01:40 / 1:19:30

THE CONTEXT

The Covid-19 crisis, and the political, economic and social disruptions it has caused, is fundamentally changing the traditional context for decision-making. The inconsistencies, inadequacies and contradictions of multiple systems –from health and financial to energy and education – are more exposed than ever amidst a global context of concern for lives, livelihoods and the planet. Leaders find themselves at a historic crossroads, managing short-term pressures against medium- and long-term uncertainties.

THE OPPORTUNITY

As we enter a unique window of opportunity to shape the recovery, this initiative will offer insights to help inform all those determining the future state of global relations, the direction of national economies, the priorities of societies, the nature of business models and the management of a global commons. Drawing from the vision and vast expertise of the leaders engaged across the Forum's communities, the Great Reset initiative has a set of dimensions to build a new social contract that honours the dignity of every human being.

The Great Reset Dialogues

In the run-up to the Annual Meeting, the Forum will host a virtual series: “The Great Reset Dialogues”.

These dialogues are a joint initiative of the World Economic Forum and HRH The Prince of Wales.

During these dialogues, various key stakeholders will discuss core dimensions of The Great Reset.
