccine cross the BBB?**

**It would not be expected that the COVID-19 vaccines would cross the blood-brain barrier (BBB). The main reason is "The protein itself is too large to cross the BBB."**

**From your BBB paper:**

**"SARS-CoV-2, or its shed spike proteins circulating in the blood stream, could cause destabilization of the blood-brain barrier in key brain regions." The vaccine would do this as well.**

## **Watsonandco**

herbaltops, Stopped? By whom? Who is going to stop this? Who is going to process the mountain of paperwork necessary to get the criminals into a court? Who is going to vet the judges to ensure they are not part of the Gates circus? And how long is this all going to take? Who is going to do all this? If you know, please let the rest of us know.

Posted On 05/28/2021

---

## **WillCat**

Hate all pharma interventions but when one cares for a 92 year old with dementia the family pressure to "care" for others is finally too much. Got the J&J about two weeks ago and only in the last few days have I started to feel consistently tired and achy, not really bad just not good. Oh, well I'm 71 but you know the constant pressure is very tiring and I had pushed back but not willing to end my marriage over this.

Posted On 05/28/2021

---

## Watsonandco

WillCat, if you are living with someone who does not respect your choices then I suggest to you your marriage is not that good. You ignored the science, the evidence and made a choice to risk death. Your choice, nobody made you do it.

Posted On 05/28/2021

---

## WillCat

Thanks W for your heartfelt libertarian understanding and compassion. Simply making the point that some of us may live with others who accept the majority view and are fearful much like you all so fearful of the vax and other dark forces. So far all around me have had their vax as soon as they could get it, no problems young or old, so far. Beware whom you condemn we all will die of something no matter how careful and pure!

Posted On 05/28/2021

---

## mushyp3a

This is so sad but the pressure is relentless. My 90 year old mother, on her own, felt pressurized into having it as she thought she would never be allowed out the house again if she didn't. I didn't want her to have it and this was before the true horror of it all came out.

I have neighbors I avoid now when out walking as they are constantly telling me to get vaccinated. And this is after they told me in graphic detail of the awful reactions they had to their vaccinations.

Posted On 05/28/2021

---

**jamNjim**

WillCat, I'm sorry we couldn't persuade you to "Just Say No". Here's what's so aggravating from my point of view; you have governors like Whitmer insisting that everyone must get vaccinated because of the variants and most people take what comes out of these idiots mouths on the fake news like it's the word of God or something. The truth is the variants are LESS DEADLY! That's how viruses spread and multiply once they jump to a new host. Each advancement/mutation the virus makes in its new host to increase the transmittability decreases the viruses deadliness. The only reason we are seeing upticks in infections and deaths in some areas is the vaccinations. If you fall victim to ADE (antibody-dependent enhancement), brought on by the vaccine, then a less deadly and more transmittable "variant" could actually KILL YOU! The CDC and Fauci would like everyone to believe this is because these variants are more potent. It doesn't work that way. With ADE, the antibodies you produce attach to the virus but they fail to neutralize the virus. These "attached" antibodies act like a key to let the virus into your cells to replicate. In other words, a very small viral load can now easily infect you and become a full blown Covid-19 hospitalization event. Without the vaccine, if you got a heavy viral load from a variant, you probably would have nothing but symptoms of a cold. All you needed to guarantee recovery is ZINC, Ivermectin (dog worm/parasite medicine off Amazon), vit-D, Vit-C, magnesium, and if you can get some Hydroxychloriquine (HCQ). Many people over the age of 70 have a prescription for HCQ so you or someone you know might have some. Last, but not least, is a nebulizer and some food grade hydrogen peroxide. This will prevent the lung infection from setting in and prevent hospitalization. Unfortunately, now that you got the jab, you need all of these items more than you did before. ADE affects mostly people over age 70!!!

Posted On 05/28/2021

---

**jamNjim**

ADE affects everyone, but it is mostly people over the age of 70 that die from it. Here's how I know this is happening. I go through every major country and look at the peaks and lows of their "DAILY NEW CASES". When I see a sudden spike upward when they were trending down I do a search on that country to see what their vaccine schedules are. In almost every case the sudden spike in daily covid-19 infections coincide with the start-up of a covid-19 vaccination program. I've only found ONE country that didn't DOUBLE the number of daily infections after they started vaccinating people and that is Australia. Their numbers didn't change. That is because Australia has been free of Covid-19 since about Sept of 2020. If you have no viruses floating around you won't be affected by ADE. Younger people and even older people in great health and high vit-D levels will

usually survive an infection that was enhanced by ADE. No one over the age of 70 should consider these snake venoms they are calling vaccines!

### **farmercist**

Remember when we were taught that a virus looked like a lunar module. For some reason Covid looks like a ball with spikes on it. Those spikes in the lab created "virus" are the spike proteins causing all the damage. It's more of a vascular disease than a respiratory disease. Hence a mask makes zero sense.

Posted On 05/28/2021

---

**jamNjim**

It makes sense if you see it as a masquerade! The whole mask wearing being done/promoted by those like Biden, Harris, Fauci, and the like was just a masquerade. Most of the people that got infected, cough, cough, cough....I mean tested positive, were ALL wearing masks! By promoting cloth and surgical mask to the public and saving N95 mask for the healthcare providers they guaranteed INCREASING the infectious rates! Studies showed that that wearing anything over your face less than an N95 mask increases your chances of infection. So it's no coincidence that every state that lifted their mask mandates saw an immediate reduction in infection rates.

Posted On 05/28/2021

---

**jamNjim**

Quote: "Platelets are specialized cells that stop bleeding. As Bhakdi explains, you basically end up with so many blood clots throughout your vascular system that your coagulation system is exhausted, resulting in bleeding (hemorrhaging). Interestingly, thrombocytopenia – low platelet count – has been reported in severe COVID-19 cases and vaccinated individuals alike, suggesting the spike protein may be a causative agent."

In layman's terms, this shot is the equivalent of getting bit by a pit viper like a Water Moccasin! That's basically the same thing that occurs to your cardiovascular system when you get bit by a water moccasin. That's scary as hell! I used to be the snake catcher for the state of MS, AR, and west TN (got to pay for college somehow). I had to learn things like snake bites from different snakes and the symptoms that follow. Reading reports like today's from Dr. Mercola literally sends chills down my spine!

So there's irony in Stanley calling Bill Gates THE SNAKE! When you get jabbed by one of these Covid-19 vaccines you essentially just got bit by the SNAKE BILL GATES!

Posted On 05/28/2021

---

**lin3741**

That is just comp unbelievable. How ironic. And scary, and all sorts of other horrific adjectives and expletives.....I always agreed w Stanley on that, and many other things, and today his post ESPECIALLY rang true about the entire "health" system, but especially on how that first domino must fall!!!

## Lakhana13

Proteolytic enzymes (protein-loving) taken in between meals are preventative of blood clot formation. They also break down clots rather quickly. However, if one is on blood thinning drugs, this cannot be done as enzymes would be contraindicated. Avoidance of all processed sugars (sucrose) is necessary. Dr Bakdhi mentions disseminated inter-vascular coagulation (DIC), a condition in which the body is overwhelmed by clotting and the "anti-clotting" system cannot handle the amount. This is where proteolytic enzymes will assist/take over and break down the clots. As for clots occurring in the brain, enzymes, with assistance of white blood cells, cross the blood-brain-barrier (BBB) to remove the clots. One would also want to try using rutin (vitamin P, for "Permeability") as it strengthens the walls of both arteries and veins. It is often found alone or in vitamin C supplements.

Lumbrokinase, nattokinase, serrapeptase and any other concentrated plant-based proteolytic enzyme formulation works in the above manner. Lumbrokinase – An Enzyme for More Than Just Circulatory Health! [www.townsendletter.com/article/lumbrokinase-an-enzyme-for-more-than-ju..](http://www.townsendletter.com/article/lumbrokinase-an-enzyme-for-more-than-ju..) ## **Watsonandco**

dljc99, reinstall their brains?

Posted On 05/28/2021

---

## **Lakhana13**

forbiddenhealing...actually papain from papaya and bromelain from pineapple are not as good for the following reasons:

The concentration of "digestive units" in order to accomplish any healing for both are too low. The protein digestive units for any significant activity for immune or cardiovascular function must be in the 250,000 - 450,000 HUT digestive unit range; bromelain and papain only offer about 2,500 - 5,000 GDA range. Plus, bromelain and papain optimally work in temperatures of 122F and 140F - these are the temperatures in which these work most efficiently and as can be seen no one would be alive.

Enzymes produced by molds like *aspergillus niger* and *aspergillus oryzae* are superior to bromelain and papain in that they are capable of much higher concentrations of enzyme activity and thrive working in temperatures ranging between 95 - 105F. They also work in a broader pH range of 2 -12 pH (highly acidic to alkaline). In the processing, there is no fungal particles in the end products.

## ICONOCLAST

Yes excellent. I've been sharing with a bit of humour. " Just a 5 minute read. Break it up into 12 sessions every hour every day every week etc until finished. " Ps can any one recommend a good book on speed reading that is not too long?" Everybody please store this sort of information. Save to a flash drive. I've had many files deleted remotely from my laptop lately.

## Gottimedic

"Its inherent toxicity may be due to it being a prion protein. If so, we can expect these injections to cause all manner of prion diseases, such as Alzheimer's, Parkinson's and Lou Gehrig's disease (ALS)" Well, the Russian electromedical device BIOFON does cure prion related diseases. [www.biofon.ru/norma-flor.html](http://www.biofon.ru/norma-flor.html)

## davidcottrell

wow. many frightening comments here. Dr. Mercola, your supplements are great. Conspiracy theories, not so much. So many people, so misled. Truly dark ages stuff.....

Posted On 05/28/2021

---

### stanleybecker

the "Conspiracy Theory" emanates from the Mainstream Media - Dr Mercola is FACT CHECKED and does not engage in conspiracies

Posted On 05/28/2021

---

### Marago

No conspiracy here, davidcottrell! None whatsoever on Dr. Mercola's platform. Keep tuning in. Follow the links that readers share here. Follow the science presented by Dr. Mercola.

### joy894334

We hope you are correct, but only time will tell. I think if you follow the money, you will find the well intended doctors and those speaking against the propaganda have everything to lose and those pushing the vaccs and controlling the media are gaining billions.

Provide us with links that backs up what you are saying. I would love for someone to convince me this vaccine is anything but snake oil. My biggest concern with these mRNA vaccines is that they originated from the failed Sars-CoV-1 vaccine. Back in march of 2020 a Pfizer exec was asked on Fox News how they plan to have a

vaccine ready in 9 months when it normally takes 5 to 10 years. He explained very clearly that they basically already had a vaccine that would probably work for Sars-CoV-2 without doing anything and that was the Sars-CoV-1 vaccine, but went on to say they would make a few tweaks to the vaccine to enhance its ability to neutralize the Sars-CoV-2 virus. He admitted the 2 viruses are 96% identical. There's just one problem with that. The Sars-CoV-1 vaccine never got approved due to the catastrophic events that followed after the lab animals were exposed to the live virus!!

They all died! They succumbed to ADE (antibody-dependent enhancement). What's even more frightening, this has happened several times before. They have been trying to make coronavirus vaccines since the 1950's! Guess how many were a success? ZERO!!!! There's a reason for this. ADE is inherent to coronavirus vaccines! They know this. Try to think of one single reason why they would think it is OK to vaccinate people with a vaccine that has such a HORRIBLE track record and was never approved or licensed. Let me know when you can answer that question. I'm being sincere here. I really want to know the answer and so does everyone else on this forum. Until we have science backed data that proves these vaccines do anything except harm people I will never take it. I see no attempt from the CDC or anyone else to verify these vaccines are safe. In fact, the CDC just announced 4 days ago that there were no longer going to investigate Covid-19 infections from people that are fully vaccinated. Why would they do this? Now NONE of the data collected on these vaccines means anything.

**jamNjim**

Without doing thorough investigations of ALL of these "breakthrough" Covid-19 cases, the entire process used to verify a vaccine to get it licensed/approved has been bastardized! Does that not concern you? We won't understand if maybe the vaccine they took was compromised. Or, maybe the vaccine produced antibodies just are not strong enough for some people (need a larger dose maybe). Or could this be a worse cases scenario where we have ADE? ADE has been the root cause of all past attempts to make a coronavirus vaccine. Knowing this, why hasn't any research been done to rule out ADE in these people that died shortly after vaccination? They say insanity is doing the same thing over and over and expecting different results. That would make this Covid-19 vaccination program the most insane thing ever done in medical history because all past attempts at a coronavirus vaccine have failed. The most famous failure was the RSV vaccine in the early 1960's. They skipped the animal trials and went straight to human trials. Over 80% of the people who received that vaccine during the trail got RSV. Some even died from this respiratory infection that was typically no worse than one you might get with the common cold. SOUND FAMILIAR? I'm not making any of this up. You can FACT CHECK IT!

## CMT367

You've seen the TED talk where Bill Gates says "to accomplish depopulation goals we'll do by vaccines"? Search for it; its NOT conspiracy theory...this fact remains at the top of my list of verifiable "dark ages stuff"...

## brodiebrock12

Very very hard to confront yourself in the mirror when you know you have been duped. I am seeing many on the Dem side who are having a hard time now knowing they were misled by Fauci and the Wuhan lab facts. I think someone had a name or psychological naming for people who are afraid of being wrong they simply cannot confront it?

Posted On 05/28/2021

## ICONOCLAST

Brodiebrock: Are you thinking of the Dunning Kruger Effect?

[www.psychologytoday.com/.../dunning-kruger-effect](http://www.psychologytoday.com/.../dunning-kruger-effect) There is also the problem that you get with egotists. They will not admit they were wrong. Mark Twain was "reputed" to have said the following. [fraudalert.co.za/did-mark-twain-say-its-easier-to-fool-people-than-to-..](http://fraudalert.co.za/did-mark-twain-say-its-easier-to-fool-people-than-to-..) Commentators on [mercola.com](http://mercola.com) in general, adhere to facts and not fiction.

**rick14**

So Dr. Mercola, if many of us have been duped into the vaccine what protocol should we pursue?

Thank you.

**rebeccaclark2000hotmail.**

It sounds from reading this that if you contracted Covid and recovered you can still expect neurodegeneration or permanent vascular damage, just not as quickly as if you got the jab. Hope I misinterpreted it. Anyone?
