

## Vaccines Are the New 'Purity Test'

Analysis by [Dr. Joseph Mercola](#) ✓ Fact Checked

### STORY AT-A-GLANCE

- › The Biden Administration is seriously looking into establishing a vaccine passport system that will allow unvaccinated individuals to be legally treated as second-class citizens
- › In Israel, vaccine certificates are already required for entry into many public spaces. Activists warn it's become a two-tiered society where the unvaccinated are ostracized
- › The public narrative is not only building prejudice against people who refuse to wear masks or get an experimental vaccine, but is also using healthy people as scapegoats from the very beginning, blaming the spread of the virus on asymptotically infected people
- › With the rollout of vaccine certificates, we are stepping firmly into discrimination territory. The last step will entail persecution of non-vaccinated individuals. At that point, we will have replicated the Nazi regime's four-step process of dehumanizing the Jews, which ultimately allowed the genocide to occur
- › Vaccine passports are about creating justification for segregation, discrimination and elimination of certain groups of people, in this case, people who don't want to be part of the experimental vaccine program, which identifies them as noncompliant with top-down edicts

As predicted last year, vaccine passports are being rolled out across the world, including the U.S. As reported by Ron Paul in his Liberty Report,<sup>1,2</sup> which streamed live March 29, 2021, the Biden Administration is "seriously looking into establishing some kind of federal vaccine passport system, where Americans who cannot (or will not) prove to the government they have been jabbed with the experimental vaccine will be legally treated as second-class citizens."

**Paul warns that this system "will quickly morph into a copy of China's 'social credit'**

... our name that the system will quickly morph into a copy of China's social credit system, where undesirable behaviors are severely punished." I've been saying the same thing for many months now, and there's every reason to suspect that this is indeed where we're headed.

Indeed, listen to Ilana Rachel Daniel's emotional plea from Jerusalem, Israel, where a "Green Pass" is now required if you want to enter any number of public venues and participate in society. Daniel, who emigrated from the U.S. to Israel 25 years ago, is a health adviser, activist and information officer for a new political human rights party called Rappah.

The COVID-19 data simply don't support the rollout of this kind of draconian measure, as the virus is clearly in decline and has become endemic in most parts of the world. In the absence of a serious, truly massively lethal threat (which COVID-19 isn't), having to show vaccine papers in order to travel and enter certain social venues is clearly more about imposing top-down government control than actually safeguarding public health.

## **We're Looking at the End of Human Liberty in the West**

Mandatory vaccine passports will be massively discriminating, and are quite frankly senseless, considering the so-called [COVID-19 "vaccines" don't work like vaccines](#). They're designed to lessen symptoms when the inoculated person gets infected, but they do not actually prevent them from getting infected in the first place, and they don't prevent the spread of the virus.

As such, [vaccine passports](#) are nothing but loyalty cards, proving you've submitted to being a lab rat for an experimental injection and nothing more, because in reality, vaccinated individuals are no safer than unvaccinated ones. It's a truly mindboggling ruse, and unless enough people are able to see it for what it is, the world will rather literally be turned into a [prison planet](#).

**“ In Israel ... we're hearing from activists that it's a two-tiered society and that basically, activists are ostracized and surveilled continually. It is the end of civil society, and they are trying to roll it out around the world. ~ Naomi Wolf”**

As noted by former Clinton adviser and author Naomi Wolf (whom I hope to interview in the near future), mandatory COVID-19 passports would spell the “end of human liberty in the West.” In a March 28, 2021, interview with Fox News’ Steve Hilton, she said:<sup>3,4</sup>

*“Vaccine passport’ sounds like a fine thing if you don’t understand what those platforms can do. I’m [the] CEO of a tech company, I understand what these platforms can do. It is not about the vaccine, it’s not about the virus, it’s about your data.*

*Once this rolls out, you don’t have a choice about being part of the system. What people have to understand is that any other functionality can be loaded onto that platform with no problem at all. It can be merged with your Paypal account, with your digital currency. Microsoft is already talking about merging it with payment plans.*

*Your network can be sucked up. It geolocates you everywhere you go. Your credit history can be included. All of your medical and health history can be included.*

*This has already happened in Israel, and six months later, we’re hearing from activists that it’s a two-tiered society and that basically, activists are ostracized and surveilled continually. It is the end of civil society, and they are trying to roll it out around the world.*

*It is absolutely so much more than a vaccine pass ... I cannot stress enough that it has the power to turn off your life, or to turn on your life, to let you engage in society or be marginalized.”*

## **Largest Medical Experiment in the History of the World**

As noted by Donald Rucker, who led the Trump Administration’s health IT office, the individual tracking that goes along with the vaccine passport will also help officials to evaluate the effectiveness and long-term safety of the vaccines. He told The Washington Post:<sup>5</sup>

*“The tracking of vaccinations is not just simply for vaccine passports. The*

*tracking of vaccinations is a broader issue of 'we're giving a novel biologic agent to the entire country,' more or less."*

In other words, health officials know full well that this mass vaccination campaign is a roll of the dice. It's the largest medical experiment in the history of the world, and vaccine certificates will allow them to track all of the millions of test subjects. This alone should be cause enough to end all discussions about vaccine mandates, yet the experimental nature of these injections is being completely ignored.

Again, by shaming people who have concerns about participating in a medical experiment and threatening to bar them from society, government officials are proving that this is not for the greater good. It's not about public health. It's about creating loyal subjects – people who are literally willing to sacrifice their life and the life of their children at the request of the government, no questions asked.

## **Vaccinations Are the New 'Purity Test'**

Wolf also points out the horrific history of IBM, which developed a similar but less sophisticated system of punch cards that allowed Nazi Germany to create a two-tier society and ultimately facilitated the rounding up of Jews for extermination. I will be publishing an entire article about this in a couple of days.

Suffice it to say, some of the most gruesome parts of history are now repeating right before our eyes, and we must not turn away from this ugly truth. Doing so may turn out to be far more lethal than COVID-19 ever was.

The short video above features a 93-year-old Holocaust survivor who compares mask wearing to, as a Jew, having to wear a yellow star to mark their societal status. However, back then, everyone understood what was happening, she says.

At no point were they lied to and told that wearing the star was for their own good, which is what's happening now. So, in that respect, the current situation is far more insidious. She says the "hypocrisy in the public narrative," which claims that we need to wear masks to protect the old, "is absolutely unbearable." "I would love to die in a state [of] freedom," she says, "than live like this."

She adds that at her age, her life expectancy is short, and she would gladly exchange

her death for the life and happiness of the next generations. She wants the younger generations to have the freedom “to live their lives, as I have lived mine.” “To see people defile their children with masks is something totally unbearable to me,” she says. Vaccine credentials, in my view, are even more comparable to the Jewish yellow star, but in reverse.

Not having the certificate will be the yellow star of our day, which will allow business owners, government officials and just about anyone else, to treat you like a second-class citizen and deny you access to everything from education, work and travel, to recreation, social engagements and daily commerce – all under the false guise of you being a biological threat to all those who have been vaccinated.

According to the public narrative, vaccine certificates are a key aspect of getting life back to normal, but the reality is the complete converse, as they will usher in a markedly different society that is anything but normal.

## Florida Bucks the Trend

As a resident of Florida, I must applaud Gov. Ron DeSantis who announced March 29, 2021,<sup>6</sup> he will issue an executive order forbidding local governments and businesses from requiring vaccine certificates. He’s further calling on the state legislature to create a measure that will allow him to sign it into law.

*“It’s completely unacceptable for either the government or the private sector to impose upon you the requirement that you show proof of vaccine to just simply participate in normal society,”* he said.

States and countries that do decide on such a requirement are also bound to face the problem of black market vaccination certificates, which have already started emerging.<sup>7,8</sup>

As reported by the Daily Beast,<sup>9,10</sup> a number of health care workers have been caught bragging about forging vaccination cards on their social media channels. Apparently, they have not yet realized the public nature of the internet, but that’s beside the point.

In Florida, a man working at a web design company was fired after posting a TikTok video advertising fake vaccine cards,<sup>11</sup> and in Israel, where the two-tier society is already forming, a man was recently arrested for making and selling forged COVID-19 vaccination certificates, which are now required for entry into restaurants, bars, clubs

vaccination certificates, which are now required for entry into restaurants, bars, clubs, hotels, swimming pools and other public venues throughout the country.<sup>12</sup>

Around the world, people are also being arrested for administering fake vaccines<sup>13,14,15,16,17</sup> and selling bogus COVID-19 tests.<sup>18,19</sup>

## Eugenics and Hygiene Obsessions

While it's often considered bad policy to compare anything to the Nazi regime, the comparisons are growing more readily identifiable by the day, which makes them hard to avoid.

Aside from the parallels that can be drawn between mask wearing and/or vaccine “papers” and the Jewish yellow star, there's the Nazi's four-step process for dehumanizing the Jews,<sup>20</sup> — prejudice, scapegoating, discrimination and persecution — a process that indoctrinated the German people into agreeing with, or at least going along with the plan to commit genocide.

In present day, the public narrative is not only building prejudice against people who refuse to **wear masks** or get an experimental vaccine, but is also using healthy people as scapegoats from the very beginning, blaming the spread of the virus on asymptotically infected people.

With the rollout of vaccine certificates, we are stepping firmly into discrimination territory. The last step will entail persecution of non-vaccinated individuals. This in and of itself also harkens back to the Nazi regime, which was obsessed with “health guidelines” that eventually led to the mass-purging of “unclean” Jews. As reported by Gina Florio in a December 2020 Evie Magazine article:<sup>21</sup>

*“When Hitler first came to power in Nazi Germany, he kicked off a series of public health schemes. He started by setting up health screenings all over the country, sending vans around to every neighborhood to conduct tuberculosis testing, etc.*

*Next up was factory cleanliness — he launched a robust campaign encouraging factories to completely revamp their space, thoroughly clean every corner ... After the factories, the next mission was cleaning up the asylums ...*

*What started as seemingly innocent or well-meaning public health campaigns quickly spiraled into an extermination of races and groups of people who were considered dirty or disgusting. In short, the beginning of Hitler's reign was a constant expansion of who was contaminated and who was impure ...*

*We're seeing an obsession with covering our faces all the time so we don't spread disease or deadly germs; most public places we walk into won't even allow us to enter without slathering our hands in hand sanitizer; and people act terrified of someone who isn't wearing a mask.*

*Nobody can say with a straight face that this is normal behavior ... We're even seeing people advocate for some kind of tracking device to show that a person is vaccinated or 'clean' enough to enter a venue ... Let's hope we can*

*all learn the lessons from the past and we don't witness history repeat itself."*

## **History Is Repeating Itself**

Indeed, everyone calling for vaccine certificates – which became part of the public narrative early on in the pandemic – is guilty of following in the well-worn footsteps of this infamous dictator, repeating the very same patterns that were universally condemned after the fall of the Third Reich.

Highlighting them all would be too great a task for one article, so two glaring examples will have to suffice. In December 2020, Andrew Yang, an entrepreneurial attorney with political ambitions, tweeted the following:<sup>22</sup>

*"Is there a way for someone to easily show that they have been vaccinated – like a bar code they can download to their phone? There ought to be ... Tough to have mass gatherings like concerts or ballgames without either mass adoption of the vaccine or a means of signaling."*

Signaling what, if not your "unclean" biohazard state? In his March 2021 Tweet, law professor, political commentator and former U.S. attorney for the Western District of Pennsylvania, Harry Litman, was more direct about the ill intent behind vaccine certificates, saying:<sup>23</sup>

*“Vaccine passports are a good idea. Among other things, it will single out the still large contingent of people who refuse vaccines, who will be foreclosed from doing a lot of things their peers can do. That should help break the resistance down.”*

Comments like these demonstrate that vaccine passports are about creating justification for segregation, discrimination and elimination of certain groups of

people, in this case, people who don't want to be part of the experimental vaccine program.

The justification is that they're too “unclean,” too “unsafe” to freely participate in public society and must therefore be identified and shut out. In reality, it's really about identifying the noncompliant.

During the Nazi reign, those slated for segregation, discrimination and elimination were identified by their affiliation with Judaism (there's controversy as to whether Jewishness is an issue of race, ethnicity, religion, national identity or familial bonds, which you can learn more about on JewInTheCity.com,<sup>24</sup> but all were relevant criteria in the Nazi's hunt for Jews).

Today, the global elimination strategy foregoes such identities, and focuses instead on identifying who will go along with the program and who will be a noncompliant troublemaker.

In short, vaccine passports are a device to identify who the loyal subjects of the unelected elite are, and who aren't. Those unwilling to enter the new world of technocratic rule without a fuss are the ones that need to be eliminated, and willingness to be a test subject for an unproven experimental treatment is the litmus test. It's really not more complicated than that.

## **Are You Ready To Be an Outcast?**

This is essentially the conclusion drawn by Mike Whitney as well, detailed in a recent article<sup>25</sup> posted on The Unz Review. I would encourage you to [read the entire article](#) as it succinctly summarizes the reasons behind the current censorship. I've reached out to Whitney and hope to be able to interview him about this in the near future.

In his article, he points out that behavioral psychologists have been employed by the government to promote the COVID-19 vaccination campaign and maximize vaccine uptake. They also have a “rapid response team” in place to attack the opinions of those who question the “official narrative.”

Mike also highlights a National Institutes of Health report<sup>26</sup> titled, “COVID-19 Vaccination Communication: Applying Behavioral and Social Science to Address Vaccine Hesitancy and Foster Vaccine Confidence,” which lays out the intent to turn vaccine refusers into social outcasts as a tool to coerce compliance.

*“This is very scary stuff,” Whitney writes.<sup>27</sup> “Agents of the state now identify critics of the COVID vaccine as their mortal enemies. How did we get here? And how did we get to the point where the government is targeting people who don’t agree with them? This is way beyond Orwell. We have entered some creepy alternate universe ...*

*If behavioral psychologists helped to shape the government’s strategy on mass vaccination, then in what other policies were they involved? Were these the ‘professionals’ who conjured up the pandemic restrictions?*

*Were the masks, the social distancing and the lockdowns all promoted by ‘experts’ as a way to undermine normal human relations and inflict the maximum psychological pain on the American people?*

*Was the intention to create a weak and submissive population that would willingly accept the dismantling of democratic institutions, the dramatic restructuring of the economy, and the imposition of a new political order? These questions need to be answered ...*

*Vaccination looks to be the defining issue of the next few years at least. And those who resist the edicts of the state will increasingly find themselves on the outside; outcasts in their own country.”*

## **Will You Obey?**

As detailed in “[Will You Obey the Criminal Authoritarians?](#)” the 1962 Milgram Experiment (embedded above for your convenience), tested the limits of human obedience to authority, proving most people will simply follow orders, even when

those orders go against their own sound judgment. They'll commit atrocious acts of violence against others simply because they were told it's OK by an authority figure.

We've already seen examples of this during the past year's mask mandates. Suddenly, people felt empowered to verbally harass, pepper spray and physically attack others simply for not wearing a mask. Families were kicked off planes because their toddlers wouldn't wear a mask. People were even shot for the grievous "crime" of not wearing a mask.

If those things were allowed to happen over mask wearing, one can only imagine what will be tolerated, if not encouraged, when vaccine certificates take full effect. The most obvious answer is to take a firm stand against devolution into inhumanity, regardless of whether you think COVID-19 vaccinations are a good idea or not. The question is, will you? In many ways, the months and years ahead will test the ethics and humanity of every single one of us.

I just found out that my spouse received the 1st of 2 Covid shots without telling me as we were going to first let some time pass BEFORE doing anything. There was an opening time slot in our local Walmart and one of the pharmacy techs asked him if he wanted a shot as they had some extra. I feel

totally betrayed,scared and saddened that this happened and as I talk to more relatives and friends, they are very happy to have received their shots and more and more I feel like I am sounding like the crazy one who didn't want his Covid shot. I don't know what to believe any more and am slowly being labeled a conspiracy nut job as I sound the alarm on this poison. Even when I show articles from Mercola and other qualified sources they all(including my spouse) don't believe it or won't even want to take a read. I did an experiment while shopping at Lowes the other day and walked in without my mask on and nobody said anything to me but I felt like the outcast in a sea of mask wearers and I've even see people exercising with them on which imho is very stupid and even dangerous inhaling your body's spent air. I am so fearful of what's happening and unfortunately us 'anti' people have no power,control or real influence on anything and will be mocked and ripped to shreds by the technocrats and conformists. All I can do now is strengthen my immune system naturally and wait,watch and see. I feel like we are all living in a real life horror movie that will only have a bad ending....

I'm so sorry this is happening to you. If you're a christian, then you will be rewarded for your courage and willingness to be treated as Jesus was. By your example, you'll give others courage too. Stay strong and in His word, and you will find all the strength you'll need.

mic5081 - you could show your spouse and friends this two minute news clip about the devastating effect of the swine flu vaccines from a few years ago. The side effects began to show after a year. It begs the question - why are we trusting this roll out now from the same profiteering complicit entities? It may give your spouse and friends pause for thought before more vaccines are rolled out for the next "variant", and inspire them to do some independent research to protect their health. Good luck! Hang in there. I haven't worn a mask throughout and while at first, I too felt like an outcast, the longer I did it the more confident I got and the more I actually looked forward to being the odd man out. So sorry to hear about your ordeal. YOU are NOT the crazy one. YOU are the educated, informed and intelligent one. Begin taking the APO-Lactoferrin from the company "Jarrow" that I have posted many times in the past. It was proven to prevent cell entry and if any virus gets into the cells, the lactoferrin stops replication. If there is any "viral-shedding" you should be protected from the lactoferrin along with any of the other items you take, especially zinc and quercetin. Also begin taking plant-based proteolytic enzymes as they break down (digest) ALL foreign proteins that are "NOT-SELF" - not inherently YOU. This includes viruses, bacteria and other pathogens. Best wishes.

I think they feel they are taking the chance of harm to protect society so we should too. Also they resent the fact that we are trusting in our own immune system without the "jab" . They should feel 'I'll live and you will die,' but they fear we will be a brooder for Covid

I am fortunate that my husband, brother and a few friends stand with me on this one. However I am also feeling like an outcast when in public or when with other friends who have drunk the kool-aid. Some friends are unwillingly getting the vaccine to keep their jobs, or to be allowed to see their grandchildren. I appreciate the support of this group who continue to reassure me that I am not idiot for not going along with the masses. When the majority is insane, the sane appear to be the insane. I too, am sorry to read about your feelings of betrayal by your spouse with regard to the vaccine and the risks that raise understandable alarms in your mind. With the misnamed vaccines and the very high level of risks, I too have been worried about people now, more than ever before, and far more than during the coronavirus period itself. You are not alone! As for those shouting conspiracy theory: A) THAW: Time Heals All Wounds. B) The truth will come out, later. Then, those who refused these vaccines, will be hailed as smart, not idiots. In fact, people who are medically harmed or god forbid, their loved ones killed, will consider themselves the fools. C) Those who regurgitate a canned speech, are succumbing to an obvious agenda, because a canned speech is also a planned one, with a purpose in mind. D) Insults, ad hominem attacks, for refusing an EXPERIMENTAL vaccine? People need to be put into their place. Tell them off! Let them know they are out of line.

They are promoting possible (depending on individual vaccine reactions, with negative ones and deaths swept under the rug) medical violence and standing right behind it, they are going up against democracy itself, and if they think that the breaches thereof will end with medical 'Necessity' they should be urged to think again. E) It will be the vaccinated, not the unvaccinated, who are vulnerable and not vice versa....if these vaccines are working. In fact, vaccines that are falsely and illegally claimed (given the truth in animal studies, see my post and what Dr SHerry Tenpenny said) to be "Safe and effective", and which are claimed to reduce symptoms yet not reduce disease spread, are---DUH!---an inherent risk to asymptomatic disease carriers and the spread of the illness! Did anybody ever think of that? Mainstream thinkers will only be convinced by mainstream news [nypost.com/2020/11/24/moderna-boss-says-covid-shot-not-proven-to-stop-..](https://nypost.com/2020/11/24/moderna-boss-says-covid-shot-not-proven-to-stop-..) doozy [www.youtube.com/watch](https://www.youtube.com/watch)

Hang in there. Just remember you are setting an excellent example of integrity. And remember all that no business can force you to take an experimental vaccine as a condition for a job or anything else. It is against federal law. See the federal regulations at 45 CFR 46.116a and b; 21 CFR 50.20. We do not need to rely on the Nuremburg code. Federal law say it all.

Don't worry, your not alone in this family/friend situation. Luckily my immediate close family are all on board about the toxic vaccine and toxic tests which have carcinogenic sterilizing agents in the swabs and they want to stick them up children's noses twice a week. Unfortunately , my brother who lived in Andorra, was perfectly fit and out skiing every day, had the jab, emailed straight after to say he was OK, but two weeks later collapsed on the ski slope. He died a few days later of LEUKAEMIA!!!! Last week. I also know of another healthy 60 year who died two weeks after the jab of Leukemia. Didn't have it before. Shocking, but not shocking. It shows the power of the propoganda machine which is now focused

on the "vaccine hesitant." They are presenting those who are skeptical as ignorant and fearful, when actually we are the most likely to be informed about this experimental injection. They are telling people to "do their research" but arrive at the "correct" conclusion that it is safe and the "right thing to do." It is up to us to stand firm even in the face of lies and ridicule, because our future is at stake. The truth is on our side.

mic5081, Please keep in mind that those who who have succumbed to brainwashing cannot be reasoned with. Extensive psychological studies show that if you try to argue against their thinking, they automatically become MORE entrenched in their beliefs. All you can do is stand by your own principles, adhere to your own integrity, and live by your own standards. And by the way, you are NOT out numbered by those who have surrendered their ability to do critical thinking. There are millions of us out here, around the world who share your concerns. You just have to start seeking them out, and you will find support and reinforcement. And just as a personal aside, if my spouse went out and got the shot without my knowledge, I would really begin to question the level of communication going on between us. I'm sorry that you are feeling betrayed, scared and saddened, but these are all red flags that can direct you toward the ever-evolving perfection of your own path in this life. God Bless.

I am with you, mic5081. I also am opting out of the covid vaccine (which actually isn't really a "vaccine"). Except for one, all of my other friends and relatives are getting the shots and think I'm nuts. I do not want to be a lab rat and subject my body to some gene therapy. There are numerous side effects and who knows what others will come up in the long run, some of which might be permanent--they do not know and I don't want to be an experiment. People/doctors keep saying side effects aren't as bad as catching covid and ticked that they keep down-playing side effects. It's also a horrible idea if they are going to require proof of being vaccinated on passports. The government should be in control of our bodies in that way and hope that does not come to pass.

mic5081 I completely understand your current situation. I am experiencing similar behaviour from family and friends and quite frankly feel very alone in all of this. My daughter a healthcare worker (NHS) has had her first AZ vaccination, despite reminding her she isn't in a risk group. I have empathy for her plight, given she works with Covid-19 patients and may well feel more at risk than myself who works from home. However, when I try to have a discussion or if I send her information regarding vaccination risks or the Covid-19 Agenda, 'the fourth industrial revolution - the Great Reset' she refuses to listen. My son does not believe the media, so I feel more validated, however, he is laid back that everything will be okay and it will go away, which surprises me given his legal training and generally critical stance. My husband, who is at the most at risk due to his heart condition hasn't been vaccinated but is getting twitchy due to the relentless psychological brainwashing in the media and makes comments like 'we will have to make up our minds soon about this vaccine, otherwise we won't be able to go on holiday ..' Also my dad who has had both AZ vaccinations keeps reminding me I must get the vaccine as I'll be in danger of catching Covid pressurising me and could lead to family divides. I am experiencing poor sleep, as I know, in my gut, this whole situation is wrong, that the government and media are lying and that the 'pandemic' is driving society changes which will not bear well for us all (except the elite). I feel like running away, but where would I go, that isn't going to be bathed in 5G or under surveillance? And like you I feel I am living in a real life horror story and I feel so trapped! Perhaps listen to this podcast and share with your family and try to stay strong, as many of us as possible have to stand up and draw a line in the sand! I completely relate to your post. I have neighbors that have happily exclaimed 'I feel better now that I've had the shot!' I have no idea how to respond to that, as I am definitely not happy for them and feel they have made a grave mistake. It seems the vast majority of people have no interest in questioning anything and simply want to believe that the shot is the silver bullet for their fears and it will somehow guarantee they will get their lives back. This fervent unsubstantiated belief is so strong that they just cannot allow themselves to think otherwise. It's as if you could also convince them of the existence of Santa Claus and the Easter Bunny. I have found the last year the most stressful, not because of the virus actually, but rather the changes I am seeing in our society (people avoiding eye contact, walking around you) and the steady march to erode our freedoms. I brought 3 children into this world and I am frightened for them and saddened for what they will have to endure. I want to be strong for them but I'm not feeling so strong. I appreciate this article by Dr. Mercola and I admire him immensely however these articles leave me feeling very overwhelmed and uncertain about what I can do. Individually we are weak but together we could be unstoppable. Can someone tell me what we can do to stop this madness around us? We are informed and we are motivated. What now?

mic5081, That exact thing happened to me a couple months ago. Both my wife and I have worked in conventional medicine for ~4 decades and she is a nurse still. She heard me talk about all the articles and links I found on mercola's website and others---yet she let one of the smartest young doctors pressure her to go get her Pfizer shot??? I found out after the fact and suggested she might not take the second one---no dice---did that anyway. I was stunned to say the least. 95% of her pediatric cardiology office took the jab. Wow is all I could say or think. Like you and probably others, friends, neighbors, family---many drank the kool aid. Arggggh!! My wife did go along with getting her vit D levels up, taking zinc, quercetin, magnesium, vit C, selenium,---was already taking krill oil, olive leaf extract, lecithin (had a gall bladder attack a few years ago, did a alternative flush technique, put her on the lecithin and voila no more attacks and no surgery)

There is a delusional thinking or non-thinking by the masses on covid gene therapy aka "vaccine".

The previous animal studies that failed, had a delayed reaction of severe reaction to the wild virus they were supposed to be protected from. To my knowledge, there has never been a safe coronavirus vaccine developed in the last 20 years of trying. I frequent an investor chat site and most are not spring chickens from what I can tell, and almost to a poster, they were all just champing at the bit to get the jab. Before they could even get it, I posted up maybe that was not such a hot idea and said to PM me about my approach---got about 10 requests and found their were a few others like me. Jokingly, but probably a bit with sarcasm to the general board, I said

they could be my lab rats. I would wait and see. Ray of hope below, everyone should read if worse comes to worse on this vaccine scam.

Don't worry. I am in a similar situation. My husband was going to wait and see but decided he wanted the vaccine even though I had him read countless articles from reputable sources. He's 73 and had a stroke 3 years ago and is disabled now. I actually had to take him to get it. I could have refused but that would have been the same as making me get the vaccine against my will. Ultimately it is his choice. He is free to make his own decisions. He is respectful of my decision to not get the vaccine. I am hopeful there are enough of us not complying to avoid a passport. I know some cities and states will and have rolled out a digital system but am hopeful it will not be at a federal level. The White House has stated it will not institute a passport system.

mic5081, you are simply living through what rational people have put up with throughout history. You certainly described the current situation beautifully, but this is not a new phenomenon. Few people are rational, the vast majority want to be told what to do and just fit in. That's a shame, but that's the way it is and has always been. Katndognco said "May I suggest you stop seeking affirmation for your personal choice" - wow, what perfectly worded advice. She's right, these people will NEVER respond as they should. Just stop expecting it, you will always be disappointed. We have been so lucky to have lived in such good times for so many years. I hope good times continue, but it does look like a horror movie with a bad ending as you say though. Historically, most people have lived under such conditions, not with freedom and dignity as we've been so lucky to have until now. As a side note, your spouse has a right to get or not get the vaccine. I don't see

why you see it as a betrayal. Disappointment, sure. But it's his life, his body, his decision.

Each of us has to take his own stand here regardless of what others think. This is a time of testing. Are you willing to take a stand for Truth day by day or will you follow the path of apparent expediency and convenience? It is a mistake to base your life decisions on what the herd does or doesn't do. The truth is that they know deep down in their hearts that they are abused, but want to show to their masters what good and obedient slaves they are and be rewarded with a bit of "normal" time. Refusing to comply, with our stubbornness we are angering the slave drivers and everybody will be punished. Many of them pretend believing in the "deadly" scamdemic, and not face the terror of the powers that be. We are doomed anyway and had to make it difficult for them with total noncompliance, but the zombies betrayed us. There is no more normal. They better stop lining up to be poisoned and line up on the streets with us to protest against the tyranny.

Sorry to hear about that. My girlfriend also got the COVID injection, even after everything I told her. She is kind of regretting it now though and has been sick a lot more often. And it seems there is only a few that want to hear the truth because most have been brainwashed since birth about vaccines. If it helps I found a great article on vaccines you may want to explore and share with others: [Vaccines – Shocking Truths – Doctors Speaking Out](#)

Doctors who speak out against vaccines are censored, their information suppressed and they are often fired from their jobs. It is important to deal with the corruption and Big Business aspect first... some people just cannot entertain the idea that Doctors and Politicians lie... well they do... a lot.

Though some Doctors have just been thoroughly brainwashed by the Big Pharma funded Medical Schools... and the amount of training they get on vaccines is tiny – most do not even know what is in them... they certainly do not get provided with the true statistics and the history of vaccines. The Big Pharmaceuticals are huge businesses – a Trillion Dollar industry, making truly enormous profits. At the end of the article there is a gallery of many photo quotations.

I read your post and it was as though I had written it.....you mirrored so many of my experiences and feelings including trying to inform family and friends of the dangers, but feeling as though I am living in an alternate reality than 90% of them. I too feel totally betrayed as my spouse received both injections (first Jan 23rd and second Feb 13th) and I only found out about it on March 25th.

I was totally shocked as I did not have any sign of this happening and he is well aware of how strongly I feel. This is now even more of a nightmare invading my personal home life as well.

My question is regarding the bodily fluids of those people having received the injections, is there a concern for contact with their blood saliva, mucous and/or semen? It's already been "shared" before I was aware and now I would like to understand if, or how it may have any effect on me??

I would greatly appreciate any resources to read.

mic5081.....I too walk around everywhere without a mask (I am in nazi NY) and 98% of the time no one says anything to me - the few times I have been confronted, I say, "I have a medical exemption" that usually shuts them up. One old beeeatch said, 'do you have papers to prove that?' I said, 'Did you know that its illegal for you to even ask me that?' She said, 'No I didn't.' I said, 'Well now you do.' Not another word. EVERYONE NO MATTER WHERE YOU LIVE NEEDS TO STAND UP AGAINST TYRANNY - I DO NOT CARE IF THERE IS A SIGN ON THE DOOR SAYING A MASK MUST BE WORN! THERE IS NO LAW ANYWHERE THAT MASKS ARE MANDATORY - Just because some state or governor wants it, does not make it law. Governors do not make law. NO MORE MUZZLES. Sorry but from now on - I am not even going to say I have a medical exemption - I am going to tell them to go to hell, its not happening. Yes, the sea of dumb brainwashed sheep is out of control - the looks I get from these zombies is scary - but I have intentionally now blocked them out - I will not even look at their face - even though you feel ALL eyes on you - as if I am the one with the 'scary fake virus.' OMG its seriously insane. I never could believe how dumb this country was until this - I mean, I knew the dumbed-down education was in full effect for eons - but to see this now - its mind-boggling. WE MUST NOT COMPLY TO ANY OF THIS - no vaccine passports, no muzzles, no testing. More people NEED to take a stand - it is getting to THAT POINT - where there is no way to stop this evil if we don't ALL do something. Write your gov't officials, your DOT (nonsense signs on the highway to wear a mask), spread the word to everyone.... Honestly if my spouse went behind my back and took the shot I would divorce him. He is clearly on 'that side' and is a sleeping sheep - never open to the truth. I have heard that if anything we need to AVOID being around the vaccinated -due to the transfer of the viral shedding on the healthy.

Behind the idea of one-size-fits-all medicine lurks one-size-fits-all tyranny; both serve at the convenience of the tyrant. Those who have seized and wield power assume they have all the leverage.

Their arrogance is so great—particularly with their near monopolistic control of the main channels of information—that no rational exposition of the various lies, deceptions, abuses and conflicts of interest embedded in the pandemic policies seems to concern them. They expect universal compliance to “entry requirements” into territory they control, and the “passport” is meant to signal that compliance.

The fact is that as long as we’re divided and scattered, their leverage seems insurmountable. But coordinated into larger blocks, that is not necessarily the case. Short of open warfare, one of the most effective ways abused people have dealt with tyrants—such as workers with large corporations—is to unionize. At scale, coordinated work stoppages and boycotts have been the means to mark a “line in the sand” against those forms of tyranny. Perhaps there is an applicable principle in this for our consideration.

Recently, the MSM had identified a “dirty dozen”—people like Dr. Mercola, RFKjr., Del Bigtree, Sherri Tenpenny, etc—each representing an organization with substantial means and support, and dedicated to resisting this Big Pharma steamroller. Add to that mix all the scientists and doctors who have stepped forward to refuse compliance with official narratives, people like Dr. Mike Yeadon or Dr. Vladimir Zelenko come to mind. It is all beyond my experience... I wouldn’t know how it would work, but I would sure like to see these groups—fortified with strong alternative media platforms—somehow coordinate into an 800 pound gorilla that wouldn’t be so easy to push around. I’d gladly become a “card-carrying” member, since I won’t be carrying any vaccine passport.

Hi David, looks like the vaccine concept may be losing ground and fast against this mutating virus. On the other hand, you might like this recent interview just find time to listen/watch! - Rob Verkerk from the Alliance of Natural Health International interviews Dr. Knut Wittkowski - starts off with a discussion about lockdowns and mass vaccinations, putting a foot on the gas and brake pedals at the same time! 3 layers of the human immune system and why, the effects of fasting and/or reducing phospholipids from the diet, natural supplements and govts, ending with a discussion about synergy vs silver bullets. Near the end, Knut goes into your steamroller with lobbyists and financial means to direct current research, including the skewed research results from govt paid epidemiologists. One of the clearest interviews so far, yet everyone can understand:

They are so arrogant in interviews contradict themselves all within the same breath. These gene disruptors have been tested in India & Africa with deadly serious consequences. The immune system gets ramped up to such a degree it is the same as an auto-immune disease, if not outright causing autoimmune disease. Something most likely happening with traditional vaccines in bad enough ways already.

Thanks Rose, I'll check out the Dr. Knut interview. The "vaccine concept may be losing ground and fast against this mutating virus," but we need it to lose ground in the psy-oped, virus-infested minds of the people so infected.

Hi AndymAndym, yes, I am quite familiar (and even support some of) the names you list. My "thinking out loud" idea was that these various groups could coordinate and come together to create a more formidable organization, inching closer to the size and power of the pharma-gov't-media tyrants... or at least not get pushed around so easily.

Hi juststeve... yeah, we can hear their contradictions loud 'n clear, even through their masks.

The CDC states that the risk of contracting covid from contact with dry surfaces is 1:10,000 individuals. "They want us to lighten up on all the sanitizing and go back to work so we can pay taxes to support and already overreaching govt?) Meanwhile, the survival rate--only for those infected--is still as low 99.997%. Other statistics claim that mask wearing may (?) reduce spread by 1-2%. That is within the margin of error.

If you take the number of the entire population... subtract all those who are diabetic... subtract those women who are pregnant or who will become pregnant within 6 months (do they even know?)...

Subtract those with severe allergies to vaccine ingredients... subtract the infants who are always matriculating into society as they are born (should not be vaccinated anyway!)... You should realize that there is no way herd immunity will ever be achieved through vaccination. The numbers just are not there without placing many people and groups at high risk. Natural immunity is the only real kind of immunity. Some people are born with it. Some gain it through their lifestyle and supplements. Some acquire it after recovering. Many of these people are symptomless or very mild cases.

I will suggest that the main disease vectors are not the unvaccinated Americans who are resisting. It is the shedding by those who have been jabbed and not remained in isolation (for who knows how long it is actually necessary?) and leaving the borders wide open. People are fined for not wearing masks or social distancing unless you are participating in a riot. I could not make this stuff up! You cannot outrun a virus. Only a strong immune system will ultimately protect you. Practice prevention and support your immune system. Do reasonable things. Heroics are of little use. Put some meds on your medicinal shelf along with directions for whoever might be in charge of administering them if you cannot. Then, get on with your life.

This virus myth has nothing to do with health. This is a social experiment about control. The story of a virus is the equivalent of the Milgram shock experiment. Unless people can separate this distinction and understand that the tyrants are merely selecting willing and unwilling subjects to control or eliminate. The megalomaniacs want to purge our planet, OUR home, OUR humanity, of the vast majority of us. But, in order to do this they need compliance and obedience to carry out THEIR orders. They are few in numbers and they cannot do it without obedience and compliance to carry out their dirty deeds.

Like Dr. Mercola, I too live in the "free" state of Florida. But there are serious problems here as well, and we need more laws to protect us. I have written to my state legislators and all I get are form letters in return. Here is one of those serious problems: Businesses are using the ongoing state of emergency to make their own rules. They are flouting the government mandates and replacing them with their own mandates. Several week ago, I was running late and could not get to my regular non-chain health food store so I went to Sprouts. My county says you do not have to wear a mask if you can social distance or if you have a medical condition. At 9:45 pm (15 minutes before closing), with only 2 other people in this massive store, they refused to check me out if I did not put on a mask. I asked the manager why they were violating the laws of the county.

He simply looked at me and repeated that I could not purchase anything in the store without a mask. No explanation, just stare me down. So, I just left my items at the cash register and walked out. See what they're doing? They're circumventing the law and they're circumventing the police. Since the police in my county will not respond to calls about mask violations, Sprouts is simply refusing to sell

food to people. With all due respect to Dr. Mercola, who I love and have been following for over 20 years, civil disobedience does not work in this zombie nation. We need the help of some brilliant lawyers to put these businesses in their place. I called lawyers for several weeks to see if I could file some sort of lawsuit. Could not find anyone to help. So, how to go after these businesses with class action lawsuits for breaking local or state Covid mandates and creating their own? They should not be above the law.

## NoFear11

Ttwdem, Agree on the legal aspect that's truly our only chance for rebuttal, having mass class actions, standing together is the only way to push back against this tyranny! For now though and an immediate action in that awful situation you describe, in the name of taking back power through CIVIL DISOBEDIENCE but play the law, how would PREPARE and bring enough cash to be leaving at the check-out to cover your goods and take the paid goods and WALK OUT!, head held high!!

The nazi store managers will then either 1. have to physically stop you (and violate your liberties and the criminal law with bodily harm and physical infringement) or 2. have to call the police - for what - a non issue!! as they obviously have no crime as the goods are paid for.....And so we win! In the short term too....

This has been MY plan since onset (I am in the U.K.) as I have all year not worn a mask in public, other than when at work in 10minutes bursts when with my clients as I own my own small medical (vet) business and if I am seen to breach the rules of the game, the authorizing body may step in as they already have tried to intimidate me for a FB post! So I play by minimal compliance rules when I am the professional but live in CIVIL DISOBEDIENCE every minute of being a private healthy FREE citizen. I am so lucky I had COVID in late 2019! But I obviously can't prove this CLEAR immune status as obviously this isn't an option being talked much about....or researched much either! Funny that! But not funny at all on the back drop of all that is happening....Keep fighting and resisting! We are MANY!!

Look into the 1964 Civil Rights Act. It can be used to sue any business that decides not to do business with you. ## arthurieloutlook.com

Businesses, just like people's houses, money and other wealth, are private property. Their owners have private property rights, just as do you and everyone else who doesn't own a business. Those rights are based upon one's rights to self-ownership and personal liberty. They include the right to freedom of association, freedom of non-association, including peaceful discrimination for any reason whatsoever (this is why entire corpus of anti-discrimination law imposed on the private

sector must be abolished). This means that even though government operators declare no mask requirement, private property owners have the right to have and enforce whatever requirement they desire their customers/guests to obey as a condition for being on their property, or doing business with them, including a mask requirement.

You are laboring under the false and malicious presumption--one to which millions of people subscribe, thanks to a rotten education--that you have a "right" to enter someone's private property, with or without the owner's consent, and that you have a "right" to a business owner's goods and services. There is no such legitimate right because you, like all other people are not slaves. People have the legitimate individual right to freedom of trade, which is based upon their private property rights, and the other rights I mentioned herein. Goods and services are the private property of a business owner until he freely and voluntarily consents to sell them. Proposing lawsuits against business owners for their exercising the very same rights that you and all other people possess reveals your perception of them as your slaves ! Educate yourself about legitimate rights (read Ayn Rand's essay, "Man's Rights" to start with), and patronize businesses that have no mask requirement.

ttwdem you can sue Sprout's to put a stop to this. Sprout's is clearly violating their own policy manual on not discriminating, which is on page 16 of their manual if I remember correctly. Peggy Hall whose website is "TheHealthyAmerican.org and John Singleton a legal expert in Florida whose website is privacyfight.com have put together a legal package to sue Sprout's with success. They are giving it away free. It is on an individual basis so if you are not the one who filed the law suit Sprout's will continue their nazi policy against the individual.

arthurrieloutlook.com your legal analysis is not correct. A business cannot make a policy that violates laws such as discrimination. Using your logic a business could make a policy and have a day in which it is ok to pick pocket customers. Ridiculous right? Just because one has property rights does not make them immune to breaking established laws. John Singleton goes over the laws in this regards in some of his videos with Peggy Hall. And besides Sprout's IS violating their own policies with mask discrimination according to their own policies manual. You cannot make a

art. That is the problem with the libertarian approach, it has no conscience. We're not talking about someone doing something bad that makes them worthy of being denied by a business, we're talking about someone merely wanting human sustenance. To deny someone food for no good reason is a horrible thing. To support that concept is... well, questionable. Besides, drwolfman is right, no store can deny on the grounds of discrimination.

I have felt your pain. Lawyers don't care unless you are a business if you are trying to take on another business or there is some kind of tangible injury (e.g. accident). You have to go pro se. Get a preliminary injunction which orders them to do business with you with the only condition that you can pay. If you want to push the issue without a lawsuit, don't pay, and attempt to walk out of the store with the goods. THAT will bring the police, and the business will hate the negative publicity. Claim truthfully that the property is yours, and that if they arrest you you will sue them for false arrest under color of law.

There is another method. If they prevent you from taking the goods, then you can threaten to call the police and tell them that someone won't take his hands off your property. If the issue still isn't resolved, then call the police. At least in my state there is (or was) a "reasonable circumstances" exception to the crime of theft. The typical "reasonable circumstance" is probably if you can't pay and you are buying food. This appears to be one of the few places that the natural law is recognized. If they refuse to check you out, then you don't have to pay right away. It is always best to have someone take a video and post it online of situations like this.

How about the "WWII Japanese-American internment" survivors? The situation here in the US was probably very similar to that of Nazi Germany in this regard. Of course, the US wasn't a totalitarian dictatorship. One interesting fact, that I have come across is that Hitler gained his final powers through some kind of purported "state of emergency." That is very similar to what is happening now. One's natural rights aren't cancelled just because the government wants to cancel them.

In this dystopia we are all Jews turning on each other. Or that's how we are all supposed to behave. When people agree to meet unmasked the authorities get angry because they know we are not afraid and divided the way they want us. The "vaccine" will offer some social perks at first. But the masks will stay as long as they continue obeying the CDC and WHO. To say the untreated will be the "new Jews" is not strictly true. We are all the new Jews. Submit to Dr. Mengele's experiments or no rations for you. It's frustrating to me how many are contented if not happy for this to become permanent. What can you do with someone who has not only lost their mind but the heart? The very essence of their humanity?

People are not meant to live this way. But if the majority WANT this dystopian police state to become permanent because they think the only threat to their lives is this virus (And if they never catch it they'll live forever in this hell on earth. Yay!) what can us remaining humans do? My town hates the New Normal. We are rejecting it. Other towns and a few states are. People need to relocate. Those who embrace the New Normal and can't even desire to live like humans are a lost cause. Maybe we can save a few islands of sanity. You can't free a people who desperately yearn to be enslaved. Who WANT to live out their days in miserable semi isolation cut off from sunlight, smiles and friendship. And these miserable lives won't be long either. But they will be CARED FOR. Like fatted calves.

## Dr.Steven

The deceptive nature of this movement for vaccine passports is truly demonic: disguised as promoting health it places healthy people at risk by coercing them to accept experimental, likely harmful gene therapy or abortion tainted vaccines; advertised as a way to "return to normal" it imprisons those who submit--and those of us who will resist--in a surveillance state creating tiers of "good" and "bad" citizens. That religious leaders, who ought to be prophetically and bravely speaking out against this assault on human dignity, are in many cases promoting these vaccination campaigns reveals the insidious depth of this evil con game. Readers of these columns know well the frauds of PCR tests and inflated death counts, the Global Reset, and globalist influence on media, Pharma, and government, and that Covid-19 is not equivalent to smallpox of a real global "pandemic" nor are these vaccines necessary or effective.

Yet, I still see people walking alone outdoors or driving their cars wearing masks; lining up for their "shots" yet not questioning why despite their "shot" they are told to keep wearing masks and "social distance" (another evil). Unless people wake up and resist, we are destined to become puppets of a new dictatorship founded upon medical tyranny. My hope lies in what we Christians celebrate now: the self-giving suffering and Resurrection to new life that defeats the power of sin and death. I say this as a person of faith but regardless of belief, we must be motivated to speak the truth and be prepared to fight, and suffer, for our liberty.

As far as people go I see the church as the resistance against this evil. It's not so much freedom versus tyranny or reason versus hysteria as love versus fear. Those who love one another won't let a virus or technocratic police state keep them apart. Quarantine the sick. But don't fear them. And don't view your fellow men and women as nothing but walking sacks of contagious diseases. Funny how women are more social than men. But now they (speaking generally) prefer isolation when they aren't running around screaming at strangers to wear more masks. Glad that kind are dropping out of church. They were always the source of conflict and division in the pre Covid days.

People need to brush up on Biblical Scripture and USE the 1st and 14th Amendments - Religious clauses - to exempt themselves from any shot. The 14th amendment specifically, can also be used to bring about a law suit against any business discriminating against you for not getting the shot based on your truly held religious beliefs and practices. The 14th is the 1964 Civil Rights Act making it illegal for a business to discriminate against religion, age, sex etc.... Here is 1 website giving Scriptural basis against vaccines. And just because these shots are not "vaccines" in the truest sense, no one can discriminate on religious grounds - 14th Amendment. I will be digging deeper into this and reporting more. Yes. Those who do not learn from history are destined to repeat it, as some wise person said, which seems to imply some sort of ignorance or unawareness of those who repeat it- really only applies to the victims who must wear their 'yellow star' aka show their vaccine certificate as Dr M warns in today's article. The repetition of history by the eugenist organisations of today is more like a continuation of their depopulation agenda begun many decades ago and Hitler was grateful to the Rockefellers for passing on the basic tenets of the philosophy to him. Remember also that the membership of the various organisations devoted to the new world order has infiltrated governments, the media, tax payer funded health organisations, the terrorist triumvirate (politicians, big Pharma and the orthodox medical fraternity) which has been undermining our health for decades and rules our lives at the present time but not for much longer. Too many of us now are awake and I suspect many more than is realised. See below re Mirandola's posts on vaccination and replies especially my reply on the BMJ topic "Do doctors have to have the C-19 vaccine?" The voting by BMJ readers who are presumably mostly medics and researchers went 60/40 against.

Purity test or IQ test, call it what you like, I'm calling it the genocide test. New research has shown the Pfizer vaccine can transcribe the production of proteins that also leads to the formation of PRIONS, similar to CJD. So if the anaphylaxis or the autoimmunity aspects don't kill you off quickly, the long term effects from the prions, will. This also means cannibalism, like it was for the starving in communist Ukraine, or during WWII, will not be a viable option to survive the apocalypse. Do not eat the vaccinated!!! I suppose if the elites want to vaccinate everyone's children with this pathogen, they'd better be prepared to stop torturing children and drinking their blood for adrenochrome, or they'll get the prions and neurodegeneration as well (not that they aren't acting like mad cows as it is). So yeah, prions have been weaponized, and they are in the vaccines now, and if you don't have Christian values, and find cannibalism abhorrent, you might want to change your mind about eating a burger made from the cloned flesh of a vaccinated leftist celebrity as you might end up a mad cow! How to avoid being rounded up and put into prison camps, well there's always equal and proportional amounts of violence for these things, and Christian values don't impede your right to life and self defense...arm yourselves folks!

Nuremberg trials soon to see through the hoax and take those technocrats to jail - there is HOPE Right now, a second Nuremberg tribunal that is in preparation, with a class action lawsuit being set up under the aegis of thousands of lawyers worldwide behind the American-German lawyer Reiner Fuellmich, who is prosecuting those responsible for the Covid-19 scandal manipulated by the Davos Forum. In this respect, it is worth recalling that Reiner Fuellmich is the lawyer who succeeded in condemning the automobile giant Volkswagen in the case of the tampered catalytic converters. The vast majority still do not understand the depth & insidiousness of the criminal psyop that has been going on for decades & how they also have been under the spell of the Death Cult's tyrannical tip toe. Follow the money & even more so, follow the power, to understand where the control is. There are a few (of many) important truths that everyone needs to get a firm grasp on: 1) Sabbatian-Frankists out of Israel have infiltrated all governments & run/control everything - the international banking cartels, treasuries, monarchies, the Vatican, big tech, big business, big pharma, big ag, medical/scientific communities, militaries, education, entertainment, philanthropy, MSM, social media, UN, WHO, NGO's, secret societies, Rockefellers, Gates, Soros, et al. They run the NWO & will be headquartered out of Jerusalem.

2) All wars & regime change was under the direction of this Death Cult, including Trump. Trump's style & strengths were used against him & the people (using the media & celebrities) to exploit the labeling, segregation & dehumanization of the public to the benefit of the Death Cult agenda, as is alluded to somewhat in this article. 3) national governments turned over their national banks/treasuries to the IMF/World Bank. 4) governments have secretly turned their health authorities over the WHO. This critical phase was completed by the early 1990's.

5) "Germ Theory" was created by the Death Cult & is fictitious. Holistic wellness demonized. 6) Since 1954, the gold standard scientific/medical protocols & ethics used in the discovery of pathogens was abandoned. Pseudo-science & fake computer modeling has taken it's place. 7) Pandemic war-gaming, posturing & brainwashing has been continuously ramping for decades. 8) No SARS-CoV-2 virus/mutants exist. The Cult will not release such a weapon into the wild for fear they lose control of it. 9) Vaccines & lockdown measures are the bio-weapons/weapons. 10) Mass depopulation by 2030 is the Cult's plan. .

## harvelicious

The above is a quick summary, but, critical to grasp. Many, including myself, have posted many more details, in other articles in this regard. Many are asking "what can we do?", for which, is a much needed discussion that does not have a simple 'magic pill', for which, society has been programmed into believing is the cure for everything, via the allopathic medicine model. Here are a few suggestions: 1) ensure one fully understands the seriousness of the situation & how critical time is. Learn. 2) 'gut check' time - one will require self-honesty, commitment & dedication to stopping tyranny/fascism.

Return to our 'roots'. Prepare for a long & fierce battle. Do not despair, or, lose faith, even when the

situation appears dire. 3) know & rely on Truth, intention of purpose, principles, ethics & virtue. 4) take steps to improve one's personal physical, mental & spiritual health. The power of prayer is a tipping point. 5) prepare your family for worst case scenarios. Learn to be resourceful. Create a plan. 6) lessen & eliminate, technological reliance/devices. Resort to traditional forms of communication like in-person discussion, pen & paper, & other creative ways to communicate. 7) identify people with leadership qualities, as well as, understand & efficiently utilize each's person's skill set.

8) loosely organize as a secondary measure to large well organized formal groups. Countering efforts to all of their spying, intrusion & data collection matters. Unpredictability is a strength. Having many small loosely organized groups makes it much more difficult for the enemy to attack. Have alliances with other groups that share common general goals/strategies. Be vigilant for infiltrators & cons. Knowing the power lies 'within' is the peoples strongest defense tactic. Power in numbers that share a common goal. 9) Protect each other. Doing small things for the cause, matters greatly. 10) "Ask not what others can do for you, but, what you can do for yourself & each other".

ttwdem; here in the U.K. we have an organisation called CrowdJustice, where individuals who do not have the means to take legal actions can generate funds through donations to this organisation. Presently, there is an action (approved by the High Court) against members of the U.K. govt for their failure to comply with legal tendering procedures in awarding contracts for PPE. In short, CRONYISM. Earlier last year when small companies were organised and ready to produce PPE (at a time of serious shortages), they were ignored. Instead, later, certain companies were awarded contracts directly by certain U.K. ministers without recourse to the rules covering tendering procedures. One particular company is reported to have had assets of around £18,000, yet was awarded part of a £multi-million contract, apparently even though that company had no prior experience of manufacturing PPE. Apologies if this example is a bit long-winded, but my point is: - Do you have an organisation like CrowdJustice in your state?

## Drew458

We have the GoFundMe thing here in the USA. I think there are others. But we also have the exact same situation with PPE startup companies. While 3M and one or two other big companies have churned out more than 2 billion N95 masks in the past year, the medical world alone needs 3.5 billion of them per year. Dozens of companies have made the investment to help. only to find

themselves stymied by regulations, a glacial government approval process that takes 6-9 months and a small fortune, and penny-pinchers at the hospitals that will ignore local production and order inferior, often fraudulent masks from China to save a couple bucks. They claim that "retraining" people to use a slightly different mask design would be cost prohibitive. Existing rules to "buy American, buy local" are easily circumvented and mostly unenforced. Even the New York Times has run articles on this. The expanded polyfoam used to make N95 masks is neither complex nor expensive to manufacture, and most of these start ups could deliver at least a million masks per month. Several of them already have warehouses full of product but can't get NIMH approval appointments and can't break into the (crony?) medical purchasing game. So they've turned to making China-spec K95s just to stay afloat, as K95s are not so strictly regulated.

They WANT to spend the rest of their pathetic, miserable lives in semi isolation with rags over their faces for the pleasure of blocking everyone else from ever breathing or smiling again. Impossible to think of those faceless freaks as human. If they died I wouldn't care. In fact I'd laugh. It's their fault this is able to happen. It's not FEAR. The faceless freaks enjoy terrorizing kids and making everyone else miserable. They aren't like normal people. They don't experience loneliness or even have any emotional needs common to humanity. If they all caught bacterial respiratory infections and died on ventilators, or dropped dead on evening jogs from triple masking or signed up for four "vaccines" over the next six months and died (finally actually DIED since the faceless freaks only talk about death avoidance nonstop like no one ever died of anything but Covid) the world would be a better place. Dolly Parton and various other nut-job "experts" may well sing about the vax being "safe" thanks to wall-to-wall brain-washing from Govt Big Pharma sponsored Govt despots. But tragically by not using PREVENTATIVE treatment, thousands of lives have been lost -- treatments, all ignored by corrupt Govt bureaucrats in cahoots with profiteering entities who want to impose a supra-Globalist agenda destroying our democracy, freedom and our health. What is going on is devilish propaganda using Govt sponsored fear-mongering to herd brow-beaten traumatized people into forced vaccination with the end goal being track and trace and control through vaccine passports. This is nothing to do with ""health"", and if people were properly ""Informed"" - there would be little or no ""Consent""!

Furthermore, the Nuremberg code is surely being broken! This in a country our forefathers fought to keep free. It truly beggars belief!

One of the doctors who testified to the US Senate Committee on Hydroxychloroquine has written (as have others) "C19 mutations are likely to begin appearing and spreading at rapid rates, in entirely disconnected locations. They are all still treatable with effective antiviral drugs thus far discovered: ivermectin, hydroxychloroquine plus zinc, fluvoxamine, potentially interferon-lambda" ( And, of course, Dr. Mercola's protocols too)

Viruses mutate. Constantly. It's what they do. But that's a golden river of profit to Big Med. Just yesterday one company announced they're starting efficacy trials for their new flavor of vaccine built to handle the variants. This will never end, obviously. Meanwhile all these effective treatments are ignored, downplayed, shunned, and even made illegal, except in the Third World (the LMIC zone) that no one in Big Med really cares about. I try to stay on top of the news for treatments, and right now the combination of fluvoxamine and ivermectin looks amazing, although Merck's [EIDD-2801] molnupiravir (in Phase 3 trials for another couple months) may be far better. Total elimination of the virus in 5 days or less, works on the flu, SARS, MERS, and other RNA viruses as well. While the virus is real, and it's effects on some people can be severe, the whole situation is one big game that TPTB are playing for power and gold, leaving hundreds of thousands to suffer or die, denying most even the knowledge that proven effective treatments exist. The Hippocratic Oath has become the Hypocritical Oath. "First, lose no profits".

Newlands, you may want to listen/watch links I posted today....seems shots, by the time these were initially approved for emergency use, were already out of sync with current mutations, can become a tail-chasing event. Imagine the effort required to develop varied shots to keep up with mutations, different in countries, state-to-state within the US. As Dr. Fauci said recently, new mutations have preferred locales. Then apply a passport concept, see how ridiculous this effort appears.

Thanks Maritt: I think it is deliberate obfuscation and extremely sinister. Most people have not even heard of the yellow card vaccine injury reporting system, so the total number of adverse reactions could be multiplied many times over.

Drew458 and mjnelson999 and brodiebrock12: I suspect that Merck's new drug will be - predictably - hugely expensive, unlike Hydroxychloroquine or Ivermectin which both have a great safety record. ### Astonished

I just realized that when they picked up a loan on the taxpayer's expense, gave back about four percent, one day they will tell you that you owe, say, \$600,000.00 and you lose everything you own, unless you pay up. Once you lose everything, your choice will be to submit or starve to death, homeless. Submission will include constant "vaccinations." You may have heard already the elevation of Ebola, Zika, and the like. That's only the beginning. Soon, you will "need" a vaccine for elephant cough and deciduous trees. Once you understand these, you will know your options. I do.

Once General Patton began to realize what was actually happening around him, and what he had been used as a foolish pawn to accomplish, his life was snuffed out IMMEDIATELY (Dec 1945). I'll give you a hint: he realized too late that Soviet communism was the actual threat to Europe and to humanity (it has claimed 100s of millions of lives). His memory and warnings to the world are all but forgotten these days, yet people keep blathering on about the Third Reich. Now that is 'projection' on an ingenious level.

It needs mentioning that the hoax we are witnessing today has been planned for decades. First, the masses were hyper conditioned into a complacent, hedonistic slumber over several generations (Thou shall have NO gods before me, for I do not give my honor to another). Anyone whose ever done a day's honest labor like pouring concrete or gardening knows the bulk of the work is in preparation. Every possible contingency has been planned for, every possible scenario. There is nothing "unexpected" or "unplanned" we're seeing now. The inertia at this point is undeniable and will not be reversed. There will be small havens of 'resistance' for a short while, until it's just your front porch. The plan is to slowly seep throughout the entirety of the world until it reaches saturation. Put your hope and trust in Yeshua, who will never leave or forsake us.

We handled that point in our Statement of Claim: [smartestman.ca/c19scjct.pdf](https://www.smartestman.ca/c19scjct.pdf) 124. Vaccine promotion has the hallmarks of a scam which is always exposed by its illogic. The vaccinated who feel threatened by the unvaccinated are like someone with an umbrella worried about you getting them wet because you don't have an umbrella too. It's too stupid an argument to take seriously but it is the argument at the base of mandatory vaccines. The delusion that the protected are threatened by the unprotected. It belies the belief that vaccines work. If they work, why is protection needed from unvaccinated others? These are the health officials who put fluoride, a known neuro-toxin, into our water? Can they be trusted to put anything into our veins? So we don't need to get into how much they work, we just need to point out that it's the same clowns poisoning us with fluoride.

My friend has been diligently going to court and attending school board meetings and more all year fighting this insanity! Here's what he posted today! RUH ROH, HCA, BayCare, and Dr. Choe got some splainin' to do , or is this just a completely misplaced notion on my part ? They tried to make it out to be that COVID patients overwhelmed normal capacity, but it was because they were understaffed from the furloughs, even though they were still getting mad cheese from the elective surgeries and CARES money. Someone on here posted a link yesterday and it was a meeting from here in Pinellas County, and that's where we are. Well it's a little south of me. Why do you want to go to a "mass gathering" anyway? My mother was dead set against being a part of large crowds, chiefly from experiencing at a distance reports of Hitler's rallies. The Czech side of the

family did not appreciate Hitler's incursion into that country. I've inherited that trait, so I duck out of crowds, even pep rallies in high school. Why attend? What's the purpose? Also, had a 9th grade math teacher who taught that participation in groups lowered your IQ. The more you participated in large groups, the lower your IQ sank into the sub-basement. I've already been "inoculated" against the coming mass-ness deluge. Happy to be as free as I can be on the sidelines.

Mass gatherings are a threat to TPTB. This is more so the case nowadays. To participate in such an event now as it was done in the past (i.e. maskless and close together) is inherently "subversive." There is even the possibility that "social distancing" and masks are actually about easy identification of potential dissidents. It is easier to "cull" the herd.

Yes. The narrative seems contradictory. If we're like the Jews why are they being experimented upon by the new Josef Mengeles?

And if these "vaccines" are deadly--as they may be--how long will they be able to continue this? The two scenarios of 1. The "vaccinated" will all die this fall...and 2. The "vaccinated" will lead normal lives and we'll all be treated like Jews during the Holocaust seem incompatible. Both are bad. But they cancel out each other. Only one nightmare can come true.

"In his [Mike Whitney at UNZ Report] article, he points out that behavioral psychologists have been employed by the government to promote the COVID-19 vaccination campaign and maximize vaccine uptake. They also have a 'rapid response team' in place to attack the opinions of those who question the 'official narrative.'"

It should be remembered that licensed members of the American Psychological Association eagerly participated as high-paid government contractors in the torture and interrogation of alleged "terrorists" at Guantanamo and Abu Graib prisons. The so-called "terrorists" are people whose countries were invaded by the U.S. military, and the U.S. suspects them of fighting back against the invaders. The psychological attempts to extract confessions never worked and no evidence of terrorist acts was ever proven against the prisoners (many had been turned in by bounty hunters). The fascist Bush II administration chose to imprison them at Guantanamo because it's offshore and thus there is no U.S. habeas corpus law that would provide them with at least minimal legal rights, including the right to a

fair trial. Only U.S. military law applies there.

And for this cause God shall send them strong delusion, that they should believe a lie: That they all might be damned who believed not the truth, but had pleasure in unrighteousness. 2 Thessalonians 2:10-12 2. And he causeth all, both small and great, rich and poor, free and bond, to receive a mark in their right hand, or in their foreheads: And that no man might buy or sell, save he that had the mark, or the name of the beast, or the number of his name. Biden and Harris are brain-dead. Their purpose is only to serve as puppets, place holders for the positions of President and Vice-President. it was like yesterday, people wearing a mask were either bandits or members of other religions or oppressed women yet, had they unveiled their faces, people would have applauded them. Today, it is the opposite but nobody makes the connection. I saw this coming when I arrived in Canada as a young man. People were commanded for being on a sidewalk in three's or imprisoned for protesting peacefully and as a litigant in family court or as an expert witness, the injustices perpetrated in the name of justice. I am not at all surprised what is happening because I have seen free people give up their freedom so many times. We still say we are a free country yet, we have not been in decades; we just have not bothered to examine our state. Once we surrender our children, as we are eagerly doing, it will be the end.

And the CDC,WHO and Fauci keep hinting that masks, antisocial distancing, and rolling lockdowns must remain. No matter how many get jabbed. The phrase "New Normal" should have been a giveaway. This hell-on-earth is the status quo picked out for us by those running this show.

Even without the possible deadliness of the "vaccines" (looks like they'll force up to 4 shots on you per year due to scary new strains since no virus ever mutated before) this crap is unsustainable. Humanity must WANT to go extinct on some level. And a lot of individuals have secretly yearned to semi isolate forever and shun human contact.

No other explanation for why the majority applauds this insane nightmare. How can we save humanity when so many love this crap?

EXACTLY MY POINT! Where and whom do we turn to to put the squeeze on and force the issues? ALL politicians are useless. In the past 12 years the weak, pathetic, gutless GOP COWARDS have shown their true color - YELLOW. They could have done SO MUCH for Americans. You only hear them when they complain and whine about democrats and when it's time for elections. Otherwise, they are useless POS. So where do we turn?

As I write this I am researching the 1964 Civil Rights Act for religious discrimination cases - people will be able to use this LAW in defense and in filing law suits against any public business denying them service as it falls under the INTERSTATE COMMERCE CLAUSE. - "After the Civil Rights Act of 1964 was passed, the Supreme Court upheld the law's application to the private sector, on the grounds that Congress has the power to regulate commerce between the States. The landmark case Heart of Atlanta Motel v. United States established the law's constitutionality, but did not settle all the legal questions surrounding it." - Wikipedia. Yeah, yeah I know, it's not the most accurate source. I am still researching. The point is there is established case law against religious

discrimination under the Civil Rights Act and Commerce clause. We can claim our decline in taking the shot under religious beliefs and practices. And our choice is protected.

The " laws" of synchronicity never cease to amaze me, given my last reference to Gigi Young's recent talk on the Christ Consciousness stream, where she refers to the prison planet concept and how it is unfolding, (and how and why synchronicity works hehehe....when the student is ready etc etc). Everyone here is well aware of how the split has been occurring, encapsulated in the holistic vs the allopathic approach to health and well being, and how the vast majority are entangled in the latter to such an extent that the holism/ayurvedic process is seen as a threat by that majority, demonstrating yet again, how easily the majority is manipulated. Gigi elaborates on this process better than anyone I watched over the last 50 years.

Regarding the comments made by some posts here, when anyone asks have you received the vaccine yet, why not just say that you're already naturally immune because you've recovered well from the virus. If you're further pressed to get the vaccine, for whatever reason, why not say that you don't want to risk a bad reaction which could be worse than the disease. If they persist, why not tell them about the severe results, like death, when previously vaccinated animals got the wild virus the animals had been vaccinated against, as referenced by mirandola in this string, posted on 4/6/2021 12:48:47 AM. mic5081 Totally have had your experience, spouse took covid shots without telling me. I frequent the mercola.com website and it has been a great help in this covid misinformation debacle. My spouse and I both work/worked in the medical field, one as a nurse, me as a cardio-vascular ultrasound tech and also previously as a respiratory therapist. We take vit D, blood tested levels, zinc, quercetin, magnesium, copper for balance with the zinc, vit C, B complex. Both have been healthy since inception of the covid deal, I am just very worried about my spouse having a delayed reaction (no initial bad reactions) that has been showing up in various ways in previous animal studies with coronavirus vaccine attempts. Just gotta keep my spouse as resistant to catching the virus as possible and hope that is enough. My brother is also not in for covid jabs and he sent me this interesting article that if you felt you absolutely had to take a covid vaccine, an existing one that was for TB is coming out of Canadian trials looking pretty good and has none of the baggage of the current fare. I am like the first poster, spouse took the "vaccine" without my knowledge. I wrote a long post--maybe too long, did not get posted for some reason. I will just say I am in total agreement with the first poster. mic5081 any many others. Here is a link to an existing vaccine developed for TB and has been around and is one of the safest vaccines in history and they are doing a study on it in Canada to be out in July--looks like it has significant positive effects on covid 19. I am not recommending vaccines, but if one feels one has to have one for some reason like work--this might be the lesser of evils. I do not plan on ever getting this or any other vaccine in the future, just trying to keep my immune system in good shape with blood tested vit D levels, zinc, magnesium, quercetin, vit C and others. I agree we need to somehow become a force against this in unison to have a hope of slowing

stopping the tyranny takeover of our hard fought for freedoms. See link below.

What is so disturbing to me is that people are endlessly bragging about getting the jab, it has become the latest status symbol! My husband and I were at lunch last weekend and we were seated next to a party of 4 who literally talked about their shots-where they were in the process (first jab, second jab), others who had already gotten the jab, and how proud they were of themselves- throughout an entire one hour meal. This isn't the first time I have experienced this. In a church meeting, one of the

members of my group asked, "So who has been vaccinated?", and wanted everyone in the group to volunteer that information. My son in law went through the same thing in which he was directly asked in a group of people if he had been vaccinated! We don't need "vaccine" passports, peer pressure will ensure the sheep get their jabs. Not me or my family though, we are staying strong- and healthy!

Why isn't there a worldwide outcry about the various viruses, much smaller than SV-40 (which stands for the 40th monkey virus) that we were purposefully vaccinated with. This has been allowed at least until 1999. All the cancer epidemics are because of it. Why don't we have a worldwide crimes against humanity lawsuit for using a bioweapon on innocent people? In 1994 Dr. Michael McGrath, a medical researcher from San Fran, demonstrated that retroviruses can cause cancer directly, by invading a cell's genetic material and triggering the cancer process, rather than only causing cancer indirectly by suppressing the immune system, as previously believed. We know that AIDS came from this mess. What was originally made in the 50's and 60's wasn't cancer research, it was a bioweapon to kill Castro, and has been in the vaccines since then. Dr. Alton Ochsner, Dr. Mary Sherman (who was brutally murdered by a linear particle accelerator machine, she was using on mutated tumors to make the bioweapon that much more intense). They tested it out on prisoners.

It would be easy to say, "expose yourself to the virus and be done with it." But, I haven't seen anyone say, "let's use the test to determine protective antibodies which result from natural immunity " Having had Corona I see no reason at all to believe that the vaccine can do anything but harm . Even if I had not contracted Covid I still would not have agreed to the vaccine. I have already had to curtail travel plans due to regulations requiring the vaccine passport. I can't travel during my Golden Years because the government of this country as well as those of other nations has restricted my movements due to non compliance with their scheme to control and to eradicate. What's next? Perhaps I won't be able to go into a grocery store or to a dr's office without a certificate. Maybe the dentist will require one. In ever expanding circles of restriction we can all be induced eventually to accept the freedom the vaccine will offer!

It is all very worrying. It is the jews behind this but you don't seem to understand the basics of what is happening. Let me ask you a few questions. Who runs the global financial system? Let's restrict the next question to the US. Half of the politicians have a dual passport with what country? All of the politicians have signed a "pledge" to put which country first? Which country has spent the last 80 years committing human rights and war crimes against the people they invaded, and yet there has been no global action against them. Shall I continue? Are people here keeping an eye on the building of the third temple in Jerusalem? That is what their next goal is. After that is it WW3. The purpose, is the genocide of the majority of the population. What is happening in Palestine, is just a cover story for the jews.

Publicity with online videos of unjust enforcement actions will help a lot. Lawsuits against businesses and government institutions will make them think twice about their enforcement "policies." It is certainly possible that one risks jail, but those who have been treated unjustly gain power.

Dr. Mercola presented a video of the female being falsely arrested and hauled out of the stadium in Ohio for refusing to wear a mask. Perhaps in reaction to that, there appears to be a policy of avoiding mask enforcement in Ohio - unless perhaps there is a mass gathering. The TYRANNICAL governor Mike DeWine (a Republican "Catholic" with eight children) responded to that the video.

What about people who are medically vulnerable to the vaccine itself? Many health conditions rendering people vulnerable, are discounted by the CDC on the fact sheets for the Moderna and Pfizer vaccines. This is criminal and also, a public confession of their own medical ignorance, or wilful foul play. Question for you Dr Mercola: Is this notion of asymptomatic carriers, one more mind control-based lie? Is it scientifically credible? Fauci himself: [www.youtube.com/watch](http://www.youtube.com/watch) I can't understand how asymptomatic carriers can possibly shed a virus, obviously their body has it under control so the viral load couldn't be that heavy or spreadable. Please inform us in a future article, thank you.

What seems backward is that if the vaccines really were working, then unvaccinated people would Not be a threat to the vaccinated. Further, and in actual fact, it would be the unvaccinated who would be most vulnerable to contracting the virus, as spread by ---tada!---an asymptomatic, vaccinated carrier of the disease, if these vaccines really do cut down the disease symptoms.

But guess what, that they reduce disease symptoms is not even true, according to Sherry Tenpenny

MD, who reported that monkeys vaccinated with the mRNA vaccines, when exposed to the live virus, had such severe autoimmune attack that they died, were dissected and found to have blood and pus in their lung aveoli. That is just simply cruel. Go figure, BigPharma dismisses that pure fact, which they themselves know full well, and they lie to us and say that these vaccines reduce symptoms (the opposite is clearly very true) and that they are "Safe and effective". Then they propose vaccine passports, tada! Fait accomplit, profiteering ahoy! Good news, Robert F Kennedy reported that multiples of states are Just Saying No to vaccine passports.

And I was around a good friend about a month after she had her second vaccination. She did have covid a year ago . She went through hell both shots. Not only fever and chills and headaches but she said she had painful cramps all over her body as well as in her butt. But we hung out for a couple of hours . Now every symptom I have I have to think is this covid or allergies . Is this something I picked up from her ? Could drive a person nuts .

The beginning of the end, Miranda? A number of UK contacts sent me a link to the brilliant letter from a London consultant (now featured on Dr M's 'What you need to know' page). Ten responses to the topic of mandatory vaccination for doctors were published in the British Medical Journal on 2nd April. Is the writer V Polyakova a member of the mercola community, perhaps as her words were like music to our ears coming from a member of the medical community on the front line! A slightly abbreviated version: "Mandatory vaccination in this instance is .. unethical and irresponsible ... I have direct experience of staff contracting Covid AFTER vaccination and probably transmitting it.....it is clearly stated that these vaccine products do not offer immunity nor stop transmission. In which case why are we doing it?"

There is no longitudinal safety data ....What is to say that there are no longitudinal adverse effects ...that may put the entire health sector at risk?... Flu is a massive annual killer.... and yet people can choose whether or not they have that vaccine... Coercion and mandating medical treatments ... when treatments are still in the experimental phase, are firmly in the realms of a totalitarian Nazi dystopia and fall far outside our ethical values as the guardians of health.....we should (never) abandon our liberal principles and ...bodily sovereignty, free informed choice and human rights ...to have experimental treatments with limited safety data. This and the policies that go with this

are more of a danger to our society than anything else we have faced over the last year. What has happened to "my body my choice?" What has happened to scientific and open debate? If I don't prescribe an antibiotic to a patient who doesn't need it as they are healthy, am I anti-antibiotics? Or an antibiotic-denier? Is it not time that people truly thought about what is happening to us and where all of this is taking us [www.bmj.com/.../rr-14](http://www.bmj.com/.../rr-14)

Mirandola, I am one of those who has had a severely bad reaction to a previous vaccine some 30 or so years ago, it gave me almost instant pneumonia and a near death experience (!), and (as someone with asthma) when I eventually got sent to a Consultant Chest Physician he said I should never have another vaccine as I was obviously allergic to some of the adjuvants... so I am terrified of this blasted vaccine for a whole host of reasons! There will be many others like me.... and I

agree with all you have said in this post.

Carolalison - have you got in your fridge either some liposomal Vit C and/or some hydrogen peroxide? If so (as per Dr M's instructions so often repeated) these can save you if you do pick up the virus from your vaccinated friend - the liposomal Vit C should have other vits and mins added too of course, and quercetin - see his instructions. I tried the hydrogen peroxide solution (0.1%) as per his instructions yesterday (and downloading and reading Dr Levy's free book too) in a handheld nebuliser and it worked wonderfully - he does say we should use a plug in one, but you use what you have, don't you, and just do your best.

Cabochoch - as always good to read your posts - thanks so much for that link to that doctor writing to the BMJ - a brilliant letter that we should all copy and maybe photograph too - do you know that online pages on the ONS seem to be going missing and you get directed to modern covid statistics instead? I bookmarked several with details of past pandemics and their massively high mortality (and a population 20% less than now too) and now they are no more - and the evidence they provided has gone, deleted - they just want us to read about covid. Bloody scary - where will it stop?

Yes, Mirandola, we're being lied to. A crucial issue is that children and even newborns are now being drawn into the "vaccine" experiment. If they are dying or being harmed in ANY way as a result, people NEED to know about it. There have been several remedies about adverse effects in

carolalison, you are smart and thinking, and I am so sorry to hear that you may have picked up the bug from an asymptomatic carrier, called a vaccinated person. Wow! The lies that we are being spoonfed about these "Safe and effective vaccines". to raise fact based awareness is key, but to use mainstream sources with mainstream thinkers, is also key.

Cabochon, so sorry for your distress, very understandable, and we all share it with you. You are not alone. The amazing thing is that it is the doctors who see through the charades, more than anybody else. Therein lies our hope. The Great Barrington Declaration has now been signed by more than 41,000 doctors and more than 17,000 researchers, and I hope with time more and more will have the courage to sign it. Surely, quite privately, many doctors are raising their eyebrows and shaking their head. Thank you for those wonderful quotes from that doctor and for the links.

Jennycat, wow and so sorry to hear about your near-death experience from a vaccine, good lord! Thank you for stepping forward, this takes courage. There are many people who are medically vulnerable, and it is a criminal and highly violent act to downplay those vulnerabilities, let alone to force people into submission wherever they may be vulnerable. That technically, the Fed's are not forcing per se, is a cop-out, considering the downplaying of medical vulnerabilities on the CDC and FDA's website regarding these "vaccines". Ymiranthis, Robert F Kennedy has been cataloguing the deaths and side effects from the coronavirus vaccines. Follow his articles in The Children's Health Defense .He is a very important voice to support, as is Dr Mercola. Rensmith, ignorance is not always bliss.

Thank you dear readers, please keep posting, your thoughts are valued!

I agree, Mirandola, that when many eminent microbiologists, doctors and other health professionals speak out, it could help turn the tide of mass brainwashing that has been effected by the media such as BBC propaganda masquerading as "news". There is nothing new about the same old narrative repeated over and over again. The only real solution to that is to switch off the TV, remove social media from your life and apply logic and common sense which is in short supply after a whole year of political meddling taking the place of herd immunity (achieved in about May, 2020), true medicine and natural health solutions.

Hello Jennycat, the ONS has been publishing statistics of recorded deaths since 1900 from influenza and pneumonia but suddenly the number for 2020 is lumped together with the mortality statistic from supposed COVID-19 and we are told by our politicians that "the flu has disappeared" this year to become 46,000 deaths from C-19. I do not buy this line of reasoning. What is more likely is that (a) C-19 is just another flu-like coronavirus which has been messed about in a lab to be more infectious (b) the recording of deaths with, but not from C-19 is fraudulent. If it quacks like a duck, swims like a duck and looks like a duck, then chances are - it is a duck!

The "shot" being discussed here is NOT a vaccine. It is a medical device that can cause great harm to our immune systems, and has NOTHING to do with the SUPPOSED covid-19 virus that has failed to do the harm that had been hoped/planned, and has run it's course and pretty much disappeared altogether. I'm not a fan of vaccines, and never use them, but this "shot" is many times worse in the long-term affects. We have not seen yet what it can do, and when it starts to take peoples' health and lives, it might not be connected to this cause. How convenient, huh? Please stop calling this material a vaccine, it absolutely IS NOT a vaccine. The truth is much more dangerous than a vaccine.

Psalm 119:104-105 For the preaching of the cross is to them that perish foolishness; but unto us which are saved it is the power of God. For it is written, I will destroy the wisdom of the wise, and will bring to nothing the understanding of the prudent. Where is the wise? where is the scribe? where is the disputer of this world? hath not God made foolish the wisdom of this world? For after that in the wisdom of God the world by wisdom knew not God, it pleased God by the foolishness of preaching to save them that believe. For the Jews require a sign, and the Greeks seek after wisdom: But we preach Christ crucified, unto the Jews a stumblingblock, and unto the Greeks foolishness; But unto them which are called, both Jews and Greeks, Christ the power of God, and the wisdom of God. Its not about "loving" or "hating" vaccines. Science is about objective results. Does it help or does it destroy health. Vaccines today are UNSAFE, UNTESTED, EXPERIMENTAL and they already have mass murdered 3 000 Americans and damaged 50 000 with serious side effects. This is not good medicine !! This is not supposed to happen either if you are to respect Hyppocrat oath which states as first principle: "First do no harm." If the drug or treatment kills more people than it saves and there exists other more safe treatments, which is the case, you adopt the safest treatment. Its not what the CDC and FDA criminals are doing. You havent to love or hate vaccines. You have now scientific evidence IVERMECTIN, quercetin, hydroxychloroquine, zins, vitamins D3, budenoside work far better and are safer. Money based medicine must be exterminated and the CDC and FDA put on trial for crimes against humanity. They have blood on their hands, not just big pharma. 500 000 Americans were MURDERED because they banned treatments that work !!!!!

wrazzak....NOBODY needs vaccines, unless it's a TRUE pandemic, like the ones that happened 70 or 100 yrs ago. Today's pandemics are mostly handmade for oNE and only PURPOSE - to create a MONEY-FOUNTAIN. Who is the most interested in this It's easy! It is Big Dirty Criminal Pharma. You don't need any vaccine to support and protect your health. Vaccine is A POISON. It is a foreign invader in your body. Not only it does not protect. Quite an opposite - it makes your body immune system fight the invader and as a result it produces side effects and your immune system gets very very weak. And you then get really sick sick sick. FOLLOW the ANCIENT Traditional Health Maintenance systems of AYURVEDA and TCM (trad. Chinese Medicine). Follow what people used to cure themselves over 100...200 yrs ago - HERBS, Vegetables, fruits - all were CLEAN from pesticides. Everything then was "organic". Every herb on the planet has its purpose. The Creator created them for humans to use for health. For cures. For protection. For the last 50 yrs all vaccines are fake. All vaccines are weapons. All vaccines are poisonous chemicals that will make you sick and will turn you from a healthy person into a sick person. Period. Stay away from vaccines and from ANY medication. DO NOT SUPPORT Pharmaceutical Gansters.

wrazzak, Perhaps you might read Stanley's (stanleybecker) post above if you still feel unconvinced that you will or could be harmed via the "vaccine." The motivation behind the drive for mass vaccination is important to understand. It takes a lot of research to understand what is happening, which I have done. Many of the people commenting here are well educated and offer many references for us to use to seek more information that is valid.

I was with Canadian Mental Health for a few years and was always aware of the health problems within the population we served. Now I find myself financially within that population and know the risk of using a social service agenda (community health centre) to complete my income tax, but they do a terrific job, so I went to give the lady my file.

One day later I had the symptoms of the flu for 24 hours. Then the symptoms lessened and today, about 4 days later, I feel almost normal. I would be termed hi-risk due to orthopaedic surgeries due to car accident, (successful - did a 5K in under 30 mins., about 2 yrs. after the first one), plus age. I've followed Dr. Mercola for years, since he first had a website and his advice has helped me tremendously. I make up my own mind but I need the information from all sides to do that. Dr. Mercola does what a lot of "journalists" today don't do - he cites his sources which enables us to go further if we want to. I find Dr. Mercola's position on vaccine to be helpful and correct and I am so grateful that he shares his knowledge with us.

wrazzak, the reason stories are incomplete or "unconvincing" are Dr M has not told the stories known by Dr Wodarg in Germany. Those living in the EU already had 3 or 4 prior attempts at fake pandemics, most notably the Swine Flu pandemic in 2009 (were these trial runs for the projected SPARS program?) with rushed vaccines put on the market that damaged people, and children. Its up to you to make your own mind: these new mRNA vaccns are not for everyone, especially those with allergies and autoimmune condition(s). Its easy to go back through the article archives to find my blog postings for the past few days. Boatloads of new information is coming out, needing to be reviewed and vetted for accuracy. ## mirandola

wrazzak, your biography states you are a research economist and a consultant to a government overseas. Does this inform your position? Though you may not be alone among the skeptics, I consider it deeply irresponsible and even violent to downplay side effects and deaths from vaccines. It's just not funny. I also consider it violent to hijack people based on over-inflated death figures (not to say that the deaths did not happen, but the over-inflating has an agenda), based on PCR tests that are an inherent recipe for false positives (why was that test chosen, and based on which society is being shut down?) and to tell people that there is no medical hope for them, except for Experimental "vaccines" which really are genetic modification shots, where medical experiments on the unconsenting individual or public are a violation of Nuremberg code law. And what of locking up the well people along with the sick? Tent villages, RV rows? The whole thing is criminal, from A to Z, and those who do not see through it, may not understand physiology and immunity. To read about both is key. It is no coincidence that it is doctors aplenty who see through this, not just Dr Mercola. So many very high ranking, vaccine-touting doctors are crying foul about these vaccines, including those who themselves worked for Pfizer, for the EU to develop drugs, and more! Moderna's own MD said that the mRNA vaccines don't stop disease spread, and Fauci himself said on camera, that asymptomatic carriers never were the drivers of disease spread. [www.youtube.com/watch](http://www.youtube.com/watch) Doesn't he, and don't the CDC, WHO and other powers that be, know all about the physiology of autoimmune attack? Please do your research, public officials and government agents such as yourself, have every responsibility to know, and ignorance is Not always bliss. "It will never happen to me" could be a false assumption. And God forbid: Side effects, death could happen to others, even if not to you personally.

## mirandola

wrazzak, it is written into books by MDs for interested laypeople, and for doctors in medical school, that whenever a foreign matter attaches itself to a cell, the immune system no longer recognizes that cell as "self" but instead, goes on overdrive to attack the cell and eradicate the foreign matter. This is how autoimmune attack begins, or one of the mechanisms among others. The immune system has multiple parts, and all need to be in dynamic balance with each other, write the doctors. When the immune system can't stop, because a foreign substance is now permanently attached due to genetic modification from mRNA vaccines, then there is autoimmune attack and immune system imbalance. The fighter cells go on overdrive, and the suppressor cells that call off the fight, are ineffective. Excess antibodies, similar. The immune system is now tipped like a see saw, one end high, the other end low. This is a recipe for illness and while this is basic medical information, it would seem that those with a profiteering agenda are disregarding the facts and the side effects including convulsions [www.bitchute.com/](http://www.bitchute.com/) /G4clrGsuKW4e naralyeis and deaths. It is not

including convulsions [www.bitchute.com/.../G4CIGSUKV4E](http://www.bitchute.com/.../G4CIGSUKV4E) , paralysis, and deaths. It is not funny, one bit. What of that woman who died four days after the vaccine of kidney, heart and liver failure? With no medical vulnerabilities prior, it was said typically, that "There is no clear connection to the vaccine". Nonsense! What else could it have been? We don't fall for that, and I am deeply disappointed, to say the least, in any "medical" person, government agent and in any individual human being, who does.

I am not a physician, I am a well read lay person and am very concerned, based on what I have read and on my best understanding of how the immune system works. However, I prefer not to make assumptions but instead, do the research first. I urge others to do the same, and especially people in your capacity, working for the government, have every obligation to do so. Thank you for taking note.
