No voter ID though. Oh no, that would be *wrong*.

Absolute clown-world.

▲ 174 ▼ Reply ↩

whether underground 21 hours ago

I work for (((similarly-minded))) people. They just made it mandatory for a candidate to have the vax before I can consider hiring any new sales reps. However, they won't let me post it on LinkedIn that we won't consider you unless you're vaccinated, I'm just supposed to work it into the conversation and not proceed with anyone who didn't get it. I keep pushing them to let me post it in the sunlight so that everyone can see what we're doing so we don't waste people's time but no, they'd rather be subtly evil about it.

I work from home and they're considering asking all employees to get it, including me, at which point I will quit and their top-line gross will immediately drop by 25-30% because that is what I represent to them. (Actually it's closer to 45-50 but not all accounts will close w/o me.)

They also know that I have 30,000+ LinkedIn followers and they have to know that I will go incredibly scorched earth on them. Oh plus God is my employer so I don't need them at all actually, and they know it. At least I'm in a good spot but man this is fucved up.

▲ 132 ▼ 1 Reply ↩

yaright 21 hours ago

Your in a good spot thankfully. So many others are not.

I work for a private company and no vax is coming here lol Soooo glad I left the corporate world.

▲ 37 ▼ Reply ↩

clymer 20 hours ago (Edited)

yeah, I work for a fortune 50 and 100% WFH, so safe for now. But I see all of the pro-vax garbage on the corporate intranet and if any mandates come down, I will be among the unemployed. The good thing is I sold my house in MA and moved into the one I built in NH, no car payments, pretty low property taxes and no debt whatsoever. So as prepared as I can be under the circumstances

I will just "self-identify" as vaccinated? If biology is just a social construct and identification cards are racist then nobody has a right to demand proof of anything.

▲ 25 ▼ Reply ↩

SamAdams 18 hours ago (Edited)

My corporation told me I have to be vaxxed or wear a mask forever. I told them I will not comply and I need the termination notice in writing.

They don't know what to do. They've never had anyone stand up for their rights before (I pointed that out to them). "Just following orders", they say. To which I say, "Much like the Nuremberg Trials. Which incidentally, a code against forced participation in experimental medical procedures was born".

On a side note, I did the magnet challenge. Used 10mm neodymium magnets. I am not vaxxed, but found these stick everywhere. The key is to hold them in place for a bit and then they will stick. Even if you turn it upside down, still sticks. Must be iron in the blood?

▲ 22 ▼

Oath_Keeper 16 hours ago

I had antibody test two weeks ago for 'protection' from the non-vaccine. The cfukers at labcorp also are testing for the spike protein to verify that you have been non-vaccinated...

Masks Don't Work 20 hours ago

I wonder what would happen to those tested early before the needle became available, possibly being vaccinated, then getting the two shots later on the assumption they were not vaccinated. Maybe those are the ones suffering the severe effects. And in the test, is that the equivalent of one shot, or both shots?

Vaccine Mandate Employee Letter Example

No authorship claim or copyright asserted...this letter just came to me in a bottle, and I have no idea who might have penned it, nor can I possibly vouch for it, and what you fine folks do with it is entirely in your own hands, as the Gentlemen of the Bar remind me I can proffer no legal advice in the matter, and do not so here...

Dear Boss,

Compelling any employee to take any current Covid-19 vaccine violates federal and state law.

First, federal law prohibits any mandate of the Covid-19 vaccines as unlicensed, emergency-use-authorization-only vaccines. Subsection bbb-3(e)(1)(A)(ii)(III) of section 360 of Title 21 of the United States Code, otherwise known as the Emergency Use Authorization section of the Federal Food, Drug, and Cosmetic Act, demands that everyone give employees the "option to accept or refuse administration" of the Covid-19 vaccine. (

<https://www.law.cornell.edu/uscode/text/21/360bbb-3>) This right to refuse emergency, experimental vaccines, such as the Covid-19 vaccine, implements the internationally agreed legal requirement of Informed Consent established in the Nuremberg Code of 1947. (<http://www.cirp.org/library/ethics/nuremberg/>). As the Nuremberg Code established, every person must "be able to exercise free power of choice, without the intervention of any element of force, fraud, deceit, duress,

overreaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved as to enable him to make an understanding and enlightened decision" for any medical experimental drug, as the Covid-19 vaccine currently is. The Nuremberg Code prohibited even the military from requiring such experimental vaccines. (Doe #1 v. Rumsfeld, 297 F.Supp.2d 119 (D.D.C. 2003).

Secondly, demanding employees divulge their personal medical information invades their protected right to privacy, and discriminates against them based on their perceived medical status, in contravention of the Americans with Disabilities Act. (42 USC §12112(a).)

Third, conditioning continued employment upon participating in a medical experiment and demanding disclosure of private, personal medical information, may also create employer liability under other federal and state laws, including HIPAA, FMLA, and applicable state tort law principles, including torts prohibiting and proscribing invasions of privacy and battery. Indeed, any employer mandating a vaccine is liable to their employee for any adverse event suffered by that employee. (<https://www.osha.gov/coronavirus/faqs#vaccine>). The CDC records reports of the adverse events already reported to date concerning the current Covid-19 vaccine.(<https://www.cdc.gov/coronavirus/2019-ncov/vaccines/safety/vaers.html>)

With Regards,

Employee of the Year

▲ 1 ▼ Reply ↩

Absolute Truth 17 hours ago

Same. I practice emergency medicine and have swayed half of the department + half of radiology. If this goes to mandate then I'm willing to walk. I'm the gatekeeper to what kind of medical therapy I put in my body. Big Pharma/.gov/hospital admin WILL NOT pay for any disability I incur if I have a severe adverse event. I'm well versed on risk/benefit of this clot shot they've been pushing and I believe, but can't prove, the hospital's .gov reimbursement goes up depending upon % jabbed. Bad part is that most of my medical group, some much smarter than myself, have taken the jab AFTER recovering from Covid & had a worse time w the vaccine!!! WHAT IS GOING ON?? I fear God and also understand my identity isn't my vocation. My body is a temple and it's so obvious to me it's profit over people at the expense of sheep stumbling to the slaughter due to their trust of private businesses and .gov.

▲ 4 ▼ Reply ↩

fewer 16 hours ago

I'm a resident and I'm waiting for the mandate. *"Oh well, I guess it was an okay-ish career while it lasted."*

Hard red line. Will not comply.

▲ 2 ▼ Reply ↩

Plus3dB 15 hours ago

What product / industry do you work in? I am in tech sales with a Fortune 150 company which owns companies which manufacturers vaccine related products....and even then, we are not required to take the jab.

▲ 1 ▼ Reply ↩

majik 13 hours ago

How could you even work it into a conversation? It's protected class information. Even if the candidate volunteered the information it can't be used in considering their application and you did they had grounds to sue regardless of which way they answered the question. Somebody who is vaccinated could just as well assume the company owners were anti-vaxx if they answered the question in the interview and were subsequently passed over for the position. Are your company owners that dumb?

▲ 1 ▼ Reply ↩

I also looked into the religious exemption. But, the Government has given employers "guidance" that they should attempt to make the life of anyone that is granted an exception a living hell.

For example, permanent mask wearing both indoors and out and mandatory social distancing while in the work place (moving your desk into an isolated closet etc)... even things like having to use a designated bathroom and back building entrance.

My employer has communicated that they do plan to do this things to anyone that refuses the toxic poison shots that don't actually protect against covid.

▲ 5 ▼ Reply ↩

El Crusty 20 hours ago *(Edited)*

You should have a lawyer contact them now and inform them that they will be immediately dragged into court and smacked with a civil rights lawsuit should they attempt to reprimand you in any way for not getting a vaccine that you must decline on religious grounds.

Sorry but my religion does not allow me to take unnatural substances into my body as my body is a temple and that temple is in the likeness of god, and my body can not be desecrated before god as it is blasphemous to desecrate a temple of god.

Make up whatever convincing stuff you have to, sound serious about it though dont make up a bunch of goofy sounding crap about spaghetti monsters.

▲ 2 ▼ Reply ↩

-Anonym0us- 20 hours ago

Sue them. Get together everyone who is losing their job because they refuse the jab and sue them collectively.

I work for a very "progressive" company too. So far they haven't mandated the shots, but I fully expect them to require it before long. Just waiting them out.... I work from home too and have since long before Covid. I used to travel for my job quite a bit. If I can no longer travel without taking the vaccine and they mandate it for work, then I'll likely be forced to leave. I'm trying to prepare NOW for this inevitability.

▲ 4 ▼ Reply ↩

choco 20 hours ago

Believe I read somewhere that people who had allergic reactions to a recent flu shot were told not to vax.

(no official stamped cards for flu vax) ??

▲ ▼ Reply ↩

bidenotmy prez99 20 hours ago

He can't legally do that, FFS. NO ONE can force you to take an experimental, non-approved vaccine. Get a hold of the 1947 Nuremburg Code, print it out and shove it into his fat face.

In 2020, Bridle was awarded a \$230,000 government grant for research on COVID vaccine development. As part of that research, he and a team of international scientists requested a Freedom of Information Act (FOIA) access to Pfizer's biodistribution study from the Japanese regulatory agency. The research,^{4,5} previously unseen, demonstrates a huge problem with all COVID-19 vaccines.

"We made a big mistake," Bridle says. "We thought the spike protein was a great target antigen; we never knew the spike protein itself was a toxin and was a pathogenic protein. So, by vaccinating people we are inadvertently inoculating them with a toxin."

https://articles.mercola.com/sites/articles/archive/2021/06/14/covid-19-vaccine-mistake.aspx?ui=e024df98bee919271e9f186c2f21a13a23680ebe22e3fc5d2539c134110b4bdb&sd=19000101&cid_source=dnl&cid_medium=email&cid_content=art1HL&cid=20210614_HL2&mid=DM910315&rid=1183309239&p4=20201026&p5=

Conservative Thought 1 day ago

Some facts that have not changed since 2019 outbreak

- It's a bioweapon not a naturally occurring virus - gain of function confirmed
- It's a gene modifying cell therapy not a vaccine - first time used on humans
- It's only approved an experimental authorization; it's not FDA approved
- It's unproven read as potentially unsafe since over 5,500 Americans have died after getting the jab
- It's not effective since Pfizer and Moderna claim it's not stopping transmission
- Pfizer former VP Dr. Michael Yeadon warns people not to take the jab

Be Warned / Be Educated / Be Calm

▲ 13 ▼ Reply ↩

fewer 1 day ago

Speaking of warnings: full/final FDA approval of Pfizer injection will be in place by end of 2021, despite phase 3 trials continuing until 2023. Likely Moderna too. The applications have already been filed. Plan accordingly.

chubbar 1 day ago

So the fact that there are multiple treatments that are more effective than these vaccines is irrelevant to the conversation about mandatory vaccinations? The FDA is a corrupt organization that is withholding cures in order to maximize Big Pharma profits and Deep state vaccine passports for control measures. I don't see how all of this gets ignored? Mandatory vaccinations goes away along with EUA vaccines with this information. Why isn't anyone focused on this?

▲ 14 ▼ Reply ↩

strych10 1 day ago

The odd thing here is that the FDA, specifically the FDA, usually goes in exactly the other direction on safety and efficacy. Sometimes to the point of idiocy since they *know* they have small trial sample sizes that won't catch everything.

I think CDC, NIH or both are major players in this particular shitshow. If I was to guess I'd be looking at NIH since they very likely have the most to lose.

▲ 4 ▼ Reply ↩

August 1 day ago *(Edited)*

If the FDA gives full approval as to the 'safety and efficacy' of the mRNA jabs, I will never again believe a f*cking thing they say.

There are plenty of anti-jab rants and resources out there, but this guy is a well qualified physician and vehemently gives the mRNA jab advocates Hell. He also describes himself as "not anti-vax" - "I take vaccines all the time."

"Safe vaccine?" Try a little informal survey. Identify all the people you know personally who have received the vax. Then see if you can find out how many have had "medical problems" since then.

Almost everyone I know (know well enough to know if they were having medical problems) have had some issue come in at about 4 weeks post-vax. Unexplained anemia, uncontrolled diabetes (previously well controlled), brain fog, severe skin allergies, etc.

I was never going to inject this experimental crap into me but between the Japanese study just released via FOIA and my anecdotal data gathering, there's no doubt.

Eternally grateful I set up my own shop 15 years ago and don't have to answer to "HR" or "the boss."

And no, I will never require my employees to get this.

▲ 13 ▼ Reply ↩

DecisionTime 1 day ago

To the extent that vaccines work, it makes no sense to require them as anyone can simply get the vaccine and be protected and it wouldn't matter if they were exposed to an unvaccinated person. To the extent that they don't work, it makes no sense to require them as they provide no protection. Anything in the middle is just a mix of these two factors.

People, no matter their political affiliation, need to wake the f*ck up and see where this is headed. If schools and businesses can mandate the jab, there is no end in sight and any sense of personal freedom will be gone forever.

If they can force you to get this vaccine, they can now force the seasonal flu vaccine and any future vaccines that Big Pharma cooks up in their labs. They won't care about people having adverse reactions because the response will be "sorry about your luck, it is for the greater good".

▲ 13 ▼ Reply ↩

Forcing employees to get a vaccine (which is still experimental) will ensure that more people will leave the work force. I personally would quit if my employer did that, and I would sue the ever-living excrement out of them for it too. We KNOW that this pandemic was a scamdemic, and we were lied to by those in government that sought to use it for political purposes. Now we know there are effective treatments for this virus that doesn't require vaccinations. The DemonRats are pushing for a new civil war, maybe with some sort of vain hope to vilify the Right in the process, but instead it will reveal them as the agents of evil they always have been, and just wrapping their crappy agenda in a flowery box.

Sorry to post this twice, I hate that. But who else am I going to tell? I work for (((similarly-minded))) people. They just made it mandatory for a candidate to have the vax before I can consider hiring any new sales reps. However, they won't let me post it on LinkedIn that we won't consider you unless you're vaccinated, I'm just supposed to work it into the conversation and not proceed with anyone who didn't get it. I keep pushing them to let me post it in the sunlight so that everyone can see what we're doing so we don't waste people's time but no, they'd rather be subtly evil about it.

I work from home and they're considering asking all employees to get it, including me, at which point I will quit and their top-line gross will immediately drop by 25-30% because that is what I represent to them. (Actually it's closer to 45-50 but not all accounts will close w/o me.)

They also know that I have 30,000+ LinkedIn followers and they have to know that I will go incredibly scorched earth on them. Oh plus God is my employer so I don't need them at all actually, and they know it. At least I'm in a good spot but man this is fucved up.

Vaccine Mandate Employee Letter Example

No authorship claim or copyright asserted...this letter just came to me in a bottle, and I have no idea who might have penned it, nor can I possibly vouch for it, and what you fine folks do with it is entirely in your own hands, as the Gentlemen of the

Bar remind me I can proffer no legal advice in the matter, and do not so here...

Dear Boss,

Compelling any employee to take any current Covid-19 vaccine violates federal and state law.

First, federal law prohibits any mandate of the Covid-19 vaccines as unlicensed, emergency-use-authorization-only vaccines. Subsection bbb-3(e)(1)(A)(ii)(III) of section 360 of Title 21 of the United States Code, otherwise known as the Emergency Use Authorization section of the Federal Food, Drug, and Cosmetic Act, demands that everyone give employees the "option to accept or refuse administration" of the Covid-19 vaccine. (<https://www.law.cornell.edu/uscode/text/21/360bbb-3>) This right to refuse emergency, experimental vaccines, such as the Covid-19 vaccine, implements the internationally agreed legal requirement of Informed Consent established in the Nuremberg Code of 1947. (<http://www.cirp.org/library/ethics/nuremberg/>). As the Nuremberg Code established, every person must "be able to exercise free power of choice, without the intervention of any element of force, fraud, deceit, duress, overreaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved as to enable him to make an understanding and enlightened decision" for any medical experimental drug, as the Covid-19 vaccine currently is. The Nuremberg Code prohibited even the military from requiring such experimental vaccines. (Doe #1 v. Rumsfeld, 297 F.Supp.2d 119 (D.D.C. 2003).

Secondly, demanding employees divulge their personal medical information invades their protected right to privacy, and discriminates against them based on their perceived medical status, in contravention of the Americans with Disabilities Act. (42 USC §12112(a).)

Third, conditioning continued employment upon participating in a medical experiment and demanding disclosure of private, personal medical information, may also create employer liability under other federal and state laws, including HIPAA, FMLA, and applicable state tort law principles, including torts prohibiting and proscribing invasions of privacy and battery. Indeed, any employer mandating a vaccine is liable to their employee for any adverse event suffered by that employee. (<https://www.osha.gov/coronavirus/faqs#vaccine>). The CDC records reports of the

adverse events already reported to date concerning the current Covid-19 vaccine.(
<https://www.cdc.gov/coronavirus/2019-ncov/vaccines/safety/vaers.html>)

With Regards,

Employee of the Year

▲ 3 ▼ Reply ↩

KyttenX 1 day ago

Actually, OSHA flipped, and no longer require employers to report COVID injection injuries. " As a result, OSHA will not enforce 29 CFR 1904's recording requirements to require any employers to record worker side effects from COVID-19 vaccination through May 2022. "

If your employer forces you to take this and you die, my guess is he's off the hook unless you made him sign legal forms that they won't sign to take responsibility.

▲ 1 ▼ Reply ↩

LauraB 2 days ago

Me, too. Putting Covid patients in nursing homes when they knew the elderly were the most vulnerable seemed like they were purposefully trying to kill off older people. Then, they pushed the jab on the elderly and those with other health conditions first. It seems like they are trying to 'fix' Social Security/Medicare and Obamacare by killing off all of the elderly and unhealthy. Once everyone scared enough, naive enough, or stupid enough to take it had already gotten it, they began forcing it on healthy young people even though prominent scientists like Dr. Michael Yeadon and Dr. Janci Lindsay have concerns about mass depopulation and sterilizing an entire generation.

▲ 1 ▼ Reply ↩

What is The Hedge 2 days ago *(Edited)*

On December 17, 2020, Gallup polling found that 31% of Americans identified as Democrats, 25% identified as Republican, and 41% as Independent.

The article said 79% of Democrats approve mandatory vaccines by employers. If the above is true, then that truly represents approximately 25% of Americans. Not a very large group. My guess is, there are far more people who do not want this jab than those that do, and the full court press is on to change that. Never has media been more complicit in a government scheme than they are now.

Nelbev 4 days ago

Imbecils. About 10% US pop has had covid-19 by PCR test, and another 20% had it but did not know since seroprevalence studies say 30% population have antibodies. Thus 30% population has natural immunity via exposure which is at least as good or better than a not fully tested EUA vax which tries to mimic a similar immunity response. It is idiotic to tell these people they need an unnecessary and potentially harmful vax in order to work. It is especially outrageous to require this of medical personnel who have been exposed and are immune.

▲ 6 ▼ Reply ↩

LauraB 4 days ago

The people pushing this from the top (e.g. Gates) aren't imbecils. They are evil. This seems to be part of their Great Reset. I wish there was some way of finding out the identities of the lunatic elites who constructed the Georgia Guidestones? Do these evil individuals really intend to maintain the global population under 500,000,000? That would mean killing off 90-95% of the current world population. Are these vaccines their way of 'culling the herd'? There's no other explanation for what they've done. Hydroxychloroquine or Ivermectin with zinc and other medicines would have saved 85% of those who have died already. And, acclaimed doctors/scientists like retired Pfizer VP/Chief Scientist Dr. Michael Yeadon, Ebola vaccine coordinator Dr. Geert Vanden Bossche, Nobel Laureate Luc Montagnier who discovered the HIV virus, and many other real experts have called for a halt to the vaccines because they fear a mass depopulation event either from sterilizing an entire generation or from future autoimmune disease in the vaccinated or from immune escape (deadlier variants being created as they adapt to the 'vaccines' similar to how super bugs are created by over/misuse of antibiotics).

▲ 2 ▼ Reply ↩

Nelbev 4 days ago

I think it is simply profit oriented. CDC and WHO have been for years just vax pushers for big pharma. Would you not like a product that governments buy and gov away free or force others to buy plus are given blanket liability waiver. If you are under 70, higher chance you die of seasonal flu than covid. These teenagers and babies they want to vax are near zero risk, should they require helmets be worn by everyone around clock to prevent accidental falling deaths? All about profits and like flu will have new variants every year and scare tactics forcing boosters. Pfizer refused to sell vax in countries where gov did not grant liability waiver.

The first thing needs to be done is remove the blanket liability waiver, then big pharma will not push if can get sued. Next, firms which require vax as condition of employment should be similarly held explicitly liable if a vaxed employee has a vaccine injury inasmuch as any other work related accident.

Neo2021 4 days ago

these have to be about the dumbest employers. The smart attorneys need to be recruited and will have a field day.

1. The vaccine is not a vaccine rather it is a gene modifying experimental procedure not officially approved; you cannot sue the manufacturer. The literature which is supposed to be discussed with patients but is not in violation of Federal law (informed consent) states that it only may protect you and can still acquire or transmit covid.

2. over 7000 deaths in the U.S. and tens of thousands of permanent injuries ; only 1% of adverse affects are reported.

3. The CDC was caught inflating covid numbers by 1600%; the PCR test according to the inventor Kari Mullis who suddenly dies before the "pandemic" said it was only a lab tool and not diagnostic quality. CDC approved a 40 cycle threshold which samples dead viral and bacterial fragments and is over 95% false positive.

5. now they have reduced it to 28 CT to make it look like rates have dropped. CDC website says masks will not protect from viruses and offers NO peer rated studies for any of its claims. CDC website says the most common cold virus is a corona type virus and can cause a positive covid test and to check with your doctor.

6. A vaccine is only to be used after it has been tested for 7-10 years with virtually no injury or death and has to offer better results and safety than existing treatment. Fail. Ivermectin and hydroxychloroquine are nearly 100% effective and are forbidden to use by the CDC.

7. the survival rate for a 70 year old from covid is over 99% better than any flu. 99.9997 for kids.

8. Your doctor has comitted a felony by not informing you of all the risks and benefits.

These employers are in violation of the nurenberg Code and numerous crimes if they force you to get a vax; sue the crap out of them.

▲ 5 ▼ Reply ↩

CatInTheHat 4 days ago *(Edited)*

In 1976, Gerald R. Ford HALTED the Swine flu jab after 53 deaths

Now there have been 5,888 deaths and 360,000 injuries

Prior to the Rona any drug that killed up to 50 people was PULLED from the market.

This is how STUPID people are now. This info is readily available.

▲ 7 ▼ Reply ↩

Neo2021 4 days ago

Excellent point, totally agree. It's much much higher since most events here are not reported. The European numbers are much accurate tens of thousands dead and over 1 million permanently damaged. I feel I'm living a dystopian nightmare without end.

▲ ▼ Reply ↩

We are handing America over to “them” - though it was our ancestors who found this howling wilderness that no one wanted and with blood, sweat, tears and toil brought it to this flourishing land. And then we/they opened the borders...and they demanded by simple vote that it be turned over to them.

The Changing US Electorate: Black, Hispanic and Asian registered voters historically lean Democratic

In all 50 states, the share of non-Hispanic White eligible voters declined between 2000 and 2018, with 10 states experiencing double-digit drops in the share of White eligible voters. During that same period, Hispanic voters have come to make up increasingly larger shares of the electorate in every state. These gains are particularly large in the Southwestern U.S., where states like Nevada, California and Texas have seen rapid growth in the Hispanic share of the electorate over an 18-year period....

In total between 2000 and 2018, 10 states saw a 10 percentage point or greater decline in the share of White eligible voters. In Nevada, the White share of the electorate fell 18 percentage points over almost two decades, the largest drop among all 50 states. The decline in the White share of the electorate in Nevada has been fairly steady, with a comparable percentage point decline observed between 2000 and 2010 (10 points) and 2010 and 2018 (8 points). California has experienced a similarly sharp decline in the White share of the electorate, dropping 15 percentage points since 2000. This has resulted in California changing from a majority White electorate in 2000 to a state where White voters were a minority share of the electorate in 2018 (60% in 2000 to 45% in 2018), though they still are the largest racial or ethnic group in the electorate...

Actually this is a wakeup call, DOCTORS DON'T GIVE A SH IT!!!!!! They collect their bonuses from big pharma, follow procedures written by bean counters, and try to avoid difficult patients. They avoid any treatment that requires customization or work on the patients part. To be fair most patients have very little desire to sacrifice for their health, and doctors don't put much effort in either. It's a system in freefall, as modern society grinds away at our countries health. If a treatment is cheap and has any risk to the patient it is discontinued immediately and replaced with a much more expensive and dangerous option where the risk is hidden away in big data, they refuse to analyze.

▲ 4 ▼ Reply ↩

Marrubio 4 days ago

The graphene in the vaccine is distributed throughout the body, and especially the brain, protected from the immune system by the lipid capsule.

1-The start of the high frequency 5G emissions will make the graphene oxide resonate, which will break the lipid capsule and will be free.

2-Graphene oxide will produce thrombi, ischemia and all kinds of sudden death in a part of the vaccinated population.

3-The part of the vaccinated population, at least for as long as it manages to survive, will have graphene oxide directly implanted in their neurons and will be **radio-controlled**.

The magnet challenge shows that a vaccinated person is a dissident army soldier, but it may be that, if he does not die shortly, he will change sides when the dark side acts. It does not hurt that the vaccinated get used to a cap or hat lined with aluminum. It can also help them get used to taking acetyl-cysteine, without a prescription in pharmacies. This molecule separates oxygen and graphene and allows the immune system to eliminate it more easily.

I just read about an 18 year old Italian girl who took the vax on the first day that Italy allowed them for under 18.... immediately had cranial blood clots and died. These experimental "vaccines" are the most dangerous "vaccines" in history. There is something very sinister going on. https://www.ansa.it/english/news/2021/06/11/18-year-old-dies-after-having-astrazeneca-vaccine_b21d3fa4-bb47-4d75-b5e6-620d0aeefd84.html

▲ 4 ▼ 1 Reply ↩

Whoa Dammit 4 days ago

Do democrats not even know how vaccines work? If you are vaccinated against an illness, then you will not get that illness. If you are vaccinated it doesn't matter if you are around someone who is not vaccinated. Are we never going to reach peak stupidity?

That being said, if TPTB think the job quit rate is high now, they have not seen anything until employers try to mandate an experimental vaccine for a low mortality virus.

▲ 4 ▼ Reply ↩

▲ 4 ▼ Reply ↩

Noktirnal 4 days ago

Funny, since the vax (at least the lipid portion) ends up collecting in the ovaries (and bone marrow) after 48 hours.

it was claimed the vax would remain at the injection site.

▲ 1 ▼ Reply ↩

CatInTheHat 4 days ago

Yep.

They claimed that the spike protein STAYED at the injection site.

That is a LIE. It gets into the blood stream and attacks 28 different organs in the body. Especially the ovaries.

Which is why there have been over 1000 miscarriages still births and extremely heavy bleeding and clots the size of fists at menstruation.

Immunity. No - not immunity from covid from the vaccine. Employees and pharma and the FDA are all immune from your lawsuits. Nice try.

Shows you how safe they are. So safe - you are required to risk your health - but the pharmaceuticals won't risk liability.

▲ 3 ▼ Reply ↩

BorraChoom 4 days ago

Everyone involved with getting the vaccine to you has had their liability waived under the PREP Act.

This includes everyone from the government planners of the vaccine program down to the doctor, nurse or even pharmacy intern who injects you.

None can be sued in federal or state court, unless they willfully tried to harm you.

On March 17, 2020, the Secretary of the Department of Health and Human Services (HHS) published a declaration under the 2005 Public Readiness and Emergency Preparedness Act (PREP Act) to provide liability immunity for activities related to medical countermeasures against the COVID-19 pandemic.

▲ 3 ▼ Reply ↩

The Cattle Rustler 4 days ago

I'm not so sure a "declaration" by HHS really has all that much legal standing.

▲ 1 ▼ Reply ↩

The “vast majority of Democrats” account for MAYBE 25% of voting age Americans if you want to be REALLY generous, so can we we PLEASE stop framing the “national conversation” in the context of Democrat vs. Republican?

In a recent March 2021 national poll, a whopping 50% of Americans identify as Independents and yearn for a third party! The highest in national history!

<https://www.thedenverchannel.com/news/national/poll-half-of-adults-identify-as-independents-desire-for-3rd-party-at-record-high>

Looking for “unity”?? Well, there it is!! The half of America that loathes both Parties!!

If Trump really wants to transform America, he needs to launch the Patriot Party for 2022 midterms, get the other 50% of voters who don't even bother with elections to show up with the Independents, and put a dagger through the hearts of both of these corrupt-to-the-core, wheezing dinosaurs for good!!

When Nobel Prize winners (in medicine, epidemiology, and virology) warn about these vaccines... when my own doctor (and friend) warns me under his breath about the vaccines... and there is clear evidence that immune system disorders will occur, or ADE, or heart inflammations, and all the test animals (EU) have died... and we find Bill Gates in the background with patents on this stuff...

I do believe, horribly, and sadly, that huge portions of our population are going to be dropping dead with bizarre illnesses in 6 to 36 months from this... there's just too much evidence and the media and leftists and globalists are pushing too too hard... and civil discussion is being deleted and stopped...

ALL of that is a warning. Pay attention.

▲ 3 ▼ Reply ↩

wimvincken 4 days ago

Well, look at it from the bright side. Those with the vaccinations are being genetically permanently changed. You might even say that they stopped being an original human the moment they were so stupid to receive the jab.

Secondly, let's wait if they drop dead after a couple of months or maybe even till a year or two.

Thirdly, if they expect to make some healthy offspring, think again.

And the last, but not least, this proves that the majority of the sheep are democrats or lefties, commies, etc.

What dont people, democrats understand?

This was a campaign to get Trump out.

A campaign by big pharma to get emergency status to get the 1.9 trillion.

A campaign that benefitted hospitals and big pharma by having the coding be heavily manipulated to create fear and with the reinforcing propaganda coming from the media.

Many of those \$39,000 ventilators came from China and ended up in landfills.

The "vaccine is untested and does not protect you nor prevent you from getting covid 19.

The number of adverse events are staggering and in 5 months these vaccines have killed more than all vaccines given over the last 20 years.

Dangerous and long term effects are not known.

But most evident, aren't they trying too hard to get you jabbed?

99.8% recovery is good enough for me.

FDG-PET lymph node uptake after COVID-19 vaccines mimics cancer

<https://www.auntminnie.com/index.aspx?Sec=sup&Sub=mol&Pag=dis&ItemId=132636>

They screened 1,290 patients who had FDG-PET/CT scans between December 11, 2020, and March 1, 2021, at the Yale New Haven Hospital and identified 68 who had received at least one dose of a COVID-19 vaccine. All but one of the patients underwent PET/CT for oncologic indications, none of which were for adenopathy ipsilateral to vaccination sites.

"Increased nodal FDG uptake, presumably from an inflammatory immune response to the vaccine, was observed up to 32 days after vaccination in this cohort, harboring the potential risk of mimicking or masking malignant disease," the authors wrote.

The finding corroborated evidence from another recent study that suggests FDG-PET/CT scans may confound image interpretation for up to 24 days in cancer patients who have received a COVID-19 vaccine.

In addition, the study found women were more likely to develop reactive nodes, which is an important implication for breast cancer imaging concordant with a statement issued by the Society of Breast Imaging, according to the authors.

Adin and his colleagues at Yale suggest patients who have cancer with a propensity for spread to ipsilateral axillary lymph nodes -- primarily breast cancer, melanoma, and lymphomas -- should have the COVID-19 vaccine administered in the axilla contralateral to the previously or potentially involved site. Also, nuclear medicine technologists should document the vaccine site, date, type, and whether the patient has received the first or second dose.

Houston judge Lynn Hughes is pulled off another case as 5th Circuit revives prof's discrimination claim

(Reuters) - Federal trial judges enjoy tremendous discretion in running their cases, but, inevitably, they sometimes make mistakes. I doubt there's any longtime federal judge who has a perfect record of affirmance in the appellate courts.

But some are worse than others. U.S. District Judge Lynn Hughes' record when his rulings go up for review to the 5th U.S. Circuit Court of Appeals is an affirmance rate of 72%, according to Westlaw's litigation analytics. The Houston judge, a Ronald Reagan appointee who has sat on the bench since 1985, has the second-lowest affirmance rate in his district among judges who have had at least 100 decisions reviewed by the 5th Circuit.

They don't understand FDA "not approved"...that's for a good reason. Unknown long term effects.

▲ 1 ▼ Reply ↩

strych10 4 days ago

Technically speaking, neither are the short term effects.

Hence that meeting they're gonna have about the unexpected number of people 16-26 developing heart issues.

Part of the reason for that is they start to wonder if that's the issue or a symptom of an underlying issue as yet undetected.

The FDA are usually overly cautious. My friend was working on a human trial for an MS drug when one of the people in the study was killed by a drunk driver. It was Hell on wheels to deal with the FDA in terms of documenting that this guy died from trauma and not the experimental drug.

▲ 3 ▼ Reply ↩

August 4 days ago

This time, the FDA approval process will be different. The threat is so lethal and all.

▲ 4 ▼ Reply ↩

more proof, it any more was needed that democrats are BAT SHIT CRAZY

anyway

/dup

proof that ivermectin works better than jabs that stab spike proteins into the human body

this means the "virus" is treatable, there is no pandemic and emergency use authorization must be withdrawn.

people that are diagnosed as "active" cases by their health authorities (using debunked RT-PCR lateral flow testing) should either get ivermectin over the counter with no consultation with a doctor, or consult their doctor to see (check if they are allergic to it).

from here:

<https://principia-scientific.com/breakthrough-ivermectin-inhibits-covid-spike-protein-binding/>

Ivermectin blocks SARS CoV-2 at the ACE2 receptor in humans

The 17 randomized controlled trials that use ivermectin [for early treatment and prophylaxis](#) report positive effects, with an estimated improvement of 73 percent and 83 percent, respectively. Out of 37 early treatment and prophylaxis studies for ivermectin, 97 percent report positive effects. One of the studies documents how [ivermectin inhibits the replication of SARS-CoV-2 in vitro](#) and displays broad-spectrum anti-viral activity against the causative virus (SARS-CoV-2).

This study showed a 5,000-fold reduction in viral RNA after just 48 hours. The study also proves that effective treatments and prophylactics can mitigate the replication and spread of a virus *thousands of times faster than the paranoid, isolationist approach of social distancing and lockdowns*. If antivirals were encouraged early and often, then the spread of actual infectious virus would have been mitigated at rates thousands of times faster than *the insane method of treating everyone as if they are infectious*. "

What is this god they worship. This science.

Moloch/Moleck

Baal/Bal

Ashtaroth/Ishtar

And you wonder why they want to jab your children with that gene therapy.

▲ 2 ▼ Reply ↩

Quia Possum 4 days ago

There is precedent with schools requiring vaccinations for attendance. Which is actually a coercive measure since it's illegal not to have your child in school.

The main difference would be that the required vaccines for school attendance are all FDA approved, not on EUA.

You can bet the FDA is getting pressure both from the big pharma corps and from the Democrats to finish the approval process ASAP. At that point it's hard to see how employees will have a legal leg to stand on.

They could argue that COVID-19 doesn't compare to measles, mumps, and rubella in its severity but it's hard to believe any judge or jury is going to agree with them in this environment, and if all else fails the courts can invoke "judicial deference", saying the determination of which vaccines are important is up to the legislature and executive, not the courts.

▲ 2 ▼ 1 Reply ↩

If the can make a non federally regulated employee piss in a cup, other than DOT, FAA, etc. then by virtue of the work contract they can make you get the shot, or quit? Or fired? Or resign? Or sue? There is no federal law that says employers have the right to violate your forth amendment rights for non regulated employee drug and alcohol testing. Should we do it? Prolly due to liability we should, but if they can make ya piss in a cup they can make u get a shot, via a work contract, such as drug and alcohol testing that you say yes to to get the job.

Chief Joesph 4 days ago

Only in America to they make everything a political issue. Here are the real statistics as they are, as of 1 week ago. See: <https://www.beckershospitalreview.com/public-health/states-ranked-by-percentage-of-population-vaccinated-march-15.html>

It is kind of idiotic for a hospital to be giving out inoculations when some of their own staff won't take it. And it doesn't set well with good medical practice anyway, to not have your staff fully vaccinated, and risk passing the virus along to either the patients or among those other staff workers who are not vaccinated. And if the staff gets sick from not getting vaccinated, then who is there left to treat the patients coming in??? Would you want to go to the hospital and risk having sick people inoculating you?

And what is the problem with vaccinations anyway? They are free!!! Most cost conscience employers would like that!!!

And, you can't argue the economic growth for not getting vaccinated. California actually came out better than Florida, from the lockdowns and inoculations.

See: <https://www.yahoo.com/news/lockdown-states-like-california-did-better-economically-than-looser-states-like-florida-new-covid-data-shows-153025163.html> .

The article states: "The evidence suggested that policies that are good for people's health during a pandemic — like NPIs — are not necessarily bad for the economy". Employers have taken note of that!

▲ 1 ▼ 11 Reply ↩

TruthFreedomPeace 4 days ago

Hope more people start to cancel cable TV and start boycotting companies like facebook,twitter,google,amazon,microsoft and apple (including not owning their stocks) to counter their censorship,corruption and pandering to the DNC and for more people to start to support pro freedom companies/organizations.

I don't think the corrupt politicians of either party will pay attention until We The People unite behind basic principles and become an economic force.

Money talks and it can be used to make positive change in contrast to all the bad things it is also used for.

ACTION PLAN FOR IMMEDIATE CHANGE to counter the corruption , censorship and surveillance by media/tech/finance giants and politicians:

1)Cancel Cable TV (All channels should be made available individually so consumers don't have to give money to channels they don't want to)

2) Do Not donate money to politicians & consider boycotting companies that give them money or pay them for speeches.

Some might decide to boycott Facebook, Twitter, Apple, Amazon, Microsoft, Google and Netflix for censorship or corruption issues alone.

3) Bank with small local banks & invest with small brokerages & insist your employer/pension fund do the same.

Buy from small local merchant stores and use cash when possible.

4) Demand a pardon for Julian Assange & Edward Snowden and other whistleblowers/truth tellers

5) Join Pro freedom social networks like MINDS and Gab , where freedom of speech and truth are respected.

Follow Zero Hedge and Project Veritas for pro truth/freedom news.

6) Use web browsers like Dissenter, Tor or Brave rather than Chrome or Safari when you surf the web.

Use search engines like Quant or DuckDuckGo rather than Google or Bing for web searches.

Use an email service like ProtonMail rather than Gmail.

Save important online videos/articles/posts to your PC hard drive or phone.

Post videos to Bitchute and LBRY rather than youtube

Shop online at Overstock and smaller independent retailers rather than Amazon/Wayfair

7) Use Linux operating systems like Linux Mint, Debian or others on your computer rather than Windows, Mac or Chrome OS (Almost any PC can be switched to Linux).

Use a Linux based smartphone like PINEPHONE or a "dumbphone" rather than Google Android or Apple iPhone.

Avoid buying a "smart" TV as it is smarter to buy a "dumb" TV with no operating system pre-installed.

Use a Linux mini PC with wireless keyboard on your TV for web browsing/computing/gaming/video streaming rather than amazon fire tv/roku/google chromecast/apple tv/microsoft xbox/nvidia shield.

8) Do NOT support the phony "War on Drugs" which causes more crime,death,murder,gang violence,incarcerations,enriching criminals while millions of people still use illegal drugs anyway.

9) Support a new foreign policy where We The People worldwide unite behind and promote the principles of truth/freedom/goodwill/integrity/humility/Non-Aggression Principle/Golden Rule and focus on winning hearts and minds.

10) Support a worldwide effort to voluntarily help others in the hope that it will win over more people to these principles.

Please share this plan of action with others via text,email & social media if you agree.

Here is the link to share this message.Thank

You <https://www.minds.com/newsfeed/943148464663228416?referrer=truthfreedompeace>

▲ ▼ Reply ↩

TyroneB 4 days ago (Edited)

Most employers are encouraging employees to get the jab, while some are requiring it. The legal risks of this mandate are quickly developing, but employers continue to stand their ground.

My employer is currently in the "encourage" camp. If/when they decide to go full jabby requirement to be onsite, I'll be forced to "work" from home. It might be ok to complete my career in a less stressful manner (less stressful meaning less work/productivity). And I can use my patio Jungle Gym to improve my gainz **while** working!

"79% of Democrats agreed that employers should be able to force their workers to get vaxxed. In contrast, only 39% of Republicans"

So 79% of Democrats, and 39% of Republicans advocate employers be allowed to engage in criminal activity? Coercing people to engage in a medical experiment is a crime by US Federal, and international law. And these vaccines are experimental by any definition. Not FDA approved, no long term testing.

These vaccines have already caused more than 5.000 deaths in the US, and that's the "official" number, more than all other vaccines combined for at the very least the last 10 years. Some of those other vaccines were pulled from the market for as few as 50 deaths. Why do the COVID vaccines get a pass for 5,000?

That's a difference between positive and negative rights. Allowing corporations to dictate medical choices, positive right to force medical action by corporation, versus the negative right of saying if you do these things we won't hire you.

It is no small difference, and it is terrifying once you realize that it puts some measure of ownership of the individual with the corporation from the allowing the removal of individual freedom for the corporation.

The guise of public good is always the claim, the realities are in fact far more reaching.
