## What We Do For You

We are a team of individuals committed to freedom, equal access and accommodation and truth. No "health emergency" removes individual rights or freedoms and to this end we bring you a wide range of strategies and solutions to solve your problems. Our strategies and solutions are personalized to fit your individual situation.

At The Zunga, we help you identify the issues you are facing and provide you with an intake form designed to aid you in telling your story. We then schedule a phone consultation to discuss your issue and map out the most effective solution. We document your case and draft letters that advise your harassers of their violations. We help you express your complaint in ways that help you resolve your situation as quickly as possible using a combination of administrative and lawful measures.
