

Three short "must see" videos

Three very short videos you'll want to see about how the vaccines don't protect against transmission and the harms they cause. Listen to Peter McCullough talk about heart injury.

 Steve Kirsch Oct 13  583  308  

This video has gone viral with over 12M views. We've been lied to. It's a "must see":

 Rob Roos MEP  @Rob_Roos

BREAKING:

In COVID hearing, #Pfizer director admits: #vaccine was never tested on preventing transmission.

"Get vaccinated for others" was always a lie.

The only purpose of the #COVID passport: forcing people to get vaccinated.

The world needs to know. Share this video! 

BREAKING: Vaccine never tested on preventing transmission
This means the COVID passport was based on a big lie.

The final video is Peter McCullough talking about his permanent ban from Twitter

Peter's last tweet was [our video](#) about kids and vaccines, and he describes at the end the mechanism of action for how the vaccine is killing people (at 3:45).

The reason I mention that specifically is that [Gwen Casten, the daughter of Congressman Sean Casten, was vaccinated](#) and it was recently revealed that she died of [sudden cardiac arrhythmia](#), exactly the way Peter McCullough describes at [4:03 in the video](#):

Dr. Peter McCullough speaks out on War Room about his Twitter lawsuit

 Vaccine Safety Research Foundation · Published October 12, 2022 · 402 Views  SUBSCRIBE 8.58K  SHARE

As you would expect, Congressman Casten denies any responsibility for the death of his daughter of course.

The [article](#) said Gwen's death was "something doctors haven't been able to make sense of."

The possibility that the vaccine caused her death was never investigated and I'm sure that the stains that would have implicated the vaccine were never done. Casten never mentions the possibility she died from the vaccine.

I expect that Sean Casten will keep promoting the very vaccine that killed his daughter.

While it is possible that Gwen Casten was simply unlucky, that is just not very likely. For someone with no known heart condition, experts estimate that there is around a 99% chance she died from the vaccine. The vaccine injured know this very well.

His advice shouldn't have been just, "So hug the folks you love a little harder today. Be present in their lives. And spread your love a little farther. Because in the end, it's all that matters."

He had an opportunity to add one more line that would have saved other kids from death. Something like, "And for God's sake, please do not make the same mistake I did; you should never allow anyone to vaccinate your kids with the COVID vaccine."

He would be a hero and save innocent lives.

Instead, by saying nothing, he's helping to keep the "safe and effective" myth alive.

Transmission vs immunization: the meaning of this is whether the patient developed neutralizing antibody titers. If so, then the person isn't contagious and can't transmit and they are immunized. However, because the FDA, CDC, and IDS do not consider antibody sero testing after vaccination a valid bio marker for immunity, both transmission and immunization are moot in this context because the study was wrongly designed using antibody sero testing as the clinical endpoints. Subsequently also being wrongly marketed to the public, an egregious case of off-label marketing.

The speed of science is painfully slow, but the lure cash printed at lightning speed is addicting. Again, their mix up.

Mr. Kirsch, must see Twitter posts about bodybuilder Doug Brignole who just died yesterday. About a year ago flaunting his readers that if he dies, then it's the vax, but otherwise, if he doesn't die... then expose the misinformation source:
