On December 22, 2020, a nonprofit limited company based in Great Britain that calls itself the Center for Countering Digital Hate (CCDH)<sup>1,2,3</sup> published a report titled "The Anti-Vaxx Playbook."<sup>4</sup>

It contains false and misleading information about the Fifth International Public Conference on Vaccination, which was sponsored by the 39-year-old U.S. nonprofit educational charity the National Vaccine Information Center (NVIC), and held online in October 2020. Promotion of the CCDH report resulted in the spreading of fake news and misinformation by mainline media outlets in Great Britain and the U.S.<sup>5,6,7,8,9</sup>

NVIC's pay-for-view digital conference<sup>10</sup> was transparently open to the public and featured presentations by 51 speakers from the U.S. and other countries discussing vaccine science, public health policy and law, informed consent and civil liberties.

Dedicated to "Protecting Health and Autonomy in the 21st Century," the conference was made available on February 2, 2021 for free viewing online. Go to [NVIC.org](https://www.nvic.org)<sup>11</sup> to access the conference website and watch all of the presentations.

## **CCDH Misinformation Campaign Designed to Discredit, Destroy NVIC**

Influence Watch, which monitors individuals and groups that influence<sup>12</sup> public policy, describes CCDH as a "London-based advocacy group that targets accused 'hate groups' and individuals for de-platforming campaigns to remove them from major social media outlets" and "has ties to the left-wing British Labour Party and British left-progressivism."<sup>13</sup>

The anonymously funded CCDH also has an office in Washington, D.C. and the

defamatory publicity campaign created in December 2020 was designed to not only discredit NVIC's four-decade public record of working within the U.S. democratic system to secure vaccine safety and informed consent protections in public health policies and laws, but to destroy our small charity.

The misinformation campaign was spearheaded by the CEO of CCDH, who is a political operative<sup>14</sup> personally affiliated with Great Britain's socialist Labour Party.<sup>15,16,17</sup>

The report deceived readers by describing NVIC's 2020 conference as a meeting "recently held in private over three days," which implied secrecy,<sup>18</sup> even though the event was transparently open to the public just like the four previous vaccination conferences NVIC hosted in 1997, 2000, 2002 and 2009.<sup>19</sup>

One British tabloid read the report and described NVIC's public conference as a "private conference call" where "secret plans" were plotted to "launch the largest ever misinformation campaign about vaccines."<sup>20</sup>

Last summer, CCDH published their first report alleging that Big Tech companies operating social media platforms make big profits by allowing individuals and organizations criticizing vaccine science, policy and law to message on their platforms,<sup>21</sup> and should take stronger action to censor online public conversations about vaccination that do not conform with the "scientific consensus that vaccines are safe."<sup>22,23</sup>

That July 2020 report was promoted by mainline media outlets in Britain<sup>24,25,26,27</sup> and the U.S.<sup>28</sup> However, CCDH's report published five months later in December 2020, which created fake news and misinformation about NVIC's conference, contained even more inflammatory rhetoric.

**It demonized those who criticize vaccine safety as "malignant actors,"<sup>29</sup> and CCDH demanded that companies and governments virtually eliminate individuals or groups publishing information online that fails to align with government and industry narratives about vaccination and public health policy.**

**In that report, CCDH ordered Big Tech companies and governments to censor and punish dissenters, charging that "anything less than the dismantling of these individuals' profiles, pages and groups and permanent denial of service, now they know what is happening, is willing acquiescence."<sup>30</sup>**

**On January 18, 2021, the anonymously funded CCDH once again publicly attacked the National Vaccine Information Center, this time for applying for a U.S. Paycheck Protection Program loan to secure the continued employment of NVIC's 21 workers during massive nationwide unemployment caused by lockdowns.**

**The British nonprofit company appeared to suggest that the U.S. government should not have been viewpoint-neutral in granting relief loans, but should have applied an ideological litmus test to NVIC's loan request that was made to retain employees during catastrophic economic hardship caused by lockdowns that have affected donations to charities.<sup>31</sup>**

**CCDH CEO Imran Ahmed said, "Lending money to these organizations so they can prosper is a sickening use of taxpayer money."<sup>32</sup> Once again, mainline media outlets in Britain and the U.S. widely promoted CCDH's allegations.<sup>33,34,35,36,37</sup>**

**Six months of orchestrated public attacks on NVIC by CCDH have generated hate mail to our small charity, which was founded and has been led by parents of vaccine-injured children for four decades.<sup>38</sup>**

## **Strong Freedom of Dissent History in US**

I was born into a post-World War II generation in the U.S., a generation known for challenging the status quo and exercising the right to dissent, which is protected under the U.S. Constitution.<sup>39</sup>

Whether it was advocating for the right to listen to rock 'n' roll and joining antinuclear protests in the 1950s,<sup>40,41</sup> or marching in support of civil rights and opposing an undeclared war in Asia in the 1960s,<sup>42,43</sup> or women fighting for equal opportunity and pay and consumer activists working for environmental protection and car safety laws in the 1970s,<sup>44,45,46,47</sup> or mothers protesting against drunk drivers<sup>48</sup> and choosing a drug-free birth and breastfeeding for their babies in the 1980s,<sup>49,50</sup> the baby boomer generation has been known for exercising freedom of thought and speech.

Contentious social, political and health issues of the 20th century sparked heated debates on college campuses,<sup>51</sup> where students could still explore, critique and openly search for truth, and in mainline newspapers, magazines and radio and television stations, where point/counterpoint examination of controversial topics was the hallmark of good journalism because public debate is the hallmark of free speech.

The America where I grew up in the mid-20th century was a beacon of hope for people living behind the Iron Curtain<sup>52</sup> and in other totalitarian or authoritarian societies,<sup>53</sup> where exercise of freedom of thought, speech and conscience and the right to dissent and peacefully assemble and petition the government for redress of grievances had been eliminated, where people had been turned into silent indentured servants working to serve a small ruling class in control of the state.<sup>54</sup>

Statists, who believe that economic control and planning must be in the hands of a highly centralized government,<sup>55</sup> are always afraid of the truth, afraid that people armed with knowledge will act together to challenge control of the state by a powerful and privileged few.

## **Without Debate, Without Criticism 'No Republic Can Survive'**

I was in junior high school when President John F. Kennedy addressed the American Newspaper Publishers Association in 1961. He said:<sup>56</sup>

*"Without debate, without criticism no administration and no country can succeed and no republic can survive. That is why the Athenian lawmaker Solon decreed it a crime for any citizen to shrink from controversy.*

*And that is why our press was protected by the First Amendment – the only business in America specifically protected by the Constitution – not primarily to amuse and entertain, not to emphasize the trivial and the sentimental, not to simply 'give the public what it wants' – but to inform, to arouse, to reflect, to state our dangers and our opportunities, to indicate our crises and our choices, to lead, mold, educate and sometimes even anger public opinion."*

He closed with these words:

*"So it is to the printing press – to the recorder of man's deeds, the keeper of his conscience, the courier of his news – that we look for strength and assistance, confident that with your help, man will be what he was born to be: free and independent."*

That speech given 60 years ago was a ringing endorsement for freedom of the press. Yet, in the 21st century, it is becoming clear that there are political operatives and corporations seeking to censor freedom of thought and speech by citizen journalists publishing analysis and perspective on the worldwide web, an electronic communications network that has been the world's biggest forum for free speech over the past quarter century.<sup>57,58</sup>

## **Right to Dissent, Freedom of Speech Under Assault in America**

The right to dissent<sup>59</sup> and exercise freedom of thought, speech and conscience<sup>60</sup> is under assault in America,<sup>61</sup> even though these cherished civil liberties are codified into the Bill of Rights of the U.S. Constitution. And civil liberties are under assault internationally in other nations with representative democracies, as well.<sup>62</sup>

Today, political operatives are pressuring government, media corporations and other institutions to eliminate freedom of speech, especially public conversations about vaccine science, policy and law.<sup>63,64,65</sup>

Spirited public debate about vaccine safety and mandatory vaccination laws has been going on for more than two centuries.<sup>66,67</sup> What is the justification for censoring that public conversation now and punishing those who engage in it with economic and social sanctions?<sup>68,69</sup>

And if the public conversation about vaccination and health can be censored, what topic will be the next one put on the "no fly" list?<sup>70,71</sup>

## **NVIC: Working to Reform Vaccine Policy and Law for Decades**

I am a co-founder and president of the highly rated nonprofit educational charity established in 1982 and known today as the National Vaccine Information Center.<sup>72,73</sup> Our mission is to prevent vaccine injuries and deaths through public education. NVIC does not make vaccine use recommendations. We advocate for the human and legal right to make informed and voluntary decisions about vaccination without being coerced or punished for the decision made.<sup>74</sup>

Our not-for-profit charitable organization was established for one reason: We were mothers and fathers of children brain injured by the highly reactive pertussis vaccine

**in the DPT shot and we wanted a safer pertussis vaccine to replace the one that had hurt our children. That goal was accomplished after 14 years of consumer advocacy when a less reactive acellular pertussis (DTaP) vaccine was licensed for babies in the U.S. in 1996.<sup>75</sup>**

**We also wanted parents to have access to accurate and full information about the risks and complications of both diseases and vaccines before children are vaccinated, so parents and pediatricians could work together to identify those children who are more susceptible to vaccine reactions and protect their health.**

**That is why we worked with Congress to secure vaccine safety informing, recording, reporting and research provisions in the National Childhood Vaccine Injury Act of 1986, a law in which the U.S. government officially acknowledged for the first time that vaccine safety should be made a national priority because federally licensed and recommended and state mandated childhood vaccines can and do cause permanent injuries and even death for some children.<sup>76,77,78</sup>**

**We are not all the same. We do not all react the same way to pharmaceutical products,<sup>79,80,81</sup> which is why our organization has strongly supported research into genetic, epigenetic, environmental and other risk factors that make some individuals more susceptible to adverse responses to vaccination.<sup>82,83</sup>**

**We believe every life is important, and that the lives of those harmed by vaccines and infectious diseases should be equally valued and protected.**

**We believe that consumer advocacy has and should continue to play an active role in holding pharmaceutical companies and government agencies accountable for vaccine product safety, and we are dedicated to working responsibly within the democratic system of this Constitutional Republic to make health policy and law safer and more effective for everyone.<sup>84,85,86</sup>**

Since 1988, I and other NVIC representatives have served as consumer members of the National Vaccine Advisory Committee, FDA Vaccines & Related Biological Products Advisory Committee, Advisory Commission on Childhood Vaccines, Vaccine Policy Analysis Collaborative and other federal and state public engagement projects discussing vaccine science, policy and law issues with vaccine developers, federal and state health officials, medical trade and pharmaceutical industry representatives, and members of other nonprofit organizations.<sup>87,88,89</sup>

My 22 years of service as a consumer member on federal advisory committees and public engagement projects includes four years as a member of the Institute of Medicine Vaccine Safety Forum at the National Academy of Science, where I helped to coordinate public workshops on vaccine science, policy and law issues<sup>90</sup> and was an editor for the report on Risk Communication and Vaccination published by the National Academy Press. That report importantly stated:<sup>91</sup>

*"The goal that all parties share regarding vaccine risk communication should be informed decision making. Consent for vaccination is truly 'informed' when the members of the public know the risks and benefits and make voluntary decisions.*

*The discussion of mandatory vaccination at the workshop suggested that it may interfere with informed consent and may damage trust and deter effective communication, and thus needs to be carefully weighed against its benefits."*

We believe the human right to freedom of thought, speech and conscience should be respected, not devalued. As public health regulations and laws are being created during the coronavirus pandemic to restrict or eliminate civil liberties,<sup>92</sup> we should be encouraging people to have civil conversations about vaccination, health and autonomy. Americans should be welcomed by legislators to participate in – not be

shut out of – the democratic law making process.<sup>93</sup>

When people feel disenfranchised and believe that those in power do not care about their lives or the lives of their children, that is when trust in government is lost and people let fear, anger and despair control their actions. Empowering people with knowledge and the hope they can help effect meaningful change if they do it in a rational and constructive way has always been one of NVIC's guiding principles.<sup>94</sup>

## **Fifth International Public Conference on Vaccination Features Principled, Courageous Speakers**

I want to thank the generous sponsors and attendees of the Fifth International Public Conference on Vaccination: Protecting Health and Autonomy in the 21st Century, who helped to make it financially possible for NVIC to host a virtual conference last fall.<sup>95</sup>

The conference had been scheduled for two years to be held in October 2020 in a hotel in the Washington, D.C. area. When travel and social distancing restrictions were enacted in the spring of 2020, we had to make a choice between canceling the conference or pivoting to a pay-for-view online public conference.

We chose to hold the conference online because we knew that the controversial issues being debated in the public square this year needed a public forum where well-anchored information and perspective could be presented.

We owe a debt of gratitude to the more than two dozen principled and courageous scientists, physicians, holistic health professionals, authors, attorneys, faith leaders, parents of vaccine injured children and civil and human rights activists, who represent diverse areas of expertise and participated in our conference.<sup>96</sup>

## **NVIC Will Not Abandon Our Mission**

No matter how many political operatives, corporations and institutions threaten and try to discredit NVIC and our work in order to silence us, we will not abandon our 40-year mission dedicated to preventing vaccine injuries and deaths through public education and defending the ethical principle of informed consent. We are moving forward with faith and resolve that we can secure a future for America that protects health and autonomy in the 21st century.

Because we know that if the state can tag, track down and force individuals against their will to be injected with biologicals of known and unknown toxicity today, then there will be no limit on which individuals' freedoms the state can take away in the name of the greater good tomorrow.

Be the one who never has to say you did not do today what you could have done to change tomorrow. It's your health. Your family. Your choice. And our mission continues. No forced vaccination. Not in America.

This is about good and evil--and a race against time to see which side will finish first. It is also about the courage of enlightened individuals refusing to go along. It will take many people starting with the small things they are capable of doing. I know, each day, I feel like I am hit with a sneaker wave and still left wondering when the next wave will come. So much happening in rapid succession. That is why it is even more important for each of us to set moral and spiritual

priorities and be prepared to resist and hold the line. Resisters still greatly outnumber bureaucrats.

I feel pretty good this year about working for myself, to provide for my own needs and not showing enough income to pay income tax. I am not withdrawing my skills from society, but I am deciding with strategic precision where I will apply them and how to help others help themselves. Sadly, this means we will not be hiring for our business, but taking at least a year off. Fewer jobs in the community. We will see how long it takes the politicians to notice the loss of tax revenue. I am just not in the mood to purchase more government. I am not obligated to support such massive corruption.

I have been thinking that too! That Pfizer vax seems to be the catalyst or final 'load' that elderly and frail patients cannot cope with - and tips them over the edge into their demise. And NO - it's not OK! or of no consequence; every day of life is precious.

The young ones get the vaccine to sterilize. Hmmm is this the old 'reduces world population' conspiracy theory? Awful funny how these theories all come to life. Hate? I have not seen hate like this in my entire lifetime. Mention the name 'TRUMP' and watch the actual foaming at the mouth loosing it! Your right, we have a daily rule to start "with a hug" 🤝🤝

Good people, this interview of vaccine expert, Dr Carrie Madej, is mind blowing. Warning: only for the brave. I'm very serious. She delves into specifics like nothing I've heard before. Thank you all for your always extremely intelligent and informed comments.

Yes! A long time ago. Gabriel Garcia Marquez wrote "One Hundred Years of Solitude" about a mythical city that suffers a series of plagues: insomnia, war, rain and pestilence, the last piece of fiction I read until recently. Never made the connection to today's time and place. No imperial evidence is stronger than burning books, burning witches, destroying alchemists' labs, destruction of information (and censorship) to lose critical connections to ancestral knowledge of nature and answers to today's conditions. Instead, we've inherited false theories and FACT CHECKER'S have nothing on warped theories repeatedly coming out of Rockefeller Medicine.

Here's a recent video with a history lesson on Forbidden Health Information that goes back further and shows this disappeared as Rockefeller Medicine took hold in the 1930's. While clearly written into older texts, this magically disappeared! Even shows what the PCR test machines look like! Fascinating, hang on past attributes to astrological signs to get to biochemistry here - Oxygen, K and more: [www.bitchute.com/.../AursZKOswan0](http://www.bitchute.com/.../AursZKOswan0)

Unlike what you hear on the 25th of December every year, the BBC E.R broadcast that I call the queens peach, though it is not palatable to some with more discerning tastes, Barbara Loe Fishers talk above is a peach of a speech. She is a princess of truth married to a prince of loyal love and righteousness and kisses together when it concerns vaccines.

Ellene, Is this true?? Your video is just incredible, first, it's easy to understand... but that the fetal cell line that is used for the vaccination has to come from a living baby, then they kill it??? ## **Darzoum**

Back in the 60s and 70s, it was often considered something of a point of pride to be a non-conformist and to express oneself freely, with uniqueness and originality. While the political "right" certainly had its own ideals revolving around "rugged individualism," often exemplified by iconic, self-reliant heroes in movie westerns, the particular strain of counter-culturalism at that time arose primarily from the "left." Concomitant with that spirit of dissent and freedom of speech were often strong "back to nature" values that found expression in environmentalism and natural/organic foods. It would not recognize as its own today's suppression of freedom of speech, mono-cropping Roundup-ready GMO foods, or the idea that you might have to submit to the medical establishment's dictates to earn freedom of movement.

What is supposedly the political "left" today has lost the plot. Strikingly, it obsesses with monitoring speech to such a degree as to think nothing of censoring whatever it deems "hateful," or even distasteful. Whatever vaunted "progressive" ideal allows it to contribute its part in medical tyranny, or blocking open, honest vaccination debate, remains undisclosed. It seems that "liberals" no longer understand liberty, and so, no longer go by that name... but that's progress. Where does it end? What are the limits of speech control? Ban the spoken word and the thought still remains. Then they'll need a neural hook-up to ferret-out the thought. But what if the suspect might have the thought, or once had the thought? They'll have to Rube Goldberg a Neuralink to a time machine before they're happy. Is there such a machine? Maybe not, but you can be sure they're working on it.

Your take is spot on. The "left" of today is not the "left" of yesteryear. It has lost the plot! Obama looked the other way & gave Monsanto a free ride. High Tech has taken over the left right in its own backyard of Cupertino & Austin....liberals relying on the state to save them cannot understand why you would even question a Covid Vax.

in the 60s I never regarded myself as "left radical" but like Hunter Thompson and Ken Kesey we regarded ourselves as "Right Radical" - this was a feature of the 60s revolt against stereotyping and the radicalization of the counterculture

Stanley and all... The language has been hijacked. Back in the 60's "liberal" and "progressive" meant something entirely different. These were the people who believed in education, hard work, patriotism and going to the moon. It was a time of hopes and dreams. Art, music and culture flourished.

It was a very simplistic and dualistic world in terms of many things, like knowing right from wrong. It may not have been perfect in many ways, but as the baby boom generation, we could ride our bikes, walk to and from school and play in the park without worrying about being abducted.

Children were not covered by minimum wage, but we could still have a lemonade stand without being harassed about getting a permit and paying taxes. We may have eaten a lot of crap, but I am

not sure it was so much worse than the Standard American Diet of today. I don't think we could have even understood or wrapped our brains around things like transgendered boys in girls restrooms. It was so far beyond our youthful experience that you would have had to take a long time to explain it to us.

We had a different kind of surveillance. If we got in trouble in school, it was likely our parents would hear about it even before we got home. Neighbors and relatives were free to set limits for undisciplined children. We had responsibilities and chores to do and we were held accountable. Our lives held natural consequences and there were no "safe spaces". Reality was accepted and we learned to work cope and solve our problems. The most derogatory thing you could say about a person was that he was a lazy SOB. Neighbors would also watch out for each other. Your neighbors were your insurance policy. It was not such a litigious world where people were afraid to get involved. Today, we have lost any semblance of social structure and respect for our traditions and heritage. Our institutions are collapsing. Too many people seek immediate gratification and self-indulgence.

## Dr. Steven

Perfectly articulated, Darzoum. I'm old enough to remember the 60s and 70s liberals (and Democrats) which parallel today's liberals and Democrats in name only. Not satisfied with control of the government, now they seek to literally destroy or shut down news outlets that challenge their oppressive, not progressive, agenda. I don't hesitate to use the term Marxist to describe the trends in today's so-called "progressives" because that is exactly the philosophy underlying these movements. A monolithic, controlling ideology and suppression of debate, as we see happening to Dr. Mercola and other natural health allies, and alternative views about the virus and evidence challenging the prevailing narratives about "cases" and "deaths," is but one of many signs of a dangerous path at odds with the constitution and foundational American values. We see the same throughout Western Europe, with the UK in particularly dire straits. This does not bode well for freedom. Perhaps once they attempt to pass Covid-19 vaccination mandates, which seems likely, people will wake up and start fighting.

No they are exactly the same. Liberals such as those behind the Masonic French Revolution till today have never been about liberty. They are about putting a bullet in the back of the head of anyone that disagrees with them. From the London banking tribe that created The Creature from Jekyll Island, manufactured the suffragettes, financed the Bolshevik revolution and started WWI and WWII, the Oppenheimers in South Africa that financed the ANC and Marxist Mandela, while projecting their criminality onto true victims. With the likes of Susan Rosenbergs being behind organizations like BLM, it's becoming more apparent to many the activities of the Synagogue of Satan.

## Astonished

My favorite accusation is "racist," because even theoretically "intelligent" parties adamantly protest the label. Ethologist Vilmos Csanyi proved already in 1964 that humans are pack animals. The corollary is that humans are inherently racists. Only fools and liars deny it. It's not an accident that psychologists emulate human behavior with rats. Oh, well, their experiments might not always be relevant; sometimes rats seem to be better than humans.

## Cabochon

"The language has been hijacked", as you say, Almond. I had thought the concept too deep for some - to quote my own post in a recent reply to Darzoum, (February 4th) but I see you have

belatedly picked up on the idea: "The language of common parlance has been hijacked and the real meaning of words surreptitiously changed to fool the sheeple into accepting changes imposed on them without their consent". Thanks for developing my very pertinent theme to extend it to the words "liberal" and "progressive" which as you point out no longer mean what they meant in previous decades. I would also include the terms "conservative" and "left wing" as they may mean entirely different things now - at least in the realm of UK politics.

While the present Conservative government in the UK is more left wing than the left wing, the "left wing" Labour party is no different from the ruling or any other party in that they all go along with the official narrative as dictated by the technocratic coup d'etat, Agenda 21, the Trilateral Commission, Great Reset, call it what you will. Applied to American politics, the term "conservative" appears to refer to President Trump's attempt to conserve and resurrect traditional American ideas of freedom and independence as described in the Constitution. But please don't hijack this idea of mine, as U.S. politics may be deliberately designed to confuse as is the present UK political landscape.

Chris65 - Hitler killed 6 million Jews and you now blame the Jews for being GASSED by his regime ~ you are truly BRAIN DEAD and need psychiatric help

Astonished - "corollary" is defined as a "proposition that follows from a proposition that is already proved" ~ so you cite Csanyi as "proving" that humans are "pack animals" and then state that it logically follows that if we accept that humans are "pack animals" then it follows that we are all

"racists" ~ God you sprout bullshit

To the subject of language, I have noticed that in recent years the rhetoric deployed by the left has been carefully crafted to be nothing short of forced conscription. They say, "If you're not part of the solution, then you're part of the problem," and they expand on that by "sign posting" that if you are not actively opening your mouth against racists and similar types then you are complicit in furthering the racist agenda -- an attempt at forcing you into the war. They also contend that everyone is racist by virtue of the fact that we live in a society which is inherently racist. By that measure, no human being, no matter how loving and accepting, can escape being racist and therefore must submit to anti-racist training where they learn to use specific words and to accept that everything they do and say can, and probably is, hurtful to someone else. Forced conscription in a war of which I want no part.

I was thinking about this very same issue Darzoum! Main difference is the dumbing down of society starting with the 'programming' of TV shows. Look at the musicians and activists in the 60's! Now most teens are too busy looking at their phones and worrying about how many people 'like' them I'm afraid. A friend keeps posting info on FB, and she's an older flower child, and states that many arrests have been made at D.C. I don't know. I guess she listens to Charlie Ward. Personally I don't believe this will end up being mandated. Too many are falling ill and dying from the Toxic Jab. I have a calm over me when I think about it....and I'm really intuitive. I'm just so glad to be able to share my music and silly banter onstage! Take it easy you guys and turn on some music! Especially music from the 60's and 70's.

Good hands ~ society has a wide range of prejudice and xenophobia is patently obvious - however the discernment of preference is a human right ~ I cannot have friendships and alliances forced upon me as my taste in all matters human and edible and appreciative are functions of my individual response to familiar recognition ~ everyone is human and no one is more human than another ~ this is the basis for a diversified society that makes adjustments and grows to embrace all aspects of humanity ~ to cite racism as ordinary is to refuse to recognize your own humanity

Where are those people today? I'm of that generation and I feel so often alone. Alone. People line up to do what they are told ... they don't question, they don't use any of their intelligence. My neighbor across the street was laid up with covid for two weeks. Before she got it; she wasn't going to have anything to do with the vaccine; after she's all for it because her doctor put the fear of covid into her. "Oh, you could it again just as bad," What? So I sent her several articles from Mercola, CHD, and a couple of others. She isn't getting the vaccine and is trying to convince her parents not to. She wants to know her doctor did not tell her these truth about the vaccine. Informed Consent. Demand it. Use Due Diligence demand it of yourself. I live in Boulder, CO. I cannot believe the level of conformity in that town. Once known as crazy nonconformists, it's now crazy with conformity. I've been screamed at in stores for mask refusal and people are bundled up in masks and hoodies in mid summer. I once loved this town so much. I utterly despise it now.

Cabochoch, I can assure you there is not a "Cabochoch" stage to my thinking, nor has there been for 50 years, whether in private journals or published writings, wherein I have expressed similar ideas. Please disabuse yourself of that self-importance, as expressed by such phrases as "thanks for developing my very pertinent theme" or "please don't hijack this idea of mine." Is it really so far-fetched to you that thoughtful people can look upon the very same world and arrive at similar insights. Do you presume that people who have expressed much the same, throughout time, and certainly well before you and me, are also getting their ideas from you? It might do you good to just drop the entire concept of "my ideas" and just keep to the work of pursuing the truth.

On point, as usual. Though much of the progressive anti-corporate wing of the left (many of whom are holistically inclined) is indeed hip to the vaccine scam, the mainstream left has by and large become anything but liberal, in the genuine sense personified by FDR who sagely observed there was "nothing to fear but fear itself", JFK, RFK, and now RFK, Jr.

The CCDH is yet another tentacle of the beast that is strangling truth and freedom. Pure evil is rampant throughout such groups and has infected governments everywhere. Meanwhile the unenlightened sheeple just meekly do what they're told. I see a glimmer of hope however, as more and more people are moving away from mainstream media, beginning to ask questions and beginning to connect the dots. Never has it been more true what Orwell said, "in times of universal deceit, telling the truth becomes a revolutionary act".

The trouble is "THE TRUTH" is not an absolute and self-evident notion, it is subject to/of INTERPRETATION! Look how the enormous, and completely extraordinary measures implemented to "protect the 2020 election" are interpreted as diametrical opposites on both sides of the spectrum - and both are fully convinced that this is "the truth". Which ideology prevails here today is a matter of historical luck of the draw (think of the generations that had to live through the world wars!). If only people had the wisdom to learn from past history... (at least that small percentage of the world population that enjoy some freedom of thought and action).

In response to "Astonished": "... there is always a stable hierarchy of values". Now, are we talking Plato's values, Lenin's values, Saul Alinsky's values, El Chapo's values, the current Pope's values, Hollywood's values, the Amish community's values? "The Truth" frequently appears different from 1915 through 1960 to 2001. One expects at least Good and Evil to be Absolutes, but then - go ask The Taliban and most of us will again disagree. In response to "mirandola": "In real truth there is clarity, right from wrong..." If that were the case, why would things ever get tumultuous?

Posted On 02/06/2021

## Astonished

Dietcurious: you are beating on an old dead horse by insinuating that the truth is relative. Only the present exists, which is infinitely shorter than a fleeting moment. In the presence, there is always a stable hierarchy of values. People who believe that the values are relative do it, because they don't realize that their intellectual capacity is infinitely smaller than the one needed to figure things out. They resemble the drunk, who cannot keep his balance, but prefers to believe that the earth is moving beneath his feet.

Thank you It's\_All\_Light! Very well articulated and hits the center of the bullseye! Gratitude. I think people have a thought in the back of their head: "It will never happen to me". What if they are wrong? What if they are the exact people who suffer such extraordinary side effects as natural medicine would NEVER cause, such as convulsions, paralysis, palsy, anaphylaxis? Yet those are the very things being reported with regard to the false and misleadingly misnamed "vaccines", which really are genetic modification and a pure recipe for autoimmune attack. With petroleum-derived polyethylene glycol shot into our veins, to boot! Then the thugs call the naturopaths the quacks. I think it is time to turn the tables and point the fingers right back! Surely we citizens have Every Right to be concerned about side effects! Submit and don't object? That is just pure violence. It is time to punish these thugs, in a court of law! Who said that BigPharma's critical role is to harm people, and no talking?

As for "Strangling truth and freedom" thank you for calling it exactly what it is. Once again people think they are above it all. But when a US Senator voted for the police/FBI empowering Patriot Act and found himself the subject of a warrantless search, he figuratively speaking, screamed bloody murder. So a US Senator thought this law would never clamp down on \*him\* eh? So what about the truth and freedom stranglers? They will never be affected? They are probably wrong.

It sounds to me like the CCDH is deceptively misnamed. It is a hate organization, judging from the way Dr Mercola has written about its actions previously. Dietcurious, as for truth being open to

interpretation, that is just nonsense. Evil lies with truth, using a grain of it to distort the message. In real truth, there is clarity, right from wrong, boundaries. "By the fruits shall ye know them". Anybody who wants to be wishy-washy or distort the truth, is not working with the truth. All there is to it.

There are still many people who trust their own senses, and the truth also spreads quickly in times of deceit. As people are seeing things they recently laughed off as "conspiracy theorist lunacy" actually coming to pass, so they begin to see things ain't quite as they've been led to believe. Thanks for your post Its -All-Light. George Orwell and Aldous Huxley both seemed to have knowledge of what societies would become. Most of this move toward authoritarianism has been under way for quite some time. Both authors have lots of insightful quotes and of course their writings. I did some research and found an interesting article that elucidates the backgrounds of both men and a very plausible reason as to why their writing seem to be prophetic. The best information is in the comment section as is often the case. The very first comment explains that both Orwell and Huxley were members of the Fabian Society and much more. I apologize if you are already familiar with this information hopefully it will be interesting and useful to others. Cheers. the Center for Countering Digital hate is a Pharma or should I say "Harma" Front Group that does not bode well for the implementation of a UK labor socialist Program ~ these ANTI DEMOCRATIC pressure groups want to modify humanity so that the capacity to think individually is suppressed and in its place a hacked transhuman Slave Class will be established that understands Big Brother's edict "YOU WILL OBEY" and "YOU WILL DO AS YOU ARE TOLD" ~ no disguise of manufactured intentions will be required ~ the Modern Slave will have No Rights apart from the Right to Die ~

Pharma /Gates desires two distinct classes ~ those that CONTROL { a tiny minority} and those {greatly reduced Masses} that will function as SERVANTS and CHATTEL in the hands of those that "CALL THE SHOTS" ~ where will this take us as a human species ?? ~ we will be altered from psychically inspired potential to materially constructed Human Capital ~ our fixed role will be as a SLAVE CLASS

exclusively ~ reproduction when allowed will be by license only ~ the family structure will become obsolete ~ VACCINATIONS will become a Delivery System for digital CONTROL mechanisms for the internalization of Digital Control ~ humans are being designed to be inferior robots that are nothing more than CYPHERS ~ the Slave Masters have a plan and "YOU WILL OBEY".

Right Stanley. They have been prepping for this even in pop culture. Check out Celine Dion's creepy globalist commercial for "Gender Neutral" baby cloths from 2018. She starts out by saying: "Our children, they are not really our children, as we are all just links in a never-ending chain".... What she is really saying is our children belong to the state....as in slaves. And notice the nano particle smart dust she blows on the babies. There is a deeper meaning & symbolism to this commercial & it is connected to what is going on now with this plandemic & digital control. This video commercial is pure evil: [www.youtube.com/watch](http://www.youtube.com/watch)

Well said, Stan. I assume the unnamed funders of this organization include the Gates Foundation and other globalist entities. It is clearly a front group that, like many leftist-Marxists, uses the word "hate" to silence and delegitimize alternative views or anyone who challenges their narratives. What you describe so well is what I call the new Feudal system: the LORDs being the globalists, corrupt politicians, Big Pharma and Big Tech with compliant media; the rest of us are the Serfs.

shannon ~ I read Celine's Wikipedia entry ~ she had three children by in vitro fertilization with a man who was 26 years older than her and the only other fact that seems of interest is that she was a bulimia nervosa and anorexia nervosa fashion victim who "threw up after every meal" ~ as to her range of children's clothes ~ they look like they were designed by an adult for the adult market which has a resonance of pedophiliac vibration ~ the "story" that this commercial relates "makes no sense" ~ I think her Cirque Du Soleil acquaintances wrote this for her because this is not what a regular mother would dream up and market as a children's clothing product ~ a very bad advertisement that does not portray Ms Dion in a positive light ~ whoever advised her to put this out has done her a serious misservice

hi Doc ~ yes, a Feudal System that updates feudalism so that it now has a technocratic edge that intensifies surveillance and is an advance on the "truth drugs" that supposedly allowed for galvanomic verifiability of skin reactions - Philip K D ick in Blade Runner shows a form of eye test that was the polygraph test " What is a polygraph test? In short, polygraph tests record a number of different bodily responses which can then be used to determine whether someone is telling the truth. They usually measure things like blood pressure, changes in a person's breathing, and sweating on the palms" ~ now technocracy has deemed the polygraph as inferior to the neurolink that directly forces the brain to reveal its thoughts and will eventually replace the brain with "thought control" ~ this is the theory anyhow and this is what the SERFS of the near future will have to contend with

Here in So Cal. we still have many wearing masks in their cars by themselves, working out with masks, wearing outside is mandated ( which is not a law ) most I think trust and will not challenge the authorities that they beLIEve are keeping them "safe". Those that do survive will be the ones that resisted the tyranny, oppression and control of our bodies. Hopefully the truth seekers will prevail. The best form of defence is attack, so they say - a very, very old trick indeed. So I will do as suggested by Ahmed and urge "the tech giants" to close down his website as it is aimed at fomenting "hate" against

those who exercise their legal or constitutional right to refuse vaccination. How much more hateful can it be, to foment hate against mothers of vaccine injured children and individuals, hate against those who demand the application of enshrined-in-law principles of informed consent, the Hippocratic oath and the Nuremberg code on medical experimentation. Gauleiter Ahmed seems unaware of these protective principles so time to inform him and the bribed and corrupted press that publishes his drivel.

While on the subject of infodemics, it's time for governments to crack down on the "tech giants who blatantly employ their armies of "fact checkers"to crack down on the truth, hence their censorship of effective drugs and natural remedies against viral infection. Oh, while well there's all this cracking down going on, how to crack down on governments that refuse to crack down on tech giants or their own policy of cracking down on truthful information on fake plandemics. Need to alert Herr Fraudci, Gates and co that Ahmed has got his eye on them as they have been fostering digital hate against the human race for years. You are no doubt right, Stan and we probably don't know the half of the bribery and corruption that goes on in high places. It was Ivor Cummings possibly who revealed that UK medical centres are paid £10.49 for every flu vaccination administered and I suspect the same enticement is or will be

offered to administer the latest injected substance going under the pseudonym of a "vaccine". Judging by the number of phone reminders left on my phone from my local medical centre reminding me to make an appointment to get the injection, (which of course I ignore), they are suspiciously keen and assume that my compliance is taken for granted. Thanks for your comments - always straight for the jugular, Stan, which is what makes your posts irresistible. You are not afraid to speak out even when some clearly unfair views are published. All Kingdoms on this Earth are Wicked and controlled by Lucifer. He's been given Authority for now, but his days are numbered. As followers of Jesus, we should be more concerned about advancing His Kingdom, and our prayers should always be in accordance to God's will, not our own. I long for the day to see all of the evil around me utterly destroyed when Christ returns. Men like Bill Gates, George Soros, Henry Kissinger, The Rothschild family and the Rockefellers. All globalists and secret Society members. Keep in mind that these people are just serving their god, and it is him who gives them their wealth and fame. But the Bible says that they lose in the end, and the cost of betraying The Almighty will result in eternal damnation. Let's focus on fighting the good fight until we go home or the Lord returns.

Oh things are so bad now that you can't even drive past a church without seeing an obelisk or a pyramid. People have abandoned the 10 Commandments, and embraced Christianized pagan holidays. Including Sunday worship The deception is so great even sincere people are completely deceived. Remember, the fear of the Lord is the beginning of wisdom. People are so worried about catching a virus nowadays, they have lost sight as to what they should truly be afraid of. And fear not them which kill the body, but are not able to kill the soul: but rather fear him which is able to destroy both soul and body in hell.

Heh? Thinking? But I must say I object to the general ruse on this forum about "liberal communists". If this is a politicized attack machine, informed by nothing but prejudice and hate, I sincerely object. I have researched the Congressional voting record, spending hours combing through it, one politician at a time. Does anybody know? Who voted for the torture bill, across the board, written in such a way that YOU and I can be the next victim? It was the conservative Republicans, where the liberal Democrats solidly voted against it. Yet, I also have seen where the Dems voted for things that also were wrong, right in concert with the Republicans. ## Dr. Steven

The references to JFK's speech endorsing freedom of the press and how "liberalism" used to uphold open debate of diverse ideas--foundational principles of our Constitutional republic that made America a beacon for oppressed peoples living under the Iron Curtain--are things I used to take for granted as an American that now, sadly, are under rapid assault. Today's "progressives" are a far cry from free speech-advocating authentic liberals of the recent past. Today's "left," now controlling our government, holds to a largely neo-Marxist ideology that celebrates social control, dismantling individual liberties, and silencing debate under the guise of protecting us from "offensive speech" and, in regards to natural health, "misinformation/disinformation/conspiracy theories" and other silencing tropes.

I used to think the left cared about nature and freedom, things I greatly value; they are no friends of natural health; while advocating "choice" they seek to take away our choices, for example, regarding vaccinations and expressing alternative views. I pray that more people will awaken to what is happening as our civil liberties are fast eroded by a nefarious collusion between Leftist politicians, Big Tech, Big Pharma and the globalist cabal, intensified by the "pandemic" used to justify drastic social control and upend life as we knew it. On a positive note, the Wall Street Journal on Wednesday ran an article about vaccine opponents that was fair and included interviews RFK and Dr. Tenpenny. Perhaps

there is hope but things are moving fast and we need to fight to preserve our freedom. I appreciate the reference to "the truth will set you free," words attributed to Jesus in the Gospel of John (8:32), who died for truth.

Pre-meditation & pre-arranged media to carry it out requires censorship of truth. The May of 68' student movements in France nearly brought the government down. We are half a century later & although there is no Vietnam War, there is a silent war sponsored by some influential & powerful elitists, like Gates. Unfortunately, our current youth has had their heads down in a Smart phone and guess what? They are not so smart. They are missing what is right in front of their face....including the wireless beaming into them. The elderly cannot take this on. The 50 somethings are too busy holding down the fort of the family, working, with the kids at home & "online" learning.

Minorities have been hit hardest & have nothing to lose by challenging the status quo, but they are dependent on the state now for \$\$, so they are stuck to comply. I predict it will be the medical community that will rise against this. Doctors, nurses, caregivers, paramedics, & hospital administrations. If it starts in one area, one hospital and grows, you have a movement. The public respects them & trusts them more than government I would say. So far, they have shown the most resistance, roughly 50% opting out of the COVID Vaccine. You cannot censor them, they are on the front lines & word spreads quickly from them on what they are seeing in real time(side effects of vaccine) & will leak out to the communities.

I predict it will be persons across all groups who will resist. It does not need to be a majority--most of whom are sheeple, anyway--just a large enough minority to make some waves. The question

that has to be asked of bureaucrats is, "Would you bet your job and benefits on this?" <=When making change, you need to find an actual person who "bleeds". You cannot expect action from an anonymous entity or bureaucracy. Individuals must be held responsible. There is a need for lawsuits once constitutional rights are violated. So much of what we have been told is lies or misinformation. The truth is that "the experts" lack credibility. You cannot trust or believe a liar. We have been told the reason more people are not getting vaccinated is because of vaccine distribution problems.

I think we have pretty much observed the first flight of lemmings... all those fearful people so eager to get vaccinated that they are willing to believe or do anything. I don't think bureaucrats want the rest of the truth known. demand for the vaccine may have peaked. In certain parts of the country, demand for the vaccine is already slowing down. They are now approaching strong resistance from at least 25% of the population. Now, we will begin to see the iron fist that has been hidden in the velvet glove.

[citizenfreepress.com/breaking/vaccination-site-empty-despite-intense-d..](https://citizenfreepress.com/breaking/vaccination-site-empty-despite-intense-d..) One of the next groups to face pressure will be requiring vaccination for students. If at all possible, get your children out of the public school system and begin home schooling. The cards are pretty much stacked against you if a vaccine is mandated as many reasonable exemptions are denied.

Shannonaz, well said! I do observe that it is the doctors now, who are the ones saying that the lockdowns are misguided (I am not just talking about the frontline doctors, who have come out in the open with it, but others who remain quietly behind the scenes...I have talked with several of them)....and it is they who are the ones who see right through this. I think also, a lot of them are disgusted by the crackdowns on HCQ and Ivermectin, and their own freedom to practice medicine as doctors. This is going to cause a revolt, and it is at last that the truth is being recognized, that the Great Dictators are not on our side! Good! It's time for them to wake up.

Why didn't they long ago, when hormones and known carcinogens were approved in our "foods"? Duh! Well at least they are finally waking up, now. As for the movement, you are right Shannon. I

read somewhere, that it was studied and seen that all it takes is one small voice to change the dynamics of an entire crowd. I have also myself, seen this happen. It will become the hundredth monkey! Further, I think when the pain and suffering become too great, people will wake up and the system will correct itself. And that had better happen SOON or it may be...well I was going to say, too late. But then again, if Iron Curtain Rumania shot people who spoke up, and when the masses figured either they would be shot for speaking or die of the freezing cold snowy mountain weather where the centrally controlled heat was shut off in their homes, well they spoke up.

And when they all did, chanting in unison, the nonviolent crowd power was so amazing that the president had to be airlifted by helicopter, and the Iron Curtain fell. What a miracle story! If that could happen there, it can also happen here. I do believe certain individuals at the head of this whole ring of lies and harming society, belong in life prison. End of story! Lights, camera, action! Please contribute to Reiner Fuellmich's lawsuit. I have no connections.

Hi Sannonaz.....one would think that more doctors and nurses would opt out, but they are not. At my large large teaching trauma hospital.....all staff with few exceptions are lining up in droves. The death shot is NOT mandatory, nor are you harassed at this point for not taking it; further staff are witnessing first hand how sick the death shot is making everyone, yet they still roll up their sleeves. This in the state of PA. this is why I have lost all hope in some aspects of life.

Sorry, some how I deleted my comment, I only wanted to edit it.. I am not very savvy... the whole thing went. I just wanted to say, hug each other and stay strong, don't let evil win, I am waiting for the media to fall, we want our lives back, people have acquiesced too quickly, no fire in the belly, children wearing

masks is child abuse. I am in Darwin, we have had no restrictions, all open, all normal, no tests, no masks... So, I have been blessed. I am so sad when I see people wearing masks for something that it's just a bad flu, my dad 85 died of influenza in 2008, it was his last battle, his medical folder was as thick as my arm, his immune system was low, I can not blame it all on the influenza. When I was in my 20s. 1971, my girl friend 's mum was diagnosed with T.B. until we found out, we were with her, hugging and being next to her, she spent 4 months in the Sanatorium, she got better. We had chest Xrays, the world did not close, no masks and no fear. Today, still 4.000 people including children die of Tuberculosis every day. This has been the biggest criminal act of the XXI century.

The divisiveness itself is obviously intentional, and a key facet of the power grab. Divide and conquer. But it also depends upon an active majority being certain enough in their delusion to act as the enforcers. Though it's not really a vaccine, as such, the COVID jabs are making it very clear to rapidly increasing numbers of people, especially caregivers, just who is lying and who is telling the truth, converting many people from true believers to doubters, and doubters to outright non-believers. The fever pitch to which this misinformation campaign has risen betrays their desperation. The truth WILL out, gaslighting and mass misinformation campaigns be damned.

Understanding of the 4 stages of ideological subversion & the constructs of the ego is key to recognizing the delusions, intentions, underpinnings & deleterious methodologies of sinister & nefarious forces that at the core of the heartless, soul-less, compartmentalized, ravenous & rapacious usurpers, psychopaths & malignant messianic megalomaniacs thirsting for total "power & control" domination over all things. Their (The CULT) insatiable lust for "power & control" knows no bounds, & in fact, revel & gloat in the infliction of pain, suffering, misery, depravity & the slow agonizing death of all living things.

Ideological subversion: Stage 1) demoralization; Stage 2) destabilization; Stage 3) crisis; Stage 4) normalization. As each stage is reached, the continuance of the tactics of the previous stage are still brought forward & in use along with the new tactics of the next stage, thus, increasing the confusion, passivity & acquiescence of the target. The world is currently in Stage 3 and rapidly transitioning into Stage 4. A very major step in this process has been the creation & imposition of the totally fake & fraudulent "C-19" crisis & resulting lock-down measures, pseudo-science, bio-weapon "vaccines", mass censorship, as well as, the blatant & outright pillaging, desecration, confiscation, barratry, & defrauding of the US elections system. The takeover & installation of fraudulent government representatives is the rapid move to Stage 4 - normalization.

The People still have the power, if they will choose to use it by becoming aware of this subversion by discerning the TRUTH & not acquiescing to the dictates, edicts, bribes, deception, deletion, muting & theft of Freedom, Liberty, Peace, Prosperity, Lawfulness, Morality & our Humanity. Has the "FAT CAT" lifestyle become so entrenched that the People will remain neutered & let it all slide into the abyss of Satanic fascistic, eco-technocratic feudal enslavement & transhumanism?

I just wish that more doctors and nurses and all health care workers would come forward. That would be the end then. They're so afraid of losing their licenses and being fined. There was a

To Cat6071 - unfortunately, putting much faith in hoping & wishful thinking that persons in positions of authority will do the right thing, along with belief in the Book of Revelations, is naïve & a facade for avoidance of personal responsibility, vigilance & a defaulting to a state of passivity & conformity for most people. (By the way, the CULT created the Book of Revelations & are using it as their roadmap to create the fear to usurp God's rightful power for their own nefarious agenda, for which, is the reason why so many people foolishly & erroneously believe that the events of what is happening is God's Will).

The higher up the power structure one goes, the less & less likely these people will "do the right thing". In the example you gave, we see a prime example of someone who thinks virtue signaling, going along to get along, not rocking the boat, not ruffling any feathers, &, assuming the role of an apologist is what is foundational to a civil, peaceful & lawful society. These are the most dangerous people & are people that will, ultimately, get you killed! The deep & lasting effects of the CULT programming & brainwashing are staggering, astonishing, & sobering to those that can "see".

To be intelligent & WISE can be very beneficial, but, to be 'smart', without wisdom can be, & usually is, destructive, deleterious & deadly. It is much more preferential to be ordinary & WISE, than it is to be 'smart' & unwise. Just because one can do something does not mean that one should. Examples: using uranium for nuclear weapons; abortion for birth control; science/medicine as the highest authority; government control of people; mandatory anything (such as vaccines); "gain-of-function research"; bio-weapons; GMO; physical abuse, mental abuse, sexual abuse; murder; et al. The grassroots salt-of-the-earth people are the only ones that can ever be the integrous gatekeepers of Freedom, Liberty, Peace, Prosperity & Justice. 'Power corrupts, absolute power corrupts absolutely'

Another thought that came up while reading this- From what I see and hear from family and friends and read in magazines, people are NOT waking up to the fact that the covid shot is not a ticket back to life pre-covid. They all believe it's a wonderful scientific accomplishment and everyone should praise Fauci and Moderna and Pfizer for all of the hard work they've done to save us from this plague. In People magazine, there was an article about baseball legend Hank Aaron's death saying he died from natural causes- no mention of him getting the covid shot a few weeks prior to his sudden death. Then in another issue, there's an article with celebrities saying why they can't wait til they can get their shots. One celebrity said the first thing she'll do after she gets her shots is go hug her friends. There's no mention that these shots will not, in fact, stop the spread of covid and that you still have to social distance (no hugging allowed!) and wear your masks (2 masks now!). NOTHING is changing except perhaps having to now show proof of vaccination to go anywhere.

From my viewpoint, the vast majority of the population has been brainwashed. With more adverse shot reactions come more excuses as to why it wasn't the shot. Or it may have been the shot but it's a perfectly normal reaction and still completely safe for everyone unless they have a well-documented allergy to PEG. When the death toll starts rising, it will be blamed on covid and not enough social distancing. Anyone who suggests maybe it's the shots causing the rising deaths will be labeled as anti-science or a conspiracy theorist.

I was out walking my dog yesterday and many of the neighbors were out shoveling snow and EACH one

I walked by mentioned how they have either gotten their shot or how they couldn't wait til they could get it. My friends are proudly posting pictures of their vaccine certificates online. This is the Orwellian reality we live in.

For someone looking at the Trump phenomenon from the outside: There never has been in recent political discourse such extreme level of hatred, vindictiveness and pure and potent acidity. The image of this gloating and repulsing woman holding his "bleeding severed head" by the hair is more than chilling. What could be the reason? Why is his election bothering them \*so much\*? It can't be just his "offensive" at times personality (An effective Leader doesn't have to be "a nice person", example - Lyndon Johnson). So Trump must be disturbing some plans of some powerful people on both sides of the isle. He must be representing some voters whose concerns haven't been a priority and have been neglected and not taken seriously. A few times he came up with "ridiculous" claims which then turned out to be very real and valid. He seems to be fighting the Dragon with 9 heads from the children's storybooks. It seems to take a lot of courage, and he seems to have it in spades.

RE: CCDH demanded that companies and governments virtually eliminate individuals or groups publishing information online that fails to align with government and industry narratives about vaccination and public health policy Here is an example of what goes on behind closed doors. Watch the video and learn how those in govt who should protect your rights often violate them. This is about how govt becomes the long arm of industry to eliminate competition for large companies. A commenter wrote that it is expected the pandemic to disappear this summer. Sadly, this will not occur, as the evil controllers will release SARS-COV3 and even SARS-COV4 and more to get your attention and keep the pandemic and emergency declarations intact. That is why it is paramount for those in the US to align with Make Americans Free Again and the various state organizations, such as Ohio Stands Up, New Mexico Stands Up, and New Mexico Freedom Alliance, to start your own state organizations and to help fund their lawsuits to declare the pandemic and emergency declarations fraudulent. Recently Ohio Stands Up attorneys have filed a TRO, a Temporary Restraining Order and a Show Cause Order to produce the facts and explain the inflated case and death counts against the DHHS. The chart on page 92 compares the coercion techniques used on American POWs to those used on law abiding citizens by Governors for COVID19 restrictions to obtain obedience. by Derek Knauss, January 9th, 2021 What we found was that all of the 1500 samples were mostly Influenza A and some were influenza B, but not a single case of Covid, and we did not use the B.S. PCR test. We then sent the remainder of the samples to Stanford, Cornell, and a few of the University of California labs and they found the same results as we did, NO COVID. They found influenza A and B. All of us then spoke to the CDC and asked for viable samples of COVID, which CDC said they could not provide as they did not have any samples. We have now come to the firm conclusion...

Great post. Everything you mentioned was dead-on, but I want people to realize that there is a Spider in the middle of this web of evil. When you have men who are compromised, or members of secret societies, their first allegiance isn't to their country. Our founding fathers were a bunch of high level Freemasons themselves, and I suspect that America has accomplished exactly what it was always designed to be in the first place - The Military Arm of the Vatican. A Superficial Christian Nation, that actually speaks as a Dragon. (Lucifer) And the great dragon was cast out, that old serpent, called the Devil, and Satan, which deceiveth the whole world: he was cast out into the earth, and his angels were cast out with him. Revelation 12:9 And I beheld another beast coming up out of the earth; and he had two horns like a lamb, and he spake as a dragon. And he exerciseth all the power of the first beast before him, and causeth the earth and them which dwell therein to worship the first beast, whose deadly wound was healed.

Revelation 13:11-12 This beast is an Empire that comes up out of the earth who I believe is the

USA, and the second half of the verse is referring to the Vatican. The deadly wound being spoken of was when Napoleon for a time reduced the Papacy to insignificance, yet over the years, She has revived the power and control she once had. Rev 17 is a chapter squarely focused on the Woman who Rides/controls the Beast(Empire). Mystery Babylon, Is the Whore who controls the Kings of this earth. A woman is symbolic for a religion in the Bible, and a whore, a false religion. She is called the Mother of Harlots, and abominations of the earth. And here is the mind which hath wisdom. The seven heads are seven mountains, on which the woman sitteth. And the woman which thou sawest is that great city, which reigneth over the kings of the earth. Revelation 17:9,18 Jesus warns us to come out of her before she is utterly destroyed, which is described in Rev 18.

You would do well to look up PEG, as it is a petroleum byproduct, and as I said last December, foot drag, wait for the normal vaccines which are about to be approved. NO ONE cares if you have a reaction, and there's NO WAY to detox the mRNA jab. You need to be firm, tell them you did not think the point of a vaccine is to be permanently disabled, and you want your employer to put in writing they will cover all your expenses should you require hospitalization or 24/7 care for life, after getting the shot. They may back down fairly quickly. The US govt only has 250,000 to cover injury from this experiment, and that would only come after a lengthy lawsuit against HHS. You gotta be crazy. Go online, copy the warning Dr Fauci made that if you are allergic to any ingredients, do not take this shot. And send it along to your pressure points, along with the request to cover all expenses, for life, in case you do have a reaction. They may back down fairly quickly, after all this virus is not much worse than the seasonal flu...

In a room full of lawyers the solution will be a legal one. That will be true for all people with a fixed perspective. The problem where decision makers think similarly or politically the solution is quite predictable, narrow and often incomplete. The elephant in the room that is getting bigger and bigger

each year not smaller is autism. Its is around 1.7% of children today in the USA so at what point do we start to address the problem with some concern. When it hits 5%... 10% ... 20% ... how about 50%. Those in authority that bury their head in the sand over this issue also expose their rear end to future circumstance and do public health and the govt. no favours because the elephant is increasingly getting bigger and bigger as we speak. Narrow minded thinkers would assume that NVIC is a foe to govt. when it is actually a friend because they are the only ones telling the govt the truth about the elephant in the room and its future threat. The govt has a public policy to use vaccines as safely as possible so it is in their best interest to have on board NVIC to help them in this endeavor to better advise on safety as it can not be guaranteed that pharmaceuticals since their drive is motivated by business profits or govt health authorities, which can have conflicts of interests or just plain public service mentality, will be objective. NVIC even if by playing devils advocate can help Govt to do a better job in achieving a better public policy yet is govt smart enough to use this resource?

These are bullies. There are other nasty orgs in the UK. One such is the G00 d Th1 nk1ng S0c 1ety. Their past activities include attacking M er cury Free D ent1sts. My own dentist was hauled before the GDC for a hearing by this crew. One of his "crimes" was stating on his website that Arnica helps bruising after extractions. Another vicious ha te campaign from these despicable lot include demanding to major supermarkets and retailers that they remove a monthly magazine from sale. The magazine is What D0 ct0rs Don't Te11 Y0u. They had people actually go into shops and put the magazine to the back the display racks, turn it back to front or drop it down the back of racks to fall to the floor. Another year, they had it in for Ch1r0practers. This despicable censorship had already started a few years back. They react with venom and spite to anything that threatens their model of health and try to destroy anything that helps people get honest, credible, unvested information to make their own informed health decisions.

Some thoughts that arose while reading these comments- It is easy to look back on the past with a longing nostalgia while forgetting that things weren't as wonderful as they're being portrayed. I was born in the 80's so I have not lived through the "golden years" of the past (for me, the 90's were the golden years) but I enjoy watching old shows and commercials and I see a lot of similar propaganda- Ads saying how wonderful DDT is ("DDT is good for meee!") and children running through the clouds of DDT being sprayed in neighborhoods, toys made with lead paint are fun and taste sweet!, cigarettes are just what the doctor ordered, plastics are going to save the world, lobotomy's are a great way to make "crazy" people behave, etc.

I listen to a radio show every week where they go back 100 years and read news headlines and play music from each decade up until the 70's and many of the things I hear are quite similar to today. Riots, outrage at the government, miracle drugs and vaccines, etc. And how about what life was like for people who weren't white? The blatant racism was deplorable. People of color had to fight to go to school with whites, had to fight to sit at a restaurant, had to only drink from fountains and use restrooms labeled appropriate for them. And the experiments done on them through vaccines that are rightfully making them question the covid shots safety.

We are on another level of propaganda now with the internet, social media and the ever-developing technologies used to keep us under constant surveillance so I understand it is much more difficult to avoid falling into the trap that the technocrats have created to obtain complete control. The point here is it's important not to view the past through rose colored glasses or else we will keep making the same mistakes over and over again- as is happening now with the covid shot. We must look back and learn from our mistakes in order to have any hope for a mentally and emotionally sane future.

What is being touted is called, "authoritarianism." The bottom line--population control, just as in "gun control"--by putting restrictions on everyone, which is a prelude, or an acclimation to a one-world government, which is prophecy unfolding--re: The Book of Revelation, Daniel 11 and Matthew 24.

Dad always said "don't talk politics or religion", I guess I will have to expand that to "don't talk politics, religion or health beliefs" The Pied Piper has returned and if you don't join the herd of followers, then you are a terrorist ( yesterdays news) If you free thought, then you need to be contained. Misery loves company, so we are to be forced to join the herd or be openly exterminated. This is not a brave new world, it is not what I want for my fathers great grandchildren. My belief is, if you are screaming any of the many many rioting declaratives like racism, the screamer is most likely the screamed declarative. So now we are not allowed to hide within ourselves with freedom of thought, we are to be targeted by the CIA and NSA as domestic terrorist. They want the people to resist so just like the jewish people, we can be exterminated. They are trying their best to start an insurrection, just as they planted the rioters amongst the crowd at the capitol.

My amazement comes from how many in this regime are willing to sell out the American ideal ... for a buck. Has anyone noticed that they move the brain dead's from state to state to bring it down? CA to TX, WA, OR to name a few. Maybe the states should pass a time frame for voting, like 12, 24, 36 or even 48 months before residency status is obtained. No more "come to GA and vote". Can't mske it to the poll's ... with an ID. ... issued by the state at least 12 months prior, try again in the next election.

Corporate-funded "science" is the new religion- Scientism. Thou shalt not question what "science" says. If I dare question the covid shot safety in front of my friends or family, I will be labeled a conspiracy theorist.

I always wonder why we aren't allowed to talk about vaccines. Why can't we ask questions? Some of you may remember an earlier post about my 14 year old daughter, Emma. She got a vaccine injury age 2 — but no one will talk about it. No one except her naturopath, and this group. Why? Why can't we talk about it? Reminds me of the \*\*\*...no one was able to ask questions about the concentration camps either.

Talking about it exposes it, which undermines the charade. Where did the vaccine culture come from? At the end of WWII the US rounded up all the scientist(?) that were experimenting on human beings, injecting chemicals etc into human 'forced' subjects and observing the effect. I have asked many times why were these individuals so important and what 'top secret' program's did they work on? It is my understanding that some of the Rx industry was started by some in this group. Where do vaccines come from, from Rx companies. What happens to companies that cannot sell their product, like horse whip manufactures with the advent of the automobile? They go out of business. What happens when Rx companies do not have success lobbying politicians, not Dr's, to push their agenda? They too go out of business. There is a BIG similarity between those forced subjects during WWII and what politicians are doing now, forcing it on us.

Yup, my Bff has twins slammed by the dpt shot in the early 80's, about the same time as BLF's son...nobody talked back then, learned to keep your own counsel. One thing is far more injuries are occurring today than ever before. Another is, though a minor player, sensitized me to identify possible injury at a distance, for someone whose grandson got back-to-school Gardasil and flu shots, not ever supposed to be given together...he got attention, he also got lucky. So the beat goes on unless Grands (Nonnas) and mom's across the nation join hands to stop the infanticide and injuries. There are way more of you than of them, the massive dollars involved notwithstanding. Find a group you resonate with, join their conversation.

My granddaughter was vaccine injured at age 4 months. She is two now. I know some of your pain, heartache, and fear as well as the horrible knowledge of the pharma made loss of potential. I find it's much harder to talk about in today's world than it was for me to talk about it when my 26 yo daughter was a toddler. People seem much more brainwashed these days. I rarely bother anymore and my daughter has not been able to tell her story on the children's health defense site. She's not ready yet I guess. I also bought half a slaughtered pig from a professor recently who moved here to central Wisconsin after her first born son was vaccine injured and became autistic. She left the city and started an organic farm here in the middle of the woods. Her son is now grown and in college. The lifestyle she chose to help her son has worked very well for him. She has six kids now and told me her biggest fear is mandatory vaccines, even for homeschooled children. I'm very worried also for the Amish.

One of the things, for me, that stands out as a red flag that we are being used as lab rats with this vaccine is the company's freedom from any liability - AHEAD OF TIME! That alone tells me that there was knowledge that there would be mortal and/or crippling side effects from these vaccines! As huge numbers people are refusing this vaccine, the propaganda gets turned up. There are insistent pro-vaccine articles showing up in popular magazines. As resistance increases, we are being bombarded by increased media misinformation. Ugh!

The US FDA has more issues than can be believed, They are hearing mostly lies and subject to subterfuge by the very corporations they are supposedly supervising for guarding and protecting American health interests. Our courts system's is as corrupt as the rest of the governments around the world we live with very sick people in power and with power to be used against the people. I did see some hope as what looks like they can prove that sleepy joe has got in on the back of the corrupt system and that they can show clearly where and who did the fraud so i hope this will come out and that whoever you voted for does not matter this is to big for the people of AMERICA to stand by and let this happen.

CCDH is a five eyes, MI5 front for disinfo, working for the AstraZeneca Oxford University partnership and vaccine pushing bioweapon peddling Masonic Lodge stooges in the parliament, don't be mistaken, the conservatives, Masons, labour, Masons, even Nigel Farage, and the reform UK party, Masons... There are likely only 74 non Masons in the house, the other 260+ voted for lockdowns and pandering mandatory bioweapon genocide, all of it violates the inalienable rights of citizens under common law, it's genocide, fraud and crimes against humanity, and it's the Masons, City of London corporation... and the illness caused by 5G roll out, being used as a fake pandemic to pander the genocidal vaccine kill shots. So there was a big panic in Georgia when it became known local teachers were being vaxxed. There was a raid on the clinic and ALL the vaccine stock was removed and a 6 month ban put upon them. Reason: The vax is ONLY for the 65 year olds and older. These are the ones to be 'seeded and sickened' to hasten their demise of course. If it became widely known that a bunch of Georgian teachers were sickening (and being paralyzed, and dying) en mass, after receiving their vaccination the penny might just drop that the vaccine is an intended killer, an intended slow killer, however, sometimes it is not so slow, but hours, especially for the current target of the 65 year olds and older. Yes, it is indeed a struggle for life in the face of pure evil. A struggle between the ethical, and evil, in medical science.

It's late in the day and I'm sure no one will see my post, but I'm still posting! At work I have been very vocal speaking against mask usage and vaccines. I continue to press the line even though I've been counseled by mgmt about wearing my mask properly (nose covered), yet still I let it slip most of the time. Different mgrs have been off and what I've noticed is if one of the top two is off, the other won't enforce mask use- So ... guess what I don't wear all day long!! I've encouraged others through my actions to also allow their nose out all day or to go hours without a mask before a mgr barks out the order.

Lastly, the gal I work next to is intent on being vaccinated. Today she received a text from a friend who just received her second round and she's experiencing severe side effects. I'm hoping my coworker doesn't follow suit, yet I've stopped offering alternatives such as vitamins, Ivermectin, etc. I figure it's their choice; drop dead suddenly or die a terribly slow agonizing, miserable death. I'm so grateful to this site! So many wonderful people sharing their knowledge and insights. BIG HUGS ; )

## fundamentalassumptions

The war is already here, even in this forum, whether we like it or not. Spiritually it is always there, & the Bible plainly describes the time in which we find ourselves, but even unbelieving men still not utterly divorced from truth: evident & conscientious, sense it these days! Ultimately, the battle is for men to keep their stand on the ground of God's preserved word or be moved to something else which ambitious & crafty men & women, & the spirit behind them, can craft & control. Those w/ evident truth & goodwill conscientiously have a two-legged stance, & a certain stability; while those with the scriptures & mature in the content, why's, how's & wherefore's concerning them have the most stable

three-legged stance for men of body, soul & spirit created in the image of God. The battle always begins there. But both can stand sufficiently to war a good & decent warfare ending in life.

From the temporal perspective we are experiencing all out war, or total warfare, & it is 4th & 5th generation. The terrain is human. The weapons are information & cyber. It is really an outworking of the same old battle of conscience & soul, & truth is still the key. But truth is dangerous to given- over tyrants & would-be gods for truth points the little people (from their warped perspective), their fellow man, the sheep of God's pasture which they would rob, steal, murder & devour: men w/ conscience, to God, the good shepherd & his freedom indeed. The evil shepherd & his hirelings & ministers would harness men to serve themselves as the 'higher evolved'/ascended/holders of the secret wisdom etc who CANNOT abide truth& will not risk that form of freedom breaking out. That is why the demoralization is always coupled w/ the dumbing down, to lead men toward the counterfeit freedom of immorality ending in death instead. In biblical terms it is John 8 versus 2 Peter 2, for starters. The unevolved KJB regardless of what men of craft like ol' James White-out have to say

## fundamentalassumptions

Jeffrey Prather is not a biblical Christian, but he is a man of good will and wisdom, former DEA/DIA, familiar with psychological warfare & its evolving forms. He outed the false narrative that American guns were arming the Mexican cartels rather than globalist covert governmental agency partnerships as was the truth, back with Fast & Furious, and rapidly went from 'hero to zero' as he puts it. He is now a whistleblower & works with former & current special operations and policing agency personnel in recognizing & dealing with both the street & organized dupes level of attack; and more importantly with wrapping one's head around what this new form of warfare is, and how it works...how to combat it. Check him out. Most recently, his intel included the report on what Agent Alfin & his partner were working on when they were shot 'in the line of duty' in Florida. There were working on a case on child & human trafficking and exploitation in a huge international ring called 'Playpen'.

Included in his assignment was the Hunter Biden laptop which ties it to the Ukrainian & Chinese aspects of it. This DOES link with the war against slavery, whether through medical tyranny against

those with power to resist the more abject forms Agent Alfin was fighting, successfully I might add. He had put some bad people away for a long time. If we with the power to resist do not learn to fight smart & well to win this thing, then we and our own become subject to the most abject & demeaned forms of slavery. We must get our heads in the game & think beyond conditioned programming, but if we dump truth in the doing, then we're just blind & still in a box, or matrix, however you want to express it. It's life or death. Not a game. Incidentally, he calls the Republican/Democratic show the 'Uniparty Show'. You gotta get out of the dialectic or you will be subject to & serving its creators and masters of craft, and the spirit behind them.
